FARMERS WILL HOLD A BIG UNION RALLY

ORGANIZED FARMERS IN HALL COUNTY PREPARE FOR GRAND RALLY AND GET-TOGETHER PICNIC.

EVERYBODY'S INVITED

President Henry N. Pope and Other Prominent Union Leaders Are To Speak.

Pursuant to a resolution passed at meeting of the Hall County Farmers' Union in May, and since ratified by the ten local unions in Hall county, preparations are being made for a grand rally and get-together picnic to be held in, or near Memphis Friday, July 21.

This organization has enjoyed a most healthful growth in this county during the past two years and the operation of interests brought about through the organization has been of great value to the farming interests of the county and this section. Let these facts be known and to rebly stimulate further growth and operation is the chief reason for calling this meeting.

President Henry N. Pope head of Texas Farmers' Educational and Co-operative Union, will be here and deliver an address.

Vice-president George E. Courtney and perhaps other prominent union men, will also be here. L. A. Huff, the Warehouse Inspector, will deliver an address on the warehouse and ricketing system.

The Memphis local has arranged to procure several heaves and, doubtless, several of the local unions in other parts of the county will do the same, all will bring baskets and there will be no lack of food supplies.

Everybody, whether they are members of the union or not, and whether they are engaged in farming or not, is invited and expected to come and help in having a good time and sure-enough get-together meeting. The place of meeting has not yet been selected though the public square has been suggested; but will be announced next week. Many visitors from surrounding counties are expected and the meeting will probably prove to be one of the largest gatherings in the history of Hall county.

Married.

Mr. R. H. Hill and Miss Georgia Houston of Turkey, were married here Monday by Justice Stafford.

Shooting At Glazier.

Glazier, July 12.—Thomas Waters, resident of the Glazier State Bank, was shot and seriously wounded Phil Milam, a cattleman on the streets at 12:30 this morning. The Methodist preacher Beck was an eye witness to the shooting. Three shots were fired from an automatic pistol. Milam has slight chance for recovery but no hope is held out.

Waters gave himself up to the sheriff. An old grudge was said to be the cause of the shooting and the man had a fist fight previously.

Election Order Recinded.

The commissioners' court at their meeting Monday and Tuesday recinded an order for a stock-law election in the Estelline precinct.

The order was recinded at the request of the petitioners, who found that their petition did not have the required number of qualified signers. This is the third time that petitions from that precinct for stock-law elections have been found to be inadequate.

B. S. Greene and family left this week for Colorado where they will spend a month in the mountains.

WEAR BRITISH COLORS

Americans Take Refuge Behind British Flag For Protection Against Insult In Mexico.

Columbus, N. M., July 12.—Americans living in Chihuahua and other parts in northern Mexico are wearing small British flags to ward off insults to themselves and their nation. Demonstrations against Americans are frequent.

PRESIDENT WILSON AND CABINET AS NOW CONSTITUTED

Three members of the present Wilson cabinet have never appeared before in a cabinet picture, as this is the first one taken since long before former Secretary Bryan resigned. They are Secretaries Baker, Lansing and Gregory. From left to right around the table: President Wilson, William G. McAdoo, secretary of the treasury; T. W. Gregory, attorney general; Josephus Daniels, secretary of the navy; David F. Houston, secretary of agriculture; William B. Wilson, secretary of labor; William C. Redfield, secretary of commerce (at extreme right of picture); Franklin K. Lane, secretary of the interior; Albert S. Bursleson, postmaster general; Newton D. Baker, secretary of war, and Robert Lansing, secretary of state.

PRECAUTIONS AND PREVENTIVES IN PIG CULTURE.

Practical Measures That May Prevent Loss Remedies For Lice Worms That Weaken Hogs.

In view of the great losses Hall county has sustained this year from ravages of hog cholera, it behooves all hog raisers to use every possible precaution to prevent the appearance of this epidemic in their herds. Not only should the premises be kept in a sanitary condition but the presence of such vermin as lice and worms should not be allowed, as either will weaken the hog and render him an easier prey for cholera.

To rid hogs of lice, dip or wash them in solutions of any of the coal tar disinfectants, which may be obtained at any drug store. Make rubbing posts and saturate covering with crude oil, or make a concrete wallow and put a thin layer of oil on the water, so it will come in contact with the lice.

Many hogs die from worms, when the owner is of the opinion that it is cholera. A post-mortem examination of your hog will readily determine the matter. If you desire to keep your hogs free from worms use following mixture: Charcoal, one bushel; Hardwood ashes, 4 bushel; Salt, 8 lbs; Air slacked lime, 8 lbs; Sulphur, 4 lbs; Pulverized coppers, 2 lbs. Mix lime, salt, and sulphur well, then mix with the charcoal and ashes. Dissolve the coppers in 2 parts of hot water, then sprinkle over all, mixing thoroughly. Store away in a barrel and keep under shelter, but always keep a supply in a shallow box, where the hogs can get to it at will. In case your hogs are already wormy, give them turpentine at the rate of 1 teaspoonful for each 80 lbs of live weight, each morning for three successive mornings. Give it in slop.

