

'Around the Hub City'

"AROUND THE HUB CITY" would like to remind you of the fact that the director of the Office Economic Opportunity (OEO)--- War on Poverty---will be in the 'Hub City' this evening and the public is cordially invited to hear him speak in the Texas Tech Student Union Building at 8 p. m.

Shriver, first director of the Peace Corps under President Kennedy, has served as a special assistant to President Johnson and is one of the leaders in the President's War on Poverty.

After his address to the public, an informal questions and answer session will be featured.

This is an opportunity to hear a report from a representative of the Nation's capitol and time will be allowed for YOU to ask questions concerning this program.

As citizens, the time has come for us to make a contribution by participating in such outings. We have read about the Office of Economic Opportunity, but now, tonight, we have an opportunity of meeting the director of such program and by the same token ask questions.

Why not come out this evening at 8 p. m. in the Texas Tech Student Union Building and be a part of something good.

The Man on Broadway Avenue would like to call your attention that if we think of the time we spend getting out of things we never should have gotten into, it would be a better world.

Those fighting Dunbar Panthers did it again last Friday evening at Lamesa. They chalked up win number three in district play and are looking forward to continuing this record as they engage the district.

Let's stay behind the Panthers. You can do so by becoming a member of the Mom and Dad's Club which meets each Monday evening at Dunbar High School.

The club would love to have you as a member, regardless if you are a parent of a Panther or not.

City Sales Tax Burden On Poverty People

TO THE EDITOR:

With the War on Poverty already four years old, the Lubbock community is still not aware of the damage they continually do to the poverty community. In considering a city sales tax, they are again demonstrating a lack of concern for people with low incomes. The city sales tax shifts the burden from those with the most resources, the property owners, the businesses, and industries; to those with the least resources---that is those with low incomes.

By any American standard of justice, the sales tax is unfair. This explains the existence of the federal income tax. Under this structure you pay on the basis of your ability to pay. Although loopholes modify this ideal, it is basically true. State income taxes are similarly more equitable arrangements. These are financially more sound.

Voting on the sales tax essentially raised the following question. "Do you have concern for the residents of the poverty community?" The answer the Lubbock community will give is reflected in the views of W. F. Brownlee, realtor; Bob J. Thompson, state official; Earl E. Kerr, businessman; Madison Sowder, attorney; and Robert Rouse, professor. That answer which will once again demonstrate the existent social isolationism will be negative.

Witnesses Set Assembly

Jehovah's Witnesses of Texas Circuit #31 will again hold their three day Circuit Assembly in San Antonio October 27-29. Jim Guy, overseer of the East Unit of Jehovah's Witnesses, located in San Antonio made the announcement. He said that the World Headquarters of Jehovah's Witnesses, the Watchtower Bible and Tract Society located at Brooklyn, New York had authorized the assembly, and that it will be held at the Douglass Junior High School, 318 Nebraska Street.

"The purpose of the meeting", Guy said, "is to analyze our preaching activity and to lay plans for additional expansion." "After all," he said, "skilled workmen need advance training in order to perform effectively." In this world where tension is constantly increasing, and teachings such as evolution, and God is dead, is on the rise, it is most urgent that Jehovah's Witnesses be prepared to cope with such teachings. Our convention help to prepare us.

Approximately 600 delegates from throughout Texas will attend this three day convention.

The assembly theme will be "Walking Orderly by Spirit". Climax of the assembly will be at 3 p. m. Sunday when a one hour Bible discourse will be given on the subject: "Will God Intervene in Man's Affairs?" This will be presented by Willie Anderson, District Supervisor of the Watchtower Society of Brooklyn, New York.

All sessions are free and no collections will be taken. The public is cordially invited to attend.

64th Annual World Service Appeal

The Lubbock Seventh-day Adventist began their 64th annual World Service Appeal September 30th.

Participating in the appeal are volunteers of the local congregation, who are personally visiting homes of the community for the next twelve weeks.

Funds solicited will go toward extending medical, welfare, and educational services in 189 countries of the world, including the United States. On a world basis last year the church aided over 10 million persons, distributed over 11 million articles of clothing, donated 14 million hours of volunteer time, and contributed 12 million dollars in cash and food in the church's welfare program.

**HATS OFF TO OFFICER BRITT**  
 Last week, this column was talking about a young man who had been with the Lubbock Police Department for several months, but this week we are happy to tell you about another policeman who has been with the Force a much longer time and has done a great job for his community.

The young man for whom I am talking is William Britt who has been with the department for six years. His job, like Fury, is a tremendous one, but he is able to give it the complete one hundred per cent try each day he is on the 'Beat'.

I have always asked Officer Britt why he hasn't considered becoming a detective. Let's hope men like Officer Britt will consider moving forward in this field of employment. Lubbock needs men like Britt, and others, who is contributing a great deal to the welfare of the community. Good Luck Officer Britt.

Next week we will tell you of another policeman who is doing an outstanding job with the Lubbock Police Department.

**THEFT**  
 Woodrow Hamilton reported to the Lubbock Police Department that several men jumped him and his brother while they were walking down an alley way near the Tampico Apartments.

Hamilton stated that he had no idea who the men were, but they did take an advantage of them. One of the men had a gun while the others invited themselves to Hamilton's wallet. According to Hamilton the billfold contained only \$9.00.

Hamilton admitted that after they had robbed him, one of the men fled in an automobile and at this time he decided to break and run without looking behind.

Hamilton admits that it is not wise to be caught in strange places

after dark.

**MAN WITH GUN**  
 A patrol car was driving in the East Lubbock area when one of the patrolmen spotted a man who appeared to be completely drunk.

They approached the man to see what he was up to when they were surprised to find a .22 caliber pistol in his possession.

This type of action happened without a call to headquarters.

Can you imagine a 66 year old man walking around the community with a loaded weapon?

**SHOOTING**  
 In another case policemen were called to 719 Avenue E, apt. 17, in regard to a shooting. Once there police learned that a man was responsible for shooting in the neighborhood.

Police were able to find the man responsible for the shooting and he was relieved of the weapon and placed in the 'cooler'.

**HOUSE BURGLARY**  
 Mrs. Bobby Wood's mother, Mrs. J.F. Haynes, 619 Avenue D, reported to the police department that unknown persons entered the house and told her that her daughter, Mrs. Wood, said for them to take the following items which included radios, appliances and others.

These items were valued at \$73.  
 Mrs. Haynes could not identify the men, but the lady is very much concerned about the items taken from the house without her consent.

Can you imagine people taking advantage of older people in our city? I am sure you can't, but what can we do about it? We as citizens must become more involved with the wrong doings of our community.

### What's Happening

Something is happening in our city. You see the neighborhood leaders of the Posey Elementary School district are concerned about the welfare of their community.

Not only are they concerned, but they are doing something about it. They meet last Tuesday evening with members of the City-County Health Department and other officials in order to discuss the many problems which are lodged in this area.

The leaders--which total over thirty people--were shown many facts about their community and were able to see how important it is to have a clean community.

Each leader present at the meeting was suggested by the people of the community.

The Posey district is a pilot project of the type of health programs which will eventually be displayed throughout the City of Lubbock.

The neighborhood leaders agreed whole heartily that it is time for something to be done about their community. They are also in accordance with the theme: "You Don't Have To Move To Live In A Better Neighborhood."

Many problems were discussed at this meeting, including the diseases, housing and others.

Another meeting will be held Tuesday evening, October 25, at 8 p.m. The public is cordially

invited to attend.
