THE VOICE OF THE UPPER MED RIVER VALLEY  
YOUR HOME PAPER

**Good Morning**  
MEMPHIS HAS eight churches, five with fine, modern church buildings, three of which are equipped with pipe organs.

## E. M. Ewen Is Named President Of Old Settlers' Association

### AT BALLARD FAMILY REUNION

Forty-seven members of the Ballard family attended a family reunion at the Peter Ballard home in Newin Sunday, Aug. 4. The entire group is shown in the upper photo. In the lower photograph are the three groups at the head of the Ballard family. They are, left to right, Peter Ballard, Mrs. Peter Ballard, Jim Richardson, of Friona, Mrs. Richardson, Mrs. J. S. Ballard, of near Eli, and J. S. Ballard. Mrs. Richardson is a sister to Peter and J. S. Ballard.

E. M. Ewen of Memphis was elected president of the Old Settlers Association at the business meeting of the pioneers held Friday afternoon in Carnegie Library Park.

The Old Settlers Reunion was brought to a successful conclusion Friday night with a square dance attended by the old settlers and between 3,000 and 4,000 spectators in a roped off portion of the courthouse square.

Climaxing the day's program for the old settlers a business meeting was held for the purpose of electing officers for the ensuing year and to discuss other matters of interest.

**Other Officers**

T. D. Gee of Estelline was elected vice-president. Mrs. Henry Youngblood of Brice was balloted as secretary and Earl C. Johnson of Memphis, historian.

The old settlers also voted to make Memphis the permanent meeting place for the reunion.

Long before 9 o'clock Friday night the courthouse square was jammed with thousands of spectators to watch the old settlers go into their square dance, which brought to a conclusion the day of entertainment and celebration.

With the permission of Mayor Whaley, a section of the square had been roped off. In the center was an improvised platform for Arthur Howard and his Hoedowners, who furnished the music. Around the outside of the roped off portion were benches for the old settlers and spectators. It was thought at the time

## Holds Meeting

John G. Bills, minister of the Church of Christ at Eastland, will begin a meeting at the local Church of Christ Thursday night. The meeting will continue 11 days, closing Sunday night, Aug. 25. Two services will be held daily, at 10 o'clock each morning and at 8:30 each night. Alfred Wells, well known evangelist singer, will have charge of the congregational singing throughout the meeting. The public is invited to attend.

## AREA SUFFERS DURING HOTTEST DAY OF YEAR

The Memphis Area sweltered yesterday during the hottest temperature of the year.

The mercury here during the middle of the afternoon stood at 111 degrees—just 2½ degrees under the all-time record set last summer—according to Weatherman J. J. McMickin.

The record for the year had stood at 104 degrees for about a month. It was shattered Friday when the mercury climbed to 108 degrees.

There was slight hope for relief last night. The forecast for today was partly cloudy. Small clouds hung over the area last night. Heavy banks were reported west of Claude, where four inches of rain fell recently.

## IOOF and Rebekah Announce Program

campment and Canton work will annual session of the Lower Panhandle I. O. O. F. and Rebekah Association, which will be held here Wednesday and Thursday, Aug. 21 and 22, has been announced.

The session will start Tuesday night, Aug. 20, with a "fellowship meeting" at the First Baptist Church. A. S. Moss will address the advance session.

A number of grand officers and leading Odd Fellows and Rebekahs will be present and will appear on the program. Grand Master R. C. Cowan, Texarkana; Grand Secretary S. M. Williams, Dallas; Sister Mamie Dale, Iowa Park, past president of the Rebekah Assembly; Wilburn Cartwright, Grand Master, McAlester, Okla.; W. A. McIntosh, Gilmer, past Grand Master; Brother C. E. Couch, new superintendent of I. O. O. F. homes, Corsicana and Ennis, will be heard on the two-day program.

The program has been announced as follows:

Wednesday morning: All meetings to be held at First Baptist Church except contest work and program from I. O. O. F. home. Rebekah degree work at Odd Fellows Hall. All Subordinate, Encampment and Canton work will be held at the American Legion Hall. Program from home at high school auditorium.

## MEMPHIS MAY GET COUNTY BOYS HERE

### But Must Work for Placing of Local CCC Enrollees

Several Memphians have expressed to The Democrat the hope that as many Hall County boys as possible will be placed in the Government CCC camp here.

It is possible to arrange this, The Democrat learned yesterday, but local organizations must work to get the local boys placed here. It cannot be accomplished through the local relief office.

Such organizations as the Chambers of Commerce, Commissioners Court, etc., should petition Marvin Jones, congressman from this district, asking that this be arranged. Otherwise, local boys enrolled for CCC camp service may be scattered throughout the Eighth Corps Area.

The belief also persists that boys not on relief rolls or who do not have dependents on relief rolls can get into the CCC camp.

Relief Administrator A. G. Hoffman stated yesterday that he had never received any such order. Insofar as he has been instructed, only youths on relief can be enrolled.

However, "leaders" of the camps do not necessarily have to come from relief rolls. They may enroll under the LEM and must fulfill the requirement that the name implies—Local Experienced

## GO TO DISTRICT C OF C MEET AT AMARILLO

### Three Local Members Attend District Session

Three representatives of the local Chamber of Commerce attended a regional West Texas Chamber of Commerce meeting of district C in Amarillo Thursday. Those attending were Roy R. Fultz, president of the local organization, F. V. Clark, secretary, and S. T. Harrison, member-at-large of the W. T. C. C.

Wilbur C. Hawk presided at the Amarillo session, and Ray H. Nichols, Vernon, president of the W. T. C. C., delivered the principal address, outlining the work under contemplation at this time in the interest of the economic welfare of this section of the state.

## PIERCE HOME IS DESTROYED

The home of L. D. Pierce, occupied by Mr. and Mrs. Mack Hersh, 515 South 10th Street, was destroyed by fire early last night.

The blaze was said to have started from an explosion of undetermined origin. Damages were not immediately estimated, but the entire house and contents were destroyed.

The fire spread rapidly and burned out the entire interior before the local fire department could bring the blaze under control.

## Planning Board To Interview Engineer

### RURAL SCHOOL BUDGETS WILL BE PLANNED

S. T. Harrison, chairman of the Hall County Planning Board, has issued a call for a meeting of the board to be held at the courthouse here at 10 o'clock Wednesday morning.

Arrangements have been made for an engineer who has had experience with Works Progress Administration projects to be present and consult with the board. He will be glad to counsel committees and give them such information as is possible relative to their WPA problems, it was announced.

Mr. Harrison urged a full attendance of the board due to the necessity to develop and advance desirable works projects as soon as possible.

It is necessary that these projects be secured in order to give labor to those now on relief rolls. P. C. Clark, secretary of the board, stated. It has been learned that WPA laborers may be permitted to leave this work and assist in harvesting crops without impairing their rights to resume work again on the WPA projects.

