

Dedicated to Informing the Negro Citizens of West Texas

'Around the Hub City'

In looking at some of the good these days, it was learned that a reduction in auto thefts is possible.

You see, C. C. Benson, manager, S. W. Division, National Automobile Theft Bureau, wrote Lubbock Police Chief Alley a letter noting: "The release of the Uniform Crime Report discloses that your city, Lubbock, was one of 4 out of 19 cities in our NATB Southwestern Division to show a decrease in auto thefts... This reduction reflects the efficiency of your Department and a greater degree of awareness on the part of the public to be more alert and better protect their property. We trust that the "Lock Your Car" campaigns have helped make this condition possible... Your city reduction of 6.9% contrasted with a National increase of 20% and an average increase in 19 southwestern cities of 32.3% is quite remarkable... I extend to you and your Department "Congratulations" and hope the frequency can be further reduced."

Truly, this is the type of publicity the 'Hub City' deserves.

A birthday party, the very first one in his life, will be held Saturday afternoon, August 5, from 4 until 6, for Walter Loyd Solomon.

Being only one year of age, he, too, like many other boys and girls, is looking forward to having a good time.

Henry Planks was special dinner guest of Miss Nancy Graves Sunday, July 23, at her home. He is a student at Wiley College at Marshall, Texas.

Mrs. Aurene Gore and her son, Fred--including her grand children--all of Belton, Texas, visited Mrs. Gore's sister and family, Mr. and Mrs. Almo Sedberry last week end.

They reported a wonderful stay while here and returned home Sunday.

Mr. and Mrs. A. G. Graves have as their house guest Rod, Shellia and Jackie, Jr. of Houston, Texas.

They are the children of Mr. and Mrs. Jackie Graves.

They accompanied Mrs. Juanita Simmons from Houston.

Mrs. Charlie Mae Johnson is a patient at Methodist Hospital where she is reportedly in fair condition. She was injured last Thursday afternoon in a city bus-car collision.

Miss Ruby Johns left Tuesday morning, by car, for San Antonio, Texas where she will deploy for New York City for several weeks.

She was accompanied by Mr. Mrs. William Cofield.

Mrs. Juanita Simmons returned from Houston, Texas where she visited a few days after attending funeral rites for Mrs. Ethel Bennett and Mrs. Serena Hardin Whiteside.

Linda Marie Lusk is visiting in Fort Worth, Texas with her grandfather and aunts.

Mrs. Fulton Berry, nee Judy Struggs, is home from summer school at Howard University where she is a senior student.

You know its nice to get out among the community and visit with your neighbors.

The other day, Monday afternoon to be exact, I visited with a friend of the community, as well as a friend of the school system, Mr. Damon Hill, who has

Head Start Ends Here

Lubbock's participation in the Head Start program for preschoolers is nearing a Friday closing. The program will have lasted eight weeks for the 905 children enrolled in a dozen elementary schools here.

All those who were enrolled will enter school this fall.

This week has been marked by the teaching of personal grooming to parents of students enrolled in Head Start's program, and by a clothing exchange. Mothers have brought clothing their children have out-grown. They hunt garments--some of them fresh from the cleaners--that will fit their own children.

In addition, there has been a study of garment repair and sewing, strictly for parents of children enrolled in Head Start.

Mrs. Lila Dickerson, a retired home demonstration agent of Wolfforth, has directed the sewing program.

Postal News

One of the world's leading management consulting firms has been engaged by the Post Office Department to improve operating efficiency and planning processes in the postal system, Postmaster General Lawrence F. O'Brien announced recently.

Mr. O'Brien described the one year contract with McKinsey and Company as "the latest in a series of important steps to improve postal service by applying modern management techniques to the solution of postal problems."

Mr. O'Brien emphasized that the study would provide urgently needed programs of action for the Department, regardless of the eventual recommendations of the President's Commission on Postal Organization.

"The programs will mean improved postal operations whether the mail system retains Cabinet status, becomes a government corporation, or takes on some other administrative structure," he said.

The contrast with McKinsey and Company is the outgrowth of a three months diagnostic study conducted by the firm, beginning last March, concerning the Department's management process and internal organizational structure.

During the diagnostic study, the firm's mission was to identify key opportunities for increasing the effectiveness of postal management and to block out a program for capitalizing on these opportunities.

Under the one-year contract, on-site studies will be made in high-productivity post offices, to determine how that productivity can be extended to the 300 or 400 largest post offices nationwide.

