Commodity Credit Corporation preparing to make determinations and an announcement concerning the cotton loan program, including premiums and discounts and other regulations, some of which may be substantially different from rules in effect for 1972.

An announcement in the April 9 Federal Register served notice of C.C.'s intentions and gave interested parties 30 days in which to submit comment. This means the announcement of loan program details should come in after May 9.

Premiums and discounts, as in the past, will reflect differences in loan value between the base quality and the various other grades, staples and micronaire tops. The "base quality," however, under USDA's proposal the Federal Register would be changed from Middling one-inch, to 4.9 micronaire to Strict Low Middling inch-and-a-sixteenth, 3.5 to 4.9 micronaire.

The base loan rate for Middling-inch cotton was announced last October at 19.5 cents per pound. The new base rate, for Strict Low Middling inch-and-a-sixteenth, according to USDA will be computed by adding the difference between the loan value of the two qualities to the Middling-inch rate. Thus the change in the base quality wouldn't affect the loan value of any quality in any way.

This change of base quality appears desirable to USDA because SLM inch-and-a-sixteenth cotton is much more representative of upland cotton produced in the U.S. than is Middling-inch. The latter quality over the past 5 years has accounted for less than one-half of one percent of production whereas SLM inch-and-a-sixteenth has comprised over 13 percent during the same period.

Two other significant changes in operating provisions of the loan program are being proposed, involving (1) a requirement to enter the tare weight of each bale on the gin bale tag and (2) elimination of the 50-point discount on upland cotton reduced in grade because of extraneous matter such as bark, grass, motes, sand, etc.

The notice in the Federal Register points out that the tare weight requirement will help eliminate a problem experienced by spinning mills in handling cotton for which bale tags do not show the tare.

The second proposed revision, that of dropping the 50-point or one-half cent discount applied to cotton containing foreign matter, came as a result of a recommendation made by Plains Cotton Growers, Inc., which represents cotton producers in a 25-county area surrounding Lubbock.

In consultations with USDA officials PCG expressed its opinion that the half-cent per pound discount, over and above the reduction of one full grade, was not justified by the loss of such cotton's spinning utility. PCG's primary concern was for "barky" cotton, which makes up a sizeable portion of each year's Plains crop.

USDA's concurrence with the PCG view was indicated in the Federal Register notice. The notice stated "... there is reason to conclude that the presence of extraneous matter doesn't affect the ultimate value of such cotton beyond that reflected in the grade reduction."

Prior to making final decisions on loan program regulations USDA will give consideration to all date, views and recommendations received from interested parties before May 9. Comment should be submitted to the Director, Cotton Division, Agricultural Stabilization and Conservation Service, U.S. Department of Agriculture, Washington D.C.

A few weeks ago, the Travis County Grand Jury urged the news media to publicize the law about stopping and not passing a school bus which is loading or unloading children.

The grand jury noted that serious criminal charges might result if a motorist disregards this law.

The rural traffic accident summary for this county during the first three months of 1973 shows a total of 18 accidents resulting in no persons killed and one person injured.

The rural traffic accident summary for the 60 counties of the Lubbock Department of Public Safety Region for March, 1973, shows a total of 468 accidents, resulting in 19 persons killed and 263 persons injured as compared to March, 1972 with 420 accidents, resulting in 23 persons killed and 218 persons injured.

This was 48 more accidents, 4 less fatalities and 45 more injured in 1973, at the same period of time.

The veteran officer reminds you that springtime is approaching, the weather will clear up, but the highways will become more congested.

The 19 traffic deaths for the month of March, 1973 occurred in the following counties: Four in Gray and Moore, two in Hale, Terry, Hall and Potter, and one in Wise, Hutchinson and Randall.

Secretary of State Mark W. White, Jr. announced that all presently commissioned notaries public desiring re-appointment for the new term which begins June 1, 1973, and ends June 1, 1975, must pay the required fee and file a new oath and bond with the county clerk between May 1, and May 15, 1973.

Secretary of State White further stated that any person not now a notary public who desires appointment for the term beginning June 1 should apply to the county clerk before May 14. The required application forms may be obtained from the county clerk.

