## City Man May Lose Both Eyes

A 34 year-old man stands chance of losing the vision in both eyes after a woman threw lye in his face and over much of his body during an argument last week.

According to officials of Methodist, the victim, Felix Kennedy, 1501 Avenue C, Apt. 21, was in fair condition. Police officers were told that he may lose ALL vision. Doctors admit that his face will be scared.

According to police, Kennedy suffered severe burns on his face, neck, shoulders and legs. Witnesses said the woman also suffered burns from the lye which she spilled on herself.

Police officers found Kennedy lying on a bed in an apartment in the 700-block of Avenue D after receiving a call to investigate an argument.

## Parents Receive Honor for Slain Soldier

The pain of anguish may have been allayed a bit when Mr. and Mrs. Augustus Williams of Brooklyn were presented a Bronze Star honoring their son who was killed during an ambush in Vietnam.

The Williams learned that their son, Pfc. Frederick T. Williams, 21, had been killed on the same

day they were informed another son, Pfc. Elvin A. Williams, stationed in Germany, had been denied housing on racial grounds.

"We've been very bitter about what the Army has done to my two sons, said Williams. "A lot of our bitterness has subsided, but the prejudice goes on."

The Bronze Star was presented to Mr. and Mrs. Williams in the chapel of Fort Hamilton in Brooklyn.

A citation explaining why the slain soldier was named a hero read: "His initiative, zeal, sound judgement, and devotion to duty has been in the highest tradition of the U. S. Army and reflects great credit on him and on the military service."

**EDITORIAL**

**Bad Taste Shown by Tech Fraternity**

The annual Homecoming parade of Texas Tech is always expected to be a good one by the citizens of Lubbock...and they are. This year was no exception as the floats, bands and pretty girls were really great attractions to the homecoming activities.

However, a fraternity at Texas Tech should be told to use better taste when they participate in this type of fete. The black face people - representing a wild tribe in darkest Africa - was really out of order in the parade last Saturday morning.

For your information, the black people of Lubbock as well as the world are proud of what they are and they don't appreciate this type of portrayal. It would appear to his newspaper that this type of programming would be frowned upon by the officials at Texas Tech.

Perhaps next year, this type of action on the part of some of the parade participants, will be looked at twice before being considered as a part of the presentation. It would only be considered wise that this type of action be considered in the light of good taste before it is allowed to be presented.

**We All Need to Vote Next Tuesday**

Less than three months from today, to be exact January 20, the newly elected President of the United States will take their seats behind their respective desks in the White House. This will be one of the most important elections of this century. This is truly the year of decision.

Looking again, we find that in only five days, you will have an opportunity to go to the polls and exercise your right to vote. This year is especially significant because there are three National Parties involved and perhaps the election could be forced into the House of Representatives.

Never the less, it is up to you to step forward and cast your vote for the person of your choice. It is most essential that we know how to vote, but it is much more important that we go to the polls and vote come November 5th.

The thing that most bothers the concerned Negro in the United States today is that most of the Black Citizens place too much value on the wrong things. For example, we have an opportunity to participate in one of the most important functions of our government and many fail to do so.

On the other hand, we can sponsor any type of social function and the reaction is different. One should not discontinue their social functions, but for one day, no one is going to miss very much if they take the time to go to the polls and vote! Incidentally, participation at the polls can be just as important to this nation and to our people when a vote is cast for a justice of the peace as it can be when someone votes for president and vice-president.

We must erase the concept that our vote does not count and do exactly the opposite. Perhaps the pulse of our voting power will not be felt on the national level or even the state level, but we can guarantee the power can and will be felt on

**Things You Should Know**

**R. G. WILLIAMS**

**A FREE NEGRO OF NEW YORK WAS INDICTED BY AN ALABAMA JURY IN 1835 FOR HELPING SLAVES ESCAPE. WHEN ASKED TO SURRENDER HIM, GOVERNOR MARCH OF NEW YORK RULED THAT WILLIAMS COULD NOT BE GUILTY OF A CRIME IN TUSCALOOSA COUNTY, SINCE HE HAD NEVER BEEN THERE.**

**FACING THE FACTS**

*With Lester C. Means*

Like timing in Athletics, so perspective in life is the clue to good performance. And one is about as difficult to get as the other. It is not hard to remember how one resented the "old folks" who were always so sure that things were never so good as they were in the good old days. But now since this writer is fast joining the ranks of the old folks. I am reaching the same kind of conclusion. Then of course, I am nagged with the question of how good did things really used to be?