Studies will also be made to root out the causes of product handling deficiencies and suggest means of counteracting them.

A long-range program to improve operations system-wide will then be developed and implemented.

A product planning improvement study will be made to clarify postal service objectives in light of total postal system management, correct weaknesses in present analytical processes, and develop an organizational framework for conducting on-going product planning activities.

been ill for several weeks. I was happy to learn that he is doing much better.

Like Mr. Hill, one never knows when sickness will strike. Why not go and visit with your friends who are sick and shut-in.

Rites Read For Mrs. Ruby Lee Hodge

Funeral services were conducted Monday afternoon at 2:30 p.m. for Mrs. Ruby Lee Hodge who was pronounced dead on arrival at Methodist Hospital the previous Sunday, July 23, after she suffered a heart attack at the home of her daughter on East 28th Street.

Rev. A. W. Wilson, pastor of Bethel A. M. E. Church, officiated ceremonies with Jamison Funeral Home in charge of arrangements and burial.

She is survived by one daughter, Mrs. Marie Hodge; a son-in-law, Johnny Lee Hodge; a husband, Tommie Lee Hodge; a son, Sgt. Oscar Dickson of Fort Gordon, Ga.; a daughter-in-law, eight grand children, five step grand children, two sisters, four brothers, many nieces, nephews, other relatives and friends.

Hired As Agent With Reliable Life

One of our well known citizens, David Sowell, has been employed by the Reliable Life and Fire Insurance Company.

Mr. Sowell's new job has been a bit binding for the pass few weeks since he had to be checked out and the necessary steps taken in regard to the test given him.

Prior to being hired by Reliable Life, he was employed by Atlanta Life Insurance Company where he received a paramount of experiences in the insurance business.

Presently, Mr. Sowell is on his own, and we may add, he is ready to serve the public its need through insurance. In order to do this, he realizes how important it is for him to meet each of you--those he has been missing the pass few weeks.

Aside from this, Mr. Sowell is quite active in civic organizations--including the Community Action Board in Lubbock County where he is a member of the executive board.

A member of the Mount Gilead Baptist Church, he has retired from the U. S. Army.

WTTA News

Major achievements in the fields of education and case finding highlight the first annual report of the 23-county West Texas Tuberculosis Association Area local council members and other interested persons.

The WTTA sent supplies for the skin-testing of 35,997 school students in 79 area towns. Chest X-rays provided by the WTTA Mobil Unit totaled 34,513 in the first year of areawide organization.

From the skin tests, positive reactors totaled 889. This did not indicate active tuberculosis--only that more complete examination of these students was necessary because a danger did exist. Total abnormalities disclosed by the Mobile X-ray Unit was 640.

The study will also assist in developing for implementation by the Postmaster General an improved system to speed decision making with respect to exploratory research and development, facilities design and constructions, and mechanization of fixed and non-fixed mail handling activities.

The McKinsey firm has conducted management studies since 1913, and presently maintains 12 offices in this country and abroad. It is now in the second year of a major contract with the General Post Office of the United Kingdom, and has done work for the United States Post Offices Department in the past.

OAKWOOD (Huntsville, Ala.) college alumna, Mrs. Jessie G. Bradley, has done her alma mater proud in being named recently as principal of Day school, New Haven, Conn. Holder of a B. A. in English from Oakwood, she received her B. S. from New Haven State Teachers college, a M. S. from Southern Connecticut State, and is now pursuing her doctorate at the University of Connecticut. Currently a first grade teacher at Scranton Street school, she will take over the principalship in September. (NPI Photo)

Of these 137 were TB suspect, 377 other chest disease, and 126 showed some heart irregularity. The unit served 207 area locations.

In addition, the Association answered 1,232 requests for health information. The largest number of these were for information concerning emphysema, a total of 478.

The Area's total number of tuberculosis patients at McKnight State Hospital was 57 in 1966 and 58 in 1967. No total was listed for privately hospitalized patients.

(In Lubbock County alone, reports of new and reactivated cases last year totaled 41. On medication at home, the number of children reported was 43, the number of adults 106.)

The first annual doctor's symposium on tuberculosis and other respiratory diseases was held last year, as well as the Area's first nurses' workshop on tuberculin skin testing.

Improved education, case-finding and follow-up programs were cited as goals for the Area in 1967-68.

