By T. E. Jordan

XXIII No. 43

## Flowing Oil Well in Llan Section

Flowing 300 barrels in the Llan section; New Wells in on Roberts and Chalk Ranches

Howard County is sitting Jake. The first place it is proven that oil. Already a vast stretch of miles or more is proven territory. Furthermore, we have shall-oil around 3100 feet, oil 2500 feet and possibly more water depth since Reagan in the south of us has topped gas at 3350 feet.

It is not a matter of time until the ground is not evaporating as anything for storage can put it down that Howland is due for big developments. Men are aware of the big things in this section and you them here in bunches when of crude makes it worth drilling wells.

California Co.'s flowing well in section; the F. H. E. Oil Harrison-Kelly wells on the ranch, the new tests to be in other portions makes it that a steady development is for this territory even if it is low.

## Encountered in World Oil

McDowell Well No. 1 World Oil Company's No. 1 is now drilling below 4000 feet in a blue lime formation. It is running in conformity with tests in that section and an should be encountered within few hundred feet.

It has been found intermixed with stratum of potash about 100 feet thickness was struck. A formation encountered at extended for 545 feet; 25 foot break and another stratum of solid rock salted there.

Testing of potash in this test test on the Houston ranch, to the northwest is going potash development in this

## Oil Co.'s Test on W. B. Currie Ranch

California Oil Company has commenced the casing in their on the W. B. Currie ranch thirteen miles southeast of Big Spring now on they will make on this test.

Well is located on the north- quarter of section 215, block N. W. survey.

## Well South of Big Spring

Well on section 6 about miles south of Big Spring added in last Sunday and good well being made on this test. Well is about three miles west of the Marland well now being the Edith K. Fisher section about 2 1/2 miles northwest of Marland well on the Marland ranch.

## Gustar Ranch to be Shot

Marland Oil Co. drilled to a depth of 4265 feet in the test well on Gustar ranch, five miles west of Big Spring. It is said this well is being drilled to the 3100 foot level. A good oil well was had in this test near 3100 foot level.

## W. S. Martin Test

Progress is being made on the W. S. Martin test well on the W. S. Martin ranch, 13 miles northwest of Big Spring. A depth of more than 2000 feet has been reached. This is considered one of the important tests as it is in a producer would open territory for development.

## Foster No. 3 Good for 300

Foster No. 3 is good for 300 barrels and is the best well that has been drilled in the Llan section of Howard County and about eight miles east of Big Spring. It is located on section 25-45 in 2850 feet. A much shallower depth was reached in that territory. Well was given a 300-quart test and the first estimate was on page 2, Sec. 1)

## TO BUILD HIGH LINE FROM BIG SPRING TO CISCO

It won't be long now until the Texas Electric Service Company will have a force of two hundred or more men here at work on the high line that is to connect Big Spring and Cisco for the purpose of delivering 132,000 volts of electricity. This line will deliver electricity from the company's big power plant at Cisco to a sub-station that is to be established on the company's forty acre tract of land a short distance east of Big Spring. Here the current will be reduced by specially constructed transformer for distribution to Sweetwater, Colorado, Stanton, Midland, Chalk oil field and other points.

On five miles of the high line out of Big Spring, steel poles fifty-five feet high will be used but on the balance of the line, poles similar to those on the high line between Midland and Big Spring will be in evidence. Material for this line is now beginning to be received.

## POSTAL RECEIPTS SHOW 20 PER CENT INCREASE

Postmaster J. W. Ward reports that the receipts of the local post-office for the year ending June 30, 1927 were \$27,355. The increase over last year was more than twenty per cent. The increase of the second quarter of this year over the same period last year was more than thirty per cent. The second quarter of the present year showed a fifteen per cent increase over the first quarter.

This steady and substantial increase indicates the territory served is in a prosperous condition.

## Luncheon Club Enjoys Fine Program

Out of Town Visitors Speak on Topics of Vital Interest to Homefolks. Miss Hall's Singing Enjoyed

One of the finest feasts ever was enjoyed by members of the Wednesday Luncheon Club at the Methodist Church this week and the varied program proved one of especial enjoyment.

The outstanding numbers were vocal selections by Miss Annabel Helen Hall, Lyric soprano, the T. C. U. Radio soloist, who is singing each night at the revival services at the First Christian Church. She has a wonderful voice and it is indeed a pleasure to hear her sing. Miss Mary Wade was her accompanist.

Committee reports included a report from B. Reagan who conferred with the county judge relative to enforcement of traffic regulations and complaints being registered by tourists. He stated the officers were present and the matter gone into and it was agreed that warning signs be placed at county line so tourists would have notice that the roads in Howard County were being patrolled.

J. F. Wolcott reported the committee to reorganize the Cemetery Association were busy and would be ready to make a report at an early date.

Messrs Keegan and Jeffries of the Bureau of Mines of the U. S. Department of Commerce made short talks in which they stated they were here to promote safety measures in the oil field and expected to organize classes in first aid measures among the oil field workers. They also stated they had a special car on the railroad tracks which was used in their work. This was open for inspection and visitors were welcome at anytime during the day, up to 4:30 p. m. when they would be in the oil fields.

Evangelist A. B. McReynolds who is conducting services at the First Christian Church here each night made a brief but pointed talk in which he pointed out the greatest error most business men make. In their eagerness to make a success of their business they put the almighty dollar ahead of their God and fail to realize their mistake until it is too late. He cited several instances where successful men make it a practice to mix religion with their business and other instances where men who might be considered successful from a worldly viewpoint had made no provision for a life hereafter. Money success and honor and with our life on this earth and we have not accomplished much if we have failed to seek only those things that will last.

## Crawford Hotel to Have 150 Rooms

A. J. Crawford Builder of the New Crawford Hotel Gives Orders to Add Two More Stories to Bldg.

The announcement that A. J. Crawford, owner of the new Crawford Hotel in Big Spring had decided to increase the size of this hotel from 100 to 150 rooms came as pleasing news to our citizenship.

The contract when awarded was for a five-story, fire-proof building, 50x140 feet, containing 100 guest rooms in addition to lobby, coffee shop, dining room, business spaces, basement, etc., with the further provision that two more stories might be added should Mr. Crawford so order.

Mr. Crawford was here last week and after sizing up the situation he decided Big Spring was due for a steady and substantial growth and that a 150 room hotel was needed and ordered the contractors to add two more stories, making the building seven stories and basement, and increasing the guest rooms to 150.

Big Spring is going to have a real hotel, one the larger cities of our state could well be proud of. On a recent trip to New York City Mr. Crawford purchased the furnishings and he spared no expense. The hotel at Big Spring is Mr. Crawford's hobby and he is going to do everything possible to make it one of the finest hotels in our state.

Since two stories are to be added it is not likely that the building can be completed by September 15; although the contractors are going to do their best to make the grade. Fifty men are now on the job, and day and night shifts are pushing the work. Brick work on the second story is now underway and they hope to complete this work at the rate of a story and one half each week. As soon as the brick work has been completed night shifts to do the inside work can be added regularly. The concrete floor for the fifth story has been completed and forms for the sixth story are now being made.

The new Crawford Hotel is going to prove a real asset to our city and we are going to be able to see this when this up to date hotel is opened for business.

## J. T. McNEW HAS FINE STAND OF CORN AND COTTON

J. T. McNew, a successful Howard County farmer, living fifteen miles northwest of Big Spring in the Knott community has bright prospects for a bumper corn and cotton crop this season. Mr. McNew brought in a stalk of cotton from his farm on Tuesday morning and it was a feast for the eyes, as we have not seen another like it, not even in the fields this summer. The cotton stalk was about four feet tall, was a fine healthy plant and was loaded with blooms and squares. Mr. McNew stated that he had about 150 acres of early cotton and most of it was of a good stand. He has a field of late cotton also that had to be replanted several times.

Mr. McNew also brought in some fine roasting ears gathered from his field and they were evidence enough that he had a fine corn crop. The roasting ears were large and well filled out and milky. This corn was planted the latter part of March and has had just enough rainfall to make it boom. Mr. McNew will have late corn also, as he planted several acres about the 20th of June that is about twelve inches high now.

This is one farmer that has stuck to the game since 1907 and still has faith in Howard County. He admits that some of the years have been slim ones for the farmer, but he has always managed to come out ahead. Mr. McNew believes that after all of his twenty years of farming he could not have chosen a better county to live in than Howard.

## ROBB MABRY OF ACKERLY INJURED; SKULL FRACTURED

Robb Mabry is in a local hospital receiving treatment for a fractured skull which he received last Saturday afternoon at a ball game at Ackerly. Mr. Mabry was accidentally struck in the head with a bat which was swung as the batter ran to make a base. The skull was fractured just above the right eye. He was brought to this city for treatment and is reported to be resting well at this time.

## Potash Found Near Big Spring

The Landreth Well in Glasscock County Shows Immense Deposits of Potash From 1430 to 1866

Of greater importance possibly than the discovery of oil is the finding of an immense deposit of potash in the Landreth test well now drilling on the Houston ranch in Glasscock County. This test is seven miles south of Stanton and about twenty-five miles southwest of Big Spring. Location is on the north-west quarter of section 12, block 35, township 2 South.

The potash was found in connection with the salt beds at 1430 feet and at 1866 feet the drill was still pounding away in this formation with the potash content showing stronger. It is estimated that for fifty feet below 1816 the potash content was 50 per cent. Thru the remaining portion of the 400 feet it was estimated to be from 11 to 12 per cent.

This certainly means big things for this section since potash development will become of more importance than oil development if this potash find proves to hold up under government inspection. The world is in need of potash and the section which can furnish it in unlimited quantity is going to secure an industry that will bring the community more wealth than oil. Germany has to go 3000 feet beneath the surface of the earth to mine a potash which runs about 11 per cent in the formation where found. Here the deposit is much nearer the surface and much richer.

The further fact that the potash deposit extends on to the southeast for twenty miles is certain, as good potash deposits were indicated by cuttings from the General Oil Co.'s test wells in the McDowell No. 1 and the A. D. Neal No. 1. The government tests showed a 12 per cent deposit from cuttings secured at the McDowell well.

That potash deposits of immense worth and extent underlie this section is apparent and it is only a question of time until capital will begin development. The excellent showing in Landreth well is going to turn the attention of the world to this locality.

## AUSTIN & JONES JOIN FEDERATED STORES

A new method of modern merchandising for the retail dry goods stores has been inaugurated thruout this country, with some 3000 progressive merchants as members.

This group of merchants is known as "Federated Dry Goods Stores." Their plan consists of group buying, which gives them a splendid buying power, and in connection with their buying power, they also advertise collectively.

This plan will revolutionize the retail dry goods business. As featured in their recent advertising they have been selling merchandise at a new low level of prices.

This new plan protects the Independent Merchant who has helped build up his community for years with whole-hearted support.

The group is growing by leaps and bounds and is fast becoming the largest national chain of dry goods stores in America.

## Wofford Williams Improving

Wofford Williams who received injuries last week when he was knocked off a windmill tower is reported to be getting along nicely. Wofford with several other boys had gone swimming and they were diving into a tank. Wofford climbed on top of the windmill tower and shortly thereafter the wind changed causing the fan to turn quickly, knocking him to the ground. He was knocked unconscious and suffered painful cuts and bruises in the fall. He is reported to be improving.

## JOE B. NEEL BUILDING ROOMING HOUSE ON NOLAN

Joe B. Neel is having an eleven room apartment building erected on his property in the 100 block on Nolan street. The structure is about 33x60 feet and will be of concrete and stucco construction. The estimated cost is \$3500.

## It Pays to Read Herald Want Ads

It Pays to Read Herald Want Ads

## AT WORK ON WINN COLD STORAGE PLANT

D. E. Cook has been awarded the contract to erect a modern cold storage plant and warehouse for the A. G. Winn Produce Co.

Work is now underway on this structure which is located at the corner of East First and Gollad streets. The building is to be one story, brick and tile, 50x100 feet and the estimated cost is \$8000. According to the terms of the contract the building is to be completed by September 1st.

The cold storage department can handle ten carloads of produce. There will be two large cooling rooms and three smaller ones. Two latest model ice making or refrigeration units will be installed.

This is a character of building that has long been needed in Big Spring and it should be instrumental in causing poultry raising, dairying, etc., to take a greater proportions since these products can now be stored until prices are right.

## MORE PAVING PLANNED

An election will be held in Big Spring August Ninth to determine whether paving bonds to the amount of \$40,000 shall be authorized; said bonds to mature serially at such times as may be fixed by the City Commission, not to exceed forty years from their date, and to bear interest at the rate of five per cent per annum, payable semi-annually.

It is planned, if the bond issue carries, to pave Scurry, Main and Rannels streets as property owners along these streets have requested this additional paving.

## Securing Leases in Howard County

Representative of 101 Ranch of Oklahoma Opens Office in This City. Securing Acreage for Drilling

F. D. Olmstead, superintendent of the Land department of the 101 Ranch of Oklahoma, a most famous ranch, is in the city and has opened his offices at the Wyoming Hotel. Mr. Olmstead is here in the interest of securing acreage in Howard County for oil and gas for his company. Representing the 101 Ranch, known the world over, Mr. Olmstead brings us a most encouraging report on the oil situation in our county and also has an interesting story to tell about this big ranch.

From a cattle ranch to the largest diversified farm and ranch in the world, is the simple story of the growth and development of the 101 Ranch of Oklahoma, located on the paved highway nine miles southwest of Ponca City, Okla., and five miles west of the city of Marland. It is famed throughout the world for its vastness in size and immensity of production. It is a domain within itself, larger than some of the European principalities. As the show place of the Great Southwest, the 101 Ranch attracts annually thousands of visitors to whom its wide expanses and multiform activities are at once a revelation and an inspiration.

The 101 Ranch, including 110,000 acres of land has engaged actively in the cattle business, in all lines of agriculture and horticulture. They have blooded breeds of cattle, pure-bred hogs, sheep, horses and poultry, and these are of strongest ancestral record. Wheat, corn, cotton, alfalfa and all varieties of forage find their place on this diversified farm and ranch. Many other ventures in the vegetable and animal world have been successfully tried on this ranch—the one big remaining ranch of the old cattle country.

## IMPROVING PROPERTY

The Texas Company recently purchased the two lots adjoining the three lots owned at the corner of East First and Nolan streets and are making some substantial improvements.

A new warehouse 30x60 feet has been erected with office room, storage racks, etc., giving them three or four times the storage space they formerly had. A modern garage to house their fleet of trucks is planned. The five lots are to be enclosed with a seven-foot cyclone wire fence.

Local manager, Tom Ashley, is indeed proud of the improvements.

## Old Settlers' Reunion Plans

At Meeting of Committees Saturday Plans for Making This a Big Affair Were Completed

On account of the meeting being held on Saturday, many of the committeemen were unable to be present at the courthouse last Saturday afternoon but all sent word they were going to get in harness and assist in making this one of the biggest and best reunions ever held in Howard County.

The reunion is to be held in the Parrish cottonwood grove, just east of Big Spring on Friday, July 29. Public speaking, a barbeque dinner for the old settlers, an old time platform dance and other features are being planned.

An effort is being made to have Governor Dan Moody here on July 29 as one of the speakers on the program. Old time citizens of Howard County will also be called upon to make talks.

All those who have lived in Howard County for twenty years or more are expected to attend the reunion.

