Rudd may not be dis-
turb his hand in public too mu-
ch week, and he has a real
reason as they may have that
on hand look, as he found
Sunday how it was to be a
wife. He had dinner guests
Mr. and Mrs. H. I. Neeley of
Lubbock, Mrs. Dale Moore and
of Littlefield and Mr. and
Over Rudd, and it just so
Mrs. Rudd and daughter
vacationing. He said they
didn't say WHAT THEY
or how it TASTED. But I
Mrs. Rudd was welcomed ho-
hearty.

Marie Dock, arrived at Gar-
Club, Tuesday the same time
her car arrived, she wishing
size to the guest speaker
Lubbock, whom she hadn't
past over and introduced her
saying, I guess you're
Powers our guest speaker
Lubbock. (But it wasn't it
one of our local ladies, Mrs.
Hayley of Earth.) It's tricks
that keeps life from be-
ing.

Parents in town this
looked "forlorn and unrec-
ed." The Bill Kislingers for in-
sent their "Wee one" off
school for her first time to
KNOWLEDGE away from
ment. It happens just o-
right, that they grow up af-
starting to school. They come
from school, with the feel-
of a "superior brain" with the
of a regular Einstein, and
have to take over the duties
teaching their parents the
"HOW."

Someone in town was proud to
be that the billfold from the
Brook Bros. Grocery has been
with everything intact, no-
thing missing.

Mayor Bill Pope and Commis-
sioner C. P. Parish, stated
almost tearfully accepted the
resignation of Patterson from his
post as Mayor. And admitted
that they missed him at their
meeting Tuesday. Pope says after
the resignation being Mayor, he's
WEEK being Mayor, he's WE-
and he understands now why
he resigned.

Well none knows how a parent
feels about the children, but a
parent. When they're home all day
and noisy you wish for a
peace and QUIET, but just
school start and the first few
of the house is to quiet and it's
like a maelstrom. (They're what
the world go around.)

Fill at the last minute was feel-
ing the same as I, (or building
my morale) and he said, wish
I were a third grade teacher
I could have you for a teach-
er, and "maybe after you taught
for a third year you would know
how to teach the fourth and I
could go through school with
me. I told him how he would
know other teachers and
such. But it just goes to prove
that a child kinda has the same
feeling as a parent does, they hate
to have us too. (I sometime won-
der why.)

Fill immediately told his teach-
er he would prefer being called
"Dad" he thought he was about
old enough to be called that now.
What a big job he gave his father!
Wanting to be called "Dad"
he'd rather be like his father
than even the president.
(The love and devotion of little
children is to be treasured.)

E. Long, Field Representative, Southern Region, American Farm Bureau Federation will be one of the featured speakers at the policy development meeting in Earth, starting at 1:00 p.m. in the Labcock Hotel. C. H. Casey, vice president of the Farm Bureau will also be on "Current Agricultural

Issues." There will be plenty of time for open discussion and the public is invited to attend and take part.

Jarvis Angeley, director from Earth of the Lamb County Farm Bureau has invited all of the directors and their wives to his home for a chicken fry for their regular Board of Directors meeting.

This meeting will be the 8th of September and many important matters will be attended to.

Resolutions have been received from Pleasant Valley, Farm Bureau, Gerald Allison president and also Springlake Farm Bureau with Hilbert Wislan president. If you have any personal resolutions they must be in the office before the end of the month. If you live in a community where they are having a community meeting, you may submit your resolutions through them.

It is time to start thinking about the Texas Farm Bureau convention in Fort Worth. We have already received two names: A. L.

AUSTIN, Tex. — Many Texas public schools are holding integration plans in abeyance pending action by the State Supreme Court.

But there is no indication the high court will rush to consider the integration case ahead of its normal schedule.

District court there ruled invalid part of Texas law which requires public schools to be segregated. Appeal is being made by the Texas Citizens Council in an effort to prevent payment of state money to non-segregated schools.

Both sides had expressed hope for an early decision before the Supreme Court's October term.

Meanwhile, towns such as Waco and Laredo which had planned to begin desegregation this fall, backed off rather than take a "legal risk." Others, like San Antonio, decided to go ahead, but reserved the right to review the policy in the light of new state-level decisions.

CHARTER REQUEST STUDIED

Application of the anti-integration Texas Citizens Council for a state charter bumped into a delay in the Secretary of State's office.

Sec. of State A. M. Muldrow, questioned whether the council's organization is for a "lawful purpose" in view of the Supreme Court decision outlawing segregation.

Muldrow said he might ask the

Walthall, Olton and G. T. Sides also of Olton, that will attend. The convention will be held in the Texas Hotel in Fort Worth on the 6, 7 and 8 of November.

attorney general's department for a ruling.

