TOMMYE MAE BOREN LISTED IN COLLEGE STUDENTS' WHO'S WHO

Miss Tommye Mae Boren, daughter of Mr. and Mrs. Hollis Boren of Memphis, is receiving nation-wide recognition and honor with the current year's issue of "Who's Who Among Students in American Universities and Colleges."

Miss Boren was selected as representative of her college among the most outstanding college men and women in the United States. This honor is said to be the greatest recognition that a boy or girl can attain while in college, because approximately only one-half of one per cent are selected from each institution.

Miss Boren's biography was printed in a college publication of the 1936 "Who's Who Among Students in American Universities and Colleges," in which nearly every college in the United States was represented. This organization of outstanding students is the only one in the country that is completely devoid of politics and initiation fees, it is claimed. The students are selected for membership alone, but also on the basis of leadership, service, extra-curricula activities, and characteristics pointing toward future usefulness to society and to the business world.

This is the second year of publication, and the edition includes 1,620 biographies of America's outstanding students. Nearly 100 hundred colleges and universities are represented.

The Memphis girl attends Hardin-Simmons University, Abilene. She resides at Mary Frances Hall, Abilene. She lists her birth place as Memphis and her religion as Baptist. Her hobbies are fishing, bridge, and entertaining, and when she graduates from college this spring, she plans to embark on a career of school teaching.

Honorary clubs and fraternities to which she claims membership include The Hardin-Simmons Cowgirls, The H-S Players Club, and The Press Club. Among honors she has attained while at school are: Freshman Queen, Sophomore Favorite, Junior Favorite, University Queen-Nemours, Most Popular Girl in '34, Most Popular Girl in '35, University Yearbook Who's Who in '36.

SHOULD SIGN WORK SHEETS

New Regulations Of Soil Bill Are Listed By Farm Agent

County Farm Agent R. E. L. Pattillo announces the necessity of every farmer in the county signing a work sheet in compliance with the new soil conservation farm program by tomorrow, May 16. He has repeatedly urged that all interested persons fill out work sheets, regardless of whether they intend to cooperate with the farm bill or not, as an application for a grant will be accepted unless there has been a work sheet filed in the state office.

New regulations coming out in the past few days make the new soil conservation program more and more acceptable to the producers in this section, attaches at the county agent's office declare. Many points have been cleared up, and almost any farmer who tries to carry out a soil conservation program on his particular farm will be eligible for a grant.

One of the new regulations, as given by the farm agent, is as follows: The acreage taken from cotton production may be planted to peas (Continued on page 5)

CARROLL SMYERS SELECTED FOR PART IN TEXAS PLAY AT DALLAS

Carroll Smyers, head of the Public Speaking Department of the Memphis High School, last week received notice from Mark Hamilton, Texas Centennial Exposition show director, that he had been selected for a part in the Lone Star State's own show, "Cavalcade of Texas," the drama of an empire which celebrates four centuries of history with its Centennial of Independence this year.

This gigantic dramatization of Texas history will be presented three times daily for 177 consecutive days on a vast stage, 200 feet from wing to wing, and 175 feet deep. The single great stage is in reality composed of five stages, each separated from the other, as the need arises, but curtains of spray which arise upward under a flood of colored lights as the scenes shift from presidio to mission, and galleon to ox wagon.

Good String of Fish Caught at Club Lake Here

One of the best catches of fish that has been seen in this section in some time was caught by David Hudgins and Max Nall early Tuesday morning of this week at Brookhollow Club Lake.

The two local men landed eight small-mouth bass out of nine strikes, and the eight fish weighed slightly more than 17 pounds. The largest bass weighed about three pounds. The men exhibited their catch around the square Tuesday.

C. S. Compton, another local angler, also was successful Tuesday morning. He caught four fish that weighed eight pounds.

G. W. SEXAUER TERRACED FARM SHOWS BIG INCREASE IN YIELD

Increased yield has much more than paid for the cost of terracing and the farming of point rows, says G. W. Sexauer, prominent farmer and rancher residing near Memphis.

Mr. Sexauer started terracing 10 years ago, and says that he has always produced a crop on his terraced land even in the driest years. During the past year, cooperation with the Soil Conservation Service through the RCW camp at Memphis, the terraces have been rebuilt, and in some instances terrace check rows that were too wide. He now has a total of 575 acres of terraced cultivated land.

