### ALUMINUM DRIVE GETS UNDERWAY

#### No Report on Amount of Metal Collected Available; County Officials in Charge

Hall County's drive to collect scrap aluminum got underway this week, although no check on the amount collected thus far was possible, Judge M. O. Goodpasture, county chairman, said.

Nearly one-fifth of the county's quota of aluminum has been brought to the City Hall in Memphis and deposited at the bin there by voluntary action on the part of Memphis citizens, Judge Goodpasture said late yesterday afternoon. The quota, according to population, will be somewhere in the neighborhood of 1,500 pounds.

Grocers agreed this week to allow their delivery men to pick up scrap aluminum at houses when deliveries are made, Otis Jones, chamber of commerce president and Waples-Platter manager, said. The aluminum will then be taken to the City Hall.

Turkey, led by Commissioner Roy Russell and School Superintendent Lee Vardy, appeared to be slightly ahead of the other communities in the county—and the spirit of rivalry was beginning to come to the front.

Here in Memphis, Commissioner W. B. Morrison arranged for a collection place on front of the City Hall. The small bin built was more than full by Tuesday morning, and citizens were still bringing in more old pots, pans, buckets, and the like.

Assisting in the drive here are the Boy Scout troops, who are aiding in soliciting the scrap aluminum as well as aiding in collecting it, Judge Goodpasture said.

Commissioner Burl Bell has appointed several on a committee to help him in Estelina, and Commissioner Tracy Davis and school Superintendent W. V. Swinburn are leading the drive at Lakeview.

Also to aid in the drive in the county are most of the county school board officials. Letters have been written to the president of each of the various school boards, asking their aid in the county-wide drive.

The drive for the scrap metal is being held simultaneously throughout the United States. The campaign opened Monday, and July 24-27 have been designated as the dates for the main house-to-house collections. July 28-29 are to be the dates of the "clean-up" end of the drive.

On the following day, July 30, the aluminum will be moved from public bins, where it is being assembled. Preliminary reports of the collections will be telegraphed to the governors of the various states.

### Funeral Services Held in Memphis For G. W. Melear

Rites Held From Church  
Of Christ for 91-Year-Old  
Resident; Interment Here

Funeral services were held Sunday afternoon from the Church of Christ in Memphis for G. W. Melear, 91-year-old Memphian who died Saturday afternoon about 2 o'clock.

Rites were conducted by Minister J. L. Moyer of Clarendon, former evangelist of the local Church of Christ. Interment was in Fairview cemetery under the direction of Womack Funeral Home.

Survivors include eight children, Lonny Melear of Shamrock, Mrs. Molly McKinney of Fort Worth, Mrs. Ed Duncan of Clarendon, Mrs. M. M. Pounds of Memphis, Mrs. Brown Lamb of Wellington, Miss Lena Melear of Memphis, Mrs. John Vallance of Memphis, and George Melear of Los Angeles; ten grandchildren; and 16 great grandchildren.

Pallbearers were Jim Vallance, Arthur Dutton, Creed Lamb, Dave Howard, Cleve Evans, and Vernon Sasser.

George Washington Melear was born June 27, 1850, in Georgia, and was married to Miss Nancy Lamb. Mrs. Melear died in 1912, shortly after they moved to Hall County in 1911.

### School Vacation Has Gotta End— It Won't Be Long

School is 42 days away.  
Date for registration of students in the Memphis Public Schools was set at September 4 and 5 at a meeting of the Memphis Independent School Board Monday night. Classes will begin Monday, Sept. 8.

Approximately 1,100 students are expected to enroll in the local schools this year, it was announced.

No other business was transacted, except that George Frasier was re-hired as the bus mechanic and a bus driver. Teachers in the school system were all given contracts last spring.

Incidentally, the board decided to call for volunteers to aid in cutting the weeds which have grown up during the summer.

### TWO ARE KILLED IN AUTO WRECK

#### Victims Are Hedley Baby, 36-Year-Old Grocer; Six Others Are Injured

Two persons were killed and six others were injured Sunday afternoon when an automobile and truck collided on a country road near Claude.

Killed were O. E. Saunders, 36, Hedley grocer, and Claudine Tollett, 9-month-old daughter of Mr. and Mrs. Earl Tollett of Hedley.

Those injured were Wanda Lou Saunders, 6-year-old daughter of the dead man, who suffered a head gash in her forehead and a fractured skull; Mrs. O. E. Saunders, 32, who received cuts and bruises and a hip injury; Mrs. Earl Tollett, 25, cuts and bruises about the head; Earl Tollett, 28, broken ankle; the Tollett's 4-year-old son, Tommie Sari, cuts about the face; and Gus Tyler, 17, injuries about the head and neck.

The Saunders and Tolletts were out for a Sunday afternoon drive when the 1941 coach in which they were traveling west and the 1935 pick-up loaded with wheat and driven by Tyler collided at the intersection of two country roads.

High weeds reduced visibility at the intersection, it was reported. State highway patrolmen who investigated the wreck said (Continued on page 7)

### SINGER—Rev. D. W. Binkley of Adrian, well-known singer of West Texas, who is leading the song services for the revival at the Metho- dist Church at Estelina. The revival, which opened last night and which will continue through August 3, is being conducted by Rev. Vernon N. Henderson, pastor.

