

The Big Spring Herald

BIG SPRING, TEXAS, FRIDAY, NOVEMBER 30, 1928.

BY T. E. JORDAN

TRAIN CRASH

THREE OF TRAIN CREW SUSTAIN INJURIES; PASSENGERS HURT

Southbound Flyer Loaded With Football Fans Crashes Into Freight Train in Fog. Scenes of Indescribable Confusion. Wounded Taken to Hospital at Taylor.

AUSTIN, Nov. 21.—The engineer, fireman and brakeman of the International Great Northern southbound passenger train, were seriously injured and at least seven of the passengers sustained less serious hurts, when the train crashed into a freight engine in the early hours of this morning about half a mile west of Hutto.

The accident happened during a dense fog while the freight crew were attempting to back their cars off the main line on to the siding. The injured persons were rushed to the hospital at Taylor.

Both engines were virtually demolished and the track was torn up for a distance of more than a hundred and fifty yards.

A large number of freight cars were smashed and their contents scattered all over the right-of-way. One baggage car was split open and another turned over and two chair cars were thrown off the rails.

Amongst the passengers were a large number of football fans coming to attend the game tomorrow between Texas University and Texas Aggies.

Hoover Gets Noisy Welcome

PUNTA ARENAS, Costa Rica, Nov. 28.—President-elect Herbert Hoover was given a noisy welcome when he landed here today on his good will mission. The shore batteries exchanged salutes with the U. S. S. Maryland. Ships in the harbor, including the British vessel Salvador, were decorated with flags in honor of the occasion. The large crowd on the wharves was held back by the native police and the band played as the visitors came ashore.

Steers Go To Lamesa Tomorrow

The Turkey Day football battle between the Big Spring Steers and the Golden Tornadoes of the Lamesa High school will attract quite a few football fans to Lamesa tomorrow afternoon. This is the last football game of the 1928 season. It is not a conference game, but much interest is attached to this encounter, since Coach Bill Stephens, was former coach of the Tornadoes, and it will be a contest worth seeing.

10000 Homeless 40 Are Killed By Typhoon

MANILA, P. I., Nov. 28/29.—The toll of human lives taken by the typhoon which swept through the central portion of the Philippine Islands last week was fixed at forty known dead, today. The total fatalities are running as high as two hundred and more than ten thousand persons are reported homeless.

The Condor Petroleum Co. Test Interesting

The Condor Petroleum Company are now drilling below 2950 feet in their test well just over the line in Borden county. The drilling is now pounding away in a hard line. Due to the finding of the lime 160 feet higher than in any other tests in that area the chances for this well securing production are rated exceptionally good. This may be gleaned from the way the major companies are scrambling after oil leases and royalties in every direction from the Condor test.

THANKSGIVING FOOTBALL

In keeping with our policy of serving the public, and due to the fact that the Thanksgiving Day football results will not be received before we go to press Thursday, this office will remain open during the evening and the results of games all over the country will be posted in bulletin form and we will also answer telephone enquiries, if these are made briefly.

Wales' Brothers

The three brothers of the Prince of Wales, who is destined to succeed his father, George V., as Britain's king, are shown here: At the top is the Duke of York who ranks next to Wales in line of succession; center, Prince George; below, Prince Henry.

Unlawful to Tamper With Meter Boxes

Now that cold weather swoops down occasionally some folks have a habit of smashing into the water meter boxes to cut off the water to prevent burst pipes in their home. And in breaking into these meter boxes they are breaking the law and interfering with some other persons water supply.

Charges Denied Probers Leave For San Antonio

M'ALLEN, Nov. 28 (AP)—After hearing more testimony on the handling of the general election returns in Hidalgo County, the Campaign Expenditures Investigating Committee of the House of Representatives closed its investigation into conditions in South Texas, and proceeded on a visit to Brownsville, from where it will go tonight to San Antonio to investigate another dispute in the Fourteenth Congressional District.

Maracaibo Gets A Good Well on Section 135

All signs point to the Maracaibo Company's test well on section 135, block 29, W. & N. W. survey being brought in a big producer. This test well is located in the southwest corner of the section and drilled one foot in the pay at 2326 feet and the oil rose 2200 feet in the hole. Two 1000 barrel tanks are being arranged so this well can be drilled in within the next few days.

M. W. Harwell Passes Away This Afternoon

A wave of deep sorrow swept over the city, this afternoon when it was learned that Mark William Harwell, 73, passed away at his home in this city at 3:15 o'clock, following a week's illness. Pneumonia is given as the cause of his death.

Funeral services will be conducted at the family residence, 210 Locust Street, tomorrow afternoon at 3:30 o'clock. Rev. W. G. Bailey, pastor of the First Methodist Church, conducting the services. The body will be laid to rest in the Mt. Olive cemetery.

Mr. Harwell is an old time resident of Big Spring, and has always been one of our most progressive citizens. He has taken an active interest in all civic undertakings, and was willing to work untiringly for the good of the town. He has held public office, that of Justice of the Peace of Precinct 1, and as deputy sheriff, while Ed. Mobjley and John Daggott were sheriffs of Howard County. He was re-elected to the office of Justice of Peace of Precinct 1 in the last election, and was filling the duties of this office up to the time he was taken ill.

Mr. Harwell was a kindly Christian gentleman, loved and esteemed by all who knew him, and his death is sincerely mourned by many friends.

Surviving are his wife and three children: Mrs. G. R. Hale, Vernon, and Mark Harwell, all of this city, and other near relatives. Several nieces and nephews are expected to arrive, to attend the funeral services tomorrow afternoon.

Prince to Be At the Bedside Of King George

LONDON, England, Nov. 28. (AP)—King George's condition remains unchanged and with this fact uppermost in the mind of the Prince of Wales, he is about to undertake a long journey home, from East Africa, to be at the bedside of his father.

Little, if any change was indicated in the king's condition, according to today's medical bulletin. The statement did not indicate, however, that the fight against pleurisy, which afflicted King George was aided by a more restful night. The temperature and general condition of the patient was stated to be about the same as before.

Cal's Cousin

Ernest M. Coolidge of Yarnell, Wis., is a cousin of the president, but he's far from being the sphyx-like individual his famous cousin is. In fact Ernest has won the championship in his community for cow-calling. He's shown in the act of "ko-bossing" while holding the championship prize—a silver cowbell presented by the Blue Valley Creamery Institute of Chicago.

Farmers Can Continue To Sell Milk

There seems to be a misunderstanding relative to the milk ordinance which is due to become effective in Big Spring. In the first place this milk ordinance is being put on at the request and at the direction of the State Health authorities as a measure to safeguard health and prevent the spread of typhoid fever, tuberculosis and other diseases which can be spread by the milk of cows, and it is not put on with the intent to injure anyone, and it is certainly not intended to discourage the farmers from keeping milk cows or from selling milk and cream and butter.

Christie Dies Of Injuries Received in Accident

Walter Warren Christie, 24, passed away in the Bivings and Barden hospital at 4 o'clock yesterday afternoon, from injuries received in an automobile accident Sunday night. Christie received a fractured skull and other serious injuries. Mr. and Mrs. Christie and baby, and Bill Neal of Garden City, were driving on the Bankhead highway, east of Big Spring, when their car was struck by another automobile, said to have been driven by some Mexicans. The two cars crashed together at a high rate of speed, and the force of impact injured occupants of the Christie car. Mr. Christie being the most seriously injured.

Funeral services for Christie were conducted this morning at Garden City, Texas. The body was prepared for burial by the Eberley Undertaking Company. Rev. S. B. Hughes, pastor of the East Third Street Baptist church, conducted the services at the graveside in Garden City about 11 o'clock.

Mrs. Christie, who is seriously ill was unable to attend the funeral service. She has been in ill health some time, and was enroute to Temple for treatment in the Temple sanitarium when the accident happened, it is said.

Besides his wife, he is survived by a eighteen month old baby, and other near relatives.

Christie's home was formerly in Garden City. He has been living in Big Spring the past several months, where he had employment in a filling station.

Citizens Donate To Cemetery

Quite a number of liberal hearted citizens have donated to the Cemetery Association this week, and J. F. Wolcott, chairman, in behalf of the Cemetery Association, extends thanks to each one who has given money to this worthy organization. Without money the good work of the Association cannot go on. Every donation is gratefully received. If you have already paid your cemetery dues how about kicking in with a little bit more, if you have it to spare. It is through the support of the big-hearted citizens of Big Spring that the Cemetery Association has been able to keep the good work going.

Those making donations this week are: C. F. Bauer, \$25; J. H. Bristol, \$5; R. L. Cook, \$5; Rube Martin, \$5; F. R. King, \$5; E. O. Ellington, \$5; F. O. Kelley, \$5; Fox Stippling, \$10; Rev. R. L. Owen, \$5; James Little, \$5; L. J. Sullivan, \$5; Everley estate, \$5; J. L. Hendrix, \$5.

Dick Hartman Is Improving

Dick Hartman who was painfully injured in an automobile accident, on the Bankhead highway, seven miles west of Big Spring, Saturday night, receiving a fractured skull and other injuries, is reported to be getting along nicely. Hartman was thrown through the windshield of the car. Stanley Cosen who was with Hartman when the accident occurred escaped with only minor injuries.

Gas Explosion Causes Death Nine Officials

WILLIAMSON, W. Va., Nov. 28. (AP)—The president and general manager and the mine superintendent of the Glogora Coal Company of Huntington, W. Va., were found dead today, in a mine at Namber, Ky., twenty miles west of here. It is believed that the two mine officials were victims of a gas explosion.

January 19th Will Be Insurance Day

DALLAS, Texas, Nov. 28.—January 19 probably will be designated as Texas Insurance Day according to announcement by Harry D. St. John, president of the Texas Life Underwriters Association. It is likely that Governor Moody will issue a proclamation designating January 19th as Insurance Day of Thrift Week and that merited men in the larger cities of Texas will speak for various clubs on the question of life insurance during the entire week.

Carroll Building on East 3rd Street Is Now Complete

The new two-story brick business building of E. D. Carroll's in the 600 block on East Third Street is now complete, and occupied by several business concerns. The building is 25 by 84 feet and provides two business spaces on the first floor, and the upstairs is built into a modern hotel, with 11 bedrooms. Gates Auto Supply company and the Lydick Roofing company are located in the downstairs, the rear of the building being used for storage by the Lydick Roofing company. E. D. Carroll and W. R. Yates of Fort Worth compose the Gates Auto Supply Company, and they sell all kinds of auto accessories.

Mrs. Steve Canonico is matron of the Broadway Hotel, which is located in the upstairs of the building. It has eleven bedrooms and two bathrooms all modernly equipped and with every convenience. The hotel is gas heated and has running hot and cold water in every room.

Mr. Carroll supervised the building of this fine building and it is up to the mark in every way.

Big Spring P. O. Nears First Class Rating

Postmaster E. E. Fahrkamp informs us that the Big Spring post office is rapidly approaching the rating of a first class office. In fact, the receipts lack but \$500 of that goal right now, with all of December sales to be added. The sales so far have reached \$39,500 whereas the first class rating calls for an annual business of \$40,000. Its certain Big Springs will reach nearer \$50,000.

The sale of stamps, stamped envelopes and wrappers and box rentals are included in the receipts which are the basis of the rating. As box rentals—due to lack of space—amount to but \$1300 you can imagine the big business in stamps and stamped envelopes.

No Christmas Mail Delivery

Uncle Sam is going to make it possible for most every postal employee to eat Christmas dinner at home and has ordered mail clerks, etc., to take out from midnight Dec. 26th to Dec. 28th if at all possible. Only special delivery mail will be delivered on Christmas day. So you had better tell Santa Claus to get your Christmas mail here early.

Funeral Services For Unidentified Man Held This P. M.

