Freezing Order Rules Out Use Of Special Trains

WASHINGTON, Oct. 1 (AP)—Director Joseph B. Easton of the Office of Defense Transportation, today ordered "freezing" of all railroad passenger schedules and ruled the operation of special trains to football games, races and other sporting events. The order, effective October 4, restricts railroads to the existing passenger train schedules running on special schedules.

Farmers Told Hold Half Cotton

WASHINGTON, Oct. 1 (AP)—Farmers were advised by the Bankhead (D-Ala.) today that at least half of their crop from the market and to themselves a price of approximately 21 cents a pound. The new bill, the government loan will be increased by 5 percent of parity.

The new bill prohibits fixing of any commodity price below the highest price that such commodity reached from January 15 of this year. At that time, the price of cotton was around 20 cents a pound. The bill also makes it illegal to place a ceiling to be placed on cotton below approximately 21 cents a pound under any circumstances, but the OPA confirmed its position that the ceiling on cotton is not to be placed on raw cotton.

The bill also makes it illegal to place a ceiling to be placed on cotton below approximately 21 cents a pound under any circumstances, but the OPA confirmed its position that the ceiling on cotton is not to be placed on raw cotton.

Inspect Fire Bombs

Frank Williams of the M's firemen's school in Big Spring Thursday prepared to inspect a demolition of incendiary bombs at the station at 8 o'clock Thursday. The demonstration, open to the general public, will be held in city auditorium seating facilities at the station prove inadequate. Williams views America's preparation efforts with some alarm. He said the chemicals needed to put out fires caused by fire masks nor are we able to them," he added.

Boy's Curiosity Starts Train Fire

DENVER, Oct. 1 (AP)—A schoolboy's curiosity indirectly caused a fire that damaged the Union Pacific City of Denver as it raced 10 miles an hour through north-eastern Colorado Tuesday night.

Shipping Up To 481

The angle iron punctured the fuel tank of one of the train's diesel power units. Oil sprayed over five units of the train. A spark, believed from a brakeshoe, ignited the oil and the train burst into flames near Snyder, 110 miles east of Denver.

House Action On Inflation Bill Delayed

Revised Price Control Measure May Go To FDR Soon

WASHINGTON, Oct. 1 (AP)—Chairman Palmer (D-SC) of the house agriculture committee said today farm leaders in the house would accept the senate version of farm price control, thereby apparently clearing the way for completion tomorrow of congressional action on anti-inflation legislation.

WASHINGTON, Oct. 1 (AP)—Speaker Rayburn said today house action on the senate version of anti-inflation legislation would be delayed until tomorrow, to give members time to consider its provisions, and then the legislation probably would be sent to a joint house-senate committee to compromise differences.

War Output Is 'Spotty'

WASHINGTON, Oct. 1 (AP)—Chairman Donald M. Nelson of the War Production Board reported today that munitions output in September still was "spotty," indicating that the month's output of planes, tanks, ships and ordnance would not be closer to the goal than the August production record, which he has described as not a record "we can brag about."

Backed by an 82 to 0 vote in the senate, administration lieutenants sought an agreement with house members to the major features of a compromise senate version directing the president to stabilize prices, wages and salaries at Sept. 15 levels, so far as practical.

These observers, whose anonymity is required, expressed a belief that Hitler had already started withdrawing troops from inactive zones of the east to reinforce Marshal Rommel in Africa and the forces holding Italy, France and Norway against the prospect of an allied second front.

Willkie's Progress Is Kept Secret

CHUNGKING, Oct. 1 (AP)—Wendell Willkie's progress on his trip from Kulsheyer on Chungking is being kept secret in order to spare towns along the route from Japanese bombardment, authorities here have disclosed.

Theatre Drive Helps Put War Bond Sales Above The Quota

Patriotic Big Springs were suggesting Thursday that Howard county might accept an increased quota on its purchase of war bonds, as preliminary tabulations showed the county "over the top" again on September buying.

Army Calling For Bandsmen

If you're a qualified musician between the ages of 45 and 50, Uncle Sam can use you. A considerable number of vacancies now exists in bands of non-combatant units, and insofar as is possible, these vacancies are to be filled by the enlistment of men in the above age brackets who can otherwise meet the physical requirements and who are experienced bandsmen.

Done Yet, But USO To Open Saturday

Arrangements have been assigned and arrangements made to serve refreshments during the day to soldiers attending. Approximately a two hour job of carpentering is needed to put up the partition, Mrs. Bristol said, and if no labor is available again today the partition will be put up by volunteer helpers.

Reds Send Up Fresh Reinforcements As Stalingrad Faces Decisive Hour

President At Willow Run—This was the scene outside the Willow Run bomber assembly plant as President Roosevelt's car (foreground) passed a line of army bombers. (Official U. S. Navy Photo).

Nazi Troops Being Placed For Defense?

LONDON, Oct. 1 (AP)—Government observers closely following developments on Germany's eastern front today interpreted Adolf Hitler's speech yesterday as meaning that the Germans would make one more all-out attempt to take Stalingrad and the Grozny oilfields and then stabilize the front for the winter.

FDR Back From War-Plant Tour

WASHINGTON, Oct. 1 (AP)—The White House lifted a two-week censorship on the movements of President Roosevelt today and disclosed his return from an inspection tour of war factories throughout the country.

Ticket Sale Is Pushed For Artist Series

A group of Lions club workers met at the chamber of commerce Thursday morning at 9 o'clock to receive instructions for a drive being made by the club to sell season tickets for a series of eight programs to be given by such notables as Percy Grainger, Burton Holmes, Francis White, and other celebrities of the stage, screen and radio.

Goebbels Bids For Neutrals' Help

BERLIN (From German Broadcasts), Oct. 1 (AP)—In a warning addressed to the neutral states of Europe, Propaganda Minister Paul Joseph Goebbels declared today that "whoever wants to have a share in the advantage of the new Europe must shoulder also a part of the sacrifices and burdens."

Elevator Operator Injured In Fall

A fall of ten feet down an elevator shaft at the Settles hotel resulted in a fractured back and bruised ankle for Alice Sanders, operator, Wednesday.

Million School Students To Go On Texas-Wide Hunt For Scrap Metal

AUSTIN, Oct. 1 (AP)—Texas school children—more than a million of them—will take on their biggest wartime assignment next week. Commissioned as Junior Texas Rangers, the pupils will scour their communities for scrap metal, a major phase of the Texas newspaper scrap drive now under way.

Army Calling For Bandsmen

GEN. MACARTHUR'S HEADQUARTERS, Australia, Oct. 1 (AP) Capt. Charlie Faletta of (route 2) Denis v. Tex., who dived his fighter plane into a formation of nine Japanese fighters to protect an American bomber, today was awarded the Distinguished Service Cross for "extraordinary heroism."

Stalin Gives Own Orders To Yield No More

Defenders Reported Successful With Counter Strokes
BY EDDY GILMORE
MOSCOW, Oct. 1 (AP)—Backed up by a stream of reinforcements from across the Volga and barracks from the roving guns of the Volga flotilla, Russian infantrymen under fresh, telephoned orders from Joseph Stalin to yield no more were reported crunching forward today northwest and southwest of Stalingrad.

Yanks Pursue Japanese In New Guinea

Australian troops were reported in close pursuit of retreating Japanese forces in New Guinea today after a swift 10-mile advance up the slopes of the Owen Stanley mountains, while in another sector of the Pacific war theater the Tokyo radio declared that winter had already gripped the Aleutian islands.

Dakar Moving Out Civilians

VICHY, Oct. 1 (AP)—An official source said today that Pierre Boulson, governor of Dakar, had ordered to evacuate European women and children from the French West African port.

Dakar Moving Out Civilians

The announcement said that Boulson issued an order Sept. 29 for a census to be taken among women and children of civilian and military families which have two or more children living in the Dakar region.

Dice Game Lookouts Fell Down On Job

One negro gambler is at a loss to understand how police were able to detect and arrest him along with his dusky companions who were caught rolling dice, which he caught up? he queried officers as he and fellow crap shooters were being transported to the city jail. "We had look-outs on every corner all around the block."

Dice Game Lookouts Fell Down On Job

Police didn't bother to explain, but admitted that colored watchmen were stationed at strategic positions around the block where the house in which the look-outs were caught was located.

Dice Game Lookouts Fell Down On Job

Somewhat of a record was set as 25 unwelcome guests of the law were served at the jail this morning. The gamblers, 13 in all, were released on \$100 bail.

Last Program of Week of Prayer Held At Church

Concluding program of week of prayer for state missions was held at the First Baptist church Wednesday night with the young people in charge of the meeting.

Eva Jean Ataway was soloist and Christine Smith gave the devotion. Elva Ataway discussed work among Mexicans and foreign speaking people.

Prayers for missionaries were given and the Rev. P. O'Brien spoke on the importance of training young people.

An offering for state missions was taken and others present were Billie Wyatt, Leila Carden, Mrs. Chester O'Brien, Mrs. Sherman Smith, Mrs. Theo Andrews, Mrs. J. E. Brigham, Mrs. Nat Shick and Lillian, Mrs. Charles Sullivan, Mrs. Lina Lewellen.

Mrs. Jay Johnson, Mrs. Inez Lewis, Mrs. B. Reagan, Mrs. Homer Ward, Mrs. George Williams, Mrs. J. B. Harrison, Mrs. R. V. Hart, Mrs. A. J. Cain, Mrs. Stewart Womack, Mrs. Frank Stewart, Mrs. W. J. Alexander, Mrs. Rhoda Taylor of Abilene.

Mrs. T. R. Adkins, Mrs. John Knott, Mrs. Irvin Daniel, Mrs. C. W. Norman and Mafy Frances, Mrs. Clyde Angel, Mrs. Vernon Logan, Mrs. C. E. Reid, Mrs. W. N. Winham, Sgt. Harris, Pvt. Rayford Morton, Robert and Richard O'Brien, Wayne Matthews.

Mr. and Mrs. K. S. Beckett, Mr. and Mrs. R. Richardson, Mr. and Mrs. M. E. Harlan, Mr. and Mrs. J. A. Coffee and Glenn, Mr. and Mrs. George Melear, Mr. and Mrs. W. R. Creighton, Mr. and Mrs. Billy Smith, Mr. and Mrs. C. A. Amos.

Kongenial Klub Is Entertained In D. A. Watkins Home

Zinnias and roses decorated the home of Mrs. D. A. Watkins when she entertained Wednesday for the Kongenial Klub.

Guests were Mrs. J. T. Morgan and Mrs. Wayne Pearce, who won high score.

Mrs. Bill Edwards won club high score and Mrs. Ollie Anderson received second high score. Mrs. R. W. Halbrook binged.

Refreshments were served and others playing were Mrs. C. S. Edmunds and Mrs. Escal Compton. Mrs. Anderson is to be next hostess.

