

THE PUTNAM NEWS

VOL. 3, NO. 51.

Putnam Texas, Friday, October 30, 1936

\$1.00 Per Year

FROM THE EDITOR'S WINDOW

AUSTIN — The Texas Planning Board today looked back over a year of outstanding accomplishments.

Since its creation in March, 1935, by the 44th legislature, the planning board has:

Secured removal of the resettlement Administration headquarters from Oklahoma to Texas.

Secured the continuation of public works allotments to Texas.

Created a state-wide interest in the elimination of preventable diseases, such as, diphtheria, typhoid fever, typhus fever, smallpox, pellagra and malaria.

Revived interest in Texas minerals other than gas and oil and particularly the non-metals.

Started a survey on the possibilities of wool scouring and woolen manufacturing in Texas.

Compiled a comprehensive report for the National Resources Committee on the water resources of Texas.

Developed additional interest in the raising, feeding, finishing and slaughtering of livestock in Texas, not only for consumption in Texas, but also for export from Texas Gulf ports.

Increased interest in tanning Texas hides in Texas.

International Flag May Fly at Centennial

DALLAS—The Roerich Banner of Peace, an international flag designed to protect the priceless artistic treasures of all nations in time of war, may soon fly over the Texas Hall of State at the Texas Centennial Exposition, it was announced today.

In making application for one of the flags, which consist of three clustered red spheres in a red circle on a white background, the Hall of State joins such distinguished institutions as the Smithsonian Institute at Washington and art museums all over the world.

Of the Roerich Banner, Secretary of State Cordell Hull has written: "I have learned with interest and personal satisfaction of the efforts now being made for the protection and preservation of the educational, artistic and scientific works in every country during any period of hostilities in which they might be subject to destruction or injury."

Did You Know That—
In 1935 American Life Insurance Companies paid a total of \$2,600,000,000.00 to policy holders and beneficiaries.

After payment of the soldiers' bonus, the total cost of the World War to the U. S. government will be a little more than \$45,000,000,000.

One cubic inch of platinum could be drawn into a fine wire that would be almost invisible, and would be long enough to wind twice around the world.

Breezes at the seashore change direction twice daily. During the day they blow toward the shore; in the evening, they blow out to sea.

Precautions
Stranger—"So you say the water you get here is unsafe."
Mitt—"Yeah."

S—"Well, tell me, what precautions do you take against it?"
M—"First we filter it."

S—"Yes."
M—"Then we boil it."

S—"Yes."
M—"Then we add chemicals to it."

S—"Yes."
M—"And then we drink beer."

Jimmie—"You look like a sensible girl. Why don't you marry me, Shug?"
Shug: "Because I am a sensible girl."

Union Boy Wins \$1.00
R. C. Yarbrough of Union won the \$1.00 bill offered by Jimmie Pearson, architect superintendent of the new PWA high school building under construction, to the student for working a difficult arithmetic problem which he placed on the blackboard. Dwight Triplett also worked the problem but R. C. was first. Mr. Pearson stated that he had offered the problem a number of times to high school students and that this was the first time he had had a high school student to work it.

Temptation in the line of duty God has provided for; but for temptation sought and coveted, God has no provision.

INSIDE WORK STARTS SOON ON SCHOOL BUILDING

The new Putnam school building, which is being constructed with funds through the Public Works Administration, has all the windows in place and the roofers are installing the shingles. This roof is covered with asbestos shingles that are laid diagonally and is considered the best roof that can be put on. The sheet metal work (gutters and valley tin) was completed this week. As soon as the roof is completed the work on the inside will start and there should be no more delays on the job. The contract specifies that the building is to be completed within 200 working days, and according to the contractors, T. S. Ross & Sons, they will be ready to turn the structure over to the school board on time.

MRS. BRISCOE BURIED TUESDAY AFTERNOON

Mrs. Briscoe, wife of Elder Briscoe of Clyde, died at 1:00 o'clock 10 miles northwest of Swenson Monday afternoon. Funeral services were held Tuesday at 2:00 at Aspermont under direction of Dr. C. A. Powell of Abilene; assisted by Reverend J. B. Owen of Aspermont, Reverend Dennis of Swenson, and Reverend T. S. Tierce of Clyde. Mrs. Briscoe is survived by her husband, who is well known in this territory, several children, one of whom is Mrs. R. Y. Bracken of Baird.

DUNCAN GETS 25 YEARS IN MURDER TRIAL

Charles Duncan received a 25 year sentence for the murder of his wife about 18 months ago. The evidence in the case showed that he murdered his wife and then set fire to the building and burned the body, while the defense contended that a lamp exploded and fired the building while he was out milking. This added to the ten years given him at Sweetwater, making 35 years altogether. His attorneys stated they accepted the verdict without an appeal to higher court.

SINGING CONVENTION WILL MEET AT ATRELL

The Callahan County singing convention will convene at the Atwell church Sunday, November 1st, at 2:00. Everyone is invited.

MRS. PEEK IN CAR WRECK

Mr. and Mrs. Raymond Hale and children returned to their home in Crane Wednesday accompanied by Mrs. C. K. Peek. Between Odessa and Crane they had a head on collision with another car wrecking 70th of them and throwing Mr. and Mrs. Hale and children and Mrs. Peek from the car, breaking three ribs for Mr. Hale. The others were not hurt with the exception of bruises. He had a trailer attached loaded with cattle which was turned over, letting the cattle loose. They were picked up later.

