

## Ickes Gives Out Good News On Gas Rationing, Added Source Of Rubber

WASHINGTON, July 30 (AP)—Petroleum Coordinator Ickes said today that the oil industry has uncovered capacity for production of 200,000 tons annually of butadiene. Ickes said this would make possible the output of 240,000 to 250,000 tons of synthetic rubber annually over and above presently projected rubber programs.

"It's brand-new; it's like finding an oil well," Ickes told his press conference.

The new rubber production could be "brought in" by the end of the year by conversion of existing gasoline refining plants, he said. The material used for butadiene would be gasoline.

Ickes declined to say whether he expected such a program would make more rubber available for civilian use.

Several oil companies already are adjusting gasoline refineries to butadiene output, Ickes said, adding that several independent companies might need government financial assistance to make the adjustments.

WASHINGTON, July 30 (AP)—Petroleum Coordinator Ickes today declared that nation-wide gasoline rationing was not needed now as a measure to bring about larger deliveries of petroleum to the rationed eastern states.

The statement, made at his press conference, differed sharply with the position of Joel Dean, gasoline rationing officer in the office of price administration who said yesterday a recommendation for nation-wide rationing, endorsed by himself and OPA Chief Leon Henderson, now was before President Roosevelt.

Ickes declined to discuss the possibilities of universal gasoline rationing as a rubber conservation measure.

As to the eastern petroleum situation, the coordinator told newsmen that next winter "we may have to ask people to set their thermostats at 55 degrees or even lower, and to eliminate heat from several rooms of homes."

He referred to about 1,250,000 homes in the east, and other establishments using fuel oil for heating.

## Crash Kills 10 Employees Of Airline

**Bodies Burned So Badly Identification Is Difficult**

MINNEAPOLIS, July 30 (AP)—Ten Northwest Airlines employees were killed when a U. S. Army cargo transport plane crashed shortly before 8 a. m. today on Wold-Chamberlain field during the take-off.

Fire which broke out when the plane crashed so badly burned several of the bodies that identification was not possible.

The known dead, announced by Northwest Airlines officials: Kenneth S. Olson, 28, Minneapolis, co-pilot.

John F. Fisher, 26, Fremont, O., co-pilot.

Leonard O. Larson, Northwest Airlines mechanic.

Leo D. Hinesley, Northwest Airlines mechanic.

Wilbur C. Rose, Paul F. Parlin and Winston A. Luchau, all Northwest Airlines groomers.

The plane, a 247 Boeing 10 passenger, was loaded with 270 gallons of gasoline before the take-off. The ship, formerly owned by United Airlines, belonged to the government and had been acquired by Northwest Airlines to use as a cargo ship on the northern division.

It was operated under the ferry command.

Olson and Fisher had boarded the ship to make a check flight. The Northwest Airlines mechanics and groomers went aboard.

The ship, Northwest Airlines employees who witnessed the crash said, was about 200 feet up when it seemed to nose up, swing over to one side, stall and crash. Fire which broke out was quickly extinguished.

# Reinforced German Army Rolls On; Stalin Calls On His Men To Hold

**Defense Counsel**—Col. Cassius M. Dowell (left) and Col. Kenneth C. Royall (right), who have been defending eight alleged Nazi saboteurs before a military commission, arrive at the supreme court for an appeal. They asked writs of habeas corpus on the grounds Roosevelt's proclamation denying their clients access to the civil courts was unconstitutional.

## Court Hears Arguments On Nazis' Rights

WASHINGTON, July 30 (AP)—Argument on the claim of seven of the eight Nazis who came by submarine equipped to blast and burn America's war plants that they have the right of trial in civil courts was resumed at noon today before the supreme court.

Eight of the nine justices were present. Justice Douglas, who was absent yesterday because of the long train trip from Oregon, arrived overnight and took his place between Justices Brand and Byrnes. The only member missing was Justice Murphy, who is disqualified himself because he is on duty as a lieutenant colonel in the army.

Attorney General Biddle resumed his argument in opposition to the petition of the prisoners for a writ which would remove the accused from the custody of the army and place them before the civil courts. All eight of the prisoners have been on trial before a presidentially-appointed panel of seven generals.

Biddle was expected to require an hour or more to complete his argument.

He will be followed by Colonel Kenneth Royall of the defense staff, who said he might require another hour.

There was no formal announcement immediately, but participants in the trial acknowledged that the secret military proceeding, in recess since late Monday, would not be resumed until Friday morning.

Defense and prosecution counsel centered their efforts during the morning on preparation for the final hours of arguing the validity of President Roosevelt's proclamation denying civil courts to the eight men and his decree that they be tried by a panel of seven generals.

## Invaders 80 Miles From Stalingrad

LONDON, July 30 (AP)—Reuters said it had recorded a Vichy broadcast in which the Vichy news agency reported that German forces from the Kerch peninsula landed at dawn today on the Taman peninsula of the Caucasus.

By EDDY GILMORE

MOSCOW, July 30 (AP)—Reinforced by divisions which the Russians said were drawn from Finland and France, Field Marshal Fedor von Bock's southern front onslaught rolled deeper into the Caucasus south of Rostov today and pressed the Red army back toward the tip of the Don bend within 80 miles of Stalingrad.

Premier Joseph Stalin, for whom the big town on the Volga was renamed after the Russian revolution, appealed directly to his army to take inspiration from Russia's greatest military heroes, commanders who defeated the Tartars, beat back the Swedes, the Turks and the Teutonic Knights, and drove Napoleon from Moscow.

The communist party newspaper Pravda declared "it is necessary to understand that we cannot retreat."

The Russians reported slashing back fiercely at new German crossings of the lower Don, and dispatches which told of a stiffening defense indicated that Marshal Semyon Timoshenko was moving reserves into the line.

The exact position of the line south of Rostov and the Don delta was not clear, but a communique said the Red army had been forced to withdraw farther in the Bataisk area, 15 miles south of Rostov, where the Germans are driving down the Caucasus rail and oil pipe lines.

A tremendous battle was reported in Red Star dispatches from the steppes of the Don bend where tens of thousands of infantry, cavalry and tanks struggled in see-saw, hand-to-hand fighting south of Kletskaya, 80 miles northwest of Stalingrad.

The German high command said its troops had cut the Soviet route of retreat from the Don bend and severed the last important rail link between the Caucasus and the rest of Russia. The communique said the Germans had driven 55 miles south of the Don to Proletarskaya on the railway from Stalingrad to the Tikobretsk junction with the main Caucasus line.

Investia, the government newspaper said the important river traffic of the Volga continued, and reported the arrival of timber barges at Stalingrad. (The Germans have reported the river traffic under bomber attack.)

Russian reserves bolstered Marshal Semyon Timoshenko's veterans for the supreme task.

Red army men and planes were reported to have struck successfully at Nazi detachments crossing the lower Don in the Taimyansk area, half way between Rostov and Stalingrad, destroying 700 German officers and men, 17 tanks, 11 guns and 27 machine-guns.

But field reports indicated the tide had still to turn in the far-flung fight for the trans-Caucasus, the lower Volga and the western shore of the Caspian sea.

The communist party newspaper Pravda declared, however, that Germany was throwing her last resources into the offensive and said "it is necessary to understand that we cannot retreat."

"The enemy is not so strong as he appears to some scared panic-mongers," the newspaper said.

## Rental Ceiling Is Ordered For City

Press dispatches Thursday announced that Big Spring had been included in the list of "defense rental areas," which means establishment of a ceiling on rents.

The Associated Press said that the city was one of 26 communities so designated by Price Administrator Leon Henderson. There had been no direct word received here by any agency on the designation, and no source could elaborate on the order.

## Hitler's Oil Reserves Said Getting Low

NEW YORK, July 30 (AP)—The German high command already can see the bottom of its oil reserves, the Oil Weekly said today in a summary of axis petroleum resources and supplies.

"There can be little doubt that the axis of the west now is gravely concerned over its deficiency of oil," the journal said in a group of articles on the world's petroleum.

"The bitter fighting in southern Russia is a desperate struggle for oil, as well as a part of a supreme effort to dispose of an overpowering enemy," the Oil Weekly added.

Based on figures on known statistics and calculation of use, the magazine estimated Germany had for its present Russian campaign about 2,000,000 tons of fuel oil after deducting reserves for the western part of occupied Europe. (A rough conversion figure would be seven barrels to the ton.)

It estimated Germany used 12,500,000 tons in 23 weeks of Russian war last summer and fall.

Against the slim total, however, was balanced tremendously stepped up production of 240,000 tons a week, double the output at the beginning of the war in 1939 and 50,000 tons weekly more than at the start of the war with Russia.

The sources were listed as lignite and coal liquefaction, benzene, coal tar distillation, alcohol mixture with oil, native and Polish fuel oil and Rumanian crude.

## Solons Not To Take Part In Runoff, Rayburn Asserts

DENVER, July 30 (AP)—Speaker Sam Rayburn of Bonham arriving here this morning by train, said reports that the Texas delegation was returning to take part in the senatorial run-off campaign were incorrect.

He explained that the house had finished with its work now and added that he did not know how long he would remain in Texas.

## Jap Destroyer Hit By Bombers

GEN. MACARTHUR'S HEADQUARTERS, Australia, July 30 (AP)—Allied bombers hit a Japanese destroyer squarely off Gona Mission on New Guinea's Papuan peninsula coast, and left the warship wreathed in smoke and scurrying toward shore, apparently for beaching, a headquarters communique announced today.

It was the fourth enemy ship accounted for by allied airmen since the Japanese thrust their invasion force down the coast to gain their foothold last Wednesday, some 110 miles from the allied base at Port Moresby on the opposite shore of the Papuan peninsula. In previous attacks three enemy transports were knocked out.

## Hannay Appointment Before Committee

WASHINGTON, July 30 (AP)—The senate judiciary committee Monday will consider the nomination of Allen B. Hannay of Houston as a federal judge for the southern district of Texas, Chairman Van Nuys (D-TX) announced.

Van Nuys said he had received word that Senator O'Daniel (D-TX) was making an investigation with reference to the nomination and would give the committee a report by Saturday.

In Houston, Hannay said he had received a telegram from O'Daniel at Port Worth, reading:

"My office in Washington already has been advised to notify the judiciary committee that I recommend you highly and that your appointment was highly satisfactory to me. Congratulations and best wishes."

## Plane Hits House, Army Men Killed

HOUSTON, July 30 (AP)—Two army fliers were killed when their plane crashed into a two-story brick house on Riverside Drive today. The house is owned by R. W. Baldwin.

