

Bownds Elected Cashier of First State Bank Here

According to J. H. Brewer, president of the First State Bank, of Slaton, G. W. Bownds, who has been employed for several years at the bank, has been elected cashier of the institution, succeeding I. M. Brewer, who recently moved to Temple, Texas.

Wm. R. Sewell and Mrs. Katrina Savage have been elected assistant cashiers, Mr. Brewer announced. They have also been in the bank's employ for some time.

Second Car of Butter From Here Goes to Chicago

The second car of butter to be shipped by the Slaton Creamery was loaded and billed out of Slaton last Friday night. The car was about three-fourths full of butter, the other fourth of the space being occupied by eggs, W. M. Randle, manager of the creamery, stated.

The shipment was made to a Chicago firm, and the car rolled into that city Tuesday of this week, Mr. Randle said, stating that it was routed over the Santa Fe all the way. He said that, considering the distance from Slaton to Chicago, the freight service on this shipment was exceptionally good.

Another car will likely be loaded out from the creamery Saturday of this week, the management said.

Baldwin Speaks to Tahoka Graduates

On Monday night of last week, Attorney R. A. Baldwin, of Slaton, delivered the commencement address to the 23 graduates of Tahoka High School. Commenting on the closing of school there, the Lynn County News said: "Hon. R. A. Baldwin, of Slaton, delivered the class address, which was a thoughtful, well-prepared discussion of 'Life'."

MISS CALDWELL WINS A TWENTY-FIVE DOLLAR PRIZE

On May 25, in the little city of Nevada, Collin Co., Texas, the "Beautiful Yard Contest" closed with Miss Minnie Caldwell winning first prize, twenty-five dollars in gold.

Other prize winners were Mrs. B. B. Evans, Mrs. S. C. Webb, and Mrs. Bob Cotner. Since the tornado of May 9, 1927, the little city has been clearing away the rubbish left and this year had a "Beautiful Yard Contest".

Miss Caldwell spent three weeks with relatives, Mr. and Mrs. A. N. Ricks, Mrs. J. T. Lokey, Mrs. Jerry Leverett, Mrs. Gene Phillips, and friends in Slaton recently. She is a young and attractive daughter of Mr. and Mrs. C. S. Caldwell of Nevada, and was formerly an employee of the State Capitol in Oklahoma City, Okla. She has been home some few months and is taking great interest in beautifying her parents' lawn and yard.

Their home was destroyed by fire and was replaced with an eleven room brick last year. This home has all modern conveniences that our largest city homes have and is located one-half mile from the business section of Nevada and on a three hundred and fifty acre farm. This is known to be the best equipped farm in Collin County and we are happy to boast of such beautiful homes and good farms in our State.—Contributed.

HONORED WITH SHOWER.

Following a Bible lesson, conducted at the home of Mrs. J. W. Wallace, last Monday afternoon, the adult Bible class of the Church of Christ, of which Eld. J. E. Mullins is teacher, honored Mrs. Mullins with a miscellaneous shower. Ewer and Mrs. Mullins have just recently moved to Slaton, and the shower for her was a warm welcome extended by members of their congregation.

Creamery Will Ship Third Car of Butter Saturday

The third carload of butter to be shipped by the new Slaton creamery since its formal opening was held on April 27 will be shipped Saturday night, it is expected. This information was given Thursday by W. M. Randle, creamery manager. The car will contain about 20,000 pounds of butter, and will go to New York Markets, Mr. Randle said. A quantity of eggs will also go in the car, he stated.

The second carload of butter was shipped last Friday night, nine days after the first carload was shipped out. If the third car leaves Saturday night, it will have been only eight days since the previous car was loaded. This gives the plant here a record of turning out almost a carload of butter each week. The actual output has been ranging around 2,300 pounds of butter per day.

The first carload of butter, sent to New York, scored 88 points by government test, Mr. Randle said. This is considered a splendid score, he declared. The second car was shipped to Chicago, and the score of that car had not been learned yesterday.

Mr. Randle stated yesterday that the creamery's business is growing rapidly, and that prospects are excellent for a continued growth.

C. of C. Favors Using Teacher of Agriculture Here

Slaton needs a teacher of vocational agriculture in the Slaton High School, in the opinion of the board of directors of the Slaton Chamber of Commerce. This resolution, together with a recommendation to the board of school trustees in this independent school district that the subject be given serious consideration and investigation, with the purpose of beginning the agriculture courses at the start of the next school year if possible, received approval of the directors of the Slaton Chamber in the regular meeting held Tuesday night.

It is understood that something like half of the salary of a vocational agriculture teacher will be paid by the state or federal government, if the teacher is employed. The directors are anxious for the arrangement to be made, if the school board finds it practicable, according to Horace Hawkins, president of the Slaton Chamber, and also chairman of the agriculture committee of that body.

"Slaton is largely an agricultural community, with many farm boys and girls attending our high school, and a vocational agriculture teacher would, in our opinion, meet a definite need in the life of this territory," Mr. Hawkins said.

UNLOADING FURNITURE.

Burks Furniture & Undertaking Co., a firm that will open for business soon on Texas Avenue, is now unloading a car of new furniture which has just been received from the manufacturers. Mr. Burks, the manager states that the opening date for his store will be announced at an early date. Williams Transfer is unloading the car.

LEASES CANDY KITCHEN.

Joe W. Tate has leased the Slaton Candy Kitchen, on Texas Avenue, from Charlie Murray, and he states the place of business will now be known as the Palace of Sweets. Murray expects to be engaged in business at Post.

Father Thomas J. S. McGrath, S. J., who will be remembered by many in Slaton as having conducted a two weeks Mission, in April of last year, and who has just completed a two week's mission at Plainview, visited Father O'Brien for a few hours, en route to South Carolina for a much needed rest. While he has been fishing for the Souls of men, on his vacation, being a lover of the outdoor life, he from his remarks, and his anticipation and hopes for realization, expects to catch some wonderful fish from the streams of old South Carolina. Good luck.

Slaton Occupied Fifth Place in Building Total in State During Week of May 6-11, Records Show

According to records made public out of Dallas by the Associated Press, Slaton occupied fifth place in the Texas building total for the week of May 6 to 11. The standing for the week was as follows:

Houston	\$751,488
Fort Worth	\$293,769
Dallas	\$146,000
San Antonio	\$137,017
SLATON	\$125,000

Other cities ranked in the following order for the week, with amounts varying from \$74,000 to \$3,000: Lubbock, Beaumont, Austin, Wichita Falls, San Angelo, Pampa, Corpus Christi, Galveston, Waco, Amarillo, Plainview, Sherman, Greenville and Corsicana.

Neighbors Help With Tate's Crop Work

On last Tuesday morning, 13 neighbors of S. N. Tate, who recently had the misfortune of losing his wife and infant, met on his farm with teams, planters and extra hands, to do a day's planting.

The entire crop was planted on that day, and those in the group who so generously gave their assistance were: W. A. Jesse, C. A. Driver, Price Stephenson, Fred Davidson, W. L. Johns, Clay Johnston, C. C. Weaver, Tom Johnston, Douglas Dennis, Fred Johnson, John Stephenson, Melvin Brewster, Mr. Bottler's team and Walter Savell.

A very sumptuous meal was prepared and served to all those who stayed, by Mrs. M. B. Tate, of Slaton, who also acted as official photographer.

Mr. Tate recently had the misfortune of a long siege of illness in addition to losing his wife and child.

MISS LORENE MCCLINTOCK HOSTESS TO CLASS

Miss Lorene McClintock, assisted by Miss Pauline Sanders, entertained her Sunday school class of the Methodist church at her home at 805 S. 11th St., Tuesday afternoon.

This class consists of boys from 7 to 9 years of age. A great time was enjoyed during which games were played and pictures taken. However, when Miss Lorene invited the boys to get into the car that she might take them home, their faces plainly showed that they considered a very important feature of a party had been forgotten; but when instead of going home, they were taken to a local drug store for cold drinks, they considered the party had a satisfactory conclusion.

GETS CAR BUTTER TUBS.

Thursday of this week the Slaton Creamery received a carload of butter tubs that will be used in shipping butter from the local plant. In the shipment there are approximately 2,500 No. 63 Spruce tubs. They are being stored by O. N. Alcorn Transfer.

Slaton's Mythical Ball Teams.

Now really, folk, who stated that Slaton does not possess timber for ball teams? Anyway, here they are. We are waiting for further information as to dates, for the first game. We will surely advise you.

Reluctantly, Bill Florence agreed to act as Umpire, and J. S. Edwards as Time Keeper.

AVOIRDUPOIS TEAM		LIGHTNING ROD TEAM	
Pink Burks	Elbert Jarman	Pink Pinkston	Joe Teague, Sr.
Lem Sone	Tom Abel	Clarence Byers	Ode Porter
Gene Wilson	S. S. Forrest	By Gosh Tekel	Roy Ely
Jim Elliott	Walter Hestand	Boss Garren	Claud Self
Frank Drewry		George Catching	

The members of the respective clubs desire to inform the people that this is not a "Pink" tea party. They are out to win in their respective class. Rules governing this contest will be taken from divers sources, but the best two out of three, catch-as-catch-can with absolutely two points down, will govern. Watch for the date, this will surely be one of the Summer events. Come out and see the boys with their new uniforms strut their stuff. Each one is an Adonis, and to look at even one will be worth the price of admission, but there will be none. Let's give them the glad hand!

Catholic Sisters Leave for Home After School Term

Following the close of the Catholic school here, the Catholic sisters, who conducted the parochial school during the past year, left Thursday for the Mother House, near Cincinnati, Ohio, where they expect to spend the summer.

They are: Sisters Sebastian Marie, Mary Edward, Anthony Marie and Richard Marie, San Franciscan sisters of the Catholic church.

