The Junior Herald— SEVENTH GRADERS EDIT PAPER

The seventh graders of the
Memphis School have been enjoy-
ing a course in their work this
year in journalism. They have
been editing "The Junior Herald."
The class is divided into three sec-
tions and have been taking time
about in editing this paper but
the three sections combined their
efforts for an "eight page edition"
on April 29 since it will be their
last for the year.
This little paper consists of the
students activities and those of
their teachers. In this last edi-
tion, they have an article con-
cerning a picnic at the City Park
on Thursday, April 29.
As a parting gift, members of
the seventh grade have voted to
buy new curtains for the stage in
the library. These will be pur-
chased with a part of the money

Beneficial RAIN Ends Dry Spell

As one local man said Tuesday,
the situation in Russia, the falling
of Tunisia and this fine rain com-
ing all at once is almost too much
to handle.
Starting with a cold northerly
Friday night, rain and mist started
falling Saturday and continued
through Sunday night, making a
rainfall of 2.5 inches by noon
Monday, according to J. J. Mc-
Mickin, local government weather
observer.
Reports indicate that the rain
measured from 2 to 4 inches over
the entire county, and was gener-
ally all over the Panhandle. There
are already some fields of cotton
and this moisture came at just the
right time. The rain also came
just in time to prevent damage
to victory gardens and to range
lands over the county.

W. Aubrey Ragan Dies Following Gunshot Wound

Popular Lakeview Senior
Dies Wednesday Morning
Following Fatal Accident

William Aubrey Ragan was
critically injured about 4 o'clock
Tuesday afternoon by a gunshot
wound, from which he died Wed-
nesday.
Junior and Bernie Paul Watson
and Aubrey were on a tractor go-
ing to set a trot-line, and when
they stopped to open a gate, the
gun discharged hitting Aubrey in
the stomach. The boys had the
gun to kill a rabbit for the bait.
The boys rushed Aubrey to a local
hospital and he passed away
Wednesday morning at 10 o'clock.
Aubrey Ragan, 46, was born
September 4, 1926, in Waco. He
came with his family to Hall
County 8 years ago and settled in
the Deep Lake community. He
would have graduated with the
Lakeview Senior Class this year
and was active in all activities
of the school.
Survivors are his parents, Mr.
and Mrs. W. C. Ragan, one sister,
Melba Mae, his grandparents, Mr.
and Mrs. C. A. Ragan, of Friona
and Mrs. O. L. Ragan, Waco.
Funeral services were held
Thursday afternoon, May 13, at
4 o'clock at the Baptist Church at
Lesley with Rev. Bradshaw of-
ficiating.
Pall bearers were members of
his class: Elmer Watson, Lancas-
ter Merrill, Tommy Hillis, Bill
Craft, Eugene Gibson, Clayton

Memphis Firemen Win First Place In Pumper Races

Over 100 Panhandle Fire-
men in Childress, May 11
In Constructive Convention

Memphis was presented with
a \$50 war bond as first prize in
the pumper races at the Panhandle
Firemen's Association in Childress,
Texas, May 11. Olin Culberson,
state railroad commissioner and
leading figure in Texas firemen's
organizations presented the
award.
There were over 100 firemen in
attendance at the meeting with
representatives from all over the
Panhandle. Those attending from
Memphis were: R. A. Massey, fire
chief, W. V. Coursey, secretary-
treasurer of the association, Ed
McCreary, fire marshal, Lloyd
Ford, Coy Davis and Bud God-
frey.
After a tour of the Bombardier
school, the firemen heard Olin
Culberson speak. He told the fire-
men they have a patriotic duty to
perform in that they are called
upon during all kinds of emer-
gencies.
During the business session, the
delegates refused to accept the
tendered resignation of W. V.
Coursey as secretary-treasurer of
the association, and he agreed to
serve the remainder of the year.
"Borger was selected as the
meeting site for their fall session."

Cemetery Working Draws Big Crowd

The Union Hill Cemetery As-
sociation met Thursday, May 6 at
the cemetery near Lakeview for
the semi-annual all-day meeting.
It is reported that the attendance
was the greatest in the history of
the association.
Those attending spent the day
in cleaning off the cemetery
grounds, and at noon a basket
lunch was spread for all present.
These meetings are drawing more
interest each year, officials stated.
The officials, on behalf of the
association, said: "We want to
thank King Undertaking Co. for
chairs and drinks."

Services Held for Freeman Infant

Funeral services were held for
Harold Ray Freeman, infant son
of Mr. and Mrs. James A. Free-
man, at the Womack Funeral
Home on May 3 at 4 o'clock, with
Richard Robbins, officiating.
Survivors include his parents
and two brothers, J. R. Freeman
and John Alfred Freeman.
Interment was in Fairview
Cemetery by Womack Funeral
Home.

Walter Labay, Teacher and Boys Resolve to Be 100 Per Cent Toward War Effort

According to Jim Whaley, re-
porter of the Esteline FFA, in
September, 1942, when school
started, the members with their
vocational agricultural teacher,
Walter Labay, agreed to put forth
their efforts 100 percent toward
winning the war.
As a result of that agreement
among the members, here is what
they have done: fattened out 93
head of hogs producing 18,000
pounds of pork, fed out 15 head
of calves producing 8,000 pounds
of beef, have 1,600 baby chicks
on feed from which they expect
3,000 pounds of poultry meat,
have 21 sows and gilts to produce
pigs, have 40 head of beef cows
to produce calves, are going to
farm 100 acres of grain sorghum
to help produce the much needed
feed grain, have collected 21 tons
of scrap iron, bought \$1,600 worth
of bonds and \$40 worth of stamps.
All of the members are helping
with victory gardens at home and
have built 15 self feeders for
farmers.
The members already have 11
calves on feed for next year and
20 head of pigs on feed to produce
during the summer. More pigs
will be put on feed soon to help
provide necessary food for our
fighting forces and allies.

Chills! Thrills! —AND ROMANCE IN "TIGER HOUSE"

Creepy noises, eerie lights,
women's screams and clutching
claws that snatch unsuspecting
characters off the stage right be-
fore your very eyes, are only a
few of the thrills you will expe-
rience when you see that famous
mystery comedy play, "Tiger
House," to be presented Friday
night, May 14, by the Seniors at
Memphis High School.
But don't be afraid! Of course,
you will be excited. You might
even scream! But just when you
expect the worst you will start
laughing at some of the rib-tick-
ling comedy which always comes
along just at the right moment.
It is this variety which makes the
play so amusing. Thrills one
moment, comedy the next, ro-
mance the next. And it all leads
to an unexpected conclusion that
will leave you gasping and maybe
a bit chagrined to find that after
all you have guessed wrongly as
to the guilty party.
Much time, work and careful
planning have all resulted in what
is hoped to be one of the most
ambitious productions the Seniors
have ever attempted. Many me-
chanical and electrical effects had
to be worked out. The play it-
self needs careful rehearsing as
the action is rapid, characteriza-
tions all vastly different and well
written. We can positively guar-
antee that all those who see "Tiger
House" will feel better for an
evening well spent amidst thrills,
chills, shudders, laughter and—
love!
The characters of the play and
the part they portray are as fol-
lows: Erma Lowrie, Jo Mitchell,
Yami, a Hindu, Louis Browning,
Mrs. Murdock, Naomi Morrison,
Aunt Sophia, Gwen Coursey, Mac-
Intosh, Jim Deaver, Arthur Hale,
Don Tarver, Oswald Kerings, Gene
Robertson; Peggy Van Ess, Ruthie
Johnson.

will give the invocation. "Come
Thou Almighty King" will be
sung by the choir and audience
and Rev. E. L. Yeats will read
the scripture lesson.
Dr. Baker has chosen as his
subject "The Upreach of Life"
and it will pertain to the senior
class and their future. Following
another song by the choir, Rev.
Yeats will offer the benediction.
Mrs. McNeely will play "Largo"
for the recessional.
Platform guests will include the
local pastors, the school superin-
tendent, the principal of high
school and the president of the
school board.

Women Work

By INEZ BAKER

Hall County women are responding to their country's call. There are WAACs WAVES and nurses throughout the nation who call this their home. Our women are working in defense plants at Childress, Amarillo, Dumas, Dalhart, Fort Worth, in the states of Connecticut, Oklahoma, California and many other places. They are all glad to be in the service.

At home women are taking men's places in drug stores and grocery stores, as taxi drivers and meat cutters. We see women driving trucks and tractors who never dreamed of doing such a thing before. It may be that you do not think of this as a patriotic service, but it is. This work must go on in order to serve the people, and men who formerly occupied these positions have been called to war.

Too, women at home are giving hours each day to Red Cross and bond drives, to Red Cross production, knitting, sewing, quilting and making surgical dressings. In Hall County there are hundreds of women who at a moments notice would say: "Here am I—send me."

There is another service rendered by our women that may go unnoticed but it is one of great importance. They are making homes. What are we fighting for if not to preserve the American way of life? Then if our homes are destroyed, even though we win the war, we have lost. Our government recognizes this and women who have children under fourteen years of age may not enter many fields of war time service. This is not true in defense areas, any woman regardless of her responsibilities may work.

It has always been necessary, and always will be, for some mothers to earn money outside of the home and for those who have done so we have ever had the greatest admiration. But when a woman deliberately puts her baby into unskilled hands, or turns her

adolescent girls loose on the street in order to get some of the big money now being paid, she is violating a sacred trust. Such is happening in defense areas and it is a situation from which we shall reap a whirlwind after the war. War always disrupts a nation, a great unrest always follows. There will be enough evil for the nation to combat, when peace comes again, even though all mothers have done every thing in their power to keep this generation normal. The time has not come in America—and may it never be—when mothers are needed in war plants.

So we take off our hats to Hall County mothers who are carrying on in the home. To those who have time for the P. T. A., who are counting calories and rationing points, who are rearing their children to be true and loyal American citizens. There is no greater work for women today.

Betty Crocker KITCHEN CLINIC

Prepared for Your Newspaper by Betty Crocker Home Service Department

ANOTHER MEAT STRETCHER

"I want ideas to make all kinds of meat go a long way," one young woman answered when asked what sort of cooking information she felt she needed most.

"You see, I used to have two or three standby recipes for making a little bit of meat look like a lot. I thought it was better to be a master hand at a few recipes than to use a lot of them—and never recall to justice any one. But now—with rationing—one just has to know something about fixing all kinds of meat—so that one can make the most of whatever meat one can get."

I'm sure lots of women have felt this same way about it being smart to have a variety of different recipes for different types of meat at hand. So here's a real recipe to add to your meat repartiere. It's called—

STUFFED VEAL ROULETTES

- 3 slices bread, cubed
- 3 tsp. milk
- 1 small egg, beaten
- 1/2 lb. pork sausage (bulk)
- 1/2 cup finely chopped onion
- 1/4 tsp. salt
- Dash of pepper
- 1/4 tsp. sage
- 1 lb. veal steak (have butcher flatten veal into 6 thin pieces about 3x5")

Mix bread cubes, milk, egg, pork sausage, chopped onion and seasonings. Spread each piece of veal with layer of bread stuffing. Roll up, fasten with wooden picks or skewers. Sauté until golden brown in a little hot fat in heavy skillet. Add enough water to cover bottom of skillet. Cover. Bake about 1 hour in a moderate oven (350°). Add more water during baking, if necessary, to prevent meat from cooking dry.

