BEER PETITION IS WITHDRAWN FROM COURT

No Action Will Be Taken By Court In Calling Election

The petition signed by 255 qualified Hall County voters requesting the Commissioners Court to call an election to determine whether the sale of beer would be legalized in the county, has been withdrawn from the court according to M. O. Goodpasture, county judge.

The petition was placed before the court two weeks ago, and in accordance with the law governing such election, the court tentatively called an election for September 10. The law provides that when a petition of this nature, bearing signatures of ten per cent of the legal voters in the governor's election in the last preceding general election, is presented to the court, an election filling the demands of the petitioners must be called within twenty days after the filing of the petition.

Judge Goodpasture stated that in view of the fact that the election had only been called tentatively due to the uncertainty of securing ballot boxes following the second Democratic primary, the court would take no further action in the matter. It is possible that the petition will be presented to the court again at an early date, but until it is, according to the judge, no action will be taken to call the election.

It is understood that acting on advice of counsel the petitioners are securing additional signers to a petition, and have set as their goal one-half the legal voters of Hall County.

MORE BOYS ARE NEEDED TO TAKE UP COURSE HERE

Plan Is Outlined By Cowan; New Department Head

Plans for the Distributive Occupations course to be offered in the Memphis High School this fall are rapidly taking form, according to Sam Cowan, instructor in this new department. Mr. Cowan states that more boys are needed to take the course and that opportunities are open for occupational study in dry goods, groceries, dry cleaners, auto top and body repairs, lumber and building, printing and banking. Under the terms of the course of study offered by the school this year, students entering the Distributive Occupations department have a chance to learn a trade or occupation with a small salary while they learn.

Mr. Cowan states that he will be located at the high school building each day at 11 a. m. and will receive occupation students at that time. It is the desire of local school officials to start the Related Subjects class, the classroom work of the occupations course, with the other classes when school opens September 5. Students who enroll in this new department will attend the Related Subject class from 8:30 a. m. to 10 a. m. each school day and from 10 to 12 schedules will be arranged to accommodate other studies in the high school departments, according to Mr. Cowan. The student will be dismissed at noon from class-room work to spend the rest of the day in his occupational study, by actually working in the business of his choice.

According to Mr. Cowan, students in the new department are asked not to contact business men. (Continued on page 10)

Plans For County Dairy Show Nearing Completion

Plans have been completed for the program of the Hall County Dairy Show to be held here September 7-8, according to announcement made this week by the officials of the Hall County Dairy Association, sponsor of the event.

The program for the two-day meet is scheduled to start at 2 p. m. September 7 with a talk on milk production by E. R. Eudaley, dairy husbandman, of A. & M. College, who will be in Memphis for the show and assist in the judging of the cattle. Following Mr. Eudaley's address, G. G. Gibson, assistant dairy husbandman at the college, will speak on the production of clean milk. Following these two addresses Mr. Eudaley, Mr. Gibson, and R. E. L. Pattillo, Hall county agent, will conduct a round-table discussion on the score card for judging of dairy cattle in all classes.

During this discussion, according to Mr. Pattillo, farmers attending the show and entering cattle for competition will be given the score card and asked to judge the entrants. By this method, states Mr. Pattillo, Hall County cattlemen will learn the various points of good dairy cattle and will be training themselves for buying and breeding of better cattle in the future. This is one of the purposes of the show, according to Mr. Pattillo, who is convinced that better dairy cattle is one of the farmer's best sources of income under diversified farming.

During the morning of the second day of the event, Mr. Eudaley, assisted by Mr. Gibson, will judge the cattle entered in the show for prizes that will be awarded to the owners. Cows in all classes, both graded and registered, will be open to competition, but only registered bulls will be allowed in competition for prizes.

During the Thursday afternoon session, an open forum will be held and all farmers and cattlemen are invited to enter into discussions concerning feeding and care of dairy cattle. This forum will be conducted by the visiting husbandmen from the college.

According to Mr. Pattillo, no meeting place or show pens have been secured for the dairy show to date, however, he will announce these arrangements as soon as they are completed.

The Hall County Dairy Association, which was organized early in August, is headed by Dr. L. M. Hicks as president; Charles Williams, vice president; and Andrew Womack as secretary. Interested dairy cattlemen in Hall County who have contributed to the organization of the association and in preparing for the dairy exhibit include: Dot Webster, Andrew Womack, W. A. Caldwell, Riley W. Carlton, R. E. L. Pattillo, T. K. Webster, Dr. L. M. Hicks, J. R. Mitchell, and Charles Williams.

New Side Walks Are Built at City Hall

Workmen were busy Wednesday patching the concrete sidewalks around the Memphis City Hall, replacing broken sections.

New entrance walks were built at both the south and west doors and a new section was built from the west entrance north to the end of the lot.

TRIPLE APPLICATIONS DELAYED DUE TO LACK OF INFORMATION

Due to lack of proper information concerning planting and harvesting of the 1937 cotton crop, over one-half of the applications for subsidy checks for Hall County farmers have been delayed, according to R. E. L. Pattillo, county agent. The subsidy check, according to Mr. Pattillo, is issued on the planted acres rather than on the harvested acres and in making their applications this year, many Hall County farmers turned in their harvested acres as the basis for payment.

Mr. Pattillo pointed out that in some cases a great difference would be made between the planted and harvested acres, due to grasshoppers, washed land and other causes, thus reducing the amount that the farmer would be entitled to in his price payment.

According to Mr. Pattillo 639 applications from Hall County farmers have been found correct and have been sent to the AAA offices at College Station where they are on file. Questionnaires were mailed Tuesday of this week to the balance of Hall County's approximately 1,500 farmers entitled to subsidy checks in an effort to secure the proper information.

PROMINENT ESTELLINE DOCTOR DIES SUDDENLY LAST THURSDAY

Funeral Services Are Held Last Friday Afternoon at Estelline Methodist Church For Long-Time Resident of Hall County

Open Forum Held All Day Saturday At Court House

Courthouse square was a popular place Saturday with eight speakers laying their claims before the people of Memphis and Hall County during the day. The heavy-speaking day was opened at 10 o'clock with an address on crime by an ex-convict from the state penitentiary followed by an evangelist who had been converted from infidelity.

The afternoon program included two candidates for office appealing to the voters for support in the second Democratic primary next Saturday and two representatives of candidates making races in the second primary.

During the evening, two representatives of a state candidate spoke here presenting claims to the voters subject to their actions at the second primary.

First Bale of 1938 Cotton Is Ginned In County On Tuesday

Hulver Farmer Gathers First of this Year's Crop; Memphians Give Premium

The first bale of the 1938 cotton crop in Hall County was harvested and ginned Tuesday by Bud Lutts of the Hulver community at the Hulver gin. After the first bale was ginned, it was brought to Memphis where the business men and merchants donated a premium of \$20 through the Memphis Chamber of Commerce. The cotton was grown on the J. L. Darby farm.

The cotton was of short staple variety and the bale weighed 525 pounds. The cotton was not sold because of government restrictions.

The 1938 first bale was received on August 16 as was the first bale of 1937 records reveal. The 1937 bale however ended in a tie with M. M. Shirley of Plaska and M. M. Monzingo bringing in first bales at the same time. The 1938 bale, however, outweighed those of the 1937 vintage, by nearly 100 pounds. The Shirley bale weighed 430 pounds and the Monzingo bale weighed 447 pounds last year while the 1938 bale tipped the scales at 525.

Ginners all over Hall County and busy getting their gin plants in order for the 1938 crop. Operators are of the opinion that the crop this year has not been seriously damaged by the drought and that fair returns may be expected.

Deadline Set for Wheat Protection

Hall County farmers who are planning to insure their 1939 wheat crops under the government's all-risk insurance plan must do so on or before August 31, since all applications must be received by that date, according to information received here by the county agent's office.

Because seeding (especially in localities which use wheat partly for winter pasture) will start soon and the policies of this new insurance become effective as soon as the seed is in the ground, this limit seemed necessary to give the service office in Kansas City time to send out premium notices and care for other clerical work before the policies actually go into effect.

D. A. Neeley, the Crop Insurance Supervisor for Hall County, states that he will be in the office of the county agent until midnight, August 31, to receive the applications of Hall County farmers desiring to insure their wheat to be harvested in 1939 under the new government insurance plan.

According to Mr. Neeley, about 75,000 applications have been received by the Crop Insurance Commission in the Winter Wheat states and that the first policy was issued on July 15 of this year.

Roy Coleman Named As Local Trustee

Roy L. Coleman has been appointed by the Memphis school board to fill out the unexpired term of R. C. Parks who resigned during the early part of the summer. This action, according to Harry Delaney, secretary of the board, was taken at the meeting of the school board August 17 and was accepted at a meeting held Monday night.

According to Mr. Delaney, no action was taken toward filling the vacancy made by the resignation of H. J. Gore as principal of the Memphis high school.

Light voting in Saturday's second Democratic primary is expected by James E. King, county chairman for the Democratic party, who is busy this week-end distributing ballots, boxes and other supplies to the 16 voting places in Hall County for the election.

Mr. King is of the opinion that the maximum vote for the county during this second primary election will be about 2,500 as compared to the approximately 3,000 votes polled at the July primary. He gives as his reason for the expected decrease in the vote, the lack of many local races, most of which were decided at the first primary, and due to the fact that in the second primary there is no governor's race to stimulate interest.

The election judges named for the first primary in July will serve in the same capacity during the second election, according to Mr. King, with one exception. J. M. Willmon has been named as presiding judge at the Oxbow voting box in the absence of the judge originally appointed to fill that post.

The second primary ticket is short, with only 22 candidates running for eleven offices. The six state offices include: For Lieutenant Governor: Pierce Brooks of Dallas County; Coke R. Stevenson of Kimble County; For Commissioner of General Land Office: Bascom Giles of Travis County; William H. McDonald of Eastland County; For Attorney General: Walter Woodul of Harris County; Gerald C. Mann of Dallas County; For Railroad Commissioner: G. A. Jerry Sadler of Gregg County; C. V. Terrell of Wise County; For Associate Justice of Supreme Court: W. H. Davison of Jefferson County; Richard Critz of Williamson County; For Judge of the Court of Criminal Appeals: Harry N. Graves of Williamson County and James Stephens of Knox County.