Cholera is a stubborn disease and the old saying, "Ru ounce of prevention is worth a pound of cure," applies well here. Serum is not advocated as a cure but as a preventive. Where cholera has existed, no efforts should be spared to thoroughly disinfect and sanitize the premises. You cannot afford to risk "cheap economy." The following formula is recommended by the U. S. Agricultural Department and has saved many hogs after they became infected with cholera: Wood charcoal, 1 lb.; Sulphur, 1 lb.; Sodium hyposulphite, 2 lbs; Sodium bicarbonate, 2 lbs; Salt 2 lbs. These ingredients should be thoroughly mixed and kept under shelter. The dosage is a large tablespoonful each day for each 200 pounds of live weight. Use bran, shorts, chops, etc., mixed with hot water, in giving this medicine. The food should be soft in feeding hogs that are already sick. If every hog owner will keep these formulas and use the latter at the first signs of an outbreak, and if he will keep a supply of the first formula always on hand and use it constantly, worms and cholera will soon be unknown quantities in Hall county.

Yours for success,
Will M. Midkiff

CARELESSNESS IS THE CAUSE OF ACCIDENTS

Stop, Look, Listen Sign Should be Heeded by Auto Drivers. Accidents Preventable.

Do you know that 3,894 persons were killed last year in automobile and other vehicle accidents at railroad crossings? The railroads recognize their responsibility and every year improve as many crossings as possible.

What is your responsibility? A bulletin entitled Safety First, issued by the Burlington railway, makes a strong appeal to the drivers of motor cars to make every possible effort to eliminate crossing accidents.

"Responsibility lies on every driver of an automobile or team to know the way is safe," says the bulletin. "Yet 3,894 persons were killed last year because drivers trusted that somehow Providence would look out for them. Many had passengers in their cars. Do you protect your passengers?"

"Have you noticed that many drivers cross railroad tracks without looking or listening for trains? Thousands risk lives this way every day. Do YOU look and listen?"

"Have you noticed that many trust to luck at railroad crossings because of recklessness, or ignorance."

"When a train comes at that moment, as happens not infrequently, the trainmen are confronted suddenly with an automobile or a team on the track with no chance to avoid hitting it. Result: Death, injuries, sorrow, vain regrets. Are YOU paying the way for this?"

"Look and listen at the railroad crossing, and if in doubt about the safety of the way, stop and investigate. That is the only safe way to do it. Do YOU do it that way?"

Cemetery Meeting

All persons interested are called to meet at the church at Union Hill on Thursday, July, 27 at 2:00 p. m. to consider arrangements for care of cemetery and church property.

C. G. Wilson Hurt By Fall

Mr. C. G. Wilson was seriously hurt by a fall last Friday. He was working at the brick plant and fell some twenty feet striking on his back on the hard ground. The fall seriously injured his back, affecting his kidneys, and he is yet confined to his bed, though his condition is somewhat improved.

Fine Irish Potato Crop.

B. T. Williams is marketing the new crop of Irish potatoes from his farm adjoining the city limits to the west. Mr. Williams did not have a large acreage but has sold to the local merchants 800 bushels at \$1.40 per bushel. Mr. Williams raises fine potatoes every year. There is not another farm in the Texas Panhandle that raises as many potatoes as does Mr. Williams. The potatoes netted about \$110 per acre.—Childress Index

SUBMARINE ARRIVES FROM GERMANY.

Unarmed Under-sea Craft Brings Valuable Cargo. Kaiser Sends Message to President Wilson

Norfolk, Va., July 9.—The first of what is expected will prove a fleet of unarmed merchant submarines arrived here early this morning from a German port, and today proceeded to Baltimore, after taking aboard a pilot. The underwater craft is expected to reach Baltimore Monday morning.

Aside from its cargo, the German craft carries a message from Emperor William to President Wilson and a quantity of mail, including valuable commercial papers, which the allied blockade of the seas has prevented from being transmitted previously.

In its cargo, consigned to a Baltimore firm, is included a large quantity of dyestuff hitherto unobtainable and rapidly growing scarce in the United States, and a variety of medicines from German laboratories.

Captain Kairig, in command of the submarine, stated he had encountered no difficulty during the crossing of the ocean, either from weather conditions or hostile warships. His cargo he said, totaled about one thousand tons.

A Unique Entertainment

Miss Ira Hammond entertained eight of her girl friends in honor of Miss Lillie Snow last Thursday night. Before supper time we had quite an enjoyable time playing tennis.

The girls were invited in to supper at which time a most sumptuous six o'clock supper was served in a very unique way.

After supper we enjoyed the Victrola several hours, during which time each girl tried to see which one could play the biggest "prank" on the other.

When bed time came we all found our places on one big pallet, and we sure enough talked.

In the morning breakfast was served and we decided it was time to go home.

On leaving we declared Miss Hammond a very entertaining hostess and we proclaimed this a very happy occasion. A Slumber Party with the "Slumber" left off.

Hall and sandstorms have destroyed many crops and in replanting the cotton acreage has been cut fully 50 per cent. Most of the crops destroyed have been replanted in milo maize and other feedstuffs.

Only one farm in the county is known to be infected with cholera at present, but many farmers are losing hogs from worms and have been quite busy supervising the work of eradicating these pests.

