City Council Discusses Sewerline Policies

The Groom City Council met in regular session last week on August 6th, at 8:00 p.m. In attendance was Mayor Greg Lamb; Aldermen, Don Case, Mary Sue Lyles, Jay Lamb and Danny Ashford; City employees Debbie Anthony, Jody Ball and Donnie Evans. Alderman Ronny Fields was absent.

City Auditor, David Cory, presented the audit for the 1994-95 year. Members unanimously approved the audit.

A discussion was held

concerning the franchise with Classic Cable. Mary Sue Lyles moved to accept the franchise proposal with the following changes: Term in the clause will be changed from 20 years to 15 years and add a 5 year performance review clause. The council instructed the City Secretary to contact Classic Cable to make the necessary changes in the contract. The motion unanimously passed.

Discussion was held concerning the Texas Municipal League

Convention. No action was taken.

The Council proclaimed April 10 to be Fair Housing Month.

The Council held a discussion concerning current sewer line policies. The current policy was approved in March 1982.

No action was taken.

A letter from a city customer was discussed. Don Case moved and Mary Sue Lyles seconded to have the policy printed in the local newspaper for clarification. The decision was unanimous.

Youth Attend 4-H Electric Camp

Six Carson County 4-H members recently participated in an electricity camp sponsored by Southwestern Public Service Company. More than 130 4-Hers and advisers from throughout the Texas Panhandle and South Plains attended the High Plains Electric Workshop July 15-19 at Camp Scott Able, near Cloudfroft, New

Mexico. The camp featured demonstrations and lectures on electricity, wiring, electrical terms and safety. The students also completed hands-on wiring projects.

County agents and SPS representatives served as advisers and instructors.

Southwestern Public Service Company is a regional electric utility that

primarily provides electric service to a population of about one million people in a 52,000-square-mile area comprising eastern and southeastern New Mexico, the South Plains and Panhandle of Texas, the Oklahoma Panhandle and southwestern Kansas. Corporate headquarters is in Amarillo, Texas.

Weller Retires After 41 Years

After 41 years, Charleen Weller has retired from active nursing. In 1955, Charleen graduated from St. Anthony's School of Nursing, as a registered nurse. In the years that followed, she became a vital link to health care in the Groom area.

She worked for the Groom Memorial Hospital for 12 years. She then worked for Dr. Keith Black and the Palo Duro Nursing Home at Claude. Thirteen years ago she began a career in Home Health

nursing. Her expertise was a large factor in the success of rural nursing care that has made Panhandle Health Services grow into the huge company that it is today.

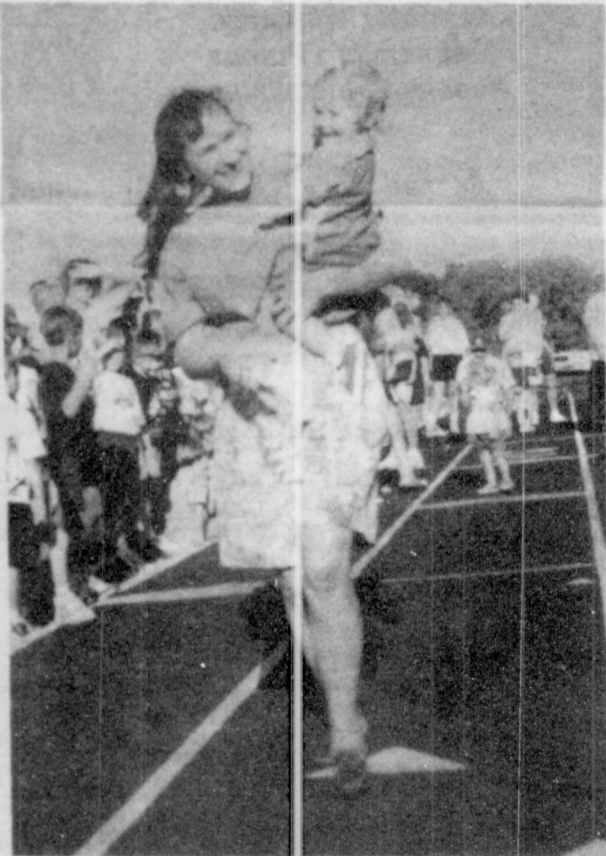

Weller's retirement, quite by accident, coincided with her husband, Buddy's back surgery. So she will continue her nursing practice for at least a little while longer on him.