Mr. Sexauer states that he has noticed considerable improvement in obtaining a stand of crop on terraced and contoured land as compared to land farmed in straight rows. In his experience in farming terraced land he found that heavy rains did not severely damage recently planted crops.

He found, however, that a heavy rain following planting of a crop in straight rows washed out the young plants on the slope and covered them with silt in the lower points. Mr. Sexauer farms the terraced cultivated fields with a tractor and team.

Mr. Sexauer has 3,339 acres of pasture land. On 592 acres which has recently been pasture-furrowed, early spring rains which were retained on the pasture have caused noticeable difference in grass growth as compared to unfurrowed portions of the pasture. After a rain of approximately two inches on April 26, moisture wet the soil to a depth of 24 inches in and near the pasture furrows. Moisture penetrated to a depth of only 19 to 22 inches on unfurrowed parts of the same pasture.

Eight stock water tanks have been constructed at the Sexauer ranch which will provide an even distribution of water for livestock. The placement of stock watering tanks at regular intervals over the pasture will cause a much more even distribution of grazing, E. McBride, local camp superintendent, and J. C. Eberole, agronomist, declare.

Seven hundred and forty-five brush and dirt check dams have been built this past winter to check gully erosion and to aid growth of grass and other vegetation. Planting of suitable trees has been made around each check dam to make the dams of permanent value. Mr. Sexauer believes that the check dams, stock watering tanks and light fixtures growing will be of untold value to his pasture land.

Forty acres of cultivated land is being planted on the contour to sudan grass. The greater part of the growth of this crop will be left on the land, and next spring this field will be seeded to a mixture of native grasses. The field will not be grazed until grazing will not damage it.

From about 60 acres of pasture land which has a dense growth of mesquite brush the run-off water is diverted into a newly-planted orchard of fruit trees, shade trees and windbreak trees. The water is retained about the trees by a system of terraces. Excess water is carried from the orchard into terraced cultivated field. The run-off water from the two-inch rain of April 26 penetrated the soil to a depth of several feet in the tree side.

The G. W. Sexauer farm is an example of the work being done by the Emergency Conservation Work camp of Memphis. Four counties, Hall, Denton, Collingsworth and Childress, are serviced by the local camp.

Farm Program To Prevent Erosion, Rebuild Fertility

COLLEGE STATION, May 14.—Every cultivated crop takes a definite amount of original plant food out of the soil, and the necessary cultivation of such crops exposes the land to erosion. This results not only in additional fertility losses, but also in losses of soil, says Jack Shelton, vice director and state agent of the Extension Service.

"Some crops deplete the fertility of the soil more than others and expose the land to a greater amount of erosion. It is the purpose of the new Soil Conservation Act to put part of the land formerly devoted to such soil depleting crops into crops which will prevent erosion and will rebuild the fertility of the land to insure a stable supply of foods and fibres in the future."

A brief review of figures determined by the Agricultural Experiment Station over a period of nine years shows clearly the extent of soil erosion.

"Land with a two per cent slope when planted in cotton showed an average soil loss of 7.96 tons per acre per year. Land in milo lost 3.93 tons of soil. Land in buffalo grass lost 1.56 tons.

"These figures show that aside from the plant food used by the crop, farmers of the state pay more than two times as much washed away soil for a crop of cotton as they do for a crop of milo. Similarly, they pay more than five times as much for a crop of cotton as for a crop of buffalo grass."

County Baseball League Results

The Cross Roads baseball team stepped into an undisputed lead in the Hall County Baseball League Sunday when they handed the Salisbury team its first defeat of the year. The game was played at Cross Roads, and the home team won by the handy score of 9-2.

Parnell broke into the win column by defeating the Memphis CCC team 8 to 2. The Lesley-Eli game at Eli Sunday resulted in a scoring spree for both teams and a headache for all pitchers concerned. Final score was 22 to 11 in favor of the visitors.

Turkey pounced on the Fairview aggregation Sunday in a game at Turkey, which proved fruitful to everyone but the Fairview players and fans. The game was called in the sixth inning, because Fairview could not get the Turkey club out. It was said. Final score was 24 to 0.