The Extension Department of the A. & M. College has arranged to give us a three-days short course, August 7 to 9 inclusive. Your hearty cooperation in awakening an interest in this short course and inducing a large attendance will be greatly appreciated.

Yours for success

Accident Results Fatally

Monroe White, a young man employed on the White & Walker farm, was fatally injured last Friday while at work with a thresher on the G. W. Davis place.

White was cleaning up around the thresher when the pitchfork he was using caught in a belt and was thrust violently against his stomach, inflicting internal injuries from which he died Saturday morning. He was buried at Newlin Sunday.

Miss Nell Burditt, of Childress, was here Monday visiting friends.

WHITE SOX SUCCESSFUL ON PLAINS

MEMPHIS BASEBALL BOYS WIN FROM PLAINSMEN, THREE GAMES AT CANYON, TWO AT AMARILLO

AMARILLO JUMPS GAME

Amarillo, Unable to Win From Memphis, Quit After 1st Half of 6th and Claim the Game.

The Memphis White Sox continue to win. Since leaving home they have played eleven games; two at Turkey, two at Clarendon, three at Canyon, three at Amarillo and one at Portales, New Mexico. Of these they have won all but one, the last game at Amarillo, in which the Amarillo team quit at the close of the first half of the seventh inning, when they had two scores to nothing, claiming that Memphis had agreed to a seven inning game. The Memphis boys say that nothing whatever had been said to them about playing only seven innings and that Amarillo "bogged" them out of the game.

That Memphis would probably have won as they claim is indicated by the scores in the two previous games, played Sunday and Monday, in which the scores were 7 to 4 and 7 to 1, respectively.

Yesterday they played at Portales, winning by a score of 14 to 2. They are now at Roswell for a series of four games, the first of which will be played this afternoon.

Individual players of the Memphis team have received numerous complimentary writeups. Lee and Davis as pitchers and Hale for general good work.

The Amarillo News of Wednesday says:

Hale, the visitors third baseman was the star in the field. The short-stop on the Memphis team seems to be extra baggage when this fellow is around. He is very fast and has a whip of steel. He is also some clouter although he did not hit much here except in Sunday's game. Lee pitched excellent ball and with a little more hitting might have won.

Candidates for Congress Speak

Two candidates for the democratic nomination for congress from this district spoke here Friday afternoon.

Reuben M. Ellerd spoke at 2:30, from the steps on the east side of the court house to a rather small audience. Later, at about 4:30, W. E. Prescott, of Paducah spoke at the same place to a similar sized crowd.

Ellerd left soon after the speaking in his auto for Hedley, Clarendon and Claude to make speeches at each place that afternoon and at night.

Neither aroused much enthusiasm the voters seem to be as little interested in this race as in the other political contests to be decided by the primary.

TRACTOR EXHIBIT PLANS COMPLETE

MILLION DOLLAR MACHINERY DEMONSTRATION AT DALLAS, JULY 18 TO 23

BANNER EVENT OF THE YEAR.

All plans are practically completed for the First National Tractor Demonstration, which will be held at Dallas July 18 to 21. This demonstration includes more than 200 tractors and over 20 makes of plows. Every capacity of a tractor will be demonstrated. Probably 400 factory representatives will be on hand to show the possibilities of a tractor on a farm, and the four days' demonstration at Dallas will constitute a practical, complete short course in power farming.

A. E. Hildebrand, manager of all of the demonstrations, reached Dallas early this week, and will remain through the demonstration. During this week the tents for exhibition purposes will come, and a tented city will rapidly outline itself on the demonstration site. For demonstration purposes a tract of 1,000 acres has been secured and this has been platted and is ready for daily exhibition of plowing, seeding, disking and every other farm operation of a similar character. Adjacent to the demonstration site are roads in need of work and on these the possibilities of the tractor and road-making machinery will be shown.

To give exhibitions. The tractor at this demonstration will be of every size and type, while the plows will include engine plows, both moldboard and disk, from all the standard makers. Concessions have been let for food, drink, fuel and other things for the convenience on the grounds both of the exhibitors and the visitors.

There will be four days of actual demonstration in plowing, and other farm work, the mornings being devoted to private demonstration and the afternoons to public demonstration. This event promises to be the biggest agricultural event of the year, and every farmer and implement dealer in the Southwest should make it a point to be present at least on one of these days.

This machinery exhibit will approximately reach a valuation of \$1,000,000.00, and will easily be a close second to the State Fair in this respect. These tractor demonstrations are the results of demonstrations previously held in Nebraska and Canada. The interest was so great that practically all tractor and thresher manufacturers in the United States have formed an organization for the purpose of holding a limited number of demonstrations in the best tractor territory in the United States. A circuit has been arranged embracing eight cities, in as many states, and these demonstrations, the first of which will be held at Dallas, will follow each other on successive weeks until the circuit is completed.

STATE FAIR OF TEXAS HAS LARGE INCREASE IN PREMIUMS

ALL AGRICULTURAL AND LIVE STOCK CLASSES ARE GREATLY BENEFITED

NEW PREMIUM LIST IS NOW READY FOR PERUSAL.

R. E. L. Knight, President.

R. E. L. Knight, president of the State Fair of Texas, announces that the most extensive and complete arrangements have been made with a view of making the 1916 State Fair at Dallas, which opens October 14, and continues to and through October 29, the largest, most interesting and most valuable agricultural and educational exposition ever held.

