BIG SPRING, TEXAS, FRIDAY, JULY 5, 1929

NUMBER 43

ROAD AGREEMENT RECEIVED

BASEBALL CLUB IN NEED OF FUNDS TO FINISH SCHEDULE BUSINESS MEN'S CLUB HEARS

Must Be Taken Monthly At Gate To Stay Even

Big Spring baseball club is in need of funds, the Business Men's Club was told at Wednesday afternoon at the Methodist church by Dr. E. O. Ellington, president.

The same situation that faces every city with a team in a D league which is not for a club in a league classification now facing Dr. Ellington declared. He is keeping the club, detailing its expenses and receipts, showing that receipts must total approximately \$3,000 monthly to keep the club out of the red.

Ellington and Jack Ellis resigned a note for \$900 to pay a players' payroll and they affixed their signatures for \$1,000. Since there has been several larger than in any other league. Gate receipts for the month totaled \$2,800 and

LADIES DAY

Ladies will be admitted to the game at 7:30 p. m. at the park when Big Spring meets the Angels of the West League clash in an early game of the second of the season, according to Dr. E. O. Ellington, club president.

Second month \$2,700. This has been almost enough to pay the \$3,000 in subscriptions at the beginning of the season. The club has not been paid and improvements made to the clubhouse and to the bus to transport the team and payment of a trial over from the club of which some feel this year's season has not been made to do no devolved upon the club members.

Rose Talks. Ralph Rose was proclaimed as believed that he had just signed have finished up of the Cowboys the strongest in the league. "I don't ride us so much when I'm pleased."

Statement of the finest sort furnished by the Misses Jackson and Miss Wade, the Jackson played three selections on the piano, including a medley of songs which struck a responsive chord. Miss Wade favored the two piano solos. She was chairman of the day. Dandrea, vice-president was chairman. Among visitors introduced Messrs Roberts, Frank, Messrs Howard and Wood, for the Big Spring Steam and Home Service Laundry were guests of their em- Frank King; Ford Stock; the San Antonio Drug company and Manager Rose of the

Pickle announced members industrial committee of the chamber of commerce and men who the recent trip to Sherman and that group will be the chamber of commerce this evening at 8 o'clock to their final report. Watson announced next evening's open meeting of chamber of commerce members at the waterworks reservoir.

MAN ARRESTED

ANGELES, July 3 (AP)—Percy, a cashier of the Los Angeles Exchange, was arrested after he had confessed, to a plot in which the use of a bomb today wrecked the exchange's offices.

YOUTH SHOT DOWN AT HOUSTON

HOUSTON, Texas, July 3 (AP)—Charles Howard Gauge, 22, was killed and his girl companion was critically wounded in a mysterious shooting at Morgan's Point late last night.

Miss Lillian Bissitt, 18, is at a hospital. According to her statement to officers, a man approached their parked car and attempted to drag her from the car. Gauge resisted the man's efforts and both he and the girl were shot.

A posse of county officers are looking for the slayer. Gauge, shot through the heart and lungs, crumpled to the ground dead at the feet of Miss Bissitt, 18, whose body also had received a bullet from the killer's gun.

Complete mystery veiled the slaying. Officers, with hardly a clue to identify the killer, were scouring the waterfront, seeking a short, fat man seen prowling around parked automobiles a short time before the shooting.

The slain youth was the son of a contractor. Miss Bissitt was a waitress in a Harrisburg cafe.

The girl told officers a man approached their roadster as it was parked near the bay shore and attempted to drag her from the automobile. Gauge resisted the attack and was shot through the side.

Two shots were fired in rapid succession. More than a dozen persons were within 100 yards of the couple when the killing occurred. Gauge, a bullet wound in the side, staggered to his feet, attempting to aid the wounded girl. And then fell dead.

The theory that the double shooting was done by a revengeful lover was advanced in some quarters.

A statement by Dr. D. R. Aves, who gave the girl medical attention before she was rushed to a hospital, substantiated that theory.

"She said a jilted lover might have done the shooting," Dr. Aves said. "She said neither she nor the boy had been robbed."

Miss Bissitt was unable to give a rational account of the experience.

Four Houstonians who were on a bathing party told officers they saw a man snooping around automobiles as if he were searching for someone. When asked what he wanted the man mumbled, "Nothing, my brother-in-law has my car."

Other persons substantiated the story regarding the mysterious snooter.

The name of a former suitor who might have fired the shots was given this afternoon by the girl.

"I ceased going with him several weeks ago," Miss Bissitt said. "Since then he has always followed me, no matter where I went. And last night he showed up right after the ambulance arrived and rode with me to the hospital."

"I don't know who could have shot me, unless it was he."

Officers had arrested the suitor mentioned by Miss Bissitt before she made her statement, but he had been released.

Ira Cain, a San Angelo business man, was a visitor in Big Spring Tuesday.

Nature Thought of Everything

Nature thought of everything when the human body was made. When the body is about to become ill, nature planned danger signals to warn us. Thus, if our children grind their teeth when they sleep, or lack appetite, or suffer from abdominal pains, or itch about the nose and fingers, we should know that they may have contracted worms. Then, if we are wise, we buy a bottle of White's Cream Vermifuge and safely and surely expel the worms. Thus we avoid the danger of very serious trouble. White's Cream Vermifuge costs only 35¢ a bottle, and can be bought from Cunningham and Phillips, and J. D. Riley.—Adv.

Queer Formations Found In Canyon

CANYON, Tex., June 29 (AP)—Interesting rocks and mineral formations have been discovered in the South Ceta Canyons, near here. By W. D. Mateer, faculty member of the West Texas Teachers College.

One of the most unusual rock formations is the "septarium," according to Mr. Mateer, who is studying the geology of this region. Describing the septarium, he said originally a mud ball is deposited in a small pocket or accumulated in loose sand. After the water has receded, heat of the sun bakes the ball. During this baking the ball cracks along the lines of greatest tension. Mineral matter later is deposited in these cracks, giving an artistic and geometric design of varied colors. Some times iron gets into the mineral deposits, giving the formation a yellow or red color.

At the University of Oklahoma there is a septarium two feet long, according to Mr. Mateer. The ball is jet black, while the mineral matter is pure white calcite. Chalcedony, a translucent variety of quartz, pale blue or gray with a wax-like luster, and Jasper, an impure quartz of dull red, yellow and other colors, also were found in gravel beds of the canyons. Pyrite, or "fool's gold" also has been found as well as many interesting rock formations, including two varieties of ores used as pigment.

Mr. Mateer said he planned to spend the summer excavating in the canyons which have never been thoroughly explored.

Mr. and Mrs. V. V. McGrew plan to spend the Fourth in El Paso. They will leave early Wednesday morning and plan to return within a week. They will be accompanied by their house guests Mrs. L. J. Martin and Miss Eula Pearl Martin of Eldorado, Ark., and Mrs. A. Thompson and daughter, Mrs. B. L. Williamson of Little Rock, Ark.

Three Waterspouts Occur In Short Time

GALVESTON, Tex., June 29 (AP)—Five waterspouts within twenty minutes visible off the coast of Galveston Island was an unusual sight on June 25.

They first formed east of Galveston, off the jetty, and continued for two or three minutes, according to I. R. Tannehill, United States government meteorologist. It was followed by two others of shorter duration, each a little further south until the largest one formed due south of the city about a mile offshore. It lasted from 3:45 to 4:05 p. m. The huge column seemingly mounted several hundred feet into the air. Agitated waters churning furiously at its base could be seen from the Weather Bureau.

Waterspouts are explained by Mr. Tannehill as whirlwinds formed during storms which apparently draw water into the air along their paths, although there is some dispute as to their exact formation. The fact that water cannot be drawn upward by atmospheric suction more than 300 feet indicates, the meteorologist said, that the top part of these vaporous columns are made up of moisture condensed in the air.

