

S-E Band Members Selling Subscriptions

Band members at Springlake-Earth schools from the fifth grade through the twelfth grade are going all out on a door to door campaign to sell very low cost subscriptions to the Earth News-Sun and all major magazines.

This is the only annual fund raising project of the bands. Tom Sorelle, band director, stated that while the band is trying to raise money they also want to give something in return and they feel that by selling subscriptions to the local newspaper and various magazines they are doing this.

The fund raising project will continue through November 2 and the band will be allowed to keep 30% to 40% of all the proceeds from the sales. This will be used to help pay contest entry fees, purchase new sheet music, and so forth.

A goal of \$3,000 worth of

bought subscriptions has been set by band members and Monday they had recorded sales totaling \$1,700.

Earth News-Sun subscriptions are only \$3.50 (plus tax) for persons in Lamb, Bailey and Castro Counties while persons elsewhere in the country pay only \$5 (plus tax) while the price freeze is still on. Area residents are urged to take advantage of this marvelous opportunity to back the local bands and to receive the low cost top grade reading materials.

Band students who sell over twenty-five subscriptions will receive a bonus of ten dollars.

Sorelle said that anyone who is interested in purchasing subscriptions to the newspaper or any major magazine and is not contacted may call the high school office and a band member will be glad to call on them.

Halloween Carnival To Be Saturday

Come One--Come All! Fun for persons of all ages will be found throughout the Cub Scout sponsored Halloween Carnival which will get underway at 6:30 p.m. Saturday, October 30, in the agricultural building located next to the rodeo arena in Earth.

Sure to top the list as a crowd pleaser will be a Spook House, which will be sponsored by the Earthquakes.

Various Cub Scout dens will feature booths such as a bean bag toss, fishing pond, dart throwing, a gun gallery where water pistols will be used to shoot out the flames on lighted candles, and many more types of amusement.

Girl Scout and Brownie troops will be represented at the gala

affair with Pitch A Penny and Basketball Toss booths plus a country store and a cake walk. Numerous other civic groups and clubs are expected to erect booths of all types for the Halloween Carnival.

There were even rumors that a fortune teller would be on hand that night.

There will be a large concession stand filled with delicious treats such as dime cokes and twenty-five cent hot dogs. The stand will be open under the direction of the Cub Scout organization.

Everyone is not only invited, but urged to come out to the carnival and enjoy an inexpensive supper, lots of fun, and games where prizes galore will be won by all who attend.

Bodies of Missing Mesquite Couple and Teenage Girl Found

Bodies of a young Mesquite couple, who formerly lived in Lubbock and had many friends and relatives in this area, and a teen-age employee of a doughnut shop were found Sunday afternoon, but details of their violent deaths remained a grim mystery Tuesday.

While walking along railroad tracks near Lake Ray Hubbard in Dallas, two young men showed the body of Susan D. Shaw, 16, about 9 p.m., Sunday. She had been missing since Wednesday night when she disappeared from a doughnut shop where she was working. Authorities said her father positively identified the body, which had been riddled by six bullets.

Two hours later, at a spot several miles away two other men found the bodies of Forrest Covey, 22, and his wife Tena, 19, in a Hunt County barn. They vanished October 17 from a drive-in grocery store where Mrs. Covey was employed.

The Coveys are believed to have met death in the barn that is used twice a year by members of a hunting club.

Asked if the same killers were to blame for all three deaths Jack Grayson, Mesquite Police Chief, said "It is an assumption, but we feel it is a pretty good assumption, to assume the three were killed by the same person."

He also stated that no physical evidence linked Miss Shaw's disappearance to that of the couple, but added, "we're working on that." Grayson said there was a possibility that slugs from the bodies will be extracted and compared.

Justice of the Peace, Homer Wacasey of Greenville said that it is certain that Covey was shot in the back.

Wacasey also said the hands of Covey and his wife were both tied with baling wire and the bodies were badly deteriorated.

Needless to say, residents in the Dallas area are scared and with good reason.

One mother of three children said "It's just like Boston when

the strangler was loose."

"Where are you safe? We're dealing with a maniac here," said Raymond McGee, owner of the Mr. M. Food Store, from where the married couple disappeared.

