JEST SOME THOUGHTS —

We're beginning to wonder about, and possibly agree with our Mother, that someone is bound to be spraying something in the air to make us feel so bad.

We look at our little grandson jumping and hopping around, and wish for just a little tiny bit of energy — we wouldn't be able to find work enough to keep us busy.

We don't know how many people are dragging these days, but we feel so slow, it must be nation-wide.

There is some doubt in our mind as to how much rain has fallen here the past two weeks, but we judge in the neighborhood of three to five inches. This is adding all the rains together.

We certainly haven't heard any one complaining, even though it may cause an inconvenience, like washing the small cotton, and crusting the earth to where the young plants can't come through if they haven't already. Some of the farmers have a real pretty stand — others are replanting. Many have suffered severe hail damage, and a few have received some hail damage.

We learned this week that the further southwest you go, the drier it gets. We were talking to a woman Tuesday who lives 17 miles southwest of Brownfield, and she stated they had received only a half inch of rain, and that it was drier further southwest from them.

We are thankful for every little drop, but like everyone else, we don't much care for it when it has to melt after it hits the ground. These heavenly chunks of ice can be devastating.

There have been three pretty bad hail storms in Ropes proper during the past ten days. Golf-ball size hail fell two weeks ago Saturday, then it hailed right hearty one night last week, and on Saturday night of last week, it hailed again. Seemed to us it was long and loud anyway, on the air conditioner and picture window that has no protection.

It seems odd to see the lakes filled once again. It has been quite some time since they have had enough water in them to even designate where the lakes are. Directly west, and northwest of here, we understand there were some roads closed over the week end due to excess amounts of raindrops.

We are personally looking forward to the long hot days to come that are referred to in our section as "cotton growing weather." Maybe if we can get a little heat into these old bones they'll quit aching.

When that time comes, we will probably stay under the air conditioner and complain because it is so hot. Such is life.

City councilman S. D. Buchanan informed us this week that it is now once again paint-up, clean-up time for Ropes. He didn't say if there would be extra hauling for the excess garbage and trash or not.

Ringling Bros., Barnum & Bailey Circus to Be in Lubbock June 15-16

NOW LOOK HERE! Charly Baumann, the world's outstanding animal trainer, stars in the super-spectacular 100th Anniversary Edition of Ringling Bros. and Barnum & Bailey Circus. The Greatest Show On Earth comes to the Lubbock Municipal Coliseum on Tuesday and Wednesday, June 15 and 16. There will be two performances each day, 2:30 p.m. and 8:00 p.m.

Boasting the mightiest multitude of astounding acts, artists and attractions ever beheld by mortal eye, the enthralling and entrancingly elaborate 100th Anniversary Edition of Ringling Bros. and Barnum & Bailey Circus is coming! The dazzling Centennial Celebration of The Greatest Show on Earth will arrive in Lubbock on June 15th, for Matinee and Evening performances at the Lubbock Municipal Coliseum on June 15 and 16.

In spangle-splashed observance of its monumental 100th year, Ringling Bros. and Barnum & Bailey has combed the earth to perfectly populate its Centennial Edition with an amplitudinous array of amazingly accomplished acts and artists. In addition, the Greatest Show on Earth presents in its 100th Birthday production, a prodigious panoply of professional pageantry which traces the long and glorious life of this unique and beloved American institution.

Produced by Irvin Feld. The Greatest Show on Earth is staged and directed by Richard Barstow.

The overwhelmingly spectacular 100th Edition of The Greatest Show on Earth is, without question, the most magnificent and memorable Circus performance that the world has ever seen!

The major critics of America are in agreement: the 100th Edition of Ringling Bros. and Barnum & Bailey Circus is, without question, the most elaborate and exciting Circus production of all time.

The mighty Centennial Circus will be in Lubbock on June 15th for matinee and evening performances on June 15 and 16.

We'd like to take this opportunity to inform the City Council that it is now time once again to spray for mosquitoes. We hate to have the itch from the bites, but we really hate to see the little kids eaten up with bites. They could also be dangerous, and we could possibly end up with an epidemic if there isn't something done in the near future.

