Diplomatic Power Stripped From Japan By MacArthur

TOKYO, Oct. 25 (AP)—General MacArthur today ordered Japan to sever relations with all foreign governments and to turn over its diplomatic properties and papers throughout the world to the Allied powers.

The order, issued "by direction of the Allied powers," told the Japanese government to recall "immediately" its diplomatic and consular representatives home from neutral countries.

Purpose of the order, other than the apparent one of revealing to the Allies all Japan's diplomatic and consular secrets, was not disclosed. It came to MacArthur from the joint chiefs of staff at Washington.

In its sweeping implications the order was comparable to one issued by MacArthur a few weeks ago, in which he directed that all records of Japan's banking and industrial concerns which had furthered that nation's imperialistic ambitions be delivered to occupation authorities.

The directive followed close upon criticisms from Moscow to the effect that with the demobilization of Japan's armed forces, the occupation policies in the conquered nation should be directed by a four-power control commission instead of by MacArthur.

Shortly afterwards, Domei news

agency reported that Prince Fumimaro Konoye, royal career statesman and youngest of Japan's senior statesmen, would renounce all titles and court privileges so that he could take part in politics as a private citizen.

Konoye was prevailed upon by Marquis Koichi Kido, lord keeper of the privy seal, to delay his action until work on revision of the constitution is finished, Domei said.

The action might indicate that Konoye has determined to accept General MacArthur's suggestion, which was reported last Sunday, that the three-time premier head the liberal political movement in Japan. Konoye said in it reporting the suggestion that he was undecided what he would do.

On a carcass weight basis, the November beef supply will be about 13 per cent less than this month, veal will drop off about 19 per cent and lamb and mutton around 22 per cent, according to agriculture department estimates.

The seasonal run of hogs to market is expected to boost the pork supply about 41 per cent to counterbalance declines in other kinds of meat.

The fat cuts of pork assigned lowered point values include backs, plates, jowls, and bacon plates and jowls. Regular bacon remains at six points a pound.

Five more stamps in ration book four will become valid Nov. 1 for buying meats and fats. These include the last four red stamps—W1, X1, Y1 and Z1—and green stamp N8, the top-right coupon on the last sheet of green stamps remaining in book four.

If rationing continues in December, five more green stamps will be validated at the start of that month, OPA said.

R. M. Harrison Suffers Broken Ankle When Refinery Beam Falls

R. M. Harrison suffered a broken ankle when a beam at Cosden refinery fell on his left foot about 9 a. m. today in a second accident to occur at the plant during October.

Harrison's condition was reported satisfactory in the Big Spring hospital.

The other injured person was Sammie Swinford, Jr., who was knocked 10 feet off a scaffold when he came in contact with a high voltage wire Oct. 9. He has returned to work.

Both men are employed by O. W. McCurdy Construction company which is doing remodeling at the refinery.

Radicals Denying Peron Supported By Labor Class

BUENOS AIRES, Oct. 25 (AP)—A radical party spokesman charged today that police coerced workers into participating in the Oct. 17 demonstration which brought Col. Juan Peron back to power and denied that the laboring masses support the Argentine strong man.

Carlos Cisneros, secretary of the radical party's national committee, said the mass appeal for Peron's return "was an exact reproduction of the first popular demonstrations by fascism and the falange."

Peron, long the power behind the scenes in Argentina's military government, resigned Oct. 9 at the demand of an army faction led by Gen. Eduardo Avalos, commander of the powerful Campo de Mayo garrison in suburban Buenos Aires. He was placed under arrest. Eight days later Peron returned from prison and was cheered by a large crowd in the Plaza de Mayo.

President Edelmir Farrell promptly announced that the group's enthusiasm had made him decide not to hand over the government to the supreme court, as had been anticipated. Peron greeted his restoration to power with a pledge that he would dedicate his life to the cause of labor.

Republicans Fire At OPA Pamphlets In Allotment Mail

WASHINGTON, Oct. 25 (AP)—The OPA came under sharp republican fire today for enclosing printed arguments on holding the price line in envelopes containing army allotment checks.

Speaking directly to Price Administrator Chester Bowles at a senate banking committee hearing, Senator Taft (R-Ohio) declared: "You are propagandizing for continuance of OPA. You are trying to stir up all the people of the United States against the business people."

Bowles replied that the material merely said that inflation is a bad thing. "Is anything wrong with that?" he asked. "Is it debatable?"

Taft countered that the printed slips had no business in army allotment envelopes and noted particularly they said consumers should refuse to pay a penny over price ceilings.

Senator Millikin (R-Colo.) remarked that the law setting up the Office of Price Administration "doesn't say to put throwaways in military envelopes."

Chairman Wagner (D-NY) interjected that he was "glad" OPA did it.

Broadly, Taft hurled this accusation: "The attitude of OPA today is that every business man is a crook until he proves otherwise—that if he is trying to make profits he is greedy."

Bowles termed this an "absolutely fantastic statement."

OPA Cuts Points On Butter, Oils

WASHINGTON, Oct. 25 (AP)—The OPA announced today that ration values on butter, margarine, lard, shortening and oils will be cut four points a pound next Sunday.

For all of these products the new value, effective through Dec. 1, will be eight points a pound. Current point costs will be maintained during the new period for all prime cuts of beef, veal and lamb and for lean cuts of pork.

Lower grades of beef, veal and lamb will continue ration-free.

The only meat changes are reductions of two to four points a pound for six fatty pork cuts and for barbecued pork.

Over-all meat supplies next month will be about one half of one per cent less than in October and "therefore do not permit the end of rationing," the OPA chief said.

On a carcass weight basis, the November beef supply will be about 13 per cent less than this month, veal will drop off about 19 per cent and lamb and mutton around 22 per cent, according to agriculture department estimates.

The seasonal run of hogs to market is expected to boost the pork supply about 41 per cent to counterbalance declines in other kinds of meat.

If rationing continues in December, five more green stamps will be validated at the start of that month, OPA said.

King Creates Seven New Labor Peerages

LONDON, Oct. 25 (AP)—King George has created seven new labor peers, giving Prime Minister Attlee's labor government 32 representatives in the house of lords out of a total membership of 819.

The announcement concerning the creation of the new baronies said the measure was taken to "increase the representation of the government in the house of lords" and to "insure that business in the upper house is conducted with proper dispatch and efficiency."

Congress Veto On Atom Power Unit Set Back

Military Committee Declines To Impose Veto Authority

By WILLIAM F. ARBOGAST
WASHINGTON, Oct. 25 (AP)—The house military committee has declined to impose congressional veto power on the foreign licensing authority of a proposed atomic energy commission, it became known today.

The committee's action made it likely the issue of cooperation with foreign interests and individuals in development of atomic energy will be fought out on the house floor, perhaps next week.

Chairman May (D-Ky) said the group expects to finish consideration of the legislation tomorrow. It has been writing the bill behind closed doors, with the aid of war department experts, for several days.

Rejected by what was reported as a close vote was an amendment by Rep. Elston (R-Ohio) to require the approval of the president and congress before the commission could give or lend to any foreign government or person any property for atomic research and development.

