**NOSIN... WITH POLLY**  
 \*\*\*\*\*

Tuesday was the day officially marking the beginning of Autumn. This can only mean it is that time of the year when ladies are rummaging around in their storage closets and trunks rounding up their last seasons fall and winter wardrobe to see what is usable again this year, while hopefully making notes for shopping for added new fall clothing.

Doubtless, this is the time of great awakening for many females who find themselves unable to wedge into last year's garments. Then and there they start dieting seriously.

Dieting in some cases is most helpful, omitting fattening foods all together and enjoying other foods in smaller portions.

However, while disciplining one self to leave off various foods, one should take precaution never to omit "Food for Thought" and "Food for Health" from their daily lives, these should be their daily stimulant.

"Food for Thought" The Greatest Sin... Fear The Best Day... today... The Best Town... Where you succeed... The most agreeable companion... one who would not have you different from what you are.

The great bore... one who will not come to the point.

A still greater bore... one who keeps talking after the point is made.

The greatest deceiver... one who deceives himself.

The greatest secret of production... saving waste.

The best work... what you like.

The best playing... work.

The greatest comfort... the knowledge that you have done your work well.

The greatest mistake... giving up.

**FOOD FOR HEALTH**

The most expensive indulgence... hate.

The cheapest, stupidest and easiest thing... finding fault.

The greatest trouble maker... one who talks too much.

The greatest stumbling block... egotism.

The most ridiculous asset... pride.

The worst bankrupt... the soul that has lost its enthusiasm.

The cleverest man... one who always does what he thinks is right.

The most dangerous person... the liar.

The most disagreeable person... the complainer.

The best teacher... one who makes you want to learn.

The meanest feeling of which many human beings is capable... feeling bad at other's success.

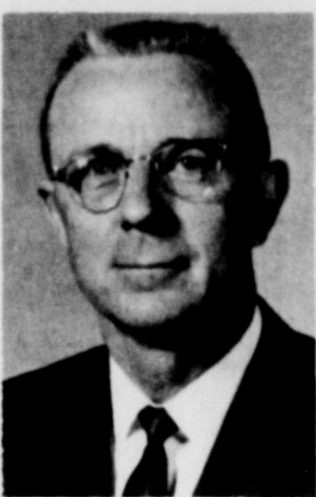

The greatest need... common sense.

The greatest puzzle life... The greatest mystery-death.

The greatest thought-God.

The greatest thing... in all the world... love.

The most important--Happiness.

**State Board Okeys Springlake Plant**

Texas Water Quality Board in Austin has approved an application from Springlake that its sewage treatment plant be approved as it exists.

The present plant had been approved before the board began operation.

The plant is capable of treating about 150,000 gallons a day and the population is now 210. About 100 gallons of waste water per person is figured by the Board, and they estimate the plant is capable of treating the average waste.

A report from the hearing examiners states, "the town does not appear to be gaining population, and it is unlikely that the sewage treatment plant capacity will be exceeded in the foreseeable future."

**Revival To Begin Sunday At Methodist Church**

A week long revival is slated to begin Sunday, September 28 at the United Methodist Church in Earth, and continue throughout Sunday, October 5.

Evangelist Ed Robb of Abilene will conduct the services. Rev. Gene Moore, Methodist minister and singer, and his wife Bobbie, a vocalist and pianist will direct the song services during the revival.

Services are scheduled three times daily, with the exception of Sunday, when services will be held on the regular schedule at 11 a. m. and at 7 p. m. Other days of the week services will begin at 6:30 a. m. with a breakfast for the men. At 10 a. m. the morning services will begin and at 8 p. m. the evening services will begin.

The Reverend Edmund W. Robb was appointed an evangelist of The Methodist Church in June 1966. He has organized the Ed Robb Evangelistic Association, with headquarters in Abilene, Texas.

Before going into full time evangelism, Mr. Robb was pastor of St. Paul Methodist Church in Midland for four years. During this time he received 830 persons into the membership of church, making it one of the fastest growing churches in the Northwest Texas Conference.

Mr. Robb was chairman of the Conference Board of Evangelism while serving at St. Paul in Midland. In 1965 he toured South America for the Board of Evangelism of The Methodist Church and in October of 1966 he attended the World Congress on Evangelism in Berlin, Germany. Mr. Robb is the secretary-treasurer of The National Association of Conference Evangelists of The United Methodist Church. He is interested in the field of writing and has had sev-

**Barton In Washington Attending Policy Session**

Melvin Barton, Dimmitt farmer and Vice President of Grain Sorghum Producers Association, is in Washington, D. C. this week to attend a farm policy session with Secretary of Agriculture, Clifford Hardin. Mr. Barton will attend the session as part of a farm coalition group showing the unity of farmers and farm organizations in asking Congress to extend the basic provisions of the 1965 Agriculture Act.