Donation Is Sent To Sick Mexican

Following publication in The Herald of an appeal for the use of a cot or bed for a Mexican man, penniless and very ill, found lying on the ground in a hut by United Charities, which was promptly answered by more than a dozen persons, The Herald received a letter from an employe of a local cafe, who daily wage is \$2, enclosing a check for \$5, which he asked be sent to the Mexican man. "I hope that he recovers to be healthy and happy again," read the letter.

DAIRY TOURISTS TO LEAVE ON LONG INSPECTION TRIP

STAMFORD, July 3.—A number of West Texans will no doubt be numbered among those who will take a dairy study trip through Missouri, Iowa, Wisconsin and Illinois soon which is to be sponsored by the Waco Chamber of Commerce.

W. V. Crawford, Secretary of the Waco organization is soliciting farmers, merchants, and bankers interested in furthering the development of dairying in their localities to take the trip, and has invited members of the West Texas Chamber of Commerce staff to join the party and lend their influence towards getting the attendance of other West Texans. The trip has the endorsement of the Waco Chamber of Commerce and the agricultural agencies of the state, which will have representatives on the tour. Points will be visited where dairying is successfully conducted on both a large and a small scale. Well-known and perfectly equipped dairy farms, there are also going to be visited to farms on which there are small herds and where dairying on a small scale is conducted profitably and successfully. The man with a few cows or no cows at all who wishes to engage in milk production on a small scale will receive benefits from this tour just the same as the man who is planning a more extensive and elaborate dairy development.

SENATOR WOODWARD NOT TO TENDER RESIGNATION

By RAYMOND BROOKS

AUSTIN, July 2.—Sen. Walter C. Woodward of Coleman will not resign his office, he said here, commenting on reports of the possible naming of his father, Judge J. O. Woodward, as a member of the pardons and parole board.

Whether or not the senior Woodward is appointed, or offered a state office would have nothing to do with his own continuing in the senate, Sen. Woodward said. He said legal rulings have no bearing on the nepotism law has no bearing on such a case.

The fact the senate would have to confirm an appointee to the pardons and parole board does not bring the case within the "kinfolks" law, he said legal rulings have held. Sen. Woodward did not disclose whether his father actually has been offered appointment on the pardons or parole board. He commented on recent discussions whether such an appointment could be made while he was in the senate and required to vote on the confirmation of his father's declaring he has no intention of resigning from the upper house during his term of office.

Sen. Woodward recently disagreed with Gov. Dan Moody on the provisions of the nepotism law when Gov. Moody failed to reappoint Mrs. H. J. O'Hair of Coleman, Sen. Woodward's sister-in-law, on the university board of regents. Gov. Moody said in his opinion the nepotism law "went further than previously had been thought," in connection with her confirmation by the senate.

Pioneer Farmer Pays Appreciated Visit To Herald

The Herald force feasted Tuesday afternoon on juicy peaches and apricots grown in the orchard of Mr. and Mrs. J. F. Thixton south of Washington Place, and the apartment of two of its women employes was brightened with a large bouquet of vari-colored zinnias and other blossoms grown in the garden of Mrs. Thixton, which is one of the finest in this section.

Mr. Thixton, who has been reading The Herald for about 20 years, and declares he enjoyed it every day, came to Howard county 22 years ago with a wife and four children and enough money to pay one-fourth on 160 acres he had contracted to buy.

Today he owns 1,043 acres of land northwest of town; one tract being his old home place 12 miles northwest and another 23 miles northwest. And, just outside the Big Spring city limits, where he and Mrs. Thixton reside, they have 26 1-2 acres, with their own water system and electric lighting system. On this land they make their living.

Kentucky Boys Set Future Farmer Club

PERRYVILLE, Ky. (AP)—Thirty-eight high school and eighth grade boys here have organized a club known as Future Farmers.

They have admitted 11 fathers and local business men as honorary members. Their purpose is to promote scientific farm methods.

Groups have been organized in study, corn, tobacco, sheep, dairy cows and poultry.

Adult farmers are following the lead. Some have dipped sheep to kill parasites; many are culling poultry, pruning orchards and keeping farm records.

Mr. and Mrs. T. Johnson leave Tuesday afternoon for a week's vacation in Geston.

Worried Night after Night as health declined

"I suffered frequently from nervous headaches, and could not sleep well," says Mrs. Cora Dover, R. F. D. 2, Hickory Grove, S. C. "I was thin and pale. I was so weak I could scarcely walk. I tried several remedies but nothing seemed to help me. Night after night I worried because I could see I was going downhill. I had my children to look after, and I was afraid of them if anything happened to me. I began to take Cardui. It wasn't long until I was beginning to pick up. My strength gradually began to return. I rested better at night and was less nervous. I took several bottles of Cardui, and when I had finished taking it I was in fine health."

CARDUI Helps Women To Health

Take Theodor's Black-Braught for Constipation, Indigestion and Biliousness.

More per Gallon but LESS per Trip That's the economy of CONOCO-ETHYL GASOLINE

DURING the summer, when long motor trips are in order, a most important cost factor is wear and tear. Every time the motor knocks, it is undergoing unnecessary strain. Its life is being shortened—its resale value reduced. That's why we say, that in the long run, Conoco Ethyl Gasoline will cost you less per trip. Conoco Ethyl absolutely eliminates knocks. It delivers full power with every stroke of the piston. It gives lightning pick-up in traffic driving. In short, it provides a surge of power—up the hills or on the level—which keeps your motor gliding along with practically no effort. That's economy! Give Conoco Ethyl a trial. See how cool it keeps your engine, and experience the real satisfaction of having your car run as the manufacturer intended it should. You'll find a convenient Conoco Ethyl pump ready to supply you.

CONOCO ETHYL GASOLINE CONOCO ETHYL extra knockless mile

patches are also reserved.

LIFE-SAVING HEROES

It is significant that out of
a total of 101 persons so hon-
ored, 23 Texans received special
first-aid and life-saving hon-
ors from the American
Red Cross in its midwestern
division comprised of fifteen
states.

It might be argued that
Texas' long coast line and
numerous bathing beaches nat-
urally gave her a long lead
in such matters, but the 23
Texans thus honored hail
from every part of the state,
inland as well as coastal.

The Red Cross life-saving
and first-aid courses are im-
portant in an age when every-
body big enough to crawl into
a bathing suit goes in swim-
ming. A great many people go
in swimming and attempt
stunts that are for the exper-
ienced swimmers only. A few
good swimmers overestimate
their strength and come to
grief. Many fail to take even
elementary precautions.

Texas' 23 heroes saved
many lives, and the Red Cross
does well to honor them.

THE LEGISLATURE COMES ACROSS

In face of a determined fil-
luster that was broken up in
the small-hours of Sunday
morning, the senate passed
the four-cent gasoline tax and
the 50 per cent registration
fee reduction by a vote of 21
to 2—sufficient to put it into
immediate effect.

Monday the house lost no
time in adopting the senate
measure, also with enough
vote to make it immediately
effective. As soon as the gov-
ernor's signature is affixed, it
will become the law.

Under the terms of the new
law, gasoline buyers will pay
two cents a gallon more than
at present—a hundred per
cent increase. However, they
will pay just half the former
fees for registration.

As the gasoline tax is paid
by small degrees, only a few
extra cents a week to the av-
erage motorist, it will not
work a hardship on anyone.
The registration fees, coming
in a wad, have proved bur-
densome to many motorists,
and the fifty per cent reduc-
tion will be a godsend to
them. Thus, while he loses in
the tax he gains in the fees,
the automobile owner is apt
to be pretty well satisfied
with the legislature's action.

The new schedule will en-
able the highway commission
to carry on its construction
program with renewed vigor.
Texas is hellbent for paved
roads, and if future legisla-
tures prove as amendable as
this one, she will have them.
All the rag-chewing of earlier
days of various sessions will
be forgotten and forgiven.

