## Good Citizenship Club Organized

An organization has been perfected in High School in the last week that is very much needed. This club is to be called 'The Good Citizenship Club.' Each class has ten representatives in the club, elected by popular vote. The purpose of this club is to promote good citizenship in The Slaton High School. An executive committee is composed of nine members of this club. This executive committee has its duty the investigating of all irregularities and transgressions upon the rights of the citizens of The Slaton High School, and with the approval of the Principal, the duty to place judgement on the offenders. It is the duty of all members to report all irregularities to any one of the nine executive committeemen. It is then the duty of this committeeman to have the president call a meeting of the committee and report to the committee. The business is then investigated and passed upon by the executive committee, with the approval of the Principal.

If forty high school students will undertake to raise the standards of the Local High School, they can do more than twice that many teachers, because they are closer to the other part of the student body and can find out more things. This club is to meet once a month for regular meetings. It is the plan to have outside speakers to speak along the line of citizenship.

## Slaton Flowers Take Several First Prizes

Slaton has several things of which her citizens are justly proud. Among the 1st are undoubtedly some neglected in the wide distribution of our praise, and appreciation. Certainly we are so accustomed to beautiful yards, and gorgeous flowers that we are in danger of taking them for granted, when it's a fact that some of the finest flowers in the state are grown right here in Slaton.

Have you considered the flowers grown here by Mr. and Mrs. C. L. Tanner? Probably none finer in this whole section of the state. Prize winning beauties, some of them are. Visitors from California, recently observing the Tanner Dahlias, declared: "We have never seen in our own native state Dahlias that would equal the Tanner prize winning beauties".

The "Jane Cowl" Dahlias won two 1st prizes. None of these measured less than nine inches across. Mr. and Mrs. Tanner also won two 1st prizes on "Decorative dahlias". The Pom-Pom dahlia, a smaller variety, won one first prize for the Tanner yard. They also won other prizes on other varieties. No other town carried off more prizes on 'one flower' than did Slaton, on Dahlias.

Certainly the people of Slaton have become so accustomed to the hospitality of Mr. and Mrs. Tanner in furnishing, not only dahlias, but many other flowers for decorative purposes in the different halls and auditoriums for public affairs, that we would feel lost without them. And we are always proud to show them off. Many a sick room, and places of sorrow have been made a little more cheerful with beautiful flowers sent from the Tanner yard.

So many people seem to think our bald plains country will produce nothing more than cotton, and feed stuff that we who know better take especial pride in calling attention to other things which flourish in this soil.

## Arthur G. Wells Of Chicago, Dead

Mr. Arthur G. Wells, of Chicago, executive vice-president of the Santa Fe railroad, passed to his eternal reward a few days ago, after long and useful service to the company; his country and his family.

Perhaps nobody knew better than he the value of time, and space. It is said of him that he used only ten lines in the execution of his will disposing of his entire estate, valued at \$55,000, which he left to his widow, Mrs. Gertrude Wells.

Glen Nesbitt celebrated his 9th birthday Monday the 17th.

## Local Democrats Plan Mass Meeting

Slaton Democrats announce a mass meeting for Saturday afternoon, 3:00 o'clock, at the City Hall. Good Speakers will be on hand to discuss both state and national issues. Democrats who have not been demoralized by the smoke screen laid down by a disgruntled, rejected leadership should be out in full force Saturday afternoon, for "now is a good time for all men to come to the aid of their party".

## Billie Don Guinn Buried Here Friday

Again the Grim Reaper has knocked at the door of a Slaton home and this time Billie Don, son of Mr. and Mrs. Tommie Guinn, answered the summons and followed the silent botman to his heavenly Home.

Billie Don was only six months and twenty-five days of age, at the time of his death but brought into the home and life of his parents a joy unspokeable, and cast a ray of sunshine across their path that will be a sweet memory all the days of their life.

He became sick last Tuesday, and was carried to a Lubbock Sanitarium Wednesday where he remained until death relieved his sufferings late Friday afternoon. About 4:00 o'clock Friday afternoon an operation was performed, but the little fellow never rallied from the operation and died about 7:50 o'clock that evening.

The body was brought back to Slaton where the funeral service was held from the family home, 750 S. 5th street, Saturday afternoon and interment made in Englewood Cemetery.

## BUSY MEN'S BIBLE CLASS

Last Monday evening the members of the Busy Men's Bible Class of the Methodist Church entertained at the Club House for their wives and friends. A most enjoyable evening was spent and the ladies declared the men charming hosts.

The men prepared and served a bountiful luncheon to 50 members and guests.

