LOCAL MAN SUFFERS INJURIES

Clem Kitten Has Arms Broken In Fall Last Wednesday At Tahoka

Clem Kitten, Sante Fe brakeman, who had both arms broken in a fall from a freight car near Tahoka last Wednesday morning, left yesterday for the Santa Fe Hospital at Clovis where he is being treated for his injuries.

Mr. Kitten had a narrow escape from far more serious injury because of the prompt action of other members of the train crew. After emergency treatment at Tahoka he was brought to Slaton and then taken to the Company Hospital at Clovis.

He is the son of Clem Kitten well known farmer who has lived in this section for many years. He has been at work for the Santa Fe as a brakeman since the early spring.

On Furlough

Leonard Lott, spent two days in Slaton last week on a furlough. Leonard is stationed at Indian Town Gap, Penn. where he is in the Military Police force. Leonard formerly served on the police force of Slaton and is the son of Mr. and Mrs. E. M. Lott, 520 West Lubbock St.

50,000 Cans Expected From W. P. A. Project

Over 27,000 cans of vegetables have been put up by the W. P. A. Gardening Project to date and it is estimated that over 50,000 cans will be filled before the season ends.

The garden has proven very successful and will provide more than was expected in the way of surplus food for the school children in Slaton, Post, Grass Bur, Cooper and Idalou communities.

Slaton Man Joins The Army

Ft. Leavenworth, Kans.—Provided with \$89 worth of military clothing from the supply room of the Reception Center at Ft. Leavenworth today, James E. Smith, former telegram operator for the Santa Fe here in Slaton, immediately began swinging into the activities and atmosphere of army life.

Mrs. J. Baigan, girl, 5 lbs. 3 ozs., born Sept. 16th.

Work Hours For Red Cross Have Been Changed

The Red Cross reports that the working hours have been changed from morning to afternoon from one until four o'clock beginning Monday.

They are still making a plea for old garments to be made into clothes for the local Red Cross Chest and also are asking for help to piece quilts.

Mrs. J. H. Brewer, knitting chairman, is making a second appeal for all knitting thread and knitted garments that are out now to please be turned in by October 1st.

The chairmen for next week will be:
Monday—Mesdames Gus Seal and C. E. Reese
Tuesday—Mesdames J. P. Brooks and L. B. Wootton.
Wednesday—Mesdames Claude Young and B. W. Jones.

A meeting of the directors has been called for this morning at ten o'clock in the Chamber of Commerce office. The meeting is very important and all officers are urged to attend.

Time Limited To Mail Gifts To Foreign Lands

If you have friends or relatives in Alaska or on foreign soil and intend sending them remembrances for Christmas, mailing should be done now.

There are a number of strict requirements pertaining to the manner in which the packages should be wrapped and tied as well as to the weight and size all of which is available at the Post Office here in Slaton.

A few packages have already been sent from Slaton but as many more are expected by the Postal Department here. "Don't wait if you expect your gift to get there in time," say Postmaster Scudder.

Truman Shelton Joins Air Corp

Lubbock Army Flying School—Lubbock, Texas, Sept. 18—Truman F. Shelton of Slaton has volunteered for service in the U. S. Army Air Forces and has been enlisted by the Lubbock Army Flying School to become an aviation mechanic.

He has been sent to Fort Sill, Okla., for processing, then will be given recruit training. Upon completion of his recruit drill, he will be ready for assignment on the flying line repairing and maintaining the bomber training planes used in training the future flying officers of the Air Forces.

Mr. Shelton until his enlistment taught Social Science and History in the High School here.

Fat Salvage Not Encouraging

Are the men of this section more patriotic than the women? To date the indications are that a very creditable showing has been made in the gathering of scrap metals and rubber which was done to a great extent by the men, well over 12 tons having been sold recently to the scrap metal dealers but very little fat has been sold to the grocers by the housewives of this section.

Practically every grocer in Slaton has agreed to accept all fats that have been properly strained and will pay the rate of 3c per pound for it. The Slaton Salvage Committee, which is composed of D. R. Reid, M. A. Pember, Odie Hood and M. S. Kavanaugh have been instructed by the Government that every ounce of fats that can be secured will be of great help in the war effort and an urgent call to restaurants, homes and hotels have been made.

"While a limited amount, we are ashamed to tell how little, has been turned into the grocers here," said Mr. Reid, "we have hopes that the response will be better this week. It is just a matter of a little trouble in preparing the grease and in the end it may mean the difference between winning or losing the war. We hope every housewife will start today, if they have not already done so, to save the grease from all fried foods or from any other source, the age of the fats does not make any difference but fats that have been burned are of no use. Let's all do our part in every way possible."

More and more emphasis is being given the importance of using the V Mail for men stationed in Alaska or on any foreign land. Next to the most important military communications the V mail is being given preference by the postal authorities and those who wish to cooperate with the Government as well as those who desire the fastest service are urged to send all communications by this method to men who are served by marine mail service. Proper mailing stationery is available at the Slaton Post office and at most Post Offices in the United States.

Slaton Boy Gets High Grade AT Air Corp Advanced Flying School

Among the many Slaton boys who are taking active part in the war efforts is Sam Finley who is stationed at Ellington Field. Sam graduated from the Slaton High School last year and volunteered for service. In a letter to School Superintendent Kavanaugh Sam writes as follows:

Dear Mr. Kavanaugh and Student Body,
I received your letter the other day and sure was glad to receive it. I am an assistant crew chief on an advanced Flying Plane, Model AT-17. My job is to keep the plane in the air so the pilot can get his right amount of training. I attended the Post Technical School here at Ellington Field. I

completed the course with a 93 per cent average. I was third in the class.

