Storm Damage To Trees Should Get Immediate Attention

Trees damaged by violent weather during spring and early summer should get immediate attention. Storm damaged limbs or branches should be removed immediately, advises Everett Janne, Texas A & M University Extension landscape horticulturist.

When a limb or branch must be removed in its entirety, the Extension specialist says to make the cut flush with the tree trunk or limb from which it is growing. Also, he says paint all wounds with a good tree wound dressing to prevent the entrance of disease or insects into the freshly made cut.

The job of removing large limbs can be simplified and damage to the bark can be prevented if care is exercised, says Janne. He suggests making a cut from the underside of the limb about eight inches from the main trunk. Make this cut at least one-third of the way through the limb or until the saw binds. Then make the second cut from above and several inches farther out on the limb and continue cutting until it can be removed. Make the final cut, he says, flush and parallel to the main trunk. Then apply tree wound dressing to the exposed surface.

If trees around the home do not get immediate attention, warns Janne, they may fall victim to insects and diseases

which can enter through the damaged areas.

SPRINGLAKE WMU HAS PROGRAM ON VIETNAM

Members of the Springlake WMU met Tuesday morning at the First Baptist Church in Springlake.

The program was on "Vietnam." It dealt with our boys, what they do and the consequences and hardships they suffer.

It was brought out that missionaries visit boys and carry to them the word of God. They also visit hospitals there to build up their morale and to let them know they are not forgotten.

The Bible reading was taken from John 13:1-17.

The Prayer Calendar for the week was read.

Attending were Mrs. Jo Sanders and Mrs. Herbert Miller.

"You're getting too old to run around the way you do, Mom. Happy Mother's Day."

The average mother, we've been told, walks more than 8 miles every day. Why not give her feet a break this Mother's Day: make sure she's got a phone within answering distance. An extension (in the kitchen or bedroom or laundry room) costs just a few cents a day. There's no faster relief for aching feet.

Parents of the couple are Mr. and Mrs. Edwin L. Dawson, Springlake, and Mrs. David Lucas and the late Mr. Lucas, Alexandria, Louisiana.

The ceremony was performed before an altar of cathedral candles set in a bank of greenery and flanked with spiraling candelabra. The center pews of the church were enhanced with green satin bows with the pews of the parents marked with white candles entwined with greenery. Pre-wedding music was furnished by Mrs. Judy Glass, organist. The bride, given in marriage by her father, wore a formal gown of white imported organza. Tiny beaded lace flowers adorned the empire bodice, long bell sleeves, the wide chapel train and the lower part of the A-line skirt. The three tiered veil of silk illusion was held in place by a tiered satin bow outlined in seed pearls and crested flowers.

Mitts were in satin and tiny seed pearls, matching the headdress. She carried a cascade bouquet of pink orchids.

They were attired in identical formal gowns of mint green voile accented with ruffles centered with tiny pink velveteen ribbon. Head pieces were tiered bows of pink ribbon with streamers of tiny pink ribbons tied with love knots. They carried cascading bouquets of pink spider mums, lilies and ivy and wore shoes and mitts to match the dresses.

Little Miss Jennifer Wilbourn, El Paso, niece of the bridegroom, served as flower girl. She wore a floor length dress fashioned after the bridesmaid's dresses. Cary Crouse, Lovington, New Mexico, cousin of the bride, was ring bearer.

Cadette Troop Have Overnight Camp Out Friday

Cadette Girl Scout Troop #178 met Friday, May 1, in the home of Mrs. Don Taylor for an overnight camp out to practice skills in preparation for Troop Camp at Rio Blanco May 29-31.

Troop equipment was assembled and checked by equipment manager, Cindy McAlpine.

Groceries and supplies were purchased from overnight fees by commissary manager, Lisa Clayton.

Two groups were formed to erect tents and set up the camp compound.

The girls worked as "buddies" in groups of two during the camp out. Each group had an opportunity to practice their skills in fire building, cooking and clean up, in addition to general camping skills.

The troop had planned menus and schedules in regular meetings and assistant patrol leader, Donna Daniels, had made Kaper Charts to show each pair of buddies what their duties would be.