### MAY BE OPENED LATE IN AUGUST

#### Boiler to Be Installed First, Official Writes; Some Equipment Here

Operation of the Kraft Cheese Company plant in Memphis should begin sometime during the latter part of August, J. M. Roddy, head of the dairy development department of the southwestern division, said this week in a letter to Mayor J. C. Wells.

"We hope to give a definite date on the opening around August 1," Mr. Roddy said.

Work was begun on clearing the building for the Kraft Cheese Company plant this morning as the engineer for the project arrived in Memphis. Application blanks for employment may be obtained either at the chamber of commerce office or at the building where the plant is to be located.

All papers in connection with the city and the owner of the building, B. E. Davenport, have been signed and approved, Mr. Roddy said. The contract for lease of the building was approved last week.

Orders for equipment were placed immediately after the approval of the officials of the Kraft (Continued on page 10)

### Morning Showers Bring Quarter-Inch Moisture in City

#### High Degree-Mark for Week Is 102; Nights Still Continue to Remain Cool

The hot, dry weather Hall County crops have been needing hit this area during the past week, although showers early this morning brought .26 of an inch in moisture by 9:30 o'clock, according to a report from the SCS office.

Only traces of rain earlier in the week were recorded by J. J. McMickin, local weather observer. The warm weather has made the crop prospects brighter during the past week, and, although the weather has been too warm for comfort, few people have been heard to criticize the heat.

Highest temperature for the week was recorded last Friday afternoon, when the 102-degree mark was hit by the rising mercury. Friday night, however, the temperature dropped back to the 70-degree mark.

Last Thursday afternoon found the temperature at 97 degrees, and Saturday and Monday afternoons a maximum temperature of 96 degrees was recorded.

Nights have been generally cooler, with the coolest coming last Saturday night—64 degrees.

Farmers are generally of the opinion that the cotton crop, although planted late, will turn out better than that of last year, and all of them are pleased with the upturn in price cotton has been making during the past few months.

Rain was not needed at present, most of the farmers agree, although moisture will do no harm. One farmer expressed the opinion that rain now will cause larger stalks, which might result in more worms later in the season.

### Memphis Spudders Down Hollis Team

#### The Memphis Spudders continued their winning streak Sunday afternoon on the local ball diamond by downing the Hollis, Okla., nine 5 to 2.

The Memphis Spudders continued their winning streak Sunday afternoon on the local ball diamond by downing the Hollis, Okla., nine 5 to 2.

The Spudders will meet the Pampa ballplayers here next Sunday afternoon at 3 o'clock, Don Wright, manager, said this week. Admission is 20 cents for men and 10 cents for women.

Financial upkeep of the local club was somewhat brightened this week, Wright said, when the Coca-Cola bottling company announced that all profits from the sales of the drinks during the games would be turned over to the team.

### Awarding of Merit Badges to Scouts Is Recommended

#### Estelina Youth Reviewed For Three, Is Recommended For Life Scout Badge

Recommendation for the awarding of merit badges to four Boy Scouts of the county at the next District V court of honor, to be held July 31, were made by members of the board of review in a meeting held in Memphis Monday afternoon.

Highest of the recommendations went to Walter T. Duncan, Troop 40 of Estelina. Duncan was reviewed for merit badges in personal health, public health, and athletics, which will qualify him for the Life Scout badge. His application for the three merit badges was recommended to the Adolphe Walls Council, from where the badges are awarded.

Jack Hightower, Troop 35, Memphis, was reviewed for a merit badge in pathfinding, which qualifies him for the Star Scout badge. Twelve merit badges are required to qualify a scout for this rank.

William Clark, Troop 35, Memphis, was reviewed for a merit badge in swimming, and Sammy Stout, Troop 40, Estelina, was recommended for one in scholarship.

The awards, if approved by the Adolphe Walls Council, will be made at the next court of honor, to be held July 31. The board of review meets the third Monday of each month at 5 o'clock in the office of Harry D. Delaney in Memphis.

### Work Underway on Checking Farms For Compliance

#### Producers Required to Be Present When Measuring Done, Says ACA Official

Work on measuring farms in Hall County to determine whether farmers are within their allotments under the AAA program is now underway, Millard Brown, Hall County ACA secretary, said this week.

Seventeen compliance reports are now working on measuring the land, and indicating the measurements on the aerial maps, and three acreage calculators are at work in the courthouse determining the acreage. Three more calculators will be added later, it was explained.

It is necessary for the producer to be present or have an authorized representative present, when the compliance reporters are measuring his land, Brown explained. He pointed out that some trouble is being experienced in finding producers at home when measurements are to be made.

The work of the compliance reporters will require about 30 days more, Brown said. The calculators should finish their work in two weeks following the work of the reporters.

### Funeral Services Held at Lakeview For C. H. Hancock

#### 82-Year-Old Resident Had Lived in Hall Since 1900; Burial at Lakeview

Funeral services were held Tuesday morning for Charles Henry Hancock, resident of Hall County since 1900, who died at his home in Lakeview early Monday morning.

Rites were held from the Hancock home, with Rev. Griffin of Memphis in charge. Interment was in Union Hill Cemetery at Lakeview under the direction of King's Mortuary.

