Ickes Gives Out Good News On Gas Rationing, Added Source Of Rubber

WASHINGTON, July 30 (AP)—Petroleum Coordinator Ickes said today that the oil industry has uncovered capacity for production of 200,000 tons annually of butadiene. Ickes said this would make possible the output of 240,000 to 250,000 tons of synthetic rubber annually over and above presently projected rubber programs.

Rental Ceiling Is Ordered For City

Press dispatches Thursday announced that Big Spring had been included in the list of "defense rental areas," which means establishment of a ceiling on rents. The Associated Press said that the city was one of 26 communities so designated by Price Administrator Leon Henderson.

Hitler's Oil Reserves Said Getting Low

NEW YORK, July 30 (AP)—The German high command already can see the bottom of its oil reserves, the Oil Weekly said today in a summary of axis petroleum resources and supplies. "There can be little doubt that the axis of the west now is gravely concerned over its deficiency of oil," the journal said in a group of articles on the world's petroleum.

Cairo Treated To Axis Bombs

CAIRO, July 30 (AP)—Small forces of axis bombers made widespread pre-dawn attacks on British-United States airbases in the Nile area, behind the quiescent El Alamein front. Bombs fell in Cairo proper and provoked the greatest anti-aircraft barrage ever seen there. Sirens also screamed in the Suez zone and other scattered areas of Egypt.

Plane Hits House, Army Men Killed

HOUSTON, July 30 (AP)—Two army fliers were killed when their plane crashed into a two-story brick house on Riverside Drive today. The house is owned by R. W. Baldwin. Witnesses said the plane, an army trainer, crashed full into the rear part of the large house, crashing through to the ground floor. The fliers' bodies were not removed from the plane immediately and identification was lacking.

Has Just Begun To Fight, Says Alred

HOUSTON, July 30 (AP)—James V. Alred, in a runoff campaign yesterday said "the runoff that wasn't going to be is about to begin." Alred declared, "I want my friends to know that I have just begun to fight." He declared that many persons who supported Dan Moody in the first primary had pledged to aid him in the runoff.

Crash Kills 10 Employees Of Airline

MINNEAPOLIS, July 30 (AP)—Ten Northwest Airlines employees were killed when a U.S. Army cargo transport plane crashed shortly before 8 a. m. today on Wold-Chamberlain field during the take-off. Fire which broke out when the plane crashed so badly burned several of the bodies that identification was not possible. The known dead, announced by Northwest Airlines officials: Kenneth S. Olson, 28, Minneapolis, co-pilot. John F. Fisher, 26, Fremont, O., co-pilot. Leonard O. Larson, Northwest Airlines mechanic. Leo D. Hinesley, Northwest Airlines mechanic. Wilbur C. Rose, Paul F. Parlin and Winston A. Luchau, all Northwest Airlines groomers.

Defense Counsel

Col. Cassius M. Dowell (left) and Col. Kenneth C. Royall (right), who have been defending eight alleged Nazi saboteurs before a military commission, arrive at the supreme court for an appeal. They asked writs of habeas corpus or the grounds Roosevelt's proclamation denying their clients access to the civil courts was unconstitutional.

Solons Not To Take Part In Runoff, Rayburn Asserts

DENISON, July 30 (AP)—Speaker Sam Rayburn of Bonham arriving here this morning by train, said reports that the Texas delegation was returning to take part in the senatorial runoff campaign were incorrect. He explained that the house had finished with its work now and added that he did not know how long he would remain in Texas.

Jap Destroyer Hit By Bombers

GEN. MACARTHUR'S HEADQUARTERS, Australia, July 30 (AP)—Allied bombers hit a Japanese destroyer squarely off Gona Mission, on New Guinea's Papuan peninsula coast, and left the warship wreathed in smoke and scurrying toward shore, apparently for beaching, a headquarters communique announced today. It was the fourth enemy ship accounted for by allied airmen since the Japanese thrust their invasion force down the coast to gain their foothold last Wednesday, some 110 miles from the allied base at Port Moresby on the opposite shore of the Papuan peninsula. In previous attacks three enemy transports were knocked out.

Hannay Appointment Before Committee

WASHINGTON, July 30 (AP)—The senate judiciary committee Monday will consider the nomination of Allen B. Hannay of Houston as a federal judge for the southern district of Texas, Chairman Van Nuys (D-TX) announced. Van Nuys said he had received word that Senator O'Daniel (D-TX) was making an investigation with reference to the nomination and would give the committee a report by Saturday. In Houston, Hannay said he had received a telegram from O'Daniel at Fort Worth, reading: "My office in Washington already has been advised to notify the judiciary committee that I recommend you highly and that your appointment was highly satisfactory to best wishes."

'War Secret' Plants May Bar Organizers, Agents, Court Says

DALLAS, July 30 (AP)—Companies engaged in secret war production may deny access to their plants to union organizers or agents of the national labor relations board under a new federal court ruling. The national labor relations board, Judge T. Whitfield Davidson ruled yesterday, has the right to examine the affairs of a corporation respecting its treatment of labor, but exercise of that right is subordinate to protection of military secrets. He granted a declaratory judgment asked by the American Manufacturing company of Fort Worth which brought court action to determine its rights under military and naval contracts of a secret nature. The defendants were representatives of the national labor relations board and the International Association of Machinists (I.A.M.). "The court realizes, the opinion said, that it has gone further than any court has gone and it may be necessary for a higher court to pass on this question." Giving labor board full authority to collect information outside of the plant pursuant to the Wagner act, the opinion added: "What good will a union card be if an American has to pull a jim-

Cargo Planes Can Be Built, Says Kaiser

WASHINGTON, July 30 (AP)—Henry J. Kaiser advised congress today an order from the government was all the nation's shipbuilders needed to launch them on the construction of giant cargo planes to speed the war effort and break the submarine menace. The heavy-set, bald-topped Oakland, Calif., shipbuilder told a senate defense investigating committee that he was awaiting a signal to convert part of his facilities to cargo plane construction and that the big steel companies would "rise to the occasion" if requested to make similar conversions.

Hopkins' Pilot Gets Two Jap Bombers

CHUNGKING, July 30 (AP)—Major John E. Allison, who flew Harry Hopkins to Moscow last year, scored one of the most spectacular individual performances by the U. S. air force in China today by shooting down two of three Japanese bombers destroyed out of a nine-plane enemy squadron raiding Hengyang, Hunan province. The blond, part-bald squadron leader who comes from Gainesville, Fla., shared honors with Capt. Albert J. Baumber, who accounted for the third enemy raider.

South Withdraws From Runoff And Will Quit Office

COLEMAN, July 30 (AP)—Congressman Charles L. South of Coleman, who had sought reelection, withdrew today from the runoff primary against O. C. Fisher, district attorney at San Angelo. South announced he would resume the practice of law.

Land Measuring Crews Are Short

Land measuring work on Howard county farms was not completed on the previously announced schedule last weekend, due to several workers resigning, the local AAA office has reported. The measuring crews had been operating short handed all season, and since other members have left several more days probably will be required to complete the work.

Court Hears Arguments On Nazis' Rights

WASHINGTON, July 30 (AP)—Argument on the claim of seven of the eight Nazis who came by submarine equipped to blast and burn America's war plants that they have the right of trial in civil courts was resumed at noon today before the supreme court. Eight of the nine justices were present. Justice Douglas, who was absent yesterday because of the long train trip from Oregon, arrived overnight and took his place between Justices Reed and Brandeis. The only member missing was Justice Murphy, who disqualified himself because he is on duty as a lieutenant colonel in the army. Attorney General Biddle resumed his argument in opposition to the petition of the prisoners for a writ which would remove the accused from the custody of the army and place them before the civil courts. All eight of the prisoners have been on trial before a presidentially-appointed panel of seven generals. Biddle was expected to require an hour or more to complete his argument. He will be followed by Colonel Kenneth Royall of the defense staff, who said he might require another hour. There was no formal announcement immediately, but participants in the trial acknowledged that the secret military proceeding, in recess since late Monday, would not be resumed until Friday morning. Defense and prosecution counsel centered their efforts during the morning on preparation for the final hours of arguing the validity of President Roosevelt's proclamation denying civil courts to the eight men and his decree that they be tried by a panel of seven generals.