GINNERS' REPORT TO OCT. 16

The government report showing the amount of cotton ginned to October 16 was released by the Department of Agriculture last Monday showing that there has been ginned 8,567,676 bales, compared with 5,590,402 bales in the corresponding period of 1935. This report was a little higher than the trade had expected and the market declined about ten points on the report. The trade is looking for a raise in the government report on November 8 to show around 12,000,000 bales for the crop.

F. D. Spratt came into the News office Wednesday morning and brought a limb off a peach tree that had several blooms. This is unusual to see peach trees blooming the last of October, and since he came in we have heard several say that they had seen peach blooms the last few days. This puts us in mind of a group of people living in Arkansas a number of years ago when there were just a few people taking newspapers. There was one of the group who had the county paper and they would all meet at his house Sunday and discuss the different topics. One Sunday they had all met and one man was a little late and he decided he would ask the other what had happened.

Visitor: "What are the Democrats doing in congress?"

"They are just playing hell; they have passed a law adding two more months to the year, and the hell of it is they are both winter months."

"Confound their cool souls and I am about out of fodder."

In any of these old states fodder is in great demand in the winter season. This may have happened to us. We may have had two more months added to the year and both of them summer months.

Practicing at 100

BETHOL, O. — Dr. W. B. Thompson (above), now 100 years old, is the oldest practicing physician in the U. S. He is at his office every day, prescribing for patients. He has attended 1,800 births.

PUTNAM MAN'S BROTHER DIES

Funeral services for T. M. Teague, brother of V. M. Teague of Putnam, were held this week at Pampa, Texas. Mr. Teague was born February 25, 1876, in Missouri. He was 60 years of age and fell dead while at work at the fair grounds. He is survived by 10 living children. His wife preceded him in death 10 years ago. The children are Emmalee, Beatrice, Flora, Gracie, Marie, Neely, Willard, Horace, Thomas and Luther. Two children died in infancy.

ROSS, WELL TO DRILL 1450 FEET

The Wittmer Oil and Gas Company who are now drilling at 1400 feet have encountered water at 1357-1380 feet. They will drill to 1450 feet. The well is located on the H. W. Ross land north of the high school building at Baird.

EMERGENCY CLASS MADE CENTENNIAL QUILT

The Emergency Education class, taught by Mrs. Alton Tatom of Atwell, has recently completed a lovely Centennial quilt as a class project. The quilt was designed of red, white and blue material featuring the lone star in each block, being quilted in lone star design using dainty double lines, for stitches. The blocks are joined together in a most unusual manner featuring diamonds in a mysterious manner. The type of quilting is very odd and clever and bespeaks the high class type of sewing school which Mrs. Tatom is teaching. Fifteen member of the class had blocks and stitches in the quilt.

The project was presented to the class in a manner teaching economy and art in designing. Each item of the quilt was recorded with price. There were 3 yards of red, 36c; 3 yards of blue, 25c; 3 yards of white, 45c; 6 yards of blue for border and lining, 72c; 36 spools cotton, 30c; cotton, 42c; making total of \$2.50. There were 630 pieces in the quilt. The quilt was presented to Mrs. Blain Odum, a bride, as a wedding gift.

Your pennies count like dollars at the REXALL SALE—City Pharmacy, Baird, Texas.

SENIOR CLOSS TO PRESENT PLAY

"Here Comes Arabella," a three act musical comedy, will be presented in the Putnam auditorium Thursday and Friday night, November 5 and at 8:00 p. m.

The play deals with the story of Arabella, a little gypsy girl, and Bob Adair, a struggling young artist and is said to be the sweetest love story since "Daddy Long Legs." Leading roles are being taken by Juanita Yeager and W. A. Price. Others having important parts are:

Wayne Triplett (a writer), Esen Tjelds and J. W. Brandon (college boys), Myrlene McCool and Willie Mae Stephens (co-eds), Mary Dee Spratt (a giggling flapper), Lois Kennedy and Elsie Kelley (Bob's old maid aunts), Dwight Triplett (Bob's old bachelor uncle), Frances Armstrong and Dorothy Roberson (village gossips), Bobby Williams (a theatrical producer).

Clever lines, amusing situations, colorful costumes, and snappy song and dance routines make "Here Comes Arabella" outstanding entertainment. The play is being given by the senior class with Ruby Jo Pounds as accompanist and Dorothy Davis as director.

Nominal admission prices (15c for children and 25c for adults) are being charged and a large crowd is expected for both performances.

Girls in the choruses include:

Erlene McMillan, Mary Douglas Williams, Martha Jean Rogers, Willie Grace Pruitt, Mary Lou Eubank, Helen Maynard, Zada Williams, Mozelle Springer, Dorothy June Kelley, Katherine Clappitt, Betty Lou Sharp, Freda Jean Peek, Doris Janell Roberson, Glynn Maynard, Johnnie Belle Smith, Mary Lois Maynard, Jucille Kelly, Estelle Lunsford, Elton Williams, Anna Lou Williams, Peggy Von Lee, Winifred Sharp, Dorothy Sue Williams, Billie Louise Henson, Nancy Belle Morrison, Patty Jean Williams, Gladys Lucille Farmer, Billie Louise Armstrong.

CORRECTION

In printing Mrs. C. A. Conlee and children's card of thanks last week, The News overlooked the people of the Zion Hill community. Mrs. Conlee requests that we mention this oversight.

SHACKELFORD DRILLING WELL

F. P. Shackelford of Putnam has secured a contract to drill a shallow well on the L. L. Williams land about three miles north of Putnam. This well is being drilled for the Wittmer Oil and Gas Company which has been operating in the Putnam field for several years and have considerable holdings here.

