Expand Old House for More Space

Building an addition to an existing house is one of the most practical ways to remodel. Furthermore, it's a way that suits countless dwellings whose chief shortcoming is that they're too small.

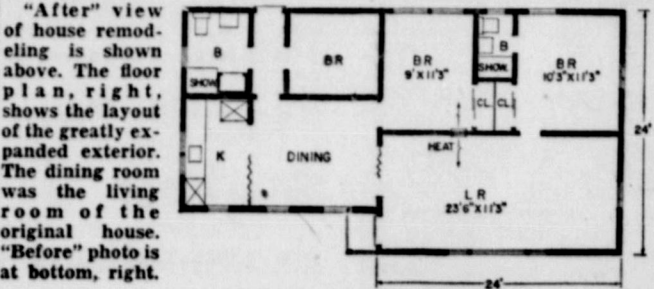

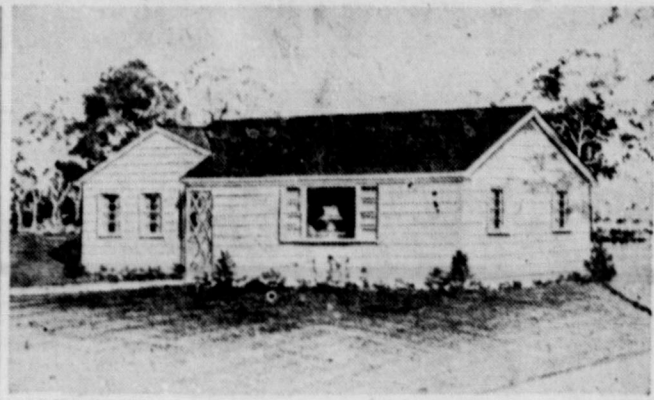

How it's done is demonstrated by the house shown here. The original house, which measured only about 20 by 20 feet, was more than doubled in size by a 24-by-24-foot addition. The family continued to live in the original house while work was being done. The floor plan shows the room layout after remodeling. The entire righthand section, including large living room, two bedrooms, and bathroom, is new. The original house is retained as the area containing the kitchen, dining room, small bedroom, and second bathroom.

Planning of this modernization was undertaken by A. E. Campen, Peoria, Ill., with exterior color design by Beatrice West, New York color consultant.

Aside from changes in the color of the old house, always advisable for harmony with new construction, major exterior alterations were cutting back the eaves and rakes for a more pleasing roof line and installation of new ponderosa pine window units.

Miss West gave a choice of two color schemes, each keyed to the roof as the dominant exterior color. One scheme calls for a pastel blue-gray asphalt shingle roof, mist blue siding, blue-white trim, and midnight blue as an accent color on the doors. The other has a white asphalt roof, citron-yellow siding, off-white trim, and charcoal accent.

Giving general advice about the

"After" view of house remodeling is shown above. The floor plan, right, shows the layout of the greatly expanded exterior. The dining room was the living room of the original house. "Before" photo is at bottom, right.

We worry a lot about traffic hazards.

We worry, that is, about what the other fellow is going to do. As for ourselves, we're all careful, intelligent drivers. It's just that we may meet a fool.

Never another fool, mind you; but someone who isn't as alert, efficient and responsible behind the wheel as we are. Apparently that is how about 97 per cent of American drivers feel about them selves. We heard a group of good upstanding citizens talking the other evening, and, honestly, we wondered why there was ever an accident with such wonderful people in command of cars.

One observed that radar enforcement of speed limits is doing wonders in cutting down on speeding. Another talked about the dangers of driving too close; in California, she said, it was against the law to drive right on the tail of the car in front of you. And by the way, there were ways to beat radar. Had we heard?

Before we were through, each of us had admitted, without meaning to, that we (1) exceeded the speed limit when we thought we could get by with it; (2) never once considered observing a rule because it was common sense only if it was a law that was being enforced; (3) were pretty confident our own judgment was sound, but doubted that one out of four other drivers was equally reliable.

Evidently those people who cause accidents can't possibly be good law-abiding Americans like ourselves. Not ever.

Mrs. Carl Jones and Mrs. Rex Angeley were in Lubbock Tuesday.

