

### CITIZENS RATE CIVIC PROJECTS AT C OF C PLANNING SESSION

# Cleanup, Housing Cited as Top Needs

MEETING--Slaton Chamber held a planning session Monday with C of C officials and interested citizens to improve the city. President J. C. McClesky, called the session a "Think Tank" person was labeled as explained that it took many the task. The planning session by 41 citizens.

A massive, all-inclusive clean-up campaign and the promotion of rental property and new houses, or apartments, were tabbed as Slaton's greatest needs for 1971 when a Chamber of Commerce "brainstorming session" was held here Monday night.

The "Think Tank" and labeled each participant as a "Drip." He explained that "many drips are needed to fill up the tank." Forty-one persons attended the planning meet, including 11 Chamber officers and directors. Mayor David Hughes and all four city commissioners were present, as well as citizens and students representing a cross-section of the

community. The "idea" session was conducted so that Chamber directors might work up a priority list of projects to include on the year's program of work. A similar planning session was used last year to launch the new C of C year.

The citizens group Monday night came up with some 30 suggested projects or areas of community need. Each person that cast one vote for the project he considered the most important to the community. The clean-up and housing projects were ranked at the top of the list by strong margins. Rated as the next four most-wanted projects were: Formation of a United Fund or Community Chest type program; continued support of Can-

yon Lakes project; search and encourage new industry, and study possibility of a Student Union facility at high school. Other suggestions ranking high on the list included improvement of street signs and traffic markers; seek a positive approach to handling juvenile problems; help to secure bilingual teachers in public schools; strive for better com-

munication between races; and promote employment of black people in business firms. "Total community involvement"--a goal from last year's planning session--was stressed as one of the ways to achieve some of the projects. McClesky pointed out that the Chamber is limited in the areas in which it can work, and some of the projects are long-range programs which the C of C continues to support each year.

It was pointed out that last year's No. 1 goal -- extended area telephone service -- was accomplished and will be a reality next year. Better housing facilities and community involvement were the next ranking goals from last year. C of C manager Earl Bartley indicated that the Chamber has strived to involve more citizens in civic projects. A program is presently underway to launch a women's division of the Chamber, and he said more youth were invited to participate in activities the past year.

# The Slatonite

A MEMBER OF MOST FAMILIES IN THE SLATON TRADE AREA

60th Year, No. 17

Lubbock County, Slaton, Tex.

Thursday, January 28, 1971

10 Cents

## Voter Signup Deadline Near

The deadline is almost here for Slaton and all eligible Texas voters to register for the 1971 fiscal year. January 31 is deadline for registering.

Persons may apply in person at the branch tax assessor-collector's office in Slaton (on the east side of the square), or at the tax office in the county courthouse in Lubbock, or make application by mail. Applications for voter certificates can be mailed to the Lubbock County Tax Assessor-Collector Office as long as the postmark date is before midnight Jan. 31.

This is the first time 18, 19 and 20-year-olds are eligible to acquire certificates to vote. For these under 21 years, certificates are being issued but are marked "Federal Elections Only Until 21 Years of Age" and the birthdate of the applicant is written on the voter registration slip.

## Officers Probe Two Burglaries

Slaton police were investigating two burglaries this week and recorded three city accidents, all occurring Saturday.

Triangle Manufacturing Co. was burglarized Tuesday night, or early Wednesday morning, with an estimated \$500 cash being taken from Candy and drink machines and from office desks.

A money box at Slaton Junior High was taken when a burglar, or burglars, broke into the building and the principal's office. A small amount of change was taken, with property damage being higher than the money loss.

Police have reported 16 ambulance calls so far this month.

Police Chief Walter Head announced this week that patrolmen Fred Clark and Randy Holley, and dispatcher Jim Johnson now qualify for officer certification after completing a course in Levelland. He said all officers are now qualified under the new state requirement.

Accidents investigated Saturday included one at 10:45 a.m. on W. Lubbock near S. 9th street. Drivers involved were Jose T. Gatica, 41, and Elsie K. Biggs, 57. A car driven by Steve Jones, 50, Big Spring, collided with a parked car on Arizona street near Powers Saturday night. The car is owned by C.D. Armes, Rt. 1, Wilson.

Damage was high in a collision between cars driven by Cynthia Jones, 19, and Ricky G. Davis, 22, Saturday about 6 p.m. The collision occurred at 19th and Dayton streets.

## \$14 MILLION MORE BY '76

# County Aims For Boost In Farm Cash Income

Cash income to farmers and ranchers in Lubbock County should be more than \$44,747,000 by the end of 1976, according to Tom Hemphill, associate, county agricultural agent.

This will be an increase of more than \$14,202,000 from 1968-69 figures, with cotton and grain sorghum contributing a large part of the gain. The projections are based on studies of the Texas Agricultural Extension Service and are part of the "3,76 in '76" program, a state-wide project to increase Texas agricultural cash receipts by more than one billion dollars.

Total cash receipts from all agricultural enterprises in Lubbock County are presently about \$30,545,000, says Hemphill. The most important ones are cotton, grain sorghum, swine and fed beef. They are expected to account for about 80 percent of the projected 1976 totals.

The county will be aided in its production efforts by the South Plains Development program.

The projections are based on estimates from County Program Building Committee; after separate predictions were made by Extension economists. The figures were published for each county, Extension district and economic area in Texas.

"Lubbock County producers will have access to production information and techniques that can help spell success for the Texas goal of \$3,76 billion in 1976," says Hemphill.

The state-wide program to increase agricultural income in Texas to \$3.76 billion in 1976 is admittedly geared to help the agriculture industry; but what about the consumer, the housewife in the grocery store?

"Consumers are concerned with an assurance of an adequate food supply; and 3.76 in '76 is a program of growth," says Dr. W. E. Black, Extension economist at Texas A&M University. He adds that the new program is important because the increasing population must be fed on a decreasing amount of land used for agricultural production.

"Guidelines in the program are meant to increase production and improve quality," Dr. Black says of the project; which seeks to increase cash receipts to agriculture by one billion dollars at the end of the 1976 crop year.

The increase in production and cash receipts will benefit the consumer as well as the producer. Food prices will undoubtedly be affected by an increased efficiency in production and marketing as costly practices in current use are improved or eliminated.

The technology in production and food preparation will be affected by the amount of preparation before purchase by the consumer. This would include special services such as pre-cooking and speciality packaging.

Farmers will gear their production to specific markets that are dictated by the consumers' preferences.

## Case of The Missing Trike

Slaton police are seeking the owner of a vehicle which was left at Forrest Lumber Co. about two weeks ago.

There is no charge on the vehicle, which has been "serviced" and is ready to go. It seems a young man pedaled his tricycle up to Forrest's and asked for an oil change and grease job. He was told they couldn't get to it at that moment, so he apparently walked off and left the vehicle for service.

The tricycle can be claimed by calling the police department and identifying the "vehicle."

Rudd tells an inspiring account of his life beginning at the age of three. He tells of his prison terms, the latest one of which was to be 30 years. He relates he found God for the first time in his life, and is now sharing his experiences with others.

Students will divide into discussion groups again and an evaluation session will be held.

which seeks to increase cash receipts to agriculture by one billion dollars at the end of the 1976 crop year.

The increase in production and cash receipts will benefit the consumer as well as the producer. Food prices will undoubtedly be affected by an increased efficiency in production and marketing as costly practices in current use are improved or eliminated.

The technology in production and food preparation will be affected by the amount of preparation before purchase by the consumer. This would include special services such as pre-cooking and speciality packaging.

Farmers will gear their production to specific markets that are dictated by the consumers' preferences.

## City, School Elections Due

City and school elections are expected to be set in Slaton when the commission and trustees hold their next regular meetings in February.

On the city level, the terms of the mayor and commissioners for Wards 1 and 3 expire in April. Dr. David Hughes will be completing his first 2-year term as mayor, while J. S. Edwards and Floyd Guelker will be completing commission terms.

Two terms expire on the school board -- those of Don Kendrick, current president, and Tommy Davis. Trustees are elected for three-year terms and the board has seven members.

## SCHOOL HOLIDAY!

Slaton Public Schools will be dismissed from Friday classes in order for teachers to attend in-service meetings Friday and Saturday.

Approximately 25 teachers will be visiting other schools while most of the teachers will be attending local meetings.

BATTLE OF THE BOARDS--Slaton's T. W. Whitfield (44) won the battle for the rebound in this action photo from Tuesday night's game here with Ralls. Other Tigers in the action are Glen Thomas (22) and Paul Payne (behind Whitfield). The league-leading Ralls team pulled away in the final quarter to record a 74-56 decision. (SLATONITE PHOTO)

## Adult Classes Offered Here

Adult basic education classes are to be offered here at the Evans Multi - Service Center, beginning Feb. 2, it was announced this week by Supt. J. C. McClesky.

The adult courses are provided by Federal funds and offered through the Slaton School system. Teachers for the three levels of classes will be Mrs. Mary H. Solis, Lynn Dodson, and Mrs. Joyce Whitley.

Starting time for the classes will be 7:30 p.m., with the classes set on Tuesday and Thursday from 7:30 to 9:30 p.m. One class will be for beginning students; one for intermediate, and one for a junior high level.

Anyone interested in attending the classes should be at the Evans Multi - Service Center on Feb. 2 at 7:30 p.m. to enroll.

### VFW Auxiliary News Report

The Ladies VFW Auxiliary met in regular session Monday. A devotion was given to the March of Dimes.

The District Auxiliary President was a guest, and presented Gertrude Mann with a Memorial Key in memory of her father who passed away Nov. 4, 1970.

The Auxiliary Charter was draped in memory of Mrs. Doris Pickett who was a member of the auxiliary.

After the business meeting, the closing prayer was given by Gertrude Mann.

A covered flat supper was served by the Ladies to the Post Members. Next meeting will be Feb. 8 at 8 p.m.

### Mrs. Teague Is TEL Class Host

The TEL Class of First Baptist Church met Jan. 11 in the home of Mrs. Joe Teague Jr. Mrs. Alice Stephenson brought the devotion and Mrs. J. L. Carter led the opening prayer.

Mrs. A. P. Wilson presided over the meeting. Eleven members and one visitor were served refreshments. The next meeting has been planned for Feb. 18 in the home of Mrs. Bern Pettigrew.

**PRAISE THE LORD**

As the little boy from Lubbock State School said Sunday night while watching the performance of "I Wonder?" --- "Praise the Lord!"

Thank you Lord for the youth and leadership who presented the musical drama, "I Wonder?" Thank you Lord for allowing Slaton to have a majority of "good kids" instead of "bad kids".

If you attended one or both of the music-drama performances presented in Slaton, you were probably as amazed as I. A woman from Lubbock said Sunday night, "I never thought such a program could be presented in a town this size." Some of the youth in the program were amazed too, for before Murry Vise started working with them, they had no idea they had any musical talent.

The program drew two "full houses" which more than pleased the youth in the program and was all the thanks they wanted. Now they are ready to start another musical drama.

What better publicity can Slaton have? People attended Sunday night from several towns, including 60 children from the Lubbock State School.