This will make 6 servings. And here's a menu built around these veal roulettes—

- Veal Roulettes with Milk Gravy
- Steamed Rice
- Fresh or Frozen Peas and Cubed Carrots
- Grapefruit and Avocado Salad in Lettuce Cups
- Sweet French Dressing
- Bread and Butter
- Fresh Strawberry Shortcake

THE THRIFTY WAY IS THE AMERICAN WAY

You'll have touring fever. Will you have a car?

Even the wizard auto industry can't switch from arms to autos overnight. After the Axis cracks, much time will pass before designers, engine builders, plastic-makers, accessory plants, glassworks, and the great assembly lines can again bring you a better new car.

Probably you're pining to win yourself peace by setting out as soon as you can for Grand Canyon, perhaps—or for Higtown or the Coast—or for the old folks whom you haven't seen since rationing started. The car that will be ready first—50 chances to 1—is your all-essential present car, encouraged to last its limit by Conoco Nth motor oil... oil that OIL-PLATES!... oil that's the foe of engine acids!

War didn't first bring these acids. Ordinary engine combustion has always bottled acids inside, as your engine stopped. When stops were brief and your engine heated up fully on long runs, the acids were not so harmful. But now limited speed, comparative coolness and long lay-ups invite acids to bite hard and corrode metals.

Corrosive air and water, you know, are checked by chromium-plating. And corrosive engine acids are checked by OIL-PLATING, closely deposited on inner parts by patented Conoco Nth oil, with its added modern synthetic inducing a sort of "magnetism." This can long maintain OIL-PLATING on surfaces that you want shielded from acids and depreciation. Don't wait... OIL-PLATE! Get Nth oil at Your Mileage Merchant's Conoco station. NEWS about boys in the Service

Harvesting Seed From Spring Grass

Harvesting the spring crops of grass and any of the clovers for their seed is wise conservation, says Robert R. Lancaster, pasture specialist for the A. and M. College Extension Service. It suggests an important service which farmers, who have the crops, can render for themselves, for other farmers and, ultimately, for more food for Victory.

Lancaster explains that pasture seed which are greatly needed and of high value ripen as late as May. But as seed which is too mature will shatter, early harvesting is necessary. Some green seed, and perhaps some which is moist, will get in. Accordingly, care is necessary in curing to prevent heating and molding. Large areas may be combined, and the seed spread under a roof and stirred frequently to prevent heating while drying. Small quantities may be harvested with hand strippers or by stripping with hands alone.

The Soil Conservation Service has taught to cut rescue grass when a few seeds begin to ripen. But the SCS also harvests rescue ripe to the point of shattering with all-crop combines which can be adjusted to practically eliminate all weed seed. Bundling the crop is not advisable when using a grain binder. It should be allowed to cure like hay before threshing. Let it lie about four days, depending upon weather, then stack for further curing.

The same method and care should be used in harvesting and curing rye grass. Raking and sweeping is another way to get rescue and rye grass seed for home use.

Dead bur clover vines can be gathered with a horse rake without mowing. Then the burrs on the ground are swept up with large stable brooms. White Dutch clover is ready to harvest when about 75 per cent of the heads are brown. Generally, harvesting is by mowing with a windrow attachment on the cutterbar. Afterward, the crop is allowed to cure before threshing. But when too dry and mature it should be cut when moist with dew.

SPARING OF SUGAR!
And mighty taste. Three kinds of cookies made from one basic dough. Plain, chocolate and coconut drop cookies each with a nut-stuffed date center. Try 'em!

Try this recipe for "3-IN-1" COOKIES!

1/2 cup Shortening (part butter for flavor) ... 1/2 cup Sugar
2 Eggs ... 1 tsp. Vanilla ... 1 1/2 cups sifted GOLD MEDAL "Kitchen-tested" Flour ... 1/2 tsp. Baking Powder ... 1/2 tsp. Salt ... 1/4 cup Milk ... 1/2 cup unsweetened Chocolate (1/2 oz.), melted ... 1/4 cup shredded Coconut ... 4 doz. whole dates (pitted) ... Walnuts, Pecans (or any nuts desired, for stuffing dates)

CREAM the shortening, add sugar gradually, cream thoroughly. Then blend in the well beaten eggs and vanilla.

Sift flour, baking powder and salt together, and add to creamed mixture alternately with the milk. Divide the batter into 3 equal parts. Add the unsweetened chocolate to one part, the shredded coconut to one part and leave one part plain.

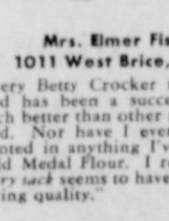

Now stuff dates with nuts. Drop some into the chocolate batter, some into the coconut batter and some into the plain batter. Be sure they are thoroughly coated. Place each date coated with batter on lightly greased baking sheet.

Bake 12 to 15 minutes in a quick moderate oven (375°). Makes 4 dozen cookies. (To make cookies more decorative, roll coconut cookies in coconut and chocolate cookies in chopped nuts before baking. 1/4 tsp. cinnamon and 1/2 tsp. nutmeg may be blended into plain cookie batter, if desired.)

Perfect results with the above recipe are guaranteed only with Gold Medal "Kitchen-tested" Enriched Flour. Recipe has been tested with that flour. Every batch of Gold Medal Flour is tested by the Betty Crocker staff.

Miss Tommys Noel, 720 Cleveland St., says: "I have tried other recipes, but like the Betty Crocker recipe much better. They are easy to understand and follow. Since using them, I have never had a failure. Used with Gold Medal 'Kitchen-tested' Flour, they give you a combination that's hard to beat."

Mrs. Elmer Fisher, 1011 West Brice, writes: "Every Betty Crocker recipe I have tried has been a success. They are much better than other recipes I have tried. Not have I ever been disappointed in anything I've baked with Gold Medal Flour. I recommend it. Every sack seems to have the same fine baking quality."

Pathfinders Have Service Men's Mothers as Guests

The Pathfinders council entertained a group of service men's mothers with a Texas Day program on Tuesday afternoon at the home of Mrs. Cloyd Foreman.

The president of the club, Mrs. W. B. McElreath, spoke words of welcome to the guests. Each member pinned a white carnation on the guest she had invited. Then each mother told her boy's name and where he was stationed and the branch of service he was in.

Scripture was read by Mrs. George Payne while Mrs. W. C. Milam played soft music. A violin number was played by Miss Sue Lynn Guthrie, accompanied by the piano by Miss Mary Ruth Anderson.

Tribute was paid the men in service in the Army, Navy, Marines, and Air Force of each by placing a flag in a wooden plaque. Then a tribute was paid those Texans who lost their lives in World War I, those who served during peace time, and finally a flag was placed for all the men serving in the entire United States.

A service flag with a blue star to represent every boy in our

community serving in the armed forces and a gold star honoring those who have made the supreme sacrifice of their lives was presented by Mrs. Lloyd Phillips.

A story of the "Lord's Prayer" was given by Mrs. Payne. Mrs. B. B. Smith gave "This Freedom for Which Men Fight and Die." The program was concluded by the group singing "Onward Christian Soldiers."

Refreshments carrying out the Texas theme were served to the members and guests present.

1913 Study Club Meets Wednesday

The 1913 Study Club met at 8:30 o'clock Wednesday afternoon, May 23, at the home of Mrs. L. B. Merrell.

Two programs were combined. Mrs. T. M. Harrison brought the report from the district Federation which met in Amarillo May 4.

Mrs. A. L. Burks reviewed the book, "The Human Comedy" by William Saroyan. The book is a modern war story.

The members present were Mesdames B. Baldwin, L. B. Merrell, M. G. Tarver, Juanita Montgomery, Ted Dudley, M. McNeely, R. S. Greene, Norma Hunt, Ralph Howe, A. L. Burks, D. L. C. Kinard, Hance Tarver, R. C. Walker, Percy Bones, T. M. Harrison, and J. Thompson Baker.

The club will work at the Red Cross room on Wednesday, May 24, which will be the last meeting for the year.

Salisbury Sewing Club Buys Bond

The Salisbury Sewing Club met on Tuesday afternoon with Mrs. E. W. Solomon. As is the usual custom Red Cross work was the highlight of the meeting. Fourteen pillow covers were completed; an afghan was partially completed. The club voted to purchase a twenty-five dollar bond and authorized Mrs. Charles Williams, treasurer, to draft on the club funds for it. The club agreed to buy at least one more bond.

Those present were Mesdames R. A. Hutcherson, Alfred Hutcherson, E. L. McQueen, Ira McQueen, Henry Blum, Ordie Jones, C. L. Nixon, Ernest Lee, and the hostess, Mrs. Solomon.

The next meeting will be in the home of Mrs. Henry Blum on Tuesday, June 1.

Mrs. Martin and Mrs. Jones Are Shower Honorees

The home of Mrs. E. L. McQueen was the scene of a miscellaneous shower given in honor of Mrs. Archie Martin and Mrs. Ordie Jones, both of the Salisbury community, on Wednesday afternoon.

The lace covered dining table was set with a cut glass punch service.

Hostesses for the occasion were Mesdames Ira McQueen, E. L. McQueen, Ernest Lee, George Bass, Alfred Hutcherson, E. W. Solomon, Charles Williams, C. Veteto, and Miss Abbie Veteto.

Mrs. E. W. Solomon served punch, cheese sandwiches and cookies to Mesdames E. L. Kilgore, W. B. McQueen, A. H. Jones, Ellis Veteto, Bill Ragsdale, W. S. McQueen, Van McGuire, Bill Longshore, C. L. Nixon, John Nichols, J. R. Mithell, Ed Hutcherson, L. I. Davis, C. F. Stout, and R. A. Hutcherson.

The following were elected officers: President, Mrs. J. A. Whaley; first vice president, Mrs. T. J. Hampton; second vice president, Mrs. G. C. Baskerville; recording secretary, Mrs. Claude Johnson; corresponding secretary, Mrs. Joe DeBerry; treasurer, Mrs. Roy R. Fultz; historian, Mrs. D. J. Morgensen; parliamentarian, Mrs. J. H. Norman; reporter, Mrs. M. McNeely; registrar, Mrs. C. W. Broome.

A salad course was served to Mesdames G. C. Baskerville, C. W. Broome, T. J. Hampton, Claude Johnson, D. J. Morgensen, M. McNeely, J. H. Norman, G. W. Sexauer, J. A. Whaley, and Frank Wright.

The next meeting will be Thursday, June 3, at 3:45, in the home of Mrs. J. A. Whaley.

"Peer Gynt" Topic At Harmony Club

The Harmony club met Wednesday afternoon at 4 o'clock in the home of Miss Mary Helen Lindsey with Miss Eddie Mae Scott and Mrs. O. N. Hamilton as co-hostesses.

The program topic was "Peer Gynt" (Ibsen), an opera, with Mrs. Clyde Milam as leader. A business session was held. The roll call was answered with operatic facts.