In order to defray the expense of the entertainment, all old settlers who care to, are asked to donate one dollar each. Hand this amount to T. H. Johnson or Mrs. G. L. Brown or mail them a check.

Below is the line-up of the various committees. See them if you desire further information relative to the reunion.

All old settlers upon entering the park will be requested to register so they can be presented with a badge. T. J. McKinney will be in charge of the registration booth. H. P. Long was appointed to have badges prepared.

Committees: General Arrangement, T. H. Johnson, chairman, Mrs. G. L. Brown, R. D. Matthews, J. D. Biles; Finance, Shine Phillips, W. G. Hayden, L. E. Lomax, R. A. Marshall; Barbeque, Jim Winslow, chairman, J. N. Cabbie, A. Knapp, Joye Fisher; Program, M. H. Morrison, T. S. Currie, W. F. Cook; Dance, Ray Wilcox, chairman, Jim Winslow, Homer McNew; Resolution, E. G. Towler and W. G. Hayden.

## MRS. A. E. PISTOLE IN AUTO ACCIDENT

The following item from the Fort Worth Star-Telegram tells of an auto accident near Brady, Texas, on Thursday, July 7.

"Brady, July 7.—A head-on collision between two closed cars on the San Angelo highway 22 miles west of Brady this afternoon, cost Ed Rhode of New Braunfels the sight of his left eye, while Mrs. Rhode and Hugo Kohlenberg suffered severe bruises. Mrs. Kohlenberg was uninjured. The party was enroute from New Braunfels on a trip to California. Two ladies were occupants of the other car, Mrs. A. E. Pistole and niece, Mrs. Staha, with Mrs. Pistole driving. Neither was seriously hurt. Both cars were badly wrecked."

## FRED POLACEK ESCAPES SERIOUS INJURY IN ACCIDENT

Fred Polacek narrowly escaped serious injury last Sunday night when his car, a Chevrolet sedan, ran into a culvert and turned turtle on the Bankhead highway about six miles east of Big Spring. Fred was driving at a moderate rate and the only way he can account for the accident is that the steering gear became locked and he lost control of the car. He was knocked unconscious and was picked up by two men in an automobile who brought him to the doctor's office in this city for treatment. He received several painful cuts about the arms, shoulders, and face and also bruises.

The car was badly wrecked.

## TAKES CHARGE OF STUDEBAKER SALES SERVICE IN CITY

C. D. Keever arrived the latter part of the week from Lubbock and has accepted a position with the Studebaker Motor Co. in this city. Mr. Keever has been with the Studebaker people in Lubbock for the past five years, and is experienced in this line of work. He will be in charge of the sales service in Big Spring and will demonstrate the merits of this car to prospective buyers.

O. Dubberly and family were visitors in Midland Sunday.

### T. & P. TEAM HAS BUSY WEEK PLAYING FOUR GAMES OF BALL.

After playing two eleven inning baseball games here last week with San Angelo winning one and losing one, the Big Spring baseball club took Sweetwater on in a four game series winning three and dropping one, and then played Midland here Wednesday to lose. The San Angelo games were 4 to 5 and 5 to 4. The Sweetwater games were 11 to 6, 17 to 4, 3 to 4 and 12 to 2. The Midland game was 2 to 7.

The San Angelo games were the best games seen here this year. Big George, former T. C. U. player received credit for the win of the first game. Jess Vick pitched stellar ball in the last game of this series to beat the famous Hobo Carson who pitched the no-hit, no-run game for T. C. U. last season.

The first game in Sweetwater was featured by the superb pitching of Handsome Payne who allowed only four hits. The second game which ended 17 to 4 was featured by the hard hitting of the Big Spring boys being led by Williamson and D. Graves with four smackers apiece. Sunday's game with the same club in Big Spring was won by Sweetwater due to the local boys failing to hit in the pinches. Spider Myers pitched a good game for sweetwater. The game on the Fourth found Handsome Payne again on the mound for Big Spring to strut his stuff. The Big Spring boys again busted the horse hide to all corners of the lot; this time being led by Punk Thornton who perhaps established a record for two base hits for one game, getting five out of as many times up.

Take the first inning off of the Wednesday game with Midland and it too would be a good game, but two walks, two errors and two hits gave Midland four runs to start with. Lefty Babers for Big Spring and Breeding for Midland pitched good baseball, allowing only six hits apiece. Williamson and G. Graves for Big Spring and Francis for Midland collected two hits and a walk apiece in the game.

Snyder comes to Big Spring for a game Sunday. Incidentally this is the club that started the season off here. Snyder almost won that game going into the eighth inning 4 to 3 in their favor but two runs were scored by Big Spring to nose out ahead. From all indications this will be a good game. This will be a benefit game to try to take up the debt that hangs over the ball club. Out of the last seven games played only two have paid for themselves. Due to poor attendance five of these games failed to pay expenses. If a town like Midland can raise fifteen hundred dollars per month for a ball club, Big Spring should have enough spectators at the games to pay expenses. It is true the local club has dropped several games this season, nine to be exact, but they have won nineteen in the meantime and deserves your support. According to the management if the attendance does not pick up the club will be forced to break up which would be a discredit to Big Spring indeed.

Freight and passenger trains on the T. & P. are now being guarded against accidents due to sun kinks or buckling of the tracks. Trainmen are cautioned to carefully observe slow signals and at slow signs passenger trains to reduce speed to at least 20 miles and freight trains to between 12 and 15 miles per hour and carefully watch condition of track. This applies between the hours of 9 a. m. and 4:30 p. m.

### NOTICE IN PROBATE THE STATE OF TEXAS

To the Sheriff or any Constable of Howard County--Greeting: You are hereby commanded to cause to be published once each week for a period of 20 days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Howard County, a copy of the following notice:

THE STATE OF TEXAS To all persons interested in the estate of T. G. Fletcher, deceased, B. Nelson, administrator, with will annexed, of said estate filed an application in the County Court of Howard County, on the 1st day of June, 1927, for order authorizing sale by him of property of said estate, Lots Nos. 11 and 12 in Block No. 22, in Big Spring, Howard County, Texas, which said application will be heard by said Court on the 1st day of August 1927, at the Court House of said County, in Big Spring, at which time all persons interested in said estate are required to appear and answer said application, should they desire to do so.

Herein fail not, but have you before said Court, on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Witness my hand and official seal, at Big Spring, Texas, this 7th day of July A. D. 1927.

(Seal) J. I. Frichard, Clerk, County Court, Howard County, Texas. 47-31

### LUNCHEON CLUB DISCUSSES TRAFFIC

(Continued from page 1, Sec. 2)

The Commissioners Court and see if the matter could not be adjusted satisfactorily. The following were appointed: B. Reagan, C. W. Cunningham and J. F. Wolcott.

The following visitors were present at this meeting: Dr. Baxley, who has recently moved to our city; Raymond F. Lyons, the father of Ackerly and now a big property owner in Big Spring; H. H. Griffith of Lubbock, assistant manager of the Rix Furniture and Undertaking Co. of that city, and a former resident of Big Spring; Messrs. Ham-burgerr and Ellsworth supervising construction work on the new Crawford Hotel.

### LELAND E. DAFORD MET DEATH AT CRANE CITY

While at work with a crew of linemen of the Texas Electric Service Company Leland E. DaFord was electrocuted about 10:30 o'clock last Friday morning near Crane City. The remains were brought to this city for burial. Funeral services were conducted at the home of Mr. and Mrs. A. J. Hilbun at four o'clock Sunday afternoon by Claude Wingo, minister of the First Christian Church, and the remains were laid to rest in Mt. Olive cemetery.

Mr. DaFord with his family, a wife and four children, had been making their home in this city since last December, while he was working with the crew of the Texas Electric Service men. He was held in high esteem by his fellow workers and was considered to be a man of sterling worth and of high principles. His untimely death is mourned by his many friends in this city. Surviving are his wife, four children, a brother C. V. DaFord of Tyler, who was here to attend the funeral services Sunday. Other out of town relatives here were: W. B. Scott of Wichita Falls, Mrs. Everett White of Corsicana, Mr. and Mrs. J. B. Scott of San Angelo.

Deepest sympathy is extended to the bereaved ones at this sad hour.

### MRS. W. P. PINKSTON DEAD

Mrs. W. P. Pinkston, 28 years, passed away at 1:05 Thursday morning, July 7, following an illness of several weeks. The body was prepared for shipment by the Eberley Undertaking Co. and was shipped on the evening passenger train Thursday to Popular Bluff, Mo., where burial will be made in the Woodlawn cemetery on Sunday afternoon.

Deceased is survived by a devoted husband, three sons, one daughter, her parents and other near relatives, all of whom will attend the services in Popular Bluff.

Deceased had made her home in this city since early fall where Mr. Pinkston has been engaged as a painter. She has made a host of friends while living in this city and many hearts are saddened at her death.

Deepest sympathy is extended to the bereaved ones.

### CLEO RICHARD EPPS DEAD

Cleo Richard Epps, 19 years, 9 months, 7 days, was found dead near an oil well at McCamey about 9:30 o'clock Sunday morning. It is supposed that the young man was overcome by gas from one of the wells near where he was working.

The remains were prepared for shipment by the Eberley Undertaking Company and he was shipped to Post Oak, Texas, where burial was made.

He is survived by a wife, son, parents and other relatives. His parents formerly lived at Knott.

Heartfelt sympathy is extended to the bereaved in this sad loss.

We still buy your chickens and eggs! The White House.

Mrs. C. B. Peaks and son left Thursday for their home in California.

Mrs. J. H. Hefley has been quite ill the past week.

Theo Ferguson of Fort Worth was here Sunday for a visit with his brother J. P. Ferguson and family.

Mr. and Mrs. J. O. Joplin and children of Merkel were visitors in Big Spring Tuesday. Mr. Joplin owns a farm in Howard County and was here to look after his farming interests.

Flies and mosquitoes easily killed with "Fly Fungus" when sprayed around the room. . . . It will kill any insect. . . . Cunningham & Phillips.

Mrs. H. B. Mann and daughter, Miss Grace Mann of Colorado visited relatives in this city Monday and attended the Fourth of July celebration.

## Stealing Time is Tiresome and Thankless Work

Like the man who complained of getting tired of eating hogs head corn. "That's tasty stuff," remarked a friend. "Maybe but I'd rather eat their back in the hog," was his retort. You won't complain if you use LINCOLN PAINTS. Their weather proof qualities make them a means of permanent protection.

**SURVEY OUR COURT HOUSE**

It may seem a long jump from church to court house, from parsonage to jail, but we are going briefly to glimpse the same, also the homes of our county officials in this week's civic progress.

Howard County may well be proud of her courthouse and jail, and the people of Big Spring rejoice that they live in the county seat.

Our courthouse, of native red stone, is a splendid structure of noble proportions. The grounds are ample, beautiful and exceedingly well-kept. Not alone is the lawn mowed frequently, and kept free from papers and trash that so often mar the attractiveness of a public place, but walks and curbs are clean and free from weeds. This neatness and order are due to the painstaking and untiring efforts of our excellent care-taker, Mr. Underwood, who is always "on the job." While the fountain sprays are at work you'll not find him taking his ease under the greenwood tree. Instead, he is busy with a hoe. Weeds are cut down and kept down around the entire premises, and our courthouse lawn is of wide dimensions. He digs about the trees, keeps them trimmed and well watered and allows no ash heaps or decaying limbs of trees to collect anywhere. Nor does he neglect his indoor work while doing all this. Few indeed are the public buildings anywhere that get such good and regular attention. If you want an example of civic pride in the humbler walks of life, take a look at his private dwelling place. Three cheers for our good, honest, reliable, industrious, splendid fellow-citizen and friend, Mr. Underwood!

Our jail also is an attractive building. It is the home of our respected sheriff, Mr. Frank House. All about it are flowers and shrubs, a real beauty spot. Recently quite a bit of improvement has been made in the jail apartments upstairs.

Out on Third street, the Bankhead highway, we come to the home of our tax assessor, Mr. Anderson Bailey. It is a modern rose stucco, very pretty and surrounded by every manner of growing plant. On the curb cosmos and zinnias flourish. Great beds of petunias, four o'clocks, verbenas, shasta daisies, chrysanthemums and phlox extend around the house. Here, too, we find huge hollyhocks and massive cannas. Many beautiful trees add to the pleasing effect of this nice, cozy home.

On Scarry street we find Mr. A. C. Walker the abstractor. While not a county officer he holds a place in the hearts of Howard County folks that no one else could fill. His home is of typical southern appearance, enclosed in a grove of large shade trees and shrubs. Here are found the only red buds in the west. Beds of lilies, verbenas and many other flowers extend to the side and back. From this home come three blue ribbon prize winners of our Flower Show last fall. It is one of the most attractive looking, homey places to be found in Big Spring.

Next door lives our county judge, H. R. Debenport. His is a very pretty white cottage set back on a lawn of green velvet, always well watered and fresh. At the side of the house bright zinnias smile. Neatness and order characterize the surroundings.

At Fifth and Aylford we find another white cottage. Green privet hedge outlines the yard, which last year was a mass of phlox, riotous in color. Due to sun, wind and sand, the flowers this year are not so profuse, but zinnias and phlox appear, also many green box plants. This is the home of our county clerk, Mr. J. I. Prichard.

Further down the street, we find the Towler place. It is a most artistic spot, the grounds crowded with flowers of every kind. Last summer, it looked the home of "the old fashioned garden" so well beloved in song, so full it was of larkspur, holly hocks, and other old favorites. If anything will grow at all, it will for Mrs. Towler. Her pot plants and ferns are marvellous. This is the home of our county treasurer, Mr. E. G. Towler.

This closes the list of "Who's Who" in Howard County, but soon we expect to visit our city officials.

Special — Friday and Saturday — 4 bars Palmolive Soap, 25c. Fox Drug Co.

**ANOTHER PAVED HIGHWAY PROPOSED FOR W. TEXAS**

Plainview, July 16.—A paved road in West Texas from Amarillo to San Angelo looms as a probability with the awakening interest in a concerted action on the part of the counties along State Highway No. 9 displaying itself following the recent voting of a million dollars in road bonds in Hale County to pave the Hale County segment of this highway through Plainview, Hale Center and Abernathy, from the south line of Swisher County to the north line of Lubbock County.

Claude C. Wild, manager of the San Angelo Board of City Development, has sent out a letter to all of the counties along the line asking what improvements have been made in the respective counties and what improvements are contemplated. This road, he points out, is one of the most important in the State, and is so ranked by the United States Bureau of Good Roads. It is numbered 385 in the Federal system of connected roads, and No. 9 in Texas, and the Texas highway number applies on the road from San Antonio to Amarillo.

C. T. Watson, manager of the Big Spring Chamber of Commerce, has written a number of letters to commercial organizations along the road urging concerted action in paving the entire highway.

The Lubbock Chamber of Commerce is sponsoring an organization in that County which is proposing the paving of seven ways out of Lubbock; and Highway No. 9 would receive first consideration in their program of paving.

Randall County has already voted bonds for the paving of the road through that county, from the south line of Potter where the pavement is already done to Amarillo.

Swisher County is contemplating a hard surfacing program on the same road.

Special — Friday and Saturday — 4 bars Palmolive Soap, 25c. Fox Drug Co.

**THERE'S A REASON**

An awful gawk.  
She'd love to ride  
But has to walk.—Ex.