Woman to bridge club members: "I have the most marvelous recipe for goulash--all I have to do is mention it to my husband and he says, 'Let's eat out.'"

The average child spends 2,100 minutes each week in front of a television set, 1,800 minutes each week in public school, and 50 minutes in Christian education. The same study revealed that of the time spent watching television, 280 minutes were taken by commercials, most of them promoting beer, liquor, patent medicines, mouth washes, etc.

**TWO WAY STREET**

A newcomer to Slaton informed me recently that Slaton needs to "wake up". She has found Slaton unfriendly, including the merchants. She believes there are other newcomers that feel the same way.

I've never felt that Slaton was unfriendly and am considered a relatively newcomer, moving here six years ago. But, we as Slatonites, should be on our toes at all times to make a good impression to newcomers moving into our town.

If you meet someone on the street or in a store, say a friendly "Good Morning" or "Hello", as you may be speaking to a newcomer that claims no one will speak to her.

And to the newcomers, are you doing YOUR part as a citizen? I feel like I can speak from experience since I've lived in eight towns in the past 20 years. If I became active in church and civic affairs, I reaped my rewards by gaining friends, but if I sat home complaining about how lonesome I was for my old friends, town I'd moved from, etc., then the more miserable I became.

It's a two-way street. A 50th wedding anniversary is an event I hope to celebrate someday. I heard of a family which has been fortunate enough to have seven such anniversaries.

Fannie Teague tells me that there were 11 children in her family (the W. R. Green family) and seven of these have celebrated Golden Anniversaries. The last one was her sister, Mr. and Mrs. Frank Taylor in Hobart, Okla. on Dec. 27.

**Open House Set For Feb. 5**

THREE WORDS - Expanded Nutrition Program - have meant a world of difference in the lives of more than 3,500 limited income families of Lubbock, within the past two years. The Program, conducted by the Texas Agricultural Extension Service, was initiated in December 1968, with special funds made available by the U.S. Department of Agriculture.

Through the Expanded Nutrition Program, limited-income homemakers and youth learn the principles of nutrition and food preparation, including use of donated foods; meal planning; food buying; food storage; sanitation; and money management.

Teaching is being conducted by 32 program aides and 43 volunteer leaders. Instruction is carried out by home visits and small group meetings.

Program aides are hired from within the area in which they work. For 3 weeks before beginning work, they undergo intensive training on working with families, making home visits and learning foods and nutrition information. This training continues with one half-day session weekly for as long as the aides are employed. Volunteer leaders for the youth nutrition classes also receive special training. Three home demonstration agents and 6 program assistants train and supervise the program aides and volunteer leaders.

On Friday, February 5, from 9:00 - 11:00 a.m., Expanded Nutrition Program is holding an Open House at the Expanded Nutrition Program office at 406 4th Street. The Public is invited to attend.

For more information contact Mrs. Judy Sanders, Associate Home Demonstration Agent, 763-5193.

**SLATON WOMAN ATTENDS MEET**

Mrs. Cleo Reasoner attended the West Texas - New Mexico Florist Association board meeting in El Paso Saturday and Sunday, Jan. 16-17. She was nominated for the office of first vice-president. The election for new officers will be held during an August convention. Mrs. Reasoner is owner and manager of City Floral.

**Engagement Announced**

Mr. and Mrs. John W. Berryhill of Lubbock, announce the engagement of their daughter, Glenna Jean, to Billy Randall Gamble, son of Mr. and Mrs. George S. Gamble, Rt. 1 Slaton.

The couple plan to wed June 5th in Westview Baptist Church, Slaton.

The bride-elect is a senior at Monterey High School and will receive her diploma in May.

The prospective bridegroom is a 1970 graduate of Cooper Rural High School and is attending Oklahoma State Tech.

**WELCOME NEW SUBSCRIBERS**

The Slatonite would like to welcome the following new subscribers: E. R. Petty, Commerce; Francis Keane, Slaton; PFC Dennis Meurer, APO NY; John Ellis, Slaton; Gene Moore, Post; Glen Ward, Wilson; Morgans, Groves; Bobby Crowson, Arcadia, Calif.

Driving Tips  
Flares, first aid autokit and flashlight are "musts" for winter driving. De-icing liquids or windshield scrapers are helpful, too. Know how to use your car's defogger. Get snow tires if you need them. Avoid driving in really hazardous conditions, if possible.

'The Pant Corner'  
720 South 6th, Slaton

A summer market was held in Dallas the past weekend. The Apparel Mart was one splendid array of the latest fashions and designs for summer.

Designers were displaying highly competitive designing in every category of clothing. It seems their latest and most talked about creation for the hot summer days are the "Hot Pant". A version of the "Hot Pant" was shown in every line of sportswear. Of course, the "Pants Corner" will be well stocked with the new look for the teens.

We also picked up swimwear and cover-ups to go along with our sportswear. As new merchandise arrives we are putting our winter stock down to a price that you can't afford to pass up. Everything will be placed on sale at cost or below for clearance. Be sure and get in on these terrific buys. There is still time for buying good winter items for your wardrobe. See you at "The Pants Corner".

## SCOUT NEWS

### Winners Named In Scout Races

Jeff Pullig, Donald Bailey and Fred Stolle went home with high pack honors Thursday night as they placed first, second and third, respectively in the Annual Pinewood Derby of Pack 123, Scoutmaster Harley Castleberry, along with a large group of scouts and parents, attended the event in the Scout House.

The boys built and designed the cars with the help of their fathers. The dens raced first on a six-lane track, and first and second place den winners competed with other dens and Webelos winners, for the Pack Championship.

Den #1 winners were Jeff Pullig and Joe Mercer. Den #2 winners were Charles Powell and Glenn Culver. Den #4 winners were Fred Stolle III and Clint Allison, and Webelos winners were Donald Bailey and Gary Castleberry.

**PINEWOOD DERBY CHAMPIONS**--Scouts of Pack 123 placing in the annual race last week are: (front) Clint Allison, Den 4, second place; Jeff Pullig, Den 1, Pack Champion; Fred Stolle III, Den 4, first place, Pack, third place; Donald Bailey, First place Webelos, second place - Pack; (back) Charles Powell, first place, Den 2; Fred Stolle, Webelos leader; and Gary Castleberry, second place, Webelos.

## Car Tags Go On Sale Feb. 1

License plates for 1971, with white reflectorized back-grounds and black lettering, will go on sale in Slaton Monday, Feb. 1, at the branch tax assessor-collector's here (on the east side of the square). Slaton citizens may purchase license plates here or at the

Lubbock County Tax Assessor-Collector's office in Lubbock.

This year will be the second year of operation for the new, easy computerized registration procedure devised by the Texas Highway Department, and it will not be necessary to present last year's registration receipt or vehicle title, as has been a law in the past.

Vehicle owners should have received a three-part form with instructions printed on it, and all the owner has to do Feb. 1 or thereafter is bring the form with the required fee to the tax office or branch office.

Prices for the tags are based on weight of the vehicle and are divided into three categories.

Vehicles weighing up to 3,500 pounds will cost the owner \$12.30; those weighing from 3,501 and 4,500 pounds will require a \$22.30 fee; and those weighing from 4,501 to 6,000 will require a fee of \$30.30.

## Mrs. DeLeon's Rites Set Today

Mrs. Emilio DeLeon, 64, a resident of Slaton since 1949, died about 6 p.m. Tuesday at Mercy Hospital following an apparent heart attack.

Services have been set for 3 p.m. Thursday (today) in Our Lady of Guadalupe Catholic Church with the Rev. Emilio E. Abeyta, pastor, officiating. Rosary was read Wednesday at 8 p.m. in the Guadalupe Hall.

Entombment will be in Englewood Cemetery under the direction of Englands.

Survivors include her husband; two sons, Mike Slaton and Sunday of Lubbock; four daughters, Mrs. Jose Ordenez, Mrs. Mary Plaz and Mrs. Linda Avolos, all of Lubbock, and Mrs. Fina Schmidt of Slaton; four sisters; 27 grandchildren and four great-grandchildren.

## Casstevens Rites Held

Harold Eugene Casstevens, 54, husband of the former Mary Katherine Burns of Slaton, died Jan. 18 in All Saints Hospital in Fort Worth following a two-month illness.

Services were held Jan. 19 in the First United Methodist Church of Mansfield, with burial in Mansfield Cemetery.

Casstevens is a native of Mansfield, and a veteran of WW II.

His survivors include his wife; two sons, Gene of Austin and Brian of Fort Worth; his parents, Mr. and Mrs. A. B. Casstevens of Mansfield; two brothers, A. B. Jr. of Fort Worth and Billy of Bedford; two sisters, Mrs. Mildred Reitz, Mrs. Ina Mary Wynn of Fort Worth.

Attending the services from the Slaton area were his mother-in-law, Mrs. Elmer Burns, her daughters, Mrs. Shirley Butler of Slaton and Mrs. J.L. Carrothers of Levelland, and his aunt, Mrs. T. C. McCaffaty of Slaton.

# TEXAS AT THE CROSSROADS OF TAX

Presented for the public benefit by the Texas Manufacturers Association

## ARE STATE TAXES "OUTRUNNING" THE PERSONAL INCOME?

(first in a series of eleven)

A sum of \$3.1 billion is too sizable for the imagination. How sizable? Well, half-a-million Texas workers make that much in a year's time -- each averaging some \$6000. In fact, it's a fair estimate that all workers in the city of Houston received a total income of some \$4 billion during 1970.

Texas paid \$3.1 billion to the state in 1968 and 69 taxes to help meet the two-year budget. During 1970-71, the state will collect nearly \$4.4 billion from the taxpayer -- a 40 per cent increase about 1968-69 -- to satisfy a budget of \$6.289 billion (federal and non-tax money in addition to taxes).

It now appears that the tax swell from the present budget is merely a glimpse of things to come. State agencies have now zoomed their requests for spending money to 8.992 billion for 1971-73. If this should be granted by the legislature, Texans will face some \$5.9 billion in total state taxes for 1972-73 -- an expansion of nearly \$1.5 billion beyond today's payments.

No one disputes that a progressive Texas has definite

needs, however, there remains the question of whether proposed "needs" are really needs or just desires, and whether the Texas income can stand the increased tax strain.

A good measuring tool for the Texas tax balloon appears to be the personal income. This income for all Texans in the form of wages, salaries, investment returns, and others, may be compared to one's own earnings. When one buys a new car, clothes, or a home, he must consider the new bills against pay raises or other gains in income. To avoid debt or runaway taxes, the state too must spend in proportion to its income.

Considering the people of Texas as the main source of state money, it may be interesting to compare the growth rate of Texas state taxes with incoming money from earnings.

During the last three years, Texans added some 25 per cent more dollars to their total income -- from \$30.25 billion at the close of 1967 to an estimated \$38 billion at the end of 1970. Although this is a fairly bright picture, tax dollars requested by the state grow by

more than 40 per cent at the same time.

An extra tax bite means different things to different people. To the small business owner, it may trim or cancel employee bonuses. On the other hand, the average tax payer may trim the grocery bill.

