## NEWS BRIEFS . . . from around the world

### AUTOS & REPAIR

Detroit—Virginia H. Knauer, President Nixon's director of consumer affairs, told the national convention of the American Automobile Association that the industry failed to build cars "right" and then didn't provide adequate and honest repair service.

### BONN AIDES FAMILIES

Bonn—The West German Government has announced that it was granting about \$1-million to relatives of the 11 Israelis killed in the recent commando raid.

### DEATH ROW CLOSED

San Quentin, Calif.—San Quentin Prison's Death Row has been closed by the California Supreme Court ban on executions. Death Row was established in 1938 when California stopped hanging criminals and instigated the gas chamber.

### CHINA BUYS 707'S

Peking—China has signed a contract to purchase ten American-built Boeing 707 airliners. The contract is believed to be for about \$150-million.

### REJECTS FUND CUTOFF

The House rejected a proposed cutoff of money for U.S. Indochina-war operations in four months. The proposed amendment to the \$74.6-billion defense appropriations bill was turned down 208 to 160.

### ON INTERIM ARMS PACT

The Senate has approved a Soviet-American agreement to slow the arms race. At the same time, they served notice that the five-year pact would be unacceptable as the basis for a permanent treaty.

### ON REVENUE-SHARING

House and Senate conferees have agreed on a formula for sharing federal revenues with states and local governments. This agreement apparently clears the way for enactment of the legislation and distribution of the first \$5.3 billion annual installment.

## Ropes Smashes Sands 22-6 In Easy Victory

By: Kathy Lemon

The Ropes Eagles got back on the road to victory Friday night when they zapped Sands 22-6.

The Eagles started the night off right when Ricky McDougle ran 22 yards early in the opening quarter for the first Eagle touchdown. Rudy Quintanillo successfully ran for the extra points making the score 8-0.

In the second quarter Quintanillo pushed over from the 1-yard line and gave the Eagles their second touchdown of the evening. The try for extra points failed.

The lone Sands score came late in the second quarter when Frosty Floyd ran 55-yards for a touchdown. At half the score was in the Eagles favor 14-6.

In the third quarter Stanley Shockley and Marty Salinas both intercepted Mustang passes. The latter interception set up the Eagle's final touchdown. McDougle ran 5 yards for the score and Quintanillo ran the extras giving the Eagles a good lead of 22-6.

The Eagles had a very good night defensively. Marty Salinas and Bobby Trevino had 6 tackles each and there was a good balanced team effort on the other tackles. Marty recovered 2 fumbles and Shockley recovered one.

The Eagles had outstanding night offensively also. McDougle rushed for 126 yards, Trevino for 54, Quintanillo for 43, and Mike Moore for 39. The total yardage for the night was 304 yards. Ropes lead in first downs 18-5.

The Eagles did an outstanding job Friday night. This Friday, September 29 they meet the Hale Center Owls here at 8 p.m. Be sure and come out to see the Eagles continue down the victory road!

## Home Demonstration Club Wants New Members

Ropes Home Demonstration Club meets 1st and 3rd Tuesday of every month. Anyone interested in joining or visiting any meetings will be most welcome.

Mrs. Jewel Roberson will teach a school on pants fitting September 26 and 28 starting at 2:00 p.m. in the Ropes School Cafeteria. Anyone interested bring sewing machine and all necessary materials.

## Ropes Band "Looks Good" In Parade

The Ropes Band didn't place in the Fair Parade, but it is reported they did a real good job. They had stiffer competition this year since we have moved up to Class A.