**R-BAR NEWS**

The patriotic program rendered at the Literary Society proved to be an enjoyable and most successful event. We thank the committee for their help and cooperation.

Uncle Jack and Aunt Fannie Wilson visited with W. C. Rogers Tuesday.

Miss Louise Rogers visited Mr. and Mrs. Alvin Lay Wednesday night.

Earl Hull and family and Mr. and Mrs. Allen Rogers were Sunday guests of Mr. and Mrs. Ray Wilson.

Mr. and Mrs. W. H. Robinson attended church at Coahoma Sunday.

W. A. Prescott and J. A. Kinard of Big Spring were guests at the Salem singing class Sunday afternoon.

Miss Venice Bell of Merkel spent the week-end with Miss Louise Rogers.

Mr. and Mrs. Lee Newsom visited relatives in Hamlin last week.

Mr. and Mrs. Albert Wilson spent Friday night with Mr. and Mrs. A. J. Wilson.

Mr. and Mrs. Stanley Canada were Friday night visitors with W. C. Rogers. Reporter.

**ARRESTED FOR AUTO THEFT**

J. T. Vernon was arrested here Sunday on a car theft charge. When caught he was driving an old Dodge coupe that he had traded for in Big Spring. After arrest he claimed that the car was rightfully his and that he had papers to prove, but when he produced the papers it was found that the car, a Cadillac, he had traded off was the one that he had stolen in Galveston from his father. His father sent word to the sheriff here to take a ring that the boy had also stolen from him and to keep him in jail.—Pecos Enterprise.

**CITATION BY PUBLICATION THE STATE OF TEXAS**

To the Sheriff or any Constable of Howard County—Greeting:  
You are hereby commanded, That you summon, by making Publication of this Citation in some newspaper published in the County of Howard if there be a newspaper published therein, but if not, then in a newspaper published in the nearest County to said Howard County, for four consecutive weeks previous to the return day hereof, C. J. Crouse whose residence is unknown, to be and appear before the Hon. District Court, at the next regular term thereof, to be holden in the County of Howard at the Court House thereof, in Big Spring Howard County Texas on the First Monday in September 1927, the same being the fifth day of September then and there to answer a Petition filed in said Court, on the 7th day of July A. D. 1927, in a suit numbered on the Docket of said Court No. 1102 wherein J. D. Cunningham is plaintiff and C. J. Crouse is defendant. The nature of the plaintiffs demand being as follows, to-wit:

Trespass to try title to two acres of land, part of section 5, Block 32, 1 South, and in the alternative to foreclose a vendors lien on said two acres of land, the said land being situated in Howard County, Texas, and notice is hereby given to defendant to produce on the trial, deed, made by vendor reserving title, or secondary evidence will be introduced to prove its contents, and asking for its cancellation.

Herein fail not, and have you before said Court, on the said first day of the next term thereof, this Writ, with your endorsement thereon, showing how you have executed the same.

Given under my hand and seal of said Court, at office in Big Spring this, the 8th day of July A. D. 1927. (Seal) J. I. PRICHARD, Clerk, District Court, Howard County, Texas. 43-4t

**COMING SOON R & R LYRIC**

**Dorothy Mackall Lowell Sherman**

**CARD OF THANKS**

With grateful hearts we wish to express our sincere thanks to the dear citizens of Big Spring for the many kindnesses shown us at the death of our dear relative, Leland DaFord. We pray God's richest blessing on you all.

Mrs. Mary DaFord  
C. V. DaFord, Tyler.  
W. B. Scott, Wichita Falls.  
Mrs. Everett White, Corsicana.  
J. B. Scott, San Angelo.

**LEAVES FOR MARKET**

Leslie White, manager of the Acorn Store will leave today for eastern markets where he will select fall and winter merchandise for this big department store. Mr. White will join other managers of Acorn Stores of Texas at Fort Worth and they will travel on a special train to New York.

Mr. and Mrs. Ben Carpenter and family, and Mrs. J. W. Carpenter have returned from a trip to the White Mountains and other points of interest in New Mexico.

**WE CAN SAVE YOUR MONEY FOR YOU ON HOUSE PAINT. FIGURE WITH US. . . . CUNNINGHAM & PHILIPS.**

**LANDS BIG TARPOON WHILE VACATIONING IN GALVESTON**

C. W. Davis who is enjoying his vacation at Galveston, Texas, writes us that he had the thrill of his lifetime when he succeeded in landing a big tarpon there the other day. Following is what Charlie had to say about the big fish:

"I had the thrill of my life this morning when I landed a big tarpon which weighed 89 pounds and measured 6 feet, four inches in length. It took me an hour to complete the job, for the tarpon played on the line, leaped high in the water and the line sounded like a tightened fiddle string. I was surely glad when he weakened." We claim that Charlie is some fisherman!

**LINDBERGH MAY VISIT TEXAS**

Col. Chas. Lindbergh will visit every state in the union. He will fly over Big Spring on September 16 to 26 as the trip to be followed includes El Paso and Fort Worth.

**SIGNS YOU CAN BELIEVE**

If your breath is bad and your appetite, constipation in the bowels, account feeling, it is a sign of indigestion. The one really dependable remedy for all disorders in the liver, and bowels is Herbine. It acts on the liver, strengthens digestion, fits the bowels and restores a fullness of energy, vim and cheerfulness. 60c. Sold by CUNNINGHAM & PHILIPS.

**BIG SPRING IS GOING TO GO FORWARD**

Big Spring is certainly lucky. It's a cinch that the city is located in the center of a series of oil fields. There will be oil development in this territory for years to come and it is to be in the nature of a steady character, calculated to be worth far more to this section than these spasmodic booms. Potash showings in this territory have been sufficient to insure development; and this may mean more to our county than oil development.

We have limestone aplenty to supply building material for all West Texas, for road building purposes and for the manufacture of lime and cement on a big scale. Gypsum deposits in our county are sufficient to keep a big factory busy.

Cheap fuel in the nature of natural gas will soon be available and will encourage the establishment of manufacturing plants in Big Spring.

We have wonderful opportunities for investors and manufacturers; there are few sections that can offer anything half as good. Big things are on top for Big Spring. We are going to move forward, and move forward mightily fast when things break.

Visitors are greatly impressed with the wonderful opportunities now offered, and they seem better able to visualize a wonderful growth for Big Spring than do the homefolks.

**BETTER WATCH REPAIR SERVICE**

We are now running four repair benches and give you prompt and top-notch service. The entire shop electrically equipped. All this means a "Better Job for Less Money" Wilke's Jewelry and Optical Shop.

**LEAVES FOR MARKET**

A. M. Fisher left Monday night for New York and other eastern points where he will spend several weeks in the markets buying fall and winter goods for the Albert M. Fisher Co. Mr. Fisher will know the demands of his customers for the coming season and he will bring back an attractive line of the latest ready to wear for fall and winter. He understands the markets and knows where to buy what will please his customers.

W. W. Crenshaw made a business trip to Dallas the first of the week.

Many who put off retiring from business until "the eleventh hour" usually die at half past ten.

Mr. and Mrs. Sam Stinson returned Saturday from a visit with relatives in Louisiana. Sam recently underwent an operation for the removal of a stone from his bladder at Mayo Bros. Sanitarium at Rochester, Minn. He is going to take a turn as brakeman on a passenger run until he completely recovers from the effects of the operation.

**LESTER FISHER BUYS LAND**

Lester Fisher last week bought of Frank Duncan of Martin County one half section of land north of Big Spring adjoining his two sections of farm land in the northern part of the county. Mr. Fisher owns one of the best improved farms in this section of the county and is now and always will be a booster for Howard County. He has strong faith in this section even when conditions seem most adverse. Les can see the silver lining and patiently waits for the arrival of that better day. Even though conditions are not the brightest just at this time from an agricultural standpoint he has invested in more Howard County land and believes that the land will pay for itself in a short time. The brightest of prospects can be seen by him; this man who has bucked the farming game for many years, one who has kept faith with Howard County continues to invest in Howard County land and always comes out on top.

**CEMETERY ASSOCIATION MUST BE GIVEN YOUR SUPPORT**

Placing the Cemetery Association on a workable basis is important and we must all lend a helping hand. We want Mt Olive cemetery to be kept as neat as possible, and if all who have loved ones buried there will pay a small amount annually the proposition can be easily handled. Getting folks to pay these dues regularly seems to be the stumbling block. None refuse to pay when reminded of the matter, but it should not be necessary to employ someone to do the collecting. We should be sufficiently interested to pay promptly in order that the sexton may be retained and the necessary work and repair at the cemetery be kept up. Hand in your suggestions and keep the Cemetery Association on the job.

**DROP THE SPADE**

Of all the curses of earth and foes to Heaven the man who is determined to dig up trouble is about the worst. There is usually enough dirt on the surface to satisfy anybody, but there are people like Jones' pig who seem determined to stir up enough extra to make sure that the supply doesn't run out. Some of these trouble makers will go ten miles out of their road to go back a generation in local history to find a reason for setting folks by the ears. "An ungodly man diggeth up evil." Don't make any bones about asking one of these mud rooters to vamoose when he enters your place. Give him to understand that you desire to take no chances on animals of his breed. When you are tempted yourself to disturb the earth that covers forgotten trouble remember the other words of the Wise Man: "He that seeketh trouble it shall come to him." There is plenty lying about loose without digging for it. Drop the spade!—The Battery Man.

We cannot understand why a clay products manufacturing plant can't be secured for Big Spring. We have immense clay deposits adjacent to this city and cheap fuel is now a certainty.

Alarm clocks.....Cunningham & Phillips.

**SLUMBER PARTY IN HONOR OF SEYMOUR VISITOR**

Miss Jennie Dorine Rogers most delightfully entertained with a slumber party last Saturday evening in honor of her guest, Miss Johnnie McElhannon of Seymour, Texas. The happy group first enjoyed a picnic supper at the city park after which they returned to the Rogers home on Main street where they made merry until bedtime.

Those enjoying this party with the honoree and hostess were: Misses Valerie Sligh, Billie Barnett and Ruth Hinds.

**NOTICE**

I am now peddling fruits and vegetables on the streets of Big Spring and will appreciate a liberal patronage of the good people. I will at all times strive to please and you may have the best fruits and vegetables obtainable at the least cost. Yours truly, A. W. Daughtry, 307 Gollad.

Mr. and Mrs. H. B. Arnold and sons returned the latter part of last week from a trip on the San Sabá river. They found things in and around Menard in fine shape, good crops, fat cattle and lots of turkeys. There were plenty of fish in the river according to Mr. Arnold but they were not very friendly this time of the year.

**CARD OF THANKS**

To those who so faithfully assisted during the illness and death of our beloved husband, son and brother, and to those who sent so many beautiful floral offerings we extend each one our sincerest thanks and appreciation.

Mrs. John L. Ramsel and baby.  
W. L. Ramsel

**NOTICE IN PROBATE THE STATE OF TEXAS**

To the Sheriff or any Constable of Howard County—Greeting: You are hereby commanded to cause to be published once each week for a period of 20 days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Howard County, a copy of the following notice:

**THE STATE OF TEXAS**  
To all persons interested in the estate of T. G. Fletcher, deceased, E. Nelson, administrator, with will annexed, of said estate filed an application in the County Court of Howard County, on the 1st day of June, 1927, for order authorizing sale by him of property of said estate, Lots Nos. 11 and 12 in Block No. 22, in Big Spring, Howard County, Texas, which said application will be heard by said Court on the 1st day of August 1927, at the Court House of said County, in Big Spring, at which time all persons interested in said estate are required to appear and answer said application, should they desire to do so.

Herein fail not, but have you before said Court, on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.  
Witness my hand and official seal, at Big Spring, Texas, this 7th day of July A. D. 1927.  
(Seal) J. I. Prichard, Clerk, County Court, Howard County, Texas. 42-31

**CITY SECRETARY TAKES TWO MONTHS LEAVE OF ABSENCE**

Mrs. Louise Middleton, city secretary, is taking a sixty day leave of absence from her work at the city offices, and Mrs. Ralph Sherman is working in her place during this time.

**TWO HOMES AT A BARGAIN**

One 5-room house and 2 lots and one 4-room house and lot—all in good repair and renting for \$42 per month—for quick sale. Will sacrifice for \$3200. For particulars phone 486 or see P. J. Daily at W. G. Hayden Co., 113 W. First. 1t

L. S. McDowell reports a good rain on his ranch twenty miles south of Big Spring Wednesday night.

**BOBBIE BEAUTY SHOPPE INSTALLS PERMANENT MACHINE**

The Bobbie Beauty Shoppe, located in the balcony of the C. & P. drug store No. 1, on Friday of last week had a Eugene Permanent Waving machine installed in their shop. This is one of the largest and highest priced machines on the market and an experienced operator will give the permanent waves, either by Eugene or Frederic method which ever is preferred.

This Beauty Shoppe, the newest one in our city is owned by Miss Lillian Gray, who is assisted in operating it by Mrs. Ruth Edwards. All of the fixtures and equipment in the shop are new and a most attractive appearance is offered. Apple green and black is the color scheme carried out in the finishings of the shop and cretonne screens separate the different booths.

All kinds of beauty parlor work is done by the operators in this shop, such as permanent waving, by two methods, marcelling, shampooing, water and finger waving, hair bobbing, facials, manicures, etc.

**METHODIST CHURCH NOTICE**

Regular Sunday morning services at 11 o'clock hour. Preaching by the pastor. Special music by the choir. A cordial invitation extended everyone to attend.

Harry Willis who has had hopes of winning the heavy weight championship for many years was knocked out Wednesday night at New York by the Spaniard with the unpronounceable name, in the fourth round.

J. Y. Robb manager of the R. and R. theaters in this city left Wednesday night for Dallas where he will join his brother H. B. Robb, and together they will go to Canada for a two weeks fishing and hunting trip.

Mr. and Mrs. C. H. Gordon and children, Franz, Bobbie and Bill, and Tom Jordan Jr., and Mr. and Mrs. Shorty Madison left Sunday morning for a week's outing at Christoval.

Mrs. W. C. Clark who has been spending the past five weeks with her father, J. O. Hoard, left Wednesday evening for her home at Pauls Valley, Okla.

Mrs. Grace Cardwell of El Paso who has been visiting her parents, Mr. and Mrs. Can Powell and other relatives for the past two weeks, will leave Saturday for California where she will spend the remainder of the summer. Mr. and Mrs. J. O. Tamsitt will accompany Mrs. Cardwell and will spend a month in Los Angeles, visiting their daughter, Mrs. Aubrey Kent.

Mrs. Joe Stovall and daughter, Charline, and sister Miss Ida Beebee, left Sunday morning for a visit at Littlefield with their parents. Miss Ida will return to Big Spring, but Mrs. Stovall will go to Nogales, Ariz. to join her husband and to make her future home. Mr. Stovall has accepted the post of U. S. Immigration officer at that point.

**The State National Bank has the largest amount of deposits and resources, of customers of any bank also the greatest number in Howard County.**

Court and be deputized by either the Sheriff or any Constable of the County in which they are appointed, and no other officer shall make an arrest in this State for violation of laws relating to highways now in effect in this State." From this you can see that according to the law, no one is permitted to arrest for violations of any highway law except the Highway Patrol.