The Catholic school year, which has just closed, was reported to have been very successful, more than 150 students attending regularly.

The sisters who left here Thursday expect to return for the beginning of school this coming fall, which will be early in September.

New Officials of Club are Chosen

The Civic and Culture Club met May 29 at the home of Mrs. J. S. Latham.

The president, Mrs. Pember, called the club to order at three o'clock, after which the minutes were read, and a brief business session conducted.

The program which followed was the last number of a year's study of Texas History, which all had found both interesting and profitable.

This was also the last regular meeting of the year, and the expiration of two years' service by the out-going officers who have served the club efficiently and faithfully.

The new officers are Mrs. A. L. Robertson, president; Mrs. E. N. Pickens, vice president; Mrs. S. E. Staggs, recording secretary; Mrs. Fred Schmidt, corresponding secretary; and Mrs. Lee Green, treasurer.

The club was delighted to have as a guest, Miss Ida Strain, of Temple, Texas.

After adjournment a delicious refreshment plate was passed by the hostess, assisted by her daughter, Elizabeth.—Reporter.

Slaton Rotarians At International Meeting at Dallas

Members of Slaton Rotary Club who are in Dallas this week attending an annual meeting of Rotary International, are J. W. Hood, president of the local club, C. F. Anderson and A. Kessel.

Mr. Kessel planned to leave Dallas yesterday, accompanied by his son, Bertrum, for New York, where they will take a steamer June 15th for Europe.

Little Vera Holden, daughter of Mr. and Mrs. F. V. Holden, who is in the Lubbock Sanitarium, is reported to be slowly improving.

TOO MANY APPLES.

A limb taken from an apple tree at the T. O. Petty home at Fifth and Garza Streets, which is on display at the Petty Plumbing Shop, on Texas Avenue, indicates the tree is entirely overloaded with fruit. On a 12-inch space of the limb on display, there were counted fifty-one young apples. That is too much fruit per square inch, and the apples should be thinned before they mature. Petty states that other fruit trees in his orchard are bearing in proportion to the apples.

Would Build Line.

The Gulf and West Texas Railroad applied to the Interstate Commerce Commission at Washington for permission to build a new rail line from Fredericksburg to San Angelo. Both are Texas towns.

Cheese Plant Opens.

A cheese plant, which cost approximately \$15,000, was set into operation at Abernathy Wednesday morning, according to press dispatches. It was said the plant opened with a record of 4,500 pounds of milk. The present capacity of the plant is said to be 10,000 pounds of milk per day.

Educator Dies.

Dr. Robert Stewart Hyer, 68, president Emeritus of Southern Methodist University, died at his home in Dallas Wednesday. Death was reported to have been due to heart attack. Dr. Hyer was reputed to be one of the foremost educators of the southwest.

Missing Girl Found.

Jack Freigh, alias Jack Griffith, and Miss Fannie Lee Minter, 16-year-old Austin girl, student of Texas University, were taken into custody at New Bedford, Mass., Wednesday. The girl mysteriously disappeared from Austin January 29, and an intensive search for her had been made. The couple were registered at a New Bedford hotel as man and wife, news dispatches stated, and had been seen in that city for several days. They were engaged in selling hosiery.

Chrysler Trust Formed.

Formation of the Chrysler Management Trust, similar to the General Motors Management Corporation, has been announced from New York. About fifty or sixty high executives of the Chrysler organizations will share in the growth of the company, it was said.

Street Work Continues.

The City's street working machinery has been kept busy almost daily since the recent heavy rains, putting the streets in the unpaved sections of town in good condition. The work is progressing with satisfactory rapidity, city officials say. It is under supervision of W. P. Layne, city water superintendent.

Dry Law Repealed.

Wisconsin has become the fifth state of the Union to dispose of its prohibition enforcement laws. Governor Walter J. Kohler signed the Grobschmidt state dry law repeal bill Wednesday, and the Federal prohibition act now is the only dry law in Wisconsin.

LINDBERGH HIDES.

NEW YORK, May 28.—Col. and Mrs. Charles A. Lindbergh, who eloped from the press to be secretly married in the bride's Englewood, N. J., home yesterday, were enjoying their hard-won privacy today after eluding all efforts to trace their whereabouts.

Long investigations by brigades of reporters and photographers failed even to establish whether the Lindberghs were on the ground, on the water, or in the air.

Five Carloads of Slaton Sheep Sent To Romero Tues.

Five double-decked carloads of sheep, numbering 1,400 head in all, which is equivalent to ten single-decked carloads, were shipped from Slaton to Romero, Hartley County, on Tuesday of this week by Bub Hefner, who lives just north of Slaton, beyond the Yellowhouse Canyon.

The sheep included several hundred young lambs, and the entire herd will be placed on Hartley County pastures for grazing purposes, it was announced.

Mr. Hefner bought the ewes several months ago and shipped them here from San Angelo. Since then he has been feeding the animals at his place north of Slaton. During that time a considerable increase in his herd has been seen, and Mr. Hefner expects his venture with sheep to prove quite profitable.

Good Program is Planned for New Hope Trip Friday

A splendid program of music and other interesting features has been planned for Friday night when Slaton trippers are to visit New Hope community, located about ten miles west of Slaton.

B. E. Clark and Coke Oliver, and perhaps other Santa Fe men, will help furnish music, and the Slaton High School Boys' quartet, composed of Gerald Woolever, Clark Self, Levoey Campbell and Claude Gentry, will probably be ready to warble harmoniously at this meeting, it is expected. Other program features are planned, including ice cream as refreshments near the end of the meeting.

New Hope people have extended Slatonites a cordial welcome, and Chamber of Commerce committeemen said yesterday that they are hoping a large delegation of Slaton business men and their families will assemble at the city hall lawn, Friday evening at 7:45, to start the trip to New Hope, if favorable weather conditions permit.

Will Invest in Bronze Horned Frog

FORT WORTH.—The graduating class of 1929 at Texas Christian University will spend \$580 in placing a bronze horned frog, athletic emblem of the school, on the campus. This is being done by the class, following a long established custom of the seniors in making a gift to their Alma Mater each year.

The bronze horned frog will be placed in some prominent place on the campus, atop a 1000-pound granite stone, to be used as a base. The granite will be placed on a concrete foundation, eight feet in depth.

SANDERS-DOWELL NUPTIALS.

Miss Thelma Dowell, of Idalou, and Eshman Sanders, of Amarillo, were quietly married Wednesday, May 29, in Lubbock.

The bride is the daughter of Mr. and Mrs. Jeff Dowell, of Idalou, while Mr. Sanders is the son of Mr. and Mrs. W. H. Sanders, of this city.

Those present at the ceremony were Misses Donie Lee Allison, Mack Patterson, of Lubbock, Monett Patterson, of Wilson, Mrs. Jeff Dowell and daughter, of Idalou, Mrs. W. H. Sanders, Miss Ruby Sanders, Messrs. Desma Abbott and Clarence Holt.

Mr. and Mrs. Sanders will make their home in Amarillo where Mr. Sanders is an employee of the Ft. Worth-Denver Railway Co. Their many friends join in wishing them a happy married life.

PICNIC DINNER.

Pupils of Mrs. Etheridge's class of the Baptist Sunday school entertained the pupils of Miss Clara Thomas with a picnic at Two Draw Lake, Post, Tuesday, May 28. The picnic was a success and was reported a wonderful day.

INVISIBLE REALITIES.

Once a very great editor assured a little girl about the reality of Santa Claus. He said in so many words that the most real things in this world are the thing that children and men do not see.

It would be very difficult to find a sentence that holds more of sublime truth.

We cannot see an electric current of 20,000 volts; yet it is there in all of its terrible reality.

No one has ever seen carbon monoxide gas. Who does not know of it and fear it?

The deadly spirit in alcohol is invisible. The clear liquid looks as innocent as distilled water; one cannot tell them apart, so far as looks are concerned. The smell, taste, and effects on the human constitution go to make the spirit most realistic.

Human beings have learned of these stern, invisible realities, and how to evade their harmful effects, and also how to apply them to useful purposes. Almost every modern home uses illuminating gas, which nobody has ever seen. One of the most deadly elements known, if it gets the upper hand.

Education prevents our enemies from getting the upper hand, and makes valued friends of them. It is only the ignorant and neglectful that suffer consequences. With proper training man can have dominion over all things; without it he is easily victimized.

The fully trained, intelligent man, guards every portal against the invasion of the invisible foe, which is the kind that kills; the enemy that cannot be seen is very real, and is many times more dangerous than one we can see. The invisible enemy attacks from behind, as it were. The trained man sees all around him. God pity the man or woman, boy or girl that gropes in ignorance today!

WHY THEY GET BIG MONEY.

There are many advertising writers in this country who command salaries of \$50,000 and even more.

Why? Because national advertisers recognize the importance and value of having the message properly presented. They know that advertising pays if it is properly handled.

How different is this attitude toward advertising than that of many local business men. To our local friends advertising comes in for a

thought only when there is nothing else to do.

Ads are prepared hastily, specials are selected with but little thought, and then if the advertisement fails to produce satisfactory results, doubts arise as to the efficacy of advertising.

When an ad fails to pui the fault is nine times out of ten in the character of the ad, in the indifferent way in which it is prepared.

Remember, those who study advertising know that it pays to have every ad carefully prepared.

SMALL TOWN EXPERIENCE.

A national news agency has been distributing a feature to the press of the country entitled "Big Men From Small Towns." Each week a biographical sketch of some famous personage whose career started in a small community is given to the public. The list is amazing. It includes almost all of the nation's celebrities from President Hoover down.

Why is this? one may ponder. American population is largely urban at present. It seems strange that so large a portion of the successful men of the time should come from the country and small town.

At least it seems strange until one studies the matter, and devotes to it some real thought. Then understanding comes in a flash.