ONE CAR ACCIDENT

Marshall Cook, 25, 1612 Avenue C, was taken to Methodist Hospital about 4:30 a.m. Tuesday morning following a one-car accident in the 1600-block of East 34th Street.

Cook suffered a fractured nose in the incident, according to the police.

HOME RULE

Washington--(NPI)--Now that Puerto Ricans have settled for the time being the question of their status with the United States--the vote was for retention of the commonwealth system--the Virgin Islands are renewing vigor usly their plea before the Congress for home rule. Specifically the islanders want to elect their own governor in 1970.

Eastern All Stars Upset

The Eastern Little League All Stars traveled to Big Springs last Monday, but was defeated by the All-Stars there.

This squad of young stars, champions of the city playoffs, was defeated 13-0.

News From Bishop College

Bishop musical organizations and individuals have been appearing on television with increasing regularity. The Bishop Jazz band, which is an off-shoot of the full concert band, under the direction of Mr. Vernon Van Bolden, and conducted by Alvin Jones, appeared on the "Campus Talent" program, sponsored by Southwestern Bell Telephone Company, a program which was seen throughout Texas.

The choir, under the direction of Mr. J. Harrison Wilson, appeared on the Ted Mack Hour last Sunday. The choir sung "Battle Hymn of the Republic."

Several individuals, students and staff, have worked on television commercials. These include, among others, Olga Powell and Lester Vickers, students who worked on a commercial for Zale's Jewelry; Lena Nunn and Jack LaSonde, also students, who appeared in a television commercial, and Mrs. Barbara Weathers, assistant to Director of Admissions Tom Brown, worked in an industrial movie. Other staff members have also gotten television and industrial movie shots.

DIRECT DIAL HERE

Mayor Rogers will make first Direct Dial telephone call to Congressman George Mahon on the Swift Telephone Exchange Saturday, August 5, at 9:30 a.m.

THE INVISIBLE GOVERNMENT

We use the term "INVISIBLE GOVERNMENT" for the invisible government—a group of powerful, widely respected, and, for the most part, very wealthy individuals who support, work through, and control a bewildering network of tax-exempt organizations. The primary sources of revenue for all the organizations are the big tax-exempt foundations.

The controlling center of this network is the Council of Foreign Relations, whose key members hold memberships in related and subsidiary organizations, and occupy influential positions in government, in foundations, in educational institutions, in the communications industry and in finance.

These individuals form an elite group who set the policies of the federal government; and, through a vast, interlocking combine of educational and opinion-forming agencies, they influence or control the propaganda which persuades Congress and the public to accept the policies (their policies).

Think of it, this is the team which undertook the job of bombarding the nation with enough propaganda to "sell" Urban Renewal.

In the summer of 1954, Congress enacted the necessary law (Housing Act of 1954) to provide tax money (your tax money) for Urban Renewal out of the national treasury. In November, 1954, the Supreme Court handed down a decision which would give all Urban Renewal Laws and Directives the odor of legal sanctity.

City governments without strong zoning laws had to be persuaded to adopt them. This was relative easy. A group of tax-exempt organizations had already been working on the zoning-law problem for a time. The American Committee for International Municipal Cooperation; the American Municipal Association; the American Society for Public Administration; the American Society of Planning Officials; the International City Managers' Association; the Municipal Finance Officers Association; the National Association of Housing and Redevelopment Officials; the Public Administration Service—notice that ALL of these organizations are housed at 1313 East 60th, Chicago, in a Chicago University building financed with Rockefeller Foundation money. Most of them have the same sources of income that the Council on Foreign Relations has. Many of them have, among their boards of directors and trustees, men who occupy similar positions in the CFR, or in related organizations. There are few City Governments in the land which are NOT under strong influence from one or more of these organizations—virtually all of which are sympathetic to the idea that modern cities must have strong zoning laws. State legislatures had to be persuaded to pass Urban Renewal Laws, authorizing cities to seize private property for Urban Renewal projects. This could be done largely as a by-product of the big effort needed to convince the people that Urban Renewal is not only good and proper, but also necessary and inevitable.

In May, 1957, the Committee for Economic Development (one of the most influential tax-exempt organizations in the Council on Foreign Relations Network) set up its Area Redevelopment Committee which quickly became both a fountainhead and control center for a mammoth nationwide propaganda drive for Urban Renewal.