O'Daniel Aide Takes Blame On Messages

FORT WORTH, July 30 (AP)—D. Roland Potter, secretary to United States Senator O'Daniel, today assumed responsibility for the handling of telegrams sent out from Washington over O'Daniel's name, and said if any were charged to the wrong account it was due to an honest mistake on his part. Potter's statement was made in reply to a Washington dispatch saying an official senate committee was waiting to question O'Daniel in regard to sending at government expense some telegrams that were held not to be government business. As secretary to the senator, Potter said, he was responsible for the handling of telegrams and designating the account to which they were to be charged. "If any telegrams or other items are by mistake improperly charged to the wrong account, they are charged back to the person responsible and there is no violation of law involved, and no violation of ethics," Potter said. The audit and control committee of the senate said O'Daniel would be asked for explanation of a bill "well over \$1,000" for messages sent by the senator. The senate's sergeant-at-arms held that the telegrams did not come within the rules on communications paid for by the government.

Speeders Lose Eligibility For More Tires

Speeders are given a stern warning by the local rationing board that speeding tickets issued against them by either state or local police may cause them to forfeit their eligibility for new tires or retreads. "Abuse of tires by speeding must be stopped," Walter Wilson, chief clerk of the local board said. The local board has been advised by Mark McGee, Texas OPA director, that carbon copies of all speeding tickets issued on the highways by the Texas highway patrol will be forwarded to the local board. The board here is asking city police and county officers in Howard county to extend this same assistance in enforcing what they believe to be a vital war time necessity for conserving rubber. The local board has been requested by the state office to regard speeding as an abuse of tires and as reason for voiding a person's eligibility for new tires or retreads. After such an offense the speeder will have to give the local board conclusive proof that he is observing the 40-mile speed limit imposed by the office of defense transportation before he again can become eligible. OPA and ODT inspectors are beginning to take the license numbers of speeders and these numbers will be sent to the local board.

German Women Aid In Crop Harvest

BERLIN (From German Broadcasts), July 30 (AP)—More than 1,000,000 volunteers, 850,000 of them women, have responded to Reichsmarshal Hermann Wilhelm Goering's appeal for volunteers to help out with this year's harvest. It was announced today. Most of the women are married.

Invaders 80 Miles From Stalingrad

LONDON, July 30 (AP)—Reuters said it had recorded a Vichy broadcast in which the Vichy news agency reported that German forces from the Kerch peninsula landed at dawn today on the Taman peninsula of the Caucasus. By EDDY GILMORE MOSCOW, July 30 (AP)—Reinforced by divisions which the Russians said were drawn from Finland and France, Field Marshal Fedor von Bock's southern front onslaught rolled deeper into the Caucasus south of Rostov today and pressed the Red army back toward the tip of the Don bend within 80 miles of Stalingrad. Premier Joseph Stalin, for whom the big town on the Volga was renamed after the Russian revolution, appealed directly to his army to take inspiration from Russia's greatest military heroes, commanders who defeated the Tartars, beat back the Swedes, the Turks and the Teutonic Knights, and drove Napoleon from Moscow. The communist party newspaper Pravda declared "it is necessary to understand that we cannot retreat." The Russians reported slaughtering back fiercely at new German crossings of the lower Don, and dispatches which told of a stiffening defense indicated that Marshal Semeon Timoshenko was moving reserves into the line. The exact position of the line south of Rostov and the Don delta was not clear, but a communique said the Red army had been forced to withdraw farther in the Bataisk area, 15 miles south of Rostov, where the Germans are driving down the Caucasus rail and oil pipe lines. A tremendous battle was reported in Red Star dispatches from the steppes of the Don bend where tens of thousands of infantry, cavalry and tanks struggled in see-saw, hand-to-hand fighting south of Kletskaya, 80 miles northwest of Stalingrad. (The German high command said its troops had cut the Soviet route of retreat from the Don bend and severed the last important rail link between the Caucasus and the rest of Russia. The communique said the Germans had driven 55 miles south of the Don to Proletarskaya on the railway from Stalingrad to the Tikhoretsk junction with the main Caucasus line.) Invested, the government newspaper said the important river traffic of the Volga continued, and reported the arrival of timber barges at Stalingrad. (The Germans have reported the river traffic under bomber attack. Russian reserves bolstered Marshal Semeon Timoshenko's veterans for the supreme task. Red army men and planes were reported to have struck successfully at Nazi detachments crossing the lower Don in the Taimlyansk area, half way between Rostov and Stalingrad, destroying 700 German officers and men, 17 tanks, 11 guns and 27 machine-guns. But field reports indicated the tide had still to turn in the far-flung fight for the trans-Caucasus, the lower Volga and the western shore of the Caspian sea. The communist party newspaper Pravda declared, however, that Germany was throwing her last resources into the offensive and said "it is necessary to understand that we cannot retreat." "The enemy is not so strong as he appears to some scared panic-mongers," the newspaper said.

German Steel Center Target Of The RAF

LONDON, July 30 (AP)—A strong force of British bombers, striking at Germany for the seventh time in 10 nights, did great damage in a concentrated attack last night on Saarbruecken, German steel manufacturing center near the French border, the air ministry announced today. Nine planes were lost in the assault—the first on Saarbruecken since Nov. 8, 1940—the announcement said. Saarbruecken is a key railway junction as well as an industrial city. Nazi air raiders, meanwhile, attacked widely separated areas in Britain, dropping a few bombs in the greater London area for the first time since June 5 and stalling at several points in the Midlands and East Anglia. One of the main targets in the Midlands was the industrial center of Birmingham where, the ministry of air and home security said, the raiders did some damage and caused some casualties. A small number of casualties, including some fatalities, was reported from other areas. Seven of the German planes were shot down, a communique said. The RAF raids on western Germany were accompanied by a heavy aerial bombardment of the occupied French coast between Boulogne and Calais.

Arkansas Negroes Not To Push Vote

LITTLE ROCK, Ark., July 30 (AP)—Dr. J. M. Robinson, president of the Arkansas Negro Democratic association which organized the fruitless attempt of negroes to participate in Tuesday's statewide democratic preferential primary, said today no effort would be made by association members to vote in the regular primary August 11. "They made their decision and made it stick," Robinson said. "We'll just let things cool off for a while until everybody gets level headed again." He said all information on refusals of ballots to negroes Tuesday would be submitted to Thurgood Marshall of New York City, attorney for the National Association for the Advancement of Colored People.

Tax Savings Plan 'Deserves Study'

WASHINGTON, July 30 (AP)—Secretary of the Treasury Morgenthau said today that a plan of "induced savings" advocated by Senator George (D-Ga.) "is a plan that deserves study." Under George's plan, additional high income taxes would be imposed on individuals, but the special tax money would be invested in government securities and be refunded to the taxpayers with interest after the war. The secretary hastened to add that he did not mean to imply that he was endorsing the George plan, and explained, "Senator George is chairman of the senate finance committee, and anything he has to say about taxes must be considered more seriously than something any other senator might say." Morgenthau recalled that he has been consistently opposed to any of the various schemes of compulsory public savings which he described as "forced loans," but gave other hints that a lag in the war bond sales drive could force a revision in his judgment. In his regular press conference, he said, "I don't think so," in reply to an inquiry as to whether he believed the treasury would meet its announced goal of selling \$2,000,000,000 worth of war bonds this month. In June the treasury failed to meet a \$500,000,000 war bond goal. Morgenthau estimated that July sales would be "about \$900,000,000, which is a tidy sum."

### Poloists Take One Title In Colorado Play

Big Spring's poloists were back from the major wars Thursday and sporting a share of a handsome gold trophy as winner of one of two tournaments staged at Colorado Springs, Colo.

Tuesday morning the locals trounced a Dallas team 12-3, to win the title in the Harvey Lyle roundups, one of the two series staged at the mountain resort. And the Big Springers were runners-up in the Foxhall-Keene tourney, bowing in the final to Wichita, Kan.—a team they defeated in the Harvey Lyle meet.