She has been canning and painting during the first days of her retirement.

"As soon as Buddy is able, we plan to travel," she stated.

Weller received the "People Helping People" award a few years ago for her service to the community.

Warning To Area Businesses

The Carson County Sheriff's Department has been working with the United States Secret Service in an investigation involving counterfeit currency and traveler's checks which are being passed in this area. We believe that the distributors of these counterfeits will be making regular stops at businesses along Interstate 40 and at convenience and grocery stores in small towns near I-40.

You can help us to catch the "bad guys" by doing the following:

- Look for watermarks on
- See Sheriff, pg. 4

Groom Scout Camp

Groom Cub Scout Troop 429 recently attended day camp at M.K. Brown Scout Camp near Wheeler. Although the weather was rainy the Scouts enjoyed activities including archery, B B guns, fishing, nature and hiking, arts and crafts, and games. Each day Scouts were awarded beads for each activity completed. Boys who attended were Neal Anthony, Richard Barkley, Aaron Watson, Chance Barkley, Thane Barkley, Kade Brown, and Chad Barkley. Kathleen Barkley and Donna Watson are the den leaders.

Jackie Barnett Says Horseshoeing Important

This article was recently printed in the Decatur Texas News.

Whether you're riding a horse for competition or just for leisurely entertainment, it is important to have the proper foot care.

Just as athletes wear different types of shoes for their event, so do horses, says Jackie Barnett, a certified professional farrier.

Jackie, who was born and raised in Groom, has ridden, trained and worked horses his whole life. During that time, he would do the shoeing of his own horses, and he later decided to go to school to learn the correct techniques.

He attended Texas State Horseshoeing School in East Texas.

"I'd been shoeing horses since I was 14 years old. When I went to school, I found out how much I

really didn't know," Barnett said.

"There is a saying that a horse has five hearts - one in his chest and one in each foot. Horses stand up most of the time day and night. They only lie down a few times a day," he explained. "A horse that is unable to stand cannot eat or drink and is of no use to the owner."

Horses have been Barnett's livelihood. While in the Panhandle he took care of 35 sections for the Hedgecoach Ranch in Palo Duro Canyon. He rode the canyon on horseback. For a short stint he worked horses and ranches in Australia.

Barnett did his apprentice work with reining horse specialist John Gadet.

He continues to study, keeping abreast of the changes in horse medicine and hoof care by attending seminars and talking with

other farriers.

Barnett compares horses to athletes.

"Weekend or professional athletes need proper foot care and correct balance shoeing to avoid injury and enhance performance. Just as people require different shoes for different sports, horses need special shoes for different events," he said.

"Some athletes have problems with feet and legs, horses may have many of the same problems and shoes can be made to fit the situation of the horse and strengthen the horse's performance."

The farrier had a similar incident happen to one of his horses that veterinarians thought only surgery would fix.

"Beau was lame on his right front foot. We went through two veterinarians each with different, very

time consuming and expensive courses for treatment," he said. One vet said a shoe would not improve the problem, only a risky surgery might.

Jackie watched Beau and studied his walking pattern and found his fetlock joint dropped down too far. He then discovered the horse needed more support and made an egg bar shoe for the hoof and three days later the swelling was gone and Beau has been sound ever since, he said.

He made special shoes for a swayback paint stud that gradually brought the horses feet together so he walked at the correct angle.

On another incident, he took a retired race horse who had navicular disease in one front foot and was foundered in the other front foot. When he first went to shoe the horse, she couldn't walk. Since then, she's

raised more babies and is in foal with another.

