

# D. H. Koeninger Elected County TSTA President

D. H. Koeninger, principal of the Springlake - Earth High School, was elected president of the Lamb County Texas State Teachers Association at the organization's stated meeting Monday evening in Sudan.

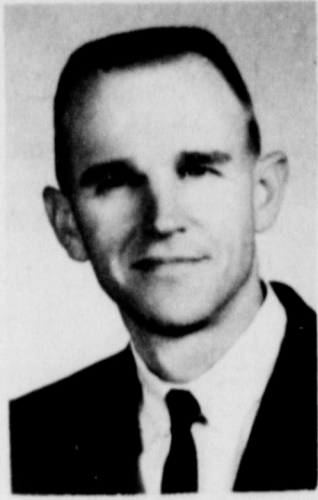

Koeninger served the County organization as vice-president in 1968 and has been a member of the TSTA since 1949.

Other officers elected at the meeting were: Leon Burck of Spade, first vice-president; Mary Patterson of Sudan, second vice-president; Mrs. Cherrinell Abbott, Amherst, secretary; Ann Pullig, Littlefield, treasurer; and Wandie Hutson, Olton, member at large.

Delegates to the state convention in October will be Koeninger, Ana Mary Ortega, Spade and J. D. Nelson, Amherst. Alternates will be Tommy Bralley, Littlefield; Carmelita Barnett, Olton; and Bernard Wilson.

Prior to the nominating committee's report by J. D. Nelson, Koeninger introduced the evening speaker, Roy Bass of Lubbock.

Bass, attorney at law, spoke of the TSTA membership on Professional Excellence. Even though he was not an educator, Bass stated he felt very close to education; having two sons at Baylor University and a son at Monterey High School. He is a trustee at Baylor and was asked to teach

D. H. KOENINGER

business law and government at Texas Tech.

In speaking on "Why a Profession," Bass stated that professional excellence in one's chosen vocation should go hand in hand with spiritual excellence. As a Christian, one had an obligation to fulfill his talents.

Improvement comes from one always attempting to improve, he continued. Spirit, enthusiasm, creative ideas are the spark of life in a profession.

## ★★★★★★★★★★ NOSIN... ★★★★★★★★★★ With Polly

Right in the middle of a time when small towns in West Texas seem to be dropping off population, Earth seems to be gaining, slowly, according to members of the City Council.

They summarized we had gained at least 50 or 60 people during the past months. Seems there are those leaving but there are others moving here, too.

Earth has potential for growth. What other place in Texas can boast of more fertile soil, abundant water, etc.

There is currently a move to locate a livestock feeding pen in the vicinity of Earth. If this can be accomplished it may well be the beginning of industry to sustain the continued growth of Earth and the vicinity.

Frona began her tremendous expansion and growth after locating the Biggest Livestock Feeding plant in the country near Frona. It wasn't long until the Missouri Beef Packers, Inc., was located there as well as a Feed Manufacturing Plant.

These three industries are closely related in that each needs the other to reach their potential capacity.

This seems to be the ideal type of farm related industry for a farming country.

We understand there are other industries interested in locating on the Plains, and since railroads are fast becoming a thing of the past, we wonder how much longer Earth's first and foremost excuse, "we don't have a railroad," will hold water even to the negative population, for failure to try for industry in this area.

### "NOSIN"

An irate employee went to the paymaster's window at the plant and laid down his pay envelope. Carefully counting out the money, he looked the paymaster in the eye and said, "One dollar short."

The paymaster picked up the envelope and turned to a record sheet to check the amount due. Smiling broadly, he came back to the window. "Last week we overpaid you a dollar," he explained. "You didn't complain about that."

"An occasional mistake I can overlook," replied the angry employee, "but not two in a row."

### "NOSIN"

And Remember... The Hong Kong flu is an American, take something from the U. S. A.

IF COUNTRY FOLKS CALL IT AN OUTHOUSE DO CITY FOLKS CALL IT AN "IN" HOUSE?

## ★★★★★★★★★★ Jr Livestock Show Slated ★★★★★★★★★★

The annual Springlake-Earth Junior Livestock Show is scheduled for February 13, 14 and 15 at the Agricultural Barn in Earth.

The show is sponsored jointly by the local chapters of the Future Farmers of America and the 4-H Club.

The Board of Directors for the show are: John Bridges, president; Gene Templeton, vice-president; Tommy Alair, and Kenneth Hinson, secretary-treasurer; Weldon Barton, Doug Walden, Bud Matlock and J. D. Phipps.

Superintendent of the swine division will be J. D. Phipps, assisted by Carl Jones, Bob Phipps and Tracy Angeley. In the lamb division will be Orval Clevenger, Thurman Lewis and Bud Matlock. In charge of beef cattle will be Kenneth Hinson, Gene Templeton, Weldon Barton and Doug Walden.

Eddie Hayden will serve as chairman of the sales committee. County agent is Buddy Logsdon, and assistant county agent is Sam Kirkendal.

Weigh-ins will begin Thursday, February 13 with owners being eligible for one re-weigh. Showing of lambs begins Thursday afternoon, February 14. Friday morning hogs and steers will be shown. Judging is scheduled to begin at 10:30 p. m. Friday with the sale slated at 1:30 p. m. Saturday.

Awards of plaques, trophies and ribbons will be presented at the show.

### Bookmobile Schedule

According to Lorene Sooter, Bookmobile Librarian the High Plains Bookmobile will be in the area on the following dates.

Thursday, February 6, Springlake I-11:00-11:45 Springlake II-12:00-1:00 Earth-1:15-3:45

Friday, February 7, Pleasant Valley-10:00-11:00

## Local Seniors Honored At Annual Luncheon

Forty-eight Springlake-Earth High School Seniors were honored Wednesday with a noon luncheon at the Earth Community Building. The ladies of the local Church of Christ sponsored the annual affair.

Special guests were Senior Class sponsors M. J. Cecil Slover and Bill Anderson, Mr. and Mrs. Bill Mann and Wilburn Dennis, pastor of the Church of Christ.

Bill Mann gave the Invocation and Welcome and Ricky Byers, senior class president gave the Response.

Following a delicious fried chicken dinner, Mr. Dennis spoke to the seniors on Preparing for Today, and Living a day at a time.

The head table was covered with a large circle of taffeta overlaid with red net and centered with a tall white tiered styrofoam base covered with red hearts, cupids and red sequined birds.

In the background was a large taffeta heart surrounded by red ruffled tulle and bearing the letters "Seniors '69". The heart was flanked by two large red felt cupids.

The banquet tables were laid with white and centered with red flowers and white table arrangement accented with hearts.

## FB Committee Works To Enact Bureau Policies

A six member committee has been named and is charged with the responsibility by Elroy Wisian, County President, with carrying out the policies of Farm Bureau.

Donnie Clayton, chairman of the policy execution committee, said that two proposals which are to be brought before the State Legislature will be worked on very extensively. These are the Governors Committee report on education and elimination of sale tax exemptions. The group ask the following questions: Do you want to lose your schools and pay higher taxes? Do you want to lose your tax exemption on fertilizer, seed, and etc?

They solicit your help by writing or going to Austin to testify before a legislative committee, if interested contact one of the following policy execution committee members, Donnie Clayton-Box 276, Springlake, Jerry Barden-Box 244, Springlake, Dolan Fennell-Box 92, Earth, Jerry Ray-Rt. 1 Sudan, or V. J. Hibratschik-Box 203, Littlefield.

MEMBERS PRESENT at the Policy Execution meeting Thursday night January 30, in the Lamb County Farm Bureau office are from left to right, Jerry Barden, Royce Turner, Dewey Parkey, and Donnie Clayton.