Funeral services for the unknown man who passed away in the depot Saturday shortly before noon, were held this afternoon about 4:30 o'clock. Rev. W. G. Bailey, pastor of the First Methodist church, conducted the services and the body was laid to rest in the Mt. Olive cemetery. The body has been kept at the Eberley Undertaking Company for 72-hours, awaiting identification. Since no marks of identification were found on his body, no relatives could be reached.

Bridge Benefit Gay Climax To Festivities of the Week.

Climaxing the festivities of the past week, was the gay bridge benefit given at the Community Clubhouse Friday afternoon and evening, with the following matrons hostesses, Mrs. V. V. McGrew, Mrs. Victor Martin, Mrs. Richard Schleg, Mrs. V. H. Flewelling, Mrs. J. B. Young, and Mrs. M. W. Paulson.

The spacious auditorium of the Clubhouse was festive for this occasion, where twenty-four bridge tables, daintily appointed for the afternoon play were arranged in the attractive setting.

Bridge was the diversion of the afternoon, and interest was high in the play. The guests enjoyed five games of bridge.

At counting time, scores were added and the holders of top score at each table received a prize. The winners in the afternoon play were: Mesdames G. A. Kruckmeyer, Levy C. Moore, H. G. Dillon, J. R. Copeland, M. H. Bennett, John Clarke, O. E. Wolf, Ed Merrill, W. H. Martin, J. M. Fisher, Cline, Fahrenkamp, Schow, Eck, DeVries, Lang, Marks, W. B. Smith, Wills, Herbert Johnsons, Sydney House, Matheson, Everett. Mrs. Kruckmeyer made high score among the 24-tables of contestants and her prize was a pair of electric curling irons.

Friday evening, ten tables of players, contested in the interesting bridge games, and W. C. Taylor was successful in making high. He received a cake as a reward. Those winning high prize at each table were: Mrs. Fred Hopkins, Mrs. Fred Keating, Mrs. Tom Ashley, Mrs. C. E. Bivings, Mrs. B. Fisher, C. E. Barker, L. D. Davenport and Wayne Martin.

Dainty refreshments of sandwiches, waters and tea, were served by the hostesses.

This is the first of a series of bridge benefits that will be given in the Community Clubhouse for the purpose of raising funds for the Clubhouse.

Vernon Wolfe and Miss Roxie Harding.

The wedding ceremony which united in marriage Vernon H. Wolfe of Iran and Miss Roxie Harding of Vincent, was performed in the study of the First Christian church at 8:30 o'clock Saturday evening, November 24th by Claude Wingo, pastor. The happy couple will make their home in Iran, where the groom is in the employ of the California Company.

MRS. JOSEPHINE RUDDER HONOREE ON 80TH BIRTHDAY

Mrs. Josephine Rudder of Birmingham, Alabama, who is in the city visiting relatives and friends, was the honoree at an all day celebration yesterday, this being the anniversary of her 80th birthday.

At the noon hour, Mrs. Rudder was entertained at a dinner at the home of her son, Chas. Eberley on Barry street. A fine feast of chicken and other good eats was served to Mr. and Mrs. J. B. Harding, Mr. and Mrs. Bob Eberley, Mr. and Mrs. Chas. Eberley, Mrs. M. W. Welsen, Mrs. M. Chesnut, and Mrs. W. D. McDonald.

At 6:00 p.m., a six o'clock dinner was served at the home of Mr. and Mrs. Bob Eberley. Around a prettily decorated table the guests were seated. Centering the table was the big birthday cake, in pink and white, topped with 80 pink candles, burning, and with "80" written across the top of the cake with pink icing. The cake was cut and served with delicious ice cream, moulded in the form of pink rosebuds. Plate favors of rosebud cups, filled with mints were given each guest.

Those enjoying this party were: Mrs. Ida Mann, Mrs. Josephine Rudder, Mrs. Bell, Mr. and Mrs. T. S. Currie and Temp. Jr., Mr. and Mrs. J. C. Stephens, Mr. and Mrs. J. B. Harding, Mrs. W. D. McDonald, Mrs. M. Welsen, Mr. and Mrs. J. O. Tammitt, Mrs. Littler, Mrs. McDowell, Mrs. Chas. Eberley, Mrs. Gilluly, and Mr. and Mrs. Bob Eberley.

After the dinner party Mrs. Rudder opened many daintily wrapped packages, each one revealing some lovely gift from those present. Many more happy birthdays were the wishes to the honoree from her friends on this occasion.

Mrs. Rudder is one of the pioneer residents of Big Spring, and has many old time friends here who welcome her back to our city on this visit.

I-Deal Bridge Club Members Guests at Bridge Luncheon

One of the lovely club parties of the week, was the bridge luncheon given at the home of Mrs. Ashley Williams, yesterday, when she was hostess to the members of the I-Deal Bridge Club. Around four-one tables, each one handsomely laid for the luncheon, the guests were seated, and served a tempting menu, in two courses. The Thanksgiving motif was featured in the party details.

Bridge accessories were placed on the tables following the meal, and the guests found diversion in several interesting bridge games. In the play, high score honor among club members went to Mrs. Fred Phillips. Mrs. Victor Martin made visitors high score.

Barnwell Spivey.

Rev. H. L. Owen, pastor of the First Presbyterian Church, performed the ceremony which united in marriage, Robert L. Barnwell and Miss Nadine Spivey.

Proud Daddies

Montgomery & Ward Open Retail Store In Sweetwater

Sweetwater, Texas, Nov. 26. — From the time that the doors opened at 8 o'clock Saturday morning until they closed at 9 o'clock Saturday night, approximately 11,000 visited the new Montgomery-Ward retail store during its first day of business here. Officials of the company expressed themselves as being highly gratified with the result. One of the 11,000 customers a lady from Rotan, told members of the company that she had been trading with Montgomery-Ward for 46 years.

Many persons were interested in the style shows held Thursday and Friday nights at the Harley Sadler show and the one Saturday night when models exhibited their models in the windows of Montgomery-Ward and Co.

Among the officials who were here for the opening of the new store here were J. E. Pettus, district superintendent; H. B. Stevens, territorial manager; John Mitchell, manager of the Temple store; R. T. Flewelling, assistant manager of the Temple store; H. W. Jay, manager of the Austin store. The windows were trimmed and the style show conducted by J. W. Forbes and his assistant, T. F. Hubbell, of Chicago. The manager of the Sweetwater store is C. M. Richter and his assistant manager, E. H. Manley.

Did You Ever Stop to Think

By Edson R. Waite Shawnee, Okla.

H. M. Timbrell, editor of the New Britain (Conn.) Record, says:

That the best way to advertise your town or city is to have the residents first sold and then go out and do the selling to others. No person can sell anything on which they are not first sold themselves.

A community that is good enough to live in is good enough to go out and tell others about. If you are not sold on the town or city in which you are living, move away and your absence will never be felt. A booster always helps to make a better town, but a knocker always drives people away. There is room in every place for boosters, but nobody wants a knocker who never has a constructive criticism.

It should be the endeavor of every person to make their own community a better place in which to live. Do your part to bring about a better community spirit and others will soon help you out. The world loves a booster, but hates a knocker.

Any town or city is just as good as the people who make up its population.

We have had just a little bit of every kind of weather the past two days—except the kind of weather we like best.

Converts Waste Into Wealth

Apricot pits were considered waste until Sewell S. Brown of San Jose, Calif., got hold of them. Now, by means of a special cracking and crushing process, he sells the oil from the pits and the remaining paste to cosmetic shops and bakers in Europe. The oil is used for cosmetics and some confections, while the paste makes a good substitute almond paste for cakes and candies. Brown is shown here in the laboratory connected with his factory.

The Garden Club Convention in Dallas

The first Garden Club convention to be held in Texas, met at the Woman's Club in Dallas, on November 10th, at the call of the Garden Club of Dallas, to form a state-wide body of people interested in Home Gardens and the beauty and welfare of city and state. The Texas Federation of Garden Clubs became a reality, and the Lone Star state was the sixteenth state to form a Garden Club Federation.

There were a number of delegates from that part of Texas and the convention was featured by a fall flower show and a luncheon with out-of-town guests, as honorees of the Dallas Garden Club.

The basket flower show received the immediate attention, and this was an object lesson in the artistic arrangement of flowers in baskets. There were artistic arrangement of roses in baskets, artistic arrangement of various flowers in baskets, artistic color combinations in baskets, specimens chrysantheums in baskets, artistic arrangement of winter bouquets in baskets with various wild flowers, grasses, autumn leaves, vines, and berries. All the flowers entered for prizes were grown in the members own gardens, except the club president, Mrs. Scroggs, and out-of-town delegates were called upon to tell something about their club.

Big Spring was called first and it was graciously said: "we enjoyed your report and your patriotism in coming so far to a garden club meeting." Next Austin was called, and the delegate, Mrs. Keiner, stated that Austin was called the "crape Myrtle" city, and everyone belonged to the Garden Club there, all the men, women and children, and Mexicans and negroes as well.

Prizes were given to the school children to secure the members and to get everybody to plant an ever green and package of flower seed. There was a community rose garden and a Sennia flower show, and everyone, negroes and Mexicans included, brought their finest pensils for this. There is a special water rate in Austin.

One delegate reported on wild flowers. She said that she used what she could get for her garden, and she had 500 plants growing, and 97 named varieties in bloom at the same time. She said, knowing the names of flowers, and calling them by their names would stimulate interest in flowers. The "Home and Garden" was adopted as the official magazine for all the Garden Clubs. It is published in Fort Worth the first of each month, and the price is 25c per year to Garden Clubs. It is

A Silent Airplane

Among the new types of airplanes developed in Europe is a noiseless craft which completely overcomes the troublesome roar of the motors. An ingenious silencer is attached to the motor and placed on one of the wings to draw off exhaust gases, using them to create a near vacuum in which all noise is practically deadened.

A Falls County farm was recently rid of pocket gophers by use of gopher traps and poison in a demonstration conducted by the county agent. Thirteen gophers were caught in one's hours time with thirteen traps, following which more than 100 poison baits were placed in the gopher runs over the farm. The rodents are said to have completely vanished.

designed to carry all news and announcements, garden information, painting schedules and plans and records for civic work.

After the morning business meeting, another visit was made to the flower show, and the luncheon served in one end of the same hall. Covers were laid for sixty. The tables were artistically decorated with banks of cut flowers, vines with berries, and gold tapers in bra. The luncheon was delectable. The Big Spring delegate was seated at the center table between two vivacious members of the Dallas club, and the conversation was about flowers seen in California. There were several witty and appropriate addresses. One speaker said that she had written four pages and memorized it to tell the "Advantages of Club Federation," but when she came she found they had already federated, and she had to change her subject. Mrs. Blackburn made a sweet talk on "The Relation of Flowers and Music." She said that she had always been glad to sing, but to talk at meetings, but she proved to be a sweet talker as well as a sweet singer.

Every guest received a year book of the Dallas Garden Club. After the luncheon a business meeting was called again, and the organization was completed. It was decided to have the convention of the Texas Federation of Garden Clubs in the spring. The dues were fixed at \$5.00 per year, to be paid in March. An effort will be made to get everybody to join the Garden Club in Big Spring. The next regular meeting of the Home Garden Club will be held on December 11th, and it is hoped that many will come to that meeting and subscribe for the Home and Garden Magazine.

—Reported.

HITHER & YON

BY The Wandering Minstrel.

The opinions and comments in this column are those of our contributor and do not in any way reflect the editorial views of this paper.

A page from the diary of a Big Spring Popsy—Up betimes and to the Masters Coffee Room, but disappointed to find the doors closed. Bystanders did tell me of a disagreement with the serving men and maids, the which did grieve me. Did call upon various merchants of my knowing and immensely diverted with a merry tale told me by McCall of a Scot who had three close friends, who were Jews. The thoughts of such a quaint union of interest did divert me so that I laughed like any zany for some time thereafter.