Witnesses said the plane, an army trainer, crashed full into the rear part of the large house, crashing through to the ground floor. The fliers' bodies were not removed from the plane immediately and identification was lacking.

The house was practically demolished.

Baldwin, a professor at the University of Houston, and Mrs. Baldwin were away on their vacation.

## Has Just Begun To Fight, Says Allred

HOUSTON, July 30 (AP)—James V. Allred, in a runoff campaign against Senator W. Lee O'Daniel, yesterday said, "the runoff that wasn't going to be is about to begin."

Allred declared, "I want my friends to know that I have just begun to fight." He declared that many persons who supported Dan Moody in the first primary had pledged to aid him in the runoff.

## Cargo Planes Can Be Built, Says Kaiser

WASHINGTON, July 30 (AP)—Henry J. Kaiser advised congress today an order from the government was all the nation's shipbuilders needed to launch them on the construction of giant cargo planes to speed the war effort and break the submarine menace.

The heavy-set, bald-topped Oakland, Calif., shipbuilder told a senate defense investigating committee that he was awaiting a signal to convert part of his facilities to cargo plane construction and that the big steel companies would "rise to the occasion" if requested to make similar conversions.

Before the committee met, Senator Lee (D-Okla.) claimed strong support from aeronautical experts within the administration for legislation he is sponsoring to divert shipbuilding facilities to plane construction.

Kaiser agreed with Chairman Truman (D-Mo.) who said "the job can be done if there's a will to do it," and remarked that the Bonneville dam was built despite assertions of some experts it was an impossible job.

The Californian advocates diverting part of the facilities of nine shipbuilding plants to construction of huge flying boats for cargo and troop movement.

## Hopkins' Pilot Gets Two Jap Bombers

CHUNGKING, July 30 (AP)—Major John E. Allison, who flew Johnny Hopkins to Moscow last year, scored one of the most spectacular individual performances by the U. S. air force in China today by shooting down two of three Japanese bombers destroyed out of a nine-plane enemy squadron raiding Hengyang, Hunan province.

The blond, part-bald squadron leader who comes from Gainesville, Fla., shared honors with Capt. Albert J. Baumbler, who accounted for the third enemy raider.

## 'War Secret' Plants May Bar Organizers, Agents, Court Says

DALLAS, July 30 (AP)—Companies engaged in secret war production may deny access to their plants to union organizers or agents of the national labor relations board under a new federal court ruling.

The national labor relations board, Judge T. Whitfield Davidson ruled yesterday, has the right to examine the affairs of a corporation respecting its treatment of labor, but exercise of that right is subordinate to protection of military secrets.

He granted a declaratory judgment asked by the American Manufacturing company of Fort Worth which brought court action to determine its rights under military and naval contracts of a secret nature.

The defendants were representatives of the national labor relations board and the International Association of Machinists (IAM).

"The court realizes, the opinion said, that it has gone further than any court has gone and it may be necessary for a higher court to pass on this question."

Giving labor board full authority to collect information outside of the plant pursuant to the Wagner act, the opinion added:

"What good will a union card be if an American has to pull a job-

## O'Daniel Aide Takes Blame On Messages

FORT WORTH, July 30 (AP)—D. Roland Potter, secretary to United States Senator O'Daniel, today assumed responsibility for the handling of telegrams sent out from Washington over O'Daniel's name, and said if any were charged to the wrong account it was due to an honest mistake on his part.

Potter's statement was made in reply to a Washington dispatch saying an official senate committee was waiting to question O'Daniel in regard to sending at government expense some telegrams that were held not to be government business.

As secretary to the senator, Potter said, he was responsible for the handling of telegrams and designating the account to which they were to be charged.

"If any telegrams or other items are by mistake improperly charged to the wrong account, they are charged back to the person responsible and there is no violation of law involved, and no violation of ethics," Potter said.

The audit and control committee of the senate said O'Daniel would be asked for explanation of a bill "well over \$1,000" for messages sent by the senator. The senate's sergeant-at-arms held that the telegrams did not come within the rules on communications paid for by the government.

## Speeders Lose Eligibility For More Tires

Speeders are given a stern warning by the local rationing board that speeding tickets issued against them by either state or local police may cause them to forfeit their eligibility for new tires or retreads.

"Abuse of tires by speeding must be stopped," Walter Wilson, chief clerk of the local board said.

The local board has been advised by Mark McGee, Texas OPA director, that carbon copies of all speeding tickets issued on the highways by the Texas highway patrol will be forwarded to the local board. The board here is asking city police and county officers in Howard county to extend this same assistance in enforcing what they believe to be a vital war time necessity for conserving rubber.

The local board has been requested by the state office to regard speeding as an abuse of tires and as reason for voiding a person's eligibility for new tires or retreads. After such an offense the speeder will have to give the local board conclusive proof that he is observing the 40-mile speed limit imposed by the office of defense transportation before he again can become eligible.

OPA and ODT inspectors are beginning to take the license numbers of speeders and these numbers will be sent to the local board.

## Canning Sugar May Not Be Diverted

Less strict rationing of canning sugar is now in effect, but sugar obtained as such must be used only for canning, the local war price and rationing board has announced.

Any person getting a permit for canning sugar and using it for purposes other than canning is violating a federal regulation and is subject to a fine up to \$1,000 or 10 years imprisonment, or both.

"Aside from the penalty involved, there is a patriotic obligation to observe sugar rationing," said Walter Wilson, chief clerk of the local board.

## German Steel Center Target Of The RAF

LONDON, July 30 (AP)—A strong force of British bombers, striking at Germany for the seventh time in 10 nights, did great damage to a concentrated attack last night on Saarbruecken, German steel manufacturing center near the French border, the air ministry announced today.

Nine planes were lost in the assault—the first on Saarbruecken since Nov. 5, 1940—the announcement said. Saarbruecken is a key railway junction as well as an industrial city.

Nazi air raiders, meanwhile, attacked widely separated areas in Britain, dropping a few bombs in the greater London area for the first time since June 3 and stalling at several points in the Midlands and East Anglia.

One of the Nazi targets in the Midlands was the industrial center of Birmingham where, the ministries of air and home security said, the raiders did some damage and caused some casualties.

A small number of casualties, including some fatalities, was reported from other areas.

Seven of the German planes were shot down, a communique said.

The RAF raids on western Germany were accompanied by a heavy aerial bombardment of the occupied French coast between Boulogne and Calais.

## Arkansas Negroes Not To Push Vote

LITTLE ROCK, Ark., July 30 (AP)—Dr. J. M. Robinson, president of the Arkansas Negro Democratic association which organized the fruitless attempt of negroes to participate in Tuesday's statewide democratic preferential primary, said today no effort would be made by associate members to vote in the regular primary August 11.

"They made their decision and made it stick," Robinson said. "We'll just let things cool off for a while until everybody gets level headed again."

He said all information on refusals of ballots to negroes Tuesday would be submitted to Thurgood Marshall, New York City, attorney for the National Association for the Advancement of Colored People.

## Brazil Loses Ship

RIO DE JANEIRO, July 30 (AP)—The government announced today that the Brazilian ship Tamara had been torpedoed and sunk.

## Tax Savings Plan 'Deserves Study'

WASHINGTON, July 30 (AP)—Secretary of the Treasury Morgenthau said today that a plan of "induced savings" advocated by Senator George (D-Ga.) "is a plan that deserves study."

Under George's plan, additional high income taxes would be imposed on individuals, but the special tax money would be invested in government securities and be refunded to the taxpayers with interest after the war.

The secretary hastened to add that he did not mean to imply that he was endorsing the George plan, and explained, "Senator George is chairman of the senate finance committee, and anything he has to say about taxes must be considered more seriously than something any other senator might say."

Morgenthau recalled that he had been consistently opposed to any of the various schemes of compulsory public savings which he described as "forced loans," but gave other hints that a lag in the war bond sales drive could force a revision in his judgment.

In his regular press conference, he said, "I don't think so," in reply to an inquiry as to whether he believed the treasury would meet its announced goal of selling \$1,000,000,000 worth of war bonds this month. In June the treasury failed to meet a \$500,000,000 war bond goal.

Morgenthau estimated that July sales would be "around \$600,000,000, which is a tidy sum."

## South Withdraws From Runoff And Will Quit Office

COLEMAN, July 30 (AP)—Congressman Charles L. South of Coleman, who had sought reelection, withdrew today from the runoff primary against O. C. Fisher, district attorney at San Angelo. South announced he would resume the practice of law.

## Land Measuring Crews Are Short

Land measuring work on Howard county farms was not completed on the previously announced schedule last weekend, due to several workers resigning, the local AAA office has reported.

The measuring crews have been operating short handed all season, and since other members have left several more days probably will be required to complete the work.

### Poloists Take One Title In Colorado Play

Big Spring's poloists were back from the major wars Thursday—and sporting a share of a handsome gold trophy as winner of one of two tournaments staged at Colorado Springs, Colo.

Tuesday morning the locals trounced a Dallas team 12-2, to win the title in the Harvey Lyle round-robin, one of the two series staged at the mountain resort. And the Big Springers were runner-up in the Foxhall-Keene tourney, bowing in the final to Wichita, Kas.—a team they defeated in the Harvey Lyle meet.

Making the ten day stand were M. H. Bennett, Rip Smith and Lamesa's two Whites, Gus Senior and Junior. The locals played under the Coston banner.

Riding for the first time in out-of-state competition, the local four gave a good account of themselves. In the Foxhall-Keene finals with Wichita, rain halted the game at the half when Big Spring was leading, and Bennett and his team couldn't get going during the slippery final chukkers. They ran up against a better mounted team, the Wichita quartet having enough ponies on hand for each player to have a fresh mount each chukker.

Individual members of the team were awarded silver trophy pieces for winning the Lyle tourney. The title must be won three times before the big gold trophy becomes a permanent possession.

Only 26 cases of smallpox were recorded in Canada in 1941, all but one appearing in the province of Saskatchewan.

### DO FALSE TEETH Rock, Slide or Slip?

FASTEETH, an improved powder to be sprinkled on upper or lower plates, holds false teeth more firmly in place. Do not slide, slip or rock. No gummy, gooey, pasty taste or feeling. FASTEETH is alkaline (non-acid). Does not sour. Checks "plate odor" (denture breath). Get FASTEETH at any drug store.—adv.

George Mahon

wishes to express his appreciation for the fine support of the people of the District and to pledge his continued best efforts as their Representative in Congress.

(Paid Pol. Adv.)