CARDUI

Helped Three Times
At three different times, Cardui has helped Mrs. Ike Wright, of Sealy, Texas. "I used Cardui when a girl, for cramps, and it helped then," she writes. Next, after marriage, she reports having taken Cardui when she felt weak, nervous and restless before her children were born.

And during middle life, it helped her again. "I was miserable," she explains. "I did not have an appetite. I was very blue and unwell. I remembered Cardui had helped me, so I took it again and soon began to pick up. I ate and had more strength. I kept up the Cardui and did not have any more trouble. Is it any wonder that I recommend Cardui to all my friends?"

"Thousands of women testify Cardui benefited them. If it does not benefit you, consult a physician."

He wish to take this means of showing our heartfelt thanks and deepest appreciation to our friends for the beautiful offerings and the expressions of sympathy during the recent illness and death of our dear mother, Mrs. Pearl Bradley, J. J. Kennon, L. J. Kennon, B. J. Kennon.

He served Hall County as deputy tax collector for six years, and was for four years the county tax collector. At the time of his death he was serving his second year as county tax collector-assessor.

Converted and united with the Baptist Church in 1912, Mr. Bownds had led a consecrated life and had served his community and county. He was married April 4, 1926, to Miss Hester West; and to this union were born three children, all of whom survive.

In alternate rows with feed crops. The acreage taken from feed crops or from other soil depleting crops, however, must be planted solid to soil building or soil conserving crops.

As an example of the above, a farmer taking 30 acres from cotton production and 12 from feed or other crops may plant 30 acres of feed over a 60-acre tract with alternating rows of feed and cotton. The 30 acres left over from cotton production, and plant his 12 acres of feed land to peas, sudan, or red top cane.

A new regulation concerning the uses of sudan grass is that the producer may pasture, cut for hay, or thresh for seed any sudan grass on the farm. In other words, there are no restrictions so long as the sudan is used on the farm. Red top cane or sweet sorghums must be planted broadcast or with a grain drill to be acceptable. If this crop is left on the land or plowed under green the producer will qualify for one dollar per acre as soil building. If it is landlocked otherwise, he will only be eligible for his soil conservation payment.

of four centuries of Texas' past. The cavalcade of Texas is not a pageant but a mighty spoken drama. A large research staff is at work, preparing authentic songs and music of the various periods, as well as the costumes and properties. A two-hundred voice choir will render the mass music, such as Te Deums, songs of the Conquistadores, the Cavaliers, the monks, the Indians, and the Rangers.

Mark Hamilton, native Texan, who has had 20 years' experience in the production of plays and pageants, having directed free-entertainment and dramatics for the Union Trust Building and Universal studios in 1922-33, has charge of the staging and presentation of the Cavalcade of Texas.

Jan Isabelle Fortune, poet and playwright, whose 50 odd Texas history dramas have been presented over WFAA and NBC on different occasions during the past 10 years, and whose poems appear regularly in national magazines, has prepared the dialogue and continuity for the Cavalcade, which is scheduled to be the most stupendous spectacle ever presented at any world's fair.

Linnis (Texas) Daily. Floyd left Saturday for Ennis to take on the duties of assistant printer-pressman.

Every time The Democrat starts a boy off as a printer or editor, some other newspaper gets in away from us.

A headline in last Saturday's "Red" Walker, half a century more. A member of the country as "Red" Walker, wants his friends to know that he hasn't any need for a post and therefore is not the man who took the post.

As a matter of explanation, O. J. Walker of Canadian came last week to accept a position as assistant soil conservationist to the county agricultural agent. He, too, has been known all his life as "Red" Walker, and is the one who took the post, which might be construed as a short word for position.

E. E. and O. J. will have to settle the controversy as to the title "Red." The conductor of this column will watch with interest the settlement of the important issue.

Anyway, neither E. E. nor O. J. took anything that did not belong to them.

At the invitation of Mr. E. A. Eakes, I ate lunch at the CCC Camp mess hall Sunday. This was a real treat, for the meal was cooked to perfection. The meat and trimmings, with hot rolls, coffee and pie, made it the kind of food that sticks to one's ribs and gives him a feeling of satisfaction and that all-day Patton.

