

Wolverines Trounce P. C. 31 - 7

Guess you've all heard this slogan "I'd walk a mile for a camel". Well we've got that one beat by millions. Mr. William Kerin walked in the office Monday and said, "I missed my last weeks paper and I came in to get it." Anna jumped up to get him a paper and made apologies for missing him which was probably due to our subscription campaign. We had so many stenographers to remake, we haven't gotten them all ready to go and are somehow missing a few, but she added give me your name and address and I'll check on it. He replied, 2965 11th Avenue, Los Angeles, California.

Mr. Kerin and his relatives the Yarbroughs whom he was visiting in Amherst went over to meet Mrs. W. T. Clayton who writes the Springlake News. He said he read it every week and wanted to meet the writer.

(Note from the Editor.) You correspondents who think your efforts are all in vain certainly underestimate the importance your community places on your news items, or a local boy who has enlisted in the Armed Forces, or to a former resident who likes to keep tabs on old friends, all of your readers appreciate your thoughtfulness in doing this for your community.

A fellow in ~~the~~ said Saturday that people have a lapse of memory, they can't remember poverty long. He said the way he had it figured the democrats would have to get back to patched overalls and worn out shoe soles before they got down to business and voted a Democrat back into office.

He said "Those Democrats rode up to the polls in '52 in new Cadillac with Blue Serge Suits and voted Republican (Because we needed a change). They forgot what a change they'd had. Cause in the '30's those same people had walked 10 miles in patched overalls with toes out of their shoes to vote in a Democrat after the Hoover days, so they'd have a little change. (That kind that rattles in your pocket the kind your kids beg for to buy Ice Cream.)"

Instead of flowers she sent him the news. Mrs. Bonnie Haberer always thoughtful of the sick, called to see Melvin Barton who is recuperating from Encephalitis, while visiting, Bonnie brought in many current events of the Community to which Melvin was unaware. Finally Bonnie said, "Don't you ever read your Earth News?" he he said, "I don't take the paper." She said, "Well consider your sick flower a years subscription to the Earth News, Wednesday she came in and subscribed."

Farmer's Union Convention Held At Amherst

The Farmer's Union County Convention was held at Amherst Monday night. Delegates were present from Sudan, Olton, Spade, Earth and Amherst.

Farmer's Union County officials for the coming year of 1957 were elected.

Those elected were Wiley Mudgett of Sudan, president; C. D. Kirkpatrick of Olton, vice-president; Bill Nix of Sudan, secretary treasurer; Mrs. V. J. Reynolds of Amherst, reporter.

Those attending from Earth were Mr. and Mrs. Bruce Higgins, Mr. and Mrs. Orville Cleavinger, Mr. and Mrs. Forrest Simmons, Floyd Burgess, Clarence Hamilton, Melton Welch, A. J. Commons, Earl Moore, Arnold Shelby and B. T. Hamilton.

Mrs. M. E. Clayton left this week for an extended visit with relatives in Riverside, California. She was accompanied by Mrs. Josie Rich who returned to her home in Richmond, California.

BULLETIN

A. W. Black, 56, of Pleasant Valley Community died Wednesday at 11 a.m. in the Muleshoe Hospital, following a heart attack.

Black arose Wednesday apparently feeling good. He took his farm hands out to work and aided them with fixing an irrigation motor. He returned to his home and decided to go to the doctor. He died shortly after arriving at the Hospital.

Funeral services are pending due to the arrival of relatives in California and Oregon.

Thieves Don't Always Come In The Night

Two youths believed to be 14 and 15 years old driving a 1949 2-door black Ford took two tires and tubes, generator, aircleaner, 5-gallon can of gas, 3 hammers, car jack and some carpenter tools from the home of Mr. Fry, Monday afternoon while the Fry's were away from home. The two youths told inquisitive neighbors they were relatives of the Fry family. Joe Ebling, deputy sheriff and Bill Rudd, City Marshall, said they were checking on some suspects for the thieves.

Early Tuesday Morning Fire Sweeps Through Tom Breeze Home In S. L.

MR. TOM BREEZE, Springlake leans against the remains of his late model refrigerator, looking over the ruins of Tuesday morning's fire. Behind him is his 1949 old range and in the foreground is the chair legs of his recently purchased diphete suite. Mr. Breeze said that was the second time he has been burned out in the past 39 years.

The fire siren sounding off in the wee hours of the night always sounds so mournful to all those who are awakened by the shrill sound, but not nearly so saddening as it was to Mr. Tom Breeze of Springlake, who lost most all of his furniture and \$62.00 in the 4:00 a.m. fire Tuesday morning, which swept through the four room house belonging to Mr. W. O. Watson.

