## Groom FFA Wins 2nd For Ag Display At Tri-State Fair

The Groom Chapter of the Future Farmers of America recently won 2nd place in the Tri-State Fair for their display on the causes and prevention of skin cancer.

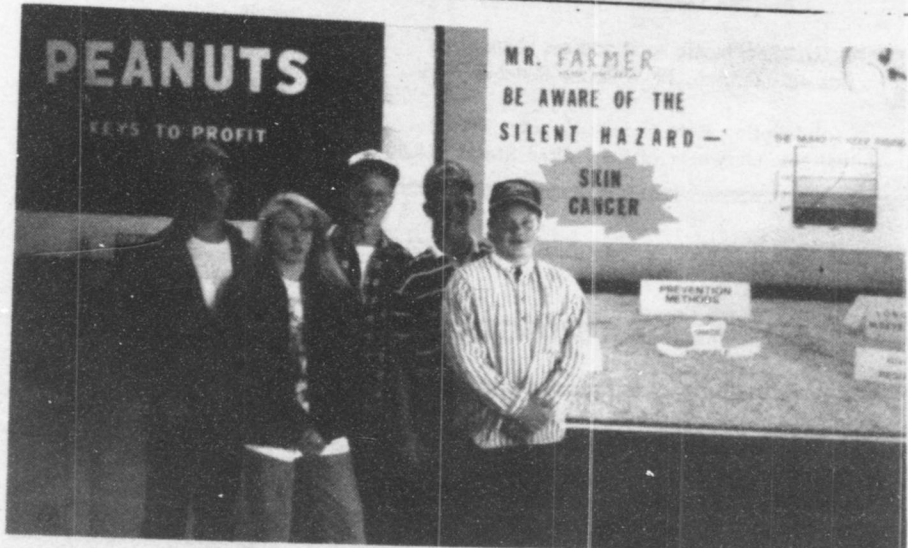

The entries are designed to educate the public on any aspect of today's farming and ranching concerns.

FFA sponsor Charles Burk stated "Our idea for the display sprang from a homework assignment where each student made a miniature display on any subject they selected. Rhett Patterson's project was picked as the best with improvements made by the rest of the FFA members."

The Chapter took 2nd

place behind Tascosa High School of Amarillo. They were awarded \$150.00 which will go back into the Chapter treasury to help pay for booth materials and other expenses.

Members who helped assemble the booth were Rhett Patterson, Ty Lambert, Chy Phillips, Matt Miller and Melody Burton.

## 1992 Fall Harvest Termed Bountiful

According to the managers of the local grain elevators, corn harvest is about completed and maize is just beginning.

Nadine Thornton of Wheeler Evans said Billy Fields brought in the first load of corn here in town and Stephens and Stephens brought in the first at the

Corners.

Attebury Grain's Tony Treadwell reports that Greg Lamb brought in their first load on September 12th.

"The yields have been excellent," he stated, "Many farmers reported yields of 215 bushels dry weight."

Maize harvest is expected to be carried out over the

next four to six week period. Chris Britten brought the first milo into Wheeler Evans, while Curtis Whatley was first out at the Corner.

"The test weights are heavy," said Thornton, "Running about 59 to 62 with a moisture level of 16." Kelvin Ollinger and Chris

Britten brought in the first maize for Wheeler Evans.

"Most are running over 10,000 pounds per acre yield. Most of the dryland will need a freeze in order for it to be ready to harvest," said Treadwell.

Most area farmers appear to be very proud of this year's bountiful harvest.

## "Mora Grain Expects To Open Next Week"

Penny Brooks, manager of Mora Grain, stated at presstime that he expects to be open for business sometime next week.

"Our license has arrived and we have already

accepted 13 to 14 million pounds of corn between here and Lark," he stated.

Brooks went on to say that they were still deciding on employees and making repairs.

## Powder Puff Football Game Opens Homecoming

Homecoming week is next week, October 12 - 16. The Student Council has planned many activities to make the week enjoyable for everyone.

To start the week off, the high school girls will have a powder puff football game

on Monday, starting at 6:00 p.m. Admission will be \$1.00 for adults and \$0.50 for students.