The farm coalition group is composed of 18 farm organizations. It includes representatives of 3 of the 4 major farm organizations, and the organizations representing the commodity covered by the 1965 farm act. This is the fourth meeting of this group that GSPA has attended and the second one for Mr. Barton.

The group met with Secretary Hardin Monday afternoon. The purpose was to show the Secretary that most farmers and their organizations are in agreement on extending the basic objectives of the present farm programs.

Much has been said lately that agriculture must be unified before very much can be expected from Congress in the way of farm legislation. It is hoped that these meetings will demonstrate the unity of the majority of the farmers toward extending the present law. There will be recommendations to improve it.

## Ratliff Explains Laws To Young Farmers

Seventeen members of the local Young Farmers Organization met September 19, at 8:00 p.m. in the FFA Agriculture Building in Earth with President Dean Jones presiding.

The program was brought by Mickey Ratliff, an attorney from Littlefield. Mr. Ratliff presented a very interesting lecture on wills, especially those pertaining to young farmers and young married couples, telling the group how these should be made. The topics of farm liability laws and laws dealing with farming were also presented to the group.

Business conducted by the Young Farmers was the adoption of the Constitution for the local chapter, and the approval of a set of constitutional by-

laws drawn up by the Young Farmers executive committee.

Don Curtis, in charge of refreshments for the Young Farmers, served cookies, coffee, and Coke to members and guest present.

## Farmers Invited To Cotton Meeting In Lubbock Tuesday

Lubbock-Cotton farmers will hear detailed report on their dollar-a-bale program at a meeting in Lubbock Tuesday, September 30, according to Howard Alford, Lubbock, vice president of Cotton Producers Institute.

Mr. Alford called the meeting for 12 noon at the Red Raider Convention Center, 6025 Avenue A (on South U. S. 87, on the Tahoka highway at the traffic circle).

"If you are tired of hearing bad news about cotton, plan to attend this meeting," Mr. Alford said. "You will hear solid evidence that cotton can fight its way back from the market losses of recent years."

The program will be presented by staff members of the National Cotton Council. They will

report in detail on research and promotion activity being carried out by CPI and the Council. The visual presentation will point out how industry funds are being used to make cotton more appealing to consumers, for promotion to convince consumers to buy cotton, and to find ways of producing cotton at lower costs.

"We believe you will leave the meeting with renewed confidence in the future of the cotton industry," Mr. Alford said.

Two new top-of-the-line models are the Sport Fury GT, a standard-size performance car with 440-cubic-inch V-8 engine, and the sporty S-23. A special Brougham package is also available. Six different engines are available in the Fury line. Pictured is the Fury III four-door hardtop.

## A Market For Grain Sorghum In Korea

Grain Sorghum promotion in Korea is one of the goals of the West Texas Grain Farmers and the Grain Sorghum Producers Association upon passage of the Grain Sorghum Referendum early in October. Elbert Harp, Executive Director, of GSPA reported, "we are promoting the use of our grain in our own area through an expanding cattle and pork industry. We feel our local markets are the best markets and this is where we must devote most of our attention, however, we must continue to push sales in areas of the world where there are markets developing for our grain. Korea seems to be one of the bright prospects in the near future for expanding our overseas sales."

ported grains." The U. S. Feed Grains Council is an international trade promotion organization financed by farmers, business, industry and the government. The grain sorghum producers Association, Lubbock, is a member. This promotion program for U.S. Feed Grain is carried out in 18 countries through eight foreign offices in Europe and the far east. Kathie noted that Korean President Park has given a very high national priority to expanding animal agriculture. He said, "There are over one million head of cattle in Korea and President Park would like to see this number multiplied several times, all within the next few years. It has been a fact that what President Park wants, is usually done one way or another. We expect to see substantial increases in cattle, swine, broilers and layers in the next few years. To help in this effort, and to assist in consumer promotion of the end product, the U. S. Feed Grains Council will be a part of our effort to expand existing markets for U. S. Feed Grains, and to develop new markets. We believe this is important to Texas producers of Grain Sorghum since approximately one-fourth of their production is exported to foreign countries, and additional foreign demand would help the Texas farmers from the increased sales."

