El Paso Firm Plans Changes With Recent Purchase Of Lucky 13

The Lucky 13 in Groom has been purchased by an El Paso firm. The new firm has several changes planned for the convenience store and restaurant. The firm plans to expand the present facilities adding diesel tanks to cater to the trucking industry. Showers will also be installed in the upstairs portion of the business. The restaurant will be remodeled adding windows.

Carol Talent was in Groom this week and stated that plans now are to have both the restaurant and trucking facilities in operation by February 15. The business will also extend their hours in the next couple of weeks to 24 hours.

Talent will be interviewing personnel for the operation which he says should employ 25 persons when in full operation.

Voters To Elect County Commissioner Nov. 8

Since the death of Commissioner Raphael Britten, last week, there have been many questions arise concerning the election process for a new representative to Commissioners' Court.

Monday afternoon Mike Britten was sworn in to fill the unexpired term of his father for Precinct 1. The unexpired term will end December 31, 1988.

According to Betty Rhynehart, Carson County Democratic Chairperson, the County Democratic Executive Committee will select a person from Precinct 1 to have their name placed on the General Election ballot. The committee in Carson County consists of Joyce Hoffman, Mary Ann Labus, Jo Nell Weber, John Kotara III, Sonya Millican, Nila Burgin, John Chaney, Ester Gaines and Betty Rhynehart.

No Republican can be placed on the ballot since there was no candidate prior to the deadline.

Mrs. Rhynehart said, "The committee's aim will be to select the most competent person available to re-

present Precinct 1 and Carson County." She also stated that the committee will be as honest and fair to all the people and to be open to the public in their actions.

The Carson County Commissioner's Court has the responsibility of selecting the interim commissioner but as far as selecting a name for the General Election ballot, the responsibility lies with the Carson County Democratic Executive Committee. Anyone interested in being placed on the ballot should contact Betty Rhynehart in Panhandle.

As far as persons wanting to run for the seat as a write-in candidate, one must

file no later than 55 days prior to the election date of November 8, 1988 their declaration of write-in candidacy with the County Judge. At that time it becomes public record. General requirements for any person wishing to be a candidate must be a six month resident of Precinct 1; a resident of the State of Texas for one year and be a registered voter.

City, School Primary Elections Set For May

Potential candidates have an extra month to consider their decisions in the coming 1988 local elections. In order to avoid conflict with the March and April primary elections, municipal and school elections have been scheduled for the first Saturday of May, according to information from the office of the Secretary of State.

Terms of three councilmen and two school trustees expire this year. Currently holding those offices are Johnny Eschle, Jimmy Britten and Bill Homer, councilmen; and Pat Weinheimer and Don Lyles, trustees.

Filing for candidates for the May 7, 1988 city and school elections begins February 22. The final date for candidates to file in the school election is April 6. Filing ends March 23 for the city election.

Mike Britten Sworn Into Office Monday

Mike Britten was sworn in Monday by Carson County Judge Jay Bob Roselius to fill the unexpired term of Commissioner for Precinct 1. Britten will be serving the remainder of the second term for commissioner held by his father Raphael Britten. Mr. Britten died last week from heart disease.

Britten, 29, is a Carson County and Groom native and has been involved in the farming and ranching business since graduating from high school in 1976. He and wife Marla have three children, Maci, Wyatt and Lainie. They are members of St. Mary's Catholic Church.

Britten will serve until December 1988 when his father's term would expire. See Britten, Page 10

Commissioner Raphael J. Britten Funeral Services Held Friday

Funeral services for Raphael J. Britten, 65, were held Friday, January 29, 1988 at Immaculate Heart of Mary Catholic Church in Groom. The Rev. Richard Neyer, pastor and Monsignor Clifton Corchron, pastor of Sacred Heart Catholic Church, White Deer, officiated. Burial was in St. Mary's Cemetery at Groom by Schooler-Gordon Colonial Chapel.

Rosary service was recited on Thursday.

Mr. Britten died Wednesday, January 27 in a Houston hospital.