## NEW YORK BY COMPARISON

One sure thing about economics, however, is that all dollars must be accounted for in one way or another. Perhaps a fitting comparison to account for dollars is casting the lot of the average Texas taxpayer against that of his counterpart in the state of New York. Highly industrialized and riddled with problems that require big spending, New York offers a good base for comparison.

The typical Texas taxpayer with a wife and two children makes some \$6000 per year. In whittling down his income, \$446 are removed for federal withholding, \$228 for social security, and \$220 for state taxes. Pocket money now stands at some \$5046 from an original \$6000.

The typical New York taxpay-

## County Spelling Bee Set April 3

Interest is growing in the Avalanche-Journal 19th Annual Regional Spelling Bee, which will be conducted May 1 at the Smylie Wilson Junior High School Auditorium in Lubbock.

But there will be many school and county bees before contestants for the Regional Bee will be announced.

The big prize for the regional winner will be an expense-paid trip to Washington, D.C., and participation in the National Bee. The winner at the Regional Bee will also receive a loving cup, a blue ribbon and a traveling trophy for his or her school.

Other prizes to be given at the Regional Bee will include a 24-volume set of Encyclopaedia Britannica, two copies of the Lincoln Library, a World Atlas by Encyclopaedia Britannica, the American Heritage Dictionary of the English Language published by Houghton Mifflin Co., a 1971 Britannica Yearbook of Science and the Future World Almanac and several cash prizes.

Date of the Lubbock County Bee, which will include winners of bees conducted in 70 schools in the county, has been announced for 9 a.m. April 3 in the Smylie Wilson Junior High School Auditorium. Ed Stokes, director of elementary education for the Lubbock Independent

School District, will direct the bee.

One representative from each elementary school and each junior high school in Lubbock County will participate in the contest. Seventy schools are eligible to send contestants to the bee.

## CITIZENS--

signs indicating turnout to Slaton.

"With your interest, work and involvement, we can help make Slaton your kind of town," McClesky told the group.

Attending the session were McClesky, Bartley, Don Kendrick, Jay Gray, Coy Evans, Dick Hartman, Bob Kern, Glen Akin, Robert H. Davis, Speedy Nieman, Mayor David Hughes, Otis Neill, J. S. Edwards, Floyd Quintero, George Quintero, Betty Burks, Emilio Abeyta, Jonas Cain, Patsy Hopper, Rev. J. L. Cartrite, Rev. Bruce Parks;

Also Chester Foster, Elgie Allen, Rev. Johnnie Moore, Harley Martin, Theresa Martin, Mrs. J. C. McClesky, Roy L. Heinrich, Inez Petty, Charlie Geer, Glynnia Smith, Cynthia Akin, JaNetta Gass, Goria Gass, Cathy Riney, Darrell Eastman, Ron Bartley, Steve Nieman, Marilyn Walker, Carlos Sanchez, and C. C. secretary Cleo Green.

## Area Soldier For Help From

The Slatonite received the following letter from Sgt. David Taylor, stationed in Vietnam: "I'm working with the Montagnard Chieftains of the Nam Hui District of the Republic of Vietnam in the Pacification Program. We are trying to help upgrade the Montagnard living conditions, but help is desperately needed from fellow Americans, Churches, groups and organizations, and concerned individuals are invited to send their contributions to me for distribution.

Also, clothing of any type and footwear for babies through adults is desperately needed. Other canned goods are needed to supplement the Montagnards meager diet.

Tools, mostly small hand

## Strikers Get Food Stamps!

notably the long and costly  
 stors' wallets, are bringing  
 of the relationships between  
 industry and labor more  
 to the limelight. The ensu-  
 sions could well have reper-  
 a far - reaching social  
 ic nature.

essions of the impact of union  
 the role of government in  
 appeared that are espec-  
 Writing to The Reader's  
 Charles Swenson tells of  
 mable excesses of the  
 unions. The other dis-  
 aired in "Here's The Issue",  
 of the Chamber of Com-  
 United States. It deals  
 mer in which food stamps  
 assive tax - supported eco-  
 striking employees have put  
 in the positions of sub-  
 ne.

General Motors strike cap-  
 headlines, the real threat  
 economic stability appears  
 area of construction. Mr.  
 whose piece appeared in The  
 York? For the title, "Wage Madness  
 ruction Industry," expresses  
 at that, "No matter what the  
 promise, inflation will con-  
 axes will balloon more and  
 ousing will become increas-  
 itive in cost - unless the  
 a way to crack down on the  
 are exploiting the construc-

is based on the fact that  
 onstruction industry is not  
 elling inflation, it is, as the  
 l industries, the bellwether.  
 gures on wage increases in  
 ction field that show con-  
 rkers' wages to be four or  
 igher than any other union  
 ves samples of what is hap-  
 -example, "If you worked at  
 tools, swing in Denver last summer  
 and metal average wage was \$3.60  
 sanders up 18 cents from 12 months  
 Miscellaneous  
 include bar  
 cooking uten-  
 etc.) Mortz  
 the new che-  
 be purchase  
 contributions  
 Sgt. David  
 449-80-408

 327th Infan-  
 101st ABN  
 APO SF, 96

the home you hoped for

became more remote than ever, for the  
 Denver bricklayer who would build it  
 was in the process of receiving a raise  
 which alone was bigger than your pay -  
 \$4 more an hour over three years, an  
 extra \$160 a week."

Probably largely unknown to most of  
 the nation's taxpayers, the federal  
 government aids and abets excessive use  
 of the strike weapon. The article in the  
 Chamber of Commerce publication starts  
 out, "How much did you contribute to  
 support the strikers against General  
 Motors this year? To the strikers who  
 closed General Electric last year? . . .  
 If your answer is 'nothing', you may  
 have to guess again. . . Unions have  
 learned that they can tap the Treasury  
 as a source of strike funds. And they  
 are continually improving the techni-  
 que." In the case of the General Elec-  
 tric strike, strikers and their families  
 received public assistance in the amount  
 of about \$5 million per week at one  
 point in the strike.

One of the largest factors in govern-  
 ment assistance to strikers is our food  
 stamps. The U.S. Chamber of Com-  
 merce finds that food stamps were dis-  
 tributed in large quantities to many of  
 the 343,000 workers involved in the Gen-  
 eral Motors strike. It called attention  
 to one worker who paid \$18 for stamps  
 with which he could buy \$162 worth of  
 groceries. The worker commented,  
 "They can't starve us out now that  
 we're getting these food stamps. We can  
 go on forever."

The U.S. Chamber concludes, ". . .  
 the growing use of food stamps to weight  
 the scales in favor of one side during  
 the collective bargaining process will  
 sooner or later force Congress to face  
 the problem squarely." The incongruity  
 of government setting guidelines for wage  
 and price rises on the one hand while  
 subsidizing strike excesses on the other  
 hand, is astounding to say the least.  
 As the public discovers the facts, skep-  
 ticism is likely to rise over the future  
 of the fight to control inflation.

## Adult Disability

THE FASTEST growing causes  
 disability in this country is em-  
 physema affecting the lungs.  
 and effects of emphysema were  
 out the disease received greater  
 in 1964, says the Texas State  
 ment of Health.

that year by the U. S. Surgeon  
 Advisory Committee on  
 and Health incriminated  
 smoking as a contributing cause  
 of the disease.

IS FOUND that for cigarette  
 the death rate from chronic  
 and emphysema was six times  
 han for non-smokers.  
 sema and chronic bronchitis are  
 slated although they may develop  
 tently. Emphysema often  
 from chronic bronchitis.

IS DUE to emphysema have  
 about five times in the past 10  
 equently the victims live in areas  
 pollution is a constant problem.  
 sema is described as an im-  
 of the bellows action of the lungs.  
 urse of the disease, the walls of  
 ions of tiny air sacs (called  
 within the lungs are gradually  
 i. As the air spaces become  
 the victims find it increasingly  
 to expel all the air inhaled, and air

air becomes trapped in the lungs.  
 As the disease progresses increasingly  
 large amounts of air are trapped in the  
 lungs, causing the lungs to become  
 enlarged. At the same time, they become  
 less efficient in exchanging oxygen for  
 carbon dioxide.

FREQUENT RESPIRATORY in-  
 fections, increasing breathlessness,  
 a feeling of tightness in the chest, general  
 weakness and a tendency to tire easily are  
 signs of the disease.

Eventually, emphysema destroys the  
 elasticity of the lungs—the ability to ex-  
 pand and contract. As interference con-  
 tinues, an increased burden is imposed on  
 the heart which must work harder to pump  
 blood through the damaged lungs. Under  
 such strain, the heart may enlarge and  
 eventually give out.

EMPHYSEMA DOESN'T strike sud-  
 denly but comes on gradually, sometimes  
 after several seasons of bad colds, each  
 accompanied by a severe cough and often  
 with chronic bronchitis. The cough may  
 become chronic.

There is no known cure of emphysema,  
 but with early treatment under a doctor's  
 care most patients can get some relief  
 from their attacks of breathlessness.

Treatment can enable many to live  
 comfortably for a long time.

### Letters to the Editor

Hi Lavon and Speedy,  
 We have only been gone from  
 Slaton 2 1/2 weeks, but we  
 already miss the Slaton people.

We are wondering if you could  
 please send our Slatonite. I  
 think we have several months  
 subscription left.

We really love living here in  
 Belton. The people are very  
 friendly and helpful.

We'll be looking forward to  
 receiving our Slatonite. Please  
 let us know when our sub-  
 scription runs out as we would

like to continue it.

Thanks,  
 Betty (Mrs. R.A.) Wilkins  
 304 E. 12th St.  
 Belton, Texas 76513

bill us for one year's sub-  
 scription.

Thank You!  
 Mrs. Ronald Bagby  
 5213 W. 37th  
 Amarillo, Texas 79109

Dear Sir:

Love this newspaper!  
 Ahlene (Mrs. Richard) Lane  
 Stamford, Tex.

## FABRIC SHOP

It's No Trick To . . . "Make It"!