Making the ten day stand were M. E. Bennett, Rip Smith and Lennie's two Whites, Gus Senior and Junior. The locals played under the Coaden banner.

Riding for the first time in out-of-state competition, the local four gave a good account of themselves in the Foxhall-Keene finale with Wichita, rain halted the game at the half when Big Spring was leading, and Bennett and his team couldn't get going during the slippery final chukkers. They ran up against a better mounted team, the Wichita quartet having enough ponies on hand for each player to have a fresh mount each chukker.

Individual members of the team were awarded silver trophy pieces for winning the Lyle tourney. The title must be won three times before the big gold trophy becomes a permanent possession.

Only 26 cases of smallpox were recorded in Canada in 1941, all but one appearing in the province of Saskatchewan.

First Lieut. Dan Hudson has left Midland for officers school at Miami Beach, Fla., where he will have six weeks training. After this he is due to report to Randolph Field, San Antonio, for assignment to duty at the Midland Army Flying School. Until recently manager of the Scharbauer hotel at Midland and formerly Settles hotel manager here, Hudson received his commission and was sworn in at Midland Saturday.

Mr. and Mrs. Barnett Hinds are now residing in Hollywood, Calif., friends here have learned. He went to work for an aircraft factory two days after they arrived in the Los Angeles area. Hinds, a former teacher at Forams, got his aircraft sheet metal training in the war industry classes here.

For today, reported Director Dan Conley, the senior band rehearsal time has been moved up to 7:30 p. m., approximately an hour earlier than usual. He urged band members to be on hand for the practice session.

Pfc. Albert Fisher, Jr., who is stationed in San Francisco, Calif., has received a promotion to the rank of corporal. Corp. Fisher has been in San Francisco for seven months.

Robert Lester (Bob) Ward, whose application as volunteer officer candidate has been on file with the selective service for little more than a month, will receive orders to report for induction sometime in August, it was reported Thursday. Formerly several months have been required before these applications cleared.

There must have been something in the air Wednesday afternoon and evening. One battle broke out near a downtown hotel. Not long afterwards a man was jelled after neighbors complained about a scarp going on in his place. Then came a brace of places on north-side netted one pugnaciously inclined negro and a deserted bar at another joint.

While it was comparatively quiet, other than this, one man, who complained bitterly about snakes in his boots, etc., entered a plea of not guilty to a charge of having slipped too freely.

Joe Lindsey Butts left Thursday for induction at Lubbock as an aviation cadet. Accepted as an army flying prospect several weeks ago, he has been on furlough since, pending the starting of another class to which he could be assigned.

### No Furloughs For Harvest, Stimson Says

WASHINGTON, July 30 (AP)—Every interference with the rapid and efficient preparation of the armed forces for combat must be halted at once, Secretary Stimson said today in response to appeals for furlough of military personnel during the harvest season.

Exceptions to this policy, he said in a letter to Senator Nye (R-N.D.), were being confined to cases of extreme emergency, and excessive furloughs or leaves would "prejudice the progressive growth of our military power."

"If it should develop that the American people are confronted with a food emergency which cannot be met by the existing surpluses," Stimson added, "the use of military personnel may be considered, but only if all sources of harvest labor have been exhausted and the military personnel is employed as units and not as individuals."

Stimson wrote Nye that his department was being "besieged" with requests for release and furlough of soldiers on various grounds but that American participation in the war had brought a responsibility demanding rigid adherence to the objective of developing, in the shortest possible time, a highly trained military force.

Concluding that Stimson had "missed the point of immediate seriousness" involved in the northwest harvest, Nye asked for a conference with the war secretary.

### Army Needs More Nurses

The army faces an urgent need for nurses, Sgt. Edwin R. Turner, recruiter stationed here, said Thursday.

Those with necessary professional background and who can meet age and other requirements were invited to contact his office for more complete information.

Those going into the regulars must be between the ages of 22-30 years inclusive and the reserves 21-40 years. In both cases they must be single.

Their educational background requires that they be a graduate of high school and of an accredited school of nursing. Professionally they must be members of the Red Cross first reserve and the A.N.A. A strict physical examination is required.

Those who are called will receive \$70 monthly plus maintenance. Except for unusual circumstances work will be for eight hours a day and normally a full month's vacation with pay is a part of the contract. Retirement for disability in line of duty or after 30 years of service also are included in the regulations.

### School Budget Is Being Drafted

Preparations for opening of a new school year are in the intermediate stage, W. C. Blankenship, superintendent, said Thursday.

Tentative drafts of a proposed budget are being drawn up for consideration of the board at its next meeting and plans are being developed for reorganization of the administrative set-up due to a decrease in personnel.

- Readiness To Serve God Discussed By Evangelist: God's people need to stop and locate themselves, said the Rev. I. W. Justice in addressing the Church of the Nazarene revival at 4th and Austin streets Wednesday evening. The question for individuals to answer is "Where art thou when God needs a servant upon whom he can depend at all times? God has the power to make up good, but as free agents, he desires that we serve by choice," said the Rev. Justice. People need to find out if they are doing this, he added. Three were converted at the service.

### Lee Qualifies For War Bond From The Southland Life

DALLAS, July 30—R. E. Lee of Big Spring has qualified for Southland Life Insurance company's annual agency convention this year, according to Vice President and Agency Director Joe Woodward, Southland Life and its entire agency force unanimously decided to forego the convention.

R. E. LEE however, in order to eliminate non-essential use of trains and automobiles. In lieu of the annual trip Mr. Lee is accepting war bonds. A total of one hundred and one \$100 war bonds is being given to similar convention qualifiers throughout the state by the Southland Life Insurance company of Dallas.

### At 79, Ford Has Optimistic View

DETROIT, July 30 (AP)—Henry Ford, who visualizes a world made immune from war through a federation of all his peoples and an intensification of production for human needs and legitimate desires, came to his 79th birthday anniversary today more optimistic than ever regarding the future.

Of the war engulfing most of the nations of the earth Ford spoke rather sparingly. "Like all wars," he said, "that one was precipitated by greed, lust for power and financial gain; it won't end until some sense of sanity has returned to those who believe in armed might for selfish gain."

As alert and agile as many persons half his age, Ford appeared in perfect health. By eating moderately and worrying not at all he has maintained his weight virtually unchanged for many years at around 138 pounds.

### Seven Recruited Here For Army

Seven men have been enlisted through the Big Spring office for the U. S. Army, according to Sgt. Edwin R. Turner, recruiter.

One, Horace N. Holcombe, Big Spring, enlisted for the air corps unassigned.

All others were for the army unassigned and included James N. Turner, Coahoma, Lefty H. Kerber, Big Spring, John L. Brown, Quitman, Lee M. Conway, Big Spring, Clarence C. Rumpff, Big Spring, and Lonnie O. Evans, Big Spring.

### B'Spring Laundry Damaged By Blaze

Fire, the second within a month at the same place, caused small damage at the Big Spring laundry Wednesday at 10 p. m.

Clothing piled at the rear ignited and smoked up the place fairly well, said firemen. Flames were held in check by firemen and did not spread beyond the clothes pile. The garments were near some steam piping and firemen theorized that heat possibly had ignited matches or some similar material.

### Cattlemen Urged To Produce And Sell Promptly

PRESCOTT, Ariz., July 30 (AP)—Cattlemen should "produce all you can and sell as fast as you can," Frank Bolos, president of the American National Live Stock Association, said in an address to Arizona growers last night.

Any beef shortage, Bolos charged, is due to culling prices which he asserted have forced prime beef down and increased the price of poorer grades. Unless there is a change, he predicted a serious shortage of cattle for feeder lots.

### Men For Two Sub Chasers Wanted By Navy From Area

Enough men to equal the crews of two submarine chasers will be the enlistment goal from the Big Spring navy recruiting district each month during August and September, S. L. Cook, recruiter in charge of the sub-station here, said Thursday.

Based on the formula of one man for every 1,000 population, Cook said that the goal would be 120 men monthly from the 13 counties of this territory.