In the evening around the various shops and in the bazaar devoted to the fine apparel for our women folk, was again moved to much merry laughter over the plight of the young housewife, who did cast forth two chickens, which she had for her lord's dinner table, because she was told by the serving maids of worms being found inside the hen, and how her gorge revolted so that she would not allow such birds upon her table.

Moving around town the way that the wandering Minstrel does is an education in itself. One meets so many people of vastly diversified tastes and differing points of view; and without argument, one gains a reliable cross section of public opinion.

There is still much dilly dally expressed over the ultimate fate of Texas since she has gone Republican. Will she look for plums from the G. O. P. or will she have to wait until the Democrats come back.

I heard one man say that the Prohibition question had been settled by his last vote. I wish I could agree with the gentleman, but I cannot see where anything has been settled.

If all the Hooverites voted Dry and all the Brown Derbies voted Wet, then sixteen millions want this country Wet, and that's enough to prevent the Prohibition law ever being completely enforced.

Here's some doggerel, apropos of absolutely nothing at all. "Old Wood gave me this wood And asked me to carry this wood through the wood. He said he would give some wood, if I would, And if Wood said Wood would, Wood would."

A correspondent writes the Wandering Minstrel, asking for the correct rendition of the song of the Police Sergeant in "Pirates of Penzance." She says that the request is inspired by the trials, troubles and tribulations, which she has observed, follow the lives of policemen. Well, here's what we have from memory:

"When the enterprising burglar, ain't a-burgling, And the cut-throat isn't occupied in crime, They love to hear the little brook a-gurgling And listen to the merry village chime; When the coster's finished jumping on his mother, He loves to lie a-basking in the sun, Or Take one consideration with another, A Policeman's lot is not a happy one."

I can imagine lots of "lots" that are not happy ones, for instance, being manager of a gas company when the weather is cold in Big Spring.

The Society Editors says she wants to hear the Scotch jokes that

Mrs. Faw Wins Tie in State Play Contest

Texas Will Have Two Entries in the National Event, Big Spring Woman Wins

Mrs. Alice Gould Faw, Amarillo writer now living in Big Spring, has received notice from Carl Glick, director of The Little Theater, San Antonio, that her one-act play, "The Penitent" has tied for first place in the finals of a state contest. The event was arranged by the Drama League of America and Longmats, Green, publishers.

Being unable to decide the winner of the state prize the judges submitted the two plays as representatives of Texas to the Drama League of America for entrance in the national contest.

Mrs. Faw has written a novel which critics anticipate will be published in the near future. While here she was an active member of the Pashandle Pen Women and a member of a short story club which meets weekly.

She first won wide attention in this section by a feature article on The Penitents of New Mexico which appeared in The Sunday News-Globe.

Her play which tied for first place in the state contest won first place in a Little Theater play contest here last winter, being accorded high praise by a nationally known critic. — Amarillo News-Globe.

Mrs. Faw is the wife of H. S. Faw, manager of the Faw Lumber Company in this city.

NOTES FROM SALEM

Rev. Walter Smith of Big Spring filled his regular appointment at Salem the fourth Sunday.

Mr. and Mrs. Nies, Wilkerson and family visited with relatives near Coahoma Sunday.

Claud and Cecil Miller returned from a business trip to Dallas last Thursday.

Misses Mary Louise and Mildred Robinson spent Sunday with their grandparents, Mr. and Mrs. W. H. Robinson.

Reese Ortega and Mattie Buchanan and Bertha Miller visited the school Friday afternoon.

Little Winnie Dell Robinson is able to be in school after a few days absence with the earache.

Mr. and Mrs. Allen Rogers of Coahoma visited relatives and attended church at this place last Sunday.

It is reported that Mr. and Mrs. Jim Robinson are to begin the erection of their new home in the near future.

We are glad to note that Bud Walker and children who have been ill are convalescing rapidly.

Mrs. W. C. Rogers was among the invited Eastern Star guests who witnessed the beautiful work put on by the Order of Rainbow Girls in Big Spring last Tuesday night. Delightful refreshments were enjoyed by those present.

Mr. and Mrs. Floyd Hill and son Beauford and Miss Leona Hill spent the week end visiting relatives near Stanton.

Mr. and Mrs. Harold Webb and family of Stanton spent the week end visiting Mr. and Mrs. W. N. Coates.

Mr. and Mrs. J. Tom Rogers and daughter Wynell of Fairview visited with relatives and attended church here Sunday.

We are glad to see the sunshine once more.

There will be a box supper at R-Bar school house Friday night. Everybody invited to come. A short program will be rendered, also.

was referred to, so this is it:

A certain Jew had three Scotch friends and invited them to the celebration of his Golden Wedding, when, as is the quaint custom in Palestine, all three had to bring gifts of gold. The first one arrived, bearing a loaf of "gold fish." The second came with a package of "Gold Dust" while the third arrived, bringing with him his friend "Goldberg." Now, Laugh, Dum Ye.

And talking of Scotch jokes have you heard the one about the Scot who went and found his wife dead in bed and then went and told the cook, "just boil me egg for breakfast this morning."

A report came into this office the other day that a printer had been "blacked" and rubbed of FIFTY-SEVEN cents. It sounded all right until the Sporting Editor, rough, gruff, burly soul said, "Who ever heard of a printer having 15 cents at one time?" Of course the improbability thus being apparent, the story was "killed."

You wouldn't know the old print shop these days, since all the alterations have been made. The only thing we miss now is the cobble pipe and the "Office" lower that was a fixture in every well regulated print shop in the olden days. It was more than a fixture, it was an institution, changed every time Texas changed.

New Faces for Cleveland

That the rich owners of the Cleveland Indians are willing to be seen in that club's recent purchase of Earl Averill and minor league outfielders, at a total sum of approximately \$100,000, while Porter came up from Baltimore for \$10,000 and both were outstanding players of their respective leagues, are expected to play regularly for the Indians next season.

SOASH NOTES

We have an excellent Sunday school that continues to increase in attendance. We are proud of our singing class which meets every Sunday night. Mr. Williams is our efficient leader. He is very successful in training the young people. Quite a number of visitors from other communities attended our singing Sunday night.

Our school under the supervision of Miss Hamilton and Miss Reed opened Monday with a good attendance. There is still some cotton to be gathered, but we hope soon to have a perfect attendance.

Miss Gladis Palmer and Virgil Lowe surprised their friends by getting married recently. Miss Gladis is the daughter of Mr. and Mrs. C. T. Palmer. She is a charming girl who is loved by all who know her. Mr. Lowe is a successful farmer and business man of the community and one who stands high in the esteem of his many friends. May theirs be a prosperous voyage thru life.

Reese Adams and Mr. Tuba visited Knott Sunday.

Mr. Bollinger and family are enjoying a new Ford car.

Mr. Palmer purchased a new Whippet car while in Big Spring this week.

Saturday night the young people attended a party at Mrs. Mahan's. We always enjoy visiting in this home, because Mrs. Mahan is a great worker in our Sunday school and singing, and a fine hostess who never fails to make you welcome.

There will be a box supper and short play entitled "Jumbo Jim" at Sonch Friday night, Dec. 7 for the purpose of lengthening the school term. Come and bring a box and help in a good cause. No admission.

Subscriber.

The man who can tell just how fast Big Spring is going to grow during 1928 can make a young fortune in Big Spring real estate. It's a mighty good bet even if the next years growth does not equal that of 1927.

An ounce of sense will disguise a pound of ignorance.

Coming to BIG SPRING

Dr. Mellenthin SPECIALIST in Internal Medicine for the past fifteen years

DOES NOT OPERATE

Will be at CRAWFORD HOTEL FRIDAY, DECEMBER 9 Office Hours: 10 a. m. to 4 p. m.

ONE DAY ONLY No Charge for Consultation

Dr. Mellenthin is a regular graduate in medicine and surgery and is licensed by the State of Texas. He does not operate for chronic appendicitis, gall stones, ulcers of stomach, tonsils or adenoids.

He has to his credit wonderful results in diseases of the stomach, liver, bowels, blood, skin, nervous heart, kidney, bladder, and setting catarrh, weak lungs, tuberculosis, rheumatism, leg ulcers and neural attacks.

Below are the names of a few of his many satisfied patients in Texas who have been benefited by one of his above named cures: Mrs. Edna Mason, Grapeland; Mrs. Tom Dalton, Chicksville; W. A. Deagan, Grayson; Ernest Conner, Coahoma; Alfred Eckard, Kenedau; A. A. Kramer, Yachon; Mrs. J. D. McCullough, Colorado; E. O'neal, Holly.

Mrs. Maud Hildreth, Cal Springs Remember above date, that consultation on this trip will be free and that his treatment is different. Married women must be accompanied by their husbands. Address: 201 Broadway Hotel

Ready for Greater

Preparing the program for the great city is the task in which when the big boom comes we will find our city ready to bits and force to have made no date and this is the will win out.

Mr. and Mrs. C. Pecos took home former's parents, Adolph Miller, and friends in home of Saturday, Nov. 10. Sent were Mr. and Mrs. Jones Lamar and son, R. H. J. Jones Lamar and son, R. F. Harris.

BANKERS BUY OF FRANK

Announcing -

The Outstanding Chevrolet of Chevrolet History

- a Six in the price range of the four!

The Chevrolet Motor Company announces The Outstanding Chevrolet of Chevrolet History... a Six in the price range of the four!

Spectacular as Chevrolet's achievements have been in the past... notable as its engineering triumphs have proved themselves to be—this remarkable new car dwarfs every previous Chevrolet accomplishment. Not only does it introduce into the low-priced field an entirely new measure of performance, comfort, beauty and style—but it is sold at prices so low as to alter every previous conception of motor car value.

The new six-cylinder valve-in-head engine—developed from more than a hundred motors designed especially for this sensational car—stands out as an engineering masterpiece. With a power increase of approximately 32% over the previous Chevrolet motor, with sensationally greater speed, and faster acceleration—it offers a type of performance that is literally astounding... even to those who have been driving cars costing hundreds of dollars more.

Throughout the entire speed range, it performs with a smoothness and quietness of operation that have never before been approached in a low-priced automobile. At the slower speeds of city traffic it idles along with wonderful silence and ease. On boulevards and country roads it responds with an eagerness that is a constant delight. It takes the longest and steepest hills with an abundant reserve of power that is a source of pride to the driver. And its economy of operation

averages better than 20 miles to the gallon of gasoline!

This revolutionary performance has been achieved as a result of the greatest array of engineering advancements that Chevrolet has ever announced. A high compression, non-detonating cylinder head... a new heavier crankshaft, statically and dynamically balanced... automatic lubrication of the entire rocker arm mechanism... semi-automatic spark control... hot-spot manifold... gasoline pump and filter... new and larger carburetor, with automatic acceleration pump and improved venturi choke... fabric camshaft gear... heavier driving gears... heavier differential gears... improved crankcase breathing system... improved lubrication... new 4-wheel brakes that are powerful, safe and quiet under all conditions—these indicate the importance of a group of engineering advancements that embrace every major unit of the entire chassis.

In appearance, this Outstanding Chevrolet is destined to become an automotive sensation—so smart, so stylish and so distinctively appointed that it rivals the costliest custom creations. The new Fisher bodies are longer, lower and roomier with an adjustable driver's seat in all closed models—and reveal the matchless artistry of Fisher designers. With their modish new colors, their smart dual mouldings and their distinctive concave pillars, they achieve a degree of original beauty that has seldom been equalled in motor car design.

You are cordially invited to visit our showroom and secure complete and detailed information on this sensational new car which will be ready for delivery beginning January 1st.