Only one race remains on the ballot for district office. In the race for Representative to the State Legislature from the 121st District, the ticket bears the names of Bob Alexander of Childers County and R. A. Harp of Motley County.

In county races, two remain on the ballot for consideration before the electorate in Saturday's election: For County Clerk, Bailey Gilmore and Murray Dial; For County Superintendent: Vera Tops Gilreath and Byron F. Tord.

In precinct races two remain for balloting Saturday including: For Commissioner of Precinct No. 2: T. L. (Tracy) Davis and A. R. McMaster; For Justice of the Peace, Precinct No. 1: L. G. Perkins, and J. A. (Joe) Merrick.

Plans for Chamber of Commerce Here Are Announced by Officials This week

Plans are being made for the fall and winter months by the Memphis chamber of commerce, according to Carroll Smyers, secretary-manager, who was conferring with James E. King, president of the organization, Tuesday morning in regard to the activities scheduled for the coming months.

Mr. Smyers, who has been on a vacation trip to Washington and the north Atlantic states returned the latter part of last week to resume the duties of his post here as secretary-manager of the chamber.

Although preparations are in early stages, a celebration is being planned for Memphis on Armistice Day, November 11. Mr. Smyers offered no definite information concerning this celebration, but he feels assured that the day would be properly and fittingly observed in this city.

An exhibit of Hall County's agricultural and live-stock products will be featured at the Tri-State Fair, which will be held in Amarillo September 19-24.

According to James E. King, C. of C. president, active work will be resumed in securing an all-weather road as soon as possible. The chamber is lending its facilities and efforts to the newly organized Hall County Water and Soil Conservation Committee and will give all the assistance possible in the county's participation in the West Texas Chamber of Com-

merce contest for water and soil conservation.

The organization is looking forward to the Annual Northwest Methodist Conference which will be held in Memphis in November, and the facilities of the organization will be placed at the disposal of the visitors and delegates at the meeting.

For some time the local chamber of commerce has been advocating the purchase of the Broome park site located at the south end of 6th street and, according to Mr. Smyers, the issue will be reopened this fall in an effort to secure this addition to the city's property.

The chamber has been in cooperation with the surveyors located here by the United States Army for the survey of the Upper Red River Conservation and Irrigation Dam project in assisting them in finding lodging places during their stay in this vicinity. It is the intention of the chamber to lend its assistance in every way possible to this project and to cooperate with the authority board.

During the next few weeks 1,000 copies of a new strip-map indicating the Colorado-Texas Coast route through Memphis will be distributed to filling stations in this locality for use of tourists and the traveling public to encourage the use of this route. The new maps, which were delivered to the chamber office here the forepart of this week, are just off the press.

The next number was a play, "Color Fairies," given by a group of children, dressed in rainbow colors. The queen was Marjorie Wilson, train-bearers were Elizabeth Wilson, Kay Robinson, little girl, Betty Sue Gibbs; color fairies, Mary Joe Watson, Jan Allen, Ann Norman, Gladys Bownds, Billy Claire Mason, Charlene Crow. The black and white escorts were Fletcher and Jimmy Bownds, Raymond Cullin, Don Simmons, Robert Clark and Barbara Wilson. These were the pupils of Mrs. T. M. Harrison and showed the result of the careful training of talented children.

The next number was a rainbow chorus with all present taking part led by Mrs. J. Wm. Mason, Mrs. D. L. C. Kinard, and Mrs. W. Wilson. Mrs. Mason then told of the myth's legend and the poetry which clustered around the rainbow, and ending with the story of the significance to Christian of hope and divine protection. The climax of the program was reached with Miss Mary Ellen Hamilton, standing on a platform which put her above the shrubs and under the rainbow as she sang "I'm Forever Blowing Bubbles." She wore a blue evening gown and carried an immense armful of many colored balloons. As she sang she released the balloons, one by one, and they gently floated in the air among the shrubs and flowers, making a scene of color and loveliness. She was accompanied by Rayburn Jones on the accordion and Miss Lowena Moore on the violin.

The meeting was returned to Mrs. Wilson, who presided during a brief business session, after which refreshments were served. The plate contained cake and ice cream, both in the various colors of the rainbow.

County Women Are Carrying on a Live At Home Program

Surplus Food Stuffs Are Being Canned and Other Provisions Made Here

Hall County farm women are carrying on a live-at-home program as never before. All surplus foods are being canned, stored, and dried for future use.

In the face of drought, floods, grasshoppers and other adverse conditions these families, refusing to be discouraged, are determined to produce food for their winter supply.

Much interest is being shown in the small frame gardens which produce the year round. Construction of the garden is very simple and instructions for making can be obtained from Miss Lois Waggoner, home management supervisor, Farm Security Administration.

In these sections fall gardens are much more successful than those planted in the spring. Now is the time to get ready to plant.

In preparing the soil for the fall garden, it should be plowed shallow to a depth of 4 or 5 inches.

In most barn lots during the summer there is a layer several inches thick of trampled manure that has dried out, losing the acid that burns plants.

After the soil has been prepared in this manner it is ready for the seed to be planted. In purchasing seed for this planting it is advisable to secure one-fourth more seed for this planting than for the spring garden.

The germination of seed at this season is poor. Seed with a hard seed coat, such as spinach, should be soaked in warm water over night before planting.

The Voice of the People

Editor's Note—This space is open to all readers of The Democrat for the purpose of expressing their opinions on any and all subjects. All signed letters will be reprinted here upon request, so long as they carry clean, unobjectionable material. The following should be considered as the opinion of the writer, in no manner reflecting on the editorial policies of this newspaper.

The Democrat is in receipt of a letter from G. D. Hall of the Lakeview community who writes from his old home at Murphy, N. C., where is vacationing and visiting with relatives. Mr. Hall graphically describes the beauty of the mountains and rivers in his native state and tells of the pleasures he is experiencing among scenes of the halcyon days of his youth.

In telling of his journey to North Carolina, Mr. Hall states that the first day of the trip was spent in crossing Oklahoma where crops were spoiled, some good and some bad. In Tennessee, the second day of his trip to the east, he reports that the country had received too much rainfall and in some portions much of the best land had been drowned out. In Kentucky Mr. Hall reports seeing the best crops that he has seen during his vacation trip. It is in Kentucky, Mr. Hall writes, that burley tobacco, growing six feet tall, can be seen. This portion of the state is characterized by fine homes and prosperity, writes Mr. Hall.

While visiting in Kentucky Mr. Hall was privileged to view the wonders of the Mammoth Cave. He describes its beauties in his letter and tells of the mist that hovers about the entrance caused by the cold air that comes from the cave mixing with the hot surface air. Mr. Hall also visited the famed Floyd Collins cave where its discoverer was entombed alive for many days, and saw the steel casket containing Collins' body resting in the cave that caused his death. In his interesting letter Mr. Hall also describes the famous lost river of Kentucky and the beauties of the natural bridge.

In honor of his visit to Kentucky, friends of Mr. Hall entertained him with a fox chase, which he describes interestingly in his letter. He describes the deep-throated baying of the hounds resounding through the damp Kentucky night as music he enjoys very much.

On his return to Tennessee Mr. Hall visited with his only sister and enjoyed a family dinner with a brother who lives in Georgia. In his letter it was Mr. Hall's closing wish that Hall County would receive a good rain in time to benefit crops in this vicinity.

### Slight Change Made In Plans for Music

The schedule for the instrumental music department has been changed, according to announcement made by Superintendent W. C. Davis, and Bandmaster G. W. Johnson, who are making arrangements for the music department in the Memphis public schools this week. The beginners band, which is to include students from the 5th grade through the high school, will meet each morning at 8:15 in the band building. This band should attract many of the students who were in the Saxette class last year as well as those students who have decided to join the band since school was out last year. The high school students who join this group will

also have an opportunity to study instruments in small groups. The High School Band will meet the first period in the day. This band will be composed of players who were in the band last year and the new students from the beginners band who are now ready to join the advanced band. These students will also be allowed to take work in the afternoon instrumental classes.

The students will be expected to buy their own instrument books for the beginner band and the instrumental classes. The only other expense to the student will be arranging for an instrument. Those who do not have instruments and wish to rent or purchase one may see Mr. Johnson.

A violin, viola and cello class will be taught every afternoon at 4 o'clock, according to the announcement. This class will be opened to all students above the 5th grade and the cost of the lessons will be about 10c. Students who already have their own violins see Mr. Johnson about correct strings and other equipment so that little time will be lost after school starts. There will be no limit to the size of the class.

Jack Hamilton has returned to his home in Fort Worth after a visit here with J. C. McClure Jr.

### Advertising Man Resigns Position With Democrat

**Earnest E. Hayley Goes to Throckmorton as Editor And Publisher of Tribune**

Earnest E. Hayley, for the past 18 months advertising manager of The Democrat, tendered his resignation, effective Saturday, to become editor and publisher of the Throckmorton Tribune. Mr. Hayley closed a deal last week with George T. Spears of Graham, whereby he leased the Tribune and will take charge of the plant next Monday.

Mr. Hayley came to Memphis March 1, 1937, as advertising manager of The Democrat, from Hereford where he had been editor of The Hereford Brand. A native of Seymour, Mr. Hayley began his career on The Baylor County Banner. He has had a wide experience in the printing and publishing business, having worked in many newspaper plants and job printing establishments in Texas and in other states. Aside from his experience at Seymour and Hereford, he has worked in Los Angeles, and was editor of The Spur Times.

Mr. Hayley is noted in this section of the state for his work in the advertising field, and for his ability as a columnist.

He and Mrs. Hayley will leave Memphis this week-end for Throckmorton.