Pull the Trigger on Constipation, with Ease for Stomach, too

When constipation brings on discomfort after meals, stomach upset, bloating, dizzy spells, gas, coated tongue, and bad breath, your stomach is probably "crying the blues" because your bowels don't move. It calls for Laxative-Senna to pull the trigger on those lary bowels, combined with Syrup Pepsin for perfect ease to your stomach in taking. For years, many doctors have given peptic preparations in their prescriptions to make medicine more agreeable to a touchy stomach. So be sure your laxative contains Syrup Pepsin. Insist on Dr. Caldwell's Laxative-Senna combined with Syrup Pepsin. See how wonderfully the Laxative-Senna wakes up lazy nerves and muscles in your intestines to bring welcome relief from constipation. And the good old Syrup Pepsin makes this laxative so comfortable and easy on your stomach. Even fussy children love the taste of this pleasant, family laxative. Take Dr. Caldwell's Laxative-Senna combined with Syrup Pepsin, as directed on label or as your doctor advises, and feel world's better. Get genuine Dr. Caldwell's.

Ensign Pickle Weds Austin Girl In Rites At Methodist Church

In a ceremony read Tuesday evening at 8 o'clock at the University Methodist church of Austin, Ensign Pickle, daughter of Judge and Mrs. Richard Critz of Austin, became the bride of Ensign James Jarrell Pickle, son of Mr. and Mrs. J. B. Pickle of Big Spring.

The Rev. Edmund Heinsohn officiated at the ceremony. The bride, who was given in marriage by her father, wore a gown of white satin made with a long waistline and full skirt extending into a long train. The high round neckline was formed by a yoke of marquisette outlined in seed pearl embroidery. The veil fell in cascades of illusion, full length over the train, from a regal-shaped coronet of real lace.

She carried a semi-colonial arrangement of white starlight roses and stephanotis tied with white satin. Showers of stephanotis fell from the bow.

Mrs. J. T. Atkin of Georgetown, sister of the bride, was matron of honor. Bridesmaids were Len Mewhinney of San Antonio, Marjorie Ransom of Austin and Judith Pickle, sister of the bridegroom, of Big Spring.

Attendants wore gowns of white Duchesse satin with the fitted bodices edged at the sweetheart neckline and the hips with small box pleated ruffles and accented with small satin covered buttons down the front of the bodices.

The bridegroom's attendants were his brother, Joe Pickle of Big Spring who was best man, Mack De Guerin of Austin, Ensign Edward Syers of New Orleans, W. S. Birdwell of Austin and Lieut. Thomas Beasley of Austin, ushers.

Reception at the home of the bride's parents followed the ceremony. Mrs. J. B. Pickle, mother of the bridegroom was dressed in a black dinner gown with gored skirt and V-neck. Her corsage was of gardenias.

Ensign and Mrs. Pickle left after the reception for a trip to Ensign Pickle's official station.

For traveling the bride wore a dusty blue costume suit trimmed in grey fox fur. Her corsage was a gloriol orchid.

Mrs. Pickle was graduated from the University of Texas with a B.B.A. degree. She is a member of Delta Delta Delta sorority, of Cap and Gown, Curtain club and of the Cotillon club. Until the first of September she was secretary of public relations in the University of Texas.

Ensign Pickle, son of Mr. and Mrs. J. B. Pickle of Big Spring, received his B.A. degree from the University of Texas and had two years in the law school. He was president of the student body, president of Delta Theta Phi and a member of Friars, honorary men's fraternity.

Among out of town guests were Mr. and Mrs. J. B. Pickle, Mr. and Mrs. Joe Pickle, and Judith Pickle, all of Big Spring.

Mrs. C. M. Shaw received word this week that her daughter and husband, Cpt. and Mrs. Maurice Grove of Camp Berkeley, Abilene, have been transferred to Cambridge, Mass., where he will receive six weeks training in chaplain's work. Cpt. Grove has been a chaplain at Camp Berkeley and has just recently been promoted to captain from first lieutenant.

Mr. and Mrs. Al Munkle have returned from a few days vacation at Port Aransas.

Miss Laneous Notes

We're going to do some inward chuckling and experience some unholy glee around November 22nd when gasoline is distributed via an eye dropper to motorists. There's going to be some mighty groaning and taking on by the drivers who only set their feet on the ground to get from car to door and back again.

Imagine the protesting muscles that will have to limber up to carry around the people who have been sitting in cushioned cars ever since they've had the price of a down payment.

There are some, we think, who'll still go through the motions of shifting gears when they come to the foot of a hill. Habit will be strong for them to break immediately.

There will be some, we think, who will try to "bluff" another walker out of position at cross roads or who will turn corners at an angle for near collisions with other pedestrians.

It's been open season on walkers for years and every motorist has taken his turn in seeing how close he could come to scaring a walker to death without quite killing him. It's going to be hard for these folks to give up their fun.

We know the hazards of walking since we've been putting one foot down in front of the other as our means of transportation for years. We shall smirk while we watch others learn.

Forty-Two Club Meets In Harper Home For Games Wednesday

High scores were won by Mrs. Claude Wright and Mrs. Bob Cochran when members of the Around Forty-Two club met Wednesday in the home of Mrs. Jim Harper.

Guests were Mrs. R. G. Foss and Mrs. M. E. Byerley, Jr. Refreshments were served and Mrs. Grady Jones was named as next hostess.

Others playing were Mrs. N. J. Allen, Mrs. Guy Mitchell, Mrs. Max Welch, Mrs. D. S. Orr.

Justamere Club Has Bridge Session Wednesday Afternoon

Members of the Justamere club met Wednesday in the home of Mrs. J. B. Young for games and refreshment hour. Mrs. E. O. Ellington won high score.

Mrs. M. H. Bennett was named as next hostess and others present were Mrs. H. W. Leeper, Mrs. Bennett, Mrs. A. V. Karcher, Mrs. R. C. Strain, Mrs. Lee Hanson, Mrs. J. Y. Robb, Mrs. Carl Blomsheld, Mrs. V. Van Gleason, Mrs. Cal Boykin.

Past District President Talks Before Parent-Teacher Leaders On Work of Units During War

Women To Have Fewer Bobby Pins And Hair Pins To Use Next Year

The War Production Board has told America's 40 million women that they will have to get along with one bobbin or hairpin in 1943 for every four they had in 1941. It was pointed out, however, that with proper conservation measures the available supply should be sufficient for all needs.

In a further move to cut down on the use of steel in the manufacture of hairpins and bobbins, the WPB amended order L-104 to restrict manufacture of the pins to a rate equal to 25 per cent of 1941 production. The amendment becomes effective immediately. The original order, issued April 23, had already cut production by 50 per cent.

Compared with 1941 consumption, approximately 5,700 tons of steel will be saved as the result of the curtailment. In 1941, over 7,000 tons of steel were used in the industry, with consumption divided about equally between high-carbon and low-carbon steel. Under the new production cut, 1,900 tons of steel will be used in manufacture of pins next year.

It is estimated that the WPB action will provide slightly less than one package of pins for every woman in the country during 1943. In 1941, 40 million women bought about 140 million cards and packages of bobbins and hairpins.

Conducts School Of Instruction

Declaring that parent-teacher officers and members are working in the community and that each P.T.A. unit will prove its right to survive by achievement, Mrs. L. G. Byerley, of Midland, past district president, conducted a School of Instruction for local Parent-Teacher Association officers and members Wednesday afternoon at the First Presbyterian church.

Mrs. Byerley, who was introduced by Mrs. J. T. Brooks, council chairman, pointed out that the parent-teacher association had its biggest job in its 45 years of existence in protecting children now in school.

She urged war on waste and saving on time, energy and emotions and asked that children be helped in being taught first aid, water safety, home nursing, sewing, and salvage drives.

The chains of the organization are so closely linked, Mrs. Byerley said, that when one member falls at her job, it weakens the whole chain. Work with the Red Cross and the USO was urged by the speaker who cautioned members "not to worry—where the praise goes," but to do the job.

Work of the city council in uniting the efforts of all local P.T.A. units was urged by Mrs. Byerley who declared that strength lay in uniting and cooperating and in passing on knowledge gained through each leader's experience.

The state convention in Houston on November 18th and 19th and the district conference in San Angelo in April were announced by Mrs. Byerley who declared that some representation at each meet-

Country Assigned Man Without One

STOCKTON, Calif. (AP)—Investigating a collision between two trucks, highway officers found a

man huddled in the back of one, minus draft registration card or any other means of identification. Questioned, he gave the name of Emil Tore, said he had worked twenty years for a Chinese farmer, didn't know his nationality

and had never heard there was a war going on. Because of his oriental cast of features, officers held him on suspicion of being Japanese and subject to internment.

Turkish Tobacco Grown In California

FRENO, Calif. (AP)—Turkish tobacco, normally imported at the rate of 60,000,000 pounds a year

for blending with the domestic crop, is now being grown in California. Originator of the project is N. S. Labanas, a Greek born in Turkey and engaged in tobacco culture before coming to this country. With war cutting off

shipments from abroad, he looks forward to a good demand.

Most notable of the Texas stone resources are the granites of the Burnet-Llano and Trans-Pecos areas.

Marble is found throughout limestone areas in Texas, a large amount of which is adaptable to interior and exterior construction purposes. Much of the limestone and marble of Texas is of rare beauty.

Montgomery Ward

Area's First District Judge To Be Honored At Bar Meet

Friday night, at the annual meeting of the Seventeenth Judicial District Bar association in Big Spring, lawyers of West Texas will pay tribute to the memory of the first district judge to serve the counties of the district and the surrounding counties.

The late William Kennedy was the first judge of the 17th judicial district which his day extended from Sweetwater to the counties west of the Pecos river.

A painting of the late jurist will be presented at the meeting and later placed in the courthouse here.

Hon. Ed W. Smith, chief justice of the court of civil appeals, San Antonio, and Mrs. Smith who is a daughter of Judge Kennedy, are to be present at the meeting. Another daughter, Mrs. Ellis Douthitt, of Abilene has been invited to attend the special program.

Chief Justice W. P. Leslie of the Eastland court of appeals is to deliver an address on the subject: "When I Was County Attorney of Ector County." Judge Leslie formerly lived in Odessa and knows the history and progress of West Texas.

Bar members and members of the judiciary through this area of West Texas are invited to attend the meeting. A banquet will be served at the Settles hotel at 8 o'clock. The ladies are invited.

District Bar President Cecil C. Collings will preside at the meeting. It is announced by District Bar Secretary Thos. J. Pitts of Odessa.

War Board News

A weekly column contributed by members of the Howard county USDA War Board.

A worthwhile slogan: **"Eat It Up Wear It Out Make It Do Or Do Without"**

Make-Over Clothes Becoming Order Of The Day

By FONTILLA JOHNSON
Co. Home Demonstration Agent.

So many changes are being made in clothing these days that sometimes it is hard to know what our next suit or dress will look like. Of course civilians are willing to give up trousers cuffs or patch pockets to help win the war.