The Roadster... \$525	The Convertible Landau... \$725
The Phaeton... \$525	Light Delivery Chassis... \$400

QUALITY AT LOW COST

Weekly News Letter

J. C. Anderson, M. D., State Health Officer.

Mother Goose Revised. Hear! Hear! The germs are near; Pneumonia taints the breeze. It enters and grows In the mouth and nose, And spreads through cough and sneeze.

Are you ready for winter and cold weather? Is your body well-toned, are your heart, nerves, kidneys, digestive system, lungs and other essential organs of the body in proper condition to combat the signs of chill winds and frigid atmosphere?

Stay in condition and enjoy the cold weather. Winter infections can make slow headway into the healthy human system.

Cold Weather Invites Disease. The climate of Texas is such that fully nine months of the year one has the privilege of enjoying an abundance of fresh air and sunshine.

It is truly the season of the "ingathering," and with this thought we are led far back through the mists of years as we read from the Bible of the autumn feasts of ancient days; there were harvests of corn, oil, and wine, and the people were called to celebrate the day as a holy day, and carefully instructed as to how they should spend the day.

The prevention of dust is also important because dust, by irritating the mucous membranes, renders them especially susceptible to infections such as colds, bronchitis, etc.

At the approach of winter windows are closed down to keep out the cold and the proper ventilation is not maintained, with the result that the resistance of the body is lowered and persons living under these conditions become susceptible to infection.

At the approach of winter windows are closed down to keep out the cold and the proper ventilation is not maintained, with the result that the resistance of the body is lowered and persons living under these conditions become susceptible to infection.

Be sure to have gas heaters in good working order and see that there is some source of ventilation, for if there is any carbon monoxide present it is injurious if inhaled, even in small quantities.

The best temperature to maintain in homes, offices and shops is 68 degrees F. A great deal of harm is done by maintaining higher temperatures, especially if the moist content of the air is not kept up to about 40 percent which is, roughly, equal to the evaporation of 2 gallons of water every day in an ordinary sized room.

If you will follow these suggestions, as to sunshine, ventilation, dust, heating and moisture in your homes and offices, and as to care of the body, examination, elimination, clothing and exercise, you will find it possible to live through the winter without suffering the usual infections, colds, bronchitis, grippe, pneumonia, and other respiratory diseases which are so common during the cold months of the year.

Let the Pills Be Few and Far Between. Do you think it preferable to walk out in the fine fresh air, to eat plenty of nourishing food and form health habits, than always to be relying upon medicine to purge the system of accumulations and bile?

A constipative who turns from one laxative to another is eventually caught in the vicious circle of forced emulmination—bowel fatigue with consequent renewed strain, more cathartics more strain, until he becomes a confirmed "addict," unable to secure normal evacuations without artificial stimulation.

If one has acquired the bad habit of living on pills or has a "pot cathartic," determined effort should be made to overcome such habit and to revive every functional activity of the digestive system.

Four miles a day is what a normally healthy person should walk—no tonic excels fresh air and sunshine.

Some Well Known Enemies of Children. 1. Doctors who don't report their cases of contagious diseases and the births they attend. 2. Dirty milkmen. 3. Flies. 4. School teachers who persist in keeping the schoolroom windows closed. 5. Tuberculous cows. 6. Parents who expose their children to contagious disease. 7. Fanatics opposing school inspection. 8. Violators of quarantine. 9. Dirty parents in dirty homes. 10. Manufacturers of adulterated foods.

Thanksgiving, the Feast of the Ingathering

Again the joyful season of Thanksgiving is with us, when we look forward to the gathering together of loved ones with whom to spend the day in joyful thanksgiving and a happy reunion.

November autumnal month for balancing accounts with Nature, comes with sudden clouds, treacherous sunny days, falling leaves, and withered flowers, claims this golden day and though it may be dark and dreary without, within is sunshine, if we are really grateful for the precious gifts from the Giver of all good, for life, peace, plenty, and true hearts of loving friends.

We have had the early and the later rains, the vivifying sunshines, the busy farmer working hand and heart with Mother Nature; our fields, orchards, and gardens are overflowing with golden grains, luscious fruits, and a bounteous supply of good of all kinds, for the sustenance of man and beast Nature rests from her labors as we rejoice and make glad.

It is truly the season of the "ingathering," and with this thought we are led far back through the mists of years as we read from the Bible of the autumn feasts of ancient days; there were harvests of corn, oil, and wine, and the people were called to celebrate the day as a holy day, and carefully instructed as to how they should spend the day.

The priest called upon the scribe to bring before the people the book of the law of Moses and read to them that they might understand the duties and privileges of the day. As he read the people stood up and answered, "Amen and amen," lifting their hands and bowing their heads, worshipping Jehovah.

Then the governor said to all the people, "This day is holy unto Jehovah, your God; mourn not, weep not, go your way, eat of the fat, drink of the sweet as I send portions unto those for whom nothing is prepared, for this day is holy unto the Lord." And all the people went their way to eat and to drink and to send portions and to make great mirth, because they had understood the words that were declared unto them.—Farm & Ranch.

Million Dollars Worth of Oil. Sweetwater, Texas, Nov. 27.—Since September 26, 1926, according to report, approximately one million dollars worth of crude oil, or to be exact, 944,551 barrels, has been produced from the Noodle Creek pool, which was discovered Sept. 6, 1926 by Phillips Petroleum Company's No. 1 Joe Winter in the southwestern corner of Jones County.

Of 33 wells drilled, 28 have been producers with only five dry holes. Total of proven acreage is now 270 acres. The average oil recovery per acre to October 16, 1926 was 3499 barrels. Production of all except two of the wells average 40 degrees gravity.

The figures in this report do not include the big production of oil from the two fields, the Tiner and the Shaheen-Bickley pools, from two to four miles north of Noodle Creek. The production of the Shaheen-Bickley pool now exceeds the combined output of the Noodle Creek and Tiner areas.

Drilling Below 1800 Feet. The Phillips Petroleum Co. test well on section 13, block 23, township 1, north, is now drilling below the 1800 foot mark.

Receptive Mood. Club Member—I say, old man, a fellow I know is charged with stealing whisky. Will you take the case? Barrister (absently)—Rather! Send it around to my office!—Ex.

RICE BORDER WITH MEATS. Hot boiled rice, 2 tablespoons of butter, 2 tablespoons of flour, juice of lemon if desired. Press the rice into buttered cups to half full; let cool. Slip from the cups and pour over it the sauce made as follows: Rub together butter and the flour; melt in a saucepan without burning. Add this by degrees to the gravy from the meat and let boil three minutes. Add the juice of lemon if desired. Pour the sauce over the rice border and serve.

RICE DAISY SALAD. Place lettuce leaf in a salad plate. Put a tablespoon of raisins (washed and drained) in center and a roll of cold boiled rice around the raisins about one and a half inches wide. Cut hard boiled eggs in oblong strips and place at intervals around the lettuce touching the rice to form daisy petals. Serve with a mild French dressing, using lemon instead of vinegar.

RICE MUFFINS WITH EGGS. Two cups of cold boiled rice, 1-2 pint of milk, 1 tablespoon of melted butter, yolks of 3 eggs, 1 pint flour, 1 tablespoon of sugar, 1-3 teaspoon of salt, 1-2 teaspoons of baking powder and the whites of 3 eggs. Dilute the rice, stirred free from lumps with the milk, melted butter and yolks. Sift together the flour, sugar, salt and baking powder. Add to the rice preparation and mix into a smooth, firm batter. Fold the beaten whites of the eggs carefully in, and bake in muffin pans fifteen minutes.

Time To Settle. Customer—I've brought that last pair of trousers back to be re-seated. You know I sit a lot. Tailor—Yes and I hope you've brought the bill to be receipted, too. You know I've stood a lot.—Right Way Magazine.

Hot Dishes for Cold Weather

(By Betty Barclay)

No one wants to be too fat but we should have a little layer of fatty tissue scattered here and there over our bodies if we expect to stand the cold weather months without unsightly shivering.

This means we need more or heavier food during cold weather. As a matter of fact, we can eat considerably more food in winter than in summer without gaining a single pound—for the body engines extra fuel to take care of the additional exercise or exertion that most of us enjoy when the weather is cool and bracing.

In summer we take our exercise in the family car or by stretching out on the beach or mountain. When cool weather comes, we begin to take exercise that brings muscles into play and starts the body engine at a higher rate of speed.

More and heavier food does not mean that we must eat heavy foods only. We must still balance the meats and breadstuffs with plenty of milk, vegetables and fruit. . . . but we may go ahead and enjoy a little bit more of everything.

The Englishman will probably eat larger portions of his famous roast beef. The Esquimaux will depend largely upon fish. Other nations will increase their consumption of rice. . . . and right here is an interesting food pointer that we in North America may well consider.

Rice is the principal article of diet for two-thirds of the earth's population, and where it is used regularly dyspepsia and other forms of indigestion are rarely known—and yet the per capita consumption of rice in North America is ridiculously small.

"Ridiculously" is the proper word, at that. Rice is one of the most easily digested of foods. It can be assimilated by the digestive organs in one hour, while wheat-bread, potatoes, milk and meats take from two to over three hours. It has over 86 per cent of nutritive matter, while wheat, lean beef and potatoes range around eighty-three per cent, twenty-seven per cent and twenty-three per cent. It is a very economical food, contains very little water, has practically no waste, and may be used in conjunction with many of our best alkaline balancing foods. . . . and yet for some reason or other millions of people think of rice today in the terms of the rice pudding served by restaurants rather than in the terms of a food that may be served in hundreds of tasty forms. Is not this "ridiculous"?

There is a great deal of misunderstanding in regard to coated and uncoated rice, sometimes wrongly called polished and unpolished. The only difference is that the coated rice has received a harmless application of glucose and talc, which comes off very easily when the rice is washed. This is applied to preserve the product.

It is true that whole or brown rice contains elements not found in white rice, as in the case of whole wheat flour and white flour. But brown rice will not keep. It soon becomes rancid. Moreover, the alleged loss of vitamins and mineral salts is easily supplied in more concentrated form in other foods found on every table—milk, green vegetables, etc. These elements are said to be found in potato skins also, but few of us clamor for a portion of potato skin when enjoying a nice dish of mashed potatoes or French fries.

So add fuel to your body fires through the medium of rice and the foods that blend so well with it. Here are a few recipes that may give you new and novel ideas regarding the serving of this nutritive food:

CHARGES OF ASSAULT PLACED AGAINST RESIGNED OFFICERS. San Angelo, Nov. 27.—Charges of assault with intent to murder were filed here today against D. H. Connel, and D. W. Hightower, resigned police officers, in connection with the wounding of S. L. Ogle, Jr., who is now recovering from a bullet wound in his lower right jaw.

AN INVESTIGATION INTO THE shooting conducted last week, which occurred as Ogle and two companions were riding shortly after midnight and one of five reported shots fired from a parked car, took effect in Ogle's right shoulder and lodged in his jaw.

HIGHTOWER and Connel resigned Saturday after again denying any connection with the shooting. Both are under \$1,000 bond signed by W. D. Holcombe, mayor of San Angelo; E. E. Lowrie and W. D. Wright, commissioners.

SAN ANGELO MAY HAVE FISH HATCHERY. San Angelo, Nov. 27.—If the site tendered the state is fully developed San Angelo will have the largest fish hatchery in Texas this coming year. It was revealed when Wm. J. Tucker, state game, fish, and oyster commissioner assured Claude C. Wild, manager of the Board of City Development, that construction will begin near January 15.

THERE WAS 40 acres lying along the banks of the Concho river, just south of the city, deeded to the state for a fish hatchery site, of which 25 acres is suitable for ponds. The other seven acres lies above the river bed and will likely be used for construction of houses.

THE LAND WAS SECURED by the local division of the Board of City Development through the efforts of its chairman, Wm. J. Tucker, and the Utilities Company.