The soldiers invest a lot of their pay check in defense bonds. I have been purchasing an average of \$25 dollars each month. Every little bit helps win the war. One of the Squadrons on this field is purchasing bonds 100 per cent. Our company commander says he would be very happy if we were the second one to out 100 per cent.

I hope all the kids "are on the beam" in their school work. Tell Miss Armes I miss the English I didn't learn and tell her to go easy on the English Class. "Hello" to everyone.

VANGUARD OF LABOR ARMY ARRIVING IN THIS SECTION

The vanguard of the transient labor army has arrived in this section and more are arriving daily according to Postmaster Scudder who reports that the time of arrival of the workers can always be foretold by the advance letters addressed to the itinerants.

The Post Office is perhaps the busiest place in town when the cotton workers come and Postmaster Scudder says the indications are that this season will be one of the most active in the history of the South Plains.

Mr. L. B. Strube expects the labor problem to be more difficult this year than it has ever been but says that the farmers and their wives will have to do more of the work. Mr. Strube has two Mexican women on his place who are cutting grain and doing more of the heavy work than they have ever done before, "they told me that they are willing to help in any way possible if it would help win the war," said Mr. Strube.

All Santa Fe Mechanics In Slaton Now Buying Bonds Each Month

Taking their place among other patriotic business organizations in Slaton all 95 members of the Mechanical Department of the Santa Fe Railroad are now buying War Bonds on the payroll deduction plan, reports Master Mechanic L. B. Johnson.

Most of the men have been buying bonds ever since the war started stated Mr. Johnson but not on the regular monthly payroll deduction plan and it way very little trouble to get them organized 100 per cent.

Reports for several other large organizations in this territory are that more bond buying on the payroll deduction plan and it was nounced soon.

SLATON HIGH SCHOOL ELECT CLASS OFFICERS

The pupils of Senior High School met Wednesday to elect the officers of their classes. The officers of each different class were as follows:

Senior President Calvin Lamb
Vice Pres. Raymond Champion
Secretary Bud Housour
Reporter Scott Lovelady
Junior President Billy Waldrup
Vice Pres. Leona Yates
Secretary Joan Tefertiller
Treasurer Bill Cherry
Sgt. at Arms Mike Watkins
Sophomore President Bay Finley
Vice Pres. Jack Huckaby
Secretary Dora Caldwell
Reporter Jack Dickson
Freshman President Tommy Davis

Vice Pres. Fred Schmidt
Treasurer Billie Ann Mosely
Secretary Wilma Faye Faulkner

8th Grade President Dorothy Lee Davis
Vice Pres. Johnny Schmidt
Secretary Bettye Jeanne Caldwell

Treasurer Peggy Jean Abernathy
7th Grade President Roscoe Champion
Vice Pres. Blanchard Prichard

Secretary Mary Harral
Reporter Jimmy Cherry
Program Chairman Betty Jo Gentry

ing, Glynna Williams, and Nina Ray Hickman.

Other members are: W. A. Sikes, James Allred, Bobby Smith, Reba Bartley, Sue Kirkpatrick, Betty Jo Bates, Billie Jean Tucker, Wyona Van Dyke, Wyona Peebles, and Geane Martin.

THIS WEEK'S WAR NEWS

All motorists in the non-rationed area of the country were asked by Priced Administrator Henderson to observe the same rules in using their cars that are enforced in the rationed Eastern area, as a means of conserving rubber tires until a national gasoline rationing plan can be put into effect. He said it will be several weeks before coupon ration books can be printed to carry out the nationwide gas rationing recommended by the Baruch Rubber Committee. Unless the nation's 27,000,000 motorists cut their driving "to the bone," Mr. Henderson said, "we're likely to coast right into Hitler's lap."

Gen. MacArthur's Australian Headquarters reported Allied Forces have kept the Japanese thrust toward Port Moresby bottled in the towering Owen Stanley Mountains while Allied aircraft swept the seas surrounding the Island, bombing enemy supply ships. Gen. MacArthur announced September 14 that United Nations bombers attacked three Japanese cargo ships, apparently bound for New Guinea, and American Flying Fortresses bombed a Japanese cruiser off the Southeast coast of New Britain. Earlier, the Fortresses hit two enemy destroyers in the same area. Japanese bombers continued to attack U. S. Forces in the Solomons and the enemy has "reinforced and supplied" Japanese troops in the interior of Guadalcanal where U. S. Marines are engaged in mopping up operations, the Navy reported. The Navy said that 20 more Japanese planes have been shot down in three heavy bombing attacks—bringing to at least 143 the number of Jap planes officially reported shot down since operation began August 7.

Office of Defense Transportation Director Eastman announced "no special train or bus service, including charter bus service, to football games or other sports events will be permitted. At the same time I am directing that steps be taken by my office to prevent the overcrowding of regular trains serving areas in which such events are to be held." The Interstate Commerce Commission ruled that for the duration all railroad carriers may disregard any present regulations governing length of trains when necessary to assure prompt movement of freight or passengers.

U. S. Army Headquarters in London reported American Flying Fortresses and Medium bombers successfully bombed the Schiedam Shipyards at Rotterdam, railway yards at Utrecht, an airframe factory and the St. Omer Airdrome in Nazi-occupied France.

Spanish Club Is Organized

The members of the first and second year Spanish classes of Slaton High met Tuesday afternoon and organized a Spanish Club to be known as "Los Amigos". The club will serve a double purpose said Mrs. Minnie Ray Swofford, sponsor; first to give the students an opportunity to practice the Spanish they learn and second, to improve their knowledge of Spanish-speaking people.

Officers elected were as follows: President - Sara Ann Shaw, Vice President - Jean Holt, Secretary Treasury - Fern Weathered, and Reporter - John Frye.