He was a life long resident of Groom. A farmer, he married Eugenia Nell Hermesmeyer in 1952 at Groom. He was a past

member of Knight of Columbus. He was awarded the Fort Worth Press Conservationist Award. He served as chairman for the Soil and

Water Conservation District and on the Board of Directors of Groom Wheat Growers. He served six years on the Groom ISD school board and was currently serving a second term as county commissioner of Carson County Precinct 1. He was preceded in death by a daughter, Bernadette Tyrrell, in 1986.

Survivors include his wife, Nell; two daughters, Mary Nell Crownover of Amarillo and Angela Britten, both of Amarillo; two sons, Mike Britten and Pat Britten, both of Groom; two brothers, Walter Britten of Bryan and A.J. Britten of Conway; and five grandchildren.

The family requests memorials be made to the Groom Community Center.

Six Man Football Has New UIL District

Groom will play six-man football next year, being placed in Region I, District 2 according to re-alignment assignments made by the University Interscholastic League. McLean will also make the switch to six-man ball this year. District 2 will include Groom, McLean, Higgins, Lefors, Miami and

Silverton.

In basketball Groom and McLean, who previously were in the same district, have been split. Groom, Claude, Lefors and White Deer compose District 3 while McLean was placed in District 6 with Samnorwood, Silverton, Hedley and Turkey Valley.

Claude Grabs District Lead Over Groom

The Groom Tigers stand 5-1 in district play with an important match with Claude being played there on Tuesday night. The Tigers and Mustangs are the top teams in district and the winner of the game will most probably end up the district champ. Groom defeated Claude in their home match with a basket by Rocky Crump in the final

Illinois Man Killed After Vehicle Hits Horse

An Illinois man died and his daughter was injured when their car struck a horse in the I-40 roadway early Saturday morning near Amarillo.

Bernard Wardinski, 43, of Morris, Ill. was driving a 1988 Mazda westbound about 5 a.m. when his vehicle struck a black quarter-horse.

Carson County Justice of the Peace A.C. Davis conducted a preliminary inquest at the scene.

Cynthia Wardinski was treated and later released from the Amarillo Emergency Receiving Center.

The owner of the horse told DPS officers investigating the accident that she had no idea how the horse got out of its pasture and onto the highway.

Cubs Finish Season Undefeated In District

In a heartstopping game on Monday night, The McLean Cubs defeated Claude by a score of 48-45 and ended their season undefeated in district and with only one loss overall during the season.

In a division that includes teams from Claude, Groom, Lefors and Miami, the Cubs had a perfect 6-0 record. Their overall record was 9-1, the only loss coming early in the year against Amarillo Christian.

Monday night's ball game ended in a 42-42 tie in regulation. In a hard-fought overtime battle, the Cubs squeaked out 6 more points while allowing three more to Claude and winning by a score of 48-45.

Leading the way in scoring for the Cubs were Tuffy Sanders with 16, Daniel Harris with 12, Destry Magee with 11, Caesar Looney with 4, and Tanner Hess and Jason Thomas each with 2.

In the overtime, Harris

scored 4 points and Sanders had 2.

Unfortunately, state rules do not permit post-season play in Junior High and there are no district championships as such. However, our young men are to be commended for an outstanding season. Under Coach Joe Riley, they displayed the kind of competitiveness and team spirit which can't help but produce a winner. Congratulations Men!

The Miss McLean Pageant will be coming up on Saturday, Feb. 13, at 7:00 p.m. in the school gymnasium.

Weather Takes Turn For The Worse

For the past several weeks you may have noticed that we haven't mentioned the weather. That's because we didn't want to jinx ourselves. After a brutal start to winter, which saw 29 inches of snow fall between the middle of December and the middle of January, the area finally starting thawing out. In fact, for the past two weeks, we have enjoyed spring-like weather as the thermometer climbed into the 50's and 60's and even edged toward the 70's this past weekend.

All of that changed, however, as a cold front moved through the area Sunday night. On Monday, area residents woke up to ice on their windshields, cold temperatures, even colder winds, and freezing drizzle. Highs on Monday only got into the 30's while highs on Tuesday were expected to be only somewhere in the 20's.