Judge Sewell is teacher of this fine class and Frank Drewry president. They meet in the Garage and any man who is not attending Sunday School elsewhere will receive a welcome next Sunday morning at 9:45.

Mrs. H. V. Jarman and little daughter Billie Jean have returned from a visit with her parents, Mr. and Mrs. W. W. Stone, at Anton.

## Santa Fe's Annual Free Entertainment Coming To Slaton

All anxiety of citizens of this section, occasioned by uncertainty on just how the depression would affect the plans of the Santa Fe in bringing to Slaton the annual free entertainment, subsided with the announcement of "Uncle George" Marriott, manager of the Reading Room, that the annual event would take place as usual, with the possible exception that this season will not have so many programs, as formerly, probably one entertainment each month, but the entertainment provided will be up to the usual high standard maintained by this department of the Santa Fe railway company.

Mr. G. R. Miller, of Los Angeles, Cal., general superintendent of the Santa Fe Reading Rooms has notified "Uncle George" to make arrangements with the local school board for the auditorium in which to hold the entertainments. Advance notice of the first scheduled program promises excellent talent, and high class entertainment, as usual.

Uncle George is very appreciative of the fine cooperation the school board lends to this movement each year, and wishes to publicly thank them for their interest and cooperation.

The bride is well known in Slaton. She is a graduate of the Slaton High School, a member of the Junior Civic and Culture club, and has a legion of friends here who regret that she is leaving Slaton but rejoice in her attainment of happiness.

The groom is a young man of sterling qualities and worthy of the bride he has chosen. He was formerly connected with the Model Grocery and Market, at Slaton. More recently he is employed at Hobbs, N. M., where the couple will reside.

## LUBBOCK AND LAMB HEAD CAP-ROCK COUNTIES OCTOBER GINNING REPORT

The ginning report, on bales ginned up to October 1st, show Texas running away behind last year's record of same date. The October 1st report for 1931 was 2,268,308, as compared with the 1932 October report of 1,595,239. Lamb county is again leading the cap-rock counties with 1,391 bales, October 1st, 1932, as against a record of 2,402 bales October 1st 1931. Lubbock county takes second place with 1,150 bales ginned up to October 1st, 1932, as against a record of 7,039 for 1931, same date.

Up to date the five gins in Slaton have turned out a total of 2,300 bales. All five gins are now running day and night shifts, turning out the fleecy staple for the farmers on schedule time.

## Notre Dame Team Meets Tech Team On Friday Night

LUBBOCK, Oct. 27.—(Special) Another high spot in Texas Tech's glittering football schedule bobs up this week and the Matadors are putting all they have into workouts in preparation for the invasion Friday night by the Notre Dame B team.

For the first time in nearly 20 years a Notre Dame team comes to Texas. Knute Rockne, late coach, captained the Ramblers to a 21-7 victory over the University of Texas at Austin in 1913.

The Matadors will attempt to mar a lifetime record when the Irish come to Lubbock this week. Never in history has a Notre Dame B team been defeated when it was at its full strength, and Hank Anderson warns coach Sawthon that the visitors will be at their top strength Friday night.

Tommy Yarr, all-America center and Notre Dame captain last year, assistant varsity coach this year, probably will be in charge of the Ramblers Friday. A squad of about 30 players will make the trip.

The game will start at 8 o'clock Friday night. Reserved seat tickets are on sale at the Lubbock and Hilton Hotel drug stores, and Bleacher seats will be sold at the gate. A record crowd is in prospect and, strangely enough, out of town fans have been the first to grab reserved seats.

## Republican Nominee To Speak Here

All the children, except a son in Oregon who was unavoidably detained, were present for the funeral service which was held from the home of the daughter, Mrs. Elder at Pleasant Valley. The widow, two daughters and eight sons survive. The funeral was conducted by Rev. C. E. Fike, pastor of the local Methodist church, with the Foster Funeral Home in charge of arrangements.

Burial was made at Slaton in Englewood cemetery, Tuesday afternoon, at 4:30 o'clock.

He was said to be suffering from flu when brought to the hospital, and complications arose which soon gave the little heart more than it could stand.

All hearts go out in sympathy to the bereaved parents.

