## HATS OFF TO VETS

On Veterans Day, the DAV asks you to remember that veterans paid the price of peace.

## Local Vets Remembered On V-Day

America's 27 million veterans will be honored throughout the United States on Saturday, "Veterans Day." Groom, not unlike any town, has been touched by wars fought by local men to protect lives and some who paid the price of peace.

### Groom Churches Plan Hay Ride For 6th-12th Graders

Groom area churches are busy preparing for a hay ride for Groom students currently in the sixth grade through seniors. Church members are planning to transport the youth on hay covered trailers, immediately after the game to an unknown destination at press time. After the groups arrival games will be played and songs will be sung. A wiener and marshmallow roast is being planned. The well sponsored event will conclude at 12 midnight back at the school. Parents are asked to come pick up their children at this time.

States on Saturday, "Veterans Day." Groom, not unlike any town, has been touched by wars fought by local men to protect lives and some who paid the price of peace.

In World War II nine Groom residents gave their lives for their country they were: Ray Dale Andrews, Johnny Wall, G.C. Whatley, Sifm Millican, Ebey L. Clark, Harrell Helton, Paul Townsend, Raymond Wag-

## Rennie Residence Burglarized

The Charles and Jackie Rennie residence located 2 1/2 miles west of Groom 1-40 was burglarized Thursday morning between 11:00 to 11:30 a.m. Jackie reported that guns, jewelry, comforters, a clock radio and many sentimental items were taken. The intruder had gathered their son's clothing and Charles' boots,

but left them behind. Neighbors reported to have seen a maroon and white late model GMC or Chevrolet pickup at the residence with Arkansas tags. The pickup had a white top. The vehicle was once

seen with two men in the cab and later with only one. The intruder busted through the back door, unlike the intruders last August that entered the home by breaking the front door.

## Students Score Highest On TEAMS

Groom students scored 95.5 percent on TEAMS tests last year, which was the highest of surrounding schools. Amarillo had 75 percent passing; Clarendo, 84.9 percent; Claude, 76.5 percent; Lefors 73.7 percent, Miami, 88.6 percent, Pampa 78.1 percent, Panhandle 84.6 percent and White Deer 88.9 percent.

In the 1987-88 school year, Groom had a 98.6 percent passing rate giving the district a 3.1 percent drop for 1988-89.

TEAMS tests are taken by odd number grades. First graders, who will no longer take the TEAMS test, are the youngest to take this test. Juniors are the oldest, and they must pass the test to graduate. Their test was given the last of October and results were not available at press time.

With homogenized Sup-R-Lix® there's no waste. Its high-level nutrition stays put, so cows get the full body-conditioning benefits of the ration every time they lick the wheel. In feed trials, spring-calving cows on Sup-R-Lix Breeder 32 weighed an average of 54 lbs. more after calving than cows on a conventional 32% liquid supplement, yet feed consumption was virtually the same. Sup-R-Lix is the one liquid ration you can count on to match the performance of highest quality dry supplements—yet still give you self-feeding convenience and labor savings.

## Oral History Project Feature Available At Square House

An oral history project, featuring well known area pioneers, is an on going activity of the Carson County Square House Museum and Berneta Communications of Amarillo. Just released are two videos on the history of the oil and gas development in the Panhandle of Texas. The first, a twenty-eight minute film, features Lawrence Hagy and is titled "Lawrence Hagy: An Era, A Vision." The second, a scholarly discussion on the development of the natural gas industry features Charles Hinton, A.D. Weatherly and Irene Wischer.

Currently underway is a new series titled "Native Sons". This series will feature five natives of the Panhandle, the youngest seventy-seven and the oldest one hundred years old. These unique stories are captured live on film. Funding for each film requires from \$1000.00 to \$35000. In addition to the filming amounts in the range of \$7500 to \$10,000 are required to produce each

video. To date, majoring funding has been by the Don and Sybil Harrington Foundation, The Cabot Foundation, M.K. Brown Foundation, Dodge-Jones Foundation and Amarillo Area Foundation.

To capture these stories, time is of the greatest importance as each person must be able to speak clearly and communicate with the audience.

The films are produced with Berneta Communications making a contribution, and the editing and project directing and photographs supplied by the staff at the Square House Museum. There is no profit to the Museum in this project and it is developed as a public service. Schools, PBS, organizations throughout the State and even as distant as New York City have used the video programs. The only cost to the viewer is postage for delivery of the tapes. Organizations and individuals may keep the tapes for one week.

To date the Museum has

produced: Charlie Bell: Cowboy; Pioneer Women: Our First 100 Years; Agnes Howe: A Childhood on the Plains; The Squaw with the Blue Eyes; Cynthia An Parker; Watt Matthews: Lamb-shead; Lawrence Hagy: An Era A Vision; and Charlie

**Eggs Now Contain 25% Less Cholesterol Than Previously Thought**

If you've been avoiding eating eggs because of their cholesterol content, you can still enjoy them in moderation.

Latest research data reported from the U.S. Department of Agriculture's Nutrition Composition Laboratory shows the average large egg contains 25 percent less cholesterol than previously thought.

Research indicates the average large egg contains 213 mg of cholesterol, not the 274 mg as previously thought. Eggs also are an important source of protein, Vitamin A, Riboflavin, Vitamin B-12, iron, zinc and phosphorus.

Dr. Gary Beecher, chief of the USDA nutrition laboratory, said the nutrient composition change has resulted from better testing methods and changes in the

egg industry feed, husbandry and breeding practices.