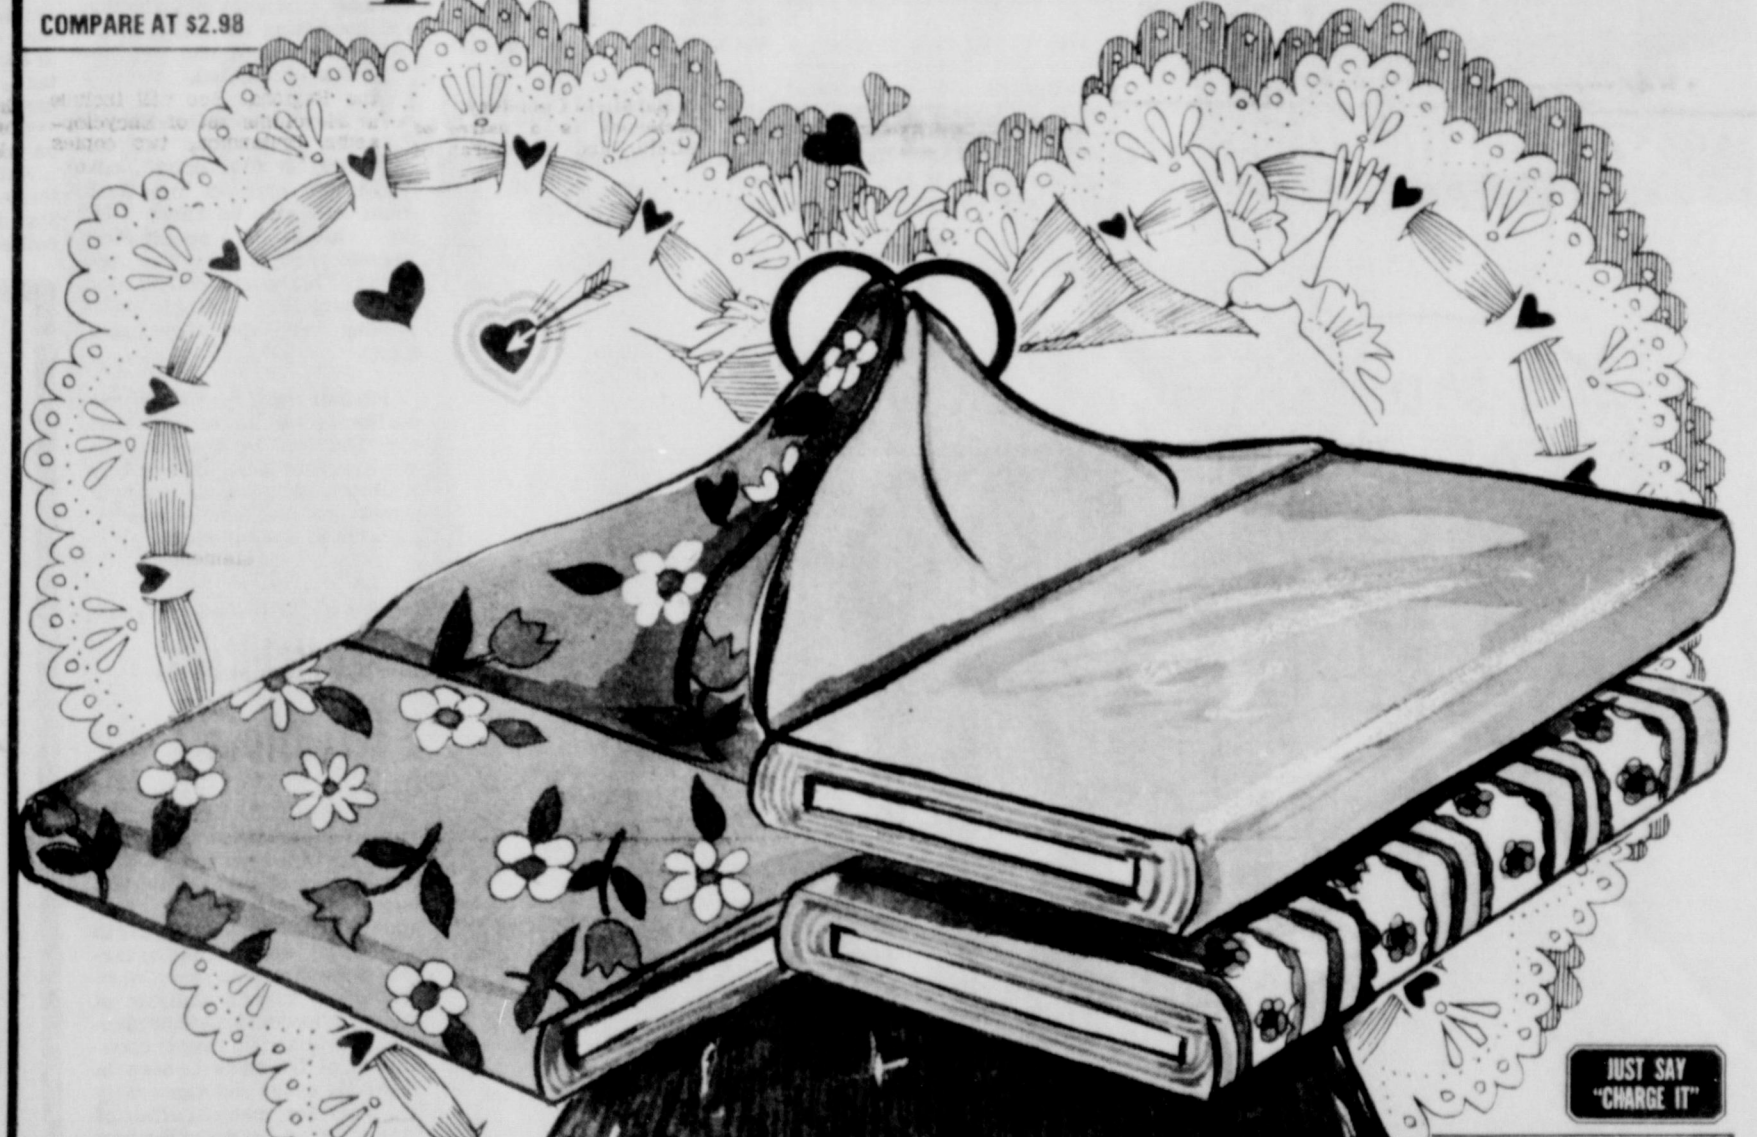

We have recently enlarged and remodeled  
 our fabric center to better serve our cus-  
 tomers with a good selection of piece goods  
 and accessories. Doris Hudnall, along  
 with her assistants, Jeanie Simonton and  
 Charlene Fortenberry, will be glad to help  
 you with your piece goods selections.  
 Manager, Ray Crenshaw, welcomes you to  
 visit the new fabric center.

## Irrigation Study Shows Trend Toward More Acreage In Area

A look at the 1970 High Plains Irrigation Survey quickly tells the story of agriculture in the 42-county area of West Texas.

The survey was prepared by Leon New of Lubbock, area irrigation specialist with the Texas Agricultural Extension Service, from information provided by county agricultural agents in the area. Copies are now available at any County Extension Office or at the Texas A&M University Agricultural Research and Extension Center north of Lubbock.

**CROP ACREAGE CITED**  
"Irrigated crop acreage increased throughout the area during 1970," points out New. "A total of 5,516,400 acres were irrigated, an increase of 74,200 acres, or 1.36 per cent more than in 1969. Surface irrigation was used on about 80 per cent of this acreage."

Perhaps one of the most valuable bits of information in the survey is the number of acres of all irrigated and dryland crops, both on a county and area-wide basis.

"Crop acreage totaled 9,644,000 acres on the High Plains

in 1970," says New. "Fifty-seven per cent of the crop acreage was irrigated with grain sorghum, cotton and wheat topping the list. Grain sorghum accounted for 2,093,699 acres, or 38 per cent; cotton, 1,420,471 acres, or 26 per cent; and wheat, 1,021,602 acres, or 19 per cent of the irrigated acreage."

Looking at dryland production, grain sorghum accounted for 1,645,021 acres; wheat, 1,225,228 acres; and cotton 746,905 acres.

Accounting for the other irrigated acres were corn, 5 per cent; soybeans, 3 per cent; vegetables, 1 per cent; and other crops, such as alfalfa, castors, forages, pasture and sugar beets, 8 per cent.

**SOYBEANS DECLINE**  
"A significant change in acreage among the major crops was that of soybeans which decreased 23 per cent from 1969," points out the specialist. "Corn acreage for grain was also down 7 per cent while cotton acreage increased 2.5 per cent and grain sorghum increased 2.1 per cent. Vegetable acreage increased 1.5 per cent and wheat acreage, 3.9 per cent."

For the first time, the survey categorizes wheat for grain and that which is grazed out. Thirty-two per cent of the wheat was grazed out in 1970, much being planted on diverted acres.

**WELLS INCREASE**  
Examining the irrigation picture further, the survey shows that the number of irrigation wells increased slightly, about 1 per cent, during the last year to 65,214. Says New, "This offsets the continuing decline in the capacity of individual wells. The average number of acres irrigated by each well is estimated at 84. In 1960, each well averaged 103 acres. The number of wells consistently delivering more than 700 gallons per minute has dwindled to only 28.7 per cent of the total. More than 88 per cent of the wells now lift water more than 125 feet."

In addition to the individual wells, 3,042 playa lakes and 2,079 recirculating pits were also pumped during 1970.

More than 8,800 sprinkler systems were used the past year, irrigating 1,216,500 acres, adds the specialist. Hand move systems are decreasing at the rate of 3 to 5 per cent annually while wheel roll systems are increasing by that rate.

**UNDERGROUND PIPE INCREASES**

"The use of underground pipe is also continuing to increase over the High Plains area. Underground pipe now distributes water for 53 per cent of the irrigatable acreage with 75 per cent of the irrigated farms using underground pipe to some extent," adds New.

Natural gas still remains the leader in running 62 per cent of the pumping plant power units. Electricity accounts for 27 per cent; L.P. gas, 10 per cent; and diesel and gasoline, 1 per cent.

The survey also presents a graphic view of some trends in irrigation over a number of years, explains the specialist. Irrigated acreage for the major crops being grown is shown over the past 10 years. Graphs show both the change in the

## Program Necessary For Weed Control

Now is the time for cotton growers to finalize weed control plans for 1971. And they have three types of programs to consider - preplant, pre-emerge and postemerge.

"All of these programs have worked well in research plots on the plains," says Dr. Dudley Smith, weed control scientist at the Texas A&M University Agricultural Research and Extension Center at Lubbock. "Preplant chemicals such as nitrailin (Planavin) or trifluralin (Treflan) are soil - incorporated with a disk prior to bedding. Preemerge herbicides such as prometryne (Caparol), diuron (Karmex) or alachlor (Lasso) can be sprayed at planting. And postemerge treatments can be applied later to kill weeds and grasses missed earlier."

Herbicide research at the Texas A&M Center is supported by the Cotton Producers Institute and Plains Cotton Growers.

"Weeds are somewhat like taxes," says Smith. "It's inevitable that they are going to come so it's best to plan ahead. So most growers start out with either a preplant or preemerge treatment."

**PROGRAM SELECTION IMPORTANT**  
Growers should consider several management factors in se-

lecting chemicals and programs, according to the scientist. How much equipment and labor is available, and when? Can you plant and spray at the same time? What is the soil texture and major weed problem in particular fields?

"Frequently preplant chemicals can be easily applied and incorporated while preparing land. If labor and equipment are readily available, this method gets the weed control done ahead of time. But some growers prefer to wait and spray while planting, or just afterwards," Smith adds.

**GET LAND READY**  
Before applying Treflan or Planavin, sorghum or gin trash should be worked into the soil, cautions Smith. Plant organic matter on the surface acts like a sponge. And chemicals are tied up and unable to kill germinating weed seeds.

Preplant chemicals have been consistently effective in controlling volunteer sorghum, he adds. Planavin or Treflan do an excellent job since they are mixed in the soil where the sorghum seed germinate. Johnsongrass and careless weed are also controlled.

But don't expect good control of cocklebur, devil's claw, pigweed, or morningglory. Weed control results are generally better with double disking rather

than just one trip across the field. There are no shortcuts or substitutes for proper incorporation.

