T. F. B. To Send 10 Voting Delegates To Convention

The Texas Farm Bureau will send ten voting delegates to the 54th annual meeting of the American Farm Bureau Federation December 10-14 at the Convention Center in Los Angeles.

State delegate strength is based on membership size. The TFB ended its official year with a record high of 136,943 member families enrolled.

Also planning to attend the convention from Texas are a number of county Farm Bureau leaders, state officers and board members and staff, as well as representatives of Farm Bureau young peoples' activities.

National policies to guide the 2-million-member AFBF will be adopted by voting delegates from 49 states (all except Alaska) and Puerto Rico. The TFB annual convention Nov. 12-15 in Houston approved recommendations on a number of national issues.

The TFB is asking for an extension of the Agriculture Act of 1970 and said the set-aside portion of the law should be supplemented by some form of long-term land retirement program.

TFB opposes dollar limitations on government payments. It is also against government-owned or controlled reserves of farm products.

Restrictions on use of farm chemicals and feed additives should be removed unless they are proved harmful, the TFB recommended. TFB also wants more research by USDA to develop new materials and methods which are "economical and ecologically safe" in controlling harmful insects.

Guest speakers include Governor Ronald Reagan of California and Frank E. Fitzsimmons, president of the International Brotherhood of Teamsters. AFBF president William J. Kuhfuss and Secretary-Treasurer Roger Fleming will also address the convention.

Heading the Texas FB delegation will be J. T. (Red) Woodson of Gober, recently elected to his third one-year term as president.

Other delegates include: Vice-President Carroll Chaloupka, Dalhart; Secretary-Treasurer Bill Reid, Lamesa; and State Directors H. L. King, Brownfield; T. J. Richards, Paducah; Dan Pustejovsky, Hillsboro; Edwin Sanderson, Paris; B. J. Gist, Abilene; John A. Smith, Cameron; and Henry Burton, Lufkin.

Representing TFB in young peoples' activities will be Miss Anna Marie Shutt, Edna, 1973 Queen; Miss Anna Mary (Scout) Bergner, Stinnett, state Talent Find winner; and Wesley Jarvis, also of Stinnett, Discussion Meet representative.

Miss Shutt, daughter of Mr. and Mrs. Harvey A. Shutt, Edna; will be introduced, along with other state queens, at a

Boy Scouts Take First Airplane Ride

Pictured in front of the airplane in which they flew are from left to right: Kathy Means, Shane Lowrie, Eddie Salas, Den Chief Jeff Ivy, Davy Roberts, Shannon Lowrie, Kevin Carter, Danny Ochoa, Jimmy Ivy, Jody Means and Hortensia Ochoa. Unable to attend this meeting due to illness were Charles Arthur and Terry Mayfield.

When the Cub Scouts of Den 1, Pack 563 Ropesville were informed that the theme for the month of November was "Things That Go" they didn't stop to think about how Den 1 the "sky was the limit." After a wait of three weeks for a fair Monday afternoon the boys were off to the Means hangar for their first airplane ride with one of their Den Dads, James Means Jr. After their rides the cubs were treated to a one man airshow complete with loops and spins.

To follow through with the November theme of "Things That Go" the boys will compete in a Space Derby at the monthly pack meeting in the Cafeteria November 30 at 7:30 p.m. The cubs and their fathers have built the rockets and will race them for participation ribbons and trophies.

The Den Leaders, Kathy Means and Hortensia Ochoa state that they are very proud of their growing den of cubs. Starting out with only four boys in October, the den has increased to a present number of ten. Any boy eight years or older who is interested in belonging to the scouting program may contact one of the den leaders or any one of the Cub Scouts.

The Ropes Chapter of Future Farmers of America recently elected officers for the year 1972-73. Those elected were: President, Marty Salinas; Vice President, Benny Cruz; Secretary, Jesse Guzman; Treasurer, Rudy Quintanilla; Reporter, Danny Belew; Sentinel, Max Blackmon.

Update Your Estate

It's a sound idea to update your estate by considering the assets of land, machinery, buildings, livestock and other personal effects that you have accumulated during your lifetime.

Why? So that you can cut the erosion of your resources, points out county Extension agent Jimmy Vanstory.

Estate planning can assist farm and ranch families by creating an equitable compromise for minimizing the amount of taxes due, distributing property as desired to beneficiaries, and assuring financial security.