One sure thing about clothing is that it is patriotic to make over clothing and wear what we have on hand. No new metal or plastic zippers can be made so good care should be taken of old ones. The War Production Board has announced that zippers from old clothing can be salvaged and sold.

The navy needs silk for powder bags so everyone is urged to save old silk hose until they are called for. Old nylon or rayon hose cannot be reclaimed for powder bags. As all wool materials and garments will soon be a thing of the past, excellent care should be given all woolsens.

for fertile eggs thereby reducing the number of chicks hatched. These infertile eggs are also ruined for market after staying in the incubator for a week.

Care should also be taken in selecting the roosters to be mated with the hens. Roosters in healthy vigorous condition, with deep broad body will ordinarily guarantee a higher per cent of fertile eggs than weak slender bodied birds.

About one rooster for each ten or twelve hens should be selected at the first of the season. This will be sufficient to make allowances for the possible loss of some roosters during the hatching season.

In addition to carefully selecting the hens and roosters, the flock should be comfortably housed and well fed.

It's Not Too Late To Join In The War On Rats

By O. P. GRIFFIN
County Agent.

It is not too late to join with your neighbors in poisoning the rats on your farm. You can provide your own bait, prebait on the 6th or 8th and order poison to be delivered to your Neighborhood Leader on the 8th and 9th. It is too late to order baits. You can provide these however. At least two kinds of baits should be used and they should be different to any baits exposed during the past month or two on your premises. Ground meat of any kind is good. Bread and milk made into a thick mush makes an excellent bait. In prebaiting make the baits small so as to not overfeed the rats.

If you order poison, barium carbonate will be delivered to you. The poison has to be mixed thoroughly with the bait; therefore ground bait or bait that can be made into a mush must be used.

Don't forget to prepare places to expose bait to cats, dogs and chickens cannot get to it. These places should be prepared several days before the date for exposing poison bait so the rats will get used to them.

If you aim to order poison, give your order to your Neighborhood Leader this week.

Increased Poultry Demands Call For New Planning

Secretary of Agriculture Wick announced last week that the poultry raisers of this country are faced with the necessity of producing two hundred million more head of poultry this winter and next spring than was produced during the same period last year. This represents a large increase over normal production since there was about a 15 per cent increase in production over normal this year.

Since new equipment in form of houses, incubators and brooders will be limited, it will be necessary to make full use of all available equipment. In other words, start the hatching season earlier this fall and run longer next spring.

Poultry men who plan to sell hatching eggs should start selecting their laying hens and roosters now. Greater care should be taken in selecting the hens in order to guarantee the high fertility of eggs going to the incubator.

When a high per cent of infertile eggs go into an incubator, they take up space that could be used

MONEY IN THEIR MADNESS

FRESNO, Calif. (AP)—You can't blame Norma Qusenberry for getting a bit confused. Three months, all in a hurry, made purchases in her candy shop and fished \$1, \$10 and \$20 bills on her. When change was made and the men gone she was \$10 short. Police believe it was a planned swindle.

Livestock Volume Largest Since August 12th

Stocker cattle showed some strength Wednesday as the Big Spring Livestock Commission weekly sale hung up its biggest dollar and head volume since the record day on Aug. 12.

Some 650 head turning over during the day brought \$37,000. There was an unusually large number of Jersey and other milk cows run through the ring, some going for canners and others and some for dairy purposes. Prices on these ranged from \$46 to \$95 a head.

Canners and cutters moved out at 4.50 to 6.50, about a cent and a half weaker on the top than in recent weeks. Bulls were steady at \$50 to \$90. Good butcher cattle were steady and strong at \$9.50 to \$11.00, and ordinary butchers drew down \$8.00 to \$9.50, continuing the trend of weeks.

Stocker steers were half a cent up on the top side in going from 12.00 to 14.00 and with good ranges to put these on, there was a firm demand.

Meet The Bombardiers

Sketches Of Cadets Stationed At BSAFAFS

They're from distant Atlantic states, too, these cadets who're studying to be bombardiers at the Big Spring flying school. Here, with sketches of some more of the lads, and others will appear in subsequent issues of The Herald.

New Jersey

Dickinson high school in Jersey City sends us two of her best graduates. There's Steve Dabrowski, one of the flashiest track men, known as "Steve the Speed Merchant", and Louis Bertin, the basketball boy. Incidentally, a French cruiser "Esmille Bertin" was named after his great-grandfather, a famous French politician.

Johnny Geddes, a Williams & Mary college grad, hails from Egg Harbor City. Johnny tells us he was just average in basketball and baseball. But we know better. Montclair Academy sends us her football captain, George Buttel, who tells us that his favorite hobby is loafing and his civilian occupation is Playboy. Ought to make a good bombardier.

John Davies is an engineer from the Casey Jones School of Aeronautics. He's a Plainfield boy who goes in for football and ice hockey. Charlie Blampied is an Oberlin College lad from Leonia. He's a chess fiend who admits that a an amateur boxer he could never manage to fight his way out of the well-known paper bag. But we wouldn't want to bet on it.

The last one of these Jersey boys takes care of our banking section. He's Warren Carpenter, a graduate of the American Institute of

Manhattan, Salvatore Casarelli, an orchestra leader from White Plains, Arthur Carney is a hotel clerk from Tuckahoe, and Arthur Adler is a traveling salesman from Brooklyn who has lost 11th in the Dodgers.

A chemist from Pratt Institute is Charles Delaney who hails from the rock-bound town of Kingston. Byron Beasley is a Brooklyn boy who studied baseball at Randolph-Macon College in Ashland, Virginia, and Stan Dahlquist is a Brooklyn accountant who can save you money on your income tax.

The seven and one-half million tons of sand and gravel produced annually in Texas is valued at approximately \$3,800,000.

BACKACHE, LEG PAINS MAY BE DANGER SIGN Of Tired Kidneys

If backache and leg pains are making you miserable, don't just complain and do nothing about them. Nature may be warning you that your kidneys need attention.

The kidneys are Nature's chief way of taking excess acids and poisonous waste out of the blood. They help most people pass about 3 pints a day.

If the 15 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start backaches, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages of bladder, Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 60 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills

YOURS! With Every Package! LOVELY TABLEWARE!

Now, get a double bargain when you buy delicious Mother's Oats Premium Package First, a wonderful bargain in the extra healthful benefits of America's Super Breakfast Food! And, an extra bargain in smart, beautiful tableware — yours with every package! Start now to build a complete set! And remember, oatmeal leads all other whole-grain cereals in body-building Protein! It's "triple-rich" in the "anti-fatigue" Vitamin B₁. Rich in food-energy! In Phosphorus, for strong bones, teeth! In Iron for rich, red blood! Cotton Season At Peak In Dawson

LAMESA, Oct. 1. — Dawson county's cotton season is now at its height with fields over the county white with unplucked cotton, and thousands of bales piling up at gins and warehouses. To date, 6,000 bales have been ginned in the county, C. E. Tarter, chairman of the A. C. A. committee, has estimated. Some 85,000 bales are expected in the county by the end of the season.

This far, labor has been sufficient to handle the crop, with Mexicans coming to the county from South Texas and other points. If sufficient means are obtained for hauling cotton from the fields to the gins, then the season will be one of the most productive and successful in the history of the county. There are extensive iron ore deposits in East Texas and appreciable amounts apparently in the Burnet-Llano area.

Menus For Your Approval

By MRS. ALEXANDER GEORGE. A Peachy Dessert. Cook vegetables in as little water as possible. Never add soda to cooking vegetables as that would cause vitamin loss.

Oven Dinner For Four. Ham Stuffed Tomatoes. Baked Carrots. Bran Muffins. Butter or Fortified Margarine. Celery. Shortcake Peacherino. Coffee.

Ham Stuffed Tomatoes. (Other cooked meat can be used) 4 firm unpeeled tomatoes. 2 1/2 cups chopped ham. 1 cup soft bread crumbs. 1 tablespoon minced onions. 1 tablespoon minced green pepper. 1 teaspoon minced parsley. 1-4 teaspoon celery seed. 1-8 teaspoon pepper. 2 tablespoons butter, melted.

Heat fat in frying pan, add onions, celery, peppers and corn and simmer 5 minutes. Add cube dissolved in milk. Cover and simmer 10 minutes. Uncover and add rest of ingredients. Boil 2 minutes and serve.

Apricot Cheese Pie. 1 baked pie shell. 3 tablespoons flour. 1-4 teaspoon salt. 1 cup canned apricot juice (sweetened). 2 cups canned apricots (or dried cooked). 2 tablespoons butter. 1-2 teaspoon lemon extract. 2-3 cup cottage cheese.

Mix flour with salt, slowly add juice. Cook, slowly stirring constantly until thick and creamy. Add apricots and butter. Cool and add extract. Chill. Pour over chilled cheese spread or pie crust. Chill until served.

Orange juice will lose some of its vitamin content upon standing an hour or longer. So it is advisable to squeeze it as needed. To sterilize jars and lids, place them on a cloth in a kettle. Cover by 6 inches with cold water. Slowly bring to a boil and boil 20 minutes.

Substitute For Meat. Corn syrup is about half as sweet as sugar. When it is used in beverages (chocolate), puddings, sauces and desserts, any other liquid called for in the recipe should be reduced one-fourth.

Meatless Dinner Serving Three. Corn Country Style. Buttered Cabbage. Wholewheat Bread. Grape Butter. Fruit Salad with French Dressing. Apricot Cheese Pie. Coffee or Milk.

Corn Country Style. 4 tablespoons butter, fat. 2 tablespoons chopped onions. 1-4 cup diced celery. 1-4 cup chopped green peppers. 3 cups cooked corn. 1 beef bouillon cube. 1-2 cup hot milk. 1-8 teaspoon salt. 1-4 teaspoon paprika. 1 teaspoon minced parsley.

Heat fat in frying pan, add onions, celery, peppers and corn and simmer 5 minutes. Add cube dissolved in milk. Cover and simmer 10 minutes. Uncover and add rest of ingredients. Boil 2 minutes and serve.

Apricot Cheese Pie. 1 baked pie shell. 3 tablespoons flour. 1-4 teaspoon salt. 1 cup canned apricot juice (sweetened). 2 cups canned apricots (or dried cooked). 2 tablespoons butter. 1-2 teaspoon lemon extract. 2-3 cup cottage cheese.

Mix flour with salt, slowly add juice. Cook, slowly stirring constantly until thick and creamy. Add apricots and butter. Cool and add extract. Chill. Pour over chilled cheese spread or pie crust. Chill until served.

Orange juice will lose some of its vitamin content upon standing an hour or longer. So it is advisable to squeeze it as needed. To sterilize jars and lids, place them on a cloth in a kettle. Cover by 6 inches with cold water. Slowly bring to a boil and boil 20 minutes.

35-MPH Speed Limit Goes In Effect Over The Nation

WASHINGTON, Oct. 1. (AP)—A wartime speed limit of 35 miles an hour for privately owned automobiles went into effect throughout the nation today but with enforcement methods varying from imposition of strict penalties in some states to appeals to patriotism in others.