Wichita county is hiring a
lairy expert to assist farmers
and dairymen with their prob-
lems, but Wichita isn't con-
fining his efforts to Wichita
county. Two or three adjoining
counties are cogs in the

Wichita dairy program, and
the expert will extend his ac-
tivities over these, too. That
is the newer spirit at work.
Town and county jealousy are
breaking down in face of de-
termined assaults from the
apostles of cooperation.

TEACHING EVOLUTION

By a narrow margin, the
house of representatives at
Austin adopted a resolution
condemning the teaching of
evolution in Texas public
schools. It had previously re-
fused to make such teaching
unlawful. Just before the
house adopted the condemna-
tory resolution, the author
of the bill asserted that evolu-
tion was being taught in the
Austin high school. The
school officials promptly de-
nied that evolution, either as
a fact or as a theory, is
taught.

Evolution is a question that
even the most profound sci-
entists are unable to agree on.
What qualification has a leg-
islature to decide a question
that baffles the scientists? To
close the schools to a discus-
sion of the theory of evolu-
tion (and evolution is noth-
ing but a theory) would be to
destroy a possible chance to
solve one of the scientific
world's most vexing problems.

The Book of Books has
withstood the assaults of en-
emies from within and with-
out for many thousands of
years. To believe, or effect to
believe, that the mere teach-
ing of a scientific theory
could destroy it is to display
a lack of faith in the power
of the gospel. It isn't the kind
of book that a theory can de-
stroy, or seriously damage.

The surest way to settle the
evolution question is to give
it a full, frank and unfeared
discussion. If it is right, it
will prevail and should pre-
vail. If it is wrong, it will dis-
appear.

OPINIONS OF OTHERS

TWO TERMS ENOUGH

—Terrell Tribune.
The J. T. Robison investiga-
tion gave a bill of health for
the land commissioner who
has held office for the
last 20 years or so. About the
worst thing that could be said
about that official was that
he had too little business
method in handling the af-
fairs of his office, he has
been loose in his business
deals. It is the result of keep-
ing a man in public office too
long. He gets to believe that
he is responsible to no one
and can do as he pleases with-
out being accountable to any
one and that he is above in-
vestigation by any power. No
man should be kept in office
longer than two terms. Make
a clean sweep of all those of-
ficers who have held office
longer than that time. It is
good for the state at large.
In fact, it would be a fine
thing if there were a regula-
tion in the constitution pro-
viding for such a regulation.
Two terms are enough for any
man. There is no need of any
one person having a monop-
oly on a public office.

Wibur Glenn Villa returns
from a world tour believing that
the earth is flat and he offers
15,000 to anyone who can convince
him that it's round. There's a nice
job for somebody.

A small town is one where the
editor remembers that a train was
five hours late six years ago yes-
terday.

If President Hoover wants dol-
lar-a-year men for his Farm Board,
he ought to be able to find any
number of farmers willing to ac-
cept a lucrative position such as
that.

A justice of the New York Su-
preme Court seemed surprised that
a man actually believed his wife
had bewitched him into marriage.
O, but they do, judge!

The way these collegiate shells
are sinking in the big races these
days, maybe we ought to have
Captain Fried come over and superin-
tend the affairs.

H. G. Wells says mankind must
be freed of illusions before war will
end. But there will always be peo-
ple who will bet on the horses.

OUT OUR WAY

THE GOOD SAMARITAN. BY J.R. WILLIAMS

Hollywood's Sights and Sounds

By ROBBIN COONS

HOLLYWOOD—A sign in the
Roosevelt's lobby halls a visiting
orchestra playing there as "blazing
a new trail across Hollywood's
night life."

To which might be added a large
and gleeful "Heh-neh." For, like
desert snow and arctic orchids,
here simply isn't any night life to
speak of, and why the "Heh-neh"
is mentioned in any company.
As pointed out by that debonaire
mistral of France, Maurice
Chevalier, who knows the night
life of Paris, Hollywood is a town
of work, not play.

"If you stay out late," he notes
with that million-dollar accent,
"you come to work next morning
with the long face, like this—and
you cannot work. All the parties I
have seen here have been nice, all
and quiet parties. And, yet, every-
where, people inest that Holly-
wood is wild!"

The Quiet Town
All Hollywood's European play-
ers might return home to spread
the truth about this little later than
9 o'clock town, but the legendary
wildness probably could not be
downed. But let the orchestra blaze
that new trail, if it can. Meanwhile
there remains probably only one
place in Hollywood where one can
get so much as a sandwich after
midnight—and that is the far-fam-
ed Henry's.

Of Chevalier, by the way, it is
interesting to note how fate, seem-
ingly perverse, awarded him ulti-
mate blessings as recompense for
past unkindness. If the singing idol
of France had not been wounded
in the war, and held captive by
the Germans more than two years,
he probably never could have come
to the golden pots of Hollywood.

During his captivity a friendly
British Tommy, also prisoner, help-
ed him realize his ambition to learn
English. When he was freed he
could speak the language as fluently
as today.

Last summer he was signed to
make a Hollywood talkie. Had
he not acquired mastery of Eng-
lish his usefulness in talkies here
would be nil—and he might never
have crossed the sea to captivate
America as well as France with his
charm. He is the living proof that
a foreign accent can aid a talkie
actor here.

Public Spirited
Pasty Ruth Miller says the only
difference between "silents" and
talkies, so far as actresses are con-
cerned, is that they now have to
worry about written lines as well
as facial and "figurative."

You won't hear a real explana-
tion of the farm bill until the cam-
paigning starts for the next con-
gressional elections.

Bo-Broadway

BY JOSEPH VAN RAALTE

By Central Press
NEW YORK, July 3.—Among the
speakeasies of the lower and mid-
levels of Manhattan it's called
"Smoke," because when you add
water to reduce the proof the liquid
becomes cloudy, or smoky.
It's precisely the same thing, with
the addition of a little caramel col-
oring, that the Lads from the Park
Avenue Orchid Belt pay the "Hello
Sucker" night club hostesses \$20
a bottle for. The caramel hides the
smoke.

HEAT WAVE FOR SURE!
All heat records in New York
were broken recently. Police Com-
missioner Grover Whalen was
photographed in his shirt sleeves.

A local Propaganda Purveyor is
cashing in on a new publicity stunt
based on the principle that the
whispered story receives reader
and more widespread credence than
the yarn megaphoned from the
households.
He has at present under way at
least two dozen Whispering Cam-
paigns and in the past two months
has employed the system to break
up a strike and to put over the
product of a large sales organiza-
tion in a district where trade had
fallen off.

Crowds of men and women ap-
pear daily to travel in pain
over carefully selected routes to
crowded places and to reveal over
and over an adroitly prepared pe-
ter affecting the thing to be e-
ploited.
Fifty "whisperers" were em-
ployed in a campaign for a recent
Broadway production. The fee was
\$9 a day for each "whisperer," 10
peripatetic tollers receiving \$5
this and the balance going to the
originator of the idea.

CONTRAST
Being uninteresting is the un-
pardonable sin in the Capital of
the Commonwealth.

The father of four children, me-
chanic, ill, penniless and out of
a job, swallowed up in the im-
mense indifference of things,
sought the solution of his earthly
troubles at the muzzle of a re-
volver.

A few blocks distant from the
suicide's squalid home, in the
charity ward of a hospital lay a
pauper lad dying of back fever—
probably the only case of its kind
in the country.

The fact that a 14-year old boy
should die from want of blood to
combat a parasite the doctors want
to isolate, arouses popular imagina-
tion to an extent that prompts 125
men and women to offer their
money, their time and their blood.