In the city the young man is apt to get into a rut. If he works for a big law firm he will devote his full time to one side of the legal profession. If he enters a clinic he will specialize in some restricted line of medical work. If he enters a business organization he will spend his days in some

highly restricted, specialized aspect of the business. Promotions may come, but never the highest office, because his vision is narrowed by his lack of experience.

In a small town the reverse is true. The young man puts up his shingle to practice law, and may devote part of his time to settling estates, another part to criminal practice in circuit court, and another part to contract and the intricacies of business relations. Another youth goes into business, and because the business and field are comparatively small he must learn all sides. Success on a bigger scale may be his by the mere matter of multiplication. He is admirably well fitted for a high executive position.—Exchange.

"FORD EPIGRAMS"

FORT WORTH.—Prof. Newton Gaines, head of the physics department of Texas Christian University and immediate past president of the Texas Folk-Lore Society, read a paper at the recent state meeting of the society at T. C. U., in which he presented his findings on "Ford Epigrams."

Among the "Prize" signs which Gaines collected from collegiate flivvers are the following:

- "Get in Peaches, Here's Your Can."
- "This Can't Go On Forever."
- "Rin Tin Tin."
- "Closed, a Sign of Progress." on a door.
- "Don't Laugh Girls. How'd You Look Without Paint?"
- "Bored of Education," on the running board.
- "Willie's Night Out."
- "Tacks Collector," on the tires.
- "Beauty in Every Jar."
- "Dis Squeals."
- "Leap in and Limp Out."

The Long and the Short of It.
BLUE SERGES
Those who want the new double breast blue serge with one long and one golf pant, will find a good one at \$15.—Ad from an exchange.

BEAUTIES OF WASHINGTON IN THE SPRINGTIME

Everybody is taking optimistically about the great Federal building program, costing several hundred million dollars, which has been projected by Congress. When it is completed that part of Washington from the White House to the Capitol will be the most beautiful vista that any city in the world possesses.

But even without this Washington is very beautiful. The time to see the city in its full glory is the Spring, when a thousand shades of green greet the eye, and with boughs interlacing as they spread from one side of the street to the other, one can ride through a canopy of nature's own fabrication that far surpasses anything that man can make.

This is so exquisite; so surely the handiwork of the Creator, that the ministers of Washington do not fail to thank Him in their prayers on the Sabbath morning for His goodness in giving it to man.

Not the trees nor the circles with their parterres of roses and posies, charming though they are, constitute the chief beauty of Washington. More and more the monuments are taking on the aspect of the things that are a joy forever. Many of the older monuments are tributes to the man on horseback, the riding men of the land and sea, the Jacksons, the Grants and the Farraguts. They tell their heroic tale, and the passerby reads it as he runs.

It is the newer monuments, the Peace Monument on Pennsylvania Avenue, the DuPont Fountain, the Hahnemann monument, and a small number of others, the creations of sculptors, that arrest your steps and cause you to linger in their presence and drink in their beauty. Who cares what Socrates with his ugly face and bulging eyes looked like? But who does not care for the Venus de Milo or the Parthenon?

Washington will have a group of buildings that will bring back the

glory of Grecian architecture when the great program is completed. She is slowly accumulating a group of sculpture that will enhance the glory of her architecture.

She (thoughtfully): "Why do so many women rest their chins on their hands when they are thinking?"
He (brutally): "To keep their mouths shut so that they won't disturb themselves."

Peace at Any Price.
Gibbs—"My wife and I agree on everything."
Dibbs—"Have you no opinions of your own?"

THE JUDGE'S JOSH.

Johnson: "Why's Jimpson looking for a cashier? He engaged one only a month ago."

Jackson: "That's the one he is looking for."

Employer: "How would you address the Chaplain of the Fleet?"

His Typist: "Your warship, I suppose."

Dora: "He told me he could live on my kisses forever."

Delia: "Are you going to let him?"

"Not till I find out what I'm going to live on."

EVIDENCE OF VALUE.

Consider the merchant who advertises. There is a reason for his doing so.
 If his goods were not worth advertising he would not spend his money in advertising them, for merchants cannot spend money in that way unless they get dividends on their investment in the way of increased sales.
 The mere fact that a dealer offers you something through the columns of this paper is in itself an evidence that the article is worth having, for if it would not stand inspection he would not be calling everybody's attention to it. He would be like Barnum—waiting for a sucker to come along.

War Trophies Being Given Legion Posts

Camp Mabry near Austin, where some thirty carloads of captured German and Austrian War Trophies have been stored for the past year is the scene of considerable activity just now in connection with the sorting, boxing and shipping of these Trophies under the direction of the Adjutant General of Texas.

The War Department in Washington so far as possible sent Trophies to the various States according to the war sector in which troops of that state operated during the World War. The War material now being distributed over Texas was actually used in armed conflict against the Thirty-sixth and Ninetieth Divisions made up largely of Texas men. This distribution is being made with the aid of the State Department of The American Legion to the three hundred and fifty Legion Posts over the State, who are directed to see that the Trophies are placed permanently in each city where the public will have an opportunity of seeing them. In those cities that do not have suitable Legion homes or quarters for this purpose, the Trophies will be placed in Municipal buildings where they can be forever protected and available to the public.

The Governor and his War Trophy Committee headed by the Adjutant General of the State believed that the membership in the Legion in the various communities of the State, best represented the fighting men of Texas during the stirring days of 1917-18 and chose this organization to assist in making the distributions over the State and the local Posts of the American Legion to receive the Trophies and see that they were properly cared for.

There will also be shipments made to numerous state owned Universities and colleges.

AUTOMATIC HEAT EFFICIENT AND HEALTHFUL

A key word in this progressive age is "efficiency". There is less and less place for waste in social and business life.

This is the reason why automatic heat, furnished by oil or gas, is coming into increasing prominence. For the first time in history an entirely automatic, clean and efficient means of heating the home or the factory has been found.

Automatic heat is solving another great problem—that of the smoke evil. In the past, an industrial community meant a smoke-heavy sky and cinder covered buildings and shrubbery. Such conditions are being eliminated. Smoke is waste. It destroys property and plant life, as well as those who must breathe it.

HIGH SCHOOL ATTENDANCE SHOWS LARGE INCREASE

WASHINGTON, D. C.—Figures made public by the United States Bureau of Education indicate a growth in high school attendance that is one of the most striking features in the educational development of the generation. These figures show that in 1910 the attendance in public high schools was 915,000, but that by 1926 the figure had grown to 3,757,000. It had, in fact, multiplied itself by more than four in a brief sixteen years.

In addition to this growth in standard high schools there has come into the field a new agency, the junior high school which has developed to the point where its attendance is above a million, of which number more than 300,000 are of high school rank, the report states.

Another striking feature of this situation is the fact that, of those who graduate from these schools, practically fifty per cent go on to some higher institution of learning. This is a much higher percentage than was shown previous to the present decade.

PASSES 100TH MARK, 65 YEARS A MASON

East St. Louis, Ill.—The only living member who signed the petition for the charter of East St. Louis Lodge No. 504, in 1866, is Cyrus E. Hull, who is 100 years old and has been a Mason for 65 years. Mr. Hull was not raised in this lodge, but had been raised some time previously in another lodge. He came to East St. Louis after the close of the Civil War, and when the lodge was organized under dispensation became one of its sponsors, and now, after a period of 65 years, is living in retirement in California. His son and grandson are both members of the lodge of which he was a charter member.

A new factory in Switzerland will manufacture glucose from sawdust.

HAVE A GOOD TIME

Play croquet and enjoy life, it is an interesting recreation and you are sure to like it.

We have three sizes of croquet sets. Come in and see them and get our prices.

CAMEL CIGARETTES

WHY CAMELS ARE THE BETTER CIGARETTE

Camels contain such tobaccos and such blending as have never been offered in any other cigarette.

They are made of the choicest Turkish and American tobaccos grown.

Camels are always smooth and mild.

Camel quality is jealously maintained . . . by the world's largest organization of expert tobacco men . . . it never varies.

Smoke Camels as liberally as you choose . . . they will never tire your taste.

Nor do they ever leave an unpleasant after-taste.

PAINFUL INDIGESTION

"I SUFFERED a good while before I found something that would help me," writes Mr. E. W. Berry, of Neosho, Mo. "My trouble was indigestion, pains in my chest and a tight, bloated feeling that would make me feel smothered."

"Speaking of this to a friend of mine, he told me that Black-Draught was good for this trouble. I went over bought a package. It certainly did help me, so I continued to use it."

"I am in the transfer business, and sometimes when I would be hungry and ready to eat, I would have a call and would have to eat later. Then I would eat too much or too hurriedly. This would cause indigestion. After I started using Black-Draught, I found it did me a world of good. It is splendid for biliousness and stomach troubles."

THEDFORD'S Black-Draught

For CONSTIPATION, INDIGESTION, BILIOUSNESS

WOMEN who need a tonic should take Cardul. In use over 50 years.

MOST people know this absolute antidote for pain, but are you careful to say Bayer when you buy it? And do you always give a glance to see Bayer on the box—and the word genuine printed in red? It isn't the genuine Bayer Aspirin without it! A drugstore always has Bayer, with the proven directions tucked in every box:

Aspirin is the trade mark of Bayer Manufacture of Monacetelecidester of Salicylicacid

LOWER COSTS AND BETTER SERVICE

While the cost of living today is two and one-half times what it was in 1890, the cost of electricity is but one-third of what it was at that time, according to a review just issued by the National Electric Light Association.

With the exceptions of 1918 and 1925, electricity has decreased in cost every year since 1890. The average price of electricity for domestic use in the United States is now 25 per cent under pre-war prices, though the cost of living is 70 per cent above.

Compared with 1919, the first post-war year, the cost of electricity has decreased 15 per cent. It is estimated that electricity represents but one per cent of the family budget.