## Council Discusses City's Growth

At the city meeting Monday night council members discussed facts that Earth was showing a slight increase in population.

Water superintendent John Enloe pointed out that according to his figures the city now had 402 water meters running compared to 386 one year ago. This would indicate a population growth of 50 to 60 persons. While other areas in West Texas indicate families are moving away Earth seems to be holding its own and possibly growing.

These thoughts brought about a discussion of ways to continue the city's growth and the possibilities of bringing industry into the area.

The only official action taken by the council at the meeting was to grant permission for the boy scouts to patrol the city streets.

Present for the meeting were: Mayor E. C. Kelley, Aldermen Doug Parish, Eldon Parish, W. G. Bryant, H. S. Hinkman and Bob Belaw. Also present were water superintendent John Enloe, Attorney Andy Stroble, Marshall Alvin Pittman and secretary Flora Masterson.

"The accent of today may be on our youth, but the stress is on the parents."

## Vicki Lowery Named 1969 Homemaker Of Tomorrow

Vickie Lynn Lowery has been named 1969 Betty Crocker Homemaker of Tomorrow for Springlake-Earth School on the basis of her score in a written knowledge and attitude test on homemaking given senior girls here December 3.

Vickie's achievement has made her eligible for state and national scholarships. She will also be awarded a specially designed silver charm from General Mills, sponsor of the Betty Crocker Search for the American Homemaker of Tomorrow.

A state Homemaker of Tomorrow and runner-up will be selected from the winners of the schools in the state. The state winner will receive a \$1,500 college scholarship, and her school will be awarded a complete set of the Encyclopaedia Britannica, Inc. The runner-up will earn a \$500 educational grant.

The Betty Crocker Homemaker of Tomorrow from this state, together with those from all other states and the district of Columbia, each accompanied by a school advisor, will join in an expense paid educational tour of Washington, D. C., and Colonial Williamsburg, Va., next spring.

The national winner-the 1969 All-American Homemaker of Tomorrow-will be announced at an American Table dinner in Williamsburg. The choice will be on the basis of her original test score plus personal observation and interviews during the tour, and her scholarship will be increased to \$5,000. Second, third, and fourth ranking Homemakers of Tomorrow in the nation will have their original scholarship grants increased to \$4,000, \$3,000 and \$2,000, respectively.

This is the 15th year of the Betty Crocker Search, initiated in 1954-55 by General Mills to emphasize the importance of homemaking as a career. More than six million senior girls have participated in the Search program since its inception, and 1,460 winners will have earned scholarships totaling \$1,591,500 at the conclusion of the current program.

The 630,564 girls from 15,116 schools registering for the 1969 Betty Crocker Search established a new record for the program.

## Elementary Students To Receive Measles Vaccine

Elementary students of the Springlake-Earth Schools will receive measles vaccine Friday, according to school nurse Dorothy Wood.

Mr. Morris, field representative of the State Health Department and Mary Miller, Migrant Public Health Nurse will be on hand to assist Mrs. Woods in giving the vaccinations.

Only grades one through five will receive the vaccine.

## Clayton To Speak At Sudan

State Representative Bill Clayton will be guest speaker at a special meeting of the Sudan P. T. O., Saturday, February 8th 7:30 p. m. at the high school auditorium.

Representative Clayton will be discussing the report made by the GOVERNORS COMMITTEE ON EDUCATION, including two items of special interest: SCHOOL CONSOLIDATION AND TAX RE-EVALUATION.

Mrs. Don Ham, P. T. O. President urges all those interested to come and show their concern.

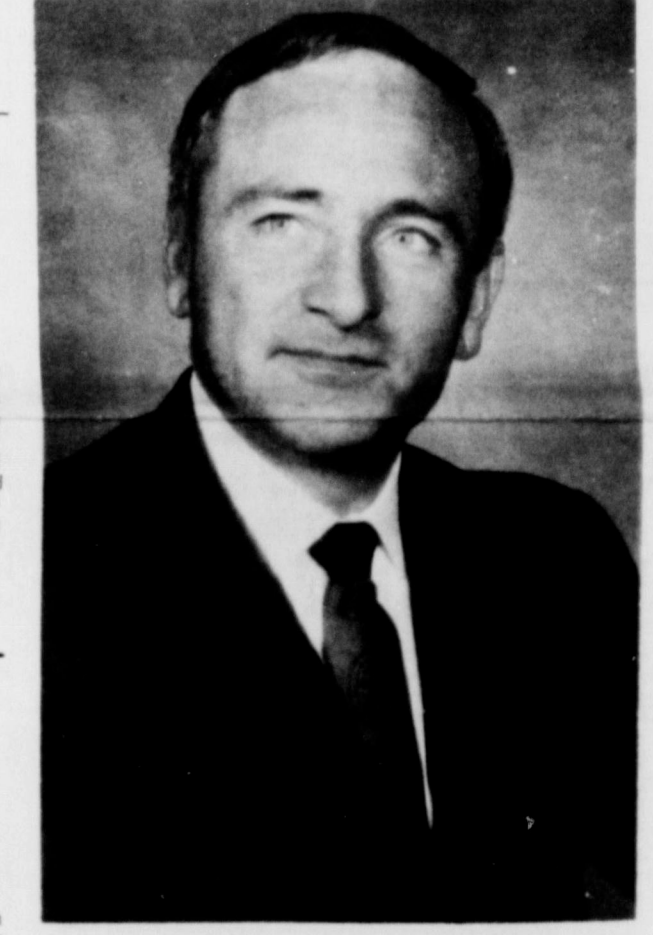

## Clayton Named Chairman On Livestock Committee

Speaker of the Texas House of Representatives, Gus Mutscher, has named the various legislative committees. This completed the organization of the Legislature, and the committees have started public hearings.

Representative Bill Clayton expressed great satisfaction with his committee appointments, and feels they will be beneficial to the West Texas area. Clayton was named as Chairman of the Livestock Committee, and as a member of the following committees: Conservation and Reclamation, State Affairs, Urban Affairs and Elections.

The livestock industry and feedlot development in Texas could be affected by the legislation that will be considered by the Livestock Committee, and places Chairman Clayton in a position to be especially helpful to this area. The appointment to the Conservation and Reclamation Committee will provide an avenue for Clayton to continue his work in water resource development for the State and especially for West Texas.

Clayton also stated that Representative Hinson, of Mineola, and Representative Rayford Price of Palestine, were named Chairman of the Public Education Committee and State Affairs Committee, respectively. These are the Committees that probably will consider the report of the Governor's Committee on Education. Clayton noted that these two assignments are of particular interest because both of these members come from an area of the State where the recommendations regarding consolidation and taxes, as suggested by the Governor's committee, would be harmful to their area, and consequently they will probably oppose the Committee's report in its present form. Clayton emphasized his opposition to the proposed consolidation and tax measures for our schools. He stated that he has received lots of mail opposing the consolidation of schools and only one letter supporting the measure.

REPRESENTATIVE BILL CLAYTON

## Local Church To Host Associational GA Council

Approximately 125 persons are expected to attend the Llanos Altos Associational GA Council slated for 2:30 p. m., Saturday February 8 at the First Baptist Church in Earth.

Theme for the meeting will be "Christ, Only Hope for Joy and Peace."

The program, "Good news by Hi-Fys" will be presented by Mrs. Elizabeth Nelson of Littlefield.

Mrs. Virginia Self of Hereford is the Associational GA Director and will conduct the meeting.

## Four Bring Home Honors From Stock Show

Four area residents brought home honors from the Ft. Worth Fat Stock Show last weekend.

Eddie Sam Jones and Craig Barton members of the local FFA Chapter entered the swine division of the Junior Livestock Show. Jones placed first with a heavyweight Hampshire barrow, and Barton placed second with a crossbred barrow and third with a Duroc.

