Nazis Admit Withdrawal Of Troops

Key City Was Vital Rail Network For Transportation

LONDON, Sept. 14. (A)-Russian troops captured the fortress

city of Bryansk last night, breaching the Germans' main defense line before the Dnieper river by seizure of that pivot of central and southern German battlelines and center of a railway spiderweb serving both fronts.

Evacuation of the keystone city, held by the Germans since October, 1941, was acknowledged today by the German radio soon after Moscow reported that the onpouring Red army was closing in on the city on the west bank

of the Desna river.

Disruption of the rail network vital for German winter transport heightened belief in London that the backwar-scurrying Nazis would not be able to halt their retreat now before reaching the west bank of the Dnieper.

The speed of their withdrawal toward Kiev and Dnieperopetrovsk on the lower reaches of the river, where only three inadequate bridges and ferry crossings are available, raised hopes that large forces of nazis might be trapped on the east bank of the Dnieper or even be overtaken while attempting to

The German broadcast by DNB declared Bryansk (northern population 87,000) had been evacuated in good order, and the troops had not been encircled or injured to

'a considerable degree.' Again Berlin preceded Moscow in announcing the victory for Russian arms.

"The city of Bryansk," the broadcast said, "which first became known in this war by the great twin battle of Vyazma and Bryansk "The city of Bryansk," the broadcourse of which German troops surrounded and captured several Soviet armies with their entire material, was evacuated by the Germans during Monday night."

"It was undoubtedly the intention of the Russian command to mete out a similar fate to the Germans here but this attempt must be regarded as having failed." the broadcast continued. "Not only did the Russians not

succeed in encircling the German forces in this area but they neither succeeded in injuring the Germans to a considerable degree nor in laying a hand on the military establishments of the city which fell into German hands together with all their vast stores,"

The Russian communique an nounced last night that Red army forces had nearly completed the entrapment of the German garrison and had already captured railway stations on the outskirts of the town.

Australians Move Swiftly As Nips Are Pushed Back

ALLIED HEADQUARTERS IN SOUTHWEST PACIFIC, Sept. 14. (A)-Fleeing Japanese, giving up Salamaua, fought a rear guard action against swift moving Australians today on ridges northwest of that New Guinea air and shipping base as they strove to keep open a single jungle trail of retreat toward doomed Lac.

The the Salamaua Japanese, who abandoned valuable war equipment in their flight Sunday from the town they had held since January, 1942, can only succeed in postponing their fate briefly. American and Australian forces are clamping a vise on Lae, 18 miles above Salamaua, while Liberators and Flying Fortresses are blowing up gun batteries there.

In announcing today the capture of Salamaua, whose airdrome and harbor are only 150 miles southwest across Dampier Strait from Japanese-held New Britain, Gen. Douglas MacArthur's communique described the enemy as remnants of "disintegrating troops."

The Japanese at Salamaua, eschewing the warring methods of their Papuan army which fought to the death around Buna last January, simply ran out of the bomb-ruined town and let the Australians have it, as they had done the nearby airdrome

the day previously.

Salamaua, whose harbor in peacetime was sufficiently deep to allow steamers to anchor within 600 yards of shore, is the first place of pre-war commercial importance to be retaken by Mac-Arthur's forces.

Bloody Battle Equals Gallipoli Of World War 1

ALLIED HEADQUARTERS IN NORTH AFRICA, Sept. 14 (AP)-Fierce German counter-attacks have regained some ground against the 24-mile Allied bridgehead near Salerno, it was announced today, but British troops battling up from Southern Italy are only some 100 miles from making a junction to support the Fifth army.

The bloody Salerno fighting was equal to the desperate battles at Gallipoli in World war one,

(German broadcasts declared the allies are probably withdrawing to sea as many troops as possible "which means that they have abandoned the enterprise altogether." There was no Allied comment on this report.

MAYBE I'm your boy - or the boy next door.
You know, Mary's sweetheart, Joan's husband,
Timmy's daddy. Your son, Father! Your boy,
Mother!

Anyway, I've got something to say to you. I've got to make you understand.

This is it. This is zero. This is INVASION! I'm here, with a million other boys just like me. We're your INVASION forces. And we're going to stay. It wasn't easy getting here, and it is going to be a lot harder before we're through.

WE'RE GIVING ALL WE'VE GOT

I said we were going to stay. I premise that, even means the thing - well, the thing we don't like to talk about. Because we're giving all we've got: Our minds, our strength, our blood.

But you see, this isn't going to be enough. Not unless those planes we need snarl down out of the sky on the enemy just over there. Unless those tanks get here. Unless the supply ships get through. Unless there are enough bullets for this rifle.