### District Judge Is Speaker for Mann

Judge Alton B. Chapman of Spur, judge of the 110th judicial district, spoke in Memphis Saturday afternoon in behalf of the candidacy of Gerald C. Mann, of Dallas, for Attorney General of Texas. Judge Chapman, who is a brother of W. C. Chapman of this city, was introduced to the crowd assembled on the Hall County courthouse lawn by Carroll Smyers, secretary of the Memphis Chamber of Commerce.

Youthful in appearance, Judge Chapman was a pleasing speaker and presented the claims of Gerald Mann forcefully to his audience. He spoke of Mr. Mann's excellent background in legal experience and training and of the public service that Mr. Mann has rendered the state in both official and unofficial capacities.

### Miss Schmale to be Speaker Here Again

### CARE IN DRIVING URGED BY STATE HIWAY OFFICERS

**Twenty-five Percent Of Motorists Halted Carry No License**

The exercise of care in driving on the highways in this vicinity was urged Tuesday morning by Patrolmen G. C. Pearce and Ralph W. Robertson of Childress on their regular visit to Memphis. In view of the fact that several serious accidents have occurred in this vicinity resulting in the death of several persons, caution is urged by these representatives of the highway department.

According to Mr. Pearce, the highway patrol has been devoted to safety work since truck regulation has been placed in the hands of the State Bureau of License and Weights and that the patrol is not responsible for trucks with the exception of truck-driving and conduct on the highways. As a result of this change, Mr. Pearce points out, accidents on highways have been reduced since the patrol has had more time to devote to safety measures.

Mr. Pearce urged that all drivers of both private and commercial vehicles carry their license with them, since failure to have license while operating a car or truck carries with it a fine of \$1 to \$200. He states that about twenty-five per cent of the drivers stopped by highway patrolmen do not have their license with them. "I left my license at home" is the excuse most used by motorists, states Mr. Pearce and in cases where this is proven to be a fact charges are seldom pressed, but such forgetfulness as this often results in inconvenience both for the driver and for the patrolman.

While in Memphis Tuesday Patrolman Pearce and Robertson issued 8 operators licenses, 3 duplicates to replace lost licenses and 4 chauffeurs licenses.

Z. A. Moore made a business trip to Pampa Tuesday.

Mr. and Mrs. B. L. Pittman and daughter Sara Ann of Amarillo arrived in Memphis Tuesday of last week and visited with her parents, Mr. and Mrs. J. L. Kerbow and family, until Thursday of this week. They have been in Los Angeles for several months where he studied diesel mechanic work in a school there.

### Visiting Preacher Fills Pulpit Here

The Rev. Alfred R. Freeman, pastor of the Crown Heights Methodist Church of Oklahoma City, preached at the morning hour at the First Methodist Church here Sunday.

The Rev. Mr. Freeman gave a review of the Edinburgh-Oxford conference to which he was a delegate last year.

He pointed out that it was in the conference that an effort was made to find the fundamentals on which the 119 protestant churches were in agreement on, and termed this meeting as one of the most important protestant gatherings in many centuries.

Rev. and Mrs. Freeman are visiting Mrs. Freeman's parents, Dr. and Mrs. Marion McNeely, here.

#### DENTIST VISITS HERE

Dr. and Mrs. H. T. Gregory of Claude spent Friday in Memphis as the guests of Mr. and Mrs. Wayne McMurry. They were here to make arrangements to move to Memphis September 1. Dr. Gregory will be the dentist at the Odum & Goodall hospital.

## A CHEESE FACTORY NEXT

**TEXAS IS SIXTH** among the states in production of cheese; ten years ago it was thirtieth, and there is room for more development of this industry, says The Texas Weekly.

Ten years ago Texas produced less than one million pounds of all kinds of cheese during the period of twelve months, The Weekly says, and last year the State produced 15,360,000 pounds of whole milk American cheese cheddar and nearly 17,000,000 pounds of all kinds of cheese. During each of the last ten years Texas has produced more cheese than it produced the preceding year.

Cheese is having a part in the readjustment currently taking place in Texas agriculture. For the growth of the dairy industry in general is significant indication of these readjustments, and the production of cheese is a very important division of the dairy industry, according to The Weekly. Today, the sale of milk to cheese plants is the principal source of income of many Texas farmers who ten years ago did not milk a single cow, and the income the farmers get from selling their milk to cheese plants is a year-round income.

The Bureau of Business Research of Texas University says there are 85 cheese plants in Texas, and these are not widely distributed as are butter and ice cream plants.

Continuing, The Weekly asserts that Texas will be wise to give its most immediate attention to industries for which it is peculiarly fitted. The manufacture of cheese and of other dairy products is one of these. With this in mind, progress of the cheese industry seems certain to continue, for if Texans eat as much cheese per capita as the people of the entire country eat, they are consuming annually about 10,000,000 pounds of cheese from other states.

People of Hall County have been interested to some extent in securing a cheese factory, but not to the extent of doing much about it. A concerted effort should be made, and the result might be a happy solution to some of the depressed agricultural ills.

## FORWARD MEMPHIS!

**TODAY MEMPHIS IS ENJOYING** a building boom.

More construction is under way in this community than has been in many months with the erection of a new power plant for the local utilities company, the completion of the new school stadium, repair on the high school and west ward school buildings, the preliminary survey of the Red River dam and flood control project, and the construction of a new school gymnasium that will begin in the near future. All of these forward movements in the community are bringing money to Memphis and during the building period the attendant flow of cash into the coffers of Memphis business and trades people will serve as a stimulant to the commerce in this community.

Memphis is, and rightly should be, proud of these various projects that are under way and will be underway in the next few months. Behind each one of the forward steps in the advancement of this community, are the efforts of far-sighted and civic-conscious leaders, who have spent freely of both their time and means, that Memphis might move forward and take its place in the front ranks of the cities of the West.

This community, standing as a pattern for other communities to follow its design of advancement, should pay tribute to its leaders who have given unselfishly to Memphis' progress and through whose efforts this city and community are receiving the acclaim of all of West Texas.

Politics for this year will soon be over, most of the summer celebrations commemorating something or other have practically all been held, so there's not much to look forward to but cotton picking and Christmas.

Governor-elect O'Daniel has proposed to conduct a series of radio talks during his administration to keep Texans informed of the progress of affairs at the capitol. ## CLAUDE'S Comments

J. C. W.

The Donley County old settlers held their annual picnic at Tate's Grove, east of Hedley, last Friday. W. I. Rains, who has succeeded himself as president of the association for the past several years, made it his duty to see that everyone had a good time. When re-elected for another year, he accepted with the remark that "I was afraid you were not going to re-elect me, but since you have I promise to do as I have in the past—my best."

Homer Mukey of Clarendon presided as master of ceremonies, and a number of short talks were made. No one was allowed to take up too much time. The Clarendon band furnished part of the music for the occasion, while other musical organizations, such as accordianists, fiddlers, singers, string bands, and the like, interspersed the program with lively music.

An old-fashioned basket dinner was spread and all present were invited to partake, as there was plenty for everybody. The Mrs. and yours truly were guests of Mr. and Mrs. E. H. Watt and family and Mr. and Mrs. W. I. Rains, and we tried to do justice to the fine repast.

Earnest E. Hayley, who has been with The Democrat as advertising manager for the past 18 months, leaves the last of this week for Throckmorton to take charge of the Throckmorton Tribune as publisher. Earnest is one of the best advertising layout men in this section of the country, and The Democrat has won much favorable comment because of the neatness and attractiveness of the advertising appearing in its columns week after week. As a columnist, Earnest's writings have probably been quoted by more papers of Texas than any other writer.

The advertising will be handled by Donald W. May, and the cooperation of the advertisers and the general public is solicited in maintaining the paper's present excellent standing.

Last week The Democrat made an appeal to the people of Memphis to report if they had extra furnished apartments or bedrooms for rent, as there was an unprecedented demand for same due to the many families of damsite surveyors wanting homes here during the time the survey is being made. The response to the appeal has been gratifying. Most of the people wanting apartments have found places. There are a few who are still looking.

The establishment of the Red River damsite survey headquarters in Memphis means that more than a dozen families and a number of single men have been added to the citizenship, for a time at least, and Memphians should extend the glad hand to them on every possible occasion.

The time of year is at hand when individuals and organizations begin activities of all kinds, including entertainments and such like where printed programs and advertising are used. It is usually expected of The Democrat that such affairs are given write-ups in its columns free of charge, and sometimes The Democrat printing department gets to do the printing and sometimes not.

As a matter of fair play, the place where free publicity is given should be the place where paid printing is ordered.

A newspaper is always glad to publish all the news, but in order to publish any news at all it must have a certain amount of paid advertising and printing to be able to pay the workers' salaries and other expenses of operation. Without remuneration a newspaper can exist only so long as its publishers' private funds last, and that would be about one issue.

Fathers and sons of this area are invited to attend a Boy Scout jamboree at Cyclone Stadium Friday evening, September 2, at 6 o'clock, where demonstrations of scouting will be made by a Childress Scout troop under the direction of Scoutmaster G. O. Spears of Childress.

Hundreds of boys of Hall County want to be Scouts, but cannot because no men will volunteer to be leaders. Without leadership Scouting cannot carry on. Give the movement leadership and there will be plenty of boys to take up the good work.

## Court Holds Hearing On Budget Thursday

The Hall County commissioner court met this Thursday afternoon at 2 o'clock for a public hearing on the annual budget for county finances, according to Judge M. O. Goodpasture, county judge. This meeting of the court is held annually, and is open to the public.

At this meeting the people of the county are invited to be present and to study the county financial situation with the court. In the event that the court is in error in their budget calculations, the public has an opportunity to point out such errors that they may be corrected before the budget is finally approved.

Dear friends:

The Pioneer Edition of the Democrat came to my desk this week, and I am most happy to tell you that it is one of the finest special editions I have seen printed anywhere regardless of size or locality of the printing plant. I was especially proud to display it with the leading typographers and officials of the Office who commented on the splendid make-up and typography. The advertisements were certainly an excellent example of what can be done in modern typesetting in small plants. Your layout men and composing room force are certainly to be commended for the splendid results.