Jones is the son of Mr. and Mrs. Carl B. Jones of Springlake, and Barton is the son of Mr. and Mrs. Weldon Barton of Earth.

In the Open Show Bob Phipps placed a first and second with a middle weight Poland China and a second place with his heavyweight Poland China.

Tracy Angeley placed first and fifth with his lightweight Hampshire; fourth in the middle weight division and fifth in the heavyweight.

Frank Jackson spoke to the Explorer Scouts at their Monday evening meeting at the Pioneer Natural Gas building in Earth.

Jackson taught the Morse Code to the scouts begin work for an Amateur Radio license.

It was announced that the troop would attend church Sunday at the First United Methodist Church in observance of Scout Sunday.

Twelve members were present.

You sometimes hear politicians refer to the have's and have-not's. What they overlook is that these categories often parallel the did's and did-not's.—James H. Russell, The Belton (Tex.) Journal.

48 SENIORS ENJOY food, fellowship, and an inspirational program Wednesday as guests of members of the Church of Christ. Mr. W. P. Dennis was guest speaker of the event.

## Principal Announces Honor Students For Third Six Weeks

Cecil Slover, principal of Springlake-Earth Junior High School has announced the names of those students qualifying for the third six weeks A and B Honor rolls.

Eighteen seventh grade students were named to the A and B Honor Rolls. Named to the A Honor Roll were: Jimmy Coker, Pat Cleavinger, Debbie Green, Sherry Lowery, Gay Ellis, David Wheat, Scott Lee and Charles Winder.

On the B Honor Roll were: Hal Wood, Effie Crocker, Brian Brittriglis, Mariane Messer, Sammy Parish, Brad Haley, Becky

Pittman and Evan Hamilton.

Three-eighth grades qualified for the A Honor Roll. They were: Darla Dear, Doug Freeman and Idenia Salas.

Eighth graders on the B Honor Roll were: Erigit Johnson, James Cantrell, Maria Almaguer, Brenda Miller, Tracy Lee, Lesa Morgan, Paige Gaston, Juanita De Leon, Kim Welch, Brian Sanderson, Gail Wages, Shelley Gaston, Earlene Walker, Barbara Buckner, Vicki Wislan, Renee Jones, Jesse Castillo, and Guy Davis.

## Businessmen Predict Increased Business

Improvement in business is firmly predicted by nation's businessmen despite all the political and economic uncertainties. As a group, the 1,554 corporate executives interviewed in the latest quarterly Dun & Bradstreet survey have regained much of the ebullience they showed in the spring of 1968.

Confidence shows up most tangibly in the Profits Optimism Index (the percentage of businessmen expecting year-to-year gains in earnings minus the percentage expecting declines). For first quarter 1969, the index shows an impressive rise of nine points, which nearly offsets its eleven-point slide to a five-year low in the previous

quarterly survey. On the sales front, the business executives are obviously cheered by the continued high rate of consumer spending. Thus the Sales Optimism Index has staged its own partial recovery after the previous quarter's dip, climbing to within one point of the peak it reached in the spring of 1968. Across the board, fewer firms than in September now look for a decline in sales, while three out of four count on an increase. (The exception: the retailers, facing comparisons with their record first quarter in 1968, are less confident about further gains at the cash register than they were three months ago (79% versus 81%).

## Services For Mrs. Stinson

Mrs. Ella Bell Stinson, 64, a former resident of Springlake and longtime Lamb County resident, died Friday, January 31 at 9 p. m. in North West Texas Hospital in Amarillo. She had been a resident of Golden Mead Convalescent Home in Amarillo since last May, and was admitted to the hospital last Wednesday.

Services for Mrs. Stinson were held at 3 p. m. Sunday in Hamiltons Funeral Home Chapel, Rev. Glenn Willison, pastor of First Baptist Church at Amberst conducted the services. Interment was in the Littlefield Cemetery.

Surviving are one daughter, Mrs. Viola Jones of Littlefield; two sons, Earl George Stinson of Phoenix, Ariz. and Edward L. Stinson of Sweetwater, two sisters, Mrs. Anna Merle Smith and Mrs. Imo Langdon, both of Glen Rose, two brothers, Garland Osborn of Alberta, Canada and Marvin Osborn of Glen Rose and 10 grandchildren.

"The reason so many Congressmen are anxious to be re-elected is that they'd hate to try to make a living under the laws they passed."—Duane C. Griggs, The New London (Iowa) Journal.

### GUARANTEED INCOME IS NOT THE ANSWER

Guaranteeing everybody an adequate income might seem to be the most direct and simple method to end poverty. But it could be the most destructive, according to a Stanford University economist.

Dangers in the various income supplement proposals, such as the Negative Income Tax and the Guaranteed Annual Income, are easily apparent, says Roger A. Freeman, Senior Staff Member of the University's Hoover Institution on War, Revolution, and Peace.

Easy access to public funds, in Freeman's opinion, is economically wasteful and socially destructive. "There is an inherent danger," he says, "in dividing the people into two classes: those who produce and pay taxes and those who are permanently dependent on the public treasury although they could perform useful work."

Freeman says society does owe its members an opportunity to earn a living, and he calls on the nation to maintain adequate incentives to work rather than incentives not to work, as some of the currently proposed income maintenance programs would do.

"If a 4-person family can get from the government without work \$3,335 and a household of different size a proportionate amount—who will take a job paying \$3,500, \$4,000 or \$4,500?" Freeman asks. "Entire occupations would be wiped out . . . a large part of the labor force would immediately retire and most agricultural employment would end. . . The combined impact of demand-push and cost-push inflation and a reduced supply of goods would be overwhelming and the 'noble experiment' would soon collapse of its own weight."

Such considerations, added Freeman, are deemed irrelevant by enthusiasts who hold that human dignity and social justice give everybody an absolute right to an adequate income from the government. But who is "the government" but the people who work and pay taxes. Thus, says Freeman, to give people who prefer leisure to work a claim on the product of those who choose to work, forces the latter group into an involuntary servitude, a new form of slavery.

Incidentally, although you may go hatless in the south, Chicago's health commissioner, Dr. Morgan J. O'Connell, urges men to wear hats in winter weather. It not only reduces the possibility of colds and flu, but avoids drying out natural hair oils.

## Savings Bond Sales Short Of '68 Goal

Total sales of United States Savings Bonds and Freedom Shares in Lamb county during 1968 amounted to \$105,677, according to a report received today from Mr. C. O. Stone, Chairman of the Lamb county Savings Bonds Committee. The 1968 sales goal for the county was \$160,000 and 66 per cent of the goal for '68 was achieved.

Sales in Texas during 1968 -

mounted to \$177,371,504, an increase of 6.7 per cent over sales during 1967. During the month of December sales totaled \$13,070,587 compared to \$12,353,888 during 1967.

Nationally, the sale of E and H Savings Bonds and Freedom Shares during 1968 amounted to \$4,972 Million which is 90 per cent of the National goal of \$5,500 Million.

## Taxpayers Offered Refund In Savings Bonds

C. O. Stone, U. S. Savings Bonds Chairman for Lamb County today reminded taxpayers that the Department of the Treasury will again offer them the opportunity of taking income tax refunds in U. S. Savings Bonds.

"When a taxpayer elects to take his refund in Series E Bonds," Mr. Stone said, "his money goes to work immediately on two jobs. It begins to build his financial security. At the same time, it contributes to our Country's economic strength. This way you can join millions of Americans who are investing in the Country's future."

"When you check the Savings

Bond line on your 1968 tax form," Mr. Stone continued, "you automatically assure yourself of two advantages: You provide yourself with an easy method of holding on to your tax refund dollars and a sure way of making it grow one-third larger at maturity. When your mark is made, the rest is automatic. For example, if you're entitled to a refund of \$42, you'll get a \$50 face-value Series E Bond (cost \$37.50), plus a check for \$4.50."

