## CREATIVITY

—Ted Dotts

It is difficult to speak of creativity without also speaking of anxiety. The manner in which we deal with our anxieties determines the degree or even the existence of our creativity.

Anxiety is difficult to define. It is different from fear in that fear is caused by something external to ourselves. For instance, if a car narrowly misses us as we are crossing the street, the feeling we have is one of fear. But anxiety is different in that it indicates some thing inside ourselves is causing us to be afraid. Most often anxiety might be called "nameless dread." We do not know what it is that makes us anxious, but there we are surrounded by a nameless dread of what we do not know.

At the least, anxiety indicates the presence of a problem that needs to be solved. And we are stuck with it. We can not move away from it because it is a part of ourselves. So, we have two choices when dealing with this nameless dread we tag anxiety.

First, we can repress it. That is to say that we can push it so far down in our subconscious that we think we have forgotten it. Of course, as any psychiatrist would point out, this does not get rid of the problem at all. In fact, it may make the problem even bigger because it will grow out of proportion once it is rooted in the "soil" of our subconscious.

And, repression can take other forms than burial in the subconscious. We can repress our anxieties by getting involved with the things of the world. We can try to deaden our anxieties with alcohol. This works! But only for a little while. Once the alcohol wears off the anxiety sufferer is faced not only with his original anxieties, but in addition he has a hangover to face and maybe some additional problems he created for himself while he was drunk.

We can try to deaden our anxieties by getting involved with collecting things. Some people furnish their homes in this or that and keep themselves from facing their anxieties by always being on the go to find a new carpet, new drapes, new pictures, etc., etc. But, of course, this does not work either. The moment you wish to settle down and get out of the rush here comes your anxiety welling up in you and off again you must be to dodge it.

In this way mental illness is born. How we face our anxieties determines the health of our whole self. If we cannot cope with our anxieties, we retreat into this or that until retreat is no longer a possibility and then we are sick, mentally sick.

The second choice we have when dealing with our anxiety is the way of creativity. This is to say that we take the God given talents which are ours and do our best to meet each situation that allows anxiety — nameless dread — to spring up in our being.

This is part of what it means to have faith. We approach life and its anxieties knowing full well that we are fearful of what is besetting us, but we do not run we stay and fight. This is part of faith. We say, "O God I am too weak, too sinful, to meet this or that problem of life, but thou, O Lord, can Turn to Page 5

## Oil Discovery In Hockley Finaled

An oil discovery has been completed nine miles northwest of Ropesville in southeast Hockley County at Signal Oil & Gas Co. and Louisiana Land & Exploration Co. No. 1 Nelson-Amicable.

Perforations from 6,022-36 feet in Clear Fork were completed to pump 147 barrels of oil plus 4.5 per cent water in

24 hours. The operation drilled to a total depth of 10,016 feet. It then plugged back to 6,200 feet for the completion.

Location of the strike is 2,578 feet from south and west lines of Labor 22, League 3, Jones CSL survey, and is three miles northeast of the Ropes field.

## LOST

Ladies white gold, 23 jewel Elgin watch with jeweled bracelet band, Saturday in vicinity of Ropes Food Store and post office. Return to Ropes Food Store and collect reward. Mrs. Glenn Price

It's over. Thank goodness — maybe we can now return to normal; maybe we can see a few television programs and not be interrupted by political commercials.

And, now, in all reality, the "L" in LBJ does stand for landslide. While we never doubted the outcome we were expecting a closer race. It was surprising how the votes piled up—even to the Democrats gaining seats in the House and the Senate.

Even in Texas, where it was strongly believed Bush would defeat Yarborough, the Republicans, and the ones who split the ticket, came in for a surprise — "Smiling Ralph" won without a hitch.

Naturally, there was never any question as to George Mahon winning—he had it in the bag from the start—he had no serious opposition.

Now that it is finally over, Democrats can start speaking to Republicans and Republicans can put away their clubs — let's all be friends until the next general election, then we can roll up our sleeves and fight again. And, when it is all over we can again bow to the will of the majority—that is the democratic way of life.

In Precinct 14, the Ropes box, a record 446 voters turned out to cast their ballots. Following is the breakdown of votes from Ropes:

Johnson — 309  
Goldwater — 125  
Lightburn — 0  
Yorborough — 229  
Bush — 200  
Carswell — 0  
Pool — 344  
Hayes — 88  
Johnson — 0  
Mahon — 367  
Phillips — 68  
Connally — 377  
Crichton — 55  
Williams — 0  
Smith — 384

## AMENDMENTS:

No. 1, 185 for; 96 against  
No. 2, 185 for, 81 against  
No. 3, 222 for, 62 against.

And, so, we close the general election polls for another four years, have the campaign stickers washed off our cars, discard all the literature and forget who is Republican and who is democrat.

## CARD OF THANKS

I wish to take this means of expressing my thanks to the people of the Ropes community for the nice cards, beautiful flowers and visits during my recent illness. Mrs. Weldon Tudor

## J. L. Pettiet Passed Away Tuesday

It is with deep regret that we record the passing of J. L. Pettiet of Ropes.

