

# The Memphis Democrat

MEMPHIS, TEXAS, THURSDAY SEPTEMBER 5, 1918.

NUMBER 12

## RE BURNS CELLINE BLOCK LOSS \$50,000.00

Buildings of Five in Block  
Destroyed. Lightning Bolt  
Thought to Be Cause

Buildings in the bank block  
were destroyed, with  
contents, Tuesday night dur-  
ing a storm. The fire is  
thought to have originated from  
a building on wires.

Buildings lost were two,  
one belonging to and oc-  
cupied by the Johnston Hardware  
company, one building, property  
of one building, property  
of one building, property  
of one building, property

citizens State Bank Build-  
ing by the bank and post  
was considerably injured  
contents were not hurt.

Loss was to Johnston  
Company, which lost  
and building. All of  
ings were of cement block  
except the bank,  
of brick.

Understand that the Hard-  
wood company had insurance to  
amount of about seventy-five  
and that the buildings  
were insured by insurance. The  
loss is estimated at about  
\$50,000.

Loss, coming as it does  
in a year's drought is a hard  
blow. Estelina; we have not  
whether it will be possible  
to rebuild.

Notice to Bathers  
to the lawlessness of a  
has been guilty of vari-  
ous while being on my  
supposedly for bathing,  
to stop all people from  
bathing or other  
This I very much regret  
not help. Permission to  
bathing is taking advan-  
ce unless very much to my  
is for all.

S. A. Bryant.  
Parade in Chicago.  
Sept. 2.—The largest  
of the local history of La-  
marched through the  
day headed by the Great  
val training school band  
The opening of the gov-  
war exposition was a  
of the celebration. Labor  
estimated there were 250,  
000.

Shot and Killed.  
Sept. 1.—Nikolai Len-  
Bolsheviki premier who  
twice by an assassin last  
night at Moscow, has died  
today, according to a tele-  
gram Petrograd received by  
the Foreign Telegraph company,  
of Copenhagen.

Notice.  
in First Aid and Home  
will start Tuesday Sept.  
at class for men in First  
aid class for the women,  
men are urged to take  
nursing as this is a  
to Foreign Service.  
See Dr. Mayes.

## SEPTEMBER 12 IS REGISTRATION DAY

All Men Between 18 and 45, Not  
Registered or in Army,  
to Register.

Washington, Aug. 31.—All men  
from 18 to 45 years of age in the  
continental United States, except  
those in the army or navy or al-  
ready registered, were summoned  
by President Wilson today to reg-  
ister for military service on Thurs-  
day, September 12.

Machinery of the Provost Mar-  
shal General's office was set in  
motion to carry out the second  
great enrollment under a presi-  
dential proclamation issued soon  
after the President had signed the  
new man-power act extending the  
draft ages.

It is estimated that at least 12,  
778,759 men will register his time,  
compared with nearly 10,000,000 on  
the first registration of men from  
21 to 31 on June 5, 1917.

Of those who enroll now, it is  
estimated that 2,300,000 will be  
called for general military service,  
probably two-thirds of the number  
coming from among the 3,500,000  
or more between the ages of 18  
and 21.

General March has said all reg-  
istrants called into the army will  
be in France before next June 30,  
swelling the American expedition-  
ary force to more than the 4,000,  
000 men expected to win the war  
in 1919. The last to be called will  
be the youths in their eighteenth  
year, but those of that age who de-  
sire and who have the necessary  
qualifications may be inducted in-  
to service on Oct. 1, for special  
technical or vocational training.

Registration this time will be  
conducted as heretofore by the  
local draft boards. All Federal,  
State, county and municipal offi-  
cers are called upon to aid the  
boards in their work, to preserve  
order and to round up slackers.  
All registrants will be classified as  
quickly as possible under the  
questionnaire system and a draw-  
ing will be held at the Capitol to fix  
the order of registrants in their  
respective classes.

In his proclamation, issued im-  
mediately after he signed the new  
man-power bill, the President called  
on the younger and older men  
to enroll on Sept. 12 with local  
boards where they make their per-  
manent homes.

"We solemnly purpose a deci-  
sive victory or arms," said the  
President, "and deliberately to  
devote the larger part of the mili-  
tary man-power of the Nation to  
the accomplishment of that pur-  
pose. It is the call to duty to  
which every true man in the coun-  
try will respond with pride and  
with the consciousness that in do-  
ing so he plays his part in vindic-  
ation of a great cause at whose  
summons every true heart offers  
its supreme service."

The hours of registration will be  
from 7 a. m. to 9 p. m. and all State  
and local officials are called on to  
make immediate arrangements for  
maintenance of registration places  
on that day.

All men within the new ages,  
whether citizens of the United  
States or not, must register, unless  
they are diplomatic or consular  
representatives of foreign nations.

## AGRICULTURAL FAIR CLUB PREMIUM LIST

Fair to Be Participated In By  
Girl's and Boys' Clubs To Be  
Held October 19.

Arrangements have been made  
and are in progress for an Agricul-  
tural Club Fair, to be held here on  
Saturday, October 19, by the  
Girls and Boys' Agricultural  
clubs, throughout the county.

Only members of these clubs  
will compete, a list of premiums  
follows:  
Best 10 heads Kaffir.....\$ 2.00  
Best 10 ears Corn..... 2.00  
Best 10 Red Dwarf Maize..... 2.00  
Second 10 Red Dwarf Maize..... 1.00  
Best 10 White Dwarf Maize..... 2.00  
2nd 10 White Dwarf Maize..... 1.00  
Best 10 heads Fetireta..... 2.00  
Second 10 heads Fetireta..... 1.00  
Best 10 heads Hegaria..... 2.00  
Second 10 heads Hegaria..... 1.00  
Best 3 vines Peanuts..... 2.00  
Second 3 vines Peanuts..... 1.00  
Best peek Black Eyed Peas..... 1.00  
Best peek Speckled Peas..... 1.00  
Best gallon String Beans..... 1.00  
Best bundle Sorghum..... 1.00  
Best 3 stalks Cotton..... 2.00  
Second 3 stalks Cotton..... 1.00  
Best trio Chickens..... 5.00  
Second trio Chickens..... 2.50  
Best trio Turkeys..... 5.00  
Second trio Turkeys..... 2.50  
Best Baby Beef..... 10.00  
Second best Baby Beef..... 5.00  
Best pig club Pig..... 10.00  
Second pig club Pig..... 5.00  
Best Mutton sheep..... 5.00  
Second Mutton Sheep..... 2.50  
Best yield per acre red maize..... 5.00  
Best " " white maize..... 5.00  
Best yield per acre Kaffir..... 5.00  
Best yield per acre Hegaria..... 5.00  
Best yield per acre Cotton..... 5.00  
Best yield per acre Sorghum..... 5.00  
Best yield per acre Peanuts..... 5.00

The County Agent will give a  
gold medal to the boy or girl win-  
ning the most prizes. All mem-  
bers contesting for the above pre-  
miums must present their record  
books to the county agent as re-  
cord books count toward prizes.  
A premium of \$2.00 cash will be  
given for the best kept book.

**FEED AT HALF RATES**  
Feed for Livestock Will Be Ship-  
ped to Drouth Districts at  
Low Rates.

Arrangements have been made  
with the Railroad Administration  
by the officials of the U. S. Depr-  
ment of Agriculture and Extension  
Service of A. and M. College  
of Texas, for the railroads to de-  
liver in car lot shipments, for live-  
stock in the drouth stricken sec-  
tion, under certain conditions, at  
one half regular freight rates from  
point of origin to destination as  
published in regular tariffs.