Guess we'd better roll off the page once again, if we can find the energy. Perhaps next week will bring some fresh unpolluted air.

crowd spectacle. The best Ringling Bros. and Barnum & Bailey Circus in years!"

WCBS Radio Network: "It has everything you expect, and since this is the 100th Anniversary Edition, something extra!"

On June 15 and 16 Ringling Brothers and Barnum & Bailey Circus, now celebrating its 100th Anniversary, will begin its annual stupendous and awe-inspiring engagement in Lubbock.

Matinee and evening performances at the Lubbock Municipal Coliseum will present a panorama of The Greatest Show on Earth, a magnificent display, costing in excess of a quarter of a million dollars, that was prepared under the supervision of the Circus World Museum in Baraboo, Wisconsin, the nation's foremost repository of Circus history and memorabilia.

Like the Circus, itself, the panorama will travel and eventually criss-cross the continent for appearances in leading department stores, banks and museums.

Then comes a world tour after which the panorama will become a permanent history of Ringling Brothers and Barnum & Bailey Circus in the Smithsonian Institute in Washington, D.C.

The heart of this breathtaking panorama is the diorama which is hand-carved from wood, measures 6' across stands 5' high and 30" deep. An in-depth view of people, towns, performers etc. all hand carved from wood, pinpoints the exciting moments in the colorful history of The Greatest Show on Earth.

There are nine of these dioramas and all of them are the work of Jean Leroy, a former clown who has become one of the world's greatest living wood sculptors.

The first of these intricate, three-dimensional, dynamic diorama displays illustrates the first year of the wagon-moved Barnum & Bailey Circus complete with all the animals, people and attractions that made this show world famous.

Other exciting, animated dioramas pinpoint exciting moments in the flamboyant history of The Greatest Show on Earth, concluding with a look at the Ringling Bros. and Barnum & Bailey Circus, dressed in all of its 100th Anniversary splendor in Madison Square Garden.

In addition to the magnificent diorama, The Greatest Show on Earth's Centennial Panorama displays actual antique circus posters and priceless memorabilia from the extensive collection of the Circus World Museum.

Time flies, as a hundred years can testify, but with the diorama every memory of circuses past is captured, and every dream of circuses to be is born.

RECEIVES DEGREE

Mrs. Mary Lynn Glover received her Bachelor of Arts degree Sunday, May 16 from Texas Christian University in Fort Worth. A 1967 graduate of Ropes High School, she also graduated from South Plains Junior College in Levelland in 1969. Her degree major was Spanish, and she will be teaching Spanish in the Crowley schools near Fort Worth this fall. She carried a grade point average of 3.7 during her four years in college.

Mrs. Glover is the daughter of Mr. and Mrs. Eral Gresham of Route 1, Levelland. She and her husband, Fred, reside in Fort Worth where he is an attorney.

Clean Up Day Slated

Saturday, June 19, has been slated as another clean-up day for the Ropes Cemetery. The last work day was held on Memorial Day, but there had not been enough moisture at that time for the weeds to prosper much.

The Cemetery Board has deemed it will be necessary about the 19th, due to the rains, and the little weeds that

were peeping through the top soil a few weeks ago, to have this second clean up day.

Every one is urged to bring their implements and gather early in the morning in order to complete the project before the heat of the day.

Usually there is a real good turn out, and with several at work, the job does not take too long.

M. Whitehead Opens The Ropes Shamrock

The McLain Shamrock Service Station is open this week under new management. Formerly operated by Jim Miller, and known as Millers Shamrock Service, the station closed down on Sunday of last week, and was re-opened under the management of Maurice Whitehead. The station will now be known as the Ropes Shamrock.

Besides being offered quality Shamrock products and courteous, friendly service, Maurice is also offering his customers a chance at a free wash and grease job, an oil change and ten gallons of gasoline each week.