You can be starving to death in
a tenement room in New York, out
of a job and friendless, and the
town will pass you by with a shrug.
But end your need with a shrug.
'east touch of the bizarre and
they'll swarm like flies around a
sugar bowl.

TRUTH IS STRANGER
THAN FICTION

The three Warner Brothers,
Harry, Jack and Abe, who gave
Vitaphone, first practical motion
picture talking device, to the world,
and who are responsible for the
present talkies craze and the kill-
ing of the silent picture, admit that
they have so arranged their affairs
that irrespective of what happens
to them financially, each of them
will have an income of \$1,000 a
day for life.
Five years ago they could barely

meet the payroll of their then
small organization.

H. M. Warner, president of the
company, frankly tells of the time
when a faithful employe on the
Hollywood lot mortgaged his house
to help the Warners meet an obli-
gation.

Vera Gordon, the screen actress,
according to H. M., also lent them
\$19,000 in a pinch. All Vera had
in the world was \$20,000.

The Hollywood employe has a
position for life. And Vera Gordon
happened to be "in the know" and
cleaned up \$60,000 in the Warner
Brothers stock rise.

PUT IT DOWN
The week's best simile:
"His gold teeth gleamed as
bright as sunshine on a well-pol-
ished cuspidor."

Talks To Parents

"LIKE SISTERS"
By Alice Judson Peale

"No, I couldn't think of letting
my daughter go away for the sum-
mer to camp or anywhere else. You
know we are really more like sis-
ters than like mother and daugh-
ter. We're real chums. She tells
me everything. I know she would
never keep anything from me. And
I'm perfectly sure she would rather
stay here at home with me than
go anywhere else in the
world."

I don't believe it. You and she
may be the best of friends, but if
your daughter is a normal, happy
girl she must have hopes and
plans and wishes in which you can
not possibly play any part.
I am sure she does not tell you
everything. There are whole
flocks of dreams and aspirations
she cherishes in the privacy of her
own thoughts. Nor does she truly
prefer to stay at home with you.
She would love to go to camp or
spend the summer visiting her
friends. She wants to be with peo-
ple of her own age, playing the
game with them, tasting life with
other young folks as eager and
fresh and unknowing as she.

There is something very much
amatter with any girl who really
wants to spend most of her time
at home with mother. She is not
learning to live. She is not learn-
ing contacts. She is not learn-
ing the art of social relationships
is not developing the resources
in herself. She is not learning
independence which should
w with each year of her prog-
ress toward womanhood.

Your daughter really does rep-
resent to you as another, look-
ing for the same as you, and you
to help her into happier paths.
If, as is the case in nine times
of 10, your own wish speaks
stronger than in fact, be honest
with it. Ask to yourself that
are selfish that you are trying
to save your skin.

Give your daughter her freedom,
as you would it to your son,
and let her bear the burden of pre-
paring to meet it and to you that
would rather have you than
rest of the world.

Senator Glass complains that in
Republican campaign discus-
sions only the prohibition law was
treated as a subject for law
reformation, and the crime
commission is left to take in more
pats. May the Republicans
found that there are actually
crimes not caused by probi-

WASHINGTON LETTER

BY RODNEY DUTCHER
NEA Service Writer

WASHINGTON—Anyone who
keeps an eye on the news out of
Washington must be realizing that
we are living in an age of propa-
ganda and that there is worse and
more of it from week to week.

President Herbert Hoover, how-
ever, seems to be one who doesn't
altogether approve of it—at least
as far as the federal government
is concerned.

Within the last few days he has
knocked out two very extensive
propaganda plans. One of them
he killed completely; upon the
other he simply frowned sternly,
but a presidential frown can be a
withering blight, and this second
plan is weak and pallid right now.

The government, of course, has
been propagandizing for some
time in one way or another, with
the War and Navy Departments
laying down the heaviest bar-
rages; but the recent announce-
ment that the Prohibition Bureau
was going to spread propaganda
in favor of prohibition in the pub-
lic schools goes beyond them all.

A Widespread Program
Mr. Hoover lost very little time
in coming down on this scheme
with both feet. He put the clamps
on it so effectively that even the
pamphlets that were drawn up to
aid in the good work are not to see
the light of day. But, even though
dead, the plan is worth examining,
just as an instance of the extent
of the propaganda machinery that
could, under certain conditions, be
put to work by Uncle Sam.

The Prohibition Bureau's educa-
tional campaign in the schools was
by no means to have been limited
to preaching the virtue of law ob-
servance and law enforcement. The
bureau went so far as to outline
methods by which to inject the
propaganda into classes in arith-
metic, English, history, drawing,
current events and various other
subjects, and all of this propaganda
was designed to prove that prohibi-
tion was correct in theory and suc-
cessful in operation.

Good or bad, this was certainly
a drastic step for the government.
Nothing like it had ever been pro-
posed before. The navy and war
departments have persistently tried
to convince the public what fine
things armies, navies and prepa-
redness are, but attempting to
prove to school children the wis-
dom of one specific law, for the
federal government, something new.

Had No Authority
There is, of course, no federal
authority which the federal gov-
ernment could have made courses
in prohibition compulsory. School
children in most places are taught
the desirability of law observance,
and some states provide for teach-
ing them the evils of alcohol, but
no state law to date has provided
that the young idea shall be im-
pressed with the goodness or the
badness of any given statute.

However, the scheme is thor-
oughly dead—killed by half a dozen
words from the White House.
The other proposition was less
formal and direct. It consisted of
an appeal from the National Re-
publican magazine for funds to com-
bat "radicalism" and support the
policies of President Hoover. This
seemed to be something new, too.

SPRING VALLEY, N. Y.—Mrs.
Rosa Peters, 44, and her 17-year-
old daughter have been graduated
together at the Spring Valley high
school. Mrs. Peters, wife of a Con-
gregational minister, took a four-
year course in order to qualify for
a position as music teacher in the
public schools.

Did you ever stop to think
Edson R. Waite
Shawnee, Okla.

By Edson R. Waite, Shawnee, Okla.
GEORGE CROSSIE, EDITOR
OF THE CORK (IRELAND) EX-
AMINER, SAYS:
"Did you ever stop to think—
indeed I am quite certain that you
did—of where you can spend that
month out of the twelve that is so
essential to all the busy people
That month that has to fit you for
the strenuous period when life is
of the get up and get order; and
the energy thrown into work is on-
ly equalled by the feverish rush that
is entailed by the amusements of
today."
"The change that we look for-
ward to as a rule offers an little
rest to the tired brain as the most
grinding day on the mart, and a-
bout as much quiet as the revelry
of the ballroom when the saxophone
is discoursing its sweetest harmo-
nies. There is little doubt that what
the average business man requires
to sooth jarred nerves, to refresh
the faded hard thinking brain, is
peace, and the curious and unbel-
ievable thing to the average, but
yet it is literally true, is that the
best part of the world to enjoy per-
fect peace of all places is Ireland.
Why its very name, you reply,
speaks of anger and hate and the
stories we have heard and read
about the doing in those parts sug-

ONE OF THE SOUTH'S PROSPEROUS COTTON MILLS

While a party of Big Spring business men were on an industrial inspection trip to Sherman last week, they had privilege of visiting and inspecting the Sherman Manufacturing Company's Cotton Mill, which operates at full capacity throughout the year.

More than 150 men and women are employed daily in turning out the cotton products from this mill pictured above. Like other plants in Sherman, the cotton mill has been developed from a small institution and is still directed and managed along conservative lines. The chief aim of managers is to distribute their production equally over the year to avoid idle employees.

THREE THOUSAND FOOT POTENTIAL PRODUCTION DROPS 5000 BARRELS

Twenty-Two Hundred Pay Possible Yield Takes Big Jump From 11,318 Bbls. To 18,057 Barrels In July

Although potential production from the 3,000 foot pay in Howard and Glasscock counties dropped nearly 5,000 barrels in one month, potential from three deep pays affected by proration orders in this area stayed at 56,476 barrels with an allowed yield of 37,500 barrels daily for July, according to figures released by E. E. Andrews, field proration umpire.