White emphasized that notaries public should not send requests for appointment or for commissions directly to the Secretary of State inasmuch as the law specifically requires that the county clerk approve notary bonds and forward copies of the application to the Secretary of State.

Specialists are now available in the fields of beef cattle, farm electrification, farm arc welding, swine production, tractor maintenance, oxyacetylene welding, and pasture arrangements for these adult short courses are made through Walter Labay, area supervisor of vocational agriculture, Plainview, Texas.

Welding course being offered to farmers

A farm arc welding short course for adult farmers will be held May 14-17 under the sponsorship of the Ropes High School Vocational Agriculture Department, according to Fred Satterwhite superintendent, and C.T. McCormick, teacher of vocational agriculture.

Bill Hollenback, welding specialist with the Agricultural Education Adult Specialist Program headquartered at Texas A&M University, will do the instructing in the course.

Hollenback holds a B.S. degree in agricultural education from Oklahoma State University and an M.S. degree in Agricultural education from Texas A&M University. He was a professional welder for Atlas Tank and Steel

for five years with headquarters at Tonkawa, Okla. He taught vocational agriculture for seven years prior to joining the Adult Specialist Program.

The short course at Ropesville is scheduled to begin at 7 p.m. May 14 in the vocational agricultural building. Other meetings in the series of four will be held May 15, 16 and 17. During the dates the short course is in progress, Hollenback will be available to assist farmers with individual problems and to provide on-the-farm instruction, according to McCormick.

Farmers interested in attending the short course should write or call Satterwhite, or McCormick. An entry fee of \$5 will be charged. Farm Welding Short Course Certificates are to be presented to each enrollee who attends all the training sessions.

Hollenback states that the short course will be adjusted to wishes and interests of farmers enrolled but that he expects to cover such subjects as safety in welding, factors controlled by the operator in running a bead, striking an arc, types of electrodes, preparation of joints, distortion, cutting, hardsurfacing and pipe welding.

"Short courses in welding, as well as in other areas, are now available to farmers throughout the state under a cooperative program between the Texas Education Agency and Texas A&M University," stated Bob Jaska, associate professor, department of agricultural education at Texas A&M University, who coordinates the program for Texas A&M.

"This cooperative program," states Jaska, "is designed to make the services of specialists available to conduct short courses under the supervision of public schools. Such a program will enable teachers of vocational agriculture to provide improved educational services to farm people."

Specialists are now available in the fields of beef cattle, farm electrification, farm arc welding, swine production, tractor maintenance, oxyacetylene welding, and pasture arrangements for these adult short courses are made through Walter Labay, area supervisor of vocational agriculture, Plainview, Texas.

April 29, a day to remember

April 29, the last Sunday of this month could very well be the most confusing and frustrating day of 1973. With mixed emotions, West Texans and most of the nation again come face-to-face with Daylight Savings Time.

Baptist services time schedule

Members of First Baptist Church, Shallowater, are asked not to change their clocks to Daylight Savings Time until Sunday evening rather than Saturday evening. Worship services will continue Sunday, April 29th (only) on The Central Standard Time schedule. Visitors may adjust their time accordingly.

Rites held for E. A. Preston

Services for E.A. Preston, 89, of Shallowater, who died at 8:30 a.m. Monday at his home, were conducted Wednesday at First Baptist Church in Shallowater.

Officiating was the Rev. Allan Cartrite, pastor of the church, and the Rev. Jack Welch, pastor emeritus of Central Baptist Church. Burial was in Resthaven Memorial Park under direction of Franklin-Bartley Funeral Home.

Pallbearers were Bob Grice, Adolph Wages, Emmett Crow, Hap Covington, Jack DuLaney, Connie Davis, Archie Duncan and Jay Stanton.

A Hopkins County native Preston had been a Lubbock County resident since 1941 and a Shallowater resident for the past nine years. He was a Baptist.

He and his wife, Lorena, were married on Dec. 25, 1904 in Lockney.

Survivors other than his wife include a son, Neff of Route 1, Shallowater; a sister, Mrs. Zue Davis of Fort Worth; three grandchildren and four great grandchildren.

Rites held for F. J. Terry Sr.

Services for F.J. Terry Sr., 79, of Shallowater were conducted Friday in Resthaven-Singleton-Wilson Funeral Home Chapel in Lubbock.