### Here 'n There

First Lieut. Dan Hudson has left Midland for officers school at Miami Beach, Fla., where he will have six weeks training. After this he is due to report to Randolph Field, San Antonio, for assignment to duty at the Midland Army Flying School. Until recently manager of the Scherbaer hotel at Midland and formerly Settles hotel manager here, Hudson received his commission and was sworn in at Midland Saturday.

Mr. and Mrs. Barnett Hinds are now residing in Hollywood, Calif., friends here have learned. He went to work for an aircraft factory two days after they arrived in the Los Angeles area. Hinds, a former teacher at Forsan, got his aircraft sheet metal training in the war industry classes here.

For today, reported Director Dan Conley, the senior band rehearsal time has been moved up to 7:30 p. m., approximately an hour earlier than usual. He urged band members to be on hand for the practice session.

Pfc. Albert Fisher, Jr., who is stationed in San Francisco, Calif., has received a promotion to the rank of corporal. Corp. Fisher has been in San Francisco for seven months.

Robert Lester (Bob) Ward, whose application as volunteer officer candidate has been on file with the selective service for little more than a month, will receive orders to report for induction sometime in August, it was reported Thursday. Formerly several months have been required before these applications cleared.

There must have been something in the air Wednesday afternoon and evening. One battle broke out near a downtown hotel. Not long afterwards a man was jalled after neighbors complained about a scrap going on in his place. Then calls to a brace of places on north-side netted one pugnaciously inclined negro and a deserted bar at another joint.

While it was comparatively quiet, other than this, one man, who complained bitterly about snakes in his boots, etc., entered a plea of not guilty to a charge of having slipped too freely.

Joe Lindley Butts left Thursday for induction at Lubbock as an aviation cadet. Accepted as an army flying prospect several weeks ago, he has been on furlough since, pending the starting of another class to which he could be assigned.

### Weather Forecast

U. S. Department of Commerce Weather Bureau

WEST TEXAS: Continued warm today; mild temperatures tonight. EAST TEXAS: Continued warm this afternoon and tonight, local thundershowers in south portion today.

City	High	Low
Ablene	97	72
Amarillo	93	70
BIG SPRING	96	72
Chicago	80	63
Denver	89	58
El Paso	99	71
Fort Worth	102	74
Galveston	90	81
New York	89	71
St. Louis	97	78

Sunset today, 8:45; sunrise tomorrow, 7:00.

### Butchers' Union Has 14 Members

Fourteen members are now joined here in the Amalgamated Meat Cutters, Butchers and Workers union, it was disclosed following the regular meeting Tuesday evening.

Cards are on hand now and member butchers and meat cutters are displaying these in shops, officials of the local said. Weekly meetings are held on Tuesday in the carpenters' union office in the Ellis building.

### No Furloughs For Harvest, Stimson Says

WASHINGTON, July 30 (AP)—Every interference with the rapid and efficient preparation of the armed forces for combat must be halted at once, Secretary Stimson said today in response to appeals for furlough of military personnel during the harvest season.

Exceptions to this policy, he said in a letter to Senator Nye (R-N.D.), were being confined to cases of extreme emergency, and excessive furloughs or leaves would "prejudice the progressive growth of our military power."

"If it should develop that the American people are confronted with a food emergency which cannot be met by the existing surpluses," Stimson added, "the use of military personnel may be considered, but only if all sources of harvest labor have been exhausted and the military personnel is employed as units and not as individuals."

Stimson wrote Nye that his department was being "besieged" with requests for release and furlough of soldiers on various grounds but that American participation in the war had brought a responsibility demanding rigid adherence to the objective of developing, in the shortest possible time, a highly trained military force.

Concluding that Stimson had "missed the point of immediate seriousness" involved in the north-west harvest, Nye asked for a conference with the war secretary.

### Army Needs More Nurses

The army faces an urgent need for nurses, Sgt. Edwin R. Turner, recruiter stationed here, said Thursday.

Those with necessary professional background and who can meet age and other requirements were invited to contact his office for more complete information.

Those going into the regulars must be between the ages of 22-30 years, inclusive and the reserves 21-40 years. In both cases they must be single.

Their educational background requires that they be a graduate of high school and of an accredited school of nursing. Professionally they must be members of the Red Cross first reserve and the A.N.A. A strict physical examination is required.

Those who are called will receive \$70 monthly plus maintenance. Except for unusual circumstances work will be for eight hours a day and normally a full month's vacation with pay is a part of the contract. Retirement for disability in line of duty or after 30 years of service also are included in the regulations.

### School Budget Is Being Drafted

Preparations for opening of a new school year are in the intermediate stage, W. C. Blankenship, superintendent, said Thursday. Tentative drafts of a proposed budget are being drawn up for consideration of the board at its next meeting and plans are being developed for reorganization of the administrative set-up due to a decrease in personnel.

Some replacements are being made necessary by resignations of teachers going into military service or into defense work, said the superintendent, but he did not anticipate that these would constitute a pressing problem for the time at least.

### Public Records

Marriage Licenses: Joe Hernandez and Eloise Suba. Dario Amor Fini and Luix Benson. Jess Treadwell and Dorothy Grimes. Leonard M. Oerline and Wanda Horn.

Warranty Deeds: Joe B. Harrison: \$10; to Ada Chaney Harrison: W. 100 feet of lots 7 and 8, College Heights addition.

Filed in District Court: Willie Hanible vs. St. Paul-Mercury Indemnity Co., suit for damages. Madeline Waldrip vs. Wallace Waldrip, suit for divorce. Clemente Gusman vs. Manuel Molinar et al, suit for title. Eunice Vaughn vs. Oliver Vaughn, suit for divorce. P. D. Dalton vs. Sallie Dalton, suit for divorce.

New Auto Registrations: Sam H. Stamps, Oldsmobile coupe. Paul S. Lizer, two Plymouth sedans.

### Readiness To Serve God Discussed By Evangelist

God's people need to stop and locate themselves, said the Rev. I. W. Justice in continuing the Church of the Nazarene revival at 4th and Austin streets Wednesday evening. The question for individuals to answer is "Where art thou when God needs a servant upon whom he can depend at all times? God has the power to make up good, but as free agents, he desires that we serve by choice," said the Rev. Justice. People need to find out if they are doing this, he added. Three were converted at the service.

### Lee Qualifies For War Bond From The Southland Life

DALLAS, July 30—R. E. Lee of Big Spring has qualified for Southland Life insurance company's annual convention this year, according to Vice President and Agency Director Joe Woodward.

Southland Life and its affiliate agency forces unanimously decided to forego the convention, in order to eliminate non-essential use of trains and automobiles. In lieu of the annual trip Mr. Lee is accepting war bonds. A total of one hundred and one \$100 war bonds is being given to similar convention qualifiers throughout the state by the Southland Life Insurance company of Dallas.

### At 79, Ford Has Optimistic View

DETROIT, July 30 (AP)—Henry Ford, who visualizes a world made immune from war through a federation of all its peoples and an intensification of production for human needs and legitimate desires, came to his 79th birthday anniversary today more optimistic than ever regarding the future.

Of the war engulfing most of the nations of the earth Ford spoke rather sparingly. "Like all wars," he said, "that one was precipitated by greed, lust for power and financial gain; it won't end until some sense of sanity has returned to those who believe in greed might for selfish gain."

As alert and agile as many persons half his age, Ford appeared in perfect health. By eating moderately and worrying not at all he has maintained his weight virtually unchanged for many years at around 138 pounds.

### Seven Recruited Here For Army

Seven men have been enlisted through the Big Spring office for the U. S. Army, according to Sgt. Edwin R. Turner, recruiter.

One, Horace N. Holcomb, Big Spring, enlisted for the air corps unassigned. All others were for the army unassigned and included James N. Turner, Coahoma, Lefty H. Kerber, Big Spring, John L. Brown, Quitman, Lee M. Conway, Big Spring, Clarice C. Rumpff, Big Spring, and Lonnie O. Evans, Big Spring.

### B'Spring Laundry Damaged By Blaze

Fire, the second within a month at the same place, caused small damage at the Big Spring laundry Wednesday at 10 p. m.

Clothing piled at the rear ignited and smoked up the place fairly well, said firemen. Flames were held in check by firemen and did not spread beyond the clothes pile. The garments were near some steam piping and firemen theorized that heat possibly had ignited matches or some similar material. Recently a clothes fire was reported in the same place.

Firemen made a run to 1100 Main street shortly after noon Wednesday to extinguish a grass fire.

### Cattlemen Urged To Produce And Sell Promptly

PRESCOTT, Ariz., July 30 (AP)—Cattlemen should "produce all you can and sell as fast as you can," Frank Boice, president of the American National Live Stock Association, said in an address to Arizona growers last night.

Any beef shortage, Boice charged, is due to culling prices which he asserted have forced prime beef down and increased the price of poorer grades. Unless there is a change, he predicted a serious shortage of cattle for feeder lots.

If the culling is placed on animals instead of meat he forecast a "roll back" on the producer. "Supply will overwhelm demand and prices will slump," he said. "The cattle population of the nation is now at its highest mark."

He advised the growers to maintain about the same number of cattle they had at the beginning of this year, and not to hold for a better market. "The nation needs meat," he said. "It must be supplied now and not piled up."

What You Buy With WAR BONDS

The 50-caliber Browning machine gun is one of the most efficient short range weapons used by U. S. Fighting forces. It is effective at ranges up to 2,000 yards and fires about 600 forty-five caliber bullets minute.

One of these guns costs about \$1,500, while a thirty-caliber machine gun costs approximately \$600. Our fighting forces need thousands of these rapid-fire guns. Even a small town or community can buy many of them by uniting in the purchase of War Bonds. At least ten percent of your income in War Bonds every pay day will do the trick. U. S. Treasury Department

### Men For Two Sub Chasers Wanted By Navy From Area

Enough men to equal the crews of two submarine chasers will be the enlistment goal from the Big Spring navy recruiting district each month during August and September, S. L. Cook, recruiter in charge of the sub-station here, said Thursday.

Based on the formula of one man for every 1,000 population, Cook said that the goal would be 129 men monthly from the 13 counties of this territory.

Assisting in the campaign to quicken naval enlistments for the two months will be the local American Legion post, said Cook. Committees have been named for publicizing the drive and material supplied so that individual members may become "Volunteer Navy Recruiters."

On Aug. 14 there will be an added attraction, calculated to stimulate recruiting. A navy sound truck will bring films about the navy and there will be a free showing in some centrally located place.