The menus were planned to give test proficiency in four types of cooking: foil, stick, one pot and individual. Friday supper was hamburgers a la foil (foil), somemores (stick) and pops. Saturday breakfast was bacon, eggs, toast and jelly and hot chocolate cooked individually on vagabond stoves. Saturday lunch was ranch beans (one pot), grilled cheese sandwiches, cherry cobbler and sunshine tea. Each menu contained a food from each of the four food groups which are meat, milk, fruit or vegetable and bread.

Recreational activities planned by the girls were games and songs, a campfire and a hike.

The girls learned several new songs and a new grace to be sung before meals.

On their hike they observed nature and for their good turn they helped the caretaker at the cemetery lift a fallen tombstone back into place.

Before departure on Saturday, the girls packed all personal and troop equipment and restored the campsite to better than original condition. The session was closed by singing

"Sunshine Taps."

Attending were Ruth Street, Donna Daniels, Terri Smith, Lisa Clayton, Quincey Lewis, Cindy McAlpine, Mrs. Don Taylor and Mrs. Raiford Daniels.

The troop will attend a Glamour Workshop at the Scout Hut in Olton May 5 and 11. They were invited by the Olton Cadette Troop.

FINANCIAL FACTS

Is a "Stop Payment" order binding if given over the telephone? No, a written stop payment must be signed.

A stop payment order, no matter how given, is a notice of trouble. The check may be lost, stolen, or fraudulently obtained. The bank is obligated to use extraordinary care to prevent payment.

When payment on check is stopped, the depositor issues a duplicate. He should not be in too big a hurry to do this, however.

In many cases, checks believed to be lost or stolen show up.

Stopping payment on certified checks causes involvement. A bank will refuse to pay without a thorough investigation.

Springlake Sunbeams Study "What Is Praise"

Five members of the Springlake Sunbeam Band were present Wednesday afternoon, April 29, for their weekly meeting at the First Baptist Church of Springlake.

Several songs including "Praise Him, Praise Him" were sung by the Sunbeams prior to the presentation of this week's story "What Is Praise?" During a short discussion, the group learned what praise means, what they can do to receive praise and the many reasons God has given us to offer our praise to Him. Among the reasons given were God has done things well, made things well, cared for things well, loved everyone and gave His life for us.

During their Bible study, Genesis 1:31 and Genesis 1:1 were read and discussed by those attending. Paintings were done by the

group, with tempera paints, which represented lovely spring scenes of flowers, sky and trees during their creative arts period.

Refreshments of ice cream bars were served by the Springlake WMU to Kyle and Aaron Holmes, Diane Jones, Rocky Lunsford, Kelley Walden and director, Mrs. Bill Lunsford.

Party Line

Dinner guests Saturday night in the home of Mr. and Mrs. Ross Middleton were Mr. and Mrs. Gene Chaney and Melissa of Olton, Mrs. George Middleton of Okmulgee, Oklahoma, Polly Jean Middleton and Pat Breedlove of Tulsa, Oklahoma, Phil Middleton, Canyon, and Becky Sanders of Earth.

ANTENNA DONATED IN MEMORY OF "DOC"---Mrs. J. Thomas Richardson purchased this 2-way radio home base antenna and presented it to the local Volunteer Fire Department in memory of her late husband, Dr. J. Thomas Richardson, the local dentist. Mrs. Richardson said the fire department had supplied oxygen for Dr. Richardson during his attacks of emphysema and were so willing to help in any way possible.

Earth WMU Has Program On Thailand

Mrs. Pete O'Hair led members of the Women's Missionary Union in a discussion on the subject topics "While It Is Yet Day" and "Thailand Patterns of Life" when they gathered at the First Baptist Church in Earth Tuesday afternoon. The meeting was opened with the Bible reading taken from John 13:1-17. The Prayer Calendar was read by Mrs. Pete O'Hair. Mrs. Price Hamilton led the group in prayer. The study of Buddhism, which

is the state religion of Thailand, was of interest to all present and each joined into the discussion.