Although no significant precipitation was expected, the light freezing drizzle was making roads slick.

Attends Retreat

Six McLean ladies attended the Women's Walk to Emmaus, a 72-hour retreat, held at the De Falco Retreat Center in Amarillo Jan. 28-31. They were Bonnie Fabian, Linda Haynes, Tina Thomas, Jennie Stubbs, Wanda Hill and Katy Graham.

This spiritual retreat, which is based on the scripture concerning Christ on the road to Emmaus, has also been called "A Short Course in the Christian Life."

The retreat is a cooperative effort between the HighSky Emmaus Community of Odessa and the Golden Spread Emmaus Community of Amarillo. The program is conducted by the Upper Room of the United Methodist Church.

The retreat consists of a series of lectures and activities. Acting as speakers for the occasion were Ida Hess, Suzanne Wilson and Marc Wilson, all of McLean, and Louis and Rita Ann Holland of Canadian.

On Feb. 25-28 the Men's Walk will take place. Attending from McLean will be Bill Thomas, Bill Graham and Bill Stubbs.

Return Home

Three people from McLean, J.W. Meacham, Mary Dwyer and Ruth Magee, joined a group from Northwest Texas Methodist Conference for a tour of the Far East. The main point of the tour was to visit Methodist Missions in Sumatra. Rev. W.L. and Fay Armstrong are missionaries supported by the conference churches in Sumatra. It was surprising to see how much work the Armstrongs have been able to accomplish.

Other places visited were Hong Kong, a side trip into south China, Singapore and Medan, Sumatra. The countryside in North Sumatra is covered with plantations of coffee, rubber trees, coconut, palm nut, pineapple, papaya, tapioca, ginger and other spices. With 300 inches of rainfall per year they can grow about anything.

The three McLean citizens report they were glad to be home after two weeks.

Lovett Library Has Many Surprises

Read any good books lately? With Old Man Winter still threatening, it might be a good time to stock up on some of your favorite books from Lovett library.

Here are just a few of the new titles available:

-The complete set of the "Hank the Cowdog" series by John Erickson;

-Bill Cosby's newest, "Time Flies";

-"Old Age Is For Sissies" by Art Linkletter.

Also, Lovett has just received three new titles in the "Lone Star Books" series on Texas history. They are:

-"Unsung Heroes of Texas" by Ann Ruff;

-"Frontier Forts of Texas" by Charles M. Robinson III;

-"The Alamo and Other Texas Missions To Remember" by Nancy Foster.

For those who prefer to listen rather than read, the library has many Talking Books on cassette. They can also lend cassette machines to patrons.

Through the library's membership in the Harrington Consortium, Lovett has access to well over 1,000,000 titles. If you don't see it on the shelves, just ask Librarian Martha Parker to see if she can order it for you.

Did you know that our library is the only one in the Harrington system which owns a copy of the 1924 classic "The Mark of Zorro"? Go to the library and browse around for a while. What you find may surprise you!

Tax Reform Act Information

The 1986 Tax Reform Act made vast changes in the tax code of the United States. There is a great deal of new information which the taxpayer needs to know. We have picked up some useful information which we will pass along to our readers. We hope it helps to clarify things for you:

FOR ALL TAXPAYERS

-Tax rates have been condensed from 15 brackets, with a top rate of 50%, to two rates of 15% and 28% for 1988.

-The standard deduction replaces the "zero bracket amount" and is increased.

-Personal exemptions have been increased from \$1,080 to \$1900.

DEPENDENTS

Net unearned income of a minor child will be taxed at the parent's marginal rate after the first \$1,000 for children under the age of 14 after 1986.

-All children age five or older and adults claimed as a dependent on an income tax return are required to have a social security number after 1986, and the number must be included on the tax return.

LOW INCOME

The maximum Earned Income Credit has been increased from \$550 to \$800 for 1987. This credit benefits taxpayers who maintain a home for dependent child-

ren and earn less than \$14,500 a year. By 1988 the income level is increased to \$17,000 a year.