Monthly quotas mapped by Cook follow for the counties in his district: Howard 20, Dawson 15, Ector 15, Mitchell 12, Scurry 11, Midland 11, Ward nine, Gaines eight, Winkler six, Martin five, Borden two, Andrews two, Glasscock two; total 129.

Navy enlistment ages range from 17 to 30 years, Cook pointed out. Unskilled men have an opportunity to attend navy trade schools, and skilled men may be enlisted as petty officers with pay ranging from \$78 to \$128. It is necessary that application for enlistment be completed before induction into the army.

### Truck Tires In Heavy Demand

Another heavy demand for truck tires was reported by the local rationing board this week, while tubes were almost evenly distributed between trucks and passenger cars.

Certificates for purchase of 45 truck tires, 14 passenger tires, 34 truck tubes, 35 passenger tubes, and five obsolete tires were granted.

Certificates for two bicycles, the first granted here since bicycle rationing started, were issued to Sims McCranie and Thomas Wendell Campbell. McCranie is a refinery worker and Campbell is delivery boy for a telegraph company. Paul Lizer was granted two automobile certificates, and another went to N. W. McGee.

### \$24,000 Volume In Stock Sale

Six hundred head of cattle were sold Wednesday for a total of \$24,000 at the Big Spring Livestock sale.

Bulls sold up to \$9.55 and good butcher cattle went for \$9 to \$10.50. Average butcher cattle sold for \$7.50 to \$9.

Fat cows were from \$7 to \$8 and canners and cutters from \$5 to \$6. Stockers sold from \$11 to \$13. The sale was termed as good for this time of year.

### Kiwanians Told Of Their Magazine

James Little utilized the program Thursday to remind Kiwanians of the quality of their magazine.

He touched on highlights of the publication and reviewed one article which traced the history of the Union Jack.

The Rev. O. L. Savage was elected vice-president and Arthur Stallings and H. W. Smith as members of the board of directors. Paul Hallock was introduced as a visiting Kiwanian from McAllen.

### Two Negroes Face Assault Charges

Charges were filed Thursday afternoon against two negroes following isolated disturbances Wednesday evening.

C. H. Williams was booked for robbery by assault after officers charged that he took \$10 from Willie B. George by holding a knife at his throat.

Brooks Williams was down for an aggravated assault charge after police said he beat and pistol-whipped Jaunita Jackson, negro, at the Dreamland hotel.

### Navy Office Adds Another Recruit

Monroe Jerome Akers, Brownfield, was down Thursday as the sole U. S. Navy enlistment for the day. Akers was went in for V-2 (aviation groundwork). He has been working at Odessa until time of his enlistment.

### GWTW Coming Back Again

The most fabulous of Hollywood's productions, "Gone With The Wind," returns next week to the Ritz theatre for its third presentation in Big Spring.

The Ritz management has announced booking of the famous movie for next Tuesday and Wednesday. While the showings this time are at lower prices, the film remains uncut and is shown in its entirety. The Ritz screenings will be at the hours of 11 a. m., 3 p. m. and 8:30 p. m. Running time for GWTW is about four hours, with an intermission.

Expected are many patrons who will be seeing for the second and third times the film version of Margaret Mitchell's novel of the remaking of Southern civilization, as depicted in such personalities as Rhett Butler, Scarlett O'Hara, Ashley and Melanie Wilkes. These roles are played by Clark Gable, Vivien Leigh, Leslie Howard and Olivia de Havilland.

### Three Charged At Abilene On Govt. Supply Fraud

ABILENE, July 30 (AP)—Charges of conspiracy to defraud the United States government through fraudulent invoices for food supplies were filed against three persons in federal district court today by U. S. District Attorney Clyde O. Eastus.

Those charged were V. A. Allen, Abilene grocery store operator; Robert Bean, market man at the Allen grocery, and Technical Sergeant Marshall Ray Peterson, mess sergeant at the Camp Barkley station hospital.

Eastus said the practices for which the men are charged involved about \$5,000 and that investigation is continuing.

Motor trucks for the army are built to climb 65 per cent grades, slopes so steep that men can not negotiate them on foot.

### THANKS:

My sincere thanks to all the people of Precinct 2 for your vote and influence in the first primary. I appreciate the cooperation you have given me in the past and I shall try to serve you well this my second term.

# BIG SPRING BUSINESS and PROFESSIONAL ACTIVITIES

THESE FIRMS AND INDIVIDUALS OFFER HIGHEST TYPE SERVICE AND VALUES

## Farmers Gin Prepared To Meet Needs Of New Season

Preparing itself to meet new requirements to the letter which has been urged by the government due to the war, the Farmer's Gin in Big Spring is practically ready to begin handling its share of the 1942 cotton crop. The government has announced that the war effort can be valuably aided by ginners, as foreign matter in both linters and seed is more important in war than in peace time. From cotton linters comes the best quality of cel-

lulose used in the manufacture of smokeless powder, and also for the making of windows for bombers and fighting planes. As a result of these government announcements the Farmer's Gin has just installed several thousand dollars worth of new machinery, which is expected to make their fine service even more effective. Among the most important pieces of new equipment just installed is a cotton dryer. The cotton dryer

is especially desirable in the process of ginning damp or green cotton. This equipment consists of three gas burners and a specially constructed fan which forces hot air from the burners through the cotton, putting it in good shape for ginning. Quality of damp or green cotton is raised fully one grade in the drying process, according to W. S. Satterwhite, gin manager.

The Farmer's Gin expects to handle much of the cotton grown in this area during the 1942 ginning season. In 1941 they ginned a total of 7,299 bales, which was more than any other single battery gin in the state ginned for that year.

During 14 seasons of operation the armer's Gin has turned out 59,342 bales, for an average of 4,238 per year. The gin was organized in 1928, with stock holders consisting only of farmers or other persons directly interested in the farming industry.

The Portuguese discovered Madagascar in the early part of the sixteenth century.

**Boots, Boots**—They make up one of the principal stocks in trade of the Christensen Boot and Shoe shop at 103 East 2nd street, an establishment that has made a fine reputation over West Texas in three years of operation here. Here E. G. Christensen and his corps of workers line up with some of the models they have turned out. In addition to boot making, the shop does leather work of all kinds, including strap and saddle making; and, of course, complete shoe repairing and rebuilding. (Kelsey Photo.)

## Modern Cleaners Wanting Hangers

The war's far reaching effect on various materials has hit at a very commonplace item—the metal hanger you use to hold your clothes. Tailoring establishments are having difficulty in keeping needed supplies of hangers, and may have to do without them altogether. An alternative is to seek the public's cooperation in return of hangers. A special offer on metal hangers is being made by the Modern Cleaners at 303 East Third in Big Spring. M. M. Mandel, proprietor, announces he will pay one cent each for all metal hangers in good condition, and is anxious to accumulate a sizeable stockpile. People

who have hangers on hand are requested to bring them to the Modern shop. A search of closets undoubtedly would yield a good supply. The turning in of hangers helps to meet a business need in time of emergency, and also would bring in some spare change. Modern Cleaners, with a staff of six, remains busy in meeting the cleaning, pressing and dyeing needs of Big Spring people, and Mandel's shop specializes in alteration, general clothing repair and patching, hat blocking and in maintaining a first class fur storage.

## Flowers For Any Occasion At Caroline's

When you want to express appreciation, love or sympathy with words, that's your business—but when you want to say it with beautiful flowers, that's the business of Caroline's Flower Shop at 1510 Gregg.

line's Flower Shop is a member of the nation-wide florist telegraph organization. Display at the pretty shop has been enhanced lately by the addition of a new Frederick floating air flower case, a huge unit six feet with double plate glass sides that afford a perfect view of cut flowers. Mechanically operated, the unit has treated air with humidity to the exact degree for perfect preservation of the flowers.

the shop are the hot houses where pot plants and flowers are grown during winter months and cooler weather. During the proper months, these are packed with exquisite plants that seem to always be in bloom. Also, there are supplies of yard plants—snap dragons, petunias, etc. Besides all these, there are copious supplies of lovely yard flowers during warm-

er weather. Back of all this planning, production and display is Carrie Scholz, who will observe her first anniversary as a florist on Sept. 8. But that doesn't mean her experience is only one year old. That goes back for many, many seasons

Fort Sill Soldiers Observe Texas Night

FORT SILL, Okla., July 30. (AP)—Two thousand officers and enlisted men from Texas last night participated in Texas Night, receiving gifts from the folks back home and dancing with girls dressed in ranch costumes.

PEACHES WAITING

DENVER, July 30. (AP)—Gentlemen who prefer peaches—and who like their vacations with pay—are invited to Colorado.

This Budget Roast Has Flavor And Nutritional Value

1. Select a thrifty shoulder of lamb. Ask your butcher to bone it, so that the cavity may be filled with dressing. Rub thoroughly with salt and pepper. Cheaper cuts of meat have full nutrition value.

2. Fill pocket in meat with this dressing: 1/2 cup bread crumbs, 1/3 cup chopped nuts, 1/3 cup tomato juice with 1 cup chopped celery, 1 tsp. parsley, 3 tsp. chopped onion sauted in butter for about three minutes.

3. Sew pocket together with heavy thread, fastening ends securely. Place roast on rack in uncovered pan, fat side up. Bake in moderate oven (300 F), allowing 40 minutes to the pound. You'll find this budget roast has all the flavor and nutrition value of the more expensive leg of lamb.

Two Dead, One Uses Chute As Planes Crash

VICTORVILLE, Calif., July 30. (AP)—Two men were killed and a third, Frank Flan, veteran photographer of the Associated Press, parachuted to safety in an accident involving two army bombardier training planes last night.

Killed were Sgt. Pilot Rodney M. Grim, 20, of the Army Air Forces, and Clarence L. Block, 29, Los Angeles, civilian photographer for the west coast Army Air Force training center.

Flan was found wandering, dazedly, on the desert this morning, seven hours after the accident, by Lt. Clarence M. Skaggs and Lt. Col. A. J. McVee, who had set out in a jeep on a search, on the slender hope the star cameraman might have been able to use his parachute.

"I lost consciousness right after the accident," Flan told the officers, "but I came to and found myself falling, so I pulled the cord. As far as I know, I passed out again, and I didn't know what happened then."

Flan was exhausted when he was found and suffering from ankle and chest injuries and scalp lacerations.

American medical men have not been volunteering their services for war work in anywhere near the needed numbers.

Stanton Man Dies In Arizona Mishap

Thelbert Rumfield, Stanton, was killed Wednesday in a truck mishap 25 miles east of Yuma, Ariz., according to press reports.