The story of Peer Gynt was by Mrs. R. S. Greene. Miss Gertrude Rasco played Prelude in C minor (Chopin) and Waltz in A flat (Brahms) on the piano. "In the Hall of the Mountain King" (Grieg) was played on the piano by Mrs. Robert Devin.

Mrs. L. B. Madden played "Ase's Death" and "Morning Mood" (Grieg) on records. Mrs. Clyde Milam sang, "Solvejg's Song." A piano solo, "Anitra's Dance" was played by Miss Mary Helen Lindsey. Miss Lindsey accompanied the chorus, composed of Mesdames D. L. C. Kinard, Matthew Allen, R. S. Greene, Clyde Milam, Otho Fitzjarrald and Miss Eddie Mae Scott, who sang, "Greeting to Spring" (Strauss).

Members present were Mesdames Joe DeBerry, M. McNeely, Otho Fitzjarrald, D. L. C. Kinard, R. S. Greene, L. B. Madden, Matthew Allen, Robert Devin, and Misses Eddie Mae Scott, Mary Helen Lindsey, and Mary Foreman, and one guest, Miss Gertrude Rasco.

Truth Seekers S S Class Has Meeting

Mrs. C. E. Gowan was hostess for the Truth Seekers Sunday School class of the First Methodist Church at her home with Mrs. J. W. Burks as co-hostess.

Mrs. C. Gerlach gave the devotional. Mrs. Bob Roberts reviewed Eugene Welch's letter from the Holy Land, which was published in The Democrat. Mrs. W. B. Funk gave a talk on home training.

Mrs. A. B. Jones directed the Bible questions and answers on Psalms. Several of the class repeated different Psalms. The meeting closed with all repeating the "Lord's Prayer."

Members present were Mrs. C. W. Broome, Mrs. A. B. Jones, Mrs. C. Gerlach, Mrs. W. M. Gerlach, Mrs. W. B. Funk, Mrs. Frank Guinn, Mrs. Ed West, Mrs. Ed Johnson, Mrs. J. A. Katch, Mrs. C. E. Gowan, and Mrs. J. W. Burks.

Gloria Virginia Howard, Zora Mae Sweat in Recital

On Monday evening in the First Baptist church, an enthusiastic audience greeted two youthful musicians and proclaimed their concert a success. Gloria Virginia Howard, pianist and violinist, assisted by Zora Mae Sweat, presented a varied program and proved anew their natural talents and musical ability.

Gloria Virginia is the daughter of Mr. and Mrs. A. W. Howard and is a gifted musician and a brilliant future is predicted for her.

Zora Mae is the daughter of Mr. and Mrs. Olsen Sweat. Her contribution to the program was enjoyable, possessing a voice of rare beauty for one so young, and her assistance in piano and violin added enjoyment to the program.

These young ladies have won high honors in Amarillo music festival and are pupils of Mrs. Conley Ward.

Look! Listen! Live!

Twenty-four school children killed and 15 injured!

That was the toll taken not so long ago by failure of the driver of a school bus to comply with safety requirements and assure himself that the way was clear before attempting to cross a railroad grade crossing. The accident is illustrated here.

The windshield and front side windows of the bus were equipped with frost shields or clear-vision windows. The crossing was in

open country, with nothing to obstruct the driver's view of the approaching train.

He came to a stop about 25 feet from the track, then started over the crossing when the train was in plain view—only two or three hundred feet away.

The National Safety Council is conducting a special campaign to stop these accidents which every day delay 35 trains a total of 22 hours—a damaging blow to the nation's war transportation effort.

It's really been a PROBLEM

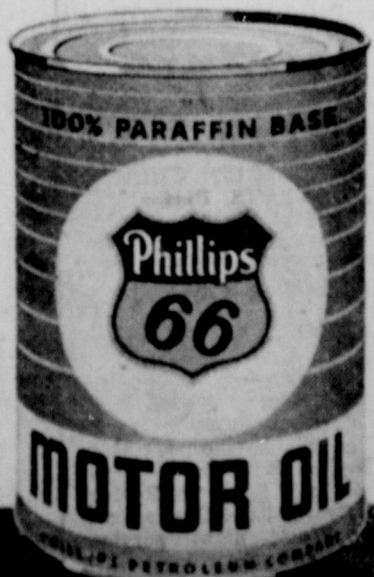

IT SAVES A LOT of head-scratching to have facts instead of guesses, when you are choosing a motor oil to protect and preserve your car for the duration.

That is why we give you these facts: We produce a number of oils at a variety of prices to meet the differing demands of car owners. Some want a low-priced lubricant for very old cars, some want a medium-priced product, while to still others cost is no object.

Of all these oils, we have concentrated on one as our best. The crudes which go into it, the extra care in processing, the results it gives; all enable us to say frankly and simply, Phillips 66 Motor Oil is our finest quality . . . the highest grade and greatest value . . . among all the oils we offer to average motorists.

Never was it more important to use good oil. So it is good sense and good saving to ask for Phillips 66 Motor Oil when draining winter-worn lubricant, or when making the recommended every-two-months oil change.

NOTICE TO THE PUBLIC

A JOB WELL DONE

Though Hall County lacked \$12,675.28 in meeting the quota of \$275,000 set for the April War Loan Drive, we are proud of the amount of bonds sold. This amount was sold with but little help from outside corporations and institutions.

To Judge Goodpasture, county chairman of this drive, and his co-workers should go a vote of thanks for their untiring efforts in making this campaign a success. These men and women spent much time in soliciting the sale of the bonds and stamps—time in which they probably neglected their businesses and homes.

We have not heard these workers begrudging this time they spent and we probably will not hear them. They are the ones who are worthy of the cause for which our boys are fighting. There are so many things that all of us can do to help win this war even if we cannot afford to buy bonds of big denominations. This is a busy time for everyone. Every business firm in Memphis is working short handed. They do not have the skilled help they had before this war started and merchandise is harder to get and prices have gone up; however, a lot of people still find time to help in the Red Cross sewing room, to write letters of cheer to our boys in camps and overseas. And, most of all, to remember to be thankful for our still easy way of life, in comparison with that of our allies, and not fuss about the few things we are having to do without.

Let's say thanks again to the workers of this recent drive and resolve that we will go all the way next time.

We cannot buy freedom, but we must pay for its privileges. The Second War Loan is over and was successful, but we must continue to buy bonds to buy bombs.

In addition to their direct efforts in achieving Victory, the women of America have the responsibility and privilege of maintaining our most valuable asset—the home.

Every month an average of 702 freight trains, most of them carrying vital war goods, are delayed an average of 460 hours because of carelessness by the men and women who drive automobiles.

Press Paragraphs

SELECTED FROM THE
DEMOCRAT'S EXCHANGE

This is no time to complain about things of which we are being deprived. Rather this is a time to appreciate and rejoice over the things we have and the blessings we retain. No one in the country is really hurt yet.—Foard County News.

Men in the armed services must keep themselves physically fit otherwise they couldn't begin to stand the grind of army life. Business men, not having to do it, neglect their health until it is too late to do much about it. You wives and mothers should insist upon those members of your family who are working day and night getting regular rest. In the long run the person who does this will be able to produce more.—Dalhart Texas.

Just as soon as it is noised abroad that factory worker in the mines and factories will receive orders to enter the Army or Navy on very short notice, if a strike or slow-down is brought where he works, all strikes will gently fade away like sparkling dew before the morning sun. This modus operandi will stop all strikes for the duration. Nothing else has, and nothing else will. They must know that they must

either work or fight. If they will not work, draft them and make them fight, like we have millions of others.—Claude News.

The war came home to at least one member of the younger generation when a small Brand newsboy last Thursday afternoon resolved to give up chewing tobacco "for the duration." Hereafter he will invest his money in defense stamps. Cecil Williams made the conversion when the kid tried to sell her a paper and candidly admitted what he planned to do with the dime.—Hereford Brand.

This department got completely off the beam last week. The start of the weekly essay was well and good. At least we gave it that appraisal. But in newspaper parlance there is a term called "jump line." That means when an item is continued on another page it is "jumped." We made the effort at the hurdle to the extent that the continued on page two was in its proper place all right, but that was all. The thing ended in about the same manner as did cotton production in Grand Old Erath twenty years ago. These things happen occasionally and when they do there is little that can be done about it. Perhaps the less said about it the better. The good natured chiding about all this dereliction is appreciated, all because it goes to prove that people actually do read this great moral and metropolitan weekly.—Stephenville Empire-Tribune.

LEGISLATIVE GRAPEVINE

By GRADY HAZELWOOD

In the closing days of what should have been an uneventful session, members are becoming panicky over the consideration of bills which necessarily must die on the calendar for want of time. Although there were few bills of general public interest, some of the most controversial and bitterly contested legislation came before us.

Killed in the House was the Aviation bill which would have placed the industry in Texas under the Railroad Commission. Opponents contended there were no airplanes available for any group at this time and it was untimely to tie down with state regulations and red tape an industry where during one hour a person would be flying in Texas and the next he could be in some other state—it that it would surround private and commercial flying with red tape that it would be impossible to operate.

Passed by both Houses of the Legislature and on the Governor's desk is the Chiropractor Bill which licenses and regulates chiropractors. This legislation was termed as the most politically dangerous up for consideration in years. Opponents contended that to license the chiropractors would seriously endanger public health because it would license a profession with an inadequate knowledge of diseases and human ailments. Proponents advanced the argument that there is not now any regulation, and that lawyers, barbers, farmers, or any person whomsoever can engage in chiropractic treatment without having training or qualifications—that it would be better to have some regulation than no regulation at all. Proponents also called attention to the fact that under the terms of the bill passed chiropractors must now have a two year college course and, in addition thereto, four years of study in the basic sciences of anatomy, physiology, and other subjects. They also called attention to the fact that the bill makes it a criminal offense for any chiropractor to treat any infectious or contagious disease or to practice medicine or surgery.

The real battle is now going on between the free conference committee on the departmental, higher educational, and rural aid bills. A rural school superintendent from the Panhandle was amazed when he heard a leading member of the Senate refer to the rural aid bill as being one that "throws our money away." The statement was made in the course of an argument over raising the salaries of rural school teachers who are now abandoning the profession in wholesale fashion because of low salaries. The sub-committee of the departmental appropriation bill reduced the appropriation for the Liquor Control board so that more than 100 enforcement officers must be cut off the payroll. This, even though the department is self supporting by reason of revenue from fines collected. The only answer to legislative action such as this is that Texas is a larger state with a greater variety of sentiment thus expressed by the legislature.

Tobacco Can Be Sent to Prisoners

U. S. war prisoners and civilian internees held by Germany and Italy can receive cigars, cigarettes, smoking tobacco or chewing tobacco sent by relatives and friends under a program worked out by several government agencies and the American Red Cross. The plan will be extended to include persons held by Japan when over facilities are available for routing the products to them. Under the program, the next-of-kin of each identified United States war prisoner and civilian internee will receive (without asking for it) two tobacco labels every 60 days. These are to be forwarded, with a money order, to a tobacco manufacturer, who will send the tobacco. No postage or federal excise tax need be paid. Each label is good for three cartons of cigarettes, or twelve packages of one carton of two-ounce packages of smoking tobacco, 100 cigars or approximately 24 ounces of chewing tobacco. Smaller amounts or mixed package cannot be sent.

