MEMPHIANS TO MEET IRISHMEN

Game to Be Played on Shamrock Field; Irish Once Winner, Once Loser

Not let down after two defeats, but eager to score their first victory, the Memphis Cyclone went through workouts this week—in spite of the damp and cool weather—in preparation for Friday night's encounter with the Shamrock Irish on the Shamrock field. Shamrock, once winner and once loser so far this season, will go into the game as a favorite, as the Irish took district honors last season. The Irish downed the White Deer team this year to open their fall season, and then were beaten last Friday by the Class AA Childress Bobcats.

The Cyclone, in their opener, were licked by the Lakeview Eagles 6-2, and then lost to Paducah last week, 19-6.

The Memphians, however, made a much better showing against the Dragons than against the Paducah team. Passing, however, of the Dragons was much more superior, and the Paducah gridmen capitalized on their strong point to take the game.

Probable starters for Memphis are as follows: Louie Grimes, Ed Shirley, Douglass Lawrence, and (Continued on page 6)

Temperature Falls To 42 Degrees as Clouds Cover Sun

Total of .2 of Inch Rain Falls; High Temperature For Week Is 92 Degrees

The weather decidedly took a turn for the rainy and cool type, and Memphians were not timid in saying they dug their heating stoves out of closets when the thermometer dropped to 42 degrees Sunday night.

The 42-degree mark was the lowest reached during the week, and is the lowest temperature so far this fall. Saturday night's low was 55 degrees, and Monday night found the low of 53 degrees being hit.

The rainfall, .12 Monday and .08 of an inch Sunday, brought the total for the year to 20.77 inches. Traces of rain were recorded on other days of the week, too.

Most of the week has found the sun hidden by clouds, although it found its way out for a short while Wednesday afternoon. This morning was still cloudy, and it appeared that more rain might fall.

Temperatures for the week, as recorded by J. J. McMickin, local weather observer, are as follows: Tuesday, 70-60; Monday, 68-55; Sunday, 56-42; Saturday, 92-55; Friday, 78-47; Thursday, 78-47.

Farmers were hoping for more sunshine, as the cotton was slow in opening by the cool, wet weather. Little ginning has been done so far, with only a few scattered bales being reported.

Dream of City Fathers of 20 Years Is Partially Fulfilled As Formal Opening of Memphis Park Is Held in Amphitheater

The new City Park in Memphis is now formally opened, and a dream of the city fathers of the past 15 or 20 years has been partially fulfilled. The rest of the fulfillment of those dreams will come as more improvements are made.

The formal opening ceremonies were held Thursday night at the new amphitheater, following a day of activities which included the 4th annual Hall County Dairy Show and the formal opening of the Kraft Cheese Company factory in Memphis.

Approximately 1,500 citizens attended the park opening, and despite the coolness of the night, sat through the program, and applauded at various intervals.

Main address on the program was by Ross Rogers, ex-mayor of Amarillo, who talked on "Civic Cooperation." Rogers emphasized

VISITOR — Representative Eugene Worley, who visited briefly in Memphis Wednesday. He was honored at a banquet here Wednesday night.

Worley Kept Busy On 1st Visit Home From Washington

Panhandle Representative Attends Events; Is Guest Of Honor at Various Sites

Representative Eugene Worley, home from Washington for his first visit since assuming the duties of the position vacated by the resignation of Marvin Jones in 1940, has had a busy week.

First of all, Worley was one of the guests of honor at Pampa last Saturday noon, when Governor Coke Stevenson paid his first visit to the Panhandle since taking over the reins formerly held by W. Lee O'Daniel.

Saturday afternoon, Worley was in Borger to hear Stevenson once more, and to see Dave Warren of Panhandle, president of the Texas Press Association, honored at a barbecue.

Wheat Allotment Applications Due

Applications to the county AAA committee for new wheat growers allotments must be made before November 30, Millard P. Brown, Hall County ACA secretary, said this week.

Under the 1942 Agricultural Conservation program, Brown explained, each farm seeding wheat for any purpose must have an allotment established.

Producers in the past have been planting wheat for grazing purposes but under the 1942 program, this will not be permissible unless the farm has an allotment. Therefore, producers who practice planting winter pastures should plant other small grain or a mixture of wheat and other grains containing at least 50 or more per cent by weight of the mixture, Brown said.

TWO SHIPMENTS ARRIVE IN WEEK

536 Get Cotton Stamps Worth \$9,605; Total of \$20,000 Is To Be Issued

Two more shipments of parity checks enriched Hall County farmers and land-owners more than \$18,000 during the past week, Millard P. Brown, Hall County ACA secretary, announced.

The shipments arrived Saturday and Wednesday, Brown said, and together with the first received September 17 bring the total amount to \$35,219.98.

Saturday's group of 85 checks totaled \$5,786.13, and Wednesday's shipment of 155 payments totaled \$13,256.46. The September 17 group of 214 checks was for \$16,177.39.

More than 2,000 parity checks are to be received, and will bring about \$160,000 to the county, Brown explained. Applications for the payments are still being sent in to the state office, and all cannot be sent in until all of the compliance checking has been completed.

Cotton stamps are being issued from the office now, Brown said. Through last Saturday, \$9,605 worth had been issued to 536 people for voluntary reduction of their cotton acreage.