After the game, at about 8:30 p.m., the bonfire will start. Be sure to note that the bonfire has changed to Monday because of the

junior high and J.V. games in Valley on Thursday.

Several things have been added to the pageant this year. On Tuesday, Mr. G.H.S. Homecoming will be crowned. It starts at 7:00 p.m. in the auditorium.

Friday, preceding the

game, the coronation will be held on the football field at 6:15 p.m.

A new addition has been added for the high school students throughout the week. A "spirit" contest will be held between the classes

## Groom Tigers Open District Play At Higgins

### Tigers Handle A Less Physical

### Samnorwood, 55-8

Groom defeated the Samnorwood Eagles by involving the 45 point rule in the third quarter.

"The boys came out sluggish," said athletic director Jay Lamb, "We looked in the first quarter or so like we had had a week off, which we had. However, they came back and began to execute well."

In the first quarter Corkey Hickey blocked a punt recovery for a goal. Tom Lambert made good the kick for the extra point. Harold Cave scored on a one yard run and Lambert again was successful on the kick.

Paul McLaughlin pulled in the next three touchdowns, a 1 yard run, a 25 yard pass from Bo Burgin and a 12 yard run.

"Some of the younger boys played exceptionally

well," said Lamb.

Sophomore Seth Ritter tabulated the next two T.D.'s, a 55 yard run and a 34 yard run. Bryan Crowell connected on the run for the extra points.

The final goal was made by Bryan Crowell on a 62 yard pass from Matt Miller.

Groom will play Higgins this Friday night at 7:30.

## Carson Co Sheriff's Report

By Sgt. Loren Brand & Deputy Ray Davis  
Twelve persons were booked into the Carson County Jail during the past week. Five persons were arrested for DWI - First Offense, one for DWI - Second Offense, three for Poss. of Controlled Substances, one for Public Intoxication, one for Injury to a Child and one for Criminal Warrants out of Gainesville, TX.

Deputies responded to a vehicle fire on Interstate 40 near the 93 mile marker on Monday evening. A van carrying carnival employees from New Mexico to Oklahoma caught fire and had to be extinguished by the Panhandle Fire Department. The Texas Highway Patrol assisted in traffic control and the Panhandle EMS unit responded to check for injuries. No injuries were reported by the six occupants of the vehicle, but the 1987 van was completely destroyed.

Carson County deputies and the Panhandle Fire Department responded to another vehicle fire Saturday afternoon on Highway 60 approximately seven miles west of Panhandle. An Amarillo woman and her son escaped injuries when they left their 1980 pickup

after noticing smoke coming from under the hood. The vehicle was engulfed in flames shortly after their departure. The vehicle was determined to be totalled. Fire officials indicated that the fire may have been caused by a ruptured gas line leaking on the manifold of the pickup.

Deputies assisted the White Deer City Marshal and White Deer Ambulance Service when a resident passed away at his home.

Officers are investigating the unlawful entry of a mobile home in the Fritch area where various items of lingerie were missing. An Interstate 40 convenience store and service station reported a gas drive-off where the subject was westbound on the Interstate.

Officers checked a number of reports of cattle on the highway and assisted with medical emergencies in towns within the county. Deputies and the Texas Highway Patrol investigated three Cuban nationals who said that they had been dropped off in Groom by a truck driver. After checking to see if the subjects were wanted for any offenses, they were transported to the nearest bus terminal so they could return to Los Angeles.

The Carson County

Sheriff's Department and Texas Highway Patrol were called to a restaurant/truck stop in Groom Friday evening when citizens observed a man striking a young child. A 40-year-old Oklahoma man was arrested on a felony charge of Causing Injury to a Child and is currently being held in the Carson County Jail pending trial. Another man was arrested for Public Intoxication as a result of this same case.

The child is currently in the custody of the Department of Human Services pending the location of a relative or foster parent who is deemed to be suitable to care for

the child.

The citizens of Groom who assisted officers in this investigation should be commended for their assistance in the investigation of the Injury to a Child case. At a time when many people find it easier to simply turn their heads when a criminal act is observed, the people of Groom have made every effort to assist officers and publicly let the offender know that the abuse of a child is not tolerated in our County.