Barnett takes pride in his work and spends time working with the trainers and studying horses to determine what the problem is and how it can be corrected. He says that if he doesn't know the answer, he'll find a specialist that does.

To make an appointment with Jackie or for more information, call him at 466-7007.

Jackie Barnett is the son of Mr. and Mrs. Jack Barnett, of Groom. He is a certified professional farrier, a graduate of the Texas State Horseshoeing School, apprenticed with John Gadet.

He has shod champion reining, western pleasure, halter, hunter jumper, cutting, barrel and rope horses.

He shod the first, second, third, fifth, and sixth place Open Reining winners in the 1996 Horse O'Rama.

He has shod horses for the football great Terry Bradshaw and many other famous horse owners.

DPS Advises Public On School Opening Safety

New clothes, backpacks, lunch boxes, school buses. The first day of school is exciting for students, but the new school year can bring tragedy if school bus safety rules are not followed. The Texas Department of Public Safety reminds motorists to obey traffic laws and watch for children boarding or exiting school buses. Parents and teachers should talk to children about school bus safety.

In 1995, no school bus drivers or passengers were killed while riding on school buses in Texas, but 1,370 people were injured while traveling on them. Seven people were killed in accidents directly or indirectly involving school buses, while 2,556 were injured.

The most common time for accidents is when school buses are loading or unloading students. Students should be taught to follow safety rules and to watch for traffic before crossing streets.

Students also should watch for vehicles illegally passing stopped school buses on either side of the bus. According to the National School Bus Loading and Unloading Survey, most children injured or killed while getting on or off buses are under the age of 10.

A safe, reliable and efficient system for transporting children to and from school is part of the total educational program. To ensure the proper operation of school transportation systems, the DPS oversees and updates the state's school bus driver training program.

"Practicing good school bus safety requires a combined effort of the motoring public obeying the traffic laws, parents and teachers educating children to be safe and school bus drivers being properly trained to decrease the number of school bus related accidents," said Debbi Goetz, DPS program administrator for school bus transportation.

Notice of Effective Tax Rate

1996 Property Tax Rates in Panhandle Ground Water Conservation District No. 3

This notice concerns 1996 property tax rates for Panhandle Ground Water Conservation District No. 3. It presents information about three tax rates. Last year's tax rate is the actual rate the taxing unit used to determine property taxes last year. This year's effective tax rate would impose the same total taxes as last year if you compare properties taxed in both years. This year's rollback tax rate is the highest tax rate the taxing unit can set before taxpayers can start tax rollback procedures. In each case these rates are found by dividing the total amount of taxed by the tax base (the total value of taxable property) with adjustments as required by state law. The rates are given per \$100 of property value.

Last year's tax rate:	
Last year's operating taxes	\$268,298.40
Last year's debt taxes	0.00
Last year's total taxes	\$268,298.40
Last year's tax base	\$1,916,417,145.00
Last year's total tax rate	0.014000/\$100

This year's effective tax rate:	
Last year's adjusted taxes (after subtracting taxes on lost property)	\$268,069.32
/ This year's adjusted tax base (after subtracting value of new property)	\$1,894,031,112.00
= This year's effective tax rate	0.014153/\$100
x 1.03 = maximum rate unless unit publishes notices and holds hearing	0.014577/\$100

This year's rollback tax rate:	
Last year's adjusted operating taxes (after subtracting taxes on lost property and adjusting for transferred function)	\$268,003.02
/ This year's adjusted tax base	\$1,894,031,112.00
= This year's effective operating rate	0.014149/\$100
x 1.08 = this year's maximum operating rate	0.015280/\$100
+ This year's debt rate	0/\$100
= This year's rollback rate	0.015280/\$100

Schedule A

Unencumbered Fund Balances

The following estimated balances will be left in the unit's property tax accounts at the end of the fiscal year. These balances are not encumbered by a corresponding debt obligation.