Breeze said he did not know how the fire started, but said it was probably started by faulty wiring.

He said he was awakened about 4:00 a.m. by the smell of smoke, which had filled his bedroom. Breeze said, "The first thing I thought of was the \$62.00 I had in my shirt pocket, which I had laid across the back of a chair in the kitchen where I had taken it off to shave that night. I dashed to the kitchen door, but the smoke and flames stopped me. I saw how the kitchen and back bedroom was burning, so I shut the door quickly to try to hold out the flames from the other two rooms until I could remove some of the furniture."

Breeze said, "It then dawned on him that he needed help, he ran to his car and begin to sound his horn, help arrived quickly and the Earth Fire Department was summoned, and arrived shortly afterwards."

Breeze said he and those who arrived almost instantly helped him to remove the furniture in the living room and in one bedroom.

He said that was the second time he had been burned out. About 30 years ago he had lost everything in a fire.

Mr. Breeze said all his wives clothing, plus her favorite bedroom suite were in the back bedroom, and were burned except the clothes she had taken with her when she went to California about two weeks ago, where she is visiting her mother.

Mr. and Mrs. Breeze moved to Springlake about 3 years ago, when he began working for Lott Welding and Hardware Co.

Breeze stated he had a little insurance but not nearly enough to cover his loss.

He said he moved about 3 months ago into the W. O. Watson house, which is located across the street from the Springlake Elevator.

\$85,000 Damage Suit Filed Against Two P. V. Farmers

Mr. E. K. Angeley and Gerald Allison both farmers in the Pleasant Valley Community faced an \$85,000 suit, Saturday after a dispute over advertising with a Waco firm, named National Advertisers Enterprises.

The plaintiff's petition claims \$25,000 actual damages and \$60,000 exemplary damages.

Two couples representing the Waco firm were put in protective custody at Earth after Allison and Angeley disagreed with them on an oral contract for a movie projector, screen and firm for the Pleasant Valley Community.

A free talent show is held each Sunday from 2:00 to 3:30 p.m., at Hunkes Electric in Muleshoe and is broadcast over K M U L. You are invited to Participate.

The Springlake Wolverines handed the Price College Cardinals a stunning defeat, their first loss of the year, last Friday night. Springlake put on an exhibition of blocking and tackling both on offense and defense. All of Springlake's starting backs had a chance to get into the picture. Halfback Jerry Tunnell scored twice on runs of 7 and 1 yds. Fullback Jimmy Herring scored once on a 2 yd. plunge and added one extra point. Quarterback Max Goforth scored once on a 29 yard bootleg and while Ed Wheat did not score himself he threw a pass to Right End A. C. Lewis good for 20 yds. and a touchdown.

Price College scored their touchdown in the closing minutes of the first half on a four yd. end run by Lon Watson. Ken Dillar kicked the extra point.

Springlake rolled up 15 first downs with 275 yds. on the ground and 20 via the air route. They received a total of 35 yds. in penalties. Tried two passes completing one for 20 yds. Two punts for a total of 25 yds. They had a little trouble holding on to the ball and more trouble finding it when they fumbled. They had 6 fumbles and didn't manage to recover a one of them, although they did manage to hawk 4 of the Cardinals 5 fumbles.

Price had five first downs with 61 yards rushing and 2 unsuccessful passes. They were penalized for 20 yards, and were forced to kick 4 times which totaled 91 yards.

Springlake scored in the 1st, 2nd and 4th quarters. Price managed to hold them scoreless in the third quarter and it looked as though the second half was turning into a seasaw battle around the fifty but the Cardinals were unable to hold the fleet hand charging Wolverine backs or the rugged blocking of the Wolverine line, led by Keith Leonhart and Melvin McClure.

Price College standouts were Lon Watson's speedy end runs and Ken Nicholson, left end who made it rough on Wolverine backs when they attempted to run his way.

SCOUTING REPORT

Assistant Coach Paul Prater's scouting report was given at the Wolverine Booster Club Meeting Monday night. He gave the boosters a few plays that we can expect to see Friday night. He said that Muleshoe played such a lagard game that it was impossible to get an adequate view of what they had but from brief splashes of color it looked as though they had a smart rough ball club and the Wolverines would have their hands full.

Coach Billy Hahn explained the defense and offense that he hoped to use against the Mules and said that if the boys played as well Friday night as they did against Price College that they had more than an even chance to win this one. He went on to say that he was ironing out the mistakes they made last week so they should be even better chance.

