### Reunion Held Sunday

The Martin family reunion was held Sunday in the Ropes cafeteria. The Wylie Martin children included Arzie and Roxie Martin, Billy Ray Martin, wife and three children, Mike and Helen Hazelbaker and baby, Andrew and Eula Mae Moore and Connie and husband, Troy and Loveta Martin and daughter, Bert and Minnie Martin and boys, Charles and Norman Fay Ward and children, Carolyn Ann Miller and children, Irene Martin, Dorothy and Johnny Martin, Irene and Jeff Straogther and daughter, Lucy and Tommy Littlefield, Jesse and Bennie Littlefield and childdren, Frances Tindel and children. Visiting was the father-in-law of Billy Ray Martin, Mr. Davis of Levelland.

Those not present were Sam and Butler Martin of California.

Public Works Appropriation Bill Approved

The House of Representatives in Washington last week (June 26) approved the big annual Public Works Appropriation bill which includes funds to complete the West Texas-Eastern New Mexico Water Import Study. House action was based upon the recommendations of the Appropriations Committee, headed by George Mahon.

The \$691,000 appropriated this year will bring the amount spent on the seven-year study to a total of \$6.1 million.

The bill also includes \$481,-000 to complete the threeyear comprehensive water resource study of the Lower Mississippi Valley, which is closely associated with the Import Study. This \$2.4 million water resource study is essential to supplement the information being developed as part of the import study concerning the nature and extent of the availability of surplus water for export from the Lower Mississippi region. The next step to be taken will be largely dependent on the findings of the present reconnaissance study, scheduled for completion by June 30, 1973. Authorization must unen be obtained to proceed with the follow-on feasibility study. Mahon said, "We do not know what the recommendations will be, but we are, of course, hoping for the best because our needs are very great and time is running out."

## FFA Will Meet In Dallas

The Texas Association of Future Farmers of America will hold its annual convention in Dallas next week. The delegates will register Tuesday afternoon as they arrive.

The first formal meeting will be on Wednesday, July 12, in the Convention Center in downtown Dallas. Various business of the Association will be handled in the general eral sessions on Wednesday, Thursday and Friday. New state officers will be elected, the state sweetheart and state talent winners will be chosen. Various awards will be distributed to chapters and individuals.

## Named To Dean's List

A total of 2,035 students in the College of Arts and Sciences at Texas Tech University qualified for the dean's honor list for the 1972 spring semester, according to Dean Lawrence L. Graves.

Students from Ropes were Kyle Lewis, junior, pre-law; Harlan Cain, junior, theatre arts; and Dennic C. McNabb, senior, art.

### Attend Short Course At A&M

The short course, Arthropod Pests of Livestock, was held last week at Texas A&M University. The course was three days of study of the insect pests of livestock and their economic impact on the industry. Each family of insects was covered along with its damage and ability to transmit disease or other trouble to livestock. The course was taught mostly by research personnel from the U.S. Department of Agriculture experiment and research facility at Texas A&M. The class toured the new facility and looked at various research projects now under way. Local agricultural teacher, C. T. McCormick, was among those attending the course. On the way home, he and Mrs. McCormick visited a short time with Ed and Gladys Russell near Burnet.

Advanced degrees will be awarded to those qualifying for them during the past year. Those from the Ropes Chapter who have qualified for Lone Star Farmer this year are: Archie Jordan, Star Disirict Farmer of the Lubbock District, Larry Shannon and Perry Strickland. This degree is limited to two per cent of the active membership of the State Association.

In addition, a boy must have completed three years of Vocational Agriculture, earned at least five hundred dollars from his own efforts, participated in an outstanding way in FFA and school activities, have a satisfactory scholarship record, submit his application and have it approved by the State Checking Committee. The actual awarding of the degree will be at the convention in Dallas.

10¢ Copy

Those expected to attend from the Ropes Chapter are: Mike Guerra, member, Ricky McDougle and Ralph Trevino, voting delegates. They will be accompanied by C. T. Mc-Cormick, vocational agriculure teacher of Ropes High School.

The Ropes Chapter has been notified that it received a rating of superior for the year just past. This is also awarded at the convention.

## Vacancies Available In Clinic At SPC

Several vacancies in the 7th and 8th grade groups of the Boys Basketball Clinic, slated to begin at South Plains College on July 10, are still available.

