### COTTON DROPS FIVE DOLLARS BALE AT ONCE

Cotton dropped more than five dollars a bale here when the Government forecast was made public Wednesday. The report indicated an increase in forecast of 164,000 bales more than that of a month ago.

Washington, Nov. 9.—An increase of 164,000 bales in this year's cotton crop during the last month was forecast Wednesday by the Department of Agriculture, which announced the total production, as indicated Nov. 1, to be 12,842,000 equivalent 500-pound bales. The indicated crop is 5,135,000 bales less than last year's record crop.

Generally warm, dry weather in October, the crop reporting board said, permitted rapid gathering of the crop, with less than usual loss to yield and quality, and bolls damaged by the weevil matured with less loss from rot than is usually experienced.

Prospects improved in Alabama, Mississippi and Oklahoma, but increases in those states were partially offset by a substantial decrease in the forecast for Texas, where production of 4,300,000 bales a month ago.

The yield per acre and the indicated total crop by states follow:  
Virginia, 226 pounds per acre and total production 34,000 bales.  
North Carolina, 226 and 845,000.  
South Carolina, 144 and 730,000.  
Georgia, 153 and 1,110,000.  
Florida, 121 and 17,000.  
Missouri, 182 and 110,000.  
Tennessee, 179 and 350,000.  
Alabama, 175 and 1,180,000.  
Mississippi, 197 and 1,330,000.  
Louisiana, 161 and 525,000.  
Texas, 126 and 4,200,000.  
Oklahoma, 137 and 1,050,000.  
Arkansas, 151 and 1,009,000.  
New Mexico, 336 and 71,000.  
Arizona, 303 and 88,000.  
California, 350 and 93,000.  
All other States, 187 and 9,000.  
Production in Lower California, Old Mexico, is 60,000 bales.

Miss Altha Tom Bridge spent Saturday night and Sunday at Childress visiting friends.

Three recruits at an air field stole a plane and, after flying a short distance, crashed outside a police station.

In the zoological gardens of Leipzig is a crane with an artificial leg made of aluminum which it uses with perfect ease.

### COTTON CROP SITUATION

the overcoat of a seed that is planted and grown in other states to keep the producer broke and the buyer rich. The price of cotton is determined in New York when you have sold and down when you have bought. The price of a group of mills was sent to New York to the market, and after a few days deliberation wired the effect.  
Think it will go up and some think it will go down; whenever you do will be wrong. Act at once.  
The cotton is planted in the spring, mortgaged in the summer and sold in the winter.  
You can't win and you can't lose if you don't.

### HUDGINS MAKES GOOD RECORD WITH COMPANY

E. N. Hudgins received telegraphic congratulations from the vice president of the Kansas City Life Ins. Co. last week, for ranking 14th in a list of all producers for the company for October, and also stated "this is the third month you have been among the 25 leaders."

Mr. Hudgins recently received a bill fold made in Paris for leading the Texas agents in September. These are nice honors and Mr. Hudgins many friends are glad to know that he is leading in the insurance line.

### RECORD IS MADE BY PAVING CREW ON HIWAY FIVE

Eight hundred and eighty-five feet of concrete was poured on highway five south of town Tuesday by the Strange Construction company of Salt Lake City, according to C. L. Hasie, county engineer. This is the best day's record by this company since starting on the paving through this county.

Mr. Hasie says they now have the concrete laid as far as Salisbury, a distance of six miles south-east of Memphis, and have moved the paving machinery two-and-a-half miles south of Salisbury, and will now work back and connect at Salisbury, after which they expect to discontinue work until spring, unless the weather continues to be warm.

With the completion of the two and a half mile strip, there will be about 8-1-2 miles of pavement south of Memphis and two miles north, making more than ten miles of concrete paving through Hall county.

One half of the thirteen and a half miles of the pavement contracted for on Highway Five thru Hall county is now open to traffic, and the farmers to the south-east of Memphis are greatly elated over the amount that is available to travel in that part of the country, as the larger portion of the year's crop is yet to be moved.

### NEGRO RUNS AMUCK AND TAKES A SHOT

A negro by the name of Tennessee is suffering with a broken leg and Will Wright, negro, is in the Hall county jail on four different charges as the result of an altercation that occurred at the Memphis Cotton Oil Mill here Sunday. It is charged that Wright became drunk and ran amuck, shooting "Tennessee" in the leg.