The Rev. Allan Cartrite, pastor of Shallowater First Baptist Church officiated. Burial was in Resthaven Memorial Park.

Terry died April 18 in West Texas Hospital after a lengthy illness.

He was a native of Burleson County and moved to Lubbock County in 1927. He farmed in the Slide area several years.

He had operated a restaurant in Shallowater and was a Baptist. Terry and his wife, Sarah Mae, celebrated their 50th wedding anniversary in 1965.

Survivors include his wife; three daughters, Mrs. Ramona McMurry of 4345 28th St., Mrs. Faye Maines of Shallowater and Mrs. Grace McMillan of Logan, N.M.; four sons, F.J. Terry Jr. and Ray, both of Shallowater, James of 1415 Ave. I and Lewis of Houston; 19 grandchildren and 19 great-grandchildren.

The confusion and frustration comes from not being sure of the direction time should move, forward or backward. Set your minds at ease, those of you with confused thoughts, by remembering the simple DST rule: Spring forward, fall backward, thus moving time ahead one hour at time of retiring.

Many have objections to meddling with time, and through defiance of wanting to be different, absolutely refuse to change their timepieces. So, OK! Feel free to do your thing, knowing envy from others not having the ability of thinking one hour ahead during the next several months.

DST has advantages for some but cramps the lifestyle of those requiring early darkness for their activities. Nearly everyone has to make adjustments in the daily activities, to keep in tune and time with business, work and play.

The backyard and gardening enthusiast is given extra daylight to complete chores, not having to continue them until the next evening. Family outings and summer sports do not have to be cut short because of the time element between work and darkness. The office secretary does not have to rush home after

work scrambling to have more sunlight for the tan she's working on.

Daylight Savings Time now brings out the cry of "discrimination." Rev. Guido Merken, pastor of a San Antonio church, says he will hold services on standard time, April 29, although the rest of the nation is switching to DST.

The pastor says the time change, which annually falls on a Sunday, is discriminatory to Christians. He claims American business interests would not tolerate such a switchover during the middle of the week.

His congregation will change to DST following the morning services.

Drive-in movie operators frown upon the change because of the lateness in darkness arriving. There is a noticed attendance drop due to the late hours small children must keep when a good family feature is billed.

Pity the farmer who possibly suffers most under DST. Whether on Standard or DST, his day has to be flexible, getting the most out of the hours worked. Too often, a farmer's day is sunrise to sunset, for working hours, plus the extra time in arising early and facing bedtime at the finish of the lateness of the evening meal. This makes a short time for pleasures of life and sleeping.

Texas Number Nine... Commercial Vegetable Outlook... Citrus Crop Up Again.

Texas continues in the top 10 states in dairy production and number of milk cows, according to a report titled "1972 Texas Dairy Statistics". The major dairy section of Texas is located in the eastern half of the state.

Total receipts to dairymen during 1972 amounted to about \$250 million.

The top 10 counties in milk production in Texas are Hopkins, Erath, Wise, Grimes, Johnson, Tarrant, El Paso, Parker, Bexar, and McLennan. The top 10 counties in cow numbers are Hopkins, Erath, Wise, Grimes, Johnson, McLennan, Parker, Tarrant, Harris, and Comanche.

Texas dairy producers—about 4,000 of them—are included in 10 federal milk marketing orders.

And as costs of production continue for the dairyman this year, he is expected to be caught in a cost-price squeeze which may force some dairymen to liquidate their herds.

Complete facts and figures on the Texas dairy industry for 1972 may be obtained free by writing to Texas Agriculture Commissioner John C. White, Texas Department of Agriculture, Box 12847, Austin, Texas 78711. Ask for 1972 Texas Dairy Statistics.

Production of milk in Texas during March, the Texas Crop and Livestock Reporting Service notes, is up four per cent from a year ago.

Milk production in Texas per cow averaged 860 pounds, which is 30 pounds above a year earlier.

WEATHER conditions have curtailed commercial vegetable plantings in the Lower Rio Grande Valley and are also delaying harvest.

Cabbage harvesting has been slowed due to rains. Acres for harvest during the spring quarter will be above previous years because of some carryover acreage from the winter quarter.