In order to win all the above listed, the customer simply plays "gas pump bingo." When you drive in to have gas put in your vehicle, if the gas pump automatically stops on

the same three numbers in dollars and cents (re: \$3.33 or \$4.44, etc.) you have won the free wash and grease, the oil change and ten gallons of good Cloud Master gas.

Rules of the game are: You MUST have the Ropes Shamrock advertisement from the Ropes Plainsman (found on another page of the paper); the gas purchase must be 8 gallons or more; and the pump must cut off automatically on three identical numbers; and only one winner a week will be eligible.

The ad will appear in the Plainsman every other week, and you should cut it out and carry it with you so it will be handy when you fill up with gas.

Maurice also gives free glass with each fill up.

TALIAFERROS RETURN FROM ENJOYABLE TRIP

(Mr. Taliaferro relates the story of the recent trip he and his wife were treated to.)

About our recent trip and back to the Gulf and East Texas as pre-arranged by our son and daughter, Bonnie Fay Sosebee and Lloyd Taliaferro.

Bonnie Fay, with her car, picked us up (wife and I) early Thursday morning, May 27th. We went by Lubbock for Sue Suter and her children.

We had a very pleasant trip to Austin via Abilene, Brownwood and Lampasas. Just a little north of Austin we passed through the place where my wife's father was born over a 100 years ago.

At Austin, we stopped at Richard and Linda Burns place for a short time. Bonnie Fay and children stayed there for a few days before returning home.

About 4 p.m. the same day, our son and his wife drove up from San Antonio to get us. A short ways south of Austin we went through the country where my wife spent her young girlhood days, mostly around and near Buda.

We were at our son and wife's place in San Antonio until Saturday morning. Then my wife and I, our son and his wife and grandson left for Port Aransas. My wife and daughter-in-law went by car and the rest of us by pickup with the boat and trailer, etc. We went via Highway 181 through Kennedy, Beeville, Simlon and Aransas Pass to Port Aransas. We found a lot of changes due to the last severe storm.

I believe there was more destruction than from Hurricane Carla. There was wind damage instead of water.

As some of you readers that have been there know of the large Matthews place, and later known as Sport Center, about three-fourth of this is completely gone. All fishing piers were destroyed. The two small ones have been rebuilt, and the long one in the Gulf is now being rebuilt.

As some of you know, some of the houses were built in piling eight to ten feet high.

The piling is mostly there out some of the houses are completely gone.

Fishing wasn't as good as it is sometimes, as the water was choppy because of the wind, but we did enjoy a lot of boating. We did catch 18 Gaff, weighing up to 5 or 6 pounds, and a few other kinds.

We returned to San Antonio Thursday, June 3rd. Friday, June 4th, we left San Antonio via Continental Jet at 11:15 a.m., arriving in Lubbock at 12:43 p.m., with about 20 minutes stop at Midland.

When we landed at Lubbock Air Port, Bonnie Fay was there at one gate with a big smile. And did we get our necks hugged. Thanks, Bon.

All this wonderful trip and visit was through the courtesy of our good son and daughter.

B. M. Taliaferro

BABE RUTH BALL

The Babe Ruth baseball teams will gather at 8 Thursday night for a ball game at the Little League Park.

WELCOME TO ROPES

A warm welcome to the Rev. and Mrs. Jesse Sepeda who have just moved to our community from Plainview. They have six children, the oldest is nine years old, and the babies are twin girls, who will be two years old next month.

Rev. Sepeda is the new pastor of the Immanuel Baptist Mission, located on North Timmons Avenue.

Mr. and Mrs. Bob Whitlock have just returned from a five week trip to Langley Air Force Base in Hampton, Virginia to visit Bobby John, who is returning to Vietnam for duty. While gone they visited North Carolina, South Carolina, Mississippi, Washington D. C., Georgia, Alabama, Arkansas and Tennessee.

En route home they stopped at Louisville to visit his brother, Charlie Whitlock. He suffered a heart attack, and the Whitlocks remained for his funeral.