Survivors include three brothers, George Hancock of Lakeview, J. P. Hancock of Lesley, and King Hancock of California; and three sisters, Mrs. Sitha Rousseau of Lakeview, and Mrs. Dicie Burks and Mrs. Sarah Bonds of Oklahoma.

Mr. Hancock had been ill for about 18 days at the time of his death. He was 82 years, 10 months, and 12 days old.

Mr. Hancock was born in Alabama September 9, 1858, and moved to Hall County about 1900. He came to this county from Wise County.

During his life in Hall County, he had been engaged in farming near Lakeview, and was still following that business at the time of his death.

### Campbell Back on Democrat Staff

#### Lester H. Campbell, who until early in June was news editor of The Democrat, has returned to Memphis to work after being em- ployed on the Galveston News for six weeks.

Campbell was news editor of The Democrat for two years before moving to Galveston. He is a graduate of the University of Texas journalism school with the class of 1939. His home was formerly in Wellington, where he attended the public schools.

Campbell and Miss Betty Ewing who joined The Democrat staff several weeks ago, will work together in handling the news and advertising.

### Miss Coursey on TSCW Honor Roll

#### Miss Charlotte Coursey, daughter of Mr. and Mrs. W. V. Coursey of Memphis, has been placed on the special honor roll for her past semester's work at TSCW in Den- ton, E. U. White announced this week.

Miss Charlotte Coursey, daughter of Mr. and Mrs. W. V. Coursey of Memphis, has been placed on the special honor roll for her past semester's work at TSCW in Denton, E. U. White announced this week.

Miss Coursey's grade point average was 2.3, the dean said.

### Got Any Old Clothes You Don't Need? New Sewing Room In City Needs Materials to Keep Forty NYA Girls Busy

#### Do you have any old hosiery, rags, bedspreads, underwear, or similar old clothes you do not need?

If so, the Girls Production Center, Memphis' new sewing room operated by NYA girls, is in need of them. You would be surprised, too, what the girls can do with these old pieces of clothing which you usually throw away.

The rags are transformed into rugs, or maybe they come out in the form of comfortable chairs. Incidentally the chairs were once wooden barrels.

At the present time, the girls are working on tan coveralls for units, and only Monday a large shipment of Red Cross materials were received. Mrs. Ora L. Denny, supervisor of the sewing room said.

The Red Cross work will be

### Drive on Against Local Bootleggers

#### A drive against bootleggers— most of them dealing in beer—is being launched by law officials of Hall County, and ten were tried in county court this week for violation of the liquor law.

Most of those caught are entering pleas of guilty, Sheriff W. C. Anderson and County Attorney H. D. Stringer said. Trials are being set for those who enter pleas of not guilty for next week.

One Amarillo resident was caught in Turkey by Deputy Jess Jenkins, while the Amarilloan was selling beer from his car on the highway leading into Turkey.

### No Word Received On REA Section

#### No further word concerning the Hall County Electric Co-Op's applica- tion for the "C" section line has been received, T. E. Lenoir, manager, said this week.

Funds have been appropriated for new lines, it was learned last week from Representative Eugene Worley, but applications for the extensions have not been reviewed. It is believed, however, that the funds will be available for the line by August 1, authorities have pointed out.

### Work is Started On Pease Bridge

#### Repair work on the Northfield bridge over Pease River in Cottle County southwest of Childress was begun this week by the contractor, Butler Morrison of Memphis.

The bridge, washed out by high waters during heavy spring rains, will be repaired through the joint efforts of Childress, Motley, and Hall counties, the residents of which are the principal users of the road.

### Hugh C. Baldwin Dies at Cee Vee

#### Hugh C. Baldwin, resident of the Cee Vee community in Child- ress County and known to a number of Hall Countians, died Monday afternoon at his home.

Funeral rites were held Wednesday in Honeygrove, where the body was shipped by King's Mortuary. Mr. Baldwin was born in North Carolina November 26, 1849, and was 91 years old at the time of his death.

## Miss Leverne Simmons of Sherman And G. W. Smith of Memphis Are Wed

MRS. G. W. SMITH

The marriage of Miss Leverne Simmons, granddaughter of Mr. and Mrs. Lee Simmons of Sherman, and George Wilson Smith of Cleveland, Ohio, took place Friday afternoon, July 18, at the home of the bride's grandparents.

Rev. Robert L. Badgett, pastor of the Central Christian Church of Sherman, performed the ceremony before a mantle banked with palms and ferns and baskets of white gladioli. Members of the immediate families were present.

The bride wore an afternoon ensemble in bottle green with saddle accessories and a corsage of gardenias. Mr. and Mrs. E. B. Chapman, uncle and aunt of the bride, were attendants. Mrs. Chapman wore a summer frock in white, and Mrs. Simmons was in black chiffon.

An informal reception followed when an iced course was served. Mrs. Smith has made her home with her grandparents since early childhood. She was graduated from Sherman high school in 1938 and is an ex-student of TCU in Fort Worth. For two years she has been a member of the staff of the U. S. Soil Conservation office in Fort Worth.

Mr. Smith is the son of Mr. and Mrs. Henderson Smith of Memphis. He is a graduate of Memphis High School and of Texas A. and M. with the class of 1940. He is now with the Aetna Casualty and Surety Company in Cleveland where he and Mrs. Smith will be at home after August 1.

