Seeks Lodging for Assembly Participants 375

The East Unit Congregation of Jehovah's Witnesses was represented by 16 attenders at a kick-off meeting in Lubbock Saturday night in officially getting their massive search for rooms off to a good start.

The campaign, noted Ernest C. Outten, local presiding minister, is designed to secure rooming accommodations in Lubbock for the "Word of Truth" District Assembly scheduled the week of July 22-25. Because of the limited time in which to obtain the rooms and the large number of private home accommodations needed, the East Unit Congregation is assigned to share in the room hunt up until convention time.

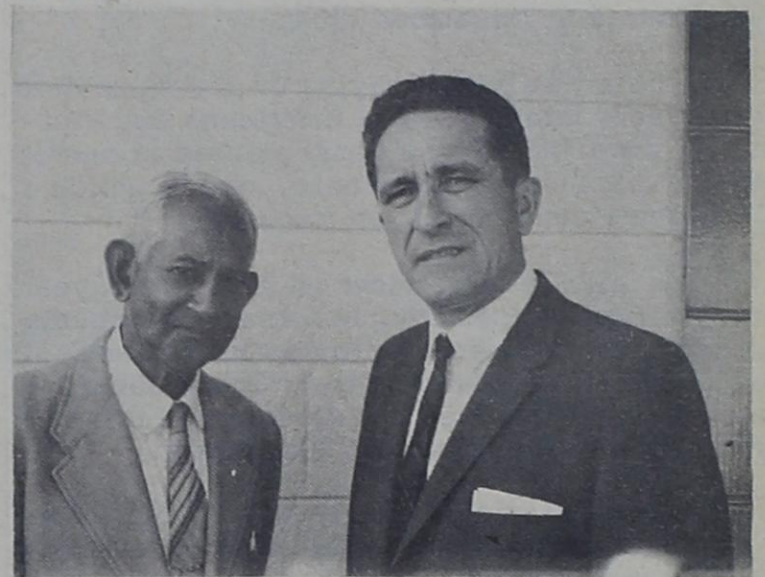

The tremendous task of a house-to-house campaign was outlined to the Lubbock and scores of other authorized workers by representatives in charge of rooming.

Outten said, "Our workers will be participating not only during the week but also on week-ends up until assembly time. This will involve much work and effort on our part but seeing the need and with delegates coming from 18 states so far the East Unit Congregational workers are more than glad to help

"I chose beauty culture for more reasons than one," accalims Mary Hardeman, 2802 Weber Avenue, Apt. C. She is the daughter of Mr. and Mrs. L. A. Hardeman. She is employed at McBrides Hair Stylist.

Immediately after graduation from Dunbar High School in May of 1962 and after the passing of the state board at Austin, Texas, Miss Hardeman has been employed as a beautician. She is hoping to continue her work in this field to become more efficeint as a besutician, perhaps one day a hiar stylist.

She is a member of Greater St. Luke Bap;tis Church, where seh is a

Shown above from left are Ernest E. Outten, local presiding minister of the East Unit of Jehovah's Witnesses, and Peter D'Mura, Convention Manager for the upcoming "Word of Truth" conclave at Fair Park Coliseum July 22-25. Outten is handling the rooming work for some 500 Negro delegates coming from six states for the Lubbock convention.

Ernest C. Outten, 1708 E. 27th Street, a full-time minister, is in charge of room hunting for over 500 Negro delegates expected to attend Lubbock's Fair Park Convention in July. Already the East Unit of Jehovah's Witnesses has 250 requests for accommodations from six states, Texas and Kansas having the largest representation.

Outten graduated from the Watchtower Bible School of Gilead in New York in 1956. He has been a full-time minister for 18 years and served as circuit supervisor from 1947-56, but since that time he has been serving in a special capacity in Lubbock.

Of this assembly, Outten noted, "What is faith-strengthening is to see hundreds of men, women and houths freely working together as volunteer workers performing the work need-ed."

Though not new for the Witnesses, Outten observed, "Volunteering is the key to a successful assembly because it is putting Christianity to work."

"People helping people" is the way he described it. "That includes a willingness to work and serve your felolw man. That's what makes these conventions sc outstanding," he concluded.

"LAND OF THE FREE"

It has been exactly fifteen years and six days ago, last Friday, June 25th, the fifteenth anniversary (and not too much mentioned) since communist troops crossed the thirty-eighth parallel and initiated the greatest police action the world has ever known of which 33,000 Americans lost their life in combat.

On this same day, 15 years later, the communist aroused us by executing an American sergeant. The victim of such a notorious act was Sgt. Harold Bennett of Arkansas, a father as well as a fighting man. He was a prisoner of war who was captured in December 1964.

Aside from this brutal slaying on the same date fifteen years later, several Americans and Vietnamese were killed by a bomb planted in one of Saigon's exclusive restaurants, one in which a host of Americans patronage frequently.

It was also a grim view on the fifteen year anniversary of police action in Korea when seventy two marine replacements for troops in the far East plus twelve crewmen lost their lives aboard a transport plane minutes after deploying from their home base in San Francisco, California.