Determining assets is a vital part of estate planning, notes Vanstory. The value of per-

20 Traffic Deaths In Region 5 For First 10 Months

The Texas Highway Patrol investigated six accidents on rural highways in Hockley County during the month of October, according to Sergeant H. E. Pirtle, Highway Patrol supervisor of this area.

These crashes resulted in no persons killed and ten persons injured.

The rural traffic summary for this county during the first ten months of 1972 shows a total of 105 accidents resulting in two persons killed and 103 persons injured.

Region 5 of the Texas Department of Public Safety shows a total in October, 1972 of 605 accidents, resulting in 20 persons killed, and 280 persons injured as compared to the same month in 1971 with 595 accidents resulting in 19 persons killed and 294 persons injured. This is 10 more accidents, one more fatality and 14 less injured in 1972 at the same period of time.

The Highway Patrol supervisor reminds you that the winter months of cold weather are close by and the traveling conditions are more dangerous at this time of year. Allow a following distance of one car length for every 10 mph of speed between you and the vehicle ahead.

The 20 deaths for the month of October, 1972 occurred in the following counties: Lubbock and Lipscomb, four each; Yoakum and Randall, two each; and Parmer, Potter, Sherman, Swisher, Wilbarger, Bailey, Haskell and Palo Pinto, one each.

No reasons were given for the termination of the negotiations.

The cafeteria is still booming this week, especially after Mrs. Briggs took on another job of having to call a certain lady to get her to work.

That suggestion box at the cafeteria has brought in the vote for more hot dogs, Pizza and ice cream.

**G.O.P. Rumbles-
Nixon's Task-
Democratic Changes-
Mitchell & Westwood-**

Washington, D.C. -- President Nixon is faced with dissension in Republican ranks on Capitol Hill. There is a feeling among some solons the President did too little in the campaign to produce a G.O.P. majority.

In the Senate, where the party lost a net of two seats, some Senators feel the President, by campaigning more in states such as Colorado, as he so often has done in the past, could have meant the difference.

In addition to this feeling, there's disenchantment among G.O.P. solons over the quality of the liaison between the White House and Congress. It hasn't been what it could have been, is partly responsible for several presidential defeats, including the rejection of two nominees to the Supreme Court.

Thus Mr. Nixon must mollify key congressional leaders and improve his congressional liaison team, if he is to gain maximum influence in the 93rd Congress.