During the year just passed, the Fair management has conducted vast improvement enterprises at Fair Park—practically every department has felt the influence of the earnest desire to bring all details connected with the Fair right up to the minute; and, as a consequence, when the 1916 Fair opens next fall, every necessary equipment and facility for an epoch-making exposition will have been provided.

Premiums Largely Increased.

The State Fair of Texas is, essentially, an agricultural exposition; its purpose is to gather together and display annually a representative showing of the wonderful resources and possibilities of the great Southwest, and this in order that the peoples of other sections may have an increased appreciation of the marvelous fertility of Southwestern soils, and the incomparable advantages of our matchless Southwestern climate. It is obvious that this purpose can be best achieved by inducing and influencing a large majority of farmers of the section to bring displays of their products to Dallas, and with this end in view, the directors of the Fair have, this year, voted large increases in premiums for practically all classes of agricultural and live stock exhibits.

The premiums offered by the Fair this year are undoubtedly the most valuable ever appropriated by any Fair Association; and, likewise, the total number of premiums will be much greater than in the past.

Many New Classifications Added. In almost every division, and particularly in the sections devoted to

agriculture and live stock, there will be found this year a number of interesting new classifications. In the poultry section, a classification for all kinds of pigeons has been devised, and a special building is now being constructed to house the large number of pigeon exhibits expected. The raising of pigeons for the market is becoming an important industry in the Southwest—of sufficient importance, in fact, to justify a good representation at the State Fair of Texas.

Premium List for 1916 Now Ready.

W. H. Stratton, secretary of the Fair Association, announces that the premium list for 1916 has just been issued and is now ready for general distribution. This is a book of 142 pages, handsomely printed on good paper, and is fittingly illustrated with photographic reproductions of portraits of the officers and directors of the Fair, and with scenes in Fair Park.

While the title of this work is simply "Premium List," the publication is, in fact, much more—as it contains a great deal of interesting and valuable information relative to the rules and regulations governing the different classes and, in fact, all necessary data relative to the aims and purposes of the Fair.

A feature of this book which will interest practically all Texans will be found in the front of the publication in the nature of a large folder 40 inches long by 8 inches wide, upon which is illustrated a splendid panoramic view of a portion of the Fair Grounds. This is a late photograph and shows the grounds just as they are today. The reverse side of this folder presents a fine panoramic view of the present skyline of the city of Dallas. This is likewise a very recent photograph and glowingly depicts the wonderful growth which Dallas has attained in recent years.

In the back of the 1916 Premium List will be found a similar large folder presenting many of the amusements which are to be at the Fair this fall. The amusement program, as outlined by Secretary Stratton, is by far the largest and most extensive ever offered by the Fair management, and while both sides of this large folder have been utilized for the purpose, it has been found to be entirely impossible to present a large portion of the acts which have already been secured.

Mr. Stratton states that a sufficient number of Premium Lists have been published to take care of all demands, and that a copy will be mailed to any address upon receipt of request. There is no charge for this publication. Those who wish only the various folders can for the asking secure copies beautifully bound especially for free distribution to the people of Texas and the Southwest.

From the nature and extent of the preparatory work already concluded, it is easy to deduce that the 1916 State Fair of Texas, to be held in Dallas October 14 to 29, will be the largest in the history of Texas.

ENCAMPMENT AT STATE FAIR VALUABLE INSTRUCTION PROJECT

THREE HUNDRED TEXAS FARM BOYS AND GIRLS ARE TO PARTICIPATE IN IT

UNITED STATES DEPARTMENT OF AGRICULTURE IS INTERESTED

W. H. Stratton, Secretary.

The monster Educational Encampment for Texas Farm Boys and Girls, to be held in connection with the 1916 State Fair of Texas, October 14 to 29, will undoubtedly prove to be one

of the most interesting features of this year's State Fair. At the same time, the educational influence that will be wielded will confer a distinct benefit upon three hundred boys and girls of the State.

All necessary plans and arrangements have been concluded by the Fair management in co-operation with the State Agricultural & Mechanical College and the U. S. Department of Agriculture, and it is stated that the complete success of this movement.

W. H. Stratton, secretary of the State Fair of Texas, announced recently that three hundred scholarships in his encampment would be available—two hundred for boys and one hundred for girls, and that the scholarships would be awarded on a competitive basis, to the boys of the Boys' Agricultural Clubs, and girls of the Girls' Canning Clubs, who make the best records in their work during 1916. Secretary Stratton also stated that these scholarships would give the successful contestants an entire week at the Fair with all expenses paid, and that they would be glad to send a descriptive booklet concerning the Encampment to any boy or girl who would like to enter the competition.

The Cotton Crop 1915

Washington, D. C.—A bulletin on cotton production in the United States just issued by Director Sam L. Rogers of the Bureau of the Census Department under the supervision of Mr. W. M. Steuart, Chief statistician in charge of the inquiry, shows the American cotton crop of 1915—11,191,820 equivalent 500-pounds bales—to have been the smallest since 1899. The tables contained in this publication will be reprinted in the annual cotton bulletin, to be published about October 1, which will also include more detailed figures as to production, together with data in regard to consumption, imports, exports, and stock of cotton.