Menus For Your Approval. By MRS. ALEXANDER GEORGE. A Peachy Dessert. Cook vegetables in as little water as possible. Never add soda to cooking vegetables as that would cause vitamin loss. Oven Dinner For Four. Ham Stuffed Tomatoes. Baked Carrots. Bran Muffins. Butter or Fortified Margarine. Celery. Shortcake Peacherino. Coffee. Ham Stuffed Tomatoes. (Other cooked meat can be used) 4 firm unpeeled tomatoes. 2 1/2 cups chopped ham. 1 cup soft bread crumbs. 1 tablespoon minced onions. 1 tablespoon minced green pepper. 1 teaspoon minced parsley. 1-4 teaspoon celery seed. 1-8 teaspoon pepper. 2 tablespoons butter, melted. Scoop out tomatoes and reserve the pulp for some food later. Mix rest of ingredients and carefully stuff the tomatoes. Arrange in shallow pan and add 1-2 inch boiling water. Bake 25 minutes in moderately hot oven (375). Shortcake Peacherino (Calling for sour milk) 2 cups flour. 2 1/2 teaspoons baking powder. 1-2 teaspoon salt. 1-2 teaspoon soda. 2 tablespoons sugar. 4 tablespoons fat. 1-2 cup sour milk or buttermilk. Mix flour, baking powder, soda, salt and sugar. Add fat, mixing with knife or fork. Add milk slowly and pat out greased baking pan until dough is about 1-2 inches thick. Bake 20 minutes in moderate oven. Split with 2 forks (never cut hot shortcakes or they will become soggy and heavy). Add the peaches. Peaches. 3 cups sliced fresh canned peaches. 1-4 cup sugar (omit if canned peaches). 1-2 teaspoon cinnamon. 1-4 cup broken nuts. Mix ingredients and use 2-3 for filling. Replace top layer of shortcake and cover with rest of peaches. Orange juice will lose some of its vitamin content upon standing an hour or longer. So it is advisable to squeeze it as needed. To sterilize jars and lids, place them on a cloth in a kettle. Cover by 6 inches with cold water. Slowly bring to a boil and boil 20 minutes.

KATE SMITH says: "Lookin' for a different way to start the day?" Then this new Apple Coffee Cake was just made for you! Because it's got a cinnamon, brown sugar, warm-apple flavor that's wonderful! And the way to be sure this new treat is light, and tender and temptin' good, is to use dependable, double-acting Calumet. Try this recipe real soon...you'll love it! Apple Coffee Cake. 1 cup sifted flour. 1 teaspoon Calumet Baking Powder. 1/4 teaspoon salt. 4 tablespoons sugar. 4 tablespoons butter or other shortening. 1 egg, well beaten. 1/4 cup milk. 3 apples, pared, cored, and finely sliced. 2 tablespoons butter. 1/2 cup brown sugar, firmly packed. 1/2 teaspoon cinnamon. Sift flour once, measure, add baking powder, salt, and sugar, and sift again. Cut in shortening. Combine egg and milk; add to flour mixture, stirring until mixture is blended. Turn into greased 9-inch pie plate, spreading dough evenly. Cover surface of dough with butter and sprinkle with mixture of brown sugar and cinnamon. Bake in hot oven (400° F.) 35 minutes, or until apples are tender. Serve warm; serve with cream, if desired. Serves 8. (All measurements are level.) NEW!! BIG WARTIME ECONOMY SIZE-25 OZ. Navy Needing Medical Men. The navy is in dire need of men for the medical corps. L. D. Ridout, Jr., officer in charge of the U. S. navy recruiting station at Dallas notified the local recruiting station Wednesday. "We want," he wrote, "experienced men in pharmacy, hygiene, sanitation, medicine, first aid, and all related work. We have openings for hospital apprentices second class, with a base pay of \$54, to chief pharmacists mate, with base pay of \$126. We definitely need first-aid men, men nurses, pharmacists, embalmers, X-ray technicians, dental technicians, physiotherapy technicians, and laboratory technicians." Men, though they lack experience, will be seriously considered, the navy department said. Thomas D. Johnson, Lamesa, enlisted in Big Spring as a baker in the U. S. Navy Wednesday.

Colorado Supplies Four Army Recruits. Colorado City contributed four out of six men enlisting in the U. S. army at the local recruiting station Wednesday. John L. Reagan, Robert H. Kehley, Earl V. Jordan, and Victor D. Wood, all of Colorado City, joined the armed forces along with John B. Moore, Jr., of Lamesa, and Alvin C. Wood, of Ackerly. Indian service officials said Laguna and Zuni pueblos alone already had gathered more than 100,000 pounds of old wagon wheel rims, farming and old mining equipment, and 18,000 pounds of rubber. Texas is the leading carbon black producing state, accounting for about four-fifths of the nation's supply.

Airport Widows Have Program On America

Program on American Appreciation Hour was given for the Airport Widows Wednesday when members met for a covered-dish luncheon in the home of Mrs. F. V. Kinsey.

Mrs. Kinsey talked on the founding of American and Mrs. Paul Atkinson gave the history of the flag. Mrs. W. E. Grass spoke on communications and Mrs. Bill Edwards, Jr., discussed the privileges of American women as compared with those in foreign countries.

Mrs. W. H. Scott told the history of transportation and an open discussion on government, education and the war from its beginning to present day was held.

Mrs. E. E. John was present as a new member of the club. Mrs. C. L. Swagerty was named to be next hostess.

Club members discussed plans for the opening of the USO, center Saturday at 1 o'clock when they and the Music Study club members will act as hostesses and furnish refreshments.

Waste Fat Campaign Starts Monday; Grocers Will Accept At 4c A Pound

Big Spring was lined up to put new strength behind the waste fats collection beginning Monday, following a meeting of food market operators Wednesday afternoon with B. J. McDaniel, Howard county salvage chairman.

Beginning Monday, all meat departments will accept waste cooking fats from housewives, and have arranged for wholesale shipping, so that the supply gets into the war effort. The nation's need for waste fats is urgent. War in the Pacific has greatly reduced our supply of vegetable fats from the Far East, and substitutes are necessary in the making of glycerine, major ingredient of explosives.

Here are the simple rules for housewives to follow:

1. Save all your waste cooking fats after you've got all the cooking good from them. Save

pan drippings from roast ham, beef, lamb and poultry. Save drippings from steaks, chops, veal and bacon. Save deep fats, whether lard or vegetable shortening, from fried potatoes, fish, doughnuts, etc.

2. Pour into clean, wide-mouthed can. It is best to use a wide-mouthed container, as a coffee or vegetable shortening can. Be sure the fat is spotlessly clean. And strain the fats as you pour them in, so that meat particles and other foreign matter are removed.

3. Keep in refrigerator, or a cool dark place until you have collected at least a pound.

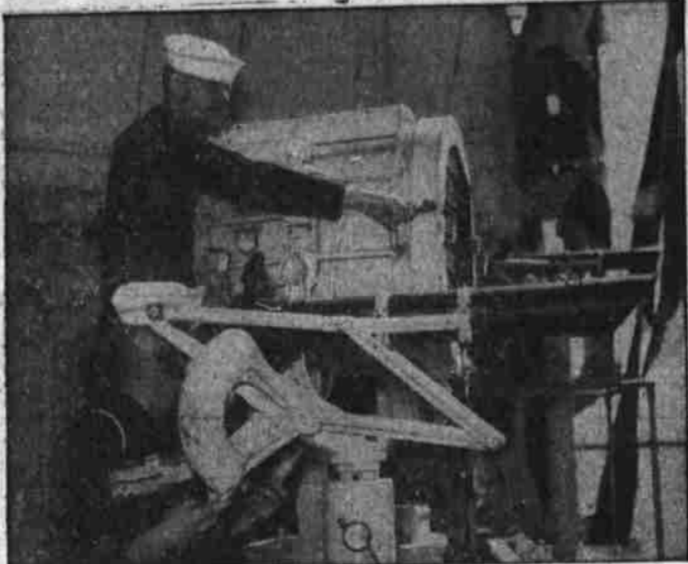

4. Take to your meat dealer who will cooperate. He will pay you 4c a pound for strained grease, 2c a pound for the unstrained. Do not bring your supply until you have at least a pound.

Interstate Oil Commission Meets

CHICAGO, Oct. 1 (AP)—The interstate oil compact commission, representing 12 petroleum producing states, today turned over its quarterly meeting to a study of the importance of natural gas conservation as a factor in the national economy.

The meeting, which will continue through Saturday, was the commission's first in Illinois, youngest of the state members in terms of oil production. The conferees attached national interest to their sessions because of the war which has necessitated rationing of fuel oil and gasoline and utilization of every national resource.

Authorities in the fields of oil, natural gas and allied industries were invited to address general sessions tomorrow and Saturday.

Senate Finance Chief Urges Speedy Action On Tax Bill

WASHINGTON, Oct. 1 (AP)—Calling for speed in the race against inflation, Chairman George (D-Ga.) of the senate finance committee today urged final passage of the new tax bill before the November elections.

The revised text, now in the hands of printers, will receive a final inspection by the committee tomorrow, George said. It would be called up for action in the senate Monday, or Tuesday at the latest. He foresaw only two or three days of debate, and said he hoped to have it in the hands of a joint senate-house conference committee the week of Oct. 12.

The tall Georgian saw the election as an aid rather than a deterrent to quick congressional approval. He pointed out that virtually all-house members and a third of the senators were up for reelection and would welcome a chance to go home a week or so

ahead of the balloting. The tax bill is the second volley of a three barrel broadside against the menace of what President Roosevelt has termed a "vicious spiral of inflation." The first fired yesterday, when the senate passed the administration's bill aimed at stabilizing wages and prices.

George warned that congress and the country must prepare for yet another anti-inflationary move—compulsory savings at the rate of about \$1,000,000,000 a month.

The finance chairman estimated roundly that the new tax bill would bring in an additional \$5,000,000,000 over a full year's operation, raising the total of federal revenue to some \$25,000,000,000.

He foresaw a certain amount of inflation as inevitable, even through compulsory savings are coupled with the heaviest tax load in the nation's history. This he said was likely because of the phenomenal rise in purchasing power occasioned by the wartime industrial spurt, and because of rapidly dwindling stocks of consumer goods.

Single-Variety Cotton Program Is Outlined

COLLEGE STATION, Oct. 1 (AP)—A program designed to encourage the growing of single-variety cotton by all planters in an area where production conditions are uniform was outlined yesterday at Texas A. and M. college.

During a joint conference of leading Texas cotton growers and cotton production specialists, Charles B. Ingram, agricultural marketing administration, Washington, said the program would assist growers in one-variety communities to obtain pure planting seed.

As a result, Ingram asserted, growers would realize increased acreage yields and standard production in large areas through elimination of a number of inferior varieties of cotton now planted.

The AMA would operate the program, with Texas extension service specialists and county agents carrying it direct to the farmers.