Wright has worked for the oil mill for some two years. It is said, that he killed a negro at Vernon about two years ago.

### CARS COLLIDE BREAKING LEG EDWARDS BOY

Woodrow Edwards, 10 year old son of Mr. and Mrs. R. F. Edwards, is suffering with a broken leg sustained in a collision that happened Saturday afternoon between the Ford truck of Mr. Edwards and a Ford sedan, driven by Oren Green of the Harrell Chapel community.

The accident happened on Highway Five on a curve near the Memphis Cotton Oil Mill, when the Ford sedan came around the curve from the north meeting the Edwards truck coming north. Young Green was going at a good rate of speed and could not make the turn without striking the truck. The Ford sedan was turned completely over on its top, badly demolishing the top and the left side of the front end of the car. There were six young people in the Ford, all escaping with only minor bruises. The Edwards lad was hanging his feet from the truck on the left side and was struck by the Ford sedan, breaking his leg about middle ways of the ankle and the knee. He is reported doing nicely.

The Memphis Democrat wants to double its circulation in Hall and adjoining counties.

It is with mingled pleasure and pride that The Democrat announces in this issue the Opportunity Club, which for liberality eclipses anything of like nature ever attempted in this section. In presenting a glittering array of valuable awards headed by two brand new 1928 fine automobiles and many other valuable prizes, all to be distributed among readers and friends of this paper without one cent of cost to the recipients in return for their spare time effort in boosting and building the Democrat's circulation.

Any person, man or woman, boy or girl, can become a member of the Opportunity Club and share in these awards without any cost whatsoever.

The awards, nearly \$5,000.00 worth—include a brand new Studebaker Dictator 4-Door Sedan, costing \$1370.00, purchased from Raymond Ballew, Studebaker dealer and on display at his showroom. A 1928 Chevrolet Coach worth \$710.00 purchased from D. & M. Chevrolet Co., and on display at their show room, two \$115.00 Diamond Rings, one for each district, purchased from and on display at Chas. Oren, Jeweler, two \$30.00 Elgin Wrist Watches, one for each district, also purchased from and on display at Chas. Oren, Jeweler; and two \$20.00 Merchandise orders purchased from Cross Dry Goods Co.

Liberal Cash Commissions will do more in building circulation in a few short weeks than a force of outsiders could do in a year. This is in no sense one of those old time money grabbing "contests" of which there have been a number, full of uncertainties and technicalities, but something new and different, brimful of opportunity and rich reward awaiting the most energetic in just a few short weeks hence.

It is a business proposition pure and simple. The Democrat wants 2,000 new subscribers, any man or woman who helps us build the circulation of the Democrat is going to be mighty well paid whether they get us one or one hundred new subscribers.

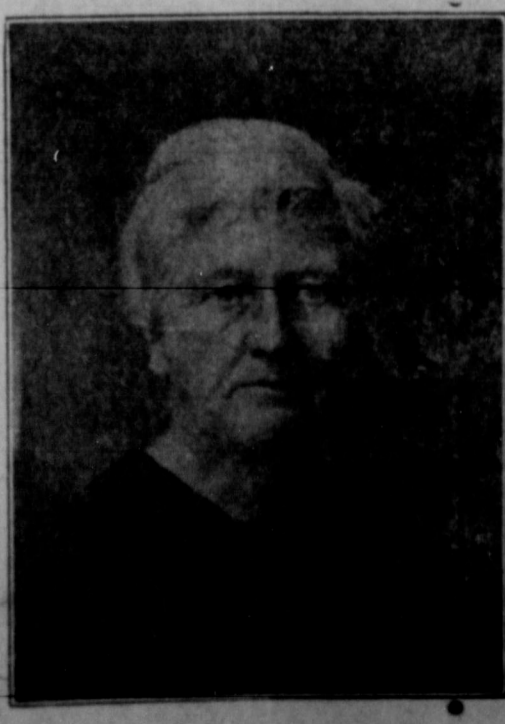

Someone is going to be \$1370 richer on December 23, another \$710 and several others earn the extra money that they want for Christmas. The winner of the Studebaker Dictator will be earning better than \$200 a week for the next six weeks.