Type of Property Tax Fund	Balance
General Fund	\$174,000

Schedule B

1995 Debt Service

Total Debt Levy	-0-

on traveler's checks and ask for ID to match the name.

- Check for magnetic strip on currency.

- Write down the license number of any vehicles driven by suspicious persons.

- Be cautious of cashing payroll checks if you aren't familiar with the company or the person - ask for picture ID.

- Immediately call the Carson County Sheriff's Department or the United States Secret Service if you believe you have received a counterfeit bill or check.

Most suspects attempting to pass the counterfeits are merely "runners" for the persons who do the printing. There are usually two or three persons traveling together and they will normally be driving a rental car. Look for persons who take turns leaving a vehicle to come into your business. Also, watch for persons whose appearance may not match the vehicle they are traveling in (persons in dirty or ragged clothing in a late model car).

We want you to be our Partners in Crime Prevention.

Thank you.

Legal Matters

By Attorney General Dan Morales

Selecting A Nursing Home

The number of senior Texans is increasing every year, and many of us are faced with how to care for those who have brought us where we are today - our parents and grandparents.

When a person is no longer able to live independently and needs constant nursing care, a nursing home may be the best option. The decision to place a family member in a nursing home is difficult. The Office of the Attorney General (OAG) cannot tell you which nursing homes are best, but we can offer some tips to help you make an informed decision.

The Office of the Attorney General investigates and prosecutes nursing homes that abuse or neglect seniors. You may reach us at (512) 936-1301 for more detailed information about nursing homes. The information you get in your search will be your best tool in protecting your family member in a nursing home.

Location is one of the more important factors in finding a nursing home. You want a place that you can visit easily and frequently. Find three or four nursing homes close to your home. Ask friends who have relatives in nursing homes for recommendations. Also, ask your family member's physician and nursing staff.

You should personally visit each nursing home you are considering. Go unannounced and make initial observations. If you are comfortable with what you have seen, call the facility and schedule an

interview with the administrator. Trust your instincts.

Prepare a list of questions in advance so that you can compare each nursing home. There are many questions you can ask: night, when staffing levels are lower.

the amount of staff turnover, the name of the attending physician, and how medical needs or emergencies are handled when the doctor is not available. Ask the staff if they would leave their loved one there. After your visit to the home, make an unscheduled visit late at

Ask for a copy of the resident contract and the home's policies. You might consider contacting a lawyer with experience in nursing homes and elder law issues. You may need help with the contract and obtaining eligibility for Medicaid.

Ask about the home's history of compliance with standards. Ask to see the survey reports or "HCFA 2567" reports and complaint investigation reports for the past two years. Insist on the actual reports and not summaries prepared by the facility. If complaint investigation reports are not available at the facility, call the Texas Department of Human Service's Office of Public Information at (512) 834-6770

City Council Votes To Place 1/2 Cent Sales Tax Issue On May Ballot

"Tumbleweed" Party To Be Held

The McLean City Council met in regular session on Thursday, August 8th. In attendance was Mayor Sam Haynes, Aldermen Sid Lands, Harold Smith, Wayne Bybee and Mary Dwyer. Alderman Gary Jackson was absent. Also attending were Alan Mixon, Fred Smith, Linda and Clifford McDonald, Rick Harris and Toni Bohlar.

The Council unanimously approved a motion to place a 1/2 cent sales tax on the May ballot. If approved the tax will allow a five member economic development board (yet to be formed) to use the revenues for manufacturing and industrial facilities as well as commercial development and expansion.

Sealed bids on delinquent tax property were opened and approved. Colleen Woodridge was awarded the following lots for the following price: Blk. 27, Lot E. 55' of 8-10, \$75.00. Blk. 1, Lots 13-18, \$125.00. Blk. 27, Lots 6 & 7 and W. 60' of Lots 8-10, \$100.00. Blk. 66, Lots 27-28, \$100.00. Blk. 66, Lots 29-30, \$100.00. Blk. 64, Lots 18-20, \$100.00. Blk. 83, Lots 3-6, \$100.00. Blk. 66, Lots 4 & 5, \$100.00.