He was pinned beneath the truck when it overturned. Albert Linton, truck driver, and his wife, Vivian, of El Monte, Calif., escaped with minor injuries.

GUERRILLAS ACTIVE LONDON, July 30. (AP)—The Moscow radio broadcast a report today that Yugoslav guerrillas had killed 500 Italian officers and men and wounded 200 in the past two weeks.

Missouri Pacific Manager Resigns

HOUSTON, July 30. (AP)—W. G. Choate has retired as general manager of the Texas Properties of the Missouri Pacific Lines. His successor is A. B. Kelly, for many years assistant general manager, general offices of the railroad announced.

Kelly will be replaced by W. E. Lamb, general superintendent of Missouri Pacific's southern district with headquarters at Little Rock, Ark. C. A. Fink, superintendent of the Wichita-Joplin-White river divisions with headquarters at Wichita, will succeed Lamb.

R. C. Wildeboer, trainmaster at Wichita, takes Fink's place. The Taman peninsula is the northwestern limit of the Caucasus mountain range.

THE WAR TODAY: Attacks By Air May Not End The War

By DEWITT MACKENZIE Wide World War Analyst

The disclosure by British Air Marshal Harris that a great Anglo-American air-fleet is about to scourge the reich, city by city, signals one of the major developments of the war, but while we do well not to jump to the conclusion that this is a quick solution of all our troubles.

One's first thought naturally is whether this aerial assault is likely to divert enough Nazi strength from the Russian front to help the Reds materially in their present grave position. The answer would seem to be in the negative. Continual and heavy bombing of

German cities probably would force withdrawal of some Nazi air-power from the Muscovite front, and any easement would be all to the good for the Bolsheviks. However, the bombing can scarcely affect the situation vitally in the immediate future, and it's right now that the Reds need help.

Another question that arises is how far such massed bombing might carry us towards victory—a subject which is a burning topic of debate at the moment. There are those who maintain that the war can be won in the air—a theory advanced as far back as 1921 by the late General Giulio Douhet, one time head of Italy's military aviation, who held that victory could be achieved almost overnight by employment of a vast fleet of bombers.

Still, the Douhet theory has yet to be proved, and in any event the forthcoming Allied operations won't be on big enough scale at the outset to force an immediate decision. That bombing can play havoc with Hitler's war industries and transportation is a foregone conclusion, but the contribution which this will make towards victory will depend a good deal on the trend of the Russo-German fighting, or at least it so seems to me.

If Hitler breaks through to fresh resources in the Caucasus, and hamstringing the Russian army, he will be able to bolster his lagging war industries in Czechoslovakia and other sections which won't be so much affected by the bombing as factories in western Europe. In other words, he will be able to strengthen his own air-fleet and anti-aircraft defenses and so be better able to meet the Allied onslaught.

On the other hand, if the Russians are able to hold the Nazis and keep them away from green

pastures, German industry will decline with ever-increasing speed. This will mean a deterioration of Hitler's air defenses and thus will make the task of the allied air-fleet the easier.

Air Marshal Harris invited the German people to cast off Hitlerism and make peace, thereby avoiding destruction of their cities. Without evidence to support the

idea, I don't think we should bank on the Germans quitting solely because of bombing.

However, there's one other interesting thought. Any Allied invasion of the continent must be preceded by a fierce aerial bombardment of coastal defenses, air bases, and transport lines. Once the bombing has cleared the way, we may get that second front.

# War Board News

A weekly column contributed by members of the Howard county USDA War Board.

## What To Plant In Summer Gardens For Autumn

By ALMABINE NUNNALLY  
Farm Security Administration

Perhaps fall is still several weeks off, but it is about time to begin planning a fall garden. Every gardener should strive for crisp radishes, tasty green onions, juicy baby beets and carrots, fresh leafy mustard, spinach, lettuce, Swiss chard, and turnips. These give added zest to fall and winter meals. Perhaps your spring garden will be about gone by the end of July and weeds have been allowed to grow unmolested. If this is the case, cut and remove the weeds from the garden before plowing for the fall garden. Then add old barnyard manure and plow to a depth of about four or five inches. Run the harrow over the garden until the soil and manure are well mixed. This will help the soil hold the water and prevent packing. This procedure should be completed by the middle of August.

Plan to plant these vegetables early enough to mature before frost. Pinto beans and Bliss Triumph potatoes about the 15th to 30th of August. Laxton English peas, Scarlet Globe radishes and stringless green bean pod beans about the first to 14th of September. New York or Los Angeles mustard and Tendergreen mustard about the 15th to 30 of October.

Plant these semi-hardy vegetables to withstand light frost. Denver half long carrots, Charleston Wakefield cabbage, Shogoin turnips, green sprouting brocoli, and Detroit dark red beets should be planted about the first to 15th of September. By September 15th to 30th you may plant Lucullus Swiss chard and Kohlrabi.

The following vegetables will withstand heavy frost and should also be planted about the first to 15th of September. Louisiana sweet collards, dwarf blue Scotch kale, white Bermuda onions, rutabagas, Sandwich Isle salsify, shallots and Long Standing Bloomsdale or Bloomsdale savor spinach.

In the spring, if you purchased enough for both the spring and fall garden, you are already prepared. However, if you must purchase your seed now, it will be well that you secure 1-4 more seed for planting than for the spring garden, because the germination of seed at this season is poor.

You will probably find an added help in soaking seeds with a hard coat, (such as spinach) in warm water overnight before planting. Then press the soil around the seeds at the time of planting.

Irish potatoes can be made to come up more readily by covering the potatoes with damp sacks or straw several days until they have sprouted. Then cut into seed pieces and plant.

Be on your guard against insects in fall gardens as well as spring gardens. Lice, cabbage worms, and flea beetles are plentiful.

Plan to raise a fall garden and further your production of food supplies for home use and for our Allies.

## Full Rations For Hens Even If Egg Production Less

Hot summer weather will bring on moulting of laying hens and reduced egg production which is a somewhat normal occurrence according to O. P. Griffin, county agent. Hens that have laid heavily during the spring and early summer have depleted the food elements in their body, continued Griffin, and it is normal for them to take a rest during this period. Some hens lay off for only a few weeks and others several months.

Most poultry raisers have the idea that when a hen is not laying she does not need as much feed. According to Griffin this is unfounded. The hens should continue to receive full rations since the food reserves in the body has been depleted. In most cases a higher protein feed with more minerals will be advisable.

Ordinarily hens that are properly fed through the moulting period will start laying earlier in the fall and produce high priced eggs. Otherwise, most of the hens will rest until the following spring when eggs are usually cheaper.

## Soil Conservation Project Mapped By McDowells

L. S. McDowell & Son, who have ranches in Glasscock, Howard and Borden Counties, have made application to the Martin-Howard Soil Conservation District for assistance in drawing up a detailed soil conservation plan for each of their ranching units. The McDowells have a very accurate record of their stocking by pastures for the past 20 years. It is interesting to note that their calf crop for most years since 1918 has been well above 90%.

Gene O'Daniel, of Coshoma, sold off some cattle to lighten up his grass during the dry weather. O'Daniel thinks that by selling some of his stock he can maintain the vigor of his grass and have it in condition to grow more rapidly when it does rain. O'Daniel is chairman of the board of supervisors of the Martin-Howard Soil Conservation District.

## 4-H Club Boys Doing Part In Victory Effort

Texas 4-H club boys, 33,000 strong, have mobilized on the home front to do their part in winning the war just as their older brothers are doing in the armed forces.

According to L. L. Johnson, state boy's club agent of the Texas A. & M. college extension service, beef cattle, hogs, sheep and poultry the boys now have on feed substantially outnumber the livestock and poultry projects of last year, and field crops and Victory gardens show corresponding or even greater increases. Through May, 4,089 Victory gardens were being grown, compared with 1,471 in 1941.

Texas 4-H club boys have carried forward their rifle training work, and many are taking first aid training, Johnson says. Some counties have organized labor patrols, which are helping with farm work in their communities and home counties.

The boys have taken an active part in all salvage campaigns including collection of scrap rubber, but totals for rubber are not yet available. Other achievements in connection with the war program, based upon reports from 129 counties, follow: Scrap iron collected, 2,478,564 pounds; waste paper collected, 150,824 pounds; and sold for \$832; aluminum collected, 57,828 pounds, and sold for \$750; and bonds and stamps bought, \$39,456.02.

Demonstrations being conducted in the 129 counties are: beef calves on feed, 4,173; swine on feed, 10,552; sheep on feed, 4,477; hens, 73,290; baby chicks, 689,589; increased flocks, 2,332.

Howard county 4-H club boys have completed the following 1942 demonstrations: 33 baby beavers weighing a total of 25,449 pounds which sold for \$3,755.04, and eight lambs a total of 976 pounds.

Eight boys are raising 830 chickens and eight other boys are raising eight litters of pigs for feeding this fall.

Enrollment in the 4-H club is now being made for feeding calves, lambs and pigs the coming fall and winter.

## Tips For Putting To Use Some Of That New Peanut Production

Now that Howard county has prospects of harvesting a record "goober" crop, folks might begin to think of ways in which to utilize these errant peanuts here. This is the advice from Almarine Nunnally, FSA home supervisor, who suggests that the meaty nuggets might do well for domestic consumption as well as for commercial production.

Take peanut butter, for example. It all starts out like an old fashioned goober roasting—peanuts in the bottom of a baking pan at about 300 degrees F. for

around 45 minutes. Hulls should readily slip between fingers, and the peanuts should then be ground—with the meat knife of the food chopper if a fine grain is desired, or with the vegetable knife of the chopper if a coarse mix is wanted.

For the sake of keeping it fresh, a couple of cups at a time should do. Mix the ground product with four tablespoons of vegetable oil and 5-8 teaspoon of salt and keep it in a cool place until the family gobbles it up.

There are a variety of ways to use peanuts, but this will be a good starter for utilizing the nut which is rich in iron, phosphorus, B1, and other vitamins and a fair share of calcium.

An interesting background lies back of the humble goober, of which Howard county this year has 2,000 acres as a wartime experiment. Here are some sprightly stories dug up by Miss Nunnally.

The peanut originated in South America, being carried home by exploring Spaniards. Eventually it got down into Africa and mariners used to lure natives onto slave boats with promises of rich peanut stores.

Indeed, the negro brought his goober to North America with him. Yes sir, goober is right, for the word is derived from the African Congo "nguba."

The Spanish peanut continued in vogue, but slaves planted them in Virginia and today the Virginia Runner and the Virginia Jumbo rank with the Spanish as a favorite type. Out in this country, however, the smaller Spanish nut is still the best.