Kathie continued, "The principal buyer of feed grains from this country and shipped overseas is the feed manufacturer. In Korea, the feed industry has grown from 100,000 tons in 1967, to 250,000 tons last year, and they expect to make and sell 400,000 tons this year. Many in the Orient compare Korea's feed and livestock industry of today with Japan's of 15 years ago. While Japan grew from a few hundred thousand tons 15 years ago to the world's second largest feed industry today of 11 million tons, we don't expect that much from Korea. Nevertheless, there will be some fast growth in Korea and much of this will depend on im-

## Save Afternoon Harvested Cotton Seed For Planting

cotton growers are advised by Fred C. Elliott, Texas A&M University Extension cotton specialist, to save planting seed from afternoon harvested cotton.

It has a lower moisture content and usually can be stored without loss until planting time next year. Storing cotton seed with more than 12 percent moisture, Elliott explains, often results in heating and other quality deterioration. This means a lower germination when seed are planted next spring, resulting in poor stands. Cotton gins best at a lint moisture content of about seven and one-half percent. Tests show the high-moisture content of seed cotton during the early morning is from the high relative humidity.

Machines should stay out of the fields, he notes, until relative humidity is below 60 percent and should not pick or strip if the moisture content of the seed cotton is above 8 percent. As a rule of thumb, it's a good plan to harvest cotton only between 8 a. m. and about 8 p. m.,

but to be safe, Elliott suggests saving planting seed only from cotton harvested in the afternoons.

Holding high-moisture cotton on trailers for long periods, under crowded conditions in rush seasons, lowers the grade, price and profits. Harvest cotton as dry as possible and keep it dry, advises the specialist. Before storing cotton planting seed, inspect it closely for damage. Store only seed with high germination (80 percent is good) of reputable varieties, advises Elliott. Seed saved for bulk storage should be less than 12 percent moisture unless good drying and cooling facilities are available.

Finally, Elliott suggests a continuous check during the winter on stored seed.

Mr. and Mrs. Ray Axtell, Rev. and Mrs. Johnny Williams and granddaughters, and Mrs. Ruby Jones were guests in the home of Mrs. D. M. Allen, Sunday.

## NROTC Exam Set For December 13 Extension Economist Looks At Farm Exports

The 24th annual national competitive examination for the Regular Naval Reserve Officers Training Corps (NROTC) Program will be given on December 13, the Navy announced this week.

Open to high school seniors and other recent graduates, the program offers a four-year subsidized college education and a commission in either the Navy or Marine Corps. Those selected will receive tuition, fees, uniforms, books and a \$60.00 per month subsistence allowance at one of the 54 civilian colleges and universities where NROTC Units are established. The student has a wide selection of college majors, and only a few non-technical professional programs of study are prohibited.

During the summers between academic years, the student gains practical experience in naval operations through at-sea training as a Naval Reserve Midshipman. Upon receipt of his baccalaureate degree, he is commissioned as an ensign in the Regular Navy or a second lieutenant in the Marine Corps. High school seniors and graduates who will be entering college in September 1970 and who will have reached their 17th but not their 21st birthday on 1 July 1970 are eligible to take the Navy College Aptitude Test (NCAT) on 13 December.

Those who make a qualifying score on the NCAT will be given an interview and medical examination and will complete their applications in January and February of 1970. Approximately 1,700 applicants will eventually be selected to attend college under the program. Bulletins of information and applications to take the NCAT may be obtained from high school counselors, any Navy recruiting station, or from the Chief of Naval Personnel (Pers-06-411), Department of the Navy, Washington, D. C. 20370. Completed forms must be received by the Science Research Associates, administrator of the test, on or before 14 November.

Mr. and Mrs. Jim Robbins of Earth visited with Mr. and Mrs. Jack L. Robbins of Portales, New Mexico last week. Jim Robbins is a brother to Jack L. Robbins.

Mr. and Mrs. C. J. Pierson and daughters, of Lubbock were overnight visitors Sunday in the home of Mrs. R. L. Drake. Mrs. Pierson is the daughter of Mrs. Drake.

College Station, Exports are of vital importance to American agriculture and the nation's balance of trade. For the past 15 years, notes W. E. Black, Extension economist in marketing and policy at Texas A&M University, agricultural exports have trended upward.

Total U. S. agricultural exports in 1965 were \$3.5 billion. In 1968 they were \$6.3 billion. There were also, says Black, an increase in agricultural imports during this period but it was much slower—from \$4.1 billion to \$4.7 billion.

But actually, points out the economist, the U. S. position in agricultural trade is less favorable than the figures indicate. Commercial dollar sales were \$4.5 billion in 1968 while sales under government programs amounted to \$1.8 billion. The return from sales under government programs varies. For some countries, the value is virtually nil, but for others there is some value depending on the financial abilities of the receiving countries.