 Price Adjusted for Inflation

In 1983, you could buy a cup of coffee for about 25 cents. Today, you pay around 75 cents. An automobile that carried a sticker price of \$8,200 is now listed for \$15,000.

Compare this to the average residential cost of electricity in the SPS service area. In 1983, you paid 7.59 cents per kilowatt-hour. Today that rate has been reduced to 6.08 cents. That is 20% less! And, when you adjust for inflation, the real cost has been reduced 42%!

Our heating rate has been significantly reduced, too. Today, you pay only 2.92 cents per kilowatt-hour to heat your

home electrically. That is much less than the national average for electric home heating.

And, because industrial and commercial rates, as well as residential ones, have come down, the area as a whole benefits. SPS' low rates can help attract new industry and encourage local companies to stay in our area.

## Crown Hospice Serves Groom

In the early days of the Panhandle, people and services were scarce. Families were close-knit, and neighbors were many times the key to survival, even though vast miles separated homesteads. People depended on their neighbors throughout their lives, from

birth to death.

Modernization brought hospitals and clinics - professional services which greatly improved the quality of life. But there is a growing realization that some services can still be provided at home. One such service began just a

decade ago in the United States. This service depends on professionals and volunteers - neighbors, friends or even strangers - to bring compassionate care to the terminally ill. This service is hospice. Hospice care is now

### CED No. 3 Tax Rates Compared

Recent tax increases mandated by the state has effected all the County Education Districts. The study below, prepared by the staff of the White Deer News, shows how local school boards responded to that increase and what the combined effect will be. to see who has the most spirit. Judging will be based on the class sign, decoration of a class car, participation in dress-up days, spirit and participation in the pep rally and bonfire, and their overall spirit.

Also, the business window contest will again be held. We hope all businesses will enter this contest and contribute to the spirit of the week.

The Student Council urges everyone to support these activities and to help make next week the best Homecoming ever.

Veteran Fitter, Mrs. Kay Burk, shows Joe Rae Richardson and former student Ronnie Jenkins the fine art of dressing a tail.

It's a family affair to get the animals ready to show for the Richardsons. As well as showing steers as a family pass time, they also rodeo together. Joe Rae is pictured here with Mom and Dad, Jodie and Joe Richardson, Daughters Julie and Jaycee were busy elsewhere.

#### . . . CUBS

Jason Prather cashed in on an extra point, also for White.

Byron Slaton and Leo Britten each scored a T.D. for the Black Team. Scott

Weinheimer bagged two touchdowns. Byron also scored an extra point.

"I think the boys really had a great time," said Coach Reid.

The purpose was to give the boys some playing time

as they had three weeks between games, but their main goal was to have fun. The coaches stated that they appreciated all the other high school students who helped make it so much fun for the players and coaches.

## Ag Commission Feels 4-H Builds A Sense Of Responsibility

### LETTER TO THE EDITOR

Dear Editor:  
Some of my best memories while growing up in Paint Creek in Haskell County were associated with my 4-H club activities. In fact, I would suggest that our 4-H work helped instill in every member of our club a sense of responsibility and dedication. These are qualities that I have tried to carry with me into my adult

life, and ones I hope to pass on to my children, Sydney and Griffin.

National 4-H Week, October 4 - 10, gives us a time to reflect on a program that brings a practical learning experience to the youth of America. The cornerstone of this youth organization, "learning by doing," has withstood the test of time.

Today, one out of every 10 Texas youngsters is involved in 4-H, and many of their learning experiences revolve around animals. Whether it's raising a pen of rabbits or feeding and grooming a market steer for the show ring, these young people are learning a strong sense of satisfaction and commitment that comes with tending and caring for an animal. Walk through a county fair or regional livestock show this fall and you will see that sense of duty and pride beaming from ear to ear.