Of even greater importance is the fact that electric service has improved in direct proportion to the decrease in cost. This was made possible by the principle of mass production—small profits and a large turnover. The small local plants, with their high unit cost and their comparative inefficiency, are rapidly disappearing and their place is taken by the great interconnected systems.

It is not stating the case too forcibly to say that our industrial and social progress has been dependent on the progress made by the electric industry. And what has been accomplished for the city home is now being accomplished for the farm home and the smallest communities.

The new flying machine that goes straight up will be quite an improvement over the ones that go straight down.

A London dentist has declared that America has the best teeth in the world, but he should examine some of our laws.

The calendar should be arranged so that when Opportunity knocks, you should be there to open the door.

THOUSANDS OF DOLLARS OFFERED FOR BEST STALKS OF COTTON

Somewhere in the South this year a single stalk of cotton will be grown that will be worth \$1,000. Two others will bring prizes of \$500 each, and several thousand dollars will be divided among 57 other stalks, prizes ranging from \$300 down to \$10, at three sectional fairs—Memphis, Atlanta, and Dallas.

These prizes are being offered by the National One-Stalk Cotton Show, which will be staged again this year by the Sears-Roebuck Agricultural Foundation and the Southern Division, Soil Improvement Committee, The National Fertilizer Association. The show will be held in three sections as follows:

Tri-State Fair, Memphis, Tenn., Sept. 28 to Oct. 5.
Southeastern Fair, Atlanta, Ga., Oct. 5 to 12.
State Fair of Texas, Dallas, Oct. 12 to 27.

Stalks winning first prize at each of the three fairs will be judged at the State Fair of Dallas, and the winner awarded \$1,000, which will include the sectional prize.

This show is to be held again this year to stimulate interest in economical production of better cotton from which the farmer gets bigger profits, according to those in charge of arrangements.

Any farmer, whether landlord or tenant, white or colored, or any one member of his family will be allowed to enter a single stalk for competition. Only one stalk may be shown from each farm unit. Premiums for single stalks will be given as shown in the table at the top of the next column.

Rules of Contest.

The stalks exhibited must be grown in 1929.

Stalks must come from a field where at least one acre of cotton was grown in 1929. However, any spacing, fertilization, protection, or cultural practice may be used.

Stalks shown must contain the cotton that grew on the stalk. Picking and refilling will not be permitted. Branches must not be cut from stalks exhibited. All leaves must be removed.

PREMIUMS FOR BEST SINGLE COTTON STALKS

For the Best Stalk in the South (including sectional prize)....\$1,000

Premiums at the three sectional fairs:			
	Atlanta	Memphis	Dallas
1st	\$500	\$500	\$500
2nd	300	300	300
3rd	200	200	200
4th	100	100	100
5th	50	50	50
6th	25	25	25
7th	25	25	25
8th	25	25	25
9th	25	25	25
10th	25	25	25
11th	10	10	10
12th	10	10	10
13th	10	10	10
14th	10	10	10
15th	10	10	10
16th	10	10	10
17th	10	10	10
18th	10	10	10
19th	10	10	10
20th	10	10	10

The name of the variety must be shown on the stalk.

Score cards to be used in judging the stalks will be prepared by competent agricultural leaders, including agricultural college experiment station workers. Actual judging will be done by competent authorities from each section.

Exhibitors need not necessarily accompany exhibits, but may ship same, charges prepaid, to the National One-Stalk Cotton Show, in care of the fair in their district. Entrants living in Virginia, North Carolina, South Carolina, Georgia, Alabama and Florida should enroll by sending their names and addresses to The National Cotton Show, Atlanta, Georgia. Those in Oklahoma and Texas to The National Cotton Show, Dallas, Texas, and those in Tennessee, Mississippi, Arkansas, Louisiana, Missouri, and Kentucky to The National Cotton Show, Memphis, Tenn.

Mr. and Mrs. C. A. Tate of Stoneville, Miss., winners of Sweepstakes Prize in National Cotton Show, 1928.

Notes, News and Nonsense.

Mrs. Eddie Johnson and daughters spent the week-end with her sister, Mrs. Fred England.

Mrs. L. J. Krietz is entertaining a friend from Brownfield over the week-end.

Mrs. G. V. Litchfield will visit with Mrs. J. D. Gale over the week-end, while on her way to her home in Arizona.

Miss Mae Driver, of Lubbock, has been visiting her parents, Mr. and Mrs. W. T. Driver here, this week.

Mrs. Horace Harvey, of Corsicana, after attending the graduation of Hubert Harvey, at Tech, visited with Mrs. R. F. Swafford Tuesday.

W. A. McCauts, of Dallas, visited Miss Nell McCauts and friends here during the past week.

Mr. and Mrs. R. A. Swanner and their son, Howard, and Adrian Owens, returned last week from a fishing and hunting trip near Menard. The party caught all the game fish and killed all the squirrels they could devour, they reported on their return here. Adrian, Slaton's young sportsman, and the ex-Tigers' noted left-handed passer, laid claim to killing many squirrels with a rifle, shooting them in the head.

MASON AND DIXON'S LINE.

Few Southern People Know the Details Surrounding This Survey Which Later Became The Most Frequently Mentioned Imaginary Line in the World.

Nearly two centuries after the trouble began, which caused this survey to be made, Louis F. Hart recently visited the border line between Maryland and Pennsylvania, in a pilgrimage to the original Mason and Dixon's line. Mr. Hart not only visited the actual spot where Charles Mason and Jeremiah Dixon started their famous survey but spent a great deal of time gathering data and illustrations around which to build the story of the famous piece of engineering.

Using Holland's, the Magazine of the South, as his vehicle, Mr. Hart says, "Time changes all things. Old hatreds die and new loyalties are born, but the demarcation between peoples—especially when it goes back, as this one does, to the Roundheads and Cavaliers of Cromwell's day—cannot be wiped out in an hour."

SHOWS THE WAY TO DAIRY PROFITS

MADISONVILLE.—By multiplying his sales of dairy products more than six times in one year, J. N. Raney, a farmer near here, has established farm dairying on a profitable basis. It has come about by shifting to good cows, planting pasture crops, feeding a balanced ration and keeping careful accounts as a demonstrator working with W. H. DuPuy, county agent.

During May a year ago Mr. Raney sold \$30 worth of dairy products, but in April this year his sales of milk and sweet and sour cream amounted to \$202.41 from nine cows, four of which are pure-breds. Feeding at the rate of one pound of feed for every three and one-half pounds of milk, the cost of feed for the month was \$75.30. At the same time his flock of 106 hens had all the skim milk they could consume and produced \$32 worth of fresh, infertile eggs at a grain feed cost of \$13.35.

Mr. Raney keeps a milk and feed record nailed to his barn door and weighs each cow's milk night and morning, enabling him to feed each cow according to production. He supplements his native pasture of Bermuda grass and bur clover with Sudan grass drilled in 18-inch rows, and last winter sowed one acre each of alfalfa, sweet clover, crimson clover, hairy vetch and Austrian field peas with oats as a nurse crop.

MORE THAN 3,000 MAY ATTEND SONORA ROUNDUP

COLLEGE STATION.—Various important phases of the livestock industry will be discussed by recognized authorities in that field at the fifth annual Ranchmen's Round-up to be held August 6-7 at Sonora ranch experiment station of the Texas Agricultural Experiment Station, A & M College of Texas. The ranch station, located thirty miles south of Sonora, in Sutton and Edwards counties, is the scene of continuous research work in connection with the problems of the sheep, Angora goat and cattle industries of that region. The annual round-up or meeting affords opportunity for ranchmen and others of Southwest Texas to gather for the discussion of problems and to observe the work in progress. Reports of the work under way will be made by members of the Texas Experiment Station staff and of the United States Department of Agriculture, cooperating in the study of livestock problems at the station.

Attendance at the four previous round-ups has ranged from 2,000 to 3,000 people and, according to A. B. Conner, director of the Texas Experiment Station here, this year's meeting is expected to equal if not exceed the attendance of past gatherings. Social and recreational events are included in the program.

The Sonora station is centrally located in the Edwards Plateau region, known all over the United States for its production of fine wool sheep and Angora goats. Texas ranks first of all the states in the production of wool and produces 84 per cent of the Nation's mohair crop.

Mrs. J. A. Floyd and son, R. B., expected to arrive yesterday from Farwell, Texas, and make their home here. Mr. Floyd is owner and manager of Floyd's Cafe, on Texas Avenue. Their household furnishings are coming to Slaton by truck.

Elephants were used in putting criminals to death as late as the tenth century in Canton, China.

Slatonite Want Ads Bring Results

Customs and modes of thinking remain when material landmarks have crumbled and vanished. Thus it is that in setting out to relocate Mason and Dixon's Line after so many years, we must take into account not only the bench marks which took from the estate of Charles, Lord Baltimore, three thousand square miles or so, but also those which give double unity to some forty million people living in the South today.

"Opinion may differ as to where the line should run, but no one can deny that it is there. Nor would anyone go so far as to say that on one side dwells the practical, and on the other the ideal. Humanity is too imperfect to achieve the absolute in either directions, were that result desired. The fact remains that the home of romance is the South, her threshold guarded with uncompromising loyalty by her sons."

Will Make Study of Land Conservation

COLLEGE STATION.—As a step looking toward formulation of a broad regional program for the conservation and utilization of farming lands of Texas and the Southwest, President T. O. Walton of the A & M College of Texas has issued a call for the "Southwest Conference on Soil and Water Conservation" to be held at the Texas institution June 20 and 21 of this year.

All agricultural colleges of the Southwestern States will be invited to participate and to designate for attendance other agencies and interests of the states in which they are located.

The purpose of the conference, as set forth by President Walton, will be to develop discussion and to map out a broad and comprehensive program for greater conservation and greater economic utilization of the farming lands of the Southwest.