### Boards To Meet With Superintendent This Week

Work will begin Tuesday morning and be completed this week in planning budgets for each rural school district in Hall County.

School boards from each district will meet with County Superintendent Vera Gilreath in the superintendent's office in the courthouse here for this purpose. Miss Gilreath announced yesterday.

Miss Gilreath will go to Turkey (Continued on page 4)

## MEMPHIANS ON VACATIONS

Where Local People Go; What They Do

MRS. GEORGE L. POUNDS: Mr. Pounds, the children, Durad and Jacqueline, and I went on a trip earlier this summer that I had looked forward to taking for many years.

We left Saturday morning, July 21, for California. We planned on going the central route and returning by the southern highway. We did this so we could see different country each way.

On our trip to California, we passed through the Painted Desert. The beauty of it fairly took our breath, but it was so terribly hot we were glad to pass through and leave it behind.

California was all we had anticipated. There were so many spots of interest to see and visit it kept us on the "go" constantly. The ocean took the children by storm. It was their greatest thrill on the entire trip and they are still talking about it.

On our return we passed through the Hondo Valley in New Mexico. To me this was the most enjoyable part of our vacation. The valley was one mass of green growing vegetation. Fruit trees and vegetables of all varieties grew in profusion everywhere in the valley. It was a marvelous sight indeed, and I shall never forget it.

Although our entire trip took us only two weeks, we saw and did everything we had planned to do. It was a tour worth taking, but I am glad to be back home

again, if only it weren't quite so warm.

HOWARD GREENWOOD: I had a short vacation this summer and went on a trip I had always wanted to take.

W. M. Walker and I toured for 10 days in and around San Antonio and the Medina Valley. We saw all there was to see of the surrounding scenery and then we went through the old buildings that played their part in making Texas rich with history.

Of the many buildings we stopped and visited I believe the Alamo and the Buckhorn Saloon held more interest for me than all the others combined. The moment I went into the Alamo it seemed to me as if I had stepped into an atmosphere of years ago. All the time I was in there it clung to me, but the minute I walked out it left me. Feelings such as this made the entire trip one long to be remembered.

There were many good places to fish where we visited and also some on the way, but we were only to be gone for a short time so we left our tackle at home.

The weather was unusually warm and we almost burned down at times. The temperature never gets as high as it does here, but there is never a breath of air stirring.

Now that I have seen most of Texas, not on this trip alone but all through the past years, I want to take my next vacation in California.

## Plane-Ambulance Available Here

King's Undertakers yesterday made arrangements for the use of Shipman Airplane Ambulance service at Mangum, Okla.

The plane is available for rushing patients to distant hospitals or for carrying deceased persons to other points for burial. It carries an ambulance cot or basket, five passengers and two pilots. Its cruising speed is 120 miles an hour.

## Bus Routes To Be Arranged Monday

School bus routes will be approved or worked out tomorrow by the county school board, which meets at 9 o'clock tomorrow morning in the office of the county superintendent.

Memphis, Estelline, Lakeview and Turkey school officials and board members will meet with the county board to work out the proposed routes.

H. W. Kuhn, president of the board, stated that those who have school problems but failed to appear at the last meeting are invited to appear before the board tomorrow.

# TREE PROGRAM FOR 1936 IS ANNOUNCED

## Set Nearly \$2,000,000 Aside for Work

There has been allotted \$1,990,958 from the Emergency Relief Appropriation funds to carry on the 1936 Shelterbelt program, Director Paul H. Roberts announced today. With the allotment, it is planned to plant about 1400 miles of shelterbelt strips and 6400 acres of farmstead planting.

This allotment of ERA funds, it is estimated, will furnish approximately 700,000 man days of labor during the Fiscal Year 1936. With the exception of a limited number of technical supervisory and facilitating personnel, employment will be from the Federal relief rolls and from the nearest available source to the locations where the work is to be done. The relief laborers will be paid semi-monthly, at wages prescribed by the Federal Relief Administrator for the locality in which the men are working. The maximum period of employment will be during the spring planting, but there will be considerable employment during the fall and winter in the nurseries, and for ground preparation, fencing, and other incidental work.

The State Directors will be in direct charge of the work in their respective States. They have been authorized to start acquiring land for planting under a cooperative arrangement made with AAA administrators to use lands in cluded in crop reduction contracts for shelterbelt planting. These lands will be used whenever an agreement can be reached with the landowner and a lease-option agreement secured, which will provide for purchase or extension of the lease of selected lands, at a stipulated price, should the Government desire later to exercise the option.

The nursery stock for the 1936 planting program is now being grown on 644 acres of land leased from commercial nurseries within the Shelterbelt States. Barring unforeseen climatic disaster or insect infestation, an ample supply of seedling will be available for next spring's planting.

# Ethiopian Amazons Gird for Battle

Ethiopia echoes the adage, "The female of the species is more deadly than the male," as it prepares for war with Italy. Emperor Haile Selassie says their womenfolk will follow his soldiers to battle to carry water, prepare food and care for the wounded. Others, like the husky lass at right, will be on the fighting front as members of the amazon legion. And if they follow the tradition of ferocity, these camp followers will rove the battle fields looting and mutilating bodies of fallen foes.

Where Quality is Higher Than Price

TO THE PEOPLE OF THE MEMPHIS AREA:

Dear Friends:

Our store will be open one more week, but we wouldn't feel right about it if we didn't express our thanks before finally closing our doors.

Your response to our Quit-Business Sale has been most gratifying and we are deeply appreciative of your interest. We are also grateful to the many people who have made this store their shopping headquarters for the past eight years, many of whom have expressed genuine regret that we have chosen to leave Memphis. Next Saturday our store will close.

There are still a number of exceptional bargains in every department, though in many instances sizes are broken.

If you want some of this desirable merchandise at prices made exceptionally low to clear it away, we urge you to come to the store within the next few days. AS WE WILL POSITIVELY CLOSE NEXT SATURDAY.

Again thanking you for your many kindnesses during our eight years in Memphis and during our Quit-Business Sale, we are

Respectfully yours,

## Mrs. Morgensen Named President Of Auxiliary

The Ladies' Auxiliary of the American Legion met in regular session Friday afternoon at 3 o'clock at the home of Mrs. J. E. Roper, 603 South Seventh Street.

The meeting was opened with a salute to the flag, following by singing "America." Mrs. T. Kittinger, chaplain, led in prayer. All united in reading the preamble and in 30-second silent prayer, after which the president, Mrs. W. Wilson, declared the meeting opened for business. Reports of committees, treasurer's report, minutes read and approved, followed by the election of officers: President, Mrs. D. J. Morgensen; first vice-president, Mrs. C. C. Dodson; second vice-president, Mrs. E. H. Whittington; secretary-treasurer, Mrs. Roper; press reporter, Mrs. Mamie VanPelt; chaplain, Mrs. T. Kittinger; historian, Mrs. W. L. Wheat.