Skip Collins looks ready for anything. Is he ready for polio?

Last spring he received a vaccine designed to protect him from infantile paralysis. Some time this year, after studying records on Skip and nearly two million other youngsters, scientists will know if the vaccine works. Skip's a football-playing laboratory, helping them out.

Your March of Dimes contributions not only make the vaccine trials possible, they also give a chance for a better life to thousands who have polio.

Farm Bureau Working For Hike in Cotton Acreage

Lamb County Farm Bureau, along with other area Farm Bureaus, is working for an increase in the present cotton acreage allotment, President Jack Yarbrough said this week.

Yarbrough said he had written letters to Congressman George Mahon of Lubbock and U. S. Senators Lyndon Johnson and Price

Daniels, asking them to support a forthcoming bill which will request the increases.

He added that probably the acreage bill will be proposed in the near future and that meetings of Farm Bureau will be scheduled on the bill and to make plans for other methods of receiving increases in local allotments. Lamb county got the third high-

Power of the Spirit

Lesson for January 23, 1955

Most Christians have wished, at some time or other, that they were still on earth, living at a post office address, perhaps with a telephone, and available for interviews, lectures and preaching engagements. There are many questions that should be asked of him, so many states in and out of the church that he could not be with a word. The feeling may have been expressed in the words of Jesus' closest friends as they were closing around him the close of his life. Yet Jesus, though aware of this feeling, made the disciples feel that it was best all around that he should not continue living as he had done for three years among

AUSTIN—Basom Giles' quick resignation caught everyone by surprise. He refused to take the oath of office for his new elective term as State Land Commissioner. Giles was chairman of the Veterans Land Board, whose affairs continue under investigation with block land sales.

Three state agencies, in connection with block land sales.

Governor Allan Shivers was almost as quick in appointing Giles' successor. He named J. Earl Rudder, 44, of Brady, to the full two-year term.

Rudder resigned as a member of the State Board of Public Welfare to take the position. He was sworn in at the Governor's office immediately elected chairman of the Veterans Land Board, and joined the other members—Governor Shivers, and Attorney General John Ben Shepherd, in tightening veterans' land loan regulations.

Giles, who originated the veterans land program, said he stepped out because he thought some one else would have a better chance of getting needed changes in the veteran's land law.

Giles, who has been associated with the land office, in one position or another from the day he was graduated from the University. That was 34 years ago. He served 17 years as Commissioner.

Bible Words for Today

PSALM 46:10—"Be still, and know that I am God: I will be exalted among the heathen, I will be exalted in the earth."

To me this is a favorite verse of Scripture because it serves to turn man's gaze from himself to the God who made him, and who is far more able to deal with the crucial issues of our time than any of us who are finite beings and subject to definite limitations. Sometimes we are tempted to wonder how matters are going to turn out in the midst of a tragic world, and then as we read these lines of the Psalmist we are reminded that the last chapter of history will not be written by evil men, but that in due season God's name and way will prevail.

A great deal of our discouragement is due to an inadequate conception of God, and to insufficient faith to believe that the forces of evil are subject to the sovereignty of God. The New Testament verse which might correspond with this verse from the Psalmist is the one in which Jesus said to His followers: "Be of good cheer, I have overcome the world." It is in this assurance that we find our peace and face the future with renewed confidence.

advantages of advertising.

"What the optometric association needs, instead of 31 more years of bickering, is an industry wide advertising campaign telling the people of Texas about the advantages of wearing glasses, the proper care of eyes, etc." said Dr. Rogers.

News Briefs

Texas' birth rate is still gaining, with 1944 showing a 4,000 increase over 1953. State Health Officer Dr. Henry A. Holle says births last year numbered over 240,000—with 1955 registrations 5,000 ahead.

Morton G. Ware, president of the Texas Legal Reserve Officials Association, says that Texas' law allowing insurance companies to be formed with \$25,000 capital should be changed, and the amount increased. It is not enough to give the public adequate protection in the opinion of the 70 members of the Association.

Contracts for building a \$1,000,000 tourist resort at Inks Lake, west of Austin have been signed by the State Parks Board. It also issued \$3,000,000 in bonds for

officers.