Some people seem to think that this Highway Patrol have charge of the turns in the City and the "Stop" signs, which is not true, as their jurisdiction in this regard only goes to the State Laws and not to the City Ordinances.

These men are being frequently used by the Sheriff's department in their efforts to keep our County clean of undesirable citizens and the work they have done since they arrived here, being especially known to

us, to our minds, justify their retention in service. If there is any one thing to which we have dedicated ourselves, above anything else, it is that every particle of power within our hands, as your officers, will be used for the purpose of keeping your County and your town a clean and wholesome place within which to live and rear your children and to make it safe for people to go about their business in a legitimate way without being endangered from reckless or intoxicated drivers of automobiles, and we call upon the good citizens of this county who have never failed to respond when needed in a cause of right, to uphold the officers and render what aid you can in making the enforcement of the law a thing in fact as well as in name.

COMMISSIONERS' COURT  
of Howard County.

**A Member of the Federated Stores**

This modern method of merchandising gives us greater buying power, and enables us to sell it to you at a less cost. We have most of our merchandise marked at the new low price level.

The bargains are too numerous for us to enumerate, but we invite you to come and see for yourself.

**Austin & Jones**  
Dry Goods and Notions

**FURNITURE FINALS!**

We deeply appreciate the response given our special sales offerings for this week. In our advertising last week we predicted that after the first day many would be disappointed. We did not anticipate that many would be disappointed by noon of the first day. We have had trucks moving fast all week and have been able to keep a few suites ahead. For the last two days of the sale we are going to have some extra value attractions. You will hardly see a single suite on the floor now that was there the first of the week. Come back again and you will find what you want.

**BRAND MATTRESSES**  
We did we sell over twenty brand mattresses, either here or at our stores, in four days. We have about ten more for the last days of our "Boss is Gone" sale. Only \$29.50  
This is a twenty year brand mattress. A mattress is guaranteed unless the label says so at the label.  
**FELT-BASE RUGS**  
We received Wednesday. Splendid rugs. Suitable for dining room. Sale Price... \$9.95

**LIVING ROOM SUITES**  
All good Living Room Suites are sold and have sold as fast as we could get them in.  
Our last load from the Lubbock warehouse will arrive this morning. Do not know what they are. But they will be your last chance.  
Medium priced Bed-Davenport Suites.  
Have three medium priced Bed-Davenport Suites.  
We are going to give either a bridge or floor lamp with each of these suites Friday and Saturday.  
One Suite at... \$57.50  
Two Suites at... \$67.50

**PIANOS**  
what pianos we have left go at half price these last two days. Several have bought these nationally advertised and nationally priced pianos at HALF PRICE.  
Now is the time for church, school or lodge to buy the piano that they have planned to buy in the near future.  
We have no piano salesmen and are closing out this department.  
**PHONOGRAPHS**  
If you plan to buy a phonograph now or in the near future, be sure to come in and look at the extraordinary values we are offering in new and used phonographs. These prices include the new Victor Orthophonic—Edisons—Etc.

**FELT-BASE FLOOR COVERINGS**  
Now in the depot and open for your inspection by the time this paper reaches you, seven rolls of new pattern floor coverings. Recover the kitchen, dining room, or living room.  
4-rolls at... 55c per square yard

## News Notes From Other W T Fields

**Loving and Reeves County Tests**  
Skelly Leeman is in the first Delaware sand at 5100 feet, and will go after the oil. They topped the Delaware lime at 5048, and the top of the sand at 5089. The operators have been determined all along to give this location a complete and thorough test, drilling the first 4000 feet hole big enough for a string of ten inch casing. Action is expected here in the next few days.

The Humble Flores No. 1 on the Jeff Davis-Reeves line is plugging this location due to the fact that they are on a slope and cannot drill the hole straight. In the next few days, the geologists of the company will pick a new location on this block, and the well will be drilled, where the slope is not so bad.

The Dixie Dropplemann is also plugging, having run into the flowing sulphur water at 3810 feet, after getting a good rainbow a few feet back up the hole.

The big major companies in Winkler County have agreed to shut down all new wells, when they reach the top of the lime, and not bringing them in until a later date, when conditions warrant such. There are now a large number of offsets, and tests waiting on top of the lime, for the signal to bring them in.

The Gulf Production Company has several of their locations in this group and will soon have six ready to drive into the oil bearing formation. The Southern Crude also has two wells, including the T-88-A-1.

The White Eagle well is swedging their ten inch pipe at 1660 feet, and have a total depth of 1710 feet.

The Champlin well is drilling again with a total depth of hole around 3000 feet.

The McCullom Morton is still shut down but is expected to start up again in the near future, with the supply companies in control.

The Humble Oil & Refining Co.'s Hendricks No. 1 is having pipe trouble at 1915 feet, and hope to soon be able to make more hole. This well, with the White Eagle, and Champlin, has had a real tough time, getting all the breaks against them.

Pure No. 1 is now at 1900 feet, having topped the salt at 1670 feet which is 5 feet lower than the Gulf reports it. The No. 2 well is shut down, to standardize the rig, putting on cable tools for further drilling.

Llano well is shut down with engine trouble, having broken the engine head a few days ago. The total depth of this potential producer is 3243 feet and there is more than 1200 feet of oil in the hole at least measurement.

Independent No. 1-A has recently topped the lime at 3560 feet in the southwest quarter of section 34. They are logging high, and at 2575 struck gas which is now amounting to more than a million cubic feet. The operators are drilling ahead, making new hole below 2000 feet. Pecos Enterprise.

### World Oil Co. Hits Gas

A half million feet of gas, the estimated pressure at the World Oil Company's Duff No. 1 in north Reeves County, found at 2460 feet, is considered to be the best show of any well in the Pecos field, on either side of the river. The gas has increased since first found, running from 2460 to 2470 feet. Pecos Enterprise.

### Humble's Reeves County Test

The Humble Klob B-1 well in north Reeves, several miles north of the old Bell well, about five miles south of Orta, is now looking much better having run into their second salt around 3000 feet. It is logging high in comparison with the Bell well, and is at present, encouraging. Pecos Enterprise.

### Tenth Big Producer in Yates Pool

With No. 6A Yates, greatest gusher in the field, brought under control but little over forty-eight hours previous, Mid-Kansas and Transcontinental Saturday drilled in another producer in eastern Pecos County, No. 2B Yates. A flow of 200 barrels an hour developed at noon and was sustained when drilling stopped at dark at 1355 feet. The well may be deepened Monday. San Angelo Standard.

### Oil Showing in Willeke Well

H. D. Camp's No. 1 Willeke Brothers, 7 miles west of San Angelo, has struck an oil showing above 735 feet that will be tested out the middle of the week as soon as the tractor that operates the machine is returned from Cross Plains, where it was sent for overhauling. San Angelo Standard.

### Prickly heat powder

Cunningham & Phillips.

### LOVE STAR GAS COMPANY CONSIDERING BIG SPRING

The following item is pretty good evidence that the Love Star Gas Co. plans to extend their gas mains to Big Spring:

"Chester L. May, representing the Love Star Gas Co. is quoted in the Ballinger Ledger as saying that his company wanted a franchise to come to Ballinger because it was going right through the city with a line to serve the West Texas Utilities Co. at San Angelo. He said the company had lines being laid out of Abilene to Merkle, Sweetwater, Big Spring and Colorado and a line connecting with this line from Desdemonia, Coleman and Brownwood."

### OPENS INSURANCE OFFICE

J. B. Burleson and family arrived this week from San Antonio and they have decided to again make their home in this city. Mr. Burleson was formerly science teacher at the Big Spring High School, but for the past several years he has been superintendent of the Corona, N. M. schools. Mr. Burleson is now with the Lincoln National Life Insurance Company and is moving here from San Antonio. He will be pleased to meet old friends who are glad to have him become a resident of our city again.

Kreso dip in a cheap way to keep your stock and poultry clean. Cunningham & Phillips.

Mr. and Mrs. G. L. Brown, Mrs. Harry Lees and children, Mrs. Chas. Bussey and son, and Charles Ray Lees spent a few days on the Concho River this week.

Johnston's candy... You can't go wrong. Cunningham & Phillips.

Buck Nall of McCamey visited homefolks in this city a few days the first of this week.

Alvin Kavanaugh arrived this week from Los Angeles, Calif., to visit homefolks in this city.

### HOME OF G. M. HILL DAMAGED BY FIRE

The home of G. M. Hill at 210 Arlington street was damaged by fire about noon Saturday. The fire was started by a defective flue and the roof of the building was practically destroyed. The loss was partially covered by insurance.

It is rumored that the Texas & Pacific may build a branch line from Odessa to the Crane County oil fields. It is pretty certain the Santa Fe will beat them to the Clay-Chalk, Settles, Harding fields in Howard County.

All Russia is called to arms by the head of the Soviet government. Whoever is not a member of the Red Army must join the ranks of the Osoviackim and be ready to rise to the defense of the union. Every worker must know how to use a rifle, how to deal with gas attacks and how to strengthen the defense of the country.

Miss Mildred Rogers is stenographer for Drs. Hall and Bennett, while Mrs. Lloyd Stamper is enjoying her vacation in Kentucky.

Poison your flies... Poison fly paper is a convenient way. Cunningham & Phillips.

### ONE IN TEN

Neglecting a little wound, cut or abrasion of the flesh may in nine cases out of ten cause no great suffering or inconvenience, but it is the one case in ten that causes blood poisoning, lockjaw or a chronic festering sore. The cheapest, safest and best course is to disinfect the wound with liquid Borosone and apply the Borosone Powder to complete the healing process. Price (liquid) 30c, 60c and \$1.20. Powder 30c and 60c. Sold by

### RETURN FROM OKLAHOMA

Mr. and Mrs. John, Curtis and daughters, Misses Lola and Vera, Mr. and Mrs. Doyle Littrell and Mrs. Carl Merrick returned Sunday from a visit with relatives at Chickasha, Okla. Mr. Curtis reports fine crops in Oklahoma but spotted all the way across Texas. He also stated that he returned better pleased with the Big Spring section than ever before. One man and two good teams must get up and hump to cultivate 50 acres of land in the Oklahoma country whereas one can cultivate three times as much land here and not work half as hard as his Oklahoma brother. The cool breezes of West Texas are also missing there. Doyle Littrell after a few days at Chickasha admitted that a West Texas breeze would be appreciated even though it was full of sand.

Mr. and Mrs. Arthur Woodall and daughter Winelle and Miss Anita Musgrove returned Monday afternoon from a visit in Corpus Christi.

**WOULD ABOLISH CROP GAMBLING**  
 At a meeting of the Farmers Marketing Association in Dallas recently a new Declaration of Independence, declaring for freedom from gambling exchanges and price manipulators and calling upon cotton producers to get into position to reap the proper rewards for their labor, was adopted. Resolutions adopted at the meeting also included a request that all Texas members of Congress support a measure to make it a felony for any person to offer for sale or sell any farm commodity which he does not own or have in his possession. A commission to be sent from Texas to Brazil to study methods used by Brazilian coffee growers in their coffee valorization plan was recommended in another resolution. Commissioner Terrell gave as his belief that cotton and grain exchanges should be abolished. "These exchanges are supposed," he said, "to buy and sell agricultural products and furnish the farmers a market for these products. They buy and sell from 75,000,000 to 100,000,000 bales of cotton during a season, when the production is about one-sixth of that, and they never handle a bale of actual cotton. They mark the price up or down on the board 200 points in a day without any change in the supply or demand for cotton and without any change in the actual condition of the crop. "If exchanges furnished the best means of selling products John D. Rockefeller would use them to sell oil, E. H. Gary would use them to sell his iron and steel rails, Henry Ford would use them to sell his cars and every manufacturer would use them to sell the output of his plant. But not one of these great captains of industry use them to sell his products." Shaving utensils of all kinds..... Cunningham & Phillips. Another auto accident at Clyde claiming the life of a man warns us that the railroad crossings in Big Spring are going to reap their harvest if we fail to build that viaduct. How about a new hair brush..... Cunningham & Phillips. SIT IN OUR COOL STORE AND DRINK A MALTED MILK INSTEAD OF GOING HOME TO LUNCH..... CUNNINGHAM & PHILLIPS. Dr. and Mrs. J. H. Hurt left Saturday night for Long Beach, Calif., where they will spend the remainder of the summer. Their two granddaughters, Misses Read and Lucille Thomas of Midland accompanied them on this trip.

**GROWN-UPS MUST LEARN SAFETY FIRST MEASURES**  
 Of course, it should not be necessary to remind adults, as one admonishes a child going out to play: "Be careful and don't get hurt." But it is. In 1926, 90,000 people in the United States were swept into eternity because of accidents. Ever so many more were injured. It may be assumed, although the number is not given by the Texas Council of Safety, which furnishes the figure on fatalities given above. It is the common experience that most accidents are strictly preventable. It is a tragic reflection that probably the majority of the 90,000 might now be living if they or those responsible for the accidents which caused their death, had exercised just a moderate, ordinary amount of caution. From September 1, 1926, to March 1, 1927, six months, 399 people were killed and 1891 injured in street and highway crossings in Texas. These casualties were exclusive of those at grade crossings. During the same period, there were 68 deaths and 273 injuries resulting from accidents at grade crossings alone. In addition to these street, highway crossing and grade crossing accidents, there were 496 fatalities and 965 injuries from other types of accidents in Texas during the same six months' period. All agencies promoting safety are deserving of respect and support. One cannot know how many deaths and injuries their efforts prevent, but the number must be considerable.—Dallas News.

**OIL DEVELOPMENT  
IN THIS SECTION**  
(Continued from page 1, Sec. 1.)

was that it was good for from 200 to 400 barrels of oil daily.

**Roxana Oil Men Here**

Four crews of men, with about twelve men to the crew, are now making a survey of Howard County for the Roxana Petroleum Co.

The torsion balance instruments are being utilized in the work that is now being carried forward.

**A Dozen Oil Tests for Howard Co.**

It is stated that several rigs which have been in use around Pyote are to be moved to the Howard County oil fields to be put in operation. More than a dozen new tests are to be started in Howard County at once.

**Completes Test on Edwards Ranch**

The Robert R. Penn test on the W. P. Edwards ranch, 20 miles south of Big Spring, was completed to contract depth, 3505 feet, last week and is being plugged. No decision has been made as to whether or not another test will be drilled on their holdings.

**Comet Oil Co. Gets Good Well**

The Comet Oil Company's No. 2 Clay stood 1200 feet in oil the forepart of the week after having swabbed 15 to 20 barrels last Friday. It filled up 400 to 500 feet in oil in 12 hours following a shot.

This well is on section 154, block 29, W. & N. W. survey.

The Comet's Clay No. 1 is also on this tract but is not as strong a well as No. 2.

**F. H. E. Oil Co.'s Well Improving**

The F. H. E. Co.'s oil well in the northeast quarter of section 156 was given another light shot on Thursday morning of last week which improved production considerably. The well flowed for fifteen minutes following the shot and again when the baller was started down.

It is said this well is good for from 100 to 125 barrels per day. The oil sand was encountered between 1820 and 1860 feet.

The F. H. E. Oil Co. recently spudded in their Roberts No. 2 about one mile north of their No. 1 well.

**Shallow Oil Wells a Big Asset**

According to oil men it is an established fact that the oil industry as a whole is dependent upon small wells with long life, as they are for many years steady producers, therefore they are the backbone of the oil industry. This has been most forcefully demonstrated in the pioneer fields of Pennsylvania.