Experiments conducted by the A & M College through its Experiment Station at Spur, in West Texas, have shown an actual loss in soil erosion of as much as forty-two tons an acre in one year on land with a 2% slope and preventable water runoff losses averaging 25% of the total rainfall.

Terracing as a means of conserving both soil and moisture is growing rapidly in Texas, it was pointed out, more than 2,800,000 acres of cultivated land in this state being terraced now. This matter, as it relates to Texas and other states, will come in for discussion at the coming conference.

Call for the regional conference was issued following institutional conference here participated in by representatives of various divisions of the college, including the Extension Service, Experiment Station, Forest Service, School of Agriculture and other divisions.

ADJUSTING COTTON PRODUCTION TO MEET MILL REQUIREMENTS

Spinners pay for the cotton they use on the basis of its spinning utility. The higher the grade, the longer, stronger and more uniform the staple, and the better the character of the staple, the more they pay for it. Unfortunately, however, the premium paid for the better cotton frequently is not passed on to the farmer, and the producer of the quality cotton is therefore not rewarded as he deserves.

The need for the adjustment of production to meet the mill requirements is brought out by the Division of Cotton Marketing of the United States Department of Agriculture in reports issued this season for the first time, showing the classification by grade and staple length of the cotton crop of the Belt as a whole and for the several states. A recent report indicates that of the cotton ginned up to February 15, 1929, more than 50 per cent was short staple— $\frac{3}{8}$ -inch, 13/16-inch and under in length. Contrast with these figures those of another report which indicates that 84 per cent of the cotton consumed by domestic mills for the year ending August 1, 1928, consisted of about equal parts of staples $\frac{3}{8}$, 15/16, and 1 to 1 1/32 inches.

One of the objects of the National Cotton Show to be held this fall is to stimulate interest in production of better quality cotton to meet the requirements of the mills. The show which is being sponsored by the Sears-Roebuck Agricultural Foundation and the Soil Improvement Committee, The National Fertilizer Association, will be held in three sections, at the Tri-State Fair, Memphis, Tenn.; the Southeastern Fair, Atlanta, Ga.; and the State Fair of Texas, Dallas.

Most of us raise poultry for the eggs we get. That means that the laying pullet and hen is the source of our profit, and I believe most everybody will be interested in the figures that the Pennsylvania State College of Agriculture found recently in extensive experiments to determine the cost of bringing a flock of pullets to maturity.

The figures include all costs, from the purchase price of the Leghorn chicks, on through to 26 weeks, which is taken as the time of maturity, when the pullets are ready to lay. They figure this cost at \$1.26, and here is how they get it:

Cost of 2600 chicks, at 20c each	\$520.00
Total value of all feed consumed	681.03
Mash, 14,366.5 lbs., \$442.07	
Scratch feed, 7,669 lbs.	221.19
Milk, 5,079 lbs.	17.77
Coal for brooding (7 brooder houses)	29.34
Labor, 934.72 hours	327.15
Depreciation on brooding equipment, 10%	28.00
Interest on capital invested in chicks, brooder houses, supplies, for 6 months, 6%	87.16
	\$1,725.18

Receipts from sale of 924 cockerels at 60c each

Net cost of 926 pullets in laying houses \$1,170.78
Net cost per pullet \$1.26
Mortality on the 2,600 chicks, including all pullets culled out as undesirable, amount to 34.6 per cent. The pullets were not credited with any eggs laid on the range.
The above figures are considered typical and it would be interesting to check your own costs against these, item by item.

CORRECTION.

In an item published in Tuesday's issue of The Slatonite it was stated that Miss Hazel Mansker and Messrs. Gerald Woolever and Ray Darwin visited at Spur with Miss Onita Darwin. This item should have read that the young people visited Miss Onita Berry. This was an error on the part of the typesetter, and is very much regretted.

When Asparagus Arrives.

Try baking asparagus with cheese sauce. Lay stalks (which have been boiled tender but not soft) in buttered baking dish and pour over them the cheese sauce which is the usual white sauce containing grated cheese. Spread buttered crumbs over top and bake in a hot oven until crumbs are brown.

Prevents Odor of Cookign Cabbage.

A teaspoon of vinegar added to the water in which cabbage is boiled will overcome the unpleasant odor.

An Economical Salad.

Finely shredded spring cabbage, diced apple and celery mixed with mayonnaise and garnished with chopped sweet pickle makes a tasty and economical salad that fits nicely into spring menus.

HOUSEWIFE TO SAVE BY USE OF "4-H PANTRY"

COLLEGE STATION.—Money, time and health may be saved by instituting a household system being popularized in Texas by home demonstration agents under the name of the "4-H Pantry". Gardening, canning, selection of store foods, and meal planning and preparation have been correlated into a single plan whereby the essentials of an adequate diet for the family may be achieved at the least expense of time and money.

An adequate diet calls for one and one-half quarts of milk daily, leafy vegetables three times and week, other vegetables and starches daily, and fruit every day, including citrus fruit or tomatoes at least three times a week. The 4-H Pantry demonstrators, of whom there are 1699 in 37 counties, are canning garden stuff and fruits according to a canning budget whereby the family will have the needed supply of these essential foods through the late fall and winter months. For a family of five the plan is to can 48 containers of leafy vegetable, 140 containers of other vegetables, 150 containers of fruit, and 40 cans of pork, chicken or beef.

The pantry shelf is arranged with these foods and staples from the store classified order for quick use. An important part of the scheme is a filing case in the pantry in which the housewife may find when com-

pany comes or in an emergency Home demonstration agents are suggesting several menus and demonstrators are working out additional ones especially suited to their families' tastes, but all menus are checked to see that the meal is balanced.

A menu suited to this time of the year, healthful in every respect, and which the housewife working on the 4-H Pantry plan may get up easily in 45 minutes is as follows: Roast beef and brown gravy, black eye peas, rice, canned tomato salad, canned peaches and cream, milk, and whole wheat muffins.

Mrs. E. R. Burns and children have been in Portales, New Mexico, for the past several days, visiting with her parents, Mr. and Mrs. G. R. Leverett.

Farmer, indignantly: "Say, you you ain't a gettin' as much milk from the cows as yer used to."
Hired Hand: "No, I've sort of lost my pull."

"The Doctor promised to have me on my feet within a month."
"Did he live up to his promise?"
"He certainly did. I had to sell my car to pay his bill."

Mildred (despondently): "I am to marry Maurice next week, and I am not at all sure that I really love him."
Marjorie: "How positively thrilling!"

Topics of the Town and News of its People.

While the driver was making a "U" turn at the intersection of Lynn and Eighth Streets Wednesday afternoon, Miss Josephine Adams, daughter of Dr. and Mrs. S. H. Adams, fell from a car to the pavement, the car door apparently not being well fastened or giving away. Fortunately, Miss Adams did not sustain serious injuries.

J. W. Calvert recently accepted a position with Scudder Motor Company as used car salesman.

W. E. Howard, K. L. Scudder and R. E. Lowrie transacted business in Eastern New Mexico early this week. Mr. Scudder stated crop prospects in that section look very flattering.

Mrs. P. H. Whalen expects to return to her home here today, after spending several weeks in New York City on business. On her return trip, Mrs. Whalen visited in Washington, D. C., and spent a few days with a daughter in Amarillo.

Mr. and Mrs. George Marriott and Mrs. Chas. Marriott were Lubbock visitors Wednesday.

At the last report, Mrs. T. A. Kirby, who was operated on Tuesday morning in Dallas, was resting as well as could be expected. Miss Tommie Kirby expects to leave Sunday for Dallas to be at the bedside of her mother.

Mr. and Mrs. L. B. Hagerman and son, Merle, and R. H. Todd, Jr., spent Wednesday night and Thursday at Justiceburg fishing.

M. W. King and son, Wallace, transacted business in Tahoka Tuesday and Wednesday of this week.

F. V. Williams and family, of Lubbock; R. T. Williams and family, Mrs. L. M. Williams and children, and Claude Self returned early this week from near Sterling City, where they enjoyed a fishing and hunting trip. The party reported a very enjoyable time.

RONALD COLMAN GLEANINGS.

Did you know that Ronald Colman:

—narrowly escaped going to India as manager for his father's silk importing business?

—belongs to that now small group of English actors who played for months under air raid conditions, never knowing when their audiences would be dissipated by bomb attacks?

—is a veteran of the famous First Battle of Ypres?

—is a direct descendant of two popular English playwrights of the eighteenth century, George Colman the Elder and George Colman the Younger?

Mr. Colman's first picture as an individual Samuel Goldwyn star is Joseph Conrad's "The Rescue", which is coming to the Palace Theatre, Slaton, and Sunday and Monday.

NEW RATION IS TRIED OUT SUCCESSFULLY

Reports show that the New Jersey dry-mixed calf formula which appeared during March, 1929, has been tried out successfully in many parts of the country.

Recently, according to Professor I. R. Jones of the dairy department, the Oregon Agricultural Experiment Station started 18 calves on the New Jersey ration with very satisfactory results.

While milk was fed for only about the first 30 days, according to Mr. Jones, and when about seven days old, the calf was accustomed to a grain mixture of 100 lbs. yellow cornmeal, 150 lbs. ground oats, 50 lbs. each of wheat bran, linseed meal and soluble blood, and 4 lbs. each of finely

News Of Union

E. A. Dearing and family were recent dinner guests of Mr. Jim Payton.

Some of the 4-H club boys of this community are attending the three-days encampment at Lubbock.

The farmers are rushing with their planting, trying to get through before the moisture is gone. Owing to the high winds during the past few days they are afraid they will not get good stands.

We understand L. L. Rucher is still in a hospital at McKinney, Texas, where he is undergoing treatment for cancers.

We are made sad because of the loss of our friend, Mrs. Tate. The bereaved ones have our utmost sympathy.