The committee simply retained the original provision prohibiting the commission from taking any such action without approval of the president.

Elston and supporters contended congress should have veto power over any move the commission might make to release secrets of atomic energy to non-Americans. The Ohioan told reporters he would take the fight to the floor of the house.

At the request of war department officials who said the action was asked by leading scientists, the committee eased some of the legislation's restrictions on atom energy research.

The changes, department experts said, would permit research by scientists within limits which would not endanger national safety. The commission would have power to determine how far a scientist could go.

Scientists had complained to the committee that the limitations in the original legislation were so rigid they might discourage research.

Elston said he doubted the amended version would meet the objections of the scientists.

Jap Civilians Plan Democrat Election In Shanghai 'Tokyo'

SHANGHAI, Oct. 25 (AP)—Japanese civilians, segregated in one Shanghai area, are preparing to hold what probably is the first democratic election by any Nipponese.

The residents of "Little Tokyo" across Szechow creek from downtown Shanghai, tomorrow will choose a secretary-general for a self-governing committee headed by Yakuda Tsuchida, former ambassador to the puppet Nanking regime.

The committee handles the problems of housing and feeding more than 80,000 Japanese under guard in the Chinese Third Army area.

Debate Blocked LONDON, Oct. 25 (AP)—Prime Minister Attlee blocked in commons today a repeated attempt to open a full dress debate on the future of the atomic bomb, saying that "no full statement can be made until the international aspect has been discussed with the United States and Canadian governments."

For Assignment
Lt. Col. Joseph F. Hunker arrived at the Big Spring Bomber school Wednesday for assignment. His position has not been announced yet but he has been in conference with top ranking officials at the post.

At Omori, where thousands of Americans once lived on flea and lice-ridden mats, the assistant war secretary came face to face with Tojo, writing at a small desk in one of the barracks. Tax Bill Goes To Adjustors

Senate Reduction Fundamentally Different

By FRANCIS J. KELLY
WASHINGTON, Oct. 25 (AP)—The senate's \$5,788,000,000 tax reduction bill, fundamentally different from the \$5,350,000,000 measure passed by the house, headed today for a conference committee which will adjust the variations.

The senate took a seven-hour look yesterday at its finance committee's handiwork, added another \$155,000,000 of relief, then passed the bill by a voice vote.

After the house goes through the formality of rejecting the senate changes, the house and senate conference committee will get together—probably Friday—to work out the final form of the legislation.

House and senate versions vary so widely in so many particulars that the conference committee is expected virtually to rewrite the measure.

Speed is essential. Internal revenue officials would like to know the final form of the bill by Nov. 1 so they can prepare and send out revised withholding tables and tax blanks to offices all over the country.

The tax cut would apply to next year's income; the tax bill on this year's income will be figured on present law.

In effect, though not in method, the two houses were not far apart on the individual income tax cuts. Both start in by allowing payers of the 3 per cent normal tax the exemptions granted surtax payers (\$500 apiece for the taxpayer and each dependent). The house voted to trim 4 percentage points off each of the graduated surtax rates. The senate said take off 3 percentage points, then reduce the tax thus computed by 5 per cent.

The result, in the case of \$2,000,000 first-surtax-bracket taxpayers, is the same—a combined normal and surtax rate of 19 per cent on taxable income above exemptions, instead of 23 per cent under present law.

A married man who earned \$2,500 and had two dependents would pay \$95 tax under either version, compared with \$160 under the current law.

The two chambers were a good deal farther apart on corporate taxes. The house voted to reduce the rate of the excess profits tax from 85.5 per cent to 60 per cent next year and to repeal it on Jan. 1, 1947. The Senate accepted corporate cuts totaling \$2,934,000,000.

Going Concern
United Nations Document Made Law Of Nations

By GRAHAM HOVEY
WASHINGTON, Oct. 23 (AP)—The United Nations is a going concern—on paper.

Conceived at San Francisco by representatives of half a hundred nations "determined to save succeeding generations from the scourge of war," the organization came into formal being at 3:45 p. m. (CST) yesterday.

A few pen scratches on diplomatic parchment by Secretary of States Byrnes made the San Francisco charter "a part of the law of nations."

Byrnes subsequently said that maintenance of peace "depends not on any document, but what is in the minds and hearts of men."

Workers Hold Strike Vote

DETROIT, Oct. 25 (AP)—Chrysler Corporation's 125,000 eligible employees were polled on the strike issue today as early returns from similar balloting among General Motors workers indicated an overwhelming majority in favor of a work stoppage.

The Chrysler vote, affecting employees in 22 plants, was the second in the CIO United Automobile Workers' plan to extract a 30 per cent wage increase from all the major car manufacturers.

In the first—among some 325,000 General Motors workers in 97 plants throughout the nation yesterday—a union spokesman estimated that 100,000 took part.

First returns ranged from a 4-to-1 affirmative majority in GM's new departure division at Bristol, Conn., to more than 20-1 landslide at the big corporation's plants in St. Louis, Atlanta, Ga., and Memphis, Tenn.

With some 20,000 ballots counted, reports from regional officials of the National Labor Relations Board showed 17,664 GM workers wishing to authorize a strike and 2,269 opposing the move.

Still uncounted were an estimated 50,000 votes in the Detroit area and many others from large union locals in out-state Michigan and in other states.

Neither General Motors nor Chrysler permitted the NLRB to conduct the balloting on company property, so special voting booths were set up in union halls, school

houses and other places. The Ford Motor Company's 109,000 employees will be polled Nov. 7.

While the General Motors voting was in progress, the corporation and the UAW-CIO resumed negotiations, but no break in the wage deadlock was in sight.

County Still Far From Chest Goal

An additional \$981.50 was deposited Wednesday, bringing the grand total to almost \$8,500 for the Victory Chest campaign for Howard County and Big Spring.

Howard County has filled only 25.1 per cent of its goal at the end of the third week. In 1944, this county had 55.2 per cent of its goal at this time.

With the war bond drive scheduled to begin Oct. 29 each citizen is asked to give every dollar he can afford so the drive may be completed as soon as possible.

The campaign committee believes that Howard County should be as strong in peace as in war. More power needs to be shown in order to insure support of a \$12,000 budget for the local agencies—the Boy Scouts, Girl Scouts and Salvation Army, officials say.

TOTAL LOSS SEEN ON SURPLUS HOLES

DALLAS, Oct. 25 (AP)—On the list of surplus property at the local office of the Defense Plant Corporation are million dollar war plants—and 19 post holes.

A Dallas accountant checking the office's files came across the inventory reference.

DPC men admitted the government's loss probably would be total when it came to finding a bidder for the holes.

Fighting Family

Son Is Glad Pop Getting Out Too

BERLIN, Oct. 24 (AP)—Pvt. Richard Eckles of the 504th parachute infantry regiment is anxious to get home to his pretty wife, Peggy, in Brownwood, Tex., but he is just as glad that "Pop" will get home first to see "Mom" in Columbus, Ohio.