ASSOCIATION MINUTES NEARLY READY

The minutes of the last association of the Baptist denomination of Callahan county are now on the press according to E. N. McCoy, clerk of the association. They will be delivered at the next meeting of the association which will be held at Potosi November 17th.

Kitchen Maid Author

NEW YORK . . . The fact that her novel "Katrina" had won first prize and \$2,100 in cash did not slow up Miss Sally Salminen (above), in her job as kitchen maid in a Park Avenue home here. She wrote her novel during spare time. The award was made in Sweden, her home.

GRIGG'S HOSPITAL NOTES

Donald Dunlap of Belle Plains entered the hospital Thursday suffering from ruptured appendix. He is in a critical condition.

Mrs. Lewis Hall of Longview is improving after being in the hospital six weeks for medical treatment.

T. R. Price of Hobbs, New Mexico, who has been a patient for pneumonia, was removed to the home of his mother in Baird Sunday.

Mrs. W. B. Griggs who has been a patient for several weeks is in a critical condition.

Vernon Johnson, who was a surgical patient last week, was removed to his home in Baird Sunday.

CALLAHAN COUNTY GRAND JURY CONVENES MONDAY

The 42nd District Court grand jury convenes at Baird Monday, November 2nd. Fred Farmer is representing the Putnam territory from Putnam. The court will not meet for the trial of civil cases until November 9.

JIM MOSER SERIOUSLY ILL

Jim Moser, mail carrier for the past twelve years for the Putnam postoffice, was reported to be seriously ill at his home in Putnam Wednesday, according to Postmaster E. C. Waddell. Mr. Moser has been in failing health several months. He spent several weeks in the Hendricks Memorial Hospital at Abilene before returning to Putnam a few weeks ago. He is suffering from kidney trouble.

O. F. BROWN HAS PAINFUL ACCIDENT WITH AX

O. F. Brown of Scranton was in Putnam with a bandage around his head and when asked what was wrong he stated that he was squirrel hunting one day this week, and climbed a tree to get a squirrel. The squirrel jumped toward him and as he was dodging the squirrel the ax fell hitting him in the forehead cutting a gash about two inches long to the bone that had to be sewed up. This came nearly being a serious accident.

INTEREST IN PUTNAM AND BAIRD GAME

PUTNAM 0, MORAN 0

Oliver Davis, Sports Editor
The interest is centered on the game between the Putnam Panthers and the Baird Bears on the local gridiron at 3:30 this afternoon. The Panthers have yet to step into the winning column but have tied two games. The Baird Bears have lost to the Strawn Greyhounds and have tied the May Tigers. This game is expected to draw a large crowd as the two schools have been rivals for many years. Putnam lost to the Bears last season 12 to 0 after a hard fought game, the Bears will be after another victory today and the Panthers will be looking forward to their first win over Baird in several seasons. Baird is sometimes called the "jinx" team to the Panthers.

The Putnam Panthers and the Moran Bulldogs played to a scoreless tie last Friday on the latter's gridiron in a very heavy and muddy field. However, the edge went to the Putnam Panthers. The Panthers threatened the goal line twice but were unable to go over the pay stripe. The Bulldogs seriously threatened when a Panther kick was blocked and was recovered on the one foot line. Due to penalties the Bulldogs were backed up and Putnam kicked out of danger, and the Bulldogs never again threatened. This was Moran's second conference game and left them in second place and have yet to meet Clyde and Strawn.

Strawn took undisputed possession of first place last week as they topped the Clyde Bulldogs by a score of 13 to 6. Clyde dropped from a tie for first place to third in the district standing.

The Panthers have two open dates following the game today and it is unknown yet whether the Panthers will engage in a game. The Panthers have played each week since starting and it has been a busy season.

The line-up against Moran was: Ends—Davis, C. King. Tackles—W. A. Price, Triplett. Guards—O. Culwell, B. Williams. Center—B. Brandon. Quarter—T. Cunningham. Halves—J. Brandon, J. Everett. Full—Shackelford. Substitutes: E. Fields, K. King, B. McMillan, B. Roberson, F. Burnam, W. Jobe, R. Sharp, M. Crawford.

PARTY IN BRANDON HOME

Mr. and Mrs. Gus Brandon entertained a group of friends in their home Wednesday evening. Forty-two was the diversion. Those present were Mr. and Mrs. Reuben Ross, Mr. and Mrs. Jack Brandon, Brooks Ross, Dolores Brandon, Willie Kennedy, R. A. Hoard, Mr. and Mrs. Gus Brandon.

PUTNAM GETS ANOTHER GOOD RAIN THE PAST WEEK

The Putnam trade territory gets another good rain. The rain commenced falling Thursday night and continued Friday and Saturday and until Sunday morning with a fall of 2.35. This brings the total for the season up to 21.14, making the best season in a number of years.

THE NEW TAX BILL PASSED BY THE LEGISLATURE

The legislature closed the special session which was called to raise revenue to pay the old people's pension. This new law deliberates the pension law and will make it harder for a person to secure a pension than under the old law. It is estimated that under the present pension set up there would be about 150,000 who would have secured aid under its provisions. The present law will raise several million dollars; but while it will raise a great amount of money, the law seeks to reduce the number of people that will get pensions to about 85,000. Under the new law all of this work of investigating will have to be done over, at additional expense, and it looks like every person over the age will be required to make a new application before receiving aid. By limiting the number to receive pensions, the question arises who are going to be the 85,000 who will get on the rolls? While there is no doubt that the legislature acted within the power delegated to them in the amendment adopted by the people. Still, a great many voters were deceived when they voted to adopt the amendment, as they voted in favor of it, thinking that every person over the age of 65 would draw \$15 and no more nor any less. The new law transfers the administration of the pension amendment to the board of control which will give thousands of dollars in administration of the act.