Mr. and Mrs. Archie Pear and family, Mr. and Mrs. Waylan Dearing, Mr. and Mrs. C. W. Walters and Mrs. Jess Owen were visitors of Mr. and Mrs. B. T. Ussery Sunday.

The Gammel girls and Owen girls were motor riding Sunday afternoon.

The women's Home Demonstration Club met with Mrs. V. L. Cade, all enjoying the afternoon together. After the regular lesson study, they were served sandwiches and punch. Miss Louise Baird, county home demonstration agent, gave us a lecture on "What foods are suitable for the health of our bodies."

DOLORES DEL RIO IN 'REVENGE'

DOLORES DEL RIO DANCES GYPSY HOP IN NEW FILM

The Gypsy hop is the latest dance! Dolores Del Rio uses it in her forthcoming picture, "Revenge," produced by Edwin Carewe for United Artists and opening at the Palace, Slaton, Tuesday, Wednesday and Thursday.

The Mexican star acquired the new dance steps from Serge Curainsky, well known ballet master and instructor.

When Miss Del Rio made "Resurrection," she and Rod La Rocque had to master difficult Russian steps. When she filmed "Ramona" she used her native dance numbers. Every film in which the actress has so far appeared, required a different dance routine.

Watch the gypsy hop when "Revenge" opens and see if you can do it also!

A specially prepared sound accompaniment will be a feature of the presentation of "Revenge" at the Palace Theatre. The musical score and sound effects personally devised by Nathaniel Shilkret, celebrated composer and conductor, will be given by the Shilkret orchestra through the medium of the vitaphone reproducing apparatus. Perfect synchronization between action and sound is achieved throughout the entire exhibition.

pulverized limestone, finely pulverized steamed bone meal and salt.

"A good quality clover or alfalfa hay is also placed before the week-old calf," he continued. "When the calf is three weeks old the milk is reduced so that at 30 days the calf is receiving nothing but the dry mixture, hay and water. The calves should be consuming between one and two pounds of grain daily when 30 days old.

"When calves are five months old they should be consuming about five pounds of grain per day. The need for an abundant supply of clean, fresh water cannot be too strongly emphasized, especially where the calf received no liquid food.

"To date the results have been very satisfactory. The calves are growing very well and are noticeably free from intestinal disorders. There is a saving of \$2.00 per month per calf in feed cost in comparison with calves raised on skim milk. Later results of this experiment will be published by the Oregon Agricultural experiment station at a later date."

More Than 3,000 Clubs Represented At Rotary Meeting

DALLAS, Texas, May 31.—The annual international gathering of business and professional men representing the more than 3,000 Rotary clubs spread all over the world, drew to a close today, with an inspiring series of speeches on "what Rotary means to Rotarians and Rotary Clubs around the world." The aims and objects shared by the nearly 150,000 Rotarians, in 49 countries, were given varied expression today by speakers from many countries. Dr. Alfredo Colmo, of Buenos Aires, Argentina, no filling an exchange professorship of jurisprudence at Columbia University, New York City, was one of the speakers. Several flags were presented to the Dallas Rotary Club, the host organization, by visitors from overseas. The Rotarians of Brescia, Italy, delivered over the convention attendance trophy, a silver cup which they won at Minneapolis last year for the highest number of points, to be given to the club delegation which this year has the highest percentage of club members present, from the greatest distance. Ways and means by which Rotary clubs can be of the most effective service to their communities occupied half the speaking program of the Friday morning session, while the development of international service and the growth of Rotary in other countries were topics for the second series of short addresses, by many notable visitors from overseas. Not for many years has a Rotary convention been held in a park, or in a Southern city, and these two features added greatly to the entertainment of the thousands of Rotary visitors.

The first delegate to arrive at the convention, though from the United States, had just completed a journey longer than almost any other visitor. He was Arthur A. Peters, of Paso Robles, California, who finished a 6,000-mile rail and auto trip around the United States when he registered for the convention ten days early. The convention was especially notable for the attendance of so many visitors from Central and South America, who were closer than in years to one of these great international gatherings. This convention marked the climax of the Rotary leadership of I. B. "Tom" Sutton, an American-born business man of Tampico, Mexico, who has spent a large part of the past three years traveling about over the world visiting Rotary clubs and meetings. He has been in 26 different countries, from Manchuria to Middle Europe, and after making thousands of speeches he just recently delivered one by trans-Atlantic telephone. While attending a district Rotary conference at Great Falls, Montana, he spoke for eight minutes to the annual meeting of the Rotarians of Great Britain and Ireland at Bournemouth, England, on April 29th. The conversation was quite clear at both ends of the 6,000-mile telephone and radio hook-up, President Sutton said.

This International Assembly is being held for the first time outside Chicago, the international headquarters and scene of next year's Silver Jubilee convention.

BALANCED RATION IS NECESSARY FOR GOOD COTTON STALK

To produce a prize winning stalk of cotton for the National Cotton Show, which will be held at the Memphis, Atlanta, and Dallas fairs this fall, good seed should be planted and special care should be taken to see that the plants have everything that they need in the way of good cultivation and plenty of plant food. Good care and plenty of plant food will bring out the good qualities that have been bred into this particular strain of cotton.

Although, as in the production of a beef animal, the cotton stalk should have all of the balanced plant food it can use to make rapid growth and put on fat or fruit, some care must also be exercised not to throw the plant "off feed" by overfeeding or by using an unbalanced ration.

There is little danger of overfeeding a crop of cotton, in fact there is no question but that more profitable crops of cotton would be made if better balanced plant food rations were fed to the crop, and there is danger of overfeeding or producing too much stalk at the expense of the fruit where unbalanced fertilizers are used in forcing a stalk too early for development.

The prize winning stalks of cotton at the National Cotton Show, which is being sponsored by the Sears-Roebuck Agricultural Foundation and the Soil Improvement Committee of the National Fertilizer Association, will likely be produced by farmers who have found good cottons that are well adapted to the particular soil conditions where grown and who appreciate the importance of ample amounts of balanced plant food.

Columbus, O.—Among the possessions of Mrs. Emily J. Conaghan is an old wall clock which she says has ticked every minute of her life. She said the clock is 86 years old, four years her senior, and has never failed to keep correct time.

BUILDING FOR THE FUTURE.

The 1929 telephone construction program is the largest in history, according to an official announcement which says:

"The Bell system is building so as not only to be ready but to encourage the public to the wider use of the constantly improving telephone service. The population is growing, the desire of the people for comfort and efficiency is growing, and that means a rapid growth in the utilization of the telephone. The use of long distance service which makes the whole United States one business community within easy, instantaneous reach, has become an important factor in merchandising, in the control of inventories and generally in the more efficient distribution which has so beneficially affected business during the past few years.

"In the home, as well, a radical change is coming over the use of the telephone. Where one telephone in the house used to be considered adequate, people are now putting in extensions so they can talk with comfort and convenience from almost any part of the house. Women are acquiring the conveniences at home that office forces have.

"This growing utilization of telephone facilities both in business and in the home naturally means more telephone plants."

DID YOU EVER STOP TO THINK?

By Edson R. Waite, Shawnee, Oklahoma

Recently I spent three weeks as a patient at the Station Hospital at Fort Sam Houston, Texas. To say I was surprised and pleased at my treatment is putting it rather mildly. I noticed that the Commanding Officer, Colonel E. L. Ruffner, M. C., visited each patient at least once a day, and Major Webb E. Cooper, who was in charge of my ward, visited all patients just like a family doctor, only more often, and he was so kind and thoughtful that it was a pleasure to carry out any instructions he might give. This human interest in the patients was very apparent in the actions of all doctors, nurses and attendants. I was so interested that I asked Colonel Ruffner to tell me about this friendly attention and human element in personal contact. Colonel Ruffner said:

"Medical officers have now, and, as they grow older in service, will have a larger field in which the human element in their personal contact with both their subordinates in their own service and their patients plays an important part. In a government institution, this is the primary duty and responsibility of the Administrative Section, and in this hospital, the Administrative Section assumes all responsibility that the institution functions smoothly and efficiently. It also assumes all blame if conditions are unsatisfactory. The Commanding Officer is willing to accept all the blame for which the hospital might become liable in any respect and, of course, a certain amount of the credit for its smooth functioning.

"Many large institutions are run efficiently and apparently smoothly but the human element in contact with personnel and patients is lacking. As is constantly impressed upon all members of the staff, this is a factor in an institution of prime importance, and it must remain an outstanding characteristic. Its effect upon patient psychology is wonderfully beneficial. Treatment of all kinds is accepted without question and letters from patients after leaving show that they are conscious of your efforts in this regard. The effect upon those carrying on the work of the institution is also noticeable.

"With the three factors of sufficient and trained personnel, adequate equipment and proper buildings, any large institution should function smoothly if the human element is the dominating feature.

"As it is truly said, 'You can't have friends if you are not friendly'. A friend has only a good word to say for you. A friend desires to see you again. Why? Because of your human contact with him."

MILADY'S BEAUTY SECRETS.

By Helena Rubinstein.

"Her cheeks like apples which the sun had rudded."—Spenser.

How many women realize the need for a new type of makeup in the spring and summer? Not many, I fear. And yet the need is indeed important. Just as one's wardrobe requires freshening, a change of color scheme, a new tone and plan, one's complexion needs a different style in makeup.

The mood of spring is different from the mood of winter. Deep shades of powder that have made light skins seem dazzlingly white under the bright indoor lights of a winter's social season look out of place in the informal, outdoor type of enter-

tainment that characterizes the spring and summer season.

Clothes become less formal now. The atmosphere of home and countryside takes on a less artificial, more natural, freer, gayeter tone. An interest in outdoor athletic activities is renewed, and with it comes again a vogue for sports clothes in pastel colors, not only for the women who participate in games, but for the fashionable feminine outlook. With these clothes an average winter makeup seems either crude and glaring or delicately doll-like and artificial in tone.