Howard County is fortunate in that shallow oil and deep oil is to be found—and this is going to be an inducement for independent oil men to develop this section.

**Marland Drilling on Quinn Ranch**

The Quinn No. 1 being drilled by the Marland Oil Co. on the Quinn ranch southwest of Big Spring is going to prove an interesting test.

It is only 2 1-2 miles from the Harding No. 1. Then too it will be watched for potash showings.

**Vitex Oil Co. Drilling in Clay Field**

The Vitex Oil Company is making a test for oil on their holdings in the Clay oil field, eighteen miles southeast of Big Spring. This well is offsetting producing wells which found pay at from 1600 to 1800 feet.

**W. R. COLE BUYS PROPERTY IN COLE & STRAYHORN ADDITION**

W. R. Cole this week bought of Betty Bostick her home place in the Cole and Strayhorn addition. This deal was transacted through the Lyons-Earnest Realty Service.

It is evident that Mr. Cole believes in the future prosperity of the Big Spring territory since he continues to invest his money in real estate here. He is already a big land owner, having both city and country property, and is acquiring more all of the time. The addition in which he bought this Bostick property was named for Mr. Cole who was a pioneer in developing this addition.

**JOHN T. RAMSELL PASSES AWAY**

John Ramsell died July 11, 1927, at Big Spring. He had been sick for several months. All medical aid had been given him that was possible. His trouble was cancer of the liver.

John had lived in Garden City for a number of years. He was known among the ranchmen as a good cowhand, and a dependable man. He had been a member of the Cumberland Presbyterian Church for several years. We realize that a good friend has passed away.

He leaves a wife and a small daughter, a father, two brothers, and four sisters. We say, weep not for him dear loved ones for he is resting, sweetly resting, and he will not have to suffer any more. He said he was ready.

His brother, Will Ramsell who lives in Arizona and his sister, Mrs. Ira Bolen, were unable to be here for the funeral. All the rest of his people were here. The mother preceded John fifteen years ago.

Funeral services were conducted at the Garden City cemetery by Bro. Owen of the Presbyterian Church, Big Spring, and assisted by Bro. Norman of the Methodist Church, Garden City and the body laid to rest at one o'clock Tuesday.

Reported.

**BRAKEMAN INJURED IN FALL FROM TRAIN WEDNESDAY**

V. R. Lowry, employed as a brakeman by the T. & P. railway was painfully injured in a fall from a freight train Wednesday afternoon about 5 o'clock, while in the discharge of his duties. The accident happened near Germania just a short distance out of Big Spring and he was rushed back to this city for medical attention. He received injury to his back but it has not been ascertained to date to what extent he is injured.

Mr. Lowry has been a resident of this city only a short time.

**MRS. J. W. PITMAN DEAD**

It was with deep regret that news of the death of Mrs. J. W. Pitman who passed away in a Temple sanitarium at 3:40 o'clock last Thursday afternoon was received in this city. Mrs. Pitman had been in ill health the past few months and was taken to Temple where they believed an operation would put her back on the road to recovery. All that medical skill and loving hands could do was done, proved to no avail and death took the upper hand. The body was brought to this city on the evening passenger train Friday for burial. Funeral services were held at the First Baptist Church at five o'clock Saturday afternoon by Rev. D. H. Heard, pastor, and the remains were laid to rest in Mt. Olive cemetery.

Deceased, 41 years, 8 months, 8 days of age, was dearly beloved by all who knew her. She had made her home in this city for a number of years and had taken an active part in religious and lodge work. Of a sweet and kindly nature she was always ready to share in the joys and sorrows of her friends and was ever ready to lend a helping hand when in her power to do so. Her death has brought sorrow to the hearts of her many friends.

Surviving is her devoted husband, two sons, Omar and Melvin Pitman, one daughter, Miss Opal, all of this city. She also leaves two sisters and two brothers, N. G. Malone of Big Spring; G. Malone of Lamesa; Mrs. Lou Stephens of Abilene, and Mrs.

Clemmie Mings of Lamesa, all of whom were here to attend the funeral services on Saturday. Other out of town people here to attend the funeral were: Mrs. J. D. Woodard of Abilene, Mr. and Mrs. Cockerell of Abilene, T. B. Hoover of Lubbock, Dolphus Jennings, LeRoy Payne, Coach Payne and Miss Bonnie Christian of Abilene.

Deepest and heartfelt sympathy is extended the bereaved family in the loss of their loved one.

L. B. Cauble said nothing could have been finer than the rains which visited his section Wednesday night.

Bernie Cline said the rain Wednesday night was mighty fine out his way.

L. E. Lomax, in reporting good rains part of Howard County.

Merle J. Stewart week from Portland. He has been employed after a visit in the parents and other Monday morning where he has accompanied with the Western.

Stanton and vicinity inch rain Wednesday according to reports.

E. T. Cobb was Thursday morning the thing of a three inch rain in Glascock County.

### WEDDING CEREMONY WHICH UNITES MARY HAZEL AND LEE ROGERS WAS PERFORMED AT THE HOME OF THE BRIDE'S MOTHER, MRS. S. A. HATHCOCK, MONDAY MORNING, JULY 11, BY PASTOR A. DEEN, OF THE PRESBYTERIAN CHURCH. ONLY RELATIVES OF THE BRIDE AND GROOM WERE PRESENT.

Immediately following the ceremony the happy couple were the morning passenger on a honeymoon trip through Wyoming, California and Arizona states after which they return to Big Spring to their future home.

Miss Hazel is the sweet and attractive daughter of Mr. and Mrs. S. A. Hathcock, residents of this city. She is known by young and old as a young womanhood who has grown to young womanhood and received her education in the Big Spring schools. She attended school in the Industrial Arts at Big Spring for the past two years and was a teacher in the R-Bar school. Because of her many winsome and charming personality she has many friends who extend wishes for her happiness.

Lee Rogers is the son of Mr. and Mrs. Rogers and he too is well known in Big Spring. He is employed in the office of the T. & P. railway and is well connected in this service. He is a young man of fine qualities and dependable and has a reputation of becoming a substantial member of the younger generation in this city after his return.

The wedding ceremony was performed at the home of the bride's mother, Mrs. S. A. Hathcock, on Monday morning, July 11, by Pastor A. Deen, of the Presbyterian Church. Only relatives of the bride and groom were present.

The bride was given away by her father, Mr. S. A. Hathcock, and the couple were married by Pastor A. Deen. The ceremony was held at the home of the bride's mother, Mrs. S. A. Hathcock, on Monday morning, July 11, by Pastor A. Deen, of the Presbyterian Church. Only relatives of the bride and groom were present.

### FAREWELL SHOWER HONORING MRS. E. J. STOVALL

Mrs. E. J. Stovall was the guest of honor at a farewell shower given at the home of Mrs. S. A. Hathcock, on Monday afternoon, July 11, in honor of Mrs. E. J. Stovall with a handkerchief shower.

Mrs. W. H. Power delighted the party with two readings and a vocal solo. Piano numbers and general conversation added to the enjoyment of the occasion. Just before the guests departed Mrs. Stovall was presented with a large sealed box containing many beautiful gifts and farewell letters. She was requested not to open the package until she was on her journey to her new home in Nogales, Arizona. Those present were: Mesdames R. L. Glaser, T. M. Collins, W. H. Power, La Roe of Coffman, Riley of Fort Worth, Hammond, Homer Johnson, J. H. Johnson, O. T. Arnold, Louis Thompson, Raymond Smith, John Dillard, Andrew Merrick, Frank House, Joe Stovall, Cook, Jordan, D. C. Bufington, Jim Campbell, A. N. Stephens, J. D. Boren, Davis, Couch, W. C. Smith, B. S. Kyle, Jim Black, and Misses Jordan, Kyle, Black and Cook.

### ENTRE NOUS BRIDGE CLUB GUESTS OF MRS. DUVALLE

Mrs. C. F. Duvalle most delightfully entertained the members of the Entre Nous Bridge club on last Friday afternoon having as guests two tables of players.

Mrs. Mattie Gallemore was successful in making high score among the club members in the afternoon games and Mrs. J. Bob Austin made visitor's high score. At refreshment time an attractive plate luncheon was served in a dainty manner.

### YOUNG WOMEN'S MISSIONARY SOCIETY MET MONDAY

The Young Women's Missionary Society met Monday afternoon in the basement of the church with nine members present. The question contest started and Bible questions were asked and answered during the afternoon hours.

The next social service meeting will be held at the home of Mrs. C. E. Talbot on Scurry street.

### EASTERN STARS WILL MEET TUESDAY EVENING, JULY 19

All members of the Order of Eastern Star are requested to attend the regular meeting to be held at the Masonic Hall, Tuesday evening, July 19 at 7:30 o'clock. Important matters will come up for discussion. Visiting members are invited to attend the meetings.

### 1922 BRIDGE CLUB GUESTS OF MRS. EDDIE PRICE

Mrs. Eddie Price was hostess to the members of the 1922 Bridge Club on Wednesday afternoon entertaining most delightfully three tables of guests. Attractive bridge accessories marked the tables for the play and in the interesting card games of the afternoon high score was made by Mrs. Lib Coffee. Mrs. Hilo Hatch made visitor's high score.

At the ten hour dainty luncheon covers were spread and tempting salads and ices were served to the twelve guests. Besides the club members those present were: Miss Mary Price of Lafayette, Ind., Mrs. J. E. Wright and Miss Lorraine Pate of Little Rock, Ark., Mrs. Roger Gallemore, Ada Lingo and Miss Lillie Mae Hayden.

Members of the younger social set enjoyed a delightfully planned affair last Friday evening at the home of Mrs. L. E. Snell in Fairview Heights. Music and dancing were the diversions of the evening. Dainty refreshments of sandwiches and punch were enjoyed at the close of the party.

### ENTERTAINS GROUP OF YOUNG FOLKS LAST FRIDAY EVENING

Members of the younger social set enjoyed a delightfully planned affair last Friday evening at the home of Mrs. L. E. Snell in Fairview Heights. Music and dancing were the diversions of the evening. Dainty refreshments of sandwiches and punch were enjoyed at the close of the party.

The guests included: Misses Christine Little, Lola Belle Stewart, Eula Mae Sanders, Ozelle Orr, Margaret Happel, Marie Self, Geraldine Rhoades, and Pert Prichard, Thomas Neil, Hugh Dubberley, Arthur Osborn, Frank Segell, Sidney House, Randal Pickle, Glenn Queen, Lloyd Hughey, Frank Jones, Harold Harwood, Paul Rix, Jack and Bob Carstarphen.

### THE WORK OF REMODELLING THE W. O. W. BUILDING ON EAST SECOND STREET IS NOW NEARING COMPLETION AND THE BIG IMPROVEMENT ADDS MUCH TO THE APPEARANCE OF THIS BUILDING.

Three business spaces are made available in the sub-basement which will make ideal locations for various lines. J. D. Boren, minister of the Church of Christ, and family left Monday morning for Waxahachie, where Mrs. Boren will visit with relatives while he is conducting revival services at different places.

"Grandpa" F. F. Gary is in high spirits these days since he has a namesake. Frank Gary Bivings is the name that has been given to the son of Dr. and Mrs. Chas. K. Bivings, Jr., and Frank already sees a bright future for the young man.

Mr. and Mrs. Fred Stephens and daughter, Rozelle, returned Wednesday morning from a several weeks visit to points of interest in California.

### A BIG GAS WELL WOULD MEAN FAR MORE TO THE PROSPERITY OF BIG SPRING JUST AT THIS STAGE OF THE GAME THAN AN OIL GUSHER. WE NEED A CHEAP FUEL TO ATTRACT MANUFACTURING PLANTS TO OUR CITY.

Visit your gas company and ask him to show you the latest in gas saving devices. Phillips.

### VARIOUS BUSINESS INTERESTS DISCUSS TRAFFIC RULES

At a meeting Tuesday afternoon of representatives of hotels, restaurants, tourist auto camps, filling stations and garages, the proposition of doing something to counteract the reputation Big Spring is getting on account of arresting tourists for traffic violations was discussed. Whether the reputation is deserved or not Big Spring is now getting the blame from one end of the Bankhead Highway in Texas to the other. The arrests so far made may be perfectly right according to the laws but as Howard County appears to be one of the very few counties employing traffic cops the tourist is caught unaware as it were, and has not had a fair chance as he sees it. He feels sure that if ours is the only county out in this section that has decided to teach them to obey the laws they should be given the notice just as local folks have been warned before being arrested for violations.

The general census of opinion of the delegates was that the tourists are making a howl about being arrested here and Big Spring is being given a black-eye as a result. And the worst feature is that our city is going to be hurt for some time to come. Once let tourists put your town on the black list and the majority of the tourists are going to be warned to pass it by, and they will surely pass it by.

The representatives did not desire to see our traffic regulations wiped off the statute books nor did they want to be placed in the attitude of telling the county officials what to do. It was finally decided that about the only thing to do was supplement the warning signs the county planned to place on the highways at the county lines—warning tourists that the roads in Howard County were patrolled. It was agreed that if the tourists were given warning that our roads were patrolled it would then be up to them to take the consequences if they wanted to take a chance. It was decided to appoint a committee of three to have warning signs printed or painted and placed in all filling stations, tourist camps, hotels and restaurants conveying the information that traffic cops were patrolling the roads in Howard County. Owners of business houses also were requested to warn tourists, so that hereafter no one could say our citizens did not try to give them a square deal. We can't win them if they obey the traffic regulations—but even at that they may be caught napping; and our officials should be more lenient with tourists than with homefolks. A warning to responsible drivers is oftentimes worth more than a fine.

The proposition of getting up a petition asking that tourists be given a chance to learn the traffic rules before being soaked with a fine, was discussed but no action taken. It was decided to give the warning signs a trial.

The proposition of permitting tourists to make a left turn at Third and Main was discussed but no action taken thereon.

### BUILDING PROGRAM CONTINUES

Big Spring's present building program is no slouch, and all signs indicate a continuation of building activities. The buildings now under construction include the new seven story Crawford hotel, the new Wooten wholesale grocery building; the T. M. Collins business building, 50x99 feet; the remodelling of the W. O. W. building. Dozens of new homes are under construction.

Planned for early building: the new Cole Hotel, 48 rooms and 7 to 9 business spaces; the complete rebuilding of the telephone system and erection of office building; the erection of Winn Produce Co. cold storage and warehouse; the building of sub-station for Texas Electric Service Co. and building high line from Big Spring to Cisco, the addition to South Ward school building; several apartment buildings; erection of a new sanitarium; office building, now under consideration; likely that additional paving will be ordered for our city. More new homes will come this fall as the demand continues in spite of the residences erected the

Visit your gas company and ask him to show you the latest in gas saving devices. Phillips.

## GREAT CROWDS ATTENDING FIRST CHRISTIAN REVIVAL

Evangelist A. B. McReynolds and the Bible which he will give Friday night to the first person turning in the correct answer to the question: "What is the most horrible sin in the world?"

### Rev. A. B. McReynolds, the T. C. U. Bible College evangelist of Fort Worth, is speaking each night to packed houses at the First Christian Church. Words of highest commendation are heard on the streets praising the man and his messages.