The crop of 1915 fell below that of the preceding year by nearly 5,000,000 bales or more than 30 per cent. The production in every state showed a decrease, the greatest proportionally being in Oklahoma, where the crop of 1915 was only a trifle more than half as large as that of 1914.

The increase in the production of linters during recent years is noteworthy. Starting at 114,544 bales in 1899, the output of this product increased to 880,780 bales in 1915. The 1915 linter product even exceeded that of the preceding year by nearly 24,000 bales, although the cotton crop of 1915 was very much smaller than that of 1914. This increase in linter production is due to some extent to closer delinting of the seed for the better separation of the meat from the hulls, but more especially to the high prices obtained for the fiber, which is used extensively in the manufacture of guncotton and smokeless powder. Many mills now obtain considerably more than 100 pounds of linters per ton of seed treated, whereas in earlier years 50 pounds per ton was a high yield.

Although cotton is grown in 18 states, the combined product of four—Texas, Georgia, South Carolina and Alabama—representing nearly two-thirds of the total crop of 1915.

Texas alone produced 3,227,480 bales, or more than one-fourth of the total crop of 1915. The next greatest production was that of Georgia, 1,908,673 bales, or more than one-sixth of the total. Other states producing large crops were South Carolina, with 1,133,919 bales; Alabama, 1,020,839 bales; Mississippi 953,965 bales; Arkansas, 816,002 bales; North Carolina, 699,494 bales; and Oklahoma, 639,626 bales.

Secretary McAdoo has ordered withdrawn from federal reserve banks at Richmond, Atlanta and Dallas \$5,000,000 each placed there last September to assist in moving and marketing the crops; the deposits having accomplished their purpose. In Texas at least, the reserve banks did not make application for 3 per cent money in order to loan it to the farmers at 6 per cent. This is a matter of record.—Fort Worth Record.

All the experts say that the giant German submarine ship is a merchant ship and that other ships are coming loaded with dyes and mail from the German nation. On her return trip the Deutschland will carry metal and rubber needed by the armies and navies of Germany and Austria. Captain Koenig, who will live in history as the most daring of navigators, declares that the British rule of the sea is now broken. Captain Koenig's exploit has astounded the civilized world. When it comes to efficiency and daring the Teutons are record makers. They have shown it through out the war. They are fighting the world and yet the world must admire the wonderful ingenuity and inventive genius of these sons of the kaiserland.—Fort Worth Record.

Negative Intervention.

Collier's says that President Wilson has always maintained that his policy in Mexico is non-intervention. As a matter of fact, it has been intervention.

To tell a country it cannot have a certain man for President is intervention.

To tell a de facto President, as Huerta was, that he must get out, falls within the same definition.

From the date of that act, President Wilson had a responsibility, of his own assuming, for what went on in Mexico.

WASTE-BASKET, SHIRTSWAIST BOX, AND SHOE BLACKING CASE, IN CRETONNE.

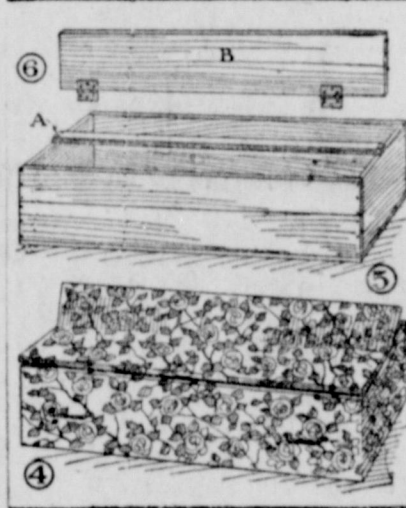

On account of the simplicity of the construction of cretonne covered furniture, there are all sorts of things which a girl can make for her own room, and for mother's.

The waste-basket in Fig. 1 is made out of a soap box. Remove one end of the box, as shown in Fig. 2, for

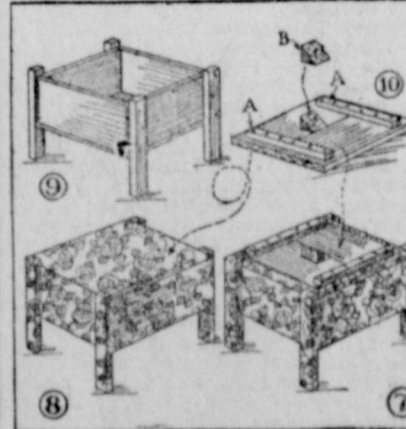

he open top of the basket, and nail the cover board in place to enclose the side (Fig. 3). The next step is to cut several strips about an inch and one-half wide, and nail them around the top edges as a finishing band. Tack the outside cretonne on first, then the inside lining. Lap the cretonne over the top edge, and cut it so that about an inch will turn down all around. Then conceal the edge of the cretonne by lapping the lining over it. The lining may be of a plain colored fabric.

The shirtwaist box shown in Fig. 4 is made of a box of the right height to slide underneath a bed, and a pair of handles are screwed to each of the two long sides, so it may be pulled out from either side of the bed.