Assisting in the campaign to quicken naval enlistments for the two months will be the local American Legion post, said Cook. Committees have been named for publicizing the drive and material supplied so that individual members may become "Volunteer Navy Recruiters."

On Aug. 14 there will be an added attraction, calculated to stimulate recruiting. A navy sound truck will bring films about the navy and there will be a free showing in some centrally located place.

Monthly quotas mapped by Cook follow for the counties in his district: Howard 20, Dawson 15,ECTOR 15, Mitchell 12, Scurry 11, Midland 11, Ward nine, Gaines eight, Winkler six, Martin five, Borden two, Andrews two, Glasscock two; total 129.

Navy enlistment ages range from 17 to 50 years, Cook pointed out. Unskilled men have an opportunity to attend navy trade schools, and skilled men may be enlisted as petty officers with pay ranging from \$78 to \$128. It is necessary that application for enlistment be completed before induction into the army.

### Truck Tires In Heavy Demand

Another heavy demand for truck tires was reported by the local rationing board this week, while tubes were almost evenly distributed between trucks and passenger cars.

Certificates for purchase of 45 truck tires, 16 passenger tires, 34 truck tubes, 35 passenger tubes, and five obsolete tires were granted.

Certificates for two bicycles, the first granted here since bicycle rationing started, were issued to Sims McCranie and Thomas Wendell Campbell. McCranie is a refinery worker and Campbell is delivery boy for a telegraph company.

Paul Liser was granted two automobile certificates, and another went to N. W. McGee.

### \$24,000 Volume In Stock Sale

Six hundred head of cattle were sold Wednesday for a total of \$24,000 at the Big Spring Livestock sale.

Bulls sold up to \$9.55 and good butcher cattle went for \$9 to \$10.50. Average butcher cattle sold for \$7.50 to \$9.

Fat cows were from \$7 to \$8 and canners and cutters from \$5 to \$6. Stockers sold from \$11 to \$13. The sale was termed as good for this time of year.

### Kiwianians Told Of Their Magazine

James Little utilized the program Thursday to remind Kiwianians of the quality of their magazine.

He touched on highlights of the publication and reviewed one article which traced the history of the Union Jack.

The Rev. O. L. Savage was elected vice-president and Arthur Stallings and H. W. Smith as members of the board of directors. Paul Hallock was introduced as a visiting Kiwanian from McAllen.

### Two Negroes Face Assault Charges

Charges were filed Thursday afternoon against two negroes following isolated disturbances Wednesday evening.

C. H. Williams was booked for robbery by assault after officers charged that he took \$10 from Willie E. George by holding a knife at his throat.

### GWTW Coming Back Again

The most fabulous of Hollywood's productions, "Gone With The Wind," returns next week to the Ritz theatre for its third presentation in Big Spring.

The Ritz management has announced booking of the famous movie for next Tuesday and Wednesday. While the showings this time are at lower prices, the film remains uncut and is shown in its entirety. The Ritz screenings will be at the hours of 11 a. m., 3 p. m. and 8:30 p. m. Running time for GWTW is about four hours, with an intermission.

Expected are many patrons who will be seeing for the second and third times the film version of Margaret Mitchell's novel of the remaking of Southern civilization, as depicted in such personalities as Rhett Butler, Scarlett O'Hara, Ashley and Melanie Wilkes. These roles are played by Clark Gable, Vivien Leigh, Leslie Howard and Olivia de Havilland.

### Three Charged At Abilene On Govt. Supply Fraud

ABILENE, July 30 (AP)—Charges of conspiracy to defraud the United States government through fraudulent invoices for food supplies were filed against three persons in federal district court today by U. S. District Attorney Clyde O. Eastus.

Those charged were V. A. Allen, Abilene grocery store operator; Robert Beane, market man at the Allen grocery, and Technical Sergeant Marshall Ray Peterson, mess sergeant at the Camp Berkeley station hospital.

Eastus said the practices for which the men are charged involved about \$5,000 and that investigation is continuing.

Motor trucks for the army are built to climb 65 per cent grades, slopes so steep that men can not negotiate them on foot.

## Rates On Fire Insurance Are Cut Sharply

AUSTIN, July 30 (AP)—A sweeping, statewide reduction in fire insurance rates, announced today by Marvin Hall, state fire insurance commissioner, will result in an estimated saving of \$3,200,000 to Texas policy holders during the next 12 months.

The new rates, affecting many classes of insured property and amounting to as much as a 25 per cent saving in the case of dwellings in future insurance costs, will become effective on policies written after Aug. 1.

The greatest saving in any class will apply to dwellings. Estimated to exceed \$2,825,000 within the next 12 months, this benefit will reach more individual property owners than any other class. Premiums on insured dwellings last year accounted for approximately 40 per cent of the fire insurance business written in Texas.

# Miss Laneous Notes

With the war and hot weather on our necks this summer there are a lot of things we don't care about anymore that once might have been important.

Whether Jerry Sadler is in office or out of office is a lot of humbug, we'd say, and personally we are tired of hearing so many contradictory reports on the whole situation.

We no longer care when the Cardinals win a baseball game and whether there is a world series or not seems like inconsequential matter for discussion.

It matters not at all to us whether synthetic rubber will be practical or not. We are getting all right to hearing about it since every day some high official hunting for an inch or so of publicity blows his horn on his opinion about it all.

That there is a shortage of sugar seems awfully unimportant, too, when you consider that many years ago the whole human race lived very well without anything to pamper a sweet tooth.

The inner squabbles of the so-called big shots in government and defense work strikes us as traditional "fiddling while Rome burns," and we are weary of hearing squawks of protest when somebody toes get stepped on.

We are also worn out with reading of labor disagreements and union demands when the American worker is holding in one hand the finest living conditions in the world and in the other the fate of a nation.

**Luncheon Held By The Ruth Class At Church**  
Covered-dish luncheon was served at the First Baptist church by the Ruth class with Mrs. C. T. Clay giving the devotion. Mrs. B. Reagan had the invocation.

Making the class a standard Sunday school class was discussed and others present were Mrs. George Thillingham, Mrs. O. Q. Brown, Mrs. A. O. Vanderford, Mrs. Harold Akey, Mrs. C. W. Floyd, Mrs. W. W. McCormick, Mrs. T. D. McCandless, Mrs. Tom Cantrell, Mrs. F. W. Harding, Mrs. T. B. Atkins, Mrs. T. A. Underhill, Mrs. J. H. Homan, Mrs. Ruth Olsen, Mrs. Lena Greer, Mrs. John Johnson.

**U.S., Mexico Sign Rubber Agreement**  
MEXICO CITY, July 30 (AP)—Mexico and the United States have signed an agreement designed to promote increased production of natural rubber in this country.

The first step in the pact, to remain in effect for eight years, provides for immediate establishment of five 750-acre demonstration plantations in tropical Mexico with Washington furnishing technicians and an \$890,000 grant.

**Girl Carriers To Challenge Boys To Baseball Game**

# How To Save 10,000 Lives: Continue Traffic Record

CHICAGO, July 30 (AP)—Ten thousand lives would be saved, the National Safety Council said today, if a record-breaking reduction in traffic deaths throughout the nation in June were maintained for the rest of the year.

The June total of 2,090 fatalities was 32 per cent less than the June, 1941, toll, the greatest decrease for any one month in the council records.

There were 14,800 traffic deaths in the first six months of this year, 15 per cent fewer than in the first half year of 1941, and the council slide rule experts figured that if the June drop continued the 1942 total would be only about 30,000, compared with 40,000 in 1941. Thirty thousand would be the lowest since the 1932 total of 29,500.

This Budget Roast Has Flavor And Nutritional Value

1. Select a thrifty shoulder of lamb. Ask your butcher to bone it, so that the cavity may be filled with dressing. Rub thoroughly with salt and pepper. Cheaper cuts of meat have full nutrition value.

2. Fill pocket in meat with this dressing: Combine 2 1/2 cups bread crumbs, 1/2 cup chopped nuts, 1/2 cup tomato juice with 1 cup chopped celery, 1 tsp. parsley, 3 tbsp. chopped onion sauted in butter for about three minutes.