## Agents Heard In Radio Programs

The Farm and Home Hour program over KBBT will be under the direction of Funtilla Johnson and O. P. Griffin, Howard county extension agents each Monday at 1:15.

Timely subjects will be discussed each week. Farm and ranch men and women are urged to send in questions concerning their problems, and they will be answered over the radio. Direct your questions to either of the extension agents.

## Flood Washes Up Valued Golf Balls

HUTCHINSON, Kas., July 30 (AP)—Temperamental Cow creek overflowed the farm of James Redd again—and paid him well for his trouble.

The creek, crossed by 13 fairways of the adjacent country club golf course, dumped bushels of lost balls onto Redd's land.

He sold 'em for \$200.

The can opener will no longer be the most important utensil in American kitchens. Insofar as possible, tin for food packing will be replaced by cardboard, wood and glass.

To Relieve  
Mystery of  
**COLDS**  
Take 666  
MONEY, TALKING, SAVING, WORK, SUCCESS

Not only is the peanut good for human food, but it is also excellent as a stock food. The vine is second only to alfalfa in cottonseed hulls in roughage and food value. Peanut cake is comparable to cottonseed cake or meal, and oil ground from peanut skins makes good poultry food. Peanuts are used industrially for soap, plastics, insulation, in the plate polish and as an inert ingredient for dynamite.

# Editorial -- A Fine Record For Hoover And FBI

War and Texas politics combined to help most people overlook a singular anniversary this week. It happened to bring the 50th anniversary of J. Edgar Hoover as head of the Federal Bureau of Investigation.

Certainly every decent American is proud of the record of Mr. Hoover and his FBI. While our crime toll mounted with appalling rapidity over the years, there was one beacon ray of hope that something might be done about it. That was the FBI.

Mr. Hoover is to be congratulated on his capacity and genius for organization. Over the years he has built up his investigative unit to its level of efficiency. How he did this is probably ascribed to hard work, complete honesty, and ability to inspire those who came under his influence.

He attracted to a law enforcement agency quality personnel. He chose men who generally could not be touched by the temptation to swap honor and character for petty graft. He got men who would not compromise their positions, who possessed an almost fanatical devotion to duty. He got men who would stick to their posts even though they might be stricken with mortal fear or pushed to the point of exhaustion.

This bore fruit in the form of relentless prosecution of crimes involving certain phases of the federal government. It virtually banished, thank God, the mean and merciless wave of kidnapping. It brought scores of hoodlums, whether mere gangsters or unscrupulous tycoons, to justice through the medium of evading taxes.

Mr. Hoover and the FBI filled the people of the United States with admiration and hope, set a woefully needed pattern for our state and local enforcement agencies, and gave all of us confidence that something can be done about any situation however pertaining. We applaud Mr. Hoover for this inspiration and achievement and wish him greater success in his new field of seeking out spies and saboteurs.

# Visiting At High Level In Coahoma

COAHOMA, July 24 (Sp)—Mr. John Flache of Lamesa was a recent visitor in the home of Mr. and Mrs. Smith Cochran. Flache formerly taught in the public schools here and he was FBI home supervisor for this local district.

Mr. and Mrs. Noble DeVaney and daughters, Barbara Jean and Donna, have returned to their home in Kermit, after visiting here with his mother, Mrs. Rose DeVaney and other relatives.

Mrs. Sam Cook, Mrs. A. M. Sullivan and Winston Hall are spending the week fishing at Gregory Lake.

Mr. and Mrs. Howard Reid and daughters, Bonnie and Sandra, and Mr. and Mrs. Quinlan Reid and son, Ronnie, have returned here to make their home after living in Fort Worth for the past several months.

Mr. and Mrs. George Whitaker and family, who moved to Carlsbad, New Mexico, recently, have returned here to make their home. Mrs. Vance Courson and children left this week for Lovington, New Mexico, to make their home. Courson is employed as a welder there.

Mr. and Mrs. D. S. Phillips and Oma Buchanan of Big Spring spent last Sunday in Mason. Mrs. O. C. Evans returned home with them for a short visit.

Mr. and Mrs. R. L. Mullins and family are moving to Post this week.

Mrs. Ernest Garrett left this week for Abilene, where she plans to enter A. C. C. Accompanying her were her children, Bob and Sue, and Dimple Sue Hunter.

Mr. and Mrs. Grady Acuff were in Abilene this week to attend the funeral services for George Calvin Davis, his grandfather.

Mr. and Mrs. J. L. Stewart and daughters, Lois and Shirley, of Colorado City visited Mr. and Mrs. J. H. Shelburn and Mrs. Virginia Kidd, recently.

Mrs. Claud King and Mrs. Roy King are in Cross Plains this week visiting relatives.

Clinton Walker of Hamilton is visiting in the home of Mr. and Mrs. D. T. Cook.

Mr. and Mrs. O. H. Vick and son, Tommy, of the Sinclair Lease are spending a two weeks vacation in Houston.

Mrs. Georgia Gafford of Tulla has returned to her home after spending several days visiting her sister, Mrs. Austin Coffman.

J. T. Nickols of Houston arrived this week to visit his parents, Mr. and Mrs. J. O. Nickols.

Mrs. N. E. Reid left Friday for Los Angeles, Calif., to spend several days with her daughter and family, Mr. and Mrs. Jack Roberts.

# No Bitterness, Says Moody In Conceding

KERRVILLE, July 27. (Sp)—Former Governor Dan Moody acknowledged his defeat in the U. S. senatorial race yesterday and declared "I have no feeling of bitterness or humiliation over the results."

In a statement he said: "I am grateful for the loyal support of those many friends, old and new, who supported me with such enthusiasm throughout the campaign and I shall never cease to be grateful to them."

"I have no feeling of bitterness or humiliation over the results or resentment over anything that happened during the campaign. I made should be made, and I believe that even had I known beforehand that it would result just as it has resulted, I would, nevertheless, have made it."

"Except for the disappointment that will be felt by my friends, I wish to express to the newspapers, all of whom were liberal in giving publicity to my speeches and making of whom gave me editorial support, my sincere appreciation."

Of all trucks on American farms, one-third are more than 10 years old.

# Three Enlisted In Naval Reserve

Three men have been enlisted in the U. S. Naval Reserve and three more sent for construction service interviews, the navy sub-station reported here Monday.

Cleo Everett Beasie, Colorado City, and Claude Elvise Ruffield, route 1, Stanton, both went as V-8 (apprentice seamen, general service), and Willis Andrew Rushing, Big Spring, went in as V-2 (aviation groundwork).

For construction corps, these were sent to Dallas for interviews: Floyd Ray Jones, Big Spring, Charles Venice Defoyd, Wickert, and Drew Kennard Lockart, Crane.

During the weekend, S. L. Cooke, in charge of the local sub-station, A. H. Walker and Clayton L. Barber, attached to the station, attended a recruiters meeting for the Dallas district.

# Hollywood Sights and Sounds— Paul Lukas Likes The Big City

By ROBBIN COONS  
HOLLYWOOD—The big traffic cop at the busy intersection in New York was going about his stop-and-go assignment. He caught on the stop a certain debonairly quiet gentleman whom he recognized. He gave no sign, but went on directing the flowing river of vehicles. He was all business. But before he motioned the quiet gentleman on, he winked and said, "Hi-ya, Paul. How you like the big city?"

Paul Lukas likes to tell the story today. He likes to talk about New York. He likes New York. He will tell you about the big town's easy friendliness. He will even defend the climate—granted air-conditioning—and Manhattan. And then he will admit, with wise humor, that he would be as fond of Oshkosh if he had had a little success in Oshkosh.

Paul, the Hungarian-born actor, has had his "little success" in New York. He was star of the hit play, "The Watch on the Rhine," which is why—obviously to anyone who knows his Hollywood ABC—he is again a star in Hollywood, making the film version of the hit play with a girl named Bette Davis in the cast.

If he is like other heroes of this old familiar filmland story, Paul has been making the discovery that a lot of movie people who looked past him before he clicked on Broadway now are "seeing" him. Not only seeing him but exclaiming with delight, "Paul! My back here when war was declared to see what I could do about joining the army. But despite the fact that I speak five languages and spent three years on the Russian front, I am still waiting to be called. Went on to Detroit and then back to New York to make some recordings, thence to this town. . . . The crowds here have been tremendous—and the Ritz Murray-Gordon grill appears to be one of the most popular spots in town."

Note: Basil Fomeen was a Russian officer in the last war ("White Russian," he always points out) and came to America to see what the Land of Liberty and his skill with an accordion could do for him. He still smokes those long Russian cigarettes, which his mother makes for him. He also invents strange musical instruments which one man can play but which emulate an entire orchestra in sound. His book, "Songs of Inspiration" is a collection of more than a score of his own lullabies and ballads ranging from gypsy laments to Russian love songs.

# Washington Daybook— Henry Cabot Lodge Has Set Up Quite A Flurry

By JACK STINNETT  
WASHINGTON—The capital in wartime:

He's the head of the multigraph and mimeograph division of one of our war agencies. He called his procurement department and told them that he had to have, as soon as possible, a can of talcum powder. (As nearly as I can get it, it is used as an ink dryer for rapid duplications.)

A week went by and no can of talcum. After his fourth frantic call, he was informed: "We are getting that from the source of supply, which is the middle west. It ought to be along any day now."

Ten days later, after numerous additional frantic pleas, the order came through—24 cans of talcum powder.

The division chief, tearing out his mustache, whicker at a time, finally got the procurement boss on the phone. "Why," he shouted, "24 cans?"

"We have a cent a can that way," procurement answered proudly.

The m. and m. division head nearly fainted. Before hanging up the receiver, he said weakly, "But man, don't you know that 24 cans will last us exactly 2 years?"

Few congressmen who have been in the war front observation lines have made such an impression on Washington as (Sen.) Maj. Henry Cabot Lodge, Jr., who has just returned from Egypt, where he witnessed first-hand Rommel's drive Bloomsdale Savor spinach.

On the record and off, the Massachusetts republican senator has had a lot to say about the performance of American tanks, desert across the Egyptian-Libyan border, tank gun, and the strategy of that wily desert rat, Rommel.

Even his on-the-record comments have been most revealing and what he had to report to the war department must have been just a shade short of sensational.

Still, the senator's military observations are just a minor flurry compared to the political whirlwind he has kicked up.