It looks as though the entire set up has only been a political football for politicians and it is obvious to everyone that there is unfairness and many inequalities have been practiced under the present system, but it is hoped that under the new law we will have better administration of the distribution of the funds that are being collected for the purpose of relief of the aged people of our state.

THE COTTON SITUATION

The ginners report as will be seen on another page shows that there has been ginned 8,567,000 bales of cotton the present season, with a government estimate of 11,600,000 for the new crop; but high ginning looks as though the crop would be nearer 12,000,000 bales. However, the report had very little effect on the market as it closed at about the same figure as it closed the day before at 11.71 for December, which would make middling 7-8 cotton worth about 11.25 on the present market.

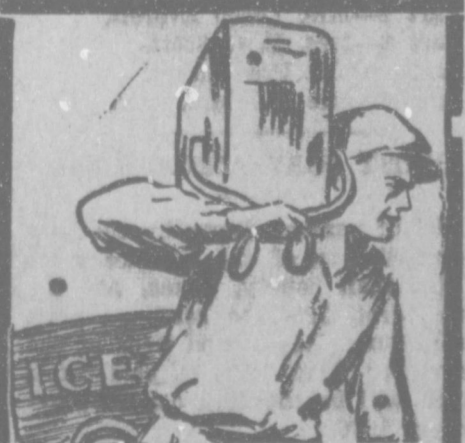

There are several things that enter into the market that may put it

higher or maybe lower. First the domestic consumption is higher than last year with a good demand for cotton goods, and our exports are higher than they were last year. Exports to date are 1,485,548 bales as compared to 1,333,893 bales last season which looks as though the price would advance. But when we look at the other side it doesn't look quite so well, and that the market might work lower rather than higher. We have no scarcity of cotton as the supply is about 19,000,000 bales of American cotton, which ordinarily would not be any weight on the market, but the domestic mills are getting down on a world's price and from that view it doesn't look as though we will see very much higher prices if any. Up to the time the old farm board was established outside of the United States, the world produced from 9,000,000 bales to about 11,000,000, but this year the rest of the world will produce more than 17,250,000 bales, giving an ample supply without a bale from this country. Foreign countries have increased their production by about seven million bales in the last five or six years.

Cotton should have advanced on the September report the full limit as this report was \$1,360,000 less than the August report and many people thought the market would advance; but it only advanced about 50 points and lost all of that within the next few days. The American market used to control the world because we produced more than 60 percent of the cotton while the rest of the world produced only about 40 percent; but it has been reversed in the last few years as we only produce 40 percent against 60 percent by foreign farmers. We had a monopoly on cotton as long as we produced 60 percent and when the American crop showed a deterioration the rest of the world became alarmed and bid higher prices as they were unable to get the cotton from other countries because they did not produce in sufficient quantities; but since foreign production has been raised to 17,000,000 bales a little shortage in America does not create any fright among foreign buyers.

We do not look for much lower prices in the near future; but we do look for much lower prices and do not see how it can be avoided, as American prices will be controlled by the production and prices in the rest of the world. And believe as foreign countries increase their production it will necessarily bring a lower price and foreign buyers will not purchase American at a higher price than they will Brazilian cotton, and our market will be governed by the production and prices of the other cotton growing countries, since we have no monopoly any more. The market may advance some temporarily, but we would prefer the selling side if the market should go up around 12.50 for January, New York.

ARGUMENT FOR BOTH SIDES

Comparative figures on industrial recovery in the United States and England may be used by Democrats and Republicans alike in support of their campaign arguments, stated the New York Times recently.

Democrats have this country well ahead crediting the improvement to President Roosevelt. Republicans insist that our recovery has not reached the proportion achieved by England without any of the Roosevelt policies.

As a basis for the comparison, The

BRUCE BARTON Says:

Times takes the figures of the Federal Reserve System and of the London Spectator on industrial production of the respective countries. It correlates both sets of figures to a common base 100, representing production in 1928, the table shows:

Year	England	U.S.
1928	100	100
1929	105.9	114.4
1932	86.7	52.6
1936	115.4	97.1

In other words England's business did not boom in 1936 as it did in the United States, nor did it reach as low a point in 1932 as did this country. Democrats, as The Times reminds, can say that on the basis of percentage gain since the low of 1932 recovery has gone about three times as fast as England. Republicans can point out that the business level in England in 1936 is above that in 1929, while in the United States it is below the 1929 level.—Fort Worth Star-Telegram.

LITERARY DIGEST POLL

The Literary Digest poll of the nation on the Presidential campaign to Monday night shows the following report: Governor Landon, 1,182,307 as compared to 878,526 for President Roosevelt, and Lemke only 75,119. On this basis Gov. Landon has 370 electoral votes against 161 for Roosevelt. The Grass Roots poll shows that Landon has 376 electoral votes to Roosevelt 164 in 40 states covered by this organization, while The Farm Journal polls show Governor Landon with 282 electoral votes against Mr. Roosevelt 219, while the Public Opinion vote shows that Roosevelt has 390 electoral votes to 141 for Landon. The average of all of these polls show that Governor Landon has 290 plus while Mr. Roosevelt has 241. Those figures are the average of all the private polls. Every one is entitled to his own guess.

AL SMITH TO SPEAK IN BOSTON SATURDAY NIGHT

Ex-governor Al Smith will speak in Boston, Mass., Saturday night in the interest of Governor Landon for President under the auspices of the Jeffersonian Democrats of America. The speaking will be broadcast over the NBC system and will begin at 7:30 o'clock and close at 8:30, central standard time. It will be on any of the following stations: WFAA, WOAL, KPRC and KTBS.