3. Sew pocket together with heavy thread, fastening ends securely. Place roast on rack in uncovered pan, fat side up. Bake in moderate oven (300 F), allowing 40 minutes to the pound. You'll find this budget roast has all the flavor and nutrition value of the more expensive leg of lamb.

Two Dead, One Uses Chute As Planes Crash

VICTORVILLE, Calif., July 30. (AP)—Two men were killed and a third, Frank Flan, veteran photographer of the Associated Press, parachuted to safety in an accident involving two army bombardier training planes last night.

Killed were Sgt. Pilot Rodney M. Grim, 30, of the Army Air Forces, and Clarence L. Block, 29, Los Angeles, civilian photographer for the west coast Army Air Forces training center.

Flan was found wandering, dazedly, on the desert this morning, seven hours after the accident, by Lt. Clarence M. Skaggs and Lt. Col. A. J. McVea, who had set out in a jeep on a search, on the slender hope the star cameraman might have been able to use his parachute.

"I lost consciousness right after the accident," Flan told the officers, "but I came to and found myself falling, so I pulled the cord. As far as I know, I passed out again, and I didn't know what happened then."

Flan was exhausted when he was found and suffering from ankle and chest injuries and scalp lacerations.

THE WAR TODAY: Attacks By Air May Not End The War

By DEWITT MACKENZIE Wide World War Analyst The disclosure by British Air Marshal Harris that a great Anglo-American air-fleet is about to scourge the reich, city by city, signals one of the major developments of the war, but while we can expect much from it we shall do well not to jump to the conclusion that this is a quick solution of all our troubles.

German cities probably would force withdrawal of some naval air-power from the Muscovite front, and any easement would be all to the good for the Bolsheviks. However, the bombing can scarcely affect the situation vitally in the immediate future, and it's right now that the Reds need help.

Another question that arises is how far such massed bombing might carry us towards victory—a subject which is a burning topic of debate at the moment. There are those who maintain that the war can be won in the air—a theory advanced as far back as 1921 by the late General Giulio Douhet, one time head of Italy's military aviation, who held that victory could be achieved almost overnight by employment of a vast fleet of bombers.

## What To Plant In Summer Gardens For Autumn

By ALMARINE NUNNALLY  
HM Supervisor

Farm Security Administration

Perhaps fall is still several weeks off, but it is about time to begin planning a fall garden. Every gardener should strive for crisp radishes, tasty green onions, juicy baby beets and carrots, fresh leafy mustard, spinach, lettuce, Swiss chard, and turnips. These give added zest to fall and winter meals.

Perhaps your spring garden will be about gone by the end of July and weeds have been allowed to grow unmolested. If this is the case, cut and remove the weeds from the garden before plowing for the fall garden. Then add old barnyard manure and plow to a depth of about four or five inches. Run the harrow over the garden until the soil and manure are well mixed. This will help the soil hold the water and prevent packing. This procedure should be completed by the middle of August.

Plan to plant these vegetables early enough to mature before frost. Pinto beans and Bliss Triumph potatoes about the 15th to 30th of August. Laxton English peas, Scarlet Globe radishes and stringless green bean pod beans about the first to 14th of September. New York or Los Angeles mustard and Tendergreen mustard about the 15th to 30 of October.

Plant these semi-hardy vegetables to withstand light frost. Denver half long carrots, Chariot Wakerfield cabbage, Shogoin turnips, green sprouting brocoli, and Detroit dark red beets should be planted about the first to 14th of September. By September 15th to 30th you may plant Lucullus Swiss chard and kohlrabi.

The following vegetables will withstand heavy frost and should also be planted about the first to 15th of September. Louisiana sweet collards, dwarf blue Scotch kale, white Bermuda onions, rutabagas, Sandwich Isle salicy, shallots and Long Standing Bloomsdale or Bloomsdale savor spinach.

In the spring, if you purchased enough for both the spring and fall garden, you are already prepared. However, if you must purchase your seed now, it will be well that you secure 1-4 more seed for planting than for the spring garden, because the germination of seed at this season is poor.

You will probably find an added help in soaking seeds with hard help in soaking seeds with hard coat, (such as spinach) in warm water overnight before planting. Then press the soil around the seeds at the time of planting.

Irish potatoes can be made to come up more readily by covering the potatoes with damp sacks or straw several days until they have sprouted. Then cut into seed pieces and plant.

Be on your guard against insects in fall gardens as well as spring gardens. Lice, cabbage worms, and flea beetles are plentiful.

## Full Rations For Hens Even If Egg Production Less

Hot summer weather will bring on moulting of laying hens and result in lowered egg production which is a somewhat normal occurrence according to O. P. Griffin, county agent. Hens that have laid heavily during the spring and early summer have depleted the food elements in their body, continued Griffin, and it is normal for them to take a rest during this period. Some hens lay off for only a few weeks and others several months.

Most poultry raisers have the idea that when a hen is not laying she does not need as much feed. According to Griffin this is unfounded. The hens should continue to receive full rations since the food reserve in the body has been depleted. In most cases a higher protein feed with more minerals will be advisable.

Ordinarily hens that are properly fed through the moulting period will start laying earlier in the fall and produce high priced eggs. Otherwise, most of the hens will rest until the following spring when eggs are usually cheaper.

## Soil Conservation Project Mapped By McDowells

L. S. McDowell & Son, who have ranches in Glascock, Howard and Borden Counties, have made application to the Martin-Howard Soil Conservation District for assistance in drawing up a detailed soil conservation plan for each of their ranching units. The McDowells have a very accurate record of their stocking by pastures for the past 20 years. It is interesting to note that their calf crop for most years since 1918 has been well above 90%.

Gene O'Daniel, of Coahoma, sold off some cattle to lighten up his grass during the dry weather. O'Daniel thinks that by selling some of his stock he can maintain the vigor of his grass and have it in condition to grow more rapidly when it does rain. O'Daniel is chairman of the board of supervisors of the Martin-Howard Soil Conservation District.

According to L. L. Johnson, state boy's club agent of the Texas A. & M. college extension service, beef cattle, hogs, sheep and poultry the boys now have on feed substantially outnumber the livestock and poultry projects of last year, and field crops and Victory gardens show corresponding, or even greater, increases. Through May, 6,099 Victory gardens were being grown, compared with 1,471 in 1941.

## 4-H Club Boys Doing Part In Victory Effort

Texas 4-H club boys, 35,000 strong, have mobilized on the home front to do their part in winning the war just as their older brothers are doing in the armed forces.

According to L. L. Johnson, state boy's club agent of the Texas A. & M. college extension service, beef cattle, hogs, sheep and poultry the boys now have on feed substantially outnumber the livestock and poultry projects of last year, and field crops and Victory gardens show corresponding, or even greater, increases. Through May, 6,099 Victory gardens were being grown, compared with 1,471 in 1941.

Texas 4-H club boys have carried forward their rifle training work, and many are taking first aid training, Johnson says. Some counties have organized labor patrols, which are helping with farm work in their communities and home counties.

The boys have taken an active part in all salvage campaigns including collection of scrap rubber, but totals for rubber are not yet available. Other achievements in connection with the war program based upon reports from 129 counties, follow: Scrap iron collected, 8,478,554 pounds; waste paper collected, 190,804 pounds, and sold for \$482; aluminum collected, 67,826 pounds, and sold for \$750; and bonds and stamps bought, \$39,464.02.

Demonstrations being conducted in the 129 counties are: beef calves on feed, 4,175; swine on feed, 10,552; sheep on feed, 4,477; hens, 73,290; baby chicks, 889,589; increased flocks, 2,332.

Howard county 4-H club boys have completed the following 1942 demonstrations: 33 baby beaves weighing a total of 25,449 pounds which sold for \$3,755.04, and eight lambs a total of 976 pounds.

Eight boys are raising 520 chickens and eight other boys are raising eight litters of pigs for feeding this fall.

Enrollment in the 4-H club is now being made for feeding calves, lambs and pigs the coming fall and winter.