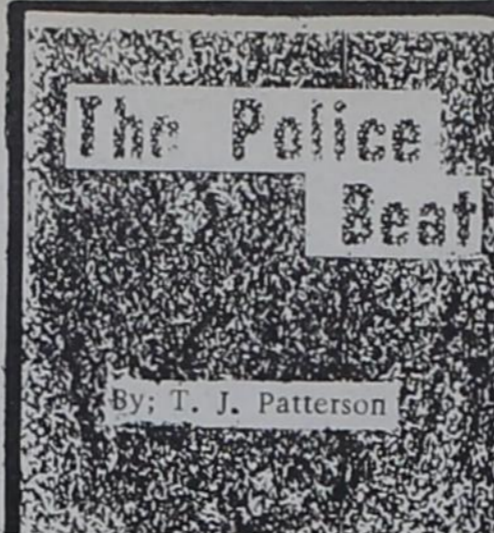

In 1957, the CED had programs "to improve the teaching of economics in the public schools...operating in 39 states." The CED's College-Community Research Centers had "projects in progress" in 33 institutions of higher learning. Twenty institutions of higher learning were participating in CED's "College Program," to develop training in economics for prospective teachers. The CED was operating "summer workshops" to provide training in economics for thousands of school teachers throughout the nation. The CED was operating high school community projects in the teaching and understanding of modern economics; and it was operating a "Cooperating School Program." To demonstrate the teaching of economics, in 20 public school systems from California to Thode Island.

The Committee for Economic Development set up "CED Associates"—groups of young businessmen, under the guidance of college professors and of key CED or CFR members—in cities throughout the nations. The "CED Associates" were SUPPOSED to bring to their communities a better understanding of modern economics. They, like the school and college programs of CED, were excellent vehicles for the dissemination of "area redevelopment" (that is Urban Renewal propaganda). Information in press handouts and pamphlets issued by the CED's Information Division customarily reach (according to CED's officials boast) more than 19 million people.

These are just a few of the organized activities of one of the multitude of "private" agencies which went into high gear to sell Urban Renewal to the public in 1957.

And while this was going on, many American communities slept, in other words they ignored it until it had grown into the monster that it has, TO REFUSE TO ADMIT THAT A THING IS THERE DOES NOT MAKE THAT THING DISAPPEAR, WHEN WE LEARN TO FACE FACTS INSTEAD OF IGNORING THEM, and pretending that it CAN'T happen here, the better off we will be.

We have a case right here among us of an elderly widow woman who had a nice stucco home, and it was paid for, she also had a renthouse in her back yard—it was nice renthouse and was not rundown (neither was her home), but the Urban Renewal forced her to sell. She sold and moved to another part of the city and paid down on an-

In looking at some of the incidents which happen within our City Limits, well, it makes one think.

Let's take a look at some of the incidents which happened last Monday.

It was learned that several incidents of vandalism were reported on this day aside from the addition of a series of burglaries.

VANDALISM
Windows were broken in automobiles of Mrs. Allen Holman, 2304 36th Street; Ella Houston,, 2913 Parkway Drive; Harold Wade, 2714, 29th Street; and Gordon

other home—the Urban Renewal had not given her money enough for her home and renthouse to pay for another home.

(TO CONTINUE NEXT WEEK)

Moore, at his drug store. Aside from this, a window also was broken on a post office truck in our city.

Evidence showed a burglar was cut while looting vending machines at Corral Restaurant. Small change was taken from a cash register.

Loss of \$106 was reported in a break-in at John Murpree's Shamrock station.

MORE BURGLARIES
Vending machines also were ransacked at Furr's warehouse.

Winston Tucker, 2711 Clovis Road, reported to the Lubbock Police Department that he lost \$200 worth of tolls and Joe Siler had a similar loss.

Items and clothing valued at approximately \$1,000 were taken during the past week from the re-

sidence of Frank Aquillar.

Jackie Lee Newborn reported that his billfold was taken from the glove compartment of his car. The billfold contained seven \$20 bills and ten \$1 bills.

Aside from this five stereo tapes valued at \$10 were also taken and about \$30 damage done by unsuccessful efforts to remove a tape player.

SERVICE STATION RAIDED
About \$110 was reported taken in a break-in at a service station. About \$45 was taken from a

cash box at a local company—where desk drawers and filing cabinets were pried open and ransacked.

In addition to the burglary incidents, Lyle White, an employee of the Pepsi Cola Company, reported a money sack containing \$279 in cash, charge tickets and checks, taken from a desk where he had been checking his collections late Monday afternoon.