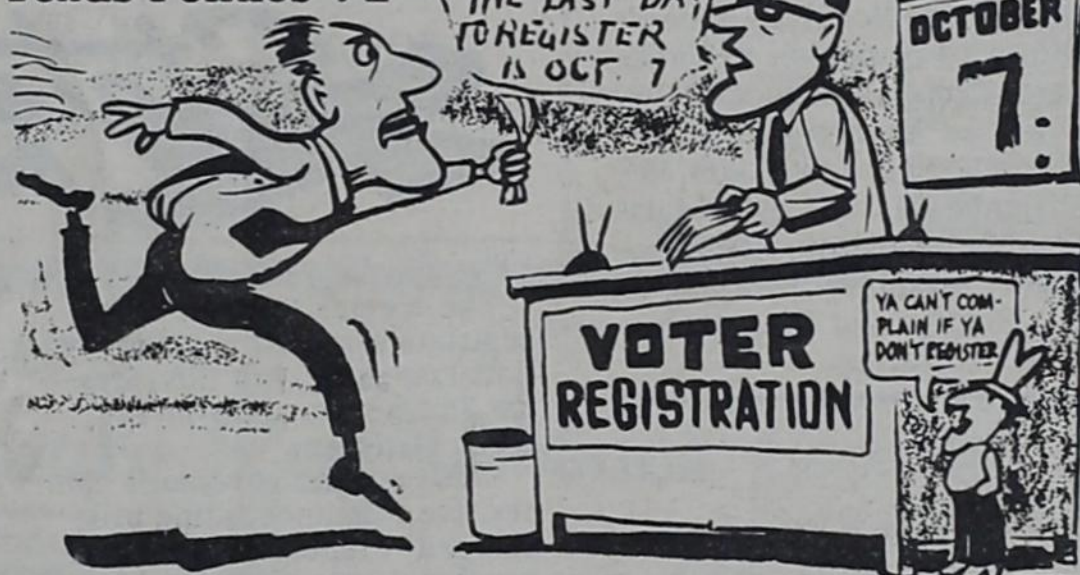

## Mrs. Peck Rogers Hosts Ropes Needleclub

The Ropes Needleclub met Thursday, September 21 in the home of Mrs. Peck Rogers. Refreshments were served to the following members: Mrs. Kelly Teaff, Mrs. Ewell Exum, Mrs. Frank Sylvester, Mrs. L. S. Rosser, Mrs. Bob Thomas, Mrs. Ruby Drake, Mrs. Emmitt Christopher and the hostess, Mrs. Peck Rogers.

## Individualized Study Program At Ropes Jr. High

The Ropes Jr. High School has started a new program this year to help the students. It is a program set up with resource rooms for a group of not more than five or six students. This plan is to help any student with any problems in school or studies. The program seems to be working out fine. The resource teachers are: Mrs. McSpadden and Mrs. Tidwell. The individualized help was started in Texas and schools throughout the state are participating.

## Local Boy In Cast Of T. T. U. Play

Harlan Cain, Texas Tech University senior from Ropesville, has been named to the cast of the University Theater play of the current season, "Everything In The Garden," a contemporary drama by the Pulitzer Prize-winning author, Edward Albee.

Playwright Albee combines irony, humor and suspense in telling the story of Jenny and Richard, a middle-class couple in suburbia whose desire for material things destroys their moral values. Cain will play Perry, a friend of the status-seeking couple.

Cain has scored in a number of Texas Tech productions. He was the herald in "Lysistrata," Fabian in "Twelfth Night," a male nurse in "Marat/Sade," Paris in "Troilus and Cressida," and Freddie in the 1972 Summer Repertory Company production of "Joe Egg."

A theater arts major, he is a member of Alpha Psi Omega, national drama honorary society. His parents are Mr. and Mrs. W. M. Cain of Ropesville.

Performances of "Everything In The Garden" will be at 8:15 p.m. each evening, October 6 through 9, in the University Theater on campus.

## 4-H Dress Revue Winners Will Be Announced Oct. 6th.

A fashion showing with 46 girls from throughout Texas will take the runway in Dallas October 5-7 during the 1972 State 4-H Dress Revue, held in conjunction with the State Fair of Texas.

Three top winners and runners up of the state contest will be announced at a special press luncheon October 6 at 1 p.m. in the Baker Hotel after a morning of judging events.