The railroads have granted a  
great favor to the farmers and  
stockmen of the Southwest. They  
have left details handling this mat-  
ter entirely in the hands repre-  
sentatives of this department.

Those desiring to take advan-  
tage of this special half-rate see  
L. M. Thompson, County Agent,  
Hall county, Texas. Office in the  
court house.

**Red Cross Wants Nurses**  
St. Louis, Sept. 3.—The South-  
western Division of the American  
Red Cross, composing the states  
of Missouri, Kansas, Arkansas,  
Oklahoma and Texas, has been asked  
by the United States Govern-  
ment to furnish 1,000 trained nurses  
in the next eight weeks for ser-  
vice in military hospitals here and  
abroad.

Persons acquainted with trained  
nurses are asked to urge them to  
enter the Government service and to  
encourage young women to enroll  
for training in hospitals as nurses.  
"The women of the Southwest  
have not hesitated to do their part  
in winning the war, and I know  
the women will meet this greatest  
of all demands made upon them,"  
said Miss Lydt Anderson, head of  
the Red Cross Nursing Bureau of  
this division, today. "Our soldiers  
in the trenches look to the women  
to aid them win this war and there  
is no greater calling for a woman  
than to give her service to her  
country in this time of distress."

## STORM DEMOLISHES HOUSE AND BARN

Tuesday Night's Storm Blows  
Away House and Barns  
on Thomas Place.

The rain and wind storm last  
Tuesday night destroyed a dwell-  
ing house, three barns and numer-  
ous small buildings on the A. E.  
(Tater) Thomas place near the  
mouth of Indian Creek, about  
eleven miles south-west of Mem-  
phis.

The residence destroyed was oc-  
cupied by Mr. Will Toone and  
family, who were protected from  
injury by taking refuge in a storm-  
cellar. The household effects of  
this family were totally destroyed.  
The storm was accompanied by  
a heavy rain which was general  
over this entire section of the state.  
The rain will be of much benefit to  
late feed crops and will help late  
cotton on the sandy-land. A good  
season is now in the ground which  
will make it possible to prepare  
land for sowing fall grain, and a  
large acreage will, doubtless, be  
sown to provide winter pasturage  
and save stock feed, which will be  
very scarce.

The rain will start a good crop  
of grass and will put the ranges in  
good shape for winter unless frost  
should come unusually early.

**DEMOCRATIC CONVENTION**  
Ratifies Primary Nominations and  
Adopts Resolutions of Plat-  
form Committee.

Waco, Sept. 4.—Governor W. P.  
Hobby was formerly nominated by  
the State Convention this after-  
noon, amid great enthusiasm.  
Following the nomination of Hobby  
as the candidate of the Democracy  
for Governor the convention ratif-  
ied the primary nominations of  
all other State officials and  
adjourned.

All the resolutions presented by  
the Platform Committee were un-  
animously adopted. These include:  
The convention unanimously  
adopted the resolutions submitted  
by the platform committee. These  
include:  
Asking Senators and Represent-  
atives to ask for \$50,000,000 for  
drouth sufferers of the State.

Instructin Secretary of State to  
refuse to certify to nomination of  
Arch Parr in the Twenty-third  
Senatorial District, and to certify  
instead name of D. W. Glascock;  
asking for further purification of  
ballot, to make impossible repeti-  
tion of condition in Duval County.

Indorsing report of committee  
appointed, recommending abolish-  
ing of officers and departments  
designed to save for the State  
\$1,000,000 yearly.

Asking repeal of the law which  
forbids soldiers, marines and sea-  
men from voting. Urge constitu-  
tional amendment exempting these  
from poll tax payments discharged  
after Jan. 31 from army or navy  
duty.

Requesting law so as to permit  
venue to Travis County in cases  
involving election law violators  
where a penalty accrues.  
Commanding laws prohibiting use  
of German language in public  
speeches, newspapers, or circulars.  
Calling for an effective blue sky  
law.  
Asking that gas and pipe lines  
be made common carriers and  
placed under control of the Rail-  
road Commission, with power to  
regulate pipe line rates.

## STUDENTS TO BE MOBILIZED OCT. 1

Tuition, Subsistence and Pay of  
Private Will Be Allowed  
Each Soldier.

Washington, Sept. 1.—Members  
of the students' army training  
corps, consisting of youths be-  
tween the ages of 18 and 21, will  
be mobilized Oct. 1 at more than  
three hundred colleges selected  
for that purpose by the war de-  
partment, according to details of  
the plan announced. The mem-  
bers of the students army training  
corps will be "soldiers on active  
duty," a statement issued by the  
war department says.

Upon their induction into ser-  
vice their subsistence, quarters,  
clothing and tuition will be pro-  
vided by the government, and the  
student soldiers will receive the  
pay of privates in the army. High  
school graduates will be eligible  
to the collegiate training division  
of the corps, and grammar school  
graduates may be transferred to  
the new divisions, and those show-  
ing special qualifications will be  
sent to officers' training schools.

Others will be assigned to non-  
commissioned officers' schools. In  
its statement, advises youths now  
ready for college entrance or al-  
ready enrolled in a college to ad-  
here to their plans and obtain vol-  
untary induction into the corps.

"Students will not ordinarily be  
permitted to remain on duty in  
the college units after the majority  
of their fellow citizens of like age  
have been called to military ser-  
vice at camps. Exception to this  
rule will be made as the needs of  
the service require in the case of  
the technical and scientific stud-  
ents who will be assigned for long-  
er periods for intensive study in  
special fields."

Colonel Rees goes on to explain  
that for the present no units will  
be established in secondary schools.  
"The new military program as  
outlined by the Secretary of War,  
calls for the increase of the army  
by more than 2,000,000 men by  
July 1, 1919. This physically fit  
registrants under 21 within ten  
months from this date.

With respect to students, since they  
are not to be made in any sense a  
deferred or favored class, this  
means that they will practically be  
assigned to active service in the  
field by June, 1919. The only ex-  
ceptions will be certain students  
engaged in technical studies of  
military value, e. g., medicine, en-  
gineering and chemistry.

**The Fourth Liberty Loan.**  
The campaign for the Fourth  
Liberty Loan begins September 28  
and closes October 19. While the  
amount has not yet been announced  
it is generally conceded it will be  
for a larger amount than any of  
the preceding loans. The Ameri-  
can people, therefore, are called up-  
on to raise a larger sum of money in  
a shorter length of time than ever  
before. There is need, therefore,  
for prompt action—prompt and effi-  
cient work and prompt and liberal  
subscriptions.

We have a great inspiration for  
a great effort. The news from the  
battle front inspires every Ameri-  
can heart, not only with a great  
incentive to do his or her part.  
There is no shirking, no shifting of  
the individual burden, no selfish-  
ness by American soldiers in  
France; there should be none  
here. We are both supporting the  
same country and the same cause  
—our Army in one way, ourselves  
in another. Theirs is the harder  
part, but at least we can do our  
part as promptly and loyally and  
efficiently as they do theirs.

enforcement of the work-or-fight  
draft order; making manpower  
available; survey of election laws;  
simplification of the ballot; limit-  
ing campaign expenditures by  
candidates and others; law pre-  
venting placing names of disquali-  
fied candidate on ballot; drouth  
relief; repeal of fee law; teaching  
fire prevention in public schools;  
increased construction of high-  
ways.

## RECOGNITION IS EXTENDED CAVALRY DRAFTING STOPPED

Local Troop Notified Last Thurs-  
day of Federal Re-  
cognition.