KNIFING
Police received a phone call in reference to a knifing at the corner of 17th and Avenue C.

Once there, the police learned that two females were involved in the disturbance. However, several other people were arrested due to drunkenness.

Also included in the incident was a 14 year-old girl.

Church News

RISING STAR BAPTIST CHURCH

Last Sunday afternoon, July 30, a "Be My Guest Party" -- which was sponsored by the Rising Star Baptist Church -- was concluded.

Mrs. Cedolia Jones, 2410 Date Avenue, one of the faithful members of the church, wishes to express her sincere and hearty appreciation for their response to her to sip tea at home and send her a dollar.

You were very kind and helpful. Thank you.

Rev. F.V. Otis is pastor.

BETHEL A.M.E. CHURCH

Services were largely attended at Bethel A.M.E. Church last Sunday morning. The pastor, Rev. A.W. Wilson, delivered a powerful message.

Among the visitors worshipping with us was Mrs. Celia Brown.

The Missionary Society had charge of evening services, as this day was the fifth Sunday.

Our church has been recently redecorated, the doors repaired. There is yet more work to be done.

The pastor and members were among the invited guest to Carter Chapel C.M.E. Church last Sunday afternoon. Rev. Campbell and members are preparing for the annual conference which will convene soon.

NEW HOPE BAPTIST CHURCH

Fifth Sunday services was sponsored by the W.M.S. which was held at 7:00 p.m.

Mrs. Bennie Stephens served as guest speaker.

The theme for the program was "Christian Women in Times Like These."

We are to host our West Texas Baptist District Association August 14-18.

Sunday School faculty meetings are held each Friday evening at 7:00 p.m.

House Blessing For Parsonage will be held Sunday, August 20, at 3:00 p.m. Rev. M.A. Brown and members of Triumph Baptist Church of Slaton, Texas will serve as guest.

A Pre-Musical of our Association will be held Monday night, August 14, at 8 p.m.

The members of the Colvir

Circle met last Tuesday evening at 8 p.m.

GREATER SAINT LUKE BAPTIST CHURCH

Let us continue to pray for and visit our sick and shut-in.

Little Gloria Ward remains ill in her home; Sis. Mary Brown is in the McMurray Rest Home. Sis. Doris Oats is ill in the Osteopathic Hospital. Sis. Ethel Green is ill in the Plains Clinic in Hale Center, Texas. She was reported doing well.

The Eunice Circle will meet in the home of Sis. Mylinda McCullough, 3603 Zenith, tonight, Thursday at 8 p.m.

The Deborah, Queen of Sheba, Jochabed and Martha Circles met in the homes of Sisters Fannie Knox, Odie Lovings, Frankie M. Devaughn and Merle Terry this week.

We were invited as special of the Carter Chapel C.M.E. Church last Sunday afternoon.

The twenty-second annual session of the Lovely Sunset District Baptist Association will convene with our church August 8-11.

The Senior Missionary Society sponsored the fifth Sunday Mis-

NEW DAM

Fort Jameson, Zambia -- (NPI) -- A new dam is going up on the Makungwa stream, 19 miles south west of this city, which is expected to be completed by the middle of September. Called the Makungwa dam, it will be 27 feet deep and will cost an estimated \$44,800.

ON OTHER FOOT

New Delhi -- (NPI) -- The India government is about to take some definite steps about the burgeoning birth rate, but is not making the female pay the penalty. Under proposed legislation, compulsory sterilization will be in effect for all men who are fathers of three or more children. For those volunteering for sterilization, a transistor radio will be given free of charge.

TOO LATE

Salisbury -- (NPI) -- The wheels of justice moved slowly as usual and were too late to halt the sentence meted out to a nine-year-servant program last Sunday evening at 7 p.m. Sis. O.L. Craven is president.

old African boy who had been convicted in court of housebreaking. The boy was given a sentence of four strokes of the cane, but when the High Court, on appeal, overturned the sentence, had already been carried out. However, the country's top tribunal ruled that in future instances, children will not be brought into court and given sentences.

REAL JET SET

Algiers -- (NPI) -- Algeria is working up a "jet set" of its own, but not in the pleasure-seeking field. The government recently announced that it is training 75 young women to be jet fighter pilots. The trainees were taken from among 5,000 women who have been conscripted for military service.