Approximately \$20,000 worth of the stamps will probably be issued, although it appears now that the total amount will be below that, it was explained.

District Gridmen Engaged in Five Games This Week

Memphis Cyclone Meets Shamrock; Eagles to Play Home Game With McLean

Further District 3-A entanglements will probably be prevalent after Friday, when three grid conference battles and two non-conference tilts are scheduled by district teams.

The Lakeview Eagles, still in good standing in the district race with one conference victory and no losses, will meet the powerful McLean Tigers. The Tigers did everything they wanted to last week when they ran through the Panhandle Panthers 53 to 0. Lakeview was playing a scoreless tie with the Turkey Turks in a non-

Football Tickets To Be 55 Cents

Tickets for adults to the Lakeview-McLean football game at Lakeview Friday night will sell for 55 cents, rather than the 50 cents charged heretofore, Ott Bevers, member of the Lakeview athletic council, said this morning.

The extra 5 cents is a new tax which will be added to tickets throughout the District 3-A. Bevers explained. Whether the tax will be absorbed on student tickets has not been decided, he said.

Both girls placed in the Most Beautiful Farmer's Daughter contest at the City Park. Miss Johnson winning second place, Miss Reed fourth. Both pictures courtesy Wichita Falls Record News.

'Grow,' Not 'Go' Into Dairying, Riddle Tells Local Group

Approximately Hundred Attend Dairy Luncheon At Methodist Church

A person should not "go" into the dairy business, but should "grow" into the dairy business, A. J. Riddle, southwestern division manager for the Kraft Cheese Company, told about one hundred business men, farmers, and visitors at the Dairy Day luncheon last Thursday in the First Methodist Church.

Riddle, the main speaker for the occasion, told of how the company decided to locate the plant in Memphis, and of the progress the plant is now making.

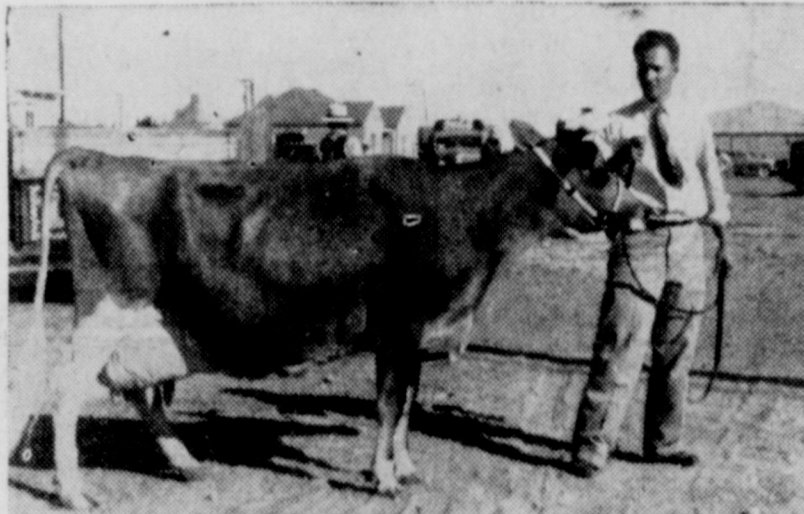

Three hundred farmers are now selling an average of 19,000 pounds of milk daily to the factory. Riddle said. The plant, he pointed out, is now capable of handling all the milk which is being bought, and can be easily expanded to handle a much larger amount.

Riddle was introduced by J. M. Roddy, also of Denison, who is head of the dairy development division of the southwestern division. In addition, other Kraft officials were here for the luncheon, including (Continued on page 6)

Former Countian Severely Burned

Loman Henry, son of Mr. and Mrs. W. E. Henry of the Indian Creek community, suffered severe burns on his left side and his legs and arms Wednesday of last week when the gas stove exploded at the army camp at which he is cook.

He was taken to a hospital at Camp Polk, La., where he is receiving medical treatment.

WINNER—Cleron McMurry of Memphis is shown here with Rosie Nell, 7-year-old registered Jersey, which took grand champion honors in the female division of the fourth annual Hall County Dairy Show last Thursday.

CCC Men Buy Defense Stamps

With almost 100 per cent cooperation, a defense stamp sale, launched Tuesday in the Veterans CCC camp in Memphis, netted \$64 on the first day.

The stamps will also be sold today, to allow men who were paid of October 1 to buy their share of the stamps.

The local camp Wednesday became a part of the Oklahoma district, with offices in Oklahoma City. It has been one of the camps in the North Texas district, which Wednesday was combined with the South Texas district to form the Texas district. Camps at Memphis, Perryton, Morton, and Floydada were made a part of the Oklahoma district.

Hall County's fourth annual Dairy Show, declared by Oscar Evans, manager of the Tierra Blanca Farm in Canyon, to be as big and as good as the Tri-State Fair dairy show, is over, and Cleron McMurry of Memphis is wearing a big smile on his face.

McMurry's best cow, Rosie Nell, a 7-year-old registered Jersey, took top honors in the show and was crowned as the grand champion female. Junior champion honors went to an entry of C. L. Sloan of Estelina.

In addition, Sloan took both grand and junior champion honors in the male division with his entries. His entry, Winsome You'll Do Volunteer, was grand champion male, and Spotted Blonde Golden Lad was junior champion.