It is highly important, explains Black, that agricultural trade balance continues to be favorable and the volume of exports to increase. This is a most desirable solution to the problem of surplus farm production, believes the economist.

Some U. S. farm products, such as wheat and flour, feed grains, oilseed and oilseed products, tobacco, cotton and rice, are sold abroad in very great volume. There are many others, says Black, but those listed are the export leaders.

Standing at the head of the list of the heavy buyer countries is Japan, following in order are Canada, India, Netherlands, United Kingdom, West Germany and Italy. These countries bought almost \$3.5 billion worth of our farm goods in 1968.

There are two groups of countries, Black maintains, where effort toward maintaining and justifying. One group is the well-developed nations of Western Europe, Canada and Japan. The other is composed of those nations which are turning toward urbanization and industrialization and are improving per capita incomes. Examples are Mexico, Argentina and Paraguay.

It is in these countries that a normal growing foreign trade in farm goods is a future possibility, Black believes. This is true, he says, because of our great capacity to produce farm goods, resulting in surplus supply.

Mrs. Smith is a sister to Mrs. Burton.

## Financial Facts

By Norian Dudley

According to bank tellers, some customers request old bills when being served. They complain that new bills stick together. Thus there is a danger of mistakenly paying out two bills. Other customers want new bills exclusively. Their complaint is that old bills are germ carriers. There are five points which tellers keep in mind when cashing checks. First, is the signature forged? Second, has the check been altered in any way? Third, is the amount clear as expressed in numerals and words? Fourth, has the name of the payee been changed? Five, are you sure of the signature? Is it that of the one whose name appears on signature card?

Although a check is made payable to "bearer", most tellers require an endorsement. WATCH NEXT WEEK FOR "MORE BANK TELLER TALES" Money spent at home, builds your community, lets all be builders. What are your banking needs? Checking and Time accounts, personal and commercial loans, safety deposit boxes. CITIZENS STATE BANK offers you complete banking services. Lemons, president of Pasadena, Texas, Mrs. Regan Wuesback, San Antonio, Texas, Mrs. Kenneth Cowley of Dallas, Texas, and Mrs. Lindy Clark, Snyder, Texas.

### MYF Make Plans To Help Families High Heels May Cause Feet To Sting

Local members of the Jr. High Methodist Youth Fellowship met Sunday evening at 6:00 p. m. in the United Methodist Church of Earth. Darlene Sulser was in charge of the program entitled "God Calls, Who Will Answer?" A business meeting was conducted, and plans were made to distribute canned goods and clothing to underprivileged families in the community. The meeting closed with the group giving the Pledge Service. Members attending were Jimmy Coker, JoAnne Coker, Scott Lee, Darlene Sulser, Brad Haley, Melissa Bean, and Dyke Gaston. Chicago-Do the soles of your feet sting when you wear high heels? Your stride is probably too long, suggests the Department of Health Education of the American Medical Association. Since high heels impair your balance, a long step forces you to constantly regain your balance, which causes extra pressure on the balls of your feet, which leads to painful stinging. Shorter strides make it easier to maintain your balance. The strain of walking on high heels can also be somewhat relieved, say the posture specialists, by walking more slowly and by toeling straight ahead. Keep your feet close together than when you wear low heels. In other words, high heels are great for mincing and looks but an obstacle to brisk pedestrian progress.

### Local Bridge Clubs Meet Monday

Eight local ladies met in the home of Mr. and Mrs. Richard Bills Monday afternoon for bridge. Gifts were awarded Mrs. Gayland Stephens, high score winner, Mrs. Sonny Branscum, second high score winner, and Mrs. Jimmy Shirey, low score winner. ## Maggard-Nall Motor Company Showing New '70 Models

The showing of the all new 1970 Imperial, Chyslers, Plymouths, and GMC trucks is being held this week at Maggard Nall Motor Co. in Plainview. The firm invites the people in the area to come in all this week and inspect the beautiful new 70 models.

Several of the new models are currently on display, and the staff at Maggard-Nall is always happy to show them. They invite you to come in today and see all the marvelous new features.

**NEW TOP PERFORMER**—Entirely new and racy styling marks the 1970 Plymouth Barracuda line, which offers three distinctive series of cars with varying performance potential and a long list of special options. In addition to the standard Barracuda, there's the new Gran Coupe and the 'Cuda, a model with greater performance potential than ever before available in a compact-size Plymouth. 'Cuda's standard engine has 383 cubic-inch displacement with four-barrel carburetor. Also available is the Hemicuda, featuring a 426 cubic-inch hemi engine with eight-barrel carburetor and "shaker" hood.