Troop II, the local organization  
of the Panhandle cavalry, received  
notice from the Brigade headquar-  
ters at Dallas, last Thursday after-  
noon that the Fourth and Fifth reg-  
iments of Texas cavalry had received  
Federal recognition and designa-  
tion for draft into the service of  
the United States. These two reg-  
iments are the last of six compris-  
ing the First and Second brigades,  
recently organized, to receive simi-  
lar recognition, which has the ef-  
fect of stopping the operation of  
the draft, which has taken many  
boys recruited by the cavalry since  
its organization.

Captain Dalton of the local troop  
now has seventy-three men out of  
total of about 140 recruited, and  
the extension of recognition stop-  
ping this attrition is, of course, wel-  
come news.

Federalization of the cavalry  
will come by a draft order from the  
President, which order will be  
made when arrangements for  
equipment, training camp, etc.,  
have been completed by the war  
Department.

The boys belonging to Troop II,  
were highly elated and celebrated  
the news by ringing the bell at  
the armory until nervous people  
in that vicinity protested.

A part of the members of the  
troop were called in Sunday to  
fill out descriptive cards, others  
will be called next Sunday, that  
day of the week being selected so  
that it will be possible for those  
of the boys who have employment  
to come without interference with  
their work. (Work has been scarce  
and care is taken to give no orders  
that may jeopardize any cavalry-  
mans job. Cards of identification,  
including finger prints, are also to  
be filled out as fast as it is possible  
to assemble the troopers.

**Exportation of Silver.**  
The melting down of the silver  
dollars in the United States Treas-  
ury and the exportation of the bar  
silver resulting and other silver  
bullion possess great interest to  
the average American citizen.

Most of this silver bullion is sent  
to India, whose people have a  
strong prejudice in favor of metal  
money, and India is exporting a  
vast amount of material used in the  
war by England and France and,  
in fact, all the entente allies, and  
including ourselves.

To pay for these goods in the  
money desired by the people of  
India caused a tremendous drain  
on the supply of silver of entente  
allies, and to meet this urgent de-  
mand the United States has taken  
the great amount of silver bullion  
and silver dollars lying idle in its  
Treasury and is exporting it to  
India to be used in paying for war  
supplies. Something like a hun-  
dred million silver dollars have  
been melted down and exported.

What great assistance it was to  
the allies, including the United  
States, is shown by the statement  
of Sir James Meston financial mem-  
ber of the Viceroy's Council, who  
is reported as saying:  
"Probably few people in Ameri-  
ca realize how vitally important  
to India and to India's share in the  
war was the legislation passed in  
Washington releasing large quanti-  
ties of silver for use in alleviating  
the currency situation there. For  
this action India as well as the Brit-  
ish Empire and he allies owe a debt  
of gratitude to the United States  
which it is hard to overstate."

**REGISTER ON SEPT. 12.**  
See that others of the pro-  
per age register. This is a  
part of your patriotic duty.  
Every man between 18 and  
45, both inclusive, who has  
not already registered, must  
come forward, and show his  
willingness to help over-  
throw the common enemy.

**HOW PRICES ON FOOD STUFFS ARE STABILIZED IN TEXAS**

**What is a Federal Price Reporter?**  
A man or woman appointed by Administrator Peden to check prices as charged by retail merchants for licensed commodities of foodstuffs.  
**What is their duty?**  
To check the stores in their respective communities not less than once a week on forms sent out by the Price Section of the Federal Food Administration for Texas.  
**How many are there in Texas?**  
The list for August shows 300 names, but it is growing daily. Appointments are based on population and the plan is to have one reporter for each town of 1500 or over; two for each town of 5000 or over; three for each town of 7500 or over; four for each town of 10,000 or over; and so on adding one Price Reporter for each 2500 additional population.  
**How are the Price Report blanks checked?**  
Every retail store should be covered by the Price Reporters at least once a week, and as near a check made upon every community as possible. When the reports are received by the Price Section at State headquarters for the Federal Food Administration for Texas, the lists are checked against the Price Interpreting Committee fair price lists for the district in which they originate, and where there is evidence of excess profits the County Administrator is notified of the name of the offender, the date of the offense, and the person making the check. An adjustment is then up to the County Food Administrator.  
**How are the Price Reporters correlated with the Price Interpreting Committees?**  
Wherever possible the County Food Administrators should link the Price Reporting Committees with the Price Interpreting Committees. The two departments should work in close harmony and Price Reporters should thoroughly familiarize themselves with the interpretations of the Price Interpreting Committees, noting carefully the changes from week to week, and understanding the economic factors which enter into these changes. To not so UNDERSTAND is to miss completely the viewpoint and to render the work insufficient.  
**Are Price Reporters volunteers?**  
Yes—just as the Food Administration is essentially a volunteer work. There is no higher following today than that of Service to the Nation in one field or another, and men and women who are designated as Price Reporters should accept their appointments in the same spirit as the man entering the army under the Selective Draft reports for duty and remains "on the job" until the war is won.  
**Is the Price Reporter put to any personal expense?**  
No. He is supplied with all the necessary forms and each week a supply of envelopes addressed to the Price Section is mailed out. The supply may be increased or diminished according to the needs of the Price Reporters.  
**What has been the result of the work of the Price Reporters in Texas?**  
The result has been that the work of the Price Interpreting Committee in stabilizing prices on licensed food commodities has been sustained in a large degree and merchants who failed to observe the Fair Price Lists have come to understand that such failure will no longer be countenanced. Furthermore, the plan as working in Texas has been so effective that it is fast spreading to other States.

**NO RE-SALE OF EGGS WITHIN THE TRADE**  
The United States Food Administration recognizes the following classes of dealers in fresh eggs: (1) Original packers and shippers, (2) Commission merchants and wholesalers, (3) Jobbers and suppliers of hotels and institutions, (4) Retailers. All trading in fresh eggs must contribute toward moving the eggs in a direct line to the consumer. Sales between dealers in any one of the classes mentioned are prohibited except as follows:  
Sales between wholesalers in different cities will for the present be permitted where necessary to supply the reasonable requirements of the buyer's business, provided there is an actual shipment of the goods, and provided the movement between cities is in the direction of normal crop movement from producer to consumer. In addition thereto not more than two sales of any lot of fresh eggs between dealers in Class 2 may be made without obtaining the consent of the Local Federal Food Administrator if such sales are necessary to supply the reasonable requirements of the buyer's business, but more than two sales between dealers in Class 2 shall not be made without the written consent of the Local Federal Food Administrator. One sale, and only one, between dealers in the same class other than Class 2 may be made without obtaining the consent of the Local Federal Food Administrator if such sale is necessary to supply the reasonable requirements of the buyer's business, but more than one such sale shall not be made without the written consent of the Local Federal Food Administrator.  
In no case shall a dealer sell fresh eggs to any dealer in a class further removed from the consumer than the class in which the seller is included; for example, a jobber shall not sell to a wholesaler, or a jobber to a wholesaler.  
Any person ignoring the above ruling may expect to have his business suspended or closed without delay.