Climaxing the dairy show activities was the milking contest open to women of all ages. Mrs. Ruby Casey milked 48 ounces in the 30 seconds allowed, and was given first place. In second place was Miss Helen Wilson, who milked 46 ounces, and third was Mrs. Chas. Williams with 41 ounces. An added feature was the milking contest in which County Agent W. B. Hooser milked 4 pounds. (Continued on page 6)

Southern Farmers Better 'Armed' for Livestock Feeding

Numerous Factors Help In More Efficient Stock Production Than in 1916

Editor's Note: This is the second article of a series, "Feeding for Defense—and Profit," published as a service to farmers and stockmen.

Called upon to produce increasing quantities of dairy products, meats and other livestock products needed for national defense, Southern farmers are far better "armed" for efficient livestock production, today, than they were in 1916 or 1917, a comparison of conditions 25 years ago and now shows.

Some of the many advances of the past quarter-century that enable more efficient livestock production include:

Research that has given greater knowledge of the importance of vitamins, minerals, proteins, and other feed nutrients in balanced rations, along with increased knowledge and experience in the efficient use of such Southern feeds as cottonseed products, grain sorghums, citrus by-product feeds, and many others.

Twenty-five years ago feeders thought that cottonseed meal should be fed only in limited quantities for only short periods of time. Today, research has proved that cottonseed meal is an excellent source of protein in all well-balanced livestock rations, and all informed feeders know that unlimited amounts of cottonseed meal can be used indefinitely as long as cattle receive their vitamin A requirements; and, that these requirements can be taken care of by feeding three to five pounds of good, bright green hay, daily.

Effective control methods that have virtually eliminated former costly losses from cattle ticks and bovine tuberculosis, and greatly reduced losses from contagious abortion, hog cholera, sheep parasites and many other livestock hazards.

The establishment and expansion of Extension Services, Vocational Agriculture Departments, Farm Security Administration, Soil Conservation Service, Dairy Herd Improvement Associations and other agencies which, in the past quarter-century have become major factors in improving livestock management and feeding methods.

The introduction, or increasing utilization, of such valuable feed and forage crops as the grain sorghums, the clovers, lespedeza, Rhodes grass, soybeans and many others.

Development of methods of more rapidly finishing cattle, hogs and sheep which save time and cost in meat production.

Increased use of the trench silo and other methods of more efficient conservation and utilization of feeds, along with pasture improvement work and more efficient range utilization.

Improved types or breeds of animals adapted to the South and Southwest, such as the Brahma and Santa Gertrudis cattle, as well as the greatly increased number of good herds and individuals of the older breeds found in the South, today, as compared with 25 years ago.

All of these factors, and numerous others, make it much easier for today's farmer or ranchman to produce efficiently for national defense, and profitably for himself, than it was in the past. In the South, especially, these advances offer greater opportunities for the livestock industry to render a service to the nation while improving its own economic conditions and those of the South as a whole. Some ways in which Southern livestock producers can utilize these opportunities will be the subject of the next article of this series.

Between 1930 and 1940 there was a sharp increase in ownership of small part-time farms near large cities.

Blue Stamp Foods For October Given

Foods available during October for purchase with blue stamps by families taking part in the food stamp plan in Hall County were announced this week by Wynn S. Goode, local stamp plan representative. These foods are obtainable in local stores throughout the month of October.

Fresh prunes, plums and peaches, obtainable for blue stamps during September, are not listed for October. With this revision, the complete list of "blue stamp foods" for the period October 1 through October 31 in all stamp plan areas is as follows: fresh apples, oranges and pears, fresh vegetables (including potatoes), corn meal, shell eggs, raisins, dried prunes, hominy (corn) grits, dry edible beans, wheat flour, enriched wheat flour, self-rising flour, enriched self-rising flour, and whole wheat (Graham) flour.

Nicotinic acid is a vitamin found naturally in wheat and other foods. It has none of the qualities of nicotine found in tobacco.

New 1942 Ford to Be on Display Here Friday at Foxhall Motor Company
 Nearly 7 Million Spent in August By Stamp Clients
 The new 1942 Ford, featuring both 6-cylinder and 8-cylinder models, will be on display in the showroom of the Foxhall Motor Company Friday, Ed Foxhall, manager, announced this week.
 Ford again makes the headlines this year with the announcement of the 6-cylinder model, which has been undergoing tests for the past year. The model has been built to meet the demands of buyers who like 6-cylinder cars, it was explained. The engine will be 90 horse-power.
 The V-8 engine has been refined and improved for 1942. It also is a 90 horse-power engine, and is the only eight in the low-price field.
 The entire car this year is sleeker, more streamlined, is lower, and the tread has been made wider. The new models are road "huggers," if there has ever been any, Foxhall declared.
 New features include flared doors concealing running boards, new stone guards for front and rear bumpers and on front of rear fenders, one inch lower frame, new front axle, new track bar, improved anti-sway stabilizer, new plastic instrument panel designs, new (clock) type speedometer, new style trimming of combined cloth and leather, and wider tread.
 Models to be offered, with either the 6 or 8 engine, are the deluxe tudor sedan, deluxe fordor sedan, deluxe coupe, super deluxe town sedan, super deluxe fordor sedan, super deluxe coupe, super deluxe sedan coupe, super deluxe convertible club coupe, super deluxe station wagon, and deluxe sedan coupe.
 In the Ford trucks, a wide choice of engines are offered. The V-8 engines may be had in either 90 or 100 horse-power. The six is a 90 horse-power engine and the four-cylinder is a 40 horse-power model.
 The two other Ford cars—the Lincoln and the Mercury—also feature new improvements.
 The Mercury V-8, with a 100 horse-power engine, is built lower this year, and is racier in appearance, it was explained.
 The Lincoln, with its 12-cylinder V-type engine of 130 horse-power, is offered in three series—Lincoln Zephyr, Lincoln Custom, and Lincoln Continental.
 Cotton makes house cleaning easier if one wet mop, one dry mop, three cleaning cloths for floor and baseboards, six dust cloths, and four washing and scouring cloths are kept on hand.

