

## 'Around the Hub City'

It's a darn shame that we are not supporting the new modern community center which has been recently opened for our conveniences. Look here people, the center is not designed especially for the youth, it is as it says—a community center, a place of education and recreation for the entire family. It was learned that a special program for adults is being offered, and apparently, you adults are not cooperating with this program. Don't you think it is about time that you started supporting something that is on the constructive side?

There is also a special class for elementary, junior, and senior high school students, and there is no cost. It is free. You parents need to get on the ball and support something that will help you, your children, and your community.

It has also been called to the attention of Around the Hub City that a beginners knitting class for adults will begin this week at the Mae Simmons Community Center. All individuals interested in the class may register by calling or coming by the Mae Simmons Community Center. The phone number is PO2-6411, Ext. 323.

## Empire On The Move

There is something new, exciting and on the move in the Hub City! It's Empire Building Maintenance Company, located at 8100 Avenue H, where the most complete line of janitorial services, as an art of building maintenance, can be found.

The service, which was organized October 1st of last year, is gradually being recognized through the city of Lubbock as well as the entire South Plains. It is equipped with one truck and four mobile units with radio facilities.

Empire, under the command of George Francis, a veteran in the janitorial service with twentythree years, employees twenty two men and women and services over 150,000 square feet of buildings per day.

Francis, a native of San Angelo where he received a broad background of experience, feels that the company can continue to grow with such employees as the company now has. He is the proud father of six lovely children who reside with him and his wife here in Lubbock. They are members of the New Hope Baptist Church.

Mrs. Sarah Wadley, a graduate of Dunbar High School and a recipient of a BS Degree from Paul Quinn College, is secretary and book keeper to Francis.

According to Francis, \$44,422.23 worth of salaries were contributed to employees during the first year of successful operation—here in Lubbock.

Willie Anderson, 1501 East 8th Street, is foreman while Jerry Williams, 2707 Ash Avenue, is supervisor.

"All of our employees are concerned about doing their job, and we constantly encourage this daily," says Francis.

"Our company specializes in shampoo window washing, and has \$23,000 worth of modern equipment to please our clients, he admits.

Empire employed four high school students in accord with the youth job corp project last summer.

The plant is presently located at 8100 Avenue H, where the firm operates in a 2,000 square foot building and uses two acres of parking space.

It has been learned that plans are now being made for Empire

to submit a representative to be among the new School for Janitorial and Maid Service which is to be organized in the near future.

Keeping in the trend of their slogan, "You furnish the problems; we'll furnish the solution," Empire is steadily on the move.

# YOU MUST DO YOUR PART

Uncle Bill says, "Until we can—everyone of us, whatever our position or job—do a little more thinking about our duties and less of our 'rights', until we get in the habit of saying much more often again "I ought" instead of "I want," until we can restore some of the old fashioned virtues like honesty and good faith—in a word, restore some of the discarded ethical code of the past—I see no chance for real happiness or satisfaction in life for anybody."

The manager of the Coronado Washeteria has had to make a second plea to all the parents in the area who have children, boys or girls, who use the facilities of the washeteria to please teach their children, if they are among the guilty, to behave and handle other people's property as if it were their own.

It is indeed shameful when a person has to make such a plea, it is a reflection on the intelligence of the parents of the guilty ones, the ones who are guilty of destroying the property of others. To destroy other's property is not a mark of intelligence, it is a mark of an inferiority complex, and I am sure that each of us as parents love our children and don't want them to go through life feeling and acting inferior. It is our duty as parents to teach our children to respect the rights and property of others. A child only knows what he is taught, and they are taught by example as well as words, if we do not correct them, then we uphold them.

Let us all live happily together, "Do unto others as you would have them do unto you," is still a good motto. Life in its simplest form means action and reaction. It is loved by every creature that possesses it and humankind had ever sought for a better way of life. But often they do not know what it means to live. For example, for a child, life means to play, so all day long the little one plays, he plays all kinds of games, and it is good that he does. But never to grow beyond the childish stage of life, the play level, is to miss the best of life. The adult whose chief interest is play misses too much, the parent who allows his child to destroy the property of others and think that it is funny is childish.

For the adolescent, to live is to feel. He is waamped by the new feelings that come to him and reason has not yet learned to control them. It is our duty as parents to teach our children how to reason and how to conduct themselves.

There are adults who never pass adolescence themselves, let us not be numbered among these.

The Apostle Paul said, "When I was a child, I talked like a child, I thought like a child, I reasoned like a child, when I became a man, I put aside my childish ways." And it is childish on our part to allow our children to destroy the property. Let us do our duty as parents!

Live and let live! was the call of the old—  
The call of the world when the world was cold,  
The call of men when they pulled apart,  
The call of the race with a chill on the heat.  
But now, "live and help live!", is the cry of the new—  
The cry of the world with the dream shining through,  
The cry of the brother world rising to birth,  
The cry of the Christ for a comrade—like earth.