Buddhism, they learned was started by a man named Siddhartha Guatama. The religion is based on the following: A. I take refuge in the Buddha, B. I take refuge in the Dharma (his doctrines), C. I take refuge in the Sangha (the order of his disciples).

The Buddhist live by ten precepts--abstinence from destroying life, stealing, impurity, lying, intoxication, eating at forbidden times, dancing, singing or theatres, garlands, high or broad beds, or gold and silver.

The outline of teaching is in the "Four Noble Truths." These include (1) suffering is a universal fact, (2) the origin of suffering is in craving or desire, (3) the cessation of suffering is accomplished by the forsaking of desire, (4) the way leading to the end of desire and the cessation of suffering is noble.

Their religion includes the eight-fold path of righteousness. These include right view, right mindedness, right speech, right action, right livelihood, right effort, right mindfulness, and right concentration.

The discussion included information as to the type of work being performed by Baptists in Thailand. Two notations of interest were that the Chinese were overrunning Thailand and that there were no juvenile delinquents in Thailand.

Mrs Ott Is Queen For The Week

Mrs. Alma Ott was named Queen of the Week by members of the local TOPS Club when they met Thursday in the Goodwill Centre. She won the title by losing 3 1/2 pounds of weight during the week. Mrs. Billy Speck was runnerup with a 1 1/2 pound loss.

Fourteen members were weighed in by weight recorder Mrs. Allen Gover who registered a 7 1/2 pound loss for the entire group.

Mrs. C. L. Houchin presided over the meeting. The group repeated the TOPS Pledge and sang "The Enthusiasm Song."

In a short business session the group planned their 4th anniversary salad supper. The event is set for Thursday (today) at 6:30 p. m. in the Community Building. The group will meet at the Goodwill Centre and weigh in before going to the Community Building for the salad supper.

All ex-members of the TOPS and any new prospective members are invited to attend.

The group was dismissed with an exercise song and the Serenity Prayer.

Five Members of Troop 373 Earn Outdoor Camping Badges

Five members of the Earth Girl Scout Troop #373 were successful in earning Outdoor Camping Badges, when the troop gathered for a meeting Monday afternoon in the home of their leader, Mrs. Ralford Daniels.

The troop practiced building fires to earn Outdoor Camping Badges. The requirement for this badge indicates that each member build individually a "tee pee" frame fire and an "A" frame fire and light the fire within two minutes using only one match. The five that succeeded were Donna Dudley, Deborah Daniels, Quincy Lewis, Margaret Street and Shery Winders.

The troop discussed poison ivy and poison oak, how to identify it and a suitable treatment for relief of both. This was done to work toward a Rambler Badge. They also studied the correct way of using a pocket knife. This they must learn

before they can receive a Gypsy Badge.

Punch was served by Deborah Daniels and cookies by Kim Clayton to leaders, Mrs. Nathaniel Ingram and Mrs. Ralford Daniels and members of the troop Camille Hinchliffe, Brene Belew, Pam Ott, Joyce Ingram, Margaret Rivers, Margaret Street, Donna Dudley, Treasa Lively, Sherry Higgins, Vasha Lewis, Toni Inglis, Carmen Wimberly and Quincy Lewis.

Party Line

Among those visiting the Floyd Bills family at the Methodist Hospital Sunday were Mr. and Mrs. Forrest Simmons, Mr. and Mrs. R. V. Bills, Mr. and Mrs. Richard Bills, Mr. and Mrs. James Wages, Mr. and Mrs. S. Cole, Mr. and Mrs. C. L. Houchin and Mr. and Mrs. Buddy Free.

Jena Kay Baucum Feted With Shower

Little Miss Jena Kay Baucum, infant daughter of Mr. and Mrs. Eudell Baucum of Springlake, was honored Saturday, April 25, with a layette shower in the home of her parents.

The ladies of the Church of Christ hosted the shower, with approximately 30 guests registering.

The shower was an informal affair with guests serving themselves cookies and punch from a table laid with a white cloth and centered with a miniature baby carriage filled with tiny pink and blue flowers.

