WE ARE PLEASED at the response to Rel Cross war relief. The fueber called the devil up campaign, although this response did come a little late—so. On the telephone one day. late, in fact, that Hall County was the last county in the state to start its drive.

We are also pleased with the type of contributions being made. Especially are we pleased with the work done in the residential section by women workers. These women have made a house-to-house canvass, and have had good results. From the size of many of the donations, it would seem that those people called upon have contributed just whatever money they had at the time they were solicited. That is indeed gratify-

Also gratifying is the response of the schools of the county If there's a thing that I can do in the drive. Part of these funds come from the teachers, and part from the pupils.

All of this clearly shows that most everyone is willing to do his part in helping the Red Cross, although that part may be small. We personally know of some people who contributed My Heinkels drupped bombs on \$1 or more when they truly could not afford it. This war means sacrifice, and it is good to know that some people are willing to And those the Heinkels couldn't

There are still many people who have not contributed. These people are probably the ones who have not been contacted. go out of your way a little and make your contribution without being asked. The Red Cross needs your money, even though you may not have been asked for it.

The county's quota was originally set at \$2,300, but that? quota will not be enough. An additional 15 million dollars is being sought by the Red Cross now, and it is hoped that oversubscriptions will take care of the addition. In other words, if you have not paid anything yet, do so today. And if you have already paid and can afford to give a little more, do that too. Your money will go for a good cause.

We are still far from what we should give. Let's not fall behind again-we've done that too often now. Too many black marks against a county can do it no good, but praise to a county can mean a lot. Let's be praised-not blacked out.

For this reason we are glad to learn that the Rotary Club is For the Yanks will make it hotter going to put to use the huge amphitheatre at the Memphis City Park-and that use is to be a good one.

The club is to sponsor an Easter service on Easter morning. And the minute that I get you it has been announced, the first such service ever to be held in Memphis or even in this area.

You can go to church on Easter Sunday and you can enjoy. a special service there, but nothing is much more impressive And I'll have your room all ready than an Easter service held early in the morrning at some strategic, open-air spot.

It is indeed fitting that this year is the first when Memphis can have such a program on Easter. If there was ever a time in history when Christ should be re-born in the hearts of people, that time is now. And an Easter service should do a great deal to help people realize that Christ, despite war and gloom and sacwifice and trouble, is still present.