Roll call was on "The Coldest Day I Ever Spent." Mrs. Mamie Van Pelt gave an interesting paper on "What Membership in the Auxiliary Means to Me."

During the social hour, the hostess served ice cream and angel food cake to Mrs. Wilson, Mrs. H. L. Nelson, Mrs. Whittington, Mrs. S. Gooch, Mrs. Wheat, Mrs. Dodson, Mrs. Van-Jelt, Mrs. H. H. Lindsey, Mrs. Morgensen and Mrs. Kittinger.

Miss Margaret Milam went to Clarendon Thursday and was elected to teach in the Goldston school the coming term.

The rooms where the tables were arranged were decorated with Phlox Zinna's and Asters.

Mrs. Frank Garrett won high score prize and Mrs. Omer Johnsey cut prize. Mrs. Schimelfenig was presented with a guest prize.

Refreshments were served to Mrs. Hal Goodnight, Mrs. Tom Ballew, Mrs. Maper Wood, Mrs. L. W. Stanford, Mrs. Carl Periman, Mrs. Marie Ballew, Mrs. O. R. ## Sodalitan Class Honor Husbands With Picnic

The members of the Sodalitan Sunday School Class of the First Baptist Church entertained their husbands with a picnic Tuesday evening at the home of Mr. and Mrs. Claud Johnson.

The beauty of the flower garden where the tables were arranged added much to the enjoyment of the occasion.

After an hour of feasting and pleasant conversation, games were played. A spelling match in which it was necessary to use gestures as well as letters was the cause of much merriment.

Gordon and Edwin Gilliam furnished string instrument music during the evening, which was brought to a close with a sing-song of familiar tunes led by Rev. O. K. Webb.

Those present were: Mr. and Mrs. Byron Baldwin and son, James; Mr. and Mrs. W. C. Smith; Mr. and Mrs. Sam Hamilton and daughter, Mary Ellen; Mr. and Mrs. Joe Webster; Mr. and Mrs. Henry Scott and daughter, Gloria; Mr. and Mrs. W. C. Foxhall; Mr. and Mrs. W. C. ## Mr., Mrs. D. C. Brooks Celebrate 66th Wedding Anniversary at Wellington

Saturday, July 27, in Wellington, Mr. and Mrs. D. C. Brooks celebrated their 66th wedding anniversary with a 6 o'clock dinner. This was also Mr. Brooks' 90 birthday.

As they arrived, the guests were served punch on the lawn, enjoying happy reminiscence of other days.

To the strains of Mendelssohn's "Wedding March," played by their great-granddaughter, Miss Donnitta Blain, the group entered. Mr. and Mrs. Brooks were seated under an arch of fern and roses, where they received congratulations and enjoyed an appropriate program rendered by their children, grandchildren, and great-grandchildren. In response to an encore, Mr. and Mrs. Brooks very charmingly sang "When You and I Were Young Maggie."

While the Recessional was being played, the guests were seated at a long table. Place cards used

were handpainted bride and groom, and gayly-hued flowers were used as a motif. A beautifully decorated wedding cake topped by a miniature bride and groom was placed before the honored ones.

After the lovely dinner, a certain was drawn by their great-grandson, Jerric Blaine Nix, displaying many useful gifts.

A beautiful prayer was given at the end of this perfect day by Mr. Brooks.

The relatives were: Mrs. M. E. Foster, Mr. E. W. Blaine, and Miss Donnitta Blaine of Wellington. Mr. and Mrs. J. M. Lane, and Mr. R. L. Brooke of Memphis; Mr. and Mrs. Darwin Nix and son, Jerric Blaine, of Shamrock; Mr. and Mrs. Grady C. Brooks and children, Helene, D'Lyle, Courtney, Grady, and Godfrey of Olton; Gentry W. Brooks of Amarillo; Mr. and Mrs. T. B. Brooks of Lockney; and Mr. D. V. Brooks of Los Angeles, Cal.

NEWSPAPER GIVING ACCOUNT OF BURIAL OF WASHINGTON IS OWNED BY M. P. TURNER

A newspaper bearing an account of the burial of George Washington is owned by Marion P. Turner, Memphis blacksmith, who displayed the prized copy at The Democrat office yesterday.

The paper, the Ulster County Gazette, is dated Saturday, Jan. 4, 1800. The short account of Washington's burial is carried on page 3. It is dated George Town, Dec. 20.

This is believed to be an original, since it is known to have been in the Turner family for nearly 100 years.

The "lead" is very dramatic, reading thusly: "On Wednesday last, the mortal part of Washington the Great—the Father of his County and the Friend of man, was consigned to the tomb, with solemn honors and funeral pomp.

"A multitude of persons assembled from many miles round, at Mount Vernon, the choice abode and last residence of the illustrious chief. There were the groves—the spacious avenues, the beautiful and sublime scenes, the noble mansion—but alas! the august inhabitant was now no more. That great soul was gone. His moral part was there indeed, but ah! how affecting! how awful the spectacle of such worth and greatness, thus to mortal eyes, fallen!—Yes! fallen! fallen!"

A small one-passenger roadster now being produced by a British auto manufacturer is equipped with a 1 1/2 horsepower, two-cycle engine, has a speed of 35 miles per hour and sell for approximately \$350.

At The Theatres

PALACE They're calling "Our Little Girl," Shirley Temple's greatest. This Fox Film picture, coming today at the Palace Theatre, has been lauded everywhere.

In this production, the first since the child screen wonder received the special award from the Academy of Motion Picture Arts and Sciences, she gives a powerful portrayal of a child's heart-break.

When those she loves grope in the shadows of misunderstanding, Shirley meets the crisis with a brave smile. She plays at being happy to rebuild a shattered dream.

"Our Little Girl," is a poignant story, tenderly conceived, freighted with heart-tugs yet leaving the audiences, from all reports, strangely happy.

Hundreds of novels and short stories in print and typescript were read before this particular story was selected for Shirley. When the list thinned down to 30, the producer discovered that "Our Little Girl" was ready-made for the adorable star.

I tells the story of a happy family dislocated by suspicions, threatened with wreckage, and of a little girl who runs away from her home when she finds all the joy and safeguards gone.

Alone Shirley Temple suffices to make any picture popular. But Producer Edward Butcher has loaded "Our Little Girl" with talent: Rosemary Ames plays

Shirley's mother; Joel McCrea, who neels on introduction, plays her father. "Poodles" Hanneford, world-famous clown and circus rider has an amazing act; he clowns, rides, falls, and thrills in the circus sequence which has everything complete from the wild animals to the big three-ring tent. Lyle Talbot, Erin O'Brien-Moore, Jack Donohue, continue the list of fine supporting cast. The direction is by John Robertson.