"Pop" is Sgt. William M. A. Eckles of the 7118th Railway Battalion at Nancy, France. "Pop" has only 46 points to son's 48 but "Pop" is getting out first—and likely soon—because of his age. "Pop" is 39 and son is 21.

Father and son both were drafted. Richard, an only child, was inducted June 26, 1943 from Toledo where he lived in suburban Walbridge. Father was called up Aug. 13, 1943 from Columbus. "Pop" went overseas on July 20, 1944 and Richard followed on Jan. 31, 1945.

They have met twice since being overseas.

Richard holds two battle stars and the Purple Heart for a wound suffered at Eldena, south of Schwerin, just four days before V-E day.

Richard and Peggy were married a year ago. She is living in a civilian housing project in Brownwood.

Nimitz Prefers Pepper-Nuts To Plaudits

AUSTIN, Oct. 25 (P) — With gifts and plaudits of a nation pouring generously in to him, Fleet Admiral Chester W. Nimitz had only one further request to make on his recent visit to his old home in Fredericksburg: — "Where is the old cookie jar?"

His aunts were ready for the question. Remembering that during the life of the admiral's grandmother, the cookie jar had never been empty, they prepared a boxful of the sweets including his favorite "pepper nesses."

From one of his, nearest kin Mrs. Emil H. Riley, comes the recipe for these spicy pepper-nuts, without which Christmas is not Christmas in Fredericksburg.

2 cups of sugar
6 eggs
1 teaspoonful each of cinnamon, cloves and baking powder.

A good pinch of black pepper. Flour enough to make a stiff dough (about two cups).

Beat eggs together, gradually add sugar, add all spices add baking powder to one cup of flour, then add additional flour.

Cut in small rounds and bake at 350 degrees about 15 minutes. These may be rolled out, cut and left on the board until the next morning for baking, says Mrs. Riley, which is the "exact way the admiral's grandmother used to bake them."

Sturgeon, which was found in North American, European and Asiatic waters, are never found in tropical waters.

By BENNETT CERF

MISS Josephine Austen, librarian at Forest Park, Ill., declares that her profession provides a unique opportunity for souvenir-collecting.

Readers use unbelievable objects for book-marks, and frequently forget to remove them before they turn in the volumes. Miss Austen's collection includes violent love letters, nail files, playing cards, bobby-pins—and most unexpected of all, a very, very thoroughly fried egg.

George Oppenheimer, the Hollywood writer, once tried his hand at a ghost movie. It didn't quite fall, and when the preview was over, the producer said sadly, "This picture will never scare anybody." "Oh, yes, it will," said Oppenheimer. "It'll scare my agent plenty." Later they asked him if he could suggest any way of cutting the film. "Try straight up the middle," he murmured—and enlisted in the Army.

Clare Boothe Luce, the playwright and Congresswoman, tells this on herself. She and her publisher husband, Henry Luce, were walking through the lobby of a Washington hotel, and overheard somebody comment, "There go Arsenic and Old Luce."

BEWARE OF PIN-WORMS

Recent medical reports reveal that an amazing number of children and grown-ups may be victims of Pin-Worms—often without suspecting what is wrong!

Watch out for the warning signs that may mean Pin-Worms in your child or yourself—especially the tormenting, embarrassing rectal itch, because now you can and should do something about it. After centuries of distress caused by Pin-Worms, a highly effective way to deal with them has been made possible. It's based on the medically recognized drug called gentian violet.

This special drug is the vital ingredient in P-W, the Pin-Worm tablets developed in the laboratories of Dr. D. Jayne & Son. P-W tablets are small and easy to take, and they act in a special way to remove Pin-Worms.

So if you suspect this ugly infection, ask your druggist for JAYNE'S P-W and follow the directions. Satisfaction guaranteed or your money back.

It's easy to remember: P-W for Pin-Worms!

Seven-Up Slips Into Top Spot

Seven-Up won four of six games in a night of doubleheader competition in the Women Bowling league at West Texas Alleys Wednesday night to gain an exclusive hold on first place in the standings.

Previously, the Bottlers had been tied with Hester's for the top spot.

Seven-Up victories came at the expense of the Cosden Oilers, who forfeited the scheduled three games, and the Hartley's quintet by a 2-1 count.

Other results: Hester's decisively HiWay, 2-1; Schlitz trounced Hartley's, 3-0; Schlitz edged Hester's, 2-1; and Cosden trimmed HiWay, 2-1.

Olive Cauble, Hartley's expert marksman, emerged with a single high game score of 184 and combined that with two other respectable scores for a top series count of 513.

Refineries Plan Oil Wage Parleys

BEAUMONT, Oct. 25 (AP)—Further discussions regarding the 30 per cent wage increase asked by the Oil Workers International Union, are being planned by the management of two Port Arthur refineries and workers representatives.

Although neither management nor union officials had been informed regarding an agreement reached in Washington Tuesday to re-open negotiations, arrangements to continue negotiations are being made.

Company negotiations with Oil Workers International Union would be on a plant-by-plant basis, Frank L. Wallace, works manager of the Texas Company said here yesterday.

From where I sit . . . by Joe Marsh

"There ought to be a law!"

Every now and then, when I run out of news for the Clarion, I print items about what happened Fifty Years Ago in Our Town. May be a lazy man's way of filling space, but it often makes mighty interesting reading.

Seems like human nature is always repeating itself. Same old prejudices, bickerings, and mistakes. Here's an 1895 politician trying to restrict free speech . . . a demagogue crying out against women's rights . . . a local com-

mittee raising the bugaboo of Prohibition. Same old cry down through the years: "There ought to be a law!" Same old desire of one group to force its opinions on another.

From where I sit, it's not more laws we need—more restrictions of our right to think, and choose, and live as we see fit. But more tolerance and understanding—more "live-and-let-live" among human kind.

Treasury Men Eased Consciences Listing Atomic Bomb As "Etc."

By JACKSON S. ELLIOTT (Substituting for James Marlow) WASHINGTON, Oct. 25 (AP)—One of the world's best-kept secrets hid for more than three years under a small-type, three letter abbreviation—"etc."

The secret was the atomic bomb.

The careful job of accounting to the public for the treasury's outlay on it while hiding its existence was performed artfully but honestly each day in the daily "condition" statement of the treasury department.

In 1942, the war had drained the country of many important electrical-use metals. The treasury had a store of silver which wasn't being used.

So the war department borrowed 400,000,000 Troy ounces for the Manhattan Engineer District, the department's term for the atomic bomb project.

The silver was needed for "bus-bars"—giant current carriers for the atom bomb plant.

The analysts, statisticians, printers and other treasury employees are proud of what they call the daily statement's "honesty."

"We don't like any phony language, any deception," says one of them.

"We want the treasury statement to tell the facts—just how much the government has coming in, how much is going out and how much it has on hand."

Then one of the experts happened to look over the various items. He found "unclassified—collections, etc." "uncollected items, exchanges, etc." and "trust accounts, etc."