Mass media representatives from throughout the state are expected to attend the luncheon sponsored by the Fuller Foundation.

The 46 finalists, including the top winners, will model their fashions for the public at 10 a.m. and 11 a.m. the next morning in the Women's Building Auditorium on State Fair grounds.

Top winner of the state revue is awarded a trip to the National 4-H Club Congress Nov. 26-30 in Chicago, according to Mrs. Becky Culp, Texas Agricultural Extension Service clothing specialist and 1972 State 4-H Dress Revue chairman.

In the wool division--for all-wool fashions--the top two winners will receive bonds from the Texas Sheep and Goat Raisers' Association.

In the cotton division--for all-cotton and/or cotton blend fashions--the top two winners will receive cash awards from the Texas Cottonseed Crushers Association.

Finalists in the annual 4-H fashion parade took top honors in county and district dress revue contests across Texas in the spring.

They represent more than 16,400 girls and 125 boys now enrolled in clothing projects, Mrs. Culp said.

"Winners are selected by the finalists themselves who actually judge each other," she noted. "They consider the garment's overall appearance, Suitability of fabric, style and color for the individual, choice of accessories and poise of the contestant."

"New this year is the increased participation of boys in county and district revues. Young men, as well as women, are planning, creating and modeling fashionable ensembles for wardrobes."

4-H boys will play a role in the Dress Revue itself when 13 outstanding members--in Dallas for other State Fair activities--will escort revue finalists during the two showings for the public. Commentator for the showing will be Kathy Muirhead, coordinator for student affairs at Texas Woman's University.

Sponsored by the Texas Agricultural Extension Service, the State 4-H Dress Revue is an annual feature during Rural Youth Day at the State Fair of Texas.

Contestants in the revue will begin arriving in Dallas Oct. 5 and attend a welcoming program that evening in the Baker Hotel.

### The National Capital-Home Rule? McMillan's Defeat-Diggs Of Michigan-

Washington, D.C. -- A veteran Democrat's defeat in a recent primary apparently opens the way for changes in the nation's capital.

Congressman John McMillan, 72-year-old dean of the South Carolina delegation, has long headed the District of Columbia Committee. He has long opposed annual proposals to turn over the peoples' federal capital to residents of the District, so many of whom are federal employees.

McMillan's view is that the capital is the property of the states, not those who live there. He has been assailed by every left or liberal group pushing for "home rule" but even though handicapped as a South Carolinian, he has won this battle year after year for over two decades.

That's partly because most Congressmen fear what life would be in the city if local residents take over. The crime rate is scandal-

ously high in the District and many feel federal authority should be retained there for national security reasons.

District residents now vote in presidential elections and have representatives in Congress. They also have a mayor who, as a Negro, certainly offers blacks access to, and participation in, municipal government.

But the states retain considerable authority in, and appropriate much money for, District government. Home rule zealots see this as undemocratic.

If a recount doesn't change things and McMillan doesn't return to Congress in January, Congressman Charles Diggs of Michigan, like the mayor a Negro, will get McMillan's District of Columbia chairmanship (if Democrats retain a majority in the House) and changes are likely to follow.

## October, 1972

October dresses in flame and gold  
Like a woman afraid of growing old.  
-Anne Lawler

October is filled with interesting dates, and is the birthday month of five Presidents. It is also the month in which many state days are, or have been in the past, observed--Missouri Day on the 1st, Oklahoma Historical Day on the 10th, University of North Carolina Day on the 12th (and Farmers' Day in Florida), Alaska Day on the 18th, Yorktown Day on the 19th, Pennsylvania Day on the 24th and Admission Day in Nevada on the 31st.