No Red Tape  
There is to be no red tape of any kind whatsoever connected with the Opportunity Club. Every prize is to be given free, reward (Continued on last page)

### Rev. Mrs. Cagle Proves Most Interesting and Inspiring Preacher in Nazarene Revival Here

The District Evangelist, Ref. Mrs. H. C. Cagle, will preach here last time here tonight. She has been an outstanding evangelist and organizer of the Nazarene Church for many years. There are few preachers in any church who have had so successful and fruitful ministry. For forty years this woman has been leading men and women to God. This is perhaps the best opportunity for the public to hear her as her nerves are breaking and the doctor is urging a complete rest.

The meeting has been very successful, but we wanted to see greater things accomplished. However Rev. Cagle and his wife have done some wonderful preaching. Prof. Carter and wife have sung until we are sure that ev-

everyone who has heard them has been benefitted. The altar of prayer has been filled many times, men and women have gotten right with God, some have joined the church and many have helped. Great good has been done, yet the work still to be accomplished is so tremendous that we stagger with our responsibility. Only eternity will reveal the good accomplished.

The Cagles will go away Friday, but the meeting will continue over Sunday. Prof. Carter and wife will remain.

On the heels of the revival comes our N. Y. P. S. rally with the District president, Rev. R. M. Hooker of Plainview and delegates from the surrounding country with us. Look for announcements.

M. M. SHORT, Pastor.

## DEVELOPMENT OF THE DAIRY INDUSTRY HERE IS URGED

The development of the dairy industry in this section is to be carried on under the leadership of H. D. Cuykendall, field representative and educational worker for the cotton oil mills of Memphis, Childress, Quanah and Chillicothe and the Gate City Creamery of Childress and Quanah. This man is working in conjunction with the chambers of commerce, the county agents, the county superintendents, the editors, the bankers and the civic clubs.

Without the aid and support of the bankers this work could not be carried on. If the banks refused to loan money to worthy farmers to build small dairies, the industry could not be developed. It is the men who have little or no capital that need the dairy industry to put them on their feet and it is these men who must borrow from the bank in order to put it over successfully.

The bankers of Memphis, Childress, Estelline and other points have already agreed that they will support the dairy movement by loaning money to worthy farmers to put over the work. Not only have the bankers done this, but the editors of the papers at Childress, Memphis, Estelline, Turkey and other places have already pledged the news columns of their papers for free publicity in order to build up an industry that is bound to help the country and bring a greater measure of prosperity.

Chambers of commerce in all towns in this section are right now keenly interested in the growth of the dairy industry. They are lining up their membership to support the present campaign. Service clubs of the cities are interesting themselves in the work and can be depended upon to furnish programs out in the country that will tend to show the farmer that there is a profit to be made from the cow, sow and hen.

The county superintendents in the three counties of Hall, Hardeman and Childress will be real factors in the development of the community clubs, which work runs hand in hand with the development of the dairy industry. The superintendents of Childress and Hall counties have already agreed to do all that they can.

Since this work is right in line with the work of the county agents, they are coming in in great shape. County Agent Luther T. Hunter of Childress county and County Agent L. M. Thompson of Hall county, have already pledged their support.

With the help and cooperation of all these organizations, it is but to be expected that the business men of the cities will all line up in favor of the work. When this is done the farmers will be told the urgent need of the work by their friends if the business section of the cities and will see the need for the greater development of dairying, not as a major industry, but as a part of the general plan of farm diversification.

J. Claude Wells, editor of the Memphis Democrat, told the writer a few nights ago that the people of Memphis were already beginning to talk in terms of the dairy industry. He said that he had talked to a number of men on that selfsame subject. He said the people were becoming dairy-minded and that meant that interest was being taken in the movement to put more cows on the farm.

May it be repeated here that

the cotton oil mills do not recommend the purchasing of a large number of cows by the inexperienced dairy farmer. Rather would they like to see each farmer in the county purchase three or four good dairy cows. Not cheap cows that will not pay for their keep—let alone a profit—but good dairy cows that will bring the production that means profits. Then, as the farmer learns, by experience, how to handle the dairy herd, he can add to it from time to time, thereby adding to his earnings.

The business men of the various cities in these three counties will find that they do not have to carry their farmer friends for 8 months to a year, when the dairy work is developed. The borrowing farmer will have money in the bank to pay his bills and because he is not financially cramped he will be able to buy more merchandise. He will not stop with necessities, but his purchases will run into the class of luxuries too for his family is just as much entitled to a few of the luxuries as the family of the man in the city.