Warren and the various state and national political leaders.

Governor Stevenson is a real western character, modest in disposition, and not given to boasting. He is the type of man who impresses one with his capabilities of making Texas a good business governor.

While the master of ceremonies at the barbecue Saturday evening played to the Governor entirely (evidently losing sight of the fact that the barbecue was given for Dave Warren also), those present showed their appreciation in every way possible to Dave Warren, publisher and Citizen No. 1 of the Panhandle.

October is Church Loyalty Month. The various churches of Memphis are urging that all people attend the church of their choice during the month. If all the laymen of Memphis could have heard Dr. Bancroft of New York City at the Methodist Church here last Friday, it would have impressed them with the importance of loyalty to the church. He stressed the fact that the church is just what its members make it. Go to church next Sunday, and every Sunday from then on.

Another week of importance, in my opinion, is National Newspaper Week, October 1 to 8. In order for a newspaper to exist and give unbiased news to the readers so they may not be sold out as were the people of France, it is necessary to have paid advertising and paid printing. In keeping with that idea here are a few questions: Do you order your printing from a mail order catalog? We workers at the Democrat office buy at home.

Do you let some out-of-town firm do your printing simply because some salesman talks you into it? Do you know that we print almost anything in our office, and if we can't do it, we can buy it for you as cheap—or cheaper—than you can order it? Do you expect Memphis and Hall County to be prosperous if you spend your money somewhere else? It won't work out that way. Do you take your job printing elsewhere, and then ask publicity courtesies of The Democrat? Many people do.

"One of the main factors in the fall of France was a venal press. It could be bought. There was not enough advertising to maintain newspapers or magazines short of outright subsidy. Therefore the press was subsidized. First one political group and then another, first one business group and then another obtained control of the important French newspapers. The socialists had a paper. The monarchists had a paper. Everybody had a paper and each one was filled with pure propaganda for its side. But worse still foreign governments had papers. Instead of hearing what was good for France, the French people heard what was good for Germany, for Russia and for certain groups in France. There was no such thing as an independent paper giving both sides of the question or questions. Given a truly free press, the French people are patriotic enough to have done the right thing and protected themselves years ago. But they never had the chance. They were torn with discord and strife. As a result they fought a lot harder among themselves than they ever fought against Germany. When Germany started to invade, France had defeated herself before the invasion started." The above are a few remarks made by Commentor at a Wellington Kiwanis luncheon, which was reported by the Wellington Leader, and this week quoted in the Texas Press Messenger without giving credit.

District Gridmen—

(Continued from page 1)

conference tilt at the same time. The game will be played on the Eagle gridiron at Lakeview Friday night, beginning at 8 o'clock. The Memphis Cyclone, twice beaten, will meet the Shamrock Irishmen, reputedly a strong defensive team. The Cyclone lost their second match Friday when the Paducah Dragons staged a last half comeback to whip them 19 to 6. Shamrock lost a 14-0 duel with the Class AA Childress Bobcats. This will also be a conference game.

The third conference tilt will be between the Clarendon Brones and the Wheeler Mustangs. Clarendon's hopes for district honors were lowered last Friday when the Lefors Pirates downed the Brones 26 to 6. Wheeler at the same time was losing 18 to 0 to the Wellington Skyrockets.

Lefors this week will play the Amarillo Yannigans in a non-conference game, while Wellington will meet the Chillicothe Eagles. The Eagles showed strength last week in losing a close one, 7-0 to the Phillips Blackhawks, last year's regional champs. This week's schedule: Wheeler at Clarendon; McLean at Lakeview; Memphis at Shamrock; Chillicothe at Wellington; Amarillo Yannigans at Lefors.

Standings find McLean in the top seat with three victories and no losses, Wellington and Lefors tied for second with two wins and no losses; Lakeview fourth with one victory and one tie; Clarendon and Shamrock tied for fifty with one win and one loss; and Memphis and Wheeler in a deadlock for the cellar position with two losses each.

After a rest of several months The Democrat's Staff Poet has broken loose. He thinks he ought to be made honorary member of some church for this one: IT'S ONLY YOU

When things go wrong with you, old pal, and you feel down-hearted and blue; don't blame it on the world, my friend, for perhaps it's only you.

We all walk the same old earth that many feet have trod, placed here for such as you and me by an ever-present God.

Think it over, old pal, maybe you are to blame; the earth's just like it always was, it's you and I that change.

Since the modern farm laborer uses machinery and must have some skill in its maintenance and repair, he makes a good factory worker, according to the Selective Service Board.

cluding men from Denison, Hollis, Childress, and Amarillo. Carroll Smyers, manager of the Memphis chamber of commerce, was master of ceremonies for the luncheon. He made various introductions of visitors.