The spring and summer makeup should be natural—adhering closely to one's own complexion tones. The powder, however, should be darker than she may have worn during the winter, to carry out nature's own idea in turning the skin darker through exposure to the sun.

Bright, light shades in rouge should be worn with these darker powders. Orange or vermilion tones are good. Red raspberry is becoming to some types, but the deep rouges with a fuschia or purplish tint are very much to be avoided. Likewise the darker lipsticks. Mascara has little place in the spring and summer makeup except for occasional formal evening functions. Instead the fashionable modern uses a dark eyebrow and eyelash cream, one that softens and promotes the growth of lashes and brows while it darkens them and also permits them to be trained to their silkiest of natural conditions when brushed frequently with a little eyebrow brush.

Cream eye shadow is brown, green or blue, according to the color of the eye, may be used effectively on the eyelids. And a lipstick or cream lip rouge in bright light shades to match the cheek rouge is not only permissible but desirable, with the dark, outdoor shades in powder.

Only seven states had more people on farms in 1925 than in 1920.

Practically all of the United States' raisin crop comes from California.

A shark weighing 200 pounds has a liver weighing twenty or even thirty pounds.

In India last year there were 1,033 men killed by tigers, and 1,068 tigers were killed by men.

Elephants were used in putting criminals to death as late as the tenth century in Canton, China.

VALUABLE COW IN HERD AT TEACHERS' COLLEGE

CANYON.—The dairy herd of the West Texas State Teachers College boasts one of the few gold and silver medal Jersey cows found in this section of Texas.

Gamboge's Fox's Little Agatha, 664623, recently finished the third production test, with a record of 648.48 pounds of fat and 10,852 pounds of milk in 305 days, class AAA.

During the ten months test her milk averaged 5.98 percent butter fat. Nine times during the test Little Agatha's name appeared on the list of cows reaching the fifty-nine pound mark, and her yield once reached 83.55 pounds for a month. This test was begun at the age of four years and ten months.

Dairymen were already interested in this cow as she had made a record of 602.80 pounds of fat in 365 days at the age of two years and one month and again as a senior three-year old produced 736.86 pounds of fat and 13,215 pounds of milk in 365 days.

This double medal winner is the third registrar-of-merit daughter of Gamboge's Fox's King 201085. Her dam is a silver medal cow, Gamboge's Fox's Agatha 467939, with three fine records of 635.04 pounds of butter fat and 11,815 pounds of milk in 365 days at two years; as a senior four-year-old, 638.33 pounds of fat and 12,314

pounds of milk in class AAA; and her third record at seven years of 787.34 pounds of fat and 17,311 pounds of milk.

Mother!

Clean Child's Bowels with "California Fig Syrup"

Hurry Mother! Even constipated, bilious, feverish, or sick, colic Babies and Children love to take genuine "California Fig Syrup." No other laxative regulates the tender little bowels so nicely. It sweetens the stomach and starts the liver and bowels without gripping. Contains no narcotics or soothing drugs. Say "California" to your druggist and avoid counterfeits. Insist upon genuine "California Fig Syrup" which contains directions.

Doctor at 83 Found People Preferred His Prescription

The basis of treating sickness has not changed since Dr. Caldwell left Medical College in 1875, nor since he placed on the market the laxative prescription he had used in his practice, known as Druggists and the public since 1892, as Dr. Caldwell's Syrup Pepsin.

Then, the treatment of constipation, biliousness, headaches, mental depression, indigestion, sour stomach and other indispositions that result from constipation was entirely by means of simple vegetable laxatives, herbs and roots. These are still the basis of Dr. Caldwell's Syrup Pepsin, which is a combination of senna and other mild laxative herbs, with pepsin.

Dr. Caldwell did not approve of drastic physics and purges. He did not believe they were good for human beings to put into their system. If grown people want to use them no one can deny them the privilege, but they should never be given to children.

The simpler the remedy for constipation, the safer for the child and for you, and the better for the general health of all. And as you can get results in a mild and safe way by using Dr. Caldwell's Syrup Pepsin, why take chances with strong drugs? All drug stores have the generous bottles.

J. B. Caldwell M.D. AT AGE 83

"We would be glad to have you prove at our expense how much Dr. Caldwell's Syrup Pepsin can mean to you and yours. Just write 'Syrup Pepsin,' Monticello, Illinois, and we will send you prepaid a FREE SAMPLE BOTTLE.

"HURRY WITH THE SERVICE CAR THE OIL BROKE DOWN" DON'T LET THIS HAPPEN TO YOU

STRANDED five miles from nowhere because the oil wouldn't do its job! Has that happened to you? If it has, the chances are that you were not particular the last time you had the crankcase drained—or perhaps you ran too long without changing the oil. This will be a slack summer for service cars if motorists will remember two things: first, to change oil regularly, and secondly, to use only a brand of oil which they know from their own experience or the experience of others will stand up under the most trying conditions of motor operation.

You can depend upon any oil which has the backing of the Continental Oil Company. These are the brands which have been tried and tested—in the laboratory and on the road. They lubricate thoroughly, protect every moving part and stand up under intense heat.

Ask for these brands at leading service stations and garages.

CONTINENTAL OIL COMPANY

Producers, Refiners and Marketers of high-grade petroleum products in Arizona, Arkansas, Colorado, Idaho, Kansas, Missouri, Montana, Nebraska, New Mexico, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wyoming

EXTRA LIFE for your car

Conoco Amalie is 100% Pennsylvania Oil—refined from premium crudes by a special process. Universally recommended by automotive engineers and lubrication experts.

Through exhaustive laboratory and road tests it has demonstrated its ability to lubricate properly under the most trying conditions of motor operation.

Sinclair, In Jail, Devotes His Time to Pharmacy

Harry F. Sinclair, oil magnate, once studied pharmacy at the University of Kansas. Today he is practicing this profession in the jail at Washington, D. C., and day after day, until ninety of them have passed, he will pursue his duties in undeviating routine.

Mystic Power of the Moon Reflected in June's Gems

By PAULINE

"Long life and love are promised you and many another precious boon. By both the Moonstone and the Pearl, were you born in the month of June."

JUNE is fortunate in having two natal gems, the pearl and the moonstone, both of which, according to early astrologers, come under the planetary influence of the Moon, and hence possess powerful psychic vibrations.

It was held that when these gems were worn by right of birth they had a profound effect upon the intuitive faculties of the wearers, so that they could not only sense the thoughts of others but actually envision events in the future. They were also believed to stimulate creative ability, being particularly favorable to the work of writers and composers.

The Orient pearl, which is formed by a substance secreted by a patient little bivalve living chiefly in the waters along the coast of Ceylon, has been cherished for its beauty and rarity by the people of all ages. The early Egyptians and Hebrews gave it first place among precious gems; the Chinese valued it equally with their beloved jade; the Greeks set pearls in the ears of their marble goddesses, and the Christians gave their choice pearls for the glorification of their altars. And when the Spanish first reached this country they found the Indian natives wearing pearls and setting them in their ornaments of religious worship.

Incidentally, it is chiefly to the pearl that Americans owe the discovery of this continent, since it was to find a Northwest passage to India and its great treasure chest of pearls that Columbus planned his voyage.

Although always valued chiefly for its beauty, the pearl also held an important place in the medical pharmacopeia of the past. Pearls distilled in water are still used in the relief of stomach ailments in China, and at one time they were given in this form to the insane in order to restore their reason—probably through the belief in the pearl's connection with the Moon,

which was commonly held responsible for lunacy.

As for the Moonstone, it was long thought that this stone contained an image of the Moon, which grew mysteriously from a mere spot to a full circle with the waxing and waning of that luminary. Because of this characteristic, testified to by many, including Pitru, the moonstone is a sacred stone in India, never displayed for sale except on a yellow cloth, the color yellow likewise being deemed sacred.

Like the Moon, the Moonstone is also supposed to be very powerful in arousing the tender passion, so that at one time it was the most popular of all love charms. It was said that lovers could foretell the fortune of their love by this stone, if it were placed in the mouth and the subject concentrated upon when the moon was full.

and when dry, applying two coats of ordinary glue size. When thoroughly dry, paint with two coats of white waterproof varnish, and you'll have a glazed surface that may be washed with soap and water.

For the Roadside Dinner.

- Tomato juice cocktail
- Double-deck sandwiches of
- Shrimp and deviled egg
- Potato chips
- Salad of peas, celery and cheese
- Lemon tarts
- Coffee

As a Scot Scrambles Eggs.

Saute a chopped onion in 3 tbs. butter, then remove the onion and add 1½ cups cooked tomato, 2 teaspoons sugar, salt and pepper to taste and 6 eggs well beaten. Cook the same as scrambled eggs and serve on hot buttered toast.

A Spicy Salad Dressing.

For beet, lettuce or string bean salad try this dressing which uses 1 ts. salt, ½ ts. mustard, pepper and paprika to taste, 1 tbl. vinegar, ¼ cup olive oil, 1 tbl. horseradish, 2 tbs. tomato catsup, 2 chopped chives. Mix dry ingredients, add vinegar, catsup and horseradish and a lump of ice. Gradually add oil and beat thoroughly.

Spots on Wall Paper.

To remove grease spots on the wall, rub the paper gently with a flannel cloth which has been moistened with alcohol.

CALL OF DUTY.

Because he was determined to "get the mail through at any cost," Pilot William M. McConnell, crack airmail flyer, took off in threatening weather despite orders to remain on the ground and was fired as the result. McConnell was leaving Louisville, Ky., with news pictures, some of which were destined for NEA Service at Cleveland. When he arrived at Cincinnati he was told his job was no more.

Changing the Nationality.

A lady out shopping one day entered a butcher's shop and asked for a sheep's head. She emphatically stated that she must have English mutton.