Three committees were named: Constitution and Rules - Tommie Lee Dozier, R. J. Schuette, and Billy Townsend; Program—Emma Young, Mary Virginia Saage, Dora Caldwell, and Dortha Fay Lamb; Social—Alicee Jean Mead-

"Men in overalls as well as men in khaki now fight. Every rivet you drive echoes victory. The glare of your torches is a beacon light to tomorrow's triumph. The men at the front will bless your name as weapons reach us."

DOUGLAS MACARTHUR.

ON THE HOME FRONT

Today's meat situation furnishes an example of national budgeting. Our total meat supply is the largest on record, but the demand, including the needs of the Army, Navy, Merchant Marine, and Lend-Lease, leaves us 3 billion pounds short of being able to give the folks at home all the meat they might want. We shall be able to buy 2 1/2 pounds of meat per person per week, about our average consumption for the past 10 years and well above the 1 pound a week that the Englishman gets, the 12 ounces per week allowed Germans, or the 5 ounces available for half-starved Belgians. For the first 4 months of the meat reduction program civilians will be asked to save on the so-called "red meats"—beef, veal, pork, and mutton—by using cheese, poultry, fish and beans as substitutes on meatless days. Later, direct consumer rationing will start.

Wool, rubber, steel, and liquor. Other limitations on supplies or substitutes are in effect or in prospect. Boys and men will have to get along with whatever woolen lounging robes are on hand but mothers need not worry about woolen robes for infants, sizes 1 to 3. Crude rubber or latex—scarcest of scarce materials—cannot be used in the manufacture of rubberized fabric for protective clothing either in civilian or Government war orders, except rubber lifesaving suits, life preservers, diving equipment, and raincoats already on order for the Navy. New bed-springs are allowed only 30 pounds of steel per spring and manufacturers are encouraged to make four models of wood-frame coil bed-springs. Rubber heels made of scrap rubber will come in four grades stamped from V-1 to V-4, according to quality, and their prices at the shoe repair stores will be fixed. By November 1 all of the Nation's 128 distilleries will be making war alcohol exclusively, although our present stock of distilled spirits should last about 5 years.

We overcome our limitations. Yankee inventiveness, however, is used to overcoming limitation. New types of containers have been developed by the container industries, heavy paper cartons are taking the place of wooden containers and wire-bound boxes for overseas shipments. Many kinds of canned goods now come in jars and bottles. Paper containers are substituted for scarce burlap bags, and paper "cans" with metal ends are used for packing some brands of baking powder and dried fruits. The Bureau of Mines will build a pilot plant for the making of sponge iron, a substitute for scrap iron in steel manufacture. Government geologists and engineers have blocked out more than 500,000 tons of valuable bauxite in Georgia, and other experts are exploring the "black sand" beaches chromite, ilmenite, magnetite, of the Oregon coast, containing and zircon, all needed metals.

If necessary, we change our habits. Everywhere throughout the country our people, once spend-thrifts with our last resources, are learning to save the articles they now have, to find new uses for old belongings, and to alter lifelong habits of work and recreation.

Without placing any limit on the production of permitted styles of civilian shoes, WPB has banned manufacture of two-color shoes and reduced the variety of styles and colors for footwear to be made for 1943 spring and summer wearing. The supply of shoe leather has become the limiting factor in shoe production, and reduction of shoe styles and colors will prevent sole leather from being tied up in little-used footwear. No limitations are applied to shoes made with soles other than leather or composition.

ODT moved forward with its program to coordinate inter-city bus service for conservation of vital rubber and equipment by issuance of special order ODT No. B-20, directed to Pacific Greyhound Lines and Parrish Stage Lines. These two lines, which run on a common route between El Paso and Deming, New Mexico, began Sept. 15 to interchange tickets and use joint stations to relieve over-loads.

Fourteen Texas scrap dealers have received the first WPB merit awards for cooperation in the national salvage campaign. Thomas L. Mullican, WPB auto graveyard section chief for the state, announced. Figures just released by WPB Conservation Division for July scrap shipments from the Southwest region show that Texas shipped 12.8 per cent of its six-month quota of 685,000 tons; Louisiana shipped 12.4 per cent of its 110,000-ton quota, and Oklahoma shipped 7.2 per cent of its 190,000-ton quota.

A recent WPB order placing caffeine and theobromine, two important medicinal drugs, under complete allocation control beginning October 1 is expected to reduce the amounts of caffeine which will be available for beverage production. Caffeine is chiefly in cola beverages.

The United States has an "unlimited" potential air force to win the war, Maj. Gen. Hubert R. Harmon, commanding officer of the Gulf Coast Army Aviation Training command, told Texas bankers meeting at the University of Texas recently.

Have your prescriptions filled at TEAGUE'S DRUG STORE by a registered pharmacist.

C. E. Porter Now Officer In Army

Camp Polk, La., Sept. 17.—Second Lieutenant Charles E. Porter has been assigned to duty with the 40th Armored Regiment. He recently graduated from the Armored Force Officer Candidate School at Fort Knox, Kentucky, after having served as an enlisted man from February 10, to May 1, 1942. As an enlisted man he advanced to the grade of sergeant and saw service with the 69th and also the 1st Armored Regiments at Fort Knox, Kentucky.

The lieutenant graduated from Slaton, Texas, High School and also attended Texas Tech College. He played on the baseball, basketball and tennis teams. His mother is Mrs. Ida Porter of 2318 10th St., Lubbock, Texas.

AIRPLANE PARTS TO BE ON DISPLAY

Every part of an airplane motor except it's roar will be on display beginning Monday at 1012 Main street in Lubbock, adjacent to the Hilton Hotel on the West. There will be parts, cut-aways and a completely assembled cut-away airplane motor for the inspection of those interested. The display room will be open from 9 a. m. to 7 p. m. on weekdays and from 9 a. m. to 9 p. m. on Saturdays.