"Inside" Information

Combinations of different vegetables lend variety to the daily bill of fare. The classic example of a vegetable mixture is of course succotash—corn and lima beans, corn with tomatoes; corn with tomatoes and string beans; corn with tomatoes and okra, are all excellent combinations and may be made of either fresh or canned vegetables.

Peas blend well with deiced cooked carrots or chopped cooked celery. Equal parts of celery and white turnip cooked together make a palatable combination. Rutabaga turnips boiled with white potatoes and then mashed are liked by many people. Cooked cabbage and white potatoes fried together was an old-fashioned dish which used to be popular as "bubble and squeak." Combinations of various greens give good results. To spinach and chard may be added sorrel, mustard, kale, parsley, cress, or dandelion, according to what is available. Sliced boiled sweet potatoes baked in layers with apples, and carrots combined with apples, offer two flavors new to many people.

WHERE RATS ARE troublesome, set out a cafeteria meal of small portions of different kinds of food—meats, vegetables or fruits, and cereals, each poisoned with powdered barium carbonate, which is odorless and tasteless. The poison should be thoroughly mixed and worked into soft baits in the proportion of one part of the mineral to four parts of the selected food. Add water when necessary to make the baits moist. Sift the powder over sliced baits and rub it into them. The slices should be thin and should be moistened if necessary. Expose a teaspoonful or its equivalent of each of the three or more kinds of baits, in places frequented, by rats. They may be placed on strips of paper or on boards, or in paper bags. Uneaten baits should be picked up the next morning and destroyed, and a new set, using different materials, should be prepared. Some of the materials rats will take are: Hamburg steak, sausage, fish, liver, bacon, or cheese; thin slices of muskmelon, apple, tomato or cucumber, canned corn, squash or pumpkin seed, mashed bananas, boiled carrot, or baked sweet potato; rolled oats, bread, corn meal, flour, or cake. Kitchen scraps and garbage can be worked into the ration. Baits should be fresh and of good quality. While barium carbonate is a relatively mild poison, it should be kept out of reach of children and irresponsible persons, and from domestic animals and fowls.

Building Permits In Angelo Climb. San Angelo, Nov. 27.—Building permits for 1926 stood at \$4,216, 293 at the end of last week during which \$75,000 in new permits was granted from the city inspector's office.

APPLICATIONS for plumbing, heating and elevator installation in the Ray & Willick hotel, a four story structure amounted to \$48,000.

THREE GARAGE buildings, the Hilton Hotel and another smaller hotel were nearing completion while the plans are now being prepared for the McBurnett six story office building, the Baker-Hemp-hill five story department store building and another creamery.

Baylor Co-Eds Oppose Smoking Among Women. "Should women smoke?" is a question that has been answered at Baylor University by 45 women—sixteen seniors, nine juniors, eight sophomores, and twelve freshmen. Of the 45 in number, ten actually voted for smoking, five were indifferent, while thirty voted outright against smoking.

Out of 55 men questioned on the above, 11 voted for women smoking, eight were indifferent, and 44 strongly opposed women using tobacco in any form or fashion.

This survey was made by two sociology students, Ruth Williams of Waco, and Drebbon Williams of Gilmer, Texas.

If this survey had been made 20 years ago, moral reasons, no doubt, would have been foremost, but not so today.

A large majority of the 66 men and women voting against smoking. One senior girl said, "I do not smoke because there is nothing to be gained from it. No doubt it would injure my health. The girls of today are to be the mothers of tomorrow, and the health of the future generation would be injured also."

Not a single football player who was questioned, favored women smoking. One senior man said, "I would not reduce to writing what I think about women smoking."

The whole trend of thought gleaned from the questionnaires resolves down to common sense ideas which were more of the practical type. They had real reasons against smoking such as an economic waste of money, an injury to health, a decline of character, and a lowering of one's mental aptitude.

GEORGIA BANK CLOSED. Macon, Ga., Nov. 26.—The Fourth National Bank of Macon, one of the largest financial institutions in central Georgia, closed its doors today after a two-hour run of withdrawals. Leon E. Dure, said the bank's board of directors at a special meeting had decided to close the doors and take steps toward reorganization of the institution.

The bank, organized more than 20 years ago, had a capital stock of \$200,000, deposits of approximately \$9,000,000, and reserves of more than \$1,000,000. Its deposits at the time of the withdrawal were \$1,000,000.

Officers declined to comment on the cause of the run, which began soon after the opening hour. At one time about 2,000 persons, including depositors, stood in the vicinity of the bank.

City and county squads were called as a precautionary measure, but the run proceeded in an orderly manner.

Hunters Return With Deer in Spite of Rain. E. H. Jossy, Boy Scout, Elmo Hillmark returned last night from a hunting trip in the southern part of the state, and report successful weather while they were out.

This bunch of deer, back a \$ point buck, and a big tom.

Did You Ever Stop to Think

By Edson R. Waite Shawnee, Okla.

John D. Cook, editor of the Bucyrus (Ohio) Telegraph-Forum, says: That the average newspaper publisher and editor are hard pressed to understand just why the average layman thinks he knows more about running a newspaper than the men and women who have devoted long years of endless days trying to learn something about themselves by actually running one; fighting the clock all day; making decisions and preparing copy in a hurry because deadlines are fixed and can't be changed.

Why is it that the outsider thinks the news game is such a snap and the hardest job an editor has is to fill his paper; that he will be tickled to death to publish "a good joke" on some friend or fill his paper with thinly disguised free advertising to boost this, that, or the other thing but always some other fellow's business?

A newspaper is primarily a medium to keep the public informed on last minute events transpiring, first at home, then the state, the nation, and the world if you have room, and not the least of its missions is to aid business, those who have things to sell and the consumer, those who want to buy, to get together for their greatest mutual benefit. This job is a business all its own so distinctly different from any other business that it may be born, that "good newspaper men are true, not made" and at the same time is so intimately interwoven with other business and the public at large that those outside the profession may perhaps be excused for thinking it is their business too and wanting to run it.

If I walked into a merchant's store or a manufacturer's plant and asked him to give me a suit of clothes or an automobile "to boost the town and local business" he would declare me crazy, but it too frequently happens that the merchant or the manufacturer walks into the editor's office with a request for his valuable white space for purely personal or business reasons and thinks he ought to get it, if for no other reason that a belief that the editor needs something to fill his paper.

Ye Gods! If the editor just had the money that goes into the preparation and postage on stuff he can't use and wouldn't if he could, he could buy out the biggest business enterprise in the country and afford to pay for all of his advertising. Newspapers are not trying to run other people's business; they are trying to help every other fellow by letting him know what's going on in the world and to get his share of prosperity and contentment out of what he reads there.

Basketball Tournament In Snyder. SNYDER, Texas, Nov. 26.—Plans are rapidly being completed for the coming here February 14, 15 and 16 of the West Texas Girls High School A. A. U. Basketball Tournament in which more than forty high school teams will compete. The Searcy County Chamber of Commerce and the Ions Club are sponsoring the three days play. E. H. Schulze, Dallas, Southern Commissioner of the A. A. U., was in Snyder this week completing the preliminary plans and expressed satisfaction over the fine court here as well as the large building at Wolf Park that will house the tournament.

Six huge loving cups of solid gold and silver, one of which is the actual size of a basketball made of gold is the leading prize; while a silver ball same size is second prize. The other four cups, wait in height go to other winners.

The completion here and dedication of the new 10,000 athletic stadium for Snyder High School has paved the way for the agitation of a new brick gymnasium to be erected at the southern limits of the high school campus. The new field which will be named the Tiger Stadium is said to be the finest and most modern athletic field in West Texas, not barring the larger colleges in comparison. At the dedication last Friday, the usual custom of the home team losing the first game was followed with Stamford High defeating Snyder 7 to 6 in one of the most bitterly contested battles ever held here.

100 Babies Wanted. The Federation Baby Show, Dec. 8th, at the Clubhouse, from 3 to 4 p. m., the main attraction of the afternoon. 100 Howard county babies wanted. All babies entering contest will receive a beautiful little gift besides standing a chance to win one of the six grand prizes. Three prizes for 1, 2 and 3 year-old most beautiful and popular baby boys. Three prizes for 1, 2 and 3 year-old most beautiful and popular baby girl.

Cash prizes given to all twins and triplets. Age limit from infancy to 3 years old.

Plan to bring baby and give name at once to any of the committee: Mrs. C. P. Hodges, Mrs. T. S. Currie, Mrs. Arthur Woodall, Mrs. J. B. Hodges, Mrs. J. O. Tamsett, chairman.

Officers declined to comment on the cause of the run, which began soon after the opening hour. At one time about 2,000 persons, including depositors, stood in the vicinity of the bank.

City and county squads were called as a precautionary measure, but the run proceeded in an orderly manner.

Rotarians Are Advised to Be Thankful

The program of yesterday's meeting was an especially interesting one and was in charge of the following committee, Wofford Hardy, Bruce Frazier and Fred Stephens with Wofford acting as chairman.

It was a Thanksgiving Day program and Rev. Dow Heard made a much enjoyed Thanksgiving Day talk. He outlined the history of the day from the first Thanksgiving observance by the Pilgrim Fathers, through on down to President Geo. Washington, who issued a proclamation designating Nov. 26th of each year and on to President Lincoln's proclamation designating the last Thursday in November each year as Thanksgiving Day. He stressed the need of our observance; the day properly, proving we were indeed grateful to nature's God. He said usually we count too much on turkey and pumpkin pie and not enough Thanksgiving in our observance of this great day.

Mr. Marshall, a representative of the Texas Air Mail Transport, with headquarters at Fort Worth, here in the interest of the Big Spring Airport and the guest of Frank R. King gave a synopsis of the air mail service. He urged the citizens to co-operate with Mr. King, whose effort to secure air mail service for Big Spring. He said his company was now conducting a daily air mail service over a 1000 mile route to San Antonio, Laredo, Dallas and points north. Service from Laredo to New York City was now completed in 26 hours. In order to emphasize how dependable the air mail service was now becoming he stated that records showed that in completing 7,000,000 miles of air mail service only six deaths have been recorded. The automobile is more deadly than the airplane according to these figures.

As a matter of fact, the lubrication system of the new Ford is so simple in principle as to require no service attention.

There is just one important thing—the oil! Change the oil every 500 miles and the indicator will show the oil level below low.

If the oil level is to fall below low, the oil becomes insufficient, all parts as they are oiled.

To insure best performance it is also advised to have the chassis lubricated every 500 miles. This has been done in the new Ford through use of the high pressure grease gun system.

Proper oiling and lubrication means less wear on your car that is not being neglected and less money.

See your Ford dealer regularly. He is especially fitted to lubricate your Ford and to give you a good job at a low price.

This system is so effective that the five-quart contents of the oil pan pass through the pump twice in every mile when you are traveling at only 30 miles an hour. Yet there is only one movable part—the oil pump.

As the ends of these rods strike the oil they scoop up a supply for the connecting rod bearing. At the same time they set up a fine spray that lubricates the pistons and other moving parts.

From the tray the oil runs into the bottom of the pan, and is again drawn up through a fine mesh screen and pumped to the valve chamber.

The new Ford has a very simple and effective lubrication system. THE lubrication system for the engine of the new Ford is as simple in principle as water running down-hill. A gear pump in the bottom of the oil pan raises the oil to the valve chamber reservoir. From here it flows on to the main crankshaft bearings and the front camshaft bearing. Overflow oil drops into the oil pan tray and runs into troughs through which the connecting rods pass. As the ends of these rods strike the oil they scoop up a supply for the connecting rod bearing. At the same time they set up a fine spray that lubricates the pistons and other moving parts. From the tray the oil runs into the bottom of the pan, and is again drawn up through a fine mesh screen and pumped to the valve chamber. This system is so effective that the five-quart contents of the oil pan pass through the pump twice in every mile when you are traveling at only 30 miles an hour. Britain's King Is Ill

Here is one of the best pictures ever taken of King George V of Great Britain whose recent illness has aroused widespread discussion throughout the British empire. The king was confined to his bed after contracting a severe cold.