It started when Secretary of War Hinson (republican, but all-out anti-isolationist) wrote Senator Lodge (formerly identified as a member of the isolationist bloc, but No. 1 member of the upper house to leap into the thick of war) a

# Man About Manhattan— Dick Jurgens' Band Just Now Getting To New York

By GEORGE TUCKER  
NEW YORK—Wartime Washington is a puzzle that even Professor Edward Lindeman of the New York School of Social Work can't unravel. During a brief stopover there Professor Lindeman telephoned about a dozen high ranking officials whom he knows intimately. All were delighted to hear his voice but regretted they wouldn't be able to take time off for a little social powwow. . . . "Too busy," they explained. Then the professor telephoned the White House and was at once connected with Mrs. Roosevelt. . . . Not only did the First Lady insist on seeing him, she showed the President's dinner hour ahead one full hour so that Professor Lindeman could have dinner at the White House and still make his train back to New York.

The current No. 1 tune on the hit parade is "One Dozen Roses"

# Texas Farm Income Above Last Year

AUSTIN, July 28. (Sp)—Farmers poured nearly \$65,000,000 of foodstuffs into Uncle Sam's war larder in June.

The University of Texas bureau of business research, reported that the index of the state's farm cash income for June stood at 187.2 or 87.2 points above the average for the size of last year's—helped to boost farm cash income for June to a point 88 per cent above June a year ago, the bureau revealed.

# And Nothing Can Be Done About It

# Slayer Dies Before Utah Firing Squad

SALT LAKE CITY, July 30 (Sp)—Donald Lawton Condit, 25, was executed by a firing squad today for the slaying of Harold A. Thorne, Salt Lake City salesman.

Condit, a hitchhiker whom Thorne had given a ride, chose this way to die in preference to hanging, after he was convicted of first degree murder.

Five men from Iron county, where the crime took place, fired the lethal volley. One of the guns carried a blank but none of the executioners knew which of them held that gun.

The execution was without outward incident. Witnesses were admitted into the prison yard after Condit had been strapped to a chair facing a curtained recess where stood the firing squad. He showed no agitation and made no move as the four steel jacketed bullets plumed into the target pinned over his heart.

Throughout the night, said Warden John E. Harris, Condit appeared calm and composed. With him until a few hours before he was brought from his cell to the execution chair was his 20-year-old wife, Betty Jane Condit.

# Promotions At Glider School

Several promotions among non-commissioned personnel at the Big Spring Glider school have been announced this week.

Technical Sgt. Harry M. Mullins of Lyburn, West Va. has been promoted from Staff Sgt. effective July 24. Sgt. Mullins has previously served at Kelly and Luke Fields.

Sgt. Harold H. Zibell, in charge of finance of this headquarters, received his promotion from Staff Sgt. to Technical Sgt. July 24. His home is in Waterloo, Wisconsin, and he has seen previous service at Camp Callen and Mather Field, both in Calif.

Administrative Sgt. Elmer M. Lojan, who joined the service on Feb. 7, 1941 and attended Administration school at Fort Logan, Denver, Colo. from April to Aug. 1941, will leave for officer training about Aug. 1. Sgt. Lojan has previously served at Scott Field and Luke Field, and after a three months officer training course at Miami Beach, Fla., he will be commissioned. The Glider school here regrets to lose the services of Sgt. Lojan, as he is considered a valuable member of the staff.

### County Goes Back In The O'Daniel Fold

Sample polls and political observations to the contrary, Fappy (who uses the name of W. Lee O'Daniel for ballot purposes) pulled Howard county back into his column in Saturday's balloting.

He piled in 1,680 votes with a potent finish on final returns to top the 1,635 which James V. Allred, who had led until the last two boxes were in, had accumulated. Dan Moody, third of the big three, got 776 votes.

In the county O'Daniel had upset the dope to get 40.8 per cent of the total, slightly under the margin he was maintaining over the state. Allred had 39.5 per cent, substantially higher than his state average. Moody had 17.9 per cent.

The magic did not hold for Hal Collins, who stumped with O'Daniel in an effort to upset Coke Stevenson as governor. Stevenson took 3,002 votes in the county to only 1,030 for Collins.

Howard county smiled best on John Lee Smith for lieutenant governor, giving him 1,234. Boyce House, a Texas newspaper writer, accumulated the second largest amount in the county with 743.

George H. Sheppard, as usual, had no trouble at all for comptroller with 3,540 votes, nearly a 15-1 lead. Jesse James had a majority in the treasurer's race with 2,009.

### Neighbors Help With Crop While Farmer Is Ill

Neighbors of Clyde Bloodworth gave a practical demonstration of the "good neighbor policy" this week, when they gathered at Bloodworth's place to work out his crop.

Bloodworth has been quite ill of typhus fever.

There were eight tractors in the field at once, and a ninth put in time later. Bringing or sending tractors were Charley Anderson, Clyde Denton, Earl Rowden, L. D. Keefer, George Powell, Bill Washington, Perry Geurin, Bernard Thomas (with P. N. "Pink" Obrian's tractor) and Jack Thomas (with Grandpa Obrian's tractor).

Esell McKaskie, Levi Keefer, A. Chandler, Angelo Davenport, Rip Obrian, Glyn Jackson, Lurline Geurin, Billy Anderson, Marie Davenport, Emitt Griffith, W. M. Kemp (hand hired by W. E. Wells, served as hoe hands. P. N. Obrian also furnished two negro hands to help with this work.

Lunch was served at noon at the Clyde Geurin home by Mrs. Geurin, Mrs. Esell McKaskie, Mrs. W. T. Wells, Mrs. Charles Anderson, and Reba Lee Obrian. Others sent gifts of food.

### LAND COMM'R.

Bascom Giles had it easy for re-election as land commissioner, getting 2,582 votes to 1,143 for Neil Day. Gerald C. Mann romped along with an almost 9-1 lead over Jim Hair for attorney general, polling 3,508 votes. L. A. Woods had better than a 4-1 lead over C. J. Tergerson with 2,987 votes.

Democratic ire had cooled from last general election, and J. E. McDonald had a clear majority in gathering 2,385 votes for agriculture commissioner. W. N. Corry was second with 744.

Ernest O. Thompson had almost a 3-1 advantage over two opponents for one railroad commission post, laying in 2,820 votes. Pierce Brooks, whose name has graced many a Texas ballot, led in the other railroad commission race, getting 1,924 to 829 for Bryan (Fat) Patterson, his nearest opponent. Leo More was next with 439 and Buford Jester fourth with 334.

James P. Alexander accumulated 4,139 votes in his unopposed race for justice of the supreme

LEGAL NOTICE

JOINT RESOLUTION

proposing an amendment to Article III of the Constitution of the State of Texas by adding a new section thereto to be known as Section 49a, requiring all bills passed by the Legislature on and after January 1, 1943, appropriating money for any purpose, to be sent to the Comptroller of Public Accounts for his approval, and fixing the duties of the Comptroller with reference thereto; authorizing the Legislature to provide for the issuance, sale, and retirement of serial bonds, equal in principal to the total outstanding, valid, and approved obligations owing by the General Revenue Fund on September 1, 1943; providing for the submission of this amendment to the voters of this State; prescribing the form of ballot; providing for the proclamation and publication thereof; and providing for the necessary appropriation to defray the necessary expenses for the submission of this amendment.

BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. That Article III of the Constitution of the State of Texas be amended by adding thereto, immediately after Section 49, a section to be known as Section 49a, to read as follows:

"Section 49a. It shall be the duty of the Comptroller of Public Accounts in advance of each Regular Session of the Legislature to prepare and submit to the Governor and to the Legislature upon its convening a statement under oath showing fully the financial condition of the State Treasury at the close of the last fiscal period and estimate of the probable receipts and disbursements for the then current fiscal year. There shall also be contained in said statement an itemized estimate of the anticipated revenue based on the laws then in effect that will be received by and for the State from all sources showing a fund account to be credited during the succeeding biennium and said statement shall contain such other information as may be required by law. Supplemental statements shall be submitted to the Legislature at such other times as may be necessary to show probable changes.

"From and after January 1, 1945, save in the case of emergency and imperative public necessity and with a four-fifths vote of the total membership of each House, no appropriation in excess of the cash and anticipated revenue of the funds from which such appropriation is to be made shall be valid. From and after January 1, 1945, no bill containing an appropriation shall be considered as passed or be sent to the Governor for consideration until and unless the Comptroller of Public Accounts endorses his certificate thereon showing that the amount appropriated is within the amount estimated to be available in the affected funds. When the Comptroller finds an appropriation bill exceeds the estimated revenue he shall endorse such findings thereon and return to the House in which same originated. Such information shall be immediately made known to both the House of Representatives and the Senate and the necessary steps shall be taken to bring such appropriation bill within the revenue either by providing additional revenue or reducing the appropriation.

"For the purpose of financing the outstanding obligations of the General Revenue Fund of the State and placing its current accounts on a cash basis the Legislature of the State of Texas is hereby authorized to provide for the issuance, sale, and retirement of serial bonds, equal in principal to the total outstanding, valid, and approved obligations owing by said fund on September 1, 1943, provided such bonds shall not draw interest in excess of two (2) per cent per annum and shall mature within twenty (20) years from date."

Sec. 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of the State of Texas, at the next general election to be held on the first Tuesday after the first Monday in November, 1942, being November 3, 1942, at which election all voters favoring said proposed amendment shall write or have printed on their ballot, the words: "For the Amendment to the Constitution of the State of Texas, requiring appropriation bills passed by the Legislature to be presented to and certified by the Comptroller of Public Accounts as to available funds for payment thereof, limiting appropriations to the total of such available funds, providing for issuance of bonds to pay off State obligations outstanding September 1, 1943, and fixing the duties of the Legislature and Comptroller of Public Accounts with reference thereto."

Those opposing said proposed Amendment shall write or have printed on their ballots, the words: "Against the Amendment to the Constitution of the State of Texas, requiring appropriation bills passed by the Legislature to be presented to and certified by the Comptroller of Public Accounts as to available funds for payment thereof, limiting appropriations to the total of such available funds, providing for issuance of bonds to pay off State obligations outstanding September 1, 1943, and fixing the duties of the Legislature and Comptroller of Public Accounts with reference thereto."

Sec. 3. The Governor of the State of Texas is hereby directed to issue the necessary proclamation for said election and have same published as required by the Constitution and laws of this State, and the sum of Five Thousand (\$5,000.00) Dollars, or so much thereof as may be necessary, is hereby appropriated out of any funds in the Treasury of the State of Texas, not otherwise appropriated, to pay the expenses of such publication and election.