What does all of this mean? Well, your guess is as good as the next... But without taking a second guess we are cognizant of the fact that "troubles still exist" as was the case in 1950.

It is the hope of America... and the world that the ingredients contained in the address presented to the United Nations on its twentieth birthday at San Francisco by President Johnson carried a tasteful meaning to the world.

Perhaps what the world needs most of all is LOVE, and believe you me, more of it... a great deal more.

As Americans we should be happy to live in a country like America... The home of the free and the home of the brave.

From The Firing Line

By Dick J. Reavis, Demopolis, Alabama

We shall not, we shall not be moved
We shall not, we shall not be moved
Like a tree that's planted by the water,
We shall not be moved.

And now they have us. Three of us, our leader and two others, have just been picked up by the police. Our phone is tapped, as it has been for the last five months. The whites among us are hounded out of sight, in the house. Those blacks of us are sitting and standing around the porch, chattering nervously. And we're all waiting for news of what may come next.

It all began a week ago, in Atlanta, with the birth of summer project called SCOPE. About 400 college students, mostly Northern whites and Southern Negroes, arrived at SCOPE headquarters to learn how to teach black belt Negroes to vote. This summer, under the direction of Martin Luther King's SCLC, we will spend nine weeks working in voter registration campaigns throughout the South.

Orientation for the program lasted a week. SCOPE volunteers heard lectures by such mighty civil rights figures as Dr. King, James Bevel, and Robert Moses. Bayard Rustin, the man who put together the march on Washington, presided over the convention. Historians John Hope Franklin and C. Vann Woodward spoke before our assembly. Hosea Williams, SCOPE director, was present to guide our summer plans into action.

It was a busy session. We were up by eight in the morning, and at work until eleven each night. But with each lecture and discussion session, we found new insight into America's racial conflict. And when those lines were sung, "Like a tree that's planted by the water, We shall not be moved", we found new sources of encouragement.

Towards the end of the week a great apprehension swept over us all. We worried about where we would be going, about conditions we would face, and about the time we might spend in jail before our summer's work is done. Moreover, we had to pass through a transformation in our ways, for it is very hard with a black belt farmer. And then too, there was humorous rub, since most of us have never eaten pigtail and cow tongue, and yet we will have to learn; for each of us will live in the home of a Negro, as a Negro, while the summer's work is being done.

I asked for and was assigned to Marengo County, in the heart of the Alabama black belt. Last night I arrived at my post, in Demopolis, Alabama. With me came four other whites, all young women, and a half dozen Negroes experienced in civil right work. Our function will be to aid the local Negro leadership in a voter registration drive in this (area), a county with a four to one Negro majority. The job will not be an easy one and it will be so costly, both in dollars and energy.. This afternoon, less than twenty-four hours after our arrival, our leader, a local Negro Baptist minister, is in the care of the local police. We stand ready, waiting for what may come next.

(Editor's note, Mr. Reavis expects to send The Times more information in the near future concerning his summer vacation in Alabama.)

The Police Beat

VANDALISM REPORTED

Mr. D. C. Fair, Jr. of 1821 Manhattan Drive told police that sometime during the night of June 23 an unknown person through a large piece of cement through a plate glass window measuring approximately 36 x 60 x 1/4 inch thick. No other damage was reported. The estimated cost of the glass was fifty dollars.

HOUSE BURGLARY

Mr. T. C. Porter, 2412 Cedar Avenue, told police that persons unknown had broken into his house. The screen of his right northwest door had been ripped and a hole had been punched in the little glass, about 3" x 10", to unlock the door from the inside. He stated that he had 2 suits missing, one brown and one

blue, men size 43 long. Each suit was valued at sixty-five dollars. He had one pair of brown size 8 1/2 shoes valued at twenty-two dollars. He said he did not know of anyone in the neighborhood who would do this.

MAE SIMMONS BROKEN INTO

James Price, manager of Mae Simmons swimming pool, told police that sometime during last Tuesday night the pool was broken into. The lock of the store room at the pool was opened and they entered the snack bar. The popcorn machine had been moved, but nothing taken. The light in front of the door was knocked out. There were no suspects.

THEFT OF COPPER WIRE

Copper wire was taken after the rain on Tuesday evening at East 30th and Globe Streets at the construction site for the transformer station. There was about six

hundred feet of bare cable copper twisted cable from about one inch in diameter down to about three fourth. The value of the cable was placed at \$250. Mr. J. W. Buck followed foot tracks west of the railroad tracks to a place about one block west of the scene of the theft to where an old house was torn down on the west side of the alley between Fir and Globe Streets. Police recovered about one hundred feet of the three fourth inch cable, which was returned to Mr. Buck. The cable had been covered with brown paper and an old quilt.