When Irvin S. Cobb presented Shirley with the Academy Award, he said: "You have made more people happy and made more children laugh than any child your age in the history of the world!"

RITZ Randolph Scott, in his screen wanderings in the spectacular "SHE" now showing at the Ritz Theatre, comes upon a ice-sealed tragedy, so vividly real that it might have happened the day before he arrived. Not far from the clear surface of a glacier, he sees the gigantic form of a sabretoothed tiger. In its sides are the spears that had caused its death. Under one of its great paws is the form of a man. Sprawled about the black embers of a camp fire are other men who had hurled their spears at the ferocious animal before they paid with their lives. They are all dressed in the costumes of five centuries before.

In this scene Scott finds a partial corroboration of an old legend that had brought him to the uncharted ice wastes. "SHE" is the pictureization of the H. Rider Haggard tale of a fabulous kingdom of wonderful tropical beauty, ruled over by a deathless queen. Magnificent sets of colossal proportions, strange costumes and awe-inspiring pagan rituals, fierce conflicts,

Season's Heat Records Fall Throughout State; 112 High

By Associated Press A scorching Texas sun which fired mercury to a new summer statewide high of 112 degrees recorded in two cities brought cries for relief Saturday from farmers in this state, while the midwest scorched again after slight relief from showers.

In south and central Texas and the Panhandle crops were reported suffering and many parts of the state no relief was in sight. One person, David Huerta, 40, died in Dallas from heat prostration and two negro women collapsed in Waco. Three additional deaths brought the national total

brightly charged suspense and more thrills than can usually be packed into a photoplay are said to mark the production. for the summer to 168. The season's top mark was reported at the Lubbock airport when the mercury climbed to 112, one degree above the previous record.

Athens had the same maximum for an all-time record. Other highs of the day included: Longview 109, all-time record one degree above the mark set Friday, Temple 108, season record, Sherman 107, Paris 107, Corsicana 106, Abilene 105, Dallas 105 and Fort Worth 104.7.

The San Antonio heat wave was broken as a shower dropped the temperature 29 degrees from 100 in 25 minutes. Coastal sections also got relief.

The national hot area extended from the Pacific coast to Mississippi, with the highest temperatures in southern Kansas, Oklahoma and Texas. Little relief is forecast for the week-end.

Over three-fourths of America's air transport is now carried on in multiple-engined ships.

Dictatorship for France Threatens

PARIS, Aug. 10.—Premier Pierre Laval warned today that a dictatorship for France was not unlikely if the present measures fail in the enforcement of his decrees which have caused disorders and bloodshed.

The warnings, veiled but unmistakable, were contained in his insistent demands that his unpopular decrees be accepted.

Fears for further disorders subsided as the investigating officials blamed professional agitators for the rioting in Toulon and Brest.

An automobile in the French government services uses charcoal as fuel. On a recent run of 1800 miles this vehicle consumed fuel at the rate of two pounds per mile.

**JO DARIEN** breaks her engagement to **BRET PAUL**, college athletic star, because Bret objects to her taking a job as hostess at Crest Lake Inn, fashionable summer resort owned by wealthy **DOUGLAS MARSH**.

Jo goes to Crest Lake. Marsh's eccentric mother dislikes her and causes difficulties. These are increased when **PETER FRAGONET**, film actor, arrives. Fragonet pays marked attentions to Jo, asks her to marry him as soon as he can secure a divorce.

Bret Paul comes to Crest Lake as life guard. **BABS MONTGOMERY**, school acquaintance who is jealous of Jo, is also there.

Fragonet leaves and returns when his film company undertakes to make part of a motion picture at the resort. Jo becomes friendly with **LOLITA MONTEZ**, actress. During a scene on the lake, Lolita narrowly escapes drowning, is rescued by Bret Paul.

Jo learns it was Bret and not Fragonet who saved her life after the sailboat accident. She is on her way to see Bret when Marsh stops her, saying he wants to talk about the party next evening.

## JAMBOREE

**THERE** are 30,000 disappointed Boy Scouts in America. Their first great national jamboree, which was to have been opened in Washington on August 21 has been called off by President Roosevelt.

The lads who were going to attend have been looking forward to this event for nearly a year. It would have been one of the biggest events in their lives. They're bound to be terribly disappointed.

Three scouts from Wellington had been selected to make the trip, as well as many others from over the Adobe Walls area. They're just as disappointed as anybody over the whole affair.

However, we must commend President Roosevelt for his foresight in calling the whole thing off. It was done because of an infantile paralysis epidemic in Virginia, not more than 100 miles from Washington.

They probably would have been willing to take the chance in order to get the great trip to the capitol city, but it would be too big a chance for them to take. If a few became ill, there would have developed a really serious problem, and Washington and Roosevelt would have suffered tremendously.

President Roosevelt knows the horror that the disease can bring. He knows how terrible an epidemic of this nature can be. He was less inclined to take a chance perhaps, than anyone else would have been.

The President stated that the paralysis cases in Virginia "were not considered to be unduly alarming." The calling off of the jamboree probably cause the epidemic to appear much worse than it really is, and many parents, especially around the capitol, probably became exceedingly alarmed. The President's words should ease that tension.

Training camps that were set up for the boys before they went to Washington are to be held anyway, to give the boys somewhere to go and in some measure to repay them for the experience they have missed.

# SUN-TAN

She turned and left him standing there, bewildered. He started as if to follow, but just at that moment Mrs. Marsh and Babs Montgomery appeared.

"Oh, there you are!" exclaimed Mrs. Marsh, sweeping forward with Babs at her side. "What do you mean, running off to dinner without us?"

Marsh covered his annoyance, smiled and chatted while he seated his mother and the younger woman. "I had to discuss plans for the party."

"Not," remarked Babs with a meaningful glance at Jo's empty cup, "plans for a private party. I trust?"

"I'm afraid," said Marsh with cutting politeness, "there's no such thing at Crest Lake Inn... Shall I order?"

Tradition insists that when a motion picture company sends a unit on location, the unit must be given a party by the local inhabitants. Part of every popular movie star's education consists of parties given at sea, on mountain tops, in the broad farm lands, and by small towns and big ones.

Marsh was a natural host, and even more important, he had the money to back his inclinations. If the party at Crest Lake was not the most elaborate which Drann and his company had attended, certainly it came near to being the most enjoyable. The host was entertaining the movie crowd because he wanted to—and not because they were movie stars. Perhaps that was why Fragonet and Drann and Montez and the rest enjoyed themselves so thoroughly. The imported dance band, the cocktails, the cabaret entertainers Marsh had ordered down—there were all incidentals. The main point was that Douglas Marsh was proud of Crest Lake Inn and enjoyed having his guests there.