Presidents born in October include Rutherford Hayes, the 19th, born in Delaware, Ohio, on the 4th in 1822; Chester Arthur, 21st, born in Fairfield, Vermont, on the 5th in 1830; Dwight Eisenhower, 34th, born at Denison, Texas, on the 14th in 1890; John Adams, 2nd, born in Braintree, Massachusetts, on the 30th in 1735 and Theodore Roosevelt, 26th, born in New York City, on the 27th in 1858.

Interestingly, October is the month in which both Lief Ericson and Columbus sailed to the New World. While Columbus' voyage actually opened up North America to colonialization and trade, and therefore had immense consequences, Ericson's voyage came about five hundred years earlier. Colorado, in 1943, became one of the first states to observe Lief Ericson Day, on the 9th. President Nixon issued a proclamation on that day. Columbus Day, on the 12th, has become a federal holiday.

Lehigh University and Dartmouth observe Founder's Day in October; the first permanent German settlement in America was made at Germantown, Pennsylvania, on the 6th in 1683; John Clarke, a pioneer in the field of religious liberty and one of the founders of Rhode Island, was born on the 8th, in 1609 (in England). Hallowe'en ends the month, on the 31st.

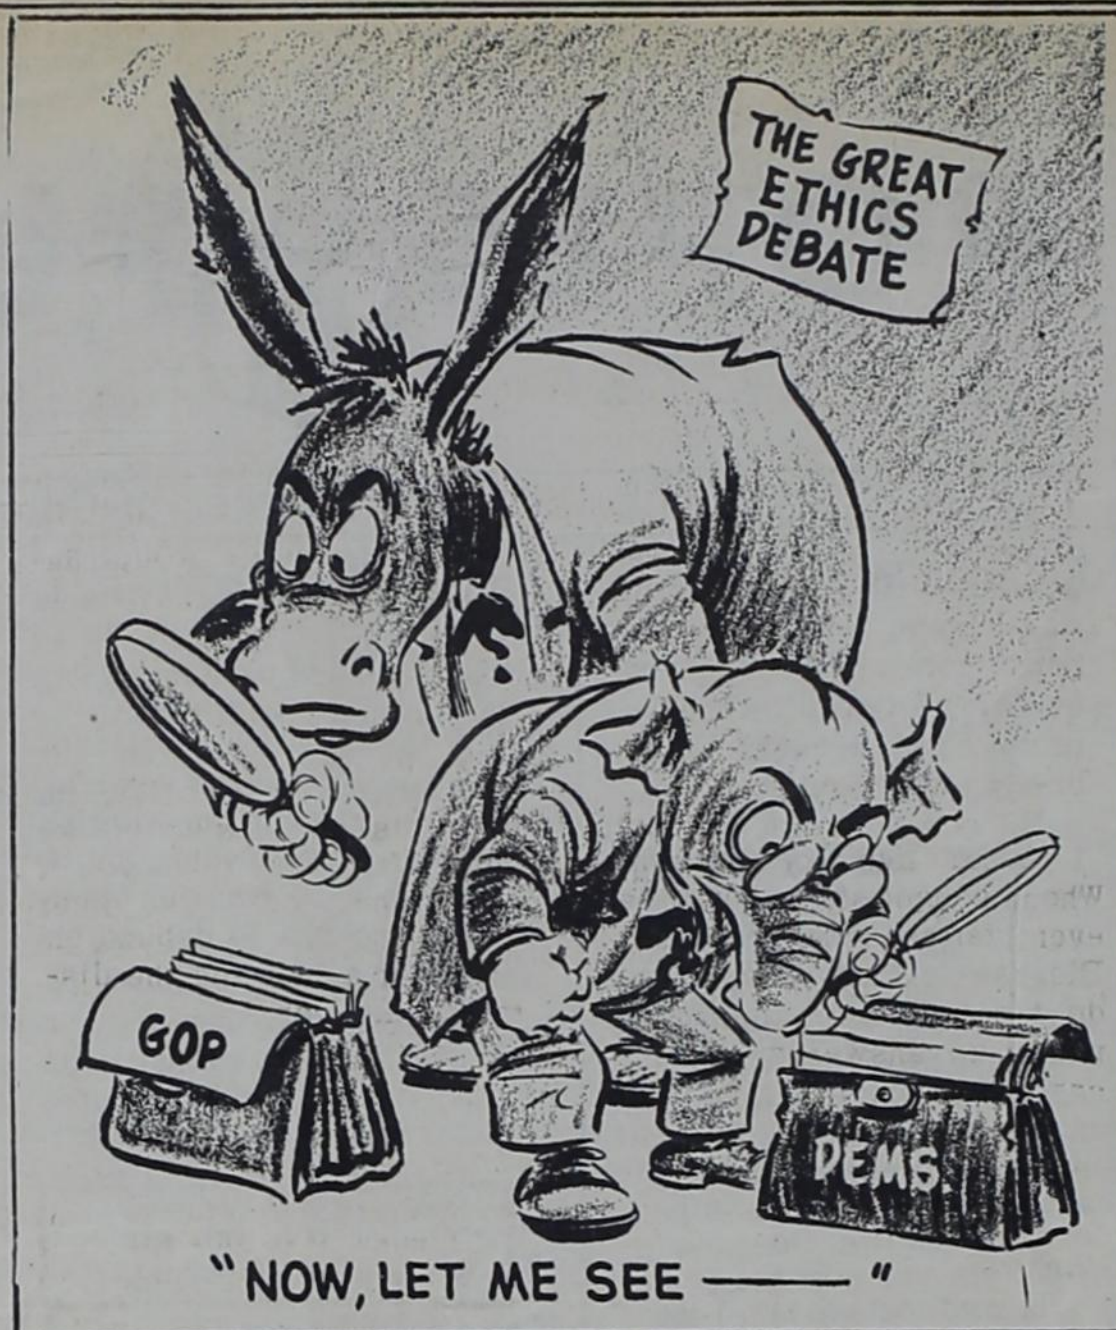

## The Power Of Music

Wise men (and women) have long appreciated the unique powers of music. The death of Lale Andersen recently in Vienna reminded the world a song can become part of the history of an era.

Andersen, a German singer, recorded "Lili Marlene" during the Second World War. More than any other song, it became the favorite of millions of German and Allied soldiers alike.

Andersen said later the song was a light shaft of home-life beamed to men far from home undergoing terrible hardship and thus found a nostalgic spot in their hearts. Basically, the theme was of home, love, normal times--at a moment when little was normal and death looked millions in the eye daily.