Farm mechanics and other mechanically inclined may now enlist direct into the Air Forces at the same station. Enlistments are open to men between the ages of 18 to 50, inclusive, single or married and there are now family allotments for married men. Promotions, too, are usually rapid in the Air Forces. The need for mechanics and radio men is great and those interested should enlist immediately.

The exhibit is being arranged by Captain W. B. Marschner of the Lubbock Army Flying School and Lt. Warren T. Freehan of the South Plains Flying School and will be open until September 19, if enlistments are still open at that time. If the enlistment program continues after that date the exhibit and enlistment station will remain open.

To Be Largest Flying School

Official announcement that the new South Plains Army Flying School, at Lubbock, will be "one of the largest, if not the largest" of the nations advanced glider schools has been made by the War Department, with appointment of Col. Norman B. Olsen as permanent commander of the post.

Original plans for the school, now nearing completion, were to provide advanced twin-engine flight training, although an advanced glider training school, originally planned to be temporary, has been operated at the field during the construction period. Col. Olsen has been acting commander of the temporary school. Lt. Col. Thomas Wildes, director of training at the glider school, will continue in that capacity at the new base.

The new order from the War Department was interpreted as meaning that plans for the twin-engine school have been abandoned, and that the facilities will be devoted exclusively to glider pilot training for the duration.

IT TAKES PLENTY OF VITAMINS AND MINERALS FOR NERVES OF IRON

Borden's
HOMOGENIZED VITAMIN-D-MILK

It takes the right kind of foods to build steel spring muscles and nerves of iron. That's why America's new paratroops... and all American soldiers... are served milk as a regular part of their diet. Milk is vitamin and mineral rich. And Borden's Homo Milk helps the body assimilate more of these health building vitamins and minerals, because it digests easier. It tastes richer and more flavorful, too.

CHIEF TOPICS

CHICAGO, Sept. 18.—The War Production Board, acting through the Metals Reserve Company, has requisitioned for War purposes three additional branch lines of the Santa Fe Railway totalling approximately 155 miles in Oklahoma and Kansas.

The lines involved in the government's latest requisition and which will shortly be taken up and dismantled include 32.63 miles between Anthony, Kans., and Cherokee, Okla.; 59.75 miles between Madison Junction and Moline, Kans., and 63.45 miles between Madison Junction and Emporia.

The Santa Fe's track between Boise City, Okla., and Farley, N. M., consisting of approximately 78 miles of track, was previously requisitioned by WPB.

The latest requisitions call for the turning over to the Metals Reserve Company all rail, track fastenings, metal bridges, and other metallic track material of these lines.

All three lines have been involved in abandonment proceedings, and although the materials necessary for their operation will now become the property of the government, hearings on the Santa Fe's application to abandon will proceed as scheduled, it was announced.

AMARILLO, Sept. 18.—The appointment of Andrew N. Baker of Wellington, Kans., as safety supervisor of the Santa Fe Railway Western Lines was announced today by G. C. Jefferis, general manager. Baker, veteran trainman, will headquarter in Amarillo.

The creation of the position on the Western lines, due to increased need for safety supervision, was approved by W. K. Etter, operating vice president. Heretofore safety supervisors from other grand divisional territories have handled the assignment.

Baker has been with the Santa Fe since 1914. He was brakeman

and then conductor of the Panhandle division and has engaged actively in safety work throughout

his career. He is married and has three children.

The Santa Fe System carloadings for the week ending Sept. 12, 1942, were 20,741 compared with 22,724 for the same week in 1941. Cars received from connections totaled 12,608 compared with 9,056 for the same week in 1941.

Total cars moved were 33,349 compared with 31,780 for the same

week in 1941. Santa Fe handled a total of 35,966 cars in the preceding week of this year.

THE STATE OF TEXAS.
TO: Erb Lee Dickey, Defendant,
Greeting:

You are hereby commanded to appear before the Honorable 99th District Court of Lubbock County at the Court House thereof, in Lubbock, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, same being the 12th day of October A. D. 1942, then and there to answer Plaintiff's Petition filed in said Court, on the 27th day of June A. D. 1942, in this cause, numbered 10221 on the docket of said court and styled Rosie R. Dickey, Plaintiff, vs. Erb Lee Dickey, Defendant.

A brief statement of the nature of this suit is as follows, to wit: that this is a suit for divorce; that plaintiff has been an actual bona fide inhabitant of the State of Texas for 12 months next preceding the filing of this suit, and of the County of Lubbock 6 months next preceding the filing of this suit; that plaintiff and defendant were legally married on Nov. 5, 1911, and continued to live together as husband and wife until the month of July, 1938; that some 15 months prior to the separation the defendant began a course of cruel and harsh treatments which were of such nature as to render their further living together as husband and wife insupportable; that to this union there were born two children, to-wit: E. L. Dickey, a son, 14 years of age and J. T. Dickey, a son, 8 years of age; both children are in the custody of the plaintiff; that plaintiff is the proper person to have the care and control of said two children; that there is no community property;

WHEREFORE premises considered plaintiff prays for citation, for judgment of divorce as well as custody of the two minor children and also additional legal and equitable relief as she may show herself entitled, as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Lubbock, Texas this 26th day of August A. D. 1942.

Attest:
ROYAL FURGESON, Clerk
99th Dist. Court, Lubbock County, Texas.

Movie Reporter.

All the glamour and romance of the Old West lives again in Republic's de luxe action drama, "In Old California," which will open Friday at the Palace Theatre for a two day run.

John Wayne and Binnie Barnes head the large cast, which also includes Albert Dekker, Dick Purcell, Edgar Kennedy and Patsy Kelly.

Placed against the colorful setting of the California gold rush day, the picture deals with the efforts of a forthright and two-fisted young Bostonian to establish himself in business in early-day Sacramento in spite of the opposition of outlaw political powers.