C. L. Sloan, president of the Hall County Dairy Association, when called upon to address the group, said "I had rather take a whipping than do this."

The association head welcomed the new market for dairy products, and stated that he believes its location here will prove to be a forward step for the dairy industry not only in Hall County but all of the Panhandle.

The food consisted of meat loaf, potatoes, green beans, pineapple-cottage cheese salad, rolls, coffee, and apple pie. The meal was served by women of the church.

Transportation Funds Received

A total of \$1,954, representing 12 1-2 per cent of the transportation funds for all County school students, has been received in Memphis, County Superintendent Tops Gilreath said this week.

The payments for transportation will be made monthly until one-half of the amount allocated is received, it was explained. The remainder of the funds will not be sent until a final check has been made.

The initial payment is much earlier than in any former year. Usually no transportation funds are received until February or March.

The funds in 1939-40 amounted to \$13,349, although this year may find slightly more being sent. The amount allocated for each elementary student has been hiked from \$1 to \$1.50 per month. Two dollars is sent for each high school student.

THE VISION OF MY CHURCH

By REV. RUSSELL WINGERT, Presbyterian Pastor. Editor's Note: This is the first of the articles written by various pastors of the city in connection with Church Loyalty Month...

in its ability to meet man's needs of static in its influence upon modern civilization. The hope it inspires is different from that hope which rises and falls with market prices...

I speak not for the denomination of which I am a member, but for that group of persons with whom I have a common bond because of a mutual faith.

Like all Christians, I have had to struggle against changes that time and conditions bring; I have known doubt and moments of pessimism, but through personal struggle has come a vision of the Church which brings refreshment of mind and spirit, renewal of strength, and assurance of victory.

The Roof of my Church is the protecting Hand of God in His providence and care.

The Life that stirs within my Church is the Spirit of God moving in the lives of men.

The Members of my Church are that group of people who believe in Jesus Christ as their Savior and who, through Jesus, know God.

The Pews of my Church are the resting place of those who seek communion with God.

The Altar of my Church is the heart upon which are laid the sacrifices of devotion, penitence and humility.

To this vision of my Church I pledge anew my loyalty.

WE STAND FOR FREEDOM AND FOR IT WE WILL FIGHT

DAIRY CATTLE have their day, cheese company officials have their day, cotton has its week, babies of the nation are honored on week each year, almost everything has a day or a week during the year.

AND OCTOBER 1-8 IS NATIONAL NEWSPAPER WEEK.

We of The Democrat are proud to belong to the newspaper profession. If we weren't, we probably would not be in the profession. We are proud of the help we believe we are to the community, and of the help the community is to us.

During National Newspaper Week, we feel that it is time to do a little "patting" on our own shoulders. We do not get "patted" much during the year, we get more "cussings" than we do "pattings." So now we are going to do some crowing.

The Democrat is constantly trying to report all legitimate news fairly, accurately, completely.

The Democrat is willing, and does, support all sound programs for civic and social betterment.

The Democrat has the policy of promoting business, agriculture, employment, and general prosperity.

The Democrat takes interest in youth and its problems; in education; in healthful sports, hobbies, and recreation.

The Democrat gives sympathetic treatment to religious news and seeks to maintain the constant protection of religious freedom for all sects and all creeds.

The Democrat, during political campaigns, attempts to give equal treatment to all candidates, yet reserves the right to support its choice, as does any citizen.

The Democrat has a deep and abiding allegiance to America and American principles, first, last, and all the time.

The Democrat is a newspaper, and will continue to be as long as freedom of the press reigns in America.

The Democrat, nor no other newspaper, can remain a newspaper and fill the above requirements if freedom of the press is gone.

The Democrat will fight for its right to print what it pleases, for we believe that without that right our democracy cannot survive. France, Austria, Poland, and other nations have not survived. Neither can America if we do not maintain our freedom of speech and press.

For that freedom, The Democrat stands firm, during National Newspaper Week and all other weeks which have passed and which are to come.

THE NEW INDUSTRY

THE KRAFT CHEESE COMPANY factory is here, has already started operation, has had its formal opening, and will form a permanent market for milk from dairymen of this area.

Here's a few statistics which may prove interesting:

The government has ordered 250,000,000 pounds of cheese to be sent to England during the next 15 months. To make this much cheese, about 2,500,000,000 pounds of milk will be needed. The cheese industry has delivered 95,000,000 pounds of cheese to date.

Texas has seven plants similar to the one in Memphis, and the southwestern division factory which does the processing work is at Denison.

Three hundred farmers in this area are selling an average of 19,000 pounds of milk daily to the plant here.

This means that area farmers are receiving about \$285 from the cheese company each day, or \$8,550 per month, or \$102,600 per year.

There are 1,316 farmers in Hall County alone, which means that more than 1,000 farmers in the area covered by the Kraft haulers are not selling milk to the factory.

The factory is paying much more per pound than farmers have been receiving, and more and more farmers are beginning to patronize the plant.

The cheese factory is a good thing, most any way you look at it. More money in the area means better living conditions, and better living conditions means happier people, and happier people are certainly fine to have around.