**BED PLANTING BEST**  
"After incorporation, don't run the lister deeper than the disk," Smith emphasizes. "This brings up untreated soil and weed seed that cause problems later. Bed planting is strongly recommended with all herbicides. Cotton grows faster earlier and chemicals can't wash down on the crop. But if you have to furrow plant, knock off just enough soil to plant in moisture. Ideally, the seed should be placed just below the treated zone of soil."

Research conducted by Texas A&M and commercial firms

indicate that herbicide residues do not build up in soil in West Texas. In narrow - row cotton trials, fall residues of Treflan were lower where irrigation was heavy and much lower where nitrogen fertilization was good, contends Smith, because this controls late - season weeds.

"Many growers are concerned about planting grain sorghum the next year after Planavin or Treflan. At recommended rates, Planavin has not affected sorghum. The soil will be warmer and sorghum seedlings will grow faster. Yields have not been reduced from Treflan where sorghum planting was delayed slightly," says Smith.

## Soil Inventory Suggested By County Agent

The soil is a good starting point for improving farm income in 1971. A complete soil inventory is suggested by Associate County Agent Tom Hemphill and it should include a close study of the acres farmed as well as the acres to be grazed.

A logical first step, he notes, is a soil testing program. The findings from the soil testing laboratory will give needed information on the amounts and kinds of plant food required to get top production from both crops and grazing lands.

The county agent emphasized the importance of submitting soil samples which are representative of the field or pasture. The results of the laboratory analysis, he explained, will be no more accurate nor representative than the soil sample submitted for testing.

Agricultural producers, home gardeners and urban dwellers will find that soil testing can help solve many of their soil fertility problems. The county agent invites any person interested in soil testing to contact his office for instructions on how to take soil samples; how to prepare them for mailing; or he can take them directly to the soil testing laboratory at the Research and Extension Center on the Plainview highway.

And finally, he reminds, there is not time like the present for taking and submitting soil samples for testing.

## Consumers Will Benefit From '3.76 In '76' Program

The state - wide program to increase agricultural income in Texas to \$3.76 billion in 1976 is admittedly geared to help the agriculture industry; but what about the consumer, the housewife in the grocery store?

"Consumers are concerned with an assurance of an adequate food supply; and 3.76 in '76 is a program of growth," says Dr. W. E. Black, Extension economist at Texas A&M University. He adds that the new program is important because the increasing population must be fed on a decreasing amount of land used for agricultural production.

The increase in production and cash receipts will benefit the consumer as well as the producer. Food prices will undoubtedly be affected by an increased efficiency in production and marketing as costly practices in current use are improved or eliminated.

The technology in production and food preparation will be reflected in food prices; although the price of individual items will also be affected by the amount of preparation before purchase by the consumer. This would include special services such as pre-cooking and speciality packaging.

Farmers will gear their production to specific markets that are dictated by the consumers' preferences. This in turn will provide consumers with higher quality foods in greater amounts at stable prices.

### Agricultural Briefs

**1970 RECORD BEST** - The Southwest Screwworm Eradication Program reported the lowest number of cases in its history for 1970. Program officials credit the successful year to - "Getting sterile flies to target areas faster as cases were confirmed; careful analysis of the screwworm spread and planning of sterile fly drops; cooperation of livestock owners in reporting cases and a generally bad year for many species of flies. But no let up on the part of stockmen in submitting samples of worms taken from animal wounds is advised by program officials."

**FARM PRICES AT MID-DECEMBER** - Prices received by Texas farmers on Dec. 15 were 3 points or 1 per cent less than in Nov. and 10 points or 4 per cent below a year ago, said the Texas Crops and Livestock Reporting Service. Livestock and livestock products were 1 per cent below last month and 10 per cent below a year ago. Hog prices continued their downward trend. Nationally, farm prices dropped 2 per cent during the month ending on Dec. 15.

**TOURNEY WINNERS**---The Slaton Junior Varsity girls won the Slaton JV Tourney held last week. Players are, left to right, front row--Terri Sikes, Scharla Johnson, Debbie Millikin, Brenda Herral, and Joyce Heinrich; second row--Petra Gipson, Lorrta Dillon, Regina Clise, Tyra Biggs, and Pam Martindale; back row--Synara Gipson, Joyce Devroe, Cindy Kenney, Cathy Riney, Dru Ann Beard and Gretta Stricklin. (SLATONITE PHOTO)

**IN SLATON 'B' TOURNEY**

**Girls Triumph, Boys 4th**

The Slaton girls won the championship in the Slaton B-Team Tournament here Saturday night, while the Tigerette freshmen won third place and the Tiger Junior Varsity wound up fourth in the boys' division.

The Floydada B team won the boys' crown in the tourney, defeating Idalou in the finals.

Denver City downed Slaton by 55-35 for third place. Frenship won the consolation crown. The Tigerette JV scored a close 36-35 win over Tulla for the girls' championship. The Slaton freshmen girls, filling in after Muleshoe cancelled, rolled over Tahoka, 66-30, for third place. Floydada captured the consolation title in the girls' division.

The Tigerette JV opened tourney action with a 63-15 win over Post. DruAnn Beard hit 21 points to lead the attack. The JV then romped to a 66-26 win over Tahoka with Gretta Stricklin tallying 20 points. Stricklin led the way in the

finals, hitting 18 points against Tulla.

Jan Davis was the big gun for the freshmen. She hit 32 points as the frosh downed Floydada, 67-39, then she and Lailien Cheney scored 12 each in the 43-29 loss to Tulla in second-round action. Davis scored 37 points in the 66-30 win over Tahoka for third place. The boys trailed by only 22-20 at halftime in the game for third place with Denver City. The Mustangs were hot from the field in the second half, however, and pulled away for the 55-35 victory. Steve Nieman led Slaton with 13, and Ron Bartley had 9.

Slaton had opened with a 55-50 win over Tahoka as Jim Melton and Mike Lewis sparked the attack with 18 and 12 points, respectively. Slaton led by 30-26 at halftime.

In the second round, the Tiger JV lost a 39-27 decision to Idalou. Slaton led by 20-16 after the first period, but fell behind 26-23 at halftime after tallying only three points in the second period. Nieman hit 12 points to lead Slaton, and Bartley added 8.

2. It takes only about 10 days (or less) to completely install!  
3. And, we keep you warm during installation!!!

1. Bring your home's heating system up to date with modern, clean and comfortable electric heating. Join the millions of Americans (thousands in our area) who are already enjoying the delightful comfort of electric heating.
2. A completely coordinated heating installation makes it possible to install a brand new electric heating system in 10 days or less.
3. And we arrange for all the details, including making sure that you have heat in your home during the entire installation. Call this week... remember, it costs you nothing and you have no obligation when our heating specialists make a heating survey of your home. You make your decision to buy ONLY after you have all the facts... and without any high-handed pressure.

**IN DISTRICT ACTION**

**Ralls Tops Tigers, Girls Win Again**

The league-leading Ralls Jackrabbits pulled away from Slaton in the fourth quarter here Tuesday night to score a 74-58 triumph over the Tigers.

The Tigerettes, however, remained undefeated in 4-AA action by scoring a 46-30 win over the visiting Ralls girls. The Slaton girls have won nine straight district games and have just three league games remaining on the schedule.

Both teams are at home Friday night, hosting the Tahoka Bulldog boys' and girls' teams. The varsity girls' game is set for 6:30 p.m., followed by the varsity boys' tilt.

The Tigers stayed with Ralls the first half here Tuesday, and trailed by only 31-27 at halftime. The Jackrabbits started to pull away late in the third period, however, and wound up with a 16-point margin for the victory. Ralls is 8-1 in district play and Slaton is 4-5.

T. W. Whitfield led Slaton with 22 points, and Lloyd Kitten pumped in 18. James Langston led the Ralls team with 28 points.

The Tigerettes and Ralls girls played at a deliberate pace, with Slaton leading at every break. The Tigerettes held a 20-9 advantage a half-time.

Sophomore Karla Kitten was high scorer for Slaton with 13

points, and JaNette Gass had 11. Denise Hargrove was tops for Ralls with 14.

The Tigers lost a close 63-56 decision at Idalou Friday, while the Tigerettes posted a 52-40 triumph. Whitfield and Kitten again led the Tiger scoring at Idalou, tallying 22 and 16 points, respectively. Bryan Kendrick led the winners with 17 points.

The Slaton girls jumped to a 16-5 lead in the first period and held a decisive 34-16 lead at halftime. Sue Brake sparked the attack with 24 points for Slaton, and JaNette Gass added 17. Peggy Cox led Idalou with 20.

**Dribblers Film On Channel 5**

LUBBOCK -- A thirty-minute, color special will be aired on Tuesday evening, February 2, at 6:30 p.m., over the South Plains' outlet for National Educational Television, KTX-TV, Channel 5.

The special will be the first area-wide showing of the recently completed film, "Little Dribblers." Produced by the Little Dribblers, Inc. organization, the film was made possible by a grant from Humble Oil & Refining Company. John Henson, Program Director for KTX-TV, said that the film was scheduled for showing before Little Dribblers basketball league play begins in mid-February.

A non-profit organization, Little Dribblers, Inc., has its National Headquarters in Levelland, Texas, and is basketball's answer to Little League Baseball; teaching basketball knowledge and skill to boys 9, 10, 11 and 12 years of age.

Over 15 South Plains communities now have Little Dribblers' league teams. Additional leagues are organized in 12 states, and in over 60 towns in Texas. A National Little Dribblers Basketball Tournament is scheduled in April, for the winners of the organization's District and State Play-offs.

**Big Tide**  
The tidal current in San Francisco Bay reaches a peak of 10 million cubic feet a second, half again the flow of the Amazon River.

**JV Tigers Win Double Overtime**

Slaton's junior varsity Tigers scored a thrilling 61-60 double-overtime victory over the visiting Ralls B-team in the opening game here Tuesday night.

Jim Melton hit a shot just at the buzzer to pull Slaton out front at the end of two overtime periods. The game was tied 55-55 at the end of regulation play, and knotted at 57 after the first overtime.

Steve Nieman led Slaton with 19 points, while Ron Bartley added 15 and Melton 14 in a balanced attack. Slaton trailed by 25-24 at halftime.

**Freshmen Split With Frenship**

The Slaton freshmen basketball teams split with Frenship Monday night, the girls scoring a 40-19 victory while the boys lost a 70-29 decision.

Jan Davis scored 24 points to spark the girls past Frenship. Greg Parks was high for the freshman Tigers with 8 points in the losing cause.

The freshmen teams will be entered in a tourney at Frenship Thursday. Finals in the meet are scheduled Saturday.

**7TH GRADE PLAYERS**---Slaton Junior High School's Seventh Grade Above with it's coach, Joe Sparkman. The team placed second in the tournament held last week. Pictured left to right, front row--Leake, John T. Basinger, Breck Hudson, Lanny Lavender and Elton Danny Kenney, Bill McClesky, Clarence Hammons, Coach Sparkman, Tip Culver and Charlie Haynes.