Mrs. Linda Cowley and children, Tami and Ty, visited Polly Jean Middleton Saturday in the home of Mr. and Mrs. Ross Middleton.

A GREAT BIG NOTE OF THANKS

We wish to take this means to offer thanks, first to the Good Lord who saw fit to return our son home safely, secondly for those visits (when the days were long), the show of concern, by your so many acts of kindness, especially your many, many calls, last but by no means least, your prayers--for all this, we are truly grateful.

We are sad that your husbands, sons and brothers could not come home also. Our prayers and thoughts will continue for them.

SPRINGLAKE CITY DADS---Members of the City Council were installed shortly following the April election. The group paused Monday night during the hamburger fry for the News-Sun cameraman. Leisure Time Will Increase

COLLEGE STATION---The wise use of leisure time should get increased attention in the years ahead, said Reagan Brown, Texas A & M University Extension sociologist.

The average person 35 years from now, he noted, will have twice as much leisure time as the person of today. Either we start planning now for wise use of this time or we pay the consequences, he added.

Brown said that increasing concern for training of our citizens in wise use of leisure time is not just a desire to make people's lives more pleasant for them. Monotony in work and in off hours is a social danger no less than disease, disorder and illiteracy.

Our failure to embrace this belief is raising the crime rate, increasing population in mental hospitals, multiplying physical and moral weaklings rejected by the armed forces, and raising the percentage of youths who want security at the very onset of their careers and who are afraid of trial and adventure, he stated.

Participation is most important and involves more than just being a spectator to a sport that offers only passive sideline involvement. In addition to what is commonly called physical recreation, participation may be in the form of civic affairs or social services which offer meaningful leisure time activity and satisfying personal experience, explained the sociologist.

He said this does not mean that one's work or profession will be neglected but that life will be looked upon as an entity and preparation for it will be treated as such.

American life in the future is going to be leisure time oriented in contrast to a work oriented past. How well and how soon we adjust to this change will have much to do with our country's future welfare, concluded Brown.

Local 4-H'ers Attend Activities Program

Cats Have Common Cold Too

Donald Warren, Assistant County Agent from Lubbock, was guest speaker at the regular 4-H meeting held Monday night, May 4, in Littlefield.

Warren presented an informative program and explained the various folk games and other activities which can be used for recreational purposes by area 4-H Clubs.

Those attending from the Earth-Springlake 4-H Chapter were Craig Barton, Brad Bridges and Kent and Sheila Lewis. Mrs. Thurman Lewis accompanied the foursome to the Littlefield meeting.

If you have ever wondered if "Puff" or "Tom" could have a common cold, then you can stop wondering because they can and do. In fact, according to the Texas Veterinary Medical Association, colds in cats are characterized by almost the same symptoms as those in humans. If he sneezing, has a running nose, acts and looks like he feels miserable and could be running a fever, he probably does have the nearest thing to a human cold that our domesticated animals experience, says Dr. W. H. Kirksey of Fort Worth, Vice President of TVMA and Chairman of the Small Animal Practice Committee. "This disease, or group of diseases, is commonly referred to as pneumonitis. The cause is the old scape goat, the virus," Dr. Kirksey explains.

No one knows how many different viruses may ultimately be found in the upper respiratory system of cats capable of producing the symptoms of a "bad cold." The duration of the disease may extend from a few days to many weeks, and even become a very unpleasant chronic sinus condition, defying treatment.

The condition is highly contagious to cats only and is transmitted when infected animals sneeze and spray their virus-laden discharge in the vicinity of susceptible felines. The exotic species of the feline, such as those cats in zoos, are also susceptible to the disease. While the disease is transmitted readily from cat to cat, the loss from the disease is fortunately not very great. Naturally the degree of severity is frequently dependent upon the speed with which diagnosis is made and adequate treatment instituted. All veterinarians are thoroughly familiar with the disease in all its varieties and are competent to advise the proper management for treatment in order to lessen the severity and shorten the course of the disease.

Treatment is largely supportive; that is, do anything that will make the animal comfortable and support him so that the body can fight the disease process. Some of the viruses are considered susceptible to antibiotics, and in addition, other diseases attempt to attack an animal already sick; so antibiotics are very necessary for the animal's well-being and rapid recovery.