CULLED FROM THE DEMOCRAT'S EXCHANGES

Soon
The Clarendon News: In just a few days now, there will come a news flash of an encounter in which a United States war vessel followed orders, and engaged some unit of the piratical seacraft of the Axis powers. It may be that the fortunes of war will smile upon our flag in this first encounter under the new order. It might be that some chance shot will sink one of our ships, even as the mighty Hood was sunk. In any event, at the first open encounter now, there will come a rush of patriotic fervor on the heels of the news, that will unify America to a point that no Lindbergh, or no Wheeler, will be able to secure audience for their silly mouthings. In just a few days, now...

Manners
The Lubbock Morning-Avalanche: When a person is polite enough to ask you how you are feeling, you should be polite enough not to bore him by telling him!

No Pros or Cons
The Moore County News: As this corner sees it, the time for pros and cons on the war are over. We might have done this or might have done that in the past, with the corresponding this or that result.

Life
The Canyon News: A centenarian says he has never played games, smoked, kissed a woman, seen a motion picture, taken a drink or dissipated in any way. He has lived a long, long time—but not much.

The Big Question
The Childress County News: The big question now is whether or not Hitler believes that the United States is ready to back up each statement of the President. If he is convinced that we mean business and contents himself with trying to whip the British and Russians and trying to control the peoples of the conquered countries,

shot from the masthead of American ships and American sailors are to die at sea, things lack one h-l of a lot being normal. We are in a war, let's win it.

Looking
Jake in the Liberty Vindicator: There's something about these shimmery, see-through raincoats of many hues that makes an attractive woman less attractive and an unimposing woman worth another look.

Golf
Ed Bishop in the Dalhart Texan: Lives of golfers all remind us We can tip and slice and hook, And departing leave behind us Words you won't find in a book!

Story
Virginia Anderson in the Shamrock Texan: Here is a rather funny story we read recently. A mother of a 9-year-old girl was something of a child psychologist and was well prepared for the day when her daughter would ask, "Mother, where did I come from?" The day came and the mother, calmly and quietly, without mentioning one bee or one flower, explained the matter thoroughly.

The child began to grow restless during the final part of the speech and when it was over, said, "Well, I just wanted to know. There's a new girl moved in down the street and she says SHE came from Philadelphia."

(READ THE STORY, THEN COLOR THE PICTURE PASTE IN YOUR SCRAPBOOK)

The acrobats were tiny men, They loudly yelled "Hello" and then The Mystic Man said "Watch their tricks. They'll whirl each time my finger clicks." "All right," wee Duncy cried, "Let's go! I want to see how much they know. Say, I was in a circus once And I know lots of clever stunts." One man, then, with apparent ease, Hung from the tree limb by his knees. Another shouted, "Watch me jump!" My friend will catch me bump." The next thing that I knew, The men did what they'd do. For 'bout a half an hour All of the men swung. The Mystic Man cried, "Change back to black!" Then Duncy said, "I'll pass my little stick." The Mystic Man said, "What happened gave you a scare. Wee Duncy turned into a ball of yarn."

DRAGONS MAKE COMEBACK TO BEAT CYCLONE IN 19-6 BATTLE

Going into the game trailing by 6 to 0, the Dragons staged a fierce comeback to beat the Cyclone 19 to 6 before a crowd of 90 fans.

The Dragons scored early in the game after making a drive of 31. Douglass rushed through the center line from the 10 to make the counter. The conversion failed, and the game ended with no other scoring.

In the middle of the third quarter again got off for 45 yards—and scored, where the extra point attempt failed.

Economics Class Sees Cheese Plant

The economics class of Memphis High School paid a visit to the new Kraft Cheese Company plant last Thursday, were fed cheese and crackers, and listened to a lecture by A. J. Riddle of Denison, Southwestern division manager.

The students were shown the main part of the plant where the milk is received, weighed, and poured into vats. Then they were taken to the boiler room, from where steam is supplied.

The refrigerator room was the last place the visitors were taken. Before leaving, pictures were taken of the class in front of the plant.

FORMER RESIDENT HURT
Dr. T. L. Lewis, Childress dentist and former resident of Memphis, suffered a fractured leg Sunday afternoon when a horse he was riding fell.

In 1929 the average factory worker had \$887 to spend on non-food items; in 1941 he will have \$1,045 or 18 per cent more. In 1929 he had to pay one-third of his wages for food, but in the first half of 1941, only one fourth. In addition, the prices for non-food goods have decreased enough since 1929 so that the money spent on them buys 35 per cent more this year.

Fire Prevention Week Proclaimed; Begins October 5

Governor Stevenson Sets Aside Week to Encourage Adoption of Regulations

To encourage the adoption and enforcement of fire prevention rules and regulations, Governor Coke R. Stevenson has proclaimed the week beginning October 5 as Fire Prevention Week.

His proclamation is as follows: Whereas, the prevention of fires is of vital importance to the success of the nation's tremendous defense effort; and Whereas, defense orders are taxing to capacity an increasing number of industries and any curtailment of production because of fire becomes a very serious thing; and Whereas, throughout its history the State of Texas has suffered an enormous loss in lives and property due to fire; and Whereas, statistics on fire reveals that the "cause" of fires, to a large extent, can be controlled by intensive education and intelligent law enforcement; and Whereas, all citizens of Texas are desirous of retaining the low insurance rates which have been promulgated by the Board of Insurance Commissioners as a result of the faithful practice of fire prevention measures; and Whereas, due to the national emergency now existing, the preservation of human lives, and in the interest of sound economy as related to fire insurance cost, it is the patriotic duty of every citizen of Texas to aid in the prevention of fires;

Now, therefore, I, Coke Stevenson, Governor of the State of Texas, do hereby proclaim and designate the week beginning October 5, 1941, as Fire Prevention Week, and I earnestly call upon the citizens of Texas, particularly civic, school, patriotic, and municipal organizations to emphasize the danger of fire and to encourage the adoption and enforcement of fire prevention rules and regulations to lessen the disastrous consequences of fire.