ITEMIZERS

-Mortgage interest remains deductible after 1986 for loans secured by principal residences and second homes. The deduction is limited to interest paid on loans that do not exceed the cost the taxpayer has in the property plus improvements. For mortgages taken out after August 16, 1986, there are special rules.

-Personal interest, such as car loan interest or credit card interest, is phased out as a tax deduction in increments after 1986. By 1991 this deduction is completely eliminated.

-State and local sales taxes are no longer deductible for the 1987 tax year and beyond.

-Adoption expenses are no longer deductible after 1986.

Charitable contributions remain deductible for those who itemize. The deduction for those who do not itemize is eliminated after 1986.

-Medical expenses continue to be deductible, but are subject to a floor (7.5 percent of adjusted gross income). In other words, medical expenses are deductible to the extent their total for the year exceeds 7.5 percent of the taxpayer's adjusted gross income.

IRA'S

Individual Retirement Accounts are not deductible for single taxpayers who have adjusted gross income of \$35,000 or more if they

THE GROOM NEWS—Page 7 Thursday, February 4, 1988 are covered by an employer retirement plan. For married taxpayers, if either spouse is covered by an employer retirement plan, the adjusted gross income threshold is \$50,000. A \$250 contribution to an IRA is allowed for spouses who earn no compensation. Interest paid to an IRA remains tax deferred to all taxpayers. In other words, the interest that accrues on IRA amounts is not taxed until the amount is drawn out after age 59 and one-half.

More tax tips next week.

M.H. (Hack) Lasater and O.L. Graham have formed a partnership and will open the G and L Food Market in the building formerly occupied by Harley's Grocery.

A number of Pampa citizens headed by C.H. Walker and Judge White met at a called meeting of the Chamber of Commerce at the city hall Tuesday evening just preceding the lions banquet to discuss the county lake problem.

According to an unofficial report, there are some 5,108 poll paid in Gray County this year including transfers; with 539 at McLean and 156 at Alanreed. Overs and unders should bring the total to around 6,000 for the county.

Stoney Jackson from California is the new butcher at Trimble's Grocery and Market.

60 Years Ago

Deputy Sheriff Jim Sullivan had an exciting chase with a prisoner one day this week. The man had been arrested, a bottle of booze taken from his person and they were in Judge Rice's office discussing making bond when the prisoner darted out of the back door and ran up the alley toward the depot, Deputy Sullivan gave chase and emptied his pistol, shooting all around the man, and had just decided to shoot him in the leg to stop him when he turned and gave up. The prisoner was taken to the county jail in default of making bond.

Mrs. John C. Haynes suffered a very painful injury while car riding Sunday afternoon when a rifle shell

exploded in the car, driving the shell into her leg, striking the bone, necessitating a surgical operation to remove it.

According to Commissioner M.M. Newman, the Beaver Dam bridge near Alanreed will be completed this week. The Palmer bridge was completed some little time ago and the road opened for traffic.

The gas rate in McLean has been cut from \$.60 per thousand cubic feet to \$.55 in accordance with the terms of the franchise, which guaranteed \$.55 when the number of connections reached 250.

Heart Fair Is

Feb. 13 In Pampa

"A Fair of the Heart" is scheduled for Coronado Hospital Feb. 13, according to hospital officials. The fair will feature free cholesterol screening for participants, plus free seminars by Pampa physicians on various aspects of heart disease.

Participants will come from 7 a.m. to 9 a.m. to have blood drawn for the free cholesterol screening, according to Linda Haynes, director of public relations for the hospital. "Those wishing to have the test should not eat or drink after 8 p.m. Friday," she said. "They may drink water, and take heart medication, if necessary. Diabetics should wait until after they have their snacks before taking medications." She emphasized that the test will not be given to anyone who has not fasted for the required time.

"After the participant has his blood drawn, we will feed him a snack, and give him a chance to visit the exhibits and tour the cardiopulmonary department of the hospital," she said. Exhibits will include a variety of information about heart disease, including pamphlets from the American Heart Association and demonstrations of pace makers and information about commonly used medications for heart disease.