COTTON TALKS

From Plains Cotton Growers Bills are pending in Washington which would raise the minimum wage for agriculture workers, include many more farm workers under the minimum wage, make farm workers and workers in agricultural processing plants subject to overtime laws, and bring agricultural labor under the National Labor Relations Act. The latter section would for all practical purposes assure the rapid unionization of farm labor across the country.

Of the minimum wage bills, all of which propose to amend the present Fair Labor Standards Act, the most onerous in the eyes of agriculture is S-18-61, introduced by Senator Harrison Williams (D-N.J.), chairman of the Senate Labor and Public Welfare Committee. The Williams bill would raise the minimum wage for agriculture in three steps, to \$1.70 the first year, \$2 the second year and \$2.25 thereafter. It also would extend coverage to farms utilizing 100 man-days of labor in any one quarter of the year and remove all overtime exemptions for agricultural workers and agricultural

processing workers. Thus time-an-a-half pay would be required for hours worked over 40 in one week or over 8 in one day.

The present minimum wage applicable to agriculture is \$1.30 per hour for farms using as many as 500 man days in a calendar quarter, with no overtime requirements.

Representative John Dent (D-Pa.) has introduced a bill which would increase the agricultural minimum to \$1.50 effective August 1, 1971, \$1.60 during 1972, \$1.80 during 1973 and \$2.00 thereafter. It would also remove the overtime exemption for agricultural processing workers, but not for farm workers.

Representative Wilbur Mills' proposal would make a \$1.50 minimum wage effective in agriculture as of February 1, 1972, with no subsequent increases and no change in present overtime exemptions.

Speaking for the Administration Secretary of Labor James Hodgson has recommended \$1.45 per hour for agriculture in 1972 and \$1.60 per hour beginning in January 1974.

Ed Dean, Field Service Director for Plains Cotton Grow-

ers, Inc., says "It does not look now as if we will be able to stop the passage of some form of minimum wage law affecting agriculture during this session of Congress. But we are doing all in our power to inject some reason into the thinking in Congress and prevent the passage of legislation that will completely ruin the agricultural economy."

The most serious long range threat, according to Dean, is the move by "organized labor and company" to bring agriculture under the National Labor Relations Act. Consequently Dean has written President Nixon requesting Administration support for a separate labor relations law for agriculture. He made four main points.

(1) No labor contract involving a union should be valid or recognized until the union or other organizing entity has been selected by the workers involved by secret ballot;

(2) Agricultural producers should be given protection against strikes in critical periods particularly at harvest time, because strikes at such periods leave the employer without a bargaining position;

(3) A special board, separate from the present National Labor Relations Board and made up of individuals knowledgeable in agriculture, should be established to handle questions in farm labor disputes, and

(4) Legislation against secondary boycotts, in which actions against a third party are taken to force acceptance of union contracts by both employers and employees, should be strengthened and vigorously enforced.

Visitors over the week end in the home of Mrs. Isla Etheridge and Mrs. W. H. Wikison were their nephew and grandson, Mr. and Mrs. Elton Arnold and daughters. Sunday dinner guests were the Arnolds, Mrs. Donald Glenn and Kevin and Mr. and Mrs. J. R. Gailey.

A TOAST TO DAD ON FATHER'S DAY

The sixty-first annual Father's Day will be celebrated on June 20 when the nation will pay tribute to the heads of over 50 million households. While this day is set aside to honor Dad, it is really the ladies who have made it a success.

Women will buy 75 per cent of the gifts for Father's Day and this year the total tab will run to over \$1 billion. In fact, it was a woman who first thought it would be a good idea to honor Dad with a special day. Mrs. John B. Dodd of Spokane, Wash., is credited with originating the idea in 1909. It was so popular that the first official Father's Day was celebrated in 1910 and it has been going strong ever since.

Father's Day is now second only to Christmas in gift-buying dollar volume, leading Mother's Day, Valentine's Day and Easter according to a study by researchers at Black & White.