## Tips For Putting To Use Some Of That New Peanut Production

Now that Howard county has prospects of harvesting a record "goober" crop, folks might begin to think of ways in which to utilize these errant peanuts here. This is the advice from Almarine Nunnally, FSA home supervisor, who suggests that the meaty nuggets might do well for domestic consumption as well as for commercial production.

Take peanut butter, for example. It all starts out like an old fashioned goober roasting—peanuts in the bottom of a baking pan at about 300 degrees F. for around 45 minutes. Hulls should readily slip between fingers, and the peanuts should then be ground with the meat knife of the food chopper if a fine grain is desired, or with the vegetable knife of the chopper if a coarse mix is wanted.

For the sake of keeping it fresh, a couple of cups at a time should do. Mix the ground product with four tablespoons of vegetable oil and 5-8 teaspoon of salt and keep it in a cool place until the family gobbles it up.

There are a variety of ways to use peanuts, but this will be a good starter for utilizing the nut which is rich in iron, phosphorus, B1, and other vitamins and a fair share of calcium.

An interesting background lies back of the humble goober, of which Howard county this year has 2,000 acres as a wartime experiment. Here are some brightly stories dug up by Miss Nunnally.

The peanut originated in South America, being carried home by exploring Spaniards. Eventually it got down into Africa and mariners used to lure natives onto slave boats with promises of rich peanut stores.

Indeed, the negro brought his goober to North America with him. Yes sir, goober is right, for the word is derived from the African Congo "nguba."

The Spanish peanut continued in vogue, but slaves planted them in Virginia and today the Virginia Jumbo rank with the Spanish as a favorite type. Out in this country, however, the smaller Spanish nut is still the best.

The can opener will no longer be the most important utensil in American kitchens. Insofar as possible, tin for food packing will be replaced by cardboard, wood and glass.

Not only is the peanut good for human food, but it is also excellent as a stock food. The vine is second only to alfalfa and peanut hulls are comparable to cottonseed hulls in roughage and food value. Peanut cake is comparable to cottonseed cake or meal, and oil ground from peanut cake makes good poultry food. Peanut hulls are used industrially for soaps, plastics, insulation, in the plate polish and as an inert ingredient for dynamite.

# Oana's Blow Brings Cats Another Win

By The Associated Press  
 What Hank Oana lacked in pitching power he made up for in batting punch last night as the Fort Worth Cats won from the San Antonio Missions, 7 to 6.

The Missions hit three out of the park, two of these being by Jerry Witts, who had also three singles for a perfect night at bat. But Oana hit what proved to be the winning blow, a 390-foot homer with nobody on base.

The Beaumont Exporters, five runs down in the ninth, made up that margin to tie the game and scored another run in the eleventh to defeat the Oklahoma City Indians, 9 to 8.

Ames Moore tallied the winning when he singled, went to second on a passed ball and galloped home on a double by Dick Wakefield.

The Tulsa Oilers gathered 15 hits off three Shreveport pitchers and downed the Sports, 11 to 5. Harvey Storey was the leading Tulsa hitter with a home run, a double and a single.

Shreveport nipped Henry Wyse for 13 hits, but failed to bunch their blows except in the ninth, when they scored three times.

The Dallas Rebels, minus Merv Connors and George Jansco, who were sold to Fort Worth, took a licking from the Houston Buffs, 8 to 2.

Lefty Al Brasie gave the Reds just four hits as the Dallas team lost their fifth game in a row. The Rebels committed five errors and were hitless for six and a third inning.

Thursday games:  
 Houston at Dallas.  
 Shreveport at Tulsa.  
 San Antonio at Fort Worth.  
 Beaumont at Oklahoma City.

### Looking 'Em Over

With WACIL M'NAIR

Sports writers in Texas league cities are casting their eyes about, studying averages and recalling sensational feats of various players this year, and when they make up their minds the Texas league's most valuable player for 1942 will be named. The Texas league has certainly produced its share of true stars this season and several names probably will be under consideration. League leading Beaumont's most likely candidate will be Dick Wakefield, we are thinking.

Dick, who came to the Exporters from Detroit for seasoning with a fifty-grand price tag on him, already has shown signs living up to the Tigers' expectations. If he doesn't falter he may be around the Texas loop when the most valuable player is chosen a year from now.

No doubt Hank Oana, the pinch hitting sensation of Fort Worth will come in for some due consideration. And if we had a say in the voting a careful study of Pitcher Doyle Lade of Shreveport would be made before we cast our ballot.

Here's something we overlooked in yesterday's column about Jimmy Eason, which has just been called to our attention. Jimmy is an infielder in the midst of those who believe in fishing signs.

"Those fish have schools to learn to swim," he chortles, "and to learn to read signs." Not so long ago, after putting this talk out around Sam Eason and John Wolcott, he envied Wyatt Eason to go with him late in the evening of a fruitless day of fishing for the rest of the party. In half an hour he and Wyatt were back with a boat bottom full of bream. Now Mister Sam and Mister John shake their heads and say—"maybe".

Luke Sewell, the present very successful manager of the St. Louis Browns, seems to have that one quality that is vitally needed for a catcher to make a good boss. Few experienced catchers are not qualified to be managers from the

standpoint of the game, as they have a better chance than anyone else to study the entire diamond. But it has long since been figured out that a successful manager must be able to get along with men. Sewell must be a good diplomat, because he is getting more out of the Browns than anyone else in a decade. Luke has another distinction, too. He has caught three no hit, no run games during his major league career. He was behind the plate when Wes Ferrell tossed his masterpiece at Cleveland in 1931, again for Vernon Kennedy at Chicago in 1935 and finally for bespectacled Bill Dietrich at Chicago in 1937.

### Indians Celebrate, Bring Own Sugar

MUD SPRINGS, Idaho, July 30 (AP)—Nex Pece Indians today re-new their 40-year-old harvest feast celebration.

Sub-chief Albert Moore of Lapwai proclaimed: "We have killed the beef." "We have killed the beef," he added that 300 tepees were ready and there will be war dances. Also—"Tell my people to bring their own sugar."

### Slaying Case Is Pondered By Jury

SAN SABA, July 30. (AP)—A jury today considered the case of Ollie Smith, charged with murder in connection with the slaying of Mrs. Florene Harkey Blossman March 28 in a dance hall near here.

Smith pleaded not guilty due to temporary insanity. He testified he was in love with the 36-year-old woman, the mother of three children and a member of prominent ranch family.

BERN, Switzerland, July 30. (AP)—Three prominent Romans, one of them a general, have been arrested along with nine Italian industrialists in a fascist party drive against black market operations, Italian dispatches reported today.

### WOW Edged Out 5-4 In Final Game

Taking the final playoff series three games to none, ABC-Lions became champions of the city softball league Wednesday night when they squeaked past WOW for the third consecutive time, by a score of 5 to 4.

The service club men got an early start Wednesday night, by pushing across four runs on as many hits in the very first inning. WOW came right back, making three tallies in their half of the first, but they were never able to overcome a one-run lead.

ABC-Lions scored the clincher in the third on a hit and an error. Lovelady rapped off the first base, he succeeded in causing the WOW players to throw to that bag. The throw went wild and Lovelady romped home with the winning tally.

WOW got their final run in the fifth on a hit by R. Cruz and an error by ABC-Lions.

In taking the 1942 title ABC-Lions upset the predictions of many, as WOW was rated to have the edge all the way through the regular season. Then as the play-off neared Radford was picked as the only team to have a chance at unseating the WOW team. Power ranking based on regular season play made State Hospital the logical choice for third, leaving the service team fourth.

That spring, Thomas J. Heard, Jr., a Texas owner, visited the Bradley farm and took a liking to Boysey, a stable pet the hands regarded as nice company but no racer.

Heard bought Boysey for \$100. Clingman went along for the ride and the bargain combination paid off Garden State's opening day with a victory in the \$5,000 Camden Handicap.