At 9 a.m. in the cafeteria, Joan Quillian, director of the dietary department at Coronado Hospital, will discuss "How to cook Hearty".

At 9:30 a.m. in the cafeteria, Dr. Albert Sy will explain the risk factors of heart disease.

At 10 a.m. in the cafeteria, Dr. Laxman Bhatia will discuss common medications used in treating heart disease.

At 10:30 a.m. a panel of former heart patients and the three physicians will answer questions from the audience.

"Participants must pre-register," Mrs. Haynes said. "We have a limited amount of space in the cafeteria and a limited number of free tests which will be given. Anyone wishing to participate should call 669-3721 to pre-register."

The Young Adult Class of the First Baptist Church enjoyed Super Bowl Sunday in the home of Rusty and Jan Pipes, Kyle and Stacey. Following Sunday services the class enjoyed a pizza dinner served by GHS seniors. A friendly game of pool entertained the men and the ladies enjoyed a fun game of Skip-bo.

Attending were Bea and Brent Stephens, Michael and Michele; Tony and Tina Painter; Dickie and Betsy Painter; Eric and Karla Erwin, Kelly, Katie and Kari; Darrell and Charlotte Whatley, C.J. and Dara; Sharlene Lewis, Michael and Jeremy; Sheila Whatley of Amarillo and Mildred Burgin were special guests.

Letter To Editor

This weeks article will be for the benefit of those who would like to see how we keep our financial records. As you will see the only financial aid the ambulance service receives comes from Carson County at \$75.00 a month, from the people who pay their ambulance bills and finally from the people who make donations.

Liabilities in 1987 included the following list: Insurance, \$5,600; Medical Supplies, \$401.35; Fuel \$620.00; Repairs, \$183.98; Tags, \$152.61; Postage, \$49.00; total expenses \$7,007.20.

Carson County paid the service \$900.00 and past due accounts on the books total \$5,681.20. Income for 1987 including that from Carson County was \$2,416.16. A total of \$6,097.04 is in savings as of February 1, 1987 and checking balance on the same date was \$1,137.90.

Insurance comes due in October 1988 at a cost of \$5,600.00 a cardiac monitor and cardiac drugs would cost another \$9,000.00.

The second thing I would like to touch on is the Ambulance Service we now have.

There have been several compliments paid to the Groom EMTs, not only from the community, but from other Ambulance Services with which we have had dealings with.

It is very important to upgrade our service to include a paramedic, but without the EMTs there could not be an ambulance service.

These people volunteer their time which often takes them away from their family to help the people in the community or to go to the aid of a perfect stranger. All of this is done without them expecting anything in return.

So, to these very special people and their families of Groom Ambulance Service, thanks.

Lynn Pool EMT-P

seconds of the game.

Coach Rambo said his Tigers had little success last week shooting the ball losing their game Friday with McLean 35-41. Groom pulled to within four points of McLean in the final quarter. Groom had several opportunities to win the game with free shots from McLean fouls but unable to hit the basket, Groom lost the bout. On the night the Tigers were 6 of 21 from the free shot line.

Matt Weinheimer led scoring with 9 points followed by Stoney Crump 8, Bruce Thornton 7 and Travis Homer, 6. Michael Rose led scoring in the Miami game on Tuesday with 9 points and Travis Homer and Bruce Thornton each had 8. The Tigers won the match 39-37.

The Junior High boys team played Miami last week with a 18-46 loss. Brian Baker scored 14 points for Groom. The seventh and eighth grade teams lost games with Claude, the seventh's score was 10-28 and the eighth grade, 20-50.

Contractor Receives Contract To Seal Coat Area Roads

A Plainview contractor, High Plains Pavers, Inc., has been awarded the contract to seal coat 286.6 miles of southern Texas Panhandle highways next summer.

High Plains Pavers' \$1,498,155.55 bid was the lowest of six submitted on the entire project to the State Highway and Public Transportation Commission in Austin.