The FBI, Mesquite and Dallas police forces, several Texas Police agencies and even Lakewood, Colorado, and Salt Lake City, Utah are involved in the investigation. All the agencies are comparing notes on any similar disappearances in the various areas.

Covey's parents live in Lubbock and his wife was the daughter of Mr. and Mrs. F. D. Houchin of Garland. She was also the granddaughter of Mr. and Mrs. C. L. Houchin of Earth.

Funeral arrangements for the couple were to be held Wednesday at Garland.

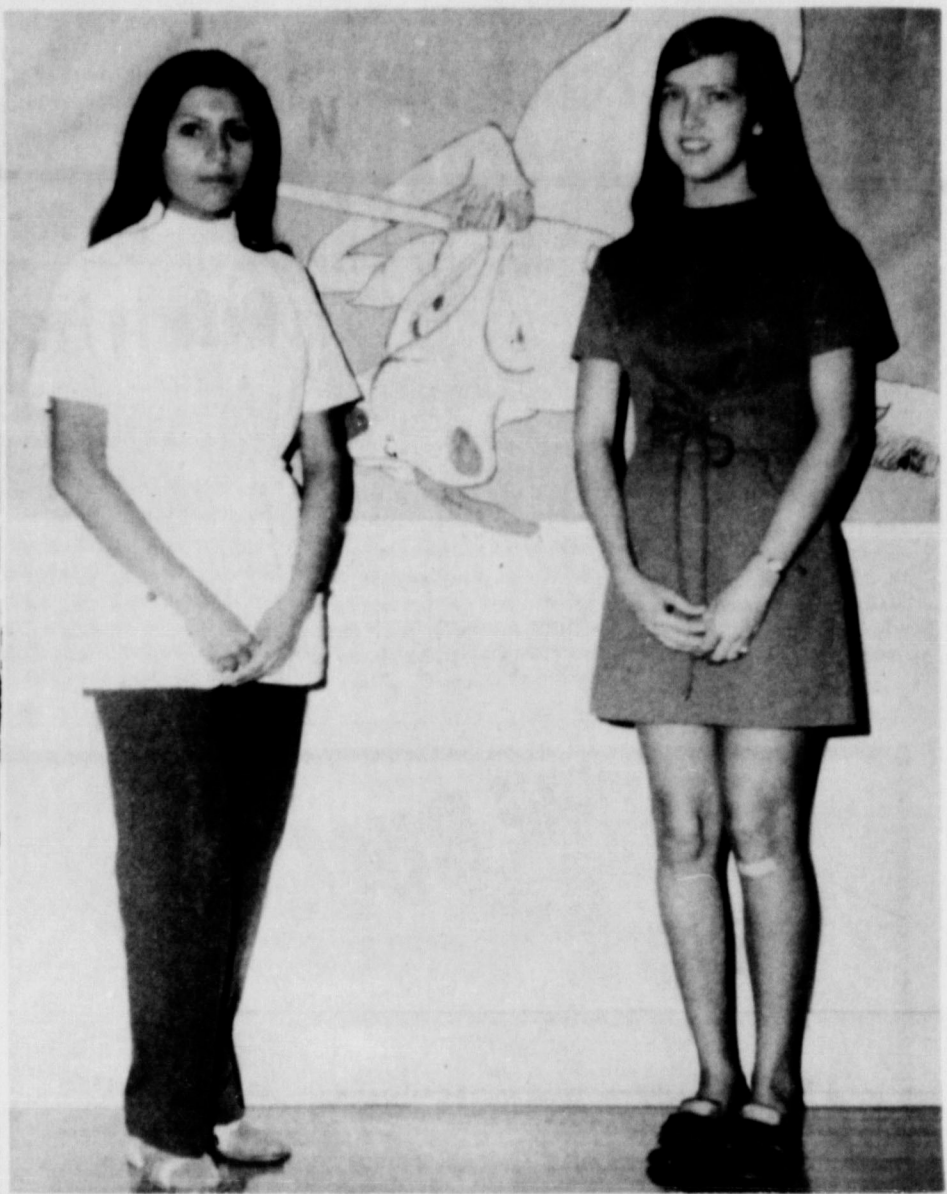

The couple are the parents of two daughters, age 2 years and 2 months.

OBVIOUSLY discussing politics or boyfriends, these talented seniors will appear in the production of "Seventeenth Summer" to be presented Tuesday evening.