Chester Bohlar was awarded Blk. 114, Lots 11-13, & W. 3' of Lot 14 for \$875.00.

The Council tabled deeding Blk. D, Lots 11-20 to McLean ISD pending further information.

The Council voted to set

the Ad-Valorem tax rate at \$0.3973 per \$100 valuation. The ordinance was approved on its first and final reading.

In other business the Council heard a report from City Superintendent, Fred Smith, concerning utility lines to the old Dairy Queen building. It is expected that there will be a 3 week wait before water lines can be started to the project while the workers await some materials.

Mary Dwyer reported that a member of Pampa's Festival of Lights will be at the next City Council meeting to discuss ways the City can obtain new Christmas decorations.

Discussion concerning the landfill contract was tabled until a new contract is received.

The Council voted to advertise for bids to paint the water tower.

April was proclaimed as "Fair Housing" month.

A complaint was heard concerning trash and debris piling up on the lots where the school bonfire is held. The Council agreed that they would have the site cleaned up after checking with the school.

With Harold Smith abstaining, the aldermen voted to waive the garbage collection fee to property owners who own unoccupied rent houses who leave the utilities on. Property owners must take up the garbage cans so that the trash truck will not stop, in order to forgo changes.

In the final action for the meeting the Council approved measures that requires each utility meter to have a deposit. Gas meters for businesses and residences will require a \$100.00 deposit while water meters will be \$50.00 for residential and \$75 for businesses.

The 1996 Tumbleweed Yearbook will be distributed at an annual signing party at McLean High School Friday at 11:30 a.m., according to Holly Jasper, editor. The Seniors of 1996 are invited to join the current high school students for the yearbook signing party and a special dedication of the yearbook.

Jasper said that a few yearbooks will be available for those who did not order ahead of time. "The yearbooks will be sold for \$35 on a first come, first served basis," Jasper said. "The yearbooks, with a theme of '& You Thought You Knew Us' features more than 134 pages of photos about the 1995-96 school year."

The 1996-97 Tumbleweed staff is gearing up for this year's book, according to faculty advisor, Linda Haynes. "Moriah McCracken is the new editor, and Traci Seitz is the business manager for the year," Haynes said. "We'd like to remind our

advertisers and patrons that we will be selling ads and magazine subscriptions in the next few weeks to raise money for the yearbooks." Haynes explained that the purchase price of the yearbook covers only about one-third the cost of producing the books.

The group will also form The Tiger Rag staff, Haynes said. "We hope to begin publishing the school newspaper in September," she said. "We will continue to supply stories to The McLean News throughout the year."

Haynes explained that the journalism students gain valuable skills through their work on the newspaper and the yearbook. "The staff gets very skilled in using Word Perfect and Pagemaker computer programs to produce the yearbook," she said. "Both of these programs are used throughout the business world, so we consider this valuable training. The students also learn the rudiments of news writing, which helps strengthen their writing skills in other areas."

National Honor Society Members Attend Camp in Estes Park, Colorado

The four officers of the McLean High School National Honor Society were among 200 students selected to attend the National Leadership Camp at Camp Cheley, Estes Park, Colorado, August 7-12. Attending from McLean were Shanna Dent, president; Kristi Tidwell, vice-president; Tammye Cole, secretary/treasurer, and Jessica Rich, parliamentarian.

The National Leadership Camp is a five-day workshop for student leaders designed to increase their self-understanding and confidence; foster development of sound philosophy of leadership and increase their skills in communication, problem solving, group process and organization. Students from several states attended the camp.

The officers returned from camp with a great deal of enthusiasm for the coming year's work in National Honor Society," Linda Haynes, faculty sponsor of the group, said. "I'm expecting great things from them as they work to

build the effectiveness of the organization."

Fees for the camp were partially paid through fundraisers. The four flew on American Airlines to attend the camp.