I certainly trust that you have an extra copy which you will send to my father, H. C. Stephens, 3200 San Marino Street, Los Angeles, California, who as you know is a son of Henry Stephens, one of the first sheriffs of Hall County, whose picture appeared in this special edition.

With best wishes for your continued success, I am  
 Sincerely yours,  
 (Signed) H. K. Stephens

## Vernon Livestock Commission to Hold Opening Horse and Mule Sale Friday

The Vernon Livestock Commission Company, whose announcement of their opening sale is carried elsewhere in this edition, was organized some three years ago with an opening sale of about \$500. Sales have continued each week since the opening until they are now reaching \$60,000 and an annual volume of a million dollars. They have a wide territory, buyers coming to their sales from many states and horses and mules have been shipped to many out of state markets and foreign countries.

Their cattle sales the past season have been the most successful in their history and is now considered to be one of the best and most stable markets to be found anywhere in the state. Prices are kept well up with the major markets at all times and buyers come to Vernon regularly for their requirements. These advantages make and insure a good market at all times for the stockmen throughout a wide territory.

During the first primary election absentee voting period 185 voters made application to Floyd Springer, Hall County clerk, for absentee ballots.

Mr. and Mrs. H. J. Gore and daughter Margaret Alice left Monday for Freeport to make their home. Mr. Gore has been elected principal of the Freeport school. He resigned here last week as principal of the Memphis High School after serving in that position for several years.

**DOUGLAS MEADOR**, who was recently elected president of the West Texas Press Association, was born at Matador and is now editor and publisher of the Matador Tribune. He writes a column titled 'Trail Dust' that places him high in the ranks of columnists.

## Childress Scouts To Give Program

Spears of Childress, will be in Memphis Friday night, September 2, and present a program featuring scout program, which will begin at 6 o'clock and last for more than an hour, is being presented to demonstrate scouting and to acquaint the men and boys of Hall County with scout work.

The program is being sponsored by the Memphis Rotary Club. All boys interested in scouting are invited to attend this meeting and bring their fathers with them.

Mr. and Mrs. A. H. Morrison of Dallas visited here last Friday with Mrs. R. L. Robertson. They were en route to their home in Dallas on a trip to California.

Mary Jo Hart of Amarillo came Tuesday for a visit with her aunt, Mrs. J. A. Whaley.

## Grave-Site Plaque Is Erected In Honor Of Pioneer Scout

**Funds Raised by People Of Area for Memorial Erected in Cemetery**

A monument and plaque honoring Col. Charles Goodnight has been erected at Goodnight according to announcement made this week by the Goodnight Monument Fund committee at the gravesite of the famous rancher-scout who first settled this portion of the Panhandle.

The monument, which was purchased by funds raised by donation throughout the Panhandle area by the committee, is designed in accordance with the expressed wishes of Col. Goodnight and is of the same size and type of the one marking the grave of his first wife. The plaque is a tilted marker set between the graves of the two and the inscription includes Mrs. Goodnight in the grave legend.

No plans have been announced for a dedication service but it will be arranged for sometime during the early part of the fall.

The committee in charge of the memorial and who are responsible for its erection is composed of W. H. Patrick, chairman, Clarendon; J. A. Christian, Claude; Cleo Hubbard, Goodnight; Vance Johnson, editor of the Amarillo News; and J. C. Wells, Memphis publisher. S. S. Montgomery of Memphis served as Hall County chairman in the work of raising funds.

### FRIENDSHIP

By MRS. C. L. PADGETT

The Baptist meeting closed Saturday night with a very successful meeting. Several conversions were made and a number identified themselves with the Baptist Church in this community. Sixteen persons presented themselves as candidates for baptism. The baptismal service has been arranged for August 28 and is to be held at the First Baptist Church in Memphis.

The Sunday school at Friendship school house will meet at 3 o'clock Sunday afternoon and will be followed by a preaching service at which time Rev. Chas. Bristler, the pastor of the Baptist Church at Estelline, will preach. Everyone is most cordially invited to attend the services.

### Candidates Debate Campaign Issues

Saturday afternoon's speakings on the Hall County courthouse lawn brought out an interesting high-light of the second Democratic primary election when Bob Alexander of Childress County and R. A. Harp of Motley County, opposing candidates for representative to the State Legislature from the 121st district, took the stump in behalf of their campaigns.

Mr. Harp spoke first, delivering a forceful address in behalf of his race, pointing out his qualifications for office and stating the advantages that would be resultant of his being representative of the district in legislative affairs.

Following another speaker, Mr. Alexander, present incumbent, took the stand and devoted the principal part of his talk to his record as a legislator during the past five years, explaining how and how he voted on important measures and answering charges brought against him during the campaign. Mr. Alexander pointed out that he was the first "dirt farmer" to represent the 121st district, which is an agricultural district, and during his talk spoke of his appreciation for the newspapers of his district who have supported him during this campaign.

Although Mr. Alexander has made no use of the fact during his race for office, he is being considered as a possibility for the speakership of the 46th legislature and has been petitioned to offer his name for such position by 48 of his constituents in the lower house.

TO HALL COUNTY VOTERS!

Any service that I may be able to give I owe to the citizens of Hall County where I have lived the most of my life. You have always stood by me in a big way, for which I am sincerely thankful.

Let me call your attention to what I believe is an unjust practice: That if a County Superintendent is retained in office for two terms of four years each, which is eight consecutive years, it means that only nine persons may have an opportunity to serve in this capacity in 72 years, the same time as the long period since the close of the Civil War.

If you deem me worthy and qualified for this office, I am asking your support in the second primary, and if elected, you will be repaid with faithful and sincere service to all our schools alike. Furthermore, unless strongly and urgently solicited by you good school people of Hall County for a second term of four years, I will be happy to step aside and not compete with any of the well qualified school people who may offer to become your County Superintendent.

The pastor's subject for the message Sunday evening will be, "The Expectant Christ" with Hebrews 10-13 as the text.
Our Sunday school and B. T. U. have been going along nicely for the summer time. The Sunday school superintendent has come back home and we are expecting to see him this coming Sunday. The B. T. U. picnic was a glorious success and a large crowd enjoyed a fine picnic lunch and ice-cream cones last Monday night.

FIRST CHRISTIAN CHURCH

We hope every reader of this will enjoy fellowship with some group of Christian worshippers Sunday.

Hall County Has Water Melons On Local Market

Hall County is becoming a melon country, according to reports received in Memphis this week. This year John Chaudion, farmer who resides southeast of Lesley, has a 42 acre patch of fine Tom Watson melons.
This week his crop was ready for market, a part of which was sold to local stores. These Tom Watson melons are being featured this week by several of the local grocery stores. Melons already harvested by Mr. Chaudion have weighed on an average of 35 pounds each.
It is understood that other Hall County farmers have small patches of melons, which are a part of the diversified farming program that is being more or less generally adopted throughout the county. Melons, when a ready market is available, prove to be a good source of cash income on the farm during an otherwise dull season.

in reference to this work, inasmuch as all contracts between the students and business men are made through the school and the instructor of the department.

In many instances, high school boys are already working in the various business firms and if it is their desire to continue in this occupation, a contract between the firm and the school will permit them to continue their work under the new set up and receive credit on it toward their high school graduation. According to Mr. Cowan, the student will receive 2 units of credit each year in the occupational department and will be permitted to take two more subjects in the school, thus keeping abreast of the number of credits required for graduation.

An advisory committee made up of Memphis citizens has been selected to confer with school officials from time to time and to advise with the students in connection with their work. The committee includes R. S. Greene, Roy L. Coleman, W. C. Chapman, D. W. May, Sam Cowan, and W. C. Davis, ex-officio member.

The purpose for this committee is to secure training stations, advise pupils in choosing occupations, help with salary adjustments, secure instruction material, pass on all agreements between school, business house and student, pass on the fitness of training stations, equalize training and care for any unusual circumstances that might arise.

There are only 6 courses of this kind offered in the state, according to Mr. Cowan. They are supported partly by the state, partly by the Federal government and by the local schools. Of these six courses, four are located in schools in West Texas, including Amarillo, Borger, Lubbock and Memphis.

## Expect Light Vote Election Here

Light voting in Saturday's second Democratic primary is expected by James E. King, county chairman for the Democratic party, who is busy this week-end distributing ballots, boxes and other supplies to the 16 voting places in Hall County for the election.

Mr. King is of the opinion that the maximum vote for the county during this second primary election will be about 2,500 as compared to the approximately 3,000 votes polled at the July primary. He gives as his reason for the expected decrease in the votes the lack of many local races, most of which were decided at the first primary, and due to the fact that in the second primary there is no governor's race to stimulate interest.

The election judges named for the first primary in July will serve in the same capacity during the second election, according to Mr. King, with one exception. J. M. Willmon has been named as presiding judge at the Oxbow voting box in the absence of the judge originally appointed to fill that post.

The second primary ticket is short, with only 22 candidates running for eleven offices. The six state offices include:

Lieutenant Governor: Pierce Brooks of Dallas County; Coke R. Stevenson of Kimble County; For Commissioner of General Land Office: Bascom Giles of Travis County; William H. McDonald of Eastland County; For Attorney General: Walter Woodul of Harris County; Gerald C. Mann of Dallas County; For Railroad Commissioner: G. A. Jerry Sadler of Gregg County; C. V. Terrell of Wise County; For Associate Justice of Supreme Court: W. H. Davison of Jefferson County; Richard Critz of Williamson County; For Judge of the Court of Criminal Appeals: Harry N. Graves of Williamson County and James Stephens of Knox County.

Only one race remains on the ballot for district office. In the race for Representative to the State Legislature from the 121st District, the ticket bears the names of Bob Alexander of Childress County and R. A. Harp of Motley County.

In county races, two remain on the ballot for consideration before the electorate in Saturday's election: For County Clerk, Bailey Gilmore and Murray Dial; For County Superintendent: Vera Tops Gilreath and Byron F. Todd.

