W.I.P.P.

Transuranic waste consists primarily of clothing, tools, rags, and other disposal items contaminated with trace amounts of radioactive elements, mostly plutonium. Why salt? Scientists in 1955, after extensive study recommended salt as a promising medium for the disposal of radioactive waste. Salt provides a stable medium, absence of fresh water, easy to mine, rock salt heals its own fractures because of its plastic quality. Salt formations will slowly move in to fill mined areas and safely seal radioactive waste from the environment.

Bond Issue Scheduled

Grandview-Hopkins Independent School District voters on Saturday, June 27, 1998, will vote for or against a proposition to allow the District to issue \$2 million in bonds while maintaining the current tax levy rate which would retire the obligation within a seven year period. A meeting with the public and taxpayers to discuss the bond election, instructional projects, and finances will be conducted at 7:00 p.m. at the Grandview-Hopkins auditorium on Tuesday, June 9, 1998.

Approval of the package could reduce the flow of local monies to the state which, through the 1998-99 school year, will amount to over \$3.3 million for a eight year period. Grandview-Hopkins would assume debt while retaining local tax money in the District. Taxes would not be increased if the \$2 million bond is passed.

School District Trustees decided to take this action because the 75th Texas Legislature, during 1997, removed bonded indebtedness from "recapture" provisions of school finance legislation.

Under the state's current funding program, Grandview-Hopkins Independent School District must give the state a percentage of their tax collections (currently over 50%), which is then redistributed to the "property-poor" districts.

This means that for every two dollars that Grandview-Hopkins ISD collects in taxes, Grandview-Hopkins ISD must send one dollar to the state.

The "Robin Hood" method of wealth equalization involves taking local property tax monies from property-rich school districts for distribution to Austin or property-poor school districts. Grandview-Hopkins receives less than 64 cents (.631) from each dollar and 30 cents collected from local taxpayers.

In other words, to finance a budget proposal of \$411,577.99 for the 1998-99 school year, the District would require a tax rate of one dollar and 30 cents per \$100.00 valuation. If recapture didn't exist, the new tax rate for the District would be \$.5448273, just over 54 cents.

If the proposition is adopted, funding would be committed to the construction of energy efficient classrooms and facilities, update equipment and furnishings, enlarge the library, and develop a community center.

First Southwest Company is representing the school district as financial advisor and bona counsel will be McCall, Parkhurst & Horton, L.L.P.

Early voting by personal appearance will begin at the Grandview-Hopkins administrative office on Farm to Market

Road 293 off Highway 70 on June 10, 1998, and continue Mondays through Fridays from 8:00 a.m. to 4:00 p.m. through June 23, 1998.

The election will be conducted Saturday, June 27, 1998, from 7:00 a.m. to 7:00 p.m.

Due to damage from the storm on May 15th, High School Commencement exercises were not held in the First Baptist Church as they traditionally are.

Crockett Kisses Cow For Readers

At the beginning of the school year each elementary and junior high class set goals, both for their class and individually.

Mr. Crockett made the students a promise at the start as an incentive: If the majority of them met their reading goals, he would kiss a cow at the end of the year. Well, he had to pucker up!

Joe Billingsley provided a calf, (the chosen cow turned out to be too temperamental), which, much to the delight of faculty and students, received a big kiss from Mr. Crockett. (Mrs. Laura Hommel assisted by flanking the calf to get it closer to Mr. Crockett).

This is the breakdown of the percentages of goals reached by each class: Kindergarten 95%; 1st Grade 100%; 2nd Grade 109%; 3rd Grade 82%; 4th Grade 112%; 5th Grade 102%; 6th

Grade 111%; 7th Grade 116%.

The class with the highest percentage was rewarded with a pizza party, and all individuals who met their goal got to go to Wonderland Park.

The Accelerated Reading Program is a

points-based system. Each book in the library is given a grade level and points based on its difficulty. For example Chester, 2nd grade level, worth 5 points; and The Cat Who Ate Danish Modern, grade level 6.2 and worth 12 points.

Citizens Given Notice About Area Weather

Citizens of the Shamrock and McLean area are reminded by the Shamrock Dispatch Office to please listen to their scanners, radios and televisions for weather updates instead of calling the dispatch office for weather information.

According to Belinda Daniels, Chief Dispatcher for the City of Shamrock, numerous calls are being received from area residents concerning the weather. "We simply do not have the personnel or time to update each and every individual who calls concerning the weather. We receive the weather updates from the National Weather Service just as the television stations are broadcasting the information. In fact, sometimes the television stations receive the information before we do," stated Mrs. Daniels.

"We have to maintain contact with our weather spotters, relay weather information to those spotters as well as the regular duties of the dispatch office during the times of bad weather. If many would listen to their scanners, they will hear the weather updates being transmitted to the spotters and could relay this information to their friends or relatives who do not have scanners. This would alleviate a lot of the of the burden from our dispatchers and would allow them to perform their job better as well as keep everyone informed of the weather conditions."

"If our phone lines are busy with individuals wanting weather information, it will be impossible for actual emergency phone calls to be answered," said Mrs. Daniels. "Please watch your television and listen to the scanner for the latest weather up dates."

Citizens are reminded that when the tornado siren sounds, seek shelter, a tornado has been spotted, the siren will not be sounded again and there will not be an all clear signal given. DO NOT call the dispatch office wanting to know if a tornado has been spotted, remember the tornado whistle will not be sounded unless there is a tornado spotted, so seek shelter immediately when the tornado whistle sounds.

This repeat of last year's dramatic presentation of "The Glory and The Fire," promises to be just as dynamic and powerful. Earthshaking sound effects, brilliant lighting, creative costumes and explosive pyrotechnics are the background for various contemporary scenes of everyday life that bring viewers face to face with the glory of heaven and the tragic reality of hell.

Due to the intensity of this drama, we strongly caution parents with children under the age of 12. A nursery will be provided for children through age 3.