CORRECT SPEECH CLUB ORGANIZED

(By Betty Lou Sharp)
The fifth grade English class organized a Correct Speech Club on Friday, October 23. The following members were elected: Bill Fields, president; Glyn Maynard, secretary; and Betty Lou Sharp, reporter. The president appointed a poster committee and a program committee. The club will meet twice each month.

Your pennies count like dollars at the REXALL 1c SALE—City Pharmacy, Baird, Texas.

be a philosopher or a theologian. He would say: "No one knows how the universe started or what is its object. Some men call themselves philosophical pessimists and pretend to know that it has no meaning. Some of us prefer to believe that it has a Maker and a meaning. We feel that this positive faith gives life more significance, more cheer."

Such a lecture course would cure the colleges of afflicting the world with "wise young men." They would understand why no man needs to be ashamed to say: "I do not know, but I believe."

Those Petticoats and Things . . . In Mary Roberts Rinehart's autobiography, "My Story" occurs this reference to petticoats: "They had to be made, two or three, very full . . . and generally a short flannel one to the knees. . . ."

"Not long ago a young girl of my acquaintance was going through an old trunk of her mother's and came across a brief bit of embroidered flannel.

"What on earth is this?" she demanded.

"That? That was my flannel petticoat for my wedding."

"Whereupon the girl burst into shrieks of delighted laughter."

Julia Ward Howe, when a little girl, grew weary from a long ride in the family coach, and allowed her knees to drop apart childwise. Instantly her father reproved her:

"My daughter, if you cannot sit like a lady we will stop at the next tailors and have you measured for a pair of pantaloons."

The characteristics which distinguish a "lady" and comprise her moral code have differed widely in different generations.

I remember the first girl I ever saw who had cut off her hair. She worked in my office. The president of the company called me on the carpet and wanted me to fire the young lady, which I declined to do. To his way of thinking, bobbed hair was a sure sign of an abandoned woman.

Only recently I ran across an old copy of the Book of Rules issued by a coeducational college a quarter of a century ago. It consisted of thirty pages of "Thou shalt nots."

In addition to the foregoing rules,

students are expected to refrain from card playing, dancing and theatre-attendance."

ATWELL

News is scarce this week, has been plenty of rain and most folks stayed at home.

Leslie Wilson from near Slaton is visiting friends here this week-end. Leslie Wilson and Paul Brashear have just returned from a trip to the Centennial. They will leave Tuesday for Slaton where they are to pick cotton.

Mr. Mack Howell and son from Littlefield are visiting with Mr. Howell's sister, Mrs. Sessions, this week. J. C. Brashear has been working in Brownwood for the past two weeks.

The school was to have a Halloween carnival and auction sale last Friday night, but was rained out.

THE KITTEN'S MEOW

By Billy Gaskins

The seventh grade met October 15 and organized a B. E. Club. The following officers were elected:

President, J. Nelson Williams; vice-president, Calvin King; secretary, Faye Hawks, club reporter, Billy Gaskins.

The B. E. club will meet twice a month and a program will be given each time. Those on the program committee are Louise Lambley, Dorothy Evelyn Jobe, John Ila Clark, Calvin King, Douglas Kelley and Earl Gunn.

Wednesday, Oct. 21, a program was given. The program was as follows:

Poem, The Prologue, by Wilma McMillan.

Song, On the Beach of Bali Bali, by Leara Kirkpatrick and Allene Dunaway.

The Use of Correct English, by Laverne Burnam.

The B. E. Club will meet Tuesday, November 3rd.

He: "I want you to know I've got a yen for you."

She: "How much is that in American money?"

HOME DEMONSTRATION NOTES

(VIDA MOORE, H. D. Agent)

A Revival of the Famous 47—
"My well stocked food pantry arises to meet any occasion and a complete meal can be prepared on the shortest notice," says Mrs. Herbert Johnson, home food supply demonstrator for the Oplin Home Demonstration Club.

New shelves have been added to the cellar storage space and over 400 quarts of food are systematically arranged on these shelves. Rows of red tomatoes, green peas, yellow pumpkin, and red and green refishes make a colorful display of the winter's food supply. Thirty-seven varieties of foods, closely rivaling a famous 47 varieties make up a total of over 400 quarts. Mince-meat, soup mixture, hominy, kraut, pumpkin, baked apples, steamed fruit pudding and boned chicken are some of the varieties found.

"My pantry is one of the most satisfactory and satisfying pieces of work I have done since being a club member," Mrs. Johnson added.

A Cellar Under the House—
Mrs. J. M. Purvis, home food supply cooperater of the Atwell Home Demonstration Club, has a new cellar to store the family's food supply in and it is an unusual cellar. Its location alone would make it so for it is placed under the kitchen and has an all weather entrance. It is 7x12x10 feet, is finished with concrete walls and floor which are painted white. Shelves built in a U shape cover one end and a part of 2 sides are also painted white. A flashlight is clamped on the stair case at the foot of the steps but Mrs. Purvis says about that, "I rarely ever use the light; I have everything grouped and classed so well that I can select a can of food in the dark and never make a mistake."

Food Storage Space Improved—
"My cellar has been changed from a convenient catch all to a well ordered food pantry," Mrs. Al Young, home food supply demonstrator, to a group of club members recently who visited the pantry on achievement day.

One side wall and the end have shelves for jars and cans of food, enough space being allowed to have only one row of jars to the shelf. Thus every container of food in the cellar can be seen at a glance. The shelves, walls, and ceiling are painted white. One of the most convenient improvements made was the running of an electric light from the farm system to the cellar and placing the switch at the door.