Oil Companies Buying Acreage

The leasing of so much acreage north of Big Spring indicates development is planned for that area. It is going to mean something big if a commercial well is brought in anywhere north of here and don't you forget. Some geologists hold to the theory that an oil trend leading to the northwest is going to be developed, as well as one to the southwest. The tests now going down must appear favorable to the big companies now investing in leases north of Big Spring.

West Texas League Now Has 8 Members

SAN ANGELO, Nov. 26.—The West Texas Baseball League, organized a year ago, was increased to an eight-club circuit with the admission of Eastland and Sweetwater, at a meeting of league officials here Sunday.

Gas Showing In Meriwether McDowell Test

Although the Meriwether Oil Company's test well number 2 on the L. S. McDowell ranch, 20 miles south of Big Spring, is only 550 feet deep it has had one good gas showing. The exact depth of this gas was encountered was not noted as it was not noted until the ten-inch casing had been lowered. The gas is coming from behind the casing. This casing is to be carried to the 700 foot depth.

Cotton Price May Reach 22c

Garlands predicts that the price of cotton may yet sell at an average price ranging from 22 to 22 1/2 cents. He bases this on the fact that the probabilities are for large exports this season from 5,300,000 to 5,500,000 bales and a domestic consumption probably of 6,500,000 to 6,800,000 bales.

BOX SUPPER AT LOMAX

The teachers at the Lomax school Miss Twila Lomax and Miss Arsh Phillips and the people of the community are planning to have a big box supper at the Lomax school Friday evening at 7:30 p. m. The proceeds from the sale of the boxes will be used for the school.

Return From Hunt

Earl Ezell and J. Warren Babb returned last night from a hunting trip in Ojima, Mexico. They report a fine trip, in spite of the fact, they were unsuccessful in killing a deer. They saw plenty of them, but they were too far off to be shot.

Hoover Gets Warm Welcome

AMPALA, HONDURAS, Nov. 20 (AP).—The U. S. S. Maryland bearing president-elect Hoover was sighted off Ampala this morning. At least four thousand were on hand to welcome Hoover on his first stop on the goodwill trip. Hundreds of brilliantly decorated craft were to be noted in the bay.

Harry Lees' Buick Stolen Sunday Morn

Harry Lees, knows what it feels like to have your car stolen—now! for his has been stolen. The Buick sedan of Mr. Lees was parked in front of the First Christian Church Sunday morning, while Mrs. Lees and children were attending Sunday school and church. When they came out of church, the car was gone. The car was unlocked.

Thomas Hutto Kills Two Deer

Tom Hutto, and son, Thomas, returned this morning from a hunting trip in the Davis Mountains. They report a wonderful trip, and young Thomas had all of the luck hunting. He was successful in getting two deer while on this hunt.

To Give Two Wildcats a Shot

The test well of the Louisiana Oil Refinery Company on section 3, block 32, township 2 south, drilled to a total depth of 3200 feet is to be given a shot of nitroglycerine. It is located north of the Henshaw discovery well.

Donald Jones Receives Com- pound Fracture

Donald, son of Mr. and Mrs. C. N. Jones, who live on a farm, just north of Knott, suffered a compound fracture to his skull, when he was kicked in the head by a mule, the forepart of this week. Even though Donald's injuries were of a serious nature, he is reported to be getting along nicely at this time.

Roy Smith Is Reported to Be Improving Nicely

Roy Smith, 22, lineman of the Texas Electric Service Company, who was seriously burned Friday morning, while at work near the sub-station, is reported to be improving nicely. Smith's clothes caught on fire when he came in contact with a live wire of 66,000 volts.

Elliot Yell Is Improving

Elliot Yell, son of Mr. and Mrs. W. C. Yell, who suffered a broken back, about six weeks ago, when some dirt caved in on him, while at play with other children in a cave, is reported to be improving nicely.

Apartment Scarce As Hen's Teeth

The demand for apartments is greater than ever. Some folks have been on the waiting list three months or more before they were lucky enough to find a place to make their home.

Street Repair Needed

It was not a very heavy rainfall which visited us yesterday but some mighty nasty looking mud holes are to be noted in a number of our streets today. A little street work is certainly needed.

Deputy Sheriff S. Layne has received a subpoena to appear at Austin next Monday as a State witness in the case of Woods, charged with a frame-up in a bank robbery at Rankin.

Nathan Newman of Atlanta, Ga., is here looking after property interests in this city.

Mrs. Josephine Rudder of Birmingham, Ala., is in the city visiting her sons, Chas. and Bob Eberley, and other relatives in this city.

Miss Nell Hatch is on the sick list this week.

H. Clay Read returned Monday from a business trip to Marshall.

FOR A BETTER UNDERSTANDING

One of the first essentials to international trouble is misunderstanding. For years prior to the outbreak of the World War the jingoists of England and Germany labored to give their respective countrymen false pictures of each other.

SUCCESS—AND FUTILITY

Wall Street's stock boom has made millions of dollars for clever manipulators. Men who know "the street" have worked like beavers in the last few weeks, and some of them have been rewarded amazingly.

OUT OUR WAY

By William Explain Texas Land Divisions

So many of our out-of-state readers have asked for the full meaning of the terms "survey," "section," "block," "township" and "range" applied to location for oil wells, we herewith explain these Texas land divisions.

WE MAY BE THANKFUL— BUT NOT CHARITABLE

It certainly is a disgrace the way appeals for charity are now handled in Big Spring. And the fact that two people have actually died in our city probably due to starvation is not a very good recommendation.

MAKE POULTRY RAISING PROFITABLE

We are going to be compelled to do a great amount of educational work before we can boost of having the poultry business on a paying basis in Howard county. If the County Demonstration Agent who is to begin his duties in our county on January first should give his entire time to aiding those who desire to make poultry raising profitable his services to our county would be worth many times what he is to be paid in the way of salary.

MOM 'N POP

By Cowan

BEATING LEPROSY

The ancient plagues of mankind are rapidly losing in their fight with modern science. Gorgas showed how a country can avoid yellow fever by getting rid of mosquitoes. Pasteur showed how to obliterate smallpox by vaccination. A similar vaccine has been devised for typhoid.

FRECKLES AND HIS FREIND

By Blosser

BIG SPRING DUE TO FORGE AHEAD

Big Spring is going to continue to forge ahead because it is a city founded on a permanent foundation. A fine agricultural and livestock section backed by an immense oil field, with payrolls from railway shops and division headquarters, oil refineries, manufacturing plants, etc., and immense tourist traffic is a combination that you just can't beat.

NO AUTO WAR

American life in terms of dramatic conflict. So, when Chevrolet announced a new line of six-cylinder cars, we promptly began to hear that a new "auto war" between General Motors and Ford was being started.

HIRED DEFENSE

American civilization in New York is displaying a new and disturbing development. A number of men—some of them on the fringe of the underworld, others quite respectable—are finding it necessary to hire bodyguards to go with them constantly and protect them from attack by gangsters.

LIGHTING OUR HIGHWAYS

Constructing "White Ways" along the entire length of our two national highways within the city limits of Big Spring would be one of the best advertisements we could provide for the old home-town. Automobile tourists, railway passengers, yea, and even air passengers would sound praises for our progressiveness. It is certainly worth giving consideration.

AN ORDINANCE

Regulating Slaughter Houses: The slaughtering, handling, sale and inspection of meats and meat products in the City of Big Spring, Texas...

BE IT ORDAINED BY THE CITY COMMISSION OF THE CITY OF BIG SPRING:

SECTION ONE

Diseased Animals Not to Be Brought Into City, etc. No person shall bring within the City of Big Spring or offer or expose to sale...

SECTION TWO

Abattoir or Slaughter House-Construction: All abattoirs or slaughter houses constructed or maintained for the purpose of slaughtering animals to be used for food...

SECTION THREE

Proprietors or Owners of Such Establishment Shall Provide: Hooks, receptacles, or other devices for retaining such parts as the head, tongue, tail, thymus gland, viscera, and other parts to be used in the preparation of meat food products...

SECTION FOUR

All persons assisting in the slaughtering or handling of carcasses or parts thereof shall have certificates of health from city officer or other physician stating that they are free from infectious or contagious diseases...

SECTION FIVE

No dogs shall be admitted into slaughtering establishment.

SECTION SIX

All doors and windows shall be properly screened, and every practicable precaution shall be taken to keep the establishment free from flies, rats, mice and other vermin. The use of poisons is prohibited except under the direction of an inspector of the health department.

SECTION SEVEN

No compartment used to house heating or power equipment, or for the storage of fuel, shall be used for the storage or handling of meats or products, or the rendering of lard or tallow.

SECTION EIGHT

Abattoirs or slaughter houses shall not be within 100 feet of any pens used for the feeding or retention of live stock, nor shall they be within 100 feet of outside toilets. All toilets shall be kept sanitary, well ventilated and shall not open directly into any room used for storage or handling of any meats or products.

SECTION NINE: In each establishment at which any condensed article is held until a day subsequent to its condemnation, a suitably located room or compartment shall be provided, together with suitable lock, the key to which is to be kept at all times by an inspector of the City Health Department. This room is to be kept at all times clean and sanitary.

SECTION TEN: No offal shall be deposited or allowed to collect within 100 feet of any slaughtering establishment, and all outlets or drains and sewers shall be at least 100 feet from such establishment.

SECTION ELEVEN: No living quarters shall have direct opening into any slaughtering establishment.

SECTION TWELVE: Permits for Abattoir or Slaughter House: Any firm, person, corporation or association desiring to construct or maintain an abattoir or slaughterhouse for the purpose of slaughtering animals to be used for food within the limits of the City of Big Spring, shall, prior to the construction or operation of same, file with the City Secretary of the City of Big Spring, a written request addressed to the City Commission stating that he or they desire to construct or maintain an abattoir or slaughterhouse for the purpose of slaughtering animals to be used for food, in whole or in part, within the City of Big Spring; which said application shall be accompanied by plans and specifications showing the arrangement, material and equipment of said abattoir or slaughter house, and the location and approximate cost of same, said application, plans and specifications shall be examined by the City Commission, or other authority designated thereby, and if such abattoir or slaughterhouse is found to conform to specifications of this ordinance, it shall be the duty of the health department of the City of Big Spring to issue a written permit for the establishment and maintenance of said abattoir or slaughterhouse; and in the event said permit is issued, the health department shall record in full, in a book to be kept for the purpose if such application be refused by the city commission, the applicant shall be notified to that effect in writing.

SECTION THIRTEEN: Owners or proprietors of slaughtering establishments shall keep records on properly prepared forms, of the ear marks, brands, age, sex, color, approximate weight, from whom purchased and shall have on hand bill of sale or other evidence showing legal ownership of each animal slaughtered.

SECTION FOURTEEN: It shall be unlawful for any person, firm, corporation or association to have, keep, sell or expose for sale, or have in possession with intent to sell for human food within the limits of the City of Big Spring the meat or food products manufactured in whole or in part from the meat of any cattle, calves, sheep, swine, or goats, unless same shall have been slaughtered under the supervision of the health department of the City of Big Spring, in accordance with the provisions of this ordinance; provided however that this ordinance shall not apply to the meat or food products manufactured from the meat of cattle, calves, sheep, swine or goats, slaughtered or inspected under the supervision of the United States Government in accordance with the regulations relating to the inspection of meat as prescribed by the Department of Agriculture of the United States, and bearing the stamp of such inspection, or to any such meats slaughtered or inspected under the supervision of an official meat or food inspector of any other city in this state, in which the inspection of meat has been approved by the health department of this city, and bearing the stamp showing that such meat has been inspected and passed by the meat and food inspector of such other city.