## School Honor Roll Increases Over That Of Last Year

From looking over the list of students found elsewhere in this paper the reader will at once recognize that the list is much longer than any of the six weeks list sent in last year. There are 110 in High School on the Honor Roll. Some students were able to get on the honor roll in all four subjects while some other were able to make in one, two or three subjects. We have 11 that were able to make the honor roll in very subject that they were taking, 15 in three subjects, 27 in two and 57 in one subject. Superintendent Ellis states that the list of failures handed in to his office this six weeks is only about 9 percent, and much of this is due to irregular attendance. This is a much better record than was made the first six weeks last year, and has been brought about by all the teachers working to get all the students to work. Every teacher is working hard and giving special help, if possible, to all week students. Special make up classes for the late students, and for those that are getting behind, have been meeting in most all subjects. Students are being encouraged to come to the teachers and get special help, and a great many are taking advantage of this opportunity.

Students are encouraged to do home work, as the average student can not make four subjects with out at least two hours home work.

## Tigers Are Priming For Tahoka Game

The Slaton Tigers are priming themselves for a tussle with the Tahoka team, at Slaton gridiron, Friday afternoon, Oct. 28. The game will be called at 3:00 o'clock.

The Tigers are looking good for the game, though a few of the first string may be out from injuries and illness, it's a safe conclusion that they will put up a game fight.

In their last game, played Friday afternoon, Oct. 21, on the Tech field, at Lubbock, they dropped the game to Lubbock High, a class A team, by a score of 20 to 0, but against the class A team they were outclassed from the beginning. However, the Tigers showed up well in that melee, and three of them, Anderson, Griffin and Mercer, made a brilliant showing.

The game today will be a different story. Tahoka took a game from Odonnell, 40 to 0, while on the other hand Tahoka lost to the Post team in a score of 7 to 0. The Tigers are going in to win this game and football fans who attend the game will get their money's worth. Its sure to be a good game from start to finish. Prices are 25 and 35 cents.

## LOCAL SCHOOL STUDENTS STUDY FIRE PREVENTION

Herewith the Slatonite presents one of the prize essays written during "Fire Prevention Week" by school students:

Fire Prevention  
By Dora Mae Davis  
High Fourth Grade

There is a fire every minute in the United States which kills and hurts many people. Five hundred million dollars worth of property is destroyed by carelessness on the account of fire. We are proud to think how much more modern, and how much our United States leads in everything. But we hate to think that it costs each person \$4.00 each year while England has to pay thirty-three cents, a person, each year.

There are many fires caused by matches. They should be out of the reach of babies, and mice. They might strike them and burn up the house.

Always know what you are about when you are burning trash. Either use a wire net, or a barrel to prevent fires.

All Scouts and campers should always pick a safe place for building camp fires. After you are through with the fire you should be sure to put it out, because it might destroy property.

We should be more careful with cigarette stubs. You should step on them and put them out.

Oil rags have been put into tight places, or near fires and cause the loss of lives and property.

Never put kerosene on a fire; it might explode. Even in our own town, Slaton, the last twelve months, the amount lost in fires was \$18,000, and we have only a population of 4,000.

## OUR AFFAIRS AND EUROPE

If we could build a wall a mile high around the United States of America and put a roof over it so nobody could come in or go out of it by air, the people of this country could probably get along very well without any contacts of any kind with the rest of the world.

We would miss our tea and coffee, which we haven't succeeded yet in growing in the United States. We would have to get along without silk. We would have to give up chocolates and cocoa. Unless we found some way to make rubber out of sawdust or something else, we would have to run our automobiles without any tires. We would have to be pretty economical about shoes, since we depend very largely upon other countries for hides and leather. We wouldn't have very many fur coats. We would have to get along, in short, without a lot of things we are accustomed to. But on the whole, we probably could manage to be comfortable and reasonably prosperous if we didn't import a single commodity from any other part of the world.

Of course, we would have to cut down on a great deal of our farm production. We raise more wheat, more corn, more cotton, more tobacco, more of a number of other farm products than we in the United States can consume. We mine more copper, more iron, more of several other metals than our domestic needs call for. We would have to shut down a lot of mines and abandon a lot of farms and find some other occupation for the miners and farmers thus thrown out of work. We produce more oil wells than we can use, so we would have to cap a lot of oil wells and abandon a lot of pipe lines. We make more automobiles, more electrical equipment, more sewing machines, more typewriters, more fertilizers, more cameras, pianos and other manufactured products than we can use, and so a lot of the factories would have to shut down or curtail production. But, on the whole, perhaps we could get along if we did no business with the rest of the world. We wouldn't have to bother building any ships, but, of course, we could find something else for the shipbuilders to do.

It seems to us that the complete answer to the people who think we ought not to have anything to do with Europe lies in those facts. Until and unless the economic prosperity of the rest of the world is restored to the point where foreign nations can buy our surplus products again, we cannot look for a great or permanent revival of our own prosperity. And since the rest of the world cannot buy our goods unless we buy theirs, the problem of world prosperity depends for its solution largely upon the restoration of our own prosperity.