NICE WORK FOR DUCKS KINGFISHER, Okla. (AP)—Mr. and Mrs. Wayne Hubbard decided last year to raise Pekin ducks and started with two hens from which they raised 65 ducklings. This year the 67 ducks laid 2,500 eggs. Of these 885 were set by the Hubbards. Now their pens contain 630 ducks.

What You Buy With WAR BONDS

The aviation first aid kit is somewhat larger and more varied in its assortment of supplies than the regular first aid kit issued to every soldier. Complete, the aviation kit costs about \$5.

The purchase of a \$4 War Savings Stamp to supply one of these kits may save the life of an American aviator. Thousands of these kits are needed to equip our rapidly growing air force. Do your part. Invest at least ten percent of your income in War Bonds every payday. Join the payroll allotment plan at your store or factory, or buy War Bonds at your bank, postoffice or other issuing agent. Remember, for every \$4 you invest, you receive \$4 at maturity.

Russians Pile Up Wood For Winter Use

By HENRY C. CASSIDY

MOSCOW, Oct. 1 (AP)—Barri- cades of a new kind are rising in the streets of Moscow.

They are not the steel rails and earthworks which were put up a year ago against a German advance pressing close to the capital.

Instead they are piled logs, to be used as fuel against the cold of the coming winter.

Huge woodpiles are being stacked in the streets and squares by workers—mostly women—who are busy on the capital's "labor front."

They are none too early; already there is frost in the night air and winter soon will be on the city.

The labor front was recruited under a decree last Feb. 13 authorizing the government to mobilize able-bodied men and women with no children less than eight years old for war industry services. These include supplying fuel.

Another Kremlin edict last April 17 called up men between the ages of 14 and 55 and women from 14

to 50 for farm work. Thousands more were mobilized to cut and haul wood.

As a result there was a tremendous exodus to the country of city residents carrying knapsacks, saws and axes.

In forests for 200 miles about Moscow these recruits were assigned to cut two cubic meters of wood a day during the periods of mobilization, running up to four months. A cord of wood is 2.6 cubic meters.

Although perhaps 100,000 house- wives, students and others not engaged in war work joined the labor front.

Birth Of Daughter Is Announced

Mr. and Mrs. Max Odell Roberts announced the birth of a daughter born September 30th at the Big Spring hospital. The infant has been named Maxine. Mrs. Roberts is the former Maybelle Bly.

GOOD NEWS FOR MAILMEN

AZUSA, Calif. (AP)—With the regular postman in the navy, Mrs. Leonard Netley has taken the mail carrier's job, walking a long route in the morning and making RFD calls by car in the afternoon. "Believe me, it isn't any harder than keeping house," she reports.

Emery Nix A Double Threat Man For TCU

FORT WORTH, Oct. 1 (AP)—Football coaches agree that it takes a good running game to make a passing attack click.

Well, Texas Christian University appears to have the combination this season—all wrapped up in one guy.

Emery Nix of the blond hair and buggy-whip arm sets them up, then knocks them down with pitches dead to the pin.

Nix first gained attention when he stepped into the shoes of the injured Kyle Gillespie to pass Fordham groggy last season. He followed that up by 337 yards in the air against Baylor.

He reached full stature as a Southwest conference star, however, when he hurled the Frogs to victory over the mighty Texas.

But did you know that runs by Nix really get the job done—not passes?

Against Texas he raced 35 yards to set up the scoring pass with eight seconds to play.

Last week, as the Frogs opened the season against U. C. L. A., Nix came into the game in the waning minutes, ran 88 yards, then calmly passed to Don Krell for the winning touchdown.

Nix answers the question of whether he would rather run or pass with "I just like to play football."

That's certainly true. He proved it by returning to T. C. U. this fall after dropping out of school for the spring semester to straighten out some financial problems incident to becoming a father. He was married before coming to T. C. U. in 1942.

QUICK RELIEF FROM Symptoms of Distress Arising From STOMACH ULCERS DUE TO EXCESS ACID

FreeBook Tells of Home Treatment that Must Help or It Will Cost You Nothing

Over two million bottles of the WILLARD TREATMENT have been sold for relief of symptoms of distress arising from Stomach and Duodenal Ulcers due to Excess Acid— Poor Digestion, Sour or Upset Stomach, Gasiness, Heartburn, Stomachache, etc. due to Excess Acid. Sold on 15 days' trial. Ask for "Willard's Message" which fully explains this treatment—free—

Tips on How to IMPROVE Your Lighting

... without using vital war materials

In these days when metals are going into war products instead of new lamps, you can still improve your lighting without using vital war materials, and at little cost. Look over the list of suggestions below that may help you get more light:

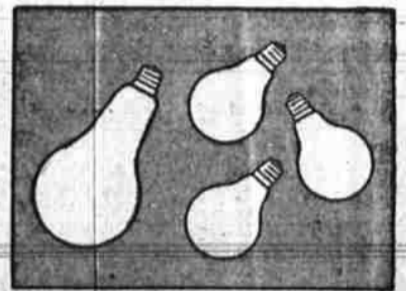

Keep Lamps and Fixtures Clean. Dust is a frequent cause of poor light. Keeping lamps and fixtures clean by regular washing of bulbs and diffusing bowls gives you up to 30 per cent more light.

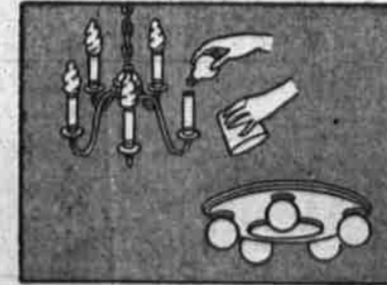

Change Blackened Bulbs to closets, back porches or other places where the amount of light isn't important, for they don't give as much light as new bright bulbs.

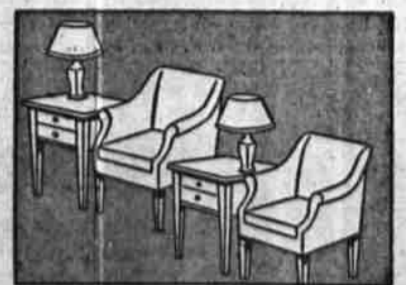

Replace Dark Shade Linings with white or very light linings to increase the amount of light reflected on the reading surface. Shades direct light where needed.

Use One Large Bulb instead of two or three smaller ones. One 150-watt bulb gives you more light than two 75-watt bulbs or three 50-watt bulbs, and uses no more current.

Eliminate Colored Bulbs, except for decorations. Replace flame-tint or amber-orange bulbs with inside-frosted bulbs which give you more light for the same amount of current.

Get Closer to the Light. If you shorten the distance between you and the lamp one-half, you increase by four times the amount of light on your book or papers.

KEEP SPARE FUSES on hand to save you time and trouble if a fuse blows. First, turn off the main switch and pull the cords out of wall outlets. Then replace the blown fuse, but don't reconnect any lamps or appliances suspected of having caused the fuse to blow out until they've been fixed.

Hitler Should Have Taken Villa's Cue—Waited Until After The Series

WASHINGTON, Oct. 1 (AP)—Ignoring Pancho Villa's astute precedent of 25 years ago, Adolf Hitler, clean-up man on the axis ball club, walked up to the American publicity plate and popped out yesterday.

Washington front pages showed that on the nation's news diamond, Pancho's Sportspalat speech at second fiddle to a hunk of bread out in St. Louis.

Series Game Has A Somber Note Of War

ST. LOUIS, Oct. 1 (AP)—Thirty-five thousand persons paid \$150,000 to see a baseball game that wasn't being played for them at all.

The spectators at the world series opener between the New York Yankees and the St. Louis Cardinals yesterday seemed to sense they weren't the fans for whom the teams were performing.

The game had all the normal trappings and pageantry—the band, the buffoon and the bustle—little of the usual tumult and shouting. The crowd was frequently silent and even its cheers lacked a full-throated, booming roar.

There was almost a feeling of why all this fuss over a ball game when a war is being fought.

If nothing else, a little sign told why.

A sign on the radio booth under the eaves of the grandstand roof, it read simply: "BBC British Broadcasting Corporation."

The sign's message was plain, without the sight of two army bombers winging low over the field. It said, in effect: This game is being played for American forces in the British Isles, for the navy on the seven seas, for the helmet-clad marines on Guadalcanal Island.

In their dressing rooms after the first war they're fighting, the Yankees were serious, the Cardinals somber.

Veteran Has Dream Game Blasted

By GAYLE TALBOT

ST. LOUIS, Oct. 1 (AP)—The picture of lion-hearted Red Ruffing, on the brink of World Series immortality, suddenly going to pieces and being pounded from the hill under a four-run assault by the ever-fighting Cardinals still was fresh in the minds of every man, woman and child who watched yesterday's thriller as the Yankees and the Cards prepared to clash in the second game at Sportsman's Park today.

It was a game, that first one, that will be remembered a long time. Those who saw it probably will forget the final score in time—7-4 for the Yankees—but they will remember how the 39-year-old Ruffing, within one out of a two-hit World Series shutout, had his dream shattered like a thunderclap from the blue.

Some thought the ninth inning deserved to rank in dramatic quality with the storied seventh frame of the final series game in 1938 when old Pete Alexander struck out Tony Lazzari, and with another wild inning in the '39 classic, when the Athletics scored 10 runs to overcome an eight-run Chicago Cubs' lead.

An important difference was, of course, that the rally failed to win yesterday's game for the Cards. Ruffing, too, received credit for his seventh World Series victory, a record unmatched by any pitcher, in spite of getting his ears knocked down at the finish.

But that blazing rally of the Red Birds might have an important bearing on the remainder of the series. As the Cards went in behind their great youngster, Johnny Beasley, to try to trim the Yankees today and carry the series all square into New York, they at least knew that Yankee pitching could be hit. Having blasted Ruffing, they probably stood in much less awe of Ernie Bonham, the Yankees' big forkballer, than they would have if Ruffing had humiliated them right to the end.

The youngsters really looked painfully weak while Ruffing moved them down for the first seven and two-thirds innings. They were over-anxious and obviously nervous, a perfect set-up for a cratty old stager like Ruffing to Red, whose fast ball isn't what it used to be.

Ruffing's first pitch to Stan Musial in the opening inning, with two Redbirds perched on base as a result of walks, was a slow ball on which Musial nearly broke his back. Up to the ninth inning, Captain Terry Moore was the only Cardinal who even looked like he might get a safety off the former coal miner.

Twice he had sent out pitchers chasing far back to pull down his drives before he came up with two down in the eighth inning and pumped a clean single into right field, the first hit off Red the tormentor.

In pitching seven and two-thirds innings of hitless ball, Ruffing, at least, smashed the previous World Series record of seven and one-thirds frames, held jointly by Herb Pennock and Monte Pearson, who were, of course, pitching for the Yankees when they did it.

St. Louis players and fans were surprisingly light-hearted about losing the opener. The town has a lot of solid confidence in the scrapping club that set such a searing pace to overhaul Brooklyn and win the National league flag. Roy Stockton of the Post-Dispatch said last night: "They won't feel natural until they've lost the first two games."