## Hints on—

### WHAT TO WEAR

PIQUE IDEAL COTTON FOR SUMMER MONTHS

The darling of the 1941 summer season undoubtedly is cotton pique. From government clerk to ambassador's wives, smartly dressed women in the nation's capital are appearing more and more frequently in crisp, cool cotton piques.

Pique prints, particularly floral designs and the new cotton boll design introduced this season, are especially favored in pinafomes and playsuits.

Whites continue to attract fashion-conscious women, with the tennis courts being frequented by girls of college age wearing panty-bottom tennis suits of white pique.

Embroideries are attracting much favorable attention this season, with many of the summer's most popular dinner and evening dresses being made up of white eyelet pique with a touch of colorful trimming for contrast.

Advertising has existed in some form since the earliest of times. Wherever men gathered into communities and it became necessary for some reason to impart information, advertising was used in one way or another.

## McMurry, Dickson Attend Meeting of PCA in Amarillo

President of Association Reviews Reports Made At Two-Day Conference

R. B. McMurry, president of the Memphis Production Credit Association, has just returned from Amarillo where he attended a two-day conference of production credit association directors. Other directors of his association who attended the conference are S. M. Jolly, vice president, Paducah; Tom B. Berry, Wellington; Otis Wilson, Quitaque; C. W. Crump, Paducah; J. M. Dickson, acting secretary-treasurer, Memphis.

Mr. McMurry said it was reported that the 36 associations serving Texas during the past seven and half years have gone through a formative period in which they have built up strong reserves for added safety. "These cooperative associations now have a total combined capital and surplus of about \$8,250,000, about 40 per cent of which is made up of stock owned by farmers and ranchmen and surplus the associations have earned since organization.

"The membership in Texas has increased from 14,292 a year ago to 18,326 at the end of May and the total amount of credit outstanding is now more than 22 millions, a gain of 41 per cent over a year ago.

"The whole idea behind the setting up of these associations was that farmers need a dependable source of credit that will not dry up in hard times and that fits farm and livestock credit needs—whether times are good or bad.

"Livestock conditions generally were reported good over the 43 Northwest Texas Counties represented," McMurry said. It was brought out at the conference that many farmers and stockmen were taking advantage of the high livestock prices and reducing their debts. "A good 'live-at-home' program is very important on any farm and it is a public necessity," declared Mr. McMurry.

Directors and secretary-treasurers of the Lubbock, Plainview, Amarillo and Canadian Valley production credit associations also attended the conference at Amarillo.

### Mail Carriers Sell Defense Stamps

Thirty-two thousand rural mail carriers are now acting as agents in the sale of Defense Savings Stamps, postal officials have informed the Treasury Department. Demand for the stamps in sparsely settled districts caused the Post Office Department to authorize the carriers to act as salesmen.

The stamps range in value from ten cents to five dollars. Purchasers are given albums in which they can be mounted. When filled, the albums may be exchanged for Defense Savings Bonds.

Post Office officials recalled that rural mail carriers acted in similar capacities in 1917 and 1918 selling War Savings Stamps.

### Another Session Of Camp Ki-o-Wah To Open August 17

**Encampment for Scouts At Lake Marvin to Last Week; 60 Scouts Needed**

The Adobe Walls Council has announced another session of Camp Ki-O-Wah opening for one week August 17, on the council property north of Lake Marvin in Hemphill County.

Due to the success of the three-week term of camp held in June, and the demand created for more camping by the troops in the 15 counties which comprise the Adobe Walls Area Council, the camping and activities committee has announced another term for August. Many scouts who attended in June plan to return for this "fall" camp, as well as scouts who were unable to attend during the June session.

Word from the council office in Pampa states that applications for the week opening August 17 must be in the office not later than August 1. A minimum registration of 60 scouts is needed to open the camp for this extra session. A minimum number of scouts is necessary as there is no administration building on the camp property, and all equipment must be hauled from Pampa and other towns where it is stored.

The staff personnel for the August camp will be practically the same as that in June, with the same junior staff serving under the direction of senior leaders. J. H. Duncan, director of the early camp, is at present serving as water-front director for a private boys' camp in Colorado, and may be unable to return in time to assist with this session of Camp Ki-O-Wah. However, adequate supervision will be given so that scouts attending either for the first time, or as repeat campers, will gain the fullest enjoyment from the experience.

The watermelon crop in Nacogdoches County is expected to net farmers more than \$100,000. Most of the melons are bought by truckers direct from the fields, and farmers are being paid in cash.

**Revival in Progress**

Rev. Noble Crawford and Rev. Kersey, accompanied by Miss Omega Crawford of Los Angeles, arrived in Newlin Monday to conduct the revival services started Sunday night at the Baptist Church by the pastor, Rev. L. J. Crawford. The services will continue until Sunday night, July 27. Rev. Crawford returned Saturday from a series of services at his charge in Shamrock. Rev. Roy Flippo of Amarillo conducted the services there.

**Vacation Bible School**

The Vacation Bible School held last week at the local Methodist Church, the first of its kind to be held here, ended Friday afternoon. The students attending presented a short program Sunday morning before Church services, consisting of songs, Bible drill, and short rehearsal of the type of program carried on during the school, and a display of handwork made by the students.

