## Both Jr. Varsities Win At Home, Friday

# Ettes Pound Memphis, Miami

The Groom basketball season is off and running. The Varsity and Junior Varsity teams have already played two games.

The season opener was against Memphis. The Junior Varsity girls ran neck and neck with the Cyclones throughout the game, losing by only one point, 25-24.

Melissa Anthony was the top scorer with 9 points. Christy Galvan and Mary Hutsell each had 5, Martie Phillips, Tami Ashford and April Burton each had 2.

The Junior Varsity Boys played a tough game against Memphis.

Justin Ritter led the scoring with 15. Ray Lott added 8, Todd Gray had 5, Terry Eatmon 2 and Jimmy Chavedo 2. The Tigers netted a very good 67% of their free shots. The final score was Memphis 42, Groom 32.

The Varsity girls won

easily over the Memphis Lady Cyclones, 51 to 37. Misty Homen put in 11 points for Groom. Melanie Friemel and Kay Case each had 10, Sheri Koetting had 7, Sandie Conrad 6, Jill Howard 3 and Stacy Fields and Angie Conrad each had 2 points.

The fast action game and the aggressive defense found two players fouling out and three more in serious foul trouble.

The Varsity boys had the same trouble as the J.V. Girls. The Tigers had a reasonable lead in the first quarter but the Cyclones pulled ahead in the second quarter to end the half Memphis 34, Groom 32.

Groom came back to pass them after the half only to have the Cyclones squeak by to win 60-59.

Bo Burgin had a great night putting in 25 points, Seth Ritter had 12, Nick

Ashford 11, Stanley Homer 6, Bart Britten 2 and Bryan Crowell 2.

### Groom vs. Miami

Friday the Groom teams faced Miami for their first home game of the season.

The J.V. girls opened up the play with their first win of the season, 43-26. Mary Hutsell led the scoring with 11, closely followed by Martie Phillips with 10. Maggie Thomas and Tami Ashford each had 6, Melissa Anthony 5, April Burton 2, Jennifer Lewis 2, and Brenda Fields 1.

Coach Lott stated that the J.V. girls improved a great deal from their last game. They also hit 50% of their free shots. The aggressive defense found some of the girls in foul trouble. Brenda Fields and April Burton both fouled out while three others each had four fouls.

The J.V. boys pulverized

Miami last Friday night, 40-28. Justin Ritter netted 13 points for Groom to take the top scoring slot. Jimmy Chavedo pulled in 8, Ray Lott 7, Toby Burgin 6, Terry Eatmon 4, and Joe Britten 2.

The Varsity girls won again with a 20 point margin, 61 to 42. Kay Case pounded the back boards scoring 19 points for the Ettes. Misty Homen added 14, Melanie Friemel 8, Stacy Fields and Angie Conrad, 6, Sheri Koetting 4, Sandie Conrad 3, and Jill Howard 1.

The Cyclones pounded the Tigers in a tough battle to the very end. The final score was 70-53. Bo Burgin was again the leading scorer with 19 points, Jeremy Chavedo had 11, Seth Ritter 10, Brad Sustaure and Bryan Crowell 3, Brandon Crump, Stanley

## High Winds Cause One Car Rollover, Burns Twenty Acres

Carol Thompson of Pampa escapes serious injuries in a freak accident. Groom EMT's gently roll her onto a backboard as a preventive measure after she was thrown from her car as it over turned in last weeks high winds.

Emergency workers were called out Thursday afternoon to Highway 70, one mile north of I-40. A Pampa woman was injured when she apparently lost control of her car in strong gusty winds.

Officials say that the car left the highway after it was hit broadside by a gust of wind that was estimated at about 70 miles per hour. The woman's 1994 Chevrolet Caprice veered into the soft shoulder. She over corrected causing the car to roll over one time, coming to rest on it's wheels.

Carol Lynn Thompson, 44 of Pampa, was thrown from the vehicle. She was found by a passer-by lying on the road. The car caught fire and was completely destroyed.

Emergency and law enforcement officials were called out from Gray County, Groom and

McLean.

With the extremely dry conditions and the high winds, rescue and fire departments were very concerned about the fire. The gusty winds blew flames from the car catching the surrounding prairie on fire. Luckily, where the car come to rest, the area was slightly protected from the direct wind and was at the bottom of the shallow canyon. About 20 acres of grassland were burned before the volunteer firefighter from three counties could rest easy.

Many of the firefighters were reminded of the fire in the canyons near Claude last spring. Officials stated that it was just pure luck that kept the fire from spreading further.