This is a critical game as far as whether or not Springlake is a ball club or just a flash in the pan and they will need cheering on, so everybody go to Muleshoe tomorrow night and see your team in action.

The game will be played at Muleshoe Stadium. Kickoff time at 8:00 P. M.

LETS CHEER THEM ON.

W. W. Bearden, who lives one mile west and a quarter of a mile north of Olton, says, "It pays to add cotton burrs to the soil." Bearden has been using burrs on his farm for the past several years. He started out on an experimental basis, but now adds them to his soil whenever they are available.

The use of this practice is urged by the Lamb County Soil Conservation District Supervisors. Thurlio Branscum, Chairman of the Board of the Lamb County Soil Conservation District, said, "A large

number of farmers in the district are applying cotton burrs to the soil, but there are still thousands of tons of burrs being burned annually instead of being added back to the soil.

Faster results can be expected from the use of composted burrs; these burrs are treated with a bacteria culture. With added moisture, they can be decayed in thirty days. When burrs have been composted, the heat created by the bacterial action will destroy weed seed, insects' eggs and larvae, plus some other undesirable elements. When the composted burrs are used, the nitrogen tie-up is for a much shorter period. If raw cotton burrs are added to the soil without a sufficient application of nitrogen, the following crop will probably show a nitrogen deficiency because the available nitrogen is tied up by the bacteria in decaying the burrs. The same is true when any high residue is returned to the soil. When any raw material is added to the soil, whether it is burrs or a heavy grain sorghum stubble, nitrogen should be added for best results.

The recommended application of burrs is from three to ten tons per acre although good results have been obtained with heavier applications when a sufficient amount of nitrogen is added. Out of every ton of burrs spread on the land, there is approximately thirty pounds of nitrogen, eight pounds of phosphate, 100 pounds of potash, plus 1,750 pounds of organic matter and other minerals that are needed by the plants. The greatest benefits are received from soil conditioning by the addition of humus or organic matter which is required by all soils for plant growth. Humus is known as the magic material of the soil. It keeps the soil warm in winter and cool in the summer, slows up evaporation, and increases fertility and water holding capacity. For each ton of organic matter added to the soil, its storage capacity is increased by 1,000 gallons or more.

As a result of chemical analyses made on gin waste or cotton burrs, no agricultural agency or authority will question the value of organic matter in the soil; the problem now is getting enough organic matter returned back to the soil.

AUSTIN, Texas—Activities of the National Association for the Advancement of Colored People have ended temporarily, in Texas.

A stop order was issued at the request of Attorney General John Ben Sheppard by Dist. Judge Otis T. Dunagan of Tyler. Hearings will be held Friday (Sept. 28).

Investigations of the NAACP, a New York corporation with 112 branch offices in Texas, have been going on quietly for several months. Climax came with the filing of charges alleging numerous violations of Texas laws.

Specifically charged were efforts to register Negro students in Texas schools, contrary to the laws of the State; inciting racial prejudice, picketing, riots and other unlawful acts, contrary to public peace; engaging in political activities; operating without a permit; evasion of taxes; practicing law without a license; and coercing Negro students and their parents.

"Transaction of business in Texas, by a foreign corporation, is 'Only a privilege which the State of Texas may confer, extend, or withhold,'" said Sheppard.

This is not "in any manner" a suit against the Negro citizens of Texas, Sheppard pointed out. "It is limited to the NAACP as a foreign corporation, and their affiliated organizations. For over 100 years the white and colored races have lived together in Texas peacefully and in harmony. Were it not for the activities of the NAACP they would now, and in the future, continue to do so."

Dr. H. Boyd Hall, state NAACP president, said the move indicated that Texas is entering "an era of persecution." NAACP officials immediately called a 17-state meeting for St. Louis.

Although the principal headquarters of the NAACP is in Dallas, the suit was filed in Tyler because a number of defendants are in that area.

STATE INCOME UP—State income jumped nearly \$75,000,000 during the past year but increasing expenditures are expected to consume it all and more too. Revenues totaled \$913,422,792 during the fiscal year, State Compt. R. S. Calvert reported.

A state budget spokesman said the present spending pattern and new demands will likely require a new tax bill at the next session of the Legislature.

Requiring more money are growth in Public Schools, junior and senior colleges, prisons and hospitals. Proposals for increases in teacher retirement benefits and aid to disabled persons are to be voted on in November.

Gap is estimated variously from \$5,000,000 to \$20,000,000.

ROAD MONEY EARMARKED—For the first time, right-of-way on Texas' interstate highway system will be purchased with federal-state money instead of city and county money.