**TO HANDLE COTTON SEED FIVE ZONES ARE FORMED**

**SCHEDULE OF BASIC YIELDS ARE GIVEN.**

Effective August 1, in order to better handle cotton seed and its products, the State of Texas has been divided into five zones by Administrator Peden, as follows:  
Zone 1 includes all counties east of Pannin, Hunt, Rains Van Zandt, Henderson, Anderson, Houston, Trinity, Polk, Liberty and Chambers counties.  
Zone 2 includes all counties south of Liberty, Montgomery, Grimes and Washington counties and east of Fayette, Lavaca, Jackson and Calhoun counties.  
Zone 3 is bounded on the east by zone 1 and on the south by zone 2, on the west by the eastern line of Fayette, Lee, Williamson, Burnet, Lampasas, Mills and Comanche counties, and bounded on the north by the southern lines of Erath, Semerville, Johnson, Ellis and Henderson counties.  
Zone 4 is bounded on the east by zone 1 and on the south by zone 3 and on the west by the eastern lines of Comanche, Eastland, Stephens, Throckmorton, Knox, Notley, Briscoe and Armstrong counties.  
Zone 5 includes all counties west of zones 4, 3 and 2.  
Basic yields, effective August 1, are as follows:  
Yield of 540 pounds of hulls and 145 pounds of lint for all zones. Oil yields 29, 38, 37, 38 and 35 gallons for zones 1, 2, 3, 4 and 5, respectively. Cake yields, 920, 930, 940, 930 and 960 pounds for zones 1, 2, 3, 4 and 5, respectively. The point of origin determines the zone.  
Notice has been sent to all cotton seed crushers of the zone plan, and in addition Washington instructs that all mills are to buy seed at market price. Seed dealers are to pay back to farmers all excess profits allowed in circular No. 40. Violators of circular 40 or other rules should be summoned for hearing immediately.

**MICKIE SAYS**  
IF PEOPLE'D JUST STOP T' THINK THAT ADVERTISING IS THE NEWSPAPER MAN'S STOCK IN TRADE, THEY'D NEVER TRY TO OIT IT FER NOTHIN' LIKE THEY DO SOMETIMES. NO MORE THAN THEY'D ASK THE GROCER FER A FREE SACK OF FLOUR!

**Used 40 Years**  
**CARDUI**  
The Woman's Tonic  
Sold Everywhere

**WHAT MR. LORD SAYS**

Is Surely of Interest to Democrat Readers.  
Memphis people are always interested in the statements of Memphis residents. And this is particularly true when a man so well known as Mr. Lord speaks. Those in Memphis who suffer from backache and headache and other kidney ills will make no mistake by following Mr. Lord's example.  
J. H. Lord, stationary engineer, Fifteenth St., Memphis, says: "I suffered from pains in my back and the kidneys secretions were too frequent in passage. It only took a few boxes of Doan's Kidney Pills procured at Hart's Drug Store to cure me and I haven't had any trouble since."  
Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Lord had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

**OH! MY BACK!**

The Expression of Many a Kidney Sufferer in Memphis.  
A stubborn backache is cause to suspect kidney trouble. When the kidneys are inflamed and swollen, stooping brings a sharp twinge in the small of the back, that almost takes the breath away. Doan's Kidney Pills revive sluggish kidneys—relieve aching backs. Here's Memphis proof:  
J. W. McIntush, S. Sixth St., Memphis, says: "I have used Doan's Kidney Pills off and on for a number of years with excellent results. My back was so weak and lame sometimes, I could hardly lace my shoes in the morning. I felt tired out, languid and had dizzy spells. Doan's Kidney Pills, procured at Tomlinson's Drug Store relieved me in a short time."  
Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. McIntush had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

**22 Million Families in the United States**  
**4 CUPS OF WHEAT FLOUR TO THE POUND**  
If each family used 4 cups of flour less per week, the saving would be 22 million pounds or 112,244 barrels every week.  
The greatest help housekeepers can give to win the war is to make this saving and it can be done by using this recipe in place of white flour bread.  
**Corn Meal Biscuits**  
1/2 cup scalded milk 1/2 teaspoon salt  
1 cup corn meal 1 cup white flour  
2 tablespoons shortening 4 teaspoons Dr. Price's Baking Powder  
Sift 1/2 cup of the measured flour for board. Pour milk over corn meal, add shortening and salt. When cold, add sifted flour and baking powder. Roll out lightly on floured board. Cut with biscuit cutter and bake in greased pan fifteen to twenty minutes.  
New Red, White and Blue booklet, "Best War Time Recipes," containing many other recipes for making delicious and wholesome wheat saving foods, mailed free.  
**DR. PRICE'S CREAM BAKING POWDER, 1011 Independence Boulevard, Chicago**  
**FOOD WILL WIN THE WAR**

**FARMERS URGED  
RAISE WHEAT**

Twelve Pounds a Month  
Each Person in Family.

There are two distinct classes of producers in Texas—those in the eastern part of the State, who are in the habit of raising wheat for commercial purposes, and those in the western sections of the State who, in the last year, planted sufficient wheat to feed themselves and those dependent upon them. This latter class, the Food Administration announces, should arrange for sufficient wheat for their crops to feed their families for the coming year on a basis of twelve pounds per month per person, and the only reason they planted in the use of wheat last year was so short of wheat that the government could take the obligations in the army, navy and allied countries.

It is the policy of the Food Administration, states Administrator Peden, that all farmers, wherever possible, should raise sufficient wheat for their own consumption and those dependent upon them. If there is any other crop it should be corrected at once.

The public may rest assured that the Food Administration is doing everything it possibly can for producing wheat for home consumption, and the only reason they planted in the use of wheat last year was so short of wheat that the government could take the obligations in the army, navy and allied countries.

It is the policy of the Food Administration, states Administrator Peden, that all farmers, wherever possible, should raise sufficient wheat for their own consumption and those dependent upon them. If there is any other crop it should be corrected at once.

**QUANTITIES FOR FOREIGN  
USE BEING CONDENSED.**

Consumption of Milk, Especially  
in Large Cities, Is Decreasing—Much Cheese in  
Storage.

Of the milk produced in the United States, 40 per cent is now used as fluid milk; 40 per cent goes into the making of butter, and the other 20 per cent into the making of condensed milk, cheese, ice cream and so forth.

The condensing facilities of the country, owing to the foreign demands, have more than doubled in the past two years. While this is a desirable result, unfortunately, at the present time, the allocation of shipping for export given to this produc-

tion is only about one-third the manufacturing capacity. The exports last year jumped 100,000,000 pounds, reaching a total of 259,000,000 pounds.

Figures recently obtained by the United States department of agriculture show an increase of 390,000 head in all milk cows of the country in the last year. While the increase is small, the fact that there was any increase at all is taken as a very helpful sign for the future. The increase of heifer calves, between the ages of 1 and 2 years, totals 1,185,000, and this speaks well for future production of milk.

Storage figures indicate a rather large supply of cheese in this country. However, the allied countries have purchased very largely of this stock, but have, as yet, been unable to transport it. The available sup-

ply of cheese, therefore, is really considerably less than is indicated by these figures.

With a slightly increased milk production, there has been a rather notable decrease in consumption. This is especially true of the larger centers of population where the increase in price over last summer averages over 40 per cent to 45 per cent. One of the first reactions of the increased price in some of the larger cities was an immediate decrease in consumption, and this still remains materially below normal.

There can be no doubt as to the merit of Cardui, the woman's tonic, in the treatment of many troubles peculiar to women. The thousands of women who have been helped by Cardui in the past 40 years, is conclusive proof that it is a good medicine for women who suffer. It should help you, too.

Take  
**CARDUI**  
The Woman's Tonic

Mrs. N. E. Varner, of Hixson, Tenn., writes: "I was passing through the . . . My back and sides were terrible, and my suffering indescribable. I can't tell just how and where I hurt, about all over. I think . . . I began Cardui, and my pains grew less and less, until I was cured. I am remarkably strong for a woman 64 years of age. I do all my housework." Try Cardui, today. E-76

FOUND—Hub-cap for Hudson car. Owner may recover same by calling at the Democrat office and paying 25 cents for this notice.