Thompson was taken to an Amarillo hospital and was in satisfactory condition late Friday.

## Winter Driving Hazardous, Take Precautions To Be Safe

Trooper L.B. Snider, Public Information Officer for the Texas Department of Public Safety said, "Winter driving is more hazardous than most people realize. There are more hours of darkness, often less visibility, and sometimes freezing temperatures with

ice, sleet or snow. These are real challenges for drivers and test a person's ability to drive."

"Safe winter driving, when it's all said and done, is largely the application of common sense to some basic driving facts," Snider added. "Drivers must be able to see all around their

vehicle to drive safely. Make sure all ice and snow is removed from all windows. Don't be a "peep hole" driver. Keep windows from fogging by using the defroster. If necessary, stop and knock ice or snow off wiper blades to keep the windshield clear."

Too much speed on slippery roads is the mistake that breeds the most trouble. Adjust your driving habits to match the weather and road conditions. Trips on icy roads are going to take longer. Face the facts, don't be in a hurry. If the road is covered with ice or snow, start your vehicle moving slowly and gently. When stopping, apply your brakes lightly and much earlier than usual. Make your turns slowly and smoothly.

Most loss of control comes in the form of skids. Skids don't just happen, they are caused by the driver in most cases. To recover from a skid, back off the accelerator, stay off the brakes and steer your vehicle in the direction you want to go.

It is obvious that winter driving can pose problems for even the most experienced drivers. But as stated above, if we take our time, take it easy, make smooth movements and adjust speed to match conditions, we all can have a safer winter.

# Billions Of Benefits Unclaimed

Although over \$32 billion were paid out in veterans benefits last year, billions more went unclaimed in the past few years. Every year eligibility for benefits and the array of available benefits are changed and very few veterans or their survivors keep up with the latest rules. Because of this, and changes in their circumstances, many veterans, their families and survivors are now entitled to money and other benefits from the government even though they were not eligible in the past.

A study group of the Consumer Education Research Center, a 20-year-old national nonprofit consumer group found that over one-fourth of the money paid in veterans benefits goes to persons who never served in the armed forces of the United States. Most of these were

related by blood or marriage to veterans but many were not. Others were members of the armed forces of countries who fought with us against our enemies.

Each year the Center compiles a book describing the latest rules on available benefits and how to qualify for those benefits. The 250 large-page Complete Guide To Federal And State Benefits For Veterans, Their Families, And Survivors with a forward by Sen. Robert Dole is \$11.95 (plus \$3 p&h) from Consumer Center, 350 Scotland Road, Orange, NJ 07050 or by calling 1-800-872-0121 with credit card.

Mr. Robert L. Berko, executive director of the consumer group, says that many survivors of veterans are unaware that they might be eligible to receive money, medical care, educational assistance, help in buying a

home or other benefits. In fact, eligibility and benefits change constantly and some people ineligible in previous years are now able to start receiving money.

The study found that many people are unaware that they are considered dependents or survivors of veterans. These include those involved in illegal marriages, those who remarried after the death or disability of a veteran, children born out of wedlock to a veteran, parents of a veteran and even dependent grandchildren. Any of these may be eligible for benefits.

Mr. Berko says that the study questioned veterans about benefits and found that the majority were unfamiliar with most of the benefits now being granted under Federal and state laws. Even veterans now collecting were unaware of other benefits for which

is required to send veterans any requests for bids on supplies or labor that are mailed to any other suppliers.

Other benefits the consumer found that were little known are:

A veteran (or dependent) can receive up to \$837 (40% in advance) if he or she will assist the VA in a work-study program while in an educational program.

Federal agencies are required to establish affirmative action plans to facilitate employment and advancement of veterans with any degree of disability. In fact some job classifications must be filled by eligible vets.

Families of veterans buried or mentioned on commemorated Tablets of the Missing overseas are eligible for free passports to visit these sites.

Disabled veterans can obtain extra compensation of hundreds of dollars per month in addition to their 100% disability if they have certain specified disabilities.

In addition the book includes a complete list of VA facilities and help to secure the information needed with VA applications.

"Even though Congress and the various state legislatures have provided for money and services to be given to veterans and their dependents," Mr. Berko states, "unless the people know they are eligible and apply they will not collect anything."

they were eligible and could be collecting.

For instance, disabled veterans can receive apparel allowances if they use wheel chairs, artificial limbs or any prosthetic device that can wear or damage clothing and, if they have a spouse in need of care, they can receive an allowance to pay someone to provide that care.