Mr. Stone said, "choosing Bonds is the surest way I know of to make your tax refund really mean something to you."

## Band Concert Tonight

The Springlake-Earth High School will present the Wolverine Band in concert tonight in the School Auditorium.

The concert is scheduled to begin at 7:30 p. m.

The Band will open with "Ojo De Aguila" a Spanish concert March written by Abernathy Band Director Everett Maxwell, followed by "Incidental Suite" by Claude Smith, "Chorale and Alleluia" by Howard Hanson, and "Elsa's procession to the

Cathedral" from Richard Wagner's musical Drama "Lohengrin."

On the lightside the band will perform Whitecomb's arrangement of "The Shadow Of Your Smile" from the "Sandpiper" and Paul Yoder's overture of Walt Disney's "The One and Only, Genuine, Original Family Band."

The 1968 first division marching film will also be shown. Admission is free.

## Haberers Move To Plainview

Mr. and Mrs. Russell Haberer, Leslie and Tisa recently moved to Plainview where Haberer has accepted a position as the Texas Representative McNair Seed Company, of North Carolina.

Haberer was born and raised in Springlake-Earth area and has farmed in this region since returning from the Pacific Theater of World War II.

Leslie, 15, and Tisa, 14, were honor students at the local High School and Junior High and were both active in band and

various other school organizations.

When you see sodium benzoate or benzoate of soda on the label of a package you undoubtedly know that it is a preservative. Did you also know that this chemical not only preserves the color of fruit but the vitamin C as well? Ascorbic acid is, of course, the familiar chemical name of vitamin C.

## More Fertilizer Could Mean Added Dollars

Many people are working complex problems aimed at increasing agricultural production to put more dollars into the farmer's pocket. Yet, in many instances, a relatively simple practice can turn the trick! All the farmer has to add to his present practices is the use of the right amount of the right kind of fertilizer as recommended by a soil test.

This may sound like an over simplification but it bears a lot of truth, according to a survey conducted by personnel of the Extension Soil Testing Laboratory, Texas A&M University Agricultural Research and Extension Center at Lubbock. Included in the survey are the 20 South Plains counties in Extension District 2.

The survey indicates that income for the district could be increased by an astounding \$25.4 million through the use of adequate rates of the right kind of fertilizer. County Agent Buddy Logsdon states that for Lamb County alone the potential increase in farm income from proper fertilization amounts to \$1,628,840. This income is based on the assumption of a two dollar return above each dollar spent on fertilizer.

Plant nutrients that must be stepped up to bring about this increase are primarily nitrogen and phosphorus. For Lamb County 9,868 tons of nitrogen (N) and 4,998 tons of phosphorus (P2O5) were used last year, according to the Texas Fertilizer Control Service. The survey shows a county need for 16,864 tons of nitrogen and 4,960 tons of phosphorus.

Considered in the survey are acreages of the major crops, both irrigated and dryland, and the average fertilizer recommendations for each crop based on county soil test data and research proven fertilizer use practices.

Many farmers are using adequate rates, some are using excessive rates and others are using inadequate rates or no fertilizer at all. Here is where soil testing can be a real money saver and a money maker.

According to the survey, there is an annual need for 1,555 soil tests in Lamb County, assuming one sample every third year from each 80-acre field. For the district as a whole, only about 15 percent of this potential number is presently being tested.

Farmers and fertilizer dealers in Lamb County are urged to come by this office for a look at this survey, says Logsdon. District data is available from the Soil Testing Laboratory.

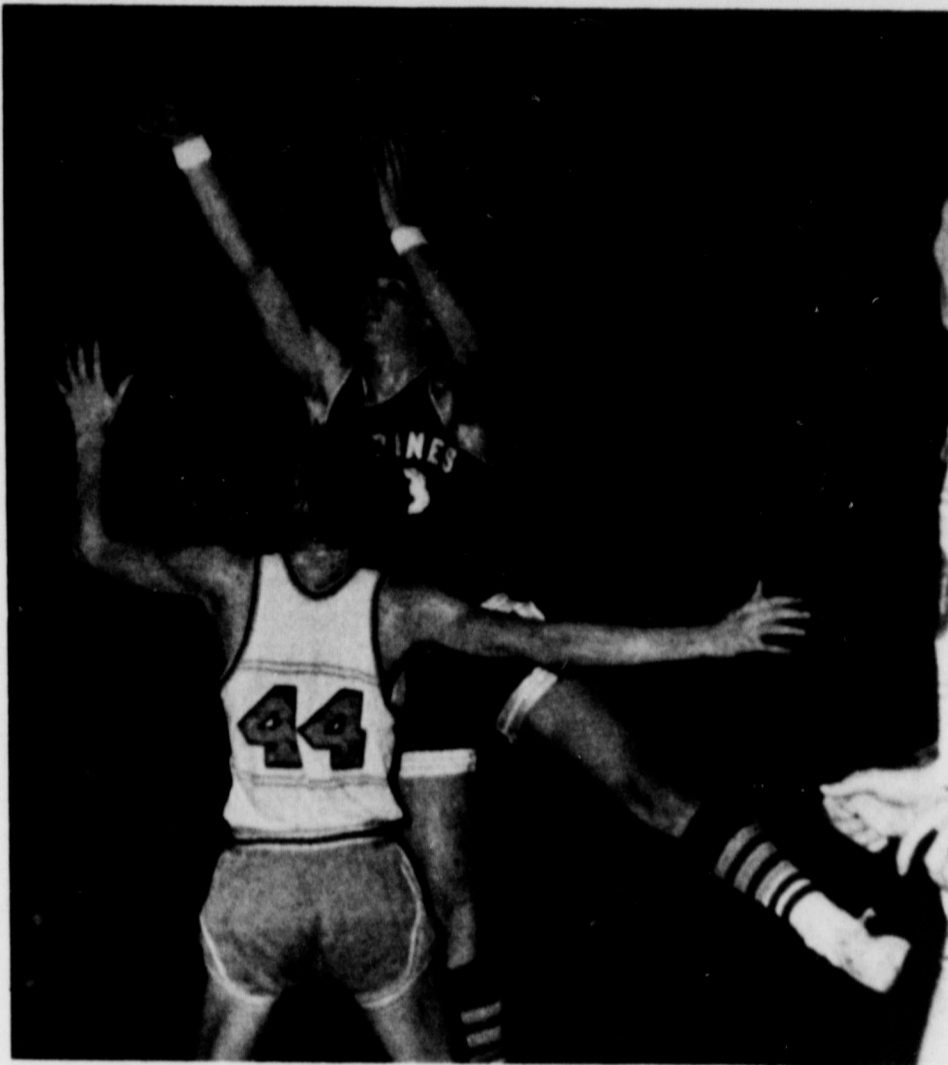

Farmers are encouraged to take soil samples and to submit them as soon as possible to get the jump on the coming crop year. The two dollars invested in each soil test can mean generous dividends when next year's crops are marketed. Information on sampling and mailing is available in this office, Logsdon concludes.

Pray for one another.

—(James 5:16)

In praying for another, our prayer should first of all be a recognition of him as a child of God, a spiritual being. Our prayer should be a prayer of faith that sees him as filled with God's Spirit, as possessing strength and abilities and powers that enable him to meet and overcome his problems. Our prayer for him should be a prayer of thanksgiving.

EDDIE SAM JONES—High point man in the Wolverine-Steer game Tuesday night, sinks a couple as the Steer in front tries to stop him.