The song was a haunting melody and had an appeal defenders of a losing and hopeless cause felt particularly (those who lose wars always remember them longest). The Germans, who had enjoyed glory and triumph at the beginning of the war, longed for home and normalcy again, facing hopeless odds. Allied soldiers were far from home, closing in on Hitler's fortress. Nothing today brings back the flavor and tragedy of those times, to millions, better than hearing "that" song--the strange power of music.

## State Capital NEWS

By: Bill Boykin

The special session of the Legislature got off to a bumpy start last week with Gov. Preston Smith's proposals facing tough criticism.

Critics of the governor's competitive insurance rating bill charged it repeals some of the best provisions of the Texas insurance code.

Sen. Oscar Mauzy of Dallas and others insisted on a state-set ceiling if competitive rating is passed. Senate sponsor, Sen. Mike McKool of Dallas, indicated he would go along with that.

The governor's budgetary control bill met a mixed reaction in its first committee test. Proponents said it would help put "fiscal responsibility" in state government, but opponents claimed it would make the governor a fiscal "czar." The latter were particularly critical of a provision that would let the governor alter agency budgets when he found "evidence that the expenditure is not necessary."

Smith assured another lively appointments hassle in the Senate when he nominated his secretary of state, Bob Bullock, to the State Board of Insurance.

Lt. Gov. Ben Barnes denied reports that he was trying to line up votes to block Bullock's confirmation by the Senate.