Mrs. Cole are holding the school at Hulver church this week.

**Weather: Fair and Warmer**

At long last it seems reasonably safe to say that the "Good Old Summer time" has arrived. With the temperatures soaring past the hundred mark for several days on end, with only an occasional respite from the heat brought by a mild breeze, the wished-for hot weather the cotton farmer needs is here. At this period of the year heretofore, the usual expressions about the weather were: "Sure wish it would rain," but the excess rainfall has reversed that into: "Sure hope it won't rain," for the hot dry days have caused the crops to grow by leaps and bounds and has given the farmers opportunity to kill the rank growth of weeds.

**Visitors**

Mr. and Mrs. Raymond Wasson of Cincinnati are here visiting his brothers, Henry and Marvin Wasson. They left Tuesday for Spade where they will visit Mrs. Stella Bird.

Mr. and Mrs. Horace Sims and daughters of Los Angeles are here visiting his brother and family, Aultman Sims.

## THE PASSING OF THE Boomtown

Oil boomtowns exist today only in the movies. The old-time "gusher" wells are gone forever.

In the early days, as long as oil flowed, the boomtowns flourished. But soon the wells failed and the booms collapsed, carrying with them the income and security of those who had depended on them.

Today, through a sound program of conserving oil and gas, hundreds of Texas communities are enjoying a permanent type of petroleum development. Furthermore, because of conservation, we have the largest oil reserves in the world, one of our greatest assets for National Defense.

Oil now builds stable communities. It provides assured tax revenues and greater ultimate tax returns than were ever possible in boomtown days. And every citizen benefits from the income oil creates.

Conservation not only protects Texas oil resources. It also assures for many years the prosperity which oil brings to every community where it is found.

### Coal Users Urged To Lay in Supply

Texas families who burn coal had better lay in a supply this summer. That's the advice directed to consumers from the Office of Price Administration and Civilian Supply and given in a letter to Director H. H. Williamson of the A. and M. College Extension Service.

Buying coal this summer will not only save consumers money but it will contribute to national defense, the OPACS says. State and local defense councils have been asked to cooperate in this effort.

### Returns School Held of C. Men

Chamber Manager Week of Schooling 'ly Successful'

Smymers, manager of the chamber of commerce, returned from Dallas, attended the southwest chamber of Commerce School held July 14-18 in the hotel.

Smymers said the week of schooling was successful.

this week. "I believe I gained a great deal from attending, especially because of the many valuable contacts with other chamber of commerce men I had the opportunity to meet."

The subjects discussed varied, it was explained, and the C. of C. men heard many speeches on the preparedness particularly up-to-date and drew a large amount of interest from those attending.

Included in the subjects discussed were the following: Financing the chamber of commerce; public relations; industrial development; agricultural and livestock development; secretarial technique; preparedness; developing tourist trade; and publicity.

Save Garden Seed For Next Year

Garden seed may be scarce next year, so J. F. Kosborough, Extension Service horticulturist, advises Texas farm families to pick out some of their best fruits and vegetables and save the seed. He particularly recommends saving the seed beans, okra, cucumbers, tomatoes, cantaloupes, watermelons, pumpkins, cushaws, and sweet corn.

Here is the specialist's advice: After the seed have been extracted from the pod or rind, wash thoroughly and spread out to dry. Store in cotton cloth sacks or in containers that allow air to penetrate. Keep the seed in a cool, dark place.

# BRING 'EM BACK DEAD! "The Referee Commanded"

THE SCENE WAS in torrid Death Valley, where Hollywood makes true desert pictures, and the heat makes records.

Condemned to death were 6 new engines, alike throughout, except that in each crankcase—under lock—was a different big-name motor oil... one 5-quart... never any added in any car's life... 57-mile speed kept up under Death Valley's all-consuming sun until each engine went to smash. A strictly impartial, strictly certified test of motor life, decided only by 6 cars' death.

Which 5-Quart fill lasted all of 13,398 miles?... Certified

These oil outlasted the other test oils by 1,800 miles or more... Certified. And the whole lot of them—5 big-name oils—averaged not even half of the 13,398 miles delivered by the new long-lasting oil. You can have it in your engine right now—at popular price—by asking for CONOCO Nth MOTOR OIL

These mileage and economy come straight from Conoco Nth oil's new synthetic or

man-made extra substance—Thialkene inhibitor. (Conoco Patent 2,218,132.) To understand, merely think a moment of Vaccination—the right protective substance put on guard to keep a trouble from starting. Now the trouble aiming to start on motor oils lurks in the normal firing of every engine. Filth is formed that can spoil one drop—then two drops—"catch it"—then four—then sixteen—faster, faster, FASTER, till the whole fill weakens and the oil level sinks too fast... but not when the start of this oil-fouling trouble is inhibited—held back—by life-giving Thialkene inhibitor in new Conoco Nth motor oil, on sale today for your car.

You'll never Death-Test your Conoco Nth oil nor repeat other proving-ground tortures. You'll still drain and refill at recommended intervals. But how you'll expect to stretch the distance before you ever add a quart, judging by this big fact: 5 heavily advertised oils in the Certified Death Valley Test were outmiledged 74% to 161% by Conoco Nth oil.