When dairying has come to this section to stay there will be a greater measure of prosperity that will be general in nature and everyone will share in it. There is no one that will not be benefited by the dairy work and

### CIRCULATION CAMPAIGN

The circulation campaign, announced in this issue of the Democrat, is being managed by Mr. V. Y. Scofield, manager of the American Circulation Company, of Dallas, and will be conducted on strictly fair and honest methods. The A. C. C. is the only circulation campaign company that is recommended by the Texas Press Association, and has conducted campaigns for several papers over the Panhandle. Such papers as the Hereford Brand, The Wellington Leader, and the Clarendon News have used this method and endorse the company in a fine way.

In keeping with its desire to be of service to the community which it serves, the Democrat is having this campaign put on in order to strengthen and enlarge its field of endeavor, and at the same time to be of more benefit to the readers and advertisers. We expect to add hundreds of new readers to the already large subscription list during this campaign, and with added names there will be added responsibilities. In order to take care of these added responsibilities the Democrat has already bought and installed a lot of new equipment and has in its employ the very best printers, solicitors, writers and workers to give the people of the territory a paper they will be proud of and will boost to their friends.

The prizes that are offered in the campaign have cost a goodly sum of money, and therefore we desire to get real workers in the campaign who will feel like they have something worth while to work for, and a paper they can recommend to their friends at

the same time. Come in and enroll in the club at once and get a good start early in the campaign. No weekly paper in this section of the state has offered two cars in a campaign, but we feel that two grand prizes will give the two districts a better representation and place the campaign on a higher plane than one grand prize could possibly hope to do.

It is not to be a contest or a voting proposition, but an opportunity for real workers to sell a newspaper that is striving to be the best in the Panhandle.

### ASK HIM

When the glib-tongued, ingratiating house-to-house salesman—the same type that our mothers and grandmothers referred to as "peddlers"—appears at your door, cut short his exaggerated claims of superiority, lower prices, no overhead, etc., with four simple questions. Ask him point-blank:

1. Has his company ever paid one cent of taxes in this community to support our schools, our city, our fire department?
2. Has it ever contributed one penny towards the upkeep of our churches or our institutions?
3. Has it ever given support to any local movement for civic betterment?
4. Has it ever taken any interest whatsoever in this community outside of a desire to take its money?

He won't dare answer them truthfully! Then, tell him your local merchants do all these things and give you equally as good, if not better, values. Besides that, you don't have to wait for your goods and if there is anything wrong, they're right there to make good. That they have a friendly interest—not a mere monetary interest such as his—in the community. After you have forcefully made clear these points, send the peddler on his way. He deserves none of your time and attention!

### FOR 9 YEARS GAS RUINED HER SLEEP

"I had stomach trouble 9 years, and gas made me restless and nervous. Adlerika helped me so I can eat and sleep good."—Mrs. E. Touchstone. Just ONE spoonful of Adlerika relieves gas and that bloated feeling so that you can eat and sleep well. Acts on BOTH the upper and lower bowel and removes old waste matter you never thought was there. No matter what you have tried for your stomach and bowels, Adlerika will surprise you. ### TAKING OUT INSURANCE

Over in Collingsworth county, three men who know good Jerseys have been listing up the dairy cow needs of the county—taking orders—and have left for sections of the state where cows can be had. They will distribute the cows when they get back with them, and the farmers who will receive them, will be in much safer condition to withstand any unfavorable conditions that they may be forced to face next year.

It is very noticeable this year that the farmers who have surplus money to invest are those who have very largely paid their living expenses during the past crop year with cream, eggs and poultry. Newspapers have urged this kind of program, not out of the experience of the editors, for most of them know very little about farming, but because the nature of their work calls to their attention the underlying reasons for prosperity in all industries. They are just as quick to point out to local business men the proven methods of successful city building as they are to point to the best methods of soil building.

The men who know most about cotton farming are the men who insist that the cotton grower can not afford to confine his attention to cotton alone. Childress county has made notable progress in truly diversified farming. By the term is meant the production first, of the family living; second, of as much livestock to consume the corn and grain sorghums grown as can be economically handled; third, the production of as much cotton as the foregoing program will allow on the farm. How much of each is a problem for each farmer to solve for himself by trial.