Herman Durham and James Franks left Tuesday for Camp Bowie; the were inducted into service by the Local Board as limited service men.

Marriage licenses issued by the county clerk wherein Camp Cody, N. M. soldiers are one of the high contracting parties, average slightly more than four per day.

A good rain, about one and one-half inches, fell here Monday night. We understand that considerable fell between here and Quanah, breaking an extended drouth in that section.

I have in style books and goods for suits, coats and skirts, made to measure. Six per cent off till the 10th. Come in and be measured for one of these new style garments while the high grade materials can be had at reasonable prices. I will bring samples to your home on request. Mrs. N. C. HEROD.

J. W. Cochran, of Childress here a short while Monday. Cochran served as sheriff of Hall county for a number of years. We understand that Mr. Cochran is being considered for appointment as United States Marshal of this district.

I understand that a new gained currency that I have my tailor shop; such rumors and without foundation. I am still in business and moved to the Sloan building door to Pool's. I will be glad to serve you in the past. King, The

## Here's an Interesting Experiment to Prove It.

With cheap stove coal, build a fire in the Round Oak Double Burner. Turn on the double hot-blast draft and, through the mica in the door, you will see the smoke turn white and then disappear. The double hot blast burns the carbon in the smoke. It converts it into heat units, and the heavy boiler-iron body radiates them directly in the room. The Round Oak cone-center grate prevents the formation of clinkers. The seamless base and ground draft guarantee absolute control.

These are a few of the many reasons why you should investigate the genuine ROUND OAK DOUBLE BURNER before considering any other heater. If it is a Round Oak Double Burner, it is the best.

Then remember that we are back of this stove and guarantee that it will use less coal, last longer, give more heat in the room and less smoke and soot in the room than any other Hot Blast stove made.

## NEW READY-TO-WEAR

We have not experienced the usual delay in delivery this season that we generally encounter on ladies' Suits, Dresses, Coats, etc. We have already received and have on display a magnificent collection of the newest creations just out of New York and other fashion centers. We would encourage early buying: first because you can get the pick of the line; second, because later in the season all manufacturers claim that materials will be short and that prices will have to advance. Our stock of Ready-to-Wear, while showing some advances over last season, do not show anything like the advance you would expect and which the the prices on the piece goods would justify.

Our collection of plush coats in the Bischof and the SFH makes is varied and represent the very latest style effect and are very reasonable price at \$30, \$32.75, \$45, \$54.75 and..... **\$60.00**

Silk and satin dresses, some very unusual and distinctive models, much better garments than we have shown in former seasons. Price, \$22.50 to..... **\$62.75**

Serge and combination dresses, fifty to select from at present, all the good shades, all sizes, practically as cheap as when materials were at old prices, \$14.75 to..... **\$42.75**

High grade velour coats with plush and fur collars, in Nigger Brown Navy, Burgundy, Taupe, Poilu Blue, etc., at \$25, \$35 and..... **\$37.50**

Ladies coat suits from Bischof, Karp Bros., M. Edison, and three other well known New York Designers our assortment too varied to go into detail—but by far the best selection we have ever offered our customers. Prices \$20, \$25, \$32.75, \$42.50, \$62.75 and..... **125.00**

Cloth coats, all kinds, all grades, and excellent values for the price at from \$7.50 to..... **\$25.00**

We are showing an unusual collection of fine blouses, petticoats, underwear, etc.

**Greene Dry Goods Company**

"The Big Daylight Store"

MEMPHIS

TEXAS

**AND THE WINTER OPENINGS**

Questions For This Season Are Favored Color.

There is one consolation that accompanies the presentation of styles in summer weather. It is the deliciously stimulating atmosphere of the store. That is, it stimulates our sense sufficiently to actually make ourselves in these clothes. We feel the atmosphere of the store with us. So you see the openings in the heat of the season are really worth while.

We have a girdle and thereupon tack on some gorgeous black silk fringe to give the desired finish. And I assure you it is the secret of the designer not to be penetrated, the capricious something which we must term tunic. The majority of the tunics when undraped are quite long, some even extend to the hem of the skirt. The one illustrated here is of the panel variety and is in one piece from the shoulder to the hem. It is developed in satin and serge.

**Appreciation of Separate Blouse**  
At last women have found a place for the separate blouse. Probably it is the Georgette that fascinates. For since this fabric has been used the supply of blouse runs far below the demand. How alluring is a thin, dainty, faintly tinted blouse with a velvet skirt. The distinct contrast emphasizes the sheerness of the blouse and doubles its attractive appeal.

**The Separate Skirt and Blouse.**

The jumper effect is very popular for suit or dress wear. One of the shops is showing a charming model in this style. The blouse itself is beige with front and back over-piece of violet. By slitting the over-piece in front so that it hangs in two points over the skirt the blouse is instantly made different.

**A Word About Skirts.**  
It is necessary when speaking of separate blouses. There is not of course the wide selection that there is in blouses to chose from, but still each retains some characteristic which sets it apart from all others. Some very good looking sports skirts re of plaid woolen material and dresser models are seen in chiffon velvet. The illustration shows a delightful blouse with an equally attractive skirt in combination for sports or street wear. The belt and novelty pockets are worthy of note.

**President's Speaking Tour**

Washington, Sept. 2.—Under the tentative program for President Wilson's fourth Liberty loan speaking tour the President probably will leave Washington about Sept. 30 to be away throughout the three weeks of the loan campaign period. In a swing that may carry him to the Pacific coast he expects to make stops in nearly every section of the country.

**Notice!**

I have bought the Henry Newman Tailor Shop, on the South Side Your cleaning, pressing and alteration work will be appreciated. If your clothes don't fit let me change them.  
Ross, the Tailor, Phone 3.

We now have 230 suits and 100 trousers in our store to select from If you are looking for values, it will pay you well to see them before you buy. L. McMILLAN.  
**Pay Your Red Cross Subscription**

You who are delinquent to the Second Red Cross War Fund are requested to make your payments at once and save the Red Cross further expense and trouble.  
D. L. C. Kinard, Treas.

I will be glad to show my new fall samples of dress goods, ginghams, silks, serges, ottoman, etc. Six yard patterns on hand for sale. Phone 102 and 176.  
Mrs. N. C. HEROD

The total subscription to the American Red Cross War Fund in the Southwestern Division, including Missouri, Kansas, Oklahoma, Arkansas and Texas, has reached \$17,662,000, figures compiled on August 15, last show.

**TAKE IT IN TIME.**

**Just as Scores of Memphis People Have.**

Waiting doesn't pay. If you neglect kidney backache, Urinary troubles often follow. Doan's Kidney Pills are for kidney backache, and for other kidney ills.

Memphis citizens endorse them. Mrs. L. O. Pool, East Main St., Memphis, says: "My back was weak and lame and the action of my kidneys was irregular, causing me annoyance. I used Doan's Kidney Pills, procured at Tomlinson's Drug Store, and in a short time they rid me of the complaint."  
Price 60c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Pool had. Foster-Milburn Co., Mfgs., Buffalo, N. Y.

Mr. E. T. Dudley, of Bayor neighborhood was here Friday on his way to Donley county with some cattle which he was moving to grass, pastures being exhausted because of the continued drouth. He said that his son, O. B. Dudley, who left for the training camp in June was now in the...

**Scientifically Considered.**

"I think a man derives his mentality and character from his mother," remarked the student of heredity.  
"Then," commented Miss Cayenne, "the mother of a slacker must have been one of those girls who manicure their nails and eat chocolates while mother does the housework."