**Junior High Teams Win Four**

Slaton's Junior High basketball teams won four games against Frenship squads Monday night, playing two here and two at the Frenship school.

Slaton's 8th grade girls scored an easy 31-7 victory here, as Rosemary Scott led the way with 20 points. The 7th grade girls won a 18-12 triumph. Darlene Jones led Slaton with 8 points.

The 8th grade boys captured

a 26-18 victory at Frenship as J.D. Moore sparked the attack with 11 points. Slaton led by 16-7 at halftime.

The 7th grade boys posted a low-scoring 13-9 triumph. Bill

**TAX MAN SAM SEZ:**

Taxpayers who earn salary and wages have a problem that they must solve before filing their income tax return for 1970. Each employer is required to furnish all of his employees a Form W-2 by February 1. Most employers make a vigorous effort to comply with the law.

However, many employers can't find the ex-employee. If you haven't told the "Hard Work Manufacturing Company" where to find you and you have moved three times since you quit or they fired you last May, you need to notify the good Hard Work folks where to send your W-2.

It won't do any good to file your tax return without all of your W-2's. IRS won't process it so all you can do is make sure you get all your W-2's.

## Why Parents Stress Education To 'Junior'

The income of \$358,000 is predicted for "Junior" if he was in 1968.

According to detailed estimates released by the Bureau and reported in the Consumer Finance Association newsletter, FINANCE FACTS, a positive correlation between education and income is established. This is what Mom and Dad have to tell their sons for years.

Estimates that completion of school for an eighteen year old would produce a lifetime income of \$277,000.

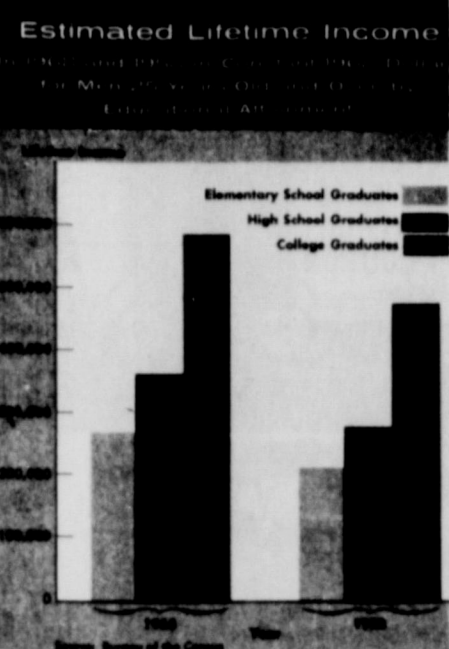

For those with four years of high school should add that figure for \$371,000, four years of college adds \$213,000 for a total of \$584,000 for a total of \$897,000 for graduate study of one or more years would add another \$52,000 for a total of \$949,000.

For men, estimated income in 1968 from age 25 to death increased from \$100,000 in 1958 to \$348,000 in 1968. For women, estimated lifetime income of those men or more years of college was \$198,000.

An interesting point observed by the Bureau is the percentage increases. For males 25 years old to death, the increase was 43 per cent based on totals in 1958; for those with four or more years of college, 67 per cent.

For the college group's lifetime income is estimated to be 91 per cent above average; for those in the high school graduate group, it was 12 per cent above average in 1968 but only 4 per cent above average in 1958.

Those males with an eight year school education were 24 per cent below the average in 1968 and 18 per cent below the average in 1958.

### They Said It Like This...

*I see an America whose rivers and valleys and lakes - hills and streams and plains - the mountains over our land and nature's wealth deep under the earth - are protected as the rightful heritage of all the people.*

CAMPAIGN SPEECH - Nov. 2, 1940  
F. D. ROOSEVELT

### from HISTORY'S SCRAPBOOK

DATES AND EVENTS FROM YESTERYEARS

First woman governor, Miriam A. Ferguson was installed as Governor of Texas, January 29, 1925. The Western Baseball League was named the American League, January 29, 1900.

Hitler repudiated the Treaty of Versailles, January 30, 1933. Franklin D. Roosevelt was born January 30, 1882.

The U.S. Supreme Court held its first meeting, John Jay presiding, February 1, 1790.

February 2 is Groundhog Day. Woodrow Wilson died, February 2, 1924.

Illinois territory, including the present state of Wisconsin, was created by act of Congress, February 3, 1809.

The Philippine-American war began, February 4, 1899.

The Senate of the provisional congress of the Confederate States assembled, February 4, 1861.

DONKEY BASKETBALL COMING---A benefit Donkey Basketball game is scheduled here Feb. 4 between the Junior ROTC cadets of Slaton High School and the Slaton Lions Club. Some of the action from last year's hilarious game is pictured above. Tickets for the game are on sale by ROTC cadets and Lions. The game is set in the junior high gym. (SLATORITE PHOTO)

### 3,200 TELEPHONES NOW IN SERVICE

## Slaton's Phone System Expanded During '60s

In December, Slaton had 3,200 telephones in service, a very healthy increase of 6.7 per cent during 1970, Jerry Sachse, manager for Southwestern Bell Telephone Company, said today.

Reviewing telephone plans and progress, Sachse said that for the decade just ended, Slaton's telephone system grew by 900 telephones -- a 39 per cent increase over the 2,302 phones in use here at the end of 1960.

"Slaton people talk more, too," Sachse said. "In November of 1970 a total of 11,931 calls were dialed here on an average business day. This is a 1.3 per cent increase over November of 1969."

The manager said it appears

growth and expansion will continue to be a way of life for Slaton's communications system. "Our engineers are predicting that the city will have 3,825 telephones in service by the end of 1974," Sachse said.

"We never stop planning ahead," Sachse said. "This year we are going to move out on still more expansion and improvement to care for present and future growth."

Two telephone projects are planned for the year here. A central office job due to complete in February adds dial equipment for 200 new telephone numbers to care for growth. A second job late in the year will provide facilities for still another 200 new phone numbers.

Sachse said a \$114.1 million construction budget has been set for the company's San Antonio Area, of which Slaton is a part. The area covers the western half of Texas, extending from Amarillo to Brownsville and from Waco to the Big Bend.

"The construction program includes land, buildings, central office equipment for local and long distance, new telephone growth and outside plant construction, such as cable and conduit installation," Sachse added.

## STATE Capital NEWS

BY STEVE SANFORD

Texas' 62nd Legislature is prepared to settle down to serious business after hearing recommendations of Gov. Preston Smith as to priority duties.

Legislature's first week was spent largely in organizational preliminaries. However, Lt. Gov. Ben Barnes named a full Senate committee roster, and the sub-panel of the Senate appropriations committee began hearings on the budget.

Lawmakers were reluctant to talk much about where they would find up to \$850 million in new taxes until they heard "the governor's plan." Smith's message to lawmakers was set for the day after his and Barnes' second term inauguration.

Meanwhile, bills piled up in hoppers of both houses during the "lull." Among them was the \$7.5 billion all-funds state biennial budget draft prepared by the Legislative Budget Board. It would require an estimated \$576.4 million in new revenue, and that was regarded as a minimum.

House Speaker Gus Mutscher was elected to a second term without opposition. Sen. Jack Hightower of Vernon was unanimously selected as Senate president pro tempore -- an honor which carries with it the privilege of serving as governor for a day, probably next April.

Proposed constitutional amendments already introduced would lower the minimum voting age to 18, remove the \$80 million a year welfare spending ceiling, provide four-year terms for state officials and call for annual legislative sessions.

Hundreds of bills already have been submitted. Some of the major ones would require drivers to have liability insurance before they can get a driver's license or auto plates; set up an in-

dependent Texas Air Control Board; split the Parks and Wildlife Department; allow individuals to bring anti-pollution suits; and abolish recognition of common law marriages after 1971.

**WELFARE CRISIS GROWING**  
Lieutenant Governor Barnes warned Senate budget writers that emergency funding is necessary to prevent some welfare allocations from running out altogether.

He said money for aid to families with dependent children and medical assistance might be exhausted by May or June unless the Legislature provides early supplements.

Barnes urged special attention to welfare problems.

Welfare officials confirmed a reduction of AFDC is likely "not later than March" if no additional money is provided. A reduction in "Medicaid" would result in "losing the whole program," they said, due to strict federal matching requirements.

Welfare Department is asking a \$34.9 million emergency appropriation to maintain the current level of aid to the needy, drawing AFDC and regular medical benefits.

Barnes is ordering a check to determine if local expenditures for medical welfare could be channeled through the state treasury and thus attract additional matching federal aid on a two-to-one ratio. He thinks the procedure may make a substantial "saving" in state money.

**APPOINTMENTS**  
Governor Smith appointed Mrs. Lyndon B. Johnson of Johnson City, Dr. Joe Thomas Nelson of Weatherford and A. G. McNeese Jr. of Houston to the University of Texas board of regents.

### High Plains Big Factor In Increased Swine Production

Texas boasted the largest increase in swine numbers from a year earlier among all 50 states. And a big part of that increase is right here on the High Plains, reports Dr. Gilbert Hollis, area swine specialist with the Texas Agricultural Extension Service.

Hollis cites figures compiled by the Texas Crop and Livestock Reporting Service which show a total of 1,419,000 head of hogs and pigs of all ages on farms on Dec. 1, 1970, a 48 per cent increase from 959,000 a year earlier.

"It's safe to say that at least 65 per cent of the statewide increase in swine numbers occurred in the High Plains area," points out Hollis. "This means an increase of more than 299,000 head."

The specialist adds that the state showed a 33 per cent increase in the total pig crop for 1970, with the number being 1,987,000 head. For the High Plains, he estimates the pig crop to have increased by about 319,000 head. Other figures show that farmers across the state intend to farrow 163,000

sows during the period, December 1970 to May 1971. This indicates a 37 per cent increase over the same period a year ago.

Swine numbers in the U.S. on Dec. 1, 1970, totaled approximately 67.5 million, up 19 per cent from the previous year.

Nationwide, producers intend to farrow 7.2 million sows from December 1970, to May 1971, one per cent more than a year earlier. Hollis notes that if these intentions are realized and the number of pigs per litter are average, the pig crop for the period will be 53.1 million head or one per cent more than the previous year.

# Now Is Good Time To Clean Farm Shop

A few days spent giving the farm shop a good first class cleaning will pay top dividends. And, says Associate County Agent Thomas E. Hemphill, there are a few periods during the year when more time is available for doing the job than now.

A cluttered workshop not only slows down the job being done but can cause accidents. In the well kept shop there is

a place for every tool and it should be kept there. Substituting tools when the right one cannot be easily found, may cause an accident, reminds the county agent.

Don't invite fire in the shop by letting flammable material pile up. Burn oily rags or store them in a tightly closed metal container. Keep flammable liquids in tightly capped, non-breakable and plainly labeled

containers. Store them in a spot where they are out of traffic lanes and in a cool place.

Since power cards on soldering irons, drills and other electrical equipment are some times mistreated, see that the insulation is in good shape and that plugs aren't cracked, advises Hemphill.

If the safety guards have been removed from the electrical grinder, better put them back

before it is used again. Goggles should always be worn when the grinder is being used. And remember, goggles can be replaced but not an eye.