YOU'RE ON THE

INVASION FRONT NOW!

It's that extra \$100 War Bond, all of them together, making up the \$15 billion worth they're asking you to buy in September, that will prove that you are on the INVASION front with him.

Your part is at least one extra \$100 Bond during the Drive - at least \$100. Of course, that's in addition to your regular bond buying. A \$100 Bond is the rock bettom figure. Some of you will have to invest thousands to put this Drive across. Take it out of your pay check - or out of that nest egg you were saving for a rainy day.

All you can spore is too little, all you've got is just going to be enough.

Look at it this way: You won't be giving ony-thing. You will be investing in VICTORY - and

Things like safety for your family and money after the war to buy a new home, or to educate your children.

You're buying a stake in VICTORY—and that means America, yours and mine! I guess that's all I've got time to tell you now. The enemy is waiting, just over the hill. Den't keep us waiting for you!

"Dewberry State took the kickoff and marched to two quick first downs with Bill Smith of Notre Dame rapping tackle for nine yards and Ed Green of Southern California bouncing through center for 12. But here the clearwater Aggies held, with Smith being smothered in another try at tackle and Green being thrown for a nine-yard loss when he attempted a pass. Blonde Girl Gridder Warms Mon. Bench

NEW CASTLE, Ind., Sept. 14. (AP)-New Castle high school's girl gridder-comely Blonde Agnes Rifner-whose specialty is drop kicking, will have to wait another week before she makes her debut on the football field.

Agnes was kept on the bench last night in the Trojan's opening game with Central of Munice but Coach Griz Baker said today she would see service in next week's game with Morton Memorial of Knightstown.

Baker explained he kept his girl drop kicker out of last night's encounter because the players' tempers, together with weather conditions, were not exactly ladylike. And New Castle wasn't doing any too well. Central won 31

Although it's an every-nightand-Saturday league, there's a part-time aura about the "Appy." Club operators usually run the teams as sidelines, and one club is under the supervision of the county sheriff. Some players use their off hours to work in local war plants, and even Edgemon finds time to raise turkeys and run a bowling alley.

In his first year as prexy, 37year-old J. Ross conceived the scheme of being the first baseball league president ever to pay op-ening day visits to all games in his circuit, then an eight-team affair. He planned to go by air, dropping an autographed ball in each park.

The weather interfered, howover, and all the papers got out of the stunt was a picture of the grounded Edgemon, the plane and the baseballs.

A broken arm ended Edgemon's Tex., and he turned to umpiring. He stood his share of the gaff in the Penn State, Alabama-Florida, Kitty and Southeastern Leagues before yielding in 1937 to a yen to try the game's business end. The only job was the Appalachian's Pennington Gap, Va., (pop-

Lambert, whose Marcons won the state football champlonship last fall, this year could start a full team of youngsters whose older brothers starred in athletics mostly on the gridiron-at Austin High.

The coach explained that when he had boys like that he didn't have to "educate" their families. Patient mothers learn how to prepare food for athletics, enforce training rules, etc., after having one boy on the squad.

"Two is a cinch," said Lambert, "and for that reason the second brother often surpasses the first."

Names like Raven, Munson and Allen appear this year. Travis Raven was one of the all-time greats of Austin High. He did such things as running 103 yards for a touchdown and scoring 39 points in one game. Terrell Allen, all-state center last year, was rated one of the top pivot men of Texas schoolboy history. Charley Munson was a mighty runner and punter for the Maroons of 1941 Well, Frank Raven, Jimmy Munson and H. K. Allen are on the Austin squad this season. And

Texas Today Community Property Gets First Setback

By The Associated Press Texas and the other seven community property states get a slight break in the matter of income-victory taxes for 1943-but they also get their first setback.

W. A. Thomas, collector of internal revenue for the 2nd Texas district with headquarters in Dallas, pointed out that married Texans get a bargain insofar as the victory tax angle of the dual tax plan is concerned.

Married Texans, by virtue of their community property statute which permits the filing of separate returns by dividing the income of the husband, are favored in the compilation of their victory tax by the following provision:

A husband and wife filing a joint declaration may deduct a victory tax exemption of \$1,248 unless the income of one spouse is less than \$624, in which case the total exemption of both spouses is

In explaining the provision, Thomas said:

"In states where property and are considered equally husband and wife, though the wife has no private income of her own, each spouse ed to victory tax exempon of \$624. This applies against community half of the income. So; if the same man and wife file a joint return they are entitled to an exemption of

"In contrast, a man earning his salary in a non-community property state can claim victory tax exemption of only \$624, and his wife, if without income, can claim

"In non-community property states, members of the armed forces may claim all exemptions to which they are entitled and their wives will not be required to file a declaration of their estimated income unless they receive separate incomes in excess of \$100 from sources other than salaries and wages," Thomas said.