Need To Conserve Water Is Cost Effective

Water can be saved in many ways, but one way we can all save it is through water saving appliances. According to information from Panhandle Ground Water Conservation Dist. 3, there are water efficient dishwashers and clothes washers, but the two appliances that probably can save the most water are efficient shower heads and toilets. A .5 gallon per minute shower head versus a standard inefficient shower head can save about 14 gallons per shower. For a family of 4, that's a savings of over 20,000 gallons of water per year. Efficient toilets offer even more savings—.5 gallons per flush units save about 20 gallons per person per day. For a family of four, that's an additional savings of about 30,000 gallons of water per year.

No matter what your cost of water is, these appliances are cost effective when purchased. Remember, there is no substitute for water so it must be conserved and protected for ourselves and future generations.

Bingo Nets Nifty Profits

State Comptroller Bob Bullock Friday sent fourth quarter 1987 checks totaling \$1.6 million to 100 cities and 66 counties that have legalized charity bingo and levy the two-percent local gross receipts tax on the game.

As of Friday a total of 1,688 non-profit organizations were licensed to hold bingo games in Texas.

In 1987, bingo games in Texas grossed over \$345 million, awarded \$253 million in prizes, and contributed over \$46 million, or 50.95 percent, of their adjusted gross receipts to Texas charities.

In addition to local taxes bingo generated \$2,071,962.71 in state taxes last year.

Seal coat work on Texas Panhandle highways is planned to be started and completed during the summer. A seal coat—a placement of asphalt and rock—preserves and protects the riding surface of a highway and extends its useful life.

Henry L. "Lou" Gallegly of Dalhart will be the highway department's resident engineer who will directly supervise the work.

School Funding Studied By Special Committee

Governor Bill Clements today announced the appointment of a 15-member blue ribbon panel to examine the state's public school funding, as well as evaluate the operation of the entire educational system.

The select Committee on Education will analyze the consequences of a 1987 court ruling declaring Texas' school finance system unconstitutional. Among the panel's other primary duties will be to evaluate the organization and management of the state's public schools and to examine student performance to ensure that

standards are being met, if not exceeded.

The committee is to issue its report—putting forward recommendations for possible improvements through legislative action or otherwise—by January 1, 1989. Of the 15 appointees, five each were selected based on the suggestions of Lt. Gov. Bill Hobby and House Speaker Gib Lewis.

The members are Larry Jenkins of Austin, who was selected by Clements to serve as chairman; Steve Late of Odessa; retired Gen. William V. McBride of San Antonio; Charles Miller of Houston; and Dr. Winston C. Power Jr. of Dallas.

The appointees named on the recommendation of Hobby are state Sens. Gene Green of Houston and Carl

Parker of Port Arthur; Rebecca Canning of Waco; and Will Davis and Mark G. Yudof, both of Austin.

The members put forth by Lewis and appointed by the governor are state Reps. Bill Hammond of Dallas and Gregory Luna of San Antonio; Marie Elena Flood of El Paso; William Ortego of Azle; and Ed Wilkie of Fort Worth.

The governor, Hobby and Lewis agreed to create the task force last year in response to a ruling by Austin state District Judge Harley Clark that the state's method of funding its public schools is unconstitutional.

Although the decision by Judge Clark is being appealed by the state, the governor said formation of the blue ribbon committee is necessary to shed light on the drastic changes that would result if the ruling is upheld.

"The Select Committee on Public Education is one of the most critical committees that I will appoint as governor," Clements said. "This panel not only will help determine the direction of the operation of our public schools, but it will evaluate all levels of student performance."

"This type of committee will play a key role in our efforts to ensure that taxpayers' dollars are being used prudently—that we're getting out money's worth."

"It is essential that we continue to work for quality and productivity in our schools. And I am confident that this group of highly able people will help us do just that."

AC Computer Course Offered In Groom

Amarillo College has announced final plans for conducting an extension course in continuing education with a beginning Lotus 1-2-3 class set to begin on February 22. The classes will continue through April 11, 1988, with a holiday on Monday, April 4. The Monday classes will begin at 7:00 p.m. and end at approximately 10:00.