ON THURSDAY, October 28, Miss Flame of 1971 will be crowned. In the competition from the Junior class is Miss Renee Jones and contestant from the Senior class is Miss Criss Dent.

TWO MISS FLAME candidates are Miss Agnes Palacfo representing the Freshman class and Miss Kim Kelley representing the Sophomore class.

Senior Class To Present Play

A play entitled "Seventeenth Summer" will be presented at 7:30 p.m. Tuesday, November 2, in the high school auditorium by the senior class at S-E High School.

Written by Maureen Daley, the story is about a girl in her seventeenth summer and the joys and sadness she experiences.

Some scenes will make the audience laugh until they cry and still other scenes will deeply touch the hearts of those who will view the play.

Angie, the girl in her seventeenth summer, will be portrayed by Phyllis Smith and Mike Cleavinger will portray the part of Jack, Angie's boyfriend.

Carl Sulser and Becky Littleton will fill the rolls of Mr. and Mrs. Morrow, who are Angie's parents.

Angie's three sisters, Margaret, Loraine and Kitty, will be portrayed by Criss Dent, Karen Hinchliffe and Karen Dear.

The parts of Jane and Margie, who are Angie's friends, will be played by Marian Dawson and Donna Dummam.

Boyfriends of other girl cast

characters will be Arte, played by Terrell Ott; Martin, portrayed by Dale Wheatley; Tony, played by Joe Rivas; and Chris Brock will fill the role of Fitz.

Student directors for the production are Suzy Temple and Chuck Smith.

Mrs. Norman Sulser and Dennis Criswell are the adult directors and Bill Anderson and Mrs. Marie Slover are the producers.

Tickets for the heart-warming production are on sale now through members of the senior class.

Pig Sale Nets \$11,570

Sales totaled \$11,570 Saturday as two hundred pigs were auctioned off by W. B. Dickenson Jr. of Oton at the Eighth Annual Springlake-Earth Community Pig Sale which was held in the show barn located next to the rodeo arena in Earth.

Approximately 300 buyers were on hand to bid for the pigs.

Dale Gillman of Lazbuddie sold his Grand Champion Crossbred pig to the Lazbuddie Future Farmers of America Club for \$255.

A Duroc pig belonging to Joe Tarter was chosen as Reserve

Grand Champion at the sale. Tarter sold the award winning animal to Mike Windham for \$160.

The highest priced pig sold for \$260 and it was a Duroc belonging to Joe Tarter.

Jerry Jones reported Monday that the average price per pig at the sale was around \$30. Jones stated that this year's average is the highest in the history of the sale.

Jerry Stockton of Wofforth served as stock judge.

The local chapter of the young Farmers Club was in charge of the concession stand.

Goodwill Centre Well Stocked

Mrs. N. Ray Kelley, one of four members of the Town and Study Club who had charge of the Goodwill Centre Saturday, reported that there is an abundant supply of good clothing presently in stock at the Centre. She stated that anyone who is in need of clothing may purchase it at a very low cost.

The club members who were on hand Saturday to aid Centre customers reported a busy day and recorded sales totaling over ten dollars.

The Happy Losers Tops Club will open the Centre Saturday, October 30.

Workers at the Centre last week were: Mrs. L. Z. Anglin, Mrs. John Laing, Mrs. Lottie Orteg, and Mrs. N. Ray Kelley.

Bonfire Tonight In Springlake

If you see evidence of a large fire in the direction of Springlake about 7:30 p.m. Thursday, don't be alarmed—it is the annual bonfire sponsored by Springlake-Earth school students.

Girls who are representing the respective classes entered in the competition are: Criss Dent, Senior; Renee Jones, Junior; Kim Kelley, Sophomore; and Agnes Palacfo, Freshman.

A huge pep rally will be held that night to boost the spirit of the Wolverines as they prepare to play their last home game of the football season Friday night when they meet Hart.

Friday, October 29, has also been designated as Western Day at the S-E Schools. Student council members request that all S-E students dress in western attire that day.

type of accident. If you are driving a car remember to drive slowly and watch for children darting out into the street from behind parked cars.

Boys and girls who plan to take part in the annual activities should be sure to watch for cars and wear light colored clothing, reflective tape, or something which can be seen by drivers of cars after dusk.