## 30.9 Miles Of Roads In Lamb To Be Improved

The Texas Highway Commission today approved the expenditure of \$82,000.00 for highway safety and betterment and for Farm to Market Road improvement in Lamb County during 1970.

District Engineer Oscar L. Crain of Lubbock said that a total of 30.9 miles in Lamb County will be involved in the annual program. Work will be under the supervision of James W. King, District Maintenance Engineer, of Lubbock.

The work is part of the Highway Commission's combined Farm to Market Road Improvement and State Highway Safety and Betterment Program for 1970.

The safety and betterment portion of the program will cover 5.4 highway miles in the county at an estimated cost of \$9,200.00. The farm to market road improvement program will cost an estimated \$72,800.00 for 25.5 miles of FM roads.

Mr. Crain stated that the proposed improvements play an important role in the Department's continuing highway safety program.

He said that the types of work included in the program includes seal coating, surface widening, base strengthening, and resurfacing and rebuilding of shoulders.

Included in the road improvement is 5.4 miles of seal coat on Highway 70 from Bailey County line eastward to farm-to-market road 303.

Also farm-to-market 169 in Olton from Highway 70 to 9th Street using seal coat for approximately 0.6 miles and from 9th Street in Olton to Hockley County Line, this is a strip of 24.9 miles.

Mrs. Beula Coker and her son Victor Coker were in Lubbock Friday on business. Mrs. Coker also visited in the home of the Victor Cokers Sunday.

## TDA Features Texas Fibers

**Business Picks Up At Good Will Centre**

AUSTIN, Tex. --The Texas Department of Agriculture is focusing consumer attention in the direction of Texas' natural fibers during September and October.

Texas is a leading producer of wool, cotton and mohair in the nation and the world," Commissioner of Agriculture John C. White said in explaining the promotion, "and we would like to acquaint more people with Texas' natural fibers."

Featured for the "in-look" this fall and winter is the versatile wool coat dress. Wool drapes well, provides warmth to the wearer and continues to hold its shape year after year in both softlined and tailored garments.

Bold plaids, pleated skirts and coordinated separates made of wool, cotton and mohair and blends of these three natural fibers will again be in the clothing "avant-garde" this season.

But regardless of the season, today's natural fibers lead the fashion parade. Their exclusive performance characteristics such as their color brilliance, their exclusive wearability and rich elegant appearance cannot be duplicated.

Texas is the leading producer of cotton in the nation, it produces approximately 20% of the nation's wool, 97% of the U. S. mohair and 51% of the world's mohair.

"Texans are fortunate that our state has the land, the climate and the people to produce these three natural fibers in such quantity and quality. All we need now is more processing and we are working on that," White said.

## Business Picks Up At Good Will Centre

The Goodwill Centre in Earth was open for business Saturday under the supervision of members of the Rebekah Lodge.

Mrs. H. W. Kendrick reported that \$35.38 was taken in during the day. The Centre is still in need of bed linens, blankets, sheets, and bed spreads.

Those in charge were Mrs. Earl Walker, Mrs. Minnie Pate, Mrs. J. B. Thomas, and Mrs. H. W. Kendrick.

The Centre will be conducted Saturday by members of the Baptist Church.

## Different Beef Breed Crosses Tested In Feedlot

College Station -- Crossbreeds involving Charolais, Charbray and Santa Gertrudis, gave the highest feedlot weight gain in recent tests at Texas A&M University.

Objective of the research was to determine how various breeds perform in the feedlot when different crosses are used.

J. E. Brown of A&M's Animal Science Department said hybrid vigor from crossbreeding is a well-established fact. The problem now is to find which crossbreeding combination will do best in commercial feedlots.

The Texas A&M research involved 1,934 animals fed for 140 days. Breeds represented were Charolais, Charbray, Santa Gertrudis, Hereford, Angus, Brahm, Brown Swiss and Red Poll.

When the feeding period ended, the crossing ability of the Charolais, Charbray and Santa Gertrudis scored highest. Gertrudis scored higher than others, but much additional research is needed before solid conclusions can be reached, Brown said.

He added that the hybrid vigor principle was demonstrated in the overall experiment when

the first crosses showed an average superiority of 5.8 percent compared to purebreds.

## Savings Bond Sales Slow In August

Saving Bond sales in Lamb County during the month of August totaled \$4,918 according to County Chairman C. O. Stone.

The year-to-date sales totaled \$72,916 for 56 per cent of the 1969 goal of \$130,000.

During August total sales of E & H Savings Bonds and Freedom Shares in Texas amounted to \$15,376,241--an increase of 6.8 per cent over sales during August of 1968. Last year sales totaled \$119,638,086 for 70

per cent of the 1969 goal of \$170.1 million.