What does this mean to consumers? High blood cholesterol is a risk factor for heart disease. However, it is important to understand that blood cholesterol and dietary cholesterol are two different things. 80 percent of the cholesterol in the body is made by the body. Concerning dietary factors, the primary determinant of blood cholesterol is the type of fat in the diet, not dietary cholesterol. Too much saturated fatty acids in the diet can elevate blood cholesterol. These fatty acids are found in animal products and coconut and palm oils. Diets that replace saturated fatty acids with polyunsaturated fats such as vegetable, soy or sunflower oil may actually lower blood cholesterol.

This year the new fifth graders get to sell band candy. In the fifth grade and up the people who play in the band get to sell the candy. The person who sells the most gets \$20.00 dollars plus a special prize if they break the McLean record of selling the most candy. On the back of one of the candy bars the wrapper says, "With this coupon you can buy a small size Icee and get another small Icee Free."

In Science we are studying clouds. The clouds are Cumulus, Cirrus, Stratus, Cumulonimbus and Nimbostriatus. Cumulus is low in altitude, white and fluffy, has flat bottom, bring fair weather and they look like popcorn balls. Cirrus are formed by ice crystals, they are low, they form feathers, and they tell you weather is going to change. Stratus and

low with out form, light gray. They are winter clouds. Cumulonimbus means "Thunderhead", they are huge and dark. They may reach 75,000 feet, bring storms, heavy rain, maybe a tornado, and come in winter time. Nimbostriatus are usually very low, bring rain or snow, and come in winter time. That is what we learned in Science.

Some of the kids in the fifth grade are writing to other states and countries to get science information. We are getting the addresses out of Asimou books. I have got a letter back. ## YOUR SCHOOL

By: Jerry Don Cook

As you probably know, McLean ISD has recently completed the State accreditation monitoring process by staff members of the Texas Education Agency. There are two areas of our daily class schedule that need to be changed.

The first area is the length of the school day for kindergarten through the third grade. Our buses arrive by 8:00 each morning to give students the opportunity to eat breakfast in the cafeteria and attend tutorials which are scheduled from 8:05 to 8:30 every day. The afternoon buses depart after 4:00 p.m. the main concern is that the young students were required to stay at school an extra hour waiting for the buses to run.

On November 20, at the beginning of the third six weeks grading period, we will reduce the length of the school day for all grades. Tutorials for grades one through twelve will be from 8:00 to 8:25 every day. Regular classes for grades K through 8 will begin at 8:25. Regular classes for grades 9 through 12 will begin at 8:30. Grades K through 8 will be dismissed at 3:20 and Grades 9 through 12 will be dismissed at 3:21. The buses will leave school between 3:25 and 3:30. The new dismissal times will require that grades 7 through 12 move from an eight period day to a seven period day.

The second problem with the present schedule is some classes in grades 6 through 12 have only boys or only girls enrolled. According to federal guidelines, Athletics is the only course that can be sex segregated. We must schedule classes so that both male and female students have an opportunity to be in the classes together. This rule includes physical edu-

J. T. Haynes

cation. The new daily class schedule has been constructed so that no student will lose credit in any class in which the student is currently enrolled. Every attempt has been and will continue to be made to implement these needed changes as smoothly as possible.

Lonestar Ballet presents "The NutCracker" Friday, Saturday and Sunday, December 8, 9 and 10, 1989. Sunday night will be a special night for WTSU students and exstudents and Texas A&M exstudents.

Sunday night is also Sunday school and Church night groups of 20 or more will have discounts on tickets.

For tickets and information contact Lone Star Ballet at 372-2463.

November 11-Brotherhood Breakfast will be held at 7:45 a.m. at the First Baptist Church.

Regular 4-H meeting will be held Monday, November 13, 1989 at 7:00 at the Tate Building.

Also new to the festival this year is the Black Powder Turkey Shoot, to be held at the Erick City Land Fill, located 1 mile North and 1/2 mile East of the East edge of Erick on Sunday only, beginning at 1:00 p.m. There will be plenty of room for spectators to watch this event, and if newcomers to the sport want to try to shoot, they will be given a chance. There will be turkey shoots and money shoots, with a shooters fee being charged.

There will also be a Friendship Quilt Exhibit at the Senior Citizen's Center in downtown Erick. This will be a showing of local friendship quilts.

The J.D. Martin Honey Farm will be participating in the festival with an Open House, Tours of Bee City, Bee Museum, Candle Shop and Sandle Workshop. The Honey Farm is located West of Erick on I-40, Exit 5.

The Erick Chamber of Commerce invites everyone to attend these two fun-filled days and "Have a Honey of a Time". BEE THERE!!!

### Mary Dwyer & Rex Peeples Spoke

The Pioneer Study Club met Thursday, November 2, at the Memorial Library.

The program was furnished by Mary Dwyer. Rex Peeples, Superintendent of McLean Schools brought a positive message of our school curriculum and students, instead of the negative press that we are accustomed to hearing.

He explained some of the new program that will become a part of next years studies as well as a graph of the results of the Texas Assessment of Minimum Skills (TEAMS) scoring at each level.

Mr. Peeples also wants to invite all parents, grandparents, and friends to come visit the school and take an active part in the activities it offers the community.

The program was concluded by a question and answer period and a member of the ladies took advantage of this opportunity to better understand some of the new procedures that have been implemented into the school system.

Delisious refreshments were served by Maude Hupp. Members present were Fayette Bell Barton, Nancy Billingsley, Margaret Coleman, Mary Dwyer,

Jill Jennigan & David Campbell