Following lunch, Captain Patton and Mr. Eakes showed me various buildings and apartments connected with the camp, and explained in detail the many ramifications of this valuable enterprise which Memphis was fortunate to obtain. Really, the camp is worth far more to Memphis than very few, if any, of the citizens realize.

A Mother's Day service was held at the camp's recreation hall that afternoon, which was attended by most of the camp's personnel, and by some thirty or forty of the wives and children of members of the camp. This service was carried out in the spirit of the day—honoring mothers, both present and absent.

A ball game on the camp's diamond later in the afternoon gave entertainment for all who wished to attend.

Mr. Irvin S. Johnson is one

Memphis woman who recently subscribed for The Memphis Democrat and is glad that she did so. "I have already saved enough money to pay for my Democrat subscription by reading the ads in the paper," she said.

Several towns will have representatives here on next Monday and Tuesday nights. They will participate in the Red River Valley Regional Folk Festival, and compete for the honor of representing the region at the National Festival in Dallas June 14 to 21. Give them a good attendance and a vivid hand Monday and Tuesday nights.

June 16 has been designated by Centennial officials as Upper Red River Valley Day at the Centennial—an honor that should be appreciated by all.

Mrs. Zella Verden of the Pleasant Valley community, who has been very ill at a local hospital, is reported to be improving.

We are featuring cottons for every occasion. THE SMART SHOP.

Mrs. R. S. Greene and Mrs. R. C. Walker went to Abilene Thursday morning to take Mrs. Ingram Walker, who is to make her home in Abilene.

Mr. and Mrs. J. W. Noel of Hedley spent Sunday in Memphis and were guests of Mr. and Mrs. Conly Ward and Mr. and Mrs. H. B. Estes.

Hall (Matt) McMurry returned to Sanatorium Monday after being here a few days on account of the illness and death of his father, T. M. McMurry.

UPPER RED RIVER VALLEY FOLK FESTIVAL

CITIZENS OF MEMPHIS DO NOT REALIZE THE IMPORTANCE OF THE FOLK FESTIVAL TO BE HELD IN MEMPHIS NEXT MONDAY AND TUESDAY NIGHTS, ELSE THEY ARE NOT TALKING ABOUT IT.

The event is for the entire Upper Red River Valley. Some ten towns in as many counties will have representatives here who will participate in the contest to see which one will get to represent the area at the National Folk Festival in Dallas June 14 to 21.

The Centennial office will send a judge to select the best act that is put on here next week. This number will be representative of early days in this section of country, and will be reproduced daily for one week at Dallas for the entire world to see. Thirty areas in Texas, of which the Upper Red River Valley area is one, will present the winning numbers along with those of twenty-two other states. One day during the National Folk Festival will be designated as Upper Red River Valley Day, and so advertised.

It will mean that this section of country will receive plenty of publicity that will reach to all parts of the United States.

The admission charge will be light. The proceeds, after local expenses are paid, will go to the winning town and will be applied on the expenses incurred at the National festival.

Each town in the area promises to have something good, and the ten numbers will be worth many times the admission price.

Let's show the visitors that Memphis will always be found doing her part.

Let's talk festival until everyone knows about it, and will want to attend.

CCC CAMP A VALUABLE ASSET

WORKS AND CENTS THE MEMPHIS CCC CAMP IS WORTH A GREAT DEAL TO BUSINESS ENTERPRISES OF MEMPHIS—\$75,000 A YEAR IS THE CONSERVATIVE ESTIMATE MADE BY CAPTAIN O. P. HOUSTON, WHO IS IN CHARGE OF THE CAMP.

Some forty or more families of the CCC workers are living in Memphis and spending their money here. The camp buys four or five thousand dollars worth of supplies and materials monthly from Memphis business men. All making a total of between six and seven thousand dollars monthly. This is quite a sum for any one enterprise to turn into the trade channels of the town.

Not only that, the work being done in soil conservation over the area by members of the camp is of untold value, which computed in terms of dollars and cents is incalculable, and will become more valuable as the years go by.

But the dollars and cents side of the question is not the only important phase of the camp's worth to the community. Officers, various leaders and the workers make up the personnel of the camp. Many of them have their families living in Memphis and they are taking part in religious, civic and social affairs of the community, rendering a service worth while. We are told that a number of the camp's men and their wives are teachers in the various Sunday schools of the town. These things count much in the worthwhile things of the community.