Arlie Ellis was elected Denner when Cub Scout Den 4 met for their first meeting of the year Tuesday afternoon. Channon Pellham was selected as assistant denner.

Arlie Ellis led the Pledge of Allegiance before the boys learned the scout handshake, motto, salute, and sign.

The scouts then made Halloween decorations for posters to advertise the Halloween Carnival. Clint Dawson, den chief, led the boys in several games.

Cadettes Begin Meetings

Cadettes in Girl Scout Troop 178 held their first meeting of the year Monday, October 18, in the home of Mrs. and Mrs. Don Taylor.

It is not definite that the troop will continue to meet. According to Mrs. Taylor if enough girls do not register to join the organization will be sadly disbanded. However if a good number of girls show interest in Girl Scouting the troop will meet either once or twice a month.

Having completed requirements in social dependability the scouts were issued a challenge by their leader. The challenge was to plan and carry a social event.

Attending the meeting were: Margaret Street, Neisha Lewis, Lisa Clayton, Quincey Lewis, Ruth Street, Donna Daniel, Lydia Smith, Teresa Lively, Diana Hampton, and Mrs. Taylor.

Leadership Key Role For Nation's Homemakers

DALLAS -- Voluntary leadership efforts by homemakers across the nation were praised by Edwin L. Kirby, administrator of the Extension Service, Washington, D.C., during the National Extension Homemakers Council meeting here, September 20-24.

Speaking to more than 2,500 homemakers who attended from 43 states, Kirby said homemakers were especially to be commended for their leadership with youth, the disadvantaged, poor, elderly and handicapped.

"We are happy that you are taking a hard look at your program priorities to be sure that they are high priorities designed to make the best possible use of your membership's time and resources; help Extension's efforts zero in on high priority problems with an appropriate balance for all people; and insure your own continued growth and vitality," Kirby emphasized.

Continuing, he said that "this growth and vitality is sorely needed to provide tomorrow's sound homes and communities and to assure equal opportunity for all citizens."

Kirby, who was introduced by Mrs. Florence W. Low, assistant director for home economics with the Texas Agricultural Extension Service, College Station, gave the closing address at the national conference.

The NEHC named three new officers and two committee chairmen during the final business meeting. Mrs. Merlin Warren of Longview, Washington, was named secretary, and Mrs. Shelby Edwards of Ponchatoula, Louisiana, treasurer. They will serve with holdover officers Mrs. Keith Blackmer of Lyman, Wyoming, president; and Mrs. Martin Muchow of South Falls, South Dakota, vice president. Mrs. Walter Drees of Reynolds, North Dakota, was

named director for the Central Region. Serving with her during the coming year will be Mrs. Wilmer Ames, Kennebunkport, Maine, Eastern Region; Mrs. S. E. Gilbert, Lynchburg, Virginia, Southern; and Mrs. William G. Lewis, Fairbanks, Alaska, Western. The citizenship committee's new chairman is Mrs. Donald Christiansen of Lyons, Nebraska; and new chairman for the family life committee is Mrs. Hugh Byrd of Alabama.

Mrs. Ricky Russell has been dismissed from the complex at the High Plains Medical Center in Plainview.

The city of Springlake would like to thank the Earth Law enforcement and Department of Public Safety for the help extended the city of Springlake Sunday night during the turbulent weather.

ity Building. At the meeting Carol Smith of Atkin will demonstrate how to make Christmas items. She has been termed as outstandingly talented. Everyone is invited to attend.

MARIAN DAWSON

Marian Dawson Selected Bandsman Of The Month

Marian Dawson, the daughter of Mr. and Mrs. Ed Dawson, has been selected as Bandsman for the month of October at Springlake-Earth High School. Band director Tom Sorelle stated that he chose the head twirler for the monthly honor because she has done an exceptional job in coordinating the twirlers with the band and by helping him with the band in numerous other ways.

"Marian, who plays the bassoon is an excellent musician and leader," said Sorelle.

He feels that some people mistakenly do not associate twirling as a real part of band work, and he added that it is a very important job. The pretty senior has been a member of the S-E bands since the fifth grade. She will be entered in solo and ensemble twirling contests at Lubbock, November 16, when

the entire band goes that day to the marching contest. Miss Dawson is a squad leader in the band and she helped to teach marching classes before school began.