Excessive rains and freezing weather have reduced acreage planted to canteloupes. Crop progress is two to three weeks behind schedule. Harvest is expected to begin about mid-May. The crop at Laredo is making good progress with harvest to start in May.

Carrot harvest has been delayed, and the supplies of carrots during April-May are expected to be above normal. The spring tomato crop is later than normal. No volume is expected from the Valley until May. In East and Central Texas, rains have delayed transplanting and as a result the crop will be later than normal.

Increased acreage of sweet corn is expected in the Winter Garden area and the High Plains. Heavy rains in the Valley prevented growers from planting a normal acreage.

Replanting of the watermelon crop was necessary in the Valley and coastal areas of Texas. The crop is two to three weeks behind normal. The Winter Garden crop is making good progress.

CITRUS producers are enjoying a good season. Based on April 1 conditions, the 1972-73 citrus crop is estimated at 18,400,000 boxes; this is 23 per cent above the production of the previous season.

Citrus trees remain in good condition, although some erratic blooming has been noted in some groves.

Harvesting of grapefruit and Valencia oranges is slowing, but supplies will be available throughout May as harvest lags behind schedule.

School bus laws reviewed by DPS

A reminder on the State law about motorists stopping for school buses was issued today by Colonel Wilson E. Speir, director of the Texas Department of Public Safety.

Speir said the law, which applies on city streets as well as rural highways requires motorists moving in either direction on the same roadway or street with a school bus to stop and remain stopped as long as the flashing top red lights on the bus are in operation.

He said the problem is becoming more serious in cities due to increased use of school buses in urban school districts.

There are only two exceptions to the law on stopping for loading or unloading a school bus: Those vehicles on another roadway of a divided highway (divided by median or physical barrier) are not required to stop, and stops are not required if the bus has stopped in a loading zone of a controlled access highway where pedestrians are not permitted to cross.

Speir said the problem of school bus accidents is of concern to law enforcement officials and educators throughout Texas. Only

Armed services are maintaining communications

The Department of Defense and the U.S. military services issued more than 1,440 periodicals last year, according to the Tax Foundation, which quotes Sen. J.W. Fulbright.

The Air Force started more than 200 during the period, cut out 400 others and the Army discontinued 59 periodicals but started 102 new ones. The bills for these publications ran to over \$12.5 million.

The bills for these publications ran to over \$12.5 million.

Accident report for Lubbock area

The Texas Highway Patrol investigated five accidents on rural highways in Hockley County during the month of March, according to Sergeant H.E. Pirtle, Highway Patrol supervisor of this area.

These crashes resulted in no persons killed and one person injured.

The rural traffic accident summary for this county during the first three months of 1973 shows a total of 18 accidents resulting in no persons killed and ten persons injured.

The rural traffic accident summary for the 60 counties of the Lubbock Department of Public Safety Region for March, 1973, shows a total of 468 accidents, resulting in 19 persons killed and 263 persons injured as compared to March, 1972 with 420 accidents, resulting in 23 persons killed and 218 persons injured.

This was 48 more accidents, 4 less fatalities and 45 more injured in 1973, at the same period of time.

The veteran officer reminds you that springtime is approaching, the weather will clear up, but the highways will become more congested.

Postal Week to be held

"Postal Week", designated by Postmaster General E.T. Klassen as a time for "recognition of the vital responsibilities assigned to the mail service," begins in Shallowater on Monday.

In announcing the schedule of the week's activities Postmaster M.H. Elliott noted the Postmaster General's statement that this week is a valid time "to take stock of the challenges which must be jointly met by postal people and the millions of citizens throughout America who depend upon the mail as an essential part of their personal and business lives."

The week's activities will be highlighted Monday with Postal People Day observances at the

local post office, during which ten stamps honoring the postal people who serve America will be issued for the first time.

A Flag Ceremony by local Brownie Troop and Cub Scouts will begin at 9. The Shallowater School band will be present for a short band concert.

Postmaster Elliott noted that all postal customers visiting the Shallowater post office on Postal People Day will be given free souvenir envelopes, printed with special cachets, so long as a limited supply lasts.

Notary Publics must file oath

Secretary of State Mark W. White, Jr. announced that all presently commissioned notaries public desiring re-appointment for the new term which begins June 1, 1973, and ends June 1, 1975, must pay the required fee and file a new oath and bond with the county clerk between May 1, and May 15, 1973.