Only two new wells were added during the month bringing the total to 118 as compared with 116 in June. Twin wells are still allowed to produce 50 per cent of their combined potential while all other wells, meaning one to each 40 acres, are allowed to produce 60 per cent of their potential gauges.

In spite of short potentials from 3,000 foot wells, that pay horizon continued to lead all others by a large margin. However, the 2,200 foot horizon increased its potential from 11,318 barrels in June to 18,057 barrels for this month. Potential from the 2,500 foot horizon last month was 11,408 barrels as compared with 4,494 barrels in July.

Potential gauges of 118 wells governed by proration rules, lease numbers, where located, well number and allowed production during the month of July as compiled by Mr. Andrews, proration umpire, follow in alphabetical order of companies in reference to the various pay levels.

Three Thousand
Amerada Petroleum Company's Nos. 1 and 7 Roberts, section 137, block 29, potential 700 barrels, allowed 420 barrels; No. 3 Roberts, potential 400 barrels, allowed 280 barrels; No. 4 Roberts, potential 300 barrels, allowed 210 barrels; No. 6 Roberts, potential 400 barrels, allowed 280 barrels.

American Maracaibo's No. 1-B
Settles, potential 48 barrels, allowed 45 barrels; No. 1-D Settles, section 156, block 29, potential 432 barrels, allowed 302 barrels; California Oil Company's No. 1-D Roberts, section 137, block 29, potential 1,140 barrels, allowed 798 barrels.

Cosden & Company's No. A-1-D
Roberts, section 129, block 29, potential 160 barrels, allowed 160 barrels; No. A-2 Roberts, potential 120 barrels, allowed 120 barrels; No. A-3 Roberts, potential 160 barrels, allowed 160 barrels; No. A-4 Roberts, potential 180 barrels, allowed 180 barrels; No. D-1 Roberts, section 137, block 29, potential 50 barrels, allowed 50 barrels; No. D-2 Roberts, potential 50 barrels, allowed 50 barrels.

R. Clay, section 135, block 29, potential 1,080 barrels, allowed 756 barrels; Magnolia Petroleum Company's No. 1 Roberts, section 138, block 29, potential 806 barrels, allowed 564 barrels; Nos. 2 and 14 Roberts, section 137, block 29, twin wells, allowed 617 barrels, allowed 370 barrels; No. 3 Roberts, potential 72 barrels, allowed 72 barrels; Nos. 5 and 8 Roberts, sec-

CONTRACTS TENTATIVELY ARE AWARDED ON CRAWFORD ANNEX

Tentative awards for construction of the Crawford Hotel annex, a seven story structure adjoining the present building on the north, were made to Albert L. Randall, general contractor of Amarillo; Martyn Brothers, plumbing and heating contractors of Dallas; and the Sun Electric Company of Abilene, when bids were opened Friday afternoon.

259 Visits Made During Month By Howard County Health Nurse

A total of 259 visits have been made in the month of June according to a report submitted by Mrs. M. E. Showalter, public health nurse. Calls in pre-natal cases were 29; natal, one; post natal, 3; infant and pre-school, 147; school, 61; and general case visits, 18.

Building Permits Here For June Total \$29,450; Large Jobs Coming

Though permits were not listed for several large structures soon to be started, including the Texas & Pacific's freight building to cost approximately \$85,000, total of permits to build issued last month represents expenditure of \$29,450, according to records in the city secretary's office.

Permits issued during June included:
Mrs. M. L. Giles, 307 Runnels street, \$1,000.
Crow & McAlpine, south 100 feet of block 30, College Heights, \$1,000.
E. F. Davies, moving eight cabins from Forsan to Lakeside addition, \$1,000.
C. S. Jenkins, lot 14, block 2, W. J. Gordon addition, \$250.
E. H. Josey, lot 2, block 24, \$3,000.
E. C. Bunch, lot 7, block 32, Government Heights addition, \$3,200.
J. O. Mack, 610 Nolan street, \$2,000.

Green Oil & Refining Company's
No. 3 H. R. Clay, section 127, block 29, potential 60 barrels, allowed 63 barrels; Magnolia Petroleum Company's No. 7 Roberts, section 136, block 29, potential 260 barrels, allowed 200 barrels; Nos. 11 and 18 Roberts, section 136, block 29, potential 300 barrels, allowed 180 barrels; No. 12 Roberts, potential 100 barrels, allowed 100 barrels; No. 17 Roberts, potential 100 barrels, allowed 100 barrels; No. 19 Roberts, potential 132 barrels, allowed 128.2 barrels; No. 5 Settles, potential 120 barrels, allowed 120 barrels; No. 6 Settles, potential 50 barrels, allowed 50 barrels; No. 7 Settles, potential 700 barrels, allowed 700 barrels.

Howard County Oil Corporation's
No. 1 Kloh, Rumsey and Abrams, section 5, block 32, potential 1,320 barrels, allowed 924 barrels; Humble Oil & Refining Company's Nos. 1 & 2 W. R. Settles, twin wells, section 4, block 32, combined potential 1,134 barrels, allowed 832 barrels; No. 3 Settles, section 132, block 29, potential 75 barrels, allowed 75 barrels.

American-Maracaibo No. A-1-W
R. Settles, section 6, block 32, potential 1,228 barrels, allowed 859 barrels; No. A-2 Settles, potential 500 barrels, allowed 350 barrels; Kodaks and films - Cunningham & Philips - Adv.

MONCRIEF TO START TEST IN BORDEN

Work on digging a wash pit for Moncrief et al's No. 1 Munger in Borden county is well underway, according to information relayed from that county to Big Spring this morning and indications are the wildest test will be drilling before the latter part of July.

No. 1 Munger is located 1,320 feet from the south and west lines of section 14, block 31, township 4 north, T & P Ry. Co. survey and is near the Gall community. It was stated, Humble Oil & Refining Company is understood to have purchased or acquired a half interest in the Moncrief block.

In the same county Tens & Wheeler's No. 1 Long, 1,320 feet from north and east lines of section 27, block 30, township 3 north, T & P Ry. Co. survey is completing preparations to drill after spending several weeks moving in materials, constructing a rig and rigging up.

Prize Leghorn Hen Lays Infertile Eggs

FLINT, Mich. (AP) - Maid of Flint, a prize White Leghorn hen in the flock of the Kilbourn poultry farm, has given poultry scientists a new problem to solve.

She produced 342 eggs in 365 days in the egg-laying contest at Georgia agricultural college last year but few of her eggs will hatch - only 11 out of 100 this year.

Most of her eggs have been infertile despite the frequent changing of roosters. No fertile eggs were produced from several matings.

Dr. E. G. Kilbourn, her owner, has enlisted the aid of Michigan state college specialists in an effort to determine whether Maid of Flint requires a different ration than other hens on account of her high egg production or whether certain physical conditions are responsible for the infertility.

Nomadic Class to Tour Nebraska In Study

LINCOLN, Neb. (AP) - A nomadic summer school class of the University of Nebraska will travel 1,800 miles through the state this summer studying crop and soil problems first hand under the direction of Dr. F. D. Keim of the college of agriculture.

The class, limited to 20 people, will leave here July 29 and return August 10. The tour has been arranged for the purpose of studying the principal geographic regions and the type of soils and farming found in each.

TWO MOUNTAIN CLIMBERS DIE

TACOMA, Wash. (AP) - July 3 - Forest Greathouse, football coach at Lincoln High School, and former team mate of "Red" Grange at the University of Illinois, were killed when a party of six mountain climbers was swept into a deep crevasse at the 13,000 foot level on Mount Rainier yesterday. It was learned here today.