So every day since August 27, 1942, there has appeared a notation about leased silver reading: (So many) "ounces of these items of silver are held by the Office of Defense Plants of the Reconstruction Finance Corporation, etc."

The "etc." stands for the Manhattan Engineer District's silver loans.

And happily for the treasury men with the consciences no one ever asked them the meaning of the "etc."

MANY NEVER SUSPECT CAUSE OF BACKACHES

This Old Treatment Often Brings Happy Relief

Many sufferers relieve nagging backaches quickly, once they discover that the real cause of their trouble may be tired kidneys.

The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 2 pints a day.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 40 years. Doan's gives happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

Glamorize Cole Slaw With Dressing

Yes, it's our old friend Cole Slaw — but glamorized with a combination of both French and Cooked Salad Dressing.

Cabbage is one of our most economical and plentiful vegetables. Served as Cole Slaw, it adds the crunchy texture and green freshness we like with autumn meals. Then, too, raw cabbage has about twice as much Vitamin C as the cooked version, another reason for serving it as salad.

A new idea in making Cole Slaw combines both French and Cooked Salad Dressing. Simple directions for making both types of dressing, based on your bottle of salad oil, are given below. Try the combination of the two dressings on potato, mixed vegetable and meat salads, too.

Cole Slaw. (4-5 servings) Combine 3 cups shredded cabbage with 1-2 cup grated raw carrot and sprinkle with salt. Mix together 1-4 cup Cooked Salad Dressing and 1-4 cup French Dressing with an egg beater. (The resulting consistency is fluffy and creamy.) Add to vegetables, toss lightly and garnish with green pepper rings.

Cooked Salad Dressing. (Makes 1 cup) Mix 1 tablespoon sugar, 3-4 teaspoon salt, 2 tablespoons flour and 1-2 teaspoon dry mustard. Beat 1 egg; add to dry ingredients, mixing well. Add 3-4 cup bottled milk gradually. Then, very slowly, add 1-4 cup vinegar and 2 tablespoons bottled salad oil. Cook over hot water, stirring constantly until thick. Strain and cool.

French Dressing. (Makes 3-4 cup) Rub bowl lightly with cut garlic clove. Remove garlic, add 1-4 teaspoon dry mustard, 1 teaspoon salt, 1-4 teaspoon pepper, 1

Apricot Glaze Makes For Different Taste In Baked Ham Slices

By CHARLOTTE ADAMS

- Apricot Glazed Ham
- Creamed Potatoes
- Green Peas
- Tomato Jelly Salad
- Hard Rolls
- Gingernap Pudding

Apricot Glazed Ham
1 slice ham, 1 inch thick
1-2 teaspoon allspice
1-2 teaspoon cinnamon
1-2 teaspoon cloves
1 small can apricots
Slash fat edge of ham slice. Place meat on broiler rack allowing three inches between top of meat and source of heat. Sprinkle with spices and cook until browned, basting with apricot juice occasionally. When brown, turn. Sprinkle other side with remaining spices and continue cooking, basting occasionally with remaining apricot juice. When second side is done place apricot halves on top and brown fruit slightly. Ham is best when broiled at a moderate temperature.

Gingernap Pudding
1-4 pound gingersnaps
3 cups milk
1-2 cup raisins
2 tablespoons sugar

1 tablespoon butter or margarine
2 eggs
1 teaspoon baking powder
Crush gingersnaps into small pieces, cover with milk and allow to stand for 20 minutes. Add raisins. Mix sugar, butter or margarine and beat egg yolks. Fold into first mixture with baking powder and bake at 325 degrees one hour. Cover with meringue made from egg whites beaten until stiff but still moist with three tablespoons powdered sugar. Garnish meringue with a dab of jelly.

Apple Juice Refresher is easy-to-make and easy-to-take!

Here's a sparkling refreshment that can be put together in a hurry when the occasion demands.

Apple Juice Refresher is probably the simplest kind of punch you could make, but it will score high at fall gatherings. Little tricks in serving and garnishing the drink magically turn ordinary bottles of apple juice and soda water into real party fare.

Apple Juice Refresher: For 8-8 tall glasses, chill 1 quart bottle of carbonated soda water in refrigerator. Combine in a pitcher, mixing well.

Serving: Frost the rims of tumblers by dipping the drinking edges first in lemon juice, then in powdered sugar. Place two ice cubes in each glass, fill to top with Apple Juice Refresher.

Garnishing: Add to each glass a slice of lemon or orange, a maraschino cherry or a sprig of mint, or all three, if desired.

Human skin may be frozen at below-zero temperatures, and preserved for as long as 80 days, then thawed out and used for skin grafts.

Cotton Mill Labor Continues Walkout

DALLAS, Oct. 25 (AP) — Five hundred workers of the Mexia, Hillsboro and Itasca cotton mills are still off the job today, after efforts to bring management and labor together failed.

asked John M. Scott, attorney for the three companies, to meet with union officials to work out a settlement to the strike, now in its ninth day.

Morrow said that Scott had refused on behalf of all the managements, and said the attorney asserted the companies would not grant a checkoff to the union—providing deduction of union dues from workers' paychecks. Scott called that the sole basis for the dispute.

FAMOUS LISCUM BOWL MOVED TO CAMP SWIFT FOR A PARTY

By JACK RUTLEDGE Associated Press Staff

The Liscum Bowl has been moved to Camp Swift. This being the football season, the first impression many will get is that the Liscum Bowl is something like the Rose Bowl, the Cotton Bowl or the Orange Bowl. But it's not.

The Liscum Bowl is really a bowl—a \$50,000 bowl.

The famous Liscum Bowl is one of the most talked-about war mementos in the Second Infantry division. It is fashioned of 90 pounds of silver, measures two feet and four inches from handle to handle, stands three feet three inches high and holds 20 gallons.

It was named for Col. E. H. Liscum who led the 9th Regiment in an assault on Tientsin, China during the Boxer rebellion in 1900. He was fatally wounded. The date of his death, July 13, 1900, and his name are engraved on the inside of the mammoth bowl.

When the Yanks took Tientsin, troops recaptured a Chinese mint which was turned over to the Chinese government. In gratitude the Chinese gave the regiment a 90-pound ingot of silver.

It was taken to a silversmith in Yokohama where it was molded into a large bowl, tray, ladle and 53 cups. The work took seven months.

When the regiment was stationed at Fort Sam Houston, the bowl was kept in the vault of the adjutant's office. When the regiment went to Europe, the bowl

was stored in the First National Bank in San Antonio.

The only time it left San Antonio in recent years was to go to Camp McCoy, Wis., for a regimental party while troops were training there before going abroad.

But now the bowl is at Camp Swift, and a guard is on duty at all times. Later, the regiment hopes to build a museum and trophy room where the Liscum Bowl will be the number one attraction.

It was used recently. The huge bowl, with four five-toed dragons forming handles and two more dragons coiled around the bottom for a base, was used at a regimental party held at the officers club.