Members of all denominations are taking an unusual interest in the meeting, Evangelist McReynolds having a reputation of giving a five dollar bill to any Methodist, Baptist, Presbyterian or religious persons whom he insults or hurts their feelings in his messages. Miss Annabel Helen Hall, the evangelist's half-sister, who is the T. C. U. Radio Soloist directs the congregational singing and renders a solo each night.

Thursday night Rev. McReynolds will discuss the subject, "Hell— or Why Doesn't God Kill the Devil?" He promises to answer any and all questions brought to the services on the subject of Hell or the future dwelling place of the lost.

Friday night the largest crowd ever packed in the auditorium is expected to hear his noted lecture on the "Most Horrible Sin." This lecture has been published and distributed thruout America. Thousands have pronounced it the greatest lecture they have ever heard. What sin causes the most sadness in the world? If you are the first one to guess the correct answer you will be presented with the Bible. All who guess correctly will be presented with a copy of his book recently published on this subject.

Saturday night the Evangelist will take for his subject, "Where Did Cain Get His Wife?" Sunday night all church people of Big Spring are invited to hear his sermon entitled, "Heathenism in The Big Spring Churches." The meeting will continue thru next week. Services begin each night at 8:15.

### REV. O. E. MORELAND OF SAN ANGELO WILL CONDUCT MEET

Rev. O. E. Moreland of the Chadbourne Street Methodist Church will do the preaching at the joint protracted meeting which will start Sunday morning, July 17 at the Lucien Wells school. Services will be held each evening at this school and Rev. D. B. Norman, pastor of the First Methodist Church at Garden City will assist Rev. Moreland with this meeting. The second week of the meeting services will be held at the Panther Draw school. Services will be held thruout the week. Everyone is invited to come out to these services.

### RADIO ARTIST SINGS FOR FIRST CHRISTIAN REVIVAL

The soloist for the revival meeting now in progress at the First Christian Church is Evangelist McReynolds' half-sister, Miss Annabel Helen Hall of T. C. U.

Altho she is only a girl nineteen years of age she has been awarded scholarships and honors as a soloist and the distinction of having the finest voice among more than a thousand contestants.

Miss Annabel Helen Hall, Soloist

Singing from station WBAP and other radio stations she was recognized as the Radio Soloist for T. C. U. In addition to singing on the Girls' Glee Club and quartet she also accompanied the Men's Glee Club on their tours and rendered solos between their numbers.

Her solo each night is one of the features of the revival and this young lady's visit in Big Spring is being more than appreciated by the great crowds that are attending this revival.

### WILLIAMS DRY GOODS STORE IS BEING REMODEL

The Williams Dry Goods store on Main street is undergoing remodeling this week. The interior of the store is being improved, making more space for the stock of goods carried. The shelves are being extended to the back of the store and other changes made. A fresh coating of paint will also add to the attractiveness of these improvements. It Pays to Read Herald Want Ads.

**The Big Spring Herald**  
BY T. E. JORDAN

\$2.50 A YEAR OUTSIDE COUNTY  
\$2.00 A YEAR IN COUNTY

Entered as second class matter at the Postoffice, Big Spring, Texas, under Act of Congress, May 3, 1897.

Big Spring, Friday, July 15, 1927

**NOTICE TO THE PUBLIC:** Any erroneous reflection up the character, standing or reputation of any person, firm, or corporation, which may appear in the columns of this paper, will be gladly corrected upon its being brought to attention of the editor.

When it's for the good of the community every fellow should lend a helping hand.

There are few oil fields that can show such a fine record as the Howard County fields. It is indeed remarkable that so few failures have been made while defining a thirty mile oil structure across our county.

It does not pay an individual nor a city to charge excessive rents, and nothing will more quickly drive good citizens away. A fair rental is better, for excessive rents are possible during very brief periods.

There are a number of reasons why Big Spring should make one of the best cities in West Texas, but these reasons will not suffice unless the citizenship are alive and willing to promote the welfare of their home town.

It is mighty easy to bring about misunderstandings, even when folks are working for a good cause. We are too quick to distrust each other and jump at conclusions. We don't believe in giving the other fellow a right to see things as we see them.

There is some guy somewhere who is willing to pipe gas into Big Spring if we can just get in touch with him. This is too important a proposition to be sidetracked just because the first investigators failed to grab the opportunity.

There is every evidence that oil development is beginning to show improvement in this territory. The Magnolia, the Marland, the California, and Pure companies are beginning to make plans for more drilling.

We are glad to note that Henry Ford was man enough to "acknowledge the corn" when he found he was in the wrong. Like many another he "got sore" and lost his head and is going to have to pay for the revenge he expected to exact.

You are not going to be rich unless you have the nerve to invest when times are hard and prices are low. The average person does not get the investment fever until prices go sky high. Right now is a good time to invest in your home town.

We ought to be able to raise a fund to build a sizable office building in Big Spring. There are quite a few citizens able to subscribe for a considerable block of stock in such an enterprise. If a few mounted men would take the lead the little fellows can be counted on to do their part.

The weatherman has certainly messed things up all this season. Too much rain in some sections and not enough in others; too cold in some parts, too hot in others. Tornados and destructive wind and hail storms have been all too plentiful in the country so far this year.

One of the finest resorts in Texas could be made at Moss Springs and we hope to see one there some of these days. Of course it would require considerable money to fix it up right, but a real resort in this section would be an attraction the year round.

With the Texas Electric Service Company and the Southwestern Bell Telephone Company and the Southern Ice and Utilities Company planning on extensive improvements in Big Spring in the near future the new pay rolls will help to keep business moving at a better clip.

Some like some of the tourists coming thru Big Spring have run 21 of our traffic cops, since complaints are voiced from El Paso and other points. True, it is unwise to get the tourists sore on a place, but it seems like they should obey the law if homefolks have to do so.

If folks would hit a lick or two to help improve conditions instead of spending all their time grumbling and complaining times would get better. Conditions, like folks, are not near as bad as they seem; it's like telling a fellow he looks bad—he will if you keep pouring it on.

There is ever some little misunderstanding bobbing up to keep Big Spring folks from working as a unit. There is no doubt but that we would all like to see our home town grow and prosper and we should be able to work together to this end without scrapping and criticizing each other.

Even our professional weather sharks have quit guessing as to when that general rain is going to hit Texas. It may arrive too late to save what little crops have made it thru so far and renew the pastures but it going to be welcome when it does arrive. We certainly did need the crops in this section this year but we've just got to hitch up our belt another notch and make the best of it.

This practice of cutting the topping on our highways in order to lay water pipes should be prohibited, unless the trench is filled with an asphalt topping. Cutting the topping and then filling in with loose dirt is a farce. Some mighty fierce jolts are now in evidence along our highways because there has been no restrictions on damaging the roads. We do not know whether the city or the Highway department will have jurisdiction in this matter.

Big Spring is certainly going to be in the swim when our oil wells come in. One land owner has promised to build a fine office building when an oil well has been brought in on his land; another has agreed to build a modern amusement park with swimming pool and other attractions; another has agreed to erect a number of modern apartment buildings; others have stated they would erect modern store buildings, apartments and homes. Here's hoping all of them are lucky and make good on their promises.

We are of the opinion that we have 25 or 50 citizens who are able to join together and build an office building in Big Spring. One progressive citizen from another city and another state has shown that he has faith in Big Spring by investing about \$250,000 in a hotel in our city. We could erect a modern office building for less than half that sum. We must have an office building if we expect oil companies to establish their headquarters in Big Spring. Are we big enough to handle this proposition.

Howard County has the oil and is going to be producing oil for many years to come. A thirty-mile stretch of territory is conceded to be oil territory. Oil men will be drilling test wells in this county for many years to come. We may not have a boom, but we will have a steady development program, and that is going to be worth far more and to a good many more people. The lease money that is going to flow in annually from practically every acre of land in the county is going to prove a mighty big help.

**CARD OF THANKS**  
We wish to express our sincere gratitude to our dear friends and neighbors for the many kindly deeds and comforting words extended us when we were called upon to part with our precious wife and mother. Your thoughtfulness in this hour of sorrow will ever be remembered by us. Especially do we thank you for the beautiful floral offerings.  
May God bless and keep you all in our prayer.  
J. W. Pitman and family.

**CARD OF THANKS**  
We wish to take this method of expressing thanks to our friends and neighbors who so kindly assisted us at the death of our dear wife and mother. Your kindly acts and comforting words helped to lighten our burden. We pray God's blessings on you all.  
W. R. Pinkston and children.

Beautiful brand new residence for rent, very reasonable. See Geo. L. Wilke.

**TWISTED WELLS IN OIL FIELDS EXPLAINED**

The little darkey's definition of a well as a "hole dat goes straight down till it hits de water" must be changed in two important items. The deepest and most valuable of wells hit oil instead of water, and now it is discovered that they don't go straight down.

In Orange County, California, is the noted Oilinda well No. 96. It is over 8000 feet deep—the deepest well in the world. The engineers concerned with it suspected that it did not pint straight for the center of the earth, as a good well should, but they could not prove this until some one worked out an instrument that can be lowered into a well and map and photograph its own course as it goes down. A description of

that instrument would take too much space; but here is what the test showed:

The Oilinda well is more like a corkscrew than a hole that goes straight down. In the first 1000 feet it gets a little out of plumb to the southeast. This deviation increases until a depth of 3751 feet is reached; and then the whimsical bore swings off to the northeast. At about 6000 feet it bears off northwest by west. Plotted on a sheet of paper, the well has made a three-quarter turn between the surface and a depth of 6945 feet, at which point the instrument stopped working. At one point, 6000 feet below the surface, it is 517 feet off the plumb line.

Of course, the changes of direction are gradual; but even so, it is a mystery to the layman how instruments can continue to work in such an erratic bore. But the expert says that other wells are just as twisty, in proportion to their depth. Furthermore, wells in the same neighborhood do not twist in the same direction. Each one follows a slant of its own.

Here is another interesting point: This well was bored to seek an oil pool directly below the derrick. But at 6000 feet depth, where the well is 517 feet off the plumb line, there are 20 acres below that derrick which haven't been explored at all. If memory serves, one of the most famous wells of all time, a well that made several millionaires, drained a much smaller area than that.

Evidently all the crookedness of the oil game isn't in offices and jackpots and little black bags. Some of it is underground.—Exchange.

**\$25.00 REWARD**  
Carpenters Union, local No. 1634 will pay \$25.00 reward for evidence sufficient of convicting any party stealing tools from any of its members. Notify C. E. Shive, Financial Secretary. Local No. 1634. 414

**DON'T PASS UP YOUR CHANCE!**

Rabindranath Tagore, the Indian poet, is responsible for the following story, briefly retold by Arthur Brisbane:

"A man knew that somewhere along the pebbly ocean shore, there was one pebble, a touch from which would change iron to gold.

"Hour after hour, he walked, touching pebbles to the iron bracelet on his wrist. But it did not change to gold.

"On he went, picking up pebbles, dropping them. As the sun was sinking, he looked down and saw that he wore a golden bracelet. He had picked up the magic pebble, and it had done its work. But for a long time he had worked mechanically, ceasing to pay any attention to the bracelet as he touched it.

"Which of the million pebbles behind him, possessed the magic power? He could not tell. He had held it, had thrown it away. The night was falling. It was too late to go back along the dark shore. His chance was gone. And, he had held it in his hands.

"For workers that treat their jobs mechanically, content to 'get by,' sooner or later the chance comes. He that fails to pay attention, passes the chance and loses it."

**NEW OPERATOR AND CLERK AT WESTERN UNION OFFICE**

C. L. Harris of Houston, is now employed as clerk at the Western Union Telegraph office in this city, and Herbert Hay of Lake Charles, La., is a new telegraph operator in this office.

Due to increased business in this territory it was found necessary to add a new member to the regular working force. Mr. Harris succeeds Miss Ruby Bell, former clerk, who has accepted the position of pay clerk with the Southwestern Bell Telephone company.

**RICH M-I-L-K**

We can furnish you with pure milk and cream because we have a herd of Jersey milk cows, led by a registered Jersey male—the have successfully passed the tubercular test given by the government.

Our milk is handled under sanitary conditions—highest quality and service.

**for Everybody, Everywhere for this Year's Vacation!**

**THE** automobile has brought the nation's wonder places and playgrounds within the reach of everybody, everywhere. And all of them await you when you own a Chevrolet.

Select the model that exactly meets your preference and your requirements from the eight Chevrolet body types—ranging from a snug roadster for two to a spacious closed car for five! Each one is a splendid quality car—enchantingly beautiful, roomy and easy to drive. Each provides the power and dependability for which Chevrolet is world famous. Each provides luxurious comfort and easy riding over any road, anywhere.

And each enables you to travel at a minimum cost—for Chevrolet is the world's finest low-priced car, renowned for economical operation with service available everywhere.

Come in—let us show you how little it will cost to make this year's vacation the most delightful you have ever had!

**at these Low Prices**

The Touring or Roadster	\$525	The 4-Door Sedan	\$695	The Imperial Limited	\$780
The Coach	\$595	The Sport Cabriolet	\$715	1/2 Ton Truck	\$395
The Coupe	\$625	The Landau	\$745	1-Ton Truck	\$495

All Prices Low. Free, Michigan. Check Chevrolet Delivered Prices. They include the lowest handling and financing charges available.

**Wander Places of America**  
In every section of the land, there are scenic splendors within easy reach over well paved roads. Visit them in comfort in a Chevrolet.

**Interesting Places Everywhere**  
South, North, East and West—America affords places of interest and beauty such as the gigantic mammoth being sculptured on Mount Rushmore.

**An Ideal Gopher's Vacation**  
Many gophers spend their vacation working from course to course getting the customary 1000 golf balls. A different pair of shoes on every day!

**THE NATIONAL PARKS ARE OPEN**  
Visitors from all over the world acclaim at the wonders of our National parks. All can be reached over good roads. All lead truth to the saying, "See America First."

**VACATION SPORTS IN THE GREAT OUTDOORS**  
Fishing and bathing are vacation pleasures that combine themselves easily. There is always a convenient lake or stream—when you own a Chevrolet!

BIG SPRING, TEXAS

**QUALITY AT LOW COST**

**PRODUCE LESS FOR GREATER PROFIT**

Produce less and make profit. This is the direct road on which the farmer must travel to reach prosperity. So long as farmers continue to glut the market, even temporarily, with their products, will they fail to receive a reasonable price for what they produce. Overproduction is the speculator's opportunity and the farmer's financial loss.

Everybody except the farmer himself realizes that overproduction is the real cause of the farmer's distress financially. If all those farming now remain on the farm and cultivate as much or more land as they are now doing, farmers as a whole will remain to a very large degree in financial distress. If 50 per cent of those now farming should abandon the land and engage in other industries providing better returns on their labor, the others remaining as producers, under proper management, would become proportionately as prosperous as those engaged in the other industries. If all that are now producing stay on the farm, the only hope for better conditions is to cut the cultivated land to one-half its present acreage. In other words, produce less, increase quality, and make a profit.

With improved methods for increasing per-man production we are greatly overdoing a good thing. So long as we produce more than a strong demand requires we are going to remain in the broth and the swimming will be hard. Cut the acreage, reduce the number of producers, or organize as other unions and reduce the labor hours and spend more time and money enjoying life. We can and will profit more by having a good time like the forty-four-hour-per-week city union workers. Others work less and get more. Why not try it anyway?