The climbers were returning from the first attempt of the season to scale the mountain when they plunged into the crevasse above Gibraltar rock Tuesday. Greathouse was employed by the Mt. Rainier Park company as a guide during the summer. Wetzel was a visitor.

The known injured are: L. H. Brigham, Seattle, veteran summit guide and athletic director at Garfield High School, and Robert Strobel, Tacoma, assistant guide. The two other members of the party, the extent of whose injuries, if any, had not been determined, were D. Yancy Bradshaw, Cambridge, Mass., and E. P. Weatherly, Kansas City, Mo. They were visitors at the park.

Legion Names Trio To Lead Port Program

A committee of three men was appointed last night when the Frank Martin Post American Legion met to adopt plans to assist in dedicating the Big Spring airport Aug. 24 or 25.

Fred Keating, Eck Lovelace and Yuel Robb were named on the committee and another meeting called next Monday night, July 8, at 8 o'clock in the chamber of commerce office. All members of Frank Martin Post are urged to attend next Monday's meeting when final plans as to the port legions will be decided.

After considering the airport question, Fred Keating was elected adjutant of the local post. Mr. Keating is superintendent of the government experiment station north of Big Spring.

SHERIFF'S SALE

The State of Texas, County of Howard: J. J. Slaughter, Sheriff, by A. J. Merrick, Deputy. Notice is hereby given that by virtue of a certain Order of Sale issued out of the Honorable District Court of Howard County, on the 24th day of May, 1929, by J. I. Pritchard, Clerk of said Court, for the sum of \$297.60, and costs of suit, under a judgment in favor of Albert M. Fisher Co. in a certain cause in said Court, No. 1406, and styled Albert M. Fisher Co. vs. S. L. Everhart, placed in my hands for service, I, Jess Slaughter, as Sheriff of Howard County, Texas, did on the 26th day of June, 1929, levy on certain Real Estate, situated in Howard County, Texas, described as follows, to-wit: The middle 50 feet of Lot 3, Block 82, Big Spring, Howard County, Texas, and further described as follows:

Beginning at a point in the west line of said lot 3, just 50 feet North of the southwest corner, thence north along the west line 50 feet to a point for corner; being Northwest corner of said parcel conveyed by Margaret A. Clarke and husband, John Clarke, thence east parallel with north and south lines the full length thereof, thence south along the east line 50 feet for corner; thence west with north and south lines to place of beginning, and levied upon as the property of S. L. Everhart.

And that on the first Tuesday in August, 1929, the same being the 6th day of said month, at the Court House door of Howard County, in the City of Big Spring, Texas, between the hours of 10 a. m. and 4 p. m., by virtue of said levy and said Order of Sale, I will sell said above described Real Estate at public vendue for cash, to the highest bidder, as the property of said S. L. Everhart.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale in the Big Spring Herald, a newspaper published in Howard County, Texas, my hand, this 26th day of June, A. D. 1929.

JESS SLAUGHTER, Sheriff of Howard County, Texas. By A. J. MERRICK, Deputy.

SHERIFF'S SALE

The State of Texas, County of Howard: J. J. Slaughter, Sheriff, by A. J. Merrick, Deputy. Notice is hereby given that by virtue of a certain Order of Sale issued out of the Honorable District Court of Howard County, on the 24th day of May, 1929, by J. I. Pritchard, Clerk of said Court, for the sum of \$1,168.95, and costs of suit, under a judgment in favor of C. A. Hodgson vs. S. L. Everhart, placed in my hands for service, I, Jess Slaughter, as Sheriff of Howard County, Texas, did on the 26th day of June, 1929, levy on certain Real Estate, situated in Howard County, Texas, described as follows, to-wit: The middle 50 feet of Lot 3, Block 82, Big Spring, Howard County, Texas, and further described as follows:

Beginning at a point in the west line of lot 3, just 50 feet North of the southwest corner, thence north along the west line 50 feet to a point for corner; being Northwest corner of said parcel conveyed by Margaret A. Clarke and husband, John Clarke; thence east parallel with north and south lines the full length thereof, thence south along the east line 50 feet for corner; thence west with north and south lines to place of beginning, and levied upon as the property of S. And that on the first Tuesday in August, 1929, the same being the 6th day of said month, at the Court House door of Howard County, in the City of Big Spring, Texas, between the hours of 10 a. m. and 4 p. m., by virtue of said levy and said judgment, I will sell said above described Real Estate at public vendue, for cash, to the highest bidder, as the property of said P. S. Wilkins.

And in compliance with law, I give this notice by publication, in the English language, once a week for three consecutive weeks immediately preceding said day of sale, in the Big Spring Herald, a newspaper published in Howard County, Texas, my hand, this 26th day of June, A. D. 1929.

JESS SLAUGHTER, Sheriff of Howard County, Texas. By A. J. MERRICK, Deputy.

APPRECIATIVE AUDIENCES AT REVIVAL HERE

Large and appreciative audiences continue to greet the speaker at each service of the revival at the Church of Christ.

The question for consideration last night, "What Will You Do With Jesus?" Mr. Shepherd presented many things concerning Christ and man's attitude toward him, but reached his climax in the question of Pilate to the Jewish court.

He said "many of us would like to pass the question up for the present, or evade it and assume a neutral position." But he called attention to the fact that there is no such position relative to The Christ.

Christ said, "He that is not with me is against me, and he that gathereth not for me, scattereth abroad." Then, Jesus taught that your attitude toward him was either a negation or an acceptance of him. When we say that we have not the time to serve him, or do what he would have us do: it is a rejection of him.

The only way that we can accept him, is to accept his teaching. When we do what he tells us to do, or go where he would have us go, we are crowning him King in our hearts, and that is what he wants us to do.

Nine-Tenths Preventable

Nine-tenths of all the diseases of the American people can be traced directly to constipation, doctors say. Constipation throws into the system poisons which taint and weaken every organ of the body and make them easy victims for any germs which attack them. Prevent constipation and you will avoid nine-tenths of all diseases, with their consequent pains and financial losses. Hertzian, the good old vegetable cathartic, will prevent constipation in a natural, easy and pleasant way. Get a bottle today from Cunningham and Phillips and J. D. Biles - (Adv.)

Mesdames Edwards and Lees Delightfully Entertain At Two Lovely Events Thursday

Mesdames M. M. Edwards and Herbert Lees were joint hostesses at two lovely parties Thursday, when delighted groups of friends were entertained at a morning and an afternoon bridge event at the home of the former hostess in Fairview Heights.

The Edwards home was enhanced in beauty with the addition of grouped masses of Shasta daisies, sinias and roses, with the colors pink and green brought out with delicate effectiveness.

Guests were met at the door by Mrs. Will Knox Edwards, Mrs. M. M. Edwards and Mrs. Lees. Assisting the hostesses at the morning event were Mesdames Ashley Williams and Robert Piner. Mrs. Williams, Mrs. Roger Gallemer and Mrs. Harvey Williamson were assistants to the hostesses at the afternoon bridge. A dainty salad and ice cream course was served.

Mrs. Richard Scheig was announced winner of the high score prize in the morning while Mrs. Harvey Williamson won high following afternoon games. Each was presented with a set of delicate iridescent sherbet dishes wrapped and tied in colors of green and pink. Mrs. Bernard Fisher won high cut prize and was given a novelty handkerchief as Mrs. V. V. McGrew who won the similar honor in the latter party.

Guests at the morning party were: Mesdames J. D. Biles, Oren-

Personally Speaking

Mrs. E. Slaton is leaving Sunday for a two week's vacation to be spent in Tyler.

Bobbie Mills spent the week-end in Ackerly visiting a friend, Tom Payne.

Miss Lorine Read is the guest of her grandmother, Mrs. W. W. Ellis in Dallas.