Columbia's "Flight Lieutenant," new aviation drama with Pat O'Brien, Glenn Ford, and Evelyn Keyes, opens Sunday at the Palace Theatre. Directed by Sidney Salkow and produced by B. P. Schulberg, the new adventure film is the story of a "forgotten man" of the air, a hero of World War I who is ignored by the fliers of World War II. Lesser players include Jonathan Hale, Minor Watson, John Gallaudet, Larry Parks, Lloyd Bridges and Douglas Croft. Michael Blankfort penned the screen play.

A musical show idea teeming with originality and packing more sold entertainment per foot than the movie public has been offered in a long time, is due at the Palace Theatre next Tuesday, Wednesday and Thursday when the long-awaited Irving Berlin's "Holiday Inn" bows into town with Bing Crosby, Fred Astaire, Marjorie Reynolds, Virginia Dale and Walter Abel.

Mrs. C. O. Clifton has been visiting her parents, Mr. and Mrs. J. Ward this week. Staff Sgt. Alvis Bilbrey and family are visiting in Wise County, Texas for a few days. Sgt. Bilbrey is on a ten day furlough and he and his family plan to return September 20th. Mr. and Mrs. Alton Sumerall of Sweetwater visited Mr. Sumerall's mother, Mrs. Fred Tudor over the week-end. Mrs. Johnnie Jones of Sundown is visiting her parents, Mr. and Mrs. Dave Hoffman, this week.

Mr. and Mrs. Milton Thomas left Saturday to take Miss Bonnie Thomas to Melrose, New Mexico, where she will teach this year.

Mrs. Mora Culp left Wednesday for a week's visit with her son and family, R. C. Hall, Jr. in Big Spring, Texas.

Sgt. Bob Walker now stationed in Clovis, New Mexico, visited Miss Wanda Waldrep Sept. 9th. Sgt. Walker was with the Railroad Battalion that was here last June, but he now plans to enter the Air Corp. He returned to Clovis Sept. 10th.

Mr. and Mrs. W. R. Lovett had as their guests last week, Mr. and Mrs. George F. Porter of Chicago. They were enroute to Albuquerque, New Mexico where Mr. Porter is to be a supervisor in the construction of a shell loading plant. Mr. Porter is a brother of Mrs. Lovett.

Mr. and Mrs. G. C. Hannon of San Angelo spent the past week visiting their daughter, Mrs. Chas Whalen.

Mrs. J. H. Gregory has gone to Washington to work in the War Department.

Captain William Grady Florence of Washington, D. C. has telephoned his parents, Mr. and Mrs. W. P. Florence to tell them goodbye that he is to leave on ship this Friday for foreign service. He was promoted from 1st Lt. to Captain recently.

Maxine Conner Weds Joe Walker

MRS. JOE S. WALKER

Miss Maxine Conner, daughter of Mrs. Ray Conner, and Joe S. Walker, Jr., son of Mr. and Mrs. Joe S. Walker, were united in marriage Thursday evening in the home of Mr. and Mrs. J. Floyd Jordan at San Antonio. Rev. W. P. Carmichael officiated at the single ring ceremony. The service was read before an improvised altar of palms.

The bride wore an RAF blue crepe frock with pecan brown accessories, and a corsage of pink rosebuds. Mrs. M. H. Perry, Jr., from Waukegan, Ill., attended the bride. She wore a dusty rose dress with a corsage of white roses.

For "something borrowed," the bride carried a handkerchief belonging to a friend. For "something old" she wore a cameo ring belonging to Mrs. W. F. Martin.

James Carroll Vordenbaum of San Antonio was best man.

The refreshment table was covered with a white damask cloth and centered with a flower arrangement of white and pink asters.

At one end of the table, was placed the three tiered white wed-

REGULAR MEETING HELD BY W. S. C. S.

The Women's Society of Christian Service met Monday afternoon, Sept. 14, at the Methodist Church at 4:00 P. M.

Mrs. J. E. Eckert was leader for the afternoon and the subject of the meeting was Christian Social Relations.

On a short program Mesdames H. C. Gordon and Allen Ferrell sang the hymn "Others" after which Mrs. L. B. Johnson discussed an article called "Women and Children First."

Those attending the meeting were Mesdames E. G. Harlan, Webber Williams, T. H. Ferguson, Allen Ferrell, H. C. Gordon, J. E. Eckert, L. B. Johnson, Charles Walton, E. R. Legg, and Miss Mabel Scudder.

The W. S. C. S. will meet in circles next week.

Circle No. 1 will meet with Mrs. M. A. Pember, Circle No. 2 will meet with Mrs. Harmon Thompson, and Circle No. 3 will meet with Mrs. E. R. Legg.

ding cake, topped with a miniature bride and bridegroom. Miss Laurissa Bratton of Brady cut the cake. Miss Evelyn Meading of Slaton presided at the punch bowl. Miss Bobbie Jordan registered guests in the bride's book.

Wedding guests were Mrs. J. Floyd Jordan and daughters, Bobbie Jo and Barbara Jean of San Antonio; Mrs. Ray Conner, Mrs. J. S. Walker and Mrs. W. F. Martin, all from Slaton; Mrs. Austin Taylor of Eastland and Mr. and Mrs. H. S. Grant of San Antonio.

Mrs. Walker, senior journalism student at Texas Technological college, was a member of Alpha Chi, Theta Sigma Phi, Press and Book Reviewers club. She is a graduate of Slaton High School.

Mr. Walker is a graduate of Slaton High School and attended Tech college where he majored in engineering. He is now employed at Duncan field, San Antonio, where the couple will be at home.

CIVIC AND CULTURE HAS TWILIGHT TEA

The Civic and Culture Club met in their re-assembly program, Sept. 12, in a Twilight Musical Tea in the home of Mrs. R. H. Todd. Mrs. R. M. Champion acted as co-hostess.