There is no escaping the conclusion that neither our nation nor any other can stand alone.

B. F. Campbell who had an appendicitis operation a few days ago, is home again now and reported doing fine. He was dismissed from Mercy Hospital Tuesday.

### Democracy Before Personalities

The chairman of the Lubbock county Democrats, J. K. Wester, who opposed the Fergusons in both primaries has now, as a true democrat, declared his support of the Democratic nominee for governor and all the ticket from top to bottom.

To help put over the whole ticket and thereby aid democracy, he announces mass meetings to be held at Lubbock and Slaton for next Saturday about 2:30 P. M.

That move now seems to be wise and appreciative and I wish to boost it and to discuss herein some principles underlying the main issue in Texas democracy.

The Editor hasn't space for this discussion, only a brief of the Texas issue.

The true democrat will submit to the majority large or small and whether poor or rich. Poverty does not disqualify one from voting intelligently. The number being reduced to poverty is increasing now, but intelligence is not decreasing. If 50,000 people unable to pay poll tax this year voted for Ferguson the true democrat will recognize their voice as that of the people.

But there is no more indication of illegal voting this year than usual and, if there were, the Sterling people were on guard and mostly in control so that it is not likely that he suffered more than Ferguson, by illegal voting.

It would be foolish for any party to allow on its council of War to fight for the nominee, which the executive committee is, those who

would not cease fighting the nominee.

I used to be active in promoting anti-Ferguson meetings. But if all charges against Ferguson were true they amounted to only personal "crookedness" which should not outweigh governmental policies.

For every dime Ferguson beat me out of Sterling's policies beat me out of dollars, and the policies of Hoover of which Bullington is an apostle, beat me out of double eagles.

If we wish to continue the primary system which is the life of democracy and the power of the common people let's come out Nov. 8th and vote straight.

**HOME MAKERS CLASS**

**JOY SOCIAL HOUR**  
Mrs. Fred Stottlemire, assisted by Mrs. Coleman, was hostess to the Home Makers Class of the Baptist Sunday School in their recent business and social meeting.

The class president, Mrs. Stottlemire, presided over the business session, and Mrs. W. H. Armes (teacher) conducted the devotional, choosing for her theme the 3rd Chapter of proverbs, verses 1 to 6 inclusive.

Under the head of "new business" the class studied the problem of reaching the unemployed talent of the church, or ways and means of reaching prospective class members.

As a means of developing closer fellowship between members the class adopted the Sunshine Sister system. Each class member will draw a name, and thereafter seek to bring a ray of real sunshine, and good cheer into that life. Mrs. W. M. Rust was elected class treasurer.

A social hour followed the business session, with Mrs. G. Gear and Mrs. R. D. Griffin in charge of all social arrangements. The class found delightful recreation in games planned for the occasion.

An iced salad course with sandwiches and coffee was served. The class will meet next time with Mrs. W. O. Bowen, hostess, assisted by Mrs. G. Gear and Mrs. J. A. Elliott

**FORD CARS TAKE LEAD IN SALES**

Since June, when volume deliveries of the new Ford V-8 cars began, Ford has led all competitors by a wide margin in sales of passenger cars, commercial vehicles and trucks, according to official figures reported today by Harry Stokes, of Slaton Motor Co., Inc., local Ford dealers.

Ford took the lead in national motor car sales in June, increased his lead in July, as production of the new Fords mounted, and maintained the lead throughout August, according to reports for that month already received from 34 states, Mr. Stokes declared. In addition to this, the latest reports also reveal that Ford led in sales in the largest cities during the first 10 days of September.

Since volume deliveries of the new Fords began in June, Ford has accounted for 40.8 per cent of all new passenger car sales in Texas as compared with 38.4 per cent for its nearest competitor, Mr. Stokes added. Ford sold 5,158 of the total of 12,642 cars of all makes sold in the state in June, July and August.

**Side Quit Hurting,  
Got Stronger, Well;  
CARDUI Helped Her**

Mrs. R. L. West, of Huntsville, Ala., writes: "I was weak and run-down. I had a pain in my side, and I kept losing weight. I grew nervous over my condition—this was unusual for me, for I am very cheerful when I am well and don't easily get nervous. I knew I ought to take something. My aunt told me I ought to try Cardui, which I did. I began to feel better. I kept it up until I had taken three or four bottles. My side quit hurting and I was soon feeling strong and well." Cardui is sold at drug stores here.