The twirlers who perform at all football game half-time activities also perform at the pep rally, in parades, and so forth.

The extremely attractive young lady reported that aside from being so active in band she is secretary for the student council, program chairman for the FHA Club, a member of the National Honor Society, sings with the Earthquakes, and is president of the UMY youth group at the local Methodist church.

We also learned that in an all school election Tuesday, Marian was selected as Girl Most Likely to Succeed.

Cub Scouts Hear Doug Parish

Doug Parish presented a very interesting program concerning the local fire fighting equipment when Cub Scout Den 3 met Wednesday afternoon at the fire house in Earth. Parish discussed all the equipment on the fire trucks and how it is used. He also told how the firemen watch for tornadoes before taking the scouts for a ride on one of the fire trucks.

When the meeting began, Kyle Kelley called the roll and each of the eleven scouts present answered by naming their favorite athletes.

Gregg Geissler collected the weekly dues. The boys made original posters to display concerning the Halloween Carnival.

HALLOWEEN: PROTECT CHILDREN FROM CRACKPOTS

The most frightening horror of Halloween does not stem from the ghosts and goblins who ring doorbells with masked cries of trick or treat. Rather, it is the grotesque behavior of crackpots behind some of those doorbells who turn the children's evening of make-believe into a haunting nightmare.

Every year at this time, newspapers carry the heart-breaking stories of children who have been innocently

Elroy Wisians UMY Sponsors

New adult sponsors, Mr. and Mrs. Elroy Wisian, got acquainted with members of the senior high United Methodist Youth group from the local Methodist church when they met Sunday.

Mr. and Mrs. Lynn Glasscock are also sponsors for the group.

While the youths and the new sponsors were chatting they enjoyed refreshments of tuna and pimento cheese sandwiches, potato chips, and soft drinks, supplied by the Wisians.

The Sub-District UMY meeting which is set for 2:30 p.m. Sunday, October 31, in the United Methodist Church at Earth was discussed.

The local group is supposed to furnish games and refreshments for the meeting.

Attending the Sunday meeting were: Shelly Gaston, Roberta Gaston, Paige Gaston, Vicki Wisian, David Wisian, Becky Littleton, Marian Dawson, Donna Dunnam, Karen Dunnam, Hoyt Glasscock, Chris Brock, Greg Slover, Tracy Lee, Elroy Wisian, Jr., and Mr. and Mrs. Elroy Wisian.

duped by sick minds. Yet, every year the cautions go unheeded and November 1 sees the same stories all over again.

Mrs. Larry Weaver, chairman of the drive this year, announced that a goal of \$500 has been set to be collected from Monday, November 1, through Saturday, November 6.

Girl Scout and Brownie leaders as well as mother's of Brownies and Girl Scouts will be accepting donations in a door to door canvassing campaign.

All gifts to the fund drive from Earth and Springlake will be sent to the Caprock Council at Lubbock. The council in turn gives direct guidance to local troops as does the national office.

The money is also used to help pay expenses for Girl Scout camps and other activities, to purchase materials for scout projects, to help conduct workshops, and for other worthwhile uses.

The Good Town of Earth

By DAVID HARTMAN

I want to brag on Earth. Earth, Texas, is a good place to live. My family and I have been here a little over two years and we have never for one moment regretted moving here.

What is it that makes a town what it is?

Is it the businesses in operation? Yes, that's part of it. There are not as many business establishments here as there once were. I am no economic expert so I don't know all the why etc. I do know the economic squeeze is on all of us. The margin of profit for all of us is not what it once was. It's difficult to adjust personal and business budgets downward etc. but sometimes we have no choice.

As important as business is to keep a town alive it is not the most important factor.

Well, is it the school system? Where would we be without our school system? To answer my own question -- we would be a lot worse off than we are right now. We have a good school system. I am not ashamed for one moment that our son attends Springlake-Earth Schools.

As important a contribution as school makes to a town it is not the most important.

Surely it is the churches.

Would you want to live in Earth if there were no churches here? It is a cinch that I wouldn't be living here if it were not for one particular church (especially since I am the pastor of it).

We have four strong congregations here. In addition we have two Missions for our Spanish speaking citizens and one Negro congregation that will soon be constituted into a church.