County Court Given Authority To Issue Birth Certificates

AUSTIN, Oct. 25 (AP)—Any county court may require issuance of a birth or death certificate for an illegitimate person if birth or death occurs in the county in which the court is located, the attorney general's department said in an opinion.

The county court authority applies even when the legislature has given exclusive criminal and civil jurisdiction to a district court, the opinion added.

Victory Loan Plans Set For Last Drive

If work and organization will be matched by purchases, Howard Countians will put their Victory Loan—the grand finale—over successfully.

Under Ted O. Groehl, chairman for the Victory Loan, and Otis Grafa, co-chairman, plans for the big push were mapped before the executive meeting at the Settles Wednesday afternoon.

Quota. Groehl recalled, will be \$1,020,000 over-all, of which \$330,000 must be in E bonds.

Every possibility will be explored for bond sales in an effort to reach the quotas—and as quickly as possible, said the chairman.

Booths will be set up at the First National and State National banks, the Ritz theatre and possibly bond headquarters, which again will be in the Empire Southern Service office.

Marvin Miller is making contacts on out-of-town headquarters for local branches; J. B. Mull is directing a service club sales contest on a per member basis; Jake Douglas is heading up the payroll savings division; and Lee Porter is chairman of rural sales.

Mrs. Doug Orme is back as women's chairman while Mrs. C. S. Edmonds will serve as secretary for the campaign. Radio and speakers

divisions are in charge of Rev. P. D. O'Brien and Rev. H. C. Smith, while H. D. Norris, Boyd Kelly, Joe Hayden and Joe Pickle are on the publicity committee. Theatre activities will shape up under Arthur Caywood, J. Y. Robb, Gene Hendon and R. L. Bull, and Walter Reed, high school principal, will direct school participation.

Already a bond premiere has been announced by Caywood for Ritz showing on Nov. 17. The motion picture industry will observe free movie day on Dec. 7, admitting bond purchasers without charge.

Groehl lauded past support from the bombardier school personnel and pointed out that with reduced numbers this assistance would be diminished. Maj. Harry F. Wheeler declared, however, that the campaign among those remaining would be as vigorous as ever. Moproe Harlan has been announced in charge of the civilian personnel contacts.

Use will be made of 16 mm. motion pictures during the campaign; stress will be placed on sale of the \$200 issue bearing the picture of the late President Franklin Roosevelt.

"Dime Store" Size Ain't Worth Much

SPOKANE, Wash., Oct. 25 (AP)—An aged pensioner picked up a ring from the sidewalk, noted the "dime store" size of the large stone and dropped it into his worn coat pocket where it remained forgotten for days. Casually showing it to a friend later, he learned a woman was advertising for a lost ring. He collected a reward.

Mrs. M. W. Fairweather, the owner, identified it as her diamond ring worth \$2,500.

West Point Cadets Show Nation's Other Elevens How The Game Of Football Is Played

Here's the great Army line, left to right—Henry Foldberg, Jr., Albert Nemetz, Albert Gorometta, James Enos, James Green (Capt.), Dewitt Coulter and Richard Pitzer. (Foldberg and Coulter were both Texas high school stars).

By CHIP BOYA
WEST POINT, N. Y., Oct. 22 (AP)—The war has shown the value of physically developed bodies and, according to most football coaches, the boys coming back from the battlefields to the gridirons won't think of saying "excuse me" when they belt the opposition.

Take it from mentors like Columbia's Lou Little, "football is in for its roughest and most aggressive era when the veterans start holding the line and carrying the ball."

Maybe it would be a good idea for all the country's coaches to come up here on the Hudson and watch Army's football bosses in action. They know how to get a fellow in shape—and keep him there.

Col. Earl (Red) Blaik has some very able assistants in Herman Hickman and Maj. George Woodruff, who handle the line; Pet. Stuart K. Holcomb, the coach who makes the ends; and Andy Gustafson, who assists with the backs.

Of course it is nothing new for Army to have a hard charging and rough eleven. Any player who has ever been on an opposing team will tell you the Cadets have always been that way.

But this year, they're even more so. The black, gold and gray squad turned to the gridiron after some of the toughest summer maneuvers the Corps has ever known. Blaik and his staff took over where the training officers left off.

Hickman and Woodruff gathered the linemen together on an old field and lined them up as opponents. Then the boys took turns throwing their bodies at each other, locking shoulders and lunging tackles until they were almost ready to drop.

Gustafson ran the backs and kickers ragged. Holcomb had the ends crying for mercy with a combination of tactics used on the line and backfield.

The Army footballers were in top shape for the opening game and have been ever since. But, just let one fellow let down on his aggressiveness, and one of Blaik's aides will have him out on the practice field doing the conditioning all over again.

Just take a look at that Army line in the picture above. Did you ever see a harder looking seven? No wonder coaches are calling them the best ever to wear the West Point uniform. They average

Pardon From Jail: City Can Hire Him

SALT LAKE CITY, Oct. 25—(AP)—A city jail inmate serving a 90 day term for drunkenness was a handy man to have around. City commissioners ordered a pardon for him because he worked so diligently on the janitorial staff at the Public Safety building.

City Prosecutor Roscoe W. Irvine recommended the pardon and wrote, "He is the best janitorial worker we have had. I not only recommended a pardon but that he be employed by the city."

October 10 is China's national day, and marks the time Chinese revolutionaries under Dr. Sun Yat-Sen struck at Wuchang and overthrew the Manchu Dynasty.

James Enos, better known as "The Bear," is 6-1. He gained a lot of his muscles while working as a timberman and won his "A" as a Plebe.

Jack Green, team captain, is another senior, 5-8½, and won All-America honorable mention last year.

"Tex" Caulter, 6-3, potentially the finest tackle in football today, is also a great shot putter, and plenty rough.

Dick Pitzer, a first classman, is 6-1, started as a center but won his spurs as an end in the 1944 Notre Dame game.

Steers Shove Off Friday For Ft. Worth Adventure

Return Of Hardy To Drill Field Helps Chances

Inspired by the unexpected return to duty of quarterback Bobo Hardy, the Big Spring high school football Steers went through a gruelling but snappy body contact drill at the Longhorn field Thursday afternoon.

Hardy suffered a painful foot injury in last week's battle with the Midland Bulldogs and for a time Coach John Dibrell thought the mighty mite was out for the campaign. However, X-rays revealed nothing worse than a ligament strain and the signal-barker was given the okay sign to return to the moleskins after a brief rest.

Bobo didn't get into any of the rough stuff but kept active most

of the time he was on the field. The homelings still have three conference games to play this season but, as far as Dibrell and his aide-de-camp, Conn Isaacs, are concerned, the most important test of the 1945 campaign rears its head Saturday night when their boys tangle with the portly North Side Steers in Fort Worth's Farington Field.

A win is needed badly by all hands concerned and an upset triumph over the Fort Worthians would help soothe the troubled waters.

The Big Springers will shove off for the Tarrant county metropolis Friday at high noon and will pause in Cisco for an evening workout

before proceeding onto Fort Worth and their headquarters at the Blackstone hotel.