All this is brought on by student riots in the streets of Paris and this country as well, labor upheavals in all parts of the globe, emerging nations struggling for recognition while they cut one another's throats, and the general feeling that in this election year it is pretty hard to believe that there is any man around big enough to grasp the problems, let alone solve them. Oh we know that we will hear many pretty speeches as well as many good sounding promises, but talk is cheap.

There still remains, however, this question of perspective. It seems to me that I have often read as well as heard of riots during the American Revolution, not to mention downright treason. There were draft riots during the American Civil War, and I suppose they would have burned a

the local level if we participate. It's only honest to say that if the minority groups in Lubbock exercise their voting power November 5th, we are sure that more consideration will be given to these groups in the years to come. And this consideration would include better jobs, health facilities and many other things which are so badly needed in our community at the present time.

Let's be honest with ourselves and look around and ask ourselves what we have done to benefit our community; Have we really made a constructive contribution? And this too, means have you voted in any of the elections this year? Do you even plan to go to the polls next Tuesday? It can be pointed out at this time that about the only thing a politician can count when it comes time to get something done for a community or group within a city is the number of votes that were cast for or against him in the last election.

Each Negro citizen in the city of Lubbock, as well as in the West Texas area must make it a point to contact at least ten people each next Tuesday and remind them that it is election day, and that it is most important that they go to the polls and vote if they are registered voters. Not only is it important to contact other people, but it is an absolute must that the people be provided with transportation to the polls if they have no way to get there. The West Texas Times feels as though the citizens of this city and area can and will do this if they understand how important it is to the Negro people in the community that a good vote is turned out.

Can't every member of this community see how important it is for all Negro citizens who are eligible to get out and vote; We must stick together as we make this constructive contribution to both our community and to our fellow citizens. Let's quit talking about what should be done, or about what we don't like and start doing something about it now, in the American way. We will have that opportunity come November 5th, between the hours of 7:00 a.m. and 7:00 p.m., next Tuesday.

few draft cards if they had had any. No good government has ever come into being without a tremendous loss of life and property. Certainly a little perspective wouldn't hurt.

But we are not helping ourselves very much if we rest content with the assertion that things are not as bad as they used to be, or at least are no worse. It seems to me that unless society is better than it was a century ago, unless young people are not only healthier but more stable than their parents, we are not getting anywhere.

The center of our problem seems to lie somewhere in the area of law and order versus freedom, or, in more extreme language, stability versus anarchy, I wish we could develop a new awareness, especially on the college level, of how tricky the business of order and government is, how much effort has gone into the so-called establishment, and how easy it is to tear things apart before we know exactly how they ought to be put together. The hardest thing about a revolution is getting it stopped. And, there are always a lot of nice people around the edges who get hurt.

This whole matter is of pressing importance to a democracy like our own, dedicated to law and order and created by revolution. It is true that we are also dedicated to freedom, but the founding fathers were smart enough to talk about "FREEDOM UNDER LAW". Jefferson knew very well that all political philosophers from Aristotle on considered democracy the most dangerous form of government because an uninformed and irresponsible electorate, becoming increasingly careless about its citizenship, becomes increasingly unstable. Anarchy follows, which gives immediate opportunity to the strong man, the tyrant, or the dictator. Democracy is always an unstable mixture that may stay as it is or explode into something else. Jefferson knew that there had to be education for citizenship.

One would think that the college and university students especially here in this great country would understand these things. The basic failure is that with all their learning they have NOT been educated for CITIZENSHIP. A course or two called "PROBLEMS OF DEMOCRACY" hardly does it. By the time they are ready to graduate from college, about the only experience they have had in responsible democratic action is in student government or fraternity politics, usually under the protective covering of an administration that allows them to play at government but not really practice it.

What is really more serious is the lack of any understanding of political theory. Philosophy generally has fallen on bad days. Most students encounter it as only a very short course. Some of the erudite seemingly spend a great deal of time in philosophy, but they tend to veer off into the minutiae of analysis or work studies, thus missing the great deeps.

What a pity that all our students cannot learn in political philosophy how very, very difficult it was in past times to organize and set in motion any kind of government that paid any attention at all to human rights.

WHAT A PITY that all rioters don't see what a beautiful and delicate apparatus they are tampering with. What a pity that they fail to see the necessity of order for the very operation of their freedoms. There simply is NO FREEDOM APART FROM ORDER.