WHITE DISTRUSTS RED VISITORS

State Agriculture Commissioner John C. White took a dim view of the visiting Russian farm delegation.

Farming methods are America's greatest strength, White said, but Russia's weakest. "We might as well sell them guns," he declared.

In Washington officials were undecided whether the Texans who sold some 65 head of Santa Gertrudis cattle to the visitors would be allowed to export them to Russia.

Touring Soviet expressed a desire to buy "fact" machinery in other parts of the country, but the Texas entry had been only actual purchase. At present there is only a trickle of trade between the two countries.

State, Commerce and Foreign Agriculture officials pondered the decision, suggested that public opinion would be a strong factor.

RECORD EMPLOYMENT EXPECTED

Harvest and reopening of school are expected to bring Texas new employment records during September.

Public school cafeteria workers will add thousands to the payrolls, said the Texas Employment Commission. A continued rise is forecast through the fall.

A new high in the average paycheck was hit in July, according to TEC. Holiday overtime plus wage increases brought the boost.

DRUGGISTS RECEIVE VACCINE

Texas druggists are having their

first experience in dispensing Salk polio vaccine.

State Health Department officials reported 59,000 doses sent to Texas last week by Wyeth Laboratories of Pennsylvania. Of these 42,000 go to drug stores, 8,000 to the Health Department for public agencies.

Some stores had already received vaccine; others were still awaiting their shipments.

Patients have asked to be asked to contact their doctors who will buy through the retail outlets.

Texas free immunization program for first and second grade children is expected to be completed by Oct. 1. Eli Lilly Company of Indiana sent 144,693 more doses to Texas for that purpose.

Health Department statistics showed polio coming to its seasonal slackening-off period. Only 80 new cases were reported last week, compared to 98 the week before. Total for the year is now 1195.

BUSINESS PEAK PASSED

Texas business expansion has apparently passed a peak, but no severe decline is expected.

Crest of the current rise was in March, the University of Texas Bureau of Business Research reported. In July the business index dropped two per cent from June.

Three factors, the UT economists believe, bar the possibility of a major recession. They are population growth, the rising standard of living and the high proportion of new investment being made in Texas.

Retail sales, already at record levels, are expected to soar further,

making this the largest sales year.

Building boomed also, with a January-July total almost one-third greater than for 1954. A two per cent drop in construction during July was considered "seasonal."

PARR TRIAL POSTPONED

Trial site of George Parr on awaits action by the US Supreme Court.

South Texas Political Boss Parr last week won an indefinite postponement of the case scheduled to begin Sept. 6 in federal district court in Austin.

Contending that he would receive a fairer trial in Laredo than in Austin, Parr seeks to have the case moved to the southern federal district. He was originally indicted in Houston on charges of falling to pay some \$25,000 in income taxes. This indictment was dismissed and an identical one entered in Austin.

Appealed by Parr, the charge was upheld by Circuit Court in New Orleans. A continuance was granted in Austin when Parr's attorneys filed appeals in the Supreme Court.

Newspaper Week

October 1 - 8

AUSTIN, Texas — Plans for an "all out" observance of National Newspaper Week, Oct. 1-8, have been announced by the Texas Press Association, according to TPA president, Russell W. Bryant, Publisher of the Italy News-Herald. A speakers bureau of more than 50 publishers from all sections of the state has been named by the association. Speakers will be available for appearances before all types of civic and social organizations during the week. Slogan for the 1955 observance of National Newspaper Week is "Your Newspaper Fights for your Right to Know." TPA hopes to impress upon newspaper readers the fact that newspapers need to obtain information in order to keep the Texas public an informed public. "Recent instances of misdealing by public officials never would have been possible if the newspapermen and women had had free access to public records," Bryant said. "It has been proven again and again that it is armed with the information on which to act." Organizations desiring to take part in the National Newspaper Week observance may make arrangements for speakers through their local newspaper publishers or by writing direct to the Texas Press Association, 1716 San Antonio Street, Austin. It is pretty hard for a man to think straight when all he has on his mind are curves. Best way for a man to stay single is never to attend his own wedding.

SOUP SCOOPS

As the youngsters troop off to school, be a peach. Mom... get surprises in their lunchboxes! Pear and apple sandwiches, half an apple, half a pear, joined with a toothpick. A vacuum bottle with hot tomato soup... in it a hot dog attached to a string for easy take-out. (Be sure to stick a bun in the lunchbox, too!)

For tiny tots, cut sandwich bread with animal cookie cutters, so they can look for a bunny, duck, or chicken. And use different breads... raisin, cracked wheat, date-nut. The hot food... soup! (A wonderful way to put milk in the meal.) So many condensed kinds, so many combinations. Here are soup-sandwich partners. Add the "extras" that please your moppets.