SPC is also sponsoring a one-week Basketball Clinic for girls on July 31 through August 4. Any girl who will be in the 3rd, 4th, 5th, 6th, 7th or 8th grades at the beginning of school in the fall is eligible to participate. The girls will be divided into groups according to their grade level in school. Each girl will receive one hour of instruction each day for five days.

The third grade girls will meet from 8:30-9:30 a.m.; 4th grade from 9:30-10:30 a.m.; 5th grade from 10:30-11:30 a.m.; 6th, 7th and 8th grades from 11:30 a.m.-12:30 p.m. All sessions will be held in the Women's Gym on the campus of SPC. C. W. Dukes will be instructor and supervisor for the clinic. Total cost is \$10. Girls will need to furnish their own tennis shoes and gym clothes. Registration may be completed any time between now and July 31 at the Central Office of the Technical Arts Building. The clinic will emphasize the basic fundamentals of basketball. Included

will be the instruction of technique in dribbling, passing, seeing, shooting, defense, offense and rebounding.

For further information, contact the Office of Continuing Education at South Plains College, phone 894-4921.

### **Of Meadow Musical**

## Saturday Barbecue To Mark Anniversary

Meadow Country and Western Musical organization will mark its first birthday anniversary this Saturday, July 8, by sponsoring a barbecue in the city of Meadow which is open to the public, according to Mrs. George Ashburn, chairman.

Local men will prepare the barbecued beef which will include all the trimmings and will be served by Meadow girls. Proceeds will be used on the building purchased by the community where the monthly musicals are held. **Tops Club Hosts Party** 

Tops Club No. 141 Ropesville, held their 7th birthday party Thursday, June 29.

There were 40 members attending from Welch, Levelland, Seagraves, Brownfield, and Lubbock, including Betty Whitehead from Denton and guest, Carolyn Sanderson.

Everyone present enjoyed their visit.

Tops No. 141 Texas met with co-leader Inez Price presiding. Mabel Hobbs led the prayer. This was followed by the prayer song and roll call. There was a report of 11<sup>1</sup>/<sub>4</sub> pounds loss.

### An Invitation

You are invited to attend a bridal shower honoring Miss Becky Carpenter Tuesday, July 11, from 3 to 5 p.m. in the home of Mrs. Preston Reeves.

including the Abilene Roadrunners and the Country Po-Boys of Sweetwater along with the regular bands which participate each month. The musical ends at midnight. There is no charge to the affair, but an offering is taken each time to help pay expenses of the building, which is now known as the Meadow Community Center.

What began as a small group gathering for country and

Following the serving of the meal, which will be from 5 to 7 p.m., the regular musical will be held with special guests western music has now grown to a number of approximately 400, and word of the musical has spread over the entire area.

Everyone is invited to attend the first anniversary barbecue Saturday in Meadow.

## **SPC Registration Set For Second Session**

Registration for the Second Summer Session of classes at South Plains College will begin at 9 a.m. Monday, July 10, in the Administration Building, announced college Registrar Dr. Charles Sylvester.

Courses being offered at the college during the second session will include American History, algebra, mathematical analysis, freshman and sophomore English, art, speech, history, accounting, mid-management, data processing, chemistry, zoology, economics, business and professional speech, business machines, photography, college math, American Government, bowling, sociology, drama, swimming and trigonometry.

Two special seminars in Agriculture Technology and Drafting Technology have been scheduled during the second summer session. Dates for these seminars will be announced later.

Tuition for the summer session is \$4 per hour for indistrict students (with a \$25 minimum for each semester) and out-of-district students pay \$4 per hour plus \$1 outof-district fee. In addition, there is a \$7.50 registration fee and a \$2.50 activity fee. Laboratory fees are also required for science, t-v-o programs and certain physical education courses.

Summer schedules may be obtained from the Registrar's office. The college residence halls are also open for the summer session.

Regular registration for the fall semester will be August 28-29, with classes scheduled to begin at 8 August 29. Residence halls will be open for occupancy at 1 p.m. Sunday, August 27. Page 2, The Ropes Plainsman, Thursday, July 6, 1972

**Miss Carpenter Makes Deans List** 

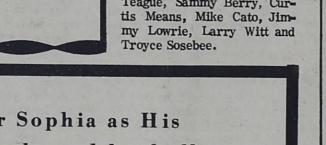

Rebecca Carpenter, sophomore at Howard Payne College in Brownwood, was recently named to the Dean's List which requires no grade less than a "B" and is based on all work with a minimum of twelve semester hours and a grade point average of 3.65-3.99.