"In community property states, however, the wives do not have such privilege and are required to file a declaration of estimated income, embracing one-half of their total community income and paying the tax due."

Thomas went on to explain that an individual resident of a community property state in military service has been granted a blanket extension for filing estimated tax returns 1040 ES for such time as is necessary and not to extend beyond March 15, 1944.

"The wife of a resident of a community property state does not have the benefit of the extension and should file an estimated income of both spouses (after exclusion of the first \$1,500 military pay) is \$3,500 or more," he de-

Martin, Jr., minority leader of the lower house, who told us personally that he had asked to be excluded from all committees because of the pressure of his job in Congress.

From there on, the eight pernanent committees which will try to hew out the major planks in the Republican platform between now and next summer are something of a different story.

On Vandenberg's foreign policy committee, "internationalist" Rep. Charles A. Eaton claims a majority, with such advocates of postwar collaboration as Sen. Warren R. Austin, of Vermont; Gov. Edward Martin, of Pennsylvania; and Rep. Francis P. Bolton, of Ohio. However, there wasn't much in the original committee draft to indicate that Eaton's "internationalist majority" had won an all-out victory. It certainly lagged behind the broad outlines suggested by the President, Wendell L. Willkie and Gov. Thomas E. Dewey, of New York.

On the permanent post-war enterprise, industry and employment committee, Gov. John W. Bricker, Ohio, a Taft conservative, was maed chairman, and former presitax return if the combined earned dent of the United States Chamber of Commerce, Sen. Albert W. Hawkes, of New Jersey, was sec-ond in line, But the committee also included such party scrappers "If an amount in excess of \$100 as Gov. Raymond E. Baldwin, of Connecticut, and Rep. Everett Dirksen, of Illinois.

On the other hand, Gov. Dewey drew the chairmanship of the government administration reform ommittee, and Governor Earl Warren, of California, also high in the list of "liberal" presidential possibilities, was given chairmanship of the social security and mmittee.

Scattered through the commitees where they can kick a lot of dust in the eyes of the Old Guard if they have a mind to, were such others as Arizona National Committeeman Kelland; Missouri Rep. Louis E. Miller; New Jersey Committeeman H. Alexander Smith Michigan Willkieite, Mrs. Dudley Hay; Governors Dwight Griswold, of Nebraska, and Earl Snell, of Oregon; and Rep. Charlie Halleck, of Indiana, among others.

Mysterious Fire Razes RR Station

PHILADELPHIA, Sept. 14 (AP) -A stubborn fire that roared un-checked for four hours through train sheds at the Pennsylvania railroad's Broad street station left 16 tracks a jumble of charred wreckage today with damage estimated by the railroad at \$250,000.

More than 350 persons, nearly all of them firemen and civilian protection workers, were injured, several seriously, in battling the eight-alarm blaze, which broke out yesterday, six days after the Pennsylvania's Congressional Limited was wrecked at Philadelphia with a death toll of 80.

The federal bureau of investigation, city fire bureau, railroad police and army and navy intelligence officers immediately began an investigation of the fire, which started in an engine room. Sgt. Harry Burke of the city

detective squad said several charred boxes were removed from the engine room for chemical analy-Firemen reported several loud explosions were heard and flames shot up 50 feet between the tracks soon after first alarm

"I owe a vote of thanks to who-ever started this vogue for tall girls on the screen. Anyway, they don't think of me as either tall or short any more. Like everything else, height is relative. I'm tall if you put me beside Veronica Lake; I'm a shorty alongside Alexis Smith, and a happy medium if you put me between Rosalind Russell and Ingrid Bergman."

I've always thought Miss Bari's figure was something extra special, but I didn't know how special until I talked to Yvonne Wood, who designed her clothes for "Tampico."

Miss Wood said she was having one heck of a time dressing Barifor this picture. The Bari form had one glaring fault for "Tampico"-it was "too perfect." It

Heroic Texan Beachhead

By The Associated Press

A young Texas lieutenant and a gun crew of four enlisted men kept 13 German tanks at bay on the day the Fifth army landed in Italy and probably saved the whole beachhead from being blasted to bits. Lt. John Whitaker, 22, of Fort

Worth, and his crew planted their 75 mm. self-propelled mount on the road as the tanks approached and let fly with everything they could muster. Meanwhile the tanks poured a steady stream of fire at them, but Lieutenant Whitaker and his men remained in the center of the road pumping shells at the 13 Mark Fours, destroying three of the monsters.