Mr. and Mrs. J. J. Throop plan to leave Sunday morning for a ten days' visit in Decatur and Waco.

Miss Opal Holstine has returned home from a vacation trip to Corpus Christi. She was a member of a party which included Mr. and Mrs. Russell Edgerly and Orville Viers of Miami, Okla.

Miss Amanda Montgomery plans to leave Sunday morning for Decatur to transact business.

Miss Anne Agnell is expected to return home Sunday evening to spend two weeks with her mother here, Mrs. Della Agnell. Miss Agnell is payroll clerk for the Travelers Insurance in Dallas. Walter C. Hornaday also of Dallas will accompany Miss Agnell and will spend a few days here as a guest of the Agnell family before leaving for a camping trip in New Mexico.

Miss Violet Holstine, who has been attending the Kansas State Agricultural College at Manhattan, Kansas, is the guest of her parents here, Mr. and Mrs. F. R. Ward of 107 East Ninth street.

Mr. and Mrs. B. F. Roberts have returned from a three months' trip to California, returning by way of the Grand Canyon and Roswell, New Mexico. They attended the Shriners' convention in Los Angeles the early part of the month.

Miss Anita Musgrove has accepted a position in the business office of the Albert M. Fisher department store during the absence of Mrs. Alice Craven who will leave soon for a vacation.

Aleph Mayer of Henderson, Ky., is the guest of Mr. and Mrs. Albert M. Fisher of Rannels street. Mr. Mayer is Mr. Fisher's brother-in-law. Mr. Mayer has not visited in Big Spring for the last seven years and finds the place greatly improved, he says.

Miss Virginia Hale of Midland who has been the guest of Miss Anita Musgrove for the last week returned to her home Friday evening.

Miss Lela Mae Henderson of Odessa is the guest of Miss Stella Nash of Gollad street.

Mrs. Paul Moss of Odessa is the guest of Mrs. Quinn and Mrs. Boggs at the Tex hotel.

Mr. and Mrs. J. E. Bucey left Saturday afternoon for Rising Star where they will be the guests of Mrs. Bucey's parents, Mr. and Mrs. Dock Davidson for a week.

Mr. and Mrs. C. R. Dunnagan returned Friday from Savoy.

R. O. Smith of San Angelo is in Big Spring on business.

Rufus Elliott has returned from Plainview.

Miss Jena Jordan left early Saturday morning for Christoval to spend the week end with her father, T. E. Jordan and family, who have been there for the last few days.

L. C. Dahme returned Sunday from San Antonio and Cuero where he has been the guest of relatives several days. Mrs. Dahme, who accompanied him remained in Cuero for a longer visit.

Cecil Leatherwood, son of Mr. and Mrs. P. C. Leatherwood, underwent an operation in a local hospital Sunday and is reported resting well.

Mr. and Mrs. D. J. Shepherd of Snyder were the week-end guests of Mrs. Shepherd's parents, Mr. and Mrs. Gene Crenshaw.

Mr. and Mrs. J. F. Laney and daughter Sarah Frances returned Sunday night from Fort Worth where the child underwent an operation following an accident incurred in Denton when they were guests of relatives. The child has recovered.

Mrs. Lula James is attending business matters in Abilene and is to return within a few days.

Miss Letha Whitmire has returned from a two weeks' vacation in Fort Worth and points in East Texas.

Mr. and Mrs. W. L. McAllister left Monday for a vacation trip in Corpus Christi and San Antonio.

Mr. and Mrs. Newt S. Jennings were expected to return today from Abilene where they attended the show of the Kolster Radio company. They also attended the

'Frisco Girl Prodigy' Is College Graduate At 17

By NEA Service
SAN FRANCISCO, June 29—If you should ask Betty Ford, 17, how it feels to be a laboratory specimen continuously under the microscope (figuratively speaking) of learned professors, she probably would answer with another question—how does it feel to be a normal human being?

For Betty, after a most amazing childhood as a girl genius, has just been graduated from Stanford University, after spending only six years in school in all her short life, three of them in the high school department of two private schools and three at the university. She is the youngest girl graduate in the history of that institution.

An Infant Prodigy
Since she was seven years old, Betty, only child of Dr. and Mrs. Campbell Ford, has been under the constant attention of Professor Lewis I. Terman, one of the world's most famous psychologists and an authority on gifted children.

The story of her infancy and childhood is remarkable.

At seven months she walked, at three years she could read, at seven years she had a vocabulary of 13,000 words, which is greater than that of the average college graduate. By the time she was 10 she had read 1400 books.

Betty reads with a "photographic eye"—which means one glance at a page and she has scanned it completely. Thus, her reading is much more rapid than that of others.

Masters Violin, Piano
One of the astonishing feats of her childhood was her ability to play the violin the first time she ever took the instrument into her hands. The initial effort was far better than most children do after months of teachings. Similarly, she mastered the piano.

Betty had no formal schooling until she was 11. Instead, she was turned loose in a well-stocked home library and permitted to browse with an occasional reading suggestion from her mother. Then, at 11, she began a high school course in a private school. Next, she went to the Anna Head high school in Berkeley, graduating there at 14 and passing the rigid entrance examinations for Stanford University.

Betty Ford, as she appears today at 17 and as she appeared at the age of 10, when she had read 1400 books.

Poet, Dancer, Swimmer
At Stanford she completed the usual four-year course in three years and was graduated at an age younger than that at which the average student enters. Her course was a broad one with plenty of science to balance her pleasure groups in languages and literature.

She draws and paints and just now she is planning to write a novel. She also writes poetry. None of her classmates suspected her genius until several of her poems were mixed with those of Tennyson, Blake and Longfellow, the names of the authors omitted and submitted to literary students for criticism. Her work was given a rank high in the list.

Betty sacrificed none of the campus enjoyments for the sake of scholastic honors. She dances, swims, plays tennis and is popular at social events.

Popular Big Spring Girl Weds

Bringing to a climax a varied and interesting list of social events in which she has been feted the last two weeks, Miss Zou Hardy became the bride of Mr. Robert Parks in one of the prettiest weddings of the season at 9 o'clock Friday evening in the Methodist church. Rev. R. L. Owen, pastor of the Presbyterian church, read the always lovely ring ceremony in the presence of a large attendance of friends of the young couple.

Church Beautiful
The church was simply but fittingly decorated with ferns, gladioli and peonias. Palms and ferns flanked the altar and formed the setting for the profusion of pink and cream colored peonias which banked the center of the church. A section of the pews was reserved for relatives of the bride and bridegroom.

The bride was attired in a handsome model of beige georgette with beque hat and accessories. She carried a sheaf of pink sweetheart roses and maiden-hair ferns, tulle tied. Miss Lolla Coffee of Fort Worth, aunt of the bride was the only attendant. She wore a frock of Alice Blue crepe with cream accessories and carried a sheaf similar to that of the bride. Mr. Tyece gave his sister in marriage. The bridegroom was attended by Mr. Hiram Crowder.

Mrs. Roger White of Amarillo, sister of Mr. Parks, played as professional the wedding march from "Lohengrin," and as recessional Mendelssohn's Wedding March. She played softly during the ceremony from Schubert's "Serenade."

Two vocal solos "Oh, Promise Me" by DeKoven, and "Thank God For a Garden" by Del Riego were sung by Mrs. J. B. Whisenant preceding the reading of the ceremony.

Ushers
Ushers were: Messrs J. Y. Robb, Carroll Barnett, Fred Hopkins and Jimmy Wilson.

Out-of-town guests at the wedding included the following: Mrs. W. E. Mercer and son William Elmer Mercer, Mrs. Margaret Neel and Lilburn Neel, Miss Lolla Coffee, and Mrs. L. Coffee all of Fort Worth. Mrs. Roger White of Amarillo and Mrs. Mildred Burman of Dallas, sisters of the bridegroom.