Keep a fire extinguisher, one that's been recently checked, in a convenient location in the shop. Extinguishers are cheap fire insurance.

ive face shield.

The few hours or days spent cleaning up the farm shop can make the repair jobs go faster and safer during the months ahead.

ITEM: Today's shopping consumer has approximately 8,000 different items to choose from in a big supermarket. About 2,000 new items are added to the shelves each year.

ITEM: Pork is a major source of the B vitamins—thiamin, riboflavin, niacin, B6 and B12. It is the top source of thiamin, considered essential for healthy nerves.

BY TOMMIE WILKE

# Dunn to Close Food Store

Hello readers. It is great to be back with you again this week. This past week just zipped by, wonder why they go so fast? And since they do—here is a little something that we should all read and heed: "Let us be the first to give a friendly sign, to nod first, smile first, and—-if such a thing is necessary—-forgive first."

Mrs. Loe Belcher, mother of Mrs. Faye Payton, is making her home in the Pleasant Valley community now. She is having a house rebuilt near Mrs. Payton's house. We are glad to welcome her to our community.

Mrs. J. W. Payton and children, Tommy and Karle Ann, have returned home after a two week visit with her mother, and grandmother in San Francisco, Calif. The weather was just beautiful while she was out there.

Mr. and Mrs. Spence Bevers and family visited in Amarillo recently with their son and daughter-in-law and new baby, Mr. and Mrs. Bill Bevers and Shawn. Mr. and Mrs. Spence Bevers are new grandparents, too, and Mrs. Bevers reports that she got to babysit with the new baby for two whole hours. Doesn't that sound just like a new grandmother?

Mrs. Richard Lewis is in Temple and Ft. Worth with her folks. Her mother, Mrs. Tucker, suffered a stroke just before Christmas and they are now in the process of moving her from the hospital to a rest home in Ft. Worth.

Mrs. Spence Bevers' mother, Mrs. Selma Hodges, from Abilene and her sister, Gerry, from

Sweetwater visited with the Bevers for a few days recently. Mr. and Mrs. Bill Bevers and Shawn of Amarillo visited with his parents here last weekend.

Mike Mason is now working with the Santa Fe Railroad. Gary Lester and David Mock were both home this past weekend from South Plains College. Southland High School boys and girls basketball teams played Smyer this past Friday night and even though they lost both games, I think they really played good. George Whaley was high-point for the boys with 23 points and Connie Abshire was highpoint for the girls with 14.

Mr. and Mrs. P. W. Crawford kept two of their grandchildren Saturday night and just had more fun!

Carl Wartes spent a week recently in Garza County Hospital with pneumonia. He is out now and back at work, but still not feeling too pert!

Mack Espinosa has moved back to Southland to live with his father, G.S. Espinosa.

Charlie Rodriguez is going back to Methodist Hospital where more work will be done on his foot. He got his foot burned very bad six months ago and it still isn't healed. We are all hoping that things will go better for him from now on.

Congratulations to Mr. and Mrs. Glen Klesel on birth of their second daughter, Penney, on Tuesday afternoon, Jan. 18 at the University Hospital in Lubbock. She weighed 8 lbs., 8 1/2 ozs. The proud grandmother is Mrs. Selma Klesel. May God continue to bless this

family. We've got some brand new GREAT GRANDPARENTS in the community. Mr. and Mrs. Robert Long's granddaughter presented them with a great grandson on the 21st day of January. The young man's name is Robert James and his parents name is Mr. and Mrs. James Fields and they live in Dallas. Congratulations to all of you!

Mr. and Mrs. Junior Becker and boys were dinner guests in the home of his parents, Mr. and Mrs. Willie Becker, on Sunday. Mr. and Mrs. Willie Becker visited with Mr. and Mrs. W. A. Basinger on Sunday night.

Mr. and Mrs. E. C. Stabeno and daughter, Lynn, Jamie Foerster and Edmund and Yours Truly visited with Mr. and Mrs. Leroy Yoigt and family in Crosbyton on Sunday afternoon and night.

Mr. and Mrs. Ramon Garza are adding some rooms on their home.

Mrs. Hub Taylor is at home now after a stay in Methodist Hospital following surgery. May God continue to be with her in her convalescing.

Joan Gindorf is now living out here with her grandmother, Mrs. C. W. Gindorf.

As a lot of you already know, Hubert Dunn is closing his food store here at Southland. His father first opened a food store here in 1920 and except for 9 years along the way, there has always been a Dunn's food store in Southland, or to get right down to numbers, there has been one here for 42 years. Now they are fixing to close the doors and THEY ARE GO-

ing to be MISSED. Of course, the Duns will still be living here, thank goodness for that, Hubert will be farming, I, for one, will certainly miss having them next door!

Helen Becker Horn is getting along much better now.

Bob Nesmith, son-in-law of Mrs. Mary Stolle is in very critical condition in an El Paso hospital after being in a truck wreck. He is the husband of the former Hilda Stolle. May God be with this family in their hours of worry and need.

Until next week, "Cease to inquire what the future has in store, but take as a gift whatever the day brings forth."

**"Give me one good reason to wait and band Caparol when I plant my cotton?"**

It'd be quicker to give you the only good reason why you shouldn't.

Giving you all the reasons why you should switch from broadcasting a pre-plant cotton herbicide, to banding Caparol® pre-emerge, takes longer. Because there are at least seven good ones.

1. You don't have to tie up money in weed control months before you need it. Banding Caparol pre-emerge at planting, keeps your options open until the seed goes in the ground. And you're using money over a shorter time period.
2. The economics of banding Caparol, instead of broadcasting and incorporating a pre-plant, is the only reason some growers need. Caparol is the best answer yet for the problem of tight money, cheap cotton and weed control.
3. Caparol is easy to apply. Just mount a spray nozzle behind each planter wheel and you can plant and spray in one trip. When the cotton is in, the herbicide is on.
4. Planting can't mess up a Caparol treatment. Busting too deep or knocking off too much soil with the planter can undo even the best pre-plant incorporated treatment. But not Caparol. It's sprayed

behind the planter. The last thing to go on the seedbed.

5. No incorporation is needed when you pre-emerge Caparol. You save the cost of incorporation, and you save soil moisture, as well.

6. In addition to great careweed control, Caparol controls annual morningglory. Pre-plant herbicides just can't touch it.

7. You can rotate to sorghum or follow again with cotton without danger of injury. Caparol doesn't cause a carryover problem.

Now if you only needed one reason to wait and band Caparol when you plant your cotton, you have plenty to choose from. All of them are worth checking into. When you do, it's a better than even chance you'll join the switch to Caparol.

The only reason not to, is if a severe grass infestation is likely to be more of a problem than broadleaves. This is about the only reason left for broadcasting a pre-plant herbicide.

Check it out for yourself. Put Caparol to the test this year. See why the switch is on to Caparol.

For more information, write to Geigy Agricultural Chemicals, Division of CIBA-GEIGY Corporation, Saw Mill River Road, Ardsley, New York 10502. *Caparol by Geigy*

# AND THAT'S 'UNDERSTATEMENT' Big Decisions Face Farmers

## Wise Management Moves Key To Future Survival

Farm families will face a multitude of management decisions in the 1970's. That's certainly an understatement if there ever was one. But wise management decisions hold the key to the continued survival of farming operations during this decade.

What decisions face farm families? Dr. William E. Black, economist in marketing and policy with the Texas Agricultural Extension Service, discussed 13 issues at a Farm Family Management Conference recently in Lamesa.

### TO FARM OR NOT

1. With the continued narrowing of profit margins per unit of farm production, farmers are motivated to do one of two things — enlarge their farming operation to more production units, or drop out of farming. For those who cannot expand and must quit farming, the major decision is when to drop out and what is the husband's alternative employment opportunity. Moving from farm to non-farm employment is more of an adjustment than many farm families realize or are willing to make.

2. "If the decision is to stay in farming, then the farmer should consider investing in marketing," says Black. The farmer will need to have his production locked into a marketing arrangement ahead of time, or he will not produce. This marketing arrangement can become the basis for financing his production.

### RIGHT TO MANAGE

3. "Farmers must retain their identity so that they will be able to make management decisions," emphasizes the economist. "Whether farmers will fight for the type of marketing arrangements that will keep them as independent managers or not is one of the major decisions they will make in the 70's."

Agricultural producers will have to give up more of their vanity of traditional independence in production and marketing and bring about a system of greater internal cooperation and coordination. One goal will be greater disciplined control over output as to quality, quantity and timing. "If farmers rely upon nonagricultural business firms or the government to develop and operate these controls, they will lose their right to manage their farms."

4. "Farmers will need to decide between the political arena and the marketplace for their economic gains. The guarantee of income in agriculture is not without its price. Until the treasury faucet is turned off, farmers will not become overly serious about their own supply management programs."

5. According to Black, the rising expectations of farm people is another management decision. Farm families today demand income and leisure time

comparable to what people in most occupations have. Whether or not they can get and enjoy that kind of life will be another concern in the 70's.

### NEW TECHNOLOGY TO CONTINUE

6. New technology will continue to pose new opportunities and new choices. Extensive investment in research and development will likely continue to pay off in more economical sources of power, highly automated systems and unique production techniques. How much investment the farmer will make to aid output — both in research and application — will be another decision.

### FARMERS WILL ALSO BE CONFRONTED WITH SOCIAL PROGRAMS

7. Farmers will also be confronted with social programs that initially seem hard to swallow, such as the public concern about pesticides, nitrates and odors. These public concerns are bringing about restrictions on farm operations, and threats of further restrictions will influence the farmer's choices. Instead of remaining a part of the problem, Black suggests that farmers become a part of the solution.

### INCOME TAXES WILL INCREASE

8. Income taxes will increase. The economist cites two reasons for this — larger anticipated income per farm, and greater demand for public services and programs at the local, state and national levels. Thus, taxes will become increasingly important as a consideration in managing farms — particularly income and estate taxes.

### LABOR PICTURE CHANGING

9. "The hired farm labor situation is changing. Farmers must now compete with the total economy in a more or less national market." As farmers expand in the labor-intensive enterprises, they become involved in new concepts for employing labor — employment and health insurance, minimum wages, pension plans and unionization rights. Part of these programs will be defrayed by the farmer directly.

### CONSUMER ORIENTATION NEEDED

10. "The geographic and cultural divisions between the farm and non-farm world will continue to fade," contends Black. "Farms will not be able to operate in an agrarian world. They will become a bigger part of the process that allows society to survive." Thus the farm public will be demanding educational assistance in a wide variety of subject matter in addition to that for commercial agriculture.

## State Livestock Exports Lead Nation In 1970

Texas Agriculture Commissioner John C. White has released figures on the number of livestock Texans exported in 1970 and predicts that Texas will continue to rank Number One among the 50 states in the export of beef cattle, swine, sheep and goats.

The state also exported 946 head of dairy cattle, which is believed enough to hold its Number Four ranking in the export of dairy animals. Figures were available in 1970 for the first time on Texas export of horses and show that 1,124 were exported.