The directors of the center are Sharon Olson, assistant principal, Loveland, Colorado, and Ron Hancock, social studies instructor, Valparaiso, Indiana. Staff members are student activity advisers selected from throughout the country. Other National Leadership Camps are located at Zephyr Point, Lake Tahoe, Nevada; Siena College, Albany, New York; Outlaw Ranch, Mt. Rushmore, South Dakota; Maine Maritime Academy, Castine, Maine; Camp Wesley Woods, Knoxville, Tennessee.

The National Leadership Camps are sponsored by the National Association of Secondary School Principals, Department of Student Activities, for members of the National Association of Student Councils, National Honor Society and other student leaders.

Cheerleaders Receive Honors At Camp

The McLean High School cheerleaders and mascot received high marks at a recent National Cheerleading Association camp at Wayland Baptist University with one being named to the All-American squad.

During the four day camp the cheerleaders learned new cheers, dances and exciting new stunts and competed for various awards given at the camp.

The cheerleaders and mascot received superior ratings during the nightly evaluations and also won spirit sticks.

Three cheerleaders and mascot Tanna Shipman were nominated to try out for the All-American squad, made up of cheerleaders who exhibit the highest all around cheerleading skills.

Nominees were selected because of expertise in one of the following areas: leadership, jumping, tumbling, yelling, motion technique and performance technique.

Cheerleaders nominated were Shaley Stalls, Lori Hefley and Vanessa Glass.

Shaley Stalls made the All-American team and she as well as the other nominees will have the opportunity to perform at such places as half-time of the Hula Bowl All-Star football classic, and parades in Chicago and Dallas. Having made the squad, Shaley also can perform at two events in Florida. This is the second time for Shaley to make All-American. Last year Shaley performed in the Adolphus Children's Christmas parade in Dallas.

"Our squad performed well and we are really looking forward to the upcoming year," sponsor Alicia Reynolds said.

Cheerleaders attending the camp were Shaley Stalls, Lori Hefley, Lorin Hall, Vanessa Glass, Dee Dee Floyd and mascot Tanna Shipman.

Morales Legal Notes

By Attorney General Dan Morales

Employer New Hire Program

No parent has the right to turn his or her back on a child. But many do, leaving Texas taxpayers with millions of dollars a year in welfare payments for

families living on the edge of poverty.

The Child Support Division of the Office of the Attorney General currently has about 750,000 active child support cases, affecting more than 2 million Texas children who need our help.

With cooperation from many employers across the state, many child support obligations are met through withholding from employees' paychecks. The support and assistance we receive from employers is invaluable. In fact, wage withholding brought in 60 percent of all child support collections last year.

In 1993, the Texas Legislature gave employers a greater opportunity to help collect child support with the creation of the Employer New Hire Reporting program.

This voluntary program, enacted by the Texas Legislature in 1993, provides a means by which employers can report pertinent information about new hires and rehires. With the assistance of Texas businesses, the office of Attorney General can more easily locate non-custodial parents who owe child support.

In 1995, the Legislature expanded the law. Today, the Texas Work Force Commission, the Workers' Compensation Commission, and the Department of Human Services pool their resources to create a unified database. Because of their work and information exchanges, we are not only increasing child support collections but also cutting down on the incidence of

fraud in the welfare, workers' compensation and unemployment programs.

Every month thousands of Texas children fail to receive adequate financial support from their parents. But with the participation of businesses in the Employer New Hire Reporting program, employers can make a difference in the lives of these children.

Organizations as large as AT&T and Marriott are involved, as are thousands of smaller businesses.

And it is easy participate. As an employer, all you have to do is send us an existing employer report, a

copy of the employee's W-4 form or return a form supplied by this office. This

As a consumer, you can help by asking the businesses you patronize to join the Employer New Hire Reporting program. If they are not part of the program, please encourage them to do so. About 1,200 Texas businesses are involved in the program, but we always need more businesses to help us collect child support.