Crop Corps Certificates

Certificates of service will be awarded to the 3,500,000 persons who work on farms this year in the U. S. Crop Corps, and to those who work in canning and other food processing plants, the War Board Food Administration has announced. The certificates will be presented "for patriotic service on a farm or in a food processing factory" and will bear the signatures of Chester C. Dav-

is, war food administrator, Paul V. McNutt, chairman of the War manpower commission, and the State director of Agricultural extension in each state.

Service Bars for Civilians

For the first time, civilians may earn an official service bar similar to the campaign bars of the armed services, according to a recent announcement of the Civilian Defense director. Six distinctive bars for service ranging from 500 to 5,000 hours will be given to Civilian Defense volunteers. All volunteers may qualify for the awards.

Maximum Prices on Poultry

Poultry raisers who sell live birds at their farms must observe the maximum prices OPA has set for the nearest city, town or village. Ceiling prices for 56 representative cities were recently issued. For broilers, fryers, roosters and light capons the prices range from 27.5 cents per pound for Chicago to 29.51 cents per pound for Miami, Florida.

Soldiers Get Lots of Mail

United States soldiers overseas receive over 20,000,000 pieces of mail a week, or an average of fourteen pieces per soldier. This is four times as much as the A. E. P. got at the peak of the World War. Twenty percent of the mail sent overseas is V-mail.

Revised Feed Prices

Savings to farmers are expected to result from OPA's revision of retail prices of animal and poultry feeds. Previously, the retailer has been allowed a fixed markup of \$7.50 a ton on all kinds of feeds. Now, feeds have been classified and there is a schedule of markups ranging from \$5.50 to \$10 a ton.

Hospitals for Civilians

Despite increasing military demands for hospital equipment and medical supplies, substantial efforts are being made to maintain the health of civilians. Since January 1, 1942, construction of 260 new hospitals, or extensive additions to existing hospitals has been approved by WFB. Beds will be increased by 7000 leaving an estimated shortage for civilian use in war areas of about 14,000 beds.

Quota Increase Revoked

Because a disproportionate amount of beef is going into civilian channels depriving the armed services of an adequate amount of beef, the War Food Administration has revoked all temporary beef slaughter quotas and temporary increases granted since April 1 for the month of May.

Butchers or local slaughterers who were slaughtering in 1941 and did not ask for an increase are not affected by the order.

Waste Fats Collections Down

Collections of waste kitchen fats from the nation's household during March amounted to 7,312,617 pounds or 43.9 percent of the national quota. Texas turned in 294,833 pounds; Louisiana 33,000 pounds and Oklahoma 59,000 pounds for a total of 387,833. The

quota for the three states is 990,000.

Traffic Declines

Traffic on rural roads in the eastern rationed area is 50 percent less in March than in the same month of 1941. It was 25 percent less in the rest of the country. Traffic in the East is off 52 percent in the same month elsewhere, compared with February, 1941.

"Hey, Mister,
You Dropped a Watt!"

REDDY: What on earth are you going to do with all those candles?
MAN: Light my home. I'm cutting down expenses.
REDDY: H-h-u-m-mm. Then you need about 500 pounds of candles a month to give you the same kind of good light. D'you know what that'd cost?
MAN: Nope. But I guess it'd save me money.
REDDY: Well, let's do some figuring. That many candles would cost you about \$200—
MAN: Wow! I couldn't afford that. My monthly electric bill is only three dollars or so.
REDDY: Well, that's just about average. But remember that only about 85c of it goes for light. The rest pays for electricity to run your radio and refrigerator—
MAN: Say, that's not so much when you come to think of it.
REDDY: Right! Electricity's cheaper than it's ever been. You're getting about twice as much for your money as just 10 or 15 years ago.
MAN: How can that be? My bill hasn't changed.
REDDY: Maybe not. Think of the bigger and better lamps you're using and the electric appliances you've added. Fifteen years ago, did you have an electric refrigerator?
MAN: No-o-o.
REDDY: Radio? Electric mixer? Air conditioner?
MAN: No . . . Say, how come I get so much more electricity for about the same money I used to pay?
REDDY: That's easy. Experience. Training. Well-balanced business methods.

MAN: I don't get it.
REDDY: It's like this. The men and women who work for West Texas Utilities know their job. That job is to give you the best possible service at the lowest possible cost. And they're doing it! Today—when most everywhere else is going up—ELECTRICITY IS STILL CHEAP!

Stabilization Plan Of War Manpower Commission Given

Worker Must First Apply to His Employer For a Statement of Availability

Personnel of the United States Employment Service office serving Childress, Hall, Cottle, and Donley counties have received full instructions regarding the

new labor stabilization plan of the War Manpower Commission which is now in effect in this area according to Mr. B. A. Myers, manager of the local USES office.

Mr. Rosemond of the War Manpower Commission Regional Office in Dallas has discussed the stabilization plan with the personnel of the United States Employment Service and some interested employers and workers of this area.

These discussions have familiarized all personnel of the USES with the terms and regulations of the new stabilization plan to enable them to discuss further the restrictions and permissions of this plan with interested workers and employers in this area and to explain the various provisions of the plan as they apply.

Brice to Have New Cotton Gin

The Memphis Cotton Oil Company has bought the farm belonging to Mrs. Anna Dickson in the Brice community and will build a cotton gin there.

Work on the gin will start around June 1, and it will be ready for the ginning season. Several years ago, the gin at Brice burned and the farmers there have had to haul their cotton a far distance to get it ginned, so this new gin in the cotton growing community is badly needed.

Advisory Committee Appointed on Sale Of Pressure Cooker

Committee to Assist USDA War Board in Determining Eligibility of Applicants

Since the supply of pressure cookers will not meet the demand for both rural and urban residents, they have been added to the rationed farm machinery and equipment.

The following were appointed as an advisory committee to the County USDA War Board: Mrs. Charles Williams, Mrs. George Sexauer and Mrs. Bill Kesterson. This committee may assist the County Farm Rationing Committee in determining the eligibility of applicants but the Rationing Committee will be responsible for the final determinations and the issuance of purchase certificates.

In determining the eligibility of applicants for cookers, the following items will be considered: Maximum use of cookers, approximately 750 quarts, or the equivalent, during a 12-month period for a 7-quart cooker, other sizes in proportion; local conditions may vary this amount;

Applicants may be residents of rural or urban areas, as use of cookers is not limited to farm families;

Applicants may be (a) individual families engaged in large quantity canning; (b) neighborhood pools, consisting of an applicant who has obtained the agreement of several neighbors to share the use of a cooker; (c) organizations, such as garden or home demonstration clubs, church societies, PTA's, local school boards, etc., members of which have agreed to share the use of a cooker. In case of a joint application as in (b) and (c), each user is required to sign the application in the space provided.

The applicant shall be a person who will assume responsibility for the proper care, use and circulation of the cooker.

RELIABLE PRESCRIPTIONS

May 17-22

Coke Stevenson, Governor of Texas, has proclaimed May 17-22, 1943, as National Cotton Week in Texas.

The American people have been recognizing cotton as the outstanding agricultural product of the nation each year in observance of a special Cotton Week. During this global war, not only the American people but all of the United Nations recognize cotton as a critical war material.

A campaign is being conducted urging the people to grow all the cotton allowed by law. Cotton and cottonseed products are so vital to the winning of the war and the peace to follow.

Let's grow all the cotton we can this year!

Funeral Services For A. L. Durham Monday Afternoon

Resident of Hall County Passes Away in Amarillo Hospital Friday, May 14

A. L. Durham, 49, passed away Friday night, May 14, at 11:50 in the St. Anthony Hospital in Amarillo, following a long illness. Funeral services were conducted at the First Baptist Church in Memphis on Monday, May 17, conducted by Rev. Emmett Evans, pastor of the Antelope Baptist Church, assisted by Rev. S. F. Martin, local pastor.

Mr. Durham was born February 2, 1894 in Clay County. He moved to this county in 1914 and lived in the Lesley and Antelope communities most of this time. He united with the Missionary Baptist church early in life and was a member of that church at the time of his death.

He was married to Miss Virginia Liggett on November 3, 1913. To this union six children were born, all of whom survive.

Pall bearers at the service were: Bill Miller, Roy Allard, Lang Waldrop, Oscar Bullock, C. C. Brown, D. W. Evans.

In charge of flowers were: Mrs. Roy Allard, Mrs. Henry Bell Edens, Emma Bullock, Marion Evans, Naomi Turner and Betty Jean Brown.

Surviving Mr. Durham are these six children: Mrs. J. G. Ridge, Amarillo; Pvt. Cecil Durham of Florida; Mrs. M. A. Groom of Memphis; Gordon Durham, Memphis; Mrs. Elmer Woods, Brice; Seaman Ze A. L. Durham, Jr. of (Continued on page eight)

MEMPHIS LITTLE THEATRE WILL PRESENT "LENA RIVERS" MAY 25

The dramatization of Mary J. Holmes' most popular novel, "Lena Rivers" will be presented by the Memphis Little Theatre at the High School Auditorium on Tuesday evening, May 25, at 8:30.

The play is a three-act melodrama in "gay nineties" costume with between-acts songs by the barbershop quartet, composed of Buren Carr, Murray Dodson, Ewell Noel and E. E. Roberts, and Sam Sloan soloist. The "Gay Nineties" duet is composed of Gladys Power and Ewell Noel.

To those of you who have forgotten the story, it deals with the plight of young Lena Rivers and her beloved Granny Nichols who are compelled to leave their New England home and seek refuge with Granny Nichols' son, John, who has changed the family name of Nichols to Livingstone because of the social aspirations of his dominating wife, Matilda. Arriving in Kentucky where the Livingstones have a large plantation, Lena and her grandmother are

Variations More Rain In Weather

Perhaps in other years, weather would have been an ideal topic for conversation during the past few weeks. The temperature has ranged from 42 degrees to 100.

The highest for the year so far was on Sunday, May 2, when the temperature registered 100 degrees. Low for the month was 42, and was registered May 7 and 8. Varied degrees ranging from 50 to 80 have been registered since May 1.

The total rainfall for this month is 2.75 inches in Memphis. It has been heavier in various parts of the county, ranging from 2 to 5 inches.

Memphis FFA Has Part in Aiding Home Production

Louis Sanderson, Chapter Reporter, Gives List of 1942-43 Activities

In summarizing the work done by the Memphis Chapter of the Future Farmers of America, a considerable amount of producing was carried on by the chapter members, according to Louis Sanderson, chapter reporter. To date 19 boys will start a total of 23 calves on feed during the month of June, which will be fed for the purpose of producing more beef in 1943.

The 1942-43 school year found the Memphis FFA producing the following: 22 brood sows and gilts are now among the chapter members to help increase pork; 6,842 pounds of pork were produced by the chapter members this year; 6,735 pounds of beef were produced this year; 125 fryers and broilers were sold or used at home; 11 good dairy cows are distributed among its 41 members; \$2,021.90 have been invested in war bonds and stamps by members of the chapter; 606 baby chicks were recently bought by the FFA members and 41 tons of scrap iron has been collected by the Chapter members.