Tradition has it, too, that at such parties the leading man and woman accompany each other; they, in fact, carry on the show for the benefit of the public. Thus Fragonet, to Jo's relief, was pretty well occupied with Lolita Montez—and Lolita was hiding her dislike for the star as admirably as she hid it before the camera. Most amusing of all was Drann's proprietary air toward Tubby. He whirled her away in a dance almost as soon as the music began, and hardly left her side all evening. Whenever they passed near Jo, her roommate would screw up her face defiantly over the stocky director's shoulder.

Barston, the aviator, jockeyed

for Jo's attention all evening, and when at last he was successful he delivered a lecture. "Look here, Jo Darien. Seems to me I never see you any more unless Marsh decides to throw a party."

"I've been around all the time," laughed Jo.

"So have the other guys. The only reason I have even a prayer tonight is because Fragonet has to show off with Montez—because old lady Marsh has tossed this Montgomery wench at Doug again—and maybe because that handsome life guard hasn't shown up."

"I went to school with that handsome life guard," Jo told him lightly.

Barston nodded. "I know. School friendships are hard to break up."

"Sometimes not so hard," said Jo queerly.

She wondered if Bret intended to stay away from the dance. He wasn't particularly excited about

It became apparent to Jo at once that Marsh was using the coming party as an excuse to corner her for a talk about Fragonet. From the moment they took their places at the table he was ill at ease. He talked swiftly and rather incoherently of his plans to hold a dance in honor of Drann and the location company. Then abruptly Marsh's tone changed and he turned to Jo seriously.

"Jo... if you're thinking of leaving with Fragonet day after tomorrow, I—I can't let you."

"I haven't been thinking of leaving with him," Jo said.

"But you have to make a decision. Fragonet won't just let it slide. And the fact that you haven't made up your mind not to go makes me afraid that... perhaps you will."

Jo did not answer and Marsh went on, embarrassed, "I hate like the devil to do a thing like this, Jo. But I want to ask you—do you think as much of Fragonet as you did?"

"Do you mean because of what happened out there yesterday on the lake?" Jo raised her eyes to

## INCOME MILLION YEAR

### for County Released AAA

Cotton income of farmers was much higher in 1933, and in the disastrous year it was almost 60 per cent more than it would have been had there been no adjustment, it is announced by Jackson, county agent. It is based on official cotton figures just released by the Agricultural Administration.

County farmers last year total of \$1,015,036.01, of which only \$277,386.44 through payments which are help bridge the gap and parity price in served as crop in all county farmers in received in this way.

Income figures do the value of unsold certificates of which million dollars' worth by farmers.

## THE TEXAS CREAM QUALITY IMPROVEMENT PROGRAM

On June 1 of last year a State-wide cream quality improvement program was inaugurated by the State Department of Agriculture in conjunction with a nationwide movement, and in cooperation with the Texas A. & M. College, the Agricultural Extension Service and the dairy industry itself. This campaign became necessary because of seizures which were made by the Federal Food and Drug Administration, of several carloads of butter which had been shipped in interstate commerce. The Federal Bureau of Food and Drugs had made spasmodic attempts before this time to control the interstate shipment of butter, but their activities had been directed mainly toward seeing that the butter-fat content of the outter was up to standard and that the butter was properly labeled. These seizures in the spring of last year however, were made because of the amount of foreign material, such as dirt, etc., which this butter contained. This was determined by the laboratory and the butter condemned and dumped in the soap vat. W. G. Campbell, chief of the Federal Food and Drug Administration, has taken the attitude that the dirt which the butter contained was due to the cream which was used in manufacture, as evidenced by the following quotation which was taken from "Notice to the Dairy and Butter Industry," which was sent out by that department: "and that the condition of the butter itself is traceable to the unfit character of the cream used in its manufacture." This means that some means of contacting the cream producers of the country, and instilling in them the necessity for, and the importance of, producing a good clean product, had to be worked out. The problem was presented to different states of the union and there are at the present time 38 states working on some kind of program similar to the one going on in our state. The Texas Department of Agriculture, working in conjunction with the Texas A. & M. College, the Texas Technological College, the Agricultural Extension Service and the Dairy Industry itself, desiring to see the standards of Texas cream and butter raised to a higher plane, so that our butter could be sold on the market without discrimination, undertook the administration of this program and I am glad to say that Texas was among the first of the states to enter into this nationwide campaign.

Rules and regulations for the purchase of cream on a graded basis have been promulgated by the Department of Agriculture, the Texas A. & M. College, the Texas Technological College, the

## CALL MEETINGS FOR STUDY OF CCC WORK

### Dates Are Set in Each Community In Camp Area

Community Agricultural Associations of the various Hall County communities have called meetings in each community as follows:

Brice, 1:30 p. m. Wednesday; Leslie, 3:30 p. m. Wednesday; Lakeview, 8 p. m. Wednesday; Plaska, 2 p. m. Thursday; Eli, 4 p. m. Thursday; Newlin, 10 a. m. Friday; Turkey, 3 p. m. Friday; Memphis, 2 p. m. Saturday; Estelline, 2 p. m. Tuesday; Baylor, 4:30 p. m. Tuesday; Parnell 2 p. m. Wednesday; Weatherly 4 p. m. Wednesday.

George E. Hull, superintendent of the camp, will be assisted by Mr. Nelson, engineer of the camp, and by Mr. Ebersole agronomist of the camp. These men will explain in detail the work the camp may do, and the work the farmer must do, and the expense, if any, incurred, and the general contract which must cover each farm before the work starts.

It is felt this is a program which will be of interest to every farmer and landowner in the camp territory.

producers of the state are drawing a premium of 1 1/4 per pound butter fat closer to the Chicago standard market than they did before the program was started. These facts speak for themselves as to whether our program is fundamentally sound and as to whether or not it is worth while. The program has already proven of enormous benefit to the dairy industry as a whole and one which will contribute largely in the future to the building up and stabilization of that great industry.

This is the first of a series of articles put out by the State Department of Agriculture. The next article of this series will appear in this paper in the near future and will deal with "Ways and Means of Producing Quality Cream."

Marvin Alexander of Lakeview and Wade Davis of Estelline were in county agent's office checking Cotton Compliance papers.

Doyle Hall and family of Plaska and T. D. Weatherly and wife of Weatherly community left for a week or 10 day vacation in Colorado.

There are approximately 67,000 tenement houses, with 2,000,000 tenants, in New York City.

## Morgenthau Won't State Views on 'Soak the Rich' Tax Bill

"It may be that I'm different in many ways from my predecessors. The treasury as long as I am secretary is not going to have any opinions on revenue measures," Henry Morgenthau told the Senate Finance Committee in response to Chairman Pat Harrison's chiding: "You are the first Secretary of the Treasury who hasn't been willing to state his views to the committee." So the effort to obtain Morgenthau's endorsement of the administration version of the "soak the thrifty" tax bill ended in failure at the hearing in Washington, D. C. Nevertheless, everyone was chummy, as this scene proves: left to right, Senator Harrison, Secretary Morgenthau and his counsel, Newton D. Baker.