Becky is the daughter of Mr. and Mrs. Roy Carpenter.

## **Class Of** '62 Meets

The tenth year reunion for the class of 1962 met Saturday at K. Clapp Park in Lubbock. Those attending were: Mr. and Mrs. Buford Lee Moore (Kathy Kahlick), Mr. and Mrs. Doug Simpson (Jeannette Jackson), Mr. and Mrs. Don Ford (Roseva Lewis), Mr. and Mrs. James Zorns (Charla Biggs), Mr. and Mrs. Terry Jack Rucker, Mr. and Mrs. Jackie Weatherly, Mr. and Mrs. Kenneth Wright (Barba Goode), Mr. and Mrs. Forrest Griffin (Elaine Rumble), Mr. and Mrs. Joe Boyd (Carolyn Glenn), Mr. and Mrs. Benny Tindel (Frances Tindel), Mr. and Mrs. Ronnie Miller (Sue Redford), Mr. and Mrs. Allen Roberson, Mr. and Mrs. Bobby Bevers, Mr. and Mrs. Ronnie Ayers and their sponsor, Mrs. Mooneyen Allbritton of Hurst, Tex. Parents present were Mr. and Mrs. Tommy Littlefield, Mr. and Mrs. Bud Rucker, Mrs. Biggs and Inez Jackson.

Class members not present were Diane Nix, Sandra Witherspoon, Evenlyn Stow-ers, Betty Smith, Joanne Teague, Sammy Berry, Cur-

SISTER SOPHIA

**Spiritualist Healer** 

... adds something to its personality ... feels friendly when you return home at night or guests come over. A gas light casts a gentle glow that doesn't attract insects and adds a touch of safety that can make you feel a little more secure and sleep a little softer. And for lasting beauty, it's crafted from rust-free aluminum.

Call Pioneer Natural Gas Company or ask a Pioneer employee you know about an outdoor gas light.

It's a touch to your home ... you'll like the feel of.

Are you sick? Are you worried? Do you have problems with loved ones or separated from love ones? Do you have money problems? Sister Sophia can solve all your problems. She invites everyone to her home. No appointment necessary. No Problem too large or small. Open 7 days a week--6 a.m. to 10 p.m. 3609 34th Street Lubbock Texas 79400 Phone 799-9124 Look For Sign

## South Plains 4-H'ers To Attend Electric Camp

Lubbock-Some 120 4-Hboys and girls from 14 South Plains counties will be heading for Cloudcroft, N. M., Monday, July 10, for a fun-filled week of recreation and leadership training in electricity at Scott Able 4-H Camp.

The camp is sponsored annually by Southwestern Public Service Co., according to Billy C. Gunter and Mrs. Catherine B. Crawford, district agents with the Texas Agricultural Extension Service which conducts the 4-H Club program. The company representatives will give instruction on lighting, house plan wiring, space age cooling and an electrical craft activity. Instructional material presented at these group sessions will be aimed toward developing method demonstrations on electricity and its use.

Organized recreation is scheduled throughout the week and a vesper service will conclude each day's activities.

This year the planning committee for the electric camp includes the 4-H Councils from Cochran, Hockley, Lamb and

FOR A BETTER LAWN AND GARDEN USE WATER EFFICIENTLY

If irrigation water is limited in your area, it is essential to make efficient use of what is available. Most people fail to realize that soils differ in their ability to take up water. It is useless to apply moisture to the surface of a soil at a rate faster than the soil can absorb it.

When you apply water at the surface, the top layer of soil becomes saturated; that is, it takes up all the water it can hold. Some of the water then moves down into the drier layer of soil below. The speed of this downward movement is influenced by the soil structure. In a tight or heavy, compact soil, the movement will be slow. In light, sandy soil, it will move much faster.

It is important to note the rate at which the soil in your yard can take up moisture. When you apply it faster than the soil can absorb it, you simply waste water as it runs off the surface into the low areas, into the gutter, or into the natural drainage system.

The professional golf green keeper gets the most good from every gallon of water by carefully timing the water application-5 to 10 minutes on and 20 to 30 minutes off.