So you see our churches and missions do play a vital role in our town. However, they are not the most important factor that helps to make a town what it is.

The main factor that makes a town is the people who live in it and the attitudes they possess.

Businesses, schools, and churches--where would they be without the people? If you don't have people you don't have the three things above. But when you do have people businesses, schools, and churches are highly interdependent. You can't have one without the other.

One key word is attitude. School and church help to shape attitudes. Parents shape attitudes at home also.

What kind of attitude do you

possess toward Earth and surrounding area? Let me paraphrase a little saying; if everybody in Earth acted just like me, what kind of town would our town be?

Earth, Texas is not the perfect paradise. But I don't know of a place that I would rather live than right here. I'm glad I live here. I hope you're glad you live here.

Pollution Costs Texans \$65 Per Person

Air pollution is a serious and difficult problem which affects everybody in Texas. It is a definite threat to human and animal health and costs Texans millions of dollars a year, now estimated at \$65 for every man, woman, and child in the state.

"Today, the Texas Health Department's air pollution control program is expanding with people and equipment to become the most complete air pollution control program in Texas history, and one of the most effective in the nation," said Charles R. Barden, the State Health Department's new deputy commissioner for air pollution control.

"There is simply more emphasis today on air pollution. We are working to meet the demands of the people of Texas for cleaner air.

Those demands were significantly voiced through the last session of the Texas Legislature which appropriated \$1.2 million for the Texas Air Pollution program. This enabled the State to attract more than \$2.4 million in federal funds for a total program of almost \$4 million.

The Texas Legislature already had passed a significant legislation for cleaning and conserv-

ing Texas' air. To provide an effective legal means for controlling air pollution, the Clean Air Act of Texas was passed in 1965. A year later the Texas Air Control Board, a policy-making body, was created. The board set up rules and air quality standards to safeguard Texas' air resources. It later adopted six regulations covering almost every form of air pollution including smoke and particulate matter emissions, outdoor burning, sulphur compounds, motor vehicle emissions and toxic materials.

More recently, the Board put into effect a new, far-reaching construction permit system to control and prevent air pollution. Under the permit system any industry or company construction of, or change in, a process that will emit air contaminants is required by law to obtain a Board permit before starting construction.

Air pollution control also is an individual concern. That's why the Texas Health Department is focusing attention on the theme "Make Air Pollution a Personal Matter" during 1971 Cleaner Air week, October 24-30, 1971.

Falls Can Disturb Growth

A doctor of chiropractic recently warned parents and teachers to be a rare of activities which can cause spinal disorders and subsequent illness in children.

Said Dr. Roy Beller, President of the Texas State Chiropractic Association: "Children are particularly prone to spinal subluxation or misalignment, because of the type of activities in which they engage, their over-abundance of energy, their impatience, their desire to excel, and their innocent disregard for caution."

He said spinal subluxations are often the result of twists, turns, lifts, and awkward postural positions which occur during play. If not corrected, this problem can interfere with functions of the nervous system and result in serious illnesses.

"Most people expect the beginning of a spinal problem to be a dramatic incident in which there is injury and extreme pain. This may not occur. In fact, the great majority of spinal defects occur without fanfare, are not noticed and grow worse with time. Dr. Beller said. The doctor of chiropractic pointed out that children do not ordinarily look for or recognize health problems, and psychologically "cover" for them when they do appear.

"It is particularly difficult for a parent or teacher to spot the symptoms of a spinal problem in a child, because in its initial stages, there may be no pain. When the problems grow serious enough for the child to report a pain, often it occurs in an area not ordinarily associated with the spine," he said.

Dr. Beller urged parents and teachers to be aware of the need for an importance of periodic spinal health examinations as a preventive measure against illness.

Mr. and Mrs. Ross Middleton had dinner Sunday at the Corral Restaurant in Muleshoe.

"COULD THAT REALLY be my reflection?" says Criss Dent who will be part of the 1971 Senator class play.

Mr. and Mrs. H.S. Sanders returned home Saturday from Dallas where they visited with relatives the past three weeks.

Many Illnesses Result From Spinal Problems

Most people easily relate back and trunk discomfort to spinal problems but, according to Dr. Roy M. Beller, President of the Texas State Chiropractic Association, the spine can be the source of health problems which occur in other parts of the body.

