hat's why mere "fast-flowing" oils get beat by **INTER OIL-PLATING**

How hard is it for any known oil to squirm in amongst scores of close-fitting engine parts? It's hard. Hence all Winter oil ads rightly tell you that even a worn, loosened-up engine needs extra fast oil-flow this season.

Free-flowing Conoco Germ Processed oil holds records for speedy flow in any cold. And yet Conoco asks you earnestly :

WHY BE SATISFIED WITH ANY FREE-FLOW ALONE, WHEN YOU CAN JUST AS EASILY HAVE THE RE-DOUBLED INSURANCE OF AN OIL-PLATED ENGINE?

Only an OIL-PLATED engine is lubricated for every cold start : in advance-whole hours and days before any mere free-flowing oil can do one single wiggle!

Germ Process action on every working part creates OIL-PLATING. It becomes a part of all surfaces. It cannot drain down. It stays up without interruption, forever ready to speed your starter and preserve your engine every inch of the way this Winter.

Oil level stays up, too, once your Conoco Mileage Merchant puts in your correct Winter grade of Germ Processed oil.

County Agent Asks Quick Measurement

Sixty-five per cent of the farms in Hall County have not yet been measured, according to a check made in the office of County Agent R. E. L. Pattillo this week. Mr. Pattillo asks that all farmers who have not measured their land to please cooperate with him in getting this done. The land should be measured and the maps turned in as quickly as possible, in order that the measurements can all be sent in before the first of the year.

Many, Many Women Say Cardui Helped Them

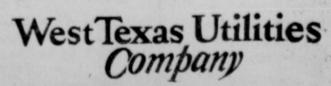

By taking Cardui, thousands of women have found they can avoid much of the monthly suffering they used to endure. Cramping spells, nagging pains and jangled nerves can be relieved-either by Cardui or by a physician's treatment.

Besides easing certain pains, Cardui aids in building up the whole system by helping women to get more strength from their food.

Cardui, with directions for home use by women, may be bought at the drug store. (Pronounced "Card-u-i.")

EVERY MAN WHO EVER LOVED HIS FAMILY_ is invited to participate in this \$40,000 NATIONAL CONTEST Electrical Standard of Living

HAVE YOU ever thought how little the Pilgrims actually had for which to give thanks? How infinitely more blessed are we of today! But it was those brave souls who, through love for home and family, made Thanksgiving Day a national institution - a day for reflection on our domestic bliss. And our blessings have increased year after year until 1937 finds many thousands of West Texans possessed of all-electric homes . . . enjoying the Electrical Standard of Living. It is a mode of life-comfort and ease-undreamed by the Pilgrims. Its adoption has been swift in West Texas, so swift that this Thanksgiving finds a larger percentage of West Texans living in electrical security than do average Americans. We live better because every man who ever loved his family has sought to provide the advantages of Electric Service.