In precinct races two remain for balloting Saturday including: For Commissioner of Precinct No. 2: T. L. (Tracy) Davis and A. R. McMaster; For Justice of the Peace, Precinct No. 1: L. G. Perkins, and J. A. (Joe) Merrick.

Plans for Chamber of Commerce Here Are Announced by Officials This Week

Plans are being made for the fall and winter months by the Memphis chamber of commerce, according to Carroll Smyers, secretary-manager, who was conferring with James E. King, president of the organization, Tuesday morning in regard to the activities scheduled for the coming months.

Mr. Smyers, who has been on a vacation trip to Washington and the north Atlantic states returned the latter part of last week to resume the duties of his post here as secretary-manager of the chamber.

Although preparations are in early stages, a celebration is being planned for Memphis on Armistice Day, November 11. Mr. Smyers offered on definite information concerning this celebration, but he feels assured that the day would be properly and fittingly observed in this city.

An exhibit of Hall County's agricultural and live-stock products will be featured at the Tri-State Fair, which will be held in Amarillo September 19-24.

According to James E. King, C. of C. president, active work will be resumed in securing an all-weather road from Memphis to Oklahoma as soon as possible.

The chamber is lending its facilities and efforts to the newly organized Hall County Water and Soil Conservation Committee and will give all the assistance possible in the county's participation in the West Texas Chamber of Com-

## BEER PETITION IS WITHDRAWN FROM COURT

### No Action Will Be Taken By Court In Calling Election

The petition signed by 255 qualified Hall County voters requesting the Commissioners Court to call an election to determine whether the sale of beer would be legalized in the county, has been withdrawn from the court according to M. O. Goodpasture, county judge.

The petition was placed before the court two weeks ago, and in accordance with the law governing such election, the court tentatively called an election for September 10. The law provides that when a petition of this nature, bearing signatures of ten per cent of the legal voters in the governor's election in the last preceding general election, is presented to the court, an election filling the demands of the petitioners must be called within twenty days after the filing of the petition.

Judge Goodpasture stated that in view of the fact that the election had only been called tentatively due to the uncertainty of securing ballot boxes following the second Democratic primary, the court would take no further action in the matter. It is possible that the petition will be taken to the court again at an early date, but until it is, according to the judge, no action will be taken to call the election.

It is understood that acting on advice of counsel the petitioners are securing additional signers to a petition, and have set as their goal one-half the legal voters of Hall County.

## Democrat to Hold Election Party

The Democrat is planning an election party for the second Democratic primary next Saturday night. A bulletin board will be placed in front of The Democrat office and election returns will be posted as soon as they are received and tabulated by the office.

Due to the fact that the ticket is short, the returns will be in early and the party will not last long. However, a small board will be erected for the Saturday election and the returns will be posted as speedily as possible. A loud speaker will also be used.

Those interested in the outcome of Saturday's election are invited to attend the election party.

Water contest for water and soil conservation.

The organization is looking forward to the Annual Northwest Methodist Conference which will be held in Memphis in November, and the facilities of the organization will be placed at the disposal of the visitors and delegates at the meeting.

For some time the local chamber of commerce has been advocating the purchase of the Broome park site located at the south end of 6th street and, according to Mr. Smyers, the issue will be reopened this fall in an effort to secure this addition to the city's property.

The chamber has been in cooperation with the surveyors located here by the United States Army for the survey of the Upper Red River Conservation and Irrigation Dam project in assisting them in finding lodging places during their stay in this vicinity.

It is the intention of the chamber to lend its assistance in every way possible to this project and to cooperate with the authority board.

During the next few weeks 1,000 copies of a new strip-map indicating the Colorado-Texas Coast route through Memphis will be distributed to filling stations in this territory to encourage the traveling public to use of this route. ## MORE BOYS ARE NEEDED TO TAKE UP COURSE HERE

### Plan Is Outlined By Cowan; New Department Head

Plans for the Distributive Occupations course to be offered in the Memphis High School this fall are rapidly taking form, according to Sam Cowan, instructor in this new department. Mr. Cowan states that more boys are needed to take the course and that opportunities are open for occupational study in dry goods, groceries, dry cleaners, auto top and body repairs, lumber and building, printing and banking. Under the terms of the course of study offered by the school this year, students entering the Distributive Occupations department have a chance to learn a trade or occupation with a small salary while they learn.

Mr. Cowan states that he will be located at the high school building each day at 11 a. m. and will receive occupational students at that time. It is the desire of local school officials to start the Related Subjects class, the classroom work of the occupations course, with the other classes when school opens September 5. Students who enroll in this new department will attend the Related Subject class from 8:30 a. m. to 10 a. m. each school day and from 10 to 12 p. m. will be arranged to accommodate other studies. High school department will be dismissed at the rest of the day in his occupational study, by actually working in the business of his choice.

According to Mr. Cowan, students in the new department are asked not to contact business men (Continued on page 10)

## Plans For County Dairy Show Nearing Completion

Plans have been completed for the program of the Hall County Dairy Show to be held here September 7-8, according to announcement made this week by the officials of the Hall County Dairy Association, sponsor of the event.

The program for the two-day meet is scheduled to start at 2 p. m. September 7 with a talk on milk production by E. R. Eudaley, dairy husbandman, of A. & M. College, who will be in Memphis for the show and assist in the judging of the cattle. Following Mr. Eudaley's address, G. G. Gibson, assistant dairy husbandman at the college, will speak on the production of clean milk. Following these two addresses Mr. Eudaley, Mr. Gibson, and R. E. L. Pattillo, Hall county agent, will conduct a round-table discussion on the score card for judging of dairy cattle in all classes.

During this discussion, according to Mr. Pattillo, farmers attending the show and entering cattle for competition will be given the score card and asked to judge the entrants. By this method, states Mr. Pattillo, Hall County cattlemen will learn the various points of good dairy cattle and will be training themselves for buying and breeding of better cattle in the future. This is one of the purposes of the show, according to Mr. Pattillo, who is convinced that better dairy cattle is one of the farmer's best sources of income under diversified farming.

During the morning of the second day of the event, Mr. Eudaley, assisted by Mr. Gibson, will judge the cattle entered in the show for prizes that will be awarded to the owners. Cows in all classes, both graded and registered, will be open to competition, but only registered bulls will be allowed in competition for prizes.

During the Thursday afternoon session, an open forum will be held and all farmers and cattlemen are invited to enter into discussions concerning feeding and care of dairy cattle. This forum will be conducted by the visiting husbandmen from the college.

According to Mr. Pattillo, no meeting place or show pens have been secured for the dairy show to date, however, he will announce these arrangements as soon as they are completed.

The Hall County Dairy Association, which was organized early in August, is headed by Dr. I. M. Hicks as president; Charles Williams, vice president; and Andrew Womack as secretary. Interested dairy cattlemen in Hall County who have contributed to the organization of the association and in preparing for the dairy exhibit include: Dot Webster, Andrew Womack, W. A. ## First Bale of 1938 Cotton Is Ginned In County On Tuesday

### Hulver Farmer Gathers First of This Year's Crop; Memphians Give Premium

The first bale of the 1938 cotton crop in Hall County was harvested and ginned Tuesday by Bud Latts of the Hulver community at the Hulver gin. After the first bale was ginned, it was brought to Memphis where the business men and merchants donated a premium of \$20 through the Memphis Chamber of Commerce. The cotton was grown on the J. L. Darby farm.

The cotton was of short staple variety and the bale weighed 525 pounds. The cotton was not sold because of government restrictions.

The 1938 first bale was received on August 16 as was the first bale of 1937 records reveal. The 1937 bale however ended in a tie with M. M. Shirley of Plaska and M. M. Monzingo bringing in first bales at the same time. The 1938 bale, however, outweighed those of the 1937 vintage, by nearly 100 pounds. The Shirley bale weighed 430 pounds and the Monzingo bale weighed 447 pounds last year while the 1938 bale tipped the scales at 525.

Ginners all over Hall County and busy getting their gin plants in order for the 1938 crop. Observers are of the opinion that the crop this year has not been seriously damaged by the drought and that fair returns may be expected.

## Deadline Set for Wheat Protection

Hall County farmers who are planning to insure their 1939 wheat crops under the government's all-risk insurance plan must do so on or before August 31, since all applications must be received by that date, according to information received here by the county agent's office.

Because seeding (especially in localities which use wheat partly for winter pasture) will start soon and the policies of this new insurance become effective as soon as the seed is in the ground, this limit seemed necessary to give the service office in Kansas City time to send out premium notices and care for other clerical work before the policies actually go into effect.

D. A. Neeley, the Crop Insurance Supervisor for Hall County, states that he will be in the office of the county agent until midnight, August 31, to receive the applications of Hall County farmers desiring to insure their wheat to be harvested in 1939 under the new government insurance plan.

According to Mr. Neeley, about 75,000 applications have been received by the Crop Insurance Commission in the Winter Wheat states and that the first policy was issued on July 15 of this year.

## Roy Coleman Named As Local Trustee

Roy L. Coleman has been appointed by the Memphis school board to fill out the unexpired term of R. C. Parks who resigned during the early part of the summer. According to Mr. Delaney, no action was taken toward filling the vacancy made by the resignation of H. J. Gore as principal of the Memphis high school.

### Rainbow Colors Featured in Class Party Proves to Be Colorful Affair

The regular members of the Sodolitan Sunday school class of the Baptist Church were sent hand-painted invitations in rhyme to attend a rainbow party given by the associate members in Mrs. Claud Johnson's garden.

On arriving the guests were served punch by Mrs. R. E. Clark, Mrs. Byron Baldwin and Mrs. H. H. Lindsey. The punch bowl was on a lace covered table and was garlanded with garden flowers and ferns. The blocks of ice in the bowl were the colors of the rainbow and altogether it made an artistic and pleasing picture.

The Johnson garden is always a place of beauty and was never more beautiful than on this occasion. An immense rainbow spanned the eastern sky rising above the shrubs and trees.