SECTION FIFTEEN: It shall be unlawful for any person, firm, corporation or association to sell, have, keep or expose for sale, or have in possession with intent to sell for human food within the limits of the City of Big Spring the meat or any portion thereof of any cattle, calves, sheep, swine, or goats, unless there shall have been placed on each primal part thereof, or by or under the personal supervision of an inspector of the United States, or the City of Big Spring, or any other city within this state approved by said health department as in Sections 12 and 14 of this ordinance, a mark, stamp, or brand showing that same has been inspected and passed for food purposes.

SECTION SIXTEEN: This ordinance shall be construed to authorize live inspection in addition to inspection of carcasses, however, during the months of November, December, January and February of each year, farmers may sell carcasses or parts thereof within the limits of the city of Big Spring, provided such animals are slaughtered and inspected at regularly authorized slaughter houses, and bearing such stamp of inspection, and all carcasses or parts thereof shall be handled in a sanitary manner until sold. If found to be diseased, unwholesome or otherwise unfit for human food, they shall be condemned for food purposes and destroyed. Post examination and inspection of all animals slaughtered the following

SECTION SEVENTEEN: It shall be the duty of the inspectors of the health department, and they are hereby empowered to enter any place in which animals are slaughtered for food (the carcasses or parts thereof which are to be offered for sale within the City of Big Spring) to permit the removal therefrom of any carcass or part thereof until the same shall have been inspected and stamped as approved or condemned by a meat inspector of the Health Department, condemned carcasses or parts thereof shall not be removed from the slaughter house or place where condemned until they have been treated in the presence of the inspector, in such a way as to prevent their future use for human food and stamped not to be used for food.

SECTION EIGHTEEN: It shall be the duty of the inspectors of the health department, and they are hereby empowered to enter any place where the meat or flesh of any animal mentioned in this ordinance, or the products thereof, may be stored, held, kept, exposed or offered for sale, and also every establishment where meat, manufactured for food or preserved, cured, canned or otherwise prepared for food, and inspect the same, and whenever such meat or flesh shall upon inspection and examination, be found not marked, or branded or otherwise evidence so as to show that the same has been inspected and passed for food purposes, or when meats or products even when so stamped, are found to be soured, unwholesome or otherwise unfit for food purposes, the inspectors of the Health Department shall condemn the same and shall order such disposal as will prevent its use for human food.

SECTION NINETEEN: It shall be unlawful for any person or persons to transport or cause to be transported in any vehicle through the streets or public highways of the city of Big Spring any meat unless the same is securely wrapped in paper or tightly woven cloth covering unless such vehicle is provided with a tight cover, which shall be kept closed at all times during such transportation, so as not to expose the meat to dust, dirt, filth or other deleterious substance, and where so transported for sale at retail, same shall be kept in properly constructed ice box, with adequate quantity of ice to keep meat in proper state of preservation.

SECTION TWENTY: The Health Department shall adopt and promulgate such rules and regulations as are necessary, to carry into effect the provisions of this ordinance.

SECTION TWENTY-ONE: The Mayor and City Commissioners shall appoint a veterinarian who shall be a graduate of a reputable veterinary college recognized by the United States Department of Agriculture, who shall under the direction of the Health Officer of the City of Big Spring, have charge of the inspection as may be necessary for the carrying out of the provisions of this ordinance and they shall fix his compensation.

SECTION TWENTY-TWO: Said veterinarian shall be governed by the methods used in the United States Department of Agriculture, Bureau of Animal Industry and Health Ordinance of the City of Big Spring and the Sanitary Code of the State of Texas in making the necessary inspections.

SECTION TWENTY-THREE: All meats stored or kept by any butcher shop, hotel restaurant or other place where meat is kept for sale or to be served, shall be stored in such a way so that the handling thereof will not conflict with any requirement of this ordinance and be covered

fees shall be paid: Fifty cents per head for all cattle and calves and twenty-five cents per head for all swine, sheep or goats; provided also, that in cases where said slaughterhouse is located farther than one and one-half miles from the city limits an additional fee of twenty-five cents per mile shall be charged for all distances outside the one and one-half mile limit.

It shall be unlawful for any person, firm, corporation or association except inspectors of the health department to have in possession, keep, or use any mark, stamp or brand as provided or used for marking, stamping or branding, as inspected and passed, any article herein required to be marked, stamped or branded, or any mark stamp or brand having thereon a device or words similar in character or import to the marks, stamp or brands provided or used for such purposes for the health department.

SECTION SEVENTEEN: It shall be the duty of the inspectors of the health department, and they are hereby empowered to enter all places in which the slaughtering of animals for food is being carried on, and to make such inspection of said animals as may be deemed necessary to determine their fitness for human food.

The hours of killing must be arranged to meet the mutual convenience of both inspector and owner or proprietor of establishment but in all instances slaughtering shall be done between the hours of 5 a. m. and 7 p. m. in case of disagreement in hours of killing between the inspector and such owner or proprietor the case shall be referred to the City Commission whose decision shall be final.

It shall be unlawful for any person, firm, corporation, or association owning or having charge of any place in which animals are slaughtered for food (the carcasses or parts thereof which are to be offered for sale within the City of Big Spring) to permit the removal therefrom of any carcass or part thereof until the same shall have been inspected and stamped as approved or condemned by a meat inspector of the Health Department, condemned carcasses or parts thereof shall not be removed from the slaughter house or place where condemned until they have been treated in the presence of the inspector, in such a way as to prevent their future use for human food and stamped not to be used for food.

SECTION TWENTY: The Health Department shall adopt and promulgate such rules and regulations as are necessary, to carry into effect the provisions of this ordinance.

SECTION TWENTY-ONE: The Mayor and City Commissioners shall appoint a veterinarian who shall be a graduate of a reputable veterinary college recognized by the United States Department of Agriculture, who shall under the direction of the Health Officer of the City of Big Spring, have charge of the inspection as may be necessary for the carrying out of the provisions of this ordinance and they shall fix his compensation.

SECTION TWENTY-TWO: Said veterinarian shall be governed by the methods used in the United States Department of Agriculture, Bureau of Animal Industry and Health Ordinance of the City of Big Spring and the Sanitary Code of the State of Texas in making the necessary inspections.

SECTION TWENTY-THREE: All meats stored or kept by any butcher shop, hotel restaurant or other place where meat is kept for sale or to be served, shall be stored in such a way so that the handling thereof will not conflict with any requirement of this ordinance and be covered

SECTION TWENTY-FOUR: It shall be the duty of the inspectors of the health department, and they are hereby empowered to enter any place where the meat or flesh of any animal mentioned in this ordinance, or the products thereof, may be stored, held, kept, exposed or offered for sale, and also every establishment where meat, manufactured for food or preserved, cured, canned or otherwise prepared for food, and inspect the same, and whenever such meat or flesh shall upon inspection and examination, be found not marked, or branded or otherwise evidence so as to show that the same has been inspected and passed for food purposes, or when meats or products even when so stamped, are found to be soured, unwholesome or otherwise unfit for food purposes, the inspectors of the Health Department shall condemn the same and shall order such disposal as will prevent its use for human food.

SECTION TWENTY-FIVE: It shall be the duty of the inspectors of the health department, and they are hereby empowered to enter any place where the meat or flesh of any animal mentioned in this ordinance, or the products thereof, may be stored, held, kept, exposed or offered for sale, and also every establishment where meat, manufactured for food or preserved, cured, canned or otherwise prepared for food, and inspect the same, and whenever such meat or flesh shall upon inspection and examination, be found not marked, or branded or otherwise evidence so as to show that the same has been inspected and passed for food purposes, or when meats or products even when so stamped, are found to be soured, unwholesome or otherwise unfit for food purposes, the inspectors of the Health Department shall condemn the same and shall order such disposal as will prevent its use for human food.

SECTION TWENTY-SIX: It shall be the duty of the inspectors of the health department, and they are hereby empowered to enter any place where the meat or flesh of any animal mentioned in this ordinance, or the products thereof, may be stored, held, kept, exposed or offered for sale, and also every establishment where meat, manufactured for food or preserved, cured, canned or otherwise prepared for food, and inspect the same, and whenever such meat or flesh shall upon inspection and examination, be found not marked, or branded or otherwise evidence so as to show that the same has been inspected and passed for food purposes, or when meats or products even when so stamped, are found to be soured, unwholesome or otherwise unfit for food purposes, the inspectors of the Health Department shall condemn the same and shall order such disposal as will prevent its use for human food.

SECTION TWENTY-SEVEN: It shall be the duty of the inspectors of the health department, and they are hereby empowered to enter any place where the meat or flesh of any animal mentioned in this ordinance, or the products thereof, may be stored, held, kept, exposed or offered for sale, and also every establishment where meat, manufactured for food or preserved, cured, canned or otherwise prepared for food, and inspect the same, and whenever such meat or flesh shall upon inspection and examination, be found not marked, or branded or otherwise evidence so as to show that the same has been inspected and passed for food purposes, or when meats or products even when so stamped, are found to be soured, unwholesome or otherwise unfit for food purposes, the inspectors of the Health Department shall condemn the same and shall order such disposal as will prevent its use for human food.

or protected so as to keep the same free from contamination by flies, dust, dirt, excessive heat or other agencies that tend to make meat unwholesome or unfit for food.

SECTION 24: Repeal and Date of Effect: All ordinances and parts of ordinances in conflict with this Ordinance are hereby repealed and this Ordinance shall be in full force and effect immediately upon its adoption and its publication as provided by law.

SECTION 25: Should any section, paragraph, sentence, clause or phrase of this ordinance be declared unconstitutional or invalid for any reason the remainder of said Ordinance shall not be affected thereby.

SECTION 26: No person, firm or corporation shall change, demand or receive more than one fourth (1/4) of one cent per pound for killing or dressing any animal, such charge to be based on the weight of the animal after it is killed and dressed; provided such person, firm or corporation shall be entitled to a minimum charge of one dollar per head for such service.

SECTION 27: No person, firm or corporation shall charge, demand or receive more than one half of one cent per pound for a period of two weeks for storage of meats and carcasses.

SECTION 28: No meat shall be placed or kept in the same compartment with other articles that may contaminate said meat or cause same to be unwholesome.

SECTION 29: Penalty: Any person who shall violate any provision of this ordinance, shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be punished by a fine of not less than one dollar and not more than one hundred dollars. Each and every violation of any provision of said ordinance, shall constitute a separate offense and each day that premises or equipment are maintained or operated in a manner failing to comply with the provisions of this ordinance shall constitute a separate offense.

SECTION 30: Emergency: Due to the fact that the health of the citizenship of the City of Big Spring is menaced daily by the unsanitary manner in which meat products are handled in said City, an emergency is hereby declared and the rule requiring an ordinance or resolution to be read at three meetings of the City Commission is hereby dispensed with, and this ordinance shall be in full force and effect from and after its passage at one meeting of said commission, its approval by the Mayor, and its publication as by law required.

PASSED AND APPROVED AT REGULAR MEETING OF THE CITY COMMISSION OF THE CITY OF BIG SPRING, TEXAS, this 23rd day of October, A. D. 1922.