Few knew that the Bureau of Veterans Affairs

## Weatherization Program Available

You might qualify! The Texas Department of Community Affairs provides services to make homes warmer in the winter and cooler in the summer through the Weatherization Program of Panhandle Community Services.

The Weatherization Assistance Program is not a renovation nor rehabilitation program; therefore the program does not address cosmetic improvements or other work which does not directly affect the energy efficiency of your home.

The condition of every house is different. An assessment will be made of your house to identify the location of cracks, holes and warm air escaping. Naturally in summer, this areas where air escapes. In winter, this means cold air

entering the house and works in reverse, hot air enters and, if you use an air conditioner or evaporative cooler, expensive cool air escapes.

The Weatherization Assistance Program is providing Weatherization services for people who have not qualified under our regular low-income guidelines. This special program is now available for families who have income up to 175% of poverty income guidelines. If your gross yearly income is less than the amount listed on the chart below, you may qualify for this special program.

All applications must be made no later than June 20, 1995.

# D.P.S. Report: As The Interstate Turns

By Joe Longway  
This week local youth were involved in two separate accidents. Luckily no injuries were reported.

This year accidents are up considerably and still rising. In this years fatalities the same factors are present. They are DWI related or the people are not wearing seatbelts or speed is a factor.

On Sunday, November 13th a White Deer youth failed to negotiate a curve

on FM 2300 one mile north of Groom causing damage to his pickup. To make matters worse he failed to report the accident. Further investigation by the Highway Patrol revealed that the driver was under the influence of alcohol while driving too fast in the fog. The driver received citations for unsafe speed and failed to report accident at once.

On Friday, November 18th a Groom youth struck

a Miami youth on FM 2300 across from the Dairy Queen. Further investigation revealed that the Miami youth was attempting to make a left turn when the Groom youth attempted to pass the

pickup within the intersection while driving over the speed limit. Two citations were issued. The first for turned when unsafe and the second for Drove On Wrong Side of Road Transversing An

Intersection.  
This holiday season the Highway Patrol will be looking for DWI's, speeders, and people not wearing seatbelts. Remember everyone must wear a seatbelt up front. Only

children four years of age and younger are required in the rear seat. If you have an accident report it immediately. Let's have a safe and happy holiday season.

## Sheriff's Report

By Loren Brand, Sheriff  
The Carson County Jail is currently holding seven persons. Their charges include: 2-Aggravated Assault on Public Servant, 1-Felony Drug Charges, 2-Parole Violation and 2-Unauthorized Use of a Motor Vehicle.

Carson County Deputies are investigating unrelated cases in the Fritch area which deal with burglary of a residence and allegations of sexual assault.

Deputy Jeff Oldham apprehended two juvenile suspects from Harris County, Virginia after responding to a call at a truck stop on Interstate 40. Our office had been called by the truck stop management after they observed a suspicious vehicle circling the building. Deputy Oldham ran a check of the license plate and was advised that the vehicle was stolen and that the suspects were believed to be armed with a handgun. As there was no backup available at the time, Deputy Oldham blocked the suspect vehicle into a parking space as the suspects were attempting to leave, and secured both

being investigated by the Carson County Sheriff's Department and the Department of Public Safety Intelligence Service in Amarillo.

We have received additional complaints in various areas of the county regarding the sale of alcoholic beverages to minors. Our department has requested the assistance of the Texas Alcoholic Beverage Commission for the investigation of these allegations. Persons or businesses selling or providing alcohol to minors are subject to civil liability as well as criminal prosecution.

occupants of the vehicle with no harm to bystanders, the suspects or to himself. For his performance in this matter, Deputy Oldham has been given a department recommendation.

Carson County deputies assisted at the scene of two separate motor vehicle accidents and also assisted with a burglary investigation in White Deer.

Our department received complaints alleging consumer fraud against an area business. The case is

A blast from Billy Dixon's gun, soldiers discovering the German sisters, a mischievous boy in an early schoolroom, and a snake frequenting a dugout are part of the enactments in the "Gray County Adventure" video to be released after December 10.

## Video

Mike Ehrle, and Bob Izzard. Enriching the historical scenes are paintings from several museums, including Panhandle Plains in Canyon, the Cowboy Hall of Fame in Oklahoma City, and the Alanreed-McLean Museum.

Background piano music will include "Llano Estacado," "Adobe Walls," and "Panhandle," original music by Eloise Lane. Fred Mays plays the guitar, and the Jack Selby and Pickin' Shack groups provide some blue grass music. Dance clips include the Country Western Dancers and Calico Capers, square dancers.