Some of the viruses responsible for pneumonitis, coryza, or rhinotracheitis, have been incorporated into a vaccine and are recommended for administering prophylactically, especially prior to foreseeable exposure periods such as cat shows. Unfortunately, a large number of the viruses presently known do not lend themselves to use in vaccines. Constant progress is being made, and it is probable that preventive vaccines will be available in the near future, Dr. Kirksey concludes.

No Doubt About Rising Cost Of Living

WASHINGTON, D.C. . . It's true--the cost of living is going up, up, up. According to FINANCE FACTS, a monthly newsletter on consumer behavior published by the National Consumer Finance Association, budget estimates for an urban family of four rose 11 to 12 per cent from spring 1967 to spring 1969. And there has been a 5 per cent rise in the Consumer Price Index since then.

These budgets have been developed by the Bureau of Labor Statistics for a well-established family consisting of a 38-year-old husband, a housewife and two school-age children. In spring 1969 the low budget for this family was \$6,567; the intermediate budget was \$10,077; and the high budget was \$14,589.

The reason for the increased costs? The rise in taxes and retail prices. FINANCE FACTS reports the greatest percentage increases have been in personal taxes--28 per cent for the higher budget and 31 per cent for the lower budget. Social security taxes, insurance and contributions have risen by smaller percentages--13 to 15 per cent. Medical care rose 14 per cent. Clothing, housing, transportation and food all continued to climb but at a lesser rate.

May 1, 1707--Union of England and Scotland was effected under the name of Great Britain.

May 10, 1775--Fort Ticonderoga was captured by Americans under Ethan Allen.

Representatives from the

Plainview Fire Department brought an interesting program on fire prevention and safety in the home, on the farm and at school. They gave examples of safety measures to be taken in general. The group distributed a pamphlet listing poison-

ous plants that can be found in almost any house or yard in the area. The pamphlet also listed symptoms of each. Delicious barbecued hamburgers, homemade ice cream and cake were served to all attending.

Time Lapse Short In Tractor Accidents

COLLEGE STATION--Seven-tenths of a second isn't very long.

But, seven-tenths of a second is all the time available to a farm tractor operator whose unit has started to rear backwards under full throttle, says Henry O'Neal, Extension agricultural engineer.

Within that time, he can still de-throttle the engine to stop the rearing, he explains. Beyond that fraction of time, there is no stopping the rearing and ultimate upset. And unless the operator is thrown clear, or can possibly jump clear, he is pinned or crushed to suffer serious injury or death.

Or maybe he was one of the lucky ones whose tractor was equipped with a roll bar. "Of a national annual toll of about 1000 lives due to tractor accidents, some 600 are credited to tractor overturns," says the engineer.

"Many could be prevented through the exercise of sensible driving practices," he adds. Sidewise upsets occur when tractors are driven too close to ditches, holes or embankments. Backward flips occur when tractor-implement hitches are set at a point higher than the center of the rear axle, or when the load exceeds the tractor's

power to move it. At such times, the tractor employs its own power to create the rearing and backward flipping motion.

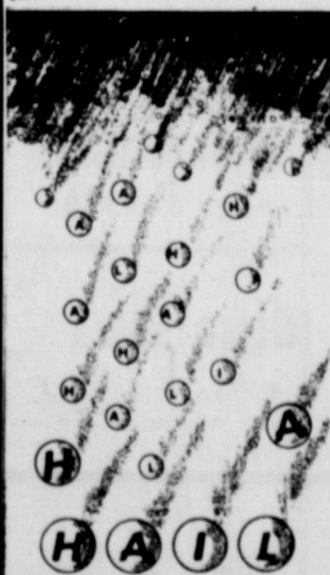

A roll-over bar, sometimes called a protective frame, can be designed to serve as a crush-resistant bar to provide operator comfort. But its primary purpose is to protect the operator from serious injury in the event the tractor tips.