Changes Made in Sugar for Canning

C. J. Sloan, chairman of the Hall County War Price and Rationing Board announces another change has been made in the home-canning program.

There are only three more weeks to sign up for the first ten pounds of sugar, or until June 12. Signing up for the other fifteen pounds will start during July or August, the exact date to be announced. Since each person is allowed 25 pounds of sugar for the entire year, this amount must be used by February, 1944.

You may sign up at the Memphis branch office or the local office at Estelline.

Dean T. H. Shelby Principal Speaker At Commencement

Seniors Entertained Selves With Breakfast and Picnic Monday; Buy \$100 Bond

The Memphis High School Seniors entertained themselves with a breakfast at the American Legion Hall Monday morning and with a picnic at the City Park at noon. They spent the entire day "doing things."

The class voted to buy a \$100 War Bond as their gift to the school and to send an invitation to the Commencement and a gift to each member of the class who is in the armed forces.

The senior play "Tiger House" was presented to an appreciative audience at the High School Auditorium on Friday evening, May 14. The Baccalaureate Services were held at the Presbyterian church on Sunday evening, May 16, with Rev. J. Thompson Baker delivering the sermon.

Commencement exercises are scheduled for Friday evening, May 21, at 8:30, at the High School Auditorium with Dean T. H. Shelby as the principal speaker. The presentation of diplomas will be by E. E. Roberts, president of the school board and W. C. Davis, superintendent.

Special Session Of Commissioners Court Wednesday

Court Met to Receive and Open Bids to Refund Such State Assumed 1944 Bonds

The Commissioner's Court met in special session, Wednesday, May 19, for the purpose of receiving bids to refund such state assumed road bonds as may be necessary in 1944.

Due to the gas rationing, the taxes derived from the sale of gas are not sufficient to pay the state's part of the bonds. The state is asking the counties to make these contracts for having the bonds refunded.

Bids were received and opened from Barcus, Kindred and Co., Austin at 2 1-2 per cent interest rate; Crummer & Co., Plainview, 2 3-4 per cent interest rate; Wm. Edward and Co., Fort Worth, (Continued on page eight)

Junior High Grades Give to Red Cross

Students of the sixth and seventh grades contributed \$58.00 to the Red Cross fund which was derived from the sale of magazines.

Top salesman for the sixth grade was Gloria Virginia Howard, daughter of Mr. and Mrs. A. W. Howard. Top salesman for the seventh grade was Don Monzingo, son of Mr. and Mrs. Ed Monzingo. These two pupils and Anita Johnson, daughter of Mr. and Mrs. L. E. Hayes, were selected by the classes to turn the money over to the proper authorities.

"The pupils of the sixth and seventh grades earned this money by themselves. This \$58.00 given to the Red Cross is half of the profits derived from the sale of the magazines. The other half was given to the Junior High Library Fund. The boys and girls wanted to give this money to a worthy cause, and since the recent Red Cross Drive is over, the money will be put in the local fund for local use," stated teachers.

No Double Parking CHICKENS AND VICTORY GARDENS

Chickens, hogs and cows—and Victory Gardens do not mix. Heretofore, chicken owners have been asked to keep their chickens up because of a few gardens and a lot of flower yards and lawns—this year, most of the flower beds have been converted into Victory Gardens, so it is the patriotic duty of every owner of chickens, hogs and cows to keep them penned.

According to Ed McCreary, Chief of Police, there is a city ordinance to the effect that chickens must be penned at all times.

"And, if there was ever a need for keeping chickens penned and for having successful gardens, now is the time. The burden of keeping up the chickens rests upon the owners. Garden growers are not required to fence against the chickens, cows or hogs and if they were, fencing is almost impossible to get," stated McCreary.

"People are staking their cows in yards and on vacant lots with ropes on them sufficiently long for the cow to get in the street, on sidewalks and even into other people's yards. This must be stopped—either put a shorter rope on the cow or keep her in the lot. Cows in the street and on the sidewalks are dangerous to passing cars and to pedestrians. One man reported to me that his radiator was ruined because the cow suddenly moved and the chain was tightened just as he started over it," continued McCreary.

Another thing that is being called to the City Officials' attention is that of double parking on the square and on the busy side streets.

There is a city ordinance concerning double parking. You are allowed to double park for 15 minutes for the purpose of loading your car if there is someone in your car who can move it if necessary. There is plenty of parking space in Memphis and there is no reason for people to double park and keep a busy person from getting his car out, and especially on the side streets since the streets are rather narrow and there isn't room left for cars to (Continued on page eight)

Farm Labor Shortage To Be Aided By Home Folk Through County Council

SEABEE AND WAAC—Machinist Mate I-C Si Wood and Mrs. Si Wood are in the Seabees and WAACs. Wood is the son of Mrs. Silas Wood and stationed at Camp Joseph Pendleton at Oceanside, Calif. He has been in service since July, 1942.

Auxiliary Pauline Wood is in the Ambulance Corps of the WAACs. She received her basic training at Fort Des Moines and has been moved recently, but her destination is not known. She is the daughter of Mr. and Mrs. John Pickett of Hedley.

Local needs will determine Hall County's participation in a new farm labor program aimed at reducing the manpower shortage which threatens success of the 1943 food production program, County Agricultural Agent Hooser said, following his return from a conference held May 17 in Amarillo.

County plans for registration and placement of farm labor will be worked out by local farm men and women who are members of the County Agricultural Victory Council, Hooser said. Members of the council's executive and labor sub-committee likely will be called in to discuss the new program May 28.

At the Amarillo conference, county workers of the Texas A. & M. College extension service learned that the college recently had agreed to accept supervision of the program upon the request of Chester Davis, War Food Administrator. Funds for conducting the program in Texas will be apportioned to the college under legislation recently enacted by the 78th Congress. The agreement between the Texas A. & M. college extension service and the office of the National Food Administrator relates only to the recruiting and placement of farm labor within the state and the various counties and does not apply to the movement of farm labor across international boundaries or state lines.

"We realize that farmers and ranchers in Texas will not be able to obtain the quantity and quality of labor to which they are accustomed, but we hope to be able to help them get enough workers to prevent the wasting of crops in the fields and the dispersal of livestock," the county agent said.

In some counties where the need justifies and if desired by farmers, town and city boys and girls known as Victory Farm Volunteers will be recruited and trained for emergency work on farms. Many rural schools already have adjusted their schedules to free school children for work in the critical periods. In a few counties in Texas where the farm labor situation is very serious, there may be organized local battalions of the Woman's Land Army, the agent learned. In the nation as a whole, recruiting of a U. S. Corps of 3,500,000 workers for fulltime seasonal or temporary farm work is contemplated.

Hooser quoted Lt. Col. Jay L. Taylor, Texas rancher and deputy War Food Administrator, as saying that "Ninety-nine per cent of this program will be carried on in the county and one per cent in Washington."

"The long hours and hard work of families now on Hall County farms and ranches indicate their patriotism," the county agent said, and the Texas A. & M. college extension service accepts its new wartime assignment with the hope that it may bring some measure of relief to the people who are working to produce more food and feed than ever before.

Mrs. J. A. Freeman Passes Away on Thursday, May 13

Funeral Services Held for Mrs. Freeman at Church of Christ Saturday, May 15

Funeral services were conducted at the Church of Christ at 4 o'clock, Saturday, May 15, for Mrs. James A. Freeman, 24, with Richard Robbins, officiating. She passed away May 13.

Frances Lorene, daughter of Mr. and Mrs. H. M. Barton, was born November 23, 1918, at Maxey, Texas. At an early age she united with the Church of Christ and was a faithful member of that church until her death.

Surviving Mrs. Freeman are her husband, her parents and these two sons, James A. and John A., three brothers, Harvey Barton and Edward Barton of Memphis, Odus Barton of the U. S. Navy; three sisters, Mrs. Beatrice Gilbert, Nadean Barton and Dove Barton, all of Memphis. An infant son, Harold Ray, passed away just two weeks ago.

Pall bearers were: N. A. Hightower, Ben J. Caraway, Walter Johnson, Elmer Cross, L. B. Richardson, Alvin Massey.

Flower bearers were: Maxine Woodall, Marie Gilchrist, Pat Gilbert, June Schivally, Maxine Webster, Pearl Richardson.

Interment was in Fairview Cemetery by Womack Funeral Home.

Mrs. J. W. Mackey Succumbs May 13

Mrs. J. K. Mackey of Giddings, formerly of Memphis and Wellington, passed away in San Antonio May 13. Funeral services were held in Houston, May 15, at the Hyde Park Funeral Home. Burial was in Forrest Park.

Mrs. Mackey, daughter of Mr. and Mrs. G. N. Arnold, was born in Dublin and was at the time of her death 54 years old. She spent her childhood in Wellington and Memphis.

Surviving Mrs. Mackey are her husband, a sister, Mrs. S. C. Cook, of Memphis; two brothers, Alfred Arnold, Memphis, and Wade Arnold of Dallas.

Miss Katrina Rice Is Married to Cadet R. J. Nash

The marriage of Miss Katrina Rice, daughter of Mr. and Mrs. J. L. Rice, Lakeview, to Aviation Cadet Ronald J. Nash, son of Mr. and Mrs. A. L. Nash, Memphis, took place at 8 o'clock Tuesday evening in the chapel of the First Baptist church at Lubbock.

The double ring ceremony was read by Dr. C. E. Hereford, pastor, before an altar banked with palms and iris. The altar was decorated with a myriad of white candles in pedestal candelabra. The white tapers were lighted by C. Fred Litton.

Proceeding the ceremony, Mrs. Rex Webster sang "I Love You Truly," and "Because." The traditional "Lohengrin" wedding

march was played by Mrs. C. E. Hereford, who also played "To a Wild Rose" (MacDowell) during the ceremony.

Miss Zelma Collins attended the bride as maid of honor. She wore a tailored dress of black and white linen. Her accessories were of white. She wore a corsage of red carnations. Pvt. Lattimore Ewing of Lubbock Army Air Field attended Cadet Nash as best man.

The bride, given in marriage by Dewey George, wore a street dress of white sheer linen, with yoke of linen lace. She wore a halo hat of white linen straw and shoulder length veil, and her other accessories were of white also. Her corsage was an orchid.

Mrs. Nash is a graduate of Lakeview High School and Draughton's business college. For the past year she has been employed as church secretary of the First Baptist church, and will continue her duties after a brief honeymoon. Cadet Nash is a graduate of

GOOD NEWS ABOUT CAKES!

Has it ever occurred to you that with all the wonderful modern stream-lined methods that have been evolved for making our cooking and housework easier, we still have been mixing cakes in much the same way women mixed them in the days of Queen Elizabeth or Martha Washington?

A New Quick Way At Last!