## High Plains Center For Performing Arts Organized In Amarillo

The High Plains Center for the Performing Arts was presented to a group of nearly 100 area supporters at a meeting held recently in the Estate Life Building in Amarillo. Eddie Thomas of Dallas, widely known for his portrayal of Calvin Armstrong in the play, TEXAS, made the presentation.

In concept, the Center will serve a two-fold purpose: to provide counselling, training, and performance in all the arts by professionals, open to all regional towns that wish to apply for its services and facilities, and to serve as a headquarters from which programs of training and study as well as performances by professional groups will go out to the region, in support of local projects in the arts.

Present at the meeting was F. Donald Clark, Dean of the College of Fine Arts at the University of Oklahoma, who emphasized the regional value of the Center. "By supporting this project," Clark said, "the region would attract national recognition." He also pointed out that "this is the sort of thing industry is looking for when it seeks to relocate."

Eddie Melin, member of the Texas Fine Arts Commission, also spoke to the group. He said, "We have a need to encourage these things—drama, music, dance, art, writing. We should take the interest, the ability, the talent and the money of the 27 counties of the High Plains and make a cultural per-

adise that the United States can look to."

Offers of buildings to house the project have come from a variety of sources. One, the Estate Life Building on the Canyon Expressway, has sufficient floor-space to provide for future expansion. Built at a cost of \$600,000, it may be purchased for \$250,000.

A 61-member board of directors will provide guidance for the organization. Members are drawn from the area towns for the most part, but there are also members who are nationally known in the arts; Dr. Paul Baker of the Dallas Theatre Center; Norman Nadel, Cultural Arts Editor for the Scripps-Howard Newspapers; Dr. Lyle Hagen, Dean of Speech and Drama at Eastern New Mexico University at Portales; and F. Donald Clark, Dean of the School of Fine Arts at the University of Oklahoma.

According to the articles of incorporation, the Board is still open to expansion. All area citizens are welcome to submit additional names of others who would be interested and active in the organization.

Mrs. Nar Bearden visited Sunday afternoon with Mrs. G. C. Bearden and Mr. and Mrs. J. B. James and family of Olton.

Don't worry if you get kicked from the rear as it simply means you are out in front. —Joe Mann, The Lebanon (Mo.) Rustic Republican.

## Texas Drops To 38th In Nations Average Teachers Salary

Austin--Texas this year dropped from 33rd to 38th among states in the average annual salary earned by its public school teachers, according to a national survey.

Results of the survey, conducted among state departments of education by the National Education Association, were released Tuesday by L. P. Sturgeon, executive secretary of the Texas State Teachers Association.

The Texas figures are official estimates of the Texas Education Agency. Texas' 38th-place ranking is the lowest it has held since the Gilmer-Aikin school program began in 1949. Lowest previous ranking was 34th in 1960-61. Average salary paid Texas classroom teachers during the current (1968-69) school year is estimated at \$6,619. This leaves Texas \$1,289 below the estimated national average of \$7,908.

Texas teachers can earn more in three neighboring states: New Mexico (\$7,133), Louisiana (\$6,875), and Oklahoma (\$6,641).

Sturgeon said: "These figures again remind us that the continuing shortage of trained, qualified teachers in Texas is caused to a great degree by our not-very-competitive ranking on teacher salaries. We need to attract and hold capable public school teachers. One of the first questions they ask in deciding where to teach is, 'How much can I earn?'"

"The NEA statistics indicate that they can expect to earn more in 37 other states than they can in Texas."

### What to Wear

What should a teenage boy know about clothes? How extensive should a basic wardrobe be?

These, and many other questions, have been answered in a booklet prepared by the American Institute of Men's and Boy's Wear, Inc., in cooperation with the Federal Extension Service of the United States Department of Agriculture.

This 24-page guide book has been distributed to schools from coast to coast. The AIMBW, 1290 Avenue of the Americas, New York, New York 10019, offers the booklet free in reasonable quantities.

\*\*\*\*\* SENIORS HONORED ... with Luncheon, Wednesday by friends of the Church of Christ. The event was held in The Community Building. There are 48 members of the Senior Class. \*\*\*\*\*

### Springlake GA's Write Letter To NASA

Members of the Springlake GA's composed a letter to the National Aeronautics and Space Administration at their Wednesday afternoon meeting. The girls were writing the space center in Houston in response to the complaint lodged against NASA by Mrs. O'Hair and wrote that, as Christians they appreciated the reading of the Scripture on the space-ship.

### Pruda Sanders To Receive Degree From Hardin-Simmons

PRUDA KAY SANDERS

Thirty-eight students have completed requirements for graduation from Hardin-Simmons University this January. Their commencement exercises will be held in conjunction with those on May 26, 1969, in Behrens Chapel. Commencement speaker will be former Postmaster General of the United States, W. Marvin Watson. Among the Bachelor of Science candidates is Pruda Kay Sanders, daughter of Mr. and Mrs. Marvin Sanders of near Earth. Pruda, a 1965 graduate of Springlake-Earth High School, majored in Elementary Education and Special Education and minored in Physical Education. While at Hardin-Simmons she was a member of the P.E. Club for four years; Texas State Teachers Association, three years; and the Tri-Phi Social Club for two years, serving as historian last semester. Miss Sanders plans to enroll in Texas Tech next week to begin work on her Masters degree in Elementary education.

### Mid High MYF Has Lesson On Motive

Kent Coker led the Mid-High MYF in a program and discussion on personal motives at the Sunday evening meeting at the First United Methodist Church. The program was entitled "Where Do I Get My Cues" and dealt with teen's motives for participating in sports, band and other school activities. The group discussed whether they participated in a particular activity because of influential friends or because they were genuinely interested in the activity itself. Twelve members were present.

### Americans, The Beautiful!

The experts are finding out what every woman already knows: The cost of beauty runs high. How high? According to Drug Trade News, (men as well as women) spent a whopping \$5 billion for each beauty aids as lipstick (\$217 million); face powder (\$55 million); cleansing creams; powder puffs, eye makeup and face lotions (\$830 million); hair products (\$1.3 billion); hand products (\$186 million); and toiletries such as perfumes, bath salts, and deodorants (\$1.7 billion). Oral hygiene products and shaving products came to almost \$1.5 billion. For just how much sums like \$5 billion can buy: In fiscal 1966 such federal agencies as the Office of Economic Opportunity spent less than \$1.5 billion; the Housing and Urban Development Department about \$772 million. The Health, Education, and Welfare Department spent about \$7 billion for its many vital programs.

### Science - Friend or Foe Subject Of MYF Meeting

Members of the Senior High MYF met Sunday evening at the First United Methodist Church in Earth for a program entitled "Science-Friend or Foe." The program was led by Galen Book and concerned itself with whether science was putting too many persons out of jobs. Following a discussion the group decided that science was necessary in life but that it should be controlled. Ten members were present.

### Mrs. Riggs New Girl Scout Neighborhood Chairman

Mrs. Dale Riggs, Barbara, assumed her new duties recently as Girl Scout and Brownie Neighborhood Chairman for Springlake and Earth. As Neighborhood Chairman Mrs. Riggs will coordinate the local activities of the two Girl Scout and three Brownie troops in the area. She will call meetings of the troop leaders and act as a go-between for them and the council office in Lubbock.

Mrs. Riggs was appointed to her post by the neighborhood committee composed of Mrs. Joyce Kemper, troop organizer, Mrs. Agnis Lewis, troop counselor and Mrs. Mary Kate Below, district chairman.

She and her husband, Dale, have three children, Sheryl who is a Brownie; and two boys Derrel and Mike. Mr. Riggs is the advisor for the Explorer Scouts.

### \$6,000 Scholarship Grants Offered By Texas PTA

AUSTIN--(Spl.)--Scholarship grants totaling \$6,000 will be offered in 1969 by the Texas PTA in the association's continuing program to encourage summer study for career teachers, Mr. R.H. McKay, state president, has announced.