San Angelo — A recess in negotiations to review and study company and union proposals was jointly announced Friday (June 4) by Communications Workers of America and General Telephone Company of the Southwest.

Sessions are scheduled to resume Monday, June 21 un-

called meeting prior to that

Since negotiations began on May 19 the union and the company have presented proposals to revise the present three-year contract which is scheduled to expire June 27.

Some of the recess time will be spent by the company and the union representatives attending meetings to which they were previously committed, according to the joint statement.

J. D. Nichols has returned to his home in Ropes after staying several week with his brother in Burk Burnett.

Mr. and Mrs. Marvin Walker of Lubbock visited Sunday in the home of Mr. and Mrs. Sid Price.

Art Courses at LCC Increased

Art has a growing future at Lubbock Christian College with the advent of new courses in the fall semester that will allow elementary and secondary education majors to choose art as their teaching field.

Education majors are encouraged to take advantage of summer school at LCC to gain hours in required courses and take Art 332, "Art Education for Elementary Teachers".

Sometime in the near future LCC plans to offer art majors in commercial art and studio art.

Anyone interested in taking are the second semester of summer school (July 8 to August 13) or in the fall, contact J. Lee Roberts, acting Chairman of the Lubbock Christian College Art Department.

Visitors this week in the home of Mr. and Mrs. Robert Hall are their grandchildren, Randall and Cheryl Fowler of Euess and Carece and Lamoin Hall of Louisiana.

Mrs. Ruby Saunders from Meadow is here visiting in the home of her brother, Mr. and Mrs. Earl Odum.

Mrs. Bob Abbott of Lubbock and Mrs. W. E. Walling were in Cisco over the week end attending a family reunion.

Coy Allen of Huntsville, Arkansas is here visiting with his parents, Mr. and Mrs. Carl Allen.

Early Settlers Reunion

The Hockley County Early Settlers Reunion will be held July 10 in Levelland. This will be the 10th anniversary for the Early Settlers celebration, and the 50th year anniversary for the City of Levelland.

The board of directors for the Early Settlers desires to know where the first school house was in Ropes, the first teachers and students. Anyone with this information is asked to please contact Mrs. L. S. Rosser or Mrs. Jewel Robison. They would also like to know the names of any early settler who has passed away since last July.

The committee needs funds to help pay the entertainers, the awards and for the annual dinner served at the Womens Building on the Fair Grounds in Levelland. Anyone wishing to donate to this cause should make their check out to the Early Settlers Reunion, and the donation is tax deductible. You can either mail your contribution in, or call Mrs. Rosser, and she will pick it up.

If anyone has an item they would like to loan to the Museum for the reunion, the item will be recorded, and may be picked up later.

TOO LATE TO CLASSIFY FOR SALE — Kittens, all kinds, 5 cents and up. Please! Call 562-3661 and make a kitten happy with a nice home and good food!

Winfred Fox of Madisonville and Homer Fox of Houston visited Wednesday evening in the home of their brother, Marshal and Mrs. O'Neal Fox. They were en route home from Denver.

Stanley Shanklin of Shreveport, La., is here visiting in the home of his grandmother, Mrs. Troy Morris, and aunt, Mr. and Mrs. B. J. Thomas, and Irene.

Dean Andrews, former teacher in Ropes Public Schools and now principal in Tahoka Public Schools, was a pleasant visitor in the Plainsman office this week.

Skeet Roberson of Lubbock, former resident of Ropesville, was an appreciated caller at the Plainsman office this week.

Mr. and Mrs. J. N. Willis and Mr. and Mrs. G. C. Bevers of Levelland enjoyed an evening out Saturday in honor of their wedding anniversaries. It was the Willis' 40th anniversary and the 33rd for the Bevers.

Mrs. Clyde Loveless, Mrs. Mansfield Thomas and Brenda and Mrs. Lynn D. Patman of Lovington are attending the Nazarene Church camp near Ruidoso.

Mrs. Emory Hobbs was in Levelland Saturday visiting Mrs. Jack Jenkins. She visited a friend, Pearl Brown, in Tahoka Wednesday.