But today, we also find that more than two-thirds of our children live in an urban setting, and so 4-H has changed with our shifting population trends. Nowadays, you might find a group of youngsters in

downtown Dallas tending to a roof top garden, or kids in Houston working with natural resource or wildlife programs. Or it may be that group of youngsters in Austin learning leadership skills and group planning on a county recreational team.

4-H embodies all that is right with our country's young people - embodies their hopes and dreams for the future. But what's more, 4-H is helping them turn their hopes and dreams into fact and reality.

Texas agriculture is proud to take this opportunity to salute 4-H and all the extraordinary people who make it a shining success.

Sincerely,  
Rick Perry  
Commissioner of  
Agriculture

Local Shooters are putting Groom on the map with their many wins in recent competition. Attending National Rifle Association matches recently are Todd Gray, C. J. Whatley, Jeremy Lewis and Michael Lewis, pictured. Also competing but not pictured were Michael Stephens, Jason Prather, Caleb Pool and Dara Whatley.

## Local Youths Attend NRA Match

4-H isn't just about cooking, sewing and raising animals any more! A wide range of activities can be found for members. Some of the not so well known projects listed are: Aquatic Sciences, Bicycle, Consumer Life Skills, Electric, Horticulture, Leadership, Photography, Public Speaking, Range Science,

Recreation Shooting Sports, Veterinary Medicine, Wild Life and Wood Science.

During National 4-H Week members will be recognized for their accomplishments in the last

year. The local clubs are always interested in new members. If you think you would like to be a part of the fun just contact any local 4-H'er and attend the next meeting.

**D. P. S. Report . . .**

**Golden Spread Motel Burglarized**

By Joe Longway  
On October 1st DPS was notified of a man being cruel toward a three year old child at the Texas Reds Restaurant. Upon arrival by-standers were keeping the man there until the arrival of police. The man, from Cheyenne, Oklahoma was arrested for Injury to a Child and Public Intoxication. While attempting to arrest this subject his father interfered and was also arrested for Public Intoxication. Both men were transported to Carson County Jail by Deputy Ray Davis. The child was turned over to the Department of Human Resources.

On October 3rd DPS arrested a Phelar, California man for Possession of Methamphetamine, after a routine traffic stop resulted in a consent to search. Also found during the search were two 44 magnum revolvers. The man was taken to Carson County Jail and the white

powder and two guns were seized. DPS Narcotics and ATF were notified for further investigation.

On the morning of October 5th DPS was requested to assist Carson County Sheriff's Office in the investigation of burglary at the Golden Spread Motel. The man was later arrested for Criminal Trespass and Burglary by Joe Leatherwood. The Montana man was greeted at the Groom City Limits earlier in the day by DPS and now has a home in the Carson County Jail.

DPS was invited to the Groom School twice last week. Mrs. Hutsell's Kindergarten Class were

sworn in as Junior Troopers after a tour of the patrol car and an explanation of a troopers role in society. Mrs. Britten's Resource Class were fingerprinted along with a brief history of how fingerprints are used in the detection of criminal activity.

**IRS Focuses On Non-Filers Of Income Tax**

As part of a nationwide effort, the Dallas District of the Internal Revenue Service is increasing its focus on taxpayers who have failed to file tax returns. If you are one of the majority of taxpayers who file and pay every year, this is good news. If you are one of those who has not yet filed, don't wait any longer.

IRS is assigning 2,000 revenue agents and examiners nationwide to find delinquent taxpayers and secure their returns and unpaid taxes. Additional personnel are also being assigned at IRS processing centers to investigate records and information documents that indicate a tax return should be filed.

Dallas District recently completed an outreach campaign to bring people back into the system. According to Gary O. Booth, IRS Director for the Dallas District, "We are

convinced, from the numbers of taxpayers who took advantage of our outreach assistance, that most taxpayers are willing to comply with the tax laws if they have the information and help they need to do so."

Booth urged those who did not take advantage of the special assistance offered earlier to file their returns now. IRS will work with people who owe tax to help them meet their tax obligation.

"It is only fair to taxpayers who are filing and paying their tax on time for IRS to ensure that all others do, too," Booth remarked. "And since penalties and interest continue to increase your debt, you are helping yourself if you file now."