Mrs. Lee Green presided over the business meeting at which the roll call was "experiences of summer."

After the business meeting a program was held. Mrs. Raymond Johnson gave several selections on the piano of old time tunes, after which Mrs. R. M. Champion sang a solo "When I Grow Too Old To Dream." Mrs. R. G. Shankle read a series of poems and Mrs. W. R. Lovett presented a supplement to the year books. The course of study this year will be "Education for Democracy."

Mrs. Lee Green presided over the refreshment table and refreshments were served to Mesdames S. H. Adams, J. S. Bates, Bessie Donald, W. P. Florence, Henry Hollis, Raymond Johnson, W. R. Lovett, H. R. McKee, M. A. Pember, H. G. Sanders, R. G. Shankle, W. E. Smart, A. C. Strickland, C. L. Suits, C. L. Heaton, W. T. Cherry, and the hostesses.

The next meeting will be held in the home of Mrs. W. T. Cherry, Sept. 26, at 3:00 P. M.

THREE PEOPLE HONORED AT BIRTHDAY DINNER

Mrs. Annie Haslip and Misses Ina Jo Schram and Rona Schram celebrated their birthdays together at a dinner given in their honor Sunday night, September 13, in the home of Mr. A. J. Payne. There were nineteen present at the dinner.

Those attending were: Mr. and Mrs. Gene Bostick and family of Slide, Texas, Mr. and Mrs. Edgar Haslip of Lubbock, Mr. and Mrs. Joe Schram, of Slaton, Mr. and Mrs. A. S. Friemal and family of Slaton, Mrs. Mary McEylea and daughter of Cooper, Mr. V. D. Payne, and the host.

BUSINESS MEETING HELD BY SUB-DEBS

At 5:00 Thursday afternoon the Sub-Deb Club met in the home of Miss Dorothy Lee Jones in a regular business meeting. After the meeting had been called to order the Club decided to order small Sub-Deb Booklets which will be discussed at each meeting.

Spiced tea and dainties were served to Misses Ruth Austin, Connie Henry, Wilda Hannah, Mary Ann Schmidt, Phyllis McReynolds, Charlene Fisher, Mary Ann Wilson, Gwendolyn Hanna, Nina Ray Hickman, Alice Jean Meading, Billie Jean Jarman, Doris Clifton, Gertie Bea Waldrep, Marion Bain, Glynn Williams, Mary Mann Sargent, and the hostess.

REGULAR MEETING HELD BY BLUEBONNET CLUB

The Bluebonnet Club met in the home of Mrs. H. H. Edmondson Wednesday, Sept. 9, with Mrs. F. B. Tudor presiding over the meeting.

Tables of Forty-Two and Chinese Checkers were enjoyed by thirteen members and one guest.

Members attending were Mesdames H. S. Crews, A. L. Clifton, L. T. Garland, J. D. Holt, Dan Liles, H. V. Jarman, J. P. Brooks, S. P. Ferguson, Wallace King, L. R. Tibbs, F. B. Tudor, W. P. Shelton, the guest, Mrs. Curtis Jones, and the hostess.

Mrs. Brooks will be hostess to the next regular meeting which will be held Sept. 23rd.

LOYAL WORKERS MEET S. P. FERGUSON HOME

The Loyal Workers Sunday School Class of the Methodist Church met Thursday, Sept. 10, at 3:00 in the home of Mrs. S. P. Ferguson.

Mrs. W. H. Proctor gave the devotional.

Those attending the meeting were Mesdames C. A. Porter, P. M. Wheatly, W. H. Proctor, C. L. Suits, L. L. Frazier, and O. W. Ray.

METHODIST LEAGUE HAS WEEKLY MEETING

The Epworth League met Sunday, Sept. 13, at 7:30 P. M. at the Methodist Church.

Odis Sims was leader and the subject of the meeting was "The Loser's End." Fern Wheatley talked on "Gambling and Personality" after which there was an open discussion.

Doris Clifton will be leader next Sunday and everyone is invited to attend.

MRS. WHEATLY HOSTESS TO QUILTING CLUB

The Jolly Quilting Club met with Mrs. P. M. Wheatly Tuesday, Sept. 15. The club was originally scheduled to meet with Mrs. J. W. Ward, but due to an illness in the family she was unable to enter-

tain. During a whole day's session two quilts were completed by Mesdames W. P. Florence, W. P. Shelton, E. E. Wilson, J. W. Scott, Jess Burton, H. H. Edmondson, and two visitors, Mesdames C. E. Jarman, and J. R. Raymond. The next meeting will be with Mrs. W. P. Florence, Sept. 29th.

FORREST BIBLE STUDY

The Forrest Bible Study will meet 3:30 p. m. Tuesday at the Methodist Church.

Lesson: Studies in the Book of Exodus, Chapters XIII-XV, Red Sea.

1. How long after the Israelite left Egypt did they reach Sinai?
2. Of what did God remind them?
3. What did God propose to do for Israel on condition that they would obey Him?
4. Was the law proposed as a means of life or a means by which and blessing?

Israel might obtain distinction
5. Did God really speak to Israel with an audible voice? Exo. 20:1, 22; Deut. 4:33, 36.

Mrs. B. J. Ward left this week to visit her daughter who lives in Big Springs. Corporal Hyden Edmondson, Jr. will arrive Saturday for three days. He is stationed in Way Cross, Ga.

PERSONALS

Lt. R. H. Todd Jr., has been moved to Key Field at Meridian, Miss. Mrs. Todd accompanied him there and they are pleasantly located in a beautiful old colonial home.

Pete Williams, Mrs. Gene Williams and Mrs. Cecil Williams all of Hereford and Mrs. Floyd Dutton and baby of Amherst were Tuesday night visitors in the home of Mr. and Mrs. Clifford Young.