Secretary of State White further stated that any person not now a notary public who desires appointment for the term

beginning June 1 should apply to the county clerk before May 14. The required application forms may be obtained from the county clerk.

White emphasized that notaries public should not send requests for appointment or for commissions directly to the Secretary of State inasmuch as the law specifically requires that the county clerk approve notary bonds and forward copies of the application to the Secretary of State.

New officers for the coming school year have been elected by the Booster Club. Larry Jackson, the president-elect will call the first meeting of the new year in August or early September.

Little League registration

The Shallowater Little League will have registration from 5 to 7 p.m. Monday in the South part of the Clubhouse.

All boys, including last year's players, will be required to report with their parents or guardians. Boys who fail to sign up will not be included on this year's roster even if they may have played last year, because player selection will be made after the close of sign-ups.

Eligible are boys who will be 8 years-old and no older than 12 on August 1, 1973.

Each family having a boy or boys playing ball this year will be asked for a donation of \$7.50 to help maintain the program. Proof of age (birth certificate) must be brought to the sign-up meeting on each boy to be enrolled.

All boys signed up will be given the opportunity to play. If they are not drafted on a major league team the player agent will assign them to a minor league team so they can have the chance to be drafted later or will have a better chance to be drafted next season.

Additional information may be obtained from Clois Cobb, Jr. at 832-4322.

Youth retreat

The youth of First Baptist Church, along with their guests and sponsors, will leave from the church parking lot at 4:15 p.m. Friday to attend a Youth Retreat at Hidden Falls Ranch near Palo Duro Canyon. The theme for the retreat is "What Does the Bible Say?"

The retreat program will include Bible study, prayer times, recreation including hiking, games, sports and horseback riding and excellent food prepared by the staff at the ranch. Rev. Carlos McLeod, pastor of the First Baptist Church of Plainview, will be the inspirational speaker Saturday morning.

The retreat will conclude at noon on Sunday and the group will arrive back in Shallowater around 2 p.m.

Senior class attends luau

On April 17, 1973, the Senior Class dressed up in Hawaiian clothes for the annual Hawaiian Luau. This exciting party started at 7:30 and the seniors enjoyed a fine dinner.

The Senior Class would like to thank all those responsible for such a delightful time.

Home highlights

By JEWEL ROBINSON

The whites, off-whites and whites-in-combination will enliven everything from tailored clothing to active sportswear.

Fresh colors, including pastels, will be everywhere.

Cuffs and pleated baggies will continue as young men's favorites.

New patterns and textures add excitement.

Baseball influences the style line of battle and blouson jackets.

Tie-ing one on with big bow ties in plaids, paisleys and fancy geometric looks.

Layered look continues with sweater sets.

Unstructured jackets (jackets of skeleton construction for young men and for mature men at ease) are in the limelight.

New directions in dress shirts include revised classics that emphasize pastel shades, more sophisticated stripings, a high increase in checks and plaids and a growing demand for the button-down collars.

Spotlight senior

Pat Schoor, under the sign of Scorpio, was born on October 31, 1954, to Mr. and Mrs. Garland Schoor. After seeing light for the first time, blue was the color that caught her fancy. Later in life, her mouth would water every time pizza was on the table.

Pat's exciting hobbies are decoupage, horseback riding, miniature golfing and collecting stuffed animals. After carrying these soft furry animals, Pat's thoughts will turn to her beloved idol—Garry Ron Kirkland.

Being an active member of FHA, Pat's future plans are to become a dental assistant, and she would even consider marriage.

Her only remark for this spotlight is being said by all the seniors of '73, "I wish May 16 would hurry up and get here!"

DELLA FOX

"The Woman Who Knows"
Come learn why you have failed, how to succeed, how to overcome stumbling blocks and enemies, how to influence others though miles apart. She is sincere, all she asks is that you be in earnest. If you are seeking entertainment she is not for you. She will tell you the unvarnished truth, be it good or bad, and she does not aim to please you with a lot of sugar coated falsehoods. She does not charge a little more to tell a little more. One modest fee covers the entire consultation. She calls names, discusses subjects and solves problems in all walks of life.