Over the Nation the sale of Savings Bonds and Freedom Shares for the first eight months totaled \$3,277 million with 67.4 per cent of goal achieved. August sales of Freedom Shares were \$27 1/2 million, up 11 per cent over August 1968.

Mr. and Mrs. Barry Morgan and son, Cecil, from New Mexico Boy's Ranch in Belin, N. M., are visiting with Mrs. Lillie Wuerlein and Edward. Mrs. Morgan is the daughter of Mrs. Wuerlein.

Mrs. George Middleton arrived in Earth Sunday for a visit with Mr. and Mrs. Ross Middleton. She accompanied Mr. and Mrs. Gene Chaney and Melissa back to Earth. The Chaneys were enroute home from taking Mrs. Chaney's mother, Mrs. D. W. Holt and her sister Mrs. Corda Ray back to Arkansas. They stopped in Holdenville, Oklahoma to visit and to pick up Mr. Middleton.

# Wolverines Slaughter Owls

By Allen Hale

Led by Hoyt Glasscock's brilliant 100 yard run with the opening kickoff and the powerful running of Terry Bridge and Tony Barton, the Springlake-Earth Wolverines rolled to a 40 - 0 triumph over the Hale Center Owls in Wolverine Stadium Friday night.

Following Glasscock's exciting run the Wolverines proceeded to rip the Owls for 300 yards rushing and 108 passing.

Bridge, running brilliantly, smashed the Owl line for 194 yards, and Barton added 76 more yards, often through heavy traffic.

The victory, the second for the Wolverines in as many starts, was clearly a team effort. The Owls were outcharged by a spirited Wolverine team that evidently has taken Coach Dean Wright's motto "All for one, one for all" to heart. The Wolverines indeed show every indication of being one of the hardest hitting, finest football teams in their area.

The excellent defense of the Wolverines, led by Danny Parish and Jerry Barden prevented the Hale Center team from penetrating its 20 yard line. The excellent blocking and tackling of the well-coached Wolverines paved the way for the solid victory and served notice for the powerful Dimmitt team to beware this coming Friday night.

The Dimmitt team that the Wolverines will meet is one of the best football teams in this area and will be a rugged test for the undefeated Springlake team.

TONY BARTON-No. 32 scored two touchdowns in the first half Friday night against the Owls, one from 9 yards out and the other from 11 yards. Tony had a total of 78 yards.

PERILS OF A QUARTERBACK-Hale Center quarterback, Doyle Patton, No. 11 was rushed unmercifully by the Wolverine defense Friday night. The Wolverine defense held the Owls to only 108 yards rushing and passing.

## Three District 3-A Teams Remain Unscored On

Springlake-Earth remained one of the unbeaten teams in the district last week, along with Sudan, Bovina and Kress.

The Wolverines have scored 69 points in their first two games, holding their opponents to zero.

Kress and Sudan have also held their opponents scoreless. Kress has scored 40 and Sudan 59 points.

Terry Bridge and Tony Barton are number 3 and 4 in the top scorers list for the district. Bridge with 27 points and Barton 26.

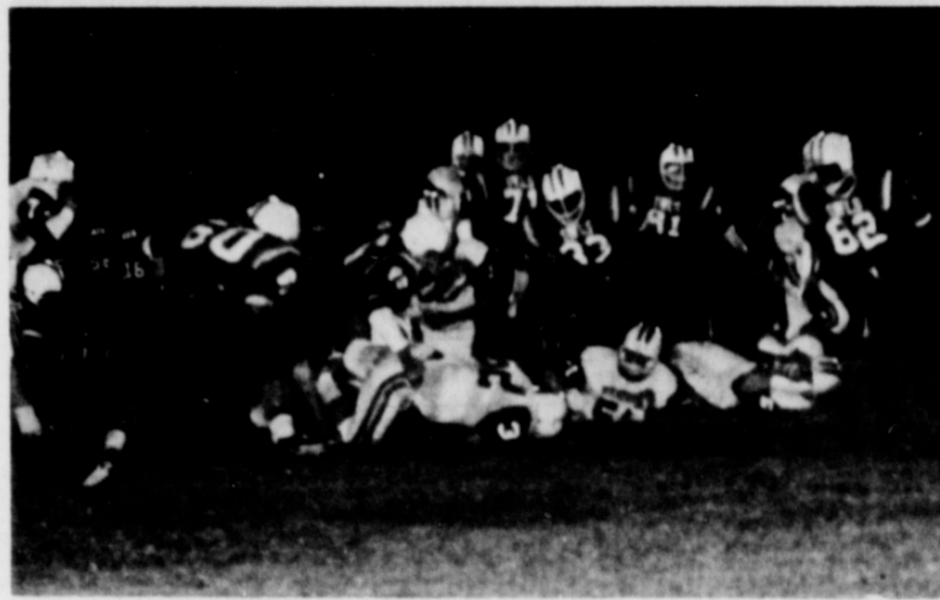

Larry Hanna of Sudan is leading the district in the scoring column with 31 points, followed by Mike Beauchamp of Bovina with 30.