Taxpayers may call the IRS toll-free number (800-829-1040) to schedule assistance.

**ASCS Employees Attend Conference**

Clayton Yeutter, Counselor to the President for Domestic Policy, met with local employees of the Agricultural Stabilization and Conservation Service, and agriculture leaders from across Texas.

Yeutter coordinates all domestic policy activities for the president through the operations of a new Policy Coordinating Group (PCG). The PCG is the domestic equivalent of the National Security Council. Prior to coming to the PCG, Yeutter served as Secretary of Agriculture. While at Agriculture he was actively involved in farm legislation and in negotiations to open export markets for American farm products throughout the world.

Secretary Yeutter met with the group at the Texas State Conference of the Agricultural Stabilization and Conservation Service, recently held in Lubbock, Texas. The training conference was designed to train local employees in program administration and to improve the effectiveness of the farmer-elected County Committee System.

Jerry D. Harris, Chairman of the Texas State ASC Committee, stated that Clayton Yeutter has consistently worked to expand the role of U.S. Agriculture in the world. Domestic policy involves agriculture in every way. Secretary Yeutter's visit with ASCS committees and employees demonstrates the

place farm programs have in our domestic policy.

The Agricultural Stabilization and Conservation Service is the United States Department of Agriculture agency that administers farm programs passed by Congress. This includes programs that affect many local farmers and ranchers.

Chairman Harris noted that this meeting brought together local agriculture leaders and Administration policymakers for training and evaluation of the effectiveness of current programs. The conference helped find ways to improve the service provided through policy decisions and improve the knowledge of ASCS employees.

## Superintendent Dispels Rumors

Rumors are about that your school superintendent has resigned. It's not true. I'm still here. I must confess that I have openly discussed the possibility of retirement when this contract year is over. But there is nothing definite about that yet.

The educational future of Texas seems bleak to me. I attend regional and state meetings expecting to be encouraged and enlightened and come away discouraged and angry. If you, as a parent or citizen love your school and want to maintain local control you need to call your legislators and tell

them how you feel. I have an article dated August 13, 1992 by our state representative Chisum that says that he favors "County-wide schools." That would mean that the school in Gray County would be in Pampa. McLean is as entitled to a school as much

as Pampa is. We pay taxes, too! Big is not better! Big is worse, much worse!

McLean is a very nice place to live. This board of education is very supportive of future educational plans. I have no problem with the school board nor the community. The legislature

and the Texas Education Agency are my problems. Implementing TEA's demands and maintaining a good school seems to be a contradiction in terms.

If I can muster the courage and endurance, I'll spend some more years in Texas. I do believe that we must contact our legislators and tell them how we feel and that we do not want county schools. We want local schools!

## Tigers Gear Up For District

The McLean Tigers traveled to Valley last Friday night.

Although McLean's senior, Christian Looney played a very good game, it wasn't enough for the Tigers to defeat un-beaten Valley.

The third quarter Valley was scoreless, but rallied for 19 fourth-period points to edge McLean, 59-47.

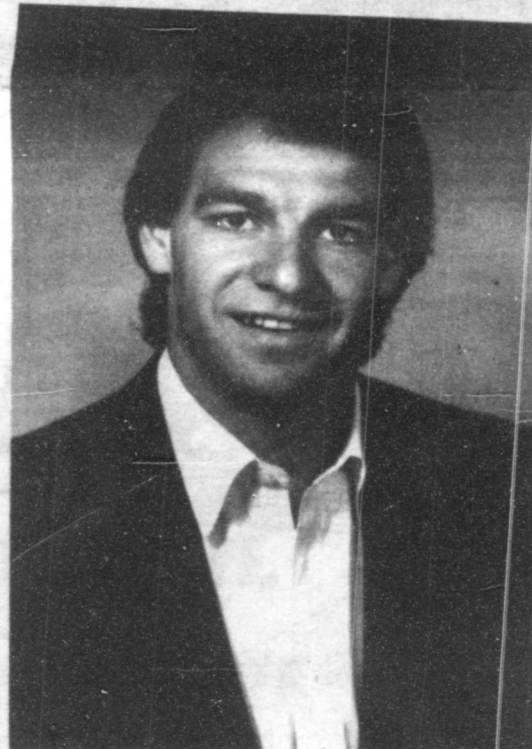

Looney, a quarterback, rushed for 159 yards and

three touchdowns and threw for 212 yards and four more scores. This was not enough to carry the Tigers past Valley (5-0).