**Professor of Profits.**

E. Dana Durand, professor of political economy at the University of Minnesota is a tool of the packers and in their pay as was disclosed beyond all question at the recent investigation. Yet he still holds his position and draws pay from the state for misdirecting the minds of the young.

since the days of Jacob and Joseph.

"In May, 1917, the difference between the price the farmer got for his wheat and the price the wholesaler got for the flour was \$5.68 a barrel. The difference in May, 1918, was 64 cents a barrel.

"As for sugar, the average wholesale price for refined sugar is 7.3 cents a pound. One year ago it was 8.33 cents a pound, a decrease of 12 per cent. The margin between the price of raw and refined sugar has been decreased from 2 1/2 cents a pound to 1.3 cents a pound. And this in spite of the fact that sugar offered unprecedented opportunities for speculation. During the civil war sugar went to 30 cents a pound when there was no world shortage. The retail price of sugar is less than one-third that price, and there is a world shortage such as has never existed since the world began eating refined sugar.

"A rise of 1 cent a pound in the price of sugar costs the American public \$50,000,000. A rise of 20 or 30 cents a pound costs thirty or forty times \$50,000,000. Had the Food Administration not stepped in and saved the sugar situation, the American public would have been billions of dollars poorer today, or the poor would have gone without sugar while the rich would have eaten it all.

"So the Food Administration admits it pays the taxpayer. It admits that it has saved the consumer enough to oversubscribe all the Red Cross drives and possibly all the Liberty Bond drives as well. Speculators would have gotten those billions had the government not interfered."

**U. S. INSURANCE GAINING.**

All railroad insurance except fidelity bonds of employees handling cash, is to be allowed to lapse, according to an announcement of Director-General McAdoo recently.

This means that the government controlled railroads have ceased to pay the enormous tribute formerly going to private insurance companies and that undoubtedly the government intends to do its own railroad insuring at cost by setting aside a fund to pay the losses usually handled by insurance companies. Several state governments have already adopted this policy in the operation of state utilities.

The Federal Government is also working out a plan by which all munition plants can be insured by a Federal Bureau at cost. The Nonpartisan League has always advocated this principle.

**DOES THE FOOD ADMINISTRATION PAY? THE ANSWER**

**A BRIEF RESUME OF HOW SUGAR AND FLOUR HAS BEEN KEPT WITHIN THE BOUNDS OF CONSUMER DURING YEAR ENDING MAY 31, 1918.**

Does the Food Administration pay?

Here is the answer of the Food Administration:

"The chief job of the Food Administration is to feed the allies and our soldiers.

"Saving of money to the consumer is a secondary job. This money is saved through the elimination of speculation, through elimination of profiteering, and through stabilization of all food prices. In general, the Food Administration claims to have steadied all food prices by keeping the public informed of the presence of cheap and abundant foods, such as potatoes, and by urging conservation of less abundant foods, particularly those foods which can be shipped abroad. Two important foods may be taken as example. They are wheat and sugar.

"Herbert Hoover was appointed Food Administrator May 15, 1917. On that day flour sold at \$16.75 a barrel f.o.b. Minneapolis. One year later it sold for \$9.80 a barrel, or a decrease of 41 per cent. That reduction came in the face of the greatest world-wide wheat shortage ever known

### INVESTMENT PAYS LARGE DIVIDENDS

"What are you grinning about, Bill?" asked Sam, as the two friends met in front of the postoffice. "Did you find an oil well out in your field, or did a rich uncle die and leave you a million or so? Why all the happiness?"

"I've just gotten news that an investment I made turned out fine," enthusiastically replied Bill, "and I am as happy as an elected candidate. Wouldn't you be feeling pretty good if you had gotten that kind of news?"

"What kind of an investment was it?" Sam wanted to know. "Land? Cotton?"

"Not exactly," Bill said. "Didn't you read the paper?"

"Yes," but I didn't see anything about investments," declared Sam.

"Well, didn't you read the war news?" asked Bill. "Didn't you see the great news about the Americans and the French knocking the spots out of the German lines? You must have seen that list of prisoners and guns captured and the territory we gained."

"Oh, sure I saw that, and it looked mighty good, but what's that got to do with your investment?"

"Why, that's the investment. That's what I'm feeling so good about. I put my money in those boys, Sam, and I'm getting my money's worth," Bill replied.

"What do you mean? Invested in our soldiers? I don't get the point," said Sam, looking puzzled.

"Of course you see it," answered Bill. "I invested in our boys by lending my money to the Government. I bought War Savings Stamps, put a wad of the money my cotton and peanuts brought me in them. I paid my W.S.S. Pledge and the Government put it in bayonets, rifles, cartridges and food and told those old huskies over there to do the rest. They are doing it mighty well, too. Those Germans are running over themselves to keep out of the way. My War Savings Stamps are helping lick 'em and in just a little while the Government will give me back my money with interest. Sure I'm happy over my investment. Come on, let's go down to the bank and pay your W.S.S. Pledge so you can get in on the next big drive over there."

"I'm with you," declared Sam, fingering his pocketbook.

#### WHAT W.S.S. WILL DO.

The \$91,000,000 that loyal Texans are called upon to invest in United States Government War Savings Stamps by December 31, 1918, will build four battleships like the U. S. Texas, with enough over to construct a whole flock of destroyers. The battleship Texas is the largest superdreadnought ever built by the United States.

Pay the W.S.S. Pledge you made the President. Invest in more War Savings Stamps.

#### SOLDIERS PAY PLEDGE.

Seventy-six Texas boys have been killed in France. They gave their all. They paid the great pledge—they paid with their lives. You are pledged to pay in United States Government War Savings Stamps. They gave their all. It is up to you to lend all you can and pay that pledge and go your limit for more W.S.S.

## PROFITEERS WOULD POISON SOLDIERS

### Two Packing Companies Charged by Federal Men With Selling Army Spoiled Meat.

That the disloyalty of the profiteers knows no bounds and that they do not even hesitate when the health and lives of our soldiers are involved, has been demonstrated by latest revelations concerning two big Chicago packing companies, charged by the Federal Trade Commission with selling tainted meat to the United States armies in Texas.

Regarding these charges, the Federal Trade Commission has authorized the following statement.

"Complaints have been issued by the Federal Trade Commission, making the serious charge against Wilson & Co. that they have sold and offered to sell meat and other food products to the government with the knowledge that these products were to be used as food for American soldiers and that these products were spoiled and unfit for human consumption.

#### Spoiled Meat For Sale.

"Thousands of pounds of unfit meat were offered for sale to Camp Travis, Texas, according to the information on which the complaints are based. Indictments were returned against the two packing concerns by a grand jury in the United States District Court for the Western District of Texas, charging violation of the fourth section of the food law, but these indictments failed. It was found that no penalty for violating this section of the food law has been provided.

"The Federal Trade Commission has been informed that in addition to spoiled and unfit beef, the National Army Cantonment at Camp Travis was offered chickens for sale which were unfit for human consumption."

It was the profiteers who started the false charges of disloyalty against the Nonpartisan League because, in view of the war, it demanded that all profiteering cease. We doubt if any paid agent of the kaiser ever plotted anything more infamous than this traitorous and treacherous blow at the vitals of our unsuspecting soldiers.

## NEW ATTRACTIONS WILL BE IN EVIDENCE OCT. 15-27

Amusements at State Fair of Texas Will be First-Class and Varied.

The Coliseum attractions at the 1918 "Win the War" session of the State Fair of Texas will be of greater variety and even higher grade than ever before. Instruction as well as amusement will be the keynotes of this department.