AND CONOCO Nth OIL OIL-PLATES YOUR ENGINE!

Long the keystone of Conoco success, OIL-PLATING comes from another great Conoco synthetic... man-made under the famed Germ Processed oil patent. Magnet-like action bonds OIL-PLATING to engine parts. It can't all quickly drain down—not while you're using Conoco Nth oil. So OIL-PLATING is on guard in advance against wear!... and helps mileage, as it did in Death Valley. An OIL-PLATED engine is one more economy you get from a change to popular-priced new Conoco Nth oil.

Economy like that counts up into dollars! Change to Nth oil today at Your Mileage Merchant's Conoco station. Continental Oil Company—Pioneers in Bettering America's oil with Synthetics

CERTIFIED I hereby certify that the Death Valley Test and related work were thoroughly and fairly conducted. Engine Destruction occurred in each case at the mileage stated.

Summer Program Draws Interest

By MRS. ROY GUTHRIE. The summer recreation program sponsored by the Work Projects Administration and the Memphis Public Schools is maintaining its interest despite the hot weather.

During the past week, more vegetables have been contributed to the lunch project than during any week prior to this time. Those citizens making donations were I. N. Reeves, J. M. Elliott, E. N. White, W. W. Tomlinson, C. R. Gowans, and Sam Forkner.

Eighty-eight cans of squash and eleven cans of peas have been prepared for winter use, in addition to the food that has been consumed in the daily lunches.

During the past week slightly less than 6,000 hours of leisure time were spent in the center.

L. W. Messer Jr. With Santa Fe

L. W. Messer Jr., former Memphis resident, has accepted a position with the Santa Fe Railway Company, according to a story in the Amarillo Globe last week.

Messer is the son of Mr. and Mrs. Roscoe Ellerd of near Memphis. He finished Memphis High School with the class of 1939, and has been attending Amarillo Commercial College for the past 18 months.

Tasty Recipe for Peach Shortcake

Whatever you may want for an especially delicious dish these days, this new kind of peach shortcake, southern style, is bound to win the family's enthusiastic approval.

It's made from a recipe prepared by the Georgia Extension Service, in the state famous for its wonderful peaches, and has been thoroughly tested and approved by the Georgia-Carolinas Peach Marketing Board.

The recipe: 2 cups flour, 4 teaspoons of baking powder, 1-2 teaspoon salt, 2 teaspoons sugar, 1-2 cup milk, 1-2 cup butter.

Method: Mix dry ingredients, sift twice, work in butter, add milk slowly and toss on floured board. Divide in two parts, roll to desired thickness and bake in hot oven for 12 minutes or until done on buttered biscuit pan.

Peel and slice fresh tree-ripened peaches fine (or pulp them), sprinkle with sugar to taste, let stand in refrigerator to chill.

When ready to serve place peaches between or on top of both, and top the whole with whipped cream. Butter substitute may be used instead of butter.

For those who like a sweeter shortcake, make plain sponge cake and bake in two layers and serve as above. For variation make individual short cakes by cutting round pieces of the pastry with a cup or doughnut cutter.

Stack with fruit, top with whipped cream and we are all ready for our company.

Masons to Have Called Meeting

A called meeting of the Memphis Masonic Lodge No. 729, A. F. and A. M., has been set for Friday night at 8 o'clock in the local Masonic hall, J. O. Cobb, worshipful master, announced this week.

Work will be done in the entered apprentice degree, Cobb said, and a team of past masters will confer the degree.

Masons of all lodges of nearby cities have been invited, and a number are expected to attend. All local and sojourning Masons are invited to be present, Cobb said.

Rev. Sid Martin, pastor of the First Baptist Church, will give a brief address.

Quay Is Brought to Democrat Office

J. M. Dickson, acting secretary-treasurer of the Memphis Production Credit Association, brought to The Democrat office this week a Syrian quay, a vegetable something like a cucumber but with a smooth skin instead of a rough skin.

The quays, Dickson says, may be canned and taste something like cucumbers. The one Dickson brought in measured 24 inches from one end to the other, although it was curved in the shape of a walking cane. It was raised in the garden in Dickson's backyard, he said.

Tired, Aching, Tender Feet

Amazing Relief in 5 Minutes. You probably feel like a lot of other people that about all you can do is dust some powder in your shoes or give your feet a special foot bath and let it go at that, but don't be foolish. Make up your mind today that you are going to give your feet a real chance to get well.

Go to any good druggist today and get an original bottle of Moore's Emerald Oil. The very first application will give you relief; a few short treatments will thoroughly convince you that by sticking faithfully to it for a short while your foot troubles may be a thing of the past. Moore's Emerald Oil is a clean, powerful, penetrating Antiseptic Oil that does not stain or leave a greasy residue.

### IT'S GOING TO COST YOU

**YOU** MAY NOT realize it now, but the failure of the state legislature to re-enact the bond assumption act of 1939 is definitely going to affect your pocket-book.

Consolidated Road District No. 1, which includes that part of Hall County north of Red River, must raise an additional \$85,589.75 annually for the next two years to meet the bond obligations which have been paid by the state since the bond assumption act was passed.