Mrs. Parks wore a navy georgette ensemble as going away costume with accessories of sun tan. Mr. and Mrs. Parks left immediately following the wedding for Galveston and other points in South Texas. They will return within two weeks and will be at home to friends in their new home at 700 West Fourth street.

Mrs. Lula Hardy, mother of the bride, was hostess at a reception following the ceremony when about 60 guests were received and where the wealth of handsome wedding gifts was displayed. Pink and green was used in the color scheme in the Hardy home, refreshments carrying out the same color combination.

Popular Here
Mrs. Parks is one of the most popular young ladies in Big Spring. She was born and reared here and was graduated at the Big Spring high school with the class of 1918, having that year been chosen the most popular girl in the high school. She has been enrolled as a student in the College of Industrial Arts, Denton; in the Texas Christian University, Fort Worth, and the University of Colorado at Boulder.

Colo., and in Valparaiso University in Valparaiso, Indiana. She has been a teacher in the Big Spring grade school the last five years. Mrs. Parks will continue to teach in Big Spring.

Mr. Parks is employed by the Texas and Pacific Railroad, and is the son of Mr. and Mrs. J. R. Parks of Lancaster street.

Among the relatives who attended were Eulalia Jones, daughter of Mrs. W. E. Mercer, Mesdames W. E. Locklear, W. E. Fleenor, W. E. Johnnie Franklin, Razor blades, Cunningham.

Mrs. McGrew Honors Group Of Out-Of-Town Visitors

Complimentary to a group of out-of-town guests, Mrs. V. V. McGrew entertained at one of the stellar events of the present week in Big Spring society, Tuesday morning at the clubhouse of the City Federation when she was hostess to 16 tables of bridge at a lovely summertime breakfast-bridge.

Mrs. McGrew named as honor guests, her mother, Mrs. L. J. Martin, and her sister, Miss Eula Pearl Martin of Eldorado, Ark., her aunt, Mrs. A. Thompson and her daughter, Mrs. B. L. McWilliams of Little Rock, Ark., all of whom are her house guests.

Wicker baskets filled with giant wild sunflowers formed the central note of the unusual color combination of orchid and yellow. Orchid table covers and orchid pansies aided in adhering to the pretty decorations. Hanging baskets of summer flowers in yellow and low bowls of pansies were set on the stage of the clubhouse to enhance the effectiveness of the color idea.

High and cut prizes were wrapped in crepe paper and tied with a fluffy bow of tulle, high prize being wrapped in yellow and cut in orchid. High score award was a velvet and satin living room pillow which was presented to Mrs. Grover Cunningham, while cut prize, a silver casserole, went to Mrs. Julian Eckhaus. Honor guests were remembered with lovely novelty sports costume handkerchiefs.

The three-course breakfast was carried out in orchid and yellow and orchid pansies given guests as plate favors.

Guests were met at the door by Mrs. McGrew and the honor guests, Mrs. M. M. Edwards and Mrs. Richard Scheig assisted Mrs. McGrew in serving the delicious breakfast course.

Guests were as follows: Mesdames Harvey Williamson, E. H. C. Greedy, L. M. Barker, Herbert Lees, B. G. Sharpe, M. H. Bennett, H. C. Richards, L. D. Davenport, V. H. Flewellen, Garland Woodward, C. L. Crowell, W. D. McDonald, R. H. Everett, Peta Schoeneck, A. M. Evans, J. B. Wisenart, Grover Cunningham, Henry Douglas of Henrietta, Wilburn Barcus, Will Knox Edwards, Walter Pike, H. I. Stahlman, M. M. Edwards, H. D. Cowden, Albert M. Fisher, Steve Ford, R. E. Kimbsey, L. J. Martin, Homer McGraw, Harry Lester, Sam Brown, Gene Sweeney, F. C. Kendall, V. V. Strahan, Seth Parsons, Verd Van Gieson, J. B. Young, J. L. Webb, H. H. Lewis, L. C. Moore, Bernard Fisher, Julian Eckhaus, Henry DeVries, Joe Fisher, Shine Phillips, Wood, W. T. Reid, E. H. Happel, J. J. Hair, D. E. Waggoner, W. M. Ford, Charles K. Bivings, McCall Gary, Fred C. Hopkins, J. B. Claire, Richard Scheig, J. D. Oxsheer, R. Richardson, Frank Jones, and Misses Mary Happel, Martha Edwards, Mamie Hair, Emily Bradley, and Dorothy Oxsheer, and the honor guests.

Miss Purdue Is Bride Of Local Man

Robert W. Jacobs, business manager of the Big Spring Herald, was married to Miss Irene Purdue of San Angelo in a wedding which took place there at 5 o'clock Sunday afternoon. Rev. B. O. Wood, pastor of the First Presbyterian church of that place, performed the ceremony.

Mrs. Jacobs is the daughter of Rev. and Mrs. J. H. Purdue of Topeka, Kas. Mr. Jacobs is a graduate of the University of Missouri with the class of 1926. Until he became business head of the local paper, Mr. Jacobs was classified advertising manager of the San Angelo Standard-Times.

They will be at home after July 4 in their new home at 506 San Antonio street in Edwards Heights.

Mrs. Felton Smith Rook Party Hostess

AIR MAIL SERVICE BECOMES TWICE AS USEFUL FROM HERE

Improved all mail service, affording connection from Big Spring at Fort Worth with northbound planes both morning and evening, has been instituted by the postoffice department, according to E. E. Fahrnenkopf, postmaster here.

Airmail posted here by 10:30 a. m. will leave Fort Worth on the night plane at 8 p. m. and arrive in New York at 6:45 p. m. the next day.

Air mail placed in the Big Spring postoffice by 11 p. m. will leave Fort Worth by plane early the following morning and arrive in New York at 8 a. m. the second day after departure from Big Spring.

Time required for transmitting air mail from Big Spring to New York is 22 hours less than required by rail alone. Heretofore air mail connection has been available at Fort Worth only once daily.

Lure Of City Means Nothing To U. S. 4-H Club Champions

state convention of the Croaley Radio dealers in Waco.

Pete Sellers left Monday morning for Ennis where he will be the guest of his parents. He will also visit in other parts of the state before returning.

Riley Hull of San Antonio, interior decorator is spending a few days here with his father, Green Hull. He is enroute to Phoenix, Ariz., where he will execute a contract on a \$4,500 decorating job.

WASHINGTON (AP)—The fabled lure of the city is a mere catch phrase to John Jackson and Helen Drinker, champion 4-H club members of the nation.

They have known the downs as intimately as the ups of American farm life, they said after Mrs. Herbert Hoover and Secretary Arthur M. Hyde had presented the trophies and congratulated them.

The farm activities of both started with a single purebred pig. Now Helen, a Virginian, owns half interest in a dairy herd and John a Louisianan, owns several hundred pure-bred chickens, a small herd of cattle, and another of pigs.

John, who is 18, began to specialize in livestock three years ago. He will enter the University of Louisiana in the fall and intends to be a farm leader in later life.

Helen, who is 19, is specializing in recreation work and hopes to go into it for a career after she completes her course at the Richmond division of the College of William and Mary.

Behind her are a series of activities—all of which grew out of the raising of Lady Helen, a purebred pig—varying from improving her room's furnishings, making 41 garments last year, and assisting a neighbor to remodel clothes, to assisting in the management of the dairy cows she bought with returns on her hogs.

Last year Helen's garden was so good that she cannot more vegetables than her family could use. This year she promptly budgeted their needs before starting to can.

"Towns are all right," Helen said, "but I get enough of them during the daytime, at school. There's plenty of fun on the farm, and that's where I mean to live."

John agreed with her.

Mr. and Mrs. J. D. Biles and son Lewis left Sunday morning for Long Beach, Calif., where they will spend the next two months.