## WEBSTER

A god rain fell in this community last Friday afternoon. John Alan, James and Bill Martin spent Friday and Saturday in Plainview.

Wirt Wheeler and son, Basil, of Crosbyton, visited relatives here Friday. Myrett Henry has gone to Plainview for a visit with friends. Miss Nell Cochran left for Lubbock Thursday, where she will attend the adult training school. R. J. Robertson and Bob Oliver made a business trip to Wichita Falls Saturday.

Mr. and Mrs. A. B. Henry and daughter, Ollie Vay, spent the past week-end visiting in the R. S. Bradley home near Memphis. Mr. and Mrs. J. H. Wiginton returned to their home in Aberdeen Sunday after visiting relatives here. Mr. and Mrs. M. L. Alexander had as their guests last week Mr. Alexander's sister and family from California. Benjamin Franklin's name must be mentioned in any complete history of American literature, politics, economics, journalism, education, diplomacy, philanthropy, or philosophy. On a fox farm near Elko, Nev., badgers are used to dig holes for the foxes.

Do you know that some of the swiftly moving parts of your car engine are coated with an oil film less than one-thousandth of an inch thick? To protect, that film has got to be tough. Sinclair Opaline and Sinclair Pennsylvania Motor Oils each give a protective lubricating film that will withstand a pressure of more than 3 tons per square inch. This has been proved by tests on special Film-Breaking Machines in Sinclair's East Chicago Testing Laboratories. Look for the Sinclair dinosaur on the Tamper-Proof cans in which Sinclair Opaline and Sinclair Pennsylvania are sold.

**Ace Flyers in Bendix Trophy Race**

Nine and possibly more of the world's greatest speed flyers, one of them a woman, will take off Aug. 30 in the great classic of the National Air Races—the Bendix Trophy, with a \$7500 cash value. Starting at dawn from Los Angeles, they will race to Cleveland, O., where the premier aviation event again will be held, and the leaders may continue to New York, in an effort to break the transcontinental record of 19 hours 2 minutes. First nine to enter are: Howard, 1924 winner; Cecil A. Allen, Earl Ortman, Benny Howard, Jacqueline Cochran, New York sportswoman; Vance Byrnes, Howard Hughes, film producer; Maurice Rossi, French ace; and an "unknown" French pilot.

**SLOAN FLIES TO DENVER**  
C. L. Sloan, local air enthusiast, left yesterday morning in his plane for Denver, where he will transact business for the next two weeks. He "took off" from Memphis at 6:30 a. m. and wired his wife of his safe arrival in Pueblo at 9:49, after spending several minutes in Amarillo.

There are 170,404 gasoline stations in the United States, four out of five of which are operated by individuals.

Texas has the largest number of municipal airports—55.

Transport planes are required to carry 35 per cent more fuel than necessary for normal flight between scheduled stops.

# THIS CURIOUS WORLD

by *WILLIAM FERGUSON*

ALL SPIDERS ARE CARNIVOROUS, AND THEIR CHIEF FOOD IS INSECTS

THEY ARE NOT RELATED AT ALL TO INSECTS, BUT BELONG TO THE SAME GROUP AS THE DADDY-LONG-LEGS AND KING CRAB.

WEB MAKING IS THE SPIDER'S SPECIALTY, AND THE FIRST WEB IS AS PERFECT AS ANY THEY MAKE THEREAFTER.

YOUNG FIELD SPIDERS TRAVEL BY AIR! THEY THROW OUT SILKY THREADS INTO THE BREEZE AND ARE CARRIED GREAT DISTANCES.

AT RIGHT, HOW A WOLF SPIDER LOOKS, ENLARGED. NOTE THE NUMEROUS EYES.

THE **BLACK WIDOW**, A POISONOUS SPECIES, BUT NOT SO DANGEROUS AS REPORTS INDICATE! (CAN BE IDENTIFIED BY RED SPOT ON UNDER SIDE)

THE **TRAP DOOR SPIDER** BUILDS A BURROW, WITH A TRAP DOOR... THROUGH WHICH IT LEADS AT UNSUSPECTING INSECTS.

**Flying Auto Here! Now Watch for Sky Traffic Jams**

"Let's take the old car and go flying for an hour" may become the national evening if the amazing craft pictured above fulfills the promise of its inventor. Tested in Los Angeles, Waldo Waterman's "flying auto" amazed spectators with its efficient performance, and it will be given further tests in Washington. The plane is tailless, has propeller and pusher-type motor at the rear of the cabin, with elevators and rudders on the wing tips. Powered with a 95-horsepower air-cooled engine, the plane attains a top speed of 110 miles an hour. Waterman estimates that it will cost about \$1000.

**Cherokees in Modern Garb Dance in Weird Rites**

Braves in store clothes and squaws in ready-made suits and even pajamas paraded in this time-honored ceremonial of the Cherokees in Oklahoma's famed Cookson hills, in striking contrast to the paint and feather costumes of other days. Marching and "stomp" dancing around the sacred fire which no man can extinguish, they began their rites at midnight and continued for hours, celebrating the birthday of Sequoyah, creator of the Cherokee alphabet. Tribesmen guard with their lives the blaze brought over the "Trail of Tears" from Alabama in 1838.

**Remodeling White House Kitchen**

A home modernization program which has been pushed extensively by the New Dealers has finally reached the White House. Here you see the work on the "white star" portion of the executive mansion in Washington, when completed will provide a completely equipped kitchen and adequate food storage facilities. Meanwhile President Roosevelt's meals are cooked in makeshift kitchen on the third floor.

**Elsie Janis Hurt Named Governor of Virgin Islands**

Seriously hurt when her auto crashed into a parked truck, Elsie Janis, above, one-time stage star whose wartime performances abroad won her the title, "Sweetheart of the A. E. F.," was taken to an Eastview, N. Y. hospital. Gilbert Wilson, her husband, with her at the time of the accident, suffered minor injuries.

President Roosevelt's termination of the Virgin Islands controversy by the transfer of Governor Paul M. Pearson brought promotion for Lawrence W. Cramer (above) of New York. He was named Pearson's successor, having held the position of lieutenant governor, in charge of St. Croix Island.

**IN DARK ALLEYS**

He—You used to say I was the light of your life.  
She—You were, till you started going out nights.

**EASY TO ANSWER**

Principal—Now, Bobby, what do you like best at school?  
Bobby—The going home, sir.

**NO SALES TAX**

She—But papa says you don't earn enough to support two.  
He—What gave him the impression I wanted to support more than one?

**THE JUDGE**

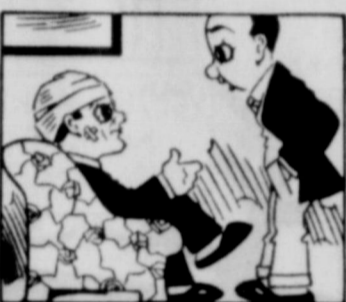

"I suppose you'll soon be plating your vegetable garden."  
"Not me. I can get all the fresh vegetables I want simply by letting my neighbors brag to me about their success."