It must be understood that Farm and Ranch never advises careless, slipshod methods of farming in order to reduce temporary surplus. Efficient and economical production on less acres, if followed by the majority of farmers, will bring about the desired results. Efficient production is always more profitable than wasteful production. A smaller acreage of the major crops of the country is desirable from the standpoint of greater acre production of quality products. It is also from the standpoint of profit for farmers, at least, until such a time that they can organize, gain control of the distribution, and are in a position to demand and receive fair prices for what they produce.—Farm and Ranch.

Mrs. W. A. Miller and son, Paul, returned Friday morning from a several weeks visit with relatives and friends at Birmingham, Ala., Nashville, Tenn., and other points.

**SHUN THE MUDSLINGER**

When you hear a man impugning the honor of the rest of his fellows, shift your pocketbook to a safe place. When you find a man claiming that chastity is a name only, and virtue an unknown quality in women, give the lecherous creature a wide berth. "Honi soit que mal y pense"; as a man thinketh in his heart so is he," is the Bible translation of the old French proverb. It is the scoundrel who desires to see everything brought to his own dead level, who sneers at good and who sniffs at purity. It is the polluted rotten heart that scents carrion in other lives. The real hearted and true find everywhere wholesomeness and truth; the honorable and just find plenty of probity and righteousness even in this wicked world. Condemn not yourself by the estimate you put upon the worth of your fellows.—The Battery Man.

Mr. and Mrs. George Carter and children, Misses Donna, Adline and Agnes and Miss Anna Mae Freeman returned Friday night from a week's outing at Christoval. Mr. Carter took the sulphur baths during this stay and reports that he feels years younger.

**CHURCH OF CHRIST NOTES**

Bible school 10 a. m.  
 Preaching 11 a. m.  
 Communion services 12 m.  
 Ladies Bible study every Monday afternoon at 4 p. m. Sixteen ladies were present last Monday. The lesson for next Monday is Lesson 31, or the first four chapters of Exodus. Every lady is urged to come.

Mid-week Bible study every Wednesday evening at 7:45. We are studying the Deliverance of Hebrews from Bondage. Come and have a good lesson next time.

Brother G. A. Dunn has just closed a wonderful meeting for the church and outside world. The church is much strengthened as the result of this revival. We want to make mention of Bro. R. M. Morgan's soul-inspiring services in song. The old gospel singing of hymns and psalms were fine. We are hoping that these two men will be with the church next summer for the revival.

We want to announce that there will be Bible classes for children between the ages of 5 to 14 years every Friday morning at the church from 9 until 10 o'clock. Mothers are urged to send their children of these ages. Let them have the plain Gospel teachings if they get it while they are young they won't depart from it when they grow older. This means all children in town who wish to attend. Beginning Friday morning, July 15. Send your children.

The church also announces that the minister, Bro. J. D. Boren, is away holding his meetings at different places and will be absent from this city about two months. We will be glad when Brother Boren returns to us. Bro. W. C. Smith and Brother Little will do the preaching during his absence.

The church is grieved to lose Bro. and Sister Joe Stovall and little Charline as members of our congregation. We surely will miss them, but we are hoping that they will have an opportunity to do for the church at their new home, what they have done here. Perhaps there will be mission work to do. Both are competent church workers.

**BABY DRINKS ENERGINE**

Emily Jane, two year old daughter of Mr. and Mrs. Jones Lamar drank a small quantity of energine Tuesday afternoon but it was removed from the stomach immediately, and the baby is getting along nicely. The can of energine was left in the window and the baby, unnoticed got the can from the window and was playing with it. Finally she removed the top from the can and when noticed was drinking some out of the top.

She was given attention at once, and suffered no ill effects therefrom.

**Was in Misery All Over**

"I was in a dreadfully run-down condition," says Mrs. Chas. L. Lacroix, of Montgomery, La. "I suffered a great deal of pain. I was in misery all over. I could not sit up and I could not lie down. I couldn't sleep and at times I would have dreadful vomiting spells. The aches and pains seemed to cover my whole body."

"One night my husband brought me home six bottles of Cardui and I began to take it. I could tell that I was improving from the first bottle, but I kept on taking the medicine, for I knew that I needed a tonic that would build me up and strengthen me where I was weak and run-down. That is exactly what Cardui did for me. After I had finished the six bottles I felt fine."

"I feel truly thankful for what Cardui has done for me, for I could not have gone on living in the desperate condition I was in."

He is adding to his equipment and fixtures and will have a modern plant and be better prepared to render satisfactory service in cleaning and pressing.

**NOTICE IN PROBATE**  
 THE STATE OF TEXAS

To the Sheriff or any Constable of Howard County—Greeting:  
 You are hereby commanded to cause to be published once each week for a period of ten days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Howard County, a copy of the following notice:  
**THE STATE OF TEXAS**  
 To all persons interested in the estate of Martha Jane Robertson, Deceased, J. M. Robertson has filed an application in the County Court of Howard County, on the 13th day of July 1927, for Probate of the Last Will and Testament of said Martha Jane Robertson, Deceased, and for Letters Testamentary, which said application will be heard by said Court on the 1st day of August, 1927, at the Court House of said County, in Big Spring, Texas, at which time all persons who are interested in said estate are required to appear and answer said application, should they desire to do so.

Herein fall not, but have you before said Court, on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.  
 Witness my hand and official seal, at Big Spring, Texas, this 13th day of July 1927.  
 (Seal) J. L. PRICHARD, Clerk.  
 County, Court, Howard County, Texas. 4321

Mr. and Mrs. R. F. Jenkins returned Tuesday night from a visit in El Paso and Ruidosa.

**OLD SETTLERS REUNION NOTICE**

T. H. Johnson chairman of the committee of arrangements for the Howard County Old Settlers Reunion wishes to correct a rumor which is going the rounds relative to barring all but old settlers from the picnic grounds.

All who bring baskets are privileged to come to the picnic grounds, hear the talks and take part in the celebration.

On account of limited funds only only one or two beaves are barbecued and as this is just sufficient to feed the old settlers, only those wearing the old settlers badges will be given barbecue. The committee would like to throw the barbecue wide open to the public but it is impossible to do so.

If you want to bring a basket of good things to eat you will be welcome at the picnic ground even if you have no badge.

**Texas Telephone News**

A Journal of Telephone Information Published by the Southwestern Bell Telephone Company

Vol. II

No. 7

**TELEPHONE BIG FACTOR IN FLOOD RELIEF WORK**

Emergency Telephone Service Provided Throughout Flooded Areas

ON a levee at a bend in the Mississippi a thousand men were building with sand-bags a second-line defense against rising waters which threatened hundreds of miles of fertile cropland. Over a telephone, housed in a wooden box nailed to a tree, an engineer was talking to headquarters—reporting on the progress of the work, asking for reinforcements and additional material, receiving Weather Bureau forecasts which would be vitally important to him in planning the strategy of this grim battle for lives and property.

Such is telephone service in an emergency—service in which telephone men and women do very much the same things they do every day of their lives, but do them under conditions that give vivid emphasis to the import of their efficiency, devotion, and fidelity to public interests.

In such crises, when even the most commonplace of calls may become a matter of life or death, the public realizes its day-by-day dependence upon the telephone and upon the men and women who make of it an instrumentality of human service.

**Bell Laboratories' Products TELEPHOTO**

Telephoto, the transmission of pictures over telephone wires, is one of the latest products of the Bell Laboratories.

Before this invention was put into service, the Air Mail offered the fastest means of sending pictures between two distant points. A speed of 100 miles an hour was indeed rapid.

By using telephoto, pictures can be sent between any two telephoto offices in the country in seven minutes.

Telephoto offices are now located in St. Louis, Chicago, Cleveland, Atlanta, New York, Boston, Los Angeles, and San Francisco, and it is planned to extend the service to other large cities in the future.

**DIVIDENDS**

On July 15, more than 418,000 stockholders received their dividend checks from the American Telephone and Telegraph Company. This Company has the largest number of stockholders of any company in the nation, and more than half of them are women. Stock may be purchased for cash in full or on a monthly payment plan, ten dollars per share per month, through the local telephone business office.

LONG DISTANCE RATES REDUCED AFTER 7 P. M.

### PAVING OUR ROADS

The voting of bonds for the improvement of Hale County highways marks another epoch in the development of Hale County. It has been the history of the highway improvement programs in various counties of Texas that even those who opposed the highway bond issues, the highways completed, see the benefits to be derived from the good highways. In many counties small programs have been undertaken by precincts and later the movement has taken on a county-wide scope.

There is always the argument advanced against bond issues that it is unfair to saddle posterity with debt. There was never a more fallacious argument. Take for example our schools. Without bonds it would have been impossible for one-third of the good school buildings in Hale County to have been erected. Most of these buildings will be good and serviceable for many years after the bonds have been retired. Without a bond issue in the early stages of development in Plainview, as another example, we would not now have our present excellent system of water distributing mains and sewer mains. We are yet paying for improvements which were made when James R. DeLay was mayor of Plainview. The debt for those improvements was saddled on us by the early city dads; yet we are using the conveniences they provided and should help pay for them.

Why not saddle posterity up with reasonable debts? Are we not indebted to our forbears for the things which they made possible for us? Will not our posterity be similarly indebted to us? The more constructive things we do for them the greater will be their moral debt.

Public debt for the right things is no more harmful than private debt. Who of us have progressed in our individual affairs without using our credit and going into debt? Isn't there a strong parallel between public and private debt?

Hale County has set an example that will be followed by other counties in this section. As other counties pave their roads the value of our roads will be enhanced.

If this election assures the paving of Hale County's roads we will look with pride in a very few years on the forward looking citizens of the county who have by their votes made possible the paving of our roads. Plainview Evening Herald.

### PAVING THE BANKHEAD HIWAY

Encouragement for the paving of the Bankhead Highway, or State Highway No. 1, is offered by Judge W. R. Ely, member of the state highway commission.

This is particularly interesting to El Paso, Hudspeth and Culberson counties. We have hopes of seeing the highway paved as far as Sierra Blanca reasonably soon.

Judge Ely is sympathetic toward this project.

"The highway in West Texas counties is up out of the mud," he says, "but the dust is almost as bad. It is the commission's guiding principle that the public is entitled to highways over which it can travel comfortably as well as safely. Hard-surfaced highways are the solution."

There is little doubt that Judge Ely and commissioner Sterling will look with favor upon the paving of the Bankhead, and probably commissioner Cone Johnson also.

Finding the money for the state's share in a large and therefore costly paving project is another matter.

Texas has 20,000 miles of state highways to improve and maintain, and an income of about \$10,000,000 a year with which to do it.

To keep within that income would defer the completion of the highways, including paving the main arteries, for a generation or more.

In order to permit the present generation to enjoy completely improved highways, a \$100,000,000 revolving fund bond issue will be voted upon by Texas taxpayers, the money to be used in completing the highway system as promptly as possible.

Such opposition as there is to the proposal is based on the erroneous belief that the bond issue will increase property taxes. It will not. Provision to meet interest and sinking fund will be made by setting aside the revenue from one cent of the gasoline tax.

Funding the bond issue from the gasoline tax will mean, among other things, that the large number of tourists attracted to Texas by fine highways will help pay for the roads.

It is not an experiment. The plan has been tried in other states and with success. This is a bond issue which will help pay for itself as it goes along, and with no additional taxation either upon real estate or upon the motoring public.—El Paso Herald.

### CHAMBER OF COMMERCE

#### JUNE NEWS LETTER

Your city, its growth, cleanliness, progress, management and prosperity is your job. Are You On the Job? Our city will grow as it is guided, straight or crooked as a tree. If selfishness predominates it will not thrive and nobody will love it. If generous-souled men and women of vision are its cultivators it will grow and prosper and the stranger who comes this way will stop to live and will ask for a chance to lend a helping hand.

The public spirited citizen who is looking above and beyond his personal gain can see in the Chamber of Commerce an opportunity for service, where he may get the cooperation of his neighbors in promoting such civic ideals as are indicative of progress. There is a decided contrast when compared with the selfishness of those who live in a city, derive their living therefrom, enjoy its schools, churches, conveniences, etc., and make no endeavor to return in even a small part, the advantages they enjoy. Such selfishness, like small souls, stunted vision, disappointed hopes, and half hearted effort never has, nor never will make a good city or anything else good or worthwhile. We are proud that Big Spring has the reputation of being a generous people. Let's make it even more attractive for its generosity and hospitality.

Mr. Baker of the Southwestern Bell Telephone Co. has brought to Big Spring "Good tidings of great joy"—a new telephone system to be installed soon.

According to Dr. Ellington, president of school board, the school bond issue June 23 carried 13 to 1. Remember the paving bond election for August. Don't forget to vote.

Big Spring will be host to the West Texas Hardware Association September 15. We are hoping the Crawford will be finished by that date.

Another convention coming November 9 and we are asking for the West Texas Druggists to hold their winter meeting with us. Conventions bring business, let's have more of them.

The Express company has been petitioned to extend delivery across the railroad track and further east on Second and Third streets.

We have no band director—but should have. Another problem for solution.

While other counties around us are busy spending money for agricultural betterment, good old Howard plods its weary way. Three West Texas counties that each have County Agricultural and Home Demonstration agents have recently co-

operatively hired Prof. Grant of the Animal Husbandry Department of A. & M. College to work with their agents in developing the dairy interests.

We are glad to hear members of the highway department express their interest in the Bankhead highway and to say they will likely resurface it in 1925.

A gas survey of Howard County oil fields have been made. According to engineer's report a sufficient amount of gas to supply Big Spring is available, but scattered over too large a territory to justify piping it to town.

The City Commission is carrying on a program of development that deserves the support of every citizen.

The viaduct question is getting a great deal of consideration. Let's hope that it will be built before some life is lost at the crossing.

During three days, seventeen additional members of firms and individuals were secured by the assistant secretary. If you know of a firm or individual that should become a member of the Chamber of Commerce, see that they have an invita-

tion to place their membership with us.

No city is complete without parks. Why not a move to secure parks before desirable places are too high to buy.

Joye Fisher, chairman of the highway committee, is planning for Big Spring and Howard County to be represented at the highway meeting at Pecos, July 23.

Before leaving on your vacation call at the Chamber of Commerce office and get road maps, stickers, and advertising material.

People come for a hundred miles around to have us fit glasses. There's a reason—A Better Fit for Less Money. Wilke's Jewelry & Optical Shop.

If you don't love your work, don't worry about it; some other fellow will soon have it.—Er.

John Currie and Miss Agnes Currie went to San Angelo Monday to accompany Miss Minnie Weddell to her home there. Miss Weddell accompanied the Currie's on a vacation trip through Wisconsin.

Friends of Dr. and Mrs. O. E. Wolfe were grieved to learn of the death of their baby girl, Luf James, on Saturday, July 9.

**"BABE" RUTH HOME RUN KING TO BE AT LYRIC THEATER**

We expect Babe Ruth to knock home runs but to find him a really good screen actor is like discovering a pearl in an appetizing oyster. The sensational slugger proves his celluloid worth in "Babe Comes Home," the First National Picture at the R. and R. Lyric theater Monday and Tuesday, July 18 and 19, in which he has the stellar role, supported by Anna Q. Nilsson and Louise Fazenda, featured artists.