Fall Gardens Pay—
Mrs. Herbert Johnson, food supply demonstrator for the Oplin H. D. Club, planted vegetables in a drought but had faith in a rain and is now enjoying fresh vegetables from the garden daily.

"I have more fresh roasting ears and green beans than I am able to use, and since I have my canned food budget well filled I am selling the surplus," Mrs. Johnson said. Tomatoes and other vegetables are still being used fresh, too.

A Movable Closet is Convenient—
"I never dreamed that adding one

clothes closet could add so much convenience to the job of keeping a house orderly," says Mrs. J. A. Jennings, wardrobe demonstrator for the Lone Oak Home Demonstration Club. The closet Mrs. Jennings had built is 8 feet tall, 2 1-2 feet wide and 5 feet long. It is made of ply wood, stained a light oak and varnished. The most attractive feature of this closet which is complete as far as accessories go, is that it is bolted together and can be moved from one place to another as easily as any other piece of furniture.

The Porter Tomato a Good Variety—
"I have canned over 100 quarts of tomatoes from approximately 300 feet of Porter tomatoes and only watered them once or twice throughout the entire dry spell," says Mrs. Joe Reed, home food supply cooperater for the Clyde Progressive Home Demonstration Club.

Besides the tomatoes canned many have been used fresh and the vines are well loaded at the present with green tomatoes that are to be used for relish and "how how." Everyone should have some Porter tomatoes for insurance," Mrs. Reed added.

A Well Filled Pantry—
At an achievement event held in the Clyde Progressive Home Demonstration Club October 27 the club voted that Mrs. Dockery's pantry was the best in the cooperators division.

Mrs. Dockery used space from an adjoining bedroom to make the pantry across the full length of the kitchen; space which was not needed in the bedroom. Shelves were built nine inches apart and run the entire length of the pantry. Seven hundred and eighty-one quarts making up more than 25 varieties of foods are stored in this pantry and all the food with the exception of the peaches were grown at home.

Mesdames F. P. Shackelford and J. M. Cribbs were Baird visitors Wednesday.

H. W. Grisham of the Hart community was in Putnam Tuesday and while here called at the News office. He reported that he was through sowing grain and had one of the best seasons in the ground in several years.

SUNDAY SCHOOL LESSON

by Charles E. Duna

LAW, LOVE and TEMPERANCE
Lesson for November 1st. Romans 13.

Golden Text: Romans 14:21.
No rightminded citizen would agree with Byron's silly remark, "Man, being reasonable, must get drunk. The best of life is but intoxication." To be sure, liquor at first does bring a release of one's faculties, a victory over one's fears and inhibitions. For this reason many have called it "a short cut to the ideal." But how soon is the drinker deceived! Before long he reveals symptoms of conflict, dissociation, and inferiority which mark him definitely as a neurotic. And if the habit is not broken he becomes a dipsomaniac, one whose appetite for strong drink is irrepresible. Such a sufferer cherishes the illusion that he can limit himself at will to a single drink. But alas he is utterly unable to do so. One glass leads inevitably to another, and he will go on drinking as long as his money and credit permits.

Of the four universal scourges of mankind, syphilis, cancer, tuberculosis, and alcohol, the last is the most deadly. How to deal with it is a problem of formidable dimensions, for our civilization is largely built on liquor. Prohibition, originally proposed as a war measure, is obviously not the way out. Many substitutes have been advocated, but none of them seem very promising. Every generation appears determined to have a fling at liquor, just as it seems to be eager for the shambles and futility of war. No doubt education can do much to stem the tide toward drunkenness. And there is reason to believe that the nation as a whole will never again bow to the corruption of the open saloon. But thousands are forming the habit, and its grip soon becomes like that of a steel vise.

In such a time it is good to hearken to the advice of St. Paul in our lesson text. "Let us live decorously," he warns, "as in the open light of day—or revelry or bouts of drinking."

Mistress to new maid; "Now, Nora, when you wait on the guests at dinner, please don't spill anything."
Nora: "No ma'am, I won't say a word."

Foreman: "And what are you two fellows doing?"
Boondoggler: "We're carrying these boards over to that lumber pile."

Foreman: "But where are the boards?"
Boondoggler: "For gosh sakes, Sam, we've forgot the boards."

FARM NOTES

(ROSS B. JENKINS, County Agent)

Final Compliance Next Week—Supervisors will visit the farms that have not been measured by them beginning next week and certify compliance on those farms already measured to see if the various crops have been turned under for soil building practices.

Farmers have been cooperating by making preliminary measurements on their farms and these have been calculated and each farmer is being notified as quickly as possible as to what has been found true relative to his farm.

The supervisors will check the farms for accuracy of measurement to ascertain if small grain sorghums have been plowed under or will be left on the ground uncut or ungrazed. To find out if attempting to eradicate obnoxious weeds or grasses have done that in a manner that will qualify them for payment.

There are recheck engineers that have been trained by the Department

of Agriculture that are going into each county and make check measurements and look at compliances behind the community committees. They have found that some farmers have stated they had peas on the land when none could be found; that certain plots were planted to sudan and turned under when in truth it had been grazed; others had shown terraces were built in 1936 when in fact they had been built prior to 1936. It is hoped that no such violations will be found on farms in Callahan since, of course, that would nullify the farmer's grant. This program paid the farmer to do a constructive soil building practice and that is all. If the practices were not carried out, naturally there will be no payments made.