Most of the livestock and swine went to Mexico and South American countries which have found Texas cattle and hogs more than adequate for upgrading their herds, Commissioner White said. Texas Department of Agriculture personnel are active throughout the year in helping foreign visitors locate and buy good Texas swine and livestock.

The figures on exports are based on the U.S. Department of Agriculture's health certificate records. Such certificates are required when exporting livestock and swine.

with the threat of agribusiness takeover."

"The management decisions facing farm families in the 70's constitute a continuing and intense challenge to those planning to succeed in farming," points out Black. "Many adjustments must be made now, and the pace will continue to pick up. For those who fail to adjust to critical changes, the opportunity to adjust to future changes can be lost."

ASCS officials have advised Plains Cotton Growers, Inc. that every cotton producer who suffered yield losses to adverse weather in 1970 should request a yield adjustment. The cotton program for 1971, 1972 and 1973, as in the past, provides for raising a farm's per-acre yield up to 80 per cent of the projected yield when abnormal weather causes crop loss or damage.

And when an adjustment is granted, officials say the adjusted yield, not the actual yield, will be used in figuring payment yields for all three years of the program.

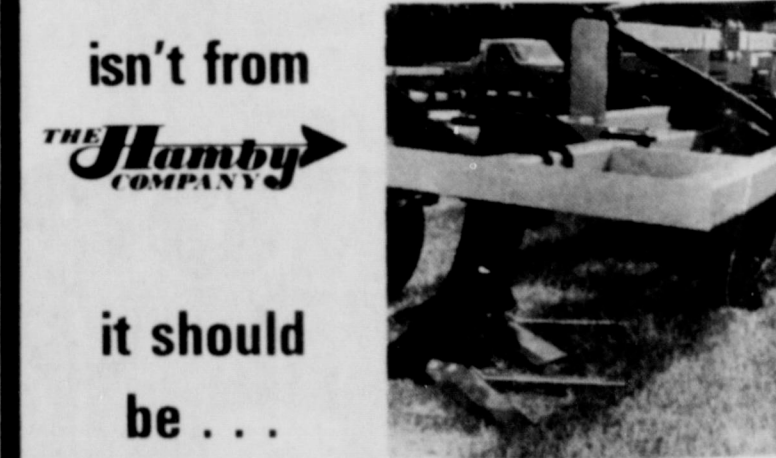

The payment yield for 1971 will equal twice the 1970 projected yield, plus the 1970 actual yield, divided by three, except that (1) the 1970 actual yield may be adjusted for abnormal weather and (2) the 1971 payment yield will not be less than the 1970 payment yield if total farm production for 1970 was equal to or greater than the number of pounds on which payment was made in 1970.

Walter Wells, Lubbock County ASCS office manager, points out that the "total production" feature might protect a farmer's payment yield for 1971 without a weather adjustment. "But the adjusted yield might well help to prevent the payment yield from being lowered, or even help to raise it, in 1972 and 1973."

Payment yield for 1972 will be the total of 1970 projected yield, 1970 actual or adjusted yield and 1971 actual or adjusted yield, divided by three. For 1973 the payment yield will be the average of actual or adjusted yields for 1970, 1971 and 1972.

However, for any year in

**SUNDAY'S SERMON**

**INVOLVEMENT**

We hear much today about the word "involvement." American youth, challenging the traditional and the established, seek support by urging their peers to "become involved."

Whatever the individual attitude or disposition, successful living does not demand involvement so much as it requires participation. In a proper aspect, successful living blends participation and coexistence. We must participate in life, in the activities and events that shape the future of the small part of the world in which we live; but we must, in fairness, be tolerant in our attitude toward fellow human beings with whom we do not always see eye-to-eye. It's their world, too.

Whatever the support when ever our support is needed for a worthy cause or endeavor. The purpose of participation should be to improve and preserve whatever is good and worthwhile, or to build something new which will be of value.

Participation, in some form, is the price of your existence.

EARL BARTLEY

**Weekend Youth Revival This Week**

A weekend youth revival in the Pentecostal Holiness Church will be held Friday through Sunday, Jan. 29-31 at 7:30 p.m. Sunday morning services will be at 11 a.m. The church is located at 8th and Knox Streets.

Theme of the youth crusade will be "Youth Reaching Youth for Christ". Two young ministers, Rev. Ray Wade and Rev. Ed Bridgman from Southwestern College Oklahoma City, will

be ministering in each service. So far this year in the total ministry of the staff and students at Southwestern there have been reported some 280 experiences in Christ.

"We invite all the churches in the area to join with us in prayer, if not in attendance, in this youth crusade", said the Rev. E. R. Baggerly, Jr., pastor.

**Mrs. Wooley's Rites Held In Lubbock**

Services were held for Mrs. J. B. Wooley, 57, Monday in Belaire Baptist Church, Lubbock. The Rev. John Martin, pastor, and the Rev. Horace Hitt, retired pastor, officiated.

Burial was in Reshavan Memorial Park directed by Sanders Funeral Home of Lubbock.

Mrs. Wooley, who had been a resident of Lubbock 25 years after moving there from Slaton, died Friday after suffering an apparent heart attack earlier at Fox Studios where she was employed.

She was a charter member of the Belaire Baptist Church.

Survivors include her husband; two sons, Sgt. Joe Wooley, stationed in Vietnam, and Harold of Lubbock; seven brothers, Leland Watson of Oklahoma, Melvin Watson of Hale Center, Ernest Watson of Gainesville, Allen Watson of Odessa, Alvin and Milton Watson, both of Greenville, and Fred Watson of Carlisle; two sisters, Mrs. Louis Woodson of Louisville, Ky., and Mrs. Mattie McSpadden of Farmersville; and five grandchildren.

Pallbearers were Vernon Watson, Richard Watson, Boyd Watson, R. J. Watson, Bobby Watson and Virgil Bates.

**Children's Home Official Speaks At Rotary Club**

"Why should you get involved in your community?" was the question asked Slaton Rotarians when Floyd Stumbo, Lubbock Children's Home, appeared as guest speaker Thursday.

Stumbo outlined three reasons why a man should become involved in his community: (1) Because of the brotherhood of mankind, (2) It is good business -- a concerned citizen can realize big returns on his investment, and (3) Rewards -- if you sow seeds, even on a small scale, the results can be monumental.

"If I had my choice and it was convenient to my career, I would prefer to live in a small town," Stumbo told Rotarians. He added that he didn't "buy the statements that you can't trust people anymore, or that people won't help themselves."

The speaker said he believed in the basic philosophy that "people can change for the better." He said this is the philosophy at the children's home.

"What you can do to help a

boy or girl is a tremendous investment--whether it be in Scouting, Little League Baseball, or in any type youth work," stressed Stumbo.

Albert Grigsby was program chairman for the weekly Rotary meeting. Dee Bowman presided at the luncheon meeting. Bowman reminded Rotarians that Feb. 15 has been set for a special Ladies' Night dinner meeting.

Several guests and visiting Rotarians were introduced at the meeting.

**WSCS Sees Slides From South America**

The Women's Society of the Christian Service of the Slaton United Methodist Church met Monday at noon in Fellowship Hall for a luncheon.

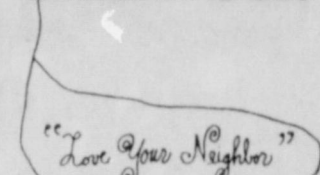

The Rev. Bruce Parks, pastor, showed and narrated slides taken when he traveled to South America in October of 1968. Mrs. Stan Jaynes concluded the study on "The Americas".

Mrs. R. J. Clark reported on a January 12 meeting of the Federated Church Women which was held at the First Baptist Church. The F.C.W. will meet again on March 29 in the United Methodist Church. Mrs. Earl Reasoner will review a book.

It was announced that the "Call to Prayer and Self Denial" meeting will be held Feb. 22 at 10 a.m.

The meeting was closed with prayer led by Mrs. Clark.

**Sextons Visit**

**A&M University**

Mary Sexton, Brad, Blaine and Sheila of Levelland, and Mr. and Mrs. F. B. Sexton visited Buddy Sexton at A&M University last weekend.

Points of interest that were seen included the Veterinary School, the Dairy Farm, and the Memorial Student Center.

A trip was made to Washington on the Brazos Museum, where Texas Independence was declared on March 2, 1836. Mrs. Sexton said there are many places of interest to visit in that part of our state.

**WHITE'S**  
THE HOUSE OF GREATER QUALITY

"For the earth is the Lord's, and the fullness thereof." — Psalms 24:1, 50:12

Most of us have a possessive attitude. We talk about "our town," and "my house," and "my job." There's nothing really wrong with this attitude. It reflects pride in the community and a feeling that some individual contribution has been made.

It becomes wrong when our concern for the good things of life becomes too strong, when our eagerness to achieve dominates our every thought and action. When we want too much and try too hard we forget the simple values—and we do not have time to be thankful to the Lord who made all things possible.

# WANTED 3-INCH RAIN

**Must Fall By Feb. 23 !**

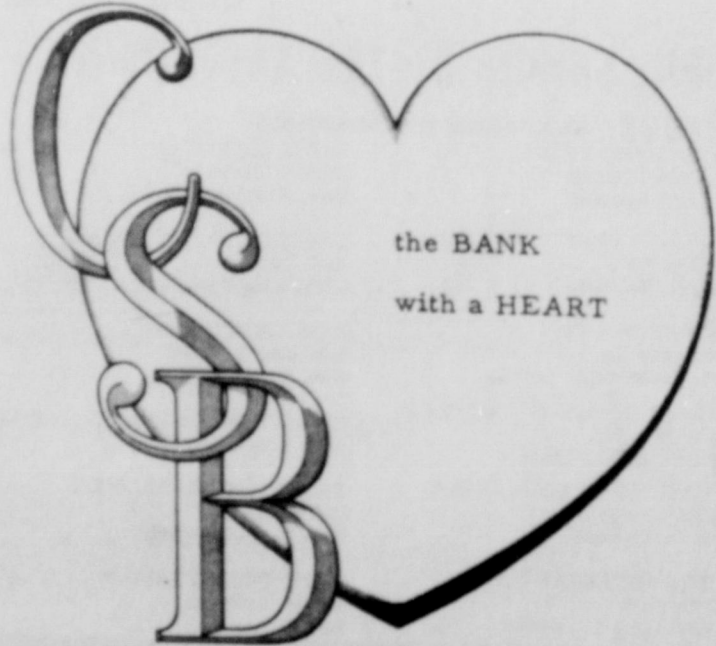

CSB believes in advertising, and the Feb. 23 deadline is our contract date with The Slatonite.

CSB has been relying on that crack(ed) meteorologist Bill Ball for weather forecasts and rain the past few months, but we have waited and waited for him to come through with a general, much-needed rainfall.

Therefore, we are returning to our "old reliable" newspaper want ad. The Slatonite has delivered results on our "want ads" twice the past few years-- so here we go again.

We'll take the moisture in any form--rain, sleet or snow--just so it adds up to 3 inches by Feb. 23.

CSB believes that advertising pays, and the Slatonite has promised results or this ad will cost us nothing. We're ready to pay, however, so let it rain!