Getting in better shape to pursue such a plan next year is equivalent to taking out farm insurance—insurance against the hard conditions that experience teaches us will surely face us again, if not next year, then in a later year. The law of averages assures us that the hard years prepare for money shortage. Buy a few cows, good ones. Get a separator. Build a better cow barn, if one is needed. Take out some farming insurance! Childress Post.

business sacrificed to clear its debts, yet his estate is still \$20,000

Tom King had seen it coming. The community had hit him with collections impossible to pay his debts in full. To sell out at a price which would leave nothing for him, was bad. But not as bad as bankruptcy and honest debts unpaid. He had sold.

"Nothing left," he mused, "nothing but youth and health... and yes! By George!... \$20,000 in good sound Life Insurance! Why Man!" he said, as the lightning flash of an idea dawned. "Why Man! I'm still worth \$20,000. I can get a job... earn a living... start all over again... and win."

Tom's shoulders squared... head went up... fighting jaw went out. With the old confident stride he went home to his waiting wife... and together they planned the "come-back."

**A**NOTHER YEAR... nine years to be exact... have passed since that unforgettable day when the World, torn and bleeding by strife, once again breathed the air of Peace. The foe that had threatened its Freedom... who had violated all the sacred tenets of Humanity... lay crushed on the battlefield never, let us hope, to rise again.

**N**ATURE'S soothing hand has brushed away all signs of the conflict. Fields... once barren in the ashes of War's frenzy... again are yielding the precious grain on which Man's existence depends. And in the cities, the busy hum of Industry... heralds the onward march of Progress and Prosperity. Serene, indeed is the scene.

Yet, Time can never obliterate the Sincere Gratitude in our hearts for those of our World war Heroes who made the Supreme Sacrifice in defense of our Happiness and Welfare. In reverence to their memory and in honor to their buddies who survived the Greatest Crusade of all time in Humanity's behalf...

### BAPTIST CHURCH

The pastor and members of the Baptist Church join the other churches and good people of Memphis in voting heartily for the return of Brothos C. E. Jameson to the Methodist church for another year. Brother Jameson has done a good work not only in his church, but in all of our town. He is loved and respected by all of our citizenship. We congratulate him and his good church upon the three harmonious years they have had together. It is our sincere wish that the Jameson family will be in Memphis for another year.

Our State Baptist convention convenes in Wichita Falls next week. We are anxious that a goodly number of our people shall take advantage of the proximity of the convention and go. Indications are that we shall be able to make the best report of our State and Southern work that we have made for some time.

Let all of us be in our places next Sunday. Last Sunday was a good day with five additions. Let other Baptists of the town come next Sunday prepared to join our church. We cordially invite you to do so. Friends and visitors are always welcome.

### AVERAGE PRICE EGGS LOWEST IN MONTH OF APRIL

The department of agriculture has kept a record of average monthly farm prices of eggs from 1910 to 1924 and finds that the price is lowest in the month of April, remains fairly steady until July, and then begins to increase until December, although through January the price still remains at a fairly good figure. From August to January, therefore, is the season of highest prices, and if egg production is good during that period profits in egg production are increased greatly. Unfortunately, however, on most farms and on many commercial plants, it is during the fall and early winter months that the old hens are in the process of moulting and pullets have not yet commenced to lay. Thousands of farmers lose large sums of money simply because they do not hatch their pullets early enough so they will begin laying in time for the high prices during the fall and winter months. They fail to realize that pullets are almost the only source of eggs at that time of the year, because hens are sure to molt, and they may take from 30 to 90 days to go thru the complete molt.

## What is the Retail Merchants Association

You have heard about the Retail Merchants Association, but do you know exactly what it is working to accomplish and why it is in existence?

One reason for its existence is because a big percentage of the business of our county at this time is done on credit. When a new firm comes to town to start a business, Dunn & Bradstreet, Commercial Agents, send a representative to find out about them, to inquire into their financial standing and paying habits to enable them to give as correct financial rating as possible to the wholesalers and jobbers. So the Retail Merchants Association is working to get acquainted with each citizen in our trade territory, to assist him in establishing the best credit rating possible according to past paying record. Therefore, it is very necessary for each one to make a special effort to pay all bills promptly so that the Retail Merchants Association can give each one a good rating.