This system allows time for the water to saturate the top soil and then redistribute itself uniformly in the soil below. Utilizing special timing mechanisms he keeps repeating the on-off process until the soil is wet to a depth of 8 to 10 inches. Depending on the type of soil and the amount of vegetation the soil will not require water for at least a week to 10 days.

Another efficient system is to use sprinklers that cover large areas but which have a low rate of discharge. It may require 5 to 6 hours to saturate the soil to the depth necessary but there will be little or no loss due to surface run-off.

A steel rod about  $\frac{3}{6}$  to  $\frac{1}{2}$ inch in diameter and 2 feet long makes an excellent tool for checking moisture penetration. One end shoulbe be bent to form a short handle. In a freshly watered lawn, you can easily push the rod down to the depth of the wet soil but will have difficulty beyond this point.

Deep watering at infrequent intervals will result in deeper penetration of plant roots. The roots do not "grow down" to get water. Instead they move through the' soil and, simply grow better because moisture is available. Mr. and Mrs. Clois Bevers and son Brent visited with his sister and family, Mr. and Mrs. J. N. Willis, Monday. Mr. and Mrs. G. C. Bevers and Mrs. Forrest of Levelland visited Sunday.

#### ---

Judy Garrett of El Paso is visiting in the home of her grandparents, Mr. and Mrs. Abb Russell. Mr. and Mrs. E. L. Schrader of Wolfforth visited with them Sumday.

---

Mrs. Ottos Sims is home for a few days, after attending the bedside of Otto who is confined in the Veterans' Hospital at Big Spring. Late reports are that Ottos is slowly improving.

### The Hobbs family enjoyed an outing at Coleman Park in Brownfield Tuesday, the Fourth.

or department store at this time of year. Select healthy vigorous plants, avoiding those that appear over-grown, crowded, dried out or have yellow, starved looking foliage.

A list of 12 easy to grow annuals for summer color as suggested by the area Extension Landscape Horticulturist, Dwight S. Hall, is given below:

1. Cockscomb - Many improved varieties, grown for showy flower heads, many forms and colors, may be dried for fall and winter arrangements. Likes the summer heat.

2. Periwinkle - Will thrive throughout the hot summer. Attacked by very few pests.

3. Petunia - A type and color to please every taste. Responds to good rich, loamy soil. Sometimes difficult to establish from seed. Plants are available.

4. Zinnia - The old standby, with many new and interesting varieties. Easy to grow, a must for bright summer color.

5. Marigold - "Climax" varieties are spectacular from mid-summer until frost. The dwarf varieties are excellent for border plants.

6. Salivai - Good for hot, dry summers. New pastel shades are becoming quite popular. Vivid reds and blues also available. An annual of long duration.

7. Morning Glory - Very fine summer vine for seasonal color.

8. Portulaca - Colorful, low

#### ---

Rick Crow of Hobbs, N. M., visited in the home of Mr. and Mrs. J. C. Pointer recently.

#### ---

Delbert Hall returned to his base at Ft. Hood Tuesday after spending several days with his family who were injured in a car accident. His wife, Wanda and children, will return next week. Late reports are that all are now well who were injured.

### Mr. and Mrs. Coy Allen

and family and Mr. and Mrs. Everett Jones of Hobbs, N. M., visited Monday in the home of Mr. and Mrs. Carl Allen.

> A weekly public service feature from the Texas State Department of Health Accent on Health

You are at home busily cleaning the house when you hear a knock on the door. You answer to find a man

feeling inside, knowing that you have helped Mrs. Jones. Later in the day when Mrs. Jones returns, the warm feeling begins to turn to doubt because Mrs. Jones informs you that she has not ordered a C.O.D. package. You open the melance to incomet its see

the package to inspect its contents and find only rocks. Another take-off on this scheme, and perhaps even more insidious, is practiced

more insidious, is practiced where there has been a recent death in a family. The knock on the door in this case presents a person who has a package for Mr. Smith at this address. Informed that Mr. Smith recently passed away, the stranger gets a sad look on his face and says that Mr. Smith was in his store last week and picked out a beautiful gift for Mrs. Smith.

It was to be a surprise and Mr. Smith was so happy because he just knew that the gift would bring Mrs. Smith so much pleasure. Sentiment often pushes the person to go ahead and accept the item and pay for it, usually at an inflated price, and even though they don't need it, because it had been picked out for them by their deceased loved one.