LOOKING 'EM OVER

With ANGUS LECHESTER
According to George White, Dallas News scribe, Matty Bell of SMU is predicting that football will be of the highest quality in the game's annals in 1946 and '47. The Southern Methodist tactician is looking forward to having a title contender of top drawer caliber in those years. Athletes who played for the Hilltop school as far back as 1940 still have eligibility left and are expected back by the Methodist coach.

One of the youngsters Matty is counting on is Paul Kasch, great center of the 1941 Big Spring high school team. Paul played freshman ball at SMU, then went into the service. He can play three years if he comes to.

Also due back at SMU, White reports, are two of the greatest wing prospects ever to play in the Southwest conference—Sid Halliday and Grady Martin—and Bob Ramsey, a crackerjack back.

Bill Chestum, a former football player for Eastland high, later a regular with St. Edwards college eleven at the time Jack Chevigny was coaching there and still later a professor in the sport around Jackboro, dropped in on Big Spring on a business trip yesterday and by chance ran into an old and revered friend—Steer tutor, John Dibrell.

The boyhood chums had lost track of one another for several years.

Bill recently doffed the navy blue after a three-year tenure in the sea-going branch of the service.

Bob Lawson, the local hatter, found the game big and gullible up in Yellowstone National park, where he recently spent his vacation stalking elk.

The local nimrod felled a huge critter that had 13 points, a 40-inch spread and weighed over 600 pounds when dressed.

He was told the prize kill was the second largest of the species ever brought out of that part of the country.

The edible portions of the animal Lawson has on cold storage here.

Despite the fact that they got only the losers' share in the World Series this year, the Chicago Cubs netted just about as much money as the winning St. Louis Cardinals of the 1944 classic. Members of both clubs got about \$4,200 each for their efforts.

The New York Yankees and the Pittsburgh Pirates both cut in for individual shares of about \$400 of the melon, despite the fact that they finished at the bottom of the first division in their respective leagues.

Bruce Campbell, the heroic major leaguer who rallied from dogged attacks of spinal meningitis, is going to try another comeback in the major leagues next spring.

Bruce was laid low three different times by the deadly disease but climbed out of bed each time and slugged his way back into the regular lineup. He was with both the Cleveland Indians and Washington's Redskins.

Central Pulls Into Deadlock For Top Spot

Central Ward kayoned South Ward, 25-0, in Junior league football play at the Steer stadium Wednesday afternoon to pull into a first place tie with West Ward.

The West Enders lost a chance to close in on the title when they were played to a scoreless deadlock by a determined East Side clan.

College Heights, coupled with Central for second place last week, was upset by the North Siders, 6-0.

In three games, the West and Central grid elevens have each won two decisions and been tied once.

In competition to date, the Central Ward club has displayed the best offensive, having scored 53 points.

Best defensive record is that of West Ward's, which hasn't been scored on since the season got underway three weeks ago.

Standings:

Amarillo Plays Borger, Paris Faces Sherman

By HAROLD V. RATLIFF
Associated Press Sports Editor

Important games in six districts bring the Texas schoolboy football campaign into the thick of the conference campaign this week.

There are 50 contests over the state, 32 of them counting in district races, with the top inter-district struggle pitting unbeaten, untied Highland Park (Dallas) and Wichita Falls at Wichita Falls.

In District 1 Amarillo plays Borger in a battle between undefeated conference leaders. San Angelo clashes with Odessa in District 3 in a similar contest and it's the same in District 5 where Paris plays Sherman, District 9 where Brownwood tangles with Mineral Wells, District 13 where San Jacinto (Houston) plays Milby (Houston) and District 14 where Port Arthur tackles Galveston.

The Highland Park-Wichita Falls tilt is the only game in the state in which unbeaten, untied teams battle but the Milby-San Jacinto contest is close to it. San Jacinto has been tied but not defeated.

All except one of the state's undefeated, untied teams have a game. Lufkin gets an open date but Pampa plays Brownfield, Plainview meets Lubbock, Cleburne encounters Ennis and Brownsville engages Robstown, in addition to the Wichita Falls-Highland Park, Odessa-San Angelo, Paris-Sherman, Brownwood-Mineral Wells and Milby-San Jacinto tilts.

Negro Loop Ignored When Star Signed, Says President

DALLAS, Oct. 25 (AP)—J. Alvin Gardner, president of the Texas league, said negro baseball players in the south were out "as long as the Jim Crow laws are in force."

Gardner was commenting on the signing of a negro player for the Brooklyn farm club at Montreal in the International league.

CHICAGO, Oct. 25 (AP)—Dr. J. B. Martin, president of the Negro American Baseball League, said today he was "very happy" to see Jackie Robinson signed for the Montreal Royals of the International League, but added "the Kansas City Monarchs should have been consulted."

In a statement today, Dr. Martin said: "I am very happy to see it. It has been my ambition to see the negro get into the big leagues, but I think they should have discussed the matter with us before signing Robinson like he was some sand-lotter. They should have consulted T. Y. Baird, co-owner of the Kansas City Monarchs."

"I think Mr. Baird is just as anxious to see Robinson get into the big leagues as I am, but I'm sure he feels as I do, that he should have been consulted in the matter."

Robinson was signed by the Brooklyn Dodgers for their Montreal club Tuesday, the first negro player ever to be admitted to organized baseball.

Home attendance in Southwest conference football is far surpassing that of last year, a survey today revealed.

In 18 home games played by conference teams 184,566 have turned out as compared to 108,500 for 12 games in the same period last year.

Baylor didn't play football last year and this season has drawn 24,066 games. Subtracting Baylor's

Ex-Mustang Ace Hondo Leader

HONDO, Oct. 25 (AP) — Lieut. Bob Coe, coach of the Hondo Army Air Field football team, is keeping a wary eye on his stellar field general, Ivan Cunningham, former Southern Methodist University player, in the hopes the 175-pound halfback will be on top when the all-service eleven is chosen.

Cunningham displayed exceptional strategy in the Hondo - Fort Warren game at Omaha, Neb., last week, along with his usual passing and running brilliance, and was picked by critics as the outstanding back on the field.

The 20-year-old gridiron ace played two years for SMU, and hopes to finish his schooling there upon discharge from the service. Experts feel that Ivan will be the answer to any ambitious coach's dreams when the time comes for him to enter again the ranks of collegiate football.

In the game between the Comets and Ellington Field at Houston Sunday Coe will again rely on Ivan as a signal-caller and spark for his fast-developing crew of gridirers. The tussle with the Flyers, their second meeting of the season, promises to be a thriller for the fans of Houston. Since the first 1945 Ellington-Hondo contest, which ended in a 7-7 deadlock, both teams have added some new material, making it possible for anything to happen on Sunday afternoon.

total, the other six conference schools show 160,500 for 14 games which is 52,000 ahead of last year. The difference of two games would not mean 52,000 fans, thus 1945 is showing an increase all the way around.

Rice is the only member failing to register an increase this year and the Houston school is just 2,000 behind.

Texas Christian shows the biggest increase. The Horned Frogs in two games last year showed before 12,000; in one home game this year they have drawn 25,000.