After the group arrived, Mrs. W. Wilson, president of the class, called the meeting to order and turned it to Mrs. R. E. L. Pattillo, who announced the numbers on the program. For the devotional, Mrs. T. M. Harrison came through a vine-covered arch, and gave a musical-reading, which was an arrangement of "My Cathedral in the Pines," and was most effectively presented. She was accompanied on the accordion by Rayburn Jones. The next number was a play, "Color Fairies," given by a group of children, dressed in rainbow colors. The queen was Marjorie Wilson, train-bearers were Elizabeth Wilson, Kay Robinson; little girl, Betty Sue Gibbs; color fairies, Mary Joe Watson, Jan Allen, Ann Norman, Gladys Bownds, Billy Claire Mason, Charlene Crow. The black and white escorts were Fletcher and Jimmy Bownds, Raymond Cullin, Don Simmons, Robert Clark and Barbara Wilson. These were the pupils of Mrs. T. M. Harrison and showed the result of the careful training of talented children.

The next number was a rainbow chorus with all present taking part led by Mrs. J. Wm. Mason. Mrs. D. L. C. Kinar, and Mrs. W. Wilson. Mrs. Mason then told of the myth's legend and the poetry which clustered around the rainbow, and ending with the story of the significance to Christians of the rainbow as a symbol of hope and divine protection. The climax of the program was reached with Miss Mary Ellen Hamilton, standing on a platform which put her above the shrubs and under the rainbow as she sang "I'm Forever Blooming Bubbles." She wore a blue evening gown and carried an immense array of many colored balloons. As she sang she released the balloons, one by one, and they gently floated in the air among the shrubs and flowers, making a scene of color and loveliness. She was accompanied by Rayburn Jones on the accordion and Miss Lowena Moore on the violin.

The meeting was returned to Mrs. Wilson, who presided during a brief business session, after which refreshments were served. The plate contained cake and ice cream, both in the various colors of the rainbow.

**Woman Painfully Burned By Gasoline Friday**

While en route to Memphis Friday, Mrs. Aubrey Shelton was painfully burned about the arms and body, while attempting to draw gasoline from the gas tank of an automobile to prime the motor that had gone dead. She drew a small can of gas from the tank and was standing by the exhaust when the engine backfired, igniting the gasoline in the can and on her hands. She dropped the can and thrust the burning hands in the fold of her dress, causing it to catch fire.

Her husband, who was driving the car, beat out the flames and rushed her to a hospital in Memphis where medical attention was given. Although able to return home, Mrs. Shelton suffered considerably from the burns.

**County Women Are Carrying on a Live At Home Program**

**Surplus Food Stuffs Are Being Canned and Other Provisions Made Here**

Hall County farm women are carrying on a live-at-home program as never before. All surplus foods are being canned, stored, and dried for future use. In the face of drought, floods, grasshoppers and other adverse conditions these families, refusing to be discouraged, are determined to produce food for their winter supply. Much interest is being shown in the small frame gardens which produce the year round. Construction of the garden is very simple and instructions for making can be obtained from Mrs. Lois Waggoner, home management supervisor, Farm Security Administration.

In these sections fall gardens are much more successful than those planted in the spring. Now is the time to get ready to plant. In preparing the soil for the fall garden, it should be plowed shallow to a depth of 4 or 5 inches. In most barn lots during the summer there is a layer several inches thick of trampled manure that has dried out, losing the acid that burns plants. After the garden has been plowed, spread a coating of material over the surface. Then rebreak or disk and harrow until the soil is well mixed. This spongy material will greatly increase the water holding capacity of the soil and prevent packing.

After the soil has been prepared in this manner it is ready for the seed to be planted. In purchasing seed for the fall garden it is advisable to secure one-fourth more seed for this planting than for the spring garden. The germination of seed at this season is poor. Seed with a hard seed coat, such as spinach, should be soaked in warm water over night before planting.

**THIS TAVERN OBSERVES THE LAWS**

**When you drink Beer in a tavern... choose your tavern**

WHEN YOU restrict your patronage to legal, respectable retail outlets, you not only encourage those better outlets but you've made a start toward driving out the bad spots in your community.

And that is exactly the aim of the great body of honest retailers of beer who, along with the brewers, recognize that Beer's only problem is to remove the anti-social

conditions that sometimes surround its sale. Existing laws can curb these evils. Help us by demanding their strict enforcement! Sales to minors, or after legal hours... or use of a beer license as a screen, for selling illicit liquor or for operating an illicit resort... all these are violations of the law and should be stopped. Public opinion, once aroused, can see that such practices are stopped!

### Ex-Convict Speaks Here on Prison Life

L. A. Scroggins of Vernon, ex-convict from the Texas State Penitentiary at Huntsville, spoke on the Hall County courthouse lawn Friday afternoon and again on Saturday morning, telling of his experiences while an inmate in the penal institution and on the Eastman Prison Farm. Mr. Scroggins, who was convict No. 63484 from 1930 to 1932, was placed in prison for forgery and since his release has been lecturing from 1 to 5 times each day in a self-organized campaign against crime.

In his talks here, Mr. Scroggins brought out the horrors of prison life, and sounded a warning to young men and boys of the evils and punishments of a life of crime. Mr. Scroggins pointed out that 85 per cent of the ex-convicts return to prison. Of this 85 per cent 2 percent are habitual criminals and 98 per cent are forced into a life which eventually will lead to prison again because of the stigma their prison record has placed on them.

Mr. Scroggins lectured in the Memphis school last year on the same subject.

Hattie Dem Ward returned Friday of last week from three-week visits in Gilmer and Fort Worth. While in Gilmer she visited her father, Matt L. Ward, and in Fort Worth was the house guest of Bebe Heatherly, and attended Casa Manana.

### The Voice of the People

(Editor's Note—This space is open to all readers of The Democrat for the purpose of expressing their opinions on any and all subjects. All signed letters will be printed here upon request, so long as they carry clean, unobscured material. The following should be considered as the opinion of the writer, in no manner reflecting on the editorial policies of this newspaper.)

The Democrat is in receipt of a letter from G. D. Hall of the Lakeview community who writes: From his old home at Murphy, N. C., where is vacationing and visiting with relatives. Mr. Hall graphically describes the beauty of the mountains and rivers in his native state and tells of the pleasures he is experiencing among scenes of the halcyon days of his youth.

In telling of his journey to North Carolina, Mr. Hall states that the first day of the trip was spent in crossing Oklahoma where crops were spotted, some good and some bad. In Tennessee, the second day of his trip to the east, he reports that the country had received too much rainfall and in some portions much of the best land had been drowned out. In Kentucky Mr. Hall reports seeing the best crops that he has seen during his vacation trip. It is in Kentucky, Mr. Hall writes, that burley tobacco, growing six feet tall, can be seen. This portion of the state is characterized by fine homes and prosperity, writes Mr. Hall.

While visiting in Kentucky Mr. Hall was privileged to view the wonders of the Mammoth Cave. He describes its beauties in his letter and tells of the mist that hovers about the entrance caused by the cold air that comes from the cave mixing with the hot surface air. Mr. Hall also visited the famed Floyd Collins cave where its discoverer was entombed alive for many days, and saw the steel casket containing Collins' body resting in the cave that caused his death. In his interesting letter Mr. Hall also describes the famous lost river of Kentucky and the beauties of the natural bridge.

In honor of his visit to Kentucky, friends of Mr. Hall entertained him with a fox chase, which he describes interestingly in his letter. He describes the deep-throated baying of the hounds resounding through the damp Kentucky night as music he enjoys very much.

On his return to Tennessee Mr. Hall visited with his only sister and enjoyed a family dinner with a brother who lives in Georgia. In his letter it was Mr. Hall's closing wish that Hall County would receive a good rain in time to benefit crops in this vicinity.

### Slight Change Made In Plans for Music

The schedule for the instrumental music department has been changed, according to announcement made by Superintendent W. C. Davis, and Bandmaster G. W. Johnson, who are making arrangements for the music department in the Memphis public schools this week. The beginners band, which is to include students from the 5th grade through the high school, will meet each morning at 8:15 in the band building. This band should attract many of the students who were in the Saxette class last year as well as those students who have decided to join the band since school was out last year. The high school students who join this group will

also have an opportunity to study instruments in small groups. The High School Band will meet the first period in the day. This band will be composed of players who were in the band last year and the new students from the beginners band who are now ready to join the advanced band. These students will also be allowed to take work in the afternoon instrumental classes.

The students will be expected to buy their own instrument books for the beginner band and the instrumental classes. The only other expense to the student will be arranging for an instrument. Those who do not have instruments and wish to rent or purchase one may see Mr. Johnson. A violin, viola and cello class will be taught every afternoon at 4 o'clock, according to the announcement. This class will be opened to all students above the 5th grade and the cost of the lessons will be about 10c. Students who already have their own violins see Mr. Johnson about correct strings and other equipment so that little time will be lost after school starts. There will be no limit to the size of the class.

Jack Hamilton has returned to his home in Fort Worth after a visit here with J. C. McClure Jr.

### Advertising Man Resigns Position With Democrat

**Earnest E. Hayley Goes to Throckmorton as Editor and Publisher of Tribune**

Earnest E. Hayley, for the past 18 months advertising manager of The Democrat, tendered his resignation, effective Saturday, to become editor and publisher of the Throckmorton Tribune. Mr. Hayley closed a deal last week with George T. Spears of Graham, whereby he leased the Tribune and will take charge of the plant next Monday.

Mr. Hayley came to Memphis March 1, 1937, as advertising manager of The Democrat, from Hereford where he had been editor of The Hereford Brand. A native of Seymour, Mr. Hayley began his career on The Baylor County Banner. He has had a wide experience in the printing and publishing business, having worked in many newspaper plants and job printing establishments in Texas and in other states. Aside from his experience at Seymour and Hereford, he has worked in Los Angeles, and was editor of The Spur Times.

Mr. Hayley is noted in this section of the state for his work in the advertising field, and for his ability as a columnist.

He and Mrs. Hayley will leave Memphis this week-end for Throckmorton.