Mrs. H. G. Ratliff of Oakland, California and grandmother Ratliff are visiting Mrs. Ratliff's daughter, Mrs. Earl Warren. The H. G. Ratliff lived here eleven years ago when Mrs. Ratliff was active in the Rebecca Lodge work and Mr. Ratliff was active in the Oddfellow Lodge.

Charles Reese, who has been working in Fort Worth this summer, returned home to enter Texas Technological College.

JUST TALK
by
A.M.J.

Some new contraptions have shown up in this part of the country since the farmers have been planting peanuts. Last week I saw an outfit running that looked like a torture machine that had been dug up from the middle ages. It turned out to be a peanut thrasher that Leo's Farmall Shop had constructed. Whether it was an invention of Leo's or a machine made in a factory, I do know that I do not want to be near the thing when it starts thrashing.

It is refreshing to get jarred out of the every day jog trot by such jestful young ladies as Miss Myrtle Teague, Naydine Smith and Mary Ann Wilson. All of these young ladies have that spark that puts life into their conversation and wakes you up to the importance of a lot of things that often amount to nothing. They are like a shower on a hot day in July and it is a pleasure to see the smiling faces such people leave in their wake as they pass down the street. There are men who have the same sparkling qualities but not so many of them.

Slaton will lose one of its most likable young men when Royce Pember moves to New Mexico for keeps. Odie Hood has a personality that is most pleasing and Webber Williams can always be depended upon to leave folks with a smile on their faces.

This charming spark of cheer can be developed say the scientist but there are many people who would have to be worked on so long that it would hardly be worth the time.

Just when the war will end is probably as much a mystery to the men who are directing the war as it is to any one here in Slaton. It must be evident to anyone that we cannot even consider when the war will end when it comes to preparation. The fortunes of war and the supply of vital war materials and food change the aspects from day to day and in the end the best equipped and the army that can stand up under the most grueling circumstances will be the one that will win. In the last world war the armistice came like a bolt of lightning and the majority of people in the United States felt very much as they do today only a week or so before peace came.

The United States, England, Russia and China cannot figure on coming to victory with just the exact amount of fighting men, food and materials that it will take to win, but we must have that immense surplus that will guarantee that we do win and when it comes to production and training of men there will be no let up until well after the terms of peace have been signed.

While there is no doubt a stern reason for conservation of thousands of vitally needed materials and articles that have already been manufactured there is no need for a restriction on a pleasant smile or a gathering of men and women for an exchange of ideas. At a time like this the work that civic and business clubs can do in the way of cooperation with the war effort offers ready made organizations that could be of great help in putting through any emergency plan that could be come necessary at times like the present and the near future. Those who belong to any kind of organization should redouble their efforts to keep the organizations alive not

only for the effects upon the morale but for the sake of our safety in the future.

What has become of the men and women who were weaving all over town on bicycles this time last year? Carl Merriweather rode by me the other day but his bicycle had spider webs running from the handle bars to the pedals and I am sure Carl was out for his first airing in the past six months. If some one would make Roy Mack a real good trade on a easy riding couch or arm chair I am sure a good slightly sprung bicycle could be secured. Mary Watkins and Myrtle Teague both throw up their hands and scream every time they turn a corner just from habit although both of them have given up their rubber tired mounts. Briggs Robertson's face has turned from purple back to red since he took his Red Racer home and even Paul Stevens has gone to pulling his youngsters around in a little red wagon instead of pedalling them over town.

When the trend for buying bicycles first started I bought one myself but never did get up the fortitude to mount the thing, the air has gone out of the tires, the dust is on its fancy name plate and it falls down every time I go into the room where it is parked. My wife wants me to try to sell it, but every time I get my mind made up to get the awkward thing out of my sight some news reporter comes out with a fresh rumor that gasoline rationing is soon going into effect and my bicycle immediately looks like a Cadillac sedan. Should I try to sell it or should I keep it and spend the rest of my life stumbling over the thing, it's a problem that is bringing gray hair to my head and wrinkles to my alabaster brow.

Just how much good caffeine is for the human race or whether it is worth while or not will soon be demonstrated to the public when coffee goes into the rationing with other luxuries such as gasoline, meat, lard and soap. The cola drinks, so they say, will not have the wallop they have had in the past as the supply of caffeine has been reduced. It won't be long folks before we will be living as simply as Daniel Boone did and a good Jack Rabbit will taste like T. Bone steak and we'll be washing our clothes with old fashioned lye soap and a good strong lemonade will have to take the place of a double rich chocolate Sunday. Times change and in some ways for the better.

We have a couple of young squirts working on the paper who remind of the days when I had a full grown appetite, no responsibility, would try to lift the world with one hand and could work or play all night and come down the next day feeling like "Spring is here".

When Charlie Austin donated a watermelon, to us the other day, one of them said he did not care for watermelon but he went after it with both hands and ended up well out in front of me in about fourth place and barely able to nibble. If I could only get back my ability to sit down and eat a double bowl full of chili, two dozen hot tamales, roast pork with sweet potatoes, pork sausage and a few other light refreshments like that, then old father time can have my remaining hair, my ambitions to become wealthy and my ability to stay up all night. But I have just about given up hopes of ever being able to surround a man size meal and enjoy it. When I sit down and give my full attention to a table full of worth while food I soon feel

A DAB A DAY KEEPS PO AWAY

New cream positively stops underarm Perspiration Odor

1. Not stiff, not messy—Yodora spreads just like vanishing cream! Dab it on—odor gone!
2. Actually soothing—Yodora can be used right after shaving.
3. Won't rot delicate fabrics.
4. Keeps soft! Yodora does not dry in jar. No waste! Goes far.

Yet hot climate tests—made by nurses—prove this deodorant keeps underarms immaculately sweet—under the most severe conditions. Try Yodora! In tubes of jars—10¢, 30¢, 60¢. McKesson & Robbins, Inc., Bridgeport, Connecticut.