Bullock's name was sent up as a replacement for Smith's longtime friend, Larry Teaver, who was rejected for Insurance Board membership last July by unfriendly senators.

**PARTIES HOLD CONVENTIONS**--Harmony prevailed at both Democratic and Republican conventions, although there was enough controversy at both to make them interesting.

Democratic gubernatorial nominee Dolph Briscoe got his choice for State party chairman (Calvin Guest of Bryan) and was allowed to write the platform about the way he wanted it. In return, he agreed to accept a liberal, Sen. Barbara Jordan, as State Democratic Executive Committee chairman. Sen. Joe Bernal of San Antonio and Mrs. Billie Carr of Houston (liberals and George McGovern backers) and Hall Timanus of Houston (a George Wallace supporter at the June convention) were named to new Democratic National Committee posts. Briscoe may, or may not, have control of SDEC. Some counts evaluated the breakdown 26-26 liberals and conservatives with 10 moderates as the balance of power.

Republicans had little to squabble about. They wrote their own state platform and re-elected Dr. George Willeford and Mrs. Malcolm Milburn of Austin as state chairman and vice-chairman.

**APPOINTMENTS**--Accepting resignation of Robert W. Calvert as chief justice of the State Supreme Court, Governor Smith said he would designate Associate Justice Joe R. Greenhill chief justice. Smith's legal aide, Hawthorne Phillips, will fill the vacancy on the High Court from October 4 (date of Calvert's resignation) until January, Smith said.

Terry Townsend of Austin was appointed by Smith to the governor's Commission on Physical Fitness.

Secretary of State Bullock finally got around to issuing a commission of office to Dallas County Commissioner Roy Orr -- after Orr was replaced as state Democratic chairman. Bullock contended Orr couldn't hold both offices.

**AG OPINIONS**--County clerks are not authorized to issue marriage licenses to two persons of the same sex, Atty. Gen. Crawford Martin held in a recent opinion.

In other new opinions, Martin concluded:

\*A Texas water corporation and public utility has the right to lay its pipes along the right-of-way of county roads, subject to conditions fixed by law.

\*A sheriff's food bill for feeding prisoners (submitted to county commissioners) must show the name of each prisoner and each item of expense incurred on the individual accounts.

\*Those who are not licensed registered nurses would be violating the law to use identifications such as "SRN" or "RN."

\*Stephen F. Austin State University in Nacogdoches has the authority, without city consent, to close a portion of Raguet Street constructed over school property within the campus in 1938.

\*Texas Board of Examiners in Fitting and Dispensing of Hearing Aids is not authorized to impose on an applicant for a reciprocity license a requirement that he have a residence or a place of business in Texas.

**ANIMAL DISEASE FIGHT FUNDS CLEARED**--Texas will receive a \$120,414 federal grant to fight animal diseases.

Money will supplement Texas Animal Health Commission's eradication programs aimed at screw worms, scabies and fever ticks.

This year Texas is suffering its worst fever tick outbreak since 1941, according to Commission Executive Director Dr. H. Q. Sibley. Parts of Jim Wells, McMullen, Duval, Live Oak, Kent, Nueces, Leon and Dimmit counties are under tick quarantine.

Governor Smith also noted Texas is facing its worst screwworm epidemic since 1961, and scabies has struck in several areas.

**ENROLLMENTS GROWING**--Texas college and universities are still climbing, though not so fast as in the early 1960's.

### Women Puffers

Women, who have adopted men's smoking habits in recent decades, are beginning to pay a heavy price for the indulgence. Two dental experts say mouth cancer is dramatically increasing in women smokers.

The odds are very poor, according to Drs. Sol Silverman and Michael Griffith of the University of California School of Dentistry, for women who puff cigarettes--they contract cancer of the mouth at a 9 to 1 increase rate over non-smoking women.