Social Security Missing? Check on Possible Benefits

There may be somebody in your neighborhood who is entitled to payments of old-age and survivors insurance, and who does not know that such payments are available, Dewey Reed, manager of the Amarillo office of the Social Security Board, said on a visit to Memphis this week.

"Therefore, if you are concerned about the needs of any family who recently lost its breadwinner, you may be doing it a favor by advising some member of the family to call at the Social Security Board's office and talk about a possible claim for benefits.

"A representative of our office will be glad to investigate the matter and if any member of the family is entitled to file a claim for insurance payments, he will assist in preparing the necessary papers. There is no charge for this service. The Social Security Board office is located in Room 324 of the new Post Office Building, Amarillo."

Continuing his discussion of claims, Reed stated that in the Amarillo field office area there are 173 men and women who have reached the age of 65 and who are receiving monthly payments of old-age insurance.

"Some of these retired workers now have an opportunity to go back to work in industrial plants or in commercial employment. The law does not permit the Social Security Board to pay monthly benefits to persons while they are earning \$15 or more a month from a job that is covered by the law.

"The recipient of old-age insurance benefits may earn as much as \$14.99 per month, on any kind of a job and still receive his monthly check but, if his wages amount to \$15 or more in any one month, his payment for that particular month will not be made."

People eat about the same total quantity of food now that they did 30 years ago, but less cereals, potatoes, beef, and tea. Consumption of citrus fruits, sugar, poultry, eggs, chocolate, coffee, and fresh vegetables has increased.

40-PAGE EDITIONS MADE BY PAPERS

40-page edition of The Memphis Democrat that is a pleasure to read. The edition is in honor of the opening of the Kraft cheese plant, Hall County Dairy Show, opening of the city park, and the opening of the cotton-picking and ginning season.

Ed Bishop in the Dalhart Texan: They're opening a new Kraft cheese plant down at Memphis and the entire story of this plant and the coming Hall County fair is told in pictures and stories in last week's Memphis Democrat, one of the best of the Panhandle weekly newspapers. The special edition makes excellent reading for those interested in cheese making, cotton farming, and the dairy industry. In the four section edition are to be found the encouraging advertisements of a group of enterprising business firms.

State Press in the Dallas Morning News: Memphis Democrat: This special edition is being published to advertise four events, all of which are important to this county and to the counties surrounding Hall County. First of these events is the formal opening of the Kraft Cheese Company plant in Memphis, which we believe will prove

to be a benefit to farmers and dairymen of the area.

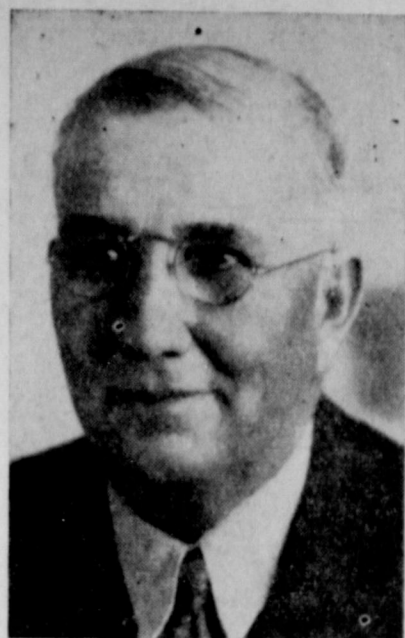

The four events, all together, justify the big edition issued by The Democrat. But the Kraft plant in itself is important enough for a good deal of optimism. The cheese plant will make a market for milk and cream. Milk and cream may be had by cow owners, if they are sufficiently interested to do the milking.

The calves are worth good money when a few months old. The milk and cream supplies spending money when other crops are in the making. Anybody who doubts the value of fresh milk and cream in commercial quantities might do well to go to Sulphur Springs, Hopkins County. A busy town surrounded by prosperous farmers.

The two milk plants at Sulphur Springs have revolutionized a former cotton county. But the process doesn't work automatically. The milk producer must have good cows and take good care of them. He must be willing to feed them well and work with them. He must be serious about his business.

If he has only two cows he should have two good ones. If he has four or five cows, with good pasture and good winter feed, he needn't be afraid of the war in Europe will deprive him of employment and a living. Moreover, if the old man is willing to carry on a good business in a business-like manner he can prosper and let his children go to school thru the whole term.

The making of butter and cheese and the canning of milk is a big business and a business requiring hard work and clear thinking. The same sort of work and thinking is essential to the production of the raw materials.

Altus Residents Entertain Rotary

Rev. and Mrs. Winston Borum of Altus, Okla., were entertainers at Rotary luncheon here Tuesday. Rev. Borum is pastor of the First Baptist Church at Altus.