## LOVE PIRATES OF HAWAII PLEASE CROWD

The two-act light opera, "Love Pirates of Hawaii," presented to a crowded auditorium last Thursday evening by the Harmony club of this city, proved to be most interesting and entertaining, as well as developed the fact that Memphis has talent equal to professional singers and actors.

Praise of the opera and the participants have been heard on every hand, and so good was it that the club was requested to present it at Estelline which was done Tuesday evening.

The play was in charge of Mrs. Elmer S. Shelley as musical director, Mrs. Arris Owen as dramatic director, and Mrs. Margaret Garrott Morgan as pianist. To these people is due much of the credit for the success of the play.

Practically every member of the Harmony Club had a part in the performance, and were assisted by Omer Johnsey, Harry Delaney, Thos. E. Noel, H. J. Gore, L. B. Maddn, H. A. Jackson, Chas. R. Webster, Dr. M. McNeely, who were pirates, and Frank K. Fore, A. W. Howard, Sam Holder, and Jack Thomas, were musicians.

That Memphis has splendid musical talent, and that she has leaders and directors capable of putting on first class programs, was proven in the presentation of the "Love Pirates of Hawaii."

Mrs. Claude Johnson and Miss Helen Beard will open their gift shop at the home of Miss Beard, 620 S. Ninth street, Thursday, November 17, at 2 o'clock, to which the public is cordially invited.

FARM CREDIT IMPROVES

Federal warehousing is improving farm credits, department of agriculture specialists claim. The Federal warehouse act, they say, has already accomplished the purposes of the framers of the law. It has made sound, orderly marketing possible. It has opened new avenues to sound credit to the farmer and to others handling agricultural products.

Growers of staple crops get more credit and get better interest rates on Federal warehouse receipts than they get for receipts from warehouses which do not qualify under the act.

# 2 CARS AND OTHER PRIZES

(Continued from page 1)

for honest effort in helping to place the Democrat in every worthwhile home and office in this and adjoining counties. Credits and credits alone will win. They can not be purchased, nor can they be transferred. There is only one way to get credits and that is thru the sale of new and renewal subscriptions to the Democrat, among friends and acquaintances. Subscription sales earn credits as per the schedule outlined in the big double page advertisement in this issue. In order that there can't possibly be any "buying out" subscriptions count more in the beginning of the campaign than they will at the end and a limit of ten years is the longest a person may subscribe for the paper. Positively there will be no life-time subscriptions in the Democrat Opportunity Club and the sale of subscriptions alone will count. No advertising or anything else but subscriptions.

Because of the splendid character of the awards to be made and together with the Democrat's long standing for fair and honest dealing with the public, it is expected that the campaign will create considerable interest, not only in Memphis, but in all the surrounding towns and communities. It is believed that there will be several entries right at the start, and those folks who look at it from a business standpoint will lose no time in getting busy.

The opportunity to earn as much as \$1370 in the next six weeks effort does not come every day in the week or very often at all. Hence those folks who want to drive either that Studebaker or that Chevrolet home on the 23rd of December should get in touch at once with the Opportunity Club manager at the Democrat office.

Club members are expected to enroll from everywhere, as it makes no difference where a club member lives, as there is a separate list of awards for both the City of Memphis and the outside territory.

Club members are wanted particularly from Lakeview, Estelline, Turkey, Giles, Hedley, Newlin, Plaska, and Brice.

And there is plenty of room at the top for several live wide-

awake folks right in the City of Memphis.

### Official Judges

The Democrat positively guarantees fair and equal treatment to every one. Full co-operation on the part of the Democrat and club manager will be forthcoming at all times. In the end, the credits will be counted by a committee of local business and professional men who will have no interest in the outcome save to render a correct statement of winners. Merit alone will count.

Club members may secure their subscriptions ANYWHERE. There is no limit to the territory whatever. A Lakeview club member can go to Hedley and a Turkey participant may go to Newlin for credits. There are no restrictions of any kind.

For the convenience of contestants a supply of subscription receipt books have been printed and are now available at the Democrat office.

### How To Enter

All that is necessary to become a full-fledged contestant is to fill out and mail or bring your "Entry Blank," good for 2,000 credits, to the Club Manager at the Democrat office. There is no entry fee of any kind charged. In order to assist each and every club member get a flying start, a coupon of good for 10,000 extra credits, a copy of which appears elsewhere in this paper, may be turned in with the FIRST subscription a club member receives. Thus, by bringing in your "Entry Blank," "First Subscription Coupon" and a year's subscription a club member can start right off with a grand total of 14,000. It figures up this way:

Entry Credits	2,000
First Sub. credits	10,000
Regular credits, year's sub.	2,000
Total	14,000

After that credits will be issued only according to the published schedule. Also, only one entry blank and one first subscription coupon will be credited to any one club member.

