Autumn's official beginning was marked by more than a calendar designation during the weekend. Balmy 95 degree weather

skidded sharply in the face of a 40-mph porther Sunday afternoon. It took only about an hour for the wind, which churned up a front of dust, to roll from Lamesa to Big Spring. The thermometer sagged to 54 degrees Monday morning and prospects were that it would not go above 76 degrees today. Big Spring and area was buffeted by sustained high winds well into Sunday night.

College Desperately After gifts had been presented Needs Typrewriters

In order to begin instruction in typing at the start of the Howard County Junior College a week from today, the college is in need of typewriters.

An adequate number of machines are on order, but delivery cannot be made in time for opening. In fact, delivery date is uncertain

Because of this, E. C. Dodd, president, made an appeal to Big Spring individuals and businesses who can spare typewriters to contact either him or Howard Cox, whether the machines can be borrower or rented.

Calls should be made to No. 1804. However, this phone may be disconnected Tuesday due transfers of offices from the school administration building to the bombardier school. In that event, Dodd might be reached at the Douglass hotel.

Machines will be returned in as good or better condition, than re-

Not so long ago huge slices of timber land erosion began to gnaw away at the country side. A few farsighted people, however, began to think of tomorrow, and they did something about it. Today there are abundant examples in the timber belt of East and Southeast Texas that mature pine trees can be grown in 35 years. One of the continuing tasks of The American Legion has been to combat the spread of alien idealogies that were brought to this land in the wake of World War I and may again follow in the wake of World War II. It stands for individual rights fair play, tolerance justice, recognition of individual ability and reasonableness in all phases of American living. Get Welcome Relief From Stomach Gas. **Sour Food Taste**

Do you feel bloated and miserable after every meal? If so, here is how you may rid yourself of this nervous distress. Thousands have found it the way to be Thousands have found it the way to be well, cheerful and happy again.

Everytime food enters the stomach a vital gastric juice must flow normally to break-up certain food particles; else the food may ferment. Sour food, acid indigestion and gas frequently cause a morbid, touchy, fretful, peevish nervous condition, loss of appetite, underweight, restless sleep, weakness.

To get real relief you must increase the flow of this vital gastric juice. Medical authorities, in independent laboratory tests on human atomachs, have by

tory tests on human stomachs, have by positive proof shown that SSS Tonic is amazingly effective in increasing this flow when it is too little or scanty due to a non-organic stomach disturbance.
This is due to the SSS Tonic formula
which contains special and potent activating ingredients.
Also, SSS Tonic helps build-up non-

organic, weak, watery blood in nutri-tional anemia—so with a good flow of this gastric digestive juice, plus rich red-blood you should eat better, sleep better, feel better, work better, play better. Word has been received here this morning of the birth of a 6 pound, 8 ounce boy to Mr. and Mrs. Pete Kling today at 10:20 a. m. in Clovis, N. M., where the Klings recently moved from Big. Spring.