### SPORTS ROUNDUP

By HUGH FULLERTON, JR., Wide World Sports Columnist

NEW YORK, July 30.—American soldiers are taking their sports along wherever they go, thereby adding greatly to the confusion of world affairs. Recently we've seen a report from Australia on an American football game played there and from Belfast on a clash between soldier baseball teams. The Aussie scribe couldn't quite figure out why it was called "football" when there was so little kicking and the Irishman concluded: "One thing Belfast fans will have to remember in the future if they want to appear knowledgeable. Never applaud or get excited about an ordinary or fairly high 'ry ball'."

Today's guest star—Pete Norton, Tampa (Fla.) Tribune: "It sounds like the truth... 81,810 citizens of New Jersey and Pennsylvania shelled out \$2,800,000 in bets at the New Camden track last week... If each of these bettors had stayed home, added \$7.50 to the \$30 spent at the race track, he could have bought a \$50 war bond... And very likely have saved gasoline, tires and wear and tear on his nervous system."

Service dept.—Larry Bauer, who once wrote a column on wild life for the Associated Press, now is trying to suppress wild life as a lieutenant of military police at Fort Riley, Kas... Lou Zamperini, former California miler now a bombardier cadet at Midland, Tex., has one of the world's biggest scrapbooks. It is nine inches thick and weighs 105 pounds... Just the thing to drop on a Jap.

Ideas, Inc.—Sports Editor Joe Blankie of the Idaho Falls Post-Register forwards the suggestion that a lot of war stamps could be sold if the guys and gals who are always forming pools on ball games, fights, etc., would pay off in stamps instead of cash.

Socket—When Manager Rogers Hornsby of Fort Worth was protesting to an umpire who had called a well tagged blow by one of Rajah's proteges a foul, a Tulsa fan hollored: "You can't see any better out there, Hornsby, than you could at the race track."

### Numbers Go Up Along With Age

GREENSBORO, N. C., July 30 (AP)—Baseball players show age in arms, legs and face, but Heinie Manush, former major leaguer now managing the Greensboro Red Sox, shows his on his back. His number corresponds to his age—this year 41, last year 40.

### Bob Falkenburg Has Strong Foe In Western Meet

KALAMAZOO, Mich., July 30 (AP)—Top seeded Bob Falkenburg of Los Angeles, national interscholastic champion, encountered his first serious opposition of the western junior open tennis championship in a quarter-final match today against fifth-ranking Fred Kovalski of Hamtramck, Mich. Falkenburg led the advance yesterday of all but two seeded players into the round of eight by defeating Bob Stuckert of Milwaukee, 6-3, 6-3.

In the boys division, survivors included Jack Blanton, Houston, Tex.; and Ed Ray, Taft, Tex.

### Apprentice Rider Comes Up Rapidly

CAMDEN, N. J., July 30 (AP)—An Arizona kid who "started to get lucky" after losing his first 25 races is showing his brother Joekeys the fastest way around the new Garden State track—and he's still an apprentice.

Seventeen-year-old Darrell Clingman, a pale, freckle-faced boy with big hands, booted home 12 winners and finished in the money in 43 of 60 starts to lead the rider roster here since the park opened July 15.

"With 12 other firsts picked up at Hot Springs, Jamaica and Delaware, he needs only 15 more to lift him out of the apprentice class and he's an odds-on favorite to get them before the current 49-day meet closes.

Clingman was at home in a saddle before he ever saw a kiddle car and at 11 was riding cow ponies in straightaway races for the ranch hands back home in Ash Fork, Ariz.

"Then three years ago," he said, "Mr. John Bradley was guest at a dude ranch out here. He sent me to his brother, Colonel Ed Bradley, in Kentucky, to work around the farm, breaking yearlings and stuff."

The boy interrupted his chores at the famous Bradley stables long enough for another year at school and then returned to continue his improvement of the breed.

That spring, Thomas J. Heard, Jr., a Texas owner, visited the Bradley farm and took a liking to Boysey, a stable pet the hands regarded as nice company but no racer.

He's getting confidence now but he still feels he has a lot to learn. "It takes an awful long time to be a good rider," said Darrell. "Take like using a whip. Generally, the owner makes you ride your first half-dozen or so without a whip. Then they make you practice a long time riding a bale of hay. You got to learn all sorts of things.

Jockey Clingman has already learned something most turf followers overlook—he's saving his money.

ON FURLOUGH—COLORADO CITY, July 30.—Lt. Frank Blasingame, second lieutenant in the field artillery, who has been stationed at Fort Bliss in El Paso since his commission was granted upon his graduation from A. & M. in June, is on furlough and is visiting his mother, Mrs. Matye Blasingame of the Buford community.

# White Sox Smack Yankees For A Double Header Win

## Champs Hold Their Margin At 12 Games

By JUDSON BAILEY Associated Press Sports Writer

The Chicago White Sox have been going nowhere in the American league ever since the season started, but they have attained one distinction denied every other club in the circuit. They are the only team to sweep a doubleheader from the world champion New York Yankees and they have accomplished the feat not once, but twice.

When the Sox first turned the trick in New York on June 23, the Yankees were in a slump and the Sox didn't get much credit. It was like picking on a man while he was down.

But they caught the champions last night at the crest of a winning streak that included four straight victories and 15 of their last 16 games and proceeded to whip the Yankees at the kind of ball for which New York is noted—slugging.

The first game was played at twilight and the Yanks gave Atley Donald a 5-1 lead with five runs in the third inning, two of them on Joe DiMaggio's 16th homer. Then the Sox slugged back to win 4-5 in 11 innings with old Sam West driving in four of Chicago's runs. He doubled for two to tie the score in the ninth and singled home the deciding tally in the 11th.

The second game, played under the lights, saw the Sox take an early 5-2 lead, the Yanks tie the score in the sixth, and then Chicago come back with two runs in its half of the same frame to win 7-5.

This merely denied the Yanks' big first place margin to 12 games, because the Boston Red Sox were nipped 7-6 in 11 innings at Cleveland when Roy Weatherly singled with the bases loaded.

At St. Louis the Washington Senators squeaked past the Browns again 11-10 with four runs in the ninth inning. There was scoring in every frame and ten pitchers were used, six by St. Louis.

The Detroit Tigers walloped the Philadelphia Athletics 12-7 in an affair that would have been considerably lopsided except for five Detroit errors.

In the National league the Brooklyn Dodgers enlarged their lead to eight games by beating the St. Louis Cardinals 4-3 in a twilight tussle that was halted in the last of the seventh by wartime dimout regulations in the New York area.

The two doubleheaders which completed the senior circuit card were halted. The Chicago Cubs welcomed Van Lingle Mungo back into the majors a bit rudely, beating the New York Giants 4-2 even though held to seven hits in the first game.

The Giants took the second game, 3-1.

The Pittsburgh Pirates took their first game at Boston 3-0 on five-hit hurling by Truett (Rip) Sewall after being shut out for seven stanzas by Al Javery. Then the Braves retaliated with a 6-5 decision in the nightcap in behalf of big Jim Tobin.

# Over A Score Of Negro Baseball Players Of Big League Calibre

KANSAS CITY, July 30 (AP)—There are at least 20 negro baseball players of major league caliber, believes J. L. Wilkinson, co-owner of the Kansas City Monarchs, champions of the negro American league.

The possibility of negroes breaking into big-time baseball was raised by William E. Benwanger, president of the Pittsburgh Pirates, who said he would hold tryouts for negro players. Commissioner Kansas Mountain Landis previously asserted there was no ruling against the use of negroes in organized baseball.

"I think it would be a fine thing for the game, even though we would lose some of our stars," commented Wilkinson.

The Monarch boss said he had discussed the situation in Chicago Tuesday night with his private chateau, St. Paul, Kingpin of negro pitchers. Although Wilkinson has a 2-year contract with

Paige, he said he told the lanky right-hander, "we certainly won't stand in your way if you have a chance to play."

Satch, who holds decisions over the Dean brothers, Bob Fuller, Schoolboy Rowe and many other mound stars, probably would have to be tendered a pretty sizeable chunk of money for his signature. He has received as high as \$2,000 for a single game, and considering that he works in more than 80 games a year, his recompense would rank him with the highest salaried athletes in the game.