## Sammy Parish Is President Of Jr High Band For '69-'70

Sammy Parish was named President of the local Junior High Band when members gathered for the annual election of officers. Kim Kelley was named vice president of the group.

Others named to serve as officers included, Pat Cleavinger, secretary; Tommy Clayton, music manager; Jimmy Coker, historian. Both Ruth Street and Gaye Ellis were named as librarians.

EVEN IF YOU LIVE ALONE, go ahead. Bake a roast or chicken with all the trimmings. Extension Consumer Marketing Specialist Gwendolyn Ciyatt suggests preparing frozen TV dinners from the left-overs. Divide meat and vegetables into portions, place in sealed foil dishes and freeze.

WOLVERINE DEFENSE-Made it tough on the Hale Center Owls Friday night. The Owls were never aloud near the end zone.

## Jr High Teams Drop Two To Dimmitt

Members of the seventh and eighth grade Jr. High football teams under coaching supervision of Travis Sura, were defeated by Dimmitt Junior teams Tuesday, in Dimmitt. Games began at 3:00 p.m. with Dimmitt seventh graders

downing the Wolverines 12-0, followed by Dimmitt eighth graders defeating the Wolverines 18-6, with Marlo Sales scoring the only touch down for Springlake-Earth Junior Team.

Both teams will meet the Jr. High Teams at Priona, September 29, 3:00 p.m. in Wolverine Stadium.

## Party Line

Mr. and Mrs. Jack Hinson returned Tuesday from a three week stay in Tres Ritos, New Mexico. While there they had as house guests for ten days Mrs. Ray Ellsworth of Maukata, Kansas. Mrs. Ellsworth is the former Esther Lenville Lawson whose parents were pioneers of the Earth area.

Mr. and Mrs. Kenny Kendrick of Lubbock were weekend guests in the home of the H. W. Kendricks. Kenny is the son of the H. W. Kendricks.

# Texas Prison Rodeo Held Sundays In October Is Biggest Yet

HUNTSVILLE--The 1969 version of the annual Texas Prison Rodeo, which will be held here every Sunday in October, promises to be a "Stars and Stripes" event when topflight entertainers will team up with tough convicts to present a thrilling two-hour spectacle in the prison's one million dollar stadium.

For the opening of this year's series on Sunday, October 5, the star attraction will be Wanda Jackson, who has reached fame with her recordings of "Your Tender Love" and "You Cheated Me."

On Sunday, October 12, Merle Haggard, of night club and recording renown, will present a program of some of his toptunes. These include "Branded Man" and "Sing Me Back Home."

For the third performance of the World's Wildest Rodeo on Sunday, October 19, the featured attraction will be Buck Owens, country-western singer and television star. Owens has made guest appearances on the Dean Martin Show, Kraft Music Hall and other well known television series.

Hank Snow, known as "The Singing Ranger", will highlight the closing performance of the Prison Rodeo on Sunday, October 26. Some of his best hits are "The Golden Rocket" and "Rome Wasn't Built in a Day."

As usual, during each performance, the toughest convict cowboys will be competing for prize money in an effort to tame outlaw rodeo stock in an array of unusual contests. Convicts riders will perform in the Mad Scramble, bareback bronc riding, saddle bronc riding, Hard Money, bull riding, and the Wild Horse race.

Outside of the stadium, groups of inmate entertainers will perform on the Midway before the rodeo begins at 2:00 P. M.

NEWLY ELECTED BAND OFFICERS are as follows: Back row, Danny O'Hair, equipment manager; Jerry Lynn Barden, Vice President; Brian Sanderson, freshman whip; Kirby Kelley, President; David Hinchliffe, hat manager; and Holace Daniai, equipment manager; Front row, Laura Dudley, uniform manager; Becky Sanders, Secretary; Debbie Martin, drum major; and Gloria Stephens, head twirler.

At the opening of the rodeo, Mr. H. H. Coffield of Rockdale, Chairman of the Texas Board of Corrections, will announce the selection of the Miss Texas Prison Rodeo for 1969.