The morale of the camp is above that of any camp in the state, we are told, and Memphis citizens are glad to have the enterprise located here.

MEMPHIS SCHOOLS

TODAY ENDS the most successful term of school Memphis has had in many years. A real constructive program has been put into effect with a view to bettering the schools and school conditions in the future.

The forward-looking program is already evident in the success of the term ending today. This program is the result of careful planning on the part of the teachers and the school board. It will mean much to the Memphis schools and to the community in general.

Without a good school a town or community will not get very far. With good schools to lead the way, a town or community may expect to grow and prosper.

Each individual and institution in the community has benefited by the success attained by Memphis schools through wise leadership.

RURAL RESETTLEMENT LOANS MUST BE MADE BY JUNE 30

R. C. Land, supervisor for the Rural Resettlement Administration in Hall County, has been informed by the regional headquarters that almost half a million dollars now available for cooperative loans in Texas and Oklahoma will be diverted to other use unless it is loaned before the end of June.

This fund amounts to \$312,000 in Texas and \$143,000 in Oklahoma, but only a few thousand dollars have been loaned to date. Most of the loans so far have been for pure-bred sires and farm machinery. The loan is usually made to one man, and his neighbors sign an agreement to use the animal or machinery at a specified price.

Many other types of cooperative enterprises may be financed through such loans from the Resettlement Administration, including syrup mills, feed mills, laundries, canning plants, meat curing plants, threshing outfits and facilities for grading and shipping farm products such as fruit, vegetables, eggs, and poultry. Loans may also be made for membership in existing cooperative associations. In one county a loan is now being considered which would enable borrowers to become stockholders in a cooperative hospital.

"I am sure that there are many worthwhile enterprises that should be started cooperatively in this county," Mr. Land said. "And I hope that farmers who are interested will call on me at an early date in order that we may make requests for loans before the money is withdrawn." He explained that a sound financial plan must be worked out which will assure repayment and that the cooperative enterprise must not duplicate any already in existence in the community.

Farmers must either be farmers who are already receiving aid from the Resettlement Administration, or unable to get the desired financial assistance from any other public or private agency. The others who participate in the enterprise must be borrowers from Resettlement provided they are in the low-income class who would otherwise not be able to obtain the sort of service provided.

STATE SENATE POST IS ASKED BY C. C. SMALL

Payment of pensions this week as seen as the biggest issue facing the next session of the Legislature, according to Senator Clint Small who announced his candidacy for re-election to the state senate.

The senator predicted that funds will be raised for the old age compensation without diverting a surplus of \$3,500,000 from the school treasury.