There are indications Democrats are likely to suc-

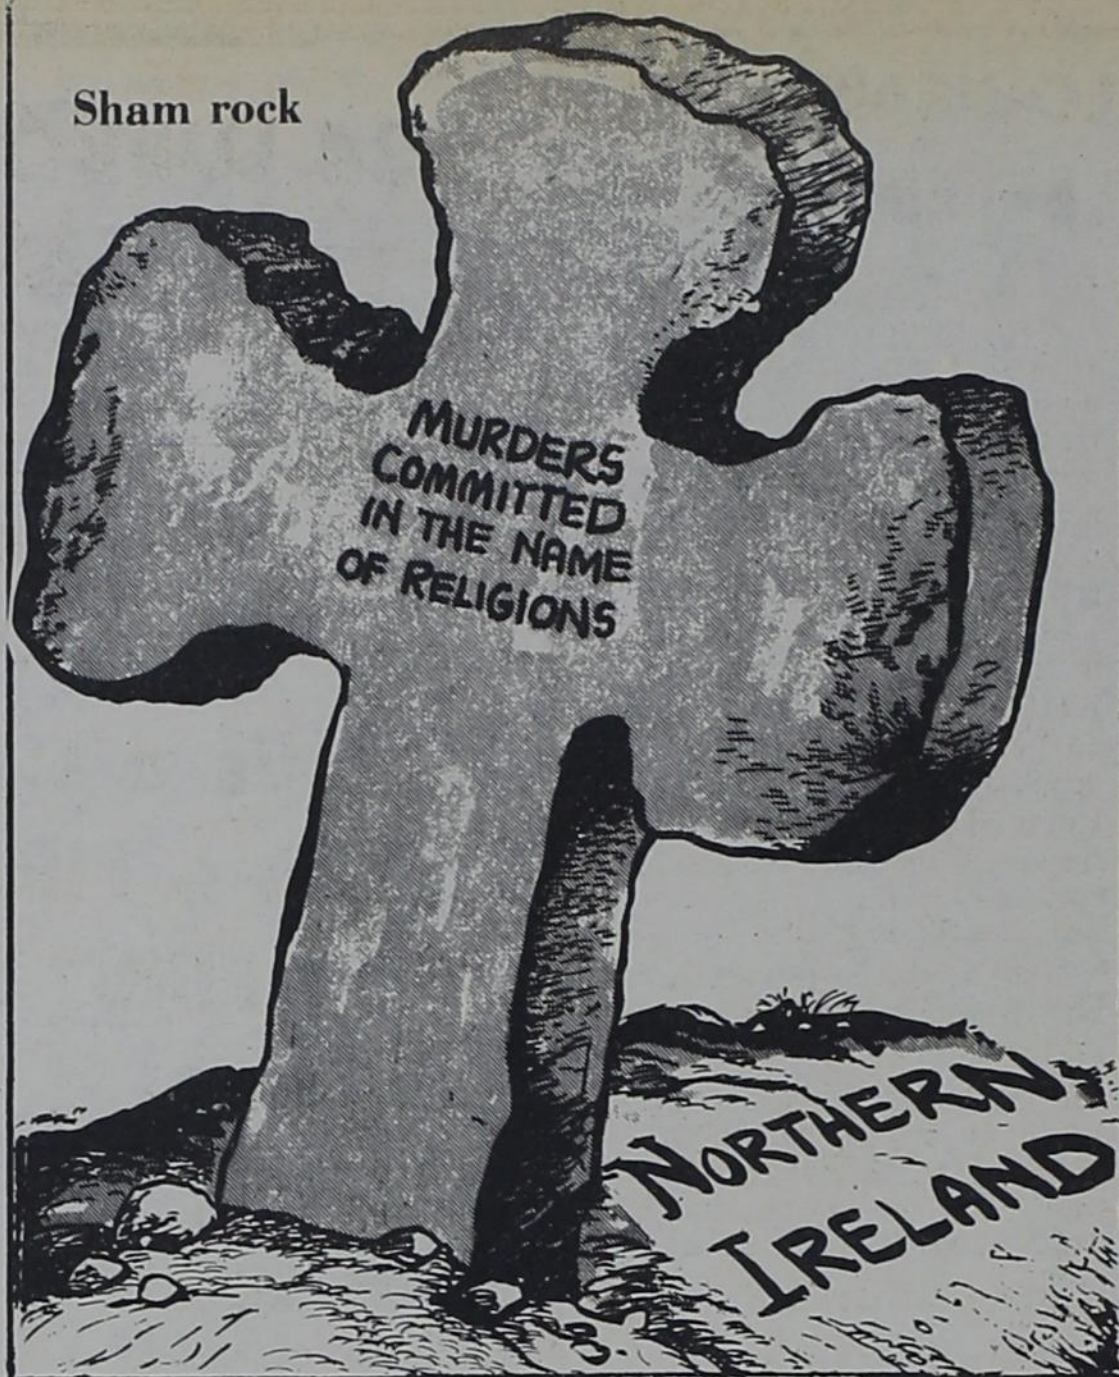

ceed in remaking their party structure. Chairman Jean Westwood is expected to resign at the December 9th National Committee meeting. But she won't give way to Robert Strauss, or anyone she considers a moderate or conservative--according to reports.

She'll only step down when someone like George Mitchell of Maine, a friend and former employe of Senator Edmund Muskie, has the votes to succeed her. She feels party reforms adopted recently are of paramount importance and only if she can save them is she willing to go.

If she cannot, there is likely to be a fight in the party and the present split could remain. The question is whether the liberal Mitchell can regain party losses in areas such as the South, that is, whether he can rebuild the party from the traditional groupings which have so often produced victory in the past.

And some wonder if Mitchell, or others on the left, really want to regain the conservatives.

State Capital NEWS

BOYKIN

December 31 is the deadline for owners of advertising signs along major interstate, U. S. and state-numbered highways to apply for permits under the new Texas Highway Beautification Act.

The act is designed to control all outdoor advertising from big billboards to fence signs the right-of-way line.

It requires that no sign can be erected within 660 feet of an interstate or federal-aid primary highway without a special \$25 outdoor advertising license. An additional \$5 permit is also required for each sign.

On-premise signs -- those advertising activities on the land or offering the property for sale -- are exempt.

The law, passed and made effective last June 29 to avoid loss of federal road-building aid, will be implemented in stages.

License applications, first stage in the process, must be accompanied by a \$2,500 bond for each county in which signs are located up to a \$10,000 maximum for owners with signs in more than three counties.