The 100-member Pampa Elementary Choir opens the video with "Gray County" by Wanetta Hill, choir director. The video closes with "This Land Is Your Land" written by former Pampan Woody Guthrie and sung by the Pampa High School Show Choir, directed by Mays at the sculpture on Hobart Street.

Short history clips by pioneer citizens will include Ruth Magee, Mayor Sam Haynes, and Fayette Belle Barton of McLean, Elmer McLaughlin of Laketon, Frank Daugherty of Hoover, Norma Lantz of Lefors, Eloise Lane and Bette Bates of Pampa.

Buster Carter visits the

site of his grandmother's oil well, the first in the county, and former Cabot manager Dudley Steele reviews a short history of the carbon black industry. Included in the industrial development are some intriguing night shots of Celanese.

During a visit with Ted Gikas at Pampa's Coney Island, orders are "called in" for the famous hot dogs and pies served via the unique "oral memo."

Another type of "calling" is done by Bill Gething, who brings in his cattle with yells, a horn and a rattling bucket at his ranch. Filming also shows the unique vegetation and ponds watered by springs at the Gething ranch.

On the adjacent Franklin ranch County Commissioner Gerald Wright shows artifacts found at the Cantonment Creek area, first location of the Panhandle's only fort, later known as Fort Elliott.

Pat Youngblood feeds two hungry calves with

bottles of milk during the visit to their Lefors ranch. Another facet of the cattle industry is described by Rex McAnelly, who explains the feed lot operation located on the former Pampa Army Air Field land.

Route 66 scenes and barbed wire making are shared by Delbert Trew of the Devil's Rope Museum in McLean. Rochelle Lacy gives a lively narration on pioneer dress at the White Deer Land Museum.

Area art includes the wall mural at McLean, the outdoor sculpture in Pampa, and short visits to art, quilt, drama and photography shows.

"There are graphics to help with locations along with sub titles," said Darlene Birkes, script writer, coordinator. "We have tried to make the video lively and informative, with a well rounded overview that even includes the seasons of the year."

## The One Who Leaves First Has To Take The Kids

By Delbert Trew  
Very few accomplishments in life match that of having a 50th wedding anniversary. Through good times and bad, rich and poor, bad health and accidents, it's almost a miracle when that 40th is finally reached.

Ruth and I are celebrating our 25th in 1995 and are making all kind of plans for the year. As we had both lost our first mates through death, this is somewhat of a milestone itself, and we are certainly proud of reaching this goal.

When we decided to get married, we knew we would be facing all sorts of difficulties. Second marriage, putting two families together, all of them teen-agers, etc. So, to encourage ourselves to make extraordinary efforts to stay together, we added some extra vows to our wedding contract. No. 1; whoever left first, had to take the kids. This worked very well until they all left home. No. 2; whoever left first had to take all the indebtedness. This worked until we finally got out of debt. Now, here we are, getting old, with nothing except the regular old vows and promises to keep us together. We have discussed this at length and have decided that there is really no problem, cause if

we split up we wouldn't be able to function in life. Here are some examples; How would we ever find anything? The other one is the only one who knows where it is. How could we visit friends and acquaintances without embarrassment? The other one is the only one who can remember their names. How could I possibly tell a joke? Ruth is the one who remembers the punch line! Ruth could never tell anyone about our latest trip, because only I can remember where we've been. I wouldn't be able to drive at all, without her telling me to stop, slow down, or turn here! She couldn't go shopping, cause I know where the stores are. Without her help, I couldn't order a meal in a restaurant, cause only she knows what I should eat. She would be lost on Mondays, cause most of the dirty clothes are mine. The house would fall down around her, cause I fix everything. I would be totally lost each day without her 'honey-do's' for direction.

So, I guess we'll make it another year or so.

## Happy Thanksgiving

### McLean Water Tested, Results Good

Samples of tap water from the McLean water lines were recently tested by an independent testing lab at the Teledyne-Water Pik Company. The results returned great news for the people of McLean. They found the nitrite level to be 8 ppm, which is well under the 20 ppm figure that Teledyne considers high, and even under the 10 ppm level that the State

considers good. In addition, they found no appreciable amounts of lead, potassium, sodium, chlorine, or magnesium. Their report was that McLean water is excellent drinking water.

The State does regular tests of the Town's Water supply, and will continue to monitor it for quality.

Bought several old films at the school auction the other day but am still looking for more. Years needed are 1967-1970. If you have one or more please call and visit with me about them. One of the ones I bought is 1958 Groom vs Panhandle (I think). If someone is interested please call me. Also to those of you who ran the price up on the film at the auction ©, I now have a working 16 mm projector. Come talk! Call 248-7200.