Well here is good news from the cake-making front. There's a brand new Four-Minute Method for mixing cakes that requires only a mixing bowl—a spoon (or electric beater) and your cake pans! No extra bowl for beating the eggs—no long monotonous creaming of the shortening and sugar. Best of all this new method will give you the lightest, fluffiest, finest, most delicious-tasting cakes you could ever dream of making. For many months my staff and I have been perfecting this new method. And hundreds of women have also made these cakes in their homes.

Must Use New Recipes With New Method

But remember—you cannot use your old cake recipes with this new method! You must use the new recipes that go with it. You see the formula has had to be changed—so the proportions of ingredients are different from what you've had in your cakes before. Literally hundreds of cakes have been made by this new method to develop perfect formulas that will give the very best possible results.

Here is one of these new Four-Minute Method Cake recipes. But first I want you to look over these general hints for all cake baking. They are vitally important to the success of this new method.

GENERAL HINTS FOR ALL CAKE BAKING

1. Set out all ingredients before mixing (1 to 2 hours before, or shorter time in hot weather) so they will be at room temperature. Shortening and butter should not be soft, not melted.
2. Turn on oven so it will be at the right baking temperature when the cake is ready to put in the oven.
3. Prepare pans according to recipes.
4. Sift cake flour before measuring.

GOLDEN LAYER CAKE

2 1/2 cups SIFTED cake flour
3 tsp. double action baking powder — or 2 1/2 tsp. phosphate baking powder — or 4 tsp. tartarate baking powder
1 tsp. salt
1 1/2 cups sugar

1/2 cup shortening (high grade vegetable shortening, using part butter for flavor)
1 cup milk
1 tsp. vanilla
2 large Grade A eggs

See General Hints before starting to mix. Grease and flour two 9-inch round layer cake pans.

Measure sifted flour, baking powder, salt and sugar into sifter, and sift together into mixing bowl. Measure shortening and milk. Measure vanilla into milk. Add soft shortening and 1/2 of the milk to dry ingredients. Mix with electric mixer on slow to medium speed (or beat with a spoon for 2 minutes by the clock). During mixing scrape batter from sides and bottom of bowl frequently. (If mixing by hand you can let the batter stand while you rest a moment, but be sure the total mixing time is as specified.)

Add Remaining Milk And The Unbeaten Eggs

Add remaining milk and the eggs (unbeaten). Continue mixing 2 more minutes by the clock. Scrape batter from bottom and sides of bowl frequently. The total mixing time is 4 minutes. The batter will be thin enough to pour easily.

Pour into prepared pans. Bake in a moderate oven, 350°, for about 30 minutes. Remove from oven, let layers stand in pan a moment; then turn onto wire cake-cooling rack. As soon as layers are thoroughly cool, frost as desired.

Women Work

By INEZ BAKER

Friday, May 21st, an all-day meeting at the Red Cross rooms. Call your friends and make a date to meet them there. Bring your lunch.

According to Mrs. Lloyd Phillips, surgical dressings chairman, Hall County is way behind with its quota and about 8,000 dressings must be made this week in order to meet it. Of course it will be done, for Hall County women never fall down on a job, but just be sure to plan to give this day, tomorrow, to this very important work. Mrs. Winfred Wilson and her helpers will be in charge and give every assistance possible. This must be gotten out of the way because another large shipment of gauze has arrived.

Mrs. E. H. Stanford will also be on hand to keep the sewing room open all day. Two large boxes of yarn and material for children's bed jackets have arrived and there is work for everybody. Mrs. Stanford made 400 surgical dressings last week and her goal is 500 this week.

We want to tell you about Granny Walker of Plaska. She is 85 years of age and an invalid, in so much as she is confined to a wheel chair. Once she was almost blind but an operation restored her sight and now she is one of the women who work for victory. She has been sewing and making quilts for the Red Cross and we know she has been very happy to be doing something to relieve suffering and want at this time. No wonder the Plaska Auxiliary accomplishes so much when they have Granny Walker as an inspiration.

This month the Women's Army Auxiliary Corps is one year old. The enrollment is now more than 58,000. 15,000 have gone from training to active service and 1,000 are being sent into service each week, replacing men for combat duty. Requests on file, from commanding officers for WAACs to replace men, now total 500,000. Generals overseas have asked for more than 18,000.

The WAAC is no longer an experiment, it has proven its worth.

Farm Workers Are Cautioned to Be Careful in Work

Farm workers are war workers and they should learn to protect themselves just as soldiers do.

For this reason the Texas A. and M. College Extension Service offers some safety suggestions to the thousands of women and girls now helping in the fields and lots. One phase of working safely involves the handling of machinery, and in this case women are urged to read and follow instructions, to stop the machine when adjustments and repairs are being made, and to give machines a check-up before putting them in operation. Wearing clothing with no loose parts to catch in a machine also is important.

In handling of animals, safety authorities recommend speaking quietly to animals when approaching them. Another safety rule concerns dressing for the job. Hats or bonnets and long sleeves give protection from sun and wind, while gloves are advisable for rough work. Protection for the nose and throat is necessary in dusty jobs. Sometimes dark glasses are helpful. Farm work also demands well-fitted, low-heeled shoes.

Women or girls unaccustomed to work in the fields would be wise to get a physical check-up to be certain they can do heavy work safely. One other safety "must" is a handy first aid kit for the family. Workers can help keep fit by eating according to the Texas Food Standard, stopping for mid-morning and mid-afternoon snacks if their hours are long and hard. Eight or nine hours of sleep each night cut down accidents also.

For women who have in addition heavy home duties, home demonstration specialists suggest organizing and planning both housework and farm work, giving each member of the family a definite task, and planning meals ahead.

—Buy Bonds—Buy Bombs—

Farm Workers Are War Workers; Should Learn to Use Safety Measures

History will record the moral courage of these first WAACs for it sometimes takes more courage to pioneer than it does to face a firing squad. And pioneering it has been. Overcoming public prejudice world old opinion that a woman's place is still in the home. "They have justified magnificently the trust that was placed in them," said President Roosevelt.

The WAVES now have 17,000 on active duty, the SPARS have 2,600, Women Marines have 4,500 enrolled but not all on active duty.

Home Canning

Lists Rules on Sugar Home Canning Uses; Cans Available Now

Following questions and answers on home canning were issued by the Office of Price Administration to help housewives get and use sugar for this purpose. Canning sugar for home use will be available at local stores on and after May 15.

The sugar allowance of four pounds of sugar to each four quarts of finished fruit means that you can use four pounds of sugar for each quart of fruit or fruit syrup.

I declare the number of fruits and vegetables I have on hand when I apply for home canning.

However, the available sugar for home canning and local boards may have information about your needs and home-canning in deciding how much you will receive for this canning.

Are sugar purchase coupons issued in a small denomination of 1, 3, 5, and 10 cents?

Encourage consumers to use only as they are sure to use. This will help save supplies of canning sugar.

Can I use the same time make shopping for women who can't come in small quantities?

Ask a friend who has a cooker in her kitchen to can for me, if I supply ingredients, and get back finished fruit she puts up.

If you contribute either ingredients or the equipment for the labor required to acquire them without ration points.

I give up ration stamps on foods which the local processes for me, if I supply ingredients.

May I acquire 100 quarts of home-canned vegetables point-free for each year if you or your family raised the fruits or vegetables?

However, these foods are commercial products. If you acquire more than 100 quarts per person, or if you sell them, you may pay ration points for them at the rate of commercially canned goods on the official price list.

I give away as many home-canned vegetables as I require no sugar ration points?

But each person in your household may give away not more than one quart of home-canned vegetables without collection stamps. If you wish to give more than that, you must give ration points from whom you give them.

You need not give them for this food unless you give away more than one quart of jam and jelly.

Jellies and preserves are rationed, and you may give away as many as you can of your allowance of sugar.

What is the point value of home-canned food?

Home-canned food has a point value of eight points per quart of fruit or fruit syrup, or four points per quart of jam or jelly.

I sell canned fruits to someone else puts up for me?

But you must collect ration stamps at the rate of eight points for every sale regardless of who does the canning.

You may continue to use ration stamps on canned fruits and vegetables until you collect eight points for each quart sold.

Do I do with the ration stamps I collect for sales of home-canned food?

Turn the ration stamps to the local ration board any time during the first ten days of the following month.

Do I make any special request for foods I sell?

I turn in the ration stamps for foods I sell.

But you must keep a record of your sales.

Do I get sugar for canning for sale?

Apply to your local ration board for OPA Form 4-315 for sugar you will need.

For one pound of sugar you get four quarts of finished fruit.

Also apply for sugar for jams and jellies for home use.

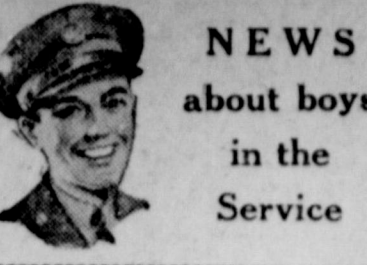

You may have only one quart of home-canned fruit for your family—not more than five pounds per person.

The following letter is from Pvt. Charlie W. Carter who is with the Army Air Forces stationed in North Africa. He is the son of Mr. and Mrs. G. W. Carter of Memphis.

April 28, 1943
Dear Dad and Mom:
This is just a few lines to let you know I'm O. K. and I'm wondering and hoping that you are the same.

I got my first copy of The Memphis Democrat yesterday. I was sure glad to get it too. It sure helps when I can come in and read of things back home. I had rather have it than any newspapers I could get. We have to work pretty late most of the time, and don't get to read much, but I read it by flashlight.

I've visited Casablanca, French Morocco, North Africa. It is rather a nice town, but still it doesn't look near as good as any of the towns in the States.

It is raining here tonight, hearing it fall safely on the tent, almost makes me homesick. I guess it is what it would be called, anyway, it makes me wish I was at home.

I'm still looking for some letters from you all there. Tell everyone that will, to write to me. I can always use letters, all of them I can get.

Being as this V-mail is short, I'll have to cut this letter short. Answer soon.
With love,
Charlie.

The following letter is written to J. C. Wells by Orville C. Upton, Sea 2 c, U. S. Coast Guard, stationed at Matagorda Peninsula, Foster Field. He is the son of Mrs. J. C. Upton.

Dear Editor:
I was requested to write a letter to the paper. I enlisted August 17, 1942, in the Coast Guard and was sent to New Orleans, La. I stayed there a month and a half and was shipped out one night. We didn't know where we were going until we reached Houston and learned we were going to Galveston to the Galvez Hotel that had been taken over for the Coast Guard boys.

I stayed there for a month. I liked it fine. One evening I was told to be ready to ship out the next morning. We were ready as we are always ready to go some place. We got on a truck and went to Lake Charles, La. We stayed there for 3 months, moving a CCC camp. When we left there, we went back to Galveston and stayed a month. We were given orders one evening to be ready to ship out the next morning at four o'clock. We were put on a truck, not knowing where we would unload, and we rode till 10 o'clock that morning unloading on a boat. We rode until 4 o'clock that afternoon when we came to this little island where I am now.