All you have to do is pay him the C. O. D. charges and then get your money back from Mrs. Jones.

This way she will receive the package in time and not be disappointed. After all, the C. O. D. charges amount to only \$10. Being a friendly

When was the last time you read the list of ingredients on that package of instant casserole or off-brand can of beans you've been buying at the local supermarket Chances are you lately? haven't. But you should, for the label on that jar of orange juice or imitation orange the label on that jar of orange juice or that package of fresh oysters could tell you a lot, whether it is frozen juice imitation orange drink, or if those oysters were prepared and packed by a manufacturer approved by health inspectors working for the state or federal government.

The Texas Health Department has long had food and drug inspectors who take seriously their responsibility of protecting the consumer through enforcement of food and drug laws. The purpose of these laws are to protect

the consumer against adulterated or misbranded foods, drugs, and cosmetics, and to require informative labeling of substances intended for household use.

Texas Health Department official James M. Doughty believes there is a growing trend in this country to put greater emphasis on the importance of labeling on all consumer products, especially food and drugs. He is watching with interest federal efforts to draft a new national policy concerning labeling, one that also sets guidelines for particular key nutrients and how much of each one should be, and how much actually are, included in each class offood.

For an idea of the effect better labeling might have on the food industry, consider what has happened to hot dogs. Back in 1969, the U. S. Department of Agriculture set 30 percent as the maximum permissible amount of fat in frankfurters. Those of you who were buying hot dogs back before World War II may remember when you could get the all-American food with as little as 17 precent fat content. But then certain manufacturers pushed the content up until it reached 51 percent by weight-and over 80 percent by caloric proportion. Now if frankfurters had been labeled in terms of percent protein, percent fat, and total calories, the government probably wouldn't have had to impose the 30 percent limit. Competition would have taken care of the problem, before the eyes of a weight-conscious nation.

Competition would probably it also affect the proportions if of saturated or polyunsaturated fats if quantities p were stated on food labels, a

Light or shallow watering at frequent intervals will simply encourage shallow roots. As these grow and develop, they push above the surface, making mowing and lawn maintenance difficult.

Time your water applications or control the rate of applications and get maximum benefit with minimum watering.

#### ANNUALS FOR SUMMER COLOR

Everyone seems to be ready to set out plants at the first sign of spring, but when the time arrives to plant a garden for summer color we frequently lose our enthusiasm. April is the ideal time to prepare the summer garden and this includes the colorful annuals. Summer annuals as started plants are available in about any garden center, nursery and interesting for rock gardens and for massing. Demands a well drained soil in a sunny location.

9. Cleome - Large showy blooms, prolific bloomer, excellent, tall background annual. Will reseed itself for next year's blooms.

10. Cosmos - Tall background material, vivid colors, prolific summer bloomer. Try the sunshine colors of "Goldcrest" and "Sunset".

11. Gloriosa Daisy - Excellent hot weather annual. Vivid orange and yellow, double and single varieties.

12. Ageratum - Vivid and delicate blues, pinks and lavendars. Makes a nice border for the hot summer garden.

Other summer annuals -Coreopsis, Verbena, Globeamaranth, Four O'clock, the Strawflower, Queen Ann's Lace, Impatients, Coleus, Gaillardia, Geranium, Dusty Miller and others.

### Page 4, The Ropes Plainsman, Thursday, July 6, 1972

### Home High Lights Kelley, Paxton the bottles and wash them By Jewel Robinson

Bottle Gardening

House plants not only add interest and color to our indoor living area, but they can also contribute to our continued well being by aiding in the battle to clean-up the air we breathe. Admittedly, a few house plants cannot do a great deal in this regard but the sum total of the effect of all plants has a great deal to do with man's continued existence on this planet.

If you hesitate to grow plants indoors because you cannot locate a source of good soil, you are afraid the container will leak or overflow on to furniture or carpet, or you feel you do not have the time to spare for growing potted plants, maybe you should consider bottle gardening. All you need is an empty bottle, some cut branches of your favorite shrub, tree or herbaceous plant and tap water. Actually, any waterproof container will suffice for a bottle garden-beverage bottles, vases, antique canning jars, old fish bowls, aquariums or anything else your imagination can dream up or you think might look attractive as a container.