This means that in District No. 1 alone, the additional tax rate on property of all kinds will amount to no less than \$2.25 per hundred dollars valuation, according to a statement of County Judge M. O. Goodpasture.

In Road District No. 3, Estelline, \$28,017.50 each year must be raised, and the hike will call for at least doubling the present bond tax rate. In District 4, Turkey, the yearly increase is \$21,285, and the tax rate will have to be raised three or four times the present rate.

In other words, if the taxpayers of Hall County do not want a sizeable increase in their taxes, then something had better be done.

Each citizen can play his or her part in the work. First of all, the governor should be written and told of the urgent need for the re-enactment of the law. He will get the general idea that you want a special session to cope with the situation, whether you say so or not.

Then each of the legislators from this district should be written. Representative Paul Eubank has Matador as his address, and Senator Grady Hazlewood's home is in Amarillo. Either of them will get his mail by simply addressing the letter to him at his home city.

All taxpayers are urged to write these letters—telegrams are more effective, of course—and stress the importance of a special session of the legislature. Do it today.

### WANTED—THAT OLD COFFEE POT

**THE ALUMINUM DRIVE** now in progress in Hall County, along with similar campaigns throughout the United States, is expected to yield enough of the scrap metal to build 2,000 airplanes of the fighter type or 500 four-engine bombers.

That pot or pan you give may not help very much, but when it is multiplied by several million—given by other people just like yourself—the sum of the total donations will help.

Most of the old aluminum will not be used directly in the making of planes, it has been explained. It will, however, be used in making other essential things, thus releasing metal which was to be used for other things. This released metal will then be used in building planes.

It is estimated that 15,000,000 net pounds of usable metal will be collected in the drive, which began simultaneously over the nation last Monday. A fighter plane weighing 7,000 pounds (in aluminum) could be built with the metal given by every donation of 5,000 dishpans, or 10,000 coffee percolators, or 2,000 roasters, or 2,500 double boilers.

Your donation may not be much, but you can see that it will do its part. Look around the house, if you haven't already done so, and pick up a few of the old pieces of aluminum ware you are sure to have. Turn them over to the Hall County committee, which is headed by the county commissioners court.

That worn-out coffee pot is needed. How about it?

### YOU CAN STILL BUY BONDS

**THAT DEFENSE BOND** you promised yourself you would buy and haven't yet is still at your post office or bank, and ready to be sold.

If you live in the country and haven't time to run into town, just tell your mail carrier—he's a certified salesman of the bonds. Or if you want to take the buying gradually, tell your carrier to bring out some of the defense stamps.

Hall Countians have bought more than \$13,000 worth of stamps and bonds, which the committee in charge thinks is pretty good. But the sales are slacking up, and the government is going to need more than that sum from Hall County if we are to be adequately protected.

### Press Paragraphs

CULLED FROM THE  
DEMOCRAT'S EXCHANGES

#### New Name

The Liberty Vindicator: A press release out of Austin suggests that folks are beginning to call Johnson City, Lyndon Falls.

#### Worms

Ed Bishop in the Dalhart Texan: We've got some of the queerest animals down at the Texan office and I'm not referring to those in the editorial and advertising departments. We have some in addition to Albert Law and Adrian Odum. Yesterday Anna Lou Harrell brought in two of the funniest looking worms I've ever seen. They looked a little like overgrown caterpillars, but were about three times the size. We placed them in the window and asked folks what they were. Several thought they were used car salesmen, but others insisted they were soil conservation workers.

#### Bombed

The Tullia Herald: John Rice is displaying a small bomb in his show window which was found near Elkins bridge, six miles east of Tullia by two Tullia boys, Jack and Jay Love.

Rice obtained the bomb when he heard of its finding. As fire marshal he is required to report such things to the Federal Bureau of Investigation. The bomb is 13 inches in length and measures 6 inches in circumference and upon investigation it was found that it did not contain either a cap or any liquid explosive with which such bombs are filled.

The conjecture of opinion seems to be that some bomber plane released the "dud" in trying out the controls for releasing and holding the bombs in place on the plane.

#### Ready

"Snooter Knows" in the Stanton Reporter: Should the time ever come when Uncle Sam needs an "old codger" who can pluck the eyes out of a squirrel in the

top of a 100-foot tree with a .22 rifle, all he'll need do will be to ask for my services, and I'll mow them that Axis fellers down like nobody's business. I can sit on a stump and do that.

#### Something New

The Monahans News: And here's something to watch for—a "Yankfrank"—a frankfurter with its own built-in mustard container—a tube imbedded in its center containing mustard which you can either spread or discard.

#### Good Story

"Mirrors of Austin" in the state Observer: Has anybody else heard the story of W. Lee O'Daniel's uniform?

We heard it this way: Soon after Governor O'Daniel took office, he "discovered," like he discovered that the state government had three branches, that he was the commander-in-chief of the Texas National Guard.

He had a luxurious uniform tailored and was viewing himself in a mansion mirror when he was approached by one of his friends who stared screaming MyGodNo and explained everything, etc. Anyway, it's a nice story.

#### Still Different

The Menard News: For the sake of Union now, are the British willing to drive their cars on the right side of the road?

#### Daring Needed

The Clarendon News (commenting on the occupation of Iceland): We need more enterprising and daring movements if we are to survive and shape the freedom of the world of tomorrow.