Grain sorghum cannot qualify if it has been grazed or cut in any way. All of the crop must be left on the ground or turned under in order to qualify Sudan grass or peas may be grazed and will draw the total soil conserving payment but will not draw the additional one dollar per acre as a soil building practice payment. If peanuts are hogged off or turned under they will qualify as a soil conserving and soil building crop.

Home Improvement—With the abundant moisture in the ground this season it is the hope of the county and home demonstration agents that farmers and farmers' wives will use all the available time to the beautification and improvement of their homes. No man in the county has used the county agent in as many various programs as has Quincy Loven of the Denton community. In the fall of 1933 he called upon the agent to lay off irrigation levels on a four acre plot of bottom land. He planted this plot to turpkins which made simply truck load after truck load. Later this plot was planted to pecan trees. Next Mr. Loven desired to have a large terrace constructed on one of his bottom land fields that would protect the remainder of his field and prevent over-flowing as well as to stop erosion. This field has now totally been terraced as well as the major part of his home farm.

Two years ago Mr. Loven builded one of the most beautiful ranch homes in this section. Again he called upon the county agent to plan, landscape, and tile his yard. That yard was finished in the spring of 1934 and today has one of the most beautiful carpet of Bermuda grass growing to be found anywhere. Appropriate shrubs were selected and planted around the house.

Mrs. Loven desired that her chickens be improved and called upon the agent to give her a demonstration on culling and selection.

With pecan budding topping off the other demonstrations on the Loven farm it may easily be seen that Mr. Loven was intent on learning the most modern practices that may be learned from the Extension Service.

County agents do not claim to be master minds or "know it all" any more than a doctor claims so for his profession. People have confidence in the doctors because they have had opportunity to study medical experiences as laid down through the records of former men and through their services the people have learned that they know how to improve their health. County agents have been schooled in the finest schools of agriculture that can be provided by the Government. The records of men whose experiences have been recorded are studied and applied by the men finishing courses in agriculture. These courses are given in order that the men who go forth to work and live among farm people may more fully appreciate and understand the problems of the farmers and it is that one thing that makes the value of a county agent increase as his work is more fully under-

stood among the people with whom he loves to work.

The legislature of Texas today designated the Extension Service as the agency that would be in charge of the permanent farm program that will be in operation after 1937 with the state cooperating with the federal government. This action has been made because the legislature has the confidence that the men whose school they maintain has clearly trained its agricultural workers to do the job right that is at hand.

SCRANTON NOTES

We have been experiencing some more Texas weather, after three days of continued cold rain, Sunday afternoon brought beautiful warm sunshine, and to the surprise of many again Monday morning a cold north-er was blowing with cloudy misty weather. The sun came out for part time in the afternoon, and we are hoping the weather man will give us sunshine throughout the week.

Richmond Sprawls and John Hammond of Tulsa were here on business the last of the week.

J. B. Leadbetter, Jack Shrader, and Misses Opal Gattis and Mildred Harris were Cisco visitors Sunday afternoon.

Mrs. E. M. Snoddy visited Grandmother McCarver at Dothan Sunday. Walter McCarver of McCamey was here for a short visit with his mother, Mrs. E. M. Snoddy, Thursday.

Miss Clara Cook, home economics teacher, spent the week-end with home folks at Maytown.

Mrs. I. L. Gattis attended the Gypsy Smith revival in Abilene Sunday evening.

Mesdames W. N. Black, Granville Black and W. E. Fairies were Cisco visitors Wednesday.

Mr. and Mrs. B. B. Brummett of Gorman visited relatives here Sunday.

Scranton foot ball team played Olden team at Olden Monday. Did not learn the score.

Mrs. W. N. Black had for her guests Saturday night and Sunday her mother, Mrs. J. L. Brown, and brother, Chester Brown, Mrs. Chester Brown and baby, Beverly Avon of Comanche.

LET US PRAY

Selected by Noel Black
 "Lord while for all mankind we pray,
 Of every clime and coast,
 O hear us for our native land,
 The land we love the most.
 "Unite us in the sacred love
 Of knowledge, truth, and Thee;
 And let our hills and valleys shout
 The song of liberty.
 "Lord of the nations, thus to Thee
 Our country we commend;
 Be Thou her refuge and her trust,
 Her everlasting Friend.
 "Our Father, we pray
 Not for this land alone,
 But be God's mercies shown
 From shore to shore;
 And may the nations see
 That men should brothers be
 And form one family
 The wide world o'er."

PLAZA TO GIVE ELECTION RETURNS

The management of the Plaza Theatre of Baird has announced that up to the minute election returns will be given Tuesday night at fifteen to twenty minute interval. Arrangements have been made to have the very latest reports relayed to the theatre as the election bureau completes them.

Reports are not to be given out over the phone however because of certain rules and regulations that have to be complied with.

WOMEN'S STUDY CLUB HAD PARLIAMENTARY DRILL

The Womens Study Club of Putnam sponsored a parliamentary drill for the club with members of the Junior Study Club as special guests in the home of Mrs. B. F. Brittain, Monday afternoon at 3. Hostesses were Mesdames S. M. Eubank, W. F. Short, J. N. Williams, and B. F. Brittain. Mrs. Ragan of Cisco conducted the drill assisted by Mrs. Fee of Cisco. Mesdames Fred Farmer and Louis A. Williams gave a playlet, after which Bobbie Clinton and Clinton Waddell played an accordion duet. Refreshments of pumpkin pie, whipped cream, coffee and mints were served. Napkins were of Halloween design. Plat favors were lovely rose buds. Bouquets of roses adorned the spacious living room. Those present were Mesdames R. L. Clinton, Fred Cook, John Cook, S. M. Eubank, Fred Farmer, W. H. Norred, H. A. Pruet, F. P. Shackelford, G. S. Pruet, E. C. Waddell, L. A. Williams, L. B. Williams, J. N. Williams, R. D. Williams, E. H. Williams, Wiley Clinton, W. E. Pruet, Loren Everett, Misses Artie Cook, Dolores Brandon, Vella Sandlin, Bertha Buchanan, Frances Cook.