### District Judge Is Speaker for Mann

Judge Alton B. Chapman of Spur, judge of the 110th judicial district, spoke in Memphis Saturday afternoon in behalf of the candidacy of Gerald C. Mann, of Dallas, for Attorney General of Texas. Judge Chapman, who is a brother of W. C. Chapman of this city, was introduced to the crowd assembled on the Hall County courthouse lawn by Carroll Smyers, secretary of the Memphis Chamber of Commerce.

Youthful in appearance, Judge Chapman was a pleasing speaker and presented the claims of Gerald Mann forcefully to his audience. He spoke of Mr. Mann's excellent background in legal experience and training and of the public service that Mr. Mann has rendered the state in both official and unofficial capacities.

During the week-end Judge Chapman spoke at several places in this locality and visited his brother here. He was accompanied by his wife and two small sons, Brooks and George Chapman.

### Miss Schmale to be Speaker Here Again

Miss Schmale, who has been lecturing for the National Townsend Organization for several years, is being brought back to Memphis by popular demand.

According to announcement, she will speak on the Hall County courthouse lawn, at 3:30 o'clock and the public is invited to hear her address.

Black, teal, blue, grape wine, green and Havana brown, with black predominating, will be the leading colors for fall, Mr. Rosenwasser said.

### CARE IN DRIVING URGED BY STATE HIWAY OFFICERS

**Twenty-five Percent Of Motorists Halted Carry No License**

The exercise of care in driving on the highways in this vicinity was urged Tuesday morning by Patrolmen G. C. Pearce and Ralph W. Robertson of Childress on their regular visit to Memphis. In view of the fact that several serious accidents have occurred in this vicinity resulting in the death of several persons, caution is urged by these representatives of the highway department.

According to Mr. Pearce, the highway patrol has been devoted to safety work since truck regulation has been placed in the hands of the State Bureau of License and Weights and that the patrol is not responsible for trucks with the exception of truck-driving and conduct on the highways. As a result of this change, Mr. Pearce points out, accidents on highways have been reduced since the patrol has had more time to devote to safety measures.

Mr. Pearce urged that all drivers of both private and commercial vehicles carry their license with them, since failure to have license while operating a car or truck carries with it a fine of \$1 to \$200. He states that about twenty-five per cent of the drivers stopped by highway patrolmen do not have their license with them. "I left my license at home" is the excuse most used by motorists states Mr. Pearce and in cases where this is proven to be a fact charges are seldom pressed, but such forgetfulness as this often results in inconvenience both for the driver and for the patrolman.

While in Memphis Tuesday Patrolman Pearce and Robertson issued 8 operators licenses, 3 duplicates to replace lost licenses and 4 chauffeurs licenses.

Z. A. Moore made a business trip to Pampa Tuesday.

Mr. and Mrs. B. L. Pittman and daughter Sara Ann of Amarillo arrived in Memphis Tuesday of last week and visited with her parents, Mr. and Mrs. J. L. Kerbow and family, until Thursday of this week. They have been in Los Angeles for several months where he studied diesel mechanic work in a school there.

### Visiting Preacher Fills Pulpit Here

The Rev. Alfred R. Freeman, pastor of the Crown Heights Methodist Church of Oklahoma City, preached at the morning hour at the First Methodist Church here Sunday.

The Rev. Mr. Freeman gave a review of the Edinburgh-Oxford conference to which he was a delegate last year. He pointed out that it was in the conference that an effort was made to find the fundamentals on which the 119 protestant churches were in agreement on, and termed this meeting as one of the most important protestant gatherings in many centuries.

Rev. and Mrs. Freeman are visiting Mrs. Freeman's parents, Dr. and Mrs. Marion McNeely, here.

But in this small way we want to express our thanks to you for each deed of love. Your thoughtfulness was always noted by her, making her suffering easier to bear, and helping to lighten our grief. May God's richest blessings rest on each of you is our wish and prayer.

### Slight Change Made In Plans for Music

The schedule for the instrumental music department has been changed, according to announcement made by Superintendent W. C. Davis, and Bandmaster G. W. Johnson, who are making arrangements for the music department in the Memphis public schools this week. The beginners band, which is to include students from the 5th grade through the high school, will meet each morning at 8:15 in the band building. This band should attract many of the students who were in the Saxette class last year as well as those students who have decided to join the band since school was out last year. The high school students who join this group will

also have an opportunity to study instruments in small groups. The High School Band will meet the first period in the day. This band will be composed of players who were in the band last year and the new students from the beginners band who are now ready to join the advanced band. These students will also be allowed to take work in the afternoon instrumental classes. The students will be expected to buy their own instrument books for the beginner band and the instrumental classes. The only other expense to the student will be arranging for an instrument. Those who do not have instruments and wish to rent or purchase one may see Mr. Johnson. A violin, viola and cello class will be taught every afternoon at 4 o'clock, according to the announcement. This class will be opened to all students above the 5th grade and the cost of the lessons will be about 10c. Students who already have their own violins see Mr. Johnson about correct strings and other equipment so that little time will be lost after school starts. There will be no limit to the size of the class.

Jack Hamilton has returned to his home in Fort Worth after a visit here with J. C. McClure Jr.

### Advertising Man Resigns Position With Democrat

**Earnest E. Hayley Goes to Throckmorton as Editor And Publisher of Tribune**

Earnest E. Hayley, for the past 18 months advertising manager of The Democrat, tendered his resignation, effective Saturday, to become editor and publisher of the Throckmorton Tribune. Mr. Hayley closed a deal last week with George T. Spears of Graham, whereby he leased the Tribune and will take charge of the plant next Monday. Mr. Hayley came to Memphis March 1, 1937, as advertising manager of The Democrat, from Hereford where he had been editor of The Hereford Brand. A native of Seymour, Mr. Hayley began his career on The Baylor County Banner. He has had a wide experience in the printing and publishing business, having worked in many newspaper plants and job printing establishments in Texas and in other states. Aside from his experience at Seymour and Hereford, he has worked in Los Angeles, and was editor of The Spur Times. Mr. Hayley is noted in this section of the state for his work in the advertising field, and for his ability as a columnist. He and Mrs. Hayley will leave Memphis this week-end for Throckmorton.

### CARE IN DRIVING URGED BY STATE HIWAY OFFICERS

**Twenty-five Percent Of Motorists Halted Carry No License**

The exercise of care in driving on the highways in this vicinity was urged Tuesday morning by Patrolmen G. C. Pearce and Ralph W. Robertson of Children on their regular visit to Memphis. In view of the fact that several serious accidents have occurred in this vicinity resulting in the death of several persons, caution is urged by these representatives of the highway department. According to Mr. Pearce, the highway patrol has been devoted to safety work since truck regulation has been placed in the hands of the State Bureau of License and Weights and that the patrol is not responsible for trucks with the exception of truck-driving and conduct on the highways. As a result of this change, Mr. Pearce points out, accidents on highways have been reduced since the patrol has had more time to devote to safety measures. Mr. Pearce urged that all drivers of both private and commercial vehicles carry their license with them, since failure to have license while operating a car or truck carries with it a fine of \$1 to \$200. He states that about twenty-five per cent of the drivers stopped by highway patrolmen do not have their license with them. "I left my license at home" is the excuse most used by motorists states Mr. Pearce and in cases where this is proven to be a fact charges are seldom pressed, but such forgetfulness as this often results in inconvenience both for the driver and for the patrolman. While in Memphis Tuesday Patrolman Pearce and Robertson issued 8 operators licenses, 3 duplicates to replace lost licenses and 4 chauffeurs licenses.

But in this small way we want to express our thanks to you for each deed of love. Your thoughtfulness was always noted by her, making her suffering easier to bear, and helping to lighten our grief. May God's richest blessings rest on each of you as our wish and prayer.

## A CHEESE FACTORY NEXT

**TEXAS IS SIXTH** among the states in production of cheese; ten years ago it was thirtieth, and there is room for more development of this industry, says The Texas Weekly.

Ten years ago Texas produced less than one million pounds of all kinds of cheese during the period of twelve months. The Weekly says, and last year the State produced 15,360,000 pounds of whole milk American cheese cheddar and nearly 17,000,000 pounds of all kinds of cheese. During each of the last ten years Texas has produced more cheese than it produced the preceding year.

Cheese is having a part in the readjustment currently taking place in Texas agriculture. For the growth of the dairy industry in general is significant indication of these readjustments, and the production of cheese is a very important division of the dairy industry, according to The Weekly. Today, the sale of milk to cheese plants is the principal source of income of many Texas farmers who ten years ago did not milk a single cow, and the income the farmers get from selling their milk to cheese plants is a year-round income.

The Bureau of Business Research of Texas University says there are 85 cheese plants in Texas, and these are not widely distributed as are butter and ice cream plants.

Continuing, The Weekly asserts that Texas will be wise to give its most immediate attention to industries for which it is peculiarly fitted. The manufacture of cheese and of other dairy products is one of these. With this in mind, progress of the cheese industry seems certain to continue, for if Texans eat as much cheese per capita as the people of the entire country eat, they are consuming annually about 10,000,000 pounds of cheese from other states.

People of Hall County have been interested to some extent in securing a cheese factory, but not to the extent of doing much about it. A concerted effort should be made, and the result might be a happy solution to some of the depressed agricultural ills.

## FORWARD MEMPHIS!

**TODAY MEMPHIS IS ENJOYING** a building boom. More construction is under way in this community than has been in many months with the erection of a new power plant for the local utilities company, the completion of the new school stadium, repair on the high school and west ward school buildings, the preliminary survey of the Red River dam and flood control project, and the construction of a new school gymnasium that will begin in the near future. All of these forward movements in the community are bringing money to Memphis and during the building period the attendant flow of cash into the coffers of Memphis business and trades people will serve as a stimulant to the commerce in this community.

Memphis is, and rightly should be, proud of these various projects that are under way and will be underway in the next few months. Behind each one of the forward steps in the advancement of this community, are the efforts of far-sighted and civic-conscious leaders, who have spent freely of both their time and means, that Memphis might move forward and take its place in the front ranks of the cities of the West.