### THE POLICE BEAT

by: T. J. Patterson

#### House Burglary

Doris McGee, 1316, reported that someone did break into her house and robbed her of \$40. She told police that she was relaxing in her house when a man forced his way into the front door and hit her several times. It was learned that the man took the forty dollars out of her purse and left. This type of action is no good for our ladies in the community. When the time has come that men can break into someones house and rob them of their monies.

This kind of a situation should be looked into deeply and something should be done about it.

#### Burglary

Mrs. Willie Mae Cook, 1718 David Avenue, is most dischanted this week. You see, someone came into her house and took her soul record player from the shelf. According to Mrs. Cook the record player was valued at \$53.

It was also learned that it was hard to determine how the entry was gained into the building.

There was damage to the door Mrs. Cook admits that the door should have been locked. I really wonder if the door was locked.

#### Stolen Bike

Mrs. Jesse Jones, 2716 East 7th Street, reported that someone had enough nerve to come to her porch and take her son's bike.

The bike was valued at \$40 and there is no way of determining who could have taken it.

#### House Burglary

Robert Lee Banks, 1710 Avenue C, reported that someone broke into his house. According to him entry was gained by prying the latch off of the back door.

According to Banks, his record player was taken. It was valued at \$27.

The policeman investigating the incident, found a man's footprint in the rear of the house. It was also learned that the person who was responsible for the burglary was probably wearing a sneaker type shoe.

#### Stolen Dog

Now here's something for the book. Can you imagine someone going into someone's yard and snatching a dog. Well, it happened to David Brown, 2707 B. East 2nd Street.

David reported that someone took his dog from his back yard. It was a registered dog and was valued at \$125.

It was also learned that the dog pen was left unlocked and the lock left on the pen fence. There was sign of force entry to the pen.

One wouldn't believe that this would happen in our community, but it did.

#### Police Beat Prayer

O'Lord, please help us to go through life each day helping our brother. Help us to erase the ugly acts which will occasionally come across our minds. We ask this in Your name. AMEN.