It is one mile wide and ten miles long. There are quite a few of us here. We have a job to do and we are doing a good job of it. I am on guard six hours a night for eight nights and then we get off for three days rest. So, we go to Houston most of the time. The people are certainly nice to us and we enjoy going there when we can't come home. I miss the folks at home and would like to come to Memphis more often, but we have a job to do and we are doing our best, so you folks at home do your best and we will win this battle.

I want to say hello to all the boys in and around Memphis and to those that are gone that get to read our Memphis Democrat. Drop me a line some time and let me know where you are. Best wishes to home folks and friends. Hope to see you soon.
Orville C. Upton.

Below is a letter from Pfc. Lester S. Grimes to the editor. Frax Field Madison, Wisconsin May 13, 1943

Dear Mr. Wells:
I am writing you from a difficult position, that is lying in a hospital bed. This is the seventh day in bed and still have from three to seven days to stay in bed.

I have been reading in the Democrat where you have been sick. I know how to sympathize with you now.

I am officially through with school here now. Just lacked 30 minutes being through with school when I had to come to the hospital. They brought my diploma to the hospital for me.

Mr. Wells, you hear stories about how badly they treat soldiers in the hospitals. If all the hospitals are like this one, there isn't anything to the stories as the doctors and nurses have really treated me swell.

The weather here hasn't warmed up here. The weather report for last night was freezing. I haven't heard today if it was or not. It snowed here the last day of April. I guess I will be shipping out from here soon after being released from the hospital which will be about the 29th. I was on the shipping list for May 10, but was in the hospital at the time.

I have no idea where I will be, but will notify you as soon as possible to send my paper but until I notify you, keep sending it to this same address as you have been sending it.

Yours truly,
Pfc. Lester S. Grimes

It takes all kinds if people to make this old world click— Some seem to take it easy While others aren't so slick don't be downcast, my friend While neighbors are on top; You may get a chance sometime To show them what you've got.

Then other folks can wonder What strings you pulled to win. It's the law of average working. That happens now and then.

By the way, The Staff Poet will read some of his poems over Amarillo Radio KGNC Sunday, May 30, at 8:30 a. m. His daughter will be on the program with a song. Be sure to listen to this program. It will be the third appearance over KGNC for The Staff Poet.

And this is my first attempt to five weeks. First, it was the flu, and when that gave way, it was short-itis—you know, short of printers to help C. C. Dodson in getting the paper printed, and all the job printing done for the customers. So I have donned a dirty apron and am trying to make a hand in the mechanical department. One does not have much time to write when he is having to work with his hands.
Dang Hitler.

Perhaps it is better after all for the paper and the readers if no comments ever appeared.

Prospects for another good crop in Hall County are good, due to plenty of moisture. Three in a row wouldn't be hard to take.

War Bond Given To Weatherby's

The Weatherby Feed Store has been named a winner in a nationwide Food for Freedom contest, sponsored by Purina Mills. They received a prize of a \$25 War Bond. Approximately 3,000 Purina merchants participated in the contest, which covered a period of four months.

The object of the contest was to impress feed dealers with their present opportunity and responsibility of serving their country by helping farm customers "stretch" their feed to produce the greatest possible amount of meat, milk and eggs.

COTTON WEEK

THIS week, May 17-22 has been proclaimed as National Cotton Week in Texas by Governor Coke R. Stevenson. Each year, National Cotton Week is observed by the United States and this year, not only the United States but the United Nations are recognizing cotton and its products as a vital war material.

The fine rains falling lately over the Panhandle have come just in time for planting cotton and for some fields that have already been planted. This part of Texas has been known for its production of cotton as well as for its ranch lands, and it will probably keep right on producing cotton each year.

ANOTHER GRADUATING CLASS

THE old saying that the high school seniors are just commencing their life certainly holds true this year. So often in high school commencement exercises, the speakers have admonished students to grow up and take their rightful places in the world. This year, students will not need that kind of lecture. Out of the fifty-eight seniors, ten young men are already in service and there are many more who will be called within the next few months—possibly before they have a chance to enter college or decide on what they want to do with their lives.

This editorial is not meant to put a sober thought upon the students' minds or the parents of these young people. We all know that this war must be won before any of us can find our rightful places.

Again, The Democrat congratulates the seniors on their completion of their high school work. Go ahead and enjoy yourselves in this great occasion of your lives and let's hope that none of your elders put any sort of damper on your spirits during this week. You will grow up soon enough.

To plan and to worry are two different things. The man who plans seldom worries.

SELECTED FROM THE DEMOCRAT'S EXCHANGE

Not For Sale
The things that money can't buy would make a long list—here are some of them:
Money can't buy real friendship—friendship must be earned.
Money can't buy a clear conscience—square dealing is the price tag.
Money can't buy the glow of health—right living is the secret.
Money can't buy happiness—happiness is a mental attitude and one may be as happy in a cottage as in a mansion.
Money can't buy sunsets, singing birds and the music of the wind in the trees—these are as free as the air we breathe.
Money can't buy inward peace—peace is the result of a constructive philosophy of life.
Money can't buy character—character is what we are when we are alone with ourselves in the dark.

Continue the list yourself. You will agree that among the things money can't buy are some of the most valuable treasures life has to offer. It is a good thing to check up now and then to be sure we are not missing these things.—The Prairie.

We have the unofficial report that Sam Roach has revealed a number of cases where patrons of the safety-deposit box division at the First National Bank are putting their boxes to other uses than bonds and valuable papers. Roach reports according to our understanding, that some patrons have started placing their supply in the safety boxes. There is a story here, if the report is true, but we'll have to gather further information from Banker Roach. The things we would like to know is where do you get the potatoes to put in the boxes.—The Saint Jo Tribune.

After our faults are harvested and threshed, sufficient seed remain on the ground for a volunteer crop next season.—Matador Tribune.

Chain letter addicts who read this department and by chance may choose to send one of the links this way are here and now requested to forego all this ef-

fort. Every chain letter received here is promptly consigned to the waste basket. Only the past week a good friend sent in a chain letter with the admonition to choose twelve others and give them same advice. In other words the one who breaks the chain will have thirty years of bad luck. There may be something to this myth—if it can be called that—but so far we have not been converted. As far as we are concerned letters are always welcome. Send them along, all except the chains.—The Stephenville Empire-Tribune.

an to Protect Culture This War

the tragic results of the food-producing acreage world War I has haunted agriculture. Every farm-er of crops to pro-duce and more food for our Allies. Now again we are to feed the spe-cialties of war industry, we are to produce normal products of patriotic service. At the end of the war, American farms will have tremendous surplus pro-duce which ordinary peace-fuls will not absorb. In-crease production over the last 10 years will be 21 per cent. How then can agriculture side-step farm tragedy even worse following World War I?

in Rubber and Other Products. Government is now exper-imenting domestic sources for some sixty thousand acres and to the production of its possibilities as a domestic rubber. Emerg-ent for the production of tons of synthetic rub-ber and alcohol are now in production.

They have the knowledge in hand to convert their effort to peacetime and maintain employment in the new products discov-ered. We have a reason-able amount of our farm sur-plus to absorb our farm sur-plus in the post-war period. Our rural areas are harder than our indus-trial areas. Our hope for the security and prosper-ity of rural areas is at stake. If we can practical plan for tak-ing surplus in the after-noon, we can go forward un-derstanding production effort of this war and in the food necessary for the people in the after-noon. We know that we have ever-expanding Amer-ican crops and new uses.

ture and Labor has excellent reasons for the welfare of the Wheeler McMillen. After the war is over, the importance of earning good wages much better customers about jobs. Men steady-ly under satisfactory con-ditions less likely than men to become the prey of the strange kinds of Agriculture ought to develop hostility and toward labor or-ganization. A wiser course is to use agriculture's correction of those who do no good either to the war or the nation.

Share Your Garden So That Nothing Will Go to Waste

Many Victory gardens in the state are at their prime just now, but vegetables don't stay that long.

Families who have a temporary surplus but no means of preserving that food for the less productive months can serve the cause of Victory by sharing with their neighbors. A committee of the Texas A. and M. College Extension Service headed by C. E. Bowles as chairman points out that with hot sunshine such vegetables as lettuce, spinach and the like soon become rank and bitter. The patriotic gardener will not be willing to see a single plant

go to waste, Bowles says. And if he doesn't have a pressure cook-er, or freezer locker he'll share his produce with less provident or successful neighbors.

Sharing is in keeping with the Victory Demonstrator's pledge which embodies the war-time program of the Extension Service.

CAPITAL BUILDS "NO-MAN'S LAND"

COMFORT, PARADISE IN WASHINGTON

Public Buildings Administration.

HEAVEN FOR FEMINE WAR WORKERS—That's what Isabelle Mason, above, thinks as she relaxes in her cozy single room that is one of thousands designed to accommodate Government war workers newly-arrived in Washington, D. C. Built of Cemetex wall units and designed for modern convenience and comfort, this room—and thousands like it in the Arlington Farms project now under construction—will go far toward making life pleasant for thousands of feminine workers.

RESTRICTED TO NATION'S WAR WORKERS

OLD DWELLINGS FAST GOING IN CLEARANCE AND BUILDING PLAN

WASHINGTON, D. C.—Washington's alley dwellings, once the despair of all who felt that the nation's capital never should possess a slum, are fast disappearing as the Alley Dwelling Authority in the District of Columbia proceeds with plans to turn eyesore spots into beautiful residence sections.

Now that the Authority has taken on new functions in the construction of housing for war workers, its latest achievement is the awarding of contracts to erect

network of business activity. He is constantly planning new uses for Celotex materials, both in the present national war effort and for the post-war period.

Celotex's Cemetex wall units are being installed in the Dormitories in accordance with a system of construction of the John B. Pierce Foundation of New York City of which J. F. O'Brien is general manager and Robert L. Davison is director of housing research.

BUILDING SAFETY IS PROJECT AIM

Government's \$7,500,000 Residence Halls Are Hazard-Proof

WASHINGTON, D. C.—More than 7000 "government girls," who will form the population of Arlington Farms, an "all-girl city" now rising on the banks of the Potomac, will live in comfort and safety in the ten spacious residence halls of the \$7,500,000 project being constructed by the Public Buildings Administration of the Federal Works Agency on the banks of the Potomac.

Safety and comfort are assured by the use, in the construction, of Cemetex wall units, a product of the Celotex Corporation of which Bror Dahlberg is president. These large panels, providing a complete wall, including exterior and interior finish and structural strength, are not only fire-resistant but include insulation so that they keep out both cold and heat as Washington climate knows those temperatures.

All buildings will have engineered wood framing, the ceilings are of fibre board covered with fire-resistant paint, and all rooms are surrounded by fire stops built into the floors which are of double construction, finished off in solid oak. For further protection against weather extremes, roofs are heavily insulated, under their tar and gravel surfacing.

Celotex's Cemetex-board is being installed in the Dormitories in accordance with a system of construction of the John B. Pierce Foundation of New York City of which J. F. O'Brien is general manager and Robert L. Davison is director of housing research.

Its development is typical of Dahlberg's own energy and vitality, which are principally responsible for the growth of his organization into a world-wide

WASHINGTON'S FAIR FEMALES FIND WAR-TIME HAVEN IN "ALL-GIRL CITY"

WASHINGTON, D. C.—On the banks of the Potomac, the vanguard of an all-feminine community of some 7000 residents is getting comfortably settled in its new quarters, and is the envy of thousands of "government girls" who are still struggling with the problem of living accommodations.