The headliner offering will be the Karasakoff Ballet. It is the most pretentious terpsichorean presenta-

tion ever seen in the Southwest. It is a "whirlwind top-notch" and mistake. There are numerous other beautiful and entrancing acts about which a lot of curiosity is being shown by many enquirers, but the management only smiles and looks mysterious when further questioned.

But Secretary Stratton has secured and announces one of the most wonderful pyrotechnic attractions ever produced. This will be presented before the Grand Stand. The spectacle is staged by the Thearle Duffield Fireworks company, and is known as "The World War." It portrays the battle fields of the western front in a most astonishingly realistic manner. Three hundred people present it on a 450 foot stage.

### DELCO-LIGHT Increases Farm Efficiency

Fifty thousand Delco-Light plants in operation on American farms are saving at the most conservative estimate, an hour a day each—or over 18,000,000 work hours a year. That is equal to an army of 60,000 men working ten hours a day for a full month.

Delco-Light is a complete electric light and power plant for farms and suburban homes. It furnishes an abundance of clean, safe, economical light, and operates pump, churn, cream separator, washing machine and other appliances. It is also lighting rural stores, garages, churches, schools, army camps and railway stations.

## Hemstitching, Pleating Buttons Etc.

T. F. BENTON

Phone 186

Memphis, Texas

Box 7

### HEMSTITCHING, EDGING

Hemstitching ..... per yard  
Picotting Edging ..... per yard  
Picot Edging on Scallops ..... per yard  
Hemstitching Buttonholes or slits, each

### PINKING

Pinking, plain ..... per yard  
Pinking, fancy ..... per yard

### PLEATING

Accordion pleating, depth 3-8 inch. When goods are prepared, hemmed and pressed, we pleat as follows:  
From 1 to 10 inches wide ..... per yard  
From 10 to 20 inches wide ..... per yard  
From 20 to 30 inches wide ..... per yard  
From 30 to 48 inches wide ..... per yard

NOTE—All materials are measured by the running yard before pleating. All pleating requires about 3 yards of plain material to make 1 yard of pleating. All charges are based on the number of yards before pleating. On pieces graduating in depth, the charge is based on the measurements of the deepest part. Mail us a trial order and you will thereafter be a regular customer.

#### MOTIFS DESIGNS

Prices each, 25, 35, 50, 75c \$1.00 to ..... \$2.00  
The prices are based on closeness or elaborateness of design and whether your desire ranges high or low, as to price, you will always be certain of excellent and artistic work.

Note—All threads must be furnished.

Samples on request. How to prepare for work—Baste pattern of design on top or outside of your material, never stamp or transfer on material, if using thick materials, such as taffetas, poplins and heavier, baste tissue pattern on top side, but for Georgettes, chiffons or other thin fragile material, baste also a thin paper on under side, then we guarantee perfect results. We use any kind of thread, but remember that a small thread will work up larger than one would suppose. Write for samples.

All orders for Hemstitching, Pleating, Emb-Chainstitching, Buttons, etc., must be accompanied by money order for full amount or we send C. O. D. Remittances on small orders should accompany them thus avoiding C. O. D. charges. Personal checks are not accepted unless customers are WELL known. All mail orders will be promptly filled and returned same day, always the following day at the very latest. Do not include written matter in packages sent us by Parcel Post, as it is a violation of the postal law. Whatever you wish to write us, mail separately.

### ADVERTISING RATES

Display advertising 15 cents per inch, column measure, each insertion. Professional cards \$1.00 per month. Local readers, among news items, one cent per word, all initials and numbers count as words. Count ten words for each heading in black type. Cards of thanks, obituaries, resolutions, etc., one cent per word. No charge for church, lodge, club or other similar announcements, except when they derive revenue therefrom. No advertisement will be taken for less than twenty-five cents. Count the words and send cash with copy unless you have an advertising account with this paper.

### SUBSCRIPTION PRICE

One Year, \$1.00; Six Months, 60 cents; Three Months, 35 cents

## HOW TO MEASURE MEAT RATION OF 2 POUNDS WEEKLY

Success of Equitable Meat Distribution Rests With Consumer; Plan Based on Patriotism and Voluntary Denial.

It is estimated that \$50,000,000 would be required if the nation were successfully placed on a ration system for the handling of wheat flour, sugar and meat, nor would this amount cover the monthly operating expenses after the system were inaugurated. "For this reason," announces the Federal Food Administration for Texas, "we look to the individual for co-operation in observing the ration suggested and to the distributor to see that the quantities suggested are dispensed as nearly in the degree suggested as possible.

The placing of all manufacturers using sugar on a rationing basis has been achieved at a great expense to the Food Administration. Sugar used by manufacturers may only be procured through the possession of a certificate issued by the state headquarters and the quantity is based upon a definite schedule of allotments.

The distribution of wheat flour in Texas, now that the state has adopted a wheatless program, is handled alone in Victory bread, through licensed bakers. Homes and public eating places, until the wheatless program was adopted, were on six pounds per person of flour a month. While difficult to make this rationing complete, the distribution to the public through the wholesalers and the retailers nearly approximated that quantity when the sum total of wheat flour for Texas was divided by the sum total of the consuming public.

Bewilderment is now expressed by dispensers of meat, both in public eating places and at meat markets, as to how the individual is to be kept within his ration of two pounds of meat per week. Some have suggested a return to meatless days and meatless meals. The United States Food Administration, in announcing the new meat program, expressed an unwillingness to return to fixed meatless meals for days. It is hoped that the American public will conform their purchases, on patriotic and military grounds, to the two-pound ration of meat, just as the majority have done in the purchase of sugar and flour, and that in the general summation the amount of meat consumed nationally a month in the United States, when divided by the people consuming meat, will reflect the two-pound ration.

While no instructions have been issued defining a program, it is thought by the Federal Food Administration that the time has come when public eating places and meat markets should begin to approximate their respective trade in numbers. Every meat dispenser should begin to collate a list of families making regular purchases at his place of business. Families of five would be encouraged to buy not more than ten pounds of meat a week; families of two not more than four pounds a week, and so forth. This is not obligatory, but more and more as the war advances and military necessity demands increasing quantities of meat it would be to the advantage of every meat dispenser to know to a man the number of persons buying of his place of business.

At the end of each day the meat dealer will divide the number of his customers with the pounds of meat bought, he will know the average pur-

chase for the day in pounds per person, and if at the end of each week he will divide the total pounds sold by the total persons represented in the sales of the week, he will soon be in position to gauge whether or not he is meeting the federal requirements. Such information would be invaluable as the program is advanced to meet military necessity.

All of this detail means additional work, but the present war is a test of the fitness of men in service at the front and in the business world to survive, and out of it the Food Administration believes that lack of business methods will disappear and men will come to know accurately the minutiae and elements which make up their livelihood—facts which, because of too much prosperity and extravagance, have almost been obliterated from American life.

### TEXAS EATING PLACES ON WHEATLESS BASIS

R. A. Parker, director of hotels and restaurants for the federal food administration for Texas, wired John Mc Bowman, director of the division of hotels and restaurants of the United States food administration, Wednesday, that all of the public eating places of Fort Worth and El Paso have gone on an absolutely wheatless basis.

All other cities of Texas are using public eating places more or less of quick breads.