Poloists Lose Tourney Final In Colorado

More polo among the Colorado mountains was on tap this week for the Big Spring polo team, which will participate in another series of games after closing out the Foxhall Keens trophy tournament at Colorado Springs as runner-up.

While several southwestern and midwestern teams are gathered at Colorado Springs, other games were on tap, and the Big Spring crew will remain through this week. It marks the first "big time" appearance for the local riders.

No Precinct Conventions Held Here

Partisan politics seemed to be taking a back seat here Monday as a wartime casualty.

L. S. Patterson, chairman of the county executive democratic committee, said that so far as he knew no precinct conventions had been held Saturday, in accordance with regulations, to name delegates to the county convention slated for this Saturday.

Thus, the possibility of a county democratic committee appeared remote, he said. The county convention is for the purpose of naming delegates to the state democratic confab.

Republicans likewise let Saturday pass without any precinct organization, but leaders of the small local GOP clan said they intended to maintain their organization.

Members of the executive committee for the democratic party were to go into session during Monday afternoon to canvass returns from the voting Saturday, said Patterson. He thought that all returns would be in hand in time for the official count.

LEGAL NOTICE

JOINT RESOLUTION

proposing an amendment to the Constitution of the State of Texas by amending Section 33 of Article 16, of the Constitution of Texas so as to permit the accounting officers of this State to draw and pay warrants for salaries to officers of the United States Army or Navy who are assigned to duties in State Institutions of higher education.

Section 1. That Section 33 of Article 16, of the Constitution of the State of Texas, be amended so as to read as follows:

"Section 33. The accounting officers of the State shall neither draw nor pay a warrant upon the Treasury of the State of Texas for salary or compensation as agent, officer or appointee, who holds at the same time any other office or position of honor, trust or profit, under this State or the United States, except as prescribed in this Constitution. Provided, that this restriction as to the drawing and paying of warrants upon the Treasury shall not apply to officers of the National Guard of Texas, the National Guard Reserve, the National Guard Reserves of the United States, nor to retired officers of the United States Army, Navy, and Marine Corps, and retired warrant officers and retired enlisted men of the United States Army, Navy, and Marine Corps, nor to officers of the United States Army or Navy who are assigned to duties in State Institutions of higher education."

Section 2. The foregoing Constitutional Amendment shall be submitted to a vote of the qualified electors of this State at an election to be held throughout the State on the third day of November, 1942, at which all ballots shall have printed thereon:

"For the Constitutional Amendment permitting the accounting officers of this State to draw and pay warrants for salaries to officers of the United States Army or Navy who are assigned to duties in State Institutions of higher education."

Each voter shall scratch out one of said clauses on the ballots, leaving the one expressing his vote on the proposed amendment.

Morrison, Thomas, Choate Winners; Anne Martin And Bailey In A Runoff

Constable's Office And Two Of Commissionerships Also To Be Decided In Second Primary

Howard county turned out upwards of 4,200 votes in its war-time democratic primary Saturday, elected two new officials, returned eight, and produced run-offs wherever the opportunity presented itself, according to complete unofficial returns.

In the county attorney's race, where incumbent Joe A. Faucett was not running, George T. Thomas, young attorney, won handily 2,478 to 1,591 for H. C. Hooser, his opponent. In a "horse race" to the finish, George Choate, asking his first public office, defeated Hugh W. Dunagan, incumbent 2,110 to 1,926 for district clerk.

Health Unit Outlined To C-C Board

A flexible program adaptable to community needs and with emphasis on immunization, sanitation and education is what Big Spring and Howard county might expect from a city-county health unit, Dr. J. E. Peavy, superintendent of health department, told doctors, chamber of commerce directors and city and county officials at a meeting Monday noon in the Settles.

Dr. Peavy, director of the Nolan county health unit, was speaking as a representative of the state health department. County Judge Delas Reeves of Nolan county had a few brief words in which he recalled the Nolan county unit was the oldest in the state, having been founded in 1929, and was working smoothly there as well as accomplishing a good work.

Details of the program were sketched hurriedly by Dr. Peavy. The director of a unit—such as already approved by the city and county officials—is a graduate of a grade A medical college with regular rotating internship and a post-graduate training in public health. He is, in addition, a graduate of approved schools with public health experience. Sanitarians make milk and water inspections, advising with individuals and businesses on how to better safeguard health.

Various methods are followed in handling immunizations, he said, and the same is true for examination and treatment of venereal diseases, which happens to be the only curative medicine the health directors practice when requested by the medical society. At Sweetwater, Dr. Peavy said, the unit and the county tuberculosis association work hand in hand in a preventive program. One of the biggest tasks for the nurse or nurses is maternity care, pre and post-natal, in cooperation with physicians.

Units, continued Dr. Peavy, are generally set up to meet the special problems of a given community, and therefore they vary greatly in detail. Basically, however, the state health department insists on local medical society approval, and generally an advisory committee from the local medical society counsels with the governing body of health.

Big Spring physicians were in session with Dr. Peavy early Monday afternoon for more detailed information regarding operation of the unit.

Guests at the meeting included Col. Sam L. Ellis and Maj. Roper Bassett of the U. S. Army Flying School, and Tom Pendergrass of Lubbock, besides the Sweetwater men and visiting doctors and city-county officials.

Little change is contained in the revised water contract which now promises to meet with army sanction as well as with the City of Big Spring.

Agreement Is Near On Army Water Deal

Little change is contained in the revised water contract which now promises to meet with army sanction as well as with the City of Big Spring.

City commissioners gave their stamp of approval to the contract, which prescribes the first 2,000,000 gallons for the U. S. Army Flying School will be delivered at 25 cents per thousand, the regular consumer rate.

All subsequent would be at 11.5¢ per thousand, based on cost of production plus amortization expenses. After the indebtedness for the line is retired, however, the cost then would revert to 7.83 cents per thousand over the original 2,000,000 gallons.

Officials estimated that it would require approximately three years to amortize the line costs to the field.

News Notes From The Oil Field COMMUNITIES

C. B. Connally has tendered his resignation as Forsan high school principal and is in Illinois for special training to serve as mathematics instructor in aircraft classes.

Mr. and Mrs. B. R. Thomson and their father, E. A. Etheridge of Phoenix, Ariz., left this week for Hot Springs, N. M., where they will spend the next two weeks.

Mr. and Mrs. J. D. Leonard recently visited the Paul Pattersons of Coleman. Bobby Leonard is recuperating from a tonsillotomy.

Mr. and Mrs. J. B. Criner have returned from a vacation trip to Oklahoma.

Mr. and Mrs. L. F. Mays, who have spent the past several months in Houston with their daughter, Mrs. Percy Smith, have returned to their home here.

Mr. and Mrs. Bruce Lindsey and son, Robert Bruce Kermit are spending several days with her parents, Mr. and Mrs. Austin Coffman.

Mr. and Mrs. H. Noble Read and Jane have returned from Las Vegas, N. M., where they visited Mr. and Mrs. Roger Read.

Miss Birkhead of Lamesa has returned to her home after visiting her parents, Mr. and Mrs. B. T. Birkhead. Miss Lella Birkhead accompanied her to Lamesa.

Mr. and Mrs. R. J. Rouburg left Monday for Dora, N. M., to visit his parents. From there they will go to Houston, where Rouburg will enter defense work.

Young Men Needed As Pilots, Says Hero Of Pearl Harbor

Rotarians and guests heard Lieut. George E. Welch, decorated war hero who shot down four Japanese during the surprise attack at Pearl Harbor, and Lt. Col. Marvin B. Durrette, district recruiting officer of Lubbock, speak at luncheon Friday noon on the urgent need for young men in the army.

Lt. Col. Durrette spoke on the fact that the army air corps needs young men as the best pilots for combat service and pointed out that boys under 20 years of age can ask for any branch of service they desire and be assured of assignment to that branch. He also told of the heroic actions of young Lt. Welch at Pearl Harbor in driving in his car to the airport, taking off to tangle with Jap Zeeros and dive bombers.

Lt. Welch talked of the need of young men in the air corps, saying that already he was considered too old for use as a combat pilot. Boys from 18 to 22 years are best suited for this line of duty, he told. He also spoke of his comrades in the Pacific who are outnumbered and ill equipped. "We need pilots plenty damn bad," he said "and less we have them and other soldiers we might lose the war in the far east."

Grandma Bishop is dead at 99 years—just five months and 11 days short of her cherished goal of 100 years.

Not many people here knew Mrs. Louisa Bishop, mother of two Big Spring men, but many knew of her because of her devotion and efforts to spur her on to longer life. Mrs. Bishop died at her home in Middleton, Tenn. Tuesday afternoon following a critical illness of six days, and neither D. E. Bishop, Big Spring, nor J. A. Bishop, R-Bar, could get back to Tennessee in time for the funeral Wednesday at 3 p. m.

Those interned Watch Doolittle's Unit Drop Bombs

By JOSEPH DYNAN LOURENCO MARQUES, Portuguese East Africa, July 24 (Delayed)—The "Doolittle" unit on Japan provided the thrill of a lifetime for a group of Americans at an internment camp mid-way between Tokyo and Yokohama.

One of the U.S. planes flew directly over our camp and the music of its motors was sweeter than Beethoven's Fifth Symphony which our phonograph was playing at the time.

It was shortly after noon on April 18 that the big thrill came. We were having coffee and toast when the police rushed into our camp excitedly and told us to extinguish the fires in the stoves and close the windows because there was an air raid.

We thought it was only a drill—even when we heard two tremendous explosions in the direction of the Kawasaki industrial area. A few seconds later, however, we saw a large twin-engine bomber flying very low. Bursts of anti-aircraft shells were streaking after it. The raider dropped down 200 feet to skim rooftops and escaped.

A few seconds later, however, we saw a large twin-engine bomber flying very low. Bursts of anti-aircraft shells were streaking after it. The raider dropped down 200 feet to skim rooftops and escaped.

Uncle Sam In The Market For Typewriters

Uncle Sam is needing typewriters. The mushroom growth of government agencies, along with the military services, has created a demand for office equipment that writing production cannot meet and the government is wanting to buy up what typewriter civilians can spare.

Funds Approved For A Secret Weapon

WASHINGTON, July 27. (AP)—Behind closed doors, the senate naval committee approved today a \$974,634,000 naval expansion program which contemplates a \$30,000,000 expenditure for secret training and a mysterious new weapon.

Laborers, Office Workers Needed

The United States Employment Service office here in urgent need of certain types of workers. Laborers for construction work at the U. S. Army Flying school are needed badly, said O. R. Rodden, local manager.