R. D. Matthews, Mayor, City of Big Spring, Texas. Malinda Chestnut, City Secretary of Big Spring, Howard County, Texas.

NOTICE

THE STATE OF TEXAS: To the Sheriff or any Constable of Howard County, Greeting: YOU ARE HEREBY COMMANDED TO SUMMON J. L. Hamilton by making publication of this Citation once each week for four consecutive weeks previous to the return day hereof, in some newspaper published in your county, if there be a newspaper published in the Judicial District, but if there be no newspaper published in said Judicial District then in a newspaper published in the nearest District, to appear at the next regular term of the District Court of Howard County, Texas, to be held at the court house thereof, in Big Spring, Texas, on the first Monday in February, A. D. 1923, the same being the 4th day of February, 1923, and there to answer a petition filed in said court on the 27th day of September, A. D. 1922, in a suit numbered on the docket of said court No. 1291, wherein the Haren Tank Company, a corporation, is plaintiff, and Otis Chalk and Mary Chalk of Howard County, Texas, and R. E. Sweeney whose residence is unknown are defendants, said petition alleging as follows: That during the year of 1922 and the first quarter of the year 1923, the defendants, Otis Chalk and P. E. Sweeney were partners in drilling and developing the S. E. 1/4 of the N. W. 1/4 of Section No. 124, Block 29, of the W. & N. W. R. Co. lands in Howard County, Texas, for the production, saving and sale of mineral, oil and gas and their products.

That plaintiff at the request of defendants, furnished material and labor to the defendants and erected on the said land for the defendants certain oil tanks and other improvements thereon which were of the reasonable value of \$135.55. That within the time allowed by law plaintiff made and filed with the county clerk of Howard County, Texas, a true and itemized account for the said sum of \$135.55 against defendants and against land improvements as provided by statute and thereby acquired a constitutional and statutory lien on the said land, improvements thereon and products thereof, which lien and accounts are recorded in the Mechanics and Materialman's Lien Record of Howard County, Texas, in volume 3 at page 600.

That defendant R. E. Sweeney is insolvent and his residence is unknown and the defendants Otis Chalk and Mary Chalk are claiming said lands and appropriating the oil and gas products thereof and therefrom, and the rents thereof, and that they are liable to plaintiff for his debt of \$135.55, and legal interest thereon.

Plaintiff prays for a divorce, the cost of suit, and for such other and further relief to which she may be entitled.

Herein Fall Not, but have before said Court, at its aforesaid next regular term this writ with your return thereon, showing how you have executed the same.

Witness, J. I. Prichard, Clerk of the District Court of Howard County.

Given under My Hand and the Seal of said Court at office in Big Spring, Texas, this 1st day of October, A. D. 1922.

J. I. Prichard, Clerk District Court, Howard County, Tex. 7-4t.

NOTICE

THE STATE OF TEXAS: WHEREAS, it appears to the Commissioners Court of Howard County, Texas, and to the individual members of said Court that an imperative public necessity exists in said County for a audit to be made of all of the books, records and accounts of said County, to the end that the Commissioners Court of said County have sufficient information to enable it to determine and fix proper appropriation and expenditure of public moneys, and to ascertain and fix the just and proper tax levy.

SECTION 27: No person, firm or corporation shall charge, demand or receive more than one half of one cent per pound for a period of two weeks for storage of meats and carcasses.

Plaintiff prays for a divorce, the cost of suit, and for such other and further relief to which she may be entitled.

Herein Fall Not, but have before said Court, at its aforesaid next regular term this writ with your return thereon, showing how you have executed the same.

Witness, J. I. Prichard, Clerk of the District Court of Howard County.

Given under My Hand and the Seal of said Court at office in Big Spring, Texas, this 1st day of October, A. D. 1922.

J. I. Prichard, Clerk District Court, Howard County, Tex. 7-4t.

NOTICE

THE STATE OF TEXAS: WHEREAS, it appears to the Commissioners Court of Howard County, Texas, and to the individual members of said Court that an imperative public necessity exists in said County for a audit to be made of all of the books, records and accounts of said County, to the end that the Commissioners Court of said County have sufficient information to enable it to determine and fix proper appropriation and expenditure of public moneys, and to ascertain and fix the just and proper tax levy.

SECTION 27: No person, firm or corporation shall charge, demand or receive more than one half of one cent per pound for a period of two weeks for storage of meats and carcasses.

SECTION 28: No meat shall be placed or kept in the same compartment with other articles that may contaminate said meat or cause same to be unwholesome.

SECTION 29: Penalty: Any person who shall violate any provision of this ordinance, shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be punished by a fine of not less than one dollar and not more than one hundred dollars. Each and every violation of any provision of said ordinance, shall constitute a separate offense and each day that premises or equipment are maintained or operated in a manner failing to comply with the provisions of this ordinance shall constitute a separate offense.

Sweeney is insolvent and his residence is unknown and the defendants Otis Chalk and Mary Chalk are claiming said lands and appropriating the oil and gas products thereof and therefrom, and the rents thereof, and that they are liable to plaintiff for his debt of \$135.55, and legal interest thereon.

Plaintiff prays for a divorce, the cost of suit, and for such other and further relief to which she may be entitled.

Herein Fall Not, but have before said Court, at its aforesaid next regular term this writ with your return thereon, showing how you have executed the same.

Witness, J. I. Prichard, Clerk of the District Court of Howard County.

Given under My Hand and the Seal of said Court at office in Big Spring, Texas, this 22 day of November, A. D. 1922.

Health Seal Sale to Open

The big fight against tuberculosis, that dread disease that takes so many lives of men, women and children, will be started on Thanksgiving Day. The little Health Seal, bearing the double barred cross, with the Cargo of Health and Hope, will be sold on the streets, in the schools, and every place, so that people of all ages will be given an opportunity to buy and to aid in the fight.

The Little Health seals do so much each year in the prevention and cure of the white plague. Through the money raised in these sales many lives are saved each year. Here's the history of the Christmas Seal:

The Christmas Seal, like many Americans, is proud of its family tree. And like many Americans it traces its ancestry back to Denmark. One Christmas eve, Einar Holboell, a postal clerk was busily engaged in sorting mail. Each letter and package bore a government stamp. Each stamp cost little; each purchaser willingly paid to have his messages carried through the mails. It occurred to Einar Holboell that every letter and package could well carry another stamp, a stamp which would be sold for the benefit of a hospital for tuberculous children. When the next Christmas eve came, the Danish mail was helping to start a health message which from that time has continued to travel through all the post offices of the land at Christmas time.

In 1907 a story written by Jacob Riis about the Danish seal appeared in the Outlook. One of the Outlook readers, Miss Emily P. Hilsell, a Red Cross worker of Wilmington, Delaware, was interested in a small tuberculosis sanatorium. In 1907 tuberculosis sanatoriums were often struggling for support. This one was no exception. Funds were needed; Miss Bissell adopted the Danish idea and that year raised \$3,000. The next year the American Red Cross carried on the enterprise on a nation-wide plan, and in 1910 made arrangements with the National Tuberculosis Association to manage the sale.

What Seals Do. These seals that are sold for one cent each have made possible the organized campaign against tuberculosis that has been carried on with ever-increasing emphasis year by year, and the Christmas seals stand for something more, for they are truly health seals, since whatever helps to prevent tuberculosis helps to make for health. With the money raised by the sale of seals there have been provided hundreds of sanatoriums where those ill with the disease may receive care; preventives where children who have been exposed to the disease may be built up to resist its attack; tuberculosis nurses to care for patients who are ill in their own homes; clinics where examination and advice are freely given; and to thousands of people has been given the optimistic message that tuberculosis is a curable disease.

Too Much Sleep in Daytime Not Good for Child: Children between three and four years of age should not be allowed to sleep longer than an hour and a half during the daytime, psychologists at the University of Toronto have concluded after a series of interesting tests on the effects of slumber upon youngsters, says Popular Mechanics Magazine.

Biggest Tax Payer Pays 1923 Taxes: The Texas and Pacific Railway Company has remitted \$18,361.40 in payment of their county, state and independent school district tax for the year 1922. The T. & P. Company has been the county's biggest single tax payer ever since the organization of the county but oil development may cause the mantle to be shifted elsewhere.

Plaintiff prays for his debt and foreclosure of his lien and costs of court and general and special relief as set out fully in his petition.

Herein fall not, but have you before said court, at its aforesaid next regular term, this writ, with your return thereon, showing how you have executed the same.

Witness, J. I. Prichard, Clerk of the District Court of Howard County.

Given under My Hand and the Seal of said Court at office in Big Spring, Texas, this 22 day of November, A. D. 1922.

J. I. Prichard, Clerk District Court, Howard County, Texas. 7-4t.

Got the Deer, Also Publicity

The Fort Worth Star-Telegram devoted an eighth of a page of their eight page Monday issue to a photo of two famous deer hunters: one Frank R. King of Big Spring and George Cannon of Lamesa. The four deer and the lucky hunters are pictured under the caption, "Four deer killed by two West Texans in Mason County." One, nine point; two, six point; and one, three point deer made up the kill. They hunted in a private preserve southwest of Fredericksburg.

Maracaibo Oil To Work New Holdings

American Maracaibo Corporation which has just completed purchase of producing properties of the Henshaw Oil Corporation, is assembling a West Texas operating force to operate the properties, according to George A. Henshaw, Jr., president.

The properties included in the sale comprise production in Brown and Howard County and close-in properties now being drilled in Winkler and other West Texas counties. Included in the list is the self.

893 Barrels in Hour: The well, which has been rated as 7,000 barrels per day, initial, flowed 893 barrels in the first three hours Saturday when it went on production gauge. The flow came after three trips of the swab to agitate it, this frequently being necessary in Howard producers after they have been shut in.

Four tests are in progress on the 1136 acres of this property. Three of them will go to the 2,500-foot pay, producing in this well, and the third will go to the Roberts, or 2,500-foot pay. One of these, north offset to the discovery, is on the 100-acre discovery lease, and the other two is on the 26-acre lease, separated from this by the 20-acre Louisiana Oil Refining Co. lease on which the first producer has just been completed. The Howard County properties also include an 80 acres in Section 153 on which a test to the deep pay is now in process of completion.

Present rate of return from the two West Texas properties just acquired is estimated at approximately 225,000 monthly. This is expected to increase with completion of seven drilling operations underway.

In addition, American Maracaibo owns royalty interest in the 3,000, 600-acre Barco concession in Colombia, and some 500,000 acres of other concessions in Venezuela and elsewhere, and have arranged for several wells of the latter.

Fred H. Wickert, formerly chairman of the board of the Pan-American Petroleum & Transport Co., and former president of the Dixie Oil Co., is chairman of American Maracaibo, and J. J. Cotter is president. Wickert first became interested in the West Texas Permian Basin possibilities through the operations of Southern Crude Oil Purchasing Co., a Pan-American subsidiary, and in the operations of the Dixie.

Seal Sale to Aid in Anti-Fight Tuberculosis

Over 530 miles of Tuberculosis Christmas Seals have been distributed by the Texas Public Health Association for the annual sale which starts Thanksgiving morning. The seals this year show an ancient galeon with a red double barred cross on the main sail and the words, Christmas Greetings 1922.

The proceeds from the sale of these seals finances the work of the Texas Public Health Association and their twenty-three local affiliated associations.

Over 100 volunteer chairmen have been secured to sell seals in their localities and in counties where no organization occurs. The public is offered an opportunity to secure seals by mail.

Last year the State Association reached over 100,000 persons in the State-Wide Educational Campaign. A great deal of attention is being paid to health work in schools, consisting of health educational work and the examining of pupils by registered public health nurses. Tuberculosis clinics have been held in several counties. Special effort has been made to reach all races.

In 1922 it is expected that a continuation of our present program will be carried on, increasing the slide work wherever possible. Dr. T. Scott, executive secretary stated that the deaths from tuberculosis had been reduced over 50 per cent the first campaign against tuberculosis and that we are now on the last half of the fight and the efforts must be continued. He also stated that tuberculosis was still the major cause of death in the age group 15 to 25—and that special work must be done with this group.

W. G. Bailey Returns Pastor

Not only is the congregation happy to greet their pastor, Rev. W.