Many of the nearly 35,000 spectators had left the park when the Cards staged their amazing outburst in the ninth. They missed something that would have renewed their faith in their team. Starting with Walker Cooper's single that Red Rolfe tagged at third base but couldn't handle cleanly, the Red Birds slugged six hits, including a triple into the right-field corner by Shortstop "slats" Marion.

The bases still were loaded, the tying run on first, when Musial bounced to Hasset at first for the out that ended the game. Spud Chandler, figured as the probable Yankee starting pitcher in the third game at Yankee Stadium Saturday, finally had retired the side.

CHICAGO, Oct. 1 (AP)—Eddie Smith, the Chicago White Sox hard luck southpaw, will see how his fortune runs against National league opposition today as the Sox seek their second straight victory over their city rivals, the Cubs, 3-0.

Flying School Men Form New Bowling League

By The Associated Press

The football season is less than three weeks old yet only ten of the twenty Texas colleges playing the game remain among the undefeated, united teams.

The University of Texas leads the list with two victories, scoring 104 points and holding the opposition to a goose egg.

A schedule of fifteen games will probably cut the roster by several this week. Anyway, there is bound to be one less because two of those teams with unblemished records meet each other—Texas Christian and Arkansas.

Texas' record will be in serious jeopardy in far-away Evanston, Ill., against Northwestern while Southwest Texas State meets a tartar in Schreiner Institute, Texas Tech risks everything against Texas A. & M. and Rice tackles Louisiana State in games that appear most likely to contribute to the downfall of perfect marks.

The complete Texas college schedule for the week: Tonight—Southwestern vs. Allen Academy at Georgetown. Friday—Schreiner Institute vs. Southwest Texas State at Kerrville. Saturday—Texas Tech vs. Southern Louisiana Institute at Natchitoches, La. (night); Austin College vs. Southeastern State Teachers at Durant, Okla. (night); Texas Mines vs. New Mexico University at El Paso (night); Baylor vs. Oklahoma A. & M. at Oklahoma City (night).

Saturday—North Texas State vs. Hardin-Simmons at Abilene (night); Texas vs. Northwestern at Evanston, Ill. Texas A. & M. vs. Texas Tech at College Station; Rice vs. Louisiana State at Houston; Arkansas vs. Texas Christian at Fort Worth; Southern Methodist vs. Pittsburgh at Pittsburgh; Howard Payne vs. East Texas State at Brownwood (night); West Texas State vs. Arizona State of Tempe at Canyon (night); McMurry vs. New Mexico A. & M. at Las Cruces, N. M. (night).

Three games between service teams also are scheduled for Texas, all of them Saturday with Ellington Field meeting Randolph Field at Yoakum; Waco Army Flying School playing Corpus Christi Naval Air Station at Corpus Christi; and Lubbock Army Flying School tangling with Albuquerque, N. M., Flying School at Albuquerque.

SPORTS ROUNDUP

By HUGH FULERTON, JR. Wide World Sports Columnist.

NEW YORK, Oct. 1.—On the way out to St. Louis some of the boys were discussing the Cardinals' speed and Joe McCarthy asked: "What are they, a bunch of Ty Cobs on motorcycles?"

After the ninth inning yesterday, he probably figured the answer was "yes." . . . At that, we can't think of a much easier job than trying to second-guess Joe on the World Series. . . . He doesn't leave anything for you to do. . . . He picked Rufus the Red Ruffing to start yesterday instead of Bonham or some other young pitcher with a good record and for eight innings nobody could have done any better. . . . If it hadn't been for the ninth, old Rufus might have done better than Herb Pennock and Waite Hoyt in the 1938 and 1939 World Series openers against the Cards. They both tossed three-hitters.

ONE MINUTE SPORTS PAGE

Washington fans are boosting Joe Judge for the job of managing the Senators, but how about Lefty Gomez? . . . At least, he can speak Spanish. . . . Mickey McConnell, who helps run the Dodger farms, is one up on his boss, Larry MacPhail. . . . While Larry was talking about his army commission, Mickey enlisted and already is in uniform. . . .

HEADLINE HEADLINES

The Cleveland Plain Dealer didn't need to print the story about Danny Lithwiler's perfect fielding record this season after running the headline: "Lithwiler's only error was playing for Phila."

THROWN FOR A LOSS

When George Rado, Duquesne scout, was given the job of reporting on Kansas State's performance against Texas, he hopped a plane for Austin Friday night. . . . At Chicago he heard the bad news that priorities for the armed forces had taken all the space for the ride to Kansas City, so George had got on a train and went back to Pittsburgh. . . . It didn't matter much, as there wouldn't have been anything to report except the score—Texas 64, K-State 0.

Jinx Is On Team Losing First Two Series Games

ST. LOUIS, Oct. 1 (AP)—A victory in today's game is a must in the books of the record-minded Card fans. These followers point to the series history book which shows that no team ever lost the first two games of a 7-game series and then came back to win the world's championship.

About an hour before the first game started news reel cameramen asked the early customers to give out with cheers for a crowd picture. The fans waiting to get into the park yelped frantically, believing the game actually had started.

Double plays: Most writers believe this will be the last series featuring St. Louis, then would have held both the first and last of the classics. The original interleague contests were held here in 1885 with the Browns meeting Pop Anson's Chicago Colts. . . . The guys who perennially insist the Yanks be broken up will get their wish. No less than a dozen of the Bombers are in or plan to join the service.

Bowling League Being Organized

An eight-team men's Classic bowling league was organized Wednesday night at a meeting held in the Douglas hotel.

More bowlers are needed, however, according to "Shep" Shepherd, manager of Billy Simons' Bowling Lanes who requests that men interested in joining the league leave their names at the bowling alley.

The men will meet again at the alleys Monday night, Oct. 5 at 7:30 p. m. but it is undecided as yet whether play will begin at that time.

There are three service teams in the league, all sponsored by local business firms, and three other civilian teams have found sponsors, Shepherd said. Other sponsors are in prospect, he added.

Steers Refusing To Concede Their Game To Lubbock Friday

Inexperience may be an asset to the Big Spring Steers when they entertain the Lubbock Westerners here Friday evening.

They don't know enough to get scared; and what's more, they are nursing a pretty good idea of winning that game—and as a consequence, they might do it.

That seems odd with Lubbock holding a 7-6 victory over Odessa a couple of weeks back. Most fans in this area consider Odessa to have the powerhouse of district 3-AA and one of the strongest teams in West Texas. Last week Lubbock had to hustle hard and long to get a 6-6 tie with San Angelo.

From this the Steers, from Coach John Dibrall on down, figure that they can do anything San Angelo can do, and perhaps a little better. Contrary to all coaching customs, Dibrall has been openly defiant about conceding the game Friday to the more experienced and heavier Westerners. He doesn't say the Steers will win it, but he promises some surprises and asserts that "we're going to try to win it."

Most of his boys are in pretty good shape. Last week in the game with Claco three of the youngsters—Glenn Brown at

N. M. Gridsters Threaten Walkout If Game Changed

ALBUQUERQUE, N. M., Oct. 1 (AP)—If New Mexico University athletic authorities go ahead with plans to change the football schedule, they may find themselves without a football team.

Thirty-five of the players yesterday served notice they would walk out if the school dropped the November 21 game with Loyola of Los Angeles and substituted a rematch with the Albuquerque Army Air Base.

New Mexico opened its season with a 7-5 victory over the army eleven. The players said the school had nothing to gain by a return game.

Texas Sets Hot Scoring Pace

COLLEGE STATION, Oct. 1 (AP) The University of Texas is up to the same tricks that made the Longhorns of 1941 the terrors of the Southwest—for most of last season.

The first batch of official statistics released by Texas A. and M. college shows Texas with 994 yards running and passing in two games—an average of 497 per game.

Again the Longhorns are terrific on the ground with 838 of those yards made by rushing.

Linemen Help Make Up A Team, Too

CLEMSON, S. C., Oct. 1 (AP)—When Poe Sherman, Clemson College publicist, gave the backfield all the praise in his duplicating machine, Football Coach Frank Howard took him by the hand and introduced him to the various linemen.

"I just wanted you to know these boys were on the team," Howard explained.

Tommy Besse have been cooking up a few new plays this week. Lubbock may prove troublesome with an aerial attack. The Westerners had to take to the air to overcome the San Angelo lead last week. Big Spring had trouble in coping with this mode of offense against Claco last week, but they were covering up better toward the end of the game.

Dozen Conference Tilts On Schoolboy Front This Week

By HAROLD V. RATLIFF Associated Press Sports Editor

A dozen conference games send the Texas schoolboy football field into the middle of the championship scramble this week-end but the battle for survival among the state's fast dwindling list of unbeaten teams takes most of the interest.

Top games of them all is Temple's invasion of Amarillo, throwing together outfits with unblemished records from far-flung sections.

Temple, they say, is stronger than last year's state finalists. Well, the Golden Bandies of Amarillo, now rolling as in their championship days, will put that forecast to the acid test.

At least ten teams with undefeated, untied records appear due to fall by the wayside. In addition to the Temple-Amarillo game, Paschal (Fort Worth) goes to Vernon and Kerrville to Laredo for battles between unbeaten, untied eleven.

Big Spring, Woodrow Wilson (Dallas) and Robstown also members of the select list, tackle teams that have been tied but not defeated, invading with Lubbock, Reagan (Houston) and Edinburg respectively.

Here is the complete schedule by districts: 1—Friday: Childers at Pampa, Temple at Amarillo, Perryton at Borger, Quahak at Plainview. 2—Friday: Sherman at Wichita Falls, Denton at Electra, Paschal (Fort Worth) at Vernon, Holliday at Burkburnett.

3—Friday: Lamesa at Odessa (conference), Graham at Sweetwater, San Angelo at Midland (conference), Brokenridge at Abilene, Lubbock at Big Spring, Brownfield at Colorado City. 4—Thursday: Austin (El Paso) at Yeleta (conference); Friday: El Paso high at Peecos; Saturday, Sidney Lanier (San Antonio) at Bowie (El Paso).

5—Friday: Mineral Wells at Gainesville. 6—Friday: Paris at Geopville, Adanson (Dallas) at Sulphur Springs, Bonham at McKinney, Hasconic Home (Fort Worth) at Highland Park (Dallas), Poly (Fort Worth) at Arlington.

7—Thursday: Weatherford at North Side (Fort Worth); Friday: Arlington Heights (Fort Worth) vs. Fort Worth Tech (conference). 8—Friday: Palestine at Forest (Dallas); Saturday: Sam Houston (Houston) at Sunset (Dallas). 9—Friday: Amon Carter Riverside (Fort Worth) at Brownwood, Stephenville at Clisco (conference). 10—Friday: Hillboro at Waco, North Dallas at Ennis, Waxahatchie at Claburne. 11—Friday: Corsicana at Tyler.