ALL TALKING!!!

ADMISSION -- 15 - 25 CENTS

HOLIDAY WEEK CELEBRATED AT PLAZA

In accordance with the two holidays in the current week the Plaza Theatre is celebrating Halloween and election day with a jamup week's program.

Maybe you think married life is funny and maybe you don't but you will agree that it is a riot, when it's like the martial affairs mirrored in "Three Married Men" showing Friday and Saturday matinee. "Three Married Men" features three of the screen's most popular funny men, Lynn Overman, William Frawley, and Roscoe Karnes, together with Mary Brian, the screen sweetheart of many a fan, and who is a West Tex-

as country gal, by the way. The film contains lots of rapid fire laughs, and will be just the show for newly married couples to see and profit by.

For the annual Halloween scare the Plaza is presenting at the late goer's own heart trouble risk the famed eyeopener, "Invisible Ray." If your wife or sweetheart sits close to you during the unusual scare films, she will sit in your lap Halloween night while this fainting spell is on the screen. In fact there will be a trained nurse in the theatre in case of emergency.

Sunday brings Dick Powell and Joan Blondell back to town, with Warren Williams, Frank McHugh, and a new singing star, Jeanne Madden in their party. It is rumored that the Yacht Club boys are coming via freight train for the same picture.

If you like music, dancing, laughs, with a little romance mixed in, you are set for the time of your life when Stage Struck hits Baird. Some of the song hits introduced in this picture are "Fancy Meeting You," "The Body Beautiful," "The Income Tax," and "In Your Own Quiet Way." Starting Wednesday and continu-

ing through Thursday, the mighty war epic, "The Road to Glory," will take command of the Plaza screen. According to the critic in the Literary Digest, "You will not 'see' this picture, you will 'live' it." Warner Baxter, Frederic March, Lionel Barrymore, Gregory Ratoff, and June Lang comprise the year's most impressive cast who in turn tear your heart out then set it singing. "The Road to Glory" is cram full of action and drama, with Gregory Ratoff furnishing plenty of robust laughter.

Man Motorist (barely avoiding broadside crash): "Why on earth didn't you signal?"

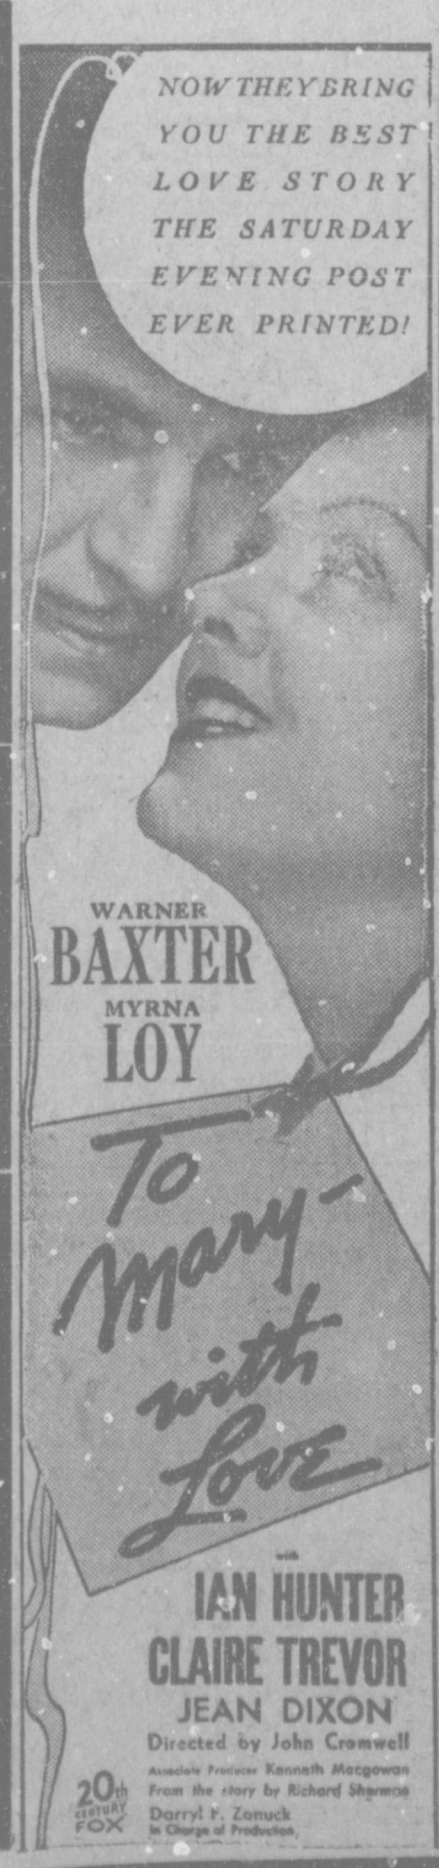

Girl (who has crossed into her home driveway): "I always turn in here, stupid."

DULL HEADACHES GONE. SIMPLE REMEDY DOES IT
 Headaches caused by constipation are gone after one dose of Adlerika. This cleans poison out of BOTH upper and lower bowels. Eids ban sleep, nervousness.—Y. A. ORR'S DRUGS.