#### Isolationists

The Quannah Tribune-Chief: The worst enemy the United States has to contend with is the isolationist who for years has ridiculed the idea of Germany invading this country, and prevented proper measures being taken to avoid such disaster. At that time when the U. S. army was smaller than that of Holland, with few airplanes and no mechanized divisions, Germany was making ready to attack a Russian army of ten million men. Such criminal care-

lessness and ignorance on the part of our isolationists cannot be exaggerated enough.

#### The Thing to Do?

The Foard County News: We believe the time has come to forget a little of the free speech upon which we pride ourselves and proceed to deport from this country everyone whose notions are unfriendly to our type of government. There is no need for us to actively participate in the European war at the present time, but there isn't any reason that anyone can give why we can't pitch in and clean up house at home, before it is too late and the termites have the whole structure undermined.

#### S' Small World

Wheeler Times: A. L. Hayter of Broadway, N. M., arrived here Tuesday to purchase an Aberdeen-Angus bull from the Stiles Ranch herd, 10 miles east and two miles north of Wheeler. While here, the visitor found a long-lost cousin, Tilbert Hayter, pharmacist at the City Drug Store. The New Mexico man stopped at the drug store to inquire directions to the

Floyd R. Springer Buys Davenport Implement Firm

Business to Continue Sale Of Case Machinery; To Maintain Repair Division

Announcement was made Wednesday of the purchase of the B. E. Davenport Implement Company, dealers in J. I. Case farm machinery, by Floyd R. Springer. The firm has been moved from its former location at 701 West Robertson to the rear of the Gulf Service Station building at Noel and South 7th streets, Mr. Springer said.

"I will continue to operate the business as it has been in the past," Mr. Springer said. "We will handle Case implements and parts, and also maintain the service department. I invite your continued patronage of the business."

In selling the Case business, Mr. Davenport expressed his sincere thanks and appreciation to the public for their past patronage, and asked that this patronage be continued in Mr. Springer's new business.

company, about two or three weeks ago, and part of the equipment has already arrived here. Other equipment is expected to arrive this week.

The company engineer, E. Leyh, is due in Memphis this week to start installation of the equipment. The boiler will probably be the first of the equipment to arrive, Mr. Roddy said, and it is to be installed immediately.

Joe H. Owen, a special representative of the dairy development department, is planning to visit in Memphis sometime during the week of August 3 to start organizing routes in the milk-buying area around Memphis.

Unless some unavoidable delays are experienced, it was explained, the operation of the plant should begin late in August.

"We appreciate the fine cooperation of the city officials and citizens of that section in establishing a Kraft factory in Memphis," Mr. Roddy said.

The secretary of the U. S. Department of Agriculture continues to emphasize the importance of the cheese industry in connection with our national defense program and is looking for a big increase in the production of cheese.

"We are installing the equipment to handle the present production, and have provided the space to increase the capacity of the Memphis factory to handle all of the milk that may be produced in the milk buying area around Memphis," he concluded.

Dalhart Prepares For XIT Reunion

Entertainment for the sixth annual XIT Ranch Reunion in Dalhart August 4-5 will really start Saturday night, August 2, in order to take care of the early comers.

Three old-time organizations annually meet in Dalhart on XIT Reunion dates. One is the XIT Association, parent of the reunion and open only to men and women who once worked on the 3,000-1,000-acre spread that Texas in the 1880's traded for its \$3,000,000 red granite capitol in Austin.

Another is the Old Trail Drivers of the Southwest; and the third is the Texas-New Mexico-Oklahoma Cowboys Association, known as the TNO.

Many of the pioneer members of these organizations, and other old-timers, drift into Dalhart, a day or two early to have a little more time to look up old acquaintances, renew friendships and swap yarns.

Major Saturday night attractions will be dances. Three top-flight orchestras have been secured for the reunion—the Light Crust Doughboys of Fort Worth; the Melody Maids of Amarillo; Lasswell's Playboys of Dalhart.

Mrs. Perry Hale of Estelline entertained with four tables of bridge Tuesday afternoon at the City Park in Childress.

Refreshments of snack-sandwiches, potato chips, olives, and iced drinks were served to Mesdames James Cooper, Winnie Hutchins, Fini Curtis, A. A. Greer, Frankie Echols, Leon Phillips, Birdie Holland, Fern Gard, Burl Bell, W. B. Davidson, Mrs. Greer Cottingham of Lelia Lake, and the hostess.

states for public announcement of the amount collected.

The aluminum is to be sold at a price set by the government, and turned into machinery to be used in the national defense program.

It is estimated that enough metal will be donated to build more than 2,000 fighting planes, although some of the metal will not be used directly in airplane manufacture.

That metal which is unsuitable for planes will be used for other purposes, thus releasing more virgin aluminum for airplane construction.

Mrs. A. P. Bralley and son Joe Bob left Wednesday for their home in Corsicana with her husband who came after them. Mrs. Bralley and son had been visiting her mother, Mrs. Alla Boswell.

Mr. and Mrs. Ira Phelps and daughters, Kay and Patricia, arrived last week-end for a visit with Mrs. Phelps' parents, Mr. and Mrs. G. W. Sexauer.