Instructor for the classes will be Randy Bolick, who is

employed by the Golden Light Equipment Company in the data processing department.

Cost for the eight week course will be approximately \$50.00.

Sixteen persons are currently signed up for the instruction. Interested persons should enroll as soon as possible, as class size will be limited by the size of the school laboratory. Enrollment in the classes will qualify the students to

use the computer laboratory of the school for practice at any time when the laboratory is not in use.

Persons interested in the beginning Lotus 1-2-3 classes should contact Joyce Hutsell at 248-7251.

January DPS Activity

DPS officers issued 301 tickets during the month of January with an additional 108 warning citations being issued. The local officers investigated two accidents and served four warrants.

One DWI arrest was made and one man was jailed in Donley County on an arrest warrant from Dallas for evading arrest.

A total of 150 cases were completed in Justice of the Peace court with the total of fines collected, \$7,600.00.

During 1987 a total of \$106,270 was collected in fines. According to DPS officers, approximately \$72,600 of the funds collected are designated to be expended as a part of the Road and Bridge fund for the county.

Budget Report

Carson County Commissioners met last Monday discussing the advantages of joining the County Political Action Committee. Dues are \$25 per person and cannot be paid out of county revenue. Insurance cards for county vehicles were also discussed.

Mogie McCray and Jo Randel gave the annual report of the County Historical Commission and Square House Museum budget and trustees for 1988 were accepted.

The next regular meeting of the court will be on Monday, Feb. 8 at the courthouse in Panhandle.

Receives New Volumes

Mrs. Glynn D Harrell, Mrs. Bertha Knight and Mrs. Evelyn Hubbard attended a Carson County Library staff meeting at Panhandle recently.

Plans were made for an all day workshop on Wednesday, Feb. 17, with all branch libraries to be closed that day in order for all librarians and their assistants to attend the workshop in Panhandle.

Some of the new books for the juvenile and easy department are: The Military Aircraft library which consists of six volumes on research planes, bombers, helicopters, spy planes, navy fighters and land based fighters an encyclopedia of presidents, sports stars Dan Marino, William Perry and baseball superstars.

Skits, 250 Ideas from Young Life, Volume 1 and 2, (easy books) "Safe Sally Seat Belt" by Phyllis Goffell, "The Velveteen Rabbit", by Margery Williams, "The Porky Little Puppy's Naughty Day" by Jean Chandler, "Tiger's Bedtime" by Stephanie Palmenson, "What is an Iceberg" by Chris Arvelis, "What is a Butterfly" and "What is the Moon", "Why is it Cold" and many more.

A memorial book, "A Treasury of Western Folklore" by B.A. Botkin in Memory by Raphael J. Britten has been presented to the Groom Branch Library by Carson County Libraries.

Governor Eyes Texas' Economic Achievements

One year ago this month, the Governor's office began work on an aggressive agenda aimed at addressing the concerns of grassroots Texas.

It was—and remains—an agenda of economic reform requiring one of the most ambitious business development efforts ever witnessed in the United States.

The goal is to point Texas in a new direction, one that leads the way to jobs for hundreds of thousands of Texans.

It is a drive for governmental and budgetary reform which abandons the status quo approach to state spending that tolerated fiscal mismanagement and wasteful spending practices.

We have made significant progress in both areas during the past year. We can—and will—make more.

For those who relish challenge and opportunity, these have been exciting times.

To understand the magnitude of progress we achieved in 1987, it is important to realize the problems we faced when we closed the books on 1986.

That was a year in which: Unemployment across Texas averaged nearly 9 percent.

The price of a barrel of oil once the mainstay of the Texas economy, plummeted to a modern low of \$10.50.

The destabilization of the Texas economy triggered by that collapse in oil prices led to an unprecedented economic development drought in Texas.

So much for the bad news. Let's review some of our economic accomplishments in 1987:

The average unemployment rate in Texas last year was 8.4 percent, a significant improvement from the near-9 percent average of 1986.