Fifteen teachers will each receive a scholarship grant of \$400 for study next summer in a college or university of the teacher's choice. Mr. McKay said, "Recipients will agree to take a minimum of six semester hours, and study must be in a field to improve the applicant's teaching proficiency. Recipients also will agree to teach in Texas the following year or repay the amount of the grant. In 1968 fourteen \$400 summer scholarship grants were sought by more than 500 applicants. The growth of the state PTA's Endowment Fund, principal source of funds for the program, has made possible an additional grant this year. "It is our hope that the teachers, administrators, and school boards of Texas will take this as tangible evidence of PTA's desire to cooperate for the benefit of Texas students," Mr. McKay said.

Any Texas teacher with at least three years' teaching experience in the state and who currently is teaching in a school with a local PTA in good standing with the Texas PTA and who is a member of a PTA in good standing is eligible for consideration. Previous grant recipients, as well as members of the immediate families of the PTA State Board of Managers, the State Office Staff, and the Board of Trustees of the Endowment Fund, are ineligible. Teachers may obtain grant application blanks by writing prior to March 1 to Scholarship Committee, Texas PTA, P.O. Box 2197, Austin 78767. Completed applications must be received at the same address by March 31.

Each application may be accompanied by letters of recommendation from the teacher's immediate supervisors, but the cover letter must be from a school district official within the applicant's district.

## Do We Have A Rural Hero?

Texas is looking for a rural hero!

This person will receive the Texas Farm and Ranch Safety Council's Rural Heroism Award during the Texas Safety Association meeting, March 31, in Houston. The award is presented annually to a deserving person, living in a rural community of 2,500 or less, who has risked personal life or injury in performing a heroic act.

While it specifically honors one individual for exceptional bravery at a time of crisis or disaster, the safety program points up this highly important objective; the continuing need for improved safety conditions in our rural areas--at work, at home and at play.

The award may go to a person credited with pulling another from a flaming building, saving a drowning person or any other such feat of heroism. Anyone knowing of the performance of such an act during the past twelve months is urged to submit a nomination for this important award.

Nominations should include a narrative of the heroic incident, giving complete details. It should include the names of all persons involved, and should be accompanied by clippings and pictures if they are available. The award recipient will be chosen by a panel of judges, based on the material submitted by the nominee.

Deadline for entries is March 1. They should be mailed to: Rural Heroism Awards Committee, Texas Farm Ranch and Safety Council, P.O. Box 489, Waco, Texas 76703.

GET YOUR HANDOUT OF MY FACE--Says Marsha as she scores two more points against the Farwell guards. Marsha scored 21 of the Wolverettes 59 points.

## SPCLivestockJudging Team In Fort Worth

LEVELLAND (Special) The South Plains College Livestock Judging Team left Thursday, January 30, to compete in the Intercollegiate Judging Contest at Fort Worth. The team is composed of James Lee C. Laway, a sophomore from Bovina; Larry Glascock, a sophomore from Earth; and Carl Jones, a sophomore from Ft. Sumner, New Mexico. Larry Christenson, a sophomore from Melrose, New Mexico, is the 1st alternate and Jim Jenkins, Agricultural Instructor, is the coach.

South Plains was one of 22 colleges entered in the contest. Teams from Arkansas, Colorado, Mississippi, Missouri, Oklahoma, and Texas competed for honors and awards at Fort Worth, proclaimed to be one of the finest stock shows in the nation. The boys comprising the Judging team at South Plains are selected on their proficiency and skill in judging and evaluating the four major species of livestock: cattle, swine, sheep, and horses. Each boy must also be willing to devote a vast amount of time and effort with their coach in the evaluation of different classes of livestock to qualify for the team.

Kindness is the language which the deaf can hear and the blind can see. — Madge Sheline, Hessville-Woodmar (Ind.) Life.

## Experiment Station Releases Corn Hybrids

COLLEGE STATION -- Three new yellow hybrid corn varieties have been developed in the corn improvement program of the Texas Agricultural Experiment Station. Texas 42SX, a special cross corn hybrid; Texas 30A, an improved Texas 30; and TAM Dwarf 1, a dwarf corn hybrid, were developed in the corn breeding programs at College Station and Temple.

Texas 42SX is being released to fulfill a demand for a more uniform and higher yielding hybrid. It will be only slightly more variable than a single cross but not nearly so variable as the double-cross hybrids presently grown. It is a high yielding hybrid with medium large ears, a red cob and desirable kernel or grain characteristics. This hybrid possesses a high degree of resistance to downy mildew and is highly tolerant to the Maize Dwarf Mosaic virus. The variety has as good a shelling percentage and is as prolific as the other Texas hybrids. It is particularly adapted to the Blackland Prairie and for production under irrigation. Because of its resistance to downy mildew and MDM virus, Texas 42SX should be grown in areas where these diseases are prevalent. The corn should also be an excellent hybrid for silage production.

Texas 30A is a high-yielding, yellow, double-cross hybrid adapted to the Lower Rio Grande Valley, Gulf Coast, Blackland Prairie and the East Texas Timberlands. It produces large ears with large yellow dent-type grain, and will segregate for pink and white cobs. The hybrid is superior to Texas 30 in yield, standability, prolificacy and resistance to diseases. It is more resistant to ear rots than Texas 30, and has a slightly higher shelling percentage.

TAM Dwarf 1 is the first dwarf-type corn hybrid released by the Experiment Station. It has medium length ears with desirable grain and ear characteristics, and will segregate for pink and

## Scientist Speaks On Mesquito Control

DALLAS, -Due to widespread interest and support of West Texas ranchmen, livestock producers and chemical companies, it is possible to expand the research program on the control of mesquite and associated species.

This point was brought out by C. E. Fisher, superintendent of Texas A&M University's Agricultural Research and Extension Center at Lubbock, in a talk presented before the Southern Weed Conference, January 21-23, here.

Fisher said the overall program includes two major objectives: (1) the development of more effective and economical factors that influence the control of brush, and (2) to determine the economic benefits that may be derived from the control of brush by use of different methods and combinations of methods.

The first may include chemical, mechanical, biological, morphological, and ecological factors. A major portion of these studies will be conducted in greenhouses, laboratories, and small control plots at Spur and Lubbock, in cooperation with the Department of Range Science and the Agricultural Research Service at College Station.

These evaluation studies will be interested ranchmen at six to eight satellite locations. They will be representative of the major types of brush, plant cover, soils, rainfall, and potential productivity of the land in West Texas.

Government-owned utilities sell electricity below "cost" to 20 per cent of Americans at the expense of 80 per cent, according to investor-owned power companies. Private utility customers will continue to bear this burden until public power is placed on an equal basis.

Motorists who put extra weight in the trunk of their car for winter driving do more harm than good, point out automotive experts at Sears Roebuck and Co. Extra weight disturbs the over-all stability of a car and tends to lift the front end off the road surface.

Selective breeding of pigs is resulting in bigger, leaner loins and hams.

Comparable treated and untreated pastures that will accommodate at least 20 animal units will be fenced. Records will be maintained on gains of livestock, labor required in handling livestock, supplemental feed used, and cost of maintaining brush under economic control, said Fisher.

THIS SPECIAL PRICE INCLUDES

105 hp  
**FORD 8000**

**SPECIAL Introductory Price \$7600**

1. CALCIUM CHLORIDE PLUS 1490 POUNDS OF WEIGHT WITH WIDE FRONT AXLE.....
2. ETHER STARTING KIT
3. FOOT ACCELERATOR
4. 7.50-18 6 Ply Front Tires
5. 18, 4-34 6 Ply Rear Tires

The hour-stretcher. Rugged Ford 8000 power fits your big jobs into a shorter day.