Those who think seriously about it can't really understand the decision of many women to suck cigarettes. Women like to, and seek to, appear attractive. Nicotine brown fingers, stained teeth, a hacking, whooping cigarette cough and tobacco breath prevent any woman from being her most attractive; to some men, these defects eliminate them entirely from consideration as a companion.

About 454,000 students enrolled in public and private, junior and senior colleges by September 14. This compares with about 438,000 at the same time last year. The Coordinating Board, Texas College and University System concludes there will be about a three and a half per cent increase in enrollments this fall over 1971.

Enrollment in all segments of higher education last year was more than 475,000 and projections by the Board point to about 493,000 this year. While senior college enrollments are up less than one per cent, the community colleges have an increase of more than 11 per cent in their student bodies.

**SUPERPORT AID PROMISED**--Gubernatorial nominee Dolph Briscoe promised top priority efforts to secure a deep-water superport for Texas.

Briscoe said it is vital to the economy to get a port capable of handling ships with drafts of up to 100 and 120 feet. He said the state is "blessed with having several desirable locations."

### SHORT SNORTS

Texas Air Control Board has been approved for a \$2.1 million federal grant from the Environmental Protection Agency.

Texas industrialists are offered exhibit space on the Queen Elizabeth 2 for a floating trade fair to North Africa, the Middle East and Europe in 1974.

An application has been filed for a state bank in Fulton.

A new study of the role of motor vehicles in air pollution is underway in the Houston-Galveston area, one of 14 national air quality control regions to be checked.

There are more Texas voters over 64 than in the much publicized 18-20 bracket -- 16 per cent for the senior citizens, 10.4 per cent in the youth bracket.

This is Texas Highway Week--with speeches and observances marking the event over the state.

A House study committee has been set up to review water district legislation passed during the last two legislative sessions and determine if it was in the public interest.

Texas Highway Commission is accepting bids this week to facilitate traffic movement in South and far West Texas.

Seven hundred and 54 new Texas lawyers were licensed in ceremonies here Monday.

### CORN CROP SHORT

The Agriculture Department estimates the nation's corn crop will be 5,124,425,000 bushels down from the 1971 harvest. The eight per cent shortage will effect the meat supplies next winter.

# TV COMMENTARY

ANTENNAS are vibrating as network copycats read the ratings to discern which shows are tickling viewer's fancy. When the new programming winners begin to pop forth, there will follow a rash of internetwork reaping from yon competitor's vineyard.

FOR EXAMPLE, Archie Bunker's success could be measured by charting the new efforts by all networks to improve on his bigotry in such a way as to draw the crowds away from dear, unlovely Arch. Networks, like politicians, seem to have jumbo bandwagon instincts.

THE NEXT TIME a TV set is purchased for the family, try kicking the tube habit and going solid state. Tubes are like light bulbs. They cause heat and begin wearing out as soon as they're switched on. Solid-state devices don't heat up and probably will be a long time in wearing out, maybe never.

IF crimestopping drama is your cup o' tea, try sipping from a new brew called "Streets of San Francisco." Quinn Martin's new series proved quite enjoyable on its virgin showing.

IT SEEMS that greater permissiveness is to be the rule of thumb this new season. Nudity is still not allowed, but more freedom of vocal expression and idea expression is loosed on the airways. More and more four letter words now are heard, replacing the once common, aggravating static that in times past polluted our reception.

NBC WILL have a special on January 23 titled "The Incredible Flight of the Snow Goose." To produce this program, Des and Jen Bartlett spent two years tracking snow geese on their annual migration from Hudson Bay to the Gulf of Mexico.

# LOUISA'S LETTER

Dear Louisa,  
I have been going with this guy for almost a year now. I like him very much, but I have a slight problem. I am here and he is in another state working. I was wondering if there was any way I could get him to come home more often and let me see him. I haven't seen him in some time because he has been in the service.

He is a very nice guy and I would like to see him. When school starts I will be even farther away from him. Please tell me what I can do to help the situation. I need an answer quick because I really like him. Also I am the first girl he has ever been interested in.