"Sorry, mum," replied the butcher, "we only stock Scotch mutton."

The lady was most anxious to purchase the sheep's head, but she was insistent that it must be English. Turning to the back of the shop, the butcher called his boy assistant to him and said quietly, pointing to the head of a sheep lying on a counter at the far end of the shop, "Jock, tak' the brains oot o' that heid."

News Shorts Of Towns of Texas

O'DONNELL has recently invested approximately \$100,000 in thirty-two new residences. This brings the amount expended on building permits to more than a quarter of a million dollars. The City Council street department has recently finished improvement on the roads of McDonnell. BRADY women are working together to establish a community center which is to be both a social and recreational center, with club rooms reading rooms and playgrounds. A public library with large grounds surrounding it is their ambition.

MERKEL has stated work on the paving of Oak Street which is to be solid concrete 40 feet wide and boulevard. Nineteen ornamental lights of the same design as now in use in the business district are to be placed in the street intersections and between street intersections.

CHANNING 4-H boys are the recipients of a car lot of pure bred jersey calves from North Central Texas. The purchase of the calves was made possible through the cooperation of the First National Bank who financed any boy who desired to become the owner of one of the calves.

GRAHAM has produced some yearling steers that brought \$60.00 a head, the highest price ever brought in Younwo county. The animals belonged to W. A. and T. M. Corbett, breeders of high grade cattle for 35 years. There were 750 head in the lot and they brought \$35,000.

SAN ANGELO to Sonora will be the route of a new rail line of the Kansas City, Mexico & Orient. Work will begin soon by permission of the Interstate Commerce Commission. Several carloads of rails are on their way to San Angelo and engineer crews are surveying the route for depot sites.

TURKEY sent a representative to Tulsa to get "Bossy". County Agent H. E. Ellis purchased a Pure-blood Jersey cow which was given away at the Trades Day observance on May 25. This is the capital prize in the gift distribution, other prizes being a sow and a trio of chickens.

LOMETA is receiving wool from adjoining counties and approximately 200,000 pounds are in the warehouses now. Two cars have been shipped to Boston to one of the largest wool handling concerns in the world, and five or ten cars will be shipped later.

OCTOBER 24, 25 and 26 has been set for the dates of the eleventh annual convention of the West Texas Chamber of Commerce at El Paso.

ANNOUNCEMENT

I wish to announce to my friends of Slaton and surrounding communities that I have just been appointed local distributor for the nationally known line of stationery and greeting cards of the N-Gravure Corporation of America, who are really "Stationery Aristocrats". We have a most complete line of stationery, both personal and business, greeting cards of all kinds, and carry a pattern that will please the most fastidious, yet at a price that will meet your approval. If you are in need of anything in this line such as calling cards, etc., I would be more than pleased to show you this line before you buy, whether you purchase anything or not. If I do not get around to see you, call at my residence, or drop a card in post office and I will call on you.

I also send in subscriptions to your favorite magazine—either new or renewal.

H. L. HENDERSON

110 North 6th St.

P. O. Box 534

The Seventy-fifth anniversary of the Gadsden purchase will be celebrated, and the establishment of the Butterfield mail route commemorated. President Gil of Mexico has promised to meet President Hoover there at that time.

WEST TEXAS TODAY, which will be in the mails this week contains detailed accounts of two recent district conventions of the West Texas Chamber of Commerce, these being the South Plains meet at Tahoka and the Greenbelt Lower Panhandle meet at Seymour.

QUITAQUE has delivered the first order for material from the new sand and gravel pit on the Linguish River

in the northern portion of Floyd County. The shipment was made to the Fulton Lumber Company of Plainview. Loadings were made to the newly completed spur of the Fort Worth & Denver.

LITTLEFIELD'S Chamber of Commerce has employed the services of Monte Barron, an experienced band director to direct their Chamber of Commerce band of forty-five pieces. Several trips into the trade territory are planned soon, and the band will go to the W. T. C. C. convention at El Paso.

The antarctic continent is larger than Europe.

FIDELIS CLASS MEETS WITH MRS. C. L. SELLERS
The Fidelis Class of the Baptist Sunday school met Monday evening, May 27, with Mrs. C. L. Sellers on North 4th Street. At the close of the business session, a delightful social hour was enjoyed. We are having a contest for new members and want to extend a cordial invitation to any young, married women of the town who are not attending some church to come and be with us. The next meeting will be Wednesday afternoon, June 12, at the home of Mrs. C. V. Young.
A delicious refreshment plate was passed to the following: Mesdames C. W. Bownds, H. C. Kennedy, L.

Alexander, M. L. Abernathy, C. V. Young, Moody Puckett, W. E. Martin, Earl Thrnton, C. R. McCarter, W. A. Johnson, C. L. Sellers, one visitor, H. K. Ellison.—Reporter.

JUNIOR B. Y. P. U. PROGRAM.
Subject, "The Wages of Sin".
Leader—Melba Stottlemire.
1, Melba Stottlemire; 2, Lucille Coltharp; 3, Ollie Byers; 4, Freddie Marie Worley; 5, Trannie Mae Russell; 6, Daurice Rust; 7, Tommie Lee Reed; 8, Flora Alice Alcorn.

CHURCH OF CHRIST YOUNG PEOPLE'S PROGRAM
June 2, 7:30 p. m.
Subject—"The Love of God"—Text Jno. 3:16.
Leader—Carl Self.
Song Leader—Roy Foutz.
Why is God Called Love? And how do we know that He loves us?—Jno. 4:10, Jno. 4:8.—Raymond Maxwell.
Why does God love man?—Eph. 5:29—Earline McAlister.
"A Special Song"—Ollie Mae Gaither and Ellen Foutz.
With what kind of love does God love us?—Eph. 3:16; Jno. 15:12—Ella Loyce Gentry.
Five Bible Questions—Alva Jo Blundell.
What are the results of God's love?—Jno. 3:16; I Jno. 3:1—Junior Roberts.
Dismissal.

METHODIST W. M. S.
The society met Monday, May 27, and in the absence of the president, Mrs. Olive presided, reading the devotional. Mrs. H. W. Ragsdale, the Bible teacher, led the lesson—the last chapter of Genesis.
The next lesson, June 10, will be the first three chapters of Exodus.
The attendance now is not so good. Surely, we can give one hour each week to this very important branch of the church. Only eight were present last Monday.—Press Reporter.

CHURCH OF CHRIST.
Every person rejoices when he doubles his income, and is willing to work overtime to get a salary raise. Have we tried to double our income in righteousness in recent years? We

CLASSIFIED ADS

CARD OF THANKS.

1928 Whippet coupe, priced right.—Scudder Motor Company. 80-2c

have wonderful opportunities and the Lord is not slack concerning His promises. Building up the Church is not a one man's job, but the task of all. There should be a mutual interest on the part of all. Though there are some things, possibly, which you cannot do very well, there are some things you can do and do well, and for these things you should be constantly searching.
Some day the Lord is coming to reckon with us. Then, the unfaithful steward will lose his position, his goods will be taken from him and given to another. But the faithful steward will be blessed. The Lord will say unto him: "Well done! thou good and faithful servant. You have been faithful over a few things; I will make thee ruler over many things. Enter thou into the joy of thy Lord." How will it be with you, dear reader? Come to the service next Lord's day. Subject for the morning sermon, "Theory and Practice." The crowd is still growing, we are going to have to get some more seats. One confession and baptism last Lord's Day. Subject for Sunday night, "Instrumental Music." J. E. MULLINS, Minister.

HATS—All kinds cleaned and re-blocked. Good work, very reasonable prices.—Glover, The Hatter, Commercial Hotel Bldg. 79-3tp

CARD OF THANKS.
We wish to express our sincere appreciation for the kindness shown us during the illness and death of our loved one, Mrs. S. N. Tate. Also for the beautiful floral offerings. May God bless each of those who assisted us, is our prayer.
S. N. Tate,
Mr. and Mrs. W. P. Phelps and children,
Mr. and Mrs. N. L. Tate and sons,
Mr. and Mrs. W. B. Elkins and children.

A bright youngster was explaining to her friend the difference in the values of various coins with which she was familiar.
"A dime," she said, "is a lot of money. It will buy a nice big bag of candy. A nickel is all right, too, it will buy an ice cream cone, but a penny is nothing—it is good only for Sunday school."

E. N. Pickens, manager of the Piggly Wiggly store here, and his family, expect to leave Sunday on their annual vacation. They will visit in San Antonio, Brownsville and Galveston. R. R. Dunn will be in charge of the Piggly Wiggly while Mr. Pickens is away.

Dr. S. H. Adams and family returned Tuesday night from Ft. Worth, where they attended the graduating exercises of Texas Woman's College. Their daughter, Miss Frances, who graduated from that institution, returned with them.

Mrs. W. F. Maxey and sons, Wilson and Chester spent Tuesday in Lubbock, visiting in the home of Mrs. Maxey's sister, Mrs. Green. They were accompanied home Wednesday by two of Mrs. Maxey's nieces, who will visit here for a few days.

Dallas, Texas, May 30, 1929.

To My Friends and Customers:

When you read this letter, I will be on the train on my way to New York, where I, in company with my son, Bertrum, will sail for Europe.

I wish I could have told all of you "GOOD-BYE" personally, but this was impossible, so I am sending you greetings.

I am going to visit my parents, who I have not seen for 21 years, and I know all of you wish me an enjoyable visit and luck on my going and return voyage.

I have the assurance of my efficient employes that they will take care of you, in your dry goods needs, just the same as if I were in Slaton. I trust you will give me the same good patronage I have enjoyed while I was in Slaton, and I certainly wish all of you the best of luck and good fortune while I am away.

It is my hope that I find you all well and prosperous, and cotton knee-high when I return to Slaton in August.

Very sincerely yours,
A. KESSEL, Owner