The restrictions on bread not containing wheat, which for a time were limited to four ounces to the person, have been removed, and corn bread or rice bread without an admixture of wheat may be served to the extent at the proprietor cares to dispense

DOUBLE the farmer's share of the wheat dollar is one of the wartime jobs Uncle Sam has done since food control became possible. After five months of grappling with the problem, Uncle Sam is now transferring into the pockets of both producers and consumers benefits derived by the Nation. He has shut off speculation, produced a free market and movement of all grades of wheat, cut expenses and induced a normal flow of wheat in natural directions, and effected a thousand other economies.

The Food Administration Grain Corporation, which supervises the sale, or itself buys every bushel of wheat produced in the Nation in its progress from country elevator to foreign buyers or domestic consumers, marks a new step toward national efficiency. How in four short months it has been done is told in the following episodes wherein two bushels of wheat traveled to market.

One fine fall afternoon, Col. Bill Jenkins, who farms somewhere in Missouri, loaded his wheat into a wagon and drove along the black road that led across the prairie to town. When he reached the co-operative elevator of which he was a stockholder, he pulled up on the scales, checked his gross weights carefully, and began to unload. The manager came out and asked:

"When you want to sell this wheat?" "I dunno," he answered. "One time's about as good as another—these days I won't weigh any more later," he added, with a dry smile.

"Wheat shrinks a lot," admitted the manager. "I hear the Government wants as much wheat as it can get just now—understand the Allies do not get a terrible lot of it since the war."

"What's wheat today?" asked Col. Jenkins, getting interested.

"Well, let me see," replied the manager. "I guess this wheat'd be a good No. 2 under the new grades."

"Grades? What about grades? That Food Administration seems to mix into mighty high everything from rabbits to axle grease."

"Hold on, Colonel," said the elevator man, good-naturedly. "The Food Administration is not to blame. Congress passed the act and told the Department of Agriculture to fix the grades. They became effective last July. I sent out a letter on it."

"Well, I guess you better sell for the best you can," said the farmer. "I am needed at home." And he drove away.

## AMERICAN FOOD SAVINGS LARGE

United States Sent to Allies 141,000,000 Bushels of Wheat.

### CREDIT DUE TO WOMEN.

Allies Got \$44,600,000 Pounds More Meat and Fats in 1917-19 Than in Year Before.

*****	
AMERICAN FOOD SHIPMENTS TO ALLIES	
MEAT.

CEREALS.	
1916-17.....	259,900,000 bu.
1917-18.....	340,800,000 bu.
Increase.....	80,900,000 bu.
*****	

In spite of a subnormal food supply in this country the American people have been able to ship to the Allies as well as our own forces overseas 141,000,000 bushels of wheat, besides \$44,600,000 pounds of meat, during the year ending June 30 last. This has been made possible by the whole-souled co-operation of the people, who, besides practicing self-denial, have speeded up production and responded nobly to the appeal from abroad.

Food Administrator Hoover, in a letter to President Wilson, gives a brief summary of the results of food conservation in the United States and of the activities of the Food Administration to this end. The conservation measures have been put through practically on a voluntary basis which is regarded as a splendid tribute to the patriotism of the American people.

Meat shipments were increased \$44,000,000 pounds during the first fiscal year, as compared with our meat exports during the year before America entered the war.

"The total value of these food shipments," Mr. Hoover wrote President Wilson, "which were in the main purchased through or with collaboration of the Food Administration, amount to, roundly, \$1,400,000,000 during the fiscal year."

In 1916-17 the United States sent the Allies 2,166,500,000 pounds of meat. In 1917-18, with voluntary conservation practiced in America, and aided by extra weight of animals, we sent the Allies 3,911,100,000 pounds of meat, an increase of \$44,600,000 pounds.

The Federal Food Administration for Texas has received word from all sections of Texas that the hotel and restaurant men propose to cut down their meat service and strive to get their use of meats needed for shipment abroad within the voluntary meat ration of two pounds per person a week. The response to the suggestion by United States Administrator Hoover has been augmented by the following message to the hotel and restaurant men of Texas, which is being sent to all proprietors of public eating places by the Texas headquarters. (The message is from John McE. Bowman, director of the Division of Hotels and Restaurants):

"In view of the necessity of steady progress to much simplified hotel living, and with the growth of national demands for food conservation, labor and thrift generally, it seems to me that the time has arrived when the hotels and restaurants of the country can quite well simplify their entire cuisine by a reduction in numbers of items on menus.

"During the months of June, July and August we are a reduction of loss to secure extremely anxious fresh beef consumption in order to maintain the allies' supply, and we must secure this without substitution of pork or poultry, of which, while we have enough for ordinary course of consumption, we are not in a position to provide for their additional use as substitutes for beef. We have supplies of by-products such as ox-tails, tongues, livers, kidneys, sweetbreads, tripe and brains, because only the meat cuts are being exported. The use of these could be employed, but more especially the use of sea food, vegetables and fruit. It would seem to me possible to eliminate on the menu steaks and roast beef, excepting two or three times weekly."

### A New Order in the Grain World.

CONVERSATIONS of this kind might have taken place in almost every town in the great grain belt of the Nation after August 10; for revolution in grain marketing was taking place. Uncle Sam had started on this remarkable experiment; he was going to see whether wheat could be marketed minus rake-offs to the speculators. This necessitated complete control by the Government of storage facilities, transportation and distributive agencies, and the marketing machinery for wheat and rye.

Everybody was troubled; most of all, the officials of the Food Administration Grain Corporation who had undertaken, without salary, and at the sacrifice of their personal connection with the grain trade, to whip into shape the forces that would drive forward the big business machine for marketing American wheat. A single control; and a \$50,000,000 non-profit-making corporation to do the work.

This work is a necessary arm of the Food Administration, allowing the Government to do business quickly and without red tape. Its stock is held in trust by the President of the United States. For the time of the war it will supervise the rate or purchase the part commercially available of the 500,000,000 bushels of wheat and the 50,000,000 surplus of rye grown in America in 1917. Its job is to find a market for every bushel, irrespective of class and grade. Under its patronage, wheat screenings are moving just as easily as No. 1 Northern. It must also work out satisfactorily the local prices for wheat at each of almost 20,000 country elevator points, adjust thousands of complaints, organize the gathering and analysis of data, inspect concerns reported as dealing unfairly, solve vexatious disagreements among the trade, and deal effectively with the allies' purchasing agent and the neutrals who may desire to purchase.

In the early days, following the determination of prices for 1917 wheat by the President's Fair Price Commission, confusion existed in every part of the wheat-producing regions. This was intensified by the inauguration of the new grain grades, as promulgated by the Department of Agriculture, which took place about the same time, and led to diverse complaints and a feeling among farmers that the Grain Corporation of the Food Administration was responsible for both the price as determined and stricter observance of grain grades. But the corporation was responsible for neither act. It is sure

## VEEDOL

**THE LUBRICANT THAT RESISTS HEAT**

The Sign of a High-Grade Dealer

When you see this it means a superior oil sold by a dealer who wants his customers to have the safest and best oil that can be obtained. Veedol is unlike ordinary oil because it is made by the Faulkner Process which gives Veedol its remarkable heat-resisting and wear-resisting properties. Veedol resists heat, does not evaporate quickly, and does not carbonize. It will reduce your operating expense by decreasing sediment, one of the causes of friction and wear. Try it the next time you need motor oil.

Also Mobile Oils, Goodyear Miller and Batavia tires are at your service

# Millinery

ON account of delays in transportation we will not have our regular millinery opening as in the past seasons. Just as fast as our pattern hats come in we are putting them on display.

This week we have received two very substantial shipments of pattern hats, and we are showing a good collection of the products of our own work room. Materials are much higher this season, but you will be agreeably surprised at the very reasonable prices at which we are offering the finished hats this season.