**GOLD-DIGGING**

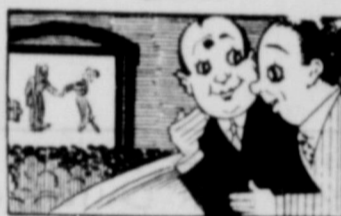

"Why did you marry your divorced wife again; old love come back?"  
"No; by the time I paid her all money I had nothing to live on, and so I married her for her money."

**GANGWAY**

Lawyer—You say you want this damage suit pushed through with the utmost speed?  
Client—Exactly. I have a child six weeks old, and I want the money to pay his college expenses.

**CURTAIN!**

"My wife has a very hard part in his amateur show."  
"What makes it so hard?"  
"It's not a speaking part."

**Alyce McHenry's Sister Rebels**

The social value of an on-again-down stomach was revealed by Jean McHenry, 15, elder sister of Alyce Jane McHenry, whose tonsorial-interior brought national attention. Life for Alyce in New York had been a succession of parties, says Jean, while she spent most of her time alone at their hotel. Here's Jean about to hop into a plane at Newark airport to fly home to Omaha, where she hopes to enjoy herself.

**U. S. War Ace Held in Bank Closing**

Sought by French authorities in connection with the closing of the Travelers' Bank of Paris, H. Coles Neldecker is shown talking with his attorney from police headquarters in New York after his arrest. Neldecker, American World War aviation ace, remained in Paris after the war so found his private banking firm.

**THE HABIT**

Hubby—I'm glad you only want five dollars to go shopping with today. What are you going to get with it?  
Wife—Nothing but luncheon, dear. I'm going to have everything else charged.

**NO CORNERS**

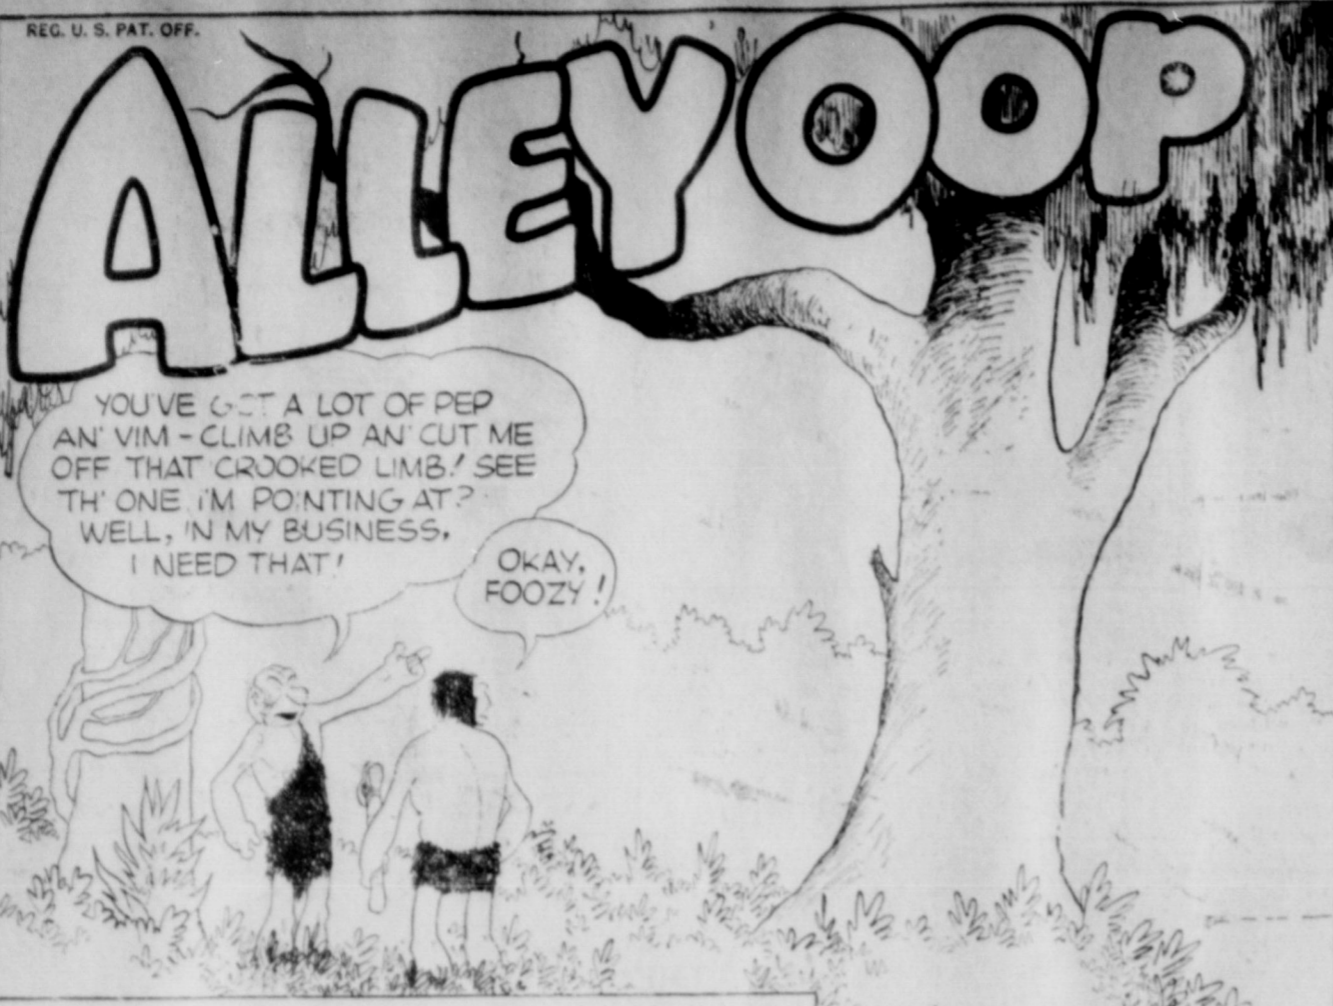

"Why are you broke?"  
"Because things didn't break right."

**Where Cave-in Trapped Well Digger**

With the well hole in which Howard Ironbeck was trapped while digging a well, caved in by successive cave-ins, rescue workers had to move his summer cottage near Mattituck, L. I., to prevent it from tumbling into the pit. The huge steam shovel in the foreground brought rescue near at one time, but another cave-in piled tons of sand on the hapless victim again. He was found dead at the end of a frantic, 40-hour effort to free him.

I WASN'T SCARED, AS I FELL THE 10,000 FEET FROM THE MOUNTAIN! JUST AS I WAS NEARING THE GROUND, I UNCOILED MY MOUNTAIN-CLIMBING ROPE, AND SLID DOWN IT SAFELY TO EARTH!

