#### Many Sheep Fed In County

Lubbeck county has nearly 8,000 sheep and of these 6,500 are now on full feed and several hunderd more are expected to be placed in feeding pens, D. F. Eaton, county agent said following a trip over the county to check up on feeding operations.

Most of the sheep are in the north part of the county south and west of Abernathy, W. G. Murray, Lubbock rancher, has the largest bunch, about 5,000 animals.

### **ANNOUNCES FOR** COMMISSIONER

Forney Henry, a long time resident of Slaton and Lubbock County, in an-nouncing as a candidate for Com-missioner of Precinct No. 2 makes the following statement:

"I have been a resident of Slaton and vicinity for 15 years and live on my farm about one mile south of the City Hall of Slaton.

To the Citizens of Commissioner Pricinct No. 2 Lubbock County, Texas. I was born and reared in the State of Georgia, and I have lived in Slaton for the past eighteen years. I have reared a family of two boys and one girl educating them in the Slaton schools. I have good substantial money in every institution in the town and Precinct, both schools and churches of whatsoever kind. My record as a citizen is open and above board from every angle, and in asking your support in my race for County Commissioner of Precinct No. 2, I do so with a clear consience from every angle. If elected, I promite yen only one thing which is a square deal to all conserned and that I will be commissioner of Precinct 2. I sm in favor of the Bryest rate of taxation, with the lowest possible valuation, the very best schools possible for the money evailable, the best system of lateral roads, the strictest economical expenditures of all money spent in instintialning the County Government, the reduction of all expenses, and I am strictly opposed to placing tax burdens tupon the people without their consent, I assure you that if elected, my vote at all times will be cast for the issues as stated in this notice.

Having assessed your taxes for the past two years. I am thoroughly

### Plains Ships Many Turkeys From Lubbock said 634 suits of all kinds had been filed in 99th and 72nd district

73 Carloads Handled in past Season, Each Averaging 20,000 Lbs. Prices Better

ar loads of turkeys, averaging 20, 000 pounds of dressed goods to the car, were shipped from Lubbock's trade territory during the 1931 season, according to the three whole\_ sale poultry dressing plans here.

The territory includes towns as far west-as Portales and Clovis; south to Sweetwater, east to Spur and Matador and north to Amarillo.

Shipping points Chief shipping points in this territ-

ory outside of Lubbock include: Amarillo, Plainview, Floydada, Spur Brownfield, Post, Lamesa and Sweet

The 73 cars averaged 20,000 lbs f dressed poultry, or 1,460,000 lbs At an average price of 19 cents, the turkeys brought \$277,400.

Poultry dealers reported a large number of farmers have held over dier." birds, either for sale in January and February or for a larger farmflock

Last year there, was a good sale of turkeys in January and February, lasting up into March. The market was equal to the holiday market and birds that wee not properly fattened out before January 1 were fattened later and sold for good prices.

Prices Were Higher

"Turkey prices this year were higher than last," W.T. Johnson of the Titman Egg corporation, explained. "I think the average price this year was five cents a pound greater than last year.

"I do not look for any higher puuls to get married first. Well----the cat try market than at present. I do know passed the closest to Miss Hull but the that farmers are making more in proportion on their poultry than they are on their cotton.

Some instances have been reported of where a car of turkeys sold on the eastern markets for less than the price paid farmers in this section for the live birds.

Local poultry houses gave employment to a large number of men and vomen for the dressing season, in addition to the regular force.

CHRISTIAN SCIENCE CHURCHES The lesson-sermon subject was

"GOD" in all Churches of Christ, Scientist, Sunday, January 3. The golden text was from Joel 2:27.

Ye shall know that I am in the midst of Israel, and that I am the Lord your God, and none else: and my people shall never be ashamed."

The passages read from the Bible included the following from Psalms 103:2,3. "Bless the Lord, O my soul, and forget not all his benefits: . . . Who forgiveth all thine iniquities; who healeth all thy diseases."

The service also embraced the following citation from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy (p. 166):

"To ignore God as of little use in sickness is a mistake. Intend of thrusting Him aside in times of bodily trouble, and waiting for the hour Southland, almost two hundred being of strength in which to acknowledge present. A splendid program was ren-Him, we should learn that He can do all things for us in sickness as in

4-Loyalty to God, by Thelma Poteet of Slaton.