Unemployment statewide in the final quarter of 1987 dropped dramatically—to 7.9 percent—compared to 9.5 percent for the same quarter in 1986.

Unemployment in Texas last month fell all the way to 7.5 percent, quite a change from the 9.6 statewide average of December 1986.

281,000 more Texans had jobs last month than in December 1986.

Our industrial and research drought came to an end. For example, J.C.

Penney announced it is leaving New York for a new home down the road in Plano.

We ended 1987 with momentum, and 1988 will bring more. Already there are signs of that.

We announced earlier this month that Austin will be the launching pad for a major advanced research effort—a cooperative effort of America's leading industries—in hopes of restoring our nation's competitive edge as an international leader in semiconductor technology.

The decision to locate this major research consortium in Texas has tremendous economic implications for the state that go far beyond the \$250 million annual budget that will ripple through our economy, or the 800 employees who will work at the Sematech facility in Austin.

It represents a major economic achievement for Texas because it positions our state as a research and industrial leader as we near the 21st century.

In addition, it sends a signal throughout the business community that Texas is the center of opportunity and expansion.

Virtually every state in the nation wanted Sematech. Some offered financial incentive packages that stretched into the hundreds of millions of dollars.

Texas offered \$68 million. And we won.

Money wasn't the only factor.

Sematech selected Texas because of the quality of life here.

The excellence of our colleges and universities.

Our advantage of not having a state income tax.

Our strong right-to-work laws.

Our commitment to excellence.

Let's Visit With Chuck Flemins

profession is to in fact achieve the status of "professional", qualifications, standards, and education in the law enforcement communities must be raised.

We are responsible for our profession. Thus, we must take responsibility for the training of not only the up and coming new cadets; but we must also be responsible for more and better training for our older seasoned officers. You wouldn't

want to be operated on by a doctor that was not trained by doctors; nor one who did not continue to study and stay current in the latest techniques. It stands to reason, we don't want officers trained by personnel not trained in our profession.

Q. But doesn't that take up a lot of your time?

A. No. There are many administrators who volunteer their time away from their work schedules (vacation time, after hours, etc.) to aid in academy teaching, in service training, and other valuable courses directed toward minimizing our chances of liability. Of course, there are those who feel different. There are those rare administrators that feel that education and training are a waste of time. And, the civil courts stay full with cases, many times resulting from that lack of training.

But, as I indicated in my announcement address — if elected Sheriff of Carson County, I would lay aside my interest in teaching and direct my efforts to helping our law enforcement communities in a more administrative, advisory capacity.

"Together We can Make A Difference"

Look again next week for another visit with Chuck Flemins.

Pol. Adv. Pd. by Charles W. Flemins, Box 1448 Panhandle, TX 79068

Q. Mr. Flemins, a question has been asked. Why is education so important in law enforcement today?

A. That is a very good question. It does not take much to look around today at the status of law enforcement civil liability to find the answer. That alone makes us aware of the necessity for higher law enforcement education. Society is much more aware today. It is much more educated and sophisticated today. We have word processors and computers today, when yesterday manual typewrites and adding machines worked fine.

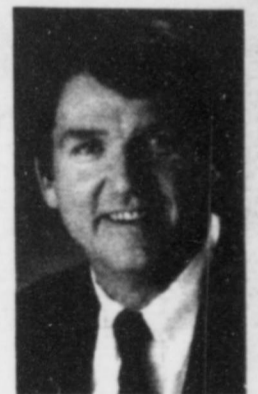

Officers today in City Police Departments and County Sheriff's Offices must be educated and dedicated to the ideas of modern progressive techniques. They must be willing to constantly update their training. The "bad" guys are learning everyday. The State Legislature thinks officer education and standards of qualifications are important. Each time they meet, they update and raise the standards of professionalism that are required for entrance into our field.

Q. Well, how does this effect us on a local county basis?

A. That goes hand in hand with what I was just saying a moment ago. There are many Chief Administrators in city and county law enforcement that have held the idea for years that if this