Mrs. M. L. (Ida Mae) Roberts Jr. is now at home after spending five days last week in a Lubbock hospital.

New Arrivals

Mr. and Mrs. Bob Sparkman of 205 Murphy Road, Burleson, on birth of a daughter born at 1:53 a.m. June 5 at Harris Hospital in Ft. Worth. She weighed seven pounds and five ounces and has been named Michelle.

Maternal grandparents are Mr. and Mrs. J. C. Pointer of Route 1, Ropesville. Mrs. Sparkman is the former Freda Pointer.

Mr. and Mrs. Emory Hobbs were in Meadow last Thursday attending funeral services for Johnny Bingham.

M. L. Roberts Jr. will enter West Texas Hospital in Lubbock June 16 and undergo knee surgery the 17th. He injured his leg several months ago in a motorcycle accident.

Visitors this week end in the home of Minnie Fewell were her sisters, Mr. and Mrs. John Shewbert of Dalhart, Mrs. Clara Bailey of Amarillo, Mrs. Helen Davis of Canyon and Mrs. Mildred Fewell of Carlisle and a niece, Vickie Matisler of Roosevelt.

CARD OF THANKS
I would like to thank every one for the cards, flowers, phone calls and words of encouragement during my recent illness and stay in the hospital. May God bless each of you.

Mrs. M. L. Roberts, Jr. Mr. and Mrs. Dennis Raspberry were in Clovis over the weekend visiting her daughter, Mr. and Mrs. Ladsen Worley and family.

Mike Dunavant's Message Appreciated

Dr. Mike Dunavant was the morning worship speaker on Sunday, June 6, and a number have expressed their appreciation for his most timely word to our congregation. Mike spoke of the difficulties that many people, especially those of scientific orientation, have in understanding and interpreting the Bible. He mentioned that many of these people really are searching for a meaningful faith but they meet a stumbling block in reading sections of the Bible that seem to conflict with demonstrable truth which they deal with routinely. Hence, there is confusion and uncertainty with little help available from the old neighborhood church. He feels that pastors and church study groups should deal with this problem more realistically.

Mike and his bride of a few weeks, Kathy Arnold Dunavant, are residing in Ft. Collins, Colorado where he is rounding out his degree in veterinary medicine. He hopes to return to this section of Texas for practice when he completes his schedule in the University of Colorado.

Clean-Up Day Is Scheduled For Saturday
The annual clean-up day of the church and grounds is scheduled for Saturday of this week starting at 9:00 A.M.

It is hoped that planting, scratching, sand fighting and other pressing jobs will be under control by that date. Bring tools for moving dirt, trimming shrubs, nail pulling, general repair and cleaning. And don't forget the sack lunch, most important. There could be a few afternoon quick jobs to finish.

Council Of Ministers To Meet Wednesday

The Council will meet June 16, at 8:30 P.M. to discuss a general overview of our program for the year before us. All members, especially age-level and family ministers and work area chairmen should be prepared to suggest long range program activity for consideration of the Council. Check your May INTERPRETER and your 1971-72 Program Calendar. If you do not have a GUIDELINE booklet relative to your responsibility one may be secured from the pastor Sunday.

Fellowship Discussion Groups Meet July 7

We are out of pace with Discussion Group dates due to the foul-up over the COCU study and our Family Night celebration. We will be back on schedule July 7 with a meeting at the church that evening.

Ranger Crop Hail Insurance Information

The "EXTRA HARVEST EXPENSE ALLOWANCE" feature is available only to Ranger Insurance Exchange policyholders at no extra cost. It is a known fact that growers must spend more money to harvest a crop after a severe hail. Ranger is providing insurance coverage to help pay for this extra harvest expense. RANGER'S STAR STEPLADDER has built-in advantages over other stepladders on the market. Ranger's coverage dates are constant as specified in the policy and are effective regardless of the date of stand. Under the Star Stepladder, coverage goes into force faster and earlier, especially on late stands than other stepladder forms.