"Many a capsized tractor was prevented from tipping more than 90 degrees because a roll bar was there to stop it and many a tractor operator was spared serious injury because he was strapped into the tractor seat when a roll bar bore the weight and bulk of a tractor that reared and fell over backwards," explains the engineer.

Safety specialists estimate the yearly toll of 600 lives lost to tractor overturns could be reduced by some 450 just through the use of roll bars.

Local Students Receive Recognition

LEVELLAND (Special) The annual Awards Day Program was held at South Plains College Monday, April 27. Awards were given to the students who achieved academic excellence in a particular department of the college or in a program within a department during the year. The faculty of the respective departments chose the recipients.

Jerry Townsend of Earth was among those receiving special awards in the Agriculture Department. Lynda Packard of Springlake was among the ten students from South Plains College who demonstrated high academic performance but who had no connection with a particular department of the college.

May Is Senior Citizen Month In Texas

COLLEGE STATION---May celebrates Senior Citizens Month in Texas and the rest of the country... for the eighth time. Presidents Kennedy, Johnson and Nixon have issued proclamations each year since 1963 honoring those people 65 years and older.

The movement actually began in 1953 when New York celebrated May as Senior Citizens Month.

When the movement to select a month for senior citizens began to shape up in the early 1950's those first leaders were impressed with trends in longevity and the increasing life span. They believed that a senior citizens month observed nationally would emphasize this new fact; older persons would be recognized for their judgment, skills, experience and wisdom; outstanding service by senior citizens could be recognized; it was very important to begin early in life to prepare for the senior years and that such a celebration could tend to discourage or counteract the tendency to segregate older persons as a group apart.

Most people credit a Fort Worth woman, Mrs. Anna C. Leahy who was director (in 1956) of Senior Citizens of America, as the one person who so diligently pursued the idea. She is credited, also, with persuading President Kennedy to sign the first proclamation.

In 1959 thirty-nine state heads proclaimed May as Senior Citizens Month and nationwide observance was sponsored by the Senior Citizens of America. By 1960 forty-eight states participated in the observance.

Finally in 1963 the hope for recognition of older Americans came with the first presidential proclamation.

This year 207 Texas county committees on aging will proclaim May as Senior Citizens Month and hold suitable affairs in honor of it.

Following the early pattern for celebration, states, counties, and communities were and still are urged to implement special programs, activities and events to honor senior citizens. "In Texas we use two special activities more than others; the proclamation and the selection of outstanding senior citizens of the county or community," according to

Minnie Bell, Extension specialist for aging at Texas A & M University. The Texas Agricultural Extension Service works with the Governor's Committee on Aging to implement activities for Senior Citizens on the county level.

Some of the other aims dealt with unifying agencies and groups working on needs and problems of the aging; to help familiarize senior citizens with services from government, private and educational institu-

Census Survey Will Measure Dual Job Holding

Information on the number of persons holding more than one job and the total of hours worked at each job will be collected during a survey to be conducted in this area during the week of May 17, according to Walter A. Freeman, Jr., Director of the regional office of the Bureau of the Census in Denver.

Local interviews will be part of a nationwide effort to measure dual job holding in the U. S. They will be conducted in conjunction with the Bureau's monthly survey of employment and unemployment. Employment statistics are gathered monthly by the Bureau for the U. S. Department of Labor's Bureau of Labor Statistics to provide a continuing

measure of the economic health of the Nation. Households to be interviewed here are part of a scientifically designed sample of the U. S. population.

Although some of the questions to be asked are similar to those asked in the 10-year census taken as of April 1, Census officials say the monthly survey is essential to provide a continuing picture of current trends.

Facts about individuals collected in the survey are held confidential by law; the results can be published only as statistical totals. Interviewer who will visit households in this area is Mrs. Rosemary McNeese of Amherst.

Shall we go on?

Stand firm, and see the salvation of the Lord.

When we tend to worry and be impatient, let's not forget to place our confidence in God, and seek His divine intervention to work things out. Sometimes we try very hard to change things in our lives. We may even try to change the people around us and feel frustrated and unhappy when our efforts fail. We find freedom from impatience, worry and anxiety by letting God work in us and through us.