Wash the containers with a kitchen detergent and hot water as they must be clean. After rinsing and draining, fill with ordinary tap water.

Select branches from plants such as myrtle, geraniums, oleander, wax begonia, coleus or hibiscus for cutting. In fact, almost any plant having a fairly sturdy stem will do provided you find it attractive to you. When cutting the stem make sure to use a good sharp shears so it will make a clean cut without bruising or crushing the stems.

Remove the lower leaves so no leaves are below the water line when you place the stem in the container. Arrange the branches to create a natural appearance. No need to spend too much time in arranging as the leaves will usually turn to the light and fit together to create a pleasing composition.

These bottle arrangements can be used in almost any area of the house and will last for long periods. When no longer attractive, they can be easily replaced with fresh branches, making sure first to thoroughly clean out the Add fresh tap itainer water at frequent intervals to replace that lost by evaporation or used by the plant. Turn the arrangements at least once a week to keep them developing from all sides.

thoroughly with hot water and detergent to kill algae and bacteria that may have accumulated. Scrub the stems with a soft brush to remove any algae and make a fresh cut to facilitate the uptake of water.

Frequently these branches will develop roots while in These can be the water. planted in soil, giving you new plants if you need them. By replacing branches that may have deteriorated you can always maintain an attractive arrangement in your favorite container.

## Winners At **Arena Park**

Winning at Arena Raceway this week were:

Street Stockers - Maurice Whitehead, 3rd in heat.

Street Stockers-James Means 4th in heat; 2nd in figure eight main.

Modified stockers - Mickey Smith, 1st in heat race. Modified stockers-John Bain, 1st in consolation.

**Thank You** 

We wish to express our gratitude to all of you for the kindness shown during the illness and passing of our loved one - Clyde Buron Fewell. You expressed your sympathy by helping in every way possible. We want to thank all who sent food to our home, and a special thanks for the food prepared at the church. The flowers from "Ropesville Friends" were so lovely and appreciated by all of us. All of you have been so kind, and we appreciate everything you did to make our burden lighter. May God bless each of you.

Minnie Fewell, Clyde Fewell and family, Dannie Morgan, and other relatives.

Clovis McDonald of Lubbock visited Friday in the home of her aunt and uncle, Mr. and Mrs. Emory Hobbs. His niece and family, Mr. and Mrs. R. F. Owens of Seagraves, visited Saturday in the Hobbs home. Their daughter, Lillian Gryder of Brownfield, was a Saturday night guest in their home.

# **Named Chairmen**

AUSTIN-Sen. John Tower announced recently the appointments of C. L. Kelley and Edwin Paxton Jr. as joint chairmen in Hockley County for the Senator's re-election campaign to the U.S. Senate.

Kelley received a Bachelor of Science degree in Petroleum Engineering from Texas Tech University. He is presently an area production superintendent for Amoco Production Company.

In the past, he has participated in the community activities of the United Fund and Junior Achievement.

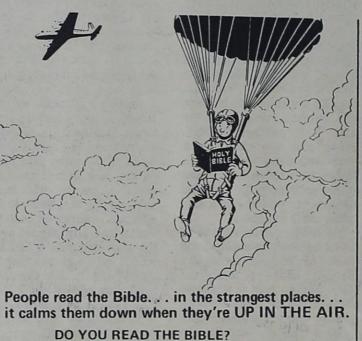

Kelley and his wife Evelyn have two children, Mrs. R. R. Goyer, 30, and Mrs. Dan Hobbs, 27.

Paxton, partner in Paxton & Harder Agency, attended Texas A&M University and Texas Tech University.

His past political experience includes serving as Hockley County chairman for Sen. Tower in 1966, Hockley County chairman for the Republican Party of Texas and twice a former candidate for State Representative on the Republican ticket.

In addition, he is past director of the Rotary Club, past president of the Levelland Jaycees, past president of the Levelland Area Chamber of Commerce, past director of the West Texas Chamber of Commerce, a former member of the Levelland Planning and Zoning Commission and past City Councilman in Levelland. He is currently serving as president of the Levelland Independent School District Board of Trustees and is a member of the Levelland Industrial Foundation.

Paxton and his wife Gwen have four children, Brett 19, Keith 16, Todd 12 and Micah 8.