At present the Governor gets \$12,000; the Attorney General \$10,000; and the Treasurer, Comptroller, Secretary of State and the Land Commissioner \$6,000 each.

It is expected that the Governor's pay will be increased by the Legislature to \$25,000 a year; the Attorney General's to around to perhaps \$15,000.

Optometry Ads

No decision was reached by the State Board of Examiners in Optometry on an application to reinstate its ban on advertising by optometrists.

Board members conducted an all-day hearing on a rule, twice adopted and twice cancelled, to limit the size of ads and to prohibit price, quality and credit ads by optometrists.

It was the old fight between advertising and non-advertising optometrists.

Dr. N. J. Rogers of Texas State Optical gave the crowd of some 100 persons a chuckle when he told the board that too many optometrists are "blind" to the

Let Us Reason Together

By W. E. IRVINE

It shall be our purpose in this column to study and reason together those principles of Christianity which are so vital to our every need. It is our conviction the word of God answers the needs of every man. However, men ignore that which would give them contentment on earth and a home with God in the hereafter. Perhaps this indifference is partly due to religious division and confusion which is so prevalent today. There is no need for this condition to exist. It is not God's will that we be divided. The Apostle Paul said, "Now, I beseech you, brethren, through the name of our Lord Jesus Christ, that ye all speak the same thing, and that there be no divisions among you; but that ye be perfected together in the same mind and in the same judgment." If all religious people would abide by the same "mind" and speak "the same thing," there would be no division.

What then shall be the basis upon which we reason together concerning Christianity? The words of Christ. In Matthew 17:5 we read, "While he was yet speaking behold, a bright cloud overshadowed them; and behold, a voice out of the cloud, saying, This is my beloved Son, in whom I am well pleased; hear ye him." Christ and His word shall be the basis of our study each week. We shall always allow Christ's word to be the last word.

We would appreciate questions or comments concerning teaching found in this article. Write W. E. Irvine, Church of Christ, box 648; Earth, Texas.

THIS IS THE WAY last week's issue of the Earth News was printed. Now that it is being printed in Earth it doesn't roll out automatically ready to deliver from a roll fed press. Instead Ross fed each paper individually through the big press and Polly fed each one into the folder. It's slower but a lot more romantic, and it makes it truly an Earth newspaper—the first ever printed in Earth. Seven year old Phil Middleton thinks it looks like fun and wishes he were big enough to feed one of them. His folks will be glad when he is. Thirteen year old Polly Jean is already old enough to be a big help in printing your hometown newspaper. (News Photo)

The city plans on spending \$70,000 on its water system, including an 8-inch water well and a 400,000 gallon storage tank with two booster pumps and a new well house. About \$25,000 will be used in connection water and sewer facilities to the new Hillcrest addition.

1955's Soil Fertility Day At Littlefield On Feb. 23

Lamb County's "Soil Fertility Day"—with top notch agriculture leaders scheduled as speakers—will be held in Littlefield Wednesday, Feb. 23.

Plans for the day were made Monday at a luncheon at the Town House restaurant attended by business and civic leaders. Joint sponsors will be the Lamb County Soil Conservation District, Lamb County Farm Bureau, Littlefield Chamber of Commerce and Lamb county vocation agriculture departments in cooperation with the County Extension Service and Burlington Railroad lines. Speakers tentatively scheduled include Dr. W. O. Trogon, agronomist for a Mathieson Chemical co., at Houston who will talk on "Use of Fertilizers;" Dr. Ty Timm, head of the department of agriculture economics at Texas A & M college, who will discuss "The Farmer-Businessman Inter-

"Soil Building Practices on Dryland," and "Conservation of Rainfall;" Clint Harbor of LaGrange, a farmer who has been nationally recognized for his conservation practices; and Don Jones, superintendent of the Lubbock Experiment Station who will discuss "Hybrid Grain Sorghums" and "Conservation of Irrigation Water."

In addition, County Agent Dave Eaton said, county farmers who made the highest yield in cotton and grains will be invited to tell what practices they used.