WATCH YOUR DRIVING SAYS POLICE DIRECTOR

Watch out for those school kids! You'd forgotten about that school crossing during the summer, hadn't you? The kids are coming back now, and you'll have to watch out for them.

"Let's be thankful," State Police Director Homer Garrison said today, "that we still have schools to send our children to. Even with the benefit of education, which now is denied many peoples of the world, our kids are growing up into world that's going to be pretty rough on them. Let's give them a break by not breaking their arms and legs and heads with our automobiles."

FOR VICTORY

BUY UNITED STATES WAR BONDS AND STAMPS

"Tough luck, old man—my money's all in nontransferable War Savings Bonds."

5. Do I love all other Christians? "Beloved, let us love one another; for love is of God; and every one that loveth is born of God, and knoweth God" (I John 4:7). Love here is not mere emotion, but that genuine desire for another's good that leads to sacrifice for him. This love is the supreme result, evidence and test of the new birth.

The new birth must come from above. The mineral cannot force its way into the vegetable kingdom, but the wheat may reach down to incorporate into its texture the metal of the rich soil. The vegetable cannot force its way into the animal kingdom, but when the cow feeds in the meadow it can incorporate the grass and lift it into its own organism. The animal cannot force its way into the human kingdom, and yet, as in the intimacy between its owner and an intelligent dog, there may be a kind of uplift into the human level. So the human being cannot force his way into the divine kingdom, but the divine can stoop to our fallen level, uplift and incorporate us so that we may become partakers of the divine nature.

Peter says: "His divine power hath granted unto us all things that pertain unto life and godliness, through the knowledge of him who has called us to share in his glorious character" (II Pet. 1:3, 4).

Sometimes the finest kind of command of the English language is complete silence.

Today's couplet: Girls who gush and baby prattle haven't enough brains to rattle.

Yes—You Can Help Him...

...and here's how!

Gas is speeding the production of the weapons of war—ships, planes, tanks, guns, shells. As a fuel, Gas is vitally important in winning this war. Lend your help by an economical use of GAS—the Nation's Fuel—on the Home Front.

HERE'S A THREE-POINT PROGRAM FOR ECONOMY CONSERVATION IN YOUR HOME

IN THE KITCHEN... Cook the low temperature way that saves Gas and Vitamins. Roast at lower temperature, and reduce meat shrinkage.

IN THE HOUSE... Make preparations now for heating your home next winter. Storm windows and doors as well as insulation will save Gas.

IN THE BATH, LAUNDRY AND KITCHEN... Repair leaky hot water faucets to save water and Gas. Don't heat more water than you need.

Our Weekly Sermon—

How Can I Know I'm A Child Of God?

By the Rev. Ralph E. Stewart, Associate Director of WMBI, Chicago.

How can I know if the great miracle of the "new birth" has taken place in my life? How can I know if I am a child of God?

In two ways. First, by God's Word. Let us read John 1:12, 13: "But as many as received him, to them gave he the right to become the sons of God, even to them that believe on his name: which were born...not of the will of the flesh...but of God." That is our part—to believe on the name of the Lord Jesus Christ. It is God's part to see that we are born again, born from above.

A second test to know whether I am God's child is my own experience. Let us look at our experience through the Word of God.

1. Do I believe that Jesus is the Christ? "Whosoever believeth that Jesus is the Christ is born of God" (I John 5:1).

2. Am I overcoming the world? "Whosoever is born of God overcometh the world" (I John 5:4).

3. Am I practicing sin? "Whosoever is born of God doth not commit sin" (I John 3:9). The present tense of the verb denotes progressive or continued action. It does not teach that the one begotten of God never sins in a single act, but that he does not make a practice of sin.

4. Am I practicing righteousness? "Every one that doeth righteousness is born of him" (I John 2:29). "Be assured that the man who habitually act righteously is a child of God" (Weymouth).

EXPANSION OF DAIRY ADVISED BY EXPERT

Austin, Texas, Sept. 17.—Natural resources of Texas favor a substantial expansion of the dairy industry of the state, and could make the industry a major factor in increasing farm income, declared F. A. Buechel, assistant director of the University of Texas Bureau of Business Research, in a bulletin, just off the press.

Natural factors favoring a large dairy industry are the capacity of Texas land to produce an abundance of forage crops at low prices, ample supplies of water, and mild weather making winter grazing possible, Dr. Buechel reported. Unfortunately, development of this potential source of farm income has been hampered by the traditional one-crop system of Texas, he wrote.

The fact that Texas consumes more dairy products than are produced within the state is also significant," Dr. Buechel asserted. "It means that a substantial local market for dairy products already exists—a market that Texas farmers could supply if they would develop dairy resources."

Statistics on the Texas dairy industry today show the state lags behind the rest of the dairy states and is far below its own potentialities.

Figures quoted in the bulletin show Texas to rank fifth in the nation in the number of milk cows, but forty-fourth in volume of milk production per cow. The state ranks first in the nation in the making of "farm butter," that is, butter made on the farm and sold in nearby towns in small quantities. In the manufacture of higher-priced creamery butter, however, its ranks fifteenth.

**EVERY
MINUTE
COUNTS**

Be a Minute Man and
Make your Junk count

We Must Enter The Scrap

We of the Slaton Public Schools pledge ourselves to do everything possible to aid in the war effort and in staging this Salvage drive hope in a small way to make a worth while contribution. Any person having contributions to make can do so by phoning 170 and a member of the class you wish to favor will call or have a member of the class call to make arrangements to get the salvage to the salvage collecting grounds.

Any help you can give us in this effort will be greatly appreciated by the children who are taking an active interest in helping the cause. Funds collected from all salvage will be turned over to the Slaton Salvage Committee for distributions.