You get that kind of workpower in the new 105 hp Ford 8000. Now heavy jobs go up to 55 percent faster than ever before with a Ford. Go easier, too.

Key to it all is the rugged 401 cubic inch Ford 8000 engine—all diesel and all tractor. This big power plant features a massive crankshaft driven by six husky 4.4-inch pistons. This engine has been seven years in development and testing. In the process, Ford engineers beefed up and improved engine features that make 30 to 60 hp Ford tractors favorites with farmers everywhere.

Big 4.4-inch cylinder bore makes room for larger valves. Opposed manifolds permit bigger, straighter intake and exhaust passages. Direct injection combustion chambers, with highly efficient swirl chambers, squeeze the last bit of workpower from every gallon of fuel. Huge bearings and big, strong working parts mean extra long life, extra dependability.

You'll like the results. This Ford 8000 engine breathes deep; gives quicker, smoother response to changing loads. It's one of the most efficient diesels ever in a farm tractor, regardless of size. And it's built to deliver 105 PTO horsepower season after season.

# Wolverines - Wolverettes Top Kangaroos

The Springlake-Earth Wolverines used the overtime period to defeat the Kress Kangaroos here Friday night. Following a see-saw battle throughout regulating play, the Wolverines took command of play and emerged with a 60-54 victory.

The mighty Wolverettes skyrocketed to a 32 to 9 half-time lead and coasted to an easy 60-31 win to remain undefeated in district play.

The Wolverines trailed in scoring until late in the third quarter when they took a 32-29 lead. The Kangaroos retaliated and with less than a minute to play Kress Gary Morgan tied the score at 54 all.

A pressing and rebounding Wolverine team took charge of the overtime period, holding their visitors scoreless.

Perry O'Hair put the hosts ahead with a field goal, then Terry Houehin sank a pair of charity tosses with 42 seconds remaining. Another field goal, this time by Eddie Jones with 30 seconds left, put the game on ice for the Wolverines.

Jones finished the game the leading Springlake-Earth scorer with 15 points, closely followed by Wilburn's 14 and Houehin's 13.

The Wolverettes were led to an easy victory by top scorers Marsha Dawson and Vicki Gregory, scoring 25 and 23 points respectively.

The defending state champions held a 16 to 5 edge at the end of the first period, and then zoomed to a 32 to 9 half-time lead. After establishing a 52-19 third-quarter lead, the second team to over to coast to an expected win.

KENT PARISH-Shown going up for a jump shot, made the two points, but it was all in vain as the Wolverine B's fell short against the Farwell B's 51-64.

# Jr High Basketballers Battle Bovina

The Springlake-Earth Junior High basketball teams battled Bovina Monday night as they played host to the Mustangs on the home court.

The seventh grade girls started off the evening with a 20 to 19 win over their Bovina counterparts. Kim Kelley played a big part in the Wolverettes first victory this season with 10 points from the free throw line and 1 field goal for a 12 point total. Pat Cleavinger shot for 8 points. At the end of the first half the home team led 10-8. The lead was closed in the third quarter, however, when the Mustangs came up to tie the Wolverettes at 14 points. The final quarter was high-spirited as the Wolverettes fought to regain and hold the lead.

The eighth grade girls played a close game with Bovina but came up on the short end of a 16 to 14 final score. Laura Dudley hit for 9 Wolverettes points and Leah Galloway shot for 5.

A half-time score was tied at 5 points proved the defensive quality of the first half. Second half scoring picked-up somewhat with the Wolverettes adding 9 more points to the board while the Mustangs added 11.

David Wheat led the seventh grade boys to an easy 40 to 29 victory over the Bovina seventh grade, scoring 24 points.

The eighth grade boys also claimed a victory Monday night downing the Mustangs with a 49 to 33 score.

Larry Thomas led the Wolverines with 14 points while three of his teammates Nicho Thriana, Billy De Busk and Bobby Jack Angeley scored 8 points each. All ten team members played and seven were in on the scoring.

The scoring by quarters shows a definite Wolverine lead all the way. At the end of the first period the Wolverines led 15 to 8; maintaining their lead the half time score was 27 to 13, and the third quarter, 40 to 22. The Wolverines came through with their best game of the season, and showed good team effort all the way.

The eighth grade teams played in the Friona tourney last weekend but did not fair so well against the AA schools. The boys won one game and lost two while the girls lost two straight.

Returning to district play, the teams travel to Vega Monday night.

# Cub Scouts Elect New Denner

Cub Scouts in den 4 elected a new denner for the month of February at their Monday afternoon meeting. Lloyd Smith who led in the opening ceremony was elected denner. He replaces the January denner Ray Van Banks. Bryan Taylor was elected assistant denner for the month replacing Donnie Weil.

The den discussed the Blue and Gold Banquet slated for February 24 and played "Johnny Mix-Up."

Refreshments of candy bars and bubble gum were served by Lloyd Smith. Others present were: Kent Hinson, Bryan Taylor and Ray Van Banks.

# Wolverettes Remains Undefeated In District

The Springlake-Earth Wolverettes remain undefeated in district play as they swept by Farwell 59 to 33 Friday night.

The Wolverettes lost a difficult 69 to 51 battle to the Steers and they came home with a 3-4 record for district play.

Vicki Gregory and Marsha Dawson gain led the defending state champs to victory 27 and 21 points respectively. The Wolverettes swept to a 12 to 2 lead at the close of the first quarter and continued for an expected 59 to 33 win.

With three men scoring in double figures the Steers still had a tough time bringing in the win. Trailing 28 to 25 at the half, the Wolverettes came back the third period to outscore Farwell and lead, 44 to 42.

The numerous turn-overs in the final period cost the Wolverettes the game, and the hosts iced it down 69 to 51. Friday evening the Wolverines and Wolverettes host-Vega.

The B Team Wolverines were defeated 64 to 51 by the Steers. Barden was high scorer for the Wolverines with 15 points.

The Wolverette B Team swept to a 35-21 victory led by Debbie Marlock who shot for 18 points.

# Noise Plus Alcohol May Damage Inner Ear

Stockholm, Sweden - Beware the combination of excessive noise and alcohol (hazards often encountered in discotheques, among other places). Together, they can seriously damage the inner ear. This warning comes from the Karolinska Institute in Stockholm.

When alcohol content in the blood reaches 0.1 percent the noise level can begin to do its insidious work. Drinkers who work (or play) in noisy surroundings, take heed. Cut down on drink or remove yourself from the cacophony.

Mr. and Mrs. Gene Brown and Dickie visited in Ft. Worth last weekend with Mr. and Mrs. Harold Powell, and attended the Ft. Worth Fat Stock Show and Rodeo.

Mrs. Blanche Ramseur of Brownfield spent a week in Earth with her daughter and family Mr. and Mrs. Bob Belaw.

# GET 20% MORE WORKPOWER PER HOUR FROM YOUR DIESEL TRACTOR

The Algas Powerizer LP-Gas injection system adds LP-Gas vapor to the diesel airstream to boost horsepower up to 20%, yet costs less than half as much as a turbocharger. Saves fuel, reduces oil dilution, extends engine life! Speeds work and reduces farming costs.

Jerry Frerichs, Milford, Ill. says "I've had a Powerizer on my John Deere 4020 nearly 3 years and it increased horsepower by 20%. Performance is excellent."

Powerizer can be installed — without alteration of original equipment — in less than 2 hours. Pre-set at the factory for your tractor model, the system requires no adjustment, can't fail to perform properly. LP-Gas injection begins at 200 rpm above idle, continues through full power, controlled by the original throttle action. Lets you do every job in one higher gear than with diesel alone... adds an extra hour of productivity for every five hours your tractor works.