An initial fund of \$19,266,100 for such purchases has been established by the State Highway Commission. Texas put up 10 per

EATING WITH THE BIG BOYS — Pictured are a few of the RA's as they enjoyed a banquet Monday night sponsored by the Brotherhood of the Baptist Church.

Banquet Held Monday Night For R. As

The Brotherhood of the First Baptist Church entertained the R. A. Boys with a banquet, Monday night in the church dining room.

Paul Wood showed a film strip of Paul's First Missionary Journey, while Rev. Cecil Meadows told the story.

Twenty R. A. Boys and Brotherhood members attended.

After the program a short business meeting was held. Officers for the coming year were elected.

cent; the federal government 99 per cent.

Included in the current program are 637 miles of new work costing an estimated \$256,000,000.

OIL FLOWN OUT—Reduction of 75,160 barrels daily in Texas' permissive oil flow was ordered for October by the Railroad Commission.

This trims the allowable to 33,279, 697 barrels daily with wells operating 15 days during the month. One commissioner, Olin Culbertson, wanted to go to a 16-day pattern. He expressed unhappiness with the depressing influence of imports on the Texas allowable.

JOBS FOR HANDICAPPED—Texas employers put more handicapped persons on jobs last year than ever before—24,445. Applications increased, however, from 6,727 to 14,004.

Lawrence R. Melton, chairman of the Texas Committee for Employment of the Physically Handicapped announced the figures.

Gov. Allan Shivers presented merit awards to three employees for their consistent hiring of handicapped persons. These were Sears Roebuck, Hamond Laundry and Machinery Co. of Waco, and Howard Aereo Inc. of San Antonio.

Earl Brown Jr., Abilene, was designated the handicapped person of the year. A special award went to Adolph L. Stein Jr., Kelly Air Force Base.

STANDBY RESERVES POLLED—Questionnaires are being mailed to all standby reservists but there is no cause for alarm. Morris S. Schwartz, state service director, says it's just for inventory.

Standby reservists cannot be called to service unless an emergency is declared by the Congress, he said.

Based on information in his questionnaire, each standby reservist will be placed in one of three categories: I-R, available for service; II-R, deferred because of civilian occupation essential to maintenance of national health safety or interest; or III-R, deferred by reason of extreme hardship of dependents.

CRIME ON INCREASE—There has been an estimated 13 per cent increase in crime in Texas cities, reports the Department of Public Safety. Rural areas show a 2 per cent decrease.

Major increase in both areas was in theft, up an estimated 14.8 per cent. Auto theft showed a 4.2 per cent gain; burglary increased 6.5 per cent.

Decreases were in rape, 18.3 per cent; murder and homicide 1.2 per

cent; robbery 1.5 per cent; and aggravated assault 7.6 per cent.

SHORT SNORTS—Motorists are being urged by the Highway Safety Council to "police themselves" as an extra precaution against football weekend traffic hazards.

H. H. Coffield of Rockdale is the new chairman of the Texas Prison Board. Fred Shields of San Antonio now is vice chairman and Dr. George Beto of Austin is secretary.

Prison authorities will ask the Legislature for \$8,825,000 for new buildings and improvements.

Gov. Allan Shivers has warned of increased forest fire hazards in the East Texas area. He urged hunters to be particularly careful of campfires and lighted cigarettes.

Commercial hatchery production in Texas rose 25 per cent in August over a year ago, the U. S. Department of Agriculture reported. Output was 8,837 chicks, 93 per cent for the broiler market.

Gov. Allan Shivers has designated this week as Business Women's Week, and Oct. 14-20 as Minabeau B. Lamar Week in Texas.

Organizational meeting of the new state Democratic Executive Committee has been set up by the Texas Foundation for promoting the state's attractions, beginning Jan. 1.

Elimination of slum sections in large cities would cut Texas' tuberculosis and pneumonia cases to one-third their present figure, according to State Health Commissioner Henry A. Holle.

Traffic Accidents Exceed Last Year

Multiple-fatality traffic accidents in Texas during the first eight months of this year are responsible for raising the State's traffic toll over the similar period of 1955 and if the current trend continues, the all-time record of 2,547 deaths which were recorded last year stands to be exceeded by the end of December.

This information was contained in a statement released this week by Col. Homer Garrison, Jr., Director of the Texas Department of Public Safety, who said that while the records of the agency's statistical division showed two fewer fatal accidents through August than in the first eight months of 1955 that 32 more people were killed.

This is due, he pointed out, to the fact that more than one person was killed in many of these accidents.