This community, standing as a pattern for other communities to follow its design of advancement, should pay tribute to its leaders who have given unselfishly to Memphis' progress and through whose efforts this city and community are receiving the acclaim of all of West Texas.

## CLAUDE'S Comments

J. C. W.

The Donley County old settlers held their annual picnic at Tate's Grove, east of Hedley, last Friday. W. I. Rains, who has succeeded himself as president of the association for the past several years, made it his duty to see that everyone had a good time. When re-elected for another year, he accepted with the remark that "I was afraid you were not going to re-elect me, but since you have I promise to do as I have in the past—my best."

Homer Mulkey of Clarendon presided as master of ceremonies, and a number of short talks were made. No one was allowed to take up too much time. The Clarendon band furnished part of the music for the occasion, while other musical organizations, such as accordions, fiddlers, singers, string bands, and the like, interspersed the program with lively music.

An old-fashioned basket dinner was spread and all present were invited to partake, as there was plenty for everybody. The Mrs. and yours truly were guests of Mr. and Mrs. E. H. Watt and family and Mr. and Mrs. W. I. Rains, and we tried to do justice to the fine repast.

Earnest E. Hayley, who has been with The Democrat as advertising manager for the past 18 months, leaves the last of this week for Throckmorton to take charge of the Throckmorton Tribune as publisher. Earnest is one of the best advertising layout men in this section of the country, and The Democrat has won much favorable comment because of the neatness and attractiveness of the advertising appearing in its columns week after week. As a columnist, Earnest's writings have probably been quoted by more papers of Texas than any other writer.

The advertising will be handled by Donald W. May, and the cooperation of the advertisers and the general public is solicited in maintaining the paper's present excellent standing.

Last week The Democrat made an appeal to the people of Memphis to report if they had extra furnished apartments or bedrooms for rent, as there was an unprecedented demand for same due to the many families of damsite surveyors wanting homes here during the time the survey is being made. The response to the appeal has been gratifying. Most of the people wanting apartments have found places. There are a few who are still looking.

The establishment of the Red River damsite survey headquarters in Memphis means that more than a dozen families and a number of single men have been added to the citizenship, for a time at least, and Memphians should extend the glad hand to them on every possible occasion.

The time of year is at hand when individuals and organizations begin activities of all kinds, including entertainments and such like where printed programs and advertising are used. It is usually expected of The Democrat that such affairs are given write-ups in its columns free of charge, and sometimes The Democrat printing department gets to do the printing and sometimes not.

As a matter of fair play, the place where free publicity is given should be the place where paid printing is ordered.

A newspaper is always glad to publish all the news, but in order to publish any news at all it must have a certain amount of paid advertising and printing to be able to pay the workers' salaries and other expenses of operation. Without remuneration a newspaper can exist only so long as its publishers' private funds last, and that would be about one issue.

Fathers and sons of this area are invited to attend a Boy Scout jamboree at Cyclone Stadium Friday evening, September 2, at 6 o'clock, where demonstrations of scouting will be made by a Childress Scout troop under the direction of Scoutmaster G. O. Spears of Childress.

Hundreds of boys of Hall County want to be Scouts, but cannot because no men will volunteer to be leaders. Without leadership Scouting cannot carry on. Give the movement leadership and there will be plenty of boys to take up the good work.

## Court Holds Hearing On Budget Thursday

The Hall County commissioner-court met this Thursday afternoon at 2 o'clock for a public hearing on the annual budget for county finances, according to Judge M. O. Goodpasture, county judge. This meeting of the court is held annually, and is open to the public.

At this meeting the people of the county are invited to be present and to study the county financial situation with the court. In the event that the court is in error in their budget calculations, the public has an opportunity to point out such errors that they may be corrected before the budget is finally approved.

Dear friends:

The Pioneer Edition of the Democrat came to my desk this week, and I am most happy to tell you that it is one of the finest special editions I have seen printed anywhere regardless of size or locality of the printing plant. I was especially proud of the layout of the leading typographers and officials of the office. The advertisements were certainly an excellent example of what can be done in modern typesetting in small plants. Your layout men and composing room force are certainly to be commended for the splendid results.

I certainly trust that you have an extra copy which you will send to my father, H. C. Stephens, 3200 San Marino Street, Los Angeles, California, who as you know is a son of Henry Stephens, one of the first sheriffs of Hall County, whose picture appeared in this special edition.

With best wishes for your continued success, I am

Sincerely yours,

## Vernon Livestock Commission to Hold Opening Horse and Mule Sale Friday

The Vernon Livestock Commission, whose announcement of their opening sale is carried elsewhere in this edition, was organized some three years ago with an opening sale of about \$500. Sales have continued each week since the opening until they are now reaching \$60,000 and an annual volume of a million dollars. They have a wide trade territory, buyers coming to their sales from many states and horses and mules have been shipped to many out of state markets and foreign countries.

Their cattle sales the past season have been the most successful in their history and is now considered to be one of the best and most stable markets to be found anywhere in the state. Prices are kept well up with the major markets at all times and buyers come to Vernon regularly for their requirements. These advantages make and insure a good market at all times for the stockmen throughout a wide territory.

## Absentee Voting Closed Tuesday

Absentee balloting in Hall County closed Tuesday night at midnight with 120 absent Hall County citizens casting their votes in the second Democratic primary by this manner.

Seventy-two of the ballots were voted in the county clerk's office here while the balance were mailed to many points in Texas and to several other states. Out of state voters were found in Tennessee, North Carolina, New Mexico, California, Arizona, and Oklahoma.

Amarillo and Fort Worth were the principal Texas cities where absent Hall County voters were located during the absentee balloting period.

During the first primary election absentee voting period 185 voters made application to Floyd Springer, Hall County clerk, for absentee ballots.

## MOVE TO FREEPORT

Mr. and Mrs. H. J. Gore and daughter Margaret Alice left Monday for Freeport to make their home. Mr. Gore has been elected principal of the Freeport school. He resigned here last week as principal of the Memphis High School after serving in that position for several years.

**DOUGLAS MEADOR**, who was recently elected president of the West Texas Press Association, was born at Matador and is now editor and publisher of the Matador Tribune. He writes a column titled 'Trail Dust' that places him high in the ranks of columnists.

## Childress Scouts To Give Program

A troop of Boy Scouts, headed by Scoutmaster G. O. Spears, of Childress, will be in Memphis Friday night, September 2, and present a program featuring scout work at Cyclone stadium. The program, which will begin at 6 o'clock and last for more than an hour, is being presented to demonstrate scouting and to acquaint the men and boys of Hall County with scout work.

The program is being sponsored by the Memphis Rotary Club. All boys interested in scouting are invited to attend this meeting and bring their fathers with them.

Mr. and Mrs. A. B. Morrison of Dallas visited here last Friday with Mrs. R. L. Robertson. They were en route to their home in Dallas from a trip to California.

Mary Jo Hart of Amarillo came Tuesday for a visit with her aunt, Mrs. J. A. Whaley.

## Grave-Site Placque Is Erected In Honor Of Pioneer Scout

**Funds Raised by People Of Area for Memorial Erected In Cemetery**

A monument and placque honoring Col. Charles Goodnight has been erected at Goodnight according to announcement made this week by the Goodnight Monument Fund committee at the gravesite of the famous rancher-scout who first settled this portion of the Panhandle.

The monument, which was purchased by funds raised by donation throughout the Panhandle area by the committee, is designed in accordance with the expressed wishes of Col. Goodnight and is of the same size and type of the one marking the grave of his first wife. The placque is a tilted marker set between the graves of the two and the inscription includes Mrs. Goodnight in the graven legend.

No plans have been announced for a dedication service but it will be arranged for sometime during the early part of the fall.

The committee in charge of the memorial and who are responsible for its erection is composed of W. H. Patrick, chairman, Clarendon; J. A. Christian, Claude; Cleo Hubbard, Goodnight; Vance Johnson, editor of the Amarillo News; and J. C. Wells, Memphis publisher. S. S. Montgomery of Memphis served as Hall County chairman in the work of raising funds.

## Locals and Personals

Mr. and Mrs. S. S. Cooper of Estelle visited here Wednesday with their daughter, Mrs. Hal Goodnight.

Mr. and Mrs. Frank Monzingo and children, Gayle and Carol Ann, and Mr. and Mrs. A. B. Hickey and son Gerald returned Friday from an extended trip through Northwest Texas to Texas and Oklahoma. They visited many places of interest.

FRIENDSHIP Candidates Debate Campaign Issues

By MRS. C. L. PADGETT. The Baptist meeting closed Saturday night with a very successful meeting. Several conversions were made and a number identified themselves with the Baptist Church in this community. Sixteen persons presented themselves as candidates for baptism. The baptismal service has been arranged for August 28 and is to be held at the First Baptist Church in Memphis.

The Sunday school at Friendship school house will meet at 3 o'clock Sunday afternoon and will be followed by a preaching service at which time Rev. Chas. Brister, the pastor of the Baptist Church at Estelline, will preach. Everyone is most cordially invited to attend the services.

Following another speaker, Mr. Alexander, present incumbent, took the stand and devoted the principal part of his talk to his record as a legislator during the past five years, explaining how and how he voted on important measures and answering charges brought against him during the campaign. Mr. Alexander pointed out that he was the first "dirt farmer" to represent the 121st district, which is an agricultural district, and during his talk spoke of his appreciation for the newspapers of his district who have supported him during this campaign.

Simply install Better Heating with Automatic-Control—"light it in the fall and forget it until spring," and spend the winter in greater comfort and better health than you have ever known! TO HALL COUNTY VOTERS!

Any service that I may be able to give I owe to the citizens of Hall County where I have lived the most of my life.

Let me call your attention to what I believe is an unjust practice: That if a County Superintendent is retained in office for two terms of four years each, which is eight consecutive years, it means that only nine persons may have an opportunity to serve in this capacity in 72 years, the same time as the long period since the close of the Civil War.

If you deem me worthy and qualified for this office, I am asking your support in the second primary, and if elected, you will be repaid with faithful and sincere service to all our schools alike.