Because the shirtwaist box must be shallow, it is well to make it long. Having procured the box, it is only necessary to fasten a strip two inches wide along the center of the open top, from end to end, for the hinge-strip A (Fig. 5), and hinge a board each side of it for the covers (B, Fig. 6). That completes the carpentry. It will be easiest to cover the box before the hinge-strip and covers have been put on, and to tack the cretonne on the hinge-strip and covers before fastening them in place. The handles and the castors go on last.

Have you a shoe blacking case in your room? Very few girls do own one, yet it is an article of great im-

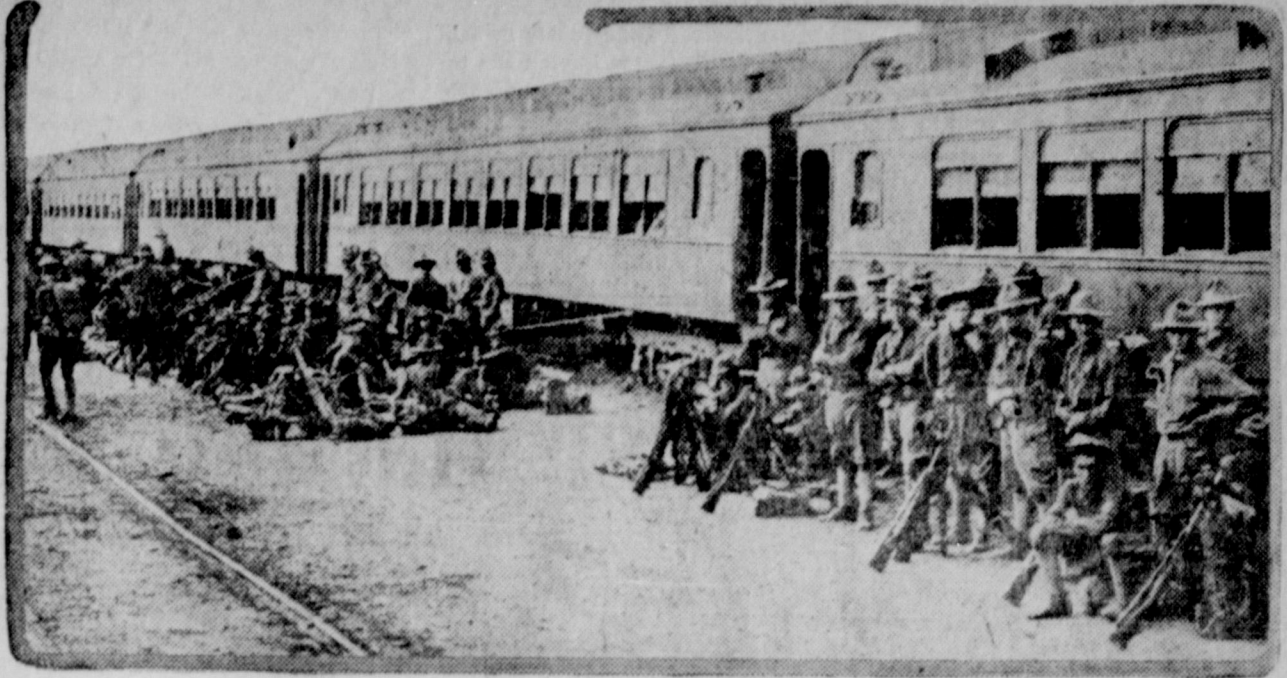

portance to the girl who is particular about keeping her shoes tidy. Fig. 7 shows a practical little blacking case. By making the top removable, the inside of the case may be used as a receptacle for cans and bottles of polish, brushes, and rags; and by padding the under side and covering it with cretonne, the top may be inverted after use, and the blacking case thus converted into the attractive footstool shown in Fig. 8.

Fig. 9 shows how four short legs should be nailed to the corners of a square soap box, with the tops projecting just enough to allow for the thickness of the cover, and Fig. 10 shows how the cover boards should be fastened together with the cross strips A, and how a triangular block B should be nailed to it for a rest to push the shoe against.

In covering the blacking case, it is best to omit the inside lining.

Judge W. D. Fisher, of Canadian, Texas, is a candidate for Associate Justice of the Court of Civil Appeals for the 7th Supreme Judicial District of Texas. Judge Fisher grew to manhood in Busk and Gregg Counties, Texas, coming West about twenty-seven years ago. He lived for a few years in Knox and Brisco Counties, and located permanently in Hemphill County twenty years ago. Judge Fisher is in the prime of life, a close student of the law, and well fitted for this high office. He has always stood for the best in society and politics.

Therefore, we the undersigned, cordially endorse his candidacy:
Frank Willis, Judge Thirty-first District of Texas; W. R. Ewing, District Attorney Thirty-first District; Newton P. Willis, attorney; J. L. Jennings, County Judge Hemphill County; H. E. Hoover, attorney; J. C. Dial, attorney; Dan B. Hoover, attorney; W. Sanders, County Attorney; G. L. Addison, County Treasurer; W. J. Todd Jr., attorney; W. C. Isaacs, President Canadian State Bank; D. J. Young, President First National Bank; A. H. Tandy, cattleman; Hayes Howell, Pastor Methodist Church; Thos. F. Moody, banker and cattleman; O. R. McMordie, County and District Clerk; C. H. Tipps, Sheriff; L. Williams, Pastor Christian Church; O. Hudson, Mayor; Will Crow, attorney; E. C. Gray, attorney; Higgins, C. Coffee, attorney, Miami; B. G. Taylor, Pastor Presbyterian Church; F. R. Jamison, Editor Canadian Record.