5-Duet-Mrs. Jordan and Miss Corley The business meeting was held immediately after the program. The

next meeting is to be held at Wilson, on the afternoon of February 7th. The Junior Civic and Culture Club will meet at the Club House Tuesday

night, January 12th, with Thelma Poteet as hostess. In starting out te new year, Slaton's county librarian discovers that she has on hand a large number of

old fines, unpaid. The rules of the library require that all fines shall be paid before books are checked to the person incurring fines. The purpose of this rule is to in-

sure the prompt return of books to the library so that other people may read them. The librarian would always prefer to have the book back on time rather than to collect a fine for it, as the amount of fine money is not buying new books and supplies.

The librarian has always been rather lenient with those who made small fines by keeping books overtime. After the first of February, however, the library will start a new system of keeping fines, and positively no one will receive books until his or her fines are paid.

In order that everybody may have an equal chance all fines made before the first of January 1932, will be cancelled. So if you have been barred from reading by an old fine, come back to the library with a clean record and resolve to co-operate with your fellow readers by always bringing in your books on time.

If you have not yet brought back your books, and have been unwilling to do so because of a fine too large pay, bring the books in before Feb ruary the first and no fines will be charged. We need the books you are holding out. Somebody else wants to read them. We shall be glad to have them returned under any circumstan\_ ces, and if your friends or neighbors have library books in their homes, please see that they also are returned

FACTS, FLOSOPHY AND FOOLISHNESS

A nation with the resources of the United States that can't operate solvenly without depending on booze consumers to furnish the revenue to pay the necessary expenses and is not intelligent enough to be ashamed of itself, is in the highest sense of the word, not capable of self government. #### SALARY CUTS

Within the past year the cost of iving has materially decreased, but, of course, not in proportion to the difficulty of earning a livlihood. Industrial salaries and wages have in many instances been so sharply reduced that a bare and meagre existence is possible, while in thousands of other instances employes have taken out of service, due solely to adverse uncle, W. E. McAlister. economic conditions which rendered it imperative that financial and industrial businesses reduce overhead to a minimun in order to survive. Even then thousands of such businesses have failed.

Pretty generally, too, municipalities have reduced wages and salaries, a course proper and necessary in keeping with the general situation, the lower living cost and the dire distress of the taxpayers. School districts have done the same, for the same reasons. The income of everyone, employer and employe, has been greatly reduced, very greatly indeed, and in addition to all that, every property owner has sustained further heavy loss in depreciated sale and rental values. #### PATERNALISM

Paternalism is a baneful practice Americans fall into more and more ithout realizing it. Paternalism the opposite of democracy. It is opposed to the fundamental principles apon which our nation was founded. As we fall into paternalistic habit we more and more lose sight of those cherished tried and true principles of government which make us proud that ve are Americans.

What is Paternalism? Very briefly, it is the habit of turning to, looking to, and depending on the government and the public treasury for assistance habit of looking upon the government governmental partnership in private townsman, S. S. Forrest. vernment to do for us what we hould do for ourselves.

and is growing. Farmers look for and Years make the government an overlord, the subject a slave. It destroys not only the fact of rule by the peopleself government-but it unmistakably rule themselves.

Paternalistic practice and attitude on the part of the citizen is a confession of his own weakness and inefficiency. When you rail at governmental interference in private enterprise, and undue governmental regulation, you are then railing at paternalism, but when you agitate for farm relief legislation, for government dole in any form, for any sort of a benefit from the public treasury, for any form of class legislation, you are agitating against true American principles and for paternalism. Don't do it. Be yourself; be self reliant; be independent; be an individual; be a man; be an American! Paternalism is hair, bobbed hair, grey hair, brown, blonde and curly hair, long skirts, short skirts, hoop, harem, tight and loose skirts; many clothes, few clothes, gaudy clothes, plain not , of course do it knowingly; but

LIVESTOCK NEEDS

College Station-Success in raising livestock depends on planting croppink systems to give necessary feed pasture of the right kinds in the right amounts, declare livestock specialists of the Extension Service of Texas A. and M. Collège and the United States Department of Agriculture. In Circular 89 "Planning Texas Farming-1932" the feed requirements for various classes of livestock are listed as a guide to intelligent planting of crop acres. Attention is also called to farm demonstrations found in most parts of the State for examples of good livestock management.

When the doors open Saturday to Grand Central Palace, New York, Chevrolet will occupy the position on the show floor for the fifth consecutive year.

Each year the National Automobile Chamber of Commerce awards first place at the national show to the member company which has done the largest dollars volume of business in the previous 12 months.

The award is much coveted in the industry, because in addition to the distinction it conveys it also carries with it the right to first choice of exhibition space at the national shows in New York and Chicago.

Chevrolet first achieved the position of honor in 1928. Since then the company has consistently maintained its leadership.