Editorial — City Charter Principles At Stake In Police Chief Move

Currently available to the citizens of Big Spring for their signatures is a petition requesting that action be taken toward changing the method of selecting a city police chief from commission appointment to public election.

This is no attempt to interfere with the democratic right of petition, but The Herald finds it regrettable that such an action should be initiated.

It should be understood by all citizens that such a move is a direct step toward altering the whole substance of this municipality in 1939—a document which has proved its merits through the years—and a step that could seriously affect the whole system under which Big Spring carries on its municipal affairs.

This, to us, represents the major issue in the case, and we feel every voter would want to ponder well before contributing to the dividing of a charter which was devised after long and careful

study, by such men as Robt. T. Piner, L. S. McDowell, T. S. Currie, W. W. Inkman, A. C. Walker, E. Reagan, M. H. Morrison, H. R. Debenport, F. W. Bettis, the late Edwin A. Kelley, the late C. W. Cunningham, the late R. L. Price and the late R. D. Matthews.

These men set about to devise an efficient system of home rule that would operate to the best interests of the people, and to realize, insofar as possible, the political maneuverings which have characterized so many cities less fortunate than ourselves. We think they succeeded in great measure, in the establishment of the city manager form of government, which has as its keystone the plan of a five-man commission—elected by the people—having supervision and control over the city manager who in turn has executive responsibility over departments.

In other words, it is a true corporate setup, with the people as stockholders, the commissioners as

a board of directors, the city manager as president, and his department heads as such. And when the power of appointment and supervision of department heads is taken away from the board of directors and the president of a corporate setup, you have little left in the way of responsible business operation.

The police chief is the head of a department, just as are those individuals who direct operations of the fire department, the water department, the health department, and so on. Most people will agree, we believe, that it would be a very haphazard municipal operation, indeed, if all such posts were filled by election every two years.

We have pretty well removed the curse of politics from our municipal police department. It is the Herald's opinion that this is the result of the present home rule charter provisions. We would not hope to see that charter undermined.

Hollywood—Wartime Films May Produce A New Type 'Hero'

By ROBBIN COONS
HOLLYWOOD — If the actor shortage gets too acute, there's still a way out for the movies. They can make pictures starring a Thing.

If the Thing is the star, it doesn't matter much whether the people around it are big names or not. And if you think this is crazy, look around at the start we've made already. Sure, they're still using stars when they can get 'em, but remember the pinch isn't on yet. We've lost Gabie and Stewart and Ayres and a bunch of the others, but we still have some stars around.

Look, for instance, at Mary Ann. She's a star and she has John Garfield and Harry Carey and a flock of other guys playing second fiddle. Mary Ann's a bomber, a B-17. She's the heroine of "Air Force." There are three other girls in the story, but Mary Ann is the only feminine name that carries on throughout.

And there was "F for Freddie." You remember F, don't you? He was hero of that short "Target for Tonight"—a sort of gentleman bomber, if there's anything in a name.

The central character in "Tales of Manhattan" wasn't any of the long string of stars it boasted. It was a coal. The whole movie was a biography of that coal. Of course they needed the star names to drag in the customers, but when you got down to cases there wasn't one of 'em as important as that bit of wardrobe. When things get tougher and all the big boys are in the Army and all the big girls are in the WAACs, they can still make "Tales"—with the coal's name in lights. (There'll be precedent for this, too: Mary Ann gets first billing in "Air Force.")

Machines and robots have figured similarly in movies before. There was the "Iron Horse" made nearly 20 years ago. There was "The Covered Wagon" of approximately the same vintage. "There was the nominal star Mariette Dietrich had to wade a mass of others to keep the train from stealing the picture. There have been movies named for and played by "Noah's Ark," "Submarine D-1," "Dive Bomber." You can guess which will be the heroine when they film "A Ship Is Born."

The military consciousness of the times will inspire many more mechanical heroes—planes, boats, submarines, merchant ships, parachutes, cannon, rifles, bombs. I can see it now—the saga of a shiny new tea kettle from shop to home to second-hand man to a shack by the river, to the junk pile, to its recovery in the scrap drive, its appointment with destiny in a steel furnace, its transformation into a bomb casing headed for Tokyo or Berlin.

Or if they figure this isn't important enough to get along without "name" stars, how about this one? The tenderly, reverently told history of a rubber tire.

As of this writing, there's no star extant who's more important, more alluring or beautiful.

Newspaper Throws Press Into Scrap

WALLACE, Idaho, Oct. 1. (AP)—The Wallace Press-Times took direct action in starting the United Newspapers' Scrap Campaign locally—it tossed its press onto the scrapheap.

The 1907 model, replaced with a new machine last month, gave the local drive an 18,000-pound start.

Washington Daybook—Selective Service Must Undergo Some Revision

By JACK STINNETT
WASHINGTON—If you are on the uncalled selective service roles or have relatives or a sweetheart there, the best thing you can do at the moment is not let the smoke screen of confusion get you down.

Selective service is in that state of flux which has come to almost everything in the United States war plans. The trouble is that we started building on a foundation far too small and weak for the supervisory this war demands. Now, to save the whole business from collapsing, we have to jack up what building we have and slide a new foundation under it.

That already has happened in war industry and it isn't certain yet that the foundation is big enough to carry the load. That is what is happening now in the efforts to solve the problems of inflation and of rubber. That is what is going to happen to many powers both manpowered and for the armed forces and manpower for production of supplies for those forces.

There are about 1,000,000, perhaps 1,500,000 in this group. (Committee hearings are starting now on this legislation in both houses of Congress.)

(3) There undoubtedly will be a suspension of recruiting. The Navy policy (all navy personnel so far is recruited) is all that is holding this up now. The reason for stopping voluntary enlistments is the necessary control of all available manpower. (Shortages of manpower in many communities and a number of industries already have occurred because the boys dashed to the colors before they were called.)

(4) Unmarried men with dependents and married men without children will be called eventually, probably soon, but close attention will be given to avoiding actual hardship cases. (This is just about draft headache No. 1, although there are no priorities on headachies in selective service.)

(5) It is possible that the present size of the Army can be a little better than doubled before it will be necessary to call married men with children. When that time will come is uncertain and can only be guessed at by adding up selective service estimates. Best guess: the end of 1943.

Other than this there is very little worth considering in the prognostications on the future of selective service.

It may be done by a complete overhauling of the existing policies of deferment. It may be done by new legislation. But a sign that it will be done is the confusion of thought now emanating from Washington.

Out of the muddle, there are a few things that are becoming pretty certain in the minds of closest Washington observers.

(1) Unless this war collapses within a year, we are going to have an army of 10,000,000 men or more—about two and a half times what we now have.

(2) The 18-19 year old lads will be drafted after the first of the

Man About Manhattan—Kay Kyser Takes Time To Handle Soldier Messages

By GEORGE TUCKER
NEW YORK—Every time it is announced that Kay Kyser intends making a personal appearance with his band at an Army camp, he receives between 500 and 1,000 letters from mothers, wives, and sweethearts, begging him to look up their sons, husbands and fiancées, so that they can shake hands and say hello personally.

Kyser goes all out for pleasing the folks back home, just as he does the camps. He prepares a list of the names given him in these letters, and after the program, these men are brought forward and Kay shakes hands with each of them and reads the messages sent them by their ever-lovin' women folk.

Doris Dudley, blonde actress daughter of a New York drama critic, has a theatrical reputation as being altogether irrepressible. Ina Claire summed Doris up by saying, "She'll be a legend before her time." However, Doris has puzzled the critics by alternately giving magnificent performances and others not so magnificent. Currently, she is appearing in a film to be called "City Without Men," and when she went to Hollywood her employers said they hoped she would forget her screwballism. Doris agreed to be a good girl.

In one of the scenes of this film Miss Dudley was to be kissed by Michael Duane, but instead of waiting for Duane she seized the young man and did the embracing herself. The director was angered. "Why do you do that when it is he who is supposed to kiss you?" shouted Sid Salkow.

Miss Dudley lowered her long lashes until they rested lightly on her cheeks. "Can I help it if I'm affectionate?"

On the dark and slushy days that come down on Manhattan, such as today, with the wind whipping and the rain stinging, most people duck their heads and face it scowlingly. Occasionally, however, you run into a real sunny disposition who is actually enjoying the bad weather. Reason: These are hay fever victims. The pollen has been washed away. Temporarily, the sneezes are out of order.

Another point: more and more you see people carrying boxes of cleansing tissues under the arms in lieu of handkerchiefs. Hay fever victims find them a boon. They are not what others think. You see them on the avenue or on buses with their boxes of cleansing

tissues under their arms any time.

Why not send Benito Collado a post card? The chief of El Chico, who once was a lieutenant of Pancho Villa, is in the Desert Sanitarium, Tucson, Arizona, for a rest. Broadway and Greenwich Village miss the man who has done more for authentic Spanish entertainment in NY than any other nightclub owner.

A great variety and volume of limestones, marble, sandstone, granite, basalt and other sedimentary and igneous stones are found in many regions of Texas.

A large part of the state of Texas is underlaid with limestones and numerous quarries are in operation.

A Promise for Tomorrow

Chapter 14
WRONG PROPOSAL
Pete's recovery was so rapid as to be miraculous. After that first crisis, he weathered the lesser storms of pain and discouragement himself, fortified by his splendid constitution, his strong will. And comforted, Julie added with a little pang, by Dawn's constant devotion.

At that, Julie conceded fairly, Dawn had been good for him. Her sweetness, her little feminine tricks to flatter him, cheer him, entertain him had filled the long hours of convalescence. Hardly a day of the three weeks since the operation had she failed to bring him a book, a special box of fruit, some frivolous bit of news.

Julie's own daily visits, short as they were because they were wedged in between appointments, only served to prove Dawn's com-

panionship was good medicine for him. She always found them laughing over some joke, some meaning they shared, some foolishness of Dawn's. On the rare occasions that Julie had found him alone, she'd felt her own tongue tied with embarrassment at the memory of her impassioned plea. Did he remember that she'd told him she loved him, wanted his recovery more than anything in the world? Did he know that it had been she who pressed her lips to his trying to pour life-giving warmth into them? And if he did remember, was he sorry for her now, embarrassed too, perhaps?

Her one attempt at lightness had been nearly disastrous. "You're a good patient, Pete," she'd said, trying to ignore that sense of hostility she detected.

"Why?"

"You justify my theory that recovery depends more on the patient than on the doctor. I was sure the operation would be a success. I tried to convince Dad of that long ago."

"And he was afraid I couldn't take it?" Pete finished dryly.

"Well, thanks for your undying faith in me, Sis. Always wanted to be a hero."

"It wasn't that—exactly," she tried to fix it.

"Then, because I justified your diagnosis, Doctor?" he suggested. "Always glad to give a struggling young doctor a chance to try out her theories."

self. If only she knew what made him so cactus sharp, so easily offended—

She smiled as Dawn came toward her, high heels clicking like castanets on the bare floor.