"The central nervous system originates in the brain and travels down through the spinal column, extending to every part of the body. Interference anywhere in the nervous system may impair bodily function and induce illness or disease," Dr. Beller explained. "The types of illnesses and malfunctions caused by spinal defects are numerous and varied."

"Many people fail to realize that pain is a symptom, not a cause. Just because you have a headache doesn't mean the problem exists in your head. Likewise, a stomach ache doesn't necessarily mean the source of the problem is in the stomach. It could very well be a nervous system problem originating in the spinal column," he said.

Dr. Beller pointed out that the best safeguard against illness and disease is to maintain spinal integrity through periodic chiropractic examinations. He said chiropractic procedure includes examining the state of nerve function and correcting existing spinal disorders to avoid more serious and complicated health problems.

Cotton Industry Meet Set For November 4

Lubbock, Texas - (Special) - Between four and five hundred growers, ginners, and other West Texas cotton industry leaders have been invited to a meeting of the Cotton Board, here Nov. 4.

The invitation to attend the session at the Red Raider Inn Convention Center, beginning at 1:00 p.m., was extended by Cotton Board Chairman, G. C. Cortright, Rolling Fork, Miss.

The Board will hear a detailed review of research and market development activity conducted by Cotton Incorporated and receive recommendations for 1972.

Cotton Incorporated President Howard Alford, Lubbock, Executive Vice President J. Dukes Wootter, Jr., of New York, and key Cotton Incorporated staff

members will give the presentation.

Cotton Board members are scheduled to tour the Lubbock area on the morning of Nov. 4. The tour will include a visit to the Texas A & M Research Center to observe narrow-row planting and other Cotton Incorporated research projects. A demonstration of on-farm storage of seed cotton also is on the agenda.

The Board will convene in executive session Nov. 5.

Under the Cotton Research and Promotion Act, the Board contracts with a cotton producer organization to develop and operate a research and promotion program for cotton. This contract is with Cotton Incorporated.

Baptist Association Meets

Approximately 125 persons attended the inspiring Llanos Altos Baptist Association annual meeting which was held Friday, October 22, at the First Baptist Church in Earth.

The program got underway promptly at 9:30 a.m. with Rev. David Hartman in charge of the scripture and prayer.

The Rev. Glen Smith had charge of the song services for the day.

During the morning session, Wayne Anderson, S-E school choir director, presented special music before Douglas Brown of Dallas brought a message concerning the cooperative program, meaning the care of mission work in the state. Brown is a denominational representative from the state office of the church.

At 11:15 a.m. the group enjoyed singing a congregational hymn before Rev. Glen Smith presented special music.

Following the music, Rev.

R. N. Tucker spoke to the group before a memorial service honoring a church member who had passed away during the year was held.

The local Baptist Church members served a delicious meal at noon consisting of Mexican casseroles, various types of salads, and assorted desserts.

The afternoon session convened at 1 p.m. with all who were present taking part in more congregational singing.

During a business session, Rev. Hartman reported that a few minor changes were made in the organizations constitution.

At 1:30 p.m., Dr. Strauss Atkinson, area missionary presented a program entitled, "Mission Emphasis and Sharing."

When the meeting ended at 2 p.m. all who were present reportedly went away feeling spiritually lifted and light of heart.

Clarence Hamilton Catches State's Record Pike

Official word has come that the Texas Parks and Wildlife Department now considers a Clarendon man's catch a new state record for northern pike.

Clarence L. Hamilton caught the pike, a 13-pound monster, Sept. 10 on a deep running lure late in the afternoon at Greenbelt Lake at Clarendon.

The fish measured 37 1/2 inches

and has a girth of 15 3/4 inches. Hamilton hooked his record-breaker on 12-pound test line. The big northern is not native to Texas and were stocked experimentally by the TP&W Department to test their feasibility as a game fish and a control for rough fish.

Hamilton is a former history instructor at Springlake-Earth.

Patti Parker is still a patient in West Plains Memorial Hospital at Muleshoe. She was taken to Methodist Hospital at Lubbock for more intensive tests early this week and later returned to the hospital in Muleshoe.

Mrs. Almer Barton and Mrs. Gladys McCord visited Sunday afternoon in Muleshoe with Mrs. Callie McCool. Mrs. Barton and Mrs. McCool are sisters-in-law.