Permits will be issued for signs in place prior to June 29 whether they conform to the law or not, and these will be allowed to stay in place until programmed for acquisition or removal. New signs must conform to the law before permits are issued.

The Highway Department also has begun removal of abandoned and illegal signs on controlled highways.

Those planning to erect new signs on controlled highways are advised to check with Highway Department district offices to determine if the location conforms to the law. Property owners have also been advised to contact the department's district offices concerning signs located on their land without permission.

LEGISLATORS BRIEFED--State legislators received briefings last week on three major issues to confront them in January.

A pre-session legislative conference at the Lyndon B. Johnson School of Public Affairs of the University System here provided details on:

--Need for judicial reorganization. The court system was termed a hodgepodge of independent operations with "no-

body minding the whole store."
--Federal revenue sharing and its impact on state and local finance. Legislators were advised Congress and taxpayers will be looking over their shoulders to see that new federal windfalls are wisely spent.

--Property taxation and school finance. Major overhauls in the system of financing public education and in property tax administration are needed, tax authorities said.
AG OPINIONS--A recent opinion by Atty. Gen. Crawford Martin warned that closed meetings of governmental agencies with attorneys and staffs can be held only for limited purposes.

Martin's opinion, requested by Beaumont Criminal District Attorney Tom Hanna, said agencies can meet privately with attorneys only to discuss pending or contemplated litigation. It concluded the agencies can meet with staff members only to discuss matters of internal administration. Martin delivered a detailed interpretation of the state open meetings law in response to Hanna, who inquired whether county commissioners can meet in private to discuss legal matters with their attorney.

In other recent opinions, Martin found:
*The state may sell or rent property bought in delinquent tax sales before expiration of the two-year redemption period.

*A law making it a penal offense for any bond seller to make a financial contribution to a State Board of Education candidate is unconstitutional.

*Parks and Wildlife Commission has no authority to issue licenses for hunting from aircraft.

COURTS SPEAK--Court of Criminal Appeals affirmed a 1,000 year sentence assessed a Dallas black for raping a white girl, overruling a defense complaint that no blacks were on the trial jury.

The State Supreme Court affirmed a Plainview jury and Amarillo Court of Civil Appeals finding that an insurance company owed damages for accepting health insurance premiums from an old couple without intending to pay claims.

A Tyler man lost an appeal to the Supreme Court in a suit for \$25,000 in insurance on his wife who died of gunshot wounds nine days after she applied for coverage.

The Supreme Court agreed Baytown Savings Association was entitled to a charter to do business.

Human Repair

Dr. Russel Lawson, of the University of Oregon Medical School in Portland, has successfully removed the kidneys of two patients, repaired and replaced them in the patients' bodies successfully.

Dr. Lawson told the American College of Surgeons recently, in reporting on the successful repair-operations, that other organs of the body could be similarly repaired and reimplanted--such as the heart and liver, for examples.

Reimplanting patients' own repaired organs avoids the problem of the body's rejection of alien organs, a problem which so often has plagued heart-transplant operations.

The new technique offers new hope to millions, though not an immediate hope, and if practice and further experiment prove Dr. Lawson correct, this technique would seem preferable, when possible, to the transplanting of alien organs.

CANDIDATES SPEND MILLIONS
U. S. Sen. John Tower and Governor-elect Dolph Briscoe spent a record \$5 million in their campaigns.

Tower, best financed congressional candidate in the country, reported expenditures of \$2.6 million.

Briscoe reported he spent \$2.4 million.

Tower's Democratic opponent, Barefoot Sanders, said he spent \$625,674. Briscoe's Republican opponent, State Sen. Henry Grover, reported outlays of \$1.2 million.

Tower listed contributions of \$2,597,466 and debts of \$19,371. Briscoe itemized contributions of \$1,939,896, indicating he picked up a \$500,000 deficit.

NEW WELFARE PROGRAMS ORDERED--The State Board of Public Welfare ordered staff members to begin developing programs to comply with requirements of Social Security amendments.

Amendments require the federal government to assume financial responsibility for aid to all adult categories of welfare recipients on Jan. 1, 1974. The three adult categories now eligible for state welfare assistance are needy blind, needy aged and permanently and totally disabled. The state must establish a program for continuous review of welfare recipients hospitalized or in nursing homes or mental institutions. The Board also directed that persons moving into the state must live in Texas 90 days before they are eligible for assistance.

A Board legislative proposal would allow garnishment of wages in child support cases.