Pre-Flighters Can Use Dual System, Too

By HUGH FULLERTON, JR.
NEW YORK, Oct. 25 (AP) — Lt. Comdr. Bernie Masterson, coach of the St. Mary's navy pre-flight school grid team, can outdo even army in using the "two team" system. . . . Bernie has a team that includes seven former pros which he uses against service clubs and a strictly amateur eleven that plays against college teams. . . . The reason the amateurs trimmed UCLA the other night was that Albert, just in from North Carolina Pre-Flight, did 57 minutes of first class quarterbacking after only three days of practice. . . . When Paul Richards, the lanky Tigers' catcher, performed at Muskogee, Okla., back in 1928, he was a utility infielder who threw so hard the first baseman complained he couldn't see the ball and, at times, served as an ambidextrous pitcher, but his best trick was to start from first base at a dead run backwards. And fans recall that the pitchers used to throw the ball away in bewilderment. . . . Virginia Tech's football team started eleven freshmen when it upset Maryland last week. . . . Penn State's Chick Werner, the only track coach who turned out I.C. 4-A winners both indoors and outdoors in one year, is out of the navy after serving on the staff of Comdr. O. O. A Letter From Mother

With The News by Dewitt Mockenzie AP Foreign Affairs Analyst

"I am writing you on behalf of the boys in service, who haven't come home and who may not for months or years to come," says a certain Big Spring mother. "Mail was always very important to them. Now it's even more so. They are so home sick and hungry for sight of the states and want so desperately to come home. They see others come home and it's: 'Why not me?' When will I get to go home?" So many are going, very young—just out of school into the service.

Then she encloses a copy of one of the letters she writes.

"You know," goes the letter, "the minute Dad and Bud leave I get my writing equipment, curl up by the fire and start 'talking.' I really look forward to every morning."

Then the letter goes on to express hope that it wouldn't be long before he could be home to stay; that his parents were pleased with his plans to go to college and how thousands of others of his age were going off to school on release from service; how the family had been to a movie and how "we rushed home, fixed our late lunch of fried chicken and all the trimmings and practically stuffed until we were miserable."

There were lines about how much Bud looked like the young sailor, so much so that sometime when Bud spoke she turned around to see; about family activities, little newsy things such as the first nother; how much his letters are enjoyed.

It was a bang up good letter that was just bound to lift the spirits of the lad who received it. This mother is right as right can be—letters are needed now more than ever before. Practically every mother can write exactly this same sort of letter — as perhaps only mothers can—but the pity is that they aren't with greater frequency.

Washington—
A Dollar-A-Year Man Goes Home With Discharge

By JACK STINNETT
WASHINGTON—The other day a big, quiet-spoken, ruddy-faced "bureaucrat" packed his bags in his suite at the Mayflower hotel and left Washington and the government after more than 11 years.

He was Leo Thomas Crowley, just about the champion dollar-a-year man. Crowley hasn't drawn any federal salary for six years although he held numerous jobs for which salaries were appropriated.

As this "bureaucrat" departed, both Democratic and Republican leaders rose in the senate to pay tribute to "his worth, his ability, his sagacity, and his fearlessness" as a public servant. It was a tribute rarely paid an appointive official by men of both parties.

Most people think of Crowley (if they think of him at all, for he certainly never advertised himself or his jobs) as the man who stepped into several of Jesse Jones' shoes; or perhaps as the alien property custodian.

His work in the latter job as a sort of combination J. Edgar Hoover, international banker, patent office, and director of numberless businesses would furnish material for a volume or two.

But the truth is that his first, last and only love was the Federal Deposit Insurance Corp. (FDIC).

When FDIC was set up by Congress in 1934, even its backers admitted it was an experiment. Even President Roosevelt was a degree less than lukewarm, but that didn't keep him from looking around for a good man to become chairman of the new corporation.

He found him in Madison, Wis., where Crowley was one of the town's leading citizens and on the board of many banks and corporations. Incidentally he was a prominent Democrat.

Crowley accepted the job with the idea of at least getting the

And Nothing Can Be Done About It

With The AEF: Royal Carp Facing A Bleak Winter

By HAL BOYLE
TOKYO, Oct. 25 (AP)—Leaves from a correspondent's notebook: Postwar shortages are affecting the daily menu of the Japanese emperor's famous carp.

Those illustrious fish swim in the royal moat at one of Tokyo's busiest intersections. They are large and fat and grow to a length of almost two feet. They vary in color from dark gray to light gold and are very popular with the Japanese people.

They are extremely tame and swim up to the edge of the moat to accept tidbits of bread and potatoes tossed to them by Hirohito's faithful followers.

Recently one soldier passing by peeled off a stick of gum and tossed it to a carp. It was quickly snapped up. Now, several times a day, GI's drop by to watch the emperor's carp chew American gum.

"If only," sighed one soldier, "we had some bubble gum! That would really be worth seeing."

Odds are even that the imperial carp won't survive the winter. It would be an easy matter to toss a baited hook a few feet down into the moat and catch them. Already many Japanese are giving them hungry looks.

The 'Headquarters Commandos' came into their own at last. Army officers who went through the war without seeing the armed enemy or firing a shot, lined up meekly in the lobby of the Dai-Ichi hotel and one by one came forward to receive a Japanese Samurai sword, after signing a receipt.

The swords were shiny new, just off the Nip assembly line, and—like the men who got them as souvenirs—they had never seen battle.

The weapons were part of sur-

rendered Japanese stores and were distributed to MacArthur's headquarters officers purely on the basis of rank. These armchair leaders took out their swords and swung them like eager, happy children. At last they had something to take home from the war and impress their neighbors.

The sign announcing distribution of the swords concluded: "No arrangement yet for women personnel."

It looks like the WACs and nurses will have to indulge in guerrilla warfare and capture their own souvenir swords to bring home.

Tiring of shipboard life, one group of officers aboard a vessel tied up at a pier in Tokyo had an adventure in Japanese finance while establishing a club for themselves ashore.

They found an abandoned, ratcheted building only a few score yards from their ship and obtained permission from the Japanese owner to use it as a club. They cleaned it out, decorated it, put in electric wiring and water pipes.

No sooner were they comfortably set up, however, than their little landlord arrived with his rent bill. With many bows and toothy smiles he presented it: "Five days rent—1400 yen."

That was almost \$100—an exorbitant figure. The naval officers did not smile back. They thought the landlord was trying to get them to pay off the Japanese war debt.

"We fixed up another bill to the landlord," said Lieut.-Commander Russell Knight, Palos Verdes, Calif. "Charging him 9000 yen—that's \$600—for labor and materials used in improving his building."

"We have not heard from him since."

Washington Merry-Go-Round—

Silent Sit-Down Strike Against OPA

By DREW PEARSON
WASHINGTON—A lot has been printed about labor strikes, but not much about the silent sit-down strike of certain employers. This is a strike chiefly against the OPA and the treasury. Ultimately, of course, it is also a strike against the public.