PRESS COMMENTS.
The Lakeview Promoter: "We have known Mr. Fisher since 1905, and at that time he was one of the leading and foremost lawyers of the entire Panhandle. He is a brilliant orator, and a close student of the statutes of the State of Texas."
The Canadian Record: "His ability to discern and interpret the law is recognized as inferior to none who practice before the bar of the district. The district will find in W. D. Fisher a man whose ability meets the requirements of this high station."
Canadian Monday Morning News: "All know him to be an upright, honorable gentleman possessed of much learning and practice of law which qualifies him for this position."

Childress Post: "Mr. Fisher is a competent man and well worth the support of our people, and we trust they will give him a splendid vote in this County."
Miami Chief: "W. D. Fisher of Canadian is seeking the Appellate Judgeship for this district. Judge Fisher is a splendid gentleman, fully qualified for the position."
Childress Index: "Mr. Fisher is one of the most prominent lawyers of the North Plains."

PRINCE ALBERT
the national joy smoke

has a flavor as different as it is delightful. You never tasted the like of it! And that isn't strange, either.

Buy Prince Albert everywhere tobacco is sold in tippy red bags, 5c; tidy red tins, 10c; handsome pound and half-pound tin humidors—and that corking fine pound crystal-glass humidor with sponge-moistener top that keeps the tobacco in such clever trim—always!

Men who think they can't smoke a pipe or roll a cigarette can smoke and will smoke if they use Prince Albert. And smokers who have not yet given P. A. a try-out certainly have a big surprise and a lot of enjoyment coming their way as soon as they invest in a supply. Prince Albert tobacco will tell its own story!

summer we took cretonne from the upholstery department and transported in great quantities to the goods counter; still on the look-out for novelties, we discovered this season the plain and striped cotton-linen homespun, intended for cottage furnishings, were especially suited to sports suits and being especially practical for which require a bit harder wear than ordinary linen or silk garter stand. These also have a natural crash and linen grounds, striped in the same tones, the softer shades. The black and white combination is especially and there are bright green, orange, and a wide choice of other bright shades which are in favor for sports wear. This is wide and inexpensive. One effective suit developed in homespun has a plain crash-colored, combined with a black and striped coat. The pockets flaps skirt were of the striped material, color, cuffs, pockets flaps of the Norfolk coat, of the

flowered, printed or embroidered voiles and muslins are very pretty in this way, and there are printed combined with plain taffeta satins, in the same way, for frocks.

kerchief Linen for Blouses blouses, both of the sports type

and the more dressy models, the striped and figured handkerchief linens are modish. These have usually white grounds with colored stripe, flower, or conventionalized pattern. The stripes are much more in evidence than the figured linens. For the costume blouse Georgette crepe is the general favorite. In white or the soft tones of pink, blue, café au lait, Nile green, and the various other pastel shades, this material washes perfectly; the dark tones are excellent and are practical for tailored suit, being selected to harmonize, or match the shade of the suit.

Linen and Georgette are often combined most effectively in the smart afternoon models for country club and like wear. One unusually attractive costume shows a Russian blouse of mauve color Georgette worn with a full, short skirt of mauve linen; another imported model, made on Russian blouse lines, shows the novel combination of foulard and muslin; the blouse is of the muslin and the skirt of foulard.

Trimmings for Lingerie Dresses Much narrow Valenciennes and flit lace edging and insertion is used to trim the dainty muslin and voile dresses this summer. It edges the frills of bodice and skirt, finishes the collar and cuffs, joins the seams, or is applied

In any way that strikes the individual fancy. Embroidery is another strong trimming feature. Scarcely a blouse or tub-frock but shows a touch of white or colored handwork on collar cuff, bent, or at the closing. Novelty buttons, embroidered or studded, lend a touch of effective color to the dark linen or serge frock, and light crystal buttons add a pretty finish to the voile and crepes.

IMPORTANT OF LITTLE THINGS OF DRESS

Shoes, Gloves, Neckwear, Parasols and Hats, All Have Their Parts to Play.

Short Skirts Demand Smart Footwear

In the summer season, perhaps more than at any other time, it is the little things of dress which count in the wardrobe. The sheer lingerie frock gathers much of its charm from the bright girdle, the touch of color at the throat, the well-fitting pump, or boot, dainty stockings and gloves and the wide-brimmed becoming hat which completes it. Without these finishing touches, the frock itself might fall short of expectations.