BENEFIT COMPLAINT LODGED
The State Insurance Board heard a complaint that a federal law to boost workmen's compensation benefits for longshoremen and other harbor workers is unrealistic in defining workers covered.

A Houston insurance agent said the new higher premium rates for coverage would extend to all employees of a ship yard, including cafeteria workers, parking lot attendants and gate guards. The agent said an employer with a \$15 million annual payroll would have to spend \$1.5 million in workmen's compensation premiums. Benefits would scale from \$167 a week to \$267 in 1975.

State Insurance Board held a hearing Wednesday on changes in fire and homeowners insurance rates.

Mrs. Malcolm Milburn of Austin resigned as vice-chairman of the State Republican Party.

A Senate Must

One of the first orders of the new Senate should be consideration and passage of the so-called Rodino bill which would provide penalties for employers who knowingly hired illegal immigrants.

The bill passed the House earlier this year overwhelmingly (253-47) but the Senate failed to act on it in its traditional last-minute rush. The bill was authored by Congressman Peter Rodino (D-NJ), Chairman of the House Immigration Subcommittee, a group which held hearings in many cities on the measure, hearing 187 witnesses.

The subcommittee designed the bill to help stem the flood of illegal immigration into the U.S.--desired mainly by employers who exploit illegal arrivals. The continuing flow of these immigrants works special hardship on women, blacks, older workers and those in depressed areas, since the illegal immigrant will accept almost any working conditions to remain in this country. They are thus exploitable, and deprive American citizens of thousands of jobs.

In recent weeks signs have appeared that apologists for employers utilizing this illegal immigration are hoping to prevent Senate action--if they have not already been successful in delaying it. The new Senate should, therefore, positively act on the Rodino bill in January, as soon as it convenes, especially since it's estimated illegal immigration into this country has grown to the point where it now exceeds total legal immigration by a considerable figure.

Cutting Property Taxes

President Nixon recently said he hoped to reduce property taxes by half before his present-four-year term of office is ended. If the President can accomplish that, he will have done more to alleviate an unjust financial burden in the form of excessively high property taxes for the middle class in America than any other President.

Several proposals have been put forward. The most desirable is that to allow property taxes paid by home owners to be deducted from federal taxes--up to a certain figure.

Other proposals include one which would guarantee local communities federal reimbursement when and if they lowered property taxes. But this proposal doesn't guarantee relief, fairly and nationwide, to all on an equal basis.

The proposal to allow taxpayers an exemption from federal taxes to offset part of their property taxes would mean instant, equal treatment for practically everyone; special provisions could easily be made for those few not benefited equally.

The President's proposals will be sent to the 93rd Congress. Members should see to it this is one order of business speedily and positively dealt with. The electorate made its views more than clear on this subject in the primaries of 1972.

TV COMMENTARY

VIEWERS who resented Little Joe's bride meeting an untimely demise in "Bonanza's" opener this season can now say goodie-goodie. The fourteen year old series will bite boothill dust come January 23, making way for more TV movies.

WHAT WITH THE WAY things are going, Dodge City's famed marshall had better begin looking over his shoulder. Word has it that ABC's "Alias Smith and Jones" will disappear in a cloud of dust and unhearty hohum. The health of "Gunsmoke" may be hazardous, too.

ON DECEMBER 4TH ABC's science editor will talk to government officials, scientists and politicians to find out what will happen to the U.S. space program after the next Apollo launching. It should be an interesting conversation for those interested.

SANDY DUNCAN'S show will fade away at mid-season. Keeping her company will be CBS's lowest-rated new entry "Anna and the King." Rising in their stead will be an untitled mystery drama starring Beverly Hills-billy's Buddy Ebsen.

A TV PRODUCER was quoted recently as saying people are so conditioned to the laugh track that if they don't hear it they don't know a show's a comedy. Could be. But again, maybe the bloke on the show with the joke is a hoax, making the so-called comedy a tragedy. A rose by any other name is still a rose.

MAUDE is a loudmouth, wisecracking character on CBS's new comedy series. The show is funny and enjoyable, and Bea Arthur is excellent as hardboiled, sometimes tender, Maude. However, ask your analyst why the American male crosses his legs when viewing "Maude."

Treat criticism like charity—let it begin at home.

LOUISA'S LETTER

Dear Louisa,

I've been going steady with this boy for two years and I would like to be married this June when I finish school. My problem is that my parents do not like this boy. To begin with he doesn't have a very good job and I would have to work for us to make out. My brother says I will end up supporting him as he says he has seen him drunk and dating other girls. I don't know whether to believe my brother or not. He may be trying to make me break up with him.