Mr. Pettiet, 68, passed away Tuesday morning at 11:30 in Methodist Hospital at Lubbock after a lengthy illness. He was a retired farmer and rancher, and had been a resident of Ropes for the past six years.

Local arrangements were handled by Franklin-Bartley funeral home in Lubbock, but final arrangements and interment will be in Fort Worth under direction of

Greenwood Funeral Home.

He was a member of the Ropes Church of Christ.

Mrs. Pettiet is a fourth grade teacher in the Ropes Public Schools.

Our deepest sympathy goes to the survivors, his wife, a son, R. L. of Alvin; three sisters, Mrs. J. N. Gurganus, of Fort Worth, Mrs. J.N. Barnett of Carlton, and Mrs. Seth Robinson, Longview; a brother, Claude Pettiet, Phoenix, Arizona, and two grandchildren.

**GREGORYS VISIT  
SON IN NEW MEXICO**

Mr. and Mrs. C. M. Gregory visited this past week with their son, Mr. and Mrs. Pete Gregory and family in Taos, New Mexico. They have a new trailer house, which is very nice and large, contain-

three bedrooms living room and kitchen.

Mr. Gregory reports they enjoyed their visit very much. The trees in that part of the country are very lovely this time of year, being a mixture of gold, red and green. They also enjoyed a visit to Red River, where it was

also very pretty, and a trip to the fish hatcheries, where some of the fish were very small, and the biggest one was 24 inches long and weighed about ten or fifteen pounds.

Mr. Gregory and a son, George Gregory, a grandson, Joe Don Gregory of Lovington, New Mexico, Ulon Bentley and Charley Hoy all enjoyed camping out and deer hunting in the mountains.

George Gregory brought his parents home.

*Household Hints*  
BY JOAN MARCH WORDEN  
Director, Pine Cleaner Information Center.

Working wife? There are more than 15 million of us. "Going to work" plus keeping house really equals two full-time jobs—but if you apply business practices to your household operation, you can short-cut your at-home worktime without short-changing your family. Here are five thought-starters for becoming an "organization woman" in your own home:

1. Memo-rize. Write memos, keep continuing lists for the grocery store, drug, department stores and milkman, then when you're ready to order you'll have the week's needs all in one place. If you can never find a pencil and pad try one of the magnetic combinations which includes a pencil on a chain and tack it up near the telephone.
2. Put your telephone to work for you. First, tape a small file card with most-called numbers near each phone. You'll save time and energy if you buy your groceries, household supplies and whatever else you can sitting down with telephone in hand. When shopping for groceries stock up on staples and you won't have to shop as often.
3. Install a bulletin board in your kitchen area. If you don't have a special place for a board, use the side of the refrigerator. You can attach notes and lists to it with miniature clothespin magnets. Good place for appointments, family job assignments and shopping lists, too!
4. Keep all appliance instructions

and information in one place even if it's a brown envelope in the kitchen drawer. That way you'll be able to spot minor repair needs as they occur, and also refresh yourself from time to time on caring for your equipment. This cuts down on service calls and on the frustration of inactive household machinery.

Another tip: Make a list of repairs and services and write it on the outside of the envelope.

5. Organize your cleaning products to save steps. Put small items in a portable tote of some kind and include versatile products—one product that will do the work of two or three means less work for you. For example, a high-concentration pine oil cleaner will clean, disinfect and deodorize all in one operation. You can use this triple-duty product in every room of your house—even in the laundry room as well—as an addition to the wash water to cut down germs present in every family's wash.

All these tips will help short-cut the working gal's homemaking time and at the same time streamline housekeeping for the at-home homemakers.

More ideas in a later column. Just off the press—"Housekeeping—A to Z." Write for your free copy to Joan Worden, Pine Cleaner Information Center, 1028 Connecticut Avenue, N.W., Washington 36, D. C.

**4-H PROGRAM STRESSES BALANCED DIET**

**SPECIAL** — Six out of ten teenage girls have poor diets. Four out of ten boys have deficient diets.

Over 50 per cent of the American boys and girls taking an international physical fitness test flunked it, compared to only 15 per cent of the European boys and girls.

The 4-H Club foods nutrition program is designed to combat poor diets. It teaches teenagers that the choice of food they eat plays a big part in controlling how they look, feel and react.

Aided by county Extension Service agents and local club leaders, 4-H meal planners select menus on the basis of nutritional needs backed up by scientific facts.

The General Foods Corporation, sponsor of the program, again this year will award six \$500 college scholarships to national winners in the project during the National 4-Club Congress in Chicago November 29 through December 3.

State winners will receive paid trips to Congress conducted by General Foods. County winners receive gold filled medals.

4-H'ers who enroll in the program are urged to start with themselves to develop good nutritional habits.

Another phase of the project is to promote community awareness of good nutritional habits through window displays, posters and by speeches given over radio, television and to "live" audiences as well.