The meeting will be the sixth annual "Soil Fertility Day" observance and during the week, similar meetings will be held in the fire area counties of Lubbock, Hale, Swisher, Floyd and dependence" and "Farm Price Structures." Charlie Fisher, superintendent of the Spur Experiment Station, who will talk on Hockley with emphasis on specific soil conservation practices instead of generalities, Eaton said.

To insure a large turnout for the session in Littlefield, individual letters will be sent to county farmers and FHA students will be asked to bring their parents.

Present for the luncheon meeting Monday which was sponsored by Burlington lines were Jack Yarbrough, president of the Lamb County Farm Bureau; Euel C. Jones of Olton of the board of supervisors of the Lamb County Soil Conservation District; D. M. Granberry, president of the Olton State bank; Troy Armes, president of the Littlefield Chamber of Commerce; M. A. Elms, Jr., chairman of the Littlefield Chamber of Commerce agriculture committee; Marshall Howard of Howard's Feed and Seed, Littlefield; Jesse Everett, manager of the Littlefield Chamber of Commerce, Agent Eaton, Welton Jones of Lubbock, District Extension agent, and A. K. Hepperly, agriculture agent for Burlington Lines.

Olton Approves \$175,000 Issue

OLTON— Olton's referendum Tuesday on a \$175,000 water-sewer street bond issue to finance sweeping improvements, was carried by 2½ votes to 1.

The unofficial count as reported by Mayor F. Hollingsworth listed 159 persons for the six propositions on the ballot compared with 73 against.

Hollingsworth reported that it would probably be six more weeks before work would start on water-sewer projects and said it would probably take three months for completion. He said street repair work would start in May or June for approximately 5½ miles of streets. There is a 30-day waiting per-

THE TRUTH *comes home..* *to the Family*

YOUR NEWSPAPER BRINGS YOU THE FACTS THAT SAFEGUARD YOUR FREEDOM OF CHOICE

As an American, you are free to think, choose and act for yourself. But, unless you also had the right to know the truth, these precious freedoms would immediately become meaningless and soon disappear. The right to know is fundamental to democracy. It is guaranteed to you by the First Article of the Bill of Rights, which established a free press. It is predicated upon the faith of the founders in the wisdom of the people . . . provided they have the facts. To bring the truth right into your family circle is the purpose of your newspapers. It tells you what is going on across the world . . . and across the street! Without fear or favor, it gives you authentic facts which you must have if you are to think, choose and act in the best interest of your family, your community, your country. Freedom of the press is primarily the freedom of all the people to know the facts. It is the basic freedom upon which all other freedoms depend . . . without which, none could long endure.

In its advertising as well as its news columns, your newspaper helps you to exercise your American freedom of choice wisely and well. Every advertisement it prints is a bid for your favor . . . presents the facts you need in order to decide what to buy and from whom . . . all with a view to making every dollar you spend contribute the greatest measure of satisfaction to your family and yourself.

RECIPE OF THE WEEK

By Mary Lee Taylor

Veal Birds

- 2 Tablespoons finely cut onion
- 4 Tablespoons hot fat
- 3 cups 1/2 in. bread cubes (day old)
- 1/2 cup finely cut celery
- 1 1/4 teaspoons salt
- 1/2 teaspoon pepper
- 1/2 teaspoon ground sage
- 1 cup Fat
- 1 lb. sliced veal, 1/4-in. thick
- few grains pepper
- 1 can cream of mushroom soup
- 1/2 cup water

Cook onion slowly until tender in 2 tablespoons hot fat in skillet. Remove from heat and add bread cubes, celery, 1 teaspoon salt, 1/2 teaspoon pepper and the sage. Then add 1/2 cup milk and mix until bread cubes lose their shape. Cut veal slices into serving pieces, if necessary, and sprinkle both sides with mixture of 1/4 teaspoon salt and few grains pepper. Pound into both sides of meat. Put dressing on slices of meat. Roll up, fasten with toothpicks or string. Brown on all sides in 2 Tablespoons hot fat in skillet. Then add soup and water. Cover and cook slowly over low heat about 1 hour, or until meat is tender. Turn meat now and then while cooking. Remove meat and keep hot. Stir 1/2 cup milk into liquid in pan. Heat and stir until steaming hot, but do not boil. Serve hot with the meat. Serves 4.