Through August 31 of this year 1,607 persons had died in 1,318 motor vehicle accidents in the state. In the same period last year, 1,320 mishaps claimed 1,575 lives.

The Public Safety Director pointed to this past August 18 as the deadliest day, trafficwise, in Texas so far this year. On that date, 24 persons died in 14 accidents. This was a Saturday which is consistently one of the most hazardous days for highway travel but the traffic toll on that date approached the usual experience for a Christmas Eve which ordinarily runs the highest fatality total.

Garrison said that he could give

IT'S THE LAW in TEXAS

STOP FOR SCHOOL BUSES

Thousands of school children are now trooping back to school throughout Texas. Many of them will be transported by school buses. Most people are careful when approaching a school bus which may be standing beside the road or school to pick up school children or allow them to alight. However, we have already had some very bad accidents this year because a child or a motorist, or both, were careless at that very time.

Most Texans are aware of the law which requires a driver to come to a complete stop when overtaking from the rear a school bus which has stopped to receive or discharge school children. After stopping immediately behind the bus, he is then allowed by law to proceed past same at a speed "which is prudent, not exceeding ten (10) miles per hour, and with due caution for the safety of such children."

What many persons do not realize is that the very same rule applies when MEETING a stopped bus. While everyone is interested in protecting our children, unthinking violators of this simple safety rule greatly outnumber those who comply. Failure to follow the law in this case can lead to fines up to \$200.00 even when no accident occurs. Following an accident in which some child is injured or killed, the penalties are naturally much more serious.

Although the above rule does not apply when passing a stopped school bus in a business or residential district of a town, the necessity for extreme caution even in those locations is obvious.

When it comes to overtaking and passing moving vehicles, exercise of ordinary common sense will generally keep a driver within the law. For instance, when passing a car it is only common sense to proceed on past it a safe distance before cutting back to the right side of the highway. Also, any driver would realize the danger of increasing his speed while another is attempting to pass him.

In the same category is the prohibition against passing on the right under most ordinary conditions. Of course, you may legally pass on the right in a few specific instances, such as when the vehicle overtaken is making or about to make a left turn, or upon a one-way street with two or more lanes, or upon a four-lane highway.

However, our traffic laws state that even when passing on the right is allowed, it shall be done only under conditions permitting

such movement in safety. And, in no event should such passing be accomplished by driving off the pavement or main-traveled portion of the roadway.

Familiar to all are the no passing zones designated by dash lines placed to one side of the center stripe on our highways. Not so well known are the restrictions against crossing the center line when approaching within 100 feet of or when traversing any intersection or railroad grade crossing.

A driver should never cross the center line of a highway when the left side of the road is not clearly visible and free of oncoming traffic. Generally speaking, when not engaged in passing another vehicle one should drive to the left of the center of the roadway.

WOLVERINE BAND NEWS

Last week, we published the names of the Wolverine Band's marching Staff but which was actually incomplete without the names of the people who provide the actual march beats with which the band manages to keep in step.

One of the most important members of the band is the Bass Drummer, Jane McGetth, who is responsible for the steady tempo of beats usually quite fast ones, and over a long period of time such as Mondays street parade in Lubbock, this requires a person who practically has football stamina. It is hard job, and Jane is doing a good one.

The other members of the drum section upon whom rests almost equal responsibility are Betty O' Hair, Leslie Lewis, Bonnie Brown and Carolyn Blackwell. These people are all doing lots of hard practicing, and are showing up better each week.

The Wolverines Band marched Monday, the 24th in the Panhandle South Plains Fair parade in Lubbock in which some 26 bands participated. There were so many bands with longer experience, and far dressier uniforms in the parade that while our band did a creditable performance they did not man-

age to capture any of the prizes which were awarded. But it was good experience, and all band members had a great time enjoying the fair.

Coming events in which the band will participate are the Muleshoe game on Friday night, and Hale County Fair in Plainview on Thursday, October 4.

BAND BOOSTER MEETING OCTOBER 4

Band Boosters meeting will be on the regular first Thursday of October, which will be the night of October 4, at 7:30 in the band Hall. Parents of Children in either Junior or Senior Band are urged to be present, and any other interested people of the Community.

Mr. Bill Fain of Dallas, Oregon visited Tuesday in the home of Mr. and Mrs. Bud Irvine. Mr. Fain and family are also visiting his brother, Dr. Fain in Littlefield.

CARD OF THANKS

I would like to say thanks and to express my appreciation to the thoughtful people of my community. For their kind deeds of service, Prayers, flowers, telephone calls, notes, gifts and visits are all treasured in my heart.