Petitions Being Circulated

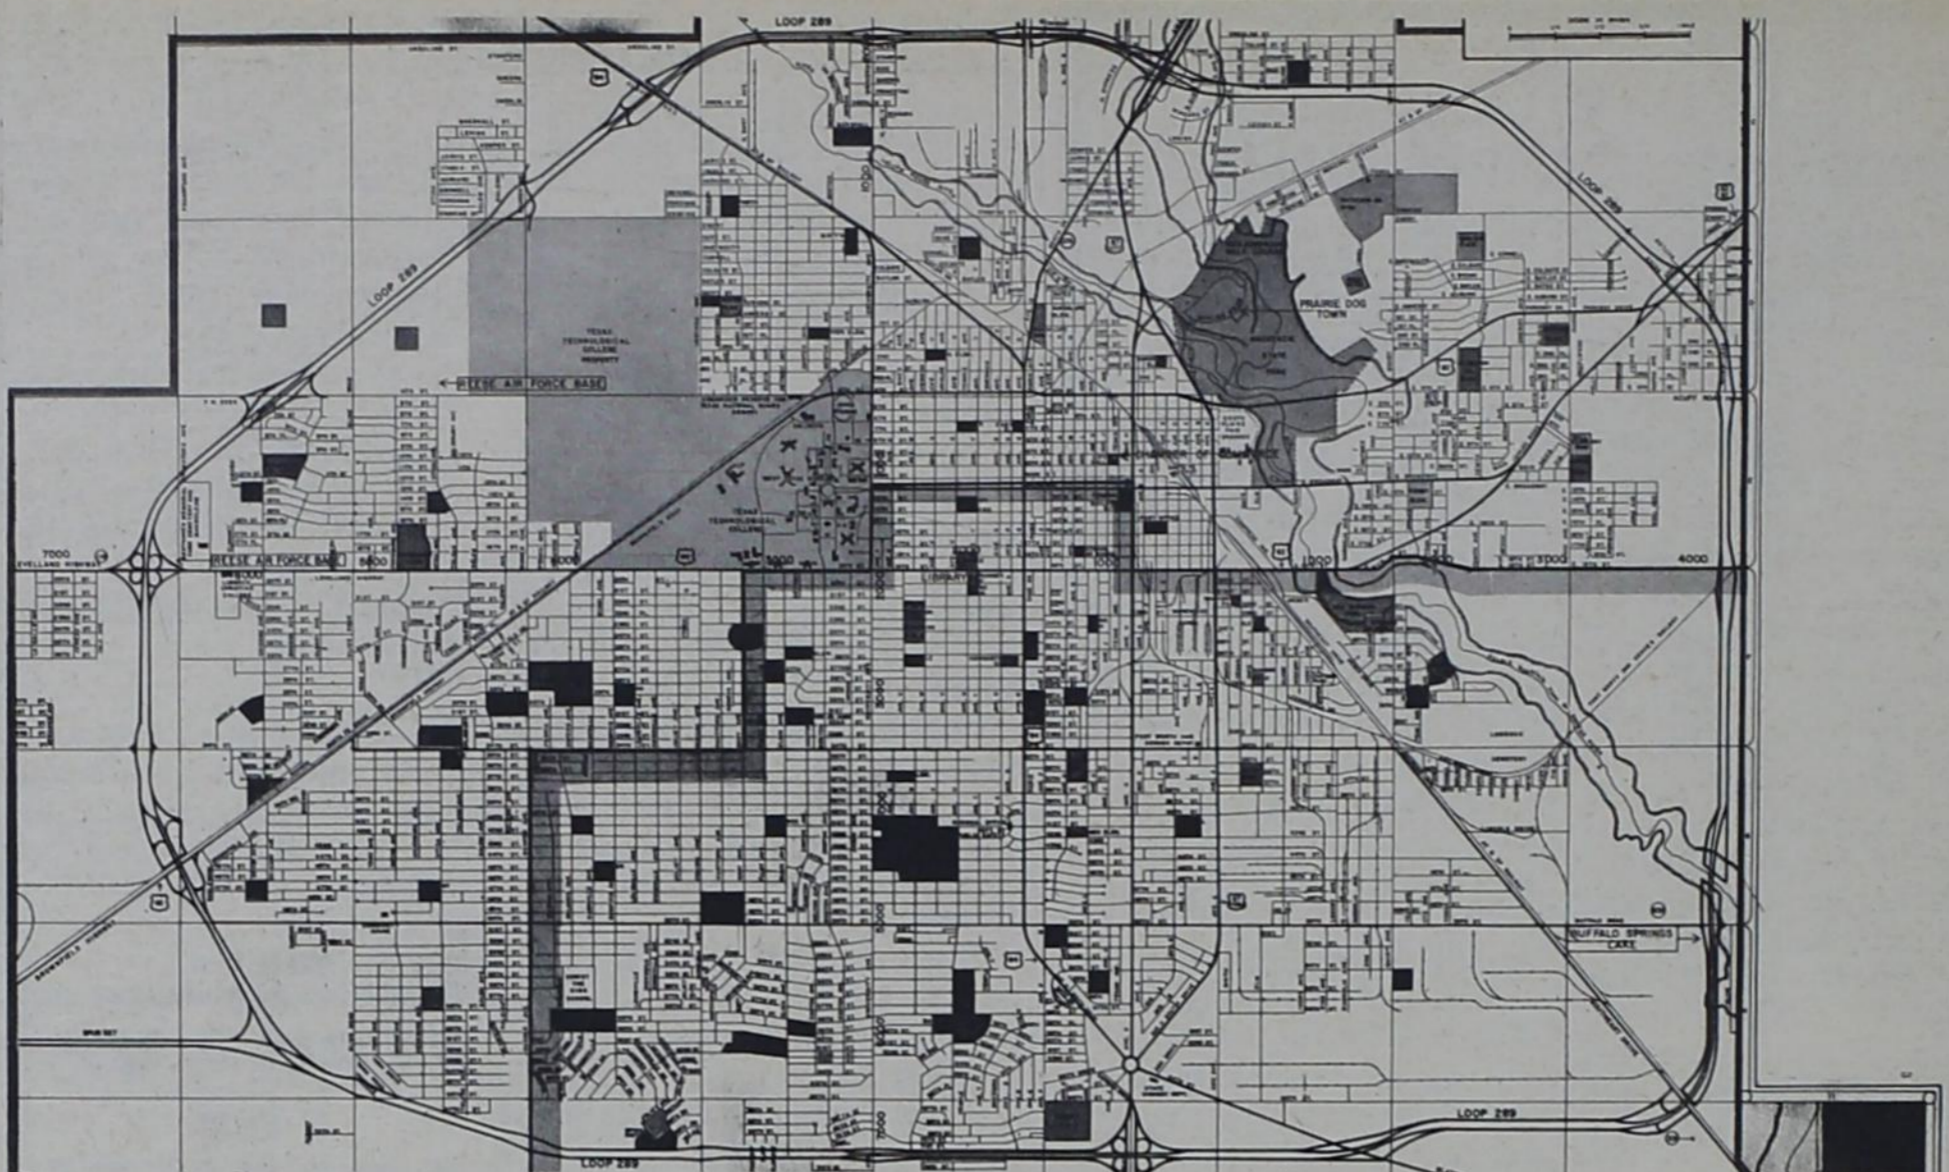

Petitions are now being circulated in regard to the possibility of making Justice Precinct No. 6 wet or will remain as is. In looking at the fourteen boxes which voted in May, 1968 in regard to Liquor by Drink, it was learned that 4,770 were for and 5,658 were against.

The new precinct will include voting boxes 1, 2, 3, 4, 5, 6, 7, 8, 9, 13, 14, 21, 27, and 47 - an absentee box.

In order for this election to be held there must be at least 3,000 names of certified voters. This is in compliance with the law.

At present, there are 24,717 qualified voters in these areas and should create a great deal of interest between the "Wets and Drys".

In order for this election to be called, the necessary names on the petitions should be presented by November 11, 1968. If this fails, it would mean that next year, November, 1969, would be the only time an election as this could be called and with this being a General Election Year, it would take more than the prescribed 3,000 petitioners to call this type of an election.

If you live North or West of the shaded area shown on the above map of the city of Lubbock, you are qualified to sign the petition being circulated in that area, providing you are a registered voter for the voting year 1968.

Around the Hub City

Around the Hub City would like to call your attention to the fact that the GENERAL ELEC-

McALISTER is READY State Representative District 76-Place 3 Paid Pol. Ad.

TION will be held Tuesday, November 5th, which is only five days away. As a registered voter, you have a contribution to make. It is up to you to make this contribution.

People, let's not sit back and do nothing. It's time for you to act and you can do so come November 5th; from 7 a.m. until 7 p.m.

On your way to the POLLS next Tuesday, take a friend along with you. This is the year of decision and those several thousand Negro votes in our community will sure make a big difference on the local level as well as state and national.

How did you like that additional hour's sleep last Sunday morning or did you forget to set your clock? Well, anyway we are getting back that hour we invested several months ago.