**THUNDERBIRDS WILL PERFORM SATURDAY**

The world-famed Thunderbirds, official Air Force aerial demonstration team, will present a daring performance at Reese Air Force Base Saturday, November 7, at 3:30 p.m.

The Thunderbirds have performed all over the North and South American continents and into the vast reaches of the Far East.

The teamwork, coordination, discipline, and precision flying ability that is required and vitally necessary for a highly effective combat capable aerospace power is demonstrated by the Thunderbirds.

Each man on the team from the commander to the lowest ranking airman must volunteer and then wait to compete for his position.

sonnel are not assigned to the Thunderbirds.

The F-100 Super Sabres that the Thunderbirds will be flying at Reese Air Force Base on November 7 have a speed in excess of 800 miles per hour.

The Thunderbirds acquired their name from Indian legends. Thunder was supposed to have been caused by the flopping of the bird's wings, and lightning was attributed to the opening and closing of the bird's eyes or arrows carried in its talons and bolted down to earth.

The legendary thunder and lightning of the giant bird and the real roar and fiery blaze from the tailpipe of the modern jet fighter seemed a perfect simile. The team felt it could find no more fitting symbol to adopt as its insignia.

**GENERAL TELEPHONE COMPANY NEWS**

E. R. "Randy" Robertson has been named to the position of Communications Consultant with General Telephone Company of the West in Brownfield.

Robertson's duties will include sales contact work in 29 South Plains cities, according to the phone firm's western division manager, H. B. Elam of Brownfield.

A native of Afton, Texas, Robertson is a veteran of 24 years of service with the United States Air Force. He retired from active duty in September of this year and was employed by General Electric on October 5. During his career with the Air Force, Robertson served overseas tours in the Southwest Pacific, Korea and Germany.

He graduated from Potts Springs (Texas) high school and attended Sam Houston State College in Huntsville. Robertson and his wife, Gloria, have four children.

While stationed at Reese Air Force Base, the Robertsons were members of the First Methodist Church of Lubbock.

A breakdown of 10 years of continuous training of local 4-H Club leaders and extension agents who teach girls to sew reveals that a single leader has given special instruction in correct use of the sewing machine to at least eight 4-H members.

During the 10-year period a total of 70,210 women have taken the course taught by The Singer Company personnel in cooperation with the Extension Service. During 1963 a total of

48,553 members were taught, which marked an increase of 31 per cent over 1962, reports the National 4-H Service Committee.

Singer will begin its 11th straight year of sponsorship of "Getting the Most out of Your Sewing Machine" when the program gets under way this fall.

Club leaders interested should contact the County Extension office.

**CREATIVITY**  
From Page 1

give me the power to suffer through it." This is the way of creativity. This is the way to grow and develop. This is the way to take a bad deal and turn it into a good deal. This is one of the great meanings of the life of Joseph in Genesis. He was forever

meeting each new trouble by trying to realize God's will—however imperfectly. Our anxieties give us the chance to grow into people of faith or to waste away unto sickness and death. What will our choice be? Perhaps our choice would be along the lines of this prayer: O God, if by problems we are

built  
Give me a problem as big as the sea;  
For I want you to build in me  
A foundation firm and strong.

**FARMERS WINNING BATTLE OF THE BOLL WEEVIL!**

**BATTLE RECORD TO DATE**

SPRAYING	ACRES SPRAYED	COMMENT
Number 1 (Beginning Sept. 15)	303,000 acres (Originally estimated 240,000 acres. Total includes Skip-row)	First application was hampered by rain, wind, etc. Migrating weevils caused increase in size of control zone. Extremely high adult and unemerged weevil populations encountered.
Number 2 (Beginning about October 4)	281,000 acres (Reduction due to acreage desiccated or harvested)	Field checks indicated effective kill of adult weevils but continuing emergence kept new weevil population up. Additional planes brought in to speed up sprayings.
Number 3 (Beginning about October 13)	230,000 acres (Continuing harvest and desiccation)	Field examination showed great reduction in number of adult weevils, with low occurrence of weevils in diapause stage. Also fewer unemerged weevils.
Number 4 (Beginning about October 21)	190,000 acres	Few unemerged and very young weevils left. Practically no weevils in diapause stage.

**CONCLUSION:** Remaining unemerged and young adult weevils will be kept from going into hibernation either by frost or a fifth spraying. Entomologists agree that hibernating weevils will have been reduced by more than 90 percent by end of this year's program.

**Financial Arrangements**

- Compresses to collect 50c per bale, and remit to a special boll weevil control fund in bank — no connection with P.C.G. regular funds.
- While compresses collect on all cotton, the contribution is voluntary for individual farmers who may request and receive refund.
- All funds are under direction of a Certified Public Accountant firm.
- Monthly financial reports by U.S.D.A. and Boll Weevil Steering Committee will be made — Complete audit will be published at the end of season.
- Any unexpended Steering Committee funds will be placed in interest bearing account for continuation of Boll Weevil Program next season. Unexpended U.S.D.A. funds must return to Treasury, as all appropriations are on annual basis only.