Valley's Jason Smith turned out to be the Tiger's nemesis rushing for 259 yards and five touchdowns. He also intercepted a pass and returned it 59 yards for a touchdown.

The Tigers dropped to 1-4 on the season.

## Drug Program To Be Presented

"Twenty-one minutes can make a difference," says Jerry Pipes when referring to his program. Pipes, based in Lewisville, Texas, and serving as a part of the President's War on Drugs, has spoken to more than two million students and parents throughout the United States and in foreign countries. His humorous, entertaining but hard-hitting approach speaks clearly to his audience, this putting him in constant demand for assemblies, banquets and various conferences.

The vital question addressed by Pipes in his presentation is: "How much is it worth to me, how much am I willing to pay to be accepted?" His target

group covers those in middle school, junior high and high school. It also includes parents, administrators, teachers and the business community.

During the day Pipes focuses his attention on the students. Evenings are given to gatherings of parents and other interested adults. To these he speaks regarding their role in fighting the war on drugs, understanding students in the 90s and building self-esteem within young people.

Following a program in San Bernadino, California, the San Bernadino Sun contained a story featuring quotes from some of the

The Pioneer Study Club met Thursday, October 1st at Lovett Memorial Library. Margaret Grogan was in charge of the program. She introduced Joan Andrews who is connected with the Hospice of the Panhandle. Mrs. Andrews lives in McLean and is the wife of Pat Andrews, minister of the Church of Christ. This care is offered to all eligible residents of the Panhandle regardless of their ability to pay.

Thanks to our grandmother, Mattie Bailey, Aunt Billye Ladd, cousin, Jody Compton, for sharing that special time together.

Many thanks for the food, hugs, laughs, and memories both old and new.

students who attended. Response was positive. "I think he gives you a lot to think about. Like when you and your friends are doing something, you don't realize you're doing it to be accepted," said a 15-year-old. "Really made me think about how my future will end up if I follow my friends," commented another.

Some acknowledged that the presentation taught them to accept their individuality. "It makes you realize you should be yourself all the time and not give in to what other people say," commented another.

Pipes, 35, holds a BS and MA degree in education. He will present his program in the McLean High School Auditorium on October 21, 1992, 12:45 p.m. for the Junior High School and at 1:15 p.m. for the High School.

A covered dish supper was enjoyed by all after which Robert Bruce chaired a business session in the absence of Chairman Dan Martin. There were no minutes as Jeanie Adams was absent from our meeting.

Discussion of several projects of local interest was enjoyed by all.

We were very happy to have R.D. McLain after his recent bout of illness. Mr. and Mrs. Olin Weldon were absent due to his recent surgery also. In small communities every member absent is sorely missed.

## PRODUCTION CREDIT ASSOCIATION

Wesley Hukill — New Manager

"Credit For Farmers and Ranchers"

The editors of this Review wish to bring to your attention the PRODUCTION CREDIT ASSOCIATION, located in Pampa at 424 N. Hobart, phone 665-3786.

They loan money to farmers and stockmen for many agricultural purposes. Place your term financing through your PCA, too. You can finance almost anything at simple interest rates. Pickups, cars, appliances, farm buildings, equipment, etc. The next time you make a purchase that needs term financing, remember the PCA. Call your PCA man and find out how much he can save you. In addition to their term financing... they

offer Equipment Leasing Service which can be used to acquire new or used equipment to be used for their needs. You might be surprised.

This is just one reason why so many farmers and stockmen have switched to PCA financing. Your PCA man has more. Call him.

Their position among the people of this district is evidence of well placed confidence, and in this 1992 Review, we, the authors, take pleasure in recommending the PRODUCTION CREDIT ASSOCIATION at Pampa, to the people of this and surrounding territories.