On the other hand, we find ourselves fighting darkness an hour earlier each evening. That's alright, this is a part of life, especially going west.

A lovely tea was given last Sunday afternoon at the Mae Simmons Community Center. This function was sponsored by the Operational Board of the center. Mrs. Ruthie Harris is president of this organization. Mrs. Murry Peppers is director of the center.

A cooking class will get underway at the center in November. If any of you ladies are interested in this special effort, please contact Mrs. Peppers at PO 3-5417.

Mrs. A. W. Wilson is in Malvern, Arkansas at the bedside of her brother-in-law who is critically ill.

Mr. L. G. Porter, Mrs. Leaner Goldstien and son, Cedric, spent last Sunday in Hobbs, New Mexico visiting their sisters and families.

Mrs. L. B. Wortham and Rev. O. D. Hollins are yet recuperating nicely at their homes. Mrs. Betty Iles visited her husband, Oscar Iles, at the V. A. Hospital at Big Springs, Texas last Sunday. Mrs. E. Jackson accompanied her.

Mrs. Ollie Crawford and Soul Williams visited Sam Crawford who has been in Big Springs, Texas at the hospital for several weeks.

Other Lubbock residents visiting at Big Springs last Sunday

were Lonnie Love, George Borden and Harry Bunton.

Mary & Mac Private School had a special Scout Night last Tuesday evening. The scouts and parents came out to see what this organization can offer these young people.

Those fighting Dunbar Panthers stayed alive last Thursday evening at Lowery Field as they tied Brownfield, 16-16. On the other hand, across the street, the eleven of the Blue and White of Estacado continued their campaign over their oppositions. They plowed Slaton 60-6. What power these young Matadors have. Could very well be a championship team a brewing in our back yard.

Anyway, good luck to you young fellows. Around the Hub City would like to encourage you Panthers and Matadors to keep your heads up high as you play a good role in life.

Around the Hub City had an opportunity of visiting with the ministers of the Lubbock Ministerial Alliance, Rev. A. L. Dunn is president, last Monday afternoon.