Many corporations are operating with small staffs determined to "wait out" the OPA and not operate until reduced taxes are put in force. That is one reason why it may be months before you can buy your new radio, your new automobile or your new washing machine. The makers of these commodities, realizing that they cannot hope to sell more than one machine per customer in less than about a four-year period, want to sell at their own terms, and at the highest possible profit. That's why they're waiting for OPA ceilings to be removed. That's also why they want to wait until excess profits are voted down.

If they don't sell goods between now and Jan. 1, they keep their 1945 profit levels as low as possible, and if the 1945 profit does not exceed the average profit for the 1936-1939 period, they will receive large tax refunds from the government.

That's why practically no radios for the American public are being produced at RCA's Camden, N. J., plant, or at the General Electric plants in Bridgeport, Conn., and Syracuse, N. Y., or in the several large radio plants in the Chicago area. Although there has been time since V-J day for production of at least 3,000,000 radios by Christmas, not over 500,000 will be on the market.

In the field of housing, real estate dealers are concentrating on high-priced housing, and will continue to do so until OPA rent controls are removed. Then they can charge whatever rentals they want for the lower-priced housing; also, for the housing they already have.

Bombs For Congress
Six members of a congressional committee sailing to Europe last August were nearly scared out of their wits while on the Queen Mary. Headed by Representative Louis Rabaut of Michigan, a subcommittee of the house appropriations committee had debated whether to fly or to go by boat. Finally they decided to sail—but they wished they hadn't.

The group which decided to enjoy some relaxation on steamer chairs included Dean Gillespie of Colorado, Robert Jones of Ohio, Butler Hare of South Carolina, Thomas O'Brien of Illinois and Judge John Kerr of North Carolina. Kerr had argued for the boat trip and finally convinced his colleagues.

The congressmen were just beginning to relax on their first night out from New York when an army officer came to Chairman Rabaut with a disturbing message. "The skipper thought you gentlemen ought to know," he said, "that we have just received a code message from the FBI. They report they have discovered there are a number of incendiary bombs on the boat scheduled to go off at midnight."

"There are several companies of Japanese-American troops on board," the officer told Rabaut, "and Japan is still at war with the United States."

Rabaut called his colleagues together and told them the news. Judge Kerr's first comment was: "I wonder if the skipper has ordered airplanes to hover around the ship."

All were alerted the entire night.

Monroney Home With Discharge

FORSAN, Oct. 24 (Sp)—Lewis Wayne Monroney, son of Mr. and Mrs. G. L. Monroney, has returned with his discharge received on Oct 10 at Roosevelt Base, San Diego, Calif., after service of three years to the day.

Monroney was on the USS Saratoga during the time he was in service and was water tender third class at the time of his discharge. He participated in the Solomon, Marshall and Gilbert Islands and Rabaul campaigns, and operated with the British fleet for two months at Saline, India. He was in two raids on Java and his ship participated in the first bombing of Tokyo.

He holds the American theater campaign bar, the Asiatic-Pacific bar with five stars. He finished Coahoma high school in 1940, and attended Texas Tech for two years. Mrs. Monroney has been making her home with her parents in Terre Haute, Ind.

So Good To Prisoners Commander Called The 'White Angel'

TEMPLE, Oct. 25 (AP)—The Japanese beat an American Marine and beat to death another U.S. fighting man, Sgt. Lonnie Patman of Dallas told reporters while resting at McClosky General Hospital here.

Patman said the two men were slain after they had been caught attempting to escape from Pasai prison camp near Nichols Field in the Philippines.

The Jap who did the decapitating was the camp commandant, called the "White Angel" by prisoners, "because he wore a white uniform, and because he was so 'good' to us," the Texas sergeant said.

Four Held Charged In Station Robbery

HOUSTON, Oct. 25 (AP)—Three men are being held here and another in Fort Worth in connection with the robbery of a service station on the Beaumont highway early yesterday. Charges have been filed.

Named in the robbery complaint are C. B. Reynolds, 45, of Chester's pictures in the future might be built around one of his own ideas. He suggests a movie with all the members of the Colarby mystery managerie. That would include Boston Blackie, The Whistler, The Lone Wolf and The Crime Doctor. Boston Blackie Fools The Coroner

By BOB THOMAS
HOLLYWOOD—Boston Blackie—that's Chester Morris—was in a tight fix. He was describing it between scenes of "Close Call for Boston Blackie." Morris naturally speaks rather rapidly, but he has to talk even faster to get in a conversation between scenes of a Boston Blackie picture.

"You see, Blackie is in this hotel room where a murder was committed," he said. "He's got to get out, but the inspector, the coroner and the photographers are there and the place is surrounded by cops. Now how does he do it? I'll count to ten."

He didn't need to count, because any amateur could figure out that he would stuff the corpse in the closet and hide himself on the coroner's stretcher. A shrewd guy, this Blackie.

If I gave you the impression that Boston Blackies are made in a hurry, I am sorry. But it is true, Chester said so himself.

It Kind Of Got Delayed

Declaration Of War Intended To Precede December 7 Attack

TOKYO, Oct. 25 (AP)—Fleet Admiral Osami Nagano—the man who gave the order starting the Pacific war—said today that a formal declaration of war was to have preceded Japan's attack on Pearl Harbor by one-half hour, but "for some unknown reason" the vital message was delayed in Tokyo.

The attack, he said in an exclusive Associated Press interview, "achieved far greater success than I had expected," and was not a military blunder.

Nagano, Japan's wartime chief of navy staff, accepted "full responsibility" for making the decision to attack, after a bitter internal controversy in which some admirals asserted that the plan was "too dangerous," he added.

He declared that he and other navy officers expected Japan's declaration of war to precede the attack on Pearl Harbor by 30 minutes. He did not elaborate on his comment that it had been delayed in Tokyo "for some unknown reason." His comment seemed to imply, however, deliberate stalling.

"Looking back on the fighting strength in the United States and Japan, I feel confident I made no mistake in issuing final orders to attack Pearl Harbor. Without its success, the Japanese would have been defeated earlier," he asserted.

The 65-year-old admiral, now living quietly on the edge of Tokyo, said he expected to be prosecuted as a war criminal for his share in the war, which he said included:

Breaking the deadlock between admirals urging that the first attack be made on Java and Malaya, and those advocating a first attack on Pearl Harbor;

Issuing orders for departure of the attacking fleet although the late Admiral Isoroku Yamamoto decided the sailing date, Nov. 26;

Issuing orders on Dec. 4 or 5 "to use our martial might on Dec. 8, 1941 (Tokyo time; Dec. 7, U. S. time)."

Death Of A Traitor Unnoticed In Paper

OSLO, Oct. 25 (AP)—One day after the execution of Vidkun Quisling the only interest Norwegian civilians showed in the death of the arch-traitor was to express regret that more details of his last moments were not made public.

Norwegian newspapers carried only a one-sentence announcement that the execution of the dictator had been carried out.

Mrs. Quisling, loyal to her husband until the last, is expected to receive his body. She is in seclusion and police refuse to disclose her address.