Tom Montgomery, Princeton, Texas, says "The Powerizer on my 806 International convinced me in just 2 months, I'm adding it to my other tractors and I recommend it to my neighbors."

You can have a Powerizer system installed, complete with fuel tank, for approximately \$285.

This plan available to our customers on a five year lease for only \$99.00. Also pick-up conversions, from Gasoline to LP, on 5 year lease for \$99.00.

## News From Here And There

By Tish Watson

Lazbuddie Boosters Club is sponsoring a volleyball tournament February 24 through March 1. Game entry fees are \$6 and must be paid before the first game. Checks are to be made out to the Boosters Club.

Rev. and Mrs. Johnny Timms are the parents of a son born January 27 in the Friona Community hospital. The baby weighed 8 lbs, 15 oz, and has been named Valdon Wayne Timms. Grandparents are Mr. and Mrs. Aubrey Timms, Sheffield, Texas and Mr. and Mrs. Olen Baird of Hereford. The Rev. Timms is the pastor of the Lazbuddie Baptist Church.

Construction workers have started work on the new education building joining the First Baptist Church according to Rev. Timms.

Congratulations to Sig Kimbrough and Gene Smith, Lazbuddie farmers for being named first and second place winners in the Grain Sorghum Yield Contest sponsored by Northrup King Company.

Mr. and Mrs. Dwan Menefee are in Dallas attending a Gingers meeting. Little Johnny Menefee is a visitor in the home of his uncle and family, the Preston Cargiles while his parents are at Dallas.

Mr. and Mrs. Odis Elder from Hub visited the Don McDonalds Sunday afternoon. Allene Embry from Amarillo visited last weekend with her parents, Mr. and Mrs. Calvin Embry.

Theresa Janette Slayton daughter of Mr. and Mrs. Weldon Slayton Lazbuddie, and Donnie Joe Bently son of Joe M. Bently of Wyle and the late Mrs. Bently exchanged double ring wedding vows in the First Baptist Church, Lazbuddie with the former pastor, Rev. Bill Curtis of Quitaque officiating. The bride is a 1965 graduate of Lazbuddie High School and a graduate of Isbell Powell, Lubbock.

Bently is a graduate of Estancia High School, attended Texas Tech and is presently employed in Lubbock. Mrs. Bently is also employed as a beauty operator at Helens Beauty Shop, Lubbock. The couple went to Albuquerque for their wedding trip.

Birthday Greetings go to: Linda Dell Noland, Maria Salis, Pat Crooks, Lyda and George Siles, Gayla Roberts, Rose Mary Gonzales, Moke Winders, Jean Paul, Glenda Dale, Thomas Ketchum, Jerry Weaver, Sue Windham, LaCinda Crim, Lloyd Bradshaw Dale, Vise, Jerry Danny Roland and Karla Littlefield.

SIGNING HOUSE RULES--Gus F. Mutscher (seated), Speaker of the Texas House of Representatives signed into law January 27 the permanent Rules of Procedure for the 61st session of the House of Representatives. Witnessing the signing ceremony were Rep. Bill Clayton (left) of Springlake, chairman of the Interim Water Study Committee, and Rep. Tommy Shannon of Fort Worth, author of the Rules Resolution.

Mr. and Mrs. R.B. Seaton and Mrs. Neil Eubanks returned Friday from Dallas where they had been at the bedside of their brother-in-law, Earl Prather. Prather is in serious condition in a Dallas hospital with a malignancy of the pancreas.

Frederick Byers, former Lazbuddie music teacher, was a guest of the Charles Gustins Sunday. Byers also taught music in Muleshoe schools. He is presently counselor for the Amherst - Sudan school districts. Byers is a resident of Amherst. Steve and Nancy Young and their two-month-old son, Dilard visited the past weekend with his parents, Mr. and Mrs. J.B. Young, Jr. and other relatives in the area.

### PARTY LINE

Visiting Mr. and Mrs. Leon Foster Monday were their daughter and granddaughter, Mrs. Walter Egan and Cheri Lynn of Lubbock.

Mrs. H. J. Gilmore visited Sunday with her mother, Mrs. Conelia Truelock, a patient at the Amherst Manor.

## Rules Of The House Adopted For Effective Operation During 61st Session

Austin -- January 27 -- AP-- Speaker Gus F. Mutscher affixed his signature to the Rules of the House of Representatives today as the final step in making these rules official for the 61st Legislature. The Rules of the House determine the duties of the officials of the House, the name and number of the Committees, and are the final authority for operation of the House of Representatives.

"These rules represent fourteen weeks of intensified study, research and work by a carefully chosen committee of House Members," said Mutscher. These rules, in my estimation, are the best composite of the Rules of past Legislatures in Texas as well as Rules used by Houses of Representative in 14 other states.

According to the Speaker, the new Rules for the House of Representatives were designed to accomplish four major achievements. They are 1. To strengthen the committee system in the House by the full use of personnel so that a Representative can serve in the fields in which he is most capable. 2. To strengthen the voice of individual members in the legislative process. 3. To provide a healthy atmosphere for the presentation of testimony by the citizens of Texas so that the voice of the people can be given a fair hearing in all instances. 4. To insure orderly and efficient procedures for the legislative processes.

Mutscher explained that these permanent rules were adopted on January 14th so that the House could have a more efficient operation from the first of the session. During past Legislatures, the House has used a temporary set of rules in the beginning, with the permanent rules brought into use at a later date.

The new rules set a total of 45 Standing Committees for the House during the 61st Legislature. Because of the added emphasis on education and the Governor's Committee Report on Public School Education, Mutscher said that there will be two committees to handle legislation which was funneled to the Committee on Education in the past. These Committees are Committee on Higher Education (which will have jurisdiction over legislation concerning the colleges, universities and junior colleges of the State) and the Committee on Public Education (which will have jurisdiction over public schools.)

Another Committee reflects the increased concern and interest of the House of Representatives for youth. It is the Committee on Youth, which will have jurisdiction over legislation concerning the duties and responsibilities of the State toward its youth and the responsibilities of the youth of Texas for the good of the State and the Nation.

Mutscher, known for his hard work on legislative matters, said that a Committee on Interim Activities was being appointed which would determine the Committees to function after the Legislature is adjourned. Mutscher said these Committees would do the research that is vitally needed for objective planning for the future.

## Goodwill Centre OUR BOYS IN SERVICE Clears \$26

Representatives of the Town and Country Study Club reported that the centre cleared \$26 during the regular store hours Saturday.

According to the workers, the centre is still in need of baby and children's clothes.

Working at the centre Saturday were: Mrs. Wayne Rutherford, Mrs. Marie Ross, Mrs. Rural Fanning and Mrs. Jack Hinson.

VIETNAM January 29-Marine Private First Class Mike Fore, husband of Mrs. Francis C. Fore of Hart is serving with the First Battalion, Fourth Marine, Third Marine Division in South Vietnam.

As part of the division's new mobile posture, his battalion has been conducting sweep and clear operations throughout the northernmost tactical zone of the republic.

## Financial Facts

By Nolan Dudley

Early in the history of our country, paper money, known as "continental currency" was in regular use at the time of the American Revolution. This currency decreased in value to such an extent that the saying, "north worth a continental" became a common expression.

Congress adopted the dollar in 1785 as the unit of American money. This was followed in 1792 by the establishing of our monetary system.

The first United States mint was in Philadelphia. There were gold eagles valued at \$10 each, half and quarter eagles, silver dollars, halves, quarters and dimes were stricken off. Half dimes, pennies and half pennies were also minted.

Then followed coins of unusual

denominations such as a three cent piece in 1851 and a twenty cent piece in 1875.