It was learned at this meeting that there are approximately 2,000 Negroes belonging to a church within their community. It comparing this to the Negro population, the church has a great talk to perform in order to involve more people in the church.

On this line, several ministers suggested that they would have to get out of the pulpit and go where the people are.

This is wonderful MINISTERS. I hope that this type of action will not be tabled by your organ-

ization. Rev. T. L. Hollins, brother of Rev. O. D. Hollins, was present at the meeting and gave interesting comments about the church he pastors in California. He also told the group that his brother is doing much better.

From My Scratch Pad By George Parrish Amarillo, Texas

It seems to me that the people are becoming more aware of the importance of having an education, at least on the high school level. I had an invitation to speak to the adult education class being held at the Horace Mann School on last Monday night, it was mostly a question and answer session on the (G.E.D.) General Education Diploma. One of the participants stated that he was unable to get a job just recently because he was not a high school graduate and as a result of this he had to return to his old job as a service station attendant with no outlook for a better paying job in the future.

We are hoping to be able to help more people prepare themselves for the future through the classes being held at the North Heights School, so you are asked to keep in close contact with your local community centers nearest you.

A group of ladies got together and really pulled a good one on another lady, well what it was, and I wonder how the secret was ever kept, they surprised Mrs. Juanita Young with a birthday dinner. This affair was held in the home of Mrs. Elnora Woolbright, 1107 N.W. 21st. Sunday evening October 27, I understand that they served (SOUL FOOD). Sorry it was just a ladies affair.

### College Students Receive Dental Scholarships

Six Black students from a cross-section of American colleges have received scholarships of \$2,500 each for pre-dental studies under a continuing program administered by the American Fund for Dental Education.

A \$177,500 challenge grant from the W. K. Kellogg foundation, which made the program possible, was accepted by the Fund last April on a matching basis.

Under conditions of the grant, the Fund was challenged to match two Kellogg scholarships this year (1968), four on a two-for-one basis in 1969, and six on a three-for-one basis in 1970.

While the initial \$2,500 scholarships cover the final year of the students' pre-dental studies, they are assured up to \$2,500 for each of the four years of regular dental school, providing they maintain good grades.

The \$2,500 scholarships will be used to provide tuition and additional costs for 1968. During the first year of the scholarships, the students must complete the minimum number of courses needed to apply for entrance to dental school in the fall of 1969.

In administering the program on a long-range basis, the Fund is seeking support from other foundations, businesses and industry to provide additional scholarships.

David Sloan, special projects coordinator, William Wrigley Jr., company, who is serving as chairman of the Fund's advisory committee for the program, said the cost of a dental education, necessary academic preparation and, recently, "the heavy recruitment of Negro college graduates by industry" have played a part in attracting Negro students to careers outside the health professions.

### Organizational of Laymen at Bethel

The first meeting of the Laymen Organizational of Bethel A.M.E. Church met at 4 p.m. last Sunday with T. J. Patterson presiding.

Members present at this meeting were Lorenzo W. Allen, Arthur Lewis, Alexander Johns, David Lewis, Ardee Hunt, Sylvester Ragland, Patterson, and Rev. A. W. Wilson.

Rev. Wilson gave the objects and purposes of this organization. They were also read from the A.M.E. Discipline by Patterson.

Officers were elected at this meeting. They were Patterson, president; David Lewis, vice president; Ardee Hunt, secretary; Sylvester Ragland, assistant secretary; and Alexander Johns, treasurer.

The third Sunday in November has been set aside as Installation Day. All officers and members will participate in this special program.

Next meeting will be held Sunday, November 3, at 4 p.m. in Fellowship Hall of the church.

"Many of the dental schools do not have any Negro students. We hope to improve this situation," Sloane said. "To help us, the Kellogg grant included \$12,500 for an intensive career guidance effort."

The Black students, their colleges and sponsors for the Fund's 1968-69 dental scholarships are:

Atlas M. Jones, Jr., Chillicothe, Ohio, Howard University, and Douglas M. Simmons, Dallas, Stephen F. Austin State College, both by the Kellogg Foundation; Sandra J. Berry, Memphis, Le-Moyne-Owen College, Proctor and Gamble; John E. Morrison, Detroit, University of Michigan, Pepsi-Cola; and Raymond J. Fonseca, Bridgeport, Conn., University of Bridgeport, and Evelyn W. Richardson, Boley, Okla., Oklahoma State University, anonymous sponsors.

Simmons is a graduate student; the others are seniors.