NOW, I'LL TELL ONE!

I RAISED A WATERMELON THAT WAS SO BIG I DIDN'T HAVE A FARM WAGON BIG ENOUGH TO HOLD IT - SO 75 FARMERS HELPED ME ROLL IT ONTO A RAFT, THEN I CUT A HUNK OUT, UNDER THE MELON, AND FLOATED IT INTO MARKET ON ITS OWN WATER!

GOSH, I HOPE I CATCH A BIG FISH!

EGAD, ALVIN, I'LL TELL YOU OF A BIG FISH I ONCE CAUGHT, USING A BOAT FOR BAIT! - FANCY THAT!

I WAS FISHING OFF THE MAINLAND OF ZOOMONIKA, THE GREATEST FISHING WATERS OF THE GLOBE!

THE SUDDEN, ALARMING CRY OF THE VARIOUS MARINE BIRDS CAUSED ME TO TURN AND BEHOLD THE DREADED TUNNEL-MOUTH OZOK, SWIMMING TOWARDS ME AT GREAT SPEED!

GWOIK!

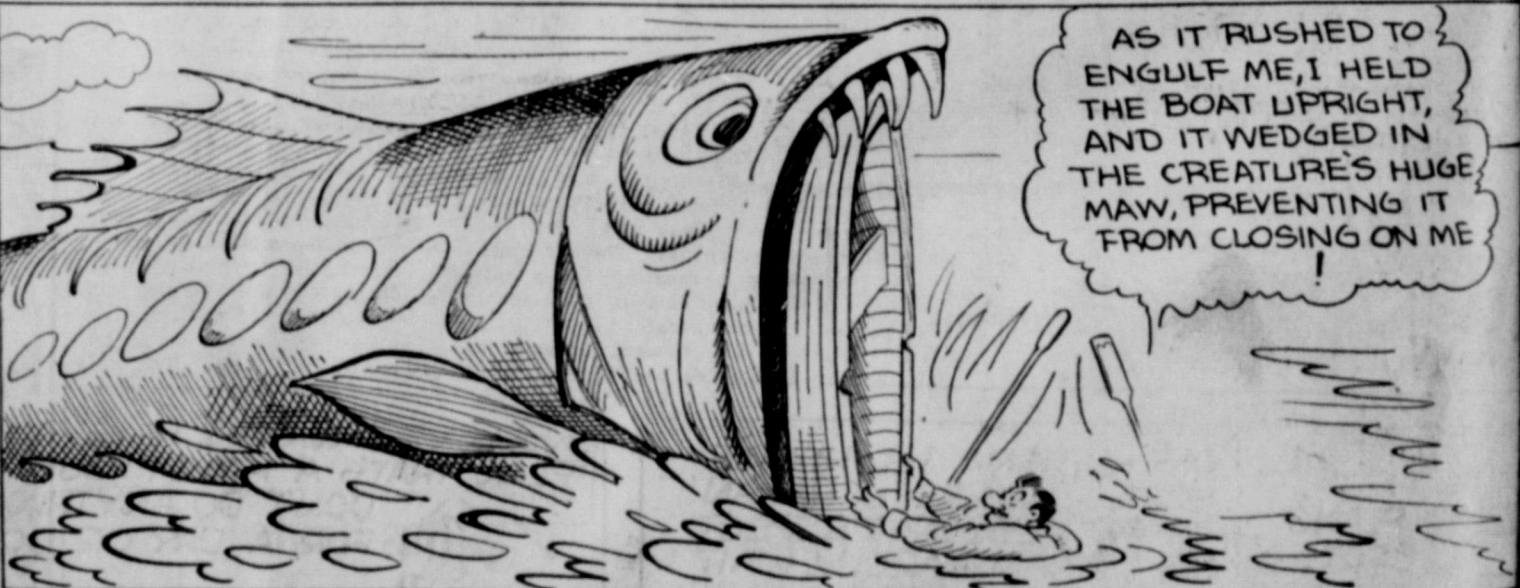

GEEP  
GEEP

WITH NO TIME TO LOSE, I SLID OVER THE STERN OF MY BOAT AND AIMED THE BOW AT THE ONRUSHING TERROR OF THE DEEP!

I WAITED UNTIL TWO SECONDS BEFORE THE GIANT TUNNEL-MOUTH OZOK REACHED ME, THEN RESTED MY WEIGHT ON THE STERN OF MY BOAT AND RAISED THE BOW IN MID-AIR

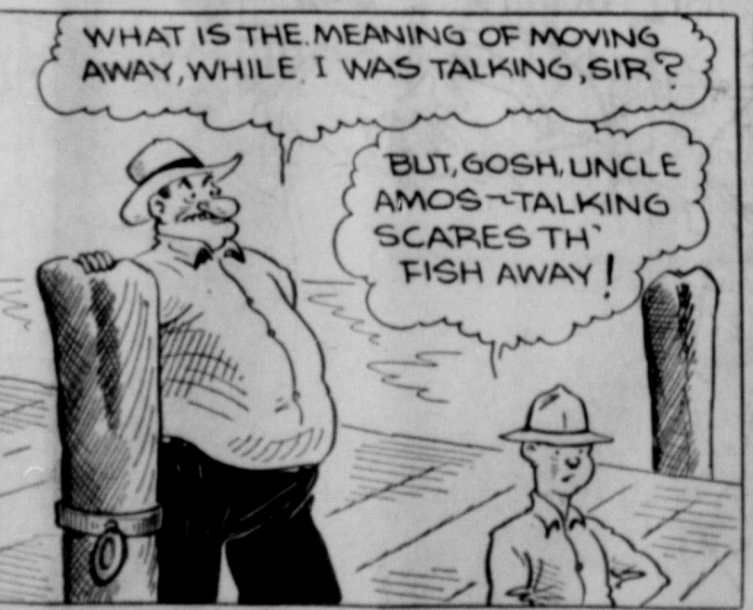

AS IT RUSHED TO ENGULF ME, I HELD THE BOAT UPRIGHT, AND IT WEDGED IN THE CREATURE'S HUGE MAW, PREVENTING IT FROM CLOSING ON ME!

THE MONSTER EXPIRED IN FIVE HOURS, AND I -

EGAD, WHERE DID THE LAD GO?

WHAT IS THE MEANING OF MOVING AWAY, WHILE I WAS TALKING, SIR?

BUT, GOSH, UNCLE AMOS - TALKING SCARES TH' FISH AWAY!

-AND, ANOTHER THING - YOU CAN THANK ME FOR YOUR CATCHING THAT FISH - YES - YOU SAID MY TALKING SCARED THE FISH AWAY - SO, IF I'D REMAINED QUIET, IT WOULD HAVE GONE FOR MY HOOK! THINK THAT OVER, MR SMARTY!