A really fine baseball comedy-drama results from Ruth's good work in a part originally intended, we are told, for an experienced actor. The fact that a refreshingly novel love story and bubbling comedy are even more important than baseball in the picture will no doubt interest feminine patrons. Ruth scores as a comedian, as a screen lover, and — naturally — as a provider of thrills in baseball sequences. Miss Nilsson was never better nor more appealing, and Miss Fazenda never funnier.

Ethel Shannon, Lou Archer and Arthur Stone are among the supporting players, all with intriguing characterizations. The story, based on Gerald Beaumont's magazine serial, "Said With Soap," begins with the heroine as a laundry girl, and soiled baseball uniforms link the laundry with the diamond. The girl goes to investigate, sees the hero play and receives a foul tip in the eye as an introduction.

Then comes their romance, with baseball incidental to an excellent and very human plot idea wherein the heroine tries to reform the hero, and promptly gets into some very humorous difficulties.

"Babe Comes Home" is, in short, a photoplay offering that the whole family should enjoy and which will interest women as well as the men and boys who will flock to the R. & R. Lyric to see their baseball idol on the screen. Wild Gunning produced the picture for First National, and Ted Wilde, who directed Harold Lloyd's most recent success, presided at the megaphone.

Folks who see the picture will wish that Ruth might appear in more screen plays.

**MAKING BUSINESS**

"Poor Jim has been sent to an asylum," said the barber, flourishing a shining razor over his customer.

"Who's Jim?" asked the man in the chair.

"Jim is my twin brother, sir. Jim kept brooding over the hard times, and I suppose he finally got crazy."

"Is that so?"

"Yes; he and me worked side by side for years, and we are so much alike we couldn't tell each other apart. We both brooded a great deal, too. No money in this business now."

"What's the reason?"

"Prices too low. Unless a customer takes a shampoo, it does not pay to shave or cut hair. Poor Jim! I caught him trying to cut a customer's throat because he refused a shampoo; so I had to have the poor fellow locked up. Makes me sad. Sometimes I feel sorry I didn't let him slash all he wanted too. It might have saved his reason. Shampoo, sir?"

"Yes." —Exchange.

**50 USES FOR ICE**  
**how many do you know?**

1. **Refrigeration**—In a good refrigerator ice supplies the only economical, sure and safe refrigeration for the proper and sanitary preservation of foods.
2. **Drinks**—For those delightful, cool, refreshing drinks—lemonade, punch, etc. Crack ice fine for quick chilling.
3. **Sherbets**—Those cold, delicious sherbets and other ices are made easily with cracked ice and salt.
4. **Ice Cream**—With cracked ice and salt, ice cream is easily made at home.
5. **Frozen Fruits**—Frozen fruits and other appetizing frozen desserts are made with cracked ice and salt in a surprisingly simple and quick way.
6. **Laces and Linen**—The finest laces and linens are kept better and finer when washed in the soft melted ice water which not only removes dirt easier but leaves the material soft and fluffy.
7. **Baby's Flannels**—The soft melted ice water used for washing baby's flannels keeps them softer, cleaner and purer than any other water.
8. **Dishes, Pans and Pans**—Are washed and dried more easily and are free from greasy film when washed in this soft ice water.
9. **Dainty Hands**—Are never roughened nor reddened; never split or cracked by "soft" water. Think of the value of this ice water to you.
10. **Babies Bath**—Is very important. Don't injure their tender skins by using "hard" water. Be safe and use the ice water—it is "soft" and harmless.
11. **Shaving**—Is made a pleasure when ice water is used; for a quick shave and to keep the skin soft and pliable there is nothing like it. In most cases shaving troubles are not the soap, cream or blade, but the water.
12. **Hair**—For washing the hair, melted ice water is so soft it makes fine suds and removes all oily substances, leaving the hair light and fluffy.
13. **Dyeing**—Use melted ice water. It readily absorbs all color, dissolving it uniformly and releasing color to the fabric in an even, uniform tint.
14. **Batteries**—For filling batteries in automobiles, etc. melted ice water is cheaper and as effective as distilled water, and always available.
15. **Complexion**—Ice rubbed over the cheeks will give a rosy flush and by stimulating circulation improves the complexion—it is better and safer than cosmetics and is permanent when used regularly.
16. **Headache**—Cracked ice in an ice bag or wrapped in a cloth will often cure headache when applied to neck or head. Rubbing the soles of the feet with ice draws the blood from the head and so relieves headache.
17. **Drinking Water**—Melt in clean covered receptacles for drinking water. Melted ice makes a pure, soft drink lacking the flat, disagreeable taste of distilled or bottled water. It is safer drinking water than bottled spring water and much cheaper.
18. **Clothes Washing**—Melted ice is of great advantage where the local water supply is hard, because it is always soft and sweet. For washing delicate fabrics, melted ice being soft removes dirt and discoloration by careful rinsing and often without soap.
19. **Grease and Fat in Soups**—To remove grease and fat from soups and stews wrap a piece of ice in cheese-cloth and pass rapidly over the surface of the hot liquid—the grease will adhere to the cloth.
20. **Pie Crust**—Melted ice water in pie crust makes light, short crust. Many bakers use "soft" water.
21. **Tea and Coffee**—Melted ice water used in making tea and coffee requires less tea or coffee per cup than ordinary water. The brew also holds all the fragrance and aroma of the tea leaf and coffee bean. —Also, if hot tea or coffee is poured over cracked ice without dilution, the drink will retain all of its original fragrance.
22. **Bread**—Cakes and pastry kept in the refrigerator will be fresh and sweet until used.
23. **Chewing Gum**—To remove chewing gum from the children's dresses or hair, or from rugs, hold a piece of ice on the chewing gum—this will harden it so that it can be scraped off easily.
24. **Prescriptions**—Many druggists use melted ice water instead of distilled water in compounding prescriptions because it is less easily contaminated and dissolves refractory drugs more quickly.
25. **Pain and Inflammation**—To relieve pain and inflammation in cases of gout and inflammatory rheumatism apply cracked ice in ice bag or wrapped in cloth.
26. **Circulation**—To restore circulation in cases of numbness of limbs, rub affected parts with a piece of ice.
27. **Croup**—To cure croup, rub throat and chest of patient with a piece of ice until skin is very red. Relief will follow in about one minute.
28. **Sore Throat**—To cure coughs and sore throat rub affected parts with a piece of ice.
29. **Gangrene**—To cure gangrene, first pack affected part in cracked ice, then plunge into very hot water, about half an hour in each alternately. This often restores circulation and effects a complete cure.
30. **Sick Room**—To cool the sick room place a cake of ice in a tub in front of an electric fan—the temperature can be lowered many degrees in this manner.
31. **Stings**—To relieve irritation following stings of bees or other insects, dissolve two teaspoonfuls of bicarbonate of soda in a half pint of melted ice water and apply liberally. In bad cases put the preparation on a piece of absorbent cotton and place over affected spot, keeping cotton wet constantly.
32. **Snowball**—Scrape ice very fine, flavor with fruit extracts; this is delicious and cooling on a warm day.
33. **Hiccoughs**—Cases that seem to defy ordinary treatment will often respond to one or two applications of cracked ice.
34. **Sunstroke**—Put ice in a rubber bag or cloth on top of head and down the back.
35. **Cold Feet**—Ice rubbed on the feet removes this trouble without delay.
36. **To Stop Gaggling and Vomiting**—Chew on a small piece of ice until relieved.
37. **Carbuncles**—Cracked ice applied to carbuncles will take the sting out of them—also reduce inflammation.
38. **Blood Poison**—Ice is used to stop the spread of blood poison from the parts affected.
39. **Economy**—Ice kept in the ice box during the winter not only preserves the food at the proper temperature, but insures food keeping longer, thus saving money.
40. **Roses and Fruit Trees**—Will prevent hasty and unseasonable growth.
41. **Photography**—Ice water used in the developing mixture insures bringing out the details and means sharper pictures.
42. **Candy Making**—Ice is used to make certain mixtures set properly.
43. **Sausages**—Cracked ice is sometimes mixed in sausage meat while making sausage.
44. **Oil**—Ice is used to cool tempering oil.
45. **Plumbers**—Use cracked ice and salt to freeze the water line where there is no shut off—this permits them to make the proper repair.
46. **Radiators of Automobiles**—Will last longer and require less repair if ice water is used in them rather than "hard" water which causes corrosion and scale.
47. **Canned Fruits**—Peaches, pears, apricots and other fruits may be frozen in the can by packing with cracked ice and salt about three to four hours.
48. **Watermelon**—Pack in cracked ice and a little salt in a tub—the melon will be chilled through in four to six hours.
49. **Garnishes**—To make salads, fruits and vegetables more attractive and appetizing, garnish with sparkling cracked ice.
50. **Fruit Juices**—In serving, place cracked ice around the glass instead of in the drink—thus preventing dilution and loss of flavor.

A Helpful Suggestion—Clip this advertisement and put it up in the Kitchen for ready reference.

**FINE SHOWERS VISIT COUNTY**

One of the best, even tho not one of the heaviest showers in months, visited the greater portion of this section Wednesday evening and continued for several hours. As has been the case all year, the showers have been generous in some localities and scant in others. Some places report the rainfall at two inches, others got just light showers.

Wednesday's attempt seems to be the nearest to a general rain we have had in ages. Tourists arriving say the territory from Fort Worth to Odessa was in the rain belt Wednesday and the rainfall extended considerable distances north and south; heavy in some spots and light in others.

These showers are going to do a wonderful amount of good where crops were up and coming, but are not going to help the fellow who had been waiting for the rain to plant his crops.

Pastures will also be benefitted where the rainfall was one-half inch or more.

Cotton and feed crops in some portions of the county have never suffered for moisture so far this year and they are going to show good returns if insect pests or hail storms pass them by. The county as a whole is going to fall short of making a normal crop but it is hoped that higher prices for farm products will help make up for the deficiency in quantity.

**NOTES FROM JUNIOR DEPARTMENT OF METHODIST S. SCHOOL**

Our Junior attendance this hot, July weather is nothing short of marvelous. One round hundred was our contribution Sunday to the grand total of 284 for the entire Sunday school. These are the boys and girls from 9 to 12, including the officers and teachers of the department.

The Junior superintendent has on display in her home a book turned in by Margaret McDonald, a third year Junior. It is the work of the past quarter's graded course, and would score A-plus under the most rigid examination. Especially is the map and color work of highest merit. We have the past two Sundays had two very out of the ordinary specials furnished by visitors at general assembly.

Mrs. Alex Mitchell, 400 Gregg St., has a guest her nephew, William Perkins of Chicago. This young man wears a medal showing 5 years of constant attendance at Sunday school. In January it will show 9 years. He made a splendid talk on Sunday school and church attendance also on daily Bible reading. Coming from a young fellow of 20 this talk made an excellent impression.

The past Sunday Mr. Bruton gave a whistling solo of unexcelled beauty. This young man is an artist in his line and will no doubt go far in the musical world. His whistling solo was a genuine treat.

The Juniors are to be given a Sunday school picnic in the near future, a reward for faithful attendance and good work. The date will be announced later.

No dry cigars in our case. . . . . Cunningham & Phillips.

**EXPRESSION OF THANKS**

I wish to publicly thank Mrs. A. F. Pegues and all others who assisted in making up the purse for purchasing me a horse. I appreciate this favor and also the work you have given me from time to time. If I can, at any time, return the favor, do not hesitate to call on me. I thank you all. J. H. Myrick.

Special — Friday and Saturday — 4 bars Palmolive Soap, 25c. Fox Drug Co.

**FLORIDA NEWSPAPER MAN BUYS THE ODESSA NEWS**

Frank P. Fildes, former publisher of the West Palm Beach Times and Miami Tribune, has purchased the Odessa News from Barney Hubbs. Fildes plans to make the News a daily publication if Odessa continues her rapid growth.

Smoke a pipe. . . . . Cunningham & Phillips.

Don't overlook the tip to secure refineries, manufacturing plants, cotton mills, railroads and everything else that will help upbuild the community. While oil development is in full blast and money is easy is a good time to go after the things which will bring lasting prosperity to our city.

Special — Friday and Saturday — 4 bars Palmolive Soap, 25c. Fox Drug Co.

Men learn most when they laugh, for we see but little when our eyes are filled with tears.

**Personal Mention**

J. L. Ryan, oil man of Oklahoma, was a business visitor in Big Spring this week.

Your favorite magazine. . . . . Cunningham & Phillips.

**FISHING TACKLE STONE'S VARIETY STORE**

Mr. and Mrs. J. Bob Austin and Miss Vivian La Jeunesse spent Sunday at the Carlsbad Cavern.

Miss Louise Shive left Monday morning for Seymour where she will spend her vacation visiting relatives and friends.

**CAMPING SUPPLIES STONE'S VARIETY STORE**

W. B. Pine one of the most successful independent oil operators of Oklahoma on a visit to Big Spring not long since made the prediction that a big gas field would be found between Big Spring and the oil field to the southeast of this city.

Paint in small cans for any purpose. . . . . Cunningham & Phillips.

Mr. and Mrs. Roy Price arrived Sunday night from Dallas to spend their vacation in this city with his parents, Mr. and Mrs. John Price, other relatives and friends.

R. C. Cook who resides 8 miles northwest of Big Spring reports 1 1-2 inch rainfall Wednesday and an inch at his place last Saturday. Crops are very late in his section but the fine showers should bring them along in great shape.

Don't acquire the tombstone habit of never saying anything good about a man until he is dead.

B. W. Boyd and wife returned last Thursday afternoon from a fishing trip to the San Saba river, 10 miles south of Menard. They brought back a string of fish, 35 or 40 on the string. Mrs. Boyd caught one that weighed 35 pounds.

The other fellow's faults are just as big to us as ours are to him.

Buell Cardwell, clerk at the West Texas National Bank, is now enjoying his vacation.

Special efforts are being put forth to secure the meeting of the West Texas Drug Association in March, 1928. The August meeting will be held at Sweetwater, and at this meeting the 300 members will be invited to come to Big Spring for the spring meeting. Here's hoping we get it!

Miss Daphne Meadors is taking her vacation now, from work at Austin and Jones dry goods store.

Miss Gwendolyn Bittle left this week for a visit with relatives and friends in Dallas, Marshall, Palestine and Henderson, Texas.

Mr. and Mrs. McCall Gary arrived Wednesday morning from New York City for a visit with his parents, Mr. and Mrs. F. F. Gary, other relatives and friends in this city.

Mr. and Mrs. H. H. Butler and children after a two weeks visit in this city with Rev. R. L. Owen and family left Wednesday morning for their home in Waxahachie.

You must take your hat off to a good sportsman. A. J. Crawford. He is practically wagering \$250,000 that Big Spring is going to make a good little city. He had more nerve and more confidence in Big Spring than any citizen or any bunch of homeguards.

The scrap between ex-champion Jack Dempsey and near-champion Jack Sharkey, which is to take place in New York City July 21 is now the big sporting proposition. It is easy to start an argument by giving your opinion as to the outcome of this struggle. Try it if you like to argue.

Two weeks of weather extremes climaxed by a disastrous earthquake in the Holy Land that have followed the total eclipse of the sun in northern Europe June 29 are alarming superstitious persons and puzzling scientists. Earth shocks, dazzling lightning, storms, cloudbursts, floods and heat waves have visited Europe and the fringes of Asia and Africa.