The entire campaign, from start to finish, will be operated on a purely business basis, with an auditing system the equal for accuracy of any bank in the country.

### See Club Manager

Entrants should get in touch with the manager at once. Beginning Friday, he will be at the Democrat office each day from 9:00 a. m. until 8:00 p. m. and will assist club members in getting started, furnishing free subscription receipt books, supplies, information, etc. The telephone number of the Democrat is 15. You can get full details over the telephone if you wish, but the best way is to come right down to the office and have a pow-wow with the manager. Get everything started right at the beginning.

Be sure to bring your entry blank with you. There is one in today's paper. Hunt it up, clip it out and bring it in. Nobody has any credits yet, and your opportunity to win is just as good as the other fellow's right now.

### Enter Now

Those who start first naturally have the advantage. Remember the old one about the early bird and the worm. Be an early bird!

Now then—

### JUSTICE MARRIES FIVE COUPLES IN THREE DAYS

Justice R. N. Gillis is about the "marrinest squire" in these parts and here is the proof of the statement:

Early Sunday morning he was called upon to marry George Hanagan and Miss Alice Lee Warden. Sunday afternoon he was called to marry B. L. Brackeen and Miss Susie Farrett.

A double wedding Monday was officiated by the marrying justice when Riley C. canter and Miss Pauline Bain, and Joe C. Bain and Miss Vera Glover were married.

Tuesday he married Ollie Myers and Miss Tillie Elliott.

If any other town has a squire who can beat this record let him be trotted out.

A letter from F. E. Anderson states he has bought a grocery store at Plainview, and that he likes that town very much, as it is a town very much like Memphis. He sent the price of a subscription to the Democrat in order to keep up with his Memphis friends.

R. E. Stroup returned Wednesday morning from a visit with his brother in Seattle, Washington, and a hunt for big game in Canada. He went by boat from San Francisco and reports a very interesting trip. He says he didn't kill a bear this time but was close enough to hear them fighting.

### SWANS MATE FOR LIFE

One life and one love is the rule with swans. These beautiful wild birds are sometimes bred and reared in captivity, and the experts of the department of agriculture tell of their monogamous habits in advice to prospective breeders. "Swans are slow to mate," they say "and remain mated permanently. The only satisfactory way to buy them, therefore, is in guaranteed mated pairs. Under normal circumstances never separate the birds of a pair."

### DANGER SIGNALS ON LIFE'S HIGHWAY

The individual who fails to heed Nature's danger signals, is as sure to encounter trouble, as the motorist who disregards the highway danger signs, and overturns his car in the ditch, warns Dr. J. C. Anderson, state health officer. "The swift pace at which the public now travels in the fight for existence, and the pleasure and comforts of life, tends to lower the resistance power of the human system rapidly, causing heart, kidney and digestive disturbances," Dr. Anderson stated. "The discomforts arising from these disturbances are Nature's danger signals and should be heeded. Disregard them, and you are likely to find yourself in a serious condition, just as the motorist who fails to heed the roadway danger sign. After a person reaches middle life, it is not as easy for the human system to "build up" as it is when younger, and it behooves every one to heed the first warning signals after starting down life's gradual decline.

"Pain is a danger signal that nearly every individual will heed, but in a number of serious ailments, pain occurs only after serious damage is done to some important organ of the body. Especially is this true in the case of heart disease. For this reason, any unusual discomfort that continues over any length of time should not be disregarded, but measures should be taken to ascertain the cause. Do not wait until pain occurs before consulting your physician.

"Headache, rheumatism, neuralgia, and other ailments are not classified as 'diseases,' but are symptoms of some disorder. The individual is wise who goes to his physician to determine the cause of these danger signals. The important organs of your body can not be replaced after worn out. Heed Nature's signals, and prevent irreparable damage."

Transportation, speed with the least effort is the problem that frons the people today.

Some use roller skates. Some run and several youths have taken to flying.

But our suggestion to anyone who wants speed with satisfaction is to buy one of our GOOD USED CARS.