After being introduced, Rev. Borum made a short speech which was full of food for thought, and interspersed the talk with witty comments. Then he sang several songs, accompanied by Mrs. Borum. They closed their program with a duet, she singing "Darling, I Am Growing Old," while he sang a modern selection, both to the same piano accompaniment.

As entertainers, the Borums are in demand over this section of the Southwest, those who are personally acquainted with them report.

The church is asking all of its members to express their loyalty to Christ by the support they can give in attending the services of the church.

CHURCH OF THE NAZARENE

D. M. Duke, Pastor
The Church of the Nazarene salutes the newspapers of our nation in their achievements and programs as an important factor in our democratic form of government.

We believe that the newspapers have been largely responsible in keeping the public informed of the advancement of civilization, and the church in general.

We sincerely wish them the continued success in the future that they have enjoyed in the past; and may the nation never be deprived of the freedom of worship, of speech, and of the press.

Tuesday found Worley speaking before the Lions Club in Childress at noon, at which time he reviewed the foreign situation from a Washington standpoint.

Wednesday at noon, the Shamrock Booster Club and the Shamrock Rotary Club combined their meetings to hear an address by their favorite son.

Wednesday night, the Panhandle representative appeared in Memphis, and spoke at a banquet given in his honor. He was introduced by James E. King, county Democratic chairman. J. O. Fitzjarrald was master of ceremonies.

This morning Worley is scheduled to be in Perryton, and will visit Dumas this afternoon. Tonight he is to be in Dalhart to speak before members of the Ambassador Club, an organization of young business men of that city.

Friday will be "Worley Day" at the Tri-State Fair, and he will return to Washington either Friday night or Saturday morning.

Mrs. Lane, Pioneer Of Turkey, Dies After Long Illness

Had Been Resident of Community 50 Years; Funeral Services There

Funeral services were held Sunday afternoon from the Turkey high school building for Mrs. D. C. Lane, resident of that community for the past 50 years.

Rites were conducted by Rev. Hamilton Wright, pastor of the Turkey Methodist Church, assisted by Rev. A. V. Hendricks, former pastor there.

Mrs. Lane, 76, had been seriously ill for the past eight weeks. She died Saturday morning.

Survivors include her husband, D. C. Lane; three sons, Mark, Luke, and Homer Lane; and four daughters, Mrs. Joe Meacham, Mrs. L. B. Cotton, Mrs. J. A. Christian, and Mrs. Jess Russell. All of the children are residents of the Turkey community.

Funeral services were grandsons of Mrs. Lane, and flower bearers were granddaughters.

Relatives attending the funeral services from Memphis included Mr. and Mrs. C. C. Meacham, Olin Cooper, and Beatrice Russell.

Soil-Building Aid Must Be Earned By November 30

1941 AAA Program Ends On That Date; D. A. Neeley Urges Use of Practices

Unless farmers of Hall County take immediate steps to earn their maximum soil-building assistance, they will lose the opportunity to use this money for improvement of the soil on their farms this year, D. A. Neeley, chairman of the county AAA committee, has announced.

Since the 1941 program ends November 30, all practices must be completed by that date if payment is to be received under this year's program.

Last year, farmers of Hall County failed to earn about \$10,000 of the soil-building assistance allowed under the AAA farm program, Neeley said, while farmers of Texas fell short of earning the maximum by two and one-half million dollars.

The big issue is not the amount of money unearned, but the amount of soil-building practices farmers failed to use, Neeley pointed out.

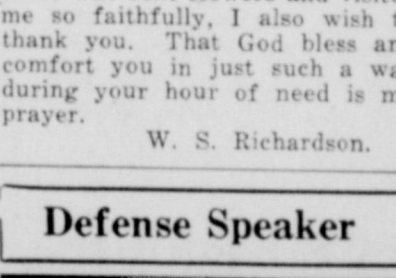

Improving the fertility of the soil is all the more important now, the official said, since the demands of consumers in this country and the needs of nations resisting aggression require still greater food production in the interest of national defense.

Practices which still can be completed by the end of the contract year include planting winter legumes and applying phosphate, terracing, contour ridging, listing, chiseling and furrowing non-crop pasture, and building earthen tanks and reservoirs.

These practices tend to preserve soil and moisture, prevent erosion and improve grass supply, Neeley said, in pointing out their soil-building merits.

Defense Speaker

Senator Tom Connally of Texas, above, will deliver the principal address for National Defense Day at the State Fair of Texas on Sunday, October 12. Senator Connally will come from Washington for the event, which is to be the greatest patriotic demonstration ever held in the Southwest. Ceremonies will begin at 3 p. m. in the huge Cotton Bowl and more than 50,000 persons are expected to be at the address. Every civic and patriotic organization, including American Legion, Veterans of Foreign Wars, Texas Defense Guard and others, will participate. Many organizations will send representatives from every section of the state.

County Sanitation Project to Start

A sanitation project for the construction of 400 privies in Hall County will start this week through the WPA and with the cooperation of the county and state governments, Judge M. O. Goodpasture has announced.

Twenty men will be employed on the project, which will require about 200 days for completion. The privies will be built at various locations throughout the county, it was explained.

DO YOU HAVE BLUE BUGS

are deadly to poultry and egg production—these can be killed in your building and on your poultry as well as fleas and mites. Also your poultry may be wormy and lousy. Ask us about this as these can be handled at one time.