"Julie darling, aren't you thrilled—with your patient's marvelous recovery?"

Julie nodded. "Yes, I am. I think part of that recovery, due to you," she added honestly.

"I hope so. I think Pete is wonderful. I adore him, really I do."

Julie suddenly remembered a line—"The lady doth protest too much"—and wondered if it applied to Dawn.

"I've a marvelous idea, Julie," she rushed on, "and I'm hoping you'll back me up. I think Pete needs change and complete rest and quiet when he leaves here. And I believe he'd get well twice as fast if he were up in the mountains at the cabin. There's plenty of room for a nurse. And I could send Jarvis and one of the maids up to run the house. And we could go up occasionally—on weekends maybe—to see him. But otherwise he'd just rest and get well. Don't you think a wonderful idea?"

"Yes, I do. What does she think of it?"

"I haven't told him yet. I wanted to get doctor's orders first!" She smiled prettily. "I'll go tell him now."

"Better not tell him I approve," Julie said wryly. "This doctor's orders," she added slyly and turned quickly to the big revolving door, let it whisk her outside into the hot afternoon sun.

THE WAR TODAY: England Unmoved By Bombing Threat

By De WITT MacKENZIE
Wide World War Analyst.
LONDON, Oct. 1.—Herr Hitler's boastful promise to his people yesterday that he will retaliate against Britain for the bombing raids on Germany finds John Bull quite unmoved and stoically reconciled to renewal of the Nazi war from the air.

However, while there can be no question of der fuerher's intention to resume his aerial hymn of hate there is considerable doubt how far he will be able to carry out his plans. He no longer is the mighty man he was before he tangled with unconquered Bolshevists.

He can't just say as of old, "let Britain be bombed," and know that his genie has done the job. Hitler's ability to conduct further wholesale bombings of Britain is contingent on several important things. One of them is whether the Allies open up that second front about which he has shown by deed and word that he is worried.

However, once the Caucasus show slows down, the Nazi chief will be able to withdraw a large part of his air fleet.

Whither then?

Well, it strikes me that he will be faced with numerous difficult problems which are developing.

In the first place, his air fleet is no longer the great weapon with which he started the war. He reported previously in this column, he is short of warplanes, pilots, oil and gasoline.

A corollary to this problem is the Anglo-American air strength already in the British Isles and steadily growing. The Allies have superiority in the air over western Europe and are reaching for absolute supremacy.

Finally we come down to the question of that second front. In connection with this it is interesting to discover that the British are cooking up something in the way of a new offensive.

I've encountered this feeling among military observers on both sides of the Atlantic recently. There's nothing you can put your finger on to show where the idea had its birth, though its very persistence encourages belief that it isn't without substance. Now along comes der fuerher to say he's seen the ghost.

John Bull and family are eager to come to death-grips with Adolf Hitler.

The old flower lady in Piccadilly Circus for these colorful characters in London life still stick to their posts despite the bombing. God love 'em—summed the thing up for me when I stopped to buy a rose and have a little chat for old-time's sake.

"Sure, we're going to win," she said, "but we want to get ahead with it."

Conservation Program Is Progressing

The overall plans which include soil mapping and engineering surveys for the watershed southeast of the Garner school have been completed, D. T. Mann, head of the U. S. Soil Conservation Service for this area said Wednesday.

Work has also started, he said, in developing individual conservation plans with land owners in the water shed. Farms in this section are owned by J. W. Fryar, W. A. Burchell, W. W. Long, T. C. McCauley, Richard's estate, Mrs. Maggie Neaves, C. A. Burk, W. D. Burk, J. E. Brown, and Mrs. Ora Richards.

The new Midland unit which opened Sept. 1 under the direction of R. J. Pederson is getting well under way. Two applications from Midland, those from George W. Glass and Sam Midkiff, have been approved by supervisors for planning.

Mann said that many farmers are running pipes from their terraces to supply water for 'victory gardens.' The common practice, he explained, is to lay out two garden plots, allowing one of them to fallow for a year.

Although Texas is not primarily a metal producing state, gold, silver, iron, copper, mercury, lead, manganese and tin are produced in Texas in varying quantities.

State Fiscal Affairs May Work Out

AUSTIN, Oct. 1. (AP)—Based on a preliminary study of budget needs and revenues estimates, the state financial condition for the next biennium beginning Sept. 1, 1943, should be fairly good despite declining revenues from some sources, Governor Coke R. Stevenson predicted today.

He said general fund revenue, derived from numerous sources, should be about \$32,000,000 yearly for the biennium, about \$4,000,000 below this year's income for general fund purposes.

Offsetting the decline was a budget requirement of about \$33,000,000 a year. The estimate was made by the board of control in joint sessions with the governor who declared it was entirely possible that additional economies would balance the budget.

The cheery prospect for the general fund is not shared by the highway building and maintenance fund whose revenue comes from the gasoline tax.

"We will be in pretty good shape financially except for the highway department," the governor declared.

Although the available school fund derives part of its income from a portion of the gasoline tax, expected to decline sharply if rationing is ordered, the school fund property tax was increased this year from 15 cents to 33 cents per \$100 valuation and largely should make up the difference.

Although gasoline tax collections probably will drop, the governor was of the opinion that the oil production tax, part of which goes to the general fund, should not necessarily decline sharply.

His reasoning was based on the prospect of continued oil production to meet war needs.

A decline in inheritance tax collections which go to the general fund was estimated at about \$1,000,000.

Story
(Continued from page 6)

"Bart." "Will it make any difference when I tell you I've been accepted into the Navy? That I'm leaving exactly three weeks from today—destination unknown?"

"Oh, really Bart!" She turned in the wide seat to face him, the smile faltering. "I'm glad and yet—of course—"

"Of course—what?" You'll marry me before I go?"

She shook her head. "Please, Bart, don't make it so hard."

"Marry me when I come marching home?"

She drew a long breath, tried to draw away from him. "Listen, Bart, I've told you I don't love you enough to marry you today. And it wouldn't be fair to make a promise for tomorrow that I couldn't keep."

"You don't give me much to fight for, Julie."

She stiffened. "After all, you have your country to fight for. Your liberty, your way of life—that you've enough to justify any sacrifice."

"Don't go noble on me, Julie. Heroics sound fine in speeches but you know as well as I do soldiers wouldn't be soldiers if they weren't paid for it."

"Bart Rogers! That's not true, Julie flamed instantly. "Even you couldn't be that cynical."

"All right. I was only kidding." He grinned, caught her hand. "You see how much I need you, Julie. Without you, I won't amount to a cipher. With you—" He tipped her head back, kissed her swiftly. "—I could come home covered with medals and glory. Can't you see it's your duty to your country to say you'll wait for me."

Julie shook her head helplessly.

OPA Price Clinic At Midland Friday

MIDLAND, Oct. 1.—A clinic to explain the overall price control regulations to retailers and wholesalers affected by OPA orders will be held in Midland Friday by the Midland chamber of commerce and the Midland County War Price and Ration Board, in cooperation with the Vocational Business Education Division of the State Department of Education.

The sessions will be conducted by Tom Murray, senior merchandising specialist of the OPA regional office in Dallas.

Interested persons from cities and towns of this area have been invited to attend the clinic.

Individual conferences will be held for those needing assistance with OPA regulations concerning ceiling prices.

American Soldier Killed In Affray

BELFAST, Northern Ireland, Oct. 1. (AP)—United States Army headquarters announced today that an American soldier was killed in a disturbance in the streets of Antrim last night involving U. S. military police and U. S. soldiers.

Several shots were fired before the disorder ended but the soldier who was killed was a victim of knife wounds. Another was seriously wounded.

A statement from U. S. headquarters said "No civilians were involved."

Identification of the dead soldier by name in cabled dispatches was forbidden by the censor.

Mechanics And Radio Men Can Join Air Force

Mechanics and radio men are now being hand-picked for the air service command of the army air forces, Lt. John H. Cover, specialist recruiting officer of the Big Spring sub-depot, announced today. It was also explained how any man between the ages of 18 and 44 inclusive, whether he is single or married, may now enlist directly into the army air corps if he is properly qualified to become an aircraft mechanic or aircraft radio man.

"Opportunities in the air corps are more inviting than ever," said Lt. Cover. Experienced men in the mechanical and radio fields have the opportunity of becoming non-commissioned officer specialists rapidly. There are now family allowances for married men, with increased pay being given the American soldier, from private through master sergeant.

Young men here who wish to make certain that they will get into the army air forces, can do so by contacting Lt. Cover at the Big Spring sub-depot. He will certify these young men to the local recruiting officer and after they have been inducted at the reception center, they will be sent directly to San Antonio air depot for training.

Men who have worked at any of the following trades should be able to qualify as a specialist:

Grade Crash Toll Higher

AUSTIN, Oct. 1. (AP)—Just because the 7:25 a. m. express was running late, or because a troop train happened along when no train was scheduled, there was a gain of 86 per cent in Texas accidents involving trains and motor vehicles during the first eight months of this year, state police said today.

Police statisticians, suggesting that habit is killing a lot of Texas people, based their conclusions on these facts:

All 44 of the drivers killed were men; 40 lived in rural areas, and 38 lived near the scene of their accident.

"The victims—mostly farmers, truck drivers and tradesmen—failed to realize that train schedules are not what they used to be," a state police bulletin explained.

"They are people who used to know when the trains ran and they never bothered to look out for a train unless one was due."

"Now troop and supply trains are passing at all hours and these people are being killed by trains that were not supposed to be there."

The statistics show that train-auto accidents increased from 2.63 per cent of the total for the eighth month period last year to 4.89 per cent this year.

Texas produces 85 per cent of the United States' sulphur.

Horseback Search For Scrap Pays Off

TUCSON, Ariz., Oct. 1. (AP)—Two women who set out to look for scrap metal while riding horseback over the big Y-6 ranch north of Tucson turned in six tons and promised more later.

Mrs. Glen Perry said she and her guest, Mira K. Barker, "were surprised at the large amounts of metal we discovered lying around water holes and abandoned mines. We either carried or dragged the small pieces back while riding our horses, and went back with a truck for the larger stuff."

Scrap Recovered From Jap Sector

SEATTLE, Wash., Oct. 1. (AP)—Brainbridge Island in Puget Sound evacuated its Japanese several months ago, one of the first west coast areas to do so.

Now the scrap metal they left behind is going, too—into guns and tanks and bullets.

At least 50 tons of the more than 100 collected on the island came from former Japanese farms and homes, Herbert Allen said today. Filipino, who replaced the Japanese, helped gather it.

PIGGLY WIGGLY

NOTICE
EFFECTIVE OCTOBER 1, AND FOR THE DURATION

Effective October 1, we are sorry to announce that we can no longer continue our credit business and delivery service. We are working short-handed, and yet trying to care for more customers, making it necessary to cut down on work every way we can. We do not have time to carry your accounts and take care of them as they should be taken care of. This is an action we are indeed sorry for, and we hope you understand.

Thank You,
Frank Rutherford