RESIDENCE HALLS OPERATED AS GIANT SORORITY HOUSE No Curfew for Girls Living in Arlington Farms

WASHINGTON, D. C.—Residence halls at Arlington Farms, the great housing project for girl war workers in Washington which is being built and will be managed by the Public Buildings Administration of the Federal Works Agency, will resemble, in a giant scale, a college sorority house.

Each hall, to house between 600 and 700 girls, will have a house director to exercise general supervision and to be available for advice, and there will be certain rules about how late male visitors may stay, but there will be no curfew for the residents.

In these huge residence halls, where the use in construction of Cemetex wall units will provide the maximum in safety, comfort, insulation against heat and cold, and attractiveness, ample provision is made for entertaining guests, for group parties, and even for the preparation of midnight snacks in small but adequate kitchens.

But the only rules as to hours are that the public rooms, such as parlors and lounge, will close at 11 p.m. on week-days and at midnight on Saturdays, and that male visitors are taboo after those hours. The girls themselves will be free to come and go as they

The "all-girl city" is Arlington Farms, being built by the Public Buildings Administration of the Federal Works Agency, and it will be populated by girls and women employed in the War Department's Pentagon Building and Navy Annex, both within walking distance of this unique "no man's land." They will be girls from every state in the Union, assembled in Washington to help with the gigantic task of managing the war and the war effort.

Arlington Farms will consist of ten large hotels, each two stories in height and each housing between 600 to 700 girls, besides a huge cafeteria building, a recreation building, administration building and post-office, and other features.

It is the largest of six housing projects, four under construction and two tentatively planned, which will accommodate a total of approximately 15,000 "government girls."

The broad acres of what once was the Department of Agriculture's experimental farms have been leveled and landscaped into the site for Arlington Farms, complete with streets, roads, walks and all requirements of a small city.

Commissioner W. E. Reynolds heads the Public Buildings Administration, which is building and will manage the project for the account of the Federal Public Housing Authority. George Howe is supervising architect and Gilbert Stanley Underwood is consulting architect. Major General Philip B. Fleming is administrator of the Federal Works Agency of which the Public Buildings Administration is a unit.

The ten big hotels that make up Arlington Farms are designed in modern style and built with a new type of structural insulating wall material known as Cemetex, a revolutionary product of the Celotex

Corporation, of which Bror Dahlberg is president. These units have previously been used in many other large housing projects where speed of construction, durability, residential comfort and attractive design have been features.

The buildings are of engineered timber construction with outer walls of Cemetex insulating wall panels. These panels comprise the complete wall, including exterior and inside finish and ample insulation against heat and cold. The units, which are 1 1/2" thick, are composed of a cane fibre insulating core, sealed with special asphaltic compounds between layers of weather, fire and wear-resistant asbestos-cement.

These wall units provide greater comfort and protection from summer heat and winter cold than do ordinary brick and frame walls and will provide the girl residents with ample protection against the cold and heat of Washington weather.

In line with the Public Buildings Administration's policy of saving every ounce of war-necessary material and also to give a maximum of ventilation, the windows slide horizontally to permit the entire opening to be free.

The ten hotels are placed on the site so that they stand diagonally to the points of the compass, so that every room receives sunshine and air.

Each unit will be complete, with its own staff, its own management, its own house director, its own director of social and athletic activity.

Celotex's Cemetex wall units are being installed in the buildings in accordance with a system of construction of the John B. Pierce Foundation of New York City, of which J. F. O'Brien is general manager and Robert L. Davison is director of housing research.

HERE'S HOME COMFORT!

Public Buildings Administration.

LOW-COST LUXURY is the keynote of this beautiful single room that houses Mrs. Alva Martin (above) one of thousands of Government war workers who soon will reside in similar individually-designed one-room apartments, with their attractively-colored Cemetex walls, that are a part of the living scheme of Arlington Farms, a Government-sponsored project for women war workers.

IT'S MORALE THAT COUNTS IN CAPITAL

WASHINGTON, D. C.—Because personal surroundings mean much to a woman, some 7000 "government girls" in Washington have been asked to indicate what they would like to have included in their living quarters.

They are the girls applying for rooms at Arlington Farms, a great housing project now under construction on the banks of the Potomac.

Arlington Farms will comprise ten spacious residence halls, each housing between 600 to 700 women. The halls will be of engineered wood construction with walls of Cemetex panel units, a Celotex Corporation product. The adaptability of Cemetex units has permitted the designers, under the guidance of William J. Bissell, manager of the Public Buildings Administration's Office of Residence Halls, to provide the prospective tenants with living quarters, recreation rooms and other facilities that are comfortable, attractive and definitely "good for the morale."

Celotex's Cemetex-board is being installed in the Dormitories in accordance with a system of construction of the John B. Pierce Foundation of New York City of which J. F. O'Brien is general manager and Robert L. Davison is director of housing research.

THIRTY EIGHT YEARS OF IMPROVEMENTS

Thirty-eight years of experience and more than seven million roofs made and applied stand behind Certain-teed roofing products— asphalt shingles and roll roofing.

During the years since the first shingle and the first roll of roofing were turned out, tests under all types of weather conditions and on varying structures have served to maintain constant improvements.

OPA and ODT Plan To Remove Black Market on Gasoline

Commercial Vehicle Owners Whose Mileage Is Reduced Must Give Up Excess T's

Arrangements have been made by the Office of Price Administration and the Office of Defense Transportation to remove a possible source of Black Market gasoline operations, officials said today. Hereafter, commercial vehicle operators whose mileage is reduced will be required to give up excess T coupons immediately to the ODT when operations are reviewed or the Certificate of War Necessity is revised for less mileage.

All certificates issued in this district are now being reviewed by ODT, Richard E. Wood, Lubbock district manager, said, to discover and correct certificates which allow operators more gasoline than essential operations require. Some operators have excess coupons due to changes in

business since first application was made. Others have cut their mileage through joint action plans and other conservation methods, since their present certificates were issued.

Many allowances for gasoline have already been cut, Mr. Wood said, after a review of the first quarter year's operations. But until this amendment by OPA to the rationing regulations, there was considerable time lapse between revision of certificates and recall of excess coupons.

Simplified procedure now makes any gasoline coupons representing gallonage in excess of the certificate holder's revised needs expire at the time a revised certificate is issued. These coupons must be surrendered immediately to the ODT district office. Any T ration coupons issued on the basis of a Certificate of War Necessity expire immediately if that certificate is revoked by ODT.

Fresh Pineapple Now Being Canned

Fresh pineapple now is making its appearance on Texas markets, and with a No. 2 can of the sliced fruit requiring 23 ration points, many homemakers will be canning this delicious and popular fruit. In some stores canned pineapple has disappeared from the shelves.

What's more, says Winifred Jones, specialist in food preservation for the A. and M. College Extension Service, as a rule pineapple can be bought and canned for one-half to one-third the retail price of a good grade of canned pineapple. For the past few years home demonstration clubs in the state have bargained cooperatively for pineapple by the truckload at a price that made canning of pineapple at home a real saving.

Miss Jones offers these tips to housewives who are unaccustomed to buying fresh pineapple for canning. Fruit that has ripened before being gathered has the best flavor and contains more fruit sugar, a factor of prime importance in view of sugar rationing. Ripe fruit, she says, is orange in color and the spines may be readily pulled out. The specialist warns against the purchase of over-ripe fruit, since there is more waste. Under-ripe fruit should be wrapped in thick paper and kept to ripen a few days at an even temperature between 65 to 70 degrees Fahrenheit.

Other advantages of pineapple are its nutritional contributions. It is credited with being an aid to digestion and a better source of protective food values than many fruits. Complete directions for canning pineapple are available from the county home demonstration agents.

Mrs. A. D. Newby Returns From Visit in California

Mrs. A. D. Newby returned Thursday of last week from a month's visit with her daughter, Mrs. O. E. Kunz, and her son Pvt. Vedis Anderson in Los Angeles, Calif.

Private Anderson is stationed in the 33rd Division at Camp Young in the desert near Los Angeles. While on maneuvers, he was awarded a medal for being one of the best riflemen in the 33rd Division.

Mrs. Newby visited the North American Aviation Plant in Inglewood, Calif., which is famous for building the B-25 Mitchell Bombers that bombed Tokyo.

En route home Mrs. Newby visited her son, Forrest Anderson and wife, in Amarillo. He is employed in the Pantex plant near Amarillo.

Firemen's School To Be at College Station May 24-28

Ed McCreary and Thomas Clayton Delegates to Firemen's Training Course

The Firemen's Training school at College Station is this year designated as "General Basic Firemen's Training Program." The school will be from May 24 to May 28 with registration on Sunday, May 23 in the lobby of YMCA.

Firemen attending this school will stay in the college dormitories and eat in the dining rooms. Cost will be small and there will be motion picture programs each evening.

Some of the benefits of the school are listed: Instruction in the most efficient methods; 3 per cent reduction in insurance key rate for those cities with a key rate above 20 cents whose representatives satisfactorily complete the General Basic Training course and carry on drills in their home departments throughout the year.

"May we depend on your department's cooperation in our efforts to defend Texas against careless fires, arson, sabotage or incendiary efforts of an enemy? We have always had the most outstanding fire school in the country—help hold this record in this most critical period," urged C. C. Hedges, director.

Childress Has Drill For Texas Defense Guard Sunday

A Contact Camp was held in Childress Sunday, May 16, for the officers of the 41st Bn., of the Texas Defense Guard. Assembly was at the Hotel Childress at 8:45 Sunday morning and orders and drills were given throughout the day.

From 1:30 until 3 during the afternoon, demonstrations were given by the Childress Guard which was followed by a visit to AAFBS as guests of Capt. William Rochford, Provost Marshal.

Attending from the Memphis unit were Sgt. George Thompson and Lt. Robert Devin.

H. H. Andersons Are New Residents

Mr. and Mrs. H. H. Anderson have moved to Memphis from Abernathy. Mr. Anderson will be with the Farmers Union Gin.

They have one son, Lt. Hugh A. Anderson, who is in San Antonio, an instructor in ground work in the Air Corps.

Mrs. Anderson's mother, Mrs. W. D. Haynes, will be here with them during the summer.

Judy Harlin was born May 13 to Mr. and Mrs. George Thompson.

pass each other if there are some double parked. None of the stores are giving curb service anyway.

"There are 492 parking spaces on the square and that does not include the side streets. We spend around \$125 a year on keeping the parking lines painted but it doesn't seem to do any good. The public has been told time and again that cars turning in the middle of the street must be stopped. This time we mean it. Repairs and parts are too hard to get for any of us to take a chance on getting our cars smashed up," stated McCreary.

"We are calling upon the citizens of Memphis to co-operate with us in keeping your chickens, cows and hogs penned up. Please consider it your patriotic duty to do this. We also are merely asking you to observe traffic rules in Memphis. If that is not done, steps will be taken to see that they are observed," it was stated.