Net proceeds from ticket sales go to support a full rehabilitation program for the 12,000 inmates of the Texas Department of Corrections. Reserved seat tickets, priced at \$3.00, \$4.00, \$5.00, and \$5.50, may be obtained by writing Texas Prison Rodeo, Box 99, Huntsville, Texas 77340, enclosing check or money order.

Free Course Taught Tuesday In Littlefield  
Mrs. Ray Joe Riley, president of the local P. T. A., has announced that a free course in leadership and parliamentary procedure will be conducted Tuesday, September 20, from 9 a. m. -3 p. m. in the REA Building in Littlefield.

Mrs. Edie Armstrong, guest lecturer from Lubbock, will conduct the course.  
Mrs. Riley encourages all local P. T. A. members to take these courses as they will be useful in any type business meeting. Those attending are to bring their own sack lunch.

Mr. and Mrs. Calvin Wood attended the Texas Tech football game in Lubbock, Saturday night.

## Candidates Announced For Sorghum Producers Board

The grain sorghum producers association revealed today that 24 nominations have been received for the grain sorghum producers' board. The grain farmers within a 29 county area, of the High Plains and Panhandle of Texas, will elect 12 men from this list to serve as the Governing Board for their research and promotion activities, provided the grain sorghum referendum carries by a 2/3 majority.

Two Lamb County men are among the nominees. Three were selected from Castro County and one each from Bailey and Palmer.

The election will be held on October 6. It will be on the same ballot with the referendum proposition. On this ballot the farmers decide whether or not they favor an expanding research and grain sorghum promotion campaign, which will be aimed at improving the net profit in grain sorghum production by assessing themselves an amount not to exceed 5 cents per ton to carry out this important program.

The names will appear on the ballot in the order of receipt by the grain sorghum producers

association. This 12 man board will receive no pay for their services and will be charged with the responsibility of seeing that the 5 cents per ton is spent on the projects yielding the best returns for the farmers.

The nominees are: A. W. Anthony, Jr., Friona (Parmer County), Texas; Don Marble, South Plains (Floyd County), Texas; K. B. Parish, Springlake, (Lamb County), Texas; Jack F. Jackson, Abernathy (Hale County), Texas; Pat L. Northcutt, Silverton (Briscoe County), Texas; Melvin Barton, Dimmitt (Castro County), Texas; H. L. "Hub" King, Brownfield (Terry County), Texas; Coy Grant, Levelland (Hockley County), Texas; Troy Sloan, Spearman (Hansford County), Texas; E. C. Witten, Kress (Hale County), Texas; A. R. Dillard, Hereford (Deaf Smith County), Texas; Lee Hill, Dalhart (Hartley County), Texas; Vernon Tiley, Texline (Dallam County), Texas; Gene Smith, Lazbuddie (Parmer County), Texas; Delbert Watson, Muleshoe (Bailey County), Texas; Glendon H. Etling, Gruver (Hansford County), Texas; D. N. Garbhin, Sunray (Moore County), Texas; John Gilbreath, Hart (Castro County), Texas; Ralph B. Mabry, Petersburg (Lubbock County), Texas; C. C. "Pap" Reed, Kress (Swisher County), Texas; C. P. Smith, Hale Center (Hale County), Texas; Charles Heck, Jr., Nazareth (Castro County), Texas; Gaston Wells, Dumas (Moore County), Texas; Larry Witten, Olton (Lamb County), Texas.

Mrs. Dwayne Stiles and children of White Deer are visiting this week in the home of her parents the R. D. Usserys.

## Specialist Notes Problems From Feeding Low Quality Forages

COLLEGE STATION, -- The use of low quality forages in the dairy ration increases the grain feeding requirements and may increase the dairyman's feed cost by as much as 30 percent even more, says A. M. Meekma, Extension dairy specialist, Texas A&M University.

If the animal's nutritional needs are not met, production may drop so sharply that a serious financial bind can develop, says Meekma. When low quality forages are used, more grain must be added to the ration to adequately supplement the dairy cow's nutritional needs. Forage quality is also important

because it affects voluntary intake, emphasizes Meekma. Stage of maturity at harvest is the one most important factor affecting milk producing power of a forage, explains the specialist. For example, he says, prebloom alfalfa may contain as much as 18 to 20 percent crude protein and 45 or more therms of estimated net energy

per 100 pounds while, at full bloom, it may drop to 12 percent crude protein and 33 therms of estimated net energy per 100 pounds. Therefore, the dairy cow, which will normally prebloom alfalfa as alfalfa cut at the late stage of maturity, can consume three times the nutrients from forage.