L-Ky.

Answer:  
If your friend is still in

the service he is probably limited as to his leave periods and the extent of time he can be away. So I assume his visits would depend a great deal on "Uncle Sam". Also, his visits would depend on how far away he is from your home and as to what kind of transportation is available for his use.

If he has a car and the distance is not very far there is no reason why he couldn't come to see you if he wishes to. On the other hand if he has to depend on trains or a bus and the distance is considerable he would have to limit his visits.

Louisa.

## In Fashion

Motley jersey is used extensively by famous designers for fall garments. One slinky long dress has a low V neck which is supposed to be filled in with strings of pearls.

Dolman sleeves are seen in dresses and coats.

Sweaters with elbow length sleeves are worn over long sleeves and collars made of satin.

The same cotton cloth can be finished to appear as chintz, denim, chambray, gingham, moire, matelasse, or pique.

MARY, MARY, NOT EVER CONTRARY?—Hardly ever, anyway, when she's all dressed up in this pert schoolgirl smock that grows with cornflowers, poppies, and gardenias on pinwale cotton corduroy. The Crompton fabric is styled into a straight-cut smock by Designer Phyllis Berens for Magic Years. It's ensembled with a capped-sleeve blouse in all-cotton by Inwood Knitting Mills.

## THANK YOU

I would like to take this means of expressing my thanks to the kind and patient customers who came to the Cafe for dinner Sunday.

The turn out was wonderful and I am very grateful.

Everyone is welcome back anytime for eating and talking with friends.

### The Mysteries of Mexico's Sacred Well

MEXICO CITY—For over a thousand years, the Sacred Well at Chichen Itza in Mexico's Yucatan Peninsula was shrouded in mystery. The Mayans who built it believed that the "Cenote Sagrado" was the dwelling place of Chac, the god of rain. Legend said that in times of drought, bejewelled maidens were thrown into the well as a sacrifice to the god.

This belief persisted through the period of the Spanish Conquest, when Bishop Diego de Landa wrote: "They used to throw living humans as a sacrifice for the gods during the times of drought. They also threw many other things into the well such as precious stones."

Almost four hundred years passed and the cloak of mystery about the Sacred Well thickened. Then in 1904, Edward Thompson, United States' Consul in Merida, capital city of the Yucatan, bought the well, together with Chichen Itza, for \$75. During the next three years, Thompson explored the well and found jade, copper, gold, clay, bronze, wood and bone objects. Most of the artifacts were Mayan in origin, but many were also from the Zapotec, Mixtec and Aztec cultures, with which the Mayans frequently traded.

Thompson took his findings out of the country and donated them to the Peabody Museum at Harvard University. Mexican authorities were powerless to stop him, because at that time there was no legislation prohibiting the removal from Mexico of archeological treasures. Furthermore, the country was in the throes of the first phases of a bloody and cataclysmic revolution.

However, after the revolution was over, the Government, mindful of the need to preserve its unique cultural heritage, created the National Institute of Anthropology and History. The Institute's purpose was twofold - to learn more about Mayan and

other Pre-Columbian cultures and to protect all archeological treasures. In cooperation with the Exploration and Aquatic Sports Club of Mexico and the National Geographic, the Institute sponsored an expedition to Chichen Itza to rescue the rest of the artifacts and to resolve the mystery of the Sacred Well.

A team of expert divers explored the depths of the Cenote. They found numerous Mayan artifacts including wooden benches, statues of jaguars, snake heads and pieces of ceramics. They also found human bones and skulls. However, the remains were not those of young girls, but of children!

Were the children the innocent victims of cruel sacrificial rites or did they accidentally fall into the well? The mystery will probably never be solved. When divers tried to explore the depths of the well they discovered the ruins of an ancient temple that had fallen in the well many centuries ago. These ruins have prevented scientists and archeologists from accumulating further data. And so, the Cenote Sagrado continues to guard its secret.