Although Wilkinson didn't say so, there is at least one prospect ready made for the Brooklyn Dodgers if they go shopping in the negro leagues. He is Jack MacBeth, 20-year-old Kansas City pitcher, who sometimes operates from the mound as a catcher in full dress ensemble topped by a plug hat.

Such antics might startle even Flatbush.

### St. Paul Golf Open Really Is 'Open'

ST. PAUL, July 30. (AP)—The \$5,000 St. Paul golf open is about the only tournament in the country in which the big shot pros hang over a sandwich counter with the ordinary man and cross elbows in a fight for the mustard.

The meet is held on the Keller Public Golf course, only tournament of any consequence staged on public territory. It is unique in giving the fee players a chance to hobnob with their heroes on an equal level. A hot dog tastes just as good to both.

A favorite of many of the pros, the open usually draws good crowds and plans to turn over a considerable sum from proceeds this year to the army.

Horton Smith won the 1941 crown with a 72-hole tally of 276, 12 strokes under par after teeing in a 63 for one round which equalled the course record held by Harry Cooper.

This year the boys around the counter are talking about Clayton Heafner, the candy man of the Carolinas. They insist that the big blond blaster will stay on his hot streak which carried him to the Mahoning Valley open title at Girard, Ohio, and the runner-up prize in Chicago's Tam O'Shanter tournament within a month.

The open which puts \$10,000 around the winner's bankroll starts tomorrow with another round Saturday and 36 holes Sunday.

Today the headlines—Ben Hogan, Smith, Heafner, Cooper, Metz, Johnny Revolta, Mike Turman, Chick Harbert, Jimmy Thomson, Jimmy Hines, Denny Shute, Ralph Guldahl, Lloyd Mangrum, Lawson Little and others—played in a preliminary pro-women's matches.

Patty Berg was scheduled for a big debut after injuring her leg in an auto accident a year and a half ago, but said last night her doctor forbade her to play.

### Hats behind the Headlines

There's more behind the headlines than meets the eye. Hats, for instance. These hats belong to reporters attending the President's press conference each Tuesday and Friday at the White House.

Nowhere else in the world would a heap of hats be such a symbol. For nowhere else in the world is the news of a nation's capital covered as it is in Washington. And it is in Washington that The Associated Press has the world's largest local news and photo staff

under a single directing hand. This is the staff that serves your newspaper and 1,400 other AP members. AP alone provides full coverage of state and federal activities throughout the country. And AP, together with its great associate service, Wide World, has a corps of experts assigned exclusively to the interpretation of Washington news. Look for their bylines daily.

You can depend on the men who wear the hats behind the headlines!

By JACK STINNETT WASHINGTON—The capital in wartime: He's the head of the multigraph and mimeograph division of one of our war agencies.

The division chief, tearing out his mustache whisker at a time, finally got the procurement boys on the phone. "Why," he shouted, "24 cans!"

"We save a cent a can that way," procurement answered proudly. The m. and m. division head nearly fainted.

On the record and off, the Massachusetts republican senator has had a lot to say about the performance of American tanks.

It started when Secretary of War Stimson (republican, but all-out anti-isolationist) wrote Senator Lodge (formerly identified as a member of the isolationist bloc, but No. 1 member of the upper house to leap into the thick of war) a

**Administration Likely Will Take No Part In Texas Race**

WASHINGTON, July 30 (AP) — The Texas senatorial contest is being watched here with the keenest interest, but there is no official comment on either of the run-off election candidates, W. Lee O'Daniel or James V. Allred.

The experience of the special election in Texas last summer, when Senator O'Daniel won out over Representative Lyndon B. Johnson, is considered by some in administration circles here as a rebuff for so-called interference in Texas politics.

The administration openly and vigorously supported Johnson then against O'Daniel, and many observers here feel that Texans resented the action by official Washington in trying to influence their choice of a senator, so much

so that many who otherwise might not have done so voted for O'Daniel.

Evidently with that experience in mind, administration spokesmen are declining to take a hand in the Texas contest this year, their private choice, unquestionably, would be Allred in view of the fact he had been held in enough esteem by President Roosevelt to have been appointed a federal district judge.

While the run-off campaign was getting under way, the senate secretary's office received an expensive account filed by O'Daniel showing contributions and expenditures made in the primary campaign up to July 13.

The candidates in state primary elections are not required to submit campaign expense accounts to the senate secretary, however, and O'Daniel's was the only one on record here.

His statement showed that up to July 13 he had received contributions totaling \$2,785 and had made expenditures totaling \$1,144.88. Names of contributors were listed, but their addresses were not given.

**War Industry Classes Gain In Enrollment**

Enrollment is gradually increasing in the national war industry classes here, William R. Dawes, supervisor, reported Thursday.

One of the two aircraft sheet metal classes is now filled and the other is about three-fourths of its capacity. Last week a third operating on the graveyard shift, had to be abandoned for the time being. Women are eligible for this training as well as men and more and more are signing for the classes.

Two of the four 'round-the-clock' welding classes are filled and the others are better than three-fourths of capacity. Those interested in availing themselves of either of the free training services should apply through the USES office in the Ellis building.

**Patman To Take No Part In Campaign**

DALLAS, July 30 (AP)—Declaring he would take no part or side in the Texas senatorial runoff campaign, Rep. Wright Patman (D-Tex.) of Texarkana, here on a visit, added, "it would be highly improper, in my opinion, for a member of one house of congress to attempt to take part, in any way, in a campaign to elect a member of the other house."

**Former Mitchell Resident Buried**

COLORADO CITY, July 30. — Following funeral services held Tuesday in Mineral Wells, brief grave-side services were conducted in the Colorado City cemetery for Mrs. Birdie Hunter McNary who died in Mineral Wells Monday.

An early-day resident of Mitchell and Scurry counties, Mrs. McNary was married in Colorado City to the late R. H. (Bob) McNary, a time cattleman of this vicinity where the family lived for many years.

Mrs. Ollie Bird, a daughter of Westbrook, is among Mrs. McNary's survivors.

**Spotted Conditions Over The State, Farm Survey Shows**

AUSTIN, July 30 (AP) — The whims of weather made sharp distinctions in the apparent conditions for crop and farm work in Texas for the week ended July 26. The U. S. bureau of agricultural economics drew these contrasts:

The Panhandle, with harvest of small grain practically complete, made progress in field work and in row crops because of rain.

In the southern counties of the south high plains and low plains as well as eastward across the state surface moisture was in varying degrees of scarcity, with corn and feed at a critical stage but cotton faring well.

The southeast and upper coastal sections was too wet for most crops, except moisture loving rice.

South-central and southern districts had ample moisture for most crops but too much for best progress of cotton and harvesting of feed and hay.

Cotton made satisfactory progress in most areas, except in portions of the coastal section, the coastal bend and extreme south-central countries, where leaf worms were very active.

Poisoning in these sections was hampered by frequent rains and showers and damage to the crop by insects was noticeable.

In the northwest, northwest-central, north central and eastern districts growth and fruiting was satisfactory and weather conditions favored insect control. Pickling was progressing northward toward central Texas.

Harvest of wheat was virtually complete over the Panhandle, with good yields and test weights.

Corn improved in the northwest and southern portions where rains were helpful, but was standing still or deteriorating in sections where soil moisture was deficient.

Grain sorghums were similarly affected to a less degree than corn.

Hay was an abundant crop in most localities.

Peanuts furnished the bright spot in crop prospects all over the state. The crop had been worked out well and was making good growth except in the wetter parts of the upper coastal area.

Marketing of peaches appeared to have passed the peak. Harvesting of potatoes in the Panhandle had passed its peak for this season; yields and quality were very good.

Range pastures were generally in good condition, except in parts of the northwest central and Edwards Plateau area, where grasses were curing.

**KIDNEYS MUST REMOVE EXCESS ACIDS**

Help 15 Miles of Kidney Tubes Flush Out Poisonous Waste

If you have an excess of acids in your blood, your 15 miles of kidney tubes may be overworked. These tiny filters and tubes are working day and night to help Nature rid your system of excess acids and poisonous waste.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Kidneys may need help the same as bowels; so ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They're happy pills and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.