Summer Footwear

Although the high laced boot was chic and becoming with the short tailored skirt, and is still a favorite in white canvas, buckskin, and the soft gray and tan leathers, the low shoe is much in demand. The old-time Colonial pump with huge buckle and more or less exaggerated tongue, according to personal fancy, is a general favorite. These are equally modish in be dull calf or bright patent leather. Another favorite in low shoes is the perfectly plain pump of calf or patent leather. This is made with a rather long vamp, and fits smoothly over the instep, being finished with a bow of leather, a small buckle, or no ornament at all. There is variety in heels also; the medium high heel generally favored for street wear, the French heel for evening, and there

is a comfortable and good looking low heel for those who do not care for the higher one for street wear. Sport shoes are particularly charming, being low of heel, broad of toe, and most comfortable as well as chic. There are rubber-soled and heeled canvas shoes, high and low, for tennis, golf, and similar sports; substantial looking shoes for walking, mountain climbing and the more strenuous of out-of-door purposes. These come in tan or black and lend themselves to any appropriate out-of-door costume. For those who favor the flat-heeled, brad-toed shoe, there are a number

Satin Afternoon Dress

of modish low shoes, on the Oxford type, which may be appropriately worn with the tailored suit or dress for street and business wear.

What's New in Neckwear

Neckwear is particularly interesting this summer. The various collars and jabots now modish offer limitless less ways of changing or brightening up a frock or blouse.

Perhaps the very newest idea in neckwear is the shoulder cape of white, black, Java brown, or other favored shade, of crepe Georgette, trimmed with bands of ermine, beaver, or moleskin. The short-haired furs are preferred for these capes. While these novelties are a bit absurd, still, they are effective and becoming, and afford quite a bit of warmth, worn in the evening over the sheer lingerie frock or the filmy dance dress.

The jabot frill of chiffon, net, picot edged Georgette, or organdy is an effective accessory with the tailored suit; it is worn oftentimes with the coat, and then again it is a part of the blouse. The jabot blouse is one of the popular models of the season.

There are attractive sets of Quaker collar and the various other models, with cuffs to match, in lawn, organdy, crepe Georgette and net; many of them in the soft pastel tones so much favored this summer. These are worn with frocks of dark linen or serge, and with the tailored suit. Now and then one sees a becoming high stock with sports blouse or street frock, but the open throat is the rule, although both high and low collars are modish. In order to be smart, a high collar must fit perfectly, and be well adjusted.

Girdles and sashes are another means of introducing a bit of color contrast. These girdles and sashes are offered in great variety in the shops, and the belts are once more coming into favor. With the trim tailored dress of serge or linen, the narrow, flat sash encircling the waist,

Street Dress with Cape

crossing in back and tying in front or at the side front, in a loose knot, is a

great favorite. These sashes are usually made of the same material as the dress, or of satin. Ends are finished with a tassel or a bead design. For lingerie frocks and dance dresses the wide ribbon girdle or the silk or satin sash is modish. Dresden ribbons, with the design worked out in metallic threads, are worn considerably with dance and evening dresses.

The strictly tailored suit is completed with a narrow leather belt, or a stitched belt of the material.

Buttons and buckles must not be forgotten in the summer scheme, for they are becoming daily more and more important. The dark serge frock has a row of satin-covered buttons, usually in a contrasting color, from collar to hem, or a row from shoulder to wrist. It is predicted for fall that we will wear button boots again, and that not only will they have the single line of buttons at the closing but a double row.

How Bad Backs Have Been Made Strong—Kidney Pills Corrected

All over Memphis you hear it. Doan's Kidney Pills are keeping up the good work. Memphis people are telling about it—telling of bad backs made sound again. You can believe the testimony of your own townspeople. They tell it for the benefit of you who are suffering. If your back aches, if you feel lame, sore and miserable, if the kidneys act too frequently, or passages are painful, scanty and off color, use Doan's Kidney Pills, the remedy that has helped so many of your friends and neighbors. Follow this Memphis citizen's advice and give Doan's a chance to do the same for you.

Mrs. J. C. Williams, 14th & Bradford Sts., Memphis says: "I had occasion to use kidney medicine a couple of years ago and I heard so much about Doan's Kidney Pills, I got some. They proved satisfactory relieving me. I gladly advise anyone to get a box at Tomlinson's Drug Store, if troubled with a weak back or any disorders of the kidneys."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Williams had. Foster-Molburn Co., Props., Buffalo, N. Y.

URGES BANKS BE CANVASSED

H. N. Pope Desires Expression as to What Extent They Will Aid Farmer This Year.

Fort Worth, Texas, July 8.—One of the most important problems that will confront the annual meeting of the Texas Farmers' Union in Houston, Aug. 8, according to President H. N. Pope, is that of marketing the present cotton crop, which, he calls to the members' attention, involves bonded warehouse finances for distress cotton and for holding the surplus cotton.

Mr. Pope says that the question of cheap money for the farmer is up to the banker.

"The recent statement of the Hon. W. F. Ramsey, governor of the Federal Reserve Bank at Dallas, that that institution had on hand \$18,000,000 available for lending on cotton through the local banks to farmers at 6 per cent, puts the question of cheap money for the farmers up to the bankers. The government proposes to lend the bankers this money at 3 per cent. This gives the bankers a profit of 100 per cent on the transaction with no capital invested. I take it that this profit is satisfactory to any banker, and those who refuse to handle it do so because they are opposed to 6 per cent loans on general principles.

"There is nothing now between the farmer and 6 per cent money, unless it is the local banker, and in order to definitely develop their position I ask all bankers who are willing to lend money on cotton to the farmers at 6 per cent to write me to that effect, and I also urge officials of local unions to canvass the banks within their jurisdiction and ascertain their views on the subject."