The cable had been taken from inside of a chain link fence enclosure. Entrance was gained by climbing over a gate on the south side

CALIFORNIA REQUIRES TEACHING OF NEGRO HISTORY IN SCHOOL

California has become the first state in the union to require by law the teaching of Negro history. Through a law authored by Assemblyman Mervyn Dymally, 53rd District, Los Angeles, it has become mandatory in the state of California that, "The governing board of each high school district shall include only such textbooks which correctly portray the role and contribution of the American Negro in the total development of

The Beautician's Corner

Yes, here we are again ready to give you some more news and views of our beauticians. I felt very badly the other day when one of my readers asked what had happened to the Beauticians Corner. Oh well, I gave some kind of excuse and promised we would start again. So here it is.

of the League will receive her Masters Degree this summer? Our hats are off to you, Dess.

What has happened? I have missed several of you from the meetings lately. Yes, it is really getting hot, come on let's get the building going that will cool us off.

What's wrong? I Haven't heard Hibbler, Jones, or Fair say anything about the National in D.C. I wonder when they will leave? Did you know L. Blanton was the delegate to a meeting in Dallas?

Someone said Jones and Jelks attended a sorority meeting in Amarillo. Yes, Jones made the trip in 60 minutes flat. Of course, she is Basileus and they are always in a hurry. What happened to Linda Sanders? We've missed her

so much. Come on Linda we need you. It was very nice to see Clara Shields in the meeting. Boy, that girl can cook and smile better than anyone I know of.

Did you miss Billy for a few weeks? Billy attended one of the church meetings. She reported a very good meeting and a little rest. Boy! Goldsteines home is a dream and her shop is so nice.

Jessie Tylor is all smiles, her hubby is home from the hospital.

What ever happened to the young beauticians meeting? They haven't met in a long time. Don't wait until convention time or the chartered bus might leave you.

How about that? Did you see Bennie Wedworth in her cute little car? It's cute as a bug in a rug.

I wonder what happened to the Shop owners Club. We wish the president would call a meeting.

Getting Back From Space

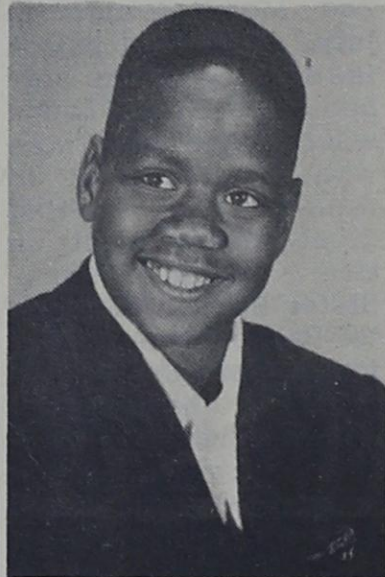

At almost 18,000 miles per hour, Astronaut Gordon Cooper had to put on his brakes almost the way you would apply yours to slow a car. It was his only way down.

These brakes, called "retro-rockets", were three solid-fuel motors shaped like buckets and strapped in the blunt end of the capsule. They slowed his forward push by reverse thrust, and pushed him out of the

orbital path, down into a new trajectory for re-entry into earth's atmosphere.

Though one of these retro-rockets alone can do the "braking" job, three are installed in the capsule! Fired at five-second intervals, they burn for approximately 11 seconds each, breaking the capsule speed by about 500 feet per second.

In this past week at Camp Post he learned more about the outdoor living and learned to do many things on his own.

Some of the other scouts of Troop 136 who received Badges in Pioneering were Kenneth McGee, Ronnie Sneed, Ira Fobbs, Robert Walker and John Knowles.

Thomas Patterson and Willie Toliver are scout masters for these boys.

SERMON OF THE WEEK:

By Rev. W. D. Haynes, Pastor, Church of God in Christ #2

All who believe in the Almighty God will agree that He has power to intervene in the affairs of men, but does He intervene in the lives of individuals? And if so, under what circumstances? Does He intervene in a sovereign way, independent of what man does or fails to do, or is necessary for the individual to do something to provoke divine intervention?

The majority of people believe that divine intervention is a sovereign act of God, but this would make prayer a very inadequate and uncertain approach to God and faith would be a needless and useless entity. In most cases divine intervention is the result of some definite action of faith. Millions have yet to discover that God will intervene in their affairs when they will use all their resources in an act of faith. Let us consider some Bible examples.

The city of Samaria was under siege by the Syrians. The entire population was starving--the famine was so terrible that they devoured even their own children. These were God's people, yet the siege last-

ed day after day with no sign of an intervention from God. Suffering and misery left a trail of death, yet God never made a move until someone acted upon a divine principle of faith that moved God into action.

Four lepers sat outside the gate of the city. Added to the suffering of their disease was the terrible suffering of famine. "Why sit we here until we die?" they asked. They were aware that within the city lay certain death from starvation. To remain where they were meant the same fate; their only chance of survival was to fall into the hands of the Syrians. It was a fearful chance--contrary to their personal feelings--but they arose in the twilight and started on their painful way to the camp of the Syrians. What seemed to be a mission fraught with doom turned out to be an unparalleled deliverance. If they had done nothing there would have been no divine intervention, but by employing all the resources of their waning strength, these helpless, dying lepers brought God's intervention upon the scene.