Another thing is that my boy friend doesn't seem to really care whether we get married or not as long as we keep on going steady. Do you think that is the right way he should feel? What do you think I should do?

May--Ala.

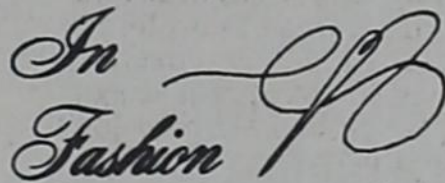

Answer:

If your entire family disapproves of this young man it would be well to really find out if he is dependable before you sign up with him for life.

Physical attraction can be very strong and that kind of love can seem to be the most important thing when one is young--but the awakening can be dreadful when one discovers that the man they married is really a drunken bum.

Louisa.

Update Your Estate
Continued From Page 1

sonal effects, real estate, stocks bonds, bank accounts, life insurance policies and other business interests make up a part of the gross estate which may be taxable.

In considering the value of these holdings, families should become familiar with the term "fair market value." This is the value determined at time of death or six months thereafter. It is the price at which property changes hands in a reasonable time between a willing buyer and a willing seller, both having reasonable knowledge of the facts.

This means that the present selling of land and real estate in an area helps establish the fair market value. Once this value is established in an estate, costs associated with taxes and the amount of ready cash needed to settle an estate can be determined.

Vanstory points out that the value of farm and ranch land has increased 10 percent during the past year and all indications are that this climb in value will continue.

When it comes to distributing property, a will is an invaluable document, contends the agent. He suggests seeking the legal advice of an attorney in this matter.

A series of fact sheets on estate planning are available at the county Extension office which provide guidelines for sound estate planning, adds Vanstory.

Stalk Destruction Deadline Nears... Boll Weevil Suppression Program Popular and Successful... 4.5 Million Market News Bulletins... Turkey Promotion Year Round

Cotton producers in 44 north central and east Texas counties are reminded that Nov. 30 is the deadline for cotton stalk destruction. No area extensions are expected to be made. Individual extensions may be granted, but requests for those will have to be made by contacting Texas Department of Agriculture at Austin.

Cotton stalk destruction reduces the number of pink bollworms that enter hibernation next year as well as reducing infestations of other cotton insects.

THE STATE'S boll weevil suppression program for this year has been as popular as it was successful. A total of \$300,000 was allocated for the program this year which is matched on a half-and-half basis by producers. About 450,000 acres were included in the program which is aimed at reducing next year's weevil populations.

Records show there was a greater infestation of weevils this year than in any season since the program began in 1965. Farmers in 11 counties participated in the diapause program for the 1972 season.

Funds for the program are limited although it is expected that more requests for assistance will be forthcoming from cotton producers in 1973.

ABOUT 4.5 million market news bulletins will have been mailed to Texas agricultural producers by the end of this year from the Texas Department of Agriculture's market news service.

They will be mailed to about 85,000 Texans. The market news service contacts about 1,200 people each week in collecting its market news reports.

Items ranging from daisies to ornamental crops to molasses to livestock and crop reports are covered in the market news reports.

The livestock market news apparently is the most popular. It is an eight-page publication and includes 16 state livestock markets plus grain markets from five areas. It goes to 77,000 people each week.

The poultry and egg report is also popular. It is mailed to 1,800 egg producers and egg industry people.

One of the most popular reports right now is the pecan market. Other market reports include watermelons, rice, ornamental crops, and vegetable and fruit market reports from Hereford, Dallas, and Weslaco.

You can also get instant market news by calling these numbers:

- Austin--pecans, poultry and eggs: 1-512-475-3845.
- Amarillo--livestock: 1-806-372-3494.
- San Antonio--livestock: 1-512-223-4100.
- McAllen (after 5 p.m.)-- fruits, vegetables: 1-512-682-3351

PROMOTION of turkeys will continue through the year through the cooperation of the state's turkey producers and the Texas Agricultural Products program. Texas is the fifth leading state in the nation in total turkey production. Turkeys grown in the state totaled more than 8 million head.

The Central Texas area is the state's major turkey producing region. Bell County is the top turkey producing county in the state. Hill, McLennan, Falls, and Robertson counties are also in the top 10. Total production of those counties accounts for almost 40 percent of all turkeys produced in Texas.