For more information about the Employer New Hire Reporting program, employers can call (512) 482-9136 or reach us by fax at (800)732-5015.

Dust Bowl, Depression Created Unusual Savings Methods For Families

By Delbert Trew
Every family has its own tales about how it survived the hard times of the Dust Bowl and the Great Depression. I'm sure the youngsters get tired of hearing the details of hardships endured by their ancestors.
Pennies, not dollars, were the focus of savings. The proverbial sugar bowl held most families only cash. Emergencies required the breaking of a piggy bank to meet the need. During the Crash of '29, many people lost faith in banks and buried their money in the ground for safe-keeping.
A man in Pampa, using his metal detector near a farm in Alanreed, found a 2" piece of pipe containing a number of \$20 gold pieces. Another man I know of found a coffee can of old silver while digging up a sewer pipe. My favorite savings tale features a

bucket full of money.
Seems that the old folks had passed on leaving the old home place to the descendants, none of whom wanted to live there. The first renters needed a 220 volt plug for their clothes dryer so the heirs crawled under the floor to install it.
While working under the floor, a 3 gallon milk bucket full of change was discovered. Close examination showed a small crack in the floor just above the bucket. A small stick was inserted in the crack, and when found above the floor it was under Grandpa's chair at the kitchen table.
For an undetermined number of years, and while setting at a meal, Grandpa had secretly made a deposit in his saving account. I doubt if Grandma knew it existed. The need never arose to cash it in, but it was probably comforting to know it was available.

Southwestern Public Service Proposes Second New Unit

ROSWELL, N.M. - Southwestern Public Service Company filed an application with the New Mexico Public Utility Commission recently seeking permission to add a second new electricity generating unit to the utility's Cunningham Station power plant near Hobbs.

Greater-than-expected economic growth in the region will require the new generating capability in 1997, said Bill Pope, SPS New Mexico division manager.
"Continuing general improvement in the SPS service area economy, as

well as increased irrigation load and oil field development, are factors that have necessitated our re-evaluation of load-growth projections," Pope said. "The new projections, in turn, indicate that we must install not just one, but two additional generating units for service in 1997."

In January, SPS applied for permission from the NMPUC to add one 104-megawatt simple cycle combustion turbine to the natural gas-fueled Cunningham complex, to be in service by June 1, 1997. The recent application seeks permission to add a second, nearly identical, unit to the complex, for service beginning in July 1997.

Pope noted the second proposed unit, once approved by the NMPUC and installed, like the first unit would have a long-term, positive economic impact on the Hobbs area and on the State of New Mexico.

Post Office Announces Changes In Collection

The U.S. Postal Service recently announced changes in mail collection procedures that will increase security of commercial airlines carrying U.S. Mail.

"The changes are designed to enhance security measures and to protect the traveling public, postal employees and postal contractors who transport U.S. Mail," said Postmaster General Marvin Runyon.

Runyon added that the changes exceed FAA requirements and are one of several important steps the Postal Service is "prepared and willing to take to improve the level of safety and security of the airlines and the mail." Officials declined to discuss all of the security measures planned or already in place.

The typical consumer or business will notice very few changes, nor will there be any impact on service. Express Mail service is not affected.

The changes, effective August 16, affect packages mailed to international or domestic addresses deposited in mail collection boxes such as street mail

boxes, lobby and apartment drop boxes/receptacles, even rural customer mailboxes.

• Customers will have to bring to post offices for entry with retail clerks

• domestic mail bearing stamps and weighing 16 ounces and over, and

• all international mail or military/APO/FPO mail weighing 16 ounces and over and which in some cases may also require a customs declaration form.

The Postal Service will retain a record of the international and military APO/FPO mailing and the customer will be advised of this when the item is mailed.

Packages found in collection boxes will be returned to the sender if the addressee is outside the local area identified for overnight First-Class Mail.

Packages returned to senders will have an accompanying explanation advising them in the future to deposit this mail at the post office. Previously applied postage may be used when the item is re-mailed at a post office.