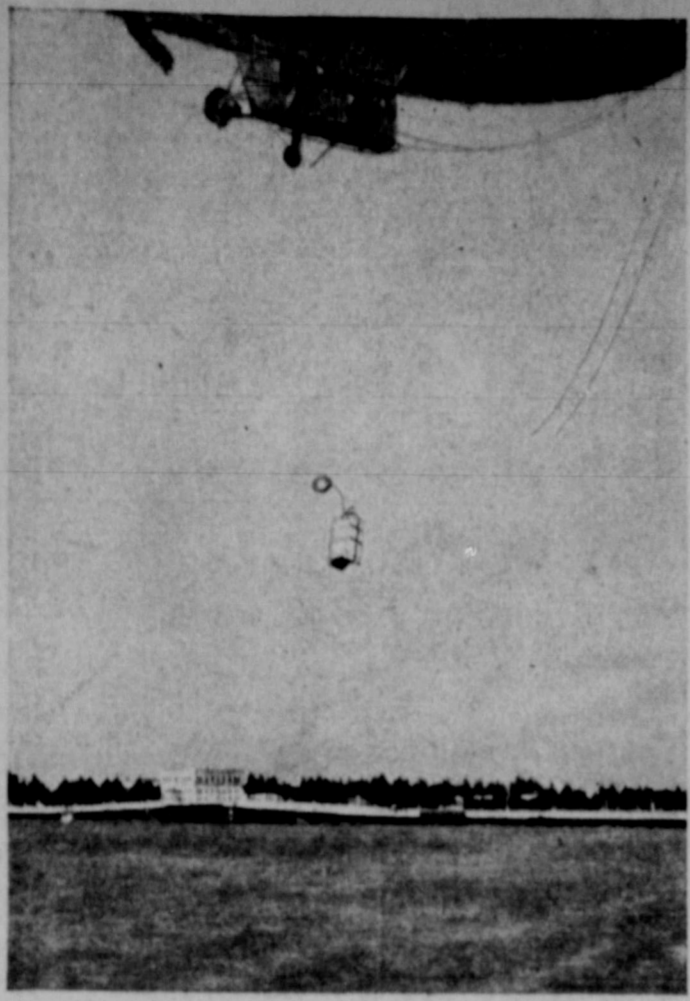

"New revenue will be found," declared, "and the pensions will be paid in full—but not at the expense of education."

Senator Small played an important role in drafting the pension bill. His knowledge of the federal system of pensions resulted in the Texas law conforming to S. requirements which will gain for people an additional \$15 a month.

The senator, a former district judge in Hall, Donley, Collingsworth and Childress Counties, won legislative leadership as a result of a conservation program and his social humanitarian policy, not only in dealing with his own 31st senatorial district but all West Texas. Twice defeated for governor due to the regional isolation of his constituency, he announced his retirement last year.

His announcement that he again will be a senatorial candidate came after friends all over the district

Frigidaire Unharmed After Plunge from Blimp into Bay

Look out there! It's a flying Frigidaire falling from a Goodyear dirigible into salty Biscayne bay at Miami, Fla. Subjected to one of the most severe tests ever given an electric refrigerator, this stock model unit built by Frigidaire Division of General Motors was dropped 100 feet from a blimp into Florida waters. Towed around by a speedboat to guarantee complete submersion, it was hauled out, found sealed as tightly as when it left the factory and was put into immediate operation freezing ice-cubes. Aeronauts who witnessed the spectacular test were amazed that the refrigerator survived the terrific impact of the drop and came out without a single leak in its permanently sealed mechanism or a break in its cabinet, because, after all, they reasoned, household refrigerators are not supposed to be manhandled that way.

Protest Vernon Game

The league team journeyed to Vernon Sunday and dropped a Red River Valley League game to the tune of 6-4. The local team, however, sent in a formal protest of the game. "Dutch" Phillips, who played shortstop with Electra Sunday, May 3, at Estelline, played second base with Vernon last Sunday, it was said. A league ruling is to the effect that a player is ineligible to play on a league team after having played on another league team, without a lapse of two weeks, or unless officials pass on his eligibility.

S. R. HODGES IS IN RACE FOR STATE OFFICE

S. R. HODGES

Declaring that if he is elected he will conscientiously represent West Texas in the legislature, S. R. Hodges, who lives near Turkey, has announced his candidacy for state representative of the 121st district.

Mr. Hodges has lived on a farm since 1909 in Hall County and is familiar with the agricultural interests of the people of West Texas.

Mr. Hodges, in making his announcement for representative, has formulated a platform to which he pledges his entire support in an effort to bring about the changes he advocates in his platform, as follows:

1. I stand for a liberal old age pension with ample provisions to pay same, thereby eliminating the necessity of maintaining poor houses in our state.

2. I am in favor of abolishing the state ad valorem taxes up to \$10,000 and tax the natural resources such as oil, gas, sulphur and other minerals before these resources are exhausted in our state. I am in favor of the present gasoline taxes and a modified

sales tax, which would be fair to all classes according to their ability to pay.

3. I favor an adequate soil conservation program.

4. I am in favor of a more practical school system, with an increase of state per capita apportionment.

5. I am in favor of a registration system for qualified voters and abolishing the payment of poll taxes, and a more uniform election law.

Black-Draught Good Laxative

Black-Draught has been kept on hand for all the family in the home of Mr. W. A. Lemons, of Independence, Va., since twenty years ago. Mr. Lemons writes that he takes it as a laxative in case of "headache, dull, tired feeling, biliousness." "I take it if I feel uncomfortable after a heavy meal," he adds. "It especially is good for sick headache. It certainly is good." When a man says "Black-Draught is good," it is probably because he remembers the prompt, refreshing relief it brought in constipation troubles. Its benefits are all because it is a simple, herb laxative, so natural in composition and action that thousands and thousands of men and women prefer it when a laxative is needed.
